## MONTREAL GAS.

# NEW YORK EXCHANGE.

NEW YORK CON. GAS OPENS FIVE CENTS DOWN BREAKS FOUR MORE AND REACTS 51.

GENERAL MARKET OPENS STR NG.

GRANGERS STEADY, CLOSE IN DEMAND.

New York, Aug. 22. 3

Considerable di-position was manifested at the opening to buy stocks notwithstanding the late advance. The Grangers were the most in demand and were largely dealt in, on any breaks they were eagerly snapped up. Consolidated gas was the feature of the day, it opened down 5\(\frac{1}{4}\) at 189\(\frac{4}{4}\) sold as low as 185\(\frac{1}{2}\) and immediately reacted to 191. Sugar, Peoples Gas and Tobacco all had their up's and downs, but with the rest of the list close standly. with the rest of the list close steadly.

#### MORNING OPINION.

New York, Aug. 22. The most distinctive feature of Friday's stock market, was an effort by the traders to clean up before leaving the Street. They started to do so as soon as they heard that there was a possibility of an adjournment of the Stock Exchange from Friday until Monday.

The day's movements satisfied most of the operators that it was much

easier to put prices up than down.

There were fewer features worthy of special notice than in the few days previous.

The Grangers easily held their place as the market's leaders, and the Burlington & Quincy seemed especially attractive, as a 6 per cent. stock, to the average buyer.

There is generally, at least of group of stocks, which behaves in at least one disappointing way in a Bull market, and this time it is the Gould group.

Single rumors began to fly around as to who was selling all the Manhattan that came on to the market at declining prices. It has been impossible to get up any enthusiasm on the large side of any of the Gould properties, though some of them would seem to be as well situated, for the beginning of Bullish manipulation or investment buying, as the case may be, as any issues in the active list.

Manhattan has had so hard a knock that it is not to be expected that will attract much investment buying, pending the determination of certain facts as to the earnings.

## LONDON MARKET.

The London market this morning displays considerable irregularity, but not particularly interesting features. St. Paul is off 1-8 in price, Louisville & Nashville showing an advance

Other active issues are at, or around New York parity.

The London market was closed on Saturday, and prices there this morning are not up to the advances of internationally listed stocks in Satur-

day's market. St. Paul sold near 113, Northern Pacific Common reached 38.

## ST. PAUL.

There is still a good deal of Bull talk on St. Paul, and the tip is out that it will sell at 115 this week. there has been very confident buying on this stock, by people who are said to be close to the inside, and this buying is thought to foreshadow an increase in the control of the control o increase in the dividend rate.

The earnings of the road have recently been very large, and there seems to be no reason why they should not follow the lead on the Burlington and Quincy management.

## TENNESSEE COAL AND IRON.

Among the most active industries, are all branches of Iron manufacture, and there has been considerable Bull talk on Tennessee Coal and Iron recently, the last published statement of the company being very satisfactory and showing large returns.

## MARKET REACTIONARY.

It is generally believed that the Stock market is entitled to a sharp reaction. Brokers are carrying more stocks than they should, and the public has bought all the stocks they can at present. The market generally seems to be booked for a series of re-

## STEEL AND IRON.

On account of the announcement that Steel and Minnesota Iron properties would be mortgaged, these two properties were subjected to very violent fluctuations. In Minnesota Iron, the bulk of the buy-ing seemed to be by brokers operating for Messrs. Flower & Co.
