THE LADY OF ERIN.

THE BEACON LIGHT OF IRISH WOMEN.

saint Brigid the Light of Lefnster and Pearl of Kildare-Sollie Records of the Famous Irish Saint.

It is hard to realize the lives of persons who inhabit countries remote from our who is it is harder still, perhaps, in the own; it is matter settly, permaps, in the from ourselves by long lapse of ages.

For we think it no wonder that we do

not understand the ways of foreigners,
but find it strange indeed that those whose blood, language, and religion we inherit should yet differ so widely from ourselves in manners and customs. Hence the difficulty of interesting readers, city readers especially, in the life and times of the saint whose merits lintend briefly to set forth in this paper. Country folk lead a less artificial existence and hence have a quicker appreall to place the Celtic virgin and take in her surroundings if they will bear in mind that the Irish people of thirteen hundred years ago bore a great resemblance to the inhabitants of Palestine as we know them from Bible history. tained kings, they may picture to themand eighteen followers defeated in a night attack offenesis xiv (3); when we et before them our heroine engaged in scattered domestic danies, let them assist their maginations with the delightful account pected in times when the tribal system

CONSTANTIA AT WAR with his neighbors, and maintained himself by robbing those who were weaker thanhe was. In such a state of things the proper cuitivation of the soil became impossible, commerce was at a standstill, and therefore not only war stalked abroad, but slavery, misery, disorder, and disease existed in a degree not exeeded perhaps even in the modern history of that beautiful but most unhappy country. With this preamble, I proceed to give my readers what I have very sparingly gleaned out of Father (Haulon's history of the great womanburning at for heaven. St. Bright is, among the Inshithe the second ideal of consecrated virginity, just as St. Patrick of the clerical state, and St. Columba of the monasever not in Eric alone, and in Caledonia and Britain. 1911 throughout Western Europe, and especially in Belgium and Germany, whither Irish missionaries had carried her tames. Her office was recited in those countries, and she had great

But they pray with their residence, so that travellers arriving night or day might have a fire to sit down by and warm and rest themselves. You have read the poet's allusion to this

IN THE SONG: Like the bright fire that blazed in Kildare's holy fane. And burned through long ages of darkness and

rain. Erin. O Erin! thus bright through the tears Of a long night of bondage thy spirit appears. This hospitable fire, whose brightness shining across the Currach invited the weary traveller to shelter and warmth, was kept up during St. Brivid's life and escaped extinction. The country people took care not to let it go out until the scattered naws came again together, and thus it was tended not alone for its sacred purpose of hospitality, but also in memory of the Mistress of rollin, Light the year 1220, after the conquest that how gentleman now says was a majority the popular reverence for the holy fire,

TINALLY EXTINGUISHED.

This was so ven hundred years after our 1,523. It is no wonder that this fire was proposed to her seven compnious that each should choose one virtue for special cultivation. She was very modest hetself ther insisted that should lead. Whereupou she chose the virtue of Mercy, and

lefended them against those who could lepers, but for yourself and your nuns." The saint rebuked her for her want of charity, and said: "Your trees shall never bear fruit again "-which prediclepers came along covered with their frightful sores. The holy virgin blessed water and bade one of them wash the other. He did so, and behold! the washed one became sound and whole. "Now wash your comrade," she said to him that had been cured. He would not, and was going away, but the saint herself washed the second poor wretch, and rid him of his loathsome, disease, God working by her hands, while the selfish and ingrateful man got his malady back igain. As I have said, the lepers someimes abused her kindness. At one time the King of Leinster visited the convent and was entertained by the nuns. After his departure Bright and her sisters sat down to their own dinner with whatever poor persons were present. One of these a leper, refused to eat unless he got the pear which he had seen the king carry. Briyid actually sent a messenger after the king, who, out of respect for her, readily bestowed the weapon. Meanwhile the holy abbess kept the dinner waiting, and at last, on the return of her messenger, the troublesome leper received the spear and

CONSENTED TO EAT.

when they all sat down again together. "The just man is kind even to his beasts," says the Holy Bible (Proverbs says the Holy Bible (Proverbs xii. 10). So Briyid, like so many other saints, could not bear to see even a brute suffer, and one day, getting ready some bacon for certain guests, gave half of it to a poor dog that came hungry and whining to her feet. The legend tells us that still there was meat in plenty for the table, God miraculously supplying the want, and approving her tenderness of heart. Says the poet:

" He prayeth well who loveth well Both man and bird and beast; He prayeth best who loveth best All things, both great and small, For the great food our Father, He made and loves them all." (Continued on eighth page.)

How unaccountably evanescent are our frames of mind-as various as the forms and hues of the summer clouds. A single word is sometimes enough to Ein there are many holy wells named all but the reckoning, and their monas- give an entirely new mould to our lubber Breeda, to which people go to tery was known to all the country around thoughts.

HOUSE OF COMMONS.

SPEECH OF MR. J. J. CURRAN, M.P.

On the Vote of Non-Confidence propose by Hon. Mr. Laurier-A Masterly Reply to the Leader of the Opposition.

Mr. Curran, who was greeted with loud

cheers, said :— Mr. Speaker. The hon, gentleman who has just taken his seat closed his remarks with one of these prophecies which we have heard on so many occasions from the other side of the House, namely, if we could only have this House dissolved once more that would be the end of the Conservative party. It is not the first time that we have heard speeches of that kind not only in this House but throughout the length and breadth of the land. In fact, gentlemen on the other side have on more than one occasion deceived themselves to the extent that even after a general election was all over, and when we had what the

of 50, they claimed for themselves a majority of the (Laughter). I do not intend to follow the non. gentleman in that portion of his speech. He opened his remarks, however, by stating that the hon. Minister of Inland Revenue had, in the course of the few observations that he had addressed to this saint's death, which took place February House, sought to make capital out of the memory of the late great leader of held in veneration, for the hospitality to the rich and the kindness to the poor which it witnessed were indeed akin to organize the memory of the late great leader of the Conservative party. There is no need for any man who has followed that organize leader in the past to seek and make

IV IS INSPIRING not only his followers, but it has extendand would have the others begin, but edits beneficient influence through every rhass of the people of the Dominion of Canada, and that memory is held sacred not merely by those who followed him, by the great majority of the people of the Dominion of money he receives as his salary, which he force in American waters will in future be larger than at any time since the civil war. It has been constantly increasing until now it has assumed formidable are surprised at the novelty, they may name is invoked. Even now the stranger this is, perhaps, the most conspicious him, by those who followed have how this was naturally to be existenced in Erin is restoring the ancient cathedral trait in her character. St. Brivid by her prayers, sometimes and that he mu som ins some is some this party, which i mavescooley complete the latter to since; and, Sir, if there is one thing that makes a man feel the hollowness of the on the other side went so far as to say stand less than herself. One day a woman that even if Mr. Abbott still held that brought her a present of apples. While stock he would respect him more than they were talking some lepers came because he disposed of it. We all know up asking alms Briyid bade the woman divide the fruit among them. "Indeed, then, I will not," said the lis connection with the Canadian Pacific his connection with the Canadian Pacific woman, I brought these apples not for Railway as its solicitor. Four years ago when he was asked by the citizens of Montreal to become the first magistrate of that city, he then resigned his position as solicitor of that company, the tion was verified. Another time two benefits of which amounted to something like \$1 ,000 a year, and

DEVOTED HIS TIME.

and energy, and talents to the service of that great city and all that concerned its prosperity; and after having occupied that position for two years, by the un-animous consent of the whole of his fellow-citizens, every man whether French or English, Catholic or Protestant, holding up his hands for him, he once more assumed that honourable position. He finally retired from it, though solicited name of French Canadianism, and who by everyone of his fellow-citizens to continue to occupy it. Yet we are told that | tation into the mire. (Cheers.) I shall he only resigned that solicitorship to accept the high position he now holds. Sir. this is on a par with all the charges made in this debate. But I wish to say that I extremely regret that my hon. friend the whip on the other side should have by any act of his interrupted the eloquent speech of the hon, member for Ottawa County (Mr. Devlin). Certainly that hon, gentleman did not stand up merely for the purpose of telling us some-thing about the battle on the Plains of Abraham. My hon, friend certainly did not stand up to give us once more the quotation from the speech of the hon. member for North Simcoe (Mr. McCarthy). He would probably have made still further quotations, and possibly. as an antidote to that quotation, or to counlize the case, knowing the hon, gentleman as I do to be a man of fair-play. he certainly would have offered this House something from the hon. gentleman who sits on his own side, the hon. member for North Norfolk (Mr. Charlton) who has distinguished himself on many and many a platform in the admirable essays he has delivered, and the eloquent efforts he has made on exactly the same ines as the hon, member for North Simcoe. So that, if we have certain gentlemen on this side of the House who entertain views that are extremely distasteful to my hon, friend, let him if he desires to undertake a propaganda, begin where he is likely to be succesful, among his own friends on his own side of thu House; and

AFTER HE HAS CONVERTED those who are there walking the path of error, then it will be time enough for

him to come over here and endeavour to convert those whom I and others have not yet succeeded in converting on this side of the House (cheers). Now, that main object of the motion we are now debating is, as has already been said, to cause a feeling of discontent, to create disunion among a people who have chosen Canada as their as their home. I say so advisedly. I do not hesitate to state that the motion which is brought here to-day has no other purpose than that of creating in the minds of the Catholic people throughout the Dominon the belief that the hon. Minister of Justice was deprived of the position of Prime Minister of Canada on account of his religious. persuasion. That has been stated here openly, that it might go abroad among the co-religionists of that hon, gentlemen; but I am here to state that I am convicted from my inmost soul that there is not one word of truth in the charge (cheers). There is not one man in this House who mingles more among all section of the members, or who is more intimate with the members on the Conservative side of this Chamber than I um, and I can truthfully say that from one and all, from the moment that the great chieftain was laid low, from the moment the old grand man has passed away, there was

BUT ONE CRY,

but one sentiment, but one motto in the mouths of the members of that party—"We will treasure his memory, we will women in every position in life. Of the tame of St. Briyid at the present day it is not necessary to speak. The children of the Gael, like those of Israel, have been of the Gael, like those of Israel, have been on the continued at the second of the Gael, like those of Israel, have been on the continued at the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the second of the Gael, like those of Israel, have been one day listening to a sermon on the name of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael, like those of Israel, have been one of the Gael and the Israel of Israel, have been one of the Gael and the Israel of Israel slighted, or if he felt for one instant that an attempt was being made to insult his re-ligionists who kneel before the same altar, would consent for one instant longer to occupy a seat in this Government (cheers). Those hon, gentlemen talk about the esteem in which they hold the hon. Minister of Juctice, his great learning, his magnificent career; and still they would have the people of Canada believe, from what is now proceeding in this House, that the hon. Minister of Justice is so craven hearted, so meanspirited, as to continue to occupy the ter of Public Works. I am an old friend

makes a man feel the hollowness of the pretensions of hon, gentlemen opposite, it is when they pretend to commiserate that hon, gentleman whose reputation they have sought to drag into the mire. whom they have held up as one not fit o occupy the position of Minister of Public Works of this counry. A few short evenings ago in this House, they clamoured and clamoured that he should resign the position he holds. Such conduct was unworthy of parliamentary institutions, and, Mr. Speaker, I am sorry to say that amongst those who now talk about insults offered to Catholies and to French Canadians, are the men who should have stood up then for the French Canadians. (Hear, hear.) I admired the honorable minister then; I believed in his purity then; I believe in his honesty and purity now; and all I have to say is that, if he is not the Premier of the Dominion, he has not so much to thank perhaps those who do not belong to his race as the men who are now raising a clamour in the were the first to drag his name and repunot say anything more upon that subject now, but will go back a little to the

HISTORY OF THE PAST. The hon, minister who spoke a few moments ago, told us something of that history, more particularly connected with his own Province, and he showed now those hon, gentlemen who are so loudmouthed in their liberality while in opposition, were equally scant of their liberality when in power. But I would like to ask, not merely with regard to one Province, but the whole Dominion. what has been the conduct of the Liberal party in the past? Who first raised in this new land the cry of bigotry and fanaticism? Who first strove to hunt down in the Province of Ontario, the poor Catholics who to-day have so much sympathy from hon, gentlemen opposite? Do we not remember the efforts of the late Hon. George Brown, month after month and year after year? Do we not remember how our late leader had to veteran statesman may not recover from fight him and the bigotry and the fanaticism which he sought to excite in the hearts of the people over whom he had influence? Had we not the testimony delivered only the other day in the Senate by the Hon. Mr. Scott, the leader of the Opposition there, that if the Catholic people of Ontario have any rights and privileges to-day, they owe them to the Right Hon. Sir John Macdonald and the party he led? (Prolonged cheering.) But it is not merely in Ontario that we have seen this state in width and four inches in depth. of things. Let us go down by the sea.

(Continued on fifth page.)

NAVAL CHANGES

in the state of th

The British Navy on this side the Atlantic to have some Modern Ships.

New York, June 25.—The Herald, in reference to the periodical maraly changes on the British Naval Station in North America, writes:—The British, warships Hercules, Sirius and Spartan, have been ordered on duty on the North American coast. The Hercules is one of England's largest ironclads. The Sirius and Spartan are two of her fastestar cruisers. The orders referring to the above mentioned vessels follow a series of recent British naval orders which have caused it to be observed in American naval circles that Great Britain is quietly replacing all her ships now on the American coast by the most powerful war vessels she can spare. The Hercules relieves the flagship Bellerophoff, and the Sirius and Spartan relieve the Emerald and Comus, both inferior ships. The Hercules brings out from England Vice-Admiral Hopkins. This officer will command all British warships now in or ordered to American waters. Two additional oruisers have been selected to relieve the gunboats Ready and Thrush, An armored cruiser will relieve the stand by his policy, we will keep up the Tourmaline. It is declared in well-informtraditions of his party, and as one man we will support whomsoever His Excellency sends for." That was the soutiment felt in every true Canadian heart, and expressed by the lips of every will send over vessels to increase the fleet member of this result. in American waters in proportion to the growth of the new navy of the United States. With the possible exception of Catholic people of the Dominion with regard to a gentleman who, everyone knows, is losing double the amount of warships now in commission. The British proportions. Besides increasing her naval force, Great Britain during the past three years has increased by one-half the strength of her troops in the West Indies.

PARNELL AND MRS. O'SHEA.

Another Phase of a Disgraceful Affair.

LONDON, June 25 .- The marriage of Mr. Parnell and Mrs. O'Shea took place at 10 C'olock this morning. The only witnesses to the ceremony were the two servants from Mrs. O'Shea's house at Walsingham position he does, after his people have been insulted and degraded as hon, gentle-strongly enjoined not to give any information about the marriage and he promised to preserve the closest secrecy.

Mr. Parnell had passed the previous evening at Walsingham terrace. An order was given to have a solitary one horse photon in readiness at six o'clock this morning instead of the usual order for horses or a carriage for exercise, as was customary when Mr. Parnell was for this party, which I have stood by ever veyance was ready Mr. Parnell and Mrs. stopping at Brighton. When the con-O'Shea entered the phæton and orders were given to the coachman to drive to the westward. After the party had left Brighton behind them the driver was directed to preceed to Steyning by a circuitous route. Steyning was reached at nine c'clock, at which time a heavy rain was falling. Upon entering the town Mrs. O'Shea, who was familiar with the place, relieved the coachman of the ribbons and drove direct to the registrar's office herself. Mr. Parnell was dressed in dark clothes. He appeared to be well and in cheerful spirits, occasionally threw nervous glances around him, apparently being somewhat anxious lest the wedding party be observed. Mrs. O'Shea was also in dark attire and wore a pink trimmed bonnet. She, too, was good spirits and was very vivacious before and after the ceremony. It is announced that a second and religious marriage will take place in London immediately so as to "satisfy the catholics" sic.) Parnell himself procured the special license Tuesday, setting forth that the marriage would occur within three months. He begged the registrar to do the utmost within his legal rights to keep the marriage secret. Mrs. Parnell was seen at Walsingham terrace to-night. She said she and Mr. Parnell were married this morning, but she declined to have the ceremony performed in a church in London, there having been difficulty in connection with the license.

Not Acceptable.

VANCOUVER, B. C., June 25.—Jay Ewing, American consul here, has resigned, recommending as his successor Henry R. Harris, of Washington State. In an interview Ewing said this action on hispart was caused by the hostility aroused over his anti-British proclivities.

Mr. Gladstone's Sickness

LONDON, June 25 .- The St. James's Gazette says Mr. Gladstone's friends are seriously alarmed at the state of his health. Sir Andrew Clarke, Mr. Gladstone's chief physician, fears that the he effects of the attack of influenza from which he suffered this spring.

Mr. Gladstone has gone to Lowestoft, a.

seaport town, for the purpose of recruiting his health.

"I want ally-money," said the wife of A wise man's day is worth a fool's life. him for divorce.

The Holy Father in his recent Encyclical, referring to the labor question,

But all agree, and there can be no question whatever, that some remedy must be found, and quickly found, for the misery and wretchedness which press so heavily at this moment on the large majority of the very poor. The ancient workmen's Guilds were destroyed in the last century, and no other organization took their place. Public institutions and the laws have repudiated the ancient religion. Hence by degrees it has come to pass that working men have been given over, isolated and defenceless, to callousness of employers and the greed of unrestrained competition. The evil has been increased by rapacious usury, which, although more than once condemned by the Church, is nevertheless, under a different form but with the same guilt, still practiced by avaricious and grasping men. And to this must be added the custom of working by contract, and the concentration of so many branches of trade in the hands of a few individuals, so that a small number of therefore, should favor ownership, and its policy should be to induce as many upon the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the masses of the poor a yoke little of the people as possible to become the people as possible to become the people as possible to be the people as better than slavery itself. THE SOCIALISTS.

To remedy these evils the Socialists, working on the poor man's envy of the rich, endeavor to destroy private property and maintain that individual possessions should become the common property of all, to be administered by the State or by municipal bodies. They hold that, by thus transferring property from private persons to the community, the present evil state of things will be set to rights, because each citizen will then have his equal share of whatever there is to enjoy. But their proposals are so clearly futile for all practical purposes, that if they were carried out the working man himself would be among the first to suffer. Moreover they are emphatically unjust, because they would rob the lawful possessor, bring the State into a sphere that is not its own, and cause complete confusion in the community.

DANGEROUS ELEMENTS.

Here, however, it will be advisable to advert expressly to one or two of the more important details. It must be borne in mind that the chief thing to be secured is the safe-guarding, by legal enactment and policy, of private property. Most of all is it essential, in these times of covetous greed, to keep the multitude within the line of duty; for if all may justly strive to better their condition, yet neither justice nor the common good allows any one to seize that which belongs to another, or, under the pretext of futile and ridiculous equality, to lay hands on other people's fortunes. It is most true that by far the largest part of the people who work prefer to improve themselves by honest labor rather than by doing wrong to others. But there are not a few who are imbued with bad principles and are anxious for revolutionary change, and whose great purpose it is to stir up turnult and bring about a policy of violence. The authority of the State should intervene to put restraint upon

humanity so to grind men down with ex- | working tervals of rest should be, will depend on same spream a smaller percentage of number of recepous, recommendation of the work, on circumstances sickness and death than those who drink, donias. The names of patriots are multiplied in the Washington, Adams, Jefferdams and on the health and be it ever so moderately. of time and place, and on the health and be it ever so moderately.

Strength of the workman. Those who labor in mines and quarries, and in work within the bowels of the earth, should that alcohol in some cases proves benefities, either and towns, that have been setting and the constitution of the constitu them in workshops and factories until sens all nervens force and vigor." their bodies and ininds are sufficiently mature. For just as rough weather destroys the buds of spring, so too early an experience of life's hard work blights an experience of life's hard work blights headache is very disagreeable. Take two the young promise of a child's powers, of Carter's Little Liver Pilis before retired and makes any real education impossible. ing. and you will find relief. They never! Women, again, are not suited to certain fail to do good. trades; for a woman is by nature fitted for home work, and it is that which is best adapted at once to preserve her, the family. As a general principle it may be laid down that a workman ought the cessation of work.

PRIVATE OWNERSHIP.

the civil laws—aws which, as long as the industry of our people can have fair they are just, derive their binding force play, and I predict that in the coming from the law of nature. The authority of the Divine Law adds its sanction, for-bidding us in the gravest terms even to This thriving oasis in the industrial desert

covet that which is another's:-" Thou shalt not covet thy neighbor's wife; nor is the creation of the enterprise of the his house, nor his field, nor his man-servant, nor his maid-servant, nor his aided by the engineering skill of a wellox, nor his ass, nor enything which is

his" (Deuteronomy v 21).

Thus it is clear that the main tenet of Socialism, the community of goods, must be utterly rejected; for it would injure those whom it is intended to benefit, it would be contrary to the natural rights Grace the Archbishop of Cashel," he ob-of mankind, and it would introduce con-served, "said the other day that Home fusion and disorder into the common wealth. Our first and most fundamental principle, therefore, when we undertake to alleviate the condition of the masses, must be inviolability of private property. This laid down, We go on to show where we must find the remedy that we

SOLUTION OF THE QUESTION.

If a workman's wages be sufficient to enable him to maintain himself, his wife and his children in reasonable comfort, he will not find it difficult, if he is a sensible man, to study economy, and he will not fail, by cutting down expenses, to put by a little property; nature and reason would urge him to this. We have seen that this great Labor question cannot be solved except by assuming as a principle that private ownership must be held sacred and inviolable. The law, owners.

For Many Years.

INSPIRATION OF IRISH MUSIC.

Memories Awakened on the Occasion of Moore's Anniversary.

Dear harp of my country, in darkness I found The cold chain of silence had hung o'er thee long."

The one hundred and twelfth annivereary of the birth of "The Bard of Erin," Thomas Moore, by the Philo-Celtic Scciety of New York, at Nilson Hall, 134 East Fifteenth street, Wednesday evening, May 27th, was a great musical and patriotic event.

Of the many luminous minds which coveries were honored with the names lit the gloomy atmosphere of long-suffer-of saints—St. Lawrence, St. Sebastian, ing and persecuted Iretand there was St. Lucas and a host of others. The none of her sons, during her centuries of Holy Saviour is acknowledged in San bondage, whose charm of wit and wealth her race at home and abroad to bear America, throughout Canada and in that aloft the national ensign "in dark and part of the United States originally evil days," and keep an organized vigil for an opportunity to shake off her yoke, as did the immortal melodies of Moore.

It is not for want of example and inspiration from their early history and bards that the Irish race have not regained their independence. It is for want of unity of thought and action.

Some too slow and some too rapid, Some too timid, some too bold

No such diversity of opinion exists in another race. Some for weeping some for praying and begging from heartless oppressors who have always been united, rich and poor alike, in exterminating

'Forget not our wounded companions, who

stood In the day of distress by our side;
When the most of the valley grew red with their blood,
They stirred not, but conquered and died."

"But onward! the green banner rearing, Go, flesh every sword to the hilt, On our side is Virtue and Erin, On their's is the Saxon and guilt."

But, alas! it is the sword of the oppressor which is always to the hilt among the oppressed, who are yet too scruputhat could not be, but in praying and begging, and forgetting the true path

" Where is the slave so lowly. Condemned to chains unholy. Who would not burst His bonds at first, But pine beneath them slowly."

the companion of Robert Emmet, who applicable in all cases.

We are pleased to note that the orator on this occasion is that eminent jurist and distinguished orator. Hon, John W. imbued with the spirit of Moore and Mr. Goff, and no better one can interpret the spirit and history of Moore than he can who is as willing to sacrifice and incrative office to uphold a principle in the interest of the republic, as he is to plead the cause of his native land and rebuke those who, under the guise of patriotism, would sell and barter national interests for mercenary motives. With such an orator and such a truly orthodox Irish programme of music and melody as the Philo Celtic Irish Society can prepare, Nison Hall, it it was as large as Madison Square, should be overflowing with the exiled children of the Gael.—

N.Y. Workly Union.

CHEMISTRY

As It Bears upon the Events of Every Day Occurence.

The average person has no notion of the real scope an, functions of the science of chemistry beyond a hazy impression that medical practitioners have mastered its theory, and druggists its practice. The greater portion look upon it as alchemistry was looked upon in the time of Geber: that is, as a very mysterious science and a difficult subject to understand. But undoubtedly if they would pry into some text-book they would soon be convinced of the opposite and would not only gain a little every time they applied their mind to such a book, but would be encouraged to pursue the subject to its almost futhomless double. East on the subject to the subje depths. Few are they who know what air really is, and the reason why we breathe it. They do not know that we breathe the air for the oxygen contained in it, and the gases expelled from the lungs are not of the same nature as those taken into them, and by breathing

of Ireland, overrun by flocks and herds, and significace, as well as early associal air we deprive it of its vital principle oxygen. If they did perhaps the masses would be healthier in general. Chemis to be given to the child who, beginning listry is that which teaches this, and it teaches the why and the wherefore of all these various necessaries of life. It teaches the farmer, who is acquainted with the elements of agricultural chemistry, the modes of the application of artificial manures and the numerous other practices employed in tilling the soil. It teaches him that when brine is applied to the soil that sorrel and all other ruinous grasses are banished from the old pasture, and that good crops ripen the old pasture, and that good crops ripen where formerly they languished and Gray, Chemist, 122 St. Lawrence street, Manurell. yielded scanty returns. He learns that that those waters which are "hard" contain salts in solution and are good for tain salts in solution and are good for bis animals, and those which are "soft." DR. J. M. FERRIS are devoid of these salts, and he will

know how to remedy the difficulty.

Of what great advantage would a limited knowledge of chemistry be to a housewife whose daily cares demand frequent application of this science. She would learn to expose her plants to the sun for a portion of each day in order to promote their growth and to purify the atmosphere of the room in which they are kept. It would be of boundless benefit to her in the kitchen where she frequently comes in contact with chemical changes—as, for instance, in the making of tea and coffee—to add while they are boiling a little carbonate of soda which would greatly improve the taste and make them a much more nutrient drink. It is chemistry that tells us that our learning to the species of the sun o food ought to contain a due admixture of animal and vegetable substances in which the proportions of the three most important constituents, fat, starch or sugar and gluten, or some other fleshforming nutrient, are present in properly adjusted preparations, and that the substance if not naturally liquid must be intimately mixed with a large quantity of water before it is introduced into the stomach. It is for these reasons that the epicure eats his pease pudding with bacon and his ham with eggs, in order that he may mix the gluten and starch of one with the fat and oil of the other, and not merely to suit his taste as is commonly supposed. Chemistry is not only beneficial to the practical side of life but is almost a necessity for those whose duty it is to theorize and reason. To look upon the laws guiding the circulation of matter and the grand scheme of nature—the conservation of matter—makes the most pessimistic of us believe that there is really a bright side to life. and the most matter-of-fact and conceited of us believe that there is a rude degree of sublimity in the curious reasoning of Hamlet when he save :

REST.

BY FATHER RYAN.

Mr feet are wearied, and my hands are

My soul oppressed—
My soul oppressed—
And I desire, what I have long desired—
Rest—only rest.

vain, In harren ways; Tis hard to sow - and never garner grain, In harvest days.

The burden of my days is hard to bear, But God knows best;
And I have prayed—but vain has been my prayer For rest—sweet rest.

Tis hard to plant in spring and never

The autumn yield; Tis hard to till, and 'tis tilled to weep O'er fruitless field.

and so I cry, a weak and human cry, So heart oppressed; and so I sigh, a weak and human sigh, For rest -- for rest.

My way was wound across the desert

Twas always so: when but a child I laid On mother's breast My wearied little head; c'en then I As now-for rest.

And I am restless still; 'twill soon be

For, down the west Life's sun is setting, and I see the shore Where I shall rest.

THE CHURCH LIBELLED.

THE CHARGE OF INTOLERANCE.

An Open Bible" - Royal Supremacy -The Church and Private Judg-

Church for at the circulation of mutilatof Protestant Persions of Scripture among the faithful. I have read their words of combination in histories, encyclopedias | whatsoever I have commanded you; be-But we thust one one the reformers, knowing how dear of they prized Gospel liberty. was accorpical.

SUME DESTRUBETED FREE by Bible societies. This Bible is read without note or comment. Thus the evil of James' work lives after him. Besides the absence of note or comment it has in John xxii, 21. The Book says that Christ said: "There shall be one fold and one shepherd." That declaration is infulfilled it we consider the three lundered. droi and seven sects. The declaration is recorded in John x, 16. In the same verse He said: They shall hear My soice." Do three hundred and seven sects hearthis voice? What is mount by this voice. Is it to hear the Church or to read w book? I await three hundred and seven answers; all must be heard. Is the book reliable when privately interpreted? oook reliable when privately interpreted? Oursaviour seemed to doubt the infallible elicacy of Bible rending only. He said in St. John (v. 38, 42): "And you have not His word abiding in you: for whom He hath sent, Him you believe not. Search the Scriptures; for you think in them to have life everlasting; and the same are they that give testimony of same are they that give testimony of Meand you will not come to Me that you may have life. I receive no glory from men Review 1. men. But I know you, that you have not the love of God in you." This was II. was His opinion of these searchers of the Scripture. He ridiculed these out and out Scripture men who could not see that the Scripture gave testimony of Him. These Bible readers, the Pharisees, in the same chapter condemned Him for healing a man on the Sabbath, and in verse 18 they "sought to kill

Him," which they knew was against the fifth commandment. (Vulgate). They quoted the Scripture against Him, saying, "Search the Scriptures and see that out of Galilee a prophet riseth not." (John vii, 52). Those Bible readers, the Phariscon and Savihes Hacharond with Pharisces and Scribes, He charged with

MAKING YOLD the fourth commandment. (Mark vii, Tis hard to toil—when toil is almost 1-13). These Pharisees and Scribes were continually quoting Scripture. These Christ answered thus: "If you did be lieve Moses, you would, perhaps, believe Me also; for he wrote of Me." (John v. 46). The Pharisees were continually talking of "our holy Sabbath." accusing Christ, who was Lord of the Sabbath. 'He said to them the Sabbath was made for man, not man for the Sabbath."
(Mark ii, 27). Pharisaism still exists.
Bibliolatry and Sandayism is a remarkable feature of the sectarian schools of theology. Our Saviour named them hypocrites and whited sepulchres then; the name is still applicable. The Pharisees, the Bible readers, reading daily the prophecies concerning Christ, yet they cried crucify Him, they gave the money to Judas, they chose the robber Barabbas. Pray of what use was the holy book to St. Paul was educated by the High Priest Gamaliel, yet he did not y way was wound across the description of the grants.

And cares infest

Mr path, and through the flowing of hot tears

I pine—for rest.

Tree always so: when but a child I laid

Tree always so: when but a child I laid must be interpreted aright. The Saviour knew that His disciples, who were with Him three years, did not understand the Scriptures, and He performed a miracle in their behalf. He stood before the eleven and He said: "All things must needs be fulfilled which are written in the law of Meses, and in the prophets, and in the Psalms, concerning Me. Then He opened their understanding, that they might understand the Scriptures." (St. Luke xxiv, 33, 44, 45). This nction of the Lord Christ was opposed to the reform principle. He should, by that idiotic system, have allowed them to in-terpret for themselves. He, it seems, was fifteen centuries behind the times. Nevertheless. He established the true principle, that the Church received the power to interpret Scripture, and the Church can only interpret with authority. To the eleven He also said: "Gove there It has been hold up as a monstrous fore, and teach all nations, baptizing them come by references generally that the characteristic of the Father, and of the Son, and of the Holy Gnost; teaching them to

omions, he will be and novels, yet the bold, I am with you all days, even to Cauch was wiser than their generation. The consummation of the world." (Matt. xxvi, 16, 18, 19, 20). The power granted then to the eleven was to continue in na know -for the miselves. For diffeen their successors, for He said : I am with continues the Charles had preserved the you all days to the consummation of the Ribbeard a terracted it. From her it world. Who is a fool? One who would all English-speaking take James I's Bible without note or hask of instruction, containing sacred by the Church, who received the power lesses and scheig examples. Every to interpret, the Lord Himself remaining priestread to the people from it every with Her to the end. When our Saviour day a gospe that epistic. The Mass said; was about to ascend to the right hand of day a gos, electric equation. The Mass said daily was read a made up of prophecies and positive and the fifteen centuries made the changed among English decided positive and the fifth and the fifth made the said truth. It is come, He will tenth you all truth. I dolin xvi. 13). thereby it must now be interpreted duy did not occur to them, that the Bible was beently and against the Church. Thus to be the rule of faith; this was to be me invate interpretation was instituted, afterthought a long time after! Again The suprement of the Pope was declared. He said: The Holy Glest whom the assurped in the the supremacy of Father will send in My 1140c. He will notice sings and princes, a), teach you all things. And being all a cesses, was declared the things to your mind whatseever I shall proper thing in royal convocation. This proper thing in royal convocation. This have said to you." All this without the great concern the proper English-speaking slightest hint of a book! This that He proper only because the Proper refused to had said to them was not in Scripture, and could not be accepted if not in the Bible, according to reform ideas. (81) Infallibition of defined parties Pope, but Acide (\$1.2) . Our Saviour further said grantel to the most if iterate reformer, I will ask the Futher and He shall give shocondigues prot Scriptures to suit hims you another Paraclete, that He may solidate accord with his own theories, abbie with you forever—the Spirit of R. operates 7,000 miles of road, with terminate spirit three handred and (St. John xiv. 16, 17). Thus the Spirit is mund in Chicago. St. Louis, St. Paul, granted a wrisen, who all read King to remain to the coal. The Spirit came. Omaha, Kansas City and Denver. For omes Brick at Licont note or comment, according to Christ's promise, at Penteexplained the low saints and scholars bring to mind all that had been said to mone, ske Sts. Jerome. Athanasius and Augus, i them and abide with them forever, as the in Council. In England, Ireland, quoted above. This Spirit gave the in-Setand, Wales, Australia and the Em-terpretation to Scripture at the first counpire of Italia and fifty states and pro-vinces in America, King James' Bible is remains the same; hence, the Church is the same; hence, the Church is the same; hence, the Church is one in doctrine. These are not idle words, but full of deep, s. d interest.

"Noble Work."

It is always good evidence of a frank and sincere nature to overcome prejudice 24,000 errors that scholars admit. A so as to tell the truth, and, when the crime has been committed by the reforms wruth is told, there is but one opinion, es in setting aside the Church founded like the following: "Kansas City, Mo., U. by Christ for a book privately interpreted. S. A., November 15, 1889. Gentlemen :-The crime is continued. A book has I am proud to say that your wonderful been made the tetich of modern sectaries. remedy. KATHLEEN MAVOURNEEN.

The Authorship of this Great Melody Settled.

Mr. Crouch, whose letter tells some-thing about himself, writes to the Boston Pilot as follows concerning the authorship of the well known and touching melody named above. "In your paper you publish an article headed "Who wrote Kathleen Mayourneen?" To this inquiry I emphatically affirm that Mrs. Marion Crawford wrote it, and it first appeared in the pages of the Metropolitan Magazine, at the same time she was publishing her autobiography, and appearing in this monthly, on which periodical I was employed as musical reviewer. From Mrs. Crawford I purchased the right and permission to set it to music, which I did; sang the song, for the first time, publicly in the Royal Hotel Assembly-rooms, Plymouth, Devonshire (West of England), at a concert given by P. E. Rowe, a music trader in Bedford-street in that city, to whose wife I gave the manuscript, and for her had the song engraved by my own workmen in London, somewhere about 1829 or 1830, for doing which Mrs. Rowe paid me: the title page bearing the name of Crawford, poetess, and my name, writer of the music-the imprint as publisher, P. E. Rowe, Plymouth. After the coronation of her reign ing Majesty Queen of England, Rowe of Plymouth (the music-seller), failed, and D'Almaine, of Soho-square, London, being principal creditor, Rowe's assets came into their hands, including the plates of 'Kathleen Mayourneen' (engraved by my workmen originally, as above stated. At the time of removal of Rowe's stock from Devonshire to London, I was musi-cal precentor in D'Almaine's house, under articles of agreement, where my musical works for seven years were hypothecated, 'Echoes of the Lakes,' being the first, a work of twenty-four songs—the lyries mostly from the pen of Mrs. Crawford. This work, containing 'Kathleen Mayourneen,' 'Dermot Asthore' (the reply).
'Their Marriage,' and 'Death of Dermot'
being illustrations of the work in question; and during the time of our indentare Mrs. Crawford wrote for no other publisher but D'Almaine, and her works were in my bands, as composer of the music, bringing with me hundreds of her manuscripts when I landed in New York, November 10, 1849. These manuscripts, all my own books, musical works, deeds and papers of a lifetime, in the com-mencement of hostilities with the Federal States, were burnt by the North-Federal States, were burnt by the North In Metal, Slate, Cement, Gravel, ern troops at the evacuation of Northk. In Metal, Slate, Cement, Gravel, Va., where we faced the hardships and privations of a Confederate soldier in General Robert E. Lee's army of Northern Virginia; and under him fell at the capitulation of Appomattox. Thus far apportains to my personal identity and the fact of the composer of 'Kathleen Mayourneen' being still in existence: and, if necessary, can and will produce the original work. Echoes of the Lakes -twenty-four songs - as published by D'Almaine, of London; thereby giving the lie direct to the patry thieves who would rob a man of his just inheritance. In further confirmation of the above statements, I enclose particulars that have transpired relative to Kathleen Mayoureen' since my residence in the city of Baltimere, Md. . . . The knave speaking peoples. The Church was set touch you all truth," Blohn xvi. 13), who slanders an octogenarian must aside and the Blohn made the rule of Thus the Church was secured from error, but the bosen interpreted by the even though a Bible did not exist. The Holy Coat at Treves.

A Pastoral from the Bishop of Treves was read in all the churches of his diocese on Sanday last announcing the fact that the Holy Coat will be publicly exposed for veneration this year, from the middle of August, for six weeks. The last time this great relic was seen publicly was in the year 1844, when hundreds of thousands flocked to the ancient Cathedral of Treves to behold the "vestis inconsutilis," the seamless garment woven, according to tradition, by Our Lady's own hands for her Divine Son. Of this Holy Coat St. John, c. xix., v 23, 24, says; 'The soldiers, therefore, when they crucitied Him, took His garments and also His coat. Now, the coat was without seam woven from the top throughout. They said, then, one to another: Let us not cut it, but let us cast lots for it whose it shall be." The Empress St. Helena found this with the other relics of the Passion and brought it to Treves, where it is at the present day. Some years ago it was rumoured that the relie was but a appointed a commission of experts to inquire into the matter and to examine the influence over his fellows without having relic minutely. It was then seen that the innate need to dominate, and this the whole garment is in one piece, with-

Undearable Pain.

DEAR SIRS,-I suffered for three days very severely from summer complaint, and could get no relief, but kept getting worse till the pain was almost unbearable, and I was very weak. After everything else had failed I tried Dr. Fowler's Extract of Wild Strawberry. The first dose gave relief, and it did not fail to cure me. Wm. T. Glynn, Wilfred, Ont.

Ir is gratifying to note that the American papers indicate the fact that the hollowness of Mr. Wiman's shallow and frothy utterances are at last understood by the people to the south of us. It appears to be dawning on them that the extravagant theories of Mr. Wiman and the unworthy Canadians who have posed as his accomplices are purely illusory. Of course this has been amply pointed out in the better sections of our press. but only now is the truth becoming known in the United States. It has been brought out, so far as Americans are concerned, very largely by the recent publication of the correspondence with reference to the reciprocity negociations and especially by Lord Knutsford's des-Canada and the United States would, as previously, be framed so as not to place imports from this country at a disadvantage, and it is presumed that Canada would wish to retain control over her tariff, with a view to the possible extension of her trade with the colonies and England." The Chicago Herald, commenting on this, comes to reciprocity" cry is all nonsense and that those who have been so glibly talking of patch should also be instructive to Mr. Blaine and his organ-grinders, who have all along been insisting upon a very near approach to the Wiman sort of reciprocity and asserting that no arrangement which does not involve Canadian discrimination against imof for a moment. What they are aiming at is the extension of the area of McKinleyism so as to cover all British America, as well as all Latin America. "They may learn from Lord Knutsford's "dispatch to Lord Stanley that they " cannot accomplish this with the con-

' sent of the British government."

Parnell's Proposed Carlow Visit.

Dunias, June 27 .- The National Press ays of Parnell's proposed visit to Carlow: "Carlow will revolt against the meditated outrage. Parnell is devoid of tooral sense and cannot comprehend the mental attitude of religious people to ward his crime. Carlow will make it plain that the hero of the squalid scene at Steyning is impossible as far as decent men are concerned. Parnell only added crime to crime by the performance at the registry office."

DIED.

WALSH-At St. Charles Hospital, on Wednesday, 17th June, 1891, Thoms Walsh, Esq., formerly of Lacolle, P.0. a native of County Roscommon, Ireland aged 90 years.

HOUSE OF CONMONS SPEECH OF MR. J. J. CURRAN, M.P.

[Continued from first page.] Let us travel to that beautiful island where the hon, member for Queen's (Mr.

man form an exclusively Protestant Government, because he and his friends had troiden down the poor Catholics who were clamouring for their rights on this very school question. That Government lasted from 1876 to 1878, when the hon gentleman pushed the thing too far. He then tried to induce the whole of that Government to throw all their influence with the Liberal party, in order to secure 2 Grit triumph—and that was too much for four of his colleagues, and they Government it was not merely a policy of, no Catholic need apply, but everyone of that persuasion was ostracised; not one of time posterior trae occacion, not even a Catholic charwoman could get tonight in the short speech he delivered, anomaly to the terrible disasters well as natural products." which had been enterled upon the poor, French Canadians and Catholics in Why, that is rather danger-Manitoba. our ground for the laon, gentleman to mad. I emember the time when Manitoba besame a province of the Deminion. I remeraher its first Government and remember how this country looked upon that province with pride as one of those new lands where e ery man could enjoy whole course of Mr. Norquey's regime, was there one appeal made to prejudice or franticiem? Was there one law or franticiem. Was there one law against the French or English or Catholor fennticiem ? schools or any man's right's? No but the very moment these great Liberals, Messes Greenway and Wartin, came in, then we had all the trouble. We know what they said in opposition. We know how they had floring out to the breeze the flar of liberakty, but how, once they get into power, they showed the clever host and trampled upon the but among the whole pepulation of the

and we have had that war carried into every parish of the Province of Quebec. The fruits of that legislation are still which that given rise. And we have fanaticism is their hearts. (Cheers). tobacco. There is not ing for those hon, gentle-mer cut appeals of this kind. They went to the country before with a separsteery for each provious, and they are now tring to divide the people of the Bon into into two sections. They are now so knig to make of this country two histile amps by setting at helic against Protestrat and vice versa We all know. that the salvation the existence and maintenance of good feeling, harmony, and good fell wship among the people wherecapy i. We all know that, with our energons: extent of country and spirs population if we have that population if we have that population if the bear our regular in addition 14 cents per gallon for each the tet chanter 32 rev sparse population, if we have that population a videal, if we have our people throw nio sectional and religious strife, there can be no prosperity for this land; and v those hon, gentleman who profes to be patriotic, who profess to love their overy and to have its interest at without transhipment. heart do not l'esitate to trample upon all pullsmentary precedent, and to spring upon the country to-day, when they one the members on this side would not all be present, this motion, in order, a possible, to snap a verdiet from the Horse, (Cleers). And they do all this for a more party purpose. For that purpose they are prepared to have this country divided. The people of Canada have however fromned them down before and will from them down The peopl felt that the policy of the Literal party is one of destruction to Canada and condemned it at the polk. Ert now on the threshold of a new Par-Eament, the Opposition comes here again, not with a general or practical policy, that with one

Dominion. It was then we had that pro-

tince make the theatre of

CALCULATED TO AND MISCHIEF beyond all computation. And I feel that I would be wanting in my duty if I did not stand up here, and wherever my voice can reach or my words may be read with interest or with respect by any man in the Dominion of Canada, place upon accord the belief, as I do place upon accord and belief, that the hop-Minister of Justice would not occupy the position he does in the Government today if the Catholic people of the Domin-ton of Canada had been insulted (cheers). I want to put it upon record that the Conservative party were ready to follow him if had assumed the charge placed upon his shoulders by the Gover-nor General of Canada. And, further, I say that if the day should come when that hon, gentleman should no longer feel that modesty which characterizes him, and which I hope he will overcome. and should accept that charge, the Conservative party from the Atlantic to the Pacific will rally around him because he will hold in his hand the banner which has been so often carried to victory and which, with him as the leader, will carried to victory again. The people of the Dominion of Canada will frown down all efforts to create sectarianism in the politics of this country, and will record at the earliest opportunity, at the bye elections, how thoroughly they disapprove of the attempt which has been made by the leader of the Opnosition on this occasion. The hon, gentleman resumed his seat amidst prolonged cheering.

Chinese Gordon.

There was an incipient mutiny among his Chinese soldiers. He had the men drawn up before him. By his side stood a dozen trusty fellows with loaded where the hon, member for Queen's (all paries) once occupied the position of Gordon, without speaking a word, signed to his riflemen, who instantly fired and killed the two ringleaders. That stopped the mutiny. "But I always think," and I trust never will be seen again.
With half of the population of that island Catholics, we saw that hon, gentle-island Catholics, we saw that hon gentle-island Catholics we have a saw that hon gentle-island Catholics we have the saw that

THE BUDGET.

Mr. Foster's Financial Statement and Policy Generally Applauded.

The annual Budget speech was delivered on Tuesday last week, and is generally declared to be one of the most masterly ever given in the House of Commons. The financial policy of the Government leaves little room for hoswithdrew. During the existence of that tile criteism and the amendment moved by Sir R. Cartwright is merely a vague assertion of general principles, as

follows;-"That the Government should fortheven a Catholic charwoman could get employment. The hon gentleman lays claim to liberality to-day; if he has improved he has learned his lesson into the Conservative party in this Irriament. (Checes.) My hon. this Irriament. (Checes.) My hon. from Ottawa County (Mr. House has been informed are to open in who spoke so eloquently Washington in October next, should be conducted on a basis of the most extendand who spoke so doquently upon ed reciprocal trade between Canada and another over sion, devoted himself almost the United Stries in manufactured as

We give below the change in the tariff. The alterations of immediate interest to householders are the follow-

ing: —
Under the old twiff the duty on raw sugar was almost equivalent to 2 cents per lb. This has been removed. The the Government of Mr. Norman, and I old duty on refined sugar was 12 cents per lb., and 35 per cent. ad valorem; this has now been reduced to S-10 cents per lle. In order to encourage the cultivation his freedom and civil rights. Buring the of heot sugar an percent, bounty has been placed on beets gar importations; hither-to they were admitted free. There has been a considerable increase in tobacco duties. Cut tebacco has been increased to 45 cents per lb, and 122 cents ad valolem : enuff and other mannfectured tobacco have beer increased five cents per pourd. Ale, beer and porter in casks have been increased five cents per impresial galloc and in bottle: three cents pergallon. There are also large increases in spirits and strong waters of all kinds. The duty or, salt has been reduced onerights of the people. It was then we half. The action of the government, in had the trans of discord thrown, not sweeping away at one stroke the whole merely into the Province of Manitoba, of the duty on raw sugar, places it in an enriable position in the eyes of the public. It is a complement of the policy which removed the duty on ter and coffee and will tend to greatly strengthen the position of the new administration. The loss of revenue will amount to upwards of sithout transhipment, from the country \$2,500,000, and it is proposed to make this apparent in the appeals of every kind to up, in part by retrendment, in part by which this given rise. And we have an increase in the excise and custome another proof, if it were necessary, of the utter hellowness and falsity of the professional of those gentlemens who have namely \$500,000 is expected to namely \$500,000 from main deral'y en heir lips and bigotry and \$400,000 from spirits, and \$400,000 from

The Resolutions.

1. All molasses and syrups, n.o.p., induding all tank bottoms and tank washings, all cane juice and concentrated cane juice and all best toot juice and concentrated beet root juice, when inported direct without transhipment from the country of growth and production. (a) Testing by polariscope 40 degrees

or over and not over 56 degrees a specific duty of 1 cents per gallon.

(b) Wiem testing loss than 40 degrees degree or fraction of a degree less than

(c) And in addition to the foregoing rates a further specific duty of 22 ceres

2. All car e sugars and beet root sugars not above 14 Dutch standard, all sugar swatpings, all sugar drainings all melado and concentrated melado, all molasses and concentrated molasses n.e.s., all cane juice, beet root juice, tank bottoms and concrete when not imported direct without transhipment, 5 per cent, ad valorem, provided, however, that in the case of cane sugar produced in the East Indies and impacted via Hong Kong, ruch rate

of 5 per cent. ad valorem, shall not be collected if tranchipped at Hong Kong.

3. All sugar above 14 Dutch standard and refined sugars of all kinds, grades and standards, and all sugar symps derived from refined sugars, a specific duty of 8-10 per cent. per lb.

4. Glucose or grape sugar, glucose or cornsyrap, specific duty of 11 cents per lb. 5. Cut tobacco. 45 cents per lb., and 123

per cent. sd valorem 6. Manufactured tobacco n. e. s., and snuff, 35 cents per lb., and 121 per cent.

ad valorem 7. Ale, beer and porter, when imported in casks or otherwise done in bottlee, 15 cents per gallon.

8. Ale, beer and porter, when imported in bottles (6 quart or 12 pint bottles to be held to contain one gallon), 21 cents

per gallon. 9. Spirituous or alcoholic liquors distilled from any material, and containing or compounded from or with distilled spirits of any kind, and any mixture thereof with water, for every gallon there-of, of the strength of proof, and when of a greater strength than that of proof at the same rate on the increased quantity as there would be if the liquors were reduced of proof. When the liquors are of a less strength than proof the duty shall be at the rate herein provided, but computed on a reduced quantity of the liquors in proportion to the lesser degree

of strength, provided that no reduction in quantity shall be computed on any liquors below 15 per cent, under proof, as follows: (a) Ethyl alcohol or the substance commonly known as alcohol, hydrated oxide of ethyl or spirits of wine, gin of all kinds n. e. s., rum, whiskeys and all spirituous of alcoholic liquors n. o. p.

\$2.12\frac{1}{2}\text{ per gallon.}

(b) Amyl alcohol or fusil oil, or potato,

spirit of potato oil, \$2.12\frac{1}{2}\text{ per gallon.}

(c) Methyl alcohol, wood alcohol, wood

naphtha, pyroxylic spirit, or any sub-

They are telling a story of "Chinese" naphtha, pyroxylic spirit, or any sub-Gordon and his rigid disciplinary meth-stance known as wood spirit, of methy-

lated spirits, absinthe, arrae or palmi Choir, awarded to Ernest Jackson for spirit, brandy, including artificial brandy, general proficiency. and imitations of brandy, cordicate and liquors of all kinds n. e. s., mescal, rifles. He bade the leaders of the mutiny step forward, saying that he "would speak to them." Two men came forward. gallon.

(d) Spirits and strong waters of any kind, being known as anodynes, elixirs, essences, extracts, fotions, tinctures or medicines n.e.s., \$2,12½c per gallon and 30 per cent. ad valorem.

(e) Alcoholic perfume and perfume spirits, bay rum, cologne and lavender waters, hair, tooth and skin washes and other toilet preparations, containing spirits of any kind, when in bottles or flasks, weighing not more than 4 ounces each, 50 per cent. ad valorem; when above 4 ounces, \$2.121 per gallon and 40 per cent. ad valorem.

(f) Nitrous ether, sweet spirits of nitre and aromatic spirits of ammonia, \$2.12} per gallon and 30 per cent. ad valorem. (y) Vermuth and ginger wine, containing not more than 40 per cent. of proof spirits, 75 per cent. per gallon; above 40 per cent. \$2.121 per gallon.

(h) In all cases where the strength of any of the above articles cannot be correctly ascertained by the application of the hydrometer it shall be ascertained by the distillation of a sample, or in such other manner as the Minister of Customs shall direct.

10. Champagne and all other sparkling wines in bottles containing not more than a quart and more than one pint \$3.30 per dozen bottles; containing not more than a pint and more than one half pint, \$1.65; one-half pint each or less, \$2 cents per dozen. Bottles containing more than one quart shall gay in addition to \$3.30 per dozen bottles at the rate of \$1.65 per gallon on the quantity in excess of one quart per bottle old wine measure. In addition to the above specific duty there shall be an advalorem duty of 30 percent.

11. Salt, coarse, 5 cents per 100 lbs. (not to include salt imported from the United Kingdom nor any British possession, nor salt imported for the use of the see or gulf fisheries, which shall be free of duty

12. Salt, fine, in bulk, 5 cents per 100

900.

13. Salt, in bags, barrels or otherwackages, all cents per 100 lbs. The packages to bear the same duty as if imported

Resolved, that it is expedient to provide that there be added to schedule U of the Act, chapter 20, revised statutes, as being exempt from custome duties, the following, viz:

All cane sugars and less root sugars, not above No. 14 Dutch standard in color, all sugar sweepings, all sugar drainings or the pumpings drained in transit, all melado and concentrated melado; all molasses and concentrated molasses r.o.p., all cone juice and concentrated ane juice, etc., when imported direct, of growth and production.

Resolved that it is expedient to pro-

vide that the foregoing resolutions and the alterations thereby made in the duties of customs on the articles therein mentioned shall take effect on and after the 24th day of June, 1891.

Provided, however, that nothing herein shall be construed as exempting any sugars now held to be in bord for retining purposes in any bonded premises connected with or occupied in whole or in part by any sugar refirery, which may be found on examination of the stock on such premises to have been removed therefrom, from payment of the duty properly payeble thereon, under item 419 in schedule A of the Act, chapter \$3. revised statutes, which shall continue in force as regards such sugar antil proper entry the reof and payment of duty

Resolved, that it is expedient to amend the Act, chapter 32. revised statutes, in-tituled "An Act respecting the customs," by repealing section 94 respecting the re-tining in bond of sugar, molesses or other material from which refined segar can be produced. A Trunexa. produced.

Resolved, that it is expedient to provide that under such regulations and re-strictions as may be by the Minister of Customs deemed necessary, there may be paid to the producers of any raw beet sugar produced in Canada wholly from beets grown therein between July 1, 1891 and July 1, 1892 a bounty equal to \$1 per 100 lbs., and in addition 23 cents per 100 lbs. for each degree or fraction of degree over 70 degrees.

ET. PATRICK'S SCHOOL.

Annual Distribution of Prizes-A Host of Telent.

St. Patrick's Hall was crowded on Wednesday last with the parents and friends of the pupils of the school so ably presided over by Brother Tobias and his indefatiguble colleagues. The Rev. Father Dowd occupied the chair, and with him were Rev. Father James Callaghan, Mayor McShane, and others. Professor Fowler superintended the musical portion of the programme, which was in the following order.

COALS OF PARE.

Persons.-T. Finan, C. Hauratty, J. Fitzgeraki T. McCafrey, C. Fleming, J. McNamee. SHORT-HAND AND TYPE WRITING. PRIZES, 4th CLASS.

Goodfellow. McCrory silver medal—E. Chapman. The academy silver medal for English—Ed. M. Cleary.

The academy silver medal for French-Arthur Gironx. The De La Salle association silver medal—Owen J. Tansey.

The Huneault silver medal-A Turcot. The Mrs. E. H. Kennedy silver medul -Albert Marion.

Silver watch, presented by the Rev. C. Martin—Joseph Preceau.

Bourget College. Despite the inclemency of the weather there was a large attendance of parents and friends at the annual closing exercises of Hourget college on Friday. The most notable thing on the programme was the valedictory address delivered by M. Cadieux, which was very touching and was delivered in a most feeling manner. The University of Laval conferred the degree of B. A. on M. Cadieux. The following successfully passed their examina-tion for their B. A.;—J. O. Mousseau, J. M. Trudeau, D. Davis, J. E. Gauthier, J.

B. Bazinet. The following were granted commercial diplomas:—
T. B. Conway, T. Raymond, S. Roach, H. McGrady and P. Mason. The following special premiums were conferred:—Leo XIII. medal for philosophy, M. Cadicux; Lord Stanley medal, E. Savaria; god medal for eloquence, J. O. Mousseau; Dorion gold medal, A. Dorion; medal for excellence, L. Legault; mathematics, T. B. Conway; commerce, T. Raymond; English and arithmetic, E. Pilon; arithmetic and French, A. Ross and R. St. Julien; commercial law, S. Roach; penmanship, L. Trudel; English, R. Conway; catechism, P. Mason.

During the vacation the college is to be thoroughly renovated and extensive improvements are to be made. Studies wili be resumed Setember 2.

St. Ann's School.

A full report of the proceedings at the breaking up of the St. Ann's School, with the full prize lists, will be given next week.

The Liquor Laws.

An important debate took place in the House of Commons last week on the question of the license 'aws, and it was decided to submit the whole question to a Royal Commission for examination The following subjects will be submitted:-

1. The effects of the liquor traffic upon all the interests affected by it in Canada 2. The measures which have beer adopted in this and other countries, with a view to lessen, regulate or prohibit the

3. The results of these measures in

such cases.
4. The effect of the enactment of a prohibitory liquor law in Canada would have in respect of social conditions, agricultural, business, industral and com-mercial interests, of the revenue requirements of municipalities, provinces and the Dominion, and, also, as to its capability of efficient enforcement.

5. All other information bearing on the question of prohibition.

Irish Campaign Funds.

Dublin, June 24.—The National Press te-day publishes a statement as to the receipts and expenditures of the plan of campaign fund. It is signed by James F. Navier O'Brien, member of Parliament for South Maye, and is as follows: Amount collected, \$634,385; spent for legal expenses, \$36.100; paid tenants, \$382,000; housing, \$66,405; buildings, etc., at New Tipperary, \$147,600; total, \$632,855; balance, \$2,030. Mr. O'Brien declares that the report that \$15,000 was missing from the fund is not true.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Barsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength. "I derived very much benefit from Hood's

Sarsaparilla, which I took for general debility. It built me right up, and gave me an excel-lent appetite." ED. JENKINS, Mt. Savage, Md. Fagged Out

"Last spring I was completely fagged out.
My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. Brgole, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn ont I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER.

20 Breoks Street, East Boston, Mass.
N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

The Land Bill.

LONDON, June 25,-The Earl of Cado gan, (Conservative) in the House of Lords to-day moved that the kish Land bill be read for the second time. The Earl said he did not doubt that some of those who were on the Government side regarded with disfavor several of its provisions, yet they were ready to support its main principles. He believed the bill would assure increased prosperity to-

Ireland. Lord Denman (Conservative) moved that the bill be rejected on the ground-that it would injure the landlord, em-barras the tenant and lead to false conceptions as to the rights of both. Lord Denman classed the bill as a "Mischievous form of Legislation" and expressed the opinion that the real friends of Ireland and of Great Britain ought to unite

and oppose the measure. The Marquis of Waterford (Conservative) remarked that the bill was the most complicated one ever produced. If the House adopted the bill it must do so in acknowledged ignorance as to how it would operate. Admitting that great credit was due to Mr. Balfour for pre-paring the clever scheme in question, there were certain clauses in the bill which ought to be amended. The bill! created stock with which to buy out the landlords, yet it enabled the Government to refuse to take that stock for a debt due to the treasury, while other clauses involved danger of falling into arrears.

The Duke of Arryle objected to the bill on the ground that it invalidated the the security of contract, limited the purchase of land under the bill to existing tenants, and would lead to further de-

mands for a reduction of rents. Lord Derby supported the bill as laudable effort to solve a part of the land problem.

Lord Salisbury held that the bill was generally satisfactory. The Government, he said, desired to multiply the number of owners of land. The increase of land owners would add to stability and social. order in Ireland. The measure would:? create a class that would conduce to the permanent prosperity of the country and revive the life of commerce.

The bill passed the second reading without a division.

Our Dairy Products.

At the meeting of the Agriculture and Colonization committee at Ottawa on Thursday morning Professor Robertson, Thursday morning Professor Robertson, superintendent of dairying at the Experimental farms, was again en amined and showed that in the establic limited dairy stations Canada was only in the example of England, Holland, gium and Germany. The original sign in Canada was to establish a dairy depot on each experimental farm and depot on each experimental farm and diffuse the information thus gained from a provincial source. In the large provinces, Oatario and Quebeo, however, this work was found to be somewhat slow and it was, therefore, decided to employ instructors, who would travel about and deliver lectures in farming centres on the value of corn ensilage and other food as milk producers. By this system a knowledge of practical dairying will be diffused among the farmers. Another object was to teach farmers to carry on the system. the manufacture of cheess in the sum mer, when it is profitable, and to confine butter making to the winter season as it is known that by the use of corn entities in the winter the supply of milk can be kept up and the milking period extended over 11 months of the year.

Learning is only so far valuable as serves to enlarge and to enlighten the bounds of conscience.

SVITH GRIEF I LAID MY LYRE ASIDE.

With grief I laid my lyre asido, For off it cheered my lonely hours, And made my spirit swiftly ride To realms of bliss, on wings of flowers.

Wheno'er Istruck its golden strings I felt my soul much stronger grow, And beauty fell on common things, And earth and sky seemed all aglow.

I saw but loveliness around. I heard but music in the air, I walked upon enchanted ground, And lifted up my voice in prayer.

I saw not then Destruction's hand On all that live, on all that die, For I had flown to Eden Land, Where drops no tear, where heaves no

My lyre to me was joy and pride, The solace of my heavy hours. But I was bid cast it aside, And ride no more on wings of flowers.

Was it a sin to touch the lyre That Royal David loved so well? What say you of the Heavenly (hoir? Of angels in St. Dunstan's cell?

From hermits' caves in solitude. Erom abbeys thronged with men of prayer,

From convents of the pure and good. Rose lyric sounds that filled the air.

Some seints upon their dying bed, Some martyrs on their glowing pyres. The sweetest "soul of music shed," By touching swift their sacred lyres.

Then come, sweet lyre, I'll touch thy strings.
And thou wilt cheer my lonely hours

Come, come, and change all common things, And give me wings of fairest flowers.

-Rev. William P. Treacy, in Doughac's Mayazine.

Swedesboro, New Jersey.

The Mystery of Killard.

PART III.-ORDEAL BY GOLD.

CHAPTER 4. Continued.

The sun had passed the zenith, and was on his downward course. What oh, why didn't John come, just for a moment, and wave his hand and smile to her, and say some che ring word-Across that chasm, across that abyse, which had been a space separating the former Lan's from humanity, more

fell. There was something wrong -- somewhom she had given her whole neart! and soul.

Where was the bright body new to discontinuation and had become she had never missed when they med to give noting on earth shall ever the old time? Where was the clastically separate as an in according to the old time? Where was the clastically separate as an income with new space beyond the to her side? Come land of the man with core on his face rooked indices. A considered that is a constant of the man with core on his face rooked indices.

He paused a moment, and her heart

bounded with a sydden hope.
"No," he answered. "You'd before not come. Send me the Fool, and I'll let you know by him when 1% be ashore. Go now, and don't lose any

Down went her hopes to a darker depth than they had yet entered.
"Good-bye, John, until I see you

There were tears in her eyes and tea-

she grasped was that John was on the Island, and was not coming back as felt the black shadow of some mexplicaaide of the Island. This helped her a

others on earth, had crossed to that all Island full of gaiety and affection. When next she saw him the gaiety and affection no tonger appeared, and she was separted from him by the chasm which was plainly something like anger behad separated his father and grandfather from all that was good. Oh, what a sorrowful morrow to yesterday was this

dark day!
But John had told her he wanted the Fool at once. So she walked quickly to the village.
She found Tom roasting potatoes at a

cottage fire.
"Tom," she said, "you are to run back

natural hearth-There are only firegrates on the Bishop's. "But you must go at once; he said

you were," cried the girl hastily. "I can't take the potatoes and the hearth with me, can I?" He was quite deliberate in words and manners, not appearing in the least affected by the girl's impatience, but turning the potatoes so as to heat them

She stamped her foot in exasperation. "But I tell you you must go at once; leave the potatoes!"

To be burnt to cinders?" "I'll sit down and mind them." "And won't eat them while I'm

"No, no. For goodness' sake, go? Go, dear Tom."

"Very well; I'll leave them on your soul." He was away upwards of an hour and

"You didn't eat any?" he asked, for she was still sitting by the fire, minding

notatoes. "No, Tom; but they were too burnt,

and I got you more."
"You're a decent girl, Mary Martin, and deserve one of the Lanes; and faith! John Lane is looking like his father to-day, and you'll be a happy woman.'
"When he is coming ashore?"

"He told me to say he isn't coming ashore to-night; and that he's leaving Killard to-morrow, and that I must go back to the Island while he's away. And sorry I am, for there isn't a natural hearth in it "

"And where did he say he was going to to-morrow, Tom?"

"He didn't tell me. It isn't likely he'll tell me. Why his father never told me anything in all his life."

"And did he say when he'd be back?"

"And" (treroulously) "didn't he send my other message to me, Tom dear." "Not a message, not a message. Ah! those potate as have the real taste: there's

nothing like a hearth for—"

But she had run out of the cottage feefore he could conclude, and was nastening in the direction of iteme, with the tears streaming down her face, and a strange

choking tightness at her throat. It was late in the day when Mary told her father and mother the news brought | from the Island by Ten., She tried to put a good face on the matter, and sold how John had talked of aslling the Island. how John fact trace of gening creation of Perhaps this scuden determination of leaving Killard had servething to do mind is:

former Lam's from humounty, more atterly than the occur separated as shores?

At last she saw his figure rise cut of the hollow, and with a loyout cy, she sprang up, and held out her arms to him.

He appropried the edge of the chird, but there was no smile on his face, be pleasant wave of the hold, in his breast were knit, and his arms han, by his prescription in the hollow, and his giving them attention. HOW TO KEEP COOL.

Cleanliness, not only next to godliness, is part of coolness, says the Ladies' Home Journal. So take a plunge bath home Journal. So take a plunge bath in the morning, letting the water be tepid, and afterwards giving yourself a cold shower. Omit starch from your cold shower. clothes as far as possible. Eat a light clothes as lar as possible. East a light breakfast. Greasy food, or a great quan-tity of food taken in the morning, will most certainly heat your stomach for the entire day. A woman who stays in the city and is always cool, gives this as her city and is a cup of coffee in the morn-bill of fare: A cup of coffee in the morn-ing, with bread and butter; a luncheon of cold beef and baked potato, with lemonade or iced tea; and a dinner after enset consisting of a little soup, a bit of meat and one hot vegetable, a cool green salad, a cold dessert, and a small cup of coffee. Keep this in mind also; there conee. Neep this in mind also; there is no better preventive against heat than good-temper, when you combine good bathing, proper food, and evenness of disposition with it.

A REAL SUMMER DANGER.

To talk of guarding against cold in summer seems absurd, and yet it is as necessary as in winter. Where a climate is chaugeable, a hot day isoften followed by a coolereming, or a sudden rain storm chills the air, or a cold wind springs up, grateful ster the heat, but dangerous to those who are thinly clad unless they are protected from it by proper covering. Cotallows it to escape rapidly from the surface of the body. As soon as the surrounding air becomes cooler than the similation occomes cooler than the skin fistens the heat which the body require for its own needs. A fresh supply of heat must be produced and the supply of heat must system is overtaxed to supply the demands of the robber. Flannel is a conductor, and guards the tender body more faithfully, retaining the heat.

THE SPEED OF THE DUCK

Dt. Charles Macrum, a wealthy rebaking powder biscuits; pour all but a lived physician of Pordand Ore., who for little of the water from the meats into to bunting and fishing and writing stories dumplings in the pot on the ment so they will not touch the water, and cook the speed of the duck, and says the canthe speed of the duck, and says the canvas-back can fly faster than any other member of the duck family. "The can-vas-back can distance any other duck," said the dector. " It can fly two miles a minute and keep it up for hours. The mallard is the slowest, but with an effort can go a mile a minute. The gadwade can go a mile a minute. The gadwade temptations, exercises a perfect control duck is not found in the cest often, but over his mind.—Ven. John Tauler. is numerous in Oregon. The members of this family can travel eighty miles an hour. The broad-hill duck is almost as swift as the canvasback, but can not keep the race as long as the other. You may think that geese fly slower than mallard duck. This is not so. With the slow movement of their big wings they do not appear to be flying rapidly, but they travel from 80 to 100 miles an hour and keep it up for a day."

THE WEASEL'S SECRET.

In India, wherethere are many venomous serpents, there is an animal—a kind of weasel—which is, as it were, appointel suga three ounces of citron, three ed by God to destroy them. Put one of these creatures and the deadhest snake together, and let them begin a battle. Pre-cutly the weasel will be bitten by Boil the vanilla in the water until the the serpent, it will then dart off into the favor is extracted, put the chocolate in next bush, find the antidote to the poison, the vanilla water to dissolve over the and once more return to the light. And and divine sorrow of its Founder and all the; then pour it on the yolk of the soagain and again, till at last its elected its glorious army of martyrs, has sup-

BERLIN, June 21.—The formation of a great central European customs league is an accomplished fact acknowledged by the official circle. The exchange of communications between Germany and Austro-Hungary Italy and Switzerland has resulted in the basis of an agreement which became known here to-day. Interest in the realization of the most formidable combine ever conceived will overtop that in every other public matter when the scheme is generally pub-tished. In the meantime the official circle alone knows that the negotiations have attained a definitely successful stage. The terms upon which commercial union was agreed are meant to be held secret until after the plenipotentiaries prepare the draft of the treaty. A conference for this purpose has been arranged to meet at Berne on July 20. The League is to be an intimate commercial alliance in which no one of the contracting powers will be privileged to form a trade treaty with an other outside unless it first obtains the assent of the other parties to the alliance. It is understood here that the Government has obtained the consent of the federal states of Gormany to a demunciation of the treaty of Frankfort and to accepting whatever grave consequences may arise from the hostility of France to such a course. The existence of the league will naturally affect the trading relations of the four contracting powers with every quarter of the globe.

The Great Benefit

Which people in run down state of health derive from Hood's Sarsaparilla, conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but Hood's Sarsaparilla builds up in a perfectly natural way all the weakened parts, purifies the blood, and assists to healthy action those important organs, the kidneys and liver.

For nineteen hundred years no man ever left the Catholic Church through conscientious motives. Whoever has left has done so through pride, ignorance or passion.—Bishep McGolrick.

THE FARM.

SOUND ADVICE FOR FRUIT GROWERS.

III.

COMBINED FUNGICIDE AND INSECTICIDE A series of experiments were conducted at the Central Farm last summer by the writer, assisted by Mr. Shutt, Chemist to Experimental Farms, with a view to test the degree of strength which a combined fungicide and insecticide could be applied without injuring the leaves. The following are extracts from the summary of conclusions reached after several

applications.

The quantities of chemicals given are on the basis of using 22 gallons of water, with ammonia as the solvent.

Carbonate of copper, 3 oz. in solution, Paris green, 11 oz. (proportion of 1 lb. to 200 galls. of water) caused a slight injury on the third application.

Carbonate of copper, 11 oz. in solution

Paris green, 12 oz., caused very slight injury after the third application. Carbonate of copper, 3 oz. in suspenion, Paris green, 11 oz., caused slight

injury in later applications.

Carbonate of copper, 1½ oz. in suspension, Paris green, 1½, caused no injury.

RECOMMEND FOR TRIAL. In view of the above results I wou'd therefore recommend for trial, to a

imited extent, mixtures, as follows :-(a.) Carbonate of copper.... 1} oz.

The carbonate of copper should be diselved in the ammonia, according to the directions already given, mixed with the water, and the Paris green then added, care being taken to stir in well, and keep it from settling to the bottom.

(b.) Carbonate of copper.... 11 oz.

The experiments made with this mixture thus far, do not warrant me in speaking positively in regard to its efficacy, but they show that no injury to the foliage resulted from the application of a stronger mixture than the one here re-commended for trial. If this proves an effective remedy for the codlin moth as well as the "apple spot" it will no doubt supersede any other now in use, both on account of the ease with which it can be prepared, as well as its comparative cheapness. The Paris green can be emitted after the second application in mixtures (a) and (b), as two sprayings of Paris green is generally considered sufficient remedy for the codlin moth.

LIONE MANUFACTURE OF COPPER CARBON

As the precipitated form of carbonate of copper is not always obtainable from druggists, directions are herewith appended for the easy preparation of this material at a cost much less than the usual wholesale price. In a vessel capa-ble of holding two or three gallons, dissolve 11 pounds of copper sulphate (blue vitriol) in 2 quarts of hot water. This will be entirely dissolved in fifteen or twenty minutes, using the crystaline In another vessel dissolve 1 form. bounds of sal soda (washing soda) also in 2 quarts of hot water. When completely dissolved pour the second solution into the first, stirring briskly. When effervescence has ceased fill the vessel with water and stir thoroughly; then allow it to stand five or six hours, when the sediment will have settled to the bottom. Pour off the clear liquid with-out disturbing the precipitate, fill with water again and stir as before; then allow it to stand until the sediment has settled again, which will take place in a few hours. Four the clear figuid off carefully as before, and the residue is carbonate of copper. Using the above quantities of copper sulphate and sal soda, there will be formed 12 onness of copper carbonate. Instead of drying this, which is a tedious operation, add four quarts of strong ammonia, stirring in well, then add sufficient water to bring the whole quantity up to 6 quarts. This can be kept in an ordinary two gallon stone jar which should be closely corked.

carbonate of copper, which, when added to 25 gallons of water, will furnish a solution for spraying, of the same strenght and character as that obtained by the use of the dried carbonate, and one which can be prepared with little labor, and kept ready for use throughout theseason.

CARBONATE OF COPPER IN SUSPENSION, When the carbonate is to be used in suspension, instead of adding the ammonia to the sediment, add water until the whole quantity is made up to 6 quarts. Stir this thoroughy until the sediment is completely suspended (entirely mixed throughout) and pour the thick liquid into a suitable jar, when it will be ready for use. Before using shake the contents thoroughly, so that all the sediment may be evenly distributed in the water. Pour out a quart of the thick fluid and mix with 25 gallons of water. The cost of the chemicals will vary with the amount purchased. Copper Sulphate (blue vitriol) is usually retailed at from 10 to 12 cts. per pound, and Sal Soda (washing soda) at about 3 cts. The strong ammonia should be used which can be bought in half gallon jars at 20 to 25 cents per pint.

WHEN TO SPRAY.

The importance of early treatment cannot be too strongly urged, as after the disease has gained foothold and is working within the tissues, remedies which can only be applied externally are of very little use. The first application should be made before the blossoms open; the second soon after they have fallen, the third and fourth following in periods of about ten days or two weeks apart If the season is cool and wet, a fifth appli-cation will be necessary, but if moderate-ly dry, four applications, if begun in good time, will in all probability be sufficiently effective.

The legends tell other things that go to show how she loved animals, and they obeyed her, as they did our first parents in Paradise, and others of the saints we read of. A wild boar escaping from the hunters took refuge among her swine one day. She blessed him, and he stayed there ever after. So a flock of wild ducks came at her call, and quacked their salutations around her; and even a wolf once leaped into her chariot and allowed her to pat his shaggy head. Some of these stories may be but stories; at any rate they show what the people chought of the holiness of the Virgin of Kildare. St. Briyid's life was mainly a public one, as I shall explain later on. and we have but scant account of the internal affairs of her convent. They ary, however, that she was naturally modest in her manner, notwithstanding that great force of character which raised her to be head of all the

NUNS IN ERIN,

and caused her counsel to be sought even by the bishops of the church. She preferred simple and lowly employment. and delighted in to llowing the sheep over to play." The shild did so. The abbess the wavy slopes of the Currach. At one took his hands in her own, prayed, and the wavy slopes of the Currach. At one time, when she am her sisters found themselves in another convent on Holy Thursday, we read that St. Brivid herself astonished, and recognizing God's work took the task of washing, the feet of those in favor of St. Briyid, readily granted the favor she had come to ask. The respect for supermilked the cors for them, as well as that of the pilgnins, lay and clerical, who came to visit her, that a cors, on she was short of corn, and went to get some from the kink and am town grew up near her convent. It was to get some from the kink and am

knew there had been a very scant supplicate a ron the see locatine an arabbishop-ply. He ascribed this to the power of Briyid with God, and invited her to help self, so Patrick's own see, for the names shound her non-control with God, and given hear. So and here as of she and her nuns took each one a sack of t in the following exquisitely beautiful nar-

portant work of religious instruction. It was St. Vincent de Pau', the Apostic of Charity and the founder of the sisters of that name, that, in 1630, first broke down the iron barriers and stone walls that separated the nuns from the people, who were famishing for want of their wordand their presence, and allowed the Godgiven companion of man, to take her proper place at the side of the priestly

messenger of Christ. Briyid, therefore, travelled a great deal, being invited by the bishops, successors to St. Patrick, to found convent- in their respective dioceses. In spite, however, of the war-troubled character of the times she nor her companions ever met with disrespect. It is true that it could not a be said of them, as it was of that onwho tested the virtue of Erin in the days of Brian :

"Rich and rare were the gents she wore, And a bright gold ring on her wand she bore";

but they went without escort, clad only in the armor of innocence, and recognized by their dress as consecrated virgins of the Lord; and no Irishman, s. cing | them, thought of aught else but the honor and blessing derived from their visit to his native place. The saint thus

*1. Corinthians ix. 5. St Paul writes:
"There we not power to lead about a woman, a sister, as well as the rest of the apostles, and the brethren of the Lord, and Cephas? Or I only and Barnabas, have not we power to do this?" Acts xviii. 18, 26: "Int Paul, when he had staved yet many days, taking his leave of the brethren, satied thence into Syria, and with him Priscilla and Aquilla. Now a certain Jew, numed Apollo, born at Alexandria, an elequent man, came to Ephesus, one mighty in the Seriptures. This man therefore began to speak bodily in the synagosques. Whom when Priscilla and Aquilla had leard, they took him to them, and expounded to him the way of the Lord more diligently."

visited every part of Ireland, and nothing Attempts have been frequently made to stay in, and often requited their hospitality by miraculously

INCREASING THEIR STORE.

They tell of now once, when she was going along the road with her companions, an insune man met them and alarmed the sisters a good deal. But Brividgoing forward, said to him: "O man! nounce to us the word of God." The mad-man at once made answer: "O holy Briyid I obey thee. Love God, and all will love thee; honor God, and all will honor thee; fear God, and all will fear thee." Brivid, like all the children of Erin, as the French chronicler before quoted says, delighted in music. Now, the barp was found in every comfortable house, and the stranger who could play on it was sure of a double welcome. One day, going into the house of a chief to obtain the release of a captive, while waiting for him to come in, she asked that some one should give them a little music. Those present all asserting their want of ability, one of the nuns said to a boy; "Go and ask Mother Brivid to bless your hands, and then you'll be able sorry slear sister." he arswered, 'loa' I fear I have hardly any for mysell.
"Oh loes you have," was the renty there is plenty of it in your barn.

is more common in her life than stories of how she lodged in the homes of the people where there was no convent to ready to tear down the monuments, whether of the saints of the old church from which he has gone out or of the nation to which he is a declared enemy. However, though her grave be desocrated. her memory is green as the sward that, fresh each morning, covers the hills of During three centuries the lamp of learn Down with a carpet more grateful to the eve than Persian looms could ever furnish: her example still shines out "through the long night of bondage," and round the world wherever her children have been scattered, as brightly as the hospitable fire which so long blazed in "Kildare's holy fane." So we have passed in review the records of St. Briyid's career. I have omitted most of the wonders that are found in it, because I think they are its least wonderful part. When a person from childhood up always walks in the presence of God, and, so different from the great majority of us, tries to do his pleasure in every thought, word, and deed, what else should we expect than that God should favor such a one, shower his choicest gifts upon her, and make all nature obedient to her will, united, as it nature obedient to her will united, as it always was, with his own. Hence the Church, Europe owes her a debt of railways completed and under construcmiracles done by the saints are only what

rulers of men have not come nearly always from the village, the farm, or the prairie. Of the saints I will not speak, except to remind you that immediately upon receiving the seed of Christianity Erin began to bring forth tables appended may be summarized as holy men and women, scholars and missionaries, to whom Europe and ourselves | Miles of milway completed owe the civilization we enjoy to-day. ing which had been extinguished in Gaul, Germany, Italy and Spain was

KEPT ALIVE IN HIBERNIA. All these countries, except perhaps the last, were evalgelized by Irish priests, and many a continental city, such as Salzburg. Tarentum, Lucca, San Gallen, venerated an Irishman among its bishops in those ages; while not only did they establish many monasteries and cocvents throughout Europe, but the two first universities, Paris and Pavia, were founded by Irishmen. If you seek authority for these and similar assertions, I refer you to the Frenchman Montalembert, in The Monks of the West, and to the Englishman Butler, Lives of the Saints, March 10, 17, and elsewhere. And yet Erin suffers and weeps. She is a slave unto her enemies and the enemies of God's gratitude beyond estimation; America is tion is \$189.721,342. her debtor for many material and spiritual advantages. And yet "the age of The wonder would be indeed if there chivalry is past"; the selfish nations were none found in their lives. The real neglect and ignore Erin, who preserved for them religion and learning, just as neighbor, and her native land. Again, there was put out not a single confessor starves men have occur what attracts one in St. Briyid is the or martyr have the efforts of Irishmen thing to gain a crust." plainness and simplicity of her way of succeeded in placing on the altar which living. Evidently there was nothing they honored by their lives and in whose about her house that made any one feel defence they ded. Yet she is lunisfall, unwelcome there. The rich admired its the 'Isle of Destiny." Her children are neatness, the poor saw at once that scattered like those of Israel, to be witis sample, natural, and true, having a Sec. per bushel, contempt for all that is artificial and From R.
