

RADIAL BILL IS HOTLY OPPOSED BY LANCASTER

Chairman of Railway Committee Declared He Would Not Report Bill Amended So as to Protect Toronto's Interests—Debate Was Stormy.

OTTAWA, March 10.—"I won't report this bill; I can't report it, and I won't report it." Thus Chairman Lancaster, with no uncertain sound, notified the railway committee as the members were dispersing at one o'clock after having passed some important amendments to a bill renewing the charter of the Toronto, Niagara and Western Railway Company. The announcement came at the close of a stormy session when the committee at the earnest request of A. Claude Macdonell (South Toronto), Mr. W. F. Maclean (South York), and Corporation Counsel Geary passed certain amendments to the bill which made it impossible for the road to be used as a street railway within the corporate limits of the City of Toronto. These amendments followed the standard clauses adopted in the case of the Toronto and Eastern and the Hamilton, Guelph and Waterloo charters which forbid taking on and discharging passengers within the city limits except at stations to be agreed upon and forbid the carriage of passengers from one point to another within the city limits.

To Authorize Construction. The bill before the committee, authorizes the construction of a railway from the City of Toronto to the City of Hamilton, and thence to Niagara Falls and the international boundary line. Mr. Macdonell said the company was authorized to cross the streets of the city and would cross no less than twenty-five streets. W. F. Maclean said it was of first importance that all the radial railways be brought under uniform regulation. Hon. H. R. Emmerson said the street car franchise in a city like Toronto was a valuable one, and the Dominion government should not practically grant a charter for a street railway within the city limits. Mr. Maclean reminded the committee that several charters to electric railways desiring to enter Toronto had been so amended as to make it impossible for the roads to do an intrurban business, and Mr. Macdonell thereupon offered as an amendment to the bill the clauses above referred to, which appear in the Toronto and Eastern charter.

Difficult to Finance. Mr. Henderson, attorney for the C. N. R., thought the amendments would make it difficult for the company to finance the road, but Mr. Geary, on behalf of the city, pointed out that all the other Mackenzie and Mann

When the commissioners are able to proceed with their investigation they will resume at Winnipeg, where they left off.

AUTOMOBILE BANDITS ROBBED BORDER BANK

Seven Armed Men Escaped and Were Later Surrounded by Posses.

BELLINGHAM, Wash., March 10.—Seven armed men robbed a branch of the Royal Bank at Abbotsford, B.C., on the international boundary line today and escaped in an automobile with \$2000. Three of the men waited outside the bank while four entered. The cashier and a clerk were cowed with revolvers while the robbers seized a tray containing gold and currency. A posse recovered about a thousand dollars dropped by the men in their flight. The posse surrounded the bandits not far from Abbotsford and sent for reinforcements from Vancouver.

GOVERNMENT RAILWAY IS APPROVED BY SENATE

Big Project of Alaska Line Now Awaiting Wilson's Signature.

WASHINGTON, March 10.—The Alaska railway bill, providing for the construction of a thousand miles of government railroad and the expenditure of \$35,000,000, was ready for the president's signature late today when the senate adopted the conference report already adopted by the house. President Wilson has indicated his intention of signing the bill as soon as it reaches the White House and tentative plans for constructing the first government railroad already have been considered at the interior department.

CEDARVALE WOMAN ATTEMPTED SUICIDE

Husband Found Her Lying With Throat Gashed—Despondency Cause of Action.

In a fit of despondency, brought on by continued ill-health, Mrs. Moore, 31 years of age, of 24 Guestholme avenue, Cedarvale, attempted suicide by cutting her throat with her husband's razor, in her bedroom yesterday afternoon. When Moore came home for supper, about 8:30, he found his wife lying on the floor with a deep gash in her throat. He stopped the flow of blood and summoned a physician, who ordered her removal to the General Hospital, to which she was conveyed in Shields' ambulance. It is expected she will recover.

Must Make Senate Responsible By Means of Sweeping Reforms Action by Parliament is Urged

Vigorous Applause Greeted Demand of W. F. Maclean, M.P., for Measures That Will Convert Irresponsible Upper Chamber Into One Really Representative of the People—Discussion Arose Over the Bill to Increase Senatorial Representation of Western Provinces.

OTTAWA, March 10.—Amid enthusiastic applause from the government benches, in which even some members of the opposition were seen to join, W. F. Maclean, M.P. for South York, made a vigorous plea in the house of commons this afternoon for a sweeping reform in the senate which would entirely do away with an undemocratic, unrepresentative and irresponsible upper chamber. The lawyers of the house had been debating the power of parliament to increase the senatorial representation of Manitoba when the South York member arose and proposed that the plain people of this country wanted no more senatorships created or even more senators appointed, but desired and demanded that the upper chamber be brought under house opinion and made responsible to the people. The views of the country as clearly expressed at a general election, Mr. Maclean said, should be crystallized into legislation, and if we were to have a senate it should consist of ex-members elected for short terms by the people, or by the provincial legislatures representing the people.

Sir Wilfrid Laurier's Democracy. Sir Wilfrid Laurier asked if the member for South York intended to move in the matter, and was somewhat disconcerted by the enquiry as to whether he would join in carrying out this progressive reform. Sir Wilfrid replied that he was a democrat and Mr. Maclean asked: "Is the right test that the plain people of this country wanted no more senatorships created or even more senators appointed, but desired and demanded that the upper chamber be brought under house opinion and made responsible to the people. The views of the country as clearly expressed at a general election, Mr. Maclean said, should be crystallized into legislation, and if we were to have a senate it should consist of ex-members elected for short terms by the people, or by the provincial legislatures representing the people."

Constitutional Point. Sir Wilfrid Laurier made the point that such increase could not be made without the assent of the imperial parliament. By the B. N. A. Act, as amended in 1871, parliament was empowered to create new provinces and in creating such provinces to fix their representation in the senate. When Saskatchewan and Alberta were created in 1905, the autonomy acts gave to each of them four senators, with the right to an increase of two.

HANNA DECLARES HIS FIRM HAS NO STANDARD OIL CONNECTION BUT REPRESENTS CANADIAN FIRM

Company in Sarnia for Which He is Solicitor Has Never Had Dealings With the Government in Any Matter—Declaration of Provincial Secretary.

The suggestion that Hon. W. J. Hanna was at the same time holding a retainer from the Standard Oil Co. was quashed in spectacular fashion by the minister himself yesterday afternoon at the legislature. The denial was downright.

In reply to speak on a point of privilege immediately following the announcement of Evanturel's resignation, the provincial secretary referred to statements which had appeared in newspaper columns within the last two or three days, once in the course of a Prescott meeting report, and once editorially. It had been stated that he was under retainer drawn off from oil wells.

Never a Dollar. "Ten years ago this month, if my memory serves me right," began Mr. Hanna, "I made a statement in this house, a statement similar to the one that I find it my duty to repeat today. Never at any time did I or my

BELIEVE KARLUK HAS BEEN LOST

Stefansson's Report Indicates That Vessel Probably Was Crushed by Ice Floes.

OTTAWA, March 10.—The opinion seems to be growing that Stefansson's ship the Karluk has been crushed by ice and has been lost. The correspondence which the naval service department has received from the explorer was tabled in the commons today and it contains two statements which increase the doubts regarding her safety. Stefansson says: "Most of the strongest whalers that have ever come to the Beaufort sea have been crushed by ice. It seems, therefore, to depend more upon the character of the ice the vessel encounters than upon the vessel's own construction, whether she survives a season in the ice." Another statement is that the Karluk "is not so strong as other vessels." Stefansson considers that "her men are in no grave danger." He thinks that if the vessel was crushed the crew would be able to find their way ashore.

FEDERAL AID TO RADIAL LINES IS LIKELY

Hon. J. D. Reid's Reply to Deputation Which Asked for Subsidy to Line in Grenville is Regarded as of Wide Significance.

OTTAWA, March 10.—A significant answer was given by Hon. J. D. Reid, acting minister of railways and canals, to a deputation from the St. Lawrence and Ottawa Valley, which asked him this afternoon for a subsidy for the Morrisburg and Ottawa Electric Co., which projects an electric line from the St. Lawrence to the capital. "I did not know until a few minutes ago," said Hon. Dr. Reid, "that the proposed line was to go thru my County of Grenville. I am in deep sympathy with anything that can be done for the improvement and betterment of Eastern Ontario. The request, if granted, would be a new departure from the established custom. A few years ago it would not have been considered at all, but on account of the ever-increasing use of electricity it may be necessary for the government to change the policy which has been in force since confederation of granting subsidies only to steam railways."

"I have been in charge of the department only a few days myself, but I understand that there will be no subsidies brought down this year. If there are, I shall be very glad to recommend to my colleagues serious consideration of the request for a subsidy. In any event I will lay before them the great importance of this undertaking and the great good it will do."

MONTREAL, March 10.—It is now stated that Hon. W. S. Fielding and other prominent Liberals are behind the new Montreal evening paper, The Daily News, a publishing company for which has been registered and a franchise from the Canadian Press applied for. The name of J. C. Ross, editor of The Journal of Commerce, is also mentioned in connection with the new daily, which, it is added, will be printed by The Financial Times Company, of which Messrs. T. K. Dickinson and Edward Beck are directors. It is believed that The Daily News, which will be an anti-Graham organ, will appear about the end of this month. Mr. Fielding was said tonight to be in Ottawa.

NEED BOUNTY TO REVIVE STEEL INDUSTRIES

Deplorable Condition of Plants in Canada Urged Upon Finance Minister, Who Replied That Step Would Probably Involve General Tariff Readjustment.

OTTAWA, March 10.—A vigorous demand for the development of the national policy by smelting the Canadian manufacturers of iron and steel to use the iron ores of Canada, instead of ores imported from Newfoundland, the United States and other countries was voiced in the house this afternoon by J. A. Carrick, the Conservative member for Thunder Bay and Rainy River. Mr. Carrick, who lives in Port Arthur, where a million-dollar blast furnace is out of commission, pleaded for additional aid to the iron and steel industry, which he declared to be the basic fibre of our industrial life. He proposed a bounty equivalent to one dollar a ton upon pig iron smelted from Canadian ore. He pointed out that there were vast deposits of low grade ores in Canada which required an expenditure of from 75c to \$1.10 per ton to bring them up to the efficiency of the higher grades of one which abounded in the United States.

Given Good Support. Mr. Carrick made a good case and commanded the earnest attention of a crowded house and was ably supported in his contention by W. H. Bennett, the Conservative member for East Simcoe, and Mr. James Arthur, the Conservative member for Parry Sound. Both Mr. Bennett and Mr. Arthur criticized the legislation of the Laurier Government by which the manufacturers of agricultural implements were given a rebate of ninety-nine per cent. upon the pig iron they imported from the United States, and both gentlemen corroborated Mr. Carrick in his statement that the iron and steel industry was at present in a languishing and deplorable condition.

IGNORANT THAT GIRL HAS DIED

Estrene Hopes to Die, and Offers to Wager He Will Not Stand Trial—New Evidence Found.

Isaac Estrene, the murderer of Annie Garlock, still lies in the General Hospital, but his condition is very critical. According to physicians he may die at any moment. Estrene is not yet aware that his victim is dead, although police officials informed him of this fact as soon as he was conscious. Yesterday, while conversing with a police official he repeatedly asked how Annie was. Estrene stated he did not wish to recover, as there was nothing new to live for; he believes his own death will occur within three days, and in one of his brighter moods yesterday offered to bet \$10 that he will never stand trial.

Attempted Double Murder. Beyond accounting for the whole of the six bullets discharged from the revolver, the only new point in the case unearthed by the police is that just after the murderer had put two bullets into his stomach, and just before he collapsed on the roadway, he attempted to shoot down the girl's brother before he grappled with him. An eye-witness of the affair stated that Estrene pointed the gun and emptied the trigger at least twice on the empty cartridges. The brother then knocked the revolver from his hand.

WEDNESDAY MORNING, MARCH 11

THE WESTERN HOSPITAL.

It seems clear from the very warm reception given by some members of the Western Hospital staff to the proposed amendments in the constitution, sought by the board of governors, that the need must be very pressing. The amendments in question are coming before the private bills committee of the legislature this week, and they are supported not only by the board of governors, the chief donors and others, but also by half the medical staff, including Drs. A. A. Macdonald, J. B. Guilen, F. J. Page and Price Brown. On the board are Sir Edmund Osier, Sir William Mackenzie, Messrs. Thos. Crawford, M.L.A., David Fasken, H. Langlois, Noel Marshall, H. C. Tomlin, Sigmund Samuel, W. G. Trethewey, Garnet Grant, Rufus Hindson, John Madland, John Vokes, George Weston, Wellington Francis and Campbell Reeves.

The object of the amendments is to remove the friction arising out of overlapping jurisdiction between the staff and the board. Under the old charter the staff can, under certain conditions, block any action proposed for the benefit of the hospital as a whole, and it is believed that it would be much for the benefit of the institution to place the entire management in the hands of the board. A divided rule is simply impossible. Some of the older members of the medical staff who perhaps do not quite realize fully the growth of the Western Hospital and the heavy obligations resting upon the board are objecting to the change. They are in turn objecting to the cumulative vote given to donors, each \$100 getting a vote. As against this there is the objection, which is not without warrant in experience, that a donor of \$100 may make more trouble than another who gives \$100,000. It is felt that those with the heaviest stake in the hospital are best fitted to manage it, and their voice should have most weight in electing the board. The private bills committee will be well advised in accepting the amendments offered by the board, which are directed towards the broadening and modernizing of the policy of the hospital.

WANTED, A GUARDIAN.

Some kind friend should take The Telegram to one side and instruct it in civic affairs for the last few years. We always prefer to misrepresent ignorance rather than willful misrepresentation as the basis of our erratic contemporary's vagaries.

A mythical "emity to Mr. W. R. Sweeney attributed to The World was the subject of a column of exposition last night. Rather curiously, perhaps, The World never took any attitude of "emity" towards Mr. Sweeney. It never was necessary. Mr. Sweeney had the misfortune to entangle himself with The Telegram from the first, and following had advice reached the inevitable result in a quite simple and natural manner. We do not think even any reference to Mr. Sweeney can be found in The World's editorial columns until after the appointment of Mr. Couzens. It was necessary, apparently, for The Telegrammatic position, to represent The World as opposing Mr. Sweeney's appointment. In its own peculiar way The Telegram ignored the facts and assumed the enmity. The World was quite unaware that any change had been contemplated in the local Hydro until Mr. Couzens had been appointed. Silence in regard to Mr. Sweeney is not, therefore, surprising.

The Telegram really needs a "guardian."

RAISING THE RATES. It is said to be the intention of the government to require all the fraternal assurance societies that have not adopted the standard scale of assessments to do so. The question is more or less vital to several of the Ontario societies, and is being discussed by the Canadian Order of Home Circles at Hamilton today.

It has been found that the older members are making totally inadequate contributions to the funds. Several times in past years warning has been given, but several of the fraternal orders have been reluctant to listen to the official warning. This reluctance has placed the older members, those above fifty-five years of age, in an unfavorable position. They are generally too old to get insurance elsewhere, and the new scale of rates as applied to them is practically prohibitive. In the Home Circles some of the older members here feel quite bitterly about the situation, which is complicated in this case by a provision of the order to pay a proportion of the insurance policy at the attainment of the age of seventy or thereabouts. There are actually members who have received or will soon have received in "life benefits" a greater sum than they have contributed to the order. It is obvious that such a state of affairs is impossible when a man who has paid \$300 or \$400 still remains with a claim of \$1500 due in a few years. The younger members naturally feel that if such a one drops out or is squeezed out the order suffers nothing.

But there are many cases less exceptional where prohibitive rates are likely to cause grave injustices and are doubly so when the person is in a position where such people should have their interests before in not in harmony with the spirit and purpose of the fraternal organizations, and it is to be feared that business critics and even government officials are sometimes inclined to overlook this special feature of these orders. We do not at all wish to minimize the fact that no fraternal feeling or kindly spirit can maintain itself or fulfil its intentions outside a strictly business basis. But it appears that some compromise should be possible with the harsh course of turning out all the older members by prohibitive payments.

There are several means by which members may continue in the order without losing all possibility of benefit. One is by the reduction of the amount of the policy taken out. Half a loaf is better than no bread. If a member cannot afford \$8000 or \$2000 he can reduce his policy to \$1000 or \$500. This is much better than going out altogether and leaving nothing at all.

Another point, which does not seem to have been sufficiently considered, is the injustice of rating a man at his present age instead of the age at which he entered the order. After having been in the order for 30 years, having joined at 40, to be suddenly raised to the rate imposed on a man joining at 70 is inevitable, in the case of most of the class for which fraternal insurance is intended, to drive him out altogether. Granted that he has not been paying sufficiently for thirty years past, it ought surely to be sufficient to charge the difference between what they should have paid and what they actually contributed with the accumulated interest, against their policies, and then permit them to go along with their payments at the revised and increased rate of the age at which they joined. It may be contended that in strict law they are not entitled to such consideration, but in equity and in the principle of fraternity involved in the assessment orders it would appear that such an arrangement would be both feasible and desirable. The loss of a multitude of members under new regulations may mean some orders, and this would undoubtedly give satisfaction to those who are opposed to the fraternal principle. Whether a smaller order with a younger life average could make better progress under the reputation to be gained by clearing out all the old members is a question. The situation certainly seems one for compromise.

nant. It is by encouraging their excellencies, not by vain endeavors to imagine faults where few or none exist, that the best work for the theatre may be done.

Of course Mr. Coburn has a pre-occupation. His training leads him to believe that the theatre is necessarily evil and only accidentally good. It is a fault of the training of which Mr. Coburn is the product that he conceives anything to be accidental. It is no accident at all that the drama is the greatest moral, mental and spiritual agent at work among the masses of the people today. It is no accident that Mr. Coburn is negative in his attitude towards it instead of positive. A very notable and very excellent movement in the Roman Catholic Church in the United States might well attract Mr. Coburn's consideration. The church authorities have undertaken to "white list" the plays which seem on the whole wholesome and helpful. Mr. Coburn can only think of a black list, forgetful of the bad example which such notoriety lends to a play.

But then, on the whole, from either point of view, Mr. Coburn is impossible.

THE U. S. AND THE C. N. R.

Editor World: As a broker who has invested for his clients several millions of dollars in the securities of the Canadian Northern Railway, I write to say that I believe it will be for the best interests of the people and the government of Canada to allow any way that they can at this critical period of the year 1913 has been one filled with difficulties to railroad financing all over the country. Some of our United States railway companies in the high rates of interest. Your Canadian Northern road have carried forward their work without interruptions through this trying period, affording employment to many people and aiding in the development of your western country.

The United States have invested large sums of money in Canadian enterprises, and it is most essential for your future development to be able to depend on this source of financing. On the other hand, Canada has been one of our best customers, and we are glad to have it possible to lend you a helping hand.

Should your ministers, in their better judgment, conclude to lend the money which is requested by this company, it is the writer's opinion that it will be the best way to safeguard the guarantees and former loans which have been made possible to lend you a helping hand.

The magnificent and exceedingly valuable natural resources with which this country is blessed have been for many years, to bring this road to a position of greater strength.

MONTREAL WILL HAVE HIPPODROME

Will Be Built by Syndicate Interested in Venture in Toronto.

MONTREAL, March 10.—Still another place of amusement is talked of for this city. It will be modeled on the hippodrome at New York, and provide high-class vaudeville at popular prices, as well as a circus entertainment for the patrons, if advance notices are to be credited. The arrangements are in the hands of L. B. Totens, acting for a New York syndicate, which plans similar ventures in Toronto and Winnipeg, and it is stated work will be commenced on all of them in the spring.

The building in Montreal will, in addition to the hippodrome, consist of a large restaurant and dance hall. The cost will be half a million dollars, and the hippodrome has a seating capacity of from 2000 to 2500.

CIVIC WATER PROBE IS NOT SATISFACTORY

MONTREAL, March 10.—A resolution of protest against the recent conduct of the civic water probe, now being held, was passed today at an emergency meeting of the board of trade, the Canadian Manufacturers' Association and the builders' exchange. The resolution said that as the present enquiry was not being held on the facts, an engineer should be appointed to represent the city.

ARRESTED FOR MURDER.

MONTREAL, March 10.—After a search of seven months, Detectives Gorman and Le Page, this morning arrested a negro who they believe is Walter Bridde, wanted in White Plains, N.Y., on a charge of murdering Charles H. Conklin, ticket agent on Croton Lake station, Westchester County, on April 8, 1911.

BONDS FOR \$100

Many people of small means are possibly not aware of the opportunity for safe investment offered by our \$100 Bonds. The small investor has looked upon owning Bonds as rather beyond him—thinking of Bonds as being only in denominations of \$1000, or some other equally impossible sum. But \$100 will buy one of our Bonds, giving the holder of it precisely the same security as those of the largest denominations. They are a security in which Executors and Trustees are by law authorized to invest.

striking out parts of statement of claim in slander action. J. G. Smith for defendant. Reserved.

Single Court. Before Kelly, J. Gordon v. Casselman—Fisher, for vendor, moved for order construing will and declaring that vendor can make good title. Campbell (Anderson & McM.) for purchaser. Reserved.

Trial. Before Britton, J. Lawson v. Hunt—E. N. Davis for plaintiff, H. W. A. Foster for defendant. Action for specific performance by defendant of agreement by him to purchase five acres of land in Township of Scarborough. Judgment: Time was not only made of the essence of the agreement, but it was of importance to defendant, and on account of the delay the defendant was not bound to accept. In my opinion this is not a case in which specific performance should be ordered. Judgment will be for defendant dismissing plaintiff's action with costs and awarding defendant \$52.50 upon his counter claim against plaintiff. Twenty days' stay.

Strimmer v. Town of Galt—P. Kerwin for plaintiff, R. McKay, K.C., and J. B. Dulac (Galt) for defendant. Action for injunction restraining defendants from constructing or maintaining a sewer or drain from easterly side of Town of Galt in a westerly direction to what is known as Moffat's Creek, and from bringing water into the creek in excess of the natural flow, from injuriously affecting plaintiffs' rights in respect of the water of the creek, and from laying down a drain across the lands of plaintiff Strimmer, and for mandatory order compelling defendants to remove tile or other material from that land. Judgment for plaintiff as asked with costs.

Appellate Division. Before Meredith, C.J.O., MacLaren, J. A. Magee, J.A., Hodgins, J.A. Arvink v. McCallough (Stouffville) for plaintiff, S. S. Sharpe (Uxbridge) for defendant. Appeal by plaintiff from judgment of McIntyre, J., of County of Ontario of 11th December, 1913. Action to recover \$145 for rent of land leased to defendant, Alfred Perrin, and alleged to be guaranteed by defendant, Samuel Perrin. At trial verdict was given for defendant on plaintiff's claim, and for \$27 damages on his counter-claim, with costs. Appeal allowed with costs. Appeal argued and dismissed with costs.

Hackney v. White—J. McCullough (Stouffville) for defendant, S. S. Sharpe (Uxbridge) for plaintiff. Appeal by defendant from McIntyre, J., of County of Ontario of 11th December, 1913. Action for return of goods retained by defendant and damages for alleged wrongful seizure, detention and conversion. At trial order for perpetual injunction in respect of goods set out in paragraphs 3 and 4 of claim for \$50 damages, for \$23 value of grain found to belong to W. Hackney, and liable to seizure, with costs. Appeal allowed with costs. No costs to co-plaintiffs. Appeal argued and dismissed with costs.

Imperial Bank v. Schwendiman—A. Leung for defendant, obtained order, on consent, vacating its pendens.

Keith v. Keith (two actions)—H. S. White, for defendants in both actions, obtained orders dismissing actions without costs.

British Whig v. Hampel—A. MacGregor, for defendant, moved for order dismissing action for want of prosecution. J. J. MacLennan for plaintiffs. Enlarged sine die.

Barr v. Barr—J. G. Smith for plaintiff, moved for order for interim alimony and disbursements. D. C. Ross for defendant. Enlarged sine die.

Brown v. Feinberg—Baillie (M. A. Brown) for plaintiff, moved for summary judgment. No one contra. Judgment as asked.

Imperial Bank v. Schwendiman—A. Leung for defendant, obtained order, on consent, vacating its pendens.

Keith v. Keith (two actions)—H. S. White, for defendants in both actions, obtained orders dismissing actions without costs.

Dominions Beat Union 7-3 And Win Bank Title by 12-7

DOMINIONS ARE BANK CHAMPIONS

Beat Union in Final Game by Four Goals and Five on Round.

Dominion Bank won the championship of the Bank League last night at the Arena for the second year in succession, when they defeated Union by the score of 7 to 3.

The penalties were many, with the result that the fence at most of the time was decorated with penalized players.

The game started with a rush, and both forward lines were working hard.

The second half saw Mattie return to the ice, and the Unionites began to have a great deal of play.

The referees' Association will meet in the Labor Temple tonight, and all referees affiliated with the T. & D. are requested to attend.

A business meeting of the Ontario Hockey Association will be held tonight at 1737 Dundas street.

Tomorrow night at Colvin's Hall, West Toronto, the Sunderland F.C. will hold a social and dance.

Queen's Park F.C. will meet on Friday night at 216 Seaton street.

In the English Second League yesterday, Glossop and Bistol played a draw of one goal each.

A meeting of the Caledonian F.C. will be held in the Empress Hotel Friday, the 13th, at 3 p.m.

A special meeting of the Queen City F.C. will be held on Saturday night, March 14, at 3:30 p.m.

DECIDING PRO GAME AT ARENA TONIGHT

Torontos and Canadiens Play for N. H. A. Honors—Frenchmen Have Lead.

All roads lead to the Arena tonight, and there promises to be some lively wagering when Torontos and Canadiens clash in the deciding game of the N.H.A.

Manager Marshall has his equal in first class shape, and will have no excuses to offer if the Frenchmen retain their lead.

Varsity Juniors go to Orillia tonight to play the return game for the O.H.A. kid honor, and after the U. of T. squad's great showing on Monday night.

There are rumors of a revival of the Ontario Professional Hockey League with Berlin, Waterloo, Galt, Guelph, Brantford and another city in the deal.

Manager Mike Quinn of the Quebec Hockey Club has received a tempting offer from Mr. Wall, holder of the Ontario franchise in the N.H.A.

At the same time Mr. Quinn has another offer, this being from Messrs. Dease and the new Quebec Arena, who are anxious that he should take over the management of this concern.

An Ottawa despatch says: Ottawa was about \$3000 ahead after wiping out last year's indebtedness.

The Ottawa players received \$84 each out of the Vancouver exhibition game.

The Patriots are keen on getting Percy Leasure or "Punch" Broadbent, and it is probable that the veteran captain of the seniors will be seen in the coast league next winter.

At Varsity Rink last night in the Consumers' Gas Company Hockey League the Commercial Ship defeated the Seafarers by a score of 12 to 1.

That next season will see a revival of the Ontario Professional Hockey League by a prominent fellow of the name.

TORONTO'S TRAP SHOOTER.

Mr. Roy Van Vlack, who has just returned from Monte Carlo, wishes to disclaim the honor of winning the Grand Prix, as stated in some of the papers. The name of the big shoot in which he and D. A. Upon of Cleveland divided first money was the Grand Prix d'essai, the next largest shoot to the Grand Prix. In it there were 127 competitors. Rignor Fadini, who came fifth in this event, successfully carried off first in the Grand Prix.

Mr. Van Vlack's other winnings were gold medal and first money in six pool shoots.

have arisen under a new name, the Summit Golf Club. They have already secured a new course, and it is laid out ready for the finishing touches. Experts who have seen the property are delighted with its possibilities, and already the membership is very promising. It is hoped that the opening of the course by September, while the plans for a magnificent clubhouse are already under consideration and a start is expected to be made on it at once. The Lakeview Club made extensive alterations last year, and are not contemplating very many this year outside of minor ones. The annual meeting of the club was held last December and proved to be very satisfactory.

The Scarborough Club will make its appearance this year with an eighteen hole course as the other nine holes will be opened as soon as the wet sets this spring. The new addition is very pretty and tricky. It should make the course one of the best around Toronto. The clubhouse, which very elaborate, will be ready for occupancy very soon. The annual meeting will be held the first week in April.

CHICAGO, March 10.—Catcher Ed. Sweeney, who has been negotiating with the Federal League, signed a new contract with the New York Yankees. The league club today, it was announced at the office of the league, had accepted the offer. Sweeney's contract called for the largest salary paid any catcher in organized baseball, but would not name the amount.

NEW YORK, March 10.—Preliminary operations for the equipment of Brooklyn Federal League club were interrupted by disaster late today, when a 50 foot wooden tower collapsed, killing one man and seriously injuring three others. The men were riggers, working at the top of the tower, which was intended to support a wire cable for the operation of an iron bucket containing concrete for the stands.

BALTIMORE, March 10.—Manager Dunn of the Baltimore International League club admitted today that he heard that Fred Parent, utility man of his club, had jumped to the Philadelphia American League. Dunn would not divulge the source of his information.

Formal announcement of the appointment of Wm. Bradley as manager of the Brooklyn Federal League club was made yesterday afternoon.

The signing of Daniel Murphy, former pitcher of the Philadelphia American League, was also confirmed.

From the Chicago Federals' training ground at Shreveport came word that four members of the Boston Americans—two pitchers, a third baseman and a shortstop—had sent a telegram to President Glavin asking for terms. Another story said that Grover Alexander, pitcher with the Philadelphia Nationals, had also applied.

London Free Press: Messrs. Buzell of the London Baseball Club and George O'Neil of the Erie club sat down together yesterday afternoon and perused the 1914 schedule, drafted for submission by President Fitzgerald of the Canadian League. The mileage of the eight clubs was completed by the two managers, and there is every reason to believe that the original draft of dates will be considerably altered before it is adopted at tomorrow's meeting of directors in Toronto. The idea of curtailing traveling expenses to a minimum, or at least giving each club an even break in the season's mileage, is being considered.

ED. SWEENEY SIGNS WITH HIGHLANDERS

Turned Down the Feds—Dunn Loses One—Bradley is Brooklyn Manager.

CHICAGO, March 10.—Catcher Ed. Sweeney, who has been negotiating with the Federal League, signed a new contract with the New York Yankees. The league club today, it was announced at the office of the league, had accepted the offer. Sweeney's contract called for the largest salary paid any catcher in organized baseball, but would not name the amount.

NEW YORK, March 10.—Preliminary operations for the equipment of Brooklyn Federal League club were interrupted by disaster late today, when a 50 foot wooden tower collapsed, killing one man and seriously injuring three others. The men were riggers, working at the top of the tower, which was intended to support a wire cable for the operation of an iron bucket containing concrete for the stands.

BALTIMORE, March 10.—Manager Dunn of the Baltimore International League club admitted today that he heard that Fred Parent, utility man of his club, had jumped to the Philadelphia American League. Dunn would not divulge the source of his information.

Formal announcement of the appointment of Wm. Bradley as manager of the Brooklyn Federal League club was made yesterday afternoon.

The signing of Daniel Murphy, former pitcher of the Philadelphia American League, was also confirmed.

From the Chicago Federals' training ground at Shreveport came word that four members of the Boston Americans—two pitchers, a third baseman and a shortstop—had sent a telegram to President Glavin asking for terms. Another story said that Grover Alexander, pitcher with the Philadelphia Nationals, had also applied.

London Free Press: Messrs. Buzell of the London Baseball Club and George O'Neil of the Erie club sat down together yesterday afternoon and perused the 1914 schedule, drafted for submission by President Fitzgerald of the Canadian League. The mileage of the eight clubs was completed by the two managers, and there is every reason to believe that the original draft of dates will be considerably altered before it is adopted at tomorrow's meeting of directors in Toronto. The idea of curtailing traveling expenses to a minimum, or at least giving each club an even break in the season's mileage, is being considered.

EXPERT REPORTS WALLS ARE SOUND

Charges of Defective Work on New Technical School Ill-Founded.

EADIE GIVEN INCREASE

Disputatious Hearing of Bricklayers' Deputation by Education Board Committee.

War raged at the meeting of the advisory industrial committee of the board of education yesterday afternoon. Trustee McTaggart, chairman of the board, presented the report of S. G. Curry, architect, on the condition of the walls of the Central Technical School.

Mr. Curry reported that he had ten openings made in the walls, and that the quality of the work was satisfactory, the only defects being a slight misalignment caused by frost weather. The expert commended the effective work of J. D. Eadie, superintendent of works.

Trustee Vokes, on whose complaint the investigation was made, said he was satisfied, but he took exception to Mr. Curry's commendation of Mr. Eadie. It was no part of his duty to report on him.

Trustee McTaggart differed vigorously from Trustee Vokes, and the committee, by a vote of 8 to 1 raised Supt. Eadie's salary from \$150 to \$200 a month.

Bricklayers Start Row. A lively fight followed. It was precipitated by a deputation from the Bricklayers' Union, asking that the committee appoint a practical bricklayer as inspector of the brick work.

Delegate Bancroft moved that a sub-committee, consisting of three representatives of the Trades Council be authorized to wait on the architect, with a view to the appointment of a practical man as inspector of brick work.

Trustee McTaggart charged Delegate Bancroft with turning the committee into "a bear garden," and the committee got out of hand.

After Chairman Ellis secured order, Architect Macdonald said if trouble was to be avoided the hearing of labor deputations would have to be discouraged.

The committee, by 5 to 4, voted to authorize the architect to recommend an assistant clerk of works, and voted down Delegate Bancroft's motion.

WAS SELF-DEFENCE. David Tosh and Thomas Forbear appeared before Judge Morgan in the sessions yesterday, on a charge of committing an aggravated assault on William Hunter.

The defendant proved that Hunter had drawn a revolver, and that they had committed the assault in self-defence, and the action was dismissed.

CHICAGO PLANS AFFECT CANADA

Issue Again Raised Over Proposed Diversion of Michigan's Waters.

WASHINGTON, March 10.—Secretary Garrison, at the instance of the British ambassador, has called upon the army engineers to report on the possible effect upon the level of the great lakes of a measure now pending before the house, which would permit the diversion of a greater amount of water from Lake Michigan into the Chicago canal in connection with the proposed extension of the Chicago park system.

The ambassador, Sir Cecil Spring-Rice, in a note to the state department, said the proposed legislation would encroach upon Canada's navigation rights, guaranteed by a treaty between the United States and Great Britain.

He urged that in many respects the present position of the south park commission of Chicago and the Illinois Central Railroad is on the same basis as the previous application of the sanitary district of Chicago, which was dissolved.

Great Britain's position has been brought to the attention of the house committee on interstate and foreign commerce by Secretary Bryan.

SOME INTERESTING FIGURES BEHIND \$20,000 CHALLENGE. From Atlantic to Pacific—and Back Again Without Adjustment.

One feature of the Russell Knight Engine Test has been the attention brought to Canadian manufacturers.

The performance of this motor has become a subject of interest for automobile authorities on two continents, and much favorable comment has been made.

Even strong supporters of the Knight Engine, it is a matter of surprise that a motor would run for 300 hours without adjustment, repair or replacement except to spark plugs, as this engine did.

This motor ran the equivalent of 3264 miles, or three times from the Atlantic to the Pacific, or twenty times from Toronto to Montreal, at an average speed of 500 revolutions per minute to 2000.

So enthusiastic is the Russell Company over the standard set for the factory by this test, that they have offered \$10,000 to any one who will equal this performance with a Poppet Valve Engine. Added to this the Knight and Kilbourne Patents Company, Chicago, owners of the rights of the Knight Engine, have added a like amount, making in all \$20,000 that the Russell Knight Engine performance cannot be equalled.

The Test Report is now being printed and will be ready for distribution shortly.

PLEADS INNOCENCE. When Joseph W. Rippe appeared in police court yesterday there were several charges of forgery laid against him.

He was alleged to have presented bogus cheques representing a total of \$451. He pleaded "not guilty," and elected to be tried by a jury. He was remanded until the 18th inst.

Suffered Ten Years Until "Fruit-a-tives" Cured Him.

ST. THOMAS, Ont., May 22, 1913.—"I was troubled for ten years with the most distressing Constipation and Indigestion of the worst form.

"No one could have been worse with these troubles than I was for this long time.

"The pain from Indigestion was so severe that many times I have had to stop work and lie down until the acute spasms passed away.

"I took a lot of medicine—in fact, I guess I took about everything that was advertised—and gave them all a fair test—but got no relief. About a year ago, however, I was advised to try "Fruit-a-tives." I am mighty glad I did so, for they seem to be made exactly for me.

"They gave results in a very short time and I am now free from these diseases and enjoying perfect health.

"My wife also used "Fruit-a-tives," and we both think they are the best medicine ever made."

ACTION AGAINST MEAGHER HEIRS

Courts Asked to Declare Invalid Will of Wealthy York Farmer.

The action of George Meagher, who is suing his sisters, Mary and Margaret, and twenty heirs and trustees, to have the will of his father set aside on the grounds that the father was feeble-minded, was taken up in the assize court before Judge Lennox yesterday.

The late Thomas Meagher was a well-known farmer of North York, who died in September, 1911, at the age of 85. His estate at the present time amounts to about \$150,000, comprising a large farm near Newmarket.

The witnesses called during yesterday's session gave their reasons for believing that the testator was not of sound mind when he executed his will, and will probably take at least two days more before it is finally completed.

MUST MAKE SENATE RESPONSIBLE

(Continued From Page 1.3)

more after the census of 1911. When Manitoba was created, however, her senatorial representation was fixed at four, without any provision for an increase in the future.

This parliament, in Sir Wilfrid's opinion, had therefore exhausted its powers in the case of Manitoba.

Parliament's Powers. From this view the prime minister vigorously dissented. He contended that parliament had power to increase the representation of a province when its boundaries were enlarged, as in the case of Manitoba, and that from the B. N. A. Act as amended in 1886 in support of his contention.

There was a somewhat interesting duel between the prime minister and the leader of the opposition upon the constitutional point involved, but the discussion had become somewhat rambling and lethargic after a number of speeches had been heard upon the subject.

Judge Doherty, A. K. Maclean and Mr. German of Welland debated the subject at some length, and then Mr. Maclean (South York) started the house into lively interest by his declaration against the unresponsive and irresponsible senate.

An Irresponsible Body. He said: "After the exhibition of judicial sophistication which we have had upon this question, would it not be a good idea to present here the views of the plain people of Canada in regard to the senate? We have in the senate an absolutely irresponsible body, and the people of Canada recognize that fact. In the mother country they have an absolutely hereditary second chamber, and they found it necessary by the aid of parliament and the aid of the King to greatly alter and diminish the powers of that irresponsible body. To my mind the people of Canada are today disposed to think that until the senate ceases to exist, or less under the influence of public opinion."

Without a Parallel. "There is not another irresponsible chamber in the world today like the one we have in Canada. In the United States they have a senate, but it is elected by the states. In other countries they have senates or second chambers which are elective by the popular vote in larger constituencies than are allowed for the popular chamber. My contention is, and I think I reflect the views of the people of Canada, that the question of more concern to us is the reform of the senate and the bringing of that senate into line with the views of public opinion, and in some way the making of the senate not appointive for life, but elective for comparatively short periods, either by the vote of the provinces or by the vote of the people in larger constituencies.

Big Issue Confronts Canada. "This is the question which confronts the people of Canada today. It is a question that has confronted Canada for a great many years, and we think I reflect the views of the people of Canada in my statements of yesterday in which I did not have much to suggest, I think that more and more it is coming home to the people of this country that some kind of constitutional revision should be applied to this irresponsible senate that we have today more than to anything else.

"Why should we have in a democratic country like Canada, as an essential part of the parliamentary machine, an irresponsible senate? It may be that a venerable age makes a man a wiser legislator. I am not subscribing to that. I believe in a democratic government in this country and in the parliamentary machine being responsible to the people of this country, and most of all the views of all the people of Canada being allowed to find expression in law, to be crystallized into law by the aid and thru the legislative means that are responsible to the people.

A Partial Remedy. Dr. Clark: Is my hon. friend a single chamber man?

Mr. Maclean: I would not object to a single chamber. I would sooner have a single chamber than an irresponsible upper chamber associated with a responsible popular chamber.

We have in the Province of Ontario and in the other provinces very good senates, and no harm has come from it. I believe that the people of Canada today would justify parliament in refusing to increase the number of senators and it would justify the executive in refusing to make a single addition to that chamber until that chamber was brought into line with the views of public opinion or until in some way the actions of the aged gentlemen who constitute the senate could be reviewed by the public opinion of this country.

Laurier's Challenge. Sir Wilfrid Laurier: "Does my honorable friend believe all that he says?"

Mr. Maclean: "I believe that and a good deal more."

Sir Wilfrid Laurier: "Why do you not move?"

Mr. Maclean: "Will you support me if I move? I am looking for recruits now."

Sir Wilfrid Laurier: "I will support you in anything democratic. I am a democrat to the hilt."

Mr. Maclean: "I hope my honorable friend is a woolen sock democrat and not a silk stocking one. (Laughter.) If he will undertake to support me in that proposition, or if he will support me in a broader proposition and say that the time has come for the revision of the constitution of Canada, and I think it has come, that will be one of the prominent matters to be taken up at the conference of the provinces, and it is high time that we started to call that conference and to put in a protest on behalf of the people of Canada in this democratic country and in this democratic age against the continued existence of an irresponsible body as part of the parliamentary machine of Canada." (Loud and prolonged applause.)

Resolution Adopted. After some further discussion, in which Mr. Aikens (Brandon) and Hon. Charles Maclellan participated, Mr. Borden's resolution was adopted, and the bill founded upon it was introduced and read the first time. Like procedure was followed in the case of Saskatchewan and Alberta. The increase in Sir John Gault's representation was not taken up.

FRANCE AND U. S. ARE BOUND IN FRIENDSHIP

PARIS, March 10.—Marked reference to the cordial relations between France and the United States was made in the chamber of deputies today by Gaston Doumergue, premier and foreign minister, in a speech in which he reviewed foreign affairs in general.

He said: "I am about to send instructions to our ambassador at Washington to negotiate a treaty to regulate our relations concerning various questions, and I do not doubt that this treaty will draw together the excellent existing ties.

"The Panama Canal, begun by Frenchmen and accomplished by the tenacity of Americans, reinforces these bonds."

REPLACE BAR ABOLITION WITH STRONGER PLANK

The removal of all duties on food products and the appointment of a tariff commission was the subject debated on last evening by the Canada Forward Club. Although a vote was not taken on this question, a majority of the members who took part in the discussion were in favor of the removal of all tariff on food products.

The commission they suggested should be composed of the ministers of finance, trade and commerce, and labor. At the next meeting a motion will be introduced by Mr. Welsh, in which the adoption of a policy favoring the development of New Ontario and the improvement of agricultural conditions through the province will be suggested to supplant the abolish-the-bar policy as the leading plank in the Liberal platform.

\$40,000 in Ten Days. Will We Get It? We Will

WHILE other Canadian cities are spending hundreds of thousands upon publicity, Toronto has no advertising department and offers no bonuses to attract industries.

No, but we ARE bringing here in June 6,000 men, representing the biggest business interests in America and Great Britain, to see with their own eyes the immense advantages Toronto can offer them.

These are the firms, of whom scores will establish Canadian factories or branches in the immediate future. There are 324 American factories in Canada now.

For three years the Toronto Ad Club has fought for this great convention, knowing that the citizens would support and help carry it through when the time arrived.

The time is now here; the money must be raised. We now ask you, Mr. Business Man, and you, Mr. Professional Man, to share in this immense undertaking for the good of Toronto. In the next few days you will be invited personally to contribute to this fund.

THE estimated cost of handling this convention is \$40,000. Careful accounting will be made to contributors, and unexpended money will be refunded pro rata. The delegates will leave at least a quarter of a million dollars in the city. Preparations are well advanced. Twenty-one committees have been working for months. It now comes down to a matter of money, and we ask your help.

RIGHT TO CONTROL OF RADIUM SUPPLY

Hon. W. H. Hearst Brings Forward Bill Granting Power to Government.

OFFERS BIG REWARD

To Man Who Makes First Radium Strike Within Ontario Boundaries.

To discover whether Ontario possesses that rare and valuable mineral, radium, and to reserve to the government the right of its disposal, if located in any considerable quantity, the minister of lands, forests and mines, laid a bill before the legislature yesterday, providing a reward of \$25,000 in case the material or ore is found in any marketable quantity, the government reserves the right to enter upon the lands, whether located, purchased, or however held, and to mine the deposit.

The bill goes further and gives to the government the right to purchase private lands containing radium and to regulate the sale and use of the mineral.

firm, or anyone connected with me, receive directly or indirectly one dollar or one cent from the Standard Oil Co. in any way. Let me repeat what I said ten years ago.

Canadian Company.
"The fact is in the case of Sarnia, the Imperial Oil Co., incorporated in the late 70's or early 80's, a company, the majority of whose shareholders are Canadian citizens, residents of the province, men in the business life of the province and on both sides of politics."

"That company has gone on doing business in the province and in Canada. It is a business which is confined to the Dominion of Canada. My office in Sarnia as solicitor for that company has transacted their business since 1897. Bear in mind that that is before I had anything to do with politics in the Province of Ontario."

Furthermore, let me say that this company—I speak with absolute knowledge—has never had any matter in any shape or form connected with the government in which it was interested to the extent of one cent. Never before a department of this government or before an officer of the government was a matter pertaining to that company submitted for consideration or discussion.

"I cannot possibly conceive how any company could be farther removed from conflict with the government than the one to which I refer. Further, let me say, that this is not a producing company. It does not draw oil from oil wells.

GALT, March 10.—Waterloo Municipal Telephone Association has fixed the price of phones at \$70 cash, or \$90.70 in ten annual instalments. LIBERAL AMENDMENT TO THE BUDGET

At a late hour in the evening session the opposition brought in the following harshly-worded amendment to the government motion concerning the budget of the year:
"This house disapproves of and protests against (1) the presentation to the house by the provincial treasurer of financial statements which do not fairly set forth the real character of the financial transactions of the gov-

NORTHERN COUNTIES NEED GOOD ROADS, NOT SOCIAL REFORM

Zotiphe Mageau, in Course of Budget Debate, Declares Children in His Riding Are Kept Home From School Thru Bad Road Condition—Government House Criticized.

The budget debate in the legislature was taken up in the afternoon by James Torrance of North Perth. He centred his remarks about the immigration problems of the province. No better class of new-comers had reached Ontario than those of last year, he said, and if the same policy were pursued during the coming year there could be little complaint. Not a man or a woman placed by the colonization department had left his or her place during the year. They were always to be depended upon.

W. E. N. Sinclair of South Ontario followed with an attack upon the government house expenditure. It was a mountain of folly and the price had been increasing slowly to an enormous climax. Actually the total assessment of a county would appear small beside the sum involved in this policy. He took the government to account for their free methods of spending on such things as statute revision commissions when the agricultural department might well be made to blossom with more financial assistance.

No Workers in Summer.
The problem of work engaged the attention of A. T. Schofield of Guelph in a few brief remarks. He pointed out that in the industries with which he was connected there was a dearth of workmen in the summer months. Factories in Guelph had been known to close down for this reason. He would advise that the attention of the federal government be directed to some system by which all the public works in the cities might be carried on in the winter months. He did not like to criticize the workmen in general but some of them were undoubtedly improvident and spent too freely while work was in abundance. Even so the rise in prices of food had beaten the increase of salaries.

Thos. Marshall of Monck (Lib.), brought out a novel idea in suggesting that the government house be purely a utilitarian project in which social affairs should not be held. The province paid for it, he said, and the workman should have part of it.

Mr. Marshall is the educational expert of the opposition so that it was natural that he should criticize the government for not having all the department changes discussed on the floor of the house. Further, teachers were not given enough latitude in the teaching of their classes.

Improper Accounting.
He drew a correction from the provincial treasurer when he asked if all the revenues of the province were kept

strict account of and duly credited in their proper accounts. Trust funds borrowed for a specified purpose should be kept for that purpose.

Hon. Mr. Lucas replied that the government was not in the habit of ear-marking all their loans, and that to put three bars on the market, which would be analogous, would be ridiculous. A. E. Donovan of Brickville followed.

Children Kept From School.
The evening session resolved itself largely into a discussion between the northern members as to the attention their constituencies were receiving from the government. Government members regarded the co-operation of the departments as highly satisfying, in view of the demands on the revenue, but members of the opposition were loud in outcry against alleged discrimination. Among the latter the Liberal member for Sturgeon Falls, Zotiphe Mageau, claimed that while the big things of the country were being kept sight of, the children in his riding were kept home from school thru bad roads, forests and mines.

Need Good Roads.
"It is not social reform that we need in the north, but good roads," he declared. "We are not getting justice in our country. A new trunk line goes from the Soo to Sudbury, and another to Coniston, but none comes eastward to Sturgeon Falls. The people I represent are loyal and should get as much attention as others, but the system of patronage is to blame."

Charles McCrea of Sudbury advised

Historical Souvenir Free

We have recently issued an interesting little 32 page booklet entitled "A Few Facts."

It is attractively printed and is illustrated with thirty different pictures representing important historical events. The pictures are reproduced from drawings made especially for the purpose by that celebrated Canadian artist, Mr. C. W. Jefferys, A.R.C.A.

The subject matter treats with some of the distinguishing features of The Imperial Life and its ideal policy contracts—features which account for the Company having established a record unequalled in the history of life insurance in Canada.

If you are in any way interested in life insurance you should have a copy of this booklet. Ask for it. A postal will do.

ECLIPSE OF MOON VISIBLE TONIGHT

Washington Astronomers to Take Advantage of It for Observation.

WASHINGTON, March 10.—There will be an almost total eclipse of the moon tomorrow night visible from all points in Western Europe, North and South America, and Western Africa. Astronomers at the naval observatory here prepared tonight to make special observations during the eclipse, for while the moon is darkened unusually accurate work may be accomplished. Fainter stars than are normally observed for purposes of observations are more easily seen during an eclipse, it was said, and they are of great importance in correcting the lunar tables. As yet astronomers have found it impossible to compute from theory, tables which agree exactly with the positions observed in the sky.

The shadow of the earth will not entirely cover the moon, but at the middle of the eclipse more than nine-tenths of the diameter of the moon will be in the shadow.

The moon is due to enter the shadow about 9.41 o'clock tomorrow night, eastern standard time; it should reach the middle of the eclipse about 11:12 o'clock and leave the shadow at 12:44 a.m. Thursday.

LAST HONORS TO SIR GEORGE ROSS

Story of Late Senator's Early Days Dwelt on by Dr. Milligan.

HIS MIND WAS OPEN

A Man of Noble Purpose—Elmsley Place Thronged With Mourners.

There was an addy cosmopolitan procession in that one of Toronto's highways—of byways—known as Elmsley place yesterday morning. In it were timid uncertain-footed old men from a little Ontario town, ostentatious folk who had lost a friend, dignified senators, members of parliament who had come from the heart of the struggle of directing Canada's welfare to pay a last tribute; a representative of the governor-general, in scarlet plumes and smart trappings; old servants, and government officials. And as these people from widely separated walks of life filed slowly into the street they had no thought of the heated debate, the personal feelings. All that was flooded out by one thing yet—sorrowfully triumphant thought—they were for the last time on earth honoring the man who, no matter what his views were, had played the game with honor, who had been too brave to flinch at what he thought his duty—and who—now was dead.

Had Respected Him. This was the funeral of the dead knight, Sir George W. Ross. Some as they looked down into the dead face saw what had once been their old schoolmaster; others saw the man who while they walked in, humble paths had gone forth from them and climbed the heights to eminence; others, their leader, or opponent, in parliament or the senate; all saw the body of a man they had respected.

The service at the house, 3 Elmsley road, was eloquently simple. Three ministers performed it. Rev. Dr. Milligan, Rev. Prof. Law and Rev. Dr. Harper Cooper of Old St. Andrew's church. Dr. Milligan paid tribute in an unusual way—he for the first time expand upon the dead knight's goodness; he told the story of his life as he knew it.

With His Whole Mind. In his speeches were very crude and not by any means as satisfactory as they might have been," said the minister. "That was because he had had the advantages he might have had at that time. But, whatever he found to do, he did with his whole mind. So let the life of George Ross be a lesson to us all; to the young people and to the old people, too. I hear that old men are getting pitifully indifferent even with one foot in the grave. Let them learn to be humble, sympathetic, and ministerial in pagan, to ministerial in Christian."

"We Were as Brothers." "George Ross and I used to spend great times, great hours, together, talking about old folk-lore of Latin syntax, or religion. He was teachable, docile, and had an open mind. We were great hours. We were as brothers with no artificial walls between us, talking heart to heart. "I say the lessons of his life are for old men as well as young. We must help build up our fellow-Christians. We must do our good works instead of dreaming about them. I don't say we can be sinless, that means battle, conflict and struggle."

The honorary pallbearers were: Sir John Gibson, Senator Jaffray, P. C. Larkin, R. B. Belden, Hon. George P. Graham and Justice Latchford. The remains were laid in Mount Pleasant Cemetery.

To Do Him Honor. The governor-general was represented by his honorary aide, Sir Henry Pellatt. The lieutenant-governor was Dr. Pyne represented the Ontario administration, and Senator Bostock represented the senate; Hon. G. P. Graham, the Liberal party at Ottawa, and N. W. Rowell, K.C., the Ontario opposition. Among the many others present were: Sir Alan Aylesworth, President Falconer, Senator J. F. Kerr and Senator Jaffray, Prof. Haylor, Rev. Dr. George Grant, Rev. Dr. Carman, Mayor Hocken, Controller McCarthy, Dr. Adam Wright, J. F. Mackay, Stuart Lyon, P. R. Bone, Dr. C. K. Clark of the General Hospital, P. C. Larkin, Rev. W. F. Wilson, Frank Leigh, D. Rose, Thomas McCallum and J. E. McLaughlin.

THEO PLEADED GUILTY REMANDED FOR SENTENCE

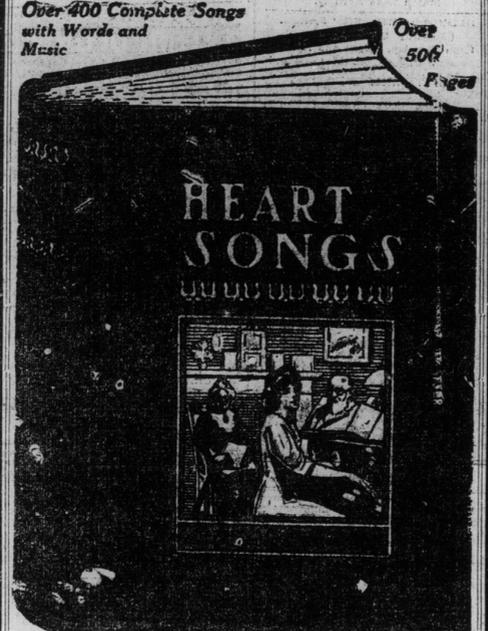

It took only about five minutes for Judge Morgan to dispose of the case of Francis C. Wright, alias Frank Dutton, alias Theo, the God, charged with inducing Harriet Sharpe, 70, whom he married, to transfer certain valuable securities to him. The prisoner pleaded guilty on the advice of T. C. Robinette, who appeared in his behalf, and the judge remanded him for sentence.

Mr. Robinette stated that the prisoner was quite willing to have the property returned to the plaintiff, and that already proceedings had been instituted in New York to have the marriage annulled. He further remarked that there was a marriage agreement to the effect that they should share alike in everything. Sentence will be pronounced at the end of the sessions.

OLD GAG DID NOT WORK.
 In police court yesterday Joe Long, charged with being drunk, tried to work the old ruse of answering to another prisoner's name, and being acquitted, but he was finally identified by another prisoner and fined \$10 and costs of 30 days.

Lead, Kindly Light.
 Found on Page 261 of "Heart Songs"

The words of this beautiful hymn were written by Cardinal Newman and published anonymously, in 1832, in the "British Magazine." John B. Dykes composed the music, and both words and music are known and loved wherever the English language is spoken. Cardinal Newman was for many years a priest of the Catholic Church in England, being made a Cardinal in 1879. He will long be remembered for his masterful defense of his faith in a controversy with the great Gladstone, known at the time as "the battle of the giants." His whole life was one of sincerity and saintliness, and his memory will always be revered by his countrymen. He died in 1890.

SENATE WAS ADJOURNED AS MARK OF RESPECT

OTTAWA, March 10.—As a tribute to the memory of Sir George Ross, late Liberal leader of the upper house, the senate today adjourned immediately after being called to order without the transaction of business.

When prayers had been read Hon. Mr. Loughnan, the government leader, arose and said: "I would suggest that all that portion of McGlashan Road north of this north limit of the new deviation of said McGlashan Road produced and further take notice that all persons whose lands may be prejudicially affected by the stopping up and selling of said road are requested to attend such council meeting, when they will be heard."
 W. A. CLARKE,
 Clerk of York Township,
 Clerk's Office, March 4, 1914.

MORGAN WILL CONTINUE TILL NOTIFIED TO STOP

Judge Morgan stated yesterday in reply to a suggestion that the question had been raised whether he was still a judge after the appointment of his successor, Emerson Coatsworth, K.C., that until he receives official notification he would go right on hearing cases.

What will, however, probably be his last case was that in which L. G. Reid was charged with issuing a cheque for \$20 when there were not sufficient funds in the bank to cash it. In fining the defendant \$10 Judge Morgan stated that if he thought that the man had intended to commit a criminal offence he would have sent him down for a term, but as he felt sure that the young man had no such intent he would only impose a small fine.

AND THE WORST IS YET TO COME

ELECTRICITY IS THE REMEDY FOR YOU

Give me one who crawls around, "Packing" a load of Dyspepsia, dizziness of eye, a droopy brain, a lame back, tired legs and a worried look in the face, and I can transform him into a man of brawn and brain with my Electric Belt, full of life and action, able to face the world, to fight its battles and conquer.

It's a grand thing to meet healthy, hearty, cheery man, or woman, who gives your hand a grip that's an inspiration—the very tones of the voice proclaim power; radiating cordiality like a dozen stove radiators heat. What is the secret of success? Energy Magnetism, a body full of Electricity.

This magnet force is within reach of all of us. Thousands and thousands have come to me wrecked in mind and body, and I have restored them to health and happiness with my Electric Belt. They are shouting the praises of my Belt, and they'll gladly tell you what my great appliance has done for them.

Electricity is life! It's the greatest curative force in the world to-day. I have developed a method of applying this force to the body by means of my Belt that has resulted in more actual cures than any Dr. McLaughlin.

Dear Sir,—I have used your Belt for over three months, and have received more and better results from it than from all the medicine I have ever taken. My back and kidneys are much stronger than they were a year ago. I have no pains in any part of my body since using your Belt. All my troubles are gone, and I have gained ten pounds in weight. I wish I had bought your Belt sooner than I did, for then I would not have had to suffer with the pains as I did. I feel quite proud of your Belt for what it did in my case.
 Yours truly, H. L. WEDDELEY.

FAIRBANKS GAS FOR PRIVATE INTERESTS

Owners of Big Gusher Say Petrolia Will Not Get Gas at Once.

OIL SPRINGS, March 10.—The flow of natural gas from the new gusher on the Fairbanks property has suddenly increased to more than 500,000 feet yesterday, following a fall of a few feet into the rock.

The well is now the greatest of any in Western Ontario. When first started on Friday the flow totaled 2,000,000 feet, and the well was then declared to be the greatest ever struck in Lambton County.

Interest among gas men throughout this section of the country has never been so keen as it is now. The gas is entirely free from foreign odor and offensive accumulation of dirt and waste.

The flow was first detected at 1900 feet. It is now practically certain that the gas will be piped into Petrolia for use for both fuel and light.

The pressure continues strong, while the flow is entirely free from foreign odor and offensive accumulation of dirt and waste.

ABANDON TOBACCO TO GROW ONIONS

Leamington Growers See Big Money in Onions—Transplanting Starting Soon.

LEAMINGTON, March 10.—Early vegetable growers have had their greenhouses started for some time and early tomatoes and cabbage are already sprouted. In another week these plants will need transplanting which means general activity throughout the fruit belt.

Since last season many new greenhouses have gone up, while many of the growers have added to their former capacity by numerous additions. The acreage is sure to be larger than that of any former year and the equipment far superior in detail.

James Bradford has perhaps eclipsed all other growers in building and improvements. He is now harvesting a large crop of excellent lettuce which there is now a large market.

Onions, Not Tobacco. The big money made by onion growers last year is causing a great influx of people into the onion district.

Already large numbers of Belgians are arriving to engage in that industry. The fact that numerous people who had formerly planted tobacco and who have become discouraged is looked to cause a much larger cultivation of the onion crop.

Inspector Urges New Collegiate Present Structure at Guelph is Much Congested—More Room Wanted.

GUELPH, March 10.—One of the most important matters brought before the board of education here today was the report of J. E. W. Marshall, inspector of high schools and colleges, in which he urged the board and the citizens carefully to consider in the near future the erection of a new collegiate institute on modern lines.

The attendance had increased 65 per cent in the regular C.P.R. and the rooms were at present congested. He suggested that enquiry be made to ascertain the progress made by the special committee on this matter. Plans are being prepared for a new collegiate institute and the people will be asked to vote \$100,000 for one.

To Build Fish Hatchery in Kenora Waters. KENORA, March 10.—Messrs. A. Finlayson, inspector for the fisheries department, Ottawa, and W. H. Brunell, engineer here, are looking over the ground for the new fish hatchery, which will be located at the south end of the First Canal. It is expected that the number will be increased by delegates from Guelph and other points along the line. The department will also be supported at the capital by Mr. E. N. Lewis, M.P. for West Huron, and other western Ontario members.

Remains of Young Woman Brought Home for Burial. ST. THOMAS, March 10.—The remains of Miss Minnie McLarty arrived in this city from Toronto at noon today via C.P.R. and will be taken to the residence of her uncle, Dr. Colin McLarty, 12 Wellington street, from where the funeral will be held, to St. Thomas Cemetery.

North Oxford Pioneer is Buried Today. INGERSOLL, March 10.—The funeral of William Alexander, who died here on Sunday, in his 86th year, and who had resided for many years in Oxford County, will be held today, from the residence of his son, Alexander Alexander, North Oxford, with whom he had resided for some time. He was buried in the cemetery here.

Died After Privation. GALT, March 10.—Mary Monkman, an aged woman who was found unconscious in her humble home, after suffering from privation and cold, died in the hospital today. She was 82 years of age and had resided in this city for many years.

He Honeymoons in Kingston. SHE AWAITS HIS RELEASE. LINDSAY, March 10.—Ester Edna Warwick of Fenelon Falls was married to Frank York in the Washington of the city. The ceremony being performed by Rev. Mr. McConachie, pastor of St. Paul's church.

New Judge Forms Toronto. GALT, March 10.—New County Judge Hamlin of Preston, was born at Uxbridge, is sixty-seven years of age, is a B. A. of Trinity College, Toronto, and a former partner of E. A. Duvernet, B. C. of Toronto. He settled in Preston twenty-five years ago, and was instrumental in forming the home industries which mark the town as a manufacturing centre.

Random Notes on the Mining Stocks.

There was an excellent demand for mining shares yesterday with the exception of Big Dome and Hollinger.

Porcupine Gold was active and strong, selling up to 1 1/2. It was said on the street that no definite action was taken at yesterday's meeting.

Dome Lake was again the strongest stock on the Porcupine list. Some splendid ore samples have been taken from the new vein at the 115-foot level.

Beaver was strong, selling up to 3 1/2. It is said that the statement in the 'in-course-of-preparation' will be made about 100 feet from the main shaft.

Foley-O'Brien sold up to 2 1/2. The highest point of some time. This mine is reported in active operation and some excellent ore is being taken out.

Liquidation continues in Hollinger and the insiders are allowing the stock to find its own level.

The vein on the West Beaver prospect which is being worked by the Grethwey Company under option is three feet, but not sufficient work has been done to establish ore reserves.

A mine has been started on No. 2B vein of the Cobalt Lake mine to sink below the 225-foot level.

SHORTS IN WHEAT WERE GIVEN SCARE

Falling Off in World's Available Supply Gave Prices Upturn

CHICAGO, March 10.—Short sellers over-reached themselves today in wheat. On trying to cover they found the market bare of offerings, and had to bid up prices to an unexpected extent. The result was a strong close at an advance of 5-8¢ to 3-4¢ net. Corn finished 3-8¢ to 3-4¢ up and oats with a gain of 1-8¢, but provisions were 1-12¢ to 1-10¢ off.

GRAIN AND PRODUCE

In yesterday's issue "The World" quoted Ontario wheat ranging from 87¢ to 88¢, when ten cents higher was ruling.

Local grain dealers' quotations are as follows:

Ontario oats—New, No. 2 white, 87¢ to 88¢, outside; 40¢ to 40 1/2¢, track, Toronto.

Manitoba flour—Quotations at Toronto: No. 1 first patents, \$5.30, in cotton 10¢ more; second patents, \$4.80, in cotton 10¢ more; among bakers, \$4.60, in late.

Manitoba oats—No. 2 C.W., 42¢; No. 3 C.W., 41¢, late ports.

GUELPH MAGNET FOR ORANGEMEN

Black Knights and Grand Lodge of Ontario West Gather in Session.

GUELPH, March 10.—The Grand Black Chapter, Royal Black Knights of Ireland, opened its annual session in Tovel's Hall this afternoon. Grand Master Ed Lankin of Toronto presiding. The black chapter will conclude by noon tomorrow, and the Grand Orange Lodge of Ontario West will convene in the afternoon at the city hall. Fred Dane of Toronto is grand master.

T. W. Fox, county master, anticipated an attendance of 700 to 800 at the grand lodge this year, an increase over the number at Windsor last year.

Assisting the county master is a reception committee, consisting of Messrs. J. E. McKay, W. McClelland, D. Shanks, J. E. A. Skine, H. Hatoh and R. Hatch Guelph and H. M. Henry, Hespeler.

All trains today brought delegates to the black chapter. Canon Walsh is spoken of as the possible new grand master of the black chapter.

Among the prominent members of the grand black chapter who arrived in the city today are: Ed Lankin, Toronto, grand master; Col. Belcher, Toronto, past grand master; Canon Walsh, Brampton, deputy grand master; A. A. Gray, associate deputy grand master; and Marshall Thompson, Windsor, past grand master of the British-American Order.

When the black chapter met, Grand Master Lankin read his address, and the reports of Grand Registrar Fennell of Toronto and Treasurer William Cook of Meaford.

Grand Registrar Fennell, in his report, said that the membership was 4128, an increase of 648 for the year. Eight new preceptors were organized during the year, one at Porcupine, two at Toronto and one at Selwood, Sudbury, Guelph and Homby.

Referring to Guelph, the grand registrar said that advantage would be taken to make Guelph the centre of a Protestant educational campaign.

OLD RESIDENT DEAD.

CORNWALL, March 10.—William Gallinger, an old pioneer of this section, died at his residence on Augustus street today, aged 79 years and 11 months. He was born in Cornwall Township and spent all his life in this section. He is survived by his wife, five sons and two daughters—Walter, William, Darcy and Mrs. Farnand, Gilda of Cornwall; Simeon, Kenneth and Mrs. D. Anderson of Watertown, N. Y. The funeral will take place on Wednesday afternoon at Trinity Church and Woodlawn Cemetery.

DEHORN YOUR CATTLE.

Buyers Discriminate Against Cattle Wearing Horns with Sharp Tips.

By a resolution of the Toronto Live Stock Exchange, passed over a year ago, a regulation will come into effect on the first of April next, docking all cattle wearing horns \$2 per head. This in a way sounds unreasonable, but when it is considered that the slaughterers of cattle have to stand annual losses of from a quarter to a half million dollars on account of concealed bruises, the regulation does not seem so harsh. However, a movement has been on foot to possibly postpone the date this regulation is to come into effect, and several prominent buyers interviewed on this subject express themselves as not being desirous of working what may be considered a hardship on the farmers and drovers by this regulation.

At the same time they point out the enormous losses which their houses have to stand, which is traceable directly to horned cattle. However, there seems to be a fair opinion that if some other method can be employed to prevent these bruises, they would be agreeable to postpone this regulation. One idea suggested, and it seems a good one, is that the farmer or drover procure a fine tooth saw, a small meat or mitre saw is good, and cut the horns out of the horns in such a way that the horns before they are mixed with strange cattle.

This specialty of killing is absolutely painless, easily done and prevents the beast from inflicting pain upon his fellows. Only one inch or an inch and a half of the hard tip of the horn is sawed off, care being taken not to cut into the quick.

It is suggested that if the Humane Society saw some of the bruised carcasses and horn hides on the cattle encaver would be made to obtain a law compelling handlers of live stock to at least fit the animals in such a way that they would not damage each other during shipment.

Materials for Spring Dress Making

The decided features of color and texture in the new fabrics are so many that only by a visit to the department can you get an adequate impression of their loveliness. However, here are a few hints as a suggestion of what awaits you here:

DRESS GOODS OF DISTINCTION.

Charming spring fabrics for every kind of garment now being worn on the Riviera, in London and New York.

Your particular attention is invited to our West of England Serge Section, where one big advantage is afforded you for choosing by the beautiful, clear north-west light. There will be a special display of Dress Goods on Thursday.

New Crepes on Display Thursday

The popularity of these beautiful fabrics is shown in the enormous variety and immense color ranges. They can be used for the most elaborate draping modes, and show up well either in the plain or brocaded weaves.

The new Ripple Crepes are most noticeable. Faconne Crepes have both plain and ripple grounds, with flowered effects in colors and in black. Printed Crepe Ondines come in many spring tones, with the neatest of spring patterns against contrasting grounds.

Crepe Ondules—one of this season's latest productions—show all-over patterned designs in raised stripe effects.

Armure Crepes, in plain colors, are a revival of the armure weave in this softer fabric. Plain and Brocaded Silk Crepe de Chines. The plain colors come in every shade and tone possible to procure; the brocades are handsome and in exclusive designs shown only by this department.

Charmeuse Crepes are most popular, with exquisite shadings in the plain weaves and striking designs in brocades.

These and many others, including the new Tango, Foulard, Paris and Jap Crepes, will be on display Thursday.
