TWO DEAD—TEN BADLY INJURED CROWDED CAR TOPPLES OVER

Traveling at Very High Speed a King-street Car Runs Into Open Switch at Car Barns Near Don Bridge, Flies Around Sharp Curve and Overtakes Into Road—Hundred Passengers Suffer From Injuries or Shock.

Two people were killed and thirty-five others injured, some of whom were not expected to live more than a few hours, when a westbound King-street car traveling at a high rate of speed, struck an open switch at the corner of King and St. Lawrence-streets, last evening just before 7 o'clock. The car swiftly turned on its side when it swung around the sharp curve southward, throwing its hundred passengers into a struggling, startled heap. The car was several minutes late and was crowded, even men, women and children were standing on the back platform. The motorman turned on all the power after he passed the switch at the new Don bridge and let his car go at full speed past the car barns, where he should have stopped. After his arrest he said that he tried to stop, but that the brakes were out of order, and he lost control of the car just after leaving the bridge.

Thrown Thru Window to Death.

Mrs. Jessie Deacon, 23 Elmer-avenue, who died a few minutes after the accident happened, was thrown thru a window near the front of the car and crushed beneath the heavy framework. The others in the body of the car were thrown into a mass, and those on the rear platform were scattered in the mud, some twenty feet from the car. Mrs. Hillis Williams of 7 Fenwick-avenue, died of a fractured skull an hour after being taken to the General Hospital.

It is estimated by street railway officials that the car was traveling at nearly fifty miles an hour.

Ten or twelve people were standing in front of the car barns, which are situated in the block running east from St. Lawrence-street, and they bore out the statement that the car was traveling at an excessive rate of speed.

It was the worst street car accident Toronto has known since Thanksgiving Day in 1904, when a car with about thirty people broke thru the railway gates at Queen east and De Grassi-street level crossing and was struck by a train. Four people were killed and many others injured.

The car had only been in operation for two months and was equipped with air and hand brakes. Manager R. J. Fleming, in speaking with The World, said that the car had the best brakes that money could buy and that had even both of these failed the motorman could have reversed the power. Mr. Fleming did not wish to say anything that would in any way pretend to place the blame on the shoulders of the motorman, but believed that when he thought he had lost control, he became excited and forgot about the hand brake and the reverse.

Don't Know Who Opened Switch.

How the switch came to be opened could not be found out as the men working around the car house were of the opinion that no cars had either been taken from the barns or taken in after 6:30 p.m. Manager Fleming and Superintendent McCullough tried for a full half hour to find out who opened the switch, but could not ascertain.

Several ambulances were immediately summoned, but in the meantime the majority of the injured had been taken into nearby houses, while others were taken to the General Hospital in another King-street car.

The death of Mrs. Deacon is peculiarly sad. Her husband, Alfred Deacon, is an engineer in the British navy and was in Canada on furlough, owing to the illness of his mother, who died from cancer on Saturday afternoon and is to be buried on Tuesday. Mrs. Deacon had been nursing her mother-in-law and had Mrs. Deacon on Christmas morning for interment.

CHINA RENEWS ITS CIVIL WAR

Imperial Forces Prepare for Hostilities—Rebel Leader Proclaims China a Republic.

PEKIN, Dec. 24.—(Can. Press.)—Word comes from Paochingfu, which is one of the important military centres, that the hostilities there are making preparations to care for many wounded, who are expected to be brought there soon. This is taken to indicate, along with other signs, that the imperial government intends to renew hostilities. It is believed that Premier Yuan Shi Kai sees the hopelessness of the peace conference which is now going on at Shanghai, and evidently desires to repeat the moral effect of the capture of Hanyang by retaking Wuhan, which, under present conditions, should fall easily to the imperialists.

An edict issued to-night in the dignified terms which have characterized such documents since Yuan Shi Kai assumed the premiership, confers posthumous honors on the imperialist commander who committed suicide when the City of Chaochow was captured by the rebels.

TORONTO'S TWO GREAT MIDWAYS.

The World regards the two measures submitted to the electors, first, to build the Bloor-street Viaduct, second, to annex North Toronto, as of the highest importance to the people of all Toronto at the present moment. They constitute the greatest jump-forward proposal that we believe was ever made to our citizens. It gives them two great midways, one of over seven miles on Yonge-street over the old king's highway, from the Bay to where the Don River crosses Yonge-street at York Mills, and it gives a great east and west midway along Bloor and Danforth-avenue and connects the old king's highway, Kingston-road and Dundas-street, by Danforth and Bloor-street, instead of, as formerly, by Queen-street and Dundas-street thru the city, thereby saving five miles in direction and an enormous climb in grade to all the thru traffic between eastern and western Ontario.

You can only gather the significance of these two moves by an examination—and we hope our readers to-day will give it a careful examination—of the plans published on our inside pages. It puts Toronto in four great quarters, maintains values in the congested portion, increases values in all the other portions of the city, in a short time a single fare on both these great midways will come, and at the same time it gives a special convenience to all the people east of the Don and north of Gerrard-street all across the city who wish to communicate one with the other by direct routes instead of as at present by extensive diversions in time and distance.

The midway across the centre of the city from Dundas-street in Etobicoke to the Kingston-road in Scarborough, as set out in the plans, is roughly fourteen miles—the greatest thoroughfare that is or will be in Canada for many a day. It has never been realized because of the inability of our predecessors to bridge the Don at Bloor-street and Danforth. The Kingston-road was only brought down to Queen-street because it happened in the old days to be easier to bridge there and because the first business was located along the lake front; but otherwise the great road traffic in settlement times would have been along Danforth and Bloor to Dundas-street at the Humber near where Bloor-street now is.

The only people who are now fighting this improvement are the Toronto Railway and their friends and some of those along the front who think it will injure business at the front. On the contrary it builds up its own country to the south of Bloor and makes the city grow and makes the volume of business coming in from the northern portion of the city greater than ever. It injures nobody; it improves everybody's position; it adds value to several thousand acres of city property and gives a special convenience as we said to people over the Don.

This great improvement has got to come some day and it is coming this year. It took three votes to carry the Sunday street cars and this is the third vote on the viaduct and that will finish it. Take a look at the maps on pages 1 and 2 and you will be convinced of the soundness of the above. Vote for a big Toronto.

Christmas Day Matinee.

For those who wish to really enjoy themselves, the special Christmas matinee of "Seven Days," at the Princess this afternoon is the treat. It is screamingly funny. In fact, it's all fun and the world loves laughter.

LONDON HYDRO IS MOST PROFITABLE SUCCESS

Surplus For Year Is \$23,000 of Which \$16,000 Will Be Devoted to Debenture Charges on New Distribution System.

The Waterworks Commissioners of London, Ont., who control both the hydro-electric distribution and water supplies, have issued their annual report.

It will be seen from the statement accompanying that after allowing for expenses incurred in power soliciting and paying all interest, and sinking fund charges on the city's construction account, there is a net revenue of somewhat over \$6000. The hydro-electric charge \$28 per horse-power per annum for monthly twenty-minute peaks, which is supposed to include everything but the sinking fund account on the city's high tension line construction, which the city is required to pay commencing 1914.

The good showing of the hydro-electric was due in a large part to the fact that a number of men were available in both the hydro-electric and waterworks departments, thus cutting down labor expenses. Another factor was the practical absence of moving machinery, which cut down the maintenance charges to a negligible quantity. This is a typical feature of hydro-electric operating stations. All repairs that became necessary were made by the city's employes themselves.

A large portion of the city's profit was derived from customers' peak loads. While the city pays a 2100 horse-power peak. This applies particularly to the power used for pumping the city's water, which has all been done in off peak periods. One hundred and ten miles of pole lines and six hundred miles of copper have been erected so far, and 2400 street lamps installed, the total candle power being 160,000.

The ensuing year will probably see an extension of the street lighting system by the addition of 1500 or more lamps, which will increase the candle power to 260,000. At present 3400 feet of wiring is laid in underground conduits supplying power to the five-cluster street lights. The street lighting system will probably be extended 8000 feet in the present year, conduits being installed at the same time to take care of all electric power for lighting, telephone and telegraph lines so that the unsightly poles will be obviated in the more important parts of the city. The charge for residence light-

Civil Service Commission

OTTAWA, Dec. 24.—(Special.)—The commission appointed last week to investigate the civil service will meet in Ottawa next Wednesday, according to present plans, as announced by Premier Burden. R. S. Lake is already here and will be joined by Mr. Ducharme of Montreal, and A. E. Morine of Toronto. Mr. Morine will be the chairman of the commission. The selection of counsel for the commission has not yet been completed, but will be taken up at once.

Steamer Ashore Many Lives Lost

Uruguayian Bark, With Crew of Twenty-five, Wrecked Off Coast of France.

BORDEAUX, France, Dec. 23.—(Can. Press.)—The Uruguayian steamer Rafael, from Montevideo, has been wrecked off Coubre Point, on the west coast of France, at the mouth of the Gironde. The Rafael carried a crew of twenty-five men. Five bodies have already been washed ashore.

The coast continues in the grip of the storm, which has lasted for several days. A score of sailing vessels have been driven on the rocks, the crews being rescued with difficulty. All incoming vessels report damage; several of them have had men swept overboard by the heavy seas.

The steamer Rafael hails from Montevideo, and was built in 1890. She registers 2341 tons.

The Premiers' Christmas Greetings.

OTTAWA, Dec. 24.—(Special.)—The first exchange of Christmas greetings between premiers of the over-seas dominions took place on Saturday, between Hon. R. L. Borden and Sir Joseph Ward. The following cable was received from the Premier of New Zealand: "Season's greetings to your self and colleagues. Ward." Premier Borden promptly cabled back: "Thanks, and warm congratulations to yourself and colleagues. Borden."

1 DEAD, 3 HURT IN FREIGHT WRECK

Freight Train Collided With Engine at Belleville—W. S. Simonds Killed and W. Post Dying.

BELLEVILLE, Dec. 24.—(Special.)—On Saturday night near midnight a collision occurred in the east end of the G.T.R. yard here, which resulted in the death of one man, another being fatally injured, and three others more or less injured.

A double-header freight train coming westward collided with a light yard engine. W. S. Simonds of Brockville, a brakeman, was instantly killed and W. Post, an engineer of this city had his right leg amputated and left leg terribly lacerated.

J. Lord, the other engineer, was slightly injured. J. Weir, his fireman, has his right arm and two ribs broken. J. Bone, a fireman, had several ribs broken and an arm injured. The injured are in the hospital here.

The condition of Post is critical, with but slight hopes for recovery. Simonds' wife is at present in Scotland. Dr. Farley, corner of this city, will open an inquest here to-morrow morning. The three engines were badly wrecked.

An open switch is alleged to have caused the unfortunate affair.

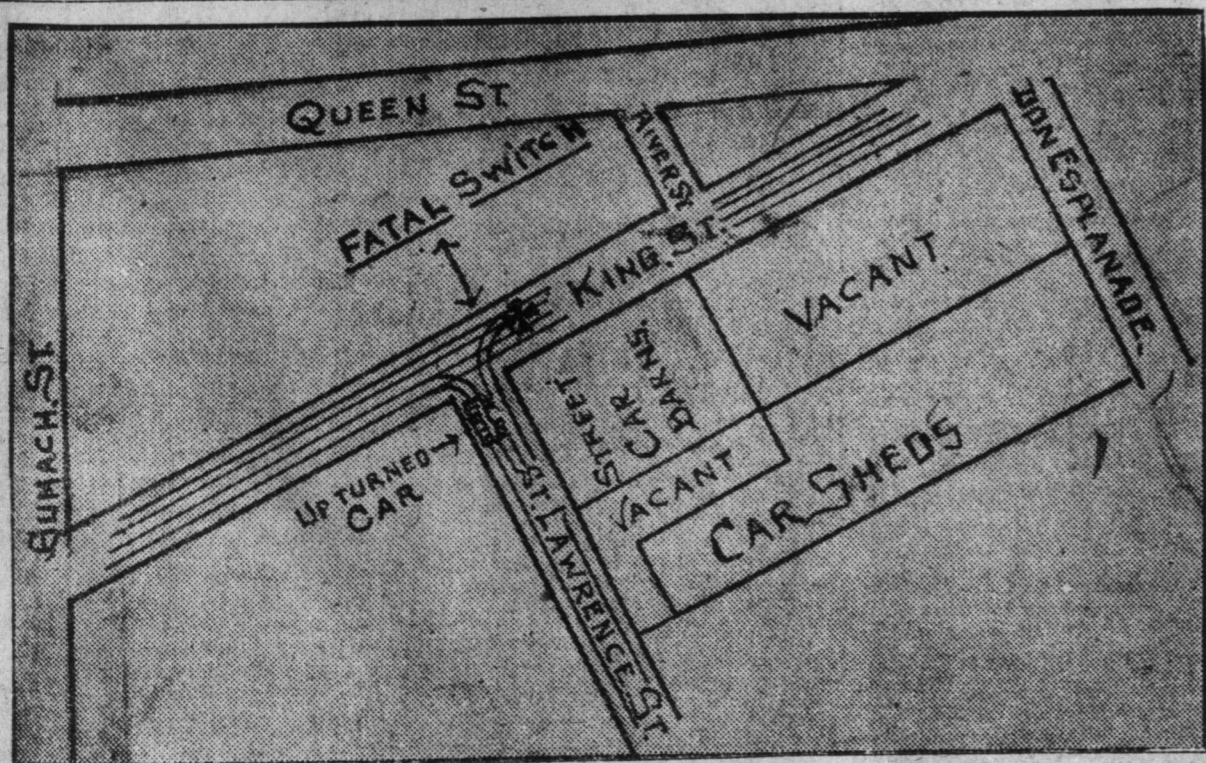

What the Tube Will Do.

"A tube up Teraulay street as far as St. Clair, with four or five stops en route," says The Globe, "will not effectively compete with the Toronto Railway. The scheme is based on the ridiculous assumption that all the people in the recently-annexed territory come down to the heart of the city to work. They do not."

Certainly they do not all, nor is the subway scheme based on the assumption that they do. It does take into consideration the fact that a great many of them do, and that, furthermore, their wives and children do go down-town for their shopping and their amusements.

Another thing that The Globe never seems to have taken into consideration is the fact that there are two hundred or so acres of vacant land adjacent to Yonge street that has never been filled up because it means paying two fares to get down-town. AND THIS IS NEARER TO KING AND YONGE THAN PARKDALE OR WEST TORONTO OR THE BEACHES.

The building of the tube will fill this up largely with men whose offices are in the big office buildings down-town. This means more traffic for the subway.

The scene of the fatal street car accident. King car traveling west runs into open switch and topples over on sharp curve.

HAMILTON HAPPENINGS

SLEEPING INDIAN RUN OVER

Altho Both Legs Were Severed, He May Recover.

HAMILTON, Dec. 24.—(Special.)—Alexander Day, an Ojibwa Indian from Caledonia, lies in the city hospital with both legs off at the knees, as a result of being run over by a G.T.R. passenger train yesterday afternoon near Caledonia where, at the time of the accident, it is alleged, he lay slumbering and incapable on the railway tracks.

He nearly succumbed from loss of blood before arriving at the hospital, but is now thought to have a fair chance of recovery.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Hanrahan, proprietor. Phone 1465.

Armstrong, Ward 3—Dr. Watson (acc.), Ward 4—H. Steenebauch, D. Lyle, Ward 5—A. B. Day, William Pearce.

Just a Dream.

BRANTFORD, Dec. 24.—(Special.)—Announcement was made here Saturday that John D. Rockefeller had made no offer of \$15,000 towards a temple to be erected by the Independent Labor League in Brantford. Inquiry was made thru Messrs. Gates and Murray, who look after Rockefeller's private benefices, and a reply was received denying report from this city a few weeks ago, emanating from W. Madison Hicks, president of league. Hicks created a stir in the recent provincial contest, by making attack on Hon. Col. Hendrie of Hamilton. His headquarters are in Brantford, where he is endeavoring to launch a new labor party.

RICHESON IS RECOVERING.

BOSTON, Dec. 24.—Christmas eve found Rev. C. W. Richeson, who is awaiting trial charged with the poisoning of his former sweetheart, Avis Linnel, somewhat recovered from the effects of his self-inflicted wound and the subsequent surgical operation last Wednesday. His physicians said, following their daily call, that the prisoner is now out of all danger, and he is still confined to the cot in his cell. Several bouquets of flowers, one of them the holiday gift of his fiancée, Miss Violet Edmands, were placed beside the minister's cot as reminders of the Christmas season.

BIG LOCKOUT IMMINENT

160,000 Weavers in Acrrington, Eng., Will Be Affected.

MANCHESTER, Eng., Dec. 23.—The executive of the Weavers' Trade Union has decided to strike the mills and mill operatives at Acrrington against the employment of non-unionist workmen, which occurred Dec. 20. There is little prospect therefore of averting the lockout of 160,000 operatives, which is threatened by the mill and mill owners and is to begin on Dec. 27.

START WORK AT ONCE

Hudson Bay Railway to Be Proceeded With, Says Mr. Rogers.

WINNIPEG, Man., Dec. 23.—Work on the construction of the line of railway to Hudson Bay is to be proceeded with at once. This information was made public today by Hon. Robert Rogers, minister of the interior, following an interview with J. D. McArthur, railway contractor, who will have charge of the work, the tender for which was awarded to his firm by the late government. It is to be a government-owned and government-operated line and a line of ships owned by the Dominion Government to operate between Hudson Bay and Europe.

Japs Are Pleas'd.

ST. PETERSBURG, Dec. 24.—(Can. Press.)—A news agency despatch from Dalny, Manchuria, says that the Japanese do not conceal their delight at the decision of the League of Nations between Russia and the United States over the Jewish question. They perceive in this a new ground for closer relations between Japan and Russia.

Pope Congratulated.

ROME, Dec. 23.—The whole of the members of the Sacred College at present in Rome, were received this morning by the pope, to whom they presented their Christmas greetings. The audience lasted a considerable time. The dean of the cardinals expressed the felicitations of the Sacred College in a few words, after which conversation became general, each cardinal personally congratulating the pontiff.

FATHER VAUGHAN ASKS AID FOR MISSION OF REV. ELMORE HARRIS

Appeal Given Generous Response—Toronto at Christmas Good Enough For Him.

All the legal standing room was occupied, in addition to many camp stools at Father Vaughan's sermon last night at Our Lady of Lourdes. The famous Jesuit Father made a notable address in behalf of the Roman Catholic Mission in Rhodesia. When the time for taking up the collection was reached the outpouring of free-will Christmas offerings, largely of bills, was in full accord with the outpourings of eloquent appeal by the reverend pulpiteer.

President Barrow Predicts Promising Season in International

Note and Comment

Here we are spending Christmas Day, 1911, and to those good fellows who like sports and pastimes on the turf, field or flood, we greet you with the compliments of the season and best wishes for a happy new year.

The York Race Committee and Brethren of the Ancient Fraternity of York Gimcrackers entertained a numerous company at the one hundred and forty-fifth annual dinner of the York Gimcrack Club, held Dec. 12, at the Station Hotel, York, Belgium. The representatives of the Jockey Club, and Mr. E. Hulton, whose horse, Lomond, won the Gimcrack Stakes at the last York August meeting, were the principal guests, and the chair was occupied by Mr. James Melrose, chairman of the York Race Committee.

It is always the winner's privilege to make an extensive speech, and on this occasion Mr. Hulton's was no exception, filling two columns of space, as reported in London Sporting Life. The chairman, in proposing the toast of the evening, the winner of the stakes, pointed out that Mr. Hulton had already won the Waterloo Cup with his second-best horse, (Applause)—and that he was now in the truly enviable position of having to make an after-dinner speech—(laughter)—as the owner of the winner of the Gimcrack Stakes. (Hear, hear.)

Mr. E. Hulton was warmly applauded. At the outset of his speech he said that, as a north-countryman, winning the Gimcrack Stakes was a very gratifying experience. Remarking that Lomond was, in a way, the hero of the occasion, he proceeded to give some particulars as to the horse and his running as a two-year-old. Englishmen self-controlled and self-reliant, and better race than the spoon-fed article. (Applause.) Let racing be kept clean. Let people of every class feel that they could take part in it with comfort and decency. Let people realize that betting was an amusement, and a very dangerous one, and not the get-rich-quick business, and racing would flourish, and benefit the nation. (Loud applause.)

Mr. Alfred Watson, editor of The Hamilton Magazine, responded to the toast of the press. He said he thought that, on the whole, the racing community was fairly well served by the press, not only in the sporting papers, but in all the journals. Alluding to the agitation to eliminate all matters connected with racing, and particularly the odds, from newspapers, he said that the market, as it was called, was of much interest to a good many people who really did not bet. The proposal to introduce a bill into parliament to authorize postmasters and their assistants to open any letters which they thought might contain anything about betting was a large order, and absolutely impracticable. (Hear, hear.)

The Toronto has been suggested as a possibility for the outlaw United States league of professional baseball clubs that was duly organized in New York last week, the new organization with the big name is not likely to find easy sailing, according to John A. Heydenreich, secretary of the National League, and other men closely identified with the great national game. One of them said:

Where will this new league with its high sounding name get the players to satisfy the discriminating fans? There is little or no chance for the league to be recognized by the National Commission if it proposes to put teams in New York, Brooklyn, Washington, Richmond, and Cleveland, five of the eight cities which it has decided upon. The salaries for players would have to be extortionate to attract men from the major leagues, and they would be disproportionate to their value to draw players from the minor leagues. The fans in such cities as New York, Brooklyn and Washington have been educated to too high a point to be satisfied with baseball far below the standard. The answer is plain. The new league will be on the rocks and their promoters will be out of pocket in short order.

William A. Whitman of Reading, Penn., who has been elected president, secretary and treasurer of the new league, is optimistic. He says that there are plenty of good players being around looking for make up eight teams and that he and his associates would have nothing to do with contract jumpers.

You can read what Ed Barrow has to say about Mr. Whitman.

The Toronto clean break rules were enforced for the first time in New York City at the Hogan-Nelson bout. Before the bout started Commissioner O'Neil served notice on Referee Charley White that the rule passed by the State Athletic Commission requiring the boxers to break clean out of clinches should be vigorously enforced. The Boutler didn't like it, but had to cut out the "rough stuff."

The Gotham papers were pretty unanimous as to the result. It was, says the World, a fast, but one-sided battle of ten rounds, when One-Round Hogan of California changed Battling Nelson's ring name to the "Decent Dane." In every round except the seventh, which was even one, Hogan cut and smashed Nelson's head and often only Nelson's staying powers enabled him to last the ten rounds.

PRESIDENT ED BARROW SATISFIED WITH CIRCUIT

Speaks in Glowing Terms of Prospects for 1912—Fails to See Any Danger From Outlaw Ball.

Ed Barrow, the big president of the International League, who is spending the Christmas holidays in the city, is well satisfied with succeeding in connection with his circuit. The Eastern's last season was the best in its history and he predicts that the season of 1912 will show the International League greater than ever before.

The talk about the sale of the Montreal franchise is all moonshine, says Mr. Barrow, who doubts that Mr. Lichtenhein would accept \$70,000 in cash for his club. It was generally thought that Montreal last season but according to President Barrow, such was not the case. Montreal is at present a winning ball town, and in a few years the president says it will be as strong as Buffalo, Baltimore or Rochester.

As for Richmond getting into this league, Barrow wants to see none of it. He knows Richmond as a member of his old Atlantic League circuit, when the Atlantic ranged from 10 cents up. The city is now in the Virginia League, where it properly belongs and is likely to stay.

Providence was the only club on the circuit to quit a loser last year, and that was owing to a combination of local circumstances. The club has changed hands, and will be run by a joint stock company in 1912, with Fred Lake as manager and Mr. Rice or Mr. Yarnes as president. The Greys have a lot of good material and with a little strengthening and proper management will surely be well up in the race.

President Barrow is making a change to International was unusual, and he is satisfied that it is a lot better than the old name. He counts his circuit as much the best on the map after the two majors, and gives the values of the franchises in the eight cities as follows:

Baltimore	\$150,000
Rochester	150,000
Buffalo	150,000
Toronto	100,000
Newark	75,000
Providence	72,000
Richmond	70,000
Jersey City	60,000
Total	\$827,000

No wonder that President Barrow is proud of the circuit he presides over, and he is in no way alarmed over the intrusion of the new outlaw United States League. Barrow knows all about them. Whitman, the man who is elected president and secretary, has a ball park on his hands at Reading, Pa., and he is just trying to get some person to use it. He is a regular baseball bug and besides his park he is not contented with the National Commission, there is really no money behind the league, and it would be reported organized, he doubts if they would ever get going. It would take \$3,000,000 to finance the proposition, and Barrow says that no one would put up that much. It is a fool's errand to put it in outlaw baseball.

President Barrow recommended Joe Agler to the Chicago Cubs and he expects to see the Newark first baseman play regularly for Manager Chance. If the Chicago fans ever see Agler work they will surely keep him on the job. He is just one of a man, a good one, or Sailer, the other two players mentioned for the position. President Barrow will return to New York this week.

Sullivan's Sparring Partner Dead.
ABERDEEN, Wt., Dec. 23.—Harry Hart, aged 35, the former sparring partner of John L. Sullivan, and who helped Sullivan win his fight with Jake Kilrain, was found dead in an abandoned building at Comopolis to-day. A coroner's jury late to-day returned a verdict that death was caused by concussion of the brain, but did not fix the responsibility.

Balm Beach Gun Club.
The annual Christmas shoot of the Balm Beach Gun Club will be held at their grounds, Eastern avenue, this morning at nine o'clock. All members and visitors are requested to be on hand and early. This will be a turkey and spoon shoot.

Nelson was merely a punching bag for Hogan. The Californian nearly dropped him twice with hard rights to the face. In the fourth round Hogan turned him around like a top with a right hook to the jaw. In the last round another right cross to the jaw made Nelson's legs sag, and for a second it seemed as if he was on the verge of collapsing. But he gathered the storm till the bell. Outside of his aggressive rushes and fighting at close range, Nelson did very little real and effective work. His punches lacked steam. Twice only during the ten rounds did he manage to put over anything, besides a smacked of a wallop. Without a stiff punch Nelson was at Hogan's mercy.

Sammy Lichtenhein Turns Down Offer

Made by E. R. Carrington for Montreal Club—Eddie McCafferty Will Again Manage the Team.

Lichtenhein will stick. A dispatch from Montreal says that President Sam Lichtenhein has turned down the offer made him by E. R. Carrington, whereby Mr. Carrington, either for himself or for parties unknown, would secure control of the Montreal baseball club. President Lichtenhein, it is said, has given the matter his deepest consideration, with the result that he has decided that he will stay right with the game.

Regarding the much-discussed management question, it is understood that, if a suitable manager can be found who is willing to stand the gaff of having his business interest in the club managed by another writer, he may replace McCafferty. So far no definite decision has been reached in this matter.

INTERMEDIATE SOCCER FINAL

Rosedale This Morning at 10:30—Soccer Notes.

The final game for the intermediate championship of the T. and D. League will be played this morning at Rosedale between North Riverside and Royal Hearses.

Both teams have put up excellent games this fall and a good game is expected. Sid Banks has been decided on as referee and the kick-off is down for 10:30.

In the game on Saturday North Riverside defeated Don Valley by 3 to 1.

High Scores at the T. & D.
Saturday night would be the most exciting and exciting Xmas week yet, turkey rolling in the history of the Toronto Bowling Club, commencing last Monday morning. All members entered into different competitions with a determination that might bring home one of the 20 prizes which are to be given at the end of the week, and that everyone had a fair shot at his favorite game can be fully corroborated by the big boys who claim they were tickled to death when Saturday night came. Carpentier in Paris Hailed as World's Boxing Champion

The Georges Carpentier, the French boxer, was his heavier than Harry Lewis, the Frenchman are hailing their countryman as a world's champion. There was a record house at the Cirque de Paris to witness the 20 rounds contest. There existed a general opinion that the task set the youthful French boxer would prove too much for him. That this turned out quite the contrary came as a pleasant surprise to every Frenchman present. Except in five rounds Carpentier completely outboxed his opponent.

Both men were in excellent condition, although it should be noted that the American was giving the best part of a stone in weight to his opponent. The lads weighed in at 2 o'clock, Carpentier being 160 lb. and Lewis 155 lb. Carpentier weighed 160 lb. This proved a great handicap for Lewis, and demonstrated the fact that Carpentier is now too formidable a boxer for any man to meet at anything but even weights.

The further fact that he outgeneraled and thoroughly outpointed so brilliant a ring expert as Harry Lewis sends Georges Carpentier to the topmost rung of the fight ladder. His victory was received with an outburst of enthusiasm, seldom, if ever, before seen at a boxing match. There is no doubt that the boxing boom already started in France by the French boy's victories over Sid Burns and Young Sisco, has now assumed boundless proportions. There was not a vacant seat in the enormous Coliseum, and 600 people, at prices varying from 5 to 100 francs (1 to 6) per seat, the arena must have been packed for the occasion.

Previous to the contest Jack Johnson stepped into the ring and announced his intention of boxing in Paris shortly.

Hockey Gossip

The first practice was held the other night at Frank Patrick's new artificial arena. Only half the ice surface was available. Among the players who were out on the ice were Frank Patrick, Eric Johnson, St. Griffiths, Tommy Phillips, Harry Hyland, Jimmy Garragh, turned out alone with the New Edinburgh Club. Lesueur will again captain the team and play goal, and is already in pretty good shape.

More excitement was caused over the arrival of Tommy Dunderdale, who will play this season at Victoria, than any other player from the east to go west this winter.

Dunderdale met a number of old friends at the rink. Dunderdale says that Frank Patrick is very anxious to have Holden go out west. Tommy also received a letter from the secretary of the Quebec team advising him not to play outside the N. H. A., saying that if he did he might have trouble getting back again.

PARAGUAYAN REBELS

SUBROUND CAPITAL

President Rojas Has Big Job on Hands—Warships Hurry to Scene of Trouble.

PARIS, Dec. 24.—Paraguayan advice to the Temps says that the revolutionaries have now completely surrounded Asuncion, the capital.

Brazil and Argentina have sent warships to Paraguayan waters, the revolutionaries of which, at the request of the diplomatic corps, have given notification to the government of Asuncion or other fortified places. The government has sent a message to the revolutionary committee, which has organized a provincial government, headed by Dr. Emiliano Gonzalez Navero.

At Pilar, on the Paraguay River, about 112 miles from Asuncion, the revolutionaries have three warships, which were brought from Belgium. These are believed to be the only ones which it was reported recently were intended for the Paraguayan coast.

Hogan went in at 124 pounds at 6 p.m., with Nelson at catch weight, about five pounds heavier. One Round easily had the better of the first sessions, but he was much at fault for clinching. In a sharp rally in the fourth Hogan sent the Battler to the ropes with a left jab and right swing and Nelson came back but weakly with short arm work. In the fifth Hogan staggered the Battler with a hard right uppercut to the chin, after which the Battler got in close and failed to land any clean blows. Hogan opened the next round with a left and right to the head which was too far back to be effective. Hogan's right rights and lefts to the head and right on the neck.

Hogan landed four lefts in quick succession in the seventh, but later, after breaking a clinch, the Dane swung a staggering hard right to Hogan's body. One Round came back with uppercuts, both right and left. The Battler got in another good blow in the eighth, but Hogan quickly took again with a stinging left to the face and rights to head and body.

Hogan opened with hard blows in the ninth and was really all over his man with Nelson resorting to infighting again. In the last round Nelson landed a hard right to the pit of Hogan's stomach and a full minute of hammer-and-tongs fighting followed, which the crowd voted Hogan had the best of it.

THE DEAD—TEN BADLY INJURED

Continued From Page 1.

er, not been gradually sinking in health he would have returned to the old country with his wife a month ago, his furrough having expired then.

Thomas Hall, who gave his address on entering the General Hospital as 41 Moss-street, gave several other addresses afterwards. He is in a very low condition, suffering from a fractured skull. At 3 o'clock this morning, none of his relatives had made any enquiries about him, and at that time it was feared that he would not live more than an hour or two.

The Motorist's Story. The car tracks at that point were new, having been laid only last week. The switch which caused the trouble was found to be in excellent condition after the accident happened, and all the street railway officials were sure that it must have been opened after the last King-street car had passed over it.

Motorist Moore was taken into custody by Detective Mulholland and lodged in Wilton-street for two years. After his arrest he told World reporter a rather different story to that told to the officers at the scene of the accident. He said that while he was nearing the switch he noticed that it was opened and applied the air brake, but it would not work. He said that he tried to reverse the power, but it was not sufficient to stop the car in so short a space.

Moore had been with the company in the capacity of motorist for two years and was considered one of the best men. This is the first accident that he has had.

Driver Hardy to Blame. "This is one of those accidents which could not be averted by expense," said Mr. Fleming. "That car was equipped with the best hand and air brakes that money could buy. The car itself has not been in operation more than two months, yet long enough to have been thoroughly tested many times. In my opinion the motorist must have lost all presence of mind when he believed that the car had the better of him. It is possible that that motorist never knew that switch to have been left open before. There are instructions that when a switch is closed in that way it shall be closed immediately. The blame, therefore, can hardly be laid on the shoulders of the motorist. I was in church when the accident happened, and as soon as I learned the cause I made enquiries to find who had left it open but so far I have not the slightest idea."

Neither the motorist nor the officials of the railway company deny that the car was going at an excessive rate of speed, but that it was over-crowded, but rather confirm that statement.

The car being overcrowded, increased its momentum as it descended the grade west of the Danforth bridge, and when it attempted to turn the car at such a high rate of speed, made an accident inevitable.

The fatal switch was only placed in commission Sunday morning, and is known as a spring patent switch. The distance from the front track of the car after it had turned over from the point of the switch was just 90 feet. The car did not leave the tracks at all until it turned over with the weight of the body of the car swinging in a rounded curve. It lay on the west side of the road, with the top almost touching the sidewalk.

Conductor Deacon, who was unhurt, was in the middle of the car at the time and did not notice that they had passed the stopping place in front of the barns. He said that he was so busy that he hardly knew just where the car was.

After being thrown into a heap of debris, the difficulty in getting out of the car was the only way left for them to make exit was to crawl to the rear platform and out the window in the middle of the vestibule, which had been left open for the conductor to reach the pole rope. It took ten minutes for all the people to get out.

Mrs. Deacon at this time was not dead. Even though the barns were not a dozen yards away, a crane could not be found and the car was crushed beneath the roof at the south end of the car, had expired.

The car itself was little damaged, outside of broken windows, and the frame badly scratched and cracked. The trucks were intact, and did not leave the car body. The car was righted after the accident had been removed at 8.30 p.m.

Stories of the Passengers. In the fight to get out one woman saw a man step on the face of a woman who had been thrown down by the shock of the upset. When the car went over the same woman saw a woman throw herself out of the car out a window on the other side and on top of them the seat from the other side and a man fell.

C. H. Moody, representative of the Canadian Builder, who is at 25 Pembroke-street, was one of the passengers who was badly cut up. Asked if the car was going at an excessive rate, he said: "It is a marvel to me that we were traveling too fast, that is not too fast for a car going down hill. I have never in all my life, and I have been in some big cities, seen a car so crowded. It is a marvel to me that there were not more killed."

"When the car went over I was thrown on top of Mr. Beal and had four others on top of myself. I had to squeeze my arm out and catch hold of the badging on the side of the car and raise myself up in order to keep from suffocating. Mr. Beal, it seems to me that more light should be provided at this particular spot, as it is very dark. I would also say that there should be some one to look after the switches at this point, as it looks to be a pretty busy spot." Mr. Moody has a very bad cut on the side of his head. His physician says that it will leave a permanent scar. He was also cut about the forehead and mouth and badly shaken up.

Three Sisters in Accident. Misses Marion, Edith and Isabella Wnate of 136 Beach-avenue, were also passengers. They were interviewed, but their father, Mr. Wnate, said that from what he could get from them the car was going at a great rate of speed. It had come down the hill very fast and had not stopped at the barns. It was also very crowded. These young ladies suffered more from shock than anything else. J. E. Marr, a passenger on the car, who was badly shaken up, said to The

IT'S FIVE O'CLOCK AFTER JANUARY 1st, 1912. OUR CHRISTMAS GIFT to our entire staff this year is a holiday gift—a real holiday gift in the strictest sense of the word—we are adopting the 5 o'clock closing idea. For several years we have pursued with great satisfaction the policy of closing at 5 o'clock during the summer months only. After January 1st, we propose going further—in closing at 5 o'clock "the whole year round." We are prompted to do this by the fact that in the phenomenal growth of our city many members of our staff have established their homes in districts somewhat remote from the business centre, thus rendering it impossible, with the present closing hour, to reach home and make the necessary arrangements for keeping church, concert or social engagements beginning at 8 o'clock. The Christmas trade this year, we are glad to report, has exceeded anything in the history of our house, due in a large measure to the efficiency and loyalty of our staff. We believe this "Holiday Gift" will be fully appreciated by them, and as our patrons will in no sense be losers thereby, we have confidence in asking their co-operation in thus shortening the hours of labor and increasing the time available for recreation and domestic and social betterment. RYRIE BROS LIMITED DIAMOND MERCHANTS, JEWELERS AND SILVERSMITHS. JAMES RYRIE, President. HARRY RYRIE, Sec.-Treas.

CHRISTMAS IN TORONTO

World: "The car was crowded and going very fast, but I could not say at what rate of speed we were traveling. To-day, a thousand dollars reward would not disclose a croak even at the city hall, while the civic departmental heads are all said to have been made very nervous. She suffered from bruises and a considerable shaking up. She is 52 years of age.

A Previous Occurrence. About three weeks ago a King night car, on which was riding a World reporter, narrowly escaped an upset at the same place. The accident happened yesterday. He said that in his opinion it struck the switch and, careening dangerously, ran down the sidewalk for a few seconds before it was righted and the car was going to topple over, but it was not running fast enough to give the necessary jolt. However, the passengers were somewhat shaken up and several were thrown from their seats.

FRENZIED RACE FOR GOLD. Two Hundred Men Strive Madly to Reach New Field in Alaska. DAWSON, Yukon, Dec. 24.—(Canadian Press).—Two hundred men, with dogs teams and prospecting outfits, are making a six-day race to the new goldfield at the head of Sixty-Mile River, 120 miles from Dawson.

The stampee is the greatest seen here since the first Klondike rush, fourteen years ago. Many gold-hunters are traveling practically day and night. Ernest Miller, who returned yesterday from the new camp, said some of the men from Dawson were wearing ripped and torn mocassins, worn nearly off in their haste to get a claim, and some went thru three miles of snow water. The temperature was above zero when the rush began, but has since dropped to forty below.

TWO DROWNED UNDER GIRDER. CAMDEN, N.J., Dec. 24.—(Canadian Press).—Two men were killed and six others seriously injured while placing a girder across Cooper Creek on the McFord branch of the West Jersey and Sea Shore Railroad to-day near Haddonfield, N.J.

The men were swinging the girder on the main span of the bridge when they lost control of it and were dragged to the stream, 40 feet below. Wm. Suders, aged 45, and Wm. Carey, aged 28, were caught beneath the girder and drowned. Eight other workmen were assisted to the shore, but six of them were taken to a hospital, suffering from broken legs, arms or severe sprains.

WOMEN AND CHILDREN SLAIN BY RUSSIANS

TEHRAN, Dec. 24.—(Can. Press).—Telegram from the vice-governor of Tabriz gives an appalling picture of the situation in that city as a result of Russian aggression. He says: "I swear before God that innocent women and children are being butchered in cold blood." The vice-governor estimates the number of Persians killed in Tabriz as 500, and adds: "The Russians ignore our overtures for the cessation of hostilities." Telegraphic communication between Teheran and Tabriz is now interrupted. The British and Russian legations are without means of communication with their consuls.

THE REGENT, NAZIF-AL-MULK, to-day, acting in agreement with the cabinet, declared the national council dissolved. The war minister sent troops to prevent the deputies from entering parliament building. The Persian Government has unconditionally accepted the Russian ultimatum, Russia having previously agreed to a slight modification of one of the demands. The Russian minister has signified his acceptance of the Persian reply.

RUSSIAN CASUALTIES, 150. ST. PETERSBURG, Dec. 25.—(Can. Press).—According to reports from Teheran, the Russian permanent detachment, camping outside Tabriz, consisting of 60 men, has made a tactical manoeuvre and occupied a position at Basmadj, on the Kasbin-road. Rumors have reached Teheran that the Russian casualties in the recent fighting at Tabriz numbered 150.

There is no communication between this detachment and a second detachment, composed of a handful of soldiers, which defends the Russian consulate within the town. The Russian residents of Tabriz have taken refuge in the consulate, the roof of which is protected by sacks of earth. The defenders are in the best of spirits and are not replying to the sporadic shots from the Russian side, who are entrenched at the citadel. Occasional firing by the marauding guns of the main detachment is heard.

A de patch received to-night at the St. Petersburg office of the Envois Extraordinary says that employees of the Tabriz-road have succeeded in penetrating the camp of the Russian detachment, sending back a report that the casualties among the Russians were very great.

FATAL QUARREL OVER CANDY

OLVEY, Ark., Dec. 23.—(Can. Press).—Because his eleven-year-old sister refused to share her Christmas candy with him, 12-year-old Bryan Bridwell, according to the police and members of the family, blew off her head with a shotgun.

He suggested the division as they were returning home from their shopping expedition, and when she murmured he threatened her with a shotgun, which was discharged when the trigger caught in his coat as he raised the weapon.

While in Sing Sing, Boehman, sentenced for life met a doctor imprisoned for a minor charge, who promised to aid him when released, and as a result of the doctor's activities recently, the necessary witnesses were secured—the proprietor and bartender of a music hall, both of whom have made affidavits that Boehman was in their place at the time the crime was committed.

MOTHER SCALDED TO DEATH. Boy Returned With Christmas Gifts to Find Grim Tragedy. NEW YORK, Dec. 23.—When 14-year-old Walter Driscoll left his mother late this afternoon, he kissed her and said that when he came back in the evening he would bring her a Christmas present. The lad spent several hours hunting for something in the stores which his mother would buy and returned to his home this evening with two parcels under his arm, a present for both his mother and his father, who is a seaman.

He was mystified to find the door locked and after puzzling over the situation, he climbed up the fire escape to the fifth floor, and forced a window into the flat. He found his mother scalded to death in the bathtub. The hot water was still running, and the doctor, who was later called, believed that the woman had fainted and fallen into the tub while preparing to take a bath.

ALL CONTROLLERS QUALIFIED. The day of qualifying as candidates in the municipal elections ended Saturday at 9 o'clock. If the declaration papers of candidates had not arrived by then, their names will not go on the ballot papers. All the candidates have qualified.

Confessed to Double Murder

Disturbed While Robbing Saloon in Nelson, B. C., Balsam Killed Two Men.

NELSON, B.C., Dec. 24.—(Can. Press).—The mystery of the double murder which occurred in the Manhattan Saloon in the early hours of the morning has been solved by the confession of Albert P. Balsam, the man who declared that the foul deed had been committed by a big negro.

Balsam apparently broke open the door of the saloon while Caleb Barton and Jack could were away at supper. While rifling the safe Balsam was disturbed by the return of Barton and he was instantly killed and Barton was also slain after a struggle, in which Balsam was drenched in blood.

Balsam was apparently unconscious when the sound of shots brought the police, but said later that the crime had been committed by a negro who had demanded money and had been refused. The police found the story untrue and charged Balsam with murder, who then confessed. The coroner's jury to-day brought in a verdict of murder.

THREE TRAINMEN KILLED. BRISTOL, Tenn., Dec. 24.—Three trainmen were killed and four probably fatally injured early to-day when a double-header freight train on the Virginia & Southwestern Railway ran into a boiler which had fallen on the track in the natural tunnel, forty miles west of Bristol.

Engineer Adams, Fireman Glibber and Brakeman Clinton Sproules lost their lives. Brakeman S. S. Carfren was badly injured. The tunnel is being cleared of wreckage as rapidly as possible. There is a complete blockade of traffic and passengers are being transferred across the mountain which the tunnel penetrates.

INDIANS HOLDING TERRITORY. MONTREAL, Dec. 23.—(Can. Press).—Reports received to-day are to the effect that everything is quiet at the back of the Lake of the Two Mountains reserve at Oka. No attempt has been made on the part of the surveyors to continue the line where it runs over a little bit of Indian territory and that is probably the reason that Kenneth Gabriell and his braves have kept quiet.

The Canada Central authorities have not as yet publicly made up their minds as to what they are going to do. It is understood that the matter is almost entirely in the hands of Senator Owens, who is said to be greatly interested in this line.

DOCKERS WIN STRIKE. DUNDEE, Scotland, Dec. 24.—(Can. Press).—The strike of dockers and carters was settled thru the mediation of the government arbitrators this morning. The men will receive the advance in wages which they demanded. The strike resulted in serious disturbances on Tuesday last, and troops were sent out to quiet the rioters. Twenty thousand workmen were involved.

Almost Asphyxiated. Harry Curtis, who received at White's Hotel last evening, giving his address as Toronto, was found in a comatose condition about two o'clock this morning. The gas was turned on full but not lighted. He was hurried to St. Michael's Hospital.

CHINA RENEWS ITS CIVIL WAR

Continued From Page 1.

"Greetings to the people of the world from a representative of the newly-born sister republic. Hope and expect to accomplish our great purpose. When that is done it will benefit not only the people of China, but all nations with which we are commercially and diplomatically connected.

"I feel sure that all nations sympathize with us in our struggle for liberty and freedom and better government. I confidently expect that the nations will remain strictly neutral, as they have declared themselves to be, until our conflict is ended.

"(Signed) Wu Ting Fang."

Fear a Deadlock.

TOKIO, Dec. 24.—It is stated here that the stage has not been reached, in the peace negotiations at Shanghai that would invite the good offices of a third party, but it is feared here that the negotiations will reach a deadlock within a few days, owing to the uncompromising attitude of both sides regarding the form of government, which shall prevail in China.

The conservative influential section here, including the elder statesmen, are against having a republic in China. Also governmental officials are silent and maintain a strict neutrality well informed persons here believe it impossible for them to ignore the views of the elder statesmen.

Two companies of infantry from the Kokura division, with machine guns, and commanded by Col. Ono, will start for Hankow from Moji on Dec. 26.

LONDON, Eng., Dec. 24.—A Shanghai despatch to The Daily Telegraph says it is expected that the peace conference will be resumed Tuesday.

Dr. Sun Yat Sen, the reform leader, will arrive at Shanghai Monday. Premier Yuan Shi Kai has made no reply yet as to whether he will accept a republic.

Hope to Restore Royalty.

HARBIN, Dec. 24.—The Amban, or Chinese representative, who was driven out of Uda, the capital of Mongolia, when autonomy was declared some weeks ago, has reached Manchuria. He will have safe conduct to Pekin. The amban is accompanied by the Manchu Prince Kung, whose influence it is understood, is being used by the Manchus in their efforts to nullify the intrigue of the exiled Dalai Lama of Tibet and foreigners in Mongolia, and to bring about the restoration of the Mongol royalty.

There is a belief here that Japan is interested along with the imperial government at Pekin in the suppression of the revolution in Manchuria. General Chao Eh Hsun, viceroy of Manchuria, ordered the secret execution of 60 suspected revolutionists on Saturday last at Nikolai.

Santa Claus' Ship Arrives on Time

Lusitania Reaches Liverpool in Time to Distribute American Mail Over Europe.

LONDON, Dec. 23.—The Lusitania, the Christmas ship from New York, landed yesterday in time not only for her mail to be distributed all over the United Kingdom, but even to reach the continent in time for the holiday.

For more than two hours the railroad workers at Paddington Station were struggling with the luggage of her passengers, who disembarked at Fieghard. Three special boat trains were found necessary. The number landing, 720, beat the record and was considerably greater than the list of the Mauretania, which brought the Christmas boat last year.

All said the trip had been a pleasant one. No bad weather was experienced, and the principal event was the meeting of a huge iceberg last Tuesday. It is very rare that icebergs are in the stamer lanes at this time of the year.

About one hundred passengers went on with the Lusitania to Liverpool, but the steamer was held up in the Mersey by the tide outside the bar and did not dock until early this morning.

Day's Doings YORK COUNTY

It looks like a contest in York Township after all as Jerry Nelson, ex-deputy reeve of the municipality, has signified his intention of precipitating a fight...

There was a small crowd at Saturday's nomination, but the proceedings were good and lively, the feature being Mr. Nelson's criticism of council's work during the year and the speech of George S. Henry...

For second deputy—Thomas Griffith and Jeremiah Nelson. For councillor—Sidney F. Sylvester of Swansea and Frederick Miller, who was last year councillor.

George S. Henry was chairman, and dealing generally with the record of the financial standing was unsurpassed, good bridges built of concrete had been put up, the trouble with the burial trust over the highway thru Mount Pleasant Cemetery was in a fair way to be settled...

Jerry Nelson attacked the council and after declaring that they were not big enough to give the railway companies a good fight, rolled back on themselves, claimed credit for beating out the automobile men in civic legislation...

Councillors Barker and Syme defended the council, and Mr. Griffith, candidate for third deputy, made a fighting speech, stating that council had been economical and progressive.

WEST TORONTO. Dr. Hopkins Withdraws From Contest—Fire in Western Ward.

WEST TORONTO, Dec. 24.—Special Christmas music was rendered at nearly all the local churches to-day at Victoria Presbyterian the choir, under the leadership of Donald C. MacGregor, sang some beautiful old carols at both services.

The race for civic honors is now on and it promises to be a close one in this ward. The candidate for alderman is now four, and the race is hot.

SCARBORO TOWNSHIP. Hot Time in the Old Township Over the Reveship. A three-cornered fight and one which promises to be very keenly fought out is on in Scarborough Township at the present time...

At 11:30 o'clock last night an alarm of fire rung in from Glenora and Dundas-streets, brought detachments from three stations to the stable of Charles Taylor, vegetable merchant, at 215 Dundas-street, which had caught on fire from some unknown cause.

OVER-CAPITALIZATION OF U. S. RAILROADS

Demand for Costly Terminals and New Equipment Ahead of Actual Earnings.

Railroad earnings in the United States in many instances are still showing gains in gross and losses in net; and while this is due in no small measure to the extravagant demands of the wage-carrier, it seems also to be due in part to extravagance on the part of railroad management.

The public have become very fond the past few years of magnificent passenger terminals, huge freight engines and new equipment.

Added net capitalization has outgrown the amount of business done. This was figured out by five-year periods, and in the reckoning were included the net increase in capitalization, the amount of new capitalization per thousand ton miles of new business.

GERMAN REICHTAG IN CHRISTMAS WOOD

General Elections and the Morocco Question Take Second Place To Festive Season.

BERLIN, Dec. 23.—The peace of Christmas has settled down over Germany and all quarrels, from the heated debates on the Morocco agreement in the Reichstag and the more personal quarrels on a thousand election platforms, to the quarrels between the present and future kaiser, are buried temporarily.

Germany will enter the new year, a week from now, without any of the persistent rumors of changes in the cabinet having materialized.

Everything depends on whether the government will secure a majority in the coming Reichstag elections, for slowly and reluctantly Germany is approaching modern parliamentarism.

Of First Interest After the Holiday

The Simpson Store Gives the Most Authoritative Modes for Women

Shirts Show Pleasing Models

The price is a close one, and, therefore, is no index to the unusual worth that has been put into these skirts. To sell for \$8.00.

Many styles are on display, but one worth particular mention is a skirt of imported Panama in navy only; made with panel back and double box pleat down the front panel. It is cut with a deep band on the side gores, and pleats around bottom. Tabs of narrow braid and buttons are the finishing touches. Price, \$8.00.

SUITS IN VARIOUS MATERIALS.

This is an exceptional price attraction, for these goods were \$15.00, \$22.50, \$25.00 and \$29.00 a suit, but have been marked for Tuesday \$9.95.

Women's and misses' sizes, of English serge, French Venetians and imported tweeds, all of approved models, with short or medium length coats, lined throughout with silk or satin. Some are strictly tailored, others velvet or novelty trimmed. Skirts are gored or pleated. The color range includes black, brown, grey, green and pretty tweed mixtures; while all sizes and colors do not occur in every line, yet all sizes are here. Women's sizes 32 inches to 42 inches bust; misses' sizes, 14, 16 and 18 years.

Sweater Coats—A Feminine Need

There's a lot of comfort to be derived from a good sweater coat such as we are selling at half-price on Tuesday.
