GERMANS CONTINUE HEAVY ATTACKS SIX HUNDRED THOUSAND MEN FAIL TO BREAK THRU THE BRITISH LINE

HAIG EXPECTS FIGHT TO GET MORE SEVERE

Greatest Courage is Being Shown by the British Troops.

SOME GAINS ARE MADE

But Enemy Has Been Repulsed in Repeated Counter-Attacks.

London, March 22.—The Germans on Friday along almost all of the battlefront continued their attacks in great strength. At several points the enemy made gains against the British, but at others he was repulsed in counter-attacks, according to the British official communication issued tonight. The statement says the British losses inevitably have been considerable, but not out of proportion to the magnitude of the battle. The enemy's losses continue very heavy, all his advances being made at great sacrifices.

THE GREATEST COURAGE IS BEING SHOWN BY THE BRITISH TROOPS.

This morning the enemy renewed his attacks in great strength along practically the whole of the battlefront. Fierce fighting occurred in our battle positions, and is still continuing.

The enemy made some progress at certain points. At others his troops have been thrown back by our counter-attacks.

Our losses inevitably have been considerable, but they have not been out of proportion to the magnitude of the battle.

From reports received from all parts of the battlefront the enemy's losses continue to be very heavy, and his advance everywhere has been made at great sacrifice.

Our troops are fighting with the greatest gallantry. When all ranks and all units of every arm behave so well it is difficult, at this stage of the battle, to distinguish instances.

Exceptional gallantry was shown, however, by the troops of the 24th division in a protracted defence at Longueval, and by the third division, which maintained our positions in the neighborhood of Croisilles and to the north of that village against repeated attacks.

A very gallant fight was made by the 51st division in the neighborhood of the Bapaume-Cambrai road against repeated attacks.

Identification obtained in the course of the battle shows that the enemy's opening attack was delivered by forty divisions, supported by great masses of German artillery, reinforced by Austrian batteries. Many other German divisions have since taken part in the fighting, and others are arriving in the battle area.

Further fighting of a most severe nature is anticipated.

WILL FOLLOW NEW YORK

Montreal Stock Exchange to Open at Nine o'clock in the Morning.

Montreal, March 22.—Members of the Montreal Stock Exchange appear to be pretty well agreed that, even if the Canadian daylight saving bill does not go thru, the stock exchange will probably observe daylight saving hours in unison with the New York market, and will open at 9 o'clock in the morning.

SIXTEEN THOUSAND MEN CAPTURED BY GERMANS

Enemy's Official Statement Also Says Two Hundred Guns Taken in First Fighting.

London, March 22.—(British Admiralty, per Wireless Press).—Sixteen thousand prisoners and 200 guns have been captured by the Germans, according to a German official communication received by wireless tonight.

The text of the communication follows: "The successes of yesterday in the fighting between Arras and La Fere were extended in the continuation of our attack.

Sixteen thousand prisoners and 200 guns so far have been reported captured. Before Verdun the artillery duel continued. From other theatres of the war there is nothing new to report."

BIG GUNS VIOLENT IN FRENCH SECTORS

Three German Attacks in Champagne Region Gain No Results.

ACTIVITY MARKS BALKANS

Artillery Shells Enemy Batteries in Cerna Bend—Aviators Busy.

Paris, March 22.—Violent artillery engagements are reported from various sectors on the French front in the official statement issued by the war office tonight. The statement reads:

"Great activity by the artillery early today became most violent this afternoon at diverse points north of Chemin des Dames, in the region of Courcy and Pompelle and in the Champagne south of Maronnivillers. Three attacks made by the enemy north of Souain and east of the Teton were without result.

Two German airplanes were destroyed and four badly damaged in a series of combats with our air squadron. Three enemy machines were shot down by our special artillery.

"Eastern theatre, March 21.—Our artillery directed a destructive fire upon enemy batteries at Cerna Bend. The allied aviators executed with success a number of bombardments of enemy establishments in the region of Seres and in the Vardar valley."

PROHIBITION ACT HAS BEEN AMENDED

Liquor Shipped Before April May Be Delivered Up to First.

Ottawa, March 22.—It is officially announced that the order in council bringing prohibition into effect on April 1 has been amended by the government in respect to its provisions governing the shipment of liquor from one province to another.

The amendment provides that intoxicating liquor actually shipped before April 1 may be delivered in prohibited areas by common carrier in such period of time as is required to such common carriers under ordinary business conditions, but not to extend beyond May 1. It is also provided that prohibited areas within the province where the sale of native wines is permitted.

WILL NOT AMEND LORD'S DAY ACT

Government Will Not Interfere With Operation in Interests of Production.

Ottawa, March 22.—From the number of letters and telegrams reaching the prime minister's office, it would appear that an impression has gone abroad that it is the intention of the government to amend the Lord's Day Act in the interests of greater production.

It is authoritatively stated that there is no intention on the part of the government, either to amend the act or to interfere with its operation. As a matter of fact, under the provisions of the act its enforcement is largely a matter of provincial administration.

BRITISH AIRCRAFT GIVE GREAT AID TO INFANTRY

Kill or Wound Many Germans With Machine Guns While Flying Low and Bomb Important Positions.

London, March 22.—British aircraft during the fighting along the front in France Thursday aided materially the infantry forces below, killing or wounding many Germans with their machine guns while flying at low altitudes, according to a British official communication issued tonight dealing with aviation.

In addition British aircraft bombed important military positions behind the line and aviators accounted for numerous German airmen in battles in the air.

The text of the communication follows: "The mist over the whole front Thursday morning cleared locally later, but at most places the weather was unsettled for low flying. The enemy's attacking troops and reinforcements on the battlefront offered excellent targets to the pilots of our low-flying machines, which poured many thousands of rounds into them, causing innumerable casualties."

OFFENSIVE SUMMARIZED

In a battle that has rivaled in ferocity any that has preceded it during three and a half years of warfare, the British, on a fifty-mile front, have withstood a great German offensive in its initial stages. At some points the British line has been bent back, but not as much as had been expected by military experts acquainted with the forces the Germans had brought up and the power of the guns they had up on and behind the line.

As the result of the struggle on that part of the front just west of Cambrai, where the fighting apparently was hottest, the British line nowhere has been broken, and Field Marshal Haig's men have inflicted frightful casualties on the enemy.

As an indication of the sanguinary nature of the fighting, the Berlin foreign office states that 16,000 men and 200 guns have been captured. This may be compared to the British losses in the German counter-offensive on Dec. 4, 1917, when 6000 men and 100 guns were captured.

The first reports of infantry fighting were indicative of an attempt on the part of the Germans to drive wedges into both sides of the Cambrai salient, isolate the British troops further east and regain the Hindenburg line, from which they were driven on Nov. 22, 1917, by General Byng's sudden blow. Subsequent despatches have proved that this was, indeed, the plan of the German general staff. The fighting on the rest of the fifty-mile front was but a side issue to the terrific onslaught aimed at Gauche Wood and Lagnicourt, the south and north bases of the salient.

There are no data upon which it is possible to estimate the success attained by the Germans to the south, but names of towns where the armies were battling on Friday show that on the northern side of the salient the Germans bent the British line back about two and a half miles. It was reported that St. Leger was the scene of a hard struggle and that Doignies had been retaken by the British. These points are about four kilometres, or 2.48 miles, back of the British lines as they stood before the attack began. Berlin claims that British first line positions from Arras to La Fere were captured.

The concentration of men and artillery on the British front, as shown in official reports, demonstrates that the Germans are making a determined effort to smash the British front. Forty divisions, or about 600,000 Teutonic troops, are in the fight. The total number of cannon the Germans are employing cannot be estimated, but unofficial reports say that there were 1000 guns on one small sector. Austrian and Bulgarian troops have made their appearance on the British front.

The attack was launched under the eyes of Emperor William, Field Marshal von Hindenburg and General Ludendorff, the three guiding spirits of the German war machine. The French report fighting in various sectors, especially in Champagne and Lorraine.

Hostilities are not limited to the front in France, but the Italian battle line is beginning to show signs of activity beyond the ordinary. An Austrian attack in the Frenzela Valley was checked by the Italians after an advanced post had been taken. The Frenzela River is a tributary of the Brenta and a drive there would be for the purpose of gaining a foothold on a road to the plains of northern Italy.

WITHDRAWALS MADE WHERE NECESSARY

British Moved From Advanced Positions Which Were Being Lightly Held.

GERMAN LOSSES HEAVY

Claim of Number of Prisoners Taken is Looked Upon as an Exaggeration.

London, March 22.—The news coming from correspondents at the front today that 40 German divisions were engaged in the fighting on the front of attack, and that the greatest concentration of artillery in the world's history was operating, gave the British public an idea of the tremendous struggle on the west front. But nothing in the despatches, either from Field Marshal Haig or from the newspaper correspondents, had prepared them for the German claim, which reached London late tonight, of the capture of 16,000 prisoners and 200 guns as the result of the first day's fighting in the new German offensive, and the disposition at the moment is to regard the claim as an exaggeration.

According to the correspondents the British withdrawals, where they were necessary, were carried out in good order from advanced positions which, in the nature of the fighting of these days, it had been expected would be given up. These are generally believed to have been lightly held.

It had been intimated that the Germans would claim the capture of several villages, but the despatches gave no hint of their names, saying only that it was inadvisable to indicate the present British line, because this would be giving information to the enemy.

All the despatches emphasize the heavy cost to the Germans of the first day's fighting, and the ground from which the British have withdrawn as being littered with German dead.

MAY ISSUE LICENSES

Customs Collectors Empowered in Matter of Newspaper and Woodpulp.

Montreal, March 22.—In connection with the instructions by the railway war board to all railways to put an embargo on all chemical and mechanical pulp and newsprint for export to the United States, unless accompanied by the required license, A. L. Davy, secretary of the Canadian Pulp and Paper Association, said that the order will not mean that less wood pulp and newsprint will be exported, but that it is merely a formality. He says that arrangements have been made whereby local customs collectors are empowered to issue licenses as needed in the name of the war trade board.

TWO GERMAN VESSELS ADMITTED AS MISSING

Berlin Claims Only Outpost Craft Lost—Reports Bombarding French Coast.

Berlin, March 22.—Via London.—Extensive damage was done military establishments on the French coast at Dunkirk and vicinity thru a prolonged bombardment by German torpedo boat forces early yesterday, an official statement issued today declares. Enemy destroyers were engaged as the Germans were returning, but the hostile craft withdrew, the statement says, after having sustained several hits. The German craft which attacked the coast returned undamaged. It is added, but two small outpost vessels which had been cruising west of Ostend are missing.

BRITISH ARMY ABLE TO REGAIN GROUND

Washington Experts Are Confident of Power to Hurl Back Germans.

INFORMATION MEAGRE

American Army Officers Re-frain From Hazarding Opinion of Offensive.

Washington, March 22.—Lacking reports of an official character beyond the communiques issued by the British Government, American army officers tonight still were unable to formulate conclusive opinions to the scope and purpose of the German thrust against the British front in the Cambrai sector.

Additional details came in the purpose of the German high command appeared to centre upon the capture of the most advanced portion of the British trench line in the Cambrai region. There was nothing to indicate, however, it was said, whether the German purpose was to use the territory it was thus hoped to gain as a vantage point from which to strike further blows, or was designed to protect from possible allied efforts the communication centres in the vicinity of Cambrai.

No officer would hazard an opinion today as to the underlying motive of the German army commanders. All said the information thus far received was of too scattered a character to show conclusively whether operations at other points on the 50-mile front involved are mere covering enterprises or are elements in a scheme of grand attack.

On the face of reports thus far seen, officers were well satisfied with the display of resisting power made by the British troops. They are more than ever confident of the ability of General Haig's men not only to check the German onslaught within reasonable limits, but to hurl it back when its initial force has been expended.

"SERGEANT BOYD, V.C." HELD AT BUFFALO

Suspected of Fraudulently Posing as a Victoria Cross Hero By Montreal Reporter.

Montreal, March 22.—The arrest of "Sergeant R. F. Boyd, V.C., of the Princess Patricia's," at Buffalo on suspicion of fraudulently posing as a Victoria Cross hero, was due to Major Phil McKenzie, M.C., assistant provost marshal in Montreal, on information given him by a Gazette reporter who had interviewed Boyd at the Windsor Hotel here, and who had doubts of Boyd's bona fides. Boyd, while in this city, claimed that he was a V.C. of the Princess Patricia's, and among his possessions was a letter purporting to have been from Sir Sam Hughes, former Canadian minister of militia, commending him to the Red Cross Society. The letter was signed "Sir Sam Hughes," an unusual style of signature for Sir Sam.

The "sergeant" told the Gazette man that King George had given him the V.C., and the Princess Mary had kissed him, and that this had occurred in France. He said he was going to the southern states on an extended lecturing tour under the auspices of the American Red Cross, and he wished the paper containing the interview mailed to him at a Buffalo hotel. The interview did not appear, however.

SHAREHOLDERS GIVEN NO HOPE OF ANY RETURN

Stockholders in Dominion Permanent Loan Meet to Hear Liquidator.

CIVIL ACTION STARTED

Two Million Dollars Are Sought From Estates of Directors.

Action to recover \$2,000,000 from F. M. Holland, manager of the defunct Dominion Permanent Loan Corporation, and the estates of the late Chas. Klopfer, Gueph; D. W. Kern, Woodstock; Thomas P. Coffee, Gueph; and J. R. Stratton, Toronto, one time directors of the company, was begun yesterday at Osgoode Hall by J. W. Bain, K.C., counsel for G. T. Clarkson, official liquidator. In the writ issued against Holland and the executors of the late directors' estates, the liquidator alleges that the said Coffee, Stratton, Klopfer, Kern and Holland were guilty while directors of the Dominion Permanent Loan Corporation, of conspiracy, breach of trust, misfeasance, and gross and willful negligence. He seeks judgment for two million dollars as damages, together with the return of all dividends received by the said directors, and the interest thereon, as well as the repayment of all sums of money received for services from the corporation.

The writ is the result of Mr. Clarkson's promise to see for recovery of dividends wrongfully voted by the directors, which he made to the depositors and bondholders at the meeting on Thursday. Mr. Bain is the liquidator's counsel in the winding up process, and therefore the action that he takes will be purely civil. Any criminal proceedings must come from the attorney-general and his crown attorneys on information which the liquidator may furnish from time to time.

Bain Determined. When asked if any proceedings would be taken against the recent directors, Mr. Bain said that he had the question under consideration at present, and he reached no conclusion that there was ground for court action and some chance of successful suit he would not hesitate to act, no matter who the meeting was.

"This is a case where I am acting for the liquidator, who is dependent on by hundreds of unfortunate people who have their all in this company," said Mr. Bain last night. "You can be assured that I will not let feelings or anything else interfere with what I regard as my duty. No matter who the men are, if I conclude that they are liable, they will have to defend themselves in civil action. That is as far as my power goes."

Mr. Bain expected that the action begun yesterday would take considerable time despite the fact that a joint suit has been instituted against the estates of the dead directors and Holland, who is now out on \$20,000 bail, on a charge of conspiracy with others to defraud.

Hon. I. B. Lucas, attorney-general, when spoken to last night, was quite emphatic as to the department's position in the case.

"I do not intend a separate probe by commission into the company's affairs," Mr. Clarkson, who is an expert on such matters and who has handled several cases of this nature, is making a very thorough investigation. He will advise me as to where the trouble lies. There is no disposition on the part of the attorney-general's department to neglect its duty in taking criminal action against all guilty parties."

Another class of the victims of the corporation, viz., the shareholders, gathered yesterday afternoon in Osgoode Hall on the invitation of Official Referee Cameron, to hear the same story as told by G. T. Clarkson to the depositors and bondholders on Thursday.

The tone of the meeting was nothing like that which characterized the Thursday session. Things weren't so bad until Mr. Clarkson announced that with the most successful sort of negotiations and court actions the depositors and bondholders could only hope to get from 50 to 80 cents on the dollar. This seemed to be slowly sinking into the minds of the stockholders, and a few looked disappointed. Others tried to appear optimistic until Mr. Clarkson added that

SPECIALIST SAID HE MUST OPERATE

She Took "Fruit-a-tives" Instead, and is Now in Perfect Health.

MME. F. GAREAU, 153 Papineau Ave., Montreal. "For three years I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several courses of 'Fruit-a-tives', which did not help me. Then he told me I must undergo an operation. This I refused to permit."

"I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it. The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling, and I give 'Fruit-a-tives' my warmest thanks."

Hockey Collingwood 2 Oshawa - 1

INTERMEDIATE FOR COLLINGWOOD TEAM

Defeat Oshawa by One Goal in Sudden-Death Game for Title.

The intermediate O.H.A. title goes to Collingwood. After playing the regulation two games in the final, Oshawa and Collingwood had each scored four goals. The O.H.A. ordered a sudden-death game to be played at the Arena last night, and the northern town scored two goals and Oshawa one.

Collingwood earned their victory. They outscored their opponents and showed better work close to the net. Each club scored a goal in the opening period. Collingwood got what proved to be the winning goal in the second session, and the last twenty minutes was successful.

The intermediate finalists do not play nearly as finished hockey as the senior clubs. Their teams play in spots. The puck-carrier generally went into the corner of his own account, and the work in front of the net was slow and uncertain.

D. Foulis, the Collingwood defense man, was easily the best man on the ice. He blocked in great fashion and was a strong rubber. He gathered in both of Collingwood's goals, and his second effort was pretty. He rushed down alone and made the Oshawa defense look foolish when he wriggled his way in.

Collingwood checked closely at all times, and it was this that stopped Oshawa. Eltherington had a lot of speed, but generally found that the other Oshawa forwards were not down to help him out. Rowden, the boy who hurt his head in the game at Oshawa, appears with a banged head and played a good game of hockey. He went well, but was not up to his usual good work around the net.

Both goalers put up a sterling article, and Oshawa's only goal was one that Cook did not see. There was considerable slashing, but it was a clean game. Collingwood were best in nearly every department, and earned their victory.

The teams:

Collingwood (2): Oshawa (1)—Cook, D. Foulis, Eltherington, Rowden, Fryer, Watson, Burns, McEwen, Whitehead, Toronto, First Round.

1. Oshawa.....Eltherington.....2.50
2. Collingwood.....D. Foulis.....4.00
3. Collingwood.....D. Foulis.....18.30

No score.

Manager Charlie Querrie of the Toronto blue shirts has arranged with Frank Patrick of the Vancouver team that in case any of the Toronto regulars are injured either Cameron or Adams will be allowed to play. This is pleasing news as it was thought that Reg. Noble would be unable to play tonight. He wrenched his shoulder on Wednesday night, and has responded to treatment, and Noble will be on hand tonight.

Collingwood rules will be the order in this game, and, playing under their own style, the Millonaires are confident of evening-up the series. The Coast League style calls for seven men a side, and as many substitutions as desired. However, in the case of a penalty, the teams must play short-handed. The referee will divide the ice into three sections. In the middle section passes may be taken forward as long as the receiver is not inside the end section. The exception to this is when the puck carries off the boards into the middle section, in which case a player may accept the pass. Great interest is being taken in tonight's game, the fans desiring to get a look at this Pacific Coast League style of play.

Jack Maughan Beat C. Booth and L. Wren

Exceptionally fine swimming featured the challenge meet between the afternoon and evening sections of membership at the Central Y.M.C.A. last night. It looked as though the afternoon section had the meet all to themselves at one time, but the evening section put up a stubborn battle and it was only in the diving and relay that the afternoon section managed to forge ahead. Possibly the surprise of the meet was the defeat of Cliff Booth and Les Wren in the 50 yards speed race by Jack Maughan. Maughan was behind at the first turn, but by magnificent swimming managed to nose out Wren with Booth and Cliff Hurston had to travel in the 25 yards breast to beat Ed. Young, W. Elliott and H. Peake of the evening and afternoon sections respectively divided points for third. Booth was again beaten in the 25 yards speed race, Maughan doing 12-3 as against 12 by Booth and Hurston. Wharfin put the afternoon class ahead in the 50 yards back race, the afternoon class having this event all to themselves. Wren getting second, and Shuter third. Points were evenly divided in the plunging, "Link" Wilson just missing out. Shuter had no difficulty in winning out handily in the diving, it being just a question as to how much he could win by. The relay was somewhat one-sided. The afternoon class were 10 feet ahead at the end of the first turn, and the evening class were 10 feet behind at the end of the second. Shuter, Young and Jack Maughan tried hard for the evening section, they could not get on even terms with the afternoon class, who won out by over 30 feet.

The summary:

25 yards breast—L. C. Hurston, afternoon; 2. H. Peake, afternoon; and W. Elliott, evening; 1 for second. Winner's time, 17-3.

50 yards speed—J. Maughan, evening; 2. C. Booth, afternoon; 3. G. Hurston, afternoon. Winner's time, 12-3-5.

50 yards back—L. P. Wharfin, afternoon; 2. L. Wren, afternoon; 3. N. Shuter, afternoon. Winner's time, 35-4-5.

Long plunging—L. Wilson, evening; 2. H. Peake, afternoon; 3. G. Hurston, afternoon. Winner's distance, 40 ft. 6 in.

50 yards speed—J. Maughan, evening; 2. L. Wren, afternoon; 3. C. Booth, afternoon. Winner's time, 25.

Diving—N. Shuter, afternoon; 2. Ed. Young, afternoon; 3. J. Maughan, evening. Relay race won by the afternoon class. Team—H. Peake, afternoon; W. Snyder, P. Wharfin and C. Booth, afternoon. The officials: W. Wardrop, Les Judges, R. Foster, O. H. Lieut. Hal Jones and W. W. Winterburn.

WESTERN RULES IN CUP GAME TONIGHT

Vancouver Expects to Even Up Series—Noble Right for Game.

Manager Charlie Querrie of the Toronto blue shirts has arranged with Frank Patrick of the Vancouver team that in case any of the Toronto regulars are injured either Cameron or Adams will be allowed to play. This is pleasing news as it was thought that Reg. Noble would be unable to play tonight. IDA BOOSTS JAMES J. BUT NOT LARRY LAJOIE

Not President's Fault That No Baseball for Us, Tho We Boosted Nap Back to Majors.

By Ida L. Webster.

"Will some one kindly tell me for I would like to know the reason how I picked a lemon in the garden of sport.

"Where they say only peaches grow." This should be President Jim McCaffery's daily song, but then perhaps he does not sing. Sport in dealing with James has often proven herself to be a sorry jade, and is directly the cause of the few stivers there are in my pocket.

Few fans in this city will give Mr. McCaffery credit for the efforts he has been putting forth all winter, trying to swing the baseball arms of destiny so that Toronto will have a regular team in a regular league. Nor has this been for a mercenary reason. The conditions of the country make it such that there is more money to be made in running a shoeing parlor than in being the owner of a ball team. Yes, dear friends, we have all seen the stands full to overflowing, but never forget that looks are deceiving. There are many things many a deadhead concealed beneath a silk shirt and a bow tie. So after all from a financial point of view it might be wiser not to operate this season.

Right here is where we prove our argument. It is not money reason which has spurred Mr. McCaffery on, but to be quite truthful, a matter of pride. Never was a Caesar prouder of his Roman empire than your old friend James is of Toronto. And after all why let us be practical. The means of putting Toronto on the baseball map, and that means money, money, money! Keep it there this season, he may be depended upon.

To date Mr. McCaffery has not been consulted upon the subject by Mr. McGill. Such a breach in the etiquette of baseball for some considerable period of ignorance on the part of so clever a baseball magnate as Mr. McGill of Indianapolis, is not a matter to be taken lightly. How very little one knows of this particular business, association with real people in the same line is bound to be a teacher, and we are under the impression that Mr. McGill has been interested in baseball for some considerable period of time. So far Mr. McCaffery has received one letter from Mr. Lajoie on the matter, in which he asks for his immediate release, as he has made all arrangements to change Indianapolis. Not an offer to help Toronto get back her position in baseball, not even the customary words of Toronto writers have classed this as the greatest man in the game. His greatness evidently begins and ends with his batting eye.

Toronto only owes Lajoie contempt, while Lajoie owes Toronto his new lease on near-fame. We might mention the fact that should the sale to Brooklyn prove a reality the sudden rise in his otherwise falling stock is due to the excellent press work of the Toronto newspapers.

Baseball Lajoie in the Limelight

BROOKLYN CLAIMS OUR LARRY LAJOIE

States Deal Has Been Closed—President McCaffrey Says, Not Yet.

New York, March 22.—Napoleon Lajoie, veteran infielder, who managed the pennant-winning Toronto team in the International League last year, has been purchased from Toronto by the Brooklyn National League Club, it was announced here today. Charles H. Ebbets, president of the Brooklyn, said he had talked over the telephone with Lajoie at Cleveland, and that player said he had no objection to playing with the Brooklyn, but that before signing a contract he would like to confer with the officials of the Toronto Club. Lajoie said he would probably report at the Brooklyn training quarters at Hot Springs within a few days.

"I admit that the Brooklyn Club has made an offer for Lajoie, but no deal has been closed," stated President McCaffrey of the Leafs yesterday. "The International League will meet in New York next week, when it will be decided whether to operate or not. Until after that nothing will be done in the matter of deals for my players."

50 HORSES

FROM THE T. EATON CO., LTD.

These horses have been used by the company for the heavy Winter deliveries and are now consigned to us to be sold absolutely without reserve. The consignment is right out of hard work, and included in the lot are a large number of good young mares. If you need a horse or could handle one of these first-class workers at your own price, do not miss this sale.

Remember Monday, March 25th, at 11 a.m.

We shall also sell on this same date Monday, March 25th, 40 HORSES from a large contracting firm. We completed arrangements for this consignment only a few minutes before handing our advertisement to the press, and our only instructions are to sell for the highest dollar, regardless of cost, and to sell the entire lot.

HOCKEY AT LAKEFIELD.

Lakefield, March 22.—Hockey play up to the very last of the season has been the rule which governed the winding up of the games between Lakefield and Young's Point. First the High School team went to Young's Point to play a friendly game with a team there. The ice was not in good shape and consequently good hockey was impossible. The Lakefield team won by a score of 7 to 2. Following were the teams: Young's Point—Goal, M. Cummings; de-

fence, J. Hayes, E. Heard; Centre, F. Carroll; wings, C. Carroll, R. Brooks. Lakefield High School—Goal, J. Redpath; defence, G. Wasdon, D. Hill; centre, E. Bailey; wings, C. Redpath, E. Rowe. J. McLeod was referee.

In the return game between Young's Point and the High School boys, played on Thursday evening, the High School won by a score of 8 to 3. The play was interesting throughout. Not a penalty was handed out to the players. Mr. J. Hall handled the game.

In a game between the High School and Grove teams the latter won by a score of 12 to 6.

STOCK YARDS FIVEPIN LEAGUE.

The curtain was rung down for the season last night in the Stock Yards

Fivepin League. During the winter season the Athenaeum Club alloys have been the scene of many a battle between the teams of this league. The Swift-Cannan team were returned winners of the first series and the Gunns boys copied the second. The finals were played last night between these two teams. The Swift boys started away and won the first game by a margin of 43 pins. In the second game Gunns team shot 781, while the Swift team fell off badly. The last game went to Swifts, but they could not overcome the lead against them and the match went to the Gunns team, who hold the Stock Yards Cup for one year. Cogan was the best performer of the night with a 514 count.

VEGETABLE SEED IS SCARCE

Conditions as to Various Stocks That the Home and Market Gardeners Need—By Howard M. Earl.

In vegetable seeds, literally from a ton to a bushel, there exists a shortage such as has never existed in the seed trade during the many years that have passed. The experience in assisting planters to obtain their normal supply of seeds. Starting with the article on the scarcity of seeds, the large acreage caused by increased demand, there has never been such a scarcity—on to twenty per cent. of a crop.

However, purchasers of small quantities should not become alarmed, as seedsmen generally are going to conserve stocks to take care of their requirements. With the exception of so-called commercial beans, the bean that produces seed of the luscious, tender pod is in short supply. Bush lima beans have not come up to expectations in yield, but if planters are careful of the seed and do not plant too early there may be sufficient to go round.

Field beans, with the exception of the snap varieties, such as Kentucky Wonder, are in quite good supply, and should seedsmen report that they are sold out on bush varieties. I advise planters to obtain poles and try two or three dozen hills. It is an admitted fact that from a given area in small gardens one usually obtains a far heavier yield from pole beans than from the same area planted with bush varieties.

Seed of garden beets is very scarce and care must be exercised in sowing the seed. Seed of the so-called spinach beet—large, white and Lucullus Swiss chard—is in fairly good supply, and owing to the scarcity of spinach seed, some gardeners use this as a substitute.

The best cabbage seed in the world is grown on Long Island, but the best variety is 30 cents below normal, and before the planting season is over it is likely seedsmen will be glad to replenish stocks at prices which are heavier than normal.

Planters get out early supply of cabbage seed early. Large growers will experience great difficulty in obtaining seed of the famous late white cabbage, Danish Ball Heintz, and the best seed is in the hands of Danish seedsmen and now commands \$12.50 a pound. The crop in Denmark was a total failure.

Cauliflower is Scarce. Cauliflower seed is also among the scarce items, and the supply undoubtedly will soon become exhausted. The best seed comes from Denmark, and this now commands a price of from \$25 to \$30 a pound.

Seed of carrots is plentiful, but only because of the increased acreage. The supply of celery, cucumber, endive, lettuce, melon—both musk and water—okra, parsley, pumpkin and squash seed should take care of all demands.

Both field and sweet corn are so extremely short that even the canner is now endeavoring to purchase his seed supply for 1918, and the wise farmer, unless he has seed of his own growing, will get busy at once and buy what he needs.

Early and peppers produced but little seed, owing to an early frost that killed the plants. Many amateur gardeners will be disappointed to find it difficult to obtain his normal requirements at from \$1.25 to \$1.75 a pound for turnip, and \$2 a pound for rutabaga seed.

Kale, kohlrabi and leek are scarce, but there will be about enough to go round if the seed is planted carefully and proper transplanting is done. One of the most important vegetables and one that ranks with cabbage and potatoes is the onion. There

is such a scarcity as to cause large planters to bid against each other in making an effort to obtain their supply. Since the outbreak of the war very little onion seed has come from abroad from the American grower up till the harvest crop of 1917 has been able to produce sufficient seed. The past season at one time gave promise of a record crop, but blight set in and there was just about sixty per cent. of a normal crop of seed harvested.

Parasip seed is so scarce as to warrant English houses offering £200 for 100 pounds in-ton lots for what seed may be obtainable. A friend in the English trade wrote me in October that he would not be surprised if parasip seed sold for a guinea—21 shillings, or about \$5.25—a pound before planting season was over.

Peas of all kinds, whether of the smooth or wrinkle-seed class, on the whole produced less than a crop; so if we are to have green peas in our gardens the planter can help stretch the supply by placing each pea in its place three inches apart—instead of sowing in the drill. Peas are so short that the food commission has seen fit to limit the exportation of all varieties.

Take Care in Sowing Radish Seed. Anyone purchasing five or ten cents worth of radish seed will get greater value for the money than in many other varieties of vegetables, as owing to hot winds, blight and ferocious attacks of plant lice America produced but little seed the past season, and England, France and Holland report from fifteen per cent. of a normal crop to a complete failure. Planters have always been careless when sowing radish seed, but if they will take a little time and endeavor to plant each seed from a half-inch to an inch apart, which method will not only bring forth better results but make unnecessary the back-breaking job of thinning out, they will avoid waste.

While writing of radishes the thought came to me that, owing to a greater scarcity of turnip seed, a very good substitute is to be found in the white Chinese winter radish, which to me is preferable when cooked and served the same as turnips.

Slightly-called vegetable oyster—so short throughout the world that, like parasip, it is worth almost any price. The supply of seed in sight will go farther if planters generally will transplant instead of throwing away their surplus seedling plants.

In 1918 spinach seed sold at 35 to 40 cents a pound delivered to the retail purchaser, and at present it is hardly obtainable in a wholesale way at \$1.30 a pound. The planter may avoid waste when sowing if he plants to have the individual plant stands about four inches away from his neighbors.

Canners of tomatoes, like the pea canners, are worrying about the supply of seed, as crops of selected, pedigreed seed yielded just 50 per cent. of what they should in a normal season. Tomato seed is invariably wasted—an ounce properly planted should produce about 3000 plants; so if your requirements are for a few plants you will help the dealer in seeds by buying plants instead of wasting seed.

There is practically a famine when it comes to turnip and rutabaga seed. In 1917 turnip seed sold at 65 cents, and rutabaga seed at \$1.30 a pound retail, and rutabaga was offered at 50 cents a pound. At the time of writing an amateur gardener will find it difficult to obtain his normal requirements at from \$1.25 to \$1.75 a pound for turnip, and \$2 a pound for rutabaga seed.

It is the wish of the writer to convey to the reader that it is necessary that all of us should conserve not only foodstuffs but also seed of all kinds.

able distance, and which would take up moisture and plant food to the detriment of the vegetables. A sandy loam, is best adapted for most vegetables, but any type of soil can be improved and made suitable if it is properly handled. Stable manure material also serves as the best source of plant food for vegetables. Manure, if fresh, may be applied and plowed under in the fall, or if well rotted, may be applied after plowing in the spring and harrowed into the surface soil. Manure at the rate of fifteen to twenty tons per acre should be applied to the vegetable garden each year. Since manure contains a relatively small percentage of phosphoric acid rock and rock phosphate at the rate of forty to sixty pounds per ton of manure, should be added.

It will be most economical for the fruit grower to plant the vegetables in wide rows, so that horse cultivation may be practiced. This minimizes time and labor involved in caring for the garden. If the land has been under cultivation previously, and if it is carefully tilled prior to seed sowing, very little hand hoeing will be necessary.

people grow vegetable seeds too thickly. This results in needless waste of seeds, and also in a large amount of tedious labor in removing surplus plants.

Perhaps the most common cause of failure in the home garden is due to lack of cultivation. In order to secure maximum results from the garden, frequent and thorough cultivation is absolutely essential. Vegetables require more moisture than any other type of plants in order to produce an abundant yield of high quality. The most efficient and economical way of conserving moisture in the soil is by cultivating after every rain or every week between rains. If this is done weeds will never cause trouble in the garden.

If every fruit grower would devote about one-half an acre of land, which is necessary to produce all the vegetables needed for an average-sized family, it would mean a saving of between fifty dollars and one hundred dollars to each family. Still better, it would mean that an enormous quantity of additional food would be produced, making it possible that more food available for our soldiers and those of our allies. Undoubtedly there is no easier and more practical way for the fruit grower to help his "bit" in this great world's struggle than to produce the vegetables needed by his family.

ADVICE TO GIRLS

Rosalind gives advice to girls in both the Daily and Sunday World. Both papers therefore should be watched for her answers. Writers sometimes ask that answers be given either in the Daily or Sunday papers; but so many letters are received that it is impossible to separate them. Letters requiring private answers must contain self-addressed, stamped envelopes.

DEAR ROSALIND: I am a girl of 18 and have been going with a young man for some time. We thought a lot of one another until some one wrote some letters to me telling me my friend was seen in the company of a young lady. But I paid no attention to it, so I got two more. The two more were from my friend about it and he came down and got mad; as I knew who wrote the letters, I told him I would tell him what I thought of it. I told him that I was not going to do that. The two more were from my friend about it and he came down and got mad; as I knew who wrote the letters, I told him I would tell him what I thought of it. I told him that I was not going to do that.

DEAR ROSALIND: I wish you would please tell me what to do, as I am a good little girl and terribly lonesome—the loneliest girl in the world. I am 20 years old and was engaged to an officer in a battalion. He was killed in France. I have nobody here. My relations are away. I know 6 or 7 girls and they ask me to go to parties with them to forget, but I don't like parties, and you would tell me what to do with myself. I wish I could meet a nice retired officer for company. I know you could let me know if I will give you my address. You might help me for I sure am lonesome.

MISS BROWN EYES: I am sure it must be the loneliest feeling in the world, and I am so sorry. But, my dear, I can only say as I have said to many, many, lonely bereaved girls, the only help I know is work. Plenty of it to occupy the time and the mind until one forgets in working and is too tired to think when not at work. Have you taken up patriotic work? There is such a terrific amount of it to be done, and the new occupations and new friends one makes help to assuage the sorrow and loneliness. If you send me your name and address I might help you find some big sister to cheer you up and keep you busy, and understand why I cannot do exactly what you ask. Write again.

DEAR SCHOOL GIRLS: You are quite right. Yours is the very first letter I have ever had about girls and school, and I cannot tell you how glad I am to get it. I hope to see many more girls, puzzled about their work and not feeling free to ask many questions. I will write me about it and let me help straighten things out. A girl can't help getting into trouble unless in the class when sickness prevents her attending school. I am sure your teachers and friends will help you. I am from 3:30 until 4 if you tell her what you have told me. Help like that counts wonderfully. The more you leave school you will be advanced enough to finish your education at night school. If you care to, write me again, giving me your class and school and teacher's name.

Hot Water for Sick Headaches
Tells why everyone should drink hot water with phosphate in it before breakfast.
Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseated, you then resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal. Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and if you aren't feeling your best, if your tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

TRADE IN TORONTO
Toronto reports to Bradstreet's that continued mild weather has been a great stimulus to trade and merchants generally are looking for a very active spring. Transportation facilities are once more nominal, and less difficulty is being experienced in the delivery of goods. Drygoods houses report "house" sales not quite as brisk as a week ago, but a steady trade is being done. A very pronounced scarcity of goods continues, and it is practically impossible to find goods for immediate delivery. The demand for goods for immediate delivery is brisk, and some firms are lively show an increase. However, owing to the high prices and the scarcity of certain commodities buyers are compelled to operate with increasing caution. Collections generally are good. Wholesale trade and shoe dealers are moderately active filling sorting orders, and retail merchants report business brisk. Manufacturers are quiet, and the market for hides shows little improvement, with little demand and prices easy. In grocery lines dealers state that business on the whole keeps well up to the mark. Stocks of refined sugar are low. Lack of vessel space from Cuba explains the shortage. High prices rule for canned goods, and for all kinds of spices and corn products. Cattle trade was very active this week, in view of the approaching Easter business. Live hog prices were higher, and quotations climbed to new high levels, selling at \$20.50, fed and watered tams. In the grain business there has been a freer movement of supplies, but shortage of cars has been responsible for the hold-up of receipts.

PRODUCTION NECESSITY.
Chatham, March 22.—A special meeting of the county council is being held in this city to-day for the purpose of urging on the farmers of Kent the great necessity for increased production during the coming season. W. F. Davidson, K.C., of Toronto, representing the organization of resources committee, will address council and farmers.

AMERICAN CASUALTIES.
Washington, March 22.—Sixty-two names appear on today's list of casualties among the American expeditionary forces, including two men killed in action and 13 missing in action. One man died of disease, one was killed by accident, one died of wounds, three were severely wounded and twenty-one slightly wounded.

WHOLESALE FRUITS AND VEGETABLES

Apples—Box apples continue to arrive freely and are generally of extra choice quality. A car of exceptionally fine Arkansas blacks and Home Beauties arrived yesterday, which are selling at \$2.25 and \$3 per bushel respectively. Wholesalers are still proving an active sale at \$2.75, \$3 and \$3.25 per bushel.

Rhubarb—Hothouse rhubarb has an especially active demand and as the supply is limited, it proves a ready sale at \$1.25 to \$1.50 per dozen bunches.

Higher Price for Wheat Expected
Attitude of U. S. Senate Has Bullish Effect on Coarse Grain.

Chicago, March 22.—Action of the United States Senate in favor of a higher guaranteed price for wheat pointed out the effect today on the value of coarse grain. Chiefly as a result of the passage of the bill, the corn market had been decidedly stimulated, with March 1918 at \$1.27 1/2 and May 1918 at \$1.24 1/2. In the wheat market, the price of No. 2 hard winter wheat was \$1.25 per bushel, and No. 3 hard winter wheat was \$1.22 1/2 per bushel.

Montreal Produce Market
Montreal, March 22.—The spot market here for cash oats was strong today, and prices were marked up 10 per bushel. Lettuce—Tender heads, \$2.50 per bushel; small, \$2.00 per bushel.

GRAIN AT WINNIPEG
Winnipeg, March 22.—Business was extremely dull and quiet in the cash grain markets today, with offerings very light in oats, barley and flax. Cash prices were in good demand with unchanged spreads. Barley prices remained unchanged, but higher in cash. Flax prices were lower with spreads unchanged.

LA ROSE ECLIPSES FORMER EXPLOIT

Heavy Montreal Buying Causes Spectacular Rise—Kirkland Issues Strong.

Bar silver closed in London yesterday at 45s per ounce, and in New York at 90c.

La Rose dominated the local mining market yesterday, following up Thursday's substantial gain with a sensational spurt which carried it up to 83, 9 points above the high reached in the previous big movement.

Beattie's Totalled \$3,000 Shares. Montreal is said to be doing the great bulk of the buying, and President Ross McEwen is credited with having made extensive purchases on the strength of the discovery on the Violet property.

TOUGH-OAKES HAS DEFICIT FOR YEAR

Outlay Seventy-Nine Thousand Dollars in Excess of Revenue Derived.

Operations of the Tough-Oakes Gold Mines, Limited, a pioneer in the Kirkland field, were rather strikingly unprofitable during the past year, resulting in a net loss before providing for depletion of mining properties and Ontario mining tax of eighty more than \$70,000.

The operating account shows total earnings of \$30,058, but shipments having had a value of \$29,861, the remainder being made up of slag and matte.

C.P.R. INVESTMENTS EXPANDING RAPIDLY

Increase of About Eighteen Million is Shown in Annual Report.

GREAT LIQUID ASSETS

Company's Total Assets Cross Billion Mark for First Time.

Montreal, March 22.—The annual report of the C.P.R., which has been issued to the shareholders in anticipation of the annual meeting, presents a number of interesting features, not least of which is evidence of the support to Dominion and imperial government war financing, made possible by the company's financial strength.

At the end of 1916 the company reported "government and other securities" valued at \$11,266,754, to which would be added temporarily invested in war loans, \$5,979,274, a total of \$17,246,028. So far as comparisons may be made—for there are some changes in the form of statement—the corresponding item in 1917 is "imperial and Dominion Government securities," \$33,546,598, with an additional item of \$2,031,721, "provincial and municipal securities," for which there was no corresponding item in last year's financial sheet.

In addition to the foregoing, under the arrangement referred to by Lord Shaughnessy at the last annual meeting, the company issued \$40,000,000 new debenture stock and loaned it to the imperial government. As the issue was not for the company's purposes and plays no part in the company's own financial affairs, it is merely a bookkeeping entry in the balance sheet, the total debenture issue being \$40,000,000 higher, while on the assets side the \$40,000,000 is entered among the company's available resources. The company receives one-half of one per cent. annually for the use of the issue by the imperial government, but this revenue, it is stated, has not been included in the year's accounts, but has been written off against the face value of the security.

The amount of cash on hand in the statement of working assets amounts to \$1,424,593, against \$67,076,018 a year ago, the decrease being readily explainable in such increased items as government securities. The amount held, however, remains large and as the company has little in the way of capital expenditures in view this year, its cash position will continue extremely strong.

FIX PRICE OF SILVER NEAR DOLLAR MARK?

Steady Advance Indicates Action Impends at Washington.

Hamilton B. Wills, in his weekly market letter says: The steady advance recorded each day since Monday in the bar silver market clearly indicates legislative action by congress at Washington is fast approaching, and that when the price-fixing is finally completed a price close to \$1 per ounce will be decided upon.

L. W. LEDYARD, MANAGER OF KIRKLAND-PORPHYRY

L. W. Ledyard, E. M. one of the best-known mining engineers in the north country, until a short time ago manager of the Teck-Hughes, and one of the pioneers in the Kirkland gold camp, has been appointed general manager of the Kirkland-Porphry, and will begin his duties on Monday. He is thoroughly conversant with the vein system of the district.

New Overcoats

It is during these times of economy that staple men appreciate such inviting values as we offer in our popularly priced clothing at \$22.00, \$25.00 and \$28.00.

Regardless of the present high cost of skilled labor and the constantly increasing price of good materials, the garments which we offer today contain the same good quality materials and high-grade workmanship as you would have expected at popular prices before the changed market conditions.

In assembling these new stocks extreme care has been exercised in the selection of garments. Each is correct and the styles are so numerous that every man and young man can be fitted properly.

On Sale Today
Men's Spring
Overcoats
\$13.95

Spring arrived like these lightweight overcoats will go---with a rush!

In the lot are the new season's smartest and most popular styles---English slip-on with natural shoulders and loose back---Trencher with all-round belt and the standard dignified Chesterfield.

Materials are plain grey cheviots and vicunas, English and Canadian tweeds in grey and black mixtures, also there are a few Donegal tweeds represented. Sizes 34 to 46. On sale today at \$13.95.

On Sale Today
Men's Suits
of All Wool
\$18.00

An outstanding feature of these suits is the finely woven all-wool fabric in which they are developed. It is a cheviot finished serge from the famous Fox Bros.' Mills, which fact alone emphasizes the value.

There are in the collection both semi and form-fitting sacque coats, medium high cut vests and narrow straight trousers, with cuffs or without cuffs if you wish.

There are only sixty suits in the sale, so conduct yourself accordingly. Sizes 34 to 44. Today \$18.00.

New Spring Hats That Men Will Want to "Get Under"

Smart styles in Soft Hats in such popular makes as Stetson, Christy, Hampton, Rosco and others, priced at \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00 and \$6.00.

Stiff Hats from such makers as Burton (maker to His Majesty), Stetson, Christy, Stevenson, and Henry Cox, priced at \$3.00, \$3.50, \$4.00 and \$4.50.
