Hon. W. S. Fielding Says Revision Will Be Compromise Between Views of East and West—Legitimate Discrimination Between Products of Countries That Deal With Us and Those That Do Not.

SAYS TORY CORRUPTIONISTS ARE AS BAD AS LIBERALS

Montreal, Nov. 20.—(Special.)—The banquet given this evening by the Reform Club to the Hon. W. S. Fielding was a splendid success. Five hundred guests sat down under the presidency of L. E. Geoffrion. At the table of honor were Sir Fred Borden, Hon. Messrs. Patterson, Aylesworth, Fisher, Emmerson, Brodeur and Lemieux of the federal cabinet, ex-Premier Ross, the Premier Gouin, Hon. W. A. Weir, Senators Mackay, Casgrain, E. M. McDonald, M.P., Piquet, and many other leading men from the different provinces.

THE HEALTH OF THE MINISTER OF FINANCE WAS PROPOSED BY MAJ. G. W. STEPHEN, M.L.A.

The finance minister, who received an ovation on rising, referring to the action of the Conservatives in unseating him in Queens-Shelburne, said:

"Whom the gods wish to destroy they first make mad," and as a matter of fact, the gods seem to have had hostile designs on the men who had originated the opposition in Queen's and Shelburne. As for the past, he said, 20 members had been unseated in Nova Scotia, and 12 had been Conservatives. Sir John Macdonald, Sir Charles Tupper, Hugh John Macdonald, Sir Hector Langlois and others were unseated.

He declared that the Tory leaders had shouted for purity, yet what right had they to do so in view of the past? Mr. Fielding went on to say that although they declined to receive lessons in purity from the Conservatives that did mean the end of the party, they had no reform. If a tree is known by its fruit, we must admit that our present election laws do not seem to work all that desirable in the hands of a good government. The law, strong in some directions, seems to be weak in others. A system that allows Conservative corruption to go free, and permits Liberals who desire to observe the law to be prosecuted, can hardly be said to be perfect. Some improvement is required, yet that improvement will never be obtained thru the mere practical pretence of the party that all the virtue is on one side, and all the fault on the other. Reform will only be secured by a frank recognition of the truth, and an honest effort on the part of all good men to bring about a better state of affairs.

ROOM FOR CRITICISM.

He claimed that the Conservatives wasted their time in discussing petty matters that are of no real importance. Of course, he said, in the expenditure of \$80,000,000, it is hardly to be expected that there will be no

NORWAY TO ASK POWERS TO PROTECT TERRITORY

Germany Said to Be Favorably Disposed to Idea.

Cologne, Nov. 20.—In a despatch from Berlin, the correspondent of the Cologne Gazette confirms the report, published and discussed in the English press for several years past, that Norway intends to propose that the powers, including Russia, shall guarantee the neutrality of Norwegian territory. The correspondent says that he has learned that Germany is favorably disposed to this idea.

Sound, ripened ale like Port Hope Pale Ale agrees with the digestion.

The Shaw-Walker Vertical Filing Cabinet for correspondence is a matter of convenience and good value. The correspondent says that he has learned that Germany is favorably disposed to this idea.

MODERATE TARIFF.

"The adoption of extreme protective views which prevail in some quarters would undoubtedly lead to a disturbing and perhaps dangerous agitation in the west. I have repeatedly urged upon many industrial friends that whatever policy would best fill up the Northwest is the best policy to serve the manufacturers.

"We have labored also to show the western farmer that he must not expect to have things entirely as he would wish them, but he must be prepared to give and take. I think our efforts in this direction have not been vain, and I think most of the manufacturers of Canada are disposed to recognize that the policy of a moderate tariff is on the whole a better one even from their point of view.

"We are about to ask parliament to join us in the work of tariff revision, altho this does not mean that great changes are to be made. We have determined to change the form and shape of our tariff schedules, and while we are doing this we may find it necessary here and there to make changes as regards particular items.

"It is our intention to adhere to our principle of British preference, which will contemplate legitimate discrimination between the products of those countries anxious to trade with us, and those which put up bars against us."—From the Speech of Finance Minister Fielding at Reform Club Banquet in Montreal.

McGILL HEAVY PLUNGER ACCORDING TO BROKERS' STATEMENTS RIGHT UP TO THE LAST

Entry August 2 Shows That Securities for Over Million Dollars Were Bought on Margin—Other Entries are for Large Amounts—Desperation or Nerve?

\$100,000 FOUND IN NEW YORK IS SAVED TO SHAREHOLDERS.

If the Ontario Bank has now come to the end of its independent existence thru the process of absorption, it cannot be said that its decline and fall was due to any timidity on the part of Manager McGill in the latter days. So much was made clear and apparent at the close of the proceedings yesterday in the evidence for and against Mr. McGill, before Magistrate Denison.

Mr. McGill has probably never been suspected of being a mere dabbler in stocks, one who took an occasional "flier" in Wall-street, for the mere zest of sport. But, on the other hand, it is safe to say that few outside of his firm of brokers had any proper conception of the magnitude of the stock market coups that were essayed by the general manager.

Up till the end, or with a few weeks of it, McGill continued to play for huge stakes, as shown by the August and September statements of Charles Head & Co., submitted as evidence in court by Hon. A. B. Morin, acting for the Bankers' Association. It may have been desperation, or it may have been good calculation and cool nerve, but at any rate, the results were fairly staggering.

On Aug. 2 last, thru Head & Co., securities to the face value of \$1,065,534 were bought by McGill's orders. The amount of margin advanced or applied from other stocks or bonds held by the

ANOTHER GREAT MINE. THE GREEN-MECHAN IS THE NEW WONDER OF THE COHALT CAMP.

What is the truth about the Green-Mechan mine, in Cochrane Township, about three miles north of Cobalt? Some parties, for one reason or another, have been "knocking" it for the past two or three days.

The World is assured by those who ought to know, and among them are some of the most reliable men in Toronto and in Ontario, that it is a wonderful mine. It is marvelous because of its richness and because it is outside Cochrane Township. That means that the silver area has widened.

What are some of the facts about the Green-Mechan mine? It was bought for \$200,000 or less, and \$75,000 worth of paid-up stock in the new company. It has been capitalized for \$2,500,000. Enormously rich veins have been found on it and their value is confirmed by Clem Foster, the discoverer and late owner of the Foster mine; by O'Connell and other mining experts. A carload of ore has been shipped that is expected to net \$60,000 at least.

Of the stock issued, a large part has gone to brokers at 140, while 1 1/2 millions is held by the owners, Messrs. E. B. Ryckman, S. R. Wood, Michie and three or four others.

The attack on the mine has been pretty well traced to some parties who have been disappointed in connection with it.

A few days will develop the fact—what The World believes, and what the men who should know believe—that it is one of the best in Cobalt. The World's Cobalt commissioner is going over the property in a day or two.

IN A MELTING MOOD

POLICY HOLDERS SUGGEST MANY RADICAL CHANGES

Memorial for Presentation to Insurance Commission—Makes Recommendations Providing for Protection of the Insured and Control of the Companies.

A memorial, to be presented to the royal commission on insurance, as representing the views of the Policyholders' Association of Canada, was yesterday approved by the directors and will be forwarded to Ottawa without delay. The directors also received with regret the resignation of William Christie, who, since the idea was first mooted of organizing the policyholders, has been a diligent worker in the interests of the association, and as secretary has rendered most valuable service. It was decided to secure a new secretary, who will be asked to devote his entire time to the work of the association.

The memorial reads: "May I please your honors: Your memorialists are a duly incorporated body, having amongst its objects the organization of holders of life insurance policies and benefit certificates, for their mutual protection and to endeavor to obtain such legislation as may be deemed advisable in the interests of the assured. The association was called into being as a result of the disclosures in New York, and no active canvass for members has been made on its behalf. At the present date the membership is over 500, representing over 50 different centres in the Dominion.

As the recommendations which your honors will make to parliament at the close of your enquiry will form the basis of future legislation affecting life insurance in Canada, your memorialists, after careful deliberation, respectfully submit the following suggestions for your consideration in framing your report:

Policies. From mere life insurance contracts the tendency in recent years has been towards a multiplicity of plans and options, in which the provision for death has become secondary to the investment features of the policy. Competition amongst companies has been thereby actuated, and expenses increased. Agents are enabled, by the

G. M. HYMAN GOES SOUTH ORDERED BY HIS DOCTOR TO TAKE COMPLETE REST

Suffering From Prolonged Overwork, But May Be Back in Time for Session—Announcement Paves Way for Complete Withdrawal From Public Life.

London, Nov. 20.—(Special.)—Considerable stir was caused in political circles to-day by a statement in The Advertiser, that Hon. C. S. Hyman had been ordered by his physician to take a complete rest and that he had left for the south.

It is believed that this announcement is intended to pave the way for the minister's complete withdrawal from public life. That he would look for a favorable opportunity to resign his seat was known. He, however, allowed the psychological moment to pass to throw up the seat and ask for re-election, and the knowing ones now say that the exposure has gone so far that Mr. Hyman will have to retire from the cabinet as well. However, both friend and political foe will wish him a speedy recovery and a safe return. The Advertiser's article is as follows:

"The friends of Hon. Charles S. Hyman, M.P., minister of public works, will regret to learn that the condition of his health is such that his physicians have ordered him to take a complete rest for a period.

"Mr. Hyman is suffering from prolonged overwork. It is no secret that Mr. Hyman has been a slave to public business, and from the outset has thrown himself into his department and duties with an energy and vigor which soon have broken down one of the less vigorous constitutions. He was not content to be an office-chair administrator, but during the past summer he has been incessantly traveling over the country to personally inspect public works. His friends warned him that he was over-taxing his strength, but he continued to work at high pressure until he collapsed.

"On advice of his doctors, Mr. Hyman has left for the south, traveling by easy stages, and will be joined by Mrs. Hyman in a few days. It is hoped that he will be sufficiently restored in a few weeks to resume his duties at Ottawa."

FREE TRIP TO TORONTO.
Special Concessions to Out-of-Town Customers During November.

In order to give out-of-town customers the same shopping privileges as city people, the Dineen Fur Store is refunding railroad fares all this month proportionate to the amount of purchases. This enables residents of Hamilton, Brantford, London, Peterboro, Brockville and other Ontario towns to come to Toronto at Dineen's expense to do their Christmas shopping. The offer holds good for November, and is intended for immediate acceptance.

RAIN OR SLEET.
Metropolitan Office, Toronto, Nov. 20.—(8 p.m.)—Rain has fallen to-day in the low of lake region, but has been heavy elsewhere. A few snow flurries have occurred in the western provinces. Elsewhere in the Dominion the weather has been mild. The temperature has risen in Alberta and Saskatchewan and fallen slightly from the Great Lakes to the Atlantic.

83 YONGE STREET
TORONTO, ONT.

Winnipeg, Nov. 20.—(Special.)—The grain growers' commission opened in Winnipeg to-day to investigate charges which have been made by the Grain Growers' Association, that a combine exists to keep down prices. Five witnesses were heard in all.

The principal witness was E. A. Partridge, president of the Grain Growers' Grain Company, who gave it as his opinion that his company had been ousted from the grain exchange because it was interfering with business line elevators and was educating the farmers to handle their own grain.

H. B. Easton admitted that the straight salary rule was stifling competition and John Love of the Winnipeg Elevator Company explained that the change from commission to salary was to conserve the dignity of the trade and to prevent the commission from cutting their own throats.

WOMAN'S WORLD.

HEARTLESS SHEILA SHEA.

From The Catholic Standard and Times. Shure, the parish is so quiet, Sheila Shea, All the folk are saddened by it In a way, An' the whole 'o' them are waitin' Fur the joy 'o' celebratin' Somethin' lively, like a weddin', let us say. Shure, ye know it is the duty Of a girl that's blessed wid beauty To be careful not to let it waste away.

Do ye hear me, Sheila Shea? Shure, ye know it is the duty Of a girl that's blessed wid beauty To be careful not to let it waste away.

Has no sense 'o' sorrow found ye, Sheila Shea, Faix, the world revolves around ye, An' it's gray, Gull, the spell will soon be broken, Pur, altho ye have not spoken Sorra word 'o' what I've begged of ye to say.

If ye will not grace a weddin', 'Tis meself will soon be dead, an' There's some comfort in a funeral, anyway.

Do ye hear me, Sheila Shea? Shure, how can ye be so gay, Wid my breakin' heart so near ye, that ye sing the livelong day?

Do ye hear me, Sheila Shea? Shure, how can ye be so gay, Wid my breakin' heart so near ye, that ye sing the livelong day?

Do ye hear me, Sheila Shea? Shure, how can ye be so gay, Wid my breakin' heart so near ye, that ye sing the livelong day?

Do ye hear me, Sheila Shea? Shure, how can ye be so gay, Wid my breakin' heart so near ye, that ye sing the livelong day?

ANGELIC COMMITTEE FAVORS CHURCH UNION

Suggests That Bishops Form Delegation to Participate in Movement.

The Ontario Churchman, Kingston, has published the report of the Anglican Church committee appointed to make a declaration on church union. It says: "The joint committee upon the subject of Christian union, appointed at the last general synod, has had under its consideration the communication of the joint committee of the Presbyterian, Methodist and Congregational churches on church union, addressed to the archbishops and bishops of the Church of England in Canada and submitted to the committee on Christian union by the Episcopal members of the committee. The committee is impressed with the earnestness and spirit of the invitation and proposal, and remembers the pronouncement of the last Lambeth conference urging the bishops of the several churches of the Anglican communion to appoint a committee, and to watch for and originate opportunities of united prayer and mutual conference between representatives of the different bodies. Must Not Be Committed. "The committee respectfully suggests to the House of Bishops of all Canada that the latter should name a suitable delegation to participate in the general union movement, referred to in the communication, it being understood that neither the delegates nor the House of Bishops may appoint, nor the House of Bishops itself, is committed in advance to that which has already been mentioned in the communication, and it being also understood that no action binding upon the church can be taken except by the general synod. The committee of union places itself at the disposal of the House of Bishops for the purposes of the delegation. "Moreover, the committee is of opinion that there is no serious obstacle to union as regards the first three articles of the Lambeth quadrilateral, and believes prepared to offer when an earnest effort should be made to find out the possibility of the acceptance by these communions of the historic episcopate, and to discuss the causes which in bygone generations led to the formation of these separate communions were mainly two. Resolutions were adopted by the general church ministration and the attitude of the church to our separated brethren, must recognize these causes. In reference to this, at page 11, C. C. 1897, this passage occurs: 'In this renewed spirit of unity we trust our beloved church will have a large share. We speak as brothers to these Christian brothers who are separated from us. We can assure them that we fall not in love and regard them as brethren, and we shall be glad to have the fruit of the Holy Ghost produced by their lives and labors. We remember the fact, so glorious for them, that they were made in the image of God, and that once of family virtue and of the life hidden with Christ in God. We can assure them that we are ready to receive them as brethren, and that we have been written upon our communion, and that the lips of many of our people have been touched with heavenly fire. To Be Eventually Attained. "Acting, as it believes, in the spirit of the foregoing quotation, the committee suggests that the requirements of the fourth article of the Lambeth quadrilateral will eventually be attained if all future ministers of the proposed United Church receive ordination at the hands of duly consecrated bishops and respectfully urges that the House of Bishops should be invited to confer with the other communions on that basis. "Finally, the committee believes that organic unity, as contemplated, would result in a higher and truer conception and realization of the Christian ideal, and therefore, that no opportunity should be lost in seeking and no sacrifice consistent with legitimate adherence to principle should be spared. The Ontario Churchman approves the report and adds: 'It is an interesting public document, and there is scarcely a chance of its acceptance by their synods, which will be historic in one sense, in that it expresses the broad spirit of a large proportion of the clergy and laity of the church. The only demands which are made for good will a broader courtesy to separated brethren than now exist. The general synod's committee on union comprised the bishops of Quebec, Columbia, Qu'Appelle, Montreal and Huron, Deane Williams and Zagel, Archbishop Schulz, Canon Richardson, Revs. Langtry, Simmonds and Sage, and Messrs. McDonald, Rogers, Lewis, Parmelee and Drewery. Going to New York? If so, remember the last train leaving Toronto is via Grand Trunk at 6.10 p.m.—a convenient hour for business. Pullman sleeper to New York, cafe parlor car to Buffalo, and this train also connects at Buffalo with sleeper for Philadelphia. Reservations may be made at city office, northwest corner King and Yonge-streets. New Deputy Registrar. Windsor, Nov. 20.—Francis Cleary has been appointed deputy registrar of the admiralty court, to succeed J. P. Hare. Richest Cardinal Dying. Rome, Nov. 20.—The Pope has sent his benediction to Cardinal Veszary, primate of Hungary, who is at the point of death. Veszary is the richest of the cardinals, and contributes \$200,000 yearly to the maintenance of the Holy See.

Diad at King Edward.

Last night a dinner party in honor of Dr. Alexander H. Ferguson, the famous Chicago surgeon, was given at the King Edward Hotel by his old college companion, Col. Sam. Hughes, M.P. The guests were, in addition to the above, Mrs. James L. Hughes, and daughters, Mr. and Mrs. Wm. Scott, principal of the Normal school; Dr. and Mrs. Wallace Scott, R. B. O'Brien, and Capt. James Thompson. Dr. Ferguson was called to Toronto from Chicago to perform a difficult surgical operation upon the late Mr. A. W. For simcoe, now a resident of this city.

Personal Mention.

Sydney Stephenson of The Chatham Planet and Mrs. Stephenson and Miss Stephenson are at the Queen's.

Mrs. B. S. Lynden, 79 Summerhill avenue, will be at home to her friends on Wednesday. Her husband is in Toronto on the third Wednesday of each month.

MISSIONARY CONFERENCE.

Program for Meetings Which Will Be Begun To-Morrow. The Missionary Institute, under the auspices of the Young People's Missionary Movement, will open in the Central Presbyterian Church to-morrow afternoon and continue until Saturday evening. The program for the week is as follows: Monday, 8 o'clock each afternoon on Wednesday. Tuesday, 8 o'clock each evening at 8 o'clock the meetings will be open to the public.

At 3.45 this afternoon the Daughters of the Empire will formally present to the Rev. John L. Davidson, the new Avenue-road entrance to Queen's Park. Mrs. John L. Davidson will read the presentation address. Mayor Coates will preside. The regular monthly meeting of the Chamberlain Chapter will be held this afternoon at 7.30 o'clock in the hall of the Y. M. C. A. College-street, when a paper on "Makers of Canada" will be read by Mrs. Forsyth Grant.

Coming Events. The monthly meeting of the Zenana Bible and Medical Mission will be held this afternoon at Mr. Hodgins'. A fourth quarterly open meeting of the Deaconess Aid Society for the year 1906 will be held at the Methodist, Deacons Home at 4 p.m. The Needlework Guild of Canada hold their annual distribution of new warm garments at St. George's Hall to-day from ten o'clock until four.

A Christmas tree will be held at St. Thomas' Church to-day and to-morrow, when Santa Claus will make his first appearance. There will be a musical program each evening at 8 o'clock. Music in all refreshments. The annual meeting of the Toronto Humane Society will be held on Monday evening, Nov. 26, in the theatre of the Normal School. The meeting will take the form of a conversation. The art gallery and museum of the educational department will be open, and the lieutenant-governor has consented to preside. The officers and members of the Harmonic Club have issued invitations for their at home on Monday, Nov. 26, at the Metropolitan assembly rooms. The annual exhibition of talent work for the purpose of taking orders by the members of St. Alban's branch of the Cathedral League, will take place in the crypt of the cathedral to-morrow afternoon by evening. In connection with this exhibition there will be a sale of Christmas articles by the children in aid of the Sunday school, and refreshments in the evening.

Michie-Cantile. St. Andrew's Church, in King-street, was the scene of a silent wedding at half-past two o'clock yesterday afternoon, when Miss Annie Michie, daughter of the late J. Michie and Mrs. Michie, was united to John Alexander Cantile, son of Mr. and Mrs. G. Cantile of Montreal. The Rev. T. Crawford Brown performed the ceremony in the presence of a large and fashionable congregation. The church was exquisitely decorated with white chrysanthemums, banked with ferns and tall white lilies. The bride wore a gown of satin ribbon. As the guests were assembling, Dr. Anderson played several selections. The bride, who was given away by her brother, Major Michie, wore a beautiful lace robe over a gown of chiffon and satin, made a princess, with three graduated flounces. Her hair was styled in a tress of orange blossoms, and she carried a shower of violets and lilies.

Constipation

You cannot possibly enjoy the best of health if your bowels are constipated. Undigested material, waste products, must be daily removed from the body, or there will be trouble. Constipation means bilious attacks, indigestion, headaches, nausea, dizziness, loss of appetite, thin blood. Ayer's Pills are gently laxative, all vegetable. We have no equal. We publish J. C. Ayer Co., Lowell, Mass.

Just a Word About Corn

Toasted Corn Flakes

As a food, corn is one of the finest cereals grown. It is particularly good for people who eat generous quantities of ordinary white bread, for it provides a change of diet that is invariably beneficial. The most appetizing way in which corn has ever been eaten is in the shape of...

VICTIM'S WEDDING CLOTHES CAUSE SENSATION IN COURT

For the First Time Gillette, on Trial for Killing Grace Brown, is Deeply Moved. Herkimer, N. Y., Nov. 20.—Grace Brown's wedding clothes which were made by friends and neighbors for the girl who went to a watery grave in Big Moose Lake on the very day she was to be married, were on display in court, where Gillette, on trial charged with responsibility for her death, read the list of names which were recovered at Fulton Chain, were taken several garments that composed her wedding trousseau. They were identified by the bride's mother, Mrs. Chester B. Gillette, who was shown in court, where Gillette is on trial charged with responsibility for her death. From the girl's trunk, which was recovered at Fulton Chain, were taken several garments that composed her wedding trousseau. They were identified by the bride's mother, Mrs. Chester B. Gillette, who was shown in court, where Gillette is on trial charged with responsibility for her death. From the girl's trunk, which was recovered at Fulton Chain, were taken several garments that composed her wedding trousseau. They were identified by the bride's mother, Mrs. Chester B. Gillette, who was shown in court, where Gillette is on trial charged with responsibility for her death.

NO PEACE FOR HIS ASHES.

Body of One of Original Patriots Disinterred for Reburial. Edenton, N.C., Nov. 20.—The body of James Wilson of Pennsylvania, who, with fifty-five other American patriots, signed the Declaration of Independence, was to-day disinterred from its long resting-place here, preparatory to being sent to Philadelphia, where, on Thursday next, it will be deposited in Christ Church burial ground, alongside that of his wife, almost in the shadow of Independence Hall. Upon reaching Philadelphia, the body will be taken to Independence Hall, where, according to the program, it will be laid to rest in the crypt of the supreme court of the United States, of which James Wilson was at one time a justice. Attorney-General Moody, Andrew Carnegie, Senator Knox, Dr. S. Weir Mitchell, Alton B. Parker and others.

CHILDREN'S CONTRIBUTION.

With Two Schools to Hear From, Total is \$640. Secretary W. C. Wilkinson of the board of education announced last night that the public school children had subscribed \$640 toward the Muir memorial fund. Mr. Wilkinson's whole staff of clerks were kept busy for a whole day counting the contributions, which came mostly in coppers, and the pile of coin realized would more than fill a bushel basket.

WARD'S SLAYER ARRESTED.

Grand Rapids, Mich., Nov. 20.—The coroner's jury which investigated the death of pugilist Michael Ward, returned a verdict to-day finding that Ward came to his death through "a fall as the result of a blow struck by Harry Lewis (Besterman), while engaged in a prize fight." "The verdict says that blame should be laid upon the promoters and abettors of the fight as fully as upon the principals themselves. After the return of the verdict a warrant was issued for the arrest of Lewis, who has been in custody since the fight, charging him with willful murder. Frank Lynch, who promoted the boxing match in which Ward met his death, was arrested and held in \$1000 bond for examination December 3rd.

Happy at Last

Her Husband no longer gets Intoxicated—Samaritan Tastes Remedy Cured Him. This lady says: "For the first time since I have been married I can be happy and content—my husband is cured of his habit of drinking. Several months ago you sent me a free sample of your medicine, and I tried it, and without my husband's knowledge I gave it to him. He kept on drinking, but I then got a full treatment and gave it regularly. It is wonderful, and I can truly say that I thank you for the blessed medicine it has brought to my home. And pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence strictly confidential. Address: THE SAMARITAN REMEDY CO., 90 Jordan Chambers Jordan St., Toronto, Canada. Also for sale by George A. Slingham, 100 Yonge-street, and at Kendall's Pharmacy, 1400 Queen-street west.

NOT A BUILDING STANDS AFTER TORNADO'S SWEEP

Little Town of Henninger, Ala., Wiped Out—Wide Area in Middle South Devastated.

Gadsden, Ala., Nov. 20.—A tornado struck the little town of Henninger, in DeKalb County Sunday morning at daybreak and not a building was left standing. Fifteen stores and houses were reduced to splinters. Henninger is 12 miles from the nearest railroad station. No fatalities are reported. DEVASTATED. Memphis, Tenn., Nov. 20.—As more detailed reports are received from those portions of Alabama, North and Central Mississippi, and West Tennessee, swept by wind and rainstorms for 48 hours, the situation increases as catastrophes.

ROBLIN'S HOPES FADE AWAY
WOOD EXPANSIONS LIKELY

Dispute is Between Ontario and Saskatchewan in Division of Keewatin.

Winnipeg, Nov. 20.—(Special.)—"I am bitterly disappointed over the result of our conference with the government at Ottawa on the boundary question," said Premier Roblin this morning.

"There is less prospect for an extension of boundaries to-day than there was when the promise was made two years ago in February. As an evidence of this, Sir Wilfrid expressed his regrets that he could not create a new province out of the unorganized territory, and thus avoid the division or re-arranging, as was pressed at the conference.

"To show the position we are in to-day, I have only to point out that Ontario claims, in fact, demands, that she shall have her boundaries increased so as to take in all the territory east of the 95th meridian, to a point where it annexes the Churchill River and the centre of the river to be followed to Hudson Bay, as the remainder of western boundary, which the Saskatchewan demands fulfillment of an alleged promise or understanding by which her boundaries were to be increased so as to take in all the territory north of the Nelson River.

"If you will look at the map you will see the dispute, therefore, is between Ontario and Saskatchewan, nothing being left except a portion of the north end of Lake Winnipeg and a small area south of the Nelson River and west of the 95th meridian."

"I certainly believe we will lose all unless the people of Manitoba unite and stand together as one man, as we did in 1880 when Ottawa undertook to withhold from this province the rights that were guaranteed to us under the constitution. We joined together then, forgetting for the time, out party affiliations and, being united, secured recognition of these rights. If it were necessary then it is a hundredfold more so now.

"I only wish the people of Manitoba to know and to realize that we are being discriminated against at every point and in every way possible. The reason, I shall not give, but I think it is manifest to the most indifferent observer of events covering the last few years.

"The situation is critical, and if we do not act now, it will only be by virtue of the action that I have just indicated, and by a declaration by the people of Manitoba, that justice must be done, and that anything else will not be tolerated. The people are greater than governments, and this is the time when the people should speak and exercise the power that is vested in them by virtue of responsible government."

Please Remember!

Dineen furs are not "cheap" in the sense of being inferior. We value reputation even more than profit. Everything we sell must be thoroughly reliable.

We buy skins direct from Indians and trappers for spot cash and know all about furs from life-long experience. That's why we can discount the trade with

Men's Fur-lined Coats at \$50.

Nothing in town to equal them at the price. Our trade in fur-lined garments is big enough to warrant the best.

Railroad fare rounded to our-oftown customers buying low coats this month.

STR. SEGUIN SEIZED.

Labelled at Buffalo for Claim for Sinking of Schooner.

Buffalo, N. Y., Nov. 21.—(Special.)—The Canadian steamer Seguin was seized yesterday afternoon at Gratiot by United States Deputy Marshal John Hettig of this city, to satisfy a claim for \$25,000 made by the Peabody Steamship Co., whose headquarters are in Cleveland. The vessel is held at Gratiot. It is owned by J. B. Miller of Toronto.

The libellants claim that the Seguin was responsible for the sinking of the schooner I. L. Bell on Nov. 13. The schooner was in town of the steamer Rockefeller when the collision occurred off Port Huron. The Seguin was in a sinking condition when it reached Sarnia, where 400,000 feet of lumber was lightered. The Seguin, after temporary repairs, resumed its journey and reached Tonawanda yesterday.

Fire underwriters from this place will go to the vessel this morning to adjust the cargo. The cargo is valued at \$15,000.

It is claimed that some of the proceedings taken in this case are irregular. It is likely that the matter will finally be settled thru diplomatic channels.

Billiard Results.

New York, Nov. 20.—Two games in the 152 shortstop billiard tournament were played here to-day. In the afternoon game Frank Hoppe, Jr., of this city, an elder brother of the young 18-1 billiard champion, Willie Hoppe, lost to Tom Gallagher, of Philadelphia, 400 to 274.

The night game between Harry Cline of Philadelphia and Alexander Taylor of Chicago was won by the Philadelphia player in the 28th inning, 400 to 274.

Gallagher—Total 400, average 9 40/100; high runs, 41, 40, 34.
Hoppe—Total 274, average 6 38/100; high runs, 25, 20, 19.
Cline—Total 400, average 14 8/28; high runs, 58, 45, 42.
Taylor—Total 370, average 14 1/27; high runs, 44, 93, 42.

SEES CHILDREN AND DIES.

John Henning Broke Quarantine and Was Himself Stricken.

Paternal affection resulted yesterday in the death of John T. Henning, manager of the Toronto Bill Posting Company.

Three of his children had been laid up with diphtheria, and the house was quarantined. Unable to remain longer without a glimpse of his loved ones, Mr. Henning on Friday made them a stolen visit. Saturday saw him in the grip of the dread disease, and he was at once removed to the Isolation Hospital, where he died yesterday.

Mr. Henning was one of the best known advertising men in the city. He was for a number of years on The Monetary Times, and later had charge of the display advertisements in the street cars. Recently he became manager of the Toronto Bill Posting Company. The deceased leaves a widow and six children. Mr. Henning was much liked and respected, a genial companion and a good business man. His bereaved widow and family have the sincere sympathy of his many friends.

SENATOR ATTACKS WAR MINISTRY.

Says French Government is Playing Into Hands of Great Britain, and Asks if Military Convention Has Been Signed.

Paris, Nov. 20.—Senator Gaudin du Villaine created a sensation in the senate to-day by making a vicious attack on the foreign and interior policy of the government.

After expressing regret at the fact that the Catholics had not the courage to reply to their persecutors as the terrorists did in Russia, M. de Villaine charged the government with playing into the hands of Great Britain, and demanded to know whether the report that a military convention had been signed between Great Britain and France as a prelude to the great ad-

UNION BROKE ALIEN LABOR LAW

Had Man Brought From Chicago Who Proves a Disappointment.

The importation of one man from Chicago has stirred up considerable wrath among the employees of the Lowndes Clothing Manufacturing Company, and as a result all the cutters, trimmers and pressers, aggregating about fifty men, went on strike yesterday.

The shop has been considered reasonably "fair" all along, and the company was even granted the privilege of hanging its sign in the auditorium of the Labor Temple; but this will have to come down.

A mass meeting of Garment Workers was held last night to acquaint all the trade of the situation.

It appears that the firm had for some time been in need of an extra man, and the union was unable to secure such a man, and told the manager to import one on condition that he would join the union as soon as he came to the city. A man came from Chicago a week ago last Saturday. He was approached by the union to join, which he promised to do on the following Wednesday. On that evening, when reminded of his promise, he became very abusive and told the delegation what they could do with the organization.

The manager took an "open shop" attitude, hence the strike.

TRY TO MURDER CHIEF.

Police Open Fire on Band With Gatling Gun.

Odesa, Nov. 20.—A desperate attempt was made here to-day by a band said to be composed of social revolutionists to murder the chief of the company of the Odessa police. The band did not desert until the police had opened fire on it with a Maxim gun, killing three men and wounding three more. The others escaped.

Another band, composed of terrorists, to-day seized \$2000 in the office of the Russian Navigation Company, after killing a police official.

Almost Asphyxiated.

James Nicholson, aged 28, was found in his room at McCue's Hotel, West King-street, yesterday morning, suffering from asphyxiation. He was taken to Grace Hospital, and last night was reported out of danger.

UNCO WEAK.

I'll no say men are villains at: The real, hardened wicked, Who live and chew the following Wednesday. Are to a few restricted. But oh! mankind are unco weak, If self's the warring balance shake, It's rarely right adjusted. —Burns.

CARPET LINED WITH GOLD.

Detroit, Mich., Nov. 20.—At the auction sale of the household effects of the late John Mullin, whose home was on Vinewood-avenue, great excitement was caused by the finding of \$15,000 in gold spread out under the carpet of a bedroom occupied by Mr. Mullin.

Advertisement for BYRRH wine, featuring a bottle illustration and text: "The Best Wine. Remember BYRRH. Secure your tickets from the Ushers."

NO GREAT CHANGES

Continued From Page 1.

room for criticism or fault-finding. Altho the people will not be indifferent to small matters of administration, they will not let them become a cloud to shut out the splendid record of ten years good government under Sir Wilfrid Laurier.

"We invite," he said, "with the fullest confidence, a study of our financial policy."

He declared that he was ready to stand or fall by the government's own record rather than make comparisons. He called it the Great Eastern record of the Liberals, and the ferry boat record of the Conservatives.

"Take the whole period of the 19 years of the present government and the whole 18 years of our predecessors, while they had an average surplus of \$1,000,000, the country can be proud to have had an average surplus of over \$7,500,000."

Some Bookkeeping. In reply to the claim that the Liberal bookkeeping was defective, the finance minister said it was sound. As for the public debt, Mr. Fielding said it was not to be expected that the debt should be increased by the Liberal government, and also for \$97,000,000 of special expenditure, to which he referred, "and at the end of 10 years we find that the net increase of the public debt is \$2,500,000, or an average of about \$250,000 a year, against an average of \$5,500,000 for the period of our predecessors."

A matter of fact, the speaker said, that making allowance for the increase of population, the net debt to-day is several dollars per head than it was 10 years ago. Our credit, he said, was good before, yet it was better now. To-day our three per cent. are quoted above some British stock. In the meantime we have ourselves issued a 2 1/2 per cent. stock, the price of which is but little below that of British consols of the same rate of interest. This, he claimed, is of the utmost importance to the country, in view of the fact that we are approaching a time when large sums of old loans will mature, and will have to be renewed.

The minister went on to say that a large expenditure, when it is wise, is a good economy. Canada, he declared, was no longer doing business on a back street. Hon. Mr. Fielding then gave figures to prove what he had just said.

After paying an eloquent tribute to J. M. Courtney, ex-deputy minister of finance, he said Canada's trade increased from 1887 to 1896 less than \$50,000,000, while it has gone up during the past 10 years over \$311,000,000.

Tariff Question.

Referring to the tariff question, he said:

"Under such conditions, the adoption of extreme protective views, which prevail in some quarters, would undoubtedly lead to a disturbing and perhaps dangerous agitation in the west. I have repeatedly urged upon our industrial friends that whatever policy would best fill up the Northwest, is the best policy to serve the manufacturers themselves, for nature in these new lands will naturally be customers for eastern manufacturers."

"We have labored also to show the western farmer that he must not expect to have things entirely as he would wish them, but he must be prepared to give and take. I think our efforts in this direction have not been in vain, and I think most of the manufacturers of Canada are disposed to recognize that the policy of A MODERATE PROTECTION IS, ON THE WHOLE, A BETTER ONE, even from their point of view."

"Now, we are about to ask parliament to join us in the work of tariff revision, altho this does not mean that great changes are to be made. We have determined to change the form of our tariff schedules, and while we are doing this we may find it necessary here and there to make changes as regards particular items."

"He, however, was not free to make any statements, as tariff changes in detail can only be made known from the floor of parliament," he stated, "to adhere to our principle of the British preference, and to lay down in law."

He would also have another tariff column which shall contemplate legitimate discrimination between the products of those countries, in relation to the early days of the coming session. The finance minister was again loudly cheered as he resumed his seat.

B. C. HOTEL DYNAMITED.

Young Woman Blown Up and Two Italians Injured.

Victoria, B. C., Nov. 20.—(Special.)—The third of a series of unexplainable dynamite outrages within six months in the mining region of this province occurred on Monday at Niagara, when unknown miscreants blew up the Canadian Hotel, killing Louise King, aged 18, and two Italian laborers, besides injuring nine others.

Three boxes of dynamite were obtained by breaking into the storehouse of Contractor Tierney.

When the explosion occurred the girl victim was standing only a few feet from her mother. Her body was blown in two, the trunk being left intact. The building was completely demolished by the explosion, which caused a fire, destroying the debris of the hotel.

Monday afternoon a fight occurred between Italian and French laborers, the latter being worsted and threatening to blow up the hotel in which the Italians boarded. During all Monday night there was promiscuous shooting by drunken railway navvies and several travelers narrowly escaped.

CAPT. BERNIER'S QUEST.

Finds Relics of McClintock in Arctic Journey.

New York, Nov. 20.—Herbert L. Bridgman of Brooklyn, secretary of the Peary Arctic Club, yesterday received from Dundee, Scotland, an account of the work of Capt. Joseph E. Bernier, commanding the Canadian government steamer Arctic, during the last summer among the Arctic islands over which Canada has lately claimed jurisdiction.

Capt. Bernier sailed from Chateau Bay, Labrador, Aug. 3. On Aug. 25, in sight of Bathurst Island, he was beset by ice. On Aug. 28 he found, on Point Cockburn, the relics and the record of McClintock, placed there in 1831, which he took on board the ship.

Pushing westward, the Arctic entered Peel Sound Aug. 31, finding it impossible to land on account of ice. Capt. Bernier said:

"The northwest passage, it seems to me, might be easily done with a ship of this kind, provisioned for two years, in case of being nipped."

Landing was made Sept. 2 at Erebus Bay, where Sir John Franklin's monument, in fair condition, was repaired and re-painted.

City Buys Land.

The government has sold to the city vacant lots at the corner of Queen and Lisgar-street, which were formerly part of the Toronto Asylum grounds. The property has a frontage of 100 feet on the south side of Queen-street and a depth of 125 feet on Lisgar. The purchase price was \$7840.

The city may use the land for the erection of a branch library.

A COLLECTION OF Sterway Art Pianos ARE NOW ON VIEW AT THE

NORDHEIMER'S WAREROOMS, KING ST. E.

The Public are Invited to Inspect These Superb Instruments . . .

The collection includes the famous "Robin Hood" Grand in oak, decorated with hammered copper and painted by A. E. Blakmore. A Louis XVI. Grand in red mahogany, ornamented in gold leaf. A Louis XV. Grand, heavily carved.

These pianos will be returned to New York at the close of the exhibition on Saturday next.

CROSSED SEA WITH MONEY.

Arrested at Liverpool and Will Be Brought Back.

The detective department have received official notification of the arrest in England of Arthur L. C. Ward, proprietor of the American Hotel, Niagara-on-the-Lake, who is charged with the theft of \$396.60 from Edward Adecock, 32 Mutual-street.

In December last Adecock was employed as a wiper on the New York Central, and received permanent injuries thru the explosion of a boiler at Albany. A settlement was made with the company for \$7500 and, after spending nearly a year in various hospitals, he turned over what money remained to Ward for safekeeping, fearing that he might not recover.

Hearing that Ward was about to leave for the old country he demanded his money and was told that a cheque for \$500 had been deposited to the credit of Mrs. Fred Lewis, his boarding house mistress. Adecock wasn't satisfied and followed Ward to the station, making the latter pay his fare to Montreal. He threatened to inform the police and was handed \$480 cash, making \$1000 in all. He returned to Toronto and learned that the cheque had been cancelled by wire. He then informed the Toronto detective department, and last Friday Detective Sergeant Duncan wired Scotland Yard.

Ward was arrested as he departed from his steamer at Liverpool. He appeared in Bow-street police court, and was remanded for a week. Detective Verney will likely go to England to bring the prisoner back.

FEDERATION OF LABOR.

Convention Endorses Gompers' Address on 8-Hour Day.

Minneapolis, Minn., Nov. 20.—Subsidized shipping, which involves the enlistment of those employed thereon as members of the naval reserve, was denounced at to-day's session of the American Federation of Labor convention. President Gompers touched extensively on this subject in his annual report.

The stand of the International Typographical Union for an eight-hour day, and that of the textile workers in seeking shorter hours and more wages, was approved, and the "no wage reduction" policy recommended by President Gompers was endorsed.

The convention unanimously endorsed that portion of the president's report dealing with the proposed eight-hour law and recommended the passage of the bill by Congress.

The child labor resolution introduced in the United States Senate, calling for an official investigation of the woman and child labor situation in the United States, was approved, and its passage by Congress recommended.

The bill calling for an eight-hour day for railroad labor was also approved. The convention officially went on record as inviting the deputies of the railroads to a joint conference for a consideration of labor questions.

The anti-injunction bill was endorsed, and the injunction plan scored. Japanese, Chinese, Korean and Hindu labor was included in a sweeping denunciation of Asiatic immigration and a demand for further extension of the exclusion law was made.

FREE TO MEN UNTIL CURED

Not One Penny in Advance Nor on Deposit.

To any man suffering from debility, losses, impotency, varicocele or from lame back, rheumatism, etc., who will call in person or apply by letter, I will give absolutely free one of my world-famed Dr. Sanden Electric Belts until cure is completed. This is my faith in my treatment, as nearly 40 years' experience has proved that my method will cure any curable case of debility, and I am prepared to take the risk of a trial. This offer is made to all sufferers, but I especially solicit those who are tired of useless drugging for these troubles, as I have demonstrated in many thousands of cases that my method of electrical treatment cures where all known drugs fail. I don't ask one cent in advance or on deposit. If you have faith to write me or call I will at once arrange to give you a belt, used in strength than cured or satisfied. In many cases your ailment, and trust you to pay me when you are cured or satisfied. In many cases I have two best little books ever written upon electricity and its medical uses, and even if you don't need or wish to try my treatment they would interest and instruct you. I send them free, sealed, by mail.

BANK INVESTIGATION

Continued From Page 1.

ed by the entries in the bank's books as loans.

Mr. Pope on the Stand.

F. H. Pope, the first witness of the morning, was examined at some length by Mr. McKay. He said that he entered the head office in September, 1896, and that for a time his duties had been on the transfer books. He had known of the transfers of Ontario Bank stock to itself and that purchases had been made with bank funds, but wasn't quite sure whether it was all carried under the officers' guarantee fund.

"Do you know of any other purchases and sales were made in the name of individuals?"

"The transactions were made in Mr. McGill's name and the purchases had been made with bank funds, but wasn't quite sure whether it was all carried under the officers' guarantee fund."

"No, I don't think so."

Questioned as to his acting for McGill in the latter's absence, Mr. Pope said he had done so since 1904, when Mr. Langton left. Witness thought he had been aware of the bank's dealings in New York securities before that time. He remembered having once wired Mr. McGill about Iowa Central stock.

Mr. Pope was asked about other speculation flyers, and recalled dealings by McGill in Tennessee Coal and Iron, Amalgamated Copper, American Telephone and Telegraph and Washash "B" bonds. He also considered these speculations were on behalf of the bank. It was never suggested they were the manager's own affairs, except in one instance, when money was transferred from another account to that.

Entries in the security ledger had puzzled him, but he had made a complaint of no one.

"Can you tell me of any occasion of directors asking you of securities?"

"Several directors spoke to me about the Japanese loan."

"Did any of them ask you about Sloss?"

"No, I think I heard Mr. Walmsey ask the general manager about it one day."

The witness also thought he could recall having heard the president and general manager discuss Washash "B" bonds, but this was never authorized security, as was also Missouri Pacific, which might also have been discussed, Albany and Delaware shares were bought through brokers on instalments.

The Money in New York.

Magistrate Denison asked about the sums sent to the New York brokers, and Mr. Pope said the brokers would debit the Ontario Bank for the difference between the margins and the actual purchase price of the stock, and the bank would credit the brokers.

brokers, it would be difficult to do ahead of the crown attorney replied that no time was being lost in arranging to send the commission, but that it would be a week or ten days before this could be done. The magistrate returned that it was momentarily being shown of how great importance it was to the shareholders to know where the money was or what had become of it.

"It is absurd," he declared, "to send a man over for trial on a charge of \$3000 or \$4000 if the theft amounted to several hundred thousands. It doesn't settle it because the general manager comes home and writes off \$210,000 and says it's gone. We don't know whether that there was not, I have to get to the bottom of this case and I can't do it without tracing that money."

Branch Manager's Evidence.

A. B. Hagerman, manager of the Yonge-street branch, testified that on Oct. 2, 1906, McGill made a deposit with him of \$14,000, made up of City of Montreal bonds \$8000 and a draft on Marshall, Spader & Co. \$6000. McGill had been overdrawn "only something over \$12,000."

It was explained that the bonds included coupons standing for dividends for the past four or five years. The draft was not paid, cheques on the Peterboro branch being substituted for them. There was nothing particularly of mark in the whole transaction.

Mr. McKay asked about the loan made to Charles Cockburn.

"There was nothing said to you about the stocks?"

"No, but there were different cheques on that coming up as payment for interest on the loan. These were dividend cheques on the stocks."

A. F. Choate a Witness.

A. F. Choate was the first witness called in the afternoon. His examination was of brief character. He testified that on one or two occasions only had he had any dealings with McGill, and then only in Ontario Bank shares. He remembered that the manager had approached him about six or seven years ago, saying Mr. McIntyre wanted to get some of the stock and couldn't buy it, and requested the witness to buy 100 shares for him, which he did.

Magistrate Denison interjected a query as to Mr. Choate's occupation, the witness explaining that he was an "investor."

The Ontario Bank shares bought by him were paid for in cash. The idea was to give support to the stock as McGill told him it was going down and needed sustaining up.

Mr. Corley drew attention to an entry of \$100,000 in which Mr. Choate's name appeared in the bank books, and wanted to get some of the stock and couldn't buy it, and requested the witness to buy 100 shares for him, which he did.

continued that he had called at the offices of Randolph & Co., but had found the books closed so that he had not been able to discover favor assets, if any, there were in these accounts.

\$100,000 Recovered.

"So you have practically succeeded in recovering \$100,000 for the shareholders," was the court's summing up, with which the manager agreed.

"Not for the Bank of Montreal," answered Mr. Corley.

"No, for the Ontario Bank," was the decided response of Mr. Braithwaite, who said he had not visited Denny & Co.'s office, but had called at Marshall & Spader's.

Mr. Corley: "Any balance there?"

"Not to the best of my recollection."

In any of the accounts inspected did you find an account in the name of the Ontario Bank and Co.?"

"Yes, with Head & Co."

"And also in the name of Chas. McGill?"

"Yes."

The magistrate suggested that the account of the Ontario Bank had been wiped out, and that the securities were in the name of McGill, and the witness assented that, to the best of his recollection, this was so. He stated that the account with Randolph & Co. had been closed some years previously.

The court remarked that \$15,000 had been struck off the account with Goodby & Co., and questioned whether it was a total loss, but the witness said it was not.

To Mr. McKay the manager said that one account with Head & Co. in the name of McGill had been closed Nov. 10, 1905. There was a favorable balance of \$15,857.54, which the firm had paid out. Mr. McKay commented that the amount had either been paid to McGill, or the Ontario Bank, or to some brokerage firm by his orders.

There followed a lengthy question that the books to clear up this point, but the firm proved elusive and could not be traced.

Unheard Of, But Not Surprising.

The witness agreed with Mr. McKay that any account in McGill's name was treated as tho for the Ontario Bank.

"I never heard of a bank speculating for itself or thru its manager," asserted Mr. Braithwaite, in answering a query as to whether it was the usual thing for a bank's dealings with brokers to appear in the name of its manager. He illustrated, however, that when the Bank of Montreal was commissioned to buy securities for clients the transaction appeared in the name of "Hepton and Braithwaite."

Perfect Manhood

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon the altar of his conjugal love. Restorine operates on the nerves which control the sexual system, and infuse into it, power and vigor. No such thing as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failures of men. Restorine awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong? Proofs are the fact. Sworn testimonials sent to anyone on receipt of name. Five Days' Trial Treatment sent absolutely free. Write To-Day. (11)

ad to his credit by Marshall, Spader & Co.

The next witness, J. G. Beady, local manager of Spader & Perkins, representing Marshall, Spader & Co. of New York, was examined as to the cheque, but explained that he had no record of it as the firm's books were kept in New York. He was asked to look up the record of the transaction.

Transfer Clerk Chenoweth was recalled. Before him was placed a packet of papers, which, he said, was made up of advices from Head & Co. of sales and purchases of stock made by McGill. It appeared that at the end of August last, the Ontario Bank, \$10,000, this amount standing for full face value of securities carried by the firm of margin advanced by the bank. This statement was placed in the hands of Mr. Chenoweth by McGill, after the storm had burst. Another statement, for September, found in the general manager's private box, was a continuation of the same, and showed the same forges one, and showed the same for 20 different kinds of speculative securities held on advances, and various purchases and sales during the month. Considerable unloading was exhibited, as by Oct. 1 only \$688,042.70 was due the firm, on seven books of stock.

Mr. Morine submitted securities ledger No. 1 and asked the witness how the statement of the account for Sept. 10 showed that \$1,800,000 was securities ledger No. 2 set forth that on that date, \$208,000.80 was due to the bank from the same firm, making a difference between the actual facts as shown in the statement of facts as summed up by Mr. Morine of one and one-half millions of dollars.

The court adjourned till Tuesday next.

Strength for Weak Men

A Cure Without Drugs. Wear My Belt Until Cured And Pay Me When the Work is Done

I have the grandest invention of the age for weak, run-down, worn-out men; the surest and easiest cure for all nervous and chronic diseases. Its wonderful power is directed to the seat of the nervous system, through which its vitalized strength penetrates into all parts of the body, carrying new life to every function which has been weakened by disease or dissipation, restoring energy to the brain and power to the system. No weak man will regret a fair trial of this invigorator.

Why will you be weak? Why do you go on from day to day when you know you are losing your nerve force—your manhood—when you see a cure within your grasp? Do not delay a matter which is the key to your future happiness. Whatever your condition to-day, you will not improve as you grow older. Age calls for greater vital force, and the older you get the more pronounced will be your weakness.

DR. McLAUGHLIN'S ELECTRIC BELT will make you strong. It will send the life-blood dancing through your veins. You will feel the exhilarating spark warm your frame, the bright flash will come to your eye, and a firm grip to your hand, and you will be able to grasp your fellowman and feel that what others are capable of doing is not impossible to you. This grand appliance has brought strength, ambition and happiness to thousands of men in the past year.

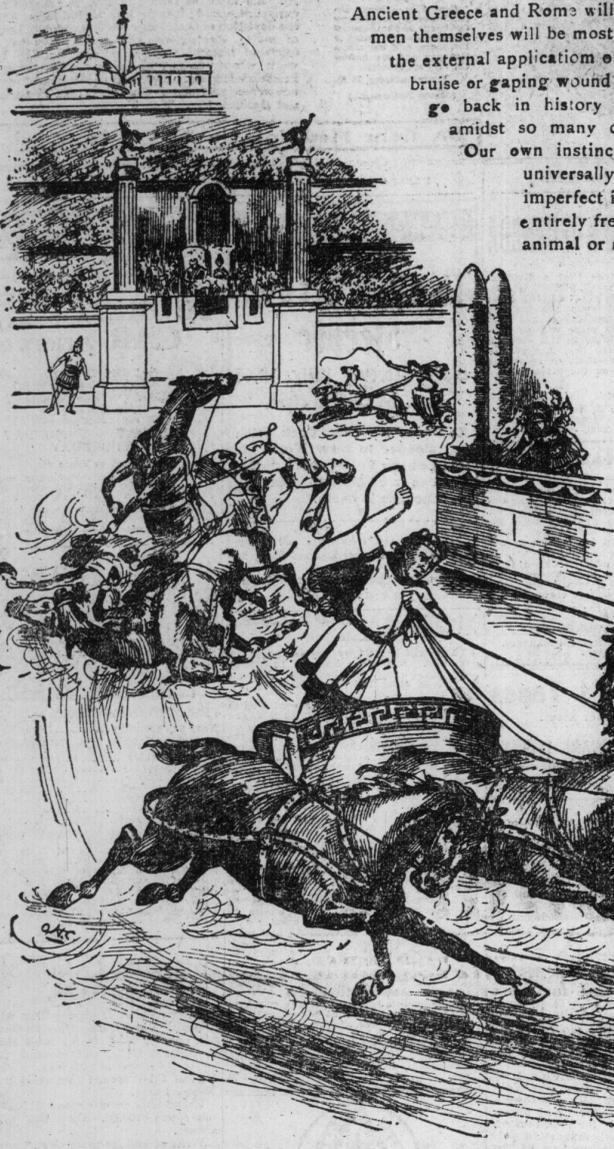

It is the one sure remedy for the cure of Rheumatism, Weak Back, Weak Kidneys, Weak Stomach, Varicose, Loss of Power in young or old, and similar ailments, as well as Dyspepsia, Constipation, etc. How can any one remain in doubt as to the value of this grand remedy when you see so many cured by it? Your Belt cured me and I feel like a new man.—FRED J. CUTTENBUCK, Brockville, Ont. I cannot say so much for your Belt, but it is better than drugs.—JOHN GIERGENS, Neudorf, Ont. I have been cured of weakness and varicose, and feel like a different man; would not be without your Belt for any money.—D. JANKINSON, Steelton, Ont. Don't keep putting it off. ACT NOW. Life is sweet, so enjoy every minute of it. All I ask is reasonable security for my Belt while you wear it, and if you don't get the benefits you are seeking return it to me and we part friends.

DR. M. G. McLAUGHLIN, 112 Yonge Street, Toronto, Ont. II-13-06

Dear Sir:—Please forward me one of your books as advertised. Name: Address:

Nature's Own Great Skin Healer

Ancient Greece and Rome will always be remembered for the fine types of manhood found on the battlefields and in their arenas, but perhaps these many men themselves will be most remembered because of the valuable custom they bequeathed to later ages of healing sore and injured places on their bodies by the external application of secret balms or salves. The charioteers, gladiators and wrestlers seldom emerged from their contests without some severe bruise or gaping wound; and to anoint each injury carefully with their favorite balm was an indispensable part of the day's programme. If we go back in history we find that this external rubbing has prevailed right from the earliest times, and the only explanation of its survival, amidst so many changes in science, seems to lie in the fact that the external use of salves and balms is dictated to us by Nature herself. Our own instinct tells us to rub a part that hurts; and in Zam-Buk the ideal substance to apply to an injured or diseased surface is universally believed to have been found at last. The objection to ointments, salves, liniments and embrocations has hitherto been that they are imperfect in their action, and frequently contain quantities of rancid animal fat and mineral products of a harmful nature. Now, Zam-Buk is entirely free from any of these objections. It is compounded from the finest herbal balms and essences and is absolutely devoid of all trace of animal or mineral substance.

Whoever watches the healing of a wound or sore with Zam-Buk is face to face with one of Nature's greatest wonders. The healing process thus set in motion is nothing but a phenomenon of regeneration—a natural process of replacing destroyed tissues by new ones. The antiseptic substances contained in Zam-Buk first attack and kill off the microbes or germs that are the cause of inflammation of disease, and then the healing ingredients proceed to build up new tissue to replace that which has been damaged or lost. New cells appear like a builder extending a new row of houses; the whole of the wounded area is gradually overlapped, and soon it is difficult to tell where the injury has been, so perfect and complete is the growth of new skin. There has been, so perfect and complete is the growth of the new skin. This factory, field or workshop, Zam-Buk can be confidently recommended as well for its general efficacy as for its wholesomeness, its power and purity.

Zam-Buk Cures

Cuts, burns, bruises, scalds, sore or chapped hands, eczema, disfiguring spots, blood poisoning, encrustations, scabs, obstinate sores, running sores, inflammation, peeling or scalding skin, scurf, sore-heads and backs, bad leg, erysipelas, piles, psoriasis, scalp diseases, abscesses, boils, ringworm, chilblains, stiffness, etc. Rubbed well on the chest in cases of colds, chills, etc., it gives great relief.

Obtainable from all druggists, at 50 cents per box, or post free from the Zam-Buk Co., Toronto, on receipt of price. 6 boxes for 2.50

LOCAL PEOPLE TELL HOW ZAM-BUK HAS BENEFITED THEM.

Skin Rash and Eruptions Cured

Mr. G. Shaw, 169 Givens street, Toronto, says: "Reading of the wonderful healing qualities of ZAM-BUK, I thought I would try it, as I had been greatly annoyed for some time with an itching, irritating skin rash on both arms. I had tried numerous remedies but failed to find a permanent cure. I sent for a supply of Zam-Buk and began using it. The results were so satisfactory that I persevered, and in two weeks' time, through daily application of the balm on my arms, the rash was completely removed. I found Zam-Buk when applied to the skin to be most soothing, and to relieve the itching and irritation almost instantly. I have had no trouble since from skin eruptions, so I am fully convinced Zam-Buk permanently cures."

Proved it Unequaled for Rough and Chapped Hands, Cuts, Burns and Bruises.

Mrs. M. A. Doyle, 55 Wickson avenue, N. Toronto, says: "Last winter my son began using Zam-Buk for chapped hands, and found it an excellent preparation. Since then we have kept it in the home and find it invaluable for cuts, bruises, sores or burns on hands or limbs. Our first thought is to apply Zam-Buk if a member of the family meets with the slightest cut or burn. In a wonderful short time after the first application of Zam-Buk the pain and soreness are entirely gone, and healing comes quickly. I would advise others to give Zam-Buk a fair trial."

TEST ZAM-BUK AT OUR COST

A good thing pleads its own case, and we are willing to let you try Zam-Buk first at our expense, because once used you will always keep it in the house. Send this coupon and 1c. stamp to Zam-Buk Co., Toronto, and free trial box will be mailed you.—Toronto World, Nov. 21.

THE INSURANCE MEMORIAL

Continued From Page 1.

collection of large premiums, to increase their emoluments at the expense of their clients, who, unaware of what proportion of their premium should pertain to real insurance, and what to something else, are induced to insure upon plans not in keeping with their circumstances. Companies are thereby also enabled to secure a larger amount of premium income and give less insurance, and such plans are therefore, prejudicial to the interests of the widows and orphans, for whose protection the business has been maintained. Your memorialists believe that the numerous contracts offered by companies are against the principles of sound life insurance, and should be restricted, and urge for the consideration and approval of your honors the restriction recommended by the insurance commissioners of the United States for the standardization of policies.

HEART TROUBLE CURED

In the rush, hurry and worry of modern times, we overwork the heart. It is any wonder then that there comes a breakdown of this wonderful little engine, when such a continued strain is placed upon it day after day. There are many forms of heart trouble and the slightest derangement of this important organ is extremely dangerous. To strengthen the weak heart it is necessary to use a remedy that will act upon the heart tissue, restore and revitalize it and at the same time tone up and invigorate the nervous system. We have such a combination in

MILBURN'S HEART AND NERVE PILLS

Mrs. Ella Dingman, Morganston, Ont., writes of her experience with them: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. I was troubled for a long time with my heart; I had weak and dizzy spells, could not rest at night, and I would have to sit up in bed the greater part of some nights, and it was absolutely impossible for me to lie on my left side. At last I got a box of Milburn's Heart and Nerve Pills and they did me so much good I got another box and they effected a complete cure. I have not been troubled with my heart since."

Price 50 cents per box or 3 boxes for \$1.25 all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In Canada, without having first been approved by the superintendent of insurance.

Your memorialists further suggest that your honors should recommend: (a) that all policies should be set forth tersely and in plain terms; (b) that all conditions should be printed on the face of the policy; (c) that a copy of the application should be attached thereto, and (d) that under no consideration should the face value of the policy be reduced.

Further, your memorialists respectfully submit that an amendment should be made to the present act, providing that after payment of the third premium, no policy shall lapse by reason of non-payment of premiums until the value of such policy is exhausted. This concession is already granted by some companies, subject to notification by the assured, but it is believed that such rights should vest automatically.

Payment of Premiums. Your memorialists believe that the acceptance by companies of notes in settlement of premiums is detrimental to the best interests of the business. It enables agents to secure advances from companies and is responsible for the excessive expenses and lapses of the year business. Many persons are induced to sign notes unaware of the nature of the obligation into which they are entering, and companies carry extensive risks for which no compensation is received. It is a means whereby agents and companies are enabled to discriminate against certain classes of policyholders, and is against all sound business principles. It encourages improvident contracts against which insurance should be guarded, and instead of being a convenience, in many cases causes a hardship to the grantor of the note. Your memorialists suggest that companies should be prohibited from issuing any policy until the first premium has been paid in cash.

Limitation of Expenses. Your memorialists suggest that the expenses of life insurance companies should be limited to the loading on premiums. The excesses to which companies have resorted to secure business are well known. A year's insurance for nothing could be had, insurance at 15 per cent. of the premium is in some centres frequently obtained. For purposes of advertisement, men of local prominence are induced to accept \$100,000 policies for the price of \$30,000 policies. Schemes whereby policyholders taking such policies secure a personal interest in all business written in their district thereafter have been actively canvassed. Contracts have been made with agents stipulating for as high a commission as 9 per cent. of the first and 10 per cent. of subsequent premiums. Picnics in summer and turkey at Christmas are not unknown. Such excesses are responsible for the high cost of the business to the companies and loss to policyholders.

are detrimental to the interests of all parties, and should be prohibited.

Premium Rates. The rates charged by life insurance companies on all plans of insurance should be first approved by the superintendent of insurance.

Powers of Investment. Subject to the safeguards herein after suggested being allowed, your memorialists see no objection to the amendments to the present code recommended by the Life Managers' Association, provided, however, that restrictions shall be made as to the proportion to be invested in any one class of securities.

Security to Policyholders. Your memorialists suggest that for the better security of policyholders, and as a safeguard against unauthorized investments, all mortgages, bonds, debentures and other securities should be deposited in the custody of the superintendent of insurance, together with schedules showing the conditions in full under which such investments have been made. All investments should be taken in the name of the company.

Representation of Policyholders. Policyholders should be represented on every board and on all investment and finance committees. Such representatives should be elected by the policyholders and should not be shareholders.

Proxies. Proxies should not be allowed, either for shareholders or policyholders, and all existing proxies should be cancelled by legislation. Proper and timely notice of all meetings should be given. No business should be transacted unless on the agenda calling the meeting and shareholders and policyholders alike should have the right to vote by registered mail. Complete lists of policyholders should be furnished to the superintendent of insurance and be accessible at all times to any policyholder. Your memorialists respectfully urge the adoption of laws similar to those recommended by the Armstrong commission governing the election of directors.

Profits. Profits: All profits should participate in the profits earned by the company, and there should be no discrimination between one class and another. Companies presently writing business on non-participating plans should be

compelled to carry each class as a separate branch.

Deferred dividend policies should be prohibited and companies should be compelled to make an annual distribution, and so become directly liable to their policyholders. A statement of profit and loss, showing the basis upon which it is based, and how the distribution has been made up, should be furnished and approved by the superintendent of insurance before such distributions become effective.

Dividends to Shareholders. These should be restricted to an equitable return on the amount of capital actually invested for the establishment of the company. In no case should the gross amount exceed 10 per cent. of the net profits of the company. The issue of bonus stock should be prohibited.

Rights of Policyholders. The liability of an insurance company under its contract should be determined by the superintendent of insurance, who should be the sole arbitrating and settling officer of companies. It is a hardship that poor beneficiaries should require to resort to expensive legal process to determine their rights under policies. In some instances "friendly" suits have absorbed three-fifths of the total amount of insurance. It is desirable that such disputes should be settled expeditiously and with the least possible expense.

Estimates. Canvassing for applications on estimates should be prohibited. It has been shown that the figures quoted by companies are extravagant and have not been borne out by actual results. In any event, companies should not be allowed to use estimates unless these have been first approved by the superintendent of insurance. Where used, estimates should be printed on the back of each policy.

Actuaries. Every company should be compelled to employ a duly qualified actuary who has passed the final examinations set by the societies of the Dominion, Great Britain or the United States.

Future Charters. No future charter should be granted to a company until 10 per cent. of not less than \$100,000 of its capital stock has been deposited in cash with the Dominion treasury. Such a provision will guard the business against exploitation by adventurers, and at the same time provide a suitable guarantee for the due fulfillment of all obligations and the bona fides of the promoters.

Capitalization. The capital of an insurance company should not be increased unless with the consent of the majority of its policyholders.

Mutualization. Future enactments should provide for the retirement of stock, and for the mutualization of any stock company, should a majority of its policyholders decide for such retirement of stock at a duly convened meeting.

Contracts With Managers and Officers. Any contract which provides for a commission or bonus on future business should be declared illegal, and no contract should be made with any officer for a period longer than three years. Existing contracts for a longer period should be terminated by legislation. Pensions to officers and other employees out of the funds of the company should be prohibited. All salaries of managers and other officers of companies should be fixed by the directors.

Powers of Supt. of Insurance. The duties and powers of the superintendent of insurance should be clearly defined. He should have the right to demand such information as he may consider necessary, and should be entitled to employ such assistance as he may see fit. He should have power to take evidence on oath.

State Dept. of Insurance. A department of state insurance should be established under the jurisdiction of the minister of finance.

Publication of Reports. The annual report should be set forth in greater detail and should be published in the public press of the city in which the head office of the company is situated, as well as in the government blue books. A copy of such reports should be mailed to each policyholder.

Public Auditors. The books of all companies should be audited annually by two duly qualified chartered accountants, who should be appointed by the superintendent of insurance from year to year.

Signatures to Reports. All parties signing reports required by future enactments should be held responsible for the truth of their declarations under the penal code.

APPRECIATION OF LAURIER. (Canadian Associated Press Cable.) London, Nov. 20.—The Mirror publishes a birthday appreciation of Sir Wilfrid Laurier, who, it says, has done his work in Canada quietly but well.

GIVEN LOCAL BANK. (Canadian Associated Press Cable.) London, Nov. 20.—Capt. Emsley of the Royal Canadian Dragoons has been granted the local rank of captain whilst serving in England and India.

BOYS TO BE ADMITTED.

Methodist Mission Board Make Kitimat School Co-Educational.

A committee from the Methodist general mission board, with a committee from the Methodist Women's Mission Society, met in the Wesley Building yesterday, to consider the question of re-establishing the Kitimat school for Indian girls of British Columbia, which was destroyed by fire last spring. Both committees agreed that it would be well to enlarge the institution and hereafter make it co-educational, by admitting Indian boys as well. The two mission boards will be apprised of the decision and recommended to adopt the principle.

TRAINS STALLED BY SNOW.

Topoka, Kas., Nov. 20.—As a result of last night's snowstorm, four overland trains on the Rock Island and Paso division were stalled today in the cuts between Bucklin and Liberal, Kas. No attempt was made today to run freight trains on that division.

The Santa Fe reported their main line across Kansas open, but several trains on that road are snowbound on the Panhandle division, where the snow is from four to five feet deep in the cuts. The weather is moderating.

CARNIVAL OF CRIME.

Montreal, Nov. 20.—The highwayman's Eldorado is Montreal. In the last month there have been almost 20 hold-ups, and as a result of one Hot-rod across Kansas open, but several trains on that road are snowbound on the Panhandle division, where the snow is from four to five feet deep in the cuts. The weather is moderating.

WHY CAN'T I EAT LIKE OTHER MEN DO?

WHY?—BECAUSE YOU'RE A SLAVE TO DYSPEPSIA—INDIGESTION—OR OTHER STOMACH DERANGEMENTS THAT ONLY CAN BE REACHED AND CURED BY SUCH A TRIED AND TRUE REMEDY AS

Dr. Von Stan's Pine-apple Tablets

RELIEF IN ONE DAY

Ask half the men or women who have stomach troubles, why it is so and they will tell you that they have to live in such a constant hurry that they have no time to keep well,—if the great army of stomach troubled people would take Dr. Von Stan's Pine-apple Tablets as a traveling companion, from a health standpoint, life would be all sunshine,—they are a veritable vest pocket doctor,—they act directly on the digestive organs,—a pure fruit pepsin that is pleasant to take,—powerful in the work it does,—but as harmless as milk,—helps all the stomach distresses immediately and will give good relief to the most acute cases in one day.—You go about your business,—eat hearty meals,—take all the pleasures as they come, and as you do so the Doctor plays his part and works permanent cures.

35 cents a box at all Druggists and Medicine Dealers. DR. AGNEW'S HEART CURE GIVES RELIEF IN 30 MINUTES. DR. AGNEW'S CATARRHAL POWDER gives relief in 10 minutes.

HATS OFF TO HUGHES.

English Educationist Impressed With Local Evidence of Progress

Superintendent Watson of the County of Buckingham, England, who is in the city with the delegation of English educationists, picking up ideas, to school government and teaching, speaks in glowing terms of Toronto's "advanced system" so far as he has become acquainted with it.

The party directed its attention yesterday to the elementary drawing classes. Miss Sample, supervisor, explained the art system, and conducted the deputation thru the juveniles exhibit in the unfinished chamber of the city hall.

Mr. Watson says the city should be proud of its teachers, who all appeared to ply their duties enthusiastically. The system of drawing was simply wonderful in its completeness.

Do it Unto Others

Are you with clean fair, just share of care?

Neglect and careless the delicate messy mess of the whole? The live "work off" gets dead disfigured and liver-sick.

There's Jem: Keep the answer. If you can't get clean out of a canal.

A Casca bed will "make you" if you have some time, long and be without aq.

Casca 25c and 50c neat fit for Be sure "long-tailed" "CCC" on sold in bulk.

BYRRH The Best Wine.

Wood's Rheumatoid
The Great Remedy
Tones and invigorates the whole nervous system, makes new blood in old veins, cures nervous debility, mental and brain worry, depression, and effects of abuse or excess. Price 21 per box, six for \$1. One will please, six will cure. Sold by all druggists or mailed, plain package, on receipt of price. New pamphlet mailed free. Wood's Rheumatoid, Toronto, Ont. (Formerly Wood's)

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has borne under his personal supervision for over 30 years. Alleviate no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher
In Use For Over 30 Years.

THE CENTAUR COMPANY, 27 N. MURRAY STREET, NEW YORK CITY.

BOTH PARTIES MAY APPEAL PRIVY COUNCIL SO DECIDES

Avenue Road Car Stops Litigation
—Board of Control Proceedings.

In the appeal of the Toronto Railway Company v. Toronto City, special leave to appeal has been granted by the privy council. The Canadian Associated Press is informed the terms are a deposit of \$300 to pay half the cost of printing record of consolidated appeal, which is already lodged here, and to give the respondent leave to enter a cross appeal.

The city solicitor made the following statement:
The cable has reference to the case, and means that the Toronto Railway have been given leave to appeal from the judgment against them by the court of appeal with reference to what are commonly called "stops," and that the city have been given leave to cross-appeal from the same judgment of the court of appeal as to extension of the railway on Avenue-road.

The action was commenced in the early part of last year and was a dispute over the question of the Avenue-road extension, the court following the decision of the supreme court, which was adverse to the city upon this point. The Toronto Railway Company have obtained leave to appeal from the judgment as to "stops," and the city have been given the right to cross appeal on the question of the Avenue-road extension of the Avenue-road line as far as St. Clair-avenue, which is being done under an agreement made without prejudice to the contentions of the parties in litigation.

The offer of \$250,000 to E. Pullan for the ruins of the grand stand and transportation building at the exhibition grounds was accepted. This is \$2000 more than the park commissioner hoped for.

The city has purchased the vacant lot at Queen and Lisgar-streets from the Ontario government for \$1000. The lot may be used for a branch library.

The board of control adopted a recommendation of the assessment commission, which the city wants for the exhibition extension. Expropriation proceedings will likely take place, as the assessment commission has not been able to make an agreement with some of the owners, Mr. Kivalry among the others. Six residents of the locality of Poplar Plains-road protested against the city accepting a strip of land offered to the city by Mr. Gunther. This strip, they say, is adjacent to their properties, which lie in the angle between Schiller-avenue and Poplar Plains-road. They would not be necessary to construct an expensive payment in connection with the proposed street railway extension through garrison commons. The rails can be laid on one side of the road and the rails filled with sand, gravel or cinders.

Want the Viaduct.
The Ratepayers' Association of Riverdale will wait on the legislation committee of the city council to-morrow to ask that the legislature be requested to empower the city to issue debentures for the building of the viaduct on East Bloor-street, without submitting the project to a vote of the people.

The railway commission did not hold a session in Toronto yesterday, as was expected. A. D. Cartwright, secretary of the commission, wired Mr. Chisholm, the city solicitor, that the commission could not come, but would sit in Woodville on Friday.

The counsel for the C.P.R. and C.N.R. were in the courtroom ready for the commission, but the sitting was postponed because they could not have their witnesses ready.

Novel Pre-nuptial Agreement.
Detroit, Nov. 20.—A unique pre-nuptial agreement providing that the wedding shall not affect either party's title to his or her property; that in case of a separation the wife shall have no claim for alimony, or separate maintenance, was signed here to-day by H. W. Hardman, aged 46 years, of Middleburg, W. Va., and Miss Hattie E. Briggs, twenty years, of Pennyan, N.Y., who were later married at the Wayne Hotel.

The Adam Wilson Will.
The Lady Wilson case will be revived on Friday, when the divisional court will consider an appeal from the Toronto General Trusts Co., administrator of the will of Sir Adam Wilson, to add Mrs. George Wilson as party in the suit over the estate. An action brought by Mrs. George Wilson for a construction of the said will, will be heard at the same time.

Got a Discount.
The Cosgrave Brewing Co. got judgment at the hands of Justice MacMahon in the non-jury assizes yesterday against L. O'Connor, liquor dealer, of Sudbury, for \$160.10. The brewery claimed \$450 as a balance on an old account. The judge allowed O'Connor the benefit of a discount of \$289.90 on the claim that he had returned all bottles and casks.

Bavarian Winters at Quebec.
Quebec, Nov. 20.—The Bavarian, which was safely beached in the mud at Indian Cove, to the eastward of Gilmour's Wharf last evening, will pass the winter there. This is the decision which has been taken this morning. She is drawing 33 feet of water aft and only about ten feet forward.

ROSENTHAL'S ENGAGEMENT A PROVINCIAL ATTRACTION POLITICS AN INTERFERENCE TO RAILWAY DEVELOPMENT

"Wizard of the Keyboard" Will Appear at Massey Hall This Evening.

Harriman Objects to Too Much Government Control — Root Tells Him It's Necessary.

The enthusiasm which is greeting Rosenthal's coming to Massey Hall tonight among the piano lovers of Toronto recalls the Enderwell furore. Students are coming from all over the province to hear this great Wizard of the Keyboard—the wonderful master of technique, with which is blended the charm of the poet. Never have the somewhat phlegmatic critics of New York been more generous in their praise of expression by any other virtuoso. Leonard Liebberg, a picturesque pen name, says of his first concert: "These were not there will never forgive themselves if they do not hear him at the next opportunity. Those who did hear him have since been walking around in a species of waking-dream. Experienced pianists were graged, when they did not thrill, trembled when they did not faint. Critics, simply speechless in face of such consummate art as Rosenthal's."

The program is an admirable combination of the classical and the popular. It begins with the Beethoven Sonata, Op. 10, with its plastic soul pictures in tones. The famous Caravel of Schumann has been fittingly described as twenty-one musical moving pictures of a carnival, as seen in the composer's imagination; beginning with the stately prelude, sounding the invitation to the dance, the slow and harkling jostling in the waltz; after that each incident of a carnival follows, concluding with the promenade and the march.

The third group of Mr. Rosenthal's selections begins with Chopin's charming Cradle Song; then follows the Scherzo; and the final number is a marvelous and beautiful arrangement by the composer himself of a Chopin waltz.

The program concludes with three light selections, comprising Henselt's Nocturne, Rosenthal's waltz entitled Papillons (butterflies), and finally a very attractive, humorous Rosenthalian reminiscence of themes from Johann Strauss, including the historic "Blue Danube."

A special number of reserved seats at 50 cents will be placed on sale this morning.

The engagement at the Princess next week of H. B. Irving in a magnificent repertoire will possibly be the dramatic

Kansas City, Nov. 20.—The most interesting feature of the Commercial Club banquet last night had not been announced beforehand, it being E. H. Harriman's criticism of government regulation of railroads and secretary of State Root's vigorous reply. In the course of his address Mr. Harriman said: "The government should be given additional power to deal with public organizations. It is impossible for a railway company or large organization to carry on its business properly if the people are constantly criticizing and suspecting. In the Union Pacific Company no one man says what the company will or will not do. I am untiringly busy because I must be on hand to hear conferences and try to bring a body of men to one conclusion. It is not easy if you always have to turn to the legal department and find whether you may or may not."

Here Mr. Harriman paused, and turning to Secretary Root said: "It is often important to a city or country whether we develop a territory or leave it dormant. Often we cannot give development a single cent because of the action of certain people for political prestige. I believe there is to be a change of attitude, which soon is to be felt. The people are coming to believe in Americanism—and that means fair play."

Secretary Root accepted Mr. Harriman's challenge, saying: "Before I begin my talk on the subject which has been assigned to me," said he, "I desire to make a few remarks in answer to Mr. Harriman's remarks. I would have us give more power to the railroads. The experience I gained from a knowledge of railroad business in the State of Missouri at a time when the railroads were competing for business led me to believe that the just means of regulating traffic on a railway is to let the railroads regulate themselves. A wise law would be one that would force the railroads to combine in keeping the law—a law that would let the railroads from breaking the law. The best regulation can be brought about by the railroads themselves if they will only do it. Their power should be supplemented by such governmental control as would prevent them from doing wrong."

The privilege of the railroads in discriminating in the matter of special rates and compensations is too often abused, as we have seen. It is the common tendency of railroads to give advantage to the wealthy city or against the weaker or smaller one—a tendency to rush the weak. For this reason, I say that it is necessary, it is essential in my opinion, that the advantage that the railroads should be held under control to prevent discrimination.

"The slight advantage that the railroads would gain by more power—the power that Mr. Harriman asks for—would be so greatly offset by the evil that such a power would not be considered a moment."

Revert to Ward System.
St. Catharines, Nov. 20.—At the city council meeting last night a bylaw was given in readings and will be submitted to the voters at the ensuing municipal election favoring a reversion to ward representation on the council, three aldermen being elected by each of the three present wards.

Catarrh of the Stomach

A Pleasant, Simple, But Safe and Effectual Cure for It.

COSTS NOTHING TO TRY.
Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and frequent breaking headaches, indigestion, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition. The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston, the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, Little Nix, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyeing Tablets, and not being a patent medicine, can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribe for me for three years for catarrh of stomach without cure, but to-day I am the happiest of men after using only one box of Stuart's Dyeing Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from the use of Stuart's Dyeing Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, Catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals. Send your name and address to-day for a free trial package and see for yourself. Address F. A. Stuart Co., 58 Stuart Bldg., Marshall, Mich."

Look for the Name WILLIAMS

WHEN BUYING A PIANO. Its construction has distinctive features, an honest artistic value, a strength of durability that grows with acquaintance and never fails to give a musical satisfaction that lasts a lifetime. All previous efforts seem to have been outdone in this season's "creations," and we never invited your inspection of a more beautiful collection of Artistic Pianos than the ones we have just received from our factories.

Select Your Piano with the Same Good Judgment That You Would Use in Choosing a Bank In Which to Deposit Your Money

Our position as one of the largest cash purchasing concerns in the Piano trade enables us to secure values unknown to the ordinary dealer, and the purchaser of a NEW SCALE WILLIAMS Piano gets value as certain and fixed as a Government Bond, and his investment will yield rich returns in pleasure and satisfaction.

We also carry a line of

Weber Pianos

the Piano which MORITZ ROSENTHAL, the great Austrian Pianist, has selected for his exclusive use during his present concert tour of America. And at Massey Hall, Wednesday evening, November 21st, Rosenthal plays upon this great Piano, thus giving the Weber PREFERENCE OVER ALL OTHER PIANOS.

Then, too, we have other Pianos less expensive than Weber or Williams, but thoroughly good from every point of view. If you want a good trustworthy investment get an inexpensive one. We have them as low as \$225; others \$250 up to \$300.

If you do not want to pay cash you can take advantage of our monthly payment plan, which is fair and liberal to all. Talk with those who have bought from us. Think it over.

Come and See--Get A Bargain

Buy now; we will deal with you honestly, fairly and squarely. Remember the place is

SETTLE WITH SWITCHMEN.

D. L. & W. Reach Agreement—Ten Hour Day Granted.

Scranton, Pa., Nov. 20.—The Delaware, Lackawanna & Western Railroad, and its switchmen, to-day entered into an agreement which will continue for one year from Jan. 1 next, when the present agreement expires. The men wanted an increase of 10c per hour, and a ten-hour day on all divisions of the road. The settlement made calls for an increase of 4c an hour in the Scranton and Buffalo yards, the smaller yards to have a proportionate increase. The ten-hour day is granted on all parts of the system, the wages that were paid for a twelve-hour day being made the ten-hour basis on which rate the increase is to be made.

NOT FOR SALE.

A rumor to the effect that the government house had been sold was denied by Premier Whitney last night. "The government have no desire to sell government house," he said, "altho I have heard lots of rumors."

THE EXHIBITION CROWDS.

Manager Orr has compiled figures showing that since the inception of the exhibition the attendance has been \$80,000. The sum of \$212,000 has been paid in prizes and \$100,000 subscribed by citizens.

O. R. C. OFFICERS.

Toronto Division Held Elections—Annual Ball Jan. 18.

At the regular meeting held by the members of Toronto Division No. 17, Order of Railway Conductors, the following brethren were elected as officers for 1907: Chief conductor, W. J. Gray; assistant chief conductor, J. Buller; secretary-treasurer, C. Mitchell; senior conductor, E. Sinclair; junior conductor, F. Brown; inside sentinel, F. J. Perkins; outside sentinel, Andrew McNealey; board of trustees, Alf Johns, W. J. Gray, J. Hollinger; local committee of adjustment, D. McMillan, C. Stewart and E. Sinclair. Bro. C. Stuart was elected delegate, and Bro. S. H. Deffen, alternate, at the great division, which will be held in May next at Memphis, Tenn.

The conductors have decided to hold their annual ball on Friday, Jan. 18. Profits from this now popular dance are to be given on this occasion to one of the members, who has been ill for over a year.

Christmas in New York.

The Lackawanna Railroad will run another of their popular fifteen (15) day excursions to New York on Dec. 14th. Round trip tickets from Toronto \$13.35, or \$9 from Buffalo. The stores are at their best just before the Christmas holidays. Christmas gifts are there in lavish display; theatres have put on their newest plays; it is the climax of the winter season in the most wonderful city in the world. For full particulars, time of trains, reservations, etc., apply to A. Leadlay, C. F. and P. A., 75 Yonge-street, Toronto, Telephone Main 3547; or F. F. Fox, 283 Main-street, Buffalo.

WHERE THE MONEY CAME FROM

Man Arrested in New York Took It From Employer.

Brampton, Nov. 20.—(Special.)—On Friday of last week Charles Douglas, employed by Joseph Akitt of Ingleside, deceased with \$400 of his employer's money. Douglas left the house ostensibly to attend a threshing. No entry was thought of his non-appearance at night until Mr. Akitt missed the money on Saturday morning. A warrant was issued for Douglas' arrest, and on Monday he was arrested in New York on a charge of assaulting a policeman. His description tallied with that of the missing man, and a large sum of money was found on him. He will be brought back to Ontario. Constable Brodrie has actively pursued the matter.

ONTARIO'S CROPS OF 1906 SLIGHTLY BELOW FORECAST

Department of Agriculture's Final Bulletin Summarizing Conditions in Province—Farmers Too Busy to Market This Fall—Much Improvement of Property is Noted.

A statement containing crop conditions on Nov. 1, based on the reports of 2000 correspondents, has been prepared by the Ontario department of agriculture.

All over the province threshing was well advanced, as correspondents reported. Wheat has not been so largely marketed as usual, prices not being considered as satisfactory by those who could afford to hold, while others are keeping it over to feed stock unless prices rise. Barley is now mainly fed to hogs and other live stock, and while considerable oats have been marketed, much more will be used on the farm. Several correspondents claim that farmers are using more wheat for work to go to market, preferring to wait for the sleighing season.

Only in a few localities was the supply of farm labor equal to the demand. The continued exodus from this province to the Northwest and New Ontario is given as the chief cause of the scarcity of able men to help on the farm. While some correspondents believe the English immigrants as farm laborers, others aver that there has been a great improvement in quality during the last year or two. The general opinion is that wages will remain at about the present rate, as farmers cannot afford to pay more. The situation is being somewhat relieved by the use of improved farm machinery, and by turning more land into pasture. It is almost impossible to secure domestic servants on the farm, as girls seem to prefer town life.

More or less activity in farm improvements is reported all over the province. An immense amount of fencing has been done, some form of wire being substituted for the old rail or "worm" fences. A considerable number of new dwellings, houses and barns have been erected, but much more has been done in the way of building stone or concrete foundations under remodelled houses and barns. In the latter case affording more comfortable and convenient stabling for live stock. More work would have been done in all these lines but for the scarcity of labor.

The Ontario Sugar Co., whose factory is at Berlin, are now receiving beets for sugar making from the area in 1905 was 4477 acres, and the yield was 48,085 tons, an average of 10.7 tons. The company estimated an increase in the yield per acre in 1906. The Wallaceburg Sugar Co. are handling the product of 5700 acres and estimate a yield of between 55,000 and 60,000 tons. The latter company reports the sugar yield this year as a little below the average.

Final Estimates of the Yield.
The following are the final estimates of the product of the 1906 crop, as compiled from returns of actual yields made by threshers, and our staff of correspondents. The figures are slightly below the forecast for August.

Wheat—787,287 acres, yielding 18,411,774 bushels, or 23.8 bushels per acre, as compared with 17,935,961 and 22.4 in 1905.
Spring Wheat—171,745 acres, yielding 3,267,000 bushels, or 19.0 bushels per acre, as compared with 3,552,627 and 18.4 in 1905.
Barley—56,163 acres, yielding 2,550,011 bushels, or 33.4 bushels per acre, as compared with 2,225,394 and 31.4 in 1905.

Oats—2,516,711 acres, yielding 308,241,455 bushels, or 39.9 bushels per acre, as compared with 10,563,572 and 39.6 in 1905.
Peas—410,356 acres, yielding 7,338,387 bushels, or 18.0 bushels per acre, as compared with 7,100,021 and 19.0 in 1905.
Beans—51,370 acres, yielding 2,062,013 bushels, or 18.5 bushels per acre, as compared with 2,446,443 and 16.7 in 1905.
Rye—78,870 acres, yielding 1,327,552 bushels, or 16.8 bushels per acre, as compared with 1,714,851 and 16.8 in 1905.
Buckwheat—106,444 acres, yielding 1,792,903 bushels, or 16.8 bushels per acre, as compared with 2,199,602 and 21.7 in 1905.

Hay and **Clover**—3,069,917 acres, yielding 4,862,520 tons, or 1.58 tons per acre, as against 5,847,494 and 1.94 in 1905.
Statistics of Live Stock.
Horses—Number on hand, 688,147, against 672,751 in 1905. Number sold in year ending June 30, 64,761, against 62,888 in 1905.
Cattle—Number on hand 2,563,632, against 2,589,508 in 1905. Number sold in year 741,476, against 714,007 in 1905.
Sheep—Number on hand 1,304,809, against 1,224,158 in 1905. Number sold in year 574,418, against 575,751 in 1905.
Swine—Number on hand 1,813,718, against 1,906,460 in 1905. Number sold in year 2,222,785, against 2,267,580 in 1905.

Poultry—Number on hand 10,254,834, against 9,738,692 in 1905. Number sold in year 3,473,708, against 3,340,802 in 1905.
The November crop bulletin is as follows:
Fall Wheat.
The favorable reports at harvesting of both the yield and quality of fall wheat have been borne out in the threshing. Several correspondents report the grain as running well over standard weight. But slight mention is made of injury to the crop by insects or rust.

Spring Wheat.
The crop was up to the mark in yield, but while much of it is described as good in quality, some shrunken grain is also reported. Spring wheat

being made by the department, and a bulletin will be issued on this subject. Hogs are somewhat scarcer than usual at this time of the year, but are being sent steadily forward to market. There is smaller supply of hay on hand than for years; mill feed is high in price, and more care and judgment than usual will have to be exercised to carry over the winter until spring. The price of corn comes in most opportunely; but while there are many champions of the silo, a number of correspondents are doing considerably to discount its benefits, especially when farm labor is so scarce. This winter will afford many practical tests of the value of corn silage in helping live stock thru economically.

The Dairy.
Dairying has been a most profitable branch of agriculture on account of high prices prevailing for both butter and cheese. The former appears to be gaining upon the latter as many farmers are now using cream separators, sending the cream to the butter factory, and feeding the skim milk to calves and pigs. The milk flow was hardly as full as last year, but the quality was improved. The cream is generally better, but good grades are fully compensated. Short-horn cows and their grades are still the most commonly used. Holsteins are gaining much in favor in dairy districts, followed by Ayrshires (particularly in the St. Lawrence counties) and Jerseys.

Bees and Honey.
The honey crop has been a failure this season. The average yield per colony is small, and the quality of the honey generally speaking, is poor, both as regards color and flavor. The cold wet season at the time of the main honey flow was the chief cause of disappointment. The situation was somewhat relieved by the good buckwheat bloom, but notwithstanding this aid some feeding will be necessary in many apiaries. Bees otherwise are reported to be in good condition.

Poultry.
Farmers are giving much closer attention to the raising of poultry, and the comments of correspondents regarding this industry are more sympathetic and enthusiastic than formerly. Both eggs and dressed poultry have a strong demand at paying prices, and there has been more profit than usual in their handling. More attention is being given to the matter of breed, and the industry in most quarters is now a recognized branch of progressive farming.

Fruit.
Considerable injury to orchards was done in the second week of October by an early but heavy fall of soft snow, which settled on trees still laden with leaves (and some with fruit), the result being that many branches and limbs were broken off. In some of the Lake Erie and Lake Ontario counties complaints are made of injury to trees by the San Jose scale, and the borer is also reported as doing damage. Other wise orchards are in good condition for wintering. Fall apples were so abundant that many of them could not be used. Winter varieties are given a full yield, but many heavy shipments are reported, and there is still a surplus on hand. Apples suffered less from frost in 1906 than in recent years, but the codling moth was too common, and there are many complaints of wormy fruit. Plums were very scarce, but a few were still being turned under as correspondents wrote. The rush of other fall work, and the absence of skilled labor also had a tendency to delay plowing.

Fall Plowing.
Correspondents are about equally divided as to whether the progress of plowing is well advanced or backward. Reports differ greatly even in the same localities. It would seem, however, as if the companies and large farms were plowing more than the small farms. The August and September had rendered the land rather hard for plowing, but that, later, more favorable conditions prevailed, and the plowing is still being turned under as correspondents wrote. The rush of other fall work, and the absence of skilled labor also had a tendency to delay plowing.

Winter-killing and midsummer drought told on cover fields reserved for seed, and the crop is a rather light one. When correspondents wrote but little of the crop had been threshed, owing to the rush of other farm work. While not, at all general, the mild was at work in various localities, both east and west. Alsike, howbeit, and also purposes well where reported upon.

Lucerne.
This plant, which is also known as alfalfa, is referred to in most favorable terms by several correspondents, as it permits of frequent cutting during the growing season, and is very nutritious. It thrives best on high land.

Rape.
The use of rape is approved of by a number of correspondents who speak from personal experience. It is used for finishing off lambs in the fall, and cattle and other live stock are turned upon it with advantage. The spread of this habit of planting rape is a tendency to kill weeds by smothering them out.

Potatoes.
Reports concerning potatoes are varied. While a number of correspondents speak of them as being a rather light crop, their absence this season, the lack of returns are to the effect that the crop will be an average yield, and the tubers will be rather small in size, but of good quality. A number of correspondents speak of "white grub" was complained of by several correspondents in some of the west Midland counties. However, with less reports than in recent years, the outlook for potatoes is on the whole comparatively favorable. All the crop was stored as correspondents wrote.

Turnips.
While some correspondents speak well of the turnip crop, the majority of the reports are unfavorable. The seed made a poor catch, and some of the weather later on was too warm and dry for the best results. The yield will be light, and there was some report of injury by the aphid and from rot. The storing of turnips was not completed as correspondents wrote.

Carrots.
Field carrots are not grown as much as formerly, but the few reports regarding them are upon the whole favorable. There has been a steady decrease in area year by year, from 12,415 acres in 1905 to 4890 in 1906.

Sugar Beets.
These roots are coming more into favor for feeding purposes. Like other roots, they are raised as largely in size as ordinarily, but in other respects they are regarded as a fair average crop. They were pulled and grown in a good time. A separate report will appear on beets for sugar manufacture.

Pastures and Live Stock.
Pastures were rather short in mid-summer, but picked up later on. Live stock generally are in a healthy condition. The breed and quality of horses are just now commanding more attention from farmers. Cattle, indeed, perhaps a trifle thin, but otherwise are in excellent shape for wintering. Sheep have been in demand, and are growing in favor, more especially as the price of lambs ranged high. While one correspondent in Muskoka speaks of losses by bears, several complaints come from some of the west-end districts of sheep being killed by dogs. A special enquiry as to the present condition of the sheep industry is now

GILLES LIMIT SPECIMENS INDICATE VERY RICH VEIN

But Prof. Miller Will Wait for Two or Three Carloads Before Making an Assay.

Prof. W. G. Miller, provincial geologist, returned from Cobalt yesterday, where he has been engaged in remapping the older and most important Cobalt properties, including the northern portion of the Gilles Limit, and superintending the sinking of shafts on two veins on this government reservation.

The first contract, calling for a shaft 75 feet deep, on the 7 or 8 inch vein in the northern part of the limit, will be completed this week. A depth of 70 feet has now been reached, and the drive into the silver will be commenced shortly. The shaft has been sunk down to one side of the vein.

"This is the best method of working a vein," Prof. Miller said to the World last night. "For the most part in the older mines the shafts are being sunk right into the vein. This will make them very difficult to work in the winter-time, owing to the snow in the ditches and trenches. By sinking a shaft to one side of the vein it is just as easy to work the mine in winter as in summer."

The specimens taken from the vein to be worked this week show signs of its being very rich. Prof. Miller did not make an assay for the reason that when samples are taken from the vein promiscuously it is no criterion as to its richness. He prefers to send two or three carloads first and get them ground. In commenting on this fact, Prof. Miller said: "It is a mistake for a man to take up specimens here and there and have them assayed. I have known veins which showed good promise turning out very poor after a depth of 8 inches had been reached."

The shaft for the second vein has just been begun and will not be sunk to a depth of 25 feet, as it does not show any great signs of being very rich. It is situated on the 101 mile portion of the limit and joining the T. & N. O. Railway. It is a much larger vein than the one in the northern part. The lakes in the Cobalt district froze over on Tuesday, and Prof. Miller's assistants engaged in a game of hockey.

"The number of speculators in Cobalt is just now," he continued, "is enormous. The hotels cannot provide accommodation for half the number."

The map on which Prof. Miller was engaged will be finished in a few days. It will show the position of the veins on hand. It will show all elevations and contours. The scale will be 400 feet less from top to bottom on a four of 10 feet to the inch. The professor's assistants are now drawing this map, and it will be ready shortly. Also there are a number of veins on the Gilles Limit, but only the two, where the shafts are now being sunk, will be worked this winter.

ANNOUNCEMENT

Owing to the recent discoveries and development on the

GILPIN

Cobalt Mining Company's property, the stock will be advanced on Nov. 26th, and only a small amount of stock will be sold and the subscription list closed.

We have recommended this to our clients and the public as one of the best purchases to be made in Cobalt to-day owing to its low capitalization, which is \$500,000, in shares of \$1 each, of which 150,000 shares are still in the treasury. The company owns and controls 120 acres of the best land in Bucke Township, in the mineral belt. They have uncovered seventeen veins and are sinking two shafts, one down 30 feet, the other 15 feet, at which depth some very rich vein matter has been struck, which is creating the above advance. The men on the property are there for the winter and shipments should commence before the 1st February. The shares on merit are worth \$5.00 each, instead of \$1.00 the present selling price. The Meehan-Green and the Red Rock properties are both in Bucke Township and have proved very rich mines.

If you want to make money quickly we have a few more shares left of our allotment at \$1.00 per share. Address—

WALL STREET IRREGULAR AND NOT SO BOOMING

Money Rates Advanced to the Detriment of Prices—Toronto Stocks Featureless.

World Office, Tuesday Evening, Nov. 20.

There was no new activity in the Toronto market to-day. The attention of traders has reverted again to the Cobalt stocks, and almost no attention is being given to the regularly listed shares. The only new outside point of interest was the turning on of the Niagara power. Also this was a test, many thought that the shares, which were indirectly interested in the fact, would have appreciated the fact. This was not the case, however, and the only explanation appears to be that the prices of the various stocks have fully appreciated the immediate benefit that accrued from the influence. The transactions in the market were irregular. Sao Paulo sold down and Rio Janeiro advanced. The market was also firmer at Montreal, but nothing was doing in the advanced cautiously and therefore did not encounter liquidation. Bank stocks were exceptionally dull at about unchanged quotations.

Ennis & Stoppard report the close on the following: Grizzly, 13 1/2; Lake Superior, 10 and 11; Lake Superior bonds, 56 and 58.

Great Northern melon-cutting in connection with one lands expires early in December. The melon-cutting is expected to be from 8 to 10 per cent. greater than this year.

New York Central plus our charges for three months, increase, \$231,018.

No confirmation of rumors of federal iron-ore at American Smelting.

Rock Island car shortage the only serious disturbing factor.

Bank of England continues to gain gold heavily, and at present rate will be easily able to meet December requirements.

No net loss of cash to interior expected during rest of year by banks here.

Twenty-one years for second week of November show average gross increase of 12 1/2 per cent.

Attempt to attribute recent advance in silver to adhering to the London market, which, heavily increased demand for metal from India, Mexico and Brazil.

Weakness in Smelters yesterday caused by a rumor that the government intended to start a suit against the smelters, which would result in Standard Oil, but which has since been abandoned.

There is a lot of bull talk on Hocking Coal & Iron, with reports of a possible resumption of dividends. My opinion is that the stock is a good speculation, but the market is entirely manipulative.—Hart.

Joseph says: Big capitalistic interests are arrayed on the hill side. Barrington issues will continue to the front. A number of U. P. D. shares of the former reversion average Steels, S. P. and A. C. P. Yendorville shares will be better. Keep stock of M. K. & Co. R. L.

Montreal dispatch says: The Dominion Steel Company has already suffered a loss of a quarter of a million, and will seek damages from the Coal Company. The steel company has no assets, and the coal company the Coal Company to pay all over \$125 per ton for coal, this being the original contract price.

Jefferson M. Levy, who is a large stockholder in the Dominion Steel Company, has been asked to sell his stock in the Dominion Steel Company. The stock is in the London market, and is intrinsically worth a great deal more money than it is now selling for. It is a very valuable, and I believe that in the not distant future it will be classified in the same category as that of the London New River stock. The Hudson Bay Company represents such vast interests in the way of iron lands and acreage property, including considerable property in the Cobalt district, which, if not reported, contains rich silver deposits, there is no telling how valuable its immense assets will eventually turn out to be. The stock, which has been particularly active and strong lately, jumped 22 1/2 a share inside of three weeks.

New York, Nov. 20.—There has been quiet accumulation going on in St. Louis and San Francisco second preferred now several weeks past, and from what we hear we have little doubt that a sharp advance can be expected in it within a comparatively short space of time. Investors state that before long dividends at the rate of 4 per cent. will be resumed on this stock, and there is little doubt that from ten to fifteen points can be made on the long side of this stock from the present level. The earnings of the company are excellent, and such a payment will be fully justified from that point of view. In this connection it might be said that the Rock Island stocks are also likely to sell higher, and that any upward movement in them which may occur will have for a basis heavy earnings and favorable outlook for a continuance of even larger business than the road is now handling. A sharp advance in Locomotive and General Electric this morning in a measure justifies our statement of yesterday to the effect that the American Locomotive Company will soon be taken over by the General Electric Company on a basis very favorable to American Locomotive stockholders. It will be a matter of short time before official announcement is made to the effect that the General Electric Company has purchased a matter of interest in the American Locomotive Company at figures well above the prevailing market price. We advise the purchase of

On Wall Street.
The market morning very irregularly at the close of the market. The attention of traders has reverted again to the Cobalt stocks, and almost no attention is being given to the regularly listed shares. The only new outside point of interest was the turning on of the Niagara power. Also this was a test, many thought that the shares, which were indirectly interested in the fact, would have appreciated the fact. This was not the case, however, and the only explanation appears to be that the prices of the various stocks have fully appreciated the immediate benefit that accrued from the influence. The transactions in the market were irregular. Sao Paulo sold down and Rio Janeiro advanced. The market was also firmer at Montreal, but nothing was doing in the advanced cautiously and therefore did not encounter liquidation. Bank stocks were exceptionally dull at about unchanged quotations.

Ennis & Stoppard report the close on the following: Grizzly, 13 1/2; Lake Superior, 10 and 11; Lake Superior bonds, 56 and 58.

Great Northern melon-cutting in connection with one lands expires early in December. The melon-cutting is expected to be from 8 to 10 per cent. greater than this year.

New York Central plus our charges for three months, increase, \$231,018.

No confirmation of rumors of federal iron-ore at American Smelting.

Rock Island car shortage the only serious disturbing factor.

Bank of England continues to gain gold heavily, and at present rate will be easily able to meet December requirements.

No net loss of cash to interior expected during rest of year by banks here.

Twenty-one years for second week of November show average gross increase of 12 1/2 per cent.

Attempt to attribute recent advance in silver to adhering to the London market, which, heavily increased demand for metal from India, Mexico and Brazil.

Weakness in Smelters yesterday caused by a rumor that the government intended to start a suit against the smelters, which would result in Standard Oil, but which has since been abandoned.

Elimination of Microscopic Examination Leads to This Action.

Paris, Nov. 20.—The elimination of the microscopic examination of pork from the new American meat inspection regulations has resulted in a preliminary decision on the part of the French customs authorities, barring the importation of American pork, except in the form of ham, cured pork, etc. An Ambassador McCormick, under instructions from Washington, made energetic representations to the foreign office, pointing out that while the microscopic examination had been eliminated, the new meat inspection was more rigorous and exacting than the former regulations. He stated that the French regulations were comparatively small, the trade never having recovered from the blow it received when American pork was originally excluded from France.

Montreal So Uncivilized.

Yorkshireman Writes Home and Tells How Bad the Manners Are.

(Canadian Associated Press Cable.)

London, Nov. 20.—"Good Old Yorkshire," Montreal, writing to the Yorkshire Post, is out with a sledge hammer for Canadians and their manners, because of daily attacks made upon Englishmen by a "one-cent yellow paper published here." The expectation habit meets you everywhere, and politeness is unknown. In restaurants and dining halls the use of the knife to the mouth is universal. As for sport, all amateurs are roped in with presents. Jack Canuck has got a swollen head, and if one asks you an opinion about the habits, sports and manners, and you differ, you are asked, and not politely, "Why the hell do you come here?"

French Lotteries Receive Too Much Belgian Cash.

Brussels, Nov. 20.—The sale of all French newspapers containing lottery advertisements has been prohibited in Belgium under the anti-lottery law. The government's action is the result of an investigation, showing that enormous sums have been forwarded thru the mails for the French lotteries.

Prosecution Goes On.

New York, Nov. 20.—Counsel for the American Sugar Refining Company to-day asked Judge Holt in the United States Court to dismiss the indictment against that company charging it with accepting \$26,000 in bribes on sugar shipments from the New York and Hudson Railroad Company. Judge Holt denied the application.

STEEL COMPANY CANNOT SUPPLY FULL DEMAND, MR. PLUMMER WILL LOOK ELSEWHERE.

Montréal, Nov. 20.—(Special.)—The Dominion Iron and Steel Company have advised the Dominion Coal Company that they must have a reply from the Dominion Coal people by Thursday noon next, as to whether or not the coal company is prepared to supply the steel works with all the coal necessary to operate the plant. Mr. Plummer said that it was necessary to take the coal company in order to prepare the steel works for the winter operations, and especially as the season of navigation was about to close. It was

DINEEN HATS

We show the latest models from a number of high-class makers, both English and American. The assortment is equal to all the requirements of young, middle-aged and elderly men, including

- Hats at \$2.00
- Hats at 2.50
- Hats at 3.00
- Hats at 4.00

Most hat stores are confined to one manufacturer's product, which limits a man's choice and often prevents his getting the shape and proportions best suited to his face and figure.

JUDGE WOOD DEAD.

Chatham, Nov. 20.—After an illness extending over a period of several weeks, Robert Stuart Woods, K.C., died here to-day, aged 57 years. Up to the time of his death he was revising officer of the electorate district of Kent County, previous to which office he was Junior Judge of Kent, local judge of the high court of justice, surrogate judge of the maritime court of Ontario and for forty years a prominent figure in the western district.

Drunkards Cured In 24 Hours

Any Lady Can Cure the Most Violent Drunkard Secretly at Home.

To Prove It, a Free Trial Package is Sent Sealed to All Who Write.

Let no woman despair. The sure, quick, permanent cure for drunkenness has been found. It is Golden Specific. It has no odor. It has no taste. Just a little is put in the drunkard's cup of coffee or tea, or in his food. He will never notice it, he will be cured before he realizes it, and he will never know why he abandoned the taste for liquor.

Gone Mad From Whiskey.

His desire for drink disappears absolutely, and he will soon abhor the very sight and smell of whiskey. The vigor he has wasted away by drink will be restored to him, and his health and strength and cheerfulness will return to brighten your home. Golden Specific has cured some of the violent cases in a day's time. This fact is proven by many ladies who have tried it.

Mrs. Mattie Balkins-Vancouver, Ky., says: "My husband took two doses of your medicine about five months ago and has not taken a drink or had any desire for liquor since then. Our home is so different now."

Mrs. Mabel Zink, R.F.D. No. 6, Salem, Oregon, says: "My husband has not touched liquor since I gave him the sample package of your Golden Specific."

Save your loved ones from premature death and the terrible consequences of the drink curse, and save yourself from poverty and misery. It costs absolutely nothing to try it. Send your name and address to Dr. J. W. Haines, 7580 Glenn Building, Cincinnati, Ohio, and he will at once send you a free package of the marvelous Golden Specific in a plain, sealed wrapper.

He will also send you the strongest, conclusive proof of what a blessing it has been to thousands of families. Send for a free trial package of Golden Specific today.

YORK COUNTY AND SUBURBS

KILLED BY A TRAIN WHILE DRIVING HOME

Michael Shannon Victim of Level Crossing Fatality Near Lambton Last Night.

Toronto Junction, Nov. 20.—St. John's branch of the A. Y. P. A. met in the basement of the church. President Drewitt was in the chair and the entertainment was musical.

Mrs. Marie S. McGill, directress of the College of Music, intends giving a series of concerts in the music hall, beginning Thursday evening at 8.30, when "Enoch Arden" will be rendered by R. S. Pigot and F. S. Welsman. A concert will be given in December, January and February.

At the police court this morning, before Magistrate Ellis, W. T. Tinney was charged with pointing a revolver at Harry Millgate, on Nov. 2. After hearing the evidence the magistrate remanded Tinney.

The committee on paving Dundas-street met to-night to consider the proposition laid before them by Mayor Smith. The petition in circulation among the property owners of Dundas-street is nearly ready to present. A sample of the asphalt block was in possession of the committee. The agent of the Ontario Asphalt Block Co. waited on the committee. Another meeting of this committee will be held on Monday night next. A report will then be sent on to the works committee.

North Toronto. Judge Morgan held court of revision of voters' lists for the east side of York Township, at the council chamber, yesterday. Out of a total of 419 appeals to add to the list, 389 were allowed. The appeals asked for ten changes of names and seven appeals were granted. Of the struck-off there were 22 appeals and 73 were allowed. His honor will sit in court to-day for revision of lists for west side of York Township.

The majority contest in North Toronto is becoming rather complex. Ex-Mayor Davis is spoken of, but he says that it would be impossible for him to give the time the office requires. Councillor S. J. Douglas seems to have aspirations, so has ex-Councillor A. J. Brown. Another candidate spoken of is J. J. Gartshore.

The Davistown Young Men's Club will give an entertainment at the town hall to-night. The proceeds of the concert will be devoted to the construction of a skating rink.

W. J. Mitchell of Deer Park announces himself to be in the field for the position of second deputy reeve of the Township of York.

The town council met in committee of the whole last night, with Councilor Lawrence in the chair. William Cording was appointed inspector for the construction of the foundation for the new water tower. Plans for the lighting of the town were discussed. The chairman suggested that a fire alarm system be added and the committee decided to submit a by-law to the ratepayers for \$10,000, to be spread over 20 years. An arc and incandescent lighting system and fire alarm equipment, the same to be paid on instalment, with interest at 4-1/2 per cent. The sewer system was discussed and Mayor Fisher said, "we never will have a town until we have a sewerage system," but nothing was done.

Woodbridge. The funeral of the late Miss Isabel Clarke took place on Tuesday morning at Knox Church Cemetery. Miss Clarke was formerly housekeeper for the late Rev. Thos. Fenwick, and died at Newmarket. Her remains will be placed beside Mr. Fenwick in the family plot there.

Alex. Rogerson of McKenzie & Rogerson, wholesale butchers, is very ill at home here, and slight hopes are entertained for his recovery.

G. C. Brownbridge and W. S. Belfry visited Toronto friends on Sunday last. Mrs. W. W. Reid of the Inkerman House, who has been ill for the past two weeks, will be removed to St. Michael's Hospital, Toronto, where she will undergo a critical operation.

M. Reaman, who has been confined to his home for some time, is improving. William Beaman of Etobicoke, who has been deer hunting up north, returned home last week, bringing with him three fine deer.

The Presbyterians will hold their anniversary services next Sunday. Rev. J. W. Stephen of Toronto will preach. On the following Tuesday they will hold their first supper.

The Vaughan Township Council have settled the Thomson-rose case by giving Mrs. Thomson \$500 and a deed of the road allowance thru her farm.

Strayed. From the farm of Charles Manning, lot 6, concession 4, Township of Vaughan, near Edgely, about ten days ago, one dark red cow, in good condition, branded on breast. Five dollars reward will be given by addressing J. K. McEwen, Weston, Ont.

Lambton. Lambton, Nov. 20.—(Special.)—Michael Shannon, a farmer's helper, was instantly killed to-night by a C. P. R. train, while he was driving over the railway crossing at the top of Lambton hill. He had been spending the evening here and was on his way home when the accident occurred. The train struck the horse, smashed the buggy and hurled the unfortunate man to one side. His neck was broken and he was otherwise injured. Coroner Budd was called and an inquest will probably be held. Mr. Shannon was about 50 years of age and was employed by Farmer Gracie. A brother, William, lives at Toronto Junction, and another brother is employed with Farmer Shaver. Undertaker Speers of Toronto Junction took charge of the remains.

East Toronto. East Toronto, Nov. 20.—A successful concert was held here to-night, under the auspices of the Methodist Church in aid of the choir piano fund. The members contributed largely to the program, their male quartet receiving a cordial welcome. The attendance exceeded all expectation.

The Aberdeen Curling Club met to-night to appoint the skips. At a late hour the return had not been announced.

The inception of a Fosterers' lodge has met with a good deal of favor. The secretary, Mr. Harris, has already received over 50 applications for membership.

WOMEN AS FARMERS.

Many Are Engaged in Agriculture and Are Making It Pay.

In speaking of the success that has attended the operations of women as farmers, an exchange shows how intelligence and wise directive ability have made farming a pleasant and a profitable occupation for the gentler sex. The late Mrs. E. W. Jones of Brockville, with her dairy Jerseys, the celebrated Miss Kilks of Galt with her horses, and the enterprise of the Massey Farm in East Toronto, are Canadian examples of the case in point.

With a love of nature, or animals and freedom of outdoor life, with determination and perseverance and a willingness to study agriculture with the same thoroughness one would any other study, there is every chance for women to achieve a pronounced and successful success. The farmers and have opened to them the greatest blessings and pleasures God has put into life.

The exchange referred to goes on to say: Today an intelligent woman with common sense and practical ideas can compete creditably with men in the management of any branch of agriculture. The college graduate, with her knowledge of geology, chemistry, botany and the other sciences, and her best fitted for studies in this day of farming on scientific principles; but she will require the salt of good common sense to solve the daily problems confronting her, the necessity of taking the advantage of things "at hand" that only a practical nature can grasp.

Those who are less fortunate in the opportunities should not, however, be discouraged from undertaking the work, as the scientific knowledge can be readily acquired and the women recently graduated from college with a most indifferent idea of farming would have shown such utter ignorance as did a young graduate of the University of Toronto, who was assisting out them up to plant, as they had done with the potatoes.

One of the greatest obstacles to success one has to contend with is the ignorant farmer or the average farmer or hired man, who treats with contempt the literature of the agricultural department, preferring the long exploded theories and systems of his father. Therefore one is obliged to study the modern systems to direct intelligently and must have, too, the courage to force her conviction and live the days of doubt and unbelief of her employees, watching that they do not assist their desire for her failure to realize her own future dependence upon them.

An Early Example. In 1865, long before any such assistance was given the people by the U.S. government, a woman who has since become prominent in affairs, with the aid of a negro refugee and two or three "hands" to help work and pick up the scattered bales of cotton surplus in quality that raised by men farming in that section of the country. Prior to this she had never seen a cotton gin, and in addition she grew the hay, corn and oats for her teams, and all the garden produce consumed by her family, having in her own hands the management of the entire farm in that part of the country. Her flower garden was noted for its rare varieties of roses and flowers, yet she found her time, her energy and her strength in the western army for her work in their behalf.

It is not surprising or any branch of it is undertaken, a woman, to be successful, should be willing to begin in a small way—too large ideas and sudden enthusiasm are too often the cause of failure. The woman who begins with farming as a profitable venture. Cultivate only so much land as you can direct personally requiring but a few men for the rough work of plowing and tilling the soil. Much of the lighter work can even be undertaken by a woman herself, where necessary demands. This need not be done in a way to destroy any good looks or personal attractions she may possess. With proper attention she may still preserve her smooth skin and hands, which mark the woman of refinement. In exchange for the pale, lifeless complexion, the narrow chest, the question of soil enters most prominently into all one's plans and profits, as the feeding and working of the soil quickly increases or diminishes the profits in expense and labor. Fertilizing materials or food for the soil, beyond what may accumulate on a farm, where animals are owned and fed, are now prepared and sold by companies at a less cost than one can prepare them by the old methods. This greatly simplifies the work and reduces the time necessary to the proper preparation of the soil. Then, too, they can be accurately depended upon as containing only such ingredients as are absolutely essential to the growth and character of your produce. While one must be guided by one's market there are a few specialties that are absolutely essential. Specialties are better than the so many advances. A farm growing all kinds of vegetables results in much labor, owing to so many things maturing at one time, that the profits are rapidly consumed.

Stratheona Not Damaged. Fort William, Ont., Nov. 20.—The Canadian steamer Stratheona, which was driven on the beach at Fort Arthur by the storm, and later released by tugs, was found to be not damaged, and cleared for Midland with a cargo of grain. The steamer Paramount, which arrived here Monday to load grain, has two plates loose by the pounding of the seas while coming up Lake Superior.

We have about the nicest overcoat in Canada, for only \$20. We can verify this to any man who wants us to show the goods.

In Hats, Hosiery, Neckwear and Underwear, we guarantee to sell the kind that make men like this store.

CRAZED MAN CUTS HIS THROAT

Then Runs to Street in Soat Attire Will Recover.

His disordered mind constantly causing him the fear that he was being persecuted and in danger of attack, Ernest A. Freckley, of 21 Berryman-street, attempted suicide last night by slashing his throat with a razor. Then, clad only in a shirt, he got out of a rear window, climbed the fence and ran thru Ketchum Park to Scollard-street. There he was met by B. S. Elkins, who took him to No. 5 police station.

Dr. R. J. Wilson was sent for and dressed the wound—a gash of about three inches long. Freckley had lost a great quantity of blood, and was in a very weak condition. He was taken to the General Hospital and will recover.

The Proposed Educational Conference.

Following letter from Lord Tennyson, president of the League of the Empire, appeared in the last batch of English papers to hand: "Sir: Will you permit me, thru your influence, to enlist the interest of the public in the very important educational work now being conducted by the League of the Empire in co-operation with the education authorities in the different countries and crown colonies of the empire. The proposals for reciprocal education were put forward by the league under the advice of expert educationists. The proposals won the approval of the colonial offices, and the papers of the league were presented in due form to the different governments both by the colonial office and the agents-general.

The schemes being accepted by the colonial departments, some co-operative work between the schools of the empire was at once established, with the result that much general and special information was obtained both by teachers and pupils, personal interest was quickened, and larger opportunity asked for.

In 1904 the agency of the league was officially accepted by a number of the education departments of the empire, and its position being thus more firmly established, the council were able to carry forward proposals of more co-operation. A public examination of school work from the different parts of the empire was held in 1905, and smaller sections were prepared for use of the departments at teachers' conventions and for school exhibitions and prize givings. Essay and art competitions between the schools of the empire were also established, and obtained the favor and assistance of the departments.

In 1906 still larger schemes were taken in hand, the principal of these being the Imperial text book scheme, for which committees or representatives have been appointed by the government authorities throughout the empire, and the proposal for a federal conference on education to be held in 1907. As larger requisitions were made upon the league, and many co-operative measures of a departmental character were suggested by the education authorities themselves, a conference between the different countries became essential. An extensive organization had been established, touch with the whole empire obtained, and federation in education became a possibility. Great educational questions vital indeed to our common advance in education were involved, questions which could only be dealt with by the education authorities themselves in council.

More than a year ago the league laid the scheme for a conference before the education departments of the empire. The proposal won their very wide approval, and has also obtained the sympathy and assistance of the colonial office. Formal invitations to the conference have now been conveyed to the education departments thru the empire by favor of Lord Elgin, in the colonial office mail bags. The proposals which have been laid before the governments will be dealt with by S. H. Butcher, M.P., chairman of the council, and others, at the annual general meeting of the league under my presidency, in the Caxton Hall, Westminster.

The arrangements proposed by the league for the conference have been approved by the board of education, and a representative of the board will be present at the meeting, as will also a representative of the Scottish educational department. The resident commissioner of the Irish national board has also given the scheme his support, and accepted the invitation of the council to attend the conference.

Tennyson, President. Caxton Hall, Westminster, S.W., Nov. 1.

SPECTACLES

If you are looking for good spectacles or eye-glasses, and do not care to run any risk, buy Luke's, for all Luke's spectacles fit well, look well, wear well.
