FIVE MILLIONS MORE FOR ESTIMATES

Large Amounts Called for Public Buildings, Dredging and Steamship Service.

OTTAWA, March 16.—(Special.)—Late to-night Mr. Fielding brought down supplementary estimates for the fiscal year ending March 31, 1908, amounting to \$5,325,633, of which \$4,689,876 is chargeable to consolidated funds, \$635,757 to capital and \$400,000 unprovided.

For printing and engraving Dominion notes, \$35,000; for the permanent force, \$19,447; for the further amount required to repay the British government for the cost of imperial troops retained at Halifax after July 1, 1905, \$10,000.

Among the items for public buildings are: Addition to London postoffice, \$6600; Belleville armory, \$6600; postoffice, works of restoration to make good damage done by fire, \$5000; Harbor improvements at Beaverton will cost \$5500; dredging of Belle River, \$750; dredging Bronte, \$1500; dredging and pile protection at Owen Sound, \$14,200; dredging at Point Edward, \$10,300.

An additional amount of \$90,000 is required for the steamship service between Canada and Britain, and \$3471 for the Canada-Australia service. For maintenance and repairs of ice-breakers, \$18,000; for the United States fishing tug, Kitty D., expenses occasioned by seizure by the government cruiser Petrel, \$10,000; expenses in connection with reception and entertainment of Prince Fushimi, \$37,000; for sufferers by fire and earthquake in Jamaica, \$7250.

Nothing Illegal in His Work, He Says—A Post-Mortem Examination To-Day.

The body of Jessie Ellen Gould will arrive in the city at 7 this morning. Detective Alexander Mackie, who under a special order of the attorney-general, went to Peterboro to exhume the body, accompanied by Undertaker A. W. Miles, will take it to Mr. Miles' mortuary on College-street, where Chief Coroner Arthur Jukes Johnson will perform a post-mortem and open an inquest. The body will probably be sent back to Peterboro for re-interment on the 5 o'clock train to-night.

Finance Committee Say York St. School Alterations Would Cost \$2000 and Waste Paper's Worth \$500 a Year.

Among the recommendations of Superintendent Bishop towards ensuring the safety of the finance committee of the board of education yesterday reported against fitting up the offices of the Penny Bank and caretakers' apartments in York-street School for classrooms on the third floor, because it would entail an expenditure of \$2000.

Disapproval was also expressed by certain trustees of the clause prescribing that all waste paper be destroyed by the various caretakers each day, and this was sent on to the board without recommendation. As pointed out by Inspector Hughes, the destruction of this paper would mean a loss of \$500 a year to the board.

While in Peterboro Detective Mackie visited the girl's parents—both bowed with grief.

Haitian Government's Action in Executing Eleven Conspirators Has Created Anxiety.

PORT AU PRINCE, Hayti, March 16.—The Haitian government's attitude in summarily dealing with a number of alleged conspirators in a threatened uprising, has had the effect of causing anxiety in the hearts of many, for it is not known where the next blow may fall, or how far reaching the revolutionary trouble may be.

Outwardly Port au Prince is calm, and following the execution on Sunday of ten or eleven men alleged to have been implicated in the plot, President Nord Alexis to-day issued a proclamation to the people, in which he felicitates them upon their calm attitude in the present trying conjuncture, and gives assurances to the community, promising in due order and with security of the government will be maintained.

The statement is made official that the government having come into possession of the names of the conspirators, the leader of the late unsuccessful revolutionary movement, who is now a refugee in the United States, had organized, through correspondence, a new insurrection in Port au Prince, decided upon the arrest of the principal conspirators. This uprisings, the statement continues, had as its object, the overthrow of the government and the assassination of the president, and it was discovered through the interception of letters sent by Gen. Firmin to a number of his adherents and others in an attempt to enlist them in the new movement.

The conspirators were taken by surprise with arms and ammunition in their possession, and were executed forthwith.

Crisis For France. PARIS, March 16.—The situation between the Haitian Government and France has become acute and critical. The French legation at Port au Prince is menaced, and a general massacre of the white residents of the island is feared. This information was conveyed in an official despatch to the foreign office from M. Carteron, the French minister to Hayti.

The French cruiser D'Estrees is expected soon at Gonaves, where she will act in co-operation with the British and German ships of war now on their way to Hayti with the president of Hayti, had not only refused to confirm the assurances given by M. Borno, but had flatly declined to permit the refugees in the consulate to depart. Eleven additional persons have taken asylum at the French legation.

GRAHAM ACCEPTS CLAUSE WHICH SAVES CITY

Road Shall Not Be Operated as Street Railway—Control of Streets Safe.

OTTAWA, March 16.—(Special.)—The bill of the Niagara, St. Catharines and Toronto Railway passed its third reading this afternoon.

Messrs. Bristol and Foster continued their opposition and after some discussion Mr. Graham accepted an amendment suggested by Samuel Barker (Hamilton), that the road shall not be operated as a street railway, and that the company shall not pass over or along any street or public place except with the consent of the municipality expressed by bylaw.

Mr. Bristol submitted an amendment that the company shall not be permitted to cross any street on the level except with the consent of the municipality, but this was declared lost on division.

Mr. Graham said objections taken to the bill in committee were two: that it did not take into account the wishes of the Cities of Hamilton and Toronto and that it did not protect centres of population in respect to whether this was to be a street or electric road.

It seemed to be a question whether the railway board had power to compel the railway to elevate its tracks, and in order that there might be no dispute to an amendment proposed by Mr. Macdonell (Toronto) to make it clear that the railway board had such power.

Mr. Graham had always taken the ground that the electric railways should not be allowed to run on streets of a municipality without the consent of that municipality. But he held that the people of Toronto or any other city had no right to prevent people from outside getting in. And he thought it could safely be left to the railway commission to see that the rights of municipalities should be respected.

Mr. Barker's Amendment. Mr. Barker (Hamilton) pointed out that the solicitor of the company had said the road would not be operated except as a street railway, but had refused to accept it.

REQUEST FOR RENEWAL OF THE C.A.P. SERVICE

Annual Attempt Made to Interest Government—Outlay For Immigration.

OTTAWA, March 16.—(Special.)—Among the bills read a third time today was one to incorporate the Bank of Hamilton Pension Fund.

Replying to a question by Mr. Foster, Mr. Graham said that Kenneth Falconer had reorganized the bookkeeping system of the I. C. R. and P. E. Railway at a cost of \$45,084.

Mr. Armstrong was informed that on March 21, 1907, there were 229,923 acres of Indian lands not disposed of by the Dominion Government. The Indians own 2309 unsold islands, irrespective of those contiguous to the Manitowish lands, which have been surveyed.

In reply to Dr. Roche, the finance minister said the following amounts had been paid to the Canadian Association of Free Press during the year ended June 30, 1904: \$12,500; 1905, \$11,582; 1906, \$10,765; 1907, \$10,000; seven months ended March 31, 1908, \$2316. The subsidy expires June 30, 1908.

A request for renewal had been made. No proposal had been made for a government subsidy to a domestic (Canadian) news service, nor was the government aware of a proposal to confine the cable news subsidy to papers subscribing to a domestic service.

Mr. Herron was informed that from March 1, 1907, to July 1, 1907, the government had expended \$274,150 on immigration, and for the months of March and April, 1908, \$447,600. For the first three months of 1908, \$36,047 was paid in bonus and for the latter period \$24,000.

Mr. Wilson of Lennox was informed that in eight years the government had expended \$175,787, and from July 1 to March 1, 1907, there had been expended \$32,433 on immigrant hospitals.

During the same period Dr. Schaffner said that \$90,000 and \$130,000 had been expended on immigration from the United States.

RICHARD BLAIN WOULD KILL THE CIGARET EVIL

OTTAWA, March 16.—(Special.)—Mr. Blain made his annual attempt tonight to grapple with the cigarette evil by submitting a resolution declaring among other things that smoking of cigars has been proved to be productive of serious physical and moral injury to young people, impairing health, arresting development, weakening intellectual power, and thus constituting a social and national evil.

The resolution, which was introduced by Mr. Blain, provided that the sale of cigars be prohibited to prevent these evils, which will continue while public sale of the cause of the mischief is permitted to go on; that the most effectual remedy for these evils is to be found in the enactment and enforcement of the law prohibiting the importation, manufacture and sale of cigars and it is expedient to bring in a bill for this purpose.

There was no objection to the resolution, but Mr. Fisher advised Mr. Blain to introduce a bill to prohibit the sale of cigars.

Mr. Still, Dr. Sproule pointed out that measures effecting the removal of the country could only be introduced by the government.

SAYS WE MUST DRINK PLENTY GOOD PURE WATER

Nature's Great Remedy For All Diseases, Especially Kidney Trouble and Rheumatism.

"The people here do not drink enough water to keep healthy," exclaimed a well-known authority. "The numerous cases of stomach trouble, kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected."

"Stop loading your system with patent medicines and cure-alls, but get on the water wagon. If you are really sick, why, of course, take the proper medicine—plain, common vegetable treatment, which will not shatter the nerves or ruin the stomach."

"When requested for such a prescription for the cure of rheumatism and kidney trouble the answer was: 'You must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions I would suggest the following prescription, which is composed of only vegetable ingredients, which can be obtained from any good prescription pharmacy; anyone can mix them by shaking well in a bottle. Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. To be taken in teaspoonful doses after each meal, and at bedtime, but don't forget the water. Drink plenty and often. This vegetable information and simple prescription should be posted up in each household and used at the first sign of any attack of rheumatism, backache or urinary trouble, no matter how slight."

SECRETARY COLE RESIGNS.

General News From Galt—Death of a Pioneer.

GALT, March 16.—(Special.)—Secretary Cole of the Y.M.C.A. to-day resigned in his resignation, ill-health is the cause. He is an ex-secretary of the province and also of the Kingston branch. He devoted his time without salary to the work, and was popular and successful. The loss to the local branch is great.

At midnight the Bell Telephone Exchange was transferred to the central energy system.

Mrs. Porteous, relict of the late Rev. John Porteous, died to-day, aged 78. She was a highly respected and pious lady. The funeral will take place on Wednesday.

Supreme Court of United States on Rebate Appeal.

WASHINGTON, March 16.—By a division of 5 to 3, the supreme court of the United States to-day affirmed the decision of the United States circuit court of appeals for the eighth circuit, imposing fines on the Chicago, Burlington & Quincy Railway Co. for granting, and the packers of Kansas City, Kansas, for accepting, rebates on shipments of packers' products intended for import.

DOCTORS HAVE RAISED FEES

"Yes, sir," remarked a prominent physician, "they have, and I don't think it's right in these hard times. As a practitioner, I've had to raise my fees to all sufferers from Grippe, Colds, Coughs, Bronchitis, Croup, Throat and Lung Diseases, Free of charge."

It is as follows:
Fluid Extract Licorice, one-half ounce.
Syrup White Pine Compound, one ounce.
Tar, one ounce.
To this add a quantity of bottled water, and take a dessertspoonful every 2 or 3 hours.
This formula can be filled at any reliable drug store.

VICE PRESIDENT WINS HIS CASE AT HAMILTON

New York Defeated by Y. M. C. A. Basketball Team—General News of a Busy City.

HAMILTON, March 16.—(Special.)—At the non-jury sitting of the high court, opened to-day by Chief Justice Meredith, Ben Broughton, vice-president of the Hamilton Stamp & Stencil Co., won his suit against Harry Barnard, the president of the company.

When the company was formed each of the parties to the suit took an equal number of shares, and it was especially provided that Mr. Barnard, the president, was not to have a casting vote. Trouble arose last year, and by means of the casting vote Mr. Barnard cut off the salary of the vice-president and discharged him and some of the employees of the company.

The vice-president then brought suit to restrain the president from using the casting vote, the chief justice gave him judgment and added the costs, which are heavy, on the president. The suit of Karin Bros., who are suing the Ontario Pipe Line Co. for \$25,000 for alleged breach of contract, was commenced this afternoon. William H. Benner, formerly of Hamilton, died this afternoon at the residence of his son-in-law, H. Merritt, 23 Duke-street, leaving a widow and a daughter of the deceased.

The Hamilton Y.M.C.A. basketball team defeated New York this evening in a very fast game by 29 to 27. The first half was played under the American rules, and the visitors led at half-time by 11 to 7. The teams lined-up as follows: Hamilton (29)—McPherson, Simpson and Gray, forwards; Arnold, centre; McKewen and Chadwick, defence.

New York (27)—Fogarty and Adams, forwards; Sturges and Hoeman, guards; Murphy, defence.

The checking was close and hard, and there were several fouls.

In connection with the charge of chicken stealing that was heard this morning, the police made two more arrests this afternoon, when John Wintermute and William Ledger were taken on the charge of stealing fourteen chickens from Peter Brammer, Thos. A. Freeborn, a boy, pleaded guilty this morning to having had a hand in the pie.

THE SPELL OF BUOYANCY BROKEN AT NEW YORK

Wall Street Operators Try to Secure Profits and Prices Decline—Domestics Are Dull.

World Office, Monday Evening March 16. Measured by the transactions the Toronto stock market took on more buoyancy to-day, but gauged by the selling, the stronger influence than the buying, as the net result of the day's business was a general decline in all the speculative factors. Market was unimpaired by anything except sentiment. This on the outside of the exchange was generally favorable to advancing prices, and at close it was presumed that the selling was mainly for the account of the large holders. The first decrease in the weekly earnings of the Toronto stock exchange had a chilling effect on this security, but caused no unusual liquidation, and a 10 per cent dividend, caused the impression the C.P.R. should be favorably influenced on the selling reaction at New York was again this conclusion. The foreign securities were heavy, but the quotations were well maintained, because of the small amount of offerings. Investment shares were steady to firm, and both of Consumers Gas were picked up at a further advance.

Wall-street Pointers. Settlement of 80 cents gas case improbable before 30th.

Wage reduction of 10 per cent. in New England cotton mills will go into effect March 30, affecting ultimately 200,000 employees.

Anthracite trade dull and no improvement expected till first of next month.

Pacific Coast January net earnings decreased \$7,500,000 for seven months ended Dec. 31.

London talks of further reduction in bank rate on Thursday.

800 earned almost 5 per cent. on common in the last seven months.

Banks gained \$1,654,000 from sub-treasury since Friday.

Washington—Director of the Mint to-day purchased 100,000 ounces of silver at 15 1/2 cents per fine ounce for delivery in New York.

All grades of copper were advanced 1/4; lake 1 1/2 to 1 3/4; electrolytic 1 1/2 to 1 3/4; castings 1 1/2 to 1 3/4.

Chicago—Reports from western traffic managers last week show a further improvement in grain, orange and lumber.

Preliminary report bureau of statistics shows that in February exports of merchandise exceeded imports by \$8,220,000 against an excess of \$3,511,538 in 1907.

Great Northern one first fiscal year ended Dec. 7, 1907, total receipts \$1,650,000, balance undistributed, income \$2,250,000.

Under the terms of the new contract, the ship and shipped during the past season.

London—The stock markets are steady and around a covering movement has set in in the Grand Trunk. American railway shares have developed a somewhat waning attitude. Rio Tinto have received fresh support, rising up 1 1/2 points to 6 1/2.

Joseph says: It really looks as if the ship subsidy will pass the senate. There is likely to be some relief in this stock of London. Rio Tinto have received fresh support, rising up 1 1/2 points to 6 1/2.

The conservative bull position should continue to be maintained on the standard stocks. There is no reason why good profits in part should be refused on building. The fact that a great many people have been "waiting for a reaction" has probably been the reason why a set-back has not materialized for such a sentiment replaces the short side, which is also being maintained. A Union Pacific financial statement may be made any time. The information contained in the annual report of the U.S. Steel annual report this week is helping the steel movement. On Wall Street. Chas. Head & Co. to R. R. Bonard.

After some further sharp advances during the morning hours the highest point for the present movement, a reactionary tendency developed in today's stock market and prices declined from one to three points throughout the list. There was nothing in the way of news to stimulate trading on either side of the account, but the cessation of active bull manipulation continued with a considerable volume of realizing giving the bear traders an opportunity to offer prices down, which was quickly availed of. A number of unfavorable reports were circulated to explain the selling, and a number of technical reports proposed dividend reductions as a result of decreased earnings, but it is doubtful if anything more than technical conditions accounted for the reaction, which was regarded as only logical after an advance which had continued for nearly a month. The market was generally steady, but the pressure was greater against the issues which have been the leaders in the upward movement, notably Union Pacific, United States Steel, St. Paul, Northern Pacific and Amalgamated Copper, which showed the largest declines on early high prices. The bears were successful in cashing a number of orders in these stocks, which were generally steady to firm, and the support was encountered rapidly, but the closing was heavy about the level.

Marshall, Spader & Co. to J. G. Beatty at the close.

So much confidence has been given the supposed change in the Washington situation during the last two weeks that we are inclined to urge the highest caution in following the market to higher levels under the influence for the present. Other causes have contributed to the market's support and real merit undoubted exists in the standard issues, both railway and industrial, but so many conditions remain unsolved that we are constrained to expect a steady advance to follow the recent advance.

From about present prices the return of the market to the level of the recent advance for an abnormally long period, reflected to-day a disposition to take some of the substantial profits which have accrued. London bought 10,000 shares on the amount in the industrial local market. The short interest, which still is fairly large, is being considerably reduced within the past two weeks. Our bank statement proved better than expected, and the banks began to show a good gain on sub-treasury operations.

There is some improvement in demand for industrial paper, and the holdings of the Bank of England for the rate will shortly again be reduced. The German bank statement shows a large increase in the outstanding balance in our favor, and a steady advance for the gold sent to New York by L. & N. It is believed that other security issues are to be announced. There was disappointment in some quarters over the fact that nothing of bullish import was pointed to today from Washington. Stock exchange membership is reported to be on the increase.

More or more for a recovery of \$7000 in the industrial local market. The market is being considerably reduced within the past two weeks. Our bank statement proved better than expected, and the banks began to show a good gain on sub-treasury operations.

PAY SPECIAL ATTENTION TO SAVINGS ACCOUNTS. Interest Paid Four Times a Year. BUYING DOES NOT ADVANCE PRICES.

World Office, Monday Evening, March 16.

There was more activity at the Toronto Stock Market to-day, but the buying had no strengthening influences on prices. The event of the day, also the stock had not entered seriously into local operations, was an increase in the dividend on Soo, raising the issue from 4 per cent. to 6 per cent. The action of Soo at New York was sufficiently erratic to deter any but the most venturesome from having anything to do with the shares. Considering the frame of mind of present holders the local market, is acting anything but strong. Many of the transactions are on behalf of the inside interests, and despite recent steady outside purchases, advances are difficult to accomplish, and hard to hold. The decrease in earnings shown by Twin City for the first week of March was a surprise to many, and further depressed sentiment in regard to the stock. In that local securities have not followed the recent rally at New York, they were not influenced by the reaction on Wall-street this afternoon.

GOVERNMENT OF CANADA'S INITIAL SHIPMENTS OF ORE

MARKETS STILL RAINY BUT PRICES ARE STEADY

Regular Dividend Declaration on Nipissing a Strengthening Influence on Market Sentiment

World Office, Monday Evening, March 16. The markets for Cobalt stocks were narrow today. There was no freedom of movement and buyers generally did not offer to purchase. The market for the stock of the week ending March 15 was the firmest since to-day, a fair-sized block of the stock selling at 64. The shipments for last week were more than satisfactory, the camps' extension being guaranteed by a shipment from the regular dividend on Nipissing dispelling the rumors which were current that the regular dividend would not be declared. This and the company's quarterly statement improved the market. The close was a full, but broken, movement of a growth in market operations.

Government Mine Makes Its Initial Shipment—Little Nipissing Getting Ore Ready.

COBALT, March 16.—(From the Man on the Spot.)—Cobalt's shipments for last week amounted to 435.3 tons. What have the pessimists to say to this? The camp's output for the week ending March 15 almost amounts to one-half the shipments of the entire month of March, 1907.

RECOMMENDS DIVIDENDS.

Controlling Interest in Queen Think Dividend and Bonus Should Be Paid

The annual meeting of the Cobalt Consolidated Mines Company, which holds a controlling interest in the Silver Queen Mine, was held yesterday. The report of the directors of the company was read and considered and entire satisfaction was expressed. The earnings of the mine were reported to be \$125,000 for the year ending March 31, 1907, and a recommendation of a quarterly dividend of 12 cents and a bonus of \$100,000 to the Silver Queen shareholders, the annual meeting of which company will be held in about one month. The shareholders of the Consolidated Mines Company also recommended that a bonus should be paid to Silver Queen shareholders, in addition to the dividend suggested.

A BOLD BANDIT, THIS WHO ROBBED A MAIL CAR

Boarded Train, Trussed Up Two Employees and Did Their Work

SPokane, Wash., March 16.—A bandit boarded the mail car on the west-bound limited of the Great Northern Railroad at Benner's Ferry, Idaho, before daylight, bound the two mail clerks, robbed the mail car and delivered way station mail for 100 miles. Then he dropped off the train and escaped.

The robbery was not discovered until the train reached Spokane, five hours after the bandit boarded it. Mail Clerk Stump and Nystun tonight told of their experience. Locked in a closet, hardly two feet apart, they saw him push with the robber, who responded without leaving the door ajar about an inch. The robber ceased his work of rifling the mail sacks to enquire how Nystun was feeling. When Stump remonstrated with his captor that the cords which bound him were cutting into his wrists, the robber made every effort to make it as comfortable as possible for his victims.

Don't be glum,
Spring has come,
Don't wear anything
That's bum!

The phantom "Panic" has not ruffled us. We are "still doing business at the same old stand."

The welfare of our business depends on the faith of our customers, and we are kept busy as ever selling good clothes.

Thank you! for your favors during the past year.

Thank you! for your patronage in 1908.

You'll find good value at all times. And just now is spring opening time in the men's hat department as well as in the millinery showrooms. The season's latest is here. Your taste and your pocketbook may be quickly suited.

GRAHAM ACCEPTS CLAUSE

Continued From Page 1.

elated any attempt to incorporate such provision in the bill. Mr. Barker strongly sympathized with Toronto's contention and submitted for consideration of the minister an amendment that the railway shall not be permitted to pass along any street or public place except with the consent of the municipality.

Mr. Graham expressed himself in accord with this amendment. He was as strongly opposed to level crossings as anyone, and while in provincial politics he had resisted any attempt of this same railway to secure entrance to Toronto without the city's consent.

Mr. Blair (Peel) agreed with the principle that Toronto and Hamilton should have control of their streets, but the same could be said of municipalities between those two cities, some of which were quite thickly populated. Many of the property owners had sold the right of way to the railway on the distinct understanding that it was to be a steam railway.

Mr. Foster pointed out that the minister conceded everything, but was not doing much. Surely they had all come to the conclusion that instead of increasing the dangers of level crossings, the number should be diminished.

There was a strong feeling in Toronto on this question. If the minister agreed that grades should be separated, why was he adverse to putting it in the bill?

Do Neglected Colds Lead to Consumption?

In this fickle climate, repeated colds very easily drift into Catarrh.

The natural tendency of Catarrh is to extend through the system in every direction.

Exposure to cold or dampness intensifies the trouble and nasal catarrh is the result.

Unless a complete cure is effected, the inflammation passes rapidly to the throat, bronchial tubes and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, except in its final and always fatal stage.

Catarrh sufferers, meaning those with colds, sore throats, bronchial trouble, etc., can be cured right at home by inhaling "Catarrhazone."

In using Catarrhazone you don't take medicine into the stomach—you just breathe a healing piny vapor direct to the lungs and air passages.

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhazone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhazone to prevent—use it to cure your winter ills—it's pleasant, safe, and guaranteed in every case.

JUNCTION DECIDES TO ACCEPT CARNEGIE OFFER

Will Build a \$20,000 Library and Spend \$2000 Annually—York News in General.

TORONTO JUNCTION, March 15.—A \$20,000 Carnegie library for Toronto Junction is to be an established fact. A resolution to this effect was carried at the council meeting to-night. Besides providing a site, the town's annual expenditure for the maintenance of the building will be \$2000 a year. This decision was only arrived at after an hour's discussion. A. R. Rice, who headed the deputation from the library board, outlined the board's scheme. He suggested a \$2000 or \$1000 building, but Mayor Baird favored a larger and better one on the ground that a \$10,000 library would not be big enough when the town's population has increased to about \$90,000. Mayor Baird, however, did not approve of going beyond a \$15,000 building, and voted against the motion, which was carried for a \$20,000 building.

Must Remove Obstructions

Councillor Sheppard asked if the C.P.R. had yet removed the obstructions from Ethel-avenue which were complained of at the last meeting of council. He inquired in reply if the yard foreman had any reply to him that only a few ties remained there, and that even these would be removed shortly. The mayor answered: "I had occasion to go on Sunday past the place in question, and noticed that Ethel-avenue was blocked with cars and ties from the western limit of Artye-road to Runnymede Park. I shall see Mr. McNeal of the C.P.R. and have things rectified immediately."

Complaints were also received about the 4 1/2 mile railway sometimes for 2 1/2 hours at a time, on St. Clair-street, near the stock yards, and thereby blocking the streets north of the tracks. The question of this was referred to the next meeting of council.

Major Curran of the 12th York Rangers objected to the decision of the council to not allow a room of the electric light station to be used in future as a storeroom for soldiers' gear. He explained that some years ago, the waterworks department had secured all the available space at the pumping station, and the council at the last meeting decided to erect the station. The matter was to be discussed at the next meeting of council.

The funeral of Mrs. Gertrude W. Lin, wife of George A. Lin, 404 Elizabeth-street, took place this afternoon at Prospect Cemetery.

The remains of Mrs. Mary A. Thompson of 72 Quebec-avenue, who died Saturday, were shipped on the 5:17 train this evening to Teeswater for interment.

The only child of Mr. and Mrs. Henry Reid of 147 North Keele-street, who died this morning in Prospect Cemetery. The funeral was conducted by the Salvation Army.

The Central Pharmacy is the name of a new drug store which will be opened at the corner of East Dundas-street. The proprietor, E. J. L. O'Donnell, has been in the drug business for six years at 101 West Dundas-street, and is very well and favorably known in town.

Members Will Orate

At the regular meeting of L.O.L. No. 909 on Wednesday night, after Bros. C. H. McKeown, M.L.A., and Dr. Godfrey, M.L.A., had made an opening meeting on the leading question of ratario. All members and visitors will be heartily welcome.

The funeral of Elizabeth C. Curtis of 52 Medland-street took place this morning to the Davenport station for interment at Barrie on Tuesday.

Alfred, the five-year-old child of Mr. and Mrs. Alfred Single, of 64 South Union-street, died on Sunday morning in the Sick Children's Hospital. The funeral will take place at 11 a.m. tomorrow to Prospect Cemetery.

The many friends of H. O. H. Smyth, 126 Marie-street, wish him many happy returns of the day—born March 7, 1838, at Kingston, Ont.

PEANUTS.

The peanut grows in the ground, never above it. The flowers above ground are sterile, but after the flower withers a stalk from an inch to two inches long shoots down into the earth and forms the nut. As the country of the peanut is divided between Africa and America, it is extensively cultivated in tropical and sub-tropical countries, but seems to thrive best in the Southern States of the American Union. The peanut crop in the United States alone amounts to over 300,000,000 bushels.

MIMICO.

Induction of Rev. Mr. Macmillan Takes Place To-Night.

MIMICO, March 16.—Want of suitable ice caused the canceling of the hockey matches arranged for Saturday afternoon, much to the disappointment of the players interested. Instead, some of our youthful lacrosse enthusiasts met and had a lively practice for a short time.

The induction of Rev. Alexander Macmillan to the pastorate of the Presbyterian church to-morrow night will be an absorbing topic in church circles to-day.

At the service which begins at 8 o'clock in the evening there will be present the Rev. P. M. Macdonald, H. F. Thomas, Dr. Gilray and Solos, choir members of the church, and the presbytery and local clergy will also attend.

Invitations to a special public reception to be given to the new minister in the church at the close of the induction service, have been sent to all the members of the church, and to many of the families of other churches. Refreshments and a general social and conversational hour will form the program of this function.

BOX GROVE.

Football Boys Promise Great Evening's Entertainment.

BOX GROVE, March 16.—The Dauntless Football Club will give a benefit concert and drama in the Town Hall on Friday evening, March 20. The comedy drama "A Great Catastrophe" with seven members in the cast will be presented. The comedy and other features will make up a most enjoyable evening. The Milroy and Davidson orchestra will play the music. Proceeds in aid of the football club.

MARKHAM VILLAGE.

A Number of Changes Takes Place in Business Firms.

MARKHAM, March 16.—A number of business changes have recently taken place in town. Mr. C. Selby has sold and already given possession of his barbering business to C. Wait of Toronto. He has also leased his real estate to Jas. Robinson and will remove to the house bought by him from Chas. McPhaden on Church-street. Mr. Selby, however, will not retire from active life and has purchased from Mr. Howarth the Central Meat Market.

The number of business changes will take place with the opening of spring.

The thaw of last week drew the attention of the town fathers to the condition of some of the sidewalks, which in Markham, as in other villages, are lower than the ground level, allowing water to accumulate thereon.

OBJECT TO AUTOS.

Farmers Want Open Market, but Commissioner Wants Revenue.

The third annual exhibition of the Ontario Motor League opens in the northern section of St. Lawrence market Saturday evening, March 21, and continues for one week until the following Saturday.

Incidentally the fact is said to have aroused considerable criticism on the part of the farming community by reason of the inconvenience caused to those desiring to use the market during the prescribed period.

It is urged on behalf of the farmers that the abolition of the market fees guaranteed the latter to the free use of the market and that the action of Property Commissioner Harris, in allowing the use of the market for the purpose of an automobile show is a high-handed action on the part of the commissioner. They could condone the use of the big structure for the purpose of a horse show, but the giving over of the market for the purpose of the auto—their old enemy—was adding insult to injury.

Property Commissioner Harris to the World last night said: "The St. Lawrence market cost the citizens of Toronto a lot of money not a dollar of which was paid by the farming community."

DEER PARK.

Glub-Tongued Youth Tells Touching Tale—Reaps Rich Harvest.

DEER PARK, March 16.—There is a young man trying a new "cool" game on residents of Deer Park and in the northern section of the city. He does not beg or steal, but borrows. But those who have loaned do not expect now to be repaid.

To one man he told a pitiful story of a sick mother and a family in a desire to get enough money for pick, shovel and wheelbarrow to undertake an excavation. A list of other contributions was shown and he was assisted, making valuable promises of payment and even enquiring whether the giver had a telephone so that property could be traced.

VALUABLE MIXTURE FOR COLDS

Inexpensive, and can be mixed at home.

Now that the season is coming on when people suffer most from troublesome coughs it is well to have a remedy in the house. The following valuable mixture, known years ago as the Tolene cure, can be made at small expense:

Fluid extract Licorice..... 1/2 oz.
Fluid extract Cascara..... 1/2 oz.
Elixir Tolene..... 1 oz.
Best Irish whiskey..... 1/2 oz.

Take a dessertspoonful every two or three hours. Children in proportion.

This mixture is said to break up a cold and cure any cough that is chronic in a few hours. The ingredients can be bought separately and mixed at home.

Progress on the job could be reported. But the sick mother is not at Lansing. To another, he had a pitiful story of a distressed housewife about to be turned out of her home on Annetestreet, Toronto Junction, because \$18.50 was owing to pay the rent. The same list of contributions was produced. He got something, but the donor's suspicions were aroused by his wife's recollection of the same fellow who had got a dollar from her sometime ago, and he started out to further interrogate the man, who at once took to his heels across the fields.

He is described as young, barefaced, the needing a shave, and having the appearance of a farm hand.

YORK TOWNSHIP COUNCIL.

Members Put Thru a Lot of Routine Business.

COUNCIL CHAMBER, Mar. 16.—At the meeting of the York Township Council yesterday, R. Harvey applied for permission to lay a water pipe from East Toronto to his house which he intended to build at the foot of Birch-avenue.

A letter received from H. L. Drayton, County-Crown Attorney, enclosed a letter to the Board of railway commissioners, setting forth the dangers of the level crossings at Windermere and Ellis-avenues. Mr. Drayton will make application to the railway board on Wednesday, April 15, when the board will be in Toronto, to have these crossings thoroughly protected and asked the council of the township to do so at present. The reeve and the solicitor will attend.

The property owners of Prospect-avenue, between St. Clair and Eglinton-avenues, presented a petition asking the council to take such steps as may be necessary to enable the petitioners to adopt local improvements in the way of grading, sidewalks and other necessary changes. The petition was signed by twenty-nine property owners. Referred to the solicitor.

H. C. Small, secretary of the Ontario Railway and Municipal Board, acknowledged the receipt of the township's letter re annexation of a certain district of East Toronto and promised that the board will notify the council of the hearing, when the date has been fixed.

R. E. Hawkes of Wychwood, submitting a subscription list to assist the unemployed and asked the council to start it with a substantial amount.

Wants Another Grader.

J. W. Pender, road commissioner, suggested, in a letter, that the township purchase another large grader for sections 15, 16, 13 and 14 at a cost of \$250 and have the graders at Bracendale and Todmorden repaired, which would cost about \$75.

F. C. Jarvis, representing Boyd Bros., appeared before the council and opposed strenuously the opening up of the old town line between Scarborough and York. He charged that no good purpose would be served, no benefit except Mr. McNamara's. The reeve stated that as Mr. McNamara has not signed the agreement promised, the township will not take any action on this matter for the time being.

Want Improvements Here.

Mr. Cameron and J. Dinwoodie, representing the Wychwood and Bracendale Ratepayers' Association, applied for a number of improvements and suggested that it would be well if the road commissioner would meet the committee on the grounds and have a look around.

The Union Trust Company applied for permission to protect their culvert on Alicia-avenue, Wychwood, with a grate to keep obstructions out of the culvert. Permission was granted.

Residents of Woodbine-avenue applied for a connection with the city sewer. The application was referred to the solicitor.

Messrs. Butler and Mercer asked for road improvements in Moore Park, the property owners to pay one-fourth of the cost.

Sam Wilson of Norway made application for the posting of road foreman. Left over till April 6.

Mr. Warren of Dundas-street made a complaint re water standing three feet deep, causing his well to cave in. It was shown that the C. P. R. is chargeable and the matter was referred to the commissioner and engineer.

Will Close Lane.

A bylaw respecting the closing up of Gray's lane, Todmorden, from the diversity limit of Bee-street east was passed.

Robert Hazelton asked: "What is the object of this bylaw, has anybody asked for it?"

Reeve Henry said "it was an understanding at the time when negotiations were made to open up Bee-street. The reeve and treasurer were instructed to borrow \$70,000 to meet current expenses."

Mr. Brown's offer of \$461.00 and accrued interest for the issue of \$4900 bonds of school section No. 15, Fairbank, was accepted.

munity. From the lower market we reap a revenue annually of between \$4,000 and \$15,000, while the farmers are given the use of the other market. We want some return for our money and when we get an opportunity like the present we cannot surely be blamed for securing some return.

"At the moment," said Mr. Harris, "there will be practically no day (Saturday) only in which the market is in demand, and further," said the commissioner, "the holding of this auto show will attract great crowds, and in many ways a direct benefit to the lower market."

"Since my appointment," said Mr. Harris, "we have tried to study the best interests of the farmers and citizens alike."

A Number of Changes Takes Place in Business Firms.

MARKHAM, March 16.—A number of business changes have recently taken place in town. Mr. C. Selby has sold and already given possession of his barbering business to C. Wait of Toronto. He has also leased his real estate to Jas. Robinson and will remove to the house bought by him from Chas. McPhaden on Church-street. Mr. Selby, however, will not retire from active life and has purchased from Mr. Howarth the Central Meat Market.

The number of business changes will take place with the opening of spring.

The thaw of last week drew the attention of the town fathers to the condition of some of the sidewalks, which in Markham, as in other villages, are lower than the ground level, allowing water to accumulate thereon.

OBJECT TO AUTOS.

Farmers Want Open Market, but Commissioner Wants Revenue.

The third annual exhibition of the Ontario Motor League opens in the northern section of St. Lawrence market Saturday evening, March 21, and continues for one week until the following Saturday.

Incidentally the fact is said to have aroused considerable criticism on the part of the farming community by reason of the inconvenience caused to those desiring to use the market during the prescribed period.

It is urged on behalf of the farmers that the abolition of the market fees guaranteed the latter to the free use of the market and that the action of Property Commissioner Harris, in allowing the use of the market for the purpose of an automobile show is a high-handed action on the part of the commissioner. They could condone the use of the big structure for the purpose of a horse show, but the giving over of the market for the purpose of the auto—their old enemy—was adding insult to injury.

Property Commissioner Harris to the World last night said: "The St. Lawrence market cost the citizens of Toronto a lot of money not a dollar of which was paid by the farming community."

DEER PARK.

Glub-Tongued Youth Tells Touching Tale—Reaps Rich Harvest.

DEER PARK, March 16.—There is a young man trying a new "cool" game on residents of Deer Park and in the northern section of the city. He does not beg or steal, but borrows. But those who have loaned do not expect now to be repaid.

To one man he told a pitiful story of a sick mother and a family in a desire to get enough money for pick, shovel and wheelbarrow to undertake an excavation. A list of other contributions was shown and he was assisted, making valuable promises of payment and even enquiring whether the giver had a telephone so that property could be traced.

FIRST POSTOFFICES.

The first letter-post, in the modern acceptance of the word, seems to have been established in the Hanse towns in the early part of the thirteenth century. A line of letter-posts, connecting Austria with certain towns in Lombardy, followed in the reign of the Emperor Maximilian. In 1481, when Edward IV. was at war with Scotland, a system of relays of horses was established in the north in order to provide the king with the latest news from the seat of war. The first regular post-rout between England and Scotland was established by Charles I. in 1638.
