British Steamer Sardinia Burns Off Malta-Commander Dies at Post and Crew Displays Great Courage.

VALETTA, Malta, Nov. 25 .- A terrible disaster, in which more than a hundred persons lost their lives, occurred at the entrance to this port this morning within sight of the whole population of the city, who were powerless to give aid.

The British steamer Sardinia, of the Ellerman Line, sailing from this port and bound for Alexandria with a crew of 44 Englishmen, 11 first and six second class English passengers and nearly 200 Arab pilgrims aboard, caught fire and within a few minutes was a roaring furnace surrounded by clouds of black smoke, thru which flames burst upward to a height of 200 feet from frequent explosions in the hold. So rapidly did the fire spread that the frantic efforts of the crew to operate the fire apparatus proved useless it seemed but a moment before upper works and masts crashed down upon the deck, while the ship's boats were crushed by the falling de-bris or set on fire and quickly burn-

Mr. Harding's personal cheques, which he claimed were in payment of work done for the department.

George McAvity told that his firm had done business with the department to the extent of \$42,000 in the last three years. He had been in the habit of exchanging cheques with Harding. At present Harding owes him \$1300, made in three loans. He could not produce the cheque stubs for two of these because they had been destroyed.

Ten thousand persons wa'ched the contest and while partisan feeling ran high nothing more than gcod-natured raillery was the outcome. The last few miles of the race were exciting. In the lead five the pumps became useless Captain Chas. Littler, commander of the Sardinia, took the heim and directed his ship towards the shore as long as it could be navigated. A Very Bad Case That Was Cured by Persevering With an Old Time Remedy.

"Were it not that I had great pa-tience and perseverance," writes Mr. Fritz Kelfer, well known in London, "I would still be racked by chronic rheumatism, which was my unhappy lot for three years.

"I didn't have acute rheumatic fever as so many have with me the pain and stiffness came on gradually. When I kept quiet, as on Sunday, I was free from pain; but being a working man Dixon Taylor, Proprietor. simply awful, though after an hour's GIBSON HOUSE - QUEEN-GEORGE resting it would subside: I had to move about and the pain was resting it would subside:

"I got the idea into my head that ly rates. although the pain was in my joints, the rheumatic poison was in my blood. HOTEL VENDOME, YONGE AND My druggist said "Ferrozone" was a wonderful blood tonic and I began to use it. At first it didn't help at all, only change was a better appetite and more strength. Not being a doctor I ly rates. didn't know that Ferrozone was all enquiry at the jail respecting Guard the while working at the root of the Connolly, who declared on Tuesday disease. I kept right on with Ferrozone and in three months was cured. There is no more stiffness, no pain, It seems that the question was in and I am as limber as forty years

West beats Martinson

Success is bound to attend the Bank Leaguers this year. They are getting back into the game after a short rest and with more men and a larger circuit the league should be better as well as bigger, than in the former palmy days. Officers were elected at the annual meeting last night and the selection looks the best. E. B. Mackenize of the Metropolitan Bank, Broadview branch, the new president, is a son of the late Ross Mackenzie, the greatest lacrosse goal keeper Toronto has ever seen.

has ever seen.

Agood judge of football like President Brownlee of the Ontarie Soccer Association is a firm believer in the prowess of the Tigers to defeat Varsity Saturday, banking chiefly on the jungle scrimmage and wing line. Rugby must be great at the big institution in the park this year, when all three teams are champions of their union. There is just this one game left for the senior Canadian championably. Varsity Informediates play a semificial at Hamilton Saturday, the whiner to meet the Grand Trunks at Montreal a week later. Parkdale plays Montreal and Capitals meet Lindsay in semi-finals on Saturday, the two winners with Varsity being left for the junior crampionship of Canada.

Longboat will tackle the first of the big professionals at Buffalo Dec. 15, when he runs Dorando Pietri, the winner of last light's race, 15 miles. The Indian is at Fall River to-day. The Italian's regrormance shows that his collapse at Shepherd's Bush was a mistake.

A New York despatch says James E. Sollivan, president of the Amateur Athletic Union, has been appointed by Mayor McCellan a member of the city board of ducation. Friends of Mr. Sullivan say that his appointment was made by the finayor with a view to the promotion of athletics in the public schools. Mr. Sullivan is named for a term of four years, beginning Jan. 1 next. The despitch does not say that the boss is to get a commission on his various sporting goods he works into the schools.

Billy Hodson, the Montreal reinsman, was in Toronto yesterday making arrangements are under way whereby the league will play their games on covered ice, and, as all the clubs have good material on hand to put in first-class to be in the hands of the Accretary-treations which opens Jan 1. Billy Hodson, the Montreal reinsman, was in Toronto yesterday making arfangements to ship his string of harness horses here to get ready for the winter racing which opens Jan, 1. During the past racing season Mr. Hodson campaigned Davy K., 2.08%; Tony Bars, 2.14%; Lady Baxler, 2.14%, and several others. One of the cracks he will race this winter is the good colt Zenobia by Reflector, 2.07%.

Pally Reader asks: Did Longboat ever lead in the Marathon road race in England? If so, what part of the race. Ans.: We are reliably informed that he was about shortly after the start.

A.B.C. asks: Did Alf. Palmer ever get the decision over H. Lang? Ans.: Yes. At the city tournament, spring, 1907.

We have been asked what is the meaning of the frequent references to the gold-filled watches, and in reply will explain that the watches are the prizes given semi-annually to the winners of the city amateur boxing tournament, which show always attracts a splendid attendance, including many newspaper men. The watches are the product of Toronto's best-known jewelry firm, Messrs. Ryrie Bros. of Yonge and Temperance-streets, who are extensive advertisers in The World, as well as The Telegram and other city papers. The watches are fully guaranteed by the firm and are possibly the most valuable prizes given at any regular athletic competition in Canada.

Place Rob Day The Canada Transparence of the gold-filled watches, and in reply will explain that the watches are the prizes given semi-annually general meeting of the Toronto Garrison Indoor Baseball League, adojurned from Nov. 16 for the purpose of revising the bylaws and constitution, was held last night, the following being adopted:

Add to article, section 4: "That members attached in units performing fall drills shall have completed three drills or eight recruit drills, this resolution to take effect season 1909-10. Players in

Big Bob Day, the amateur boxing champion, showed tolerable consideration in his bout with a weaker opponent in the last tournament in Mutual-street Rink. He had beaten the same man in Massey Hall, but a victory the night before over Eil, Gibson had given Sid Hickman confidence. It required only a few exchanges to tell that the result would be a repeater only possibly more humiliating. However, the Scotchman showed greater mercy than the average person, and contented himself by outpointing his man, to, whom the final beil was a welcome sound.

It was effect season 1909-10. Players in units not performing fall duils shall be governed by section 3 of this article."

The meeting exonerated the officers of the league from all blame in connection with an article published in a local evening paper of Nov. 17, regadiring a team in the league.

Central Y.M.C.A. School A. A.

The annual meeting of the Central Y.
M. C. A. Public School Athletic Association was held in the Boys' Department last night. The past year had been the most successful in the history of the association. It was decided to have the annual swimming contests on Dec. 5. This is to consist of four events: 1, straight swim; 2, swim on back; 3 neat dive; 4, long dive. The basketball season is to open on Dec. 12. It is to consist of three leagues—senior, intermediate and junior. The Senior League consists of boys of any height; Intermediate League, boys under 5 feet 4 inches; Junior League, boys under 5 feet.

The following officers were elected: President, Taylor Statten; secretary-treasurer, S. H. Armstrong, Representatives—Senior, W. W. Noble; Intermediate, P. G. Highlt; Junior, J. E. Hunnisett.

Two exciting games of basketball wer played at All Saints' Gym, last night. The first, between Olympics and Central Juniors, was fast and somewhat rough, the lors, was fast and somewhat rough, the score at half-time-being 14—9 in Centrals' favor, and hard checking, with good combination, enabled them to increase their lead, the final score being 35—24 in Centrals' favor. eing the false one of seeking individbeing the false one of seeking individual happiness, unappreciative of the good of humanity. My life's work has also taught me that women as a whole are idealistic, actuated by a higher sense of duty, nobler aims and aspirations than the majority of men and I think that it is more than time for this constant bombardment on women to cease. I should like to end my remarks by this question: Could not the efforts of Mr. Hales be better employed by remedying the vices of men that flourish in our midst and have things protected by man-made government? protected by man-made government?

If Ald. Hales did voice the truth, then, if so, with man lies the responsibility for having withheld opportunities from

Mrs. Flora MacD. Denison: "I believe there are women in Toronto who both drink and gamble. But who are they? Not the women who are interested in the social betterment of the race, not business women, but professional women; not women in domestic circles, but the pampered society women on one hand and the prostitute class on the other, who are gambling and drinking because they have money furnished them by men. After all, the men are paying dear to keep up the class of women they have been fools enough to encourage."

Dr. Margaret Gordon: "After reading Ald. Hales' article, would say that it is not a very complimentary statement to the character of the women of Toronto. He had better watch and improve the morals of men before he attacks the actions of women. I heartily endorse the temperance workers, but do not think it is aided by attacking the women of our fair city."

Dominion Council Y.W.C.A.

The annual business meeting of the Dominion council of the Y.W.C.A. of Canada was held at the residence of Mrs. T. Eakin, Madison-avenue, yesterday afternoon, the president, Mrs. Robert Gilgour, presiding. The report of the general secretary, Miss S. Little, B.A., showed that the past year had been one of encouraging development. A new feature is the first Canadian summer conference to be held at the Eight House, Lake Joseph, Muskoka, Ont., June 25 to July 5. An outline of the program was presented by Mrs. R. A. Falconer, chairman of the conference committee. In addition to supporting Miss 'A. C. Macdonald, foreign secretary in Japan, the Canadian Associations have undertaken to support Miss May Cornie, foreign secretary in India. Miss Stella Fisher, who has recently arrived from Tokio, Japan, where she has been assisting the foreign secretary, gave an account of association work in that country. Miss M. I. YES!

And if you have been ailing a long time don't lose your courage. It takes a little time—takes some constitutions longer than others. But Doan's Kidney Pills will gradually drain the persons out of your system; the pain in your back will stop; the sediment in the urine will cease; there will be no rheumatic pains; you will feel freer and brighter, and when the last of the poisons have gone you will be well.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effec-tive in taking them out as Doan's Kid-

ney Pills. Mr. W. Perkins, South Maitland, N.S., writes: "I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. For six months I could not obtain a good night's rest, had to get up four or five times to rest, had to get up four or ave times to urinate, and the urine was very thick and red. I commenced using Doan's Kidney Pills and in a very short time I was right and fit again. I am very thankful to have found so speedy a cure."

"TERRANO"

IS THE MOST SANITARY OF ALL FLOOR COVERINGS . .

"Terrano" is free of cracks and joints. It is about the consistency of mortar when laid. Experts spread it on the floor to be covered, level it exactly—and make it form a continuous sheet, jointless and as noiseless as cord. With "Terrano" on the floor, there will be no chance for rats and mice to get in. Rodents will wear off their teeth long before they could onaw their way through a "Terrano" floor or wainscoting. "Terrano" makes a germproof floor-prevents musty odors-is waterproof, fireproof and sanitary. Any color required.

Let us tell you more about this perfect flooring-its service and its economy. Write or call.

The Mother-Lode Mine is located on the Montreal River in James Township, 1 1-4 miles from Elk Lake and has 78 acres. Boats load and unload on the property. There has been more actual mining on this property than on any other property in the Montreal River District. The ore blocked out is of the richest and the vein is widening as depth is obtained. Stoping of this high-grade ore will commence at once from the lewer levels and with ore running from 6000 ounces to 22,000 ounces large dividends are only a matter of a short time. There will be no delays in making Mother-Lode a dividend-payer. Camps for 60 men are on the property. A brisk winter's campaign will be made. Every hour a busy one.

P. H. DRAYTON, K.C., Official Arbitrator for Province, THE HOME BANK OF CANADA,

Sometimes there are real opportunities in mining and this is one of the times. It is an opportunity to become associated with men with practical experience in mining, covering everything from active service with the pick in the prospect field, to superintendence of operations, and who realize that with the needed funds in hand they will be able to score a much larger and quicker success and make more money for themselves by offering the public perhaps "a better run for their money" than has ever been offered them before. The opportunity is made so good that every investor should act quickly and thereby assist in financing the syndicate so that we can get to work and open the ore bodies without delay. No liability to membership in excess of subscription.

While we have a strong, conservative proposition, it is not a "sure thing" yet, and we only solicit the subscriptions of those who have the means and are willing to take a small risk for big profits. MOOSE HORN MINES

(MONTREAL RIVER)

We have told you to buy VICTORIA. We now URGE you to buy MOOSE HORN. We purpose to give Victoria management (stick at it until you ship the rich ore) to Moose Horn.

With 160 acres of land (four mining claims). three-quarters of a mile from Elk City, with assays from six distinct veins, running from 250 to 13,000 ounces of silver to the ton, with transportation assured during the winter by the Government Winter Road from Charlton, which crosses the property, WITH THE T. & N. O. RAILWAY SUR-VEYED TO RUN WITHIN 100 FEET OF THE MAIN SHAFT, which is down 72 feet, with fine ore from 60 feet, the Moose Horn Mine compares favorably with any mine on the Montreal River, and goes far to prove our assertion that in the Montreal River Section Cobalt has no mean rival.

All that Moose Horn needs is active development. It has the rich veins, BUT EVEN A BO-NANZA IN THE GROUND needs money to take it out and ship.

Enough stock has been underwritten to provide ample working capital for one year. The present offering is made to put in a complete plant, including six-drill compressor, etc. This stock is going fast, both here and in New York, where it is listed on the curb.

That Moose Horn will SHIP MACHIN-ERY IN and SHIP ORE OUT before spring is a certainty.

Capt. John Harris says, in his report on the Moose Horn: "At about twenty-five (25) feet down the shaft, the vein widens to one inch of Calcite, in some places SHOWING ALMOST SOLID SILVER. The vein holds good to the bottom of the shaft and the full length of the drift.

'I have been in the Cobalt Camp almost from its beginning, and would say that there are as good showings of silver on the Moose Horn property as in any of the Cobalt Mines at their commencement, and for the same amount of work having been

In times past the American Smelting Co. has had an absolute monopoly of the smelting business in a large section of the country. Competition, however, is growing keener every day, and the advent of the Amalgamated Copper Co. into the smelting field, heretofore controlled by the American Smelting Co. does not argue well for the latter interest. TRADING' TO KEEP SPECIALTIES BEFORE PUBLIC.

World Office, Wednesday Evening, Nov. 23.

The Toronto market showed no signs of broadening in to-day's business. In-and-out deals for a few shares were conducted in two or three speculative specialties, transactions which had no other meaning than that of keeping the shares prominently before the public.

Sao Paulo was operated in this way to-day. It is beginning to dawn on the traders in the South Americans that the severe decline in the price of silver, upwards of 30 per cent, in the last two years, must sooner or later have an influence on the earnings of some of these companies operating in countries with a silver standard.

Mackay was not so strong, and more attention is being given to the possibilities of a competing cable across the Atlantic. The bank shares showed a continuance of the support which has been in evidence for some days now and many orders are in the market for these securities providing they can be obtained without forcing prices.

There is almost no interest taken in the speculative stocks in the street, and to work up any enthusiasm the insiders will have to test the proposition by advancing prices, but it is considered doubtful whether this will be efficient in inciting any new outside purchases.

Walter Death, Farmer of Peel, Wants to Annul Right-of Way Agreement.

Seeking the cancellation of his agree ment with the hydro-electric commission for the use of his lands as a right of way for transmission lines, Walter Death, a farmer of Toronto Township, Peel County, has served A. F. Lobb, K.C., solicitor for the com-mission, with a statement of claim. Mr. Death, whose counsel is D. O. Cameron, Toronto, signed an agreement giving the commission's towers and wines right of way for 30 years, he to receive \$20 for each of the two towers and \$20 for trees cut down.

He says it was fraudulently represented that only an area 16 feet square for each of the towers would be used. for each of the towers would be used, and that the rest of his property would not be depreciated; also that the power line would be perfectly safe. He signed the agreement without knowing its import, and he has since learned that the line will be a high tension one of 110,000 volts unfenced and unprotected, with wires hanging down from the cross-arms without any safety device to support them, and will be in a high degree dangerous to life and property and will seriously depreciate the value of

ADAMSON REMANDED. Former Waterworks Collector in Judge Winchester's Court. George J. Adamson, former waterworks collector, was remanded a week when agraigned before Judge Winchester yesterday morning on the charge of theft of civic funds. The man has failed visibly since his last appearance in court a month ago. Mrs. Isabella Heathfield, who pleads to sanity to the charge of collecting koney by fraud by posing as a Y. W. W. A. collector, was also remanded a week. Judge Winchester had considerable trouble in deciding what to do with Laura Wheble a young girl who pleaded guilty to stealing a ring from Mrs. Elizabeth Knowles, and who had already served 60 days for a previous	months to the women's industrial ter- fuge. But there they refused to re- ceive her, and Mrs. Pickens of the Bel- lamy Home took her in charge. Woes of the Mathesons. Once again Matthew Matheson, whose story of woe set even the hardened attaches of the police court into a fit of the blues, is in the limelight. He and his wife were picked up several weeks ago in a vacant house. Since then his wife has been sent to an asy- lum as the result of continued use of drugs. Tuesday night Matheson escaped from the General Hospital, where he had been sent to recover from the ef- fects of the drugs which he has used for years. This Company Holds 22 Timber Berths, Aggregating 52 square miles (33,233 Acres), All Carefully Selected, Containing Over 800,000,-000 Feet of Finest Timber, Bought by this Company at the Exceptionally Low Figure of 26c per 1000 Feet.

All of this timber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 160 feet high. The limbs commence half-way up. There is some good tall pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits.

The limits were cruised by James A. Anderson of Sutton West, an Ex-Crown Timber Agent, and the company has on fyle at its office a number of letters from some of the most prominent business men in Canada in recommendation of his capability and integrity, and from settlers in the Cariboo District verifying his report of the timber.

The company has also issued in pamphlet form the report (dated Oct. 31, 1908), of Mr. H. P. BELL, M. M.I.C.E., member Am. Soc. C. E., at present the Superintending Engineer on the Government Staff on the Trent Valley Canal at Campbellford, Ont., who was employed by the British Columbia Government in 1874-5-6 to make a survey up the Willow River Valley for the proposed route of the British Pacific Railway, and who cut the Government Pack-trails through the Willow River District in 1896. His report substantiates Mr. Anderson's in every detail, and in view of Mr. Bell's pre-eminence among the Civil Engineers of America, among whom there is no higher authority on the topography of the Cariboo District, his report will be universally accepted as being entirely correct. Mr. Bell was recommended to this company by Mr. Collingwood Schreiber, Consulting Engineer to the Dominion Government, and Chief Engineer of the Western Division of the National Transcontinental Railway.

GOOD TIMBER well located, is the safest and best investment in the world to-day. Each \$100 Invested To-day at par Will Bring a Return

This is not exaggerated; \$2.00 per thousand for good timber is a ridiculously low price. In Ontario Spruce is now worth from \$7 to \$9 per thousand feet on the stump and is rapidly increasing in value.

The Company Has Reserved \$36,000 of Treasury Stock to Provide for future Covernment License Fees.

Each Share of Stock Represents 315,600 Feet of Timber.

A Limited Number of Shares is Now Offered at Its Par Value.

He favored improvements against straight annexation committee and the retail merchants were agreed, the farmers were stoutly opposed to any attempt to legislate along the lines of restricting pediars of selling from the wagons.

Councillor Gardhouse took strong grounds against being compelled to go to St. Lawrence Market in order to dispose of his produce, or against farmers being prevented from selling on their way there. The other members fairly well shared the same views. It is expected that a joint meeting of the

Bylaw Knocked Out.

The mayor has investigated the charge made by Ewart Farquhar that \$2000 or \$3000 had been overpaid the Barber Asphalt Company, who resurfaced the asphalt Company, who resurfaced the asphalt pavement on East King-street, and says he has found an apparent overpayment of \$300. As the contract is a \$25,000 one, he doesn't think a \$300 mistake very important. Mr. Rust will be asked to report, however.

The mayor says that if \$125,000 is to be raised for a bridge over Bathurst-street, in connection with the Exhibition eastern entrance, the people must vote on it. The board of control will to-day consider submitting such a bylaw.

The controllers favor seeking legislation to allow the city to pay \$10,000 annually to the police benefit fund for 40 years.

atory Says Need Is Right

Dr. J. A. Leonard, superintendent of the Ohio State Reformatory, has solved the bad boy problem. It is to treat the juvenile delinquent as an uncivilized young savage who only needed to be put in a right social relationship.

This statement was made at the

lationship.

This statement was made at the charities and corrections convention last night, at which Hon. J. M. Gibson presided. The program, said the lieutenant-governor, reminded him of the time, a decade ago, when he was provincial secretary. Some progress had been made and much more was necessary, especially in the treatment of juventle delinquents.

Dr. Leonard spoke on "Why These Broken Vessels?" In Ohio there were about 5000 boys and young men from 10 to 25 years of age under duress for law-breaking. Only about one in ten incarcerated were those who actually break the law. They were not criminals but "savages," who had not, as a rule, had adequate social relationship. A criminal was no more "born a criminal than a saint." Good and bad citizens were not born—they were developed. It is the wisdom that was destroyed and not the energy that counted in the development of citizenship. This rested on the home. No man should receive public honors who is not true to the home. Next comes the school. Seventy-five per cent. of the boys at the Ohio Reformatory come from broken homes. The bad boys were the hope of the nation, but come from broken homes. The bad boys were the hope of the nation, but they were a little hard on mothers. They, however, needed the influence of the father, who was often too im-mersed in business to give any time to his boys. In the schools the boys were again under lady teachers, and

ethical training was needed in addi-tion to the usual scholastic course. With this combination bad boys usu-
