## WOMEN DENOUNCE PAPER FOR SENSATIONAL REPORT

Characterize Story of Dissension as False, and Express Confidence in Officers

An evening newspaper report which was characterized as false and misleading was the cause of an animated discussion at the meeting of the Women's Council yesterday morning. The article, which appeared on Saturday, went the length of saying that the business of the council was not running smoothly, and that the council was in complete control of two women, Susan Gordon and Mrs. Ogilvie.

Lady Edgar said that a very unsatisfactory statement had been in Saturday's paper and that Mrs. Ogilvie Gordon was an officer of great ability and repute.

Lady Aberdeen, chairman, then spoke. "I was very pained," she said, "when I read that notice. It said that Mrs. Gordon and I were cousins. It is not so and I emphatically deny it. Here her excellency smiled at Mrs. Gordon, who was sitting beside her, but I can claim her as a class-woman."

Mrs. Ogilvie Gordon, who followed, said that anything that reflects on the work of the council, or on any officer of the council, reflected on the organization, and that she wished to thank her friends for denouncing the paper.

Equal Moral Standard.

A motion was then passed to change the name of the committee on the white slave traffic to the "Equal Moral Standard and Traffic in Women Committee."

A motion was also brought before the meeting to the effect that a law be made that no children could be employed under the age of 14 years. Elizabeth Gad of Denmark, the mover of this motion, also suggested that the press be excluded from the meeting on Friday next.

In regard to her motion, the president informed her that it would have to be brought before the committee.

Small Advisory Board.

The Geneva speaker came in for one more knock when the motion came up. "That a small advisory board be instituted to which applications for affiliation may be referred to the executive," Frau Hainisch of Austria opposed it with a motion "That there be no extra advisory." When the vote came, the chairman said that an amendment upon which the meeting was about to vote, Miss Derich of Montreal suddenly discovered that it was against the original motion, instead of as it was a negative. "This put the meeting in an uproar, but Lady Aberdeen declared that it was an amendment and as such it was put to vote, notwithstanding Miss Derich's protest."

It was defeated by a vote of 49 to 23. Dr. Anna Shaw proposed that the committee be made of five, consisting of the president and four more appointed by the executive. Mrs. May Wright Sewall amended this motion to have the advisory board consist of the general officers. This was passed. Reports were then read from United States, Sweden, Germany, England, Denmark and other countries, all showing the large growth of the organization.

### Quinquennial Notes.

Mrs. Anna Exchtein of Germany, who is proxy for Mrs. T. A. Mead on the peace and arbitration committee, had as her guests at the Queen's Hotel to luncheon yesterday: Dr. Eby and wife, Dr. Gordon, Mrs. Mary Wright Sewall, Mrs. Heusler and Mrs. W. J. Waterman.

Mrs. W. J. Waterman, who is a delegate from Cleveland, is the editor of The Searchlight, devoted to temperance, purity and women's rights.

The conference of charities and philanthropies of the National Council of Women of the U. S. A. is in room 4 of the university building yesterday morning at 9 o'clock and arranged to accept the invitation tendered on Sunday to hold a public meeting at the Zion Congregational Church on Wednesday evening at 8 o'clock. Mrs. Helen J. Waterman of Cleveland, O., president of the conference, will be the speaker. The speakers will be Mrs. Katharine Selbert, member of Washington Gladden's Congregational Church at Columbus, O., who will speak on prison reform and welfare and rescue work for women; also Mrs. Emily Richards of Salt Lake, Utah, who will tell of the work being done in her state for the uplifting of humanity.

One of the delightful events in connection with the Congress of the International Council of Women was an informal tea given by Mrs. R. Sterns Hicks at her apartment in the Alexandra on Sunday afternoon, when a few of the literary ladies of Toronto were given the pleasure of meeting the guest of honor, Mrs. Elizabeth Gramma of New York.

The rooms, as always, were bright and charming with carnations in profusion, and Mrs. Hicks received her guests in her usual gracious manner.

Mrs. Gramma is not only a brilliant and well-known writer, but she is one of those great women who know the divine impulse of charity. She has been the giver of gifts so munificent that the world must know and also the constant dispenser of that sweet charity known only to the giver and to the recipient.

Lectures to Broadview Boys.

The Broadview boys who cultivate "farms" in the institute's miniature township are having the advantage of an excellent course of lectures during the present season. The following professors from the Ontario Agricultural College at Guelph are among the speakers: Prof. Coates gave an address last Monday evening on "Insect Pests"; Prof. W. H. Day speaks to-night on "Soil Moisture"; next Monday evening Prof. J. E. Jowitt will speak on "Noxious Weeds." On Friday next the boy farmers of the institute will pay a visit to the Agricultural College and MacDonald Institute at Guelph.

### SIX HUNDRED ENTRIES

Baby Show Commences at Hanlan's Point This Afternoon.

Over six hundred entries have been received for the baby's carnival, which commences this afternoon at Hanlan's Point. This afternoon will be devoted to the decorated baby carriages and go-carts. The first prize in each class will be a high grade sewing machine, the second prize for the baby carriage, a handsome carving set, and the third prize for the go-cart, a silver-fitted piece set. Every little girl wheeling a doll carriage will be presented with a gold bracelet. For the most novel decorations, there are three prizes, a silver card receiver, a silver cake dish, and a silver bon-bon tray. Tomorrow will be the judging of the babies. These have been divided into six classes and there will be three prizes for each class and every baby entered will receive as a consolation present, a handsome doll. The school girls' dress parade will take place on Thursday. The first prize for the most dainty costume will be a chateaufort and pin, the second prize a gold bracelet. There will be prizes for every age from four to fourteen years. The judges will be composed of three ladies chosen from the audience by L. M. Rich, the manager of the baby show. Entries will be received until 3 o'clock each day.

The Elmwood Ladies' Band of Boston, Mass., entertained two large audiences yesterday, who showed their appreciation of the splendid music by honoring several of the numbers. Hardy as usual emanated the large crowd, by his thrilling performances on the high wire.

### Tot Badly Burned.

Hazel Rushbrook lies at her home, 86 Val Horia-street, in a serious condition having been severely burned about the head and arms on Sunday as a result of a fire which she started by playing with matches. The child, but the last of a long list of misfortunes which have come to this 2-year-old tot and to her brothers and sisters. She was just recovering from a serious illness.

### Prescriptions For Liquor.

COBALT, June 21.—Dr. Routhier, a French-Canadian, charged with falsifying prescriptions so that alcoholic liquors could be obtained by customers, and J. Keely, a druggist, who filled the prescriptions, were brought before Magistrate Atkinson and remanded for a week.

### Epidemic Under Control.

Dr. Hodgkins, secretary of the provincial board of health, reports that the smallpox outbreak at Port Severn is entirely under control, and no apprehension need be felt by tourists and travelers going into the Parry Sound district.

### Killed in a Well.

THESALON, June 21.—Roy Wilson, aged 25, was caught by a well, and while digging a well, and suffocated.

### SHAM FIGHT AT NIAGARA

There'll Be Some Brisk Campaigning on Thursday.

NIAGARA-ON-THE-LAKE, June 21.—(Special).—So intense was the heat today that several of the soldiers had to be conveyed to the hospital tents in an exhausted condition.

The men are looking forward to the sham fight on Thursday. It will constitute an attack and defence of the town. The attacking force will be known as "Red" and will be in command of Lt.-Col. A. T. Thompson, while the defence will be the "Blue," in command of Lt.-Col. J. Mayor.

The "Reds" will be supposedly in occupation of Niagara Falls, Ont., and on June 23 learn that a defending "Blue" army held a small force at Niagara-on-the-Lake and is placing the town in a state of siege while awaiting reinforcements from Toronto.

The "Reds" will have three squadrons of the Second Dragoons, the 9th Field Battery and the 36th, 37th, 38th, 44th and 7th regiments, along with No. 12 cavalry ambulance. The force will wear helmets.

The "Blue" force will consist of the 9th Militia, four 15-pound field guns, the 12th, 20th and 24th regiments and the second field company of engineers and the 10th and 11th field ambulances.

A thorough inspection of all rifles, pouches, bandoliers and pockets will be made previous to the fight, and all ball cartridges should be contained by error.

Strict instructions have been sent out impressing upon the ranks that no private property must be entered during operations.

No bands will accompany the forces, no extraneous assistance in form of motors, cars or wagons will be allowed the troops and no bayonets will be carried or swords by the officers.

### HOLYHEAD ROUTE FAST

Passengers Arrive in London Before Ship at Liverpool.

LONDON, July 21. The White Star steamship Cedric, from New York on June 12, arrived at Holyhead at 11.23 a.m. Sunday. The passengers and mails were landed by noon and left on three special trains for London. The first of these specials arrived at the Euston Station at 5.48 p.m. so that the passengers were comfortably seated in the London hotels about the time the Cedric arrived off Liverpool.

This is a new departure, which possibly may mean the permanent opening of Holyhead as a station for the landing of the American mails, and the experiment is regarded in every way as highly successful. It is contended that Holyhead has the advantage of ample water at all stages of the tide to accommodate the larger liners.

### 1812 CELEBRATION

Committee Appointed to Draft a General Plan.

The adjourned meeting of the promoters of the centennial celebration of the war of 1812-14, held at the military institute yesterday afternoon, was well attended by representatives of the Daughters of the Empire, the chiefs and warriors of the Six Nation Indians, the United Empire Loyalists' Association of Ontario, the Canadian Military Institute, Veterans of 1867, 1885 and South Africa and the York Pioneer and Historical Society. Lt.-Col. W. Hamilton Merritt occupied the chair.

There was a free exchange of ideas and suggestions and the unanimous view was that the celebration should be national in character, and that the co-operation of all the governments of which are to be invited, but that the frontiers of Ontario and Quebec would naturally be the chief scene of the celebration, for they were the provinces attacked and successfully defended, they received assistance from the Maritime Provinces and Newfoundland.

On motion of ex-Ald. Lamb of the York Pioneers, Lt.-Col. Merritt, J. S. Carstairs, B.A., Lt.-Col. Ryerson, and R. S. Neville, K.C., were appointed a committee to draft and submit a general plan or scheme for the approval of a future meeting.

### ESTATES OF THE DEAD

Late Prof. Gregg Left Property Valued at \$11,148.

The late Prof. Gregg of Knox College left an estate amounting to \$11,148. The rents and use of all the real estate and the net personal estate go to Mrs. Gregg during her life and in case these are not sufficient for her comfortable maintenance, they are to be supplemented by drawing on the principal. Upon the decease of Mrs. Gregg the estate is to be divided into 22 equal shares, four of which are to go to the eldest son, William R. Gregg; three to a daughter, Elizabeth Jane, wife of Rev. Alexander Stewart; three to a son, Geo. Arthur Gregg; three to Alfred Holden Gregg; son; six to Isabella Gregg, daughter; and three shares to Richard Clement Gregg's decease, except the portion of Richard Clement, who is to receive his share at each time as the executors may think best.

The estate of the late E. D. Brown, manager of the Dominion Brewery, amounts to \$37,536. The widow, Winifred Brown, is to get \$2500 immediately and so long as she remains unmarried is to enjoy the use of the home and premises occupied by the deceased. The net income of the rest of the estate is to be used for the maintenance of the widow and the support and education of the only son of the deceased, Edward James Brown, until he arrives at the age of 25. On his attaining that age, if Mrs. Brown is then alive and unmarried, the estate is to be divided into two equal parts, one part to be paid to the son, if alive, and the income from the other to go to the widow. Should Mrs. Brown remarry the income on her share goes to the son. Should both the widow and the son die the property is to be divided among two brothers and a sister.

The late Kathleen Smith left an estate of \$195. Of this, by her will, \$100 is to go to her husband, Norman Smith. The residue goes to Minnie Murray Allen, a sister, and Jack Allan, a nephew, of the deceased.

## THE HAMILTON MEETING

will be another golden harvest for our clients. Those who have been with us since the opening day at Woodbine are away ahead of the game, and are playing on velvet with the bookmakers' money.

## REYNOLDS

is one man who never fails his followers

We have had only two losing weeks on the Canadian tracks since we first took in this circuit—eight years ago.

If you are satisfied with one good bet a day and satisfied to get enough winners to clean up a good sum on a small investment weekly, we are the people you want to do business with.

It's the high average that counts, and our proposition is one that gets the money week in and week out. In the past twenty-six days of racing we have only on one occasion gone two days in succession without a winner, and then one of our horses was left at the post and the other was beaten a nose for first money. This showing proves conclusively that REYNOLDS is in a class by himself when it comes to locating one safe bet a day. It's our aim to make our clients a steady income at the end of each week, and we have been successful in this at every track we operated on.

We never shoot at the moon or take any chances whatever. With us certainty of cashing is more important than a probable long price.

Any time you see us advertise a horse as being our One Best Bet, you can rest assured that it was positively the one and only horse given by us for a One Best Bet that day.

## Start With Us To-Day

and increase your bets each day, according to your winnings, and you are bound to have a good sum accumulated when the meeting is at an end. Whereas, if you go along in the same old slipshod manner that you have been accustomed to—listening to one man's tale one day and someone else's the next—you are bound to wind up a heavy loser.

IT'S UP TO YOU THIS VERY MOMENT TO DECIDE WHICH COURSE TO FOLLOW—THE UNSUCCESSFUL OR THE SUCCESSFUL ONE.

We have thoroughly demonstrated that we can make you beat the track. Then why gamble and take a chance when you are dead sure of making large profits following our advice? THINK IT OVER.

### REFEREE AND PLAYER FIGHT

Behind a High Board Fence—Gray and O'Brien Clash.

VANCOUVER, B.C., June 21.—On Saturday night, when William Gray, president of the British Columbia Lacrosse Association, who refereed the match between the Vancouver and Westminster, was leaving for home, he got into an altercation with Billy Straubenzie, a Vancouver player, whom he had ruled off twice during the match, and one word led to another until Gray, who was behind a high board fence in the heart of the business section, and with a crowd of "newsies" looking on, indulged in a fight to their content. Gray was badly cut up around the face, while O'Brien also carried a discolored optic. Saturday's match was one of the roughest ever played in British Columbia, and every effort will now be made to have disinterested officials from Vancouver Island act as referees of future matches. At one time eleven men were on the fence. Altogether six fights occurred, and several players were seriously cut up around the head.

The Young Toronto will practice tonight at Scarborough Beach against the seniors. All players are requested to attend.

The Tecumehs passed thru Winnipeg yesterday on their way to the coast.

Some lacrosse followers are of the opinion that Joe Lally is too severe in his rulings. But it would be a good thing for the game if there were more like him—Montreal Gazette.

And Walkerton, was played yesterday, and resulted in 1 to 0 in favor of Ingleswood.

Harrison—The Teeswater-Harrison game of the Big Three League here last evening resulted 4 to 2 in favor of Harrison. The game was well played, except Harrison to score six runs. Bat-teries—Fisher and McGuibban for Harrison; Arcott and Goode for Teeswater. Umpire—Logie of Wingham.

Fifteen Mile Race on Monday.

WINNIPEG, June 21.—Paul Acocoe of Grenfell, Sask.; Percy Sellen, Toronto, and Fred Meadows, Guelph, meet here Friday at Arena Rink in a fifteen-mile race.

Longboat and Shrubbs.

Tom Longboat and Alf Shrubbs have been matched to race twenty miles next Saturday night at the island. The event will start at 8.5. This is the third and deciding event of the kind between the two. Longboat earned the decision at the Marathon distance; Shrubbs won at fifteen miles.

R. C. B. C. Bicycle Run.

The R.C.B.C. members and friends were out in the force to the first of the bike run, which was held Sunday morning to the Halfway House, no less than 25 riding down on wheels, while 45 more took the cars. The boys had a fine time, and everyone is looking forward to the next run, which will be in about three weeks.

Herb Marshall will be accepted the appointment of chairman of the R.C.B.C. racing board, and the Royals are very lucky in securing such a capable man for the position.

The two-mile handicap and one-mile scratch race at the Exhibition Grounds next Saturday should be races well worth seeing. All the riders in training will be on the job. The events have been sanctioned by the C.N.W.

## CONCERNING THE QUINQUENNIAL CONFERENCE.

There has been a considerable amount of guile in the methods of the International Women's Council. Simple men bodies usually come along with a loud noise, confer for a week, and by the time public interest is sufficiently aroused to enquire what the noise is all about, they are discovered to have dissolved their sessions and taken flight in side excursions.

Women know better. They arrived a week ago and began doing business at once. People began to read about them, and it is safe to say that nearly everybody in Toronto now knows that a quinquennial conference is going on. Interest is being aroused and when people ask what it is all about they will be informed that they are fortunately just in time to go to the first meetings of the congress on Thursday.

All that has gone before is merely preparatory and preliminary. It had to do with the mere mechanics and operation of the congress proper. The congress when it meets on Thursday will furnish the spectacle of one of the most intelligent and progressive deliberative bodies in the world.

There is a certain type of citizen who objects entirely to the whole conception of women using their brains for their own betterment or the advancement of the world. He may be relegated to the ranks of the unreasonable and chained up to the railings of prejudice with the more pronounced specimens of the suffragette.

The Women's Congress has adopted the loftiest platform known to man. Their motto is the golden utterance of many millenniums, "Do unto others as ye would have them do unto you." They have no dogmas and no prejudices. Their domain is clearly marked. They seek to force their opinions on no one. With a noble humility they submit—say, they stoop to conquer.

It appears to them that there is only one weapon to which men are finally amenable, and they know that only some men are amenable to that. They appeal to reason and rest on that appeal.

As one of their eloquent speakers has said they represent one-half of the divine brain and one-half of the divine heart. It might well be added that they represent also more than half of the divine beauty. It is one of the peculiar prejudices men have formed that wise and studious and thoughtful women must be unattractive. Nothing could be further from the fact. In mere looks the women's congress will compare favorably with any gathering of men ever assembled together.

In the nine sections into which the congress is sub-divided elaborate treatment is given to art, education, health and physical training, industrial matters, laws concerning women and children, literature, philanthropy, professions and careers for women, social work and moral reform. It may be added that the deliberations of the sections are by no means confined to women, and quite a number of men's names appear on the agenda paper.

Apart from the many clever Canadian women in attendance the presence of the most brilliant women of the twenty-three countries represented at the congress should attract the sympathetic interest of Canadians.

With the cosmopolitan interests involved in the development of the Dominion, Canadians may easily discover in the estimates and conclusions of the congress much that will be of the greatest value to their newly springing nationality.

## THE LATEST \$10,000,000 TRUST.

"The People are Asleep" is the reason given by a writer in Hampton's Magazine to account for the national carelessness in dealing with the immense natural resources of the country, upon which, before many years, the people will be relying for their very existence.

A ten-million-dollar trust to control the production from air of the nitrogen fertilizers that are now regarded as essential to successful agriculture is the immediate cause of renewed alarm. The power for this manufacture is to be generated by water, and these powers are rapidly being monopolized. The new trust seeks a valuable water franchise at Muscle Shoals, Alabama. The trust based upon this franchise would control the only practical method by which the yield of wheat per acre can be increased.

"The trust will give us better crops if we pay it whatever it chooses to charge us," says John L. Mathews. "Water power is going to regulate the price of bread, and unless we cease alienating our power sites and allowing the monopoly its way we will have no option but to pay tribute on everything we eat."

The American Cyanamid Company, the trust in question, in its prospectus has no hesitation about stating the value of the franchise, "to which," it declares, "every loaf of bread, every pound of beef, every manger of oats, will necessarily pay tribute."

Very few people comparatively study history, and very few therefore think much of the long struggles the human race has carried on to secure the several measures of freedom the race now enjoys. And people forget that eternal

vigilance is not to be confined to military matters only. As fast as the enchainment forces that shackle the race are conquered, a new struggle begins to fasten new fetters on the conquerors. Freedom from feudalism had to be followed by a struggle for individual and political freedom. Political freedom is found to be useless without educational and intellectual freedom. Given mental freedom and the powers thus engendered are speedily enslaved in the service of unscrupulous wealth, with power greater than that of the barons of old, and the same whip of bodily need and appetite. The next struggle will be a new development of moral courage which will not fear to give equal opportunity to all who can avail themselves of it, and which will preserve the balance between the individual and the state.

In Ontario the problem is fortunately well understood. The policy of Sir James Whitney's government in reserving all water powers over 150 horsepower for the benefit of the public must be commended as fair and equitable. The individual is given ample opportunity for his personal enterprises with the smaller powers.

It must be the duty of our citizens to maintain an unceasing sentinel vigilance on the rights now secured in water powers still undeveloped, so that the fuel of the future may be secure to our posterity, even though we may not have to depend upon it in our own generation.

## THE CZAR'S VISIT TO COWES.

Whatever grounds the Labor-Socialist party in Britain may think they have for objecting to the visit of the czar, nothing can excuse or extenuate the violence of the language employed by Messrs. Kier Hardie and Grayson.

The Russian Emperor may have again passed under the domination of the reactionary section of his advisers and have lost through the strain and stress of his unfortunate position whatever inclination he once displayed to adopt a more liberal form of government. For this cause may be justly due; but it is censured punctured by a large admixture of pity. His place and responsibilities were none of his seeking; if he has not the strength of character, the will power and the supreme ability necessary to break away from inherited traditions, it is his misfortune rather than his fault. And nothing is more pitiable and fatal than a weak despot overweighed with the cares of a country struggling to be free.

Nevertheless, despite all disadvantages, there is reason to believe that progress is being made with constitutional government, and that the cause of Russian reform will be better helped by a sympathetic attitude on the part of free nations than by any extreme course, such as that advocated by British Socialists. Russia cannot be driven out of Europe. It is one of the great European powers, its policy may at any moment be fraught with tremendous consequences. It is surprising that the British party which continually declares for peace at any price, should be the very one to counsel action inevitably leading to war. Humanitarian motives do not justify a policy bound to create greater evils than it seeks to remove. British statesmen have a difficult part to play, and none can accuse the present government of indifference to the cause of suffering peoples. Their hands are not strengthened by violent harangues which owe whatever notoriety they attain to the fact that they are delivered by members of the British Parliament.

## NOTHING TO EQUAL IT

Delegates Delighted With Hospital for Sick Children.

A number of prominent members of the Women's International Council visited the Hospital for Sick Children on College-street and the Nurses' Home on Monday. The ladies were shown over the hospital by J. Ross Robertson, chairman of the board of trustees, and Miss Potts, assistant superintendent. Mr. Robertson took the party thru one of the wards, after explaining to them the aims and work of the institution, afterwards taking them over the hospital building and giving them an idea of the equipment. From the hospital the party went to the Nurses' Home, which they inspected from kitchen to roof garden.

Dr. Tibertius, who was the first woman doctor in Berlin, and who has now retired, expressed the opinion that the hospital and home were unexcelled. "I have never seen anything to equal it," she said, "and I have seen some hospitals."

### O.L.C. COMMENCEMENT HAS PLEASING FEATURES

Large Number of Guests Entertained at Whitty-Young Ladies in the Honor List

WHITBY, June 21.—(Special).—The picturesque old village of Whitby, Ontario, was the scene of a gala day for the students of the Ontario Ladies' College when the commencement was held to-day. A special train brought about 100 from Toronto.

The guests were welcomed by Dr. Hare, the principal, at the entrance of the college grounds, and they were received by Miss Burkenholder, the lady principal, at the entrance to the concert hall. The choir class of the college, all dressed in white, were seated upon the platform. As the guests entered, the class, under the direction of Mr. Arthur Bright of Toronto, rose and sang a welcome song. A splendid program was then given by the pupils, including vocal solos by Miss C. Ahern, Miss Alice Galt, Miss Caracaleni, Miss J. O'Hara, Miss A. Robertson, Miss Irene McDougall, and violin by Miss K. Archer, Miss E. Kalma, Miss D. Alpe, Miss Hazel Van Orman, and piano selections were given by Misses Dobson, Mutton, Binns and Code. Miss K. Wright was the organist, Miss Lillian Smith, the accompanist, while J. W. F. Harrison was the musical director.

An enjoyable garden party was held on the lawn, after which the guests were conducted thru the charming rooms, where specimens of the students' work were on exhibition.

The evening was devoted to presentation of prizes won by the scholars. The graduates, Miss George B. Abbott, Miss Mary B. Chambers, Miss Geraldine Merritt, Miss Emily N. Wright, Miss Clara Yonker, Miss Jennie O'Hara, Miss J. A. Caracaleni, Miss S. M. Sutherland, Miss S. A. Montgomery, Miss Edna P. Verity, Miss L. P. Webster, Miss Rosa Brethaupt, and Miss Norma Pinnore, were presented their diplomas by Mayor Oliver. The graduation sermon was preached by Rev. J. A. Lewis, B.A., of Oshawa.

Certificates were presented for Junior Bible to Misses Violet Hodgson, Geraldine Merritt, Opal Miller, Mabel Patrick, and Mary Sewell.

Commercial courses: to Misses Gertrude Crawford, Mabel Ironside, Katherine Pritchard, Irene Valentine, Irene Worden, Hazel Beach, Clara Robertson and Gladys Turnbull.
