GENERAL STRIKE IN MINES OF RUHR; ALL REPORTED CLOSED

Sympathetic Action With Dortmund Workers, Whose Strike Gains Ground—Berlin Alarmed at Communist Report.

(Canadian Press.) Berlin, May 25.—Special despatches from the Ruhr today report that work has ceased in all the Ruhr mines. The correspondents assume that a general strike of the miners has been declared in sympathy with the Dortmund strikers. Dortmund, May 25.—The strike here continues to gain ground. Four of the most important of the workmen's unions have issued an appeal to the workers to remain loyal to their unions and the German Government. The Germans yesterday used a mine thrower against one of the locks of the Rhine-Herne canal. London, May 25.—The German Government is alarmed at reports that armed communist bands are marching on Essen, says a Central News despatch from Berlin this afternoon. It has asked permission of the French authorities to send forces of German police from the occupied districts to Essen and Gelsenkirchen.

FRENCH CABINET CRISIS SOON ENDS

Government Resigns on the Question of Trial of Communists

President Millerand Handles Situation Well, Refuses to Accept Resignation; All Over in Half Hour.

(Canadian Press.) Paris, May 25.—President Millerand, yesterday refused to accept the resignations of Premier Poincare and his colleagues in the cabinet. The desire of the cabinet to resign followed the refusal of the Senate to proceed with the trial of Communists charged with illegal acts against the republic. M. Poincare interpreted the vote of the Senate as an expression of want of confidence in the cabinet. The crisis ended as quickly as it came. To be exact, it lasted a half hour.

The Senate, alarmed at the consequences of its refusal to proceed with the trial of the Communists, will take the first opportunity of giving unequivocal endorsement to the Premier's general policy, and the Premier, on his part, will insist that this endorsement cover his action in repressing Communist activities. Marcel Cachin and the other defendant charged with illegal acts against the state are to be tried by the same court as soon as the examining magistrate has prepared the indictment. Premier Poincare's position remains unchanged, for he will undoubtedly get another vote of confidence in the Senate and probably in the Chamber of Deputies also. The person who comes out of the crisis as victor is President Millerand, whose reputation for "horse sense" has been greatly enhanced by the emergency. He informed Mr. Poincare that if the Premier persisted in his determination to resign, he would avail himself of a rarely used prerogative and send a message to parliament in order to give the country an explanation of why a Government, enjoying the unswerving support of a majority of the citizens, should withdraw at a moment when the vital republican question was approaching a decisive stage.

Socialist's Criticism. Paris, May 25.—Deputy Vincent Auried, speaking for the Socialist group at the resumption of the Ruhr debate in the Chamber of Deputies yesterday, belittled the results of the mission to Belgium. During the four months, he declared, France had obtained only about thirty million francs worth of products from the Ruhr, while in the same period last year she received from Germany products worth several hundred million francs. He asked Premier Poincare where he expected to find any profit in such a transaction, and he criticized the head of the government for not receiving Karl Bergmann when he visited Paris with German proposals in January.

Senator's Advice To College Girls

New York, May 25.—Girls should not marry until they are able to support their husbands, so U. S. Senator Woodbridge N. Ferris of Michigan advised the girls in the graduating class of the Packard Commercial School, at the commencement exercises last night. "You have all" he said, "seen your mothers beg for money from your fathers by buying things they want from a safety pin to a gown. If you have first learned to support yourself and your husband, you will never need to beg. You can just remind your husband that you can at any time go out and earn your own living and he will get down on his knees to urge you to remain in the house."

CANADIAN WRESTLER WINS

Saskatoon, Sask., May 25.—Jack Taylor, heavyweight champion wrestler of Canada, successfully defended his title against Fred Grebner, Iowa, here last night. Taylor got the first fall with a cradle lock after 65 minutes of grappling. Grebner got the second with a toe hold and Taylor the third with a body scissor and arm bar.

MRS. STILLMAN HOPES FLO LEEDS WILL WIN

New York, May 25.—Mrs. Anne Urquhart Stillman hopes that Mrs. Florence Leeds will win in her controversy with James A. Stillman, for support of the son born to Mr. Stillman and Mrs. Leeds, but for Mrs. Leeds, Mrs. Stillman has "nothing more than pity," says a despatch to the Times from Grand Anse, Que.

PREPARING TO VIEW ECLIPSE

Los Angeles, Cal., May 25.—(A.P.)—When the shadow of the moon ends its diagonal dash across the Pacific September 10 next and strikes the island near Santa Catalina, Island here, pilgrims from all parts of the world will be on hand to watch the first total eclipse of the sun visible in the United States since 1918.

Chinese Government Throes Bands Into Panic—International Commission to Act.

Shanghai, May 25.—Panic seized the bands of Putschists yesterday as Chinese government troops launched a determined advance against the putschists to force an issue in the international problem involving the kidnapping of foreigners from the Shanghai-Peking express.

EMPIRE DAY EVENTS ACROSS THE ATLANTIC

London, May 25.—(Canadian Press)—The celebration of Empire Day lent an added interest to the last day of the visit to Belfast of the first battle squadron, with Earl Beatty, admiral of the fleet, in command. At a luncheon given in his honor, he said in times of peace the British navy was an ambassadorial service, carrying not only security but strengthening the link between the far flung parts of the Empire.

SOVIETS PUT TO DEATH 15 NOBLES

Moscow, May 25.—Fifteen persons, all of high princes, gentlemen or nobles, have been executed as a result of the discovery of an active counter-revolutionary plot in the Soviet republic of Georgia, says a despatch from Tiflis to the Pravda. The names are not given.

Halifax Horse Races

Halifax, N. S., May 25.—The opening of the 1923 horse racing season at the Halifax speedway yesterday was attended by many. In the three-minute class Wilfred C. won three straight heats. Len R. Ackerly, Virginia Harvester made her debut on the local track and captured second money. The 1:24 trot and pace required five heats.

Roll of Tens Cast Into the Deep After Tests as to Genuineness—Now He Finds That Three He Saved are Good.

New York, May 25.—That Michael J. Sullivan, general manager of the Canadian Shipping Co. of Salem, Mass., three overboard from the liner Homerick \$1,500 perfectly good dollars in the belief that they were counterfeit, is the belief of U. S. secret service operatives.

Kelly and Costello In Races Tomorrow

Philadelphia, May 25.—Visiting college and club crews gathered here today for the American Rowing Association regatta, to be held tomorrow on the Henley course on the Schuylkill River. Thirty-eight college, school and club crews are entered in the thirteen events.

LARGE SEIZURES OF DRUGS IN N. Y.

Sent as Smoked Fish and Incandescence Lamps—Part was for Montreal.

Geneva, May 25.—The Spanish and Canadian Governments supplied the secretary of the League of Nations with the details of recent seizures of 900 pounds of morphine, disguised as smoked fish and incandescence lamps, which were shipped from Holland destined for Montreal, and were legally intercepted by the U. S. It is added that the U. S. troops stationed at Pien Pien will investigate the bandit situation.

BRITISH WAR VESSELS TO BARDANELLES

(McDougal & Cowan's Private Wire)—London, May 25.—Admiral Brock, commanding the British Mediterranean fleet will leave Malta base today on his flagship en route to the Dardanelles. A flotilla will follow tomorrow. This is the latest development in the Greek-Turkish situation.

New Cardinals Receive Red Hat

Rome, May 25.—The two cardinals appointed by the Pope on May 23, received the red hat from the Pontiff at a public consistory today. The new cardinals are Cardinal Luigi Siccardi, assessor of the Consistorial Congregation, and Cardinal Giovanni D'Ercole, assessor of the Roman Rota.

AN ECUMENICAL COUNCIL PLANNED

Rome Report of Intention for 1925—All Archbishops and Bishops of the World to Attend.

Rome, May 25.—An ecumenical council will be convened by the Vatican on the occasion of the "holy year" of jubilee which is to be celebrated in 1925, according to a report in circulation in reliable Vatican quarters. Only nineteen ecumenical councils have been held, the first in Nicea, Asia Minor, in the year 325 A. D., and the last in July 1870, in Rome.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I learn that there are 1,804,871,631 people living on the earth."

"I'm glad they didn't overlook that last fellow when they were taking the census. Nothin' like havin' things right."

"But think of it," said the reporter, "I know you're nearly two billions. So are you. Makes us feel small—does it not?"

"Like one midget among all the other midgets in a swamp," said Hiram. "Yes, sir—we're midgets."

"What an excellent idea," said the reporter, "for the ancient query—'What is that Thou art mindful of him?'"

"An' do you—'that thinks the hull universe was got up fer a stage fer him to show off. They're so proud an' they're so proud they hardly look at common folks. An' they're just midgets like the rest of us. I think the Lord give me what they call a sense of proportion—so's I kin see how small a critter I am."

"That's as sure as you live," said Hiram, "but a lot of us don't know it—By Hen!"

Benefits of Great Lakes—St. Lawrence Plan to New England.

Chicago, May 25.—The first of a series of conferences planned for outlining the advantages to the New England States by construction of the Great Lakes-St. Lawrence waterway was held here yesterday by representatives of New England industrialists, the Great Lakes-St. Lawrence Tidewater Association and the American Farm Bureau.

HOLD 12 HOUR DAY IN THE STEEL INDUSTRY

New York, May 25.—A committee of the Iron and Steel Institute appointed recently to investigate the feasibility of abandoning the 12-hour day in the steel industry, reported today through E. H. Gary, chairman of the U. S. Corporation, that it could not at this time recommend such a step.

GENERAL PLAN TO TRY TO SWIM THE CHANNEL

London, May 25.—English swimmers are preparing to make another attempt this summer to swim the English Channel. One of the London newspapers has renewed its price of \$5,000 to the athlete accomplishing the feat. Several British and French swimmers, including several women, are already in training on the British coast.

FREE STATE LOAN OF TWENTY-FIVE MILLIONS IN U. S. RUMORED

Wall Street Money Men Interested in Report But Admit Nothing Definite—Loan Declared Probable

New York, May 25.—Although Wall Street bankers and heads of investment houses exhibited considerable interest today in reports that negotiations were under way for a U. S. loan of \$25,000,000 to the Irish Free State, none would indicate that his company had been spoken to on the subject.

It was pointed out, however, that such a loan was probable and that there was little doubt that Great Britain would display a sympathetic attitude in the matter. For obvious reasons, it was said, it would be preferable to float the loan in this country rather than in Britain.

It is known that the expense of maintaining the Free State army has been a heavy drain on the finances of the new dominion. Bankers said also that they believed the loan, if offered in America would be favorably received because Ireland has no war debts, no inflated currency and a great deal of valuable security.

Wall street reports were that the debt would be secured by Irish customs.

CONNIE MACK'S MEN WHIP YANKS

Baseball Fans Will Anxiously Watch Athletics

The Giants Get a Firmer Hold on First Place in the National—It Looks Like Sale of the Red Sox.

(Canadian Press.) New York, May 25.—For the first time in nearly a decade the interest of the baseball world is concentrated today on Shibe Park, Philadelphia. All season Connie Mack's Athletics have been demanding attention, and yesterday they got it personally from 20,000 Philadelphia fans who filled the park.

Having beaten the New York Americans to 6, the Athletics will be watched by all baseball fans for some time. The home team's victory was also beneficial to Cleveland, which team opened a series in St. Louis with an easy win, 6 to 1, and gained Detroit, defeated by Chicago, also by the score of 6 to 1.

Should the Athletics make a clean sweep with the Yankees, which is impossible, they will be on the edge of first place.

Loss to the White Sox jarred the Tigers from a third place tie with Cleveland.

By defeating Boston 7 to 1, Washington got into position for edging into the first division should the Tigers stop again.

While the Yankees were ending their winning streak of nine games, the Athletics were extending their commanding hold on first place in the National by beating the most recent Philadelphia Quakers 8 to 2. Calcher Snyder, the spinster of the team, got a first homer of the year in an 11th-inning triple and accounted for five runs.

St. Louis, May 25.—George Sisler, who has been out of the St. Louis Americans line up this season on account of eye trouble, said today he is considering a taking up golf in order to keep his place in the Detroit lineup. The game was decided when Joe Sewell knocked a home run off Shocker with two men on base in the sixth inning.

Detroit, Mich., May 25.—Emery Rigney, Tiger shortstop, was on the field in uniform yesterday and it was indicated that he will soon be able to resume his place in the Detroit lineup. Rigney and Bobby Jones, who fractured two bones in his right foot in sliding home during the Yankees series, has to a certain extent organized the Tiger inner defence. Rigney has been in several weeks. Jones is still on crutches and may not be able to take part in any games played on the Tigers' eastern pilgrimage.

GEDDES PLACED IN DARK ROOM; EYES AFFECTED

Washington, May 25.—The British Ambassador, Sir Auckland Geddes, has been confined to a dark room by order of his physician because of a serious affliction of the eyes, the result of a gas attack during the world war.

Heretofore, however, he had recovered speedily from these attacks.

Newspapers has renewed its price of \$5,000 to the athlete accomplishing the feat. Several British and French swimmers, including several women, are already in training on the British coast.

THE MISTAKE THE ROMANS MADE

The Roman soldier stood supreme in fighting power, so long as he lived on simple, natural foods. When he took to pampering his palate, he became as other men, full of ills and weakness. Perhaps he was not to blame, for in those days strengthening foods meant unpalatable eating. But a delightful, vigor-building food has been prepared for us that is at the same time a treat to the palate in any of the many forms in which it may be served. Roman Meal is that food.

of the steel trade. Occupation of the Ruhr by the French, however, was followed by a rise in the price of coal and coke which might have conferred a passing advantage to the coal mine owners, but had caused a considerable loss to the engineering trade, including shipbuilding. Unless there was a definite change soon the coming year was unlikely to be different from last year when very few branches of the industry were remunerative.

MANY KILLED BY LONDON TRAFFIC

London, May 8.—(A. P. by Mail).—More persons are killed by traffic accidents in the streets of London in a year than passengers on the whole of the railways in Great Britain in a similar period. During the last year 805 persons in London were killed by automobiles and motor trucks, 68 by motor omnibuses, 99 by horse-drawn vehicles, 56 by trolley cars, and 22 by bicycles.

The major number of accidents do

not occur at congested points, such as Trafalgar Square, Oxford Circus, or the Bank, where traffic is specially regulated.

The day takes more frequently in the main arteries toward the outer suburbs, where motor drivers are inclined to be less careful in negotiating crossings and corners, and where pedestrians, particularly children are less vigilant in crossing roads.

The congregation of the Ludlow street Baptist church, or which Rev. W. A. Robbins is pastor, has decided to effect repairs to the church and to make some alterations, the total cost being in the vicinity of \$6,000. Work to be undertaken this year will include:

RECENT DEATHS

Miss Sarah E. Brayley. Many friends will regret to learn of the death of Miss Sarah E. Brayley which occurred on Wednesday at the residence of her brother-in-law, J. Cardy Johnston. Miss Brayley had been in failing health but the end came suddenly and was a great shock to those who knew and loved her for her beautiful and unselfish character. She leaves three brothers, John, Robert and J. Alexander of this city, and two sisters, Mrs. J. Cardy Johnston of this city and Mrs. Frederick C. Nevers of Lower Jernag, Queens county, N. B.

China. She had been in ill health for some time.

FIFTY THOUSAND WOMEN

would comprise a vast army yet that is the number who have replied to a questionnaire recently sent out by the Lydia E. Pinkham Medicine Co. of Cobourg, Ont. Ninety-eight out of every 100 letters from these women contained positive assurances that they have been benefited or restored to health by taking this old-fashioned root and herb medicine. This is most remarkable evidence of its power over the ills of women. Therefore, with 98 chances out of one hundred that Lydia E. Pinkham's Vegetable Compound will overcome such ailments for you why should you continue to go through life in pain and suffering?

FUNERALS

The funeral of Mrs. William J. Brown took place yesterday afternoon at 2:30 o'clock from the residence of her father, George C. Weldon, 216 1/2 Rockland road. Services were conducted by Rev. R. G. Fulton. Inter-

Mrs. James Desmond. The death of Elizabeth, widow of James Desmond, occurred yesterday at her residence at Lakewood and has brought great sorrow to a wide circle of friends. Although Mrs. Desmond had been in poor health for about a year, her condition was not regarded as serious and her fatal illness was only of one week's duration. She was widely known and was held in the highest esteem. Sincere sympathy has gone out to the bereaved. She leaves one son, T. Edward; two daughters, Miss Juliet of the office staff of the County Hospital, and Miss Annie, at home; one brother, Jeremiah Donovan, and five sisters—Mrs. T. Desmond, Mrs. Annie Boyle, Mrs. William Walsh, Mrs. Margaret Lawlor and Miss Hannah Donovan. She was a daughter of the late Lawrence and Johanna Donovan. The funeral will take place on Saturday morning at 9:30 from her late residence to St. Joachim's church.

Mrs. S. T. Lamb. Mrs. S. T. Lamb of Perry's Point passed away Wednesday evening after a lengthy illness. She survived by her husband, two sons, R. Benwick of Kingston, Kings County, and J. Murray of this city, also two grandchildren.

Dr. M. May Austin. Dr. M. May Austin died yesterday morning at her home in Halifax. In 1916 she returned home after spending ten years as a medical missionary in

(Continued from Wednesday.)
"They're going to keep the money, Bassett."
Bassett straightened and stared at him.
"Don't be a damned fool," he protested. "It's your money. Don't tell me you're going to give it to suffering humanity. That sort of devil makes me sick. Take it, give it away if you like, but for God's sake don't stir your job."

To "Break In" New Boots

Here is a pointer. If your new boots hurt in spots, immediately before you put them on polish them with Packard's BLACK-O (Tan-O for Tan) applying liberally to the leather and rubbing well in. The leather is softened and will, when you put the shoe on, expand where the pressure is and comfort is assured. The polish of BLACK-O is remarkably black and lasting, and its use preserves the leather.

This is often asked by the woman accustomed to wearing a Wonderlift Corset when she thinks of what would happen if she couldn't buy it any more. So much of her health and happiness depends upon it. Its comfort and protection against ill health; and the certainty of a good figure are something she could not buy with money. That is why the Nemo Wonderlift is the greatest of all corsets, and why every woman owes it to herself to try a pair if she does not already know about their beneficial results.'

him again. And in his inner secret soul he knew that she was right. He had thought that he had buried that brief madness, but there were times when he knew he lied to himself. One fiction, however he perpetrated it, had not been infatuated with her. It was only that she gave him during those few days something he had not found at home, companionship and quiet intelligent talk. She had been restless. Nina was never restful.

He bought a New York paper daily and read it in the train. The Valley had opened to success in New York, and had settled for a long run. The reviews of her work had been extraordinary, and when now and then she

gave an interview, he studied the photographs accompanying it. But he never carried the paper home. He began, however, to play with the thought of going to New York. He would not go to see her at her house, but he would like to see her before a metropolitan audience, to add his mile to her triumph. There were times when he was fully determined to go, when he sat at his desk with his hand on the telephone, prepared to lay the foundations of the excursion by some means, however, he never went further than the preliminary movement. But by October he began to delude himself with a real excuse for going, and this was the knowledge that by a strange chain of circumstance this woman who so dominated his secret thoughts was connected with Elizabeth's life through Judson Clark. The discovery, communicated to him by Walter Wheeler, that Dick was Clark had roused in him a totally different feeling from Nina's. He saw no glimmer of great wealth. On the contrary, he saw in Clark the author of a great unhappiness to a woman who had not deserved it. And Nina, judging him with deadly accuracy, surmised even that.

That he was jealous of Judson Clark, and his part in the past, he denied to himself absolutely. But his recentment took the form of violent protest, to the family, against allowing Elizabeth to have anything to do with him if he turned up. "He'll buy his freedom, if he isn't dead," he said to Nina, "and he'll come travelling back here, with that lost memory bunk, and they're just fool enough to fall for it."

Many Fatalities On The Holiday

Five Lose Lives in Fires in Province—Three Die in Montreal Fire—Body of Man Found in Sydney.

The Richard Manufacturing Company mill cook house at Richardsville, near Campbellton, was completely destroyed by fire yesterday and two men were killed and seven injured during the blaze. Joseph Diocette, of Lily Lake, and Nelson Johnson, of Valdemour, are the two dead. Sleepers in many parts of the building were able to escape but in other parts they were forced to jump from a second storey window. There will be an inquest tonight.

Ernest Currie, of Andover, lost his life yesterday morning in a fire in the upper flat of his home. He rushed in to get some papers and was apparently overcome by smoke. His son, Frank, made a gallant effort at rescue but was forced to stop by the flames. The building was burned to the ground. Mr. Currie is survived by his wife and five children.

Mr. and Mrs. William Magwood, of Glasson Head, near St. Stephen, lost their lives early yesterday morning when a fire broke out in their home. Mrs. Eli Jacobs, a blind woman who resided with them, was found sitting in the yard when the first people reached the scene. Mr. and Mrs. Magwood slept in the upper storey and it is believed they were trapped there. Mr. Magwood's body was found later.

Three in Montreal. A blaze which destroyed the plant of the sash and door factory and saw-dust refining plant of the Canadian Sawdust Company, in the northeast end of Montreal, on Wednesday night, took a toll of three lives and caused injuries to several others. Leo Paul Roussin and Augustus Lavardure were burned to death while Henry Maher died shortly after the fire, in the hospital.

The disappearance of James MacDonald, who had been missing since April 20, was cleared up in Sydney yesterday when his body was found on the roof of a power house at the British Empire Steel Corporation plant. A coroner's jury brought in a verdict of accidental electrocution.

Two well known miners of Sydney were killed on Wednesday night by a fall of about ten tons of stone which completely buried them. They were Joseph Handrigan and Dan MacDoughall and were working in No. 14 colliery at New Waterford.

Mrs. Oiler Brunet, of Verdun, Que., was fatally burned yesterday morning in Montreal when her nightclothes caught fire while she was looking into the stove at her home. She died in the Western Hospital shortly after the accident.

JURY DISAGREE

In the County Court on Wednesday, before Judge J. R. Armstrong, the jury disagreed in the case of The King against John Hartley, charged with a statutory offense. Evidence was given by Stanley Wecliar, Mrs. Daisy Media Police Officer Melnis and Coughlan, Detective Saunders, Miss Nearn, William Baxter and the accused. The jury stood nine to three for conviction. The

Delmonico's Joins Shades of Old New York

Handful of Patrons Attend Last Night of One-Time Centre of Social Life as Its Career Quietly Ends.

(New York Times) Delmonico's faded quietly out of the metropolitan scene last night, full of years and respectability, a victim of the younger generation. The staid restaurant at Fifth Avenue and Forty-fourth Street met the end with becoming dignity and colors up, the final dinner being as expertly served as any that preceded it in the nearly 100 years of Delmonico's history.

No unusual circumstance marked the farewell. Fewer than three-score diners were seated in the Fifth Avenue room, under the widely noted crystal chandeliers when the orchestra completed its program at 8.45 by playing "Auld Lang Syne." These applauded decorously. The men's cafe was virtually deserted. Several of the older patrons stopped on their way out to say good-bye to Charles Gross, the head waiter.

That was all. When George McLean, the doorman, who has looked up Delmonico's every night for the last twenty years, shot the bolts in the main entrance at 11 o'clock the only witnesses were Thomas J. Furey, the general manager, and a few tired waiters waiting for their final pay envelopes. There was an atmosphere of disol-

Freckle-Face

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of Othine—double strength—from any drugist, and a few applications should show you how easy it is to rid yourself of the hoarse freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine, as this strength is sold under guarantee of money back if it fails to remove freckles.

Terrible Headaches And Dizziness

Miss S. Raphael, 287 Kenilworth Ave., N. Hamilton, Ont., writes—"I used to suffer from terrible headaches and dizziness. Last summer, while I was walking up a side street, I got dizzy and fell in the middle of the road. An old gentleman helped me to get to where I was going and told me to get a vial of Milburn's Laxa-Liver Pills. Well, I did, and they did wonders for me. I don't know how to thank you, as I don't get headaches or dizzy spells any more."

When your liver gets sluggish and inactive your whole health suffers, and the only way to keep well is to keep the liver active and performing its proper functions by using Milburn's Laxa-Liver Pills.

CHEMIST DELVES DEEPER INTO SECRETS OF HAFNIUM

Copenhagen, May 2.—(A. P. By Mail)—Professor Nils Bohr, the discoverer of the new element, hafnium, has now determined its atomic weight. The element, which was named in honor of the city of Copenhagen, is still not completely isolated, but the pro-

cessor's efforts in this direction are nearing completion. The collection of the element with hafnium, a kindred element, has made investigation exceedingly difficult, but Professor Bohr has been able to ascertain that the atomic weight lies between 179 and 181. Five of the 92 elements existant remain to be discovered. As a result of his experiments Professor Bohr has discovered that haf-

niun is impenetrable by Rontgen-rays. He asserts that it has the good qualities of bismuth, which is used in connection with Rontgen-ray experiments, but none of the bad ones, and the discovery is expected to be of considerable value to medical science.

Return To Steam Power; Apply For Increased Rates

Application of Woodstock Power Co. Heard by Public Utilities Commission—Rate For Street Lighting and Pumping Station Doubled.

The N. B. Public Utilities Commission, in session here this morning, heard an application from the Woodstock Light & Power Company for permission to increase its rates for the supply of electric current for power, street lighting and commercial lighting.

After some evidence was taken, an adjournment was made until next Tuesday when the case will be resumed in the Woodstock Court House at 10 a.m. The company was represented by the president, Hon. F. B. Carvell, K.C. and Secretary-Treasurer, Bailey. Mr. Carvell, however, did not appear in legal capacity but as an officer of the company. J. C. Hazlett, town clerk, and F. J. Rutledge, town manager, were present in the interests of the town of Woodstock.

The application asked that the company be permitted to double the rates for water pumping and street lighting, which at present were two and four cents a kilowatt hour, respectively, and for an increase of about fifty per cent in the commercial lighting rate which was ten cents at present. The rates were intended as a temporary measure while steam power was being used for the production of current, the hydro works having been damaged by recent floods. In the evidence submitted by the company, it was contended that even with the increased rates, a loss of \$800 to \$700 a month in operation would be suffered.

The company also asked for permission to double the amount of power supplied.

DISAGREE, THEN SAY GUILTY IN THOMPSON CASE

Jury Recommendation of Clemency in the Matter of Roy Thompson.

In County Court, this morning, before Judge Armstrong, the case of Roy Thompson, charged with stealing \$81 from the residence of Leland Goldsboro, was taken up. Evidence similar to that given in the Police Court was offered by Leland Goldsboro and Detective Sergeant Detective Power, Detective Biddiscombe and Miss Bessie Netman for the prosecution and the defendant and his brother, Charles Thompson, for the defence. The jury, after being out for some time, returned at 12:30 o'clock to report a disagreement, eleven for conviction and one for acquittal. They were sent back by the judge and later returned with a verdict of guilty but recommended for clemency. W. M. Ryan appeared for the crown, and G. Earle Logan for the defence.

Girl May Be Sent Back to Canada and Man to England

New York, May 25.—Her failure to prosecute a complaint she is alleged to have made a few days ago against Albert Fray, 26, of the city, caused the immigration officials at Ellis Island to be puzzled. Yesterday she was turned over to the immigration officials at Ellis Island by Magistrate Doyle, who requested that she be sent back to Canada, she having been reported missing from home on April 20. At the same time the magistrate said he would ask that Fray, who had been in the U. S. but three months, be deported to England, where he is alleged to have a wife and family.

Detective George O'Connor of the Missing Persons Bureau testified that he received word from the police of Toronto about the missing girl and traced her to the home of Fray. She charged at the time, the detective told Magistrate Doyle, that she had been attacked by Fray, whom she had met three months ago while they were employed in a factory at Toronto.

SPANISH LINE PUTS BAN ON U. S. Orders the Discontinuance of Sailings Because of Order Against Liquor.

New York, May 25.—The Spanish Royal Mail Steamship Line, operating between Barcelona and New York has ordered discontinuance of all U. S. sailings, so Luis Liso, legal agent for the company, announced last night. He said the discontinuance is because of the court decision forbidding foreign vessels from bringing liquor into U. S. territorial waters.

Enough for Medicine. Washington, May 25.—(Canadian Press)—Indications were given at the treasury yesterday that the new liquor regulations being framed because of the recent supreme court ruling will not conflict with international laws. It was said that advantage would be taken of the medicinal clause in the Volstead Act and that, where foreign ships carry rations of liquor for the crews, these would be allowed instead of the three mile limit if placed in the custody of the ship doctor.

CANOE UPSETS; MORNA RESCUE

Two young men, Churchill Godard and Russell McConnell, had a very exciting time last evening at Morna when a canoe in which they were paddling upset and threw them into the water. Their rescue was largely due to the presence of mind of four other men, Herbert Miller, Walter Miller, James S. Nell and Harold Scott, who managed, after considerable trouble, to bring the two canoeists to shore in a rowboat.

Some Causes of Complaint About Pasteurized Milk

Board of Health Deals With Matter in Statement—Advice to The Housewife.

(Board of Health Statement) Saint John is now supplied with pasteurized and clarified milk from four milk plants, all of which are well equipped with up-to-date machinery for producing an absolutely clean, sweet milk free from any of the many contagious diseases, producing bacteria, but in spite of this the Board of Health have received complaints from house consumers that this milk has been sour.

These complaints have practically all been investigated, and we have found a number of reasons why such have been made. In some cases the trouble has been due to the dealer who delivers the milk; in other cases we have found the trouble was caused by improper conditions in the home of the consumer that this milk has been sour.

So far as the dealer is concerned we found that in some cases he would take from the plant more milk than he would sell during the day or he would deliver to a store more milk than they would sell (this milk would become over-heated) with the result that he would return the previous day's unsold milk and take it out the following day without knowing whether it was sweet or sour, with the before mentioned result. This practice has been stopped, and the different milk plants have been instructed to accept no returned milk from the dealers or vendors to be sold the following day. This milk is not lost, for the cream is skimmed and made into butter and the dealer paid for same on the butter-fat basis.

The consumer, however, must devote some attention to the care of the milk when delivered, and if the following simple rules are observed no trouble will be experienced:— Milk should be taken in as soon as possible after delivery, and if none is to be used immediately, it should be wrapped in a damp cloth and placed in a basin of water, with the ends of the cloth touching the water. If there is a refrigerator in the home and kept well filled, place the bottle beside the milk so the milk will remain perfectly sweet for from thirty-six to forty-eight hours after delivery.

Milk should be well shaken before opening by turning the bottle upside down two or three times. When doing this, hold the finger grate over the bottle cap. Never replace the cap in the bottle once it has been removed but instead place an inverted glass, tumbler or cup over the neck. This will exclude the air and dust, and prevent flies or other insects from getting into the bottle. Never remove milk from the bottle until needed, and only use such quantity as is required.

If these instructions are followed you will have no trouble with sour milk.

MOLASSES QUESTION

The matter of the refusal of the railways to carry molasses in pumcheons was the subject of a letter received this morning at the Board of Trade from the Barbados Chamber of Commerce. A reply was sent calling attention to the fact that they would probably be notified officially soon of the fact that a compromise had been reached by which the railways would continue to carry the molasses in pumcheons but would increase their price for it.

POLICE COURT

Six men were before the magistrate this morning charged with drunkenness. Five of them pleaded guilty. One pleaded not guilty, but when he heard the string of indictments against him as detailed by Policeman Thomas he hastily changed his plea. Policeman Thomas said the man came into the guard room wanting a warrant for his arrest. He had been drunk at the time. The witness had put the man out of the police station and then placed him under arrest. All six were remanded.

SAYS INCORRECT REPORT

Policeman Alexander Chisholm this morning denied a report that he had fallen into a hole and been himself fallen upon by a man whom he and Policeman Duffy were arresting yesterday afternoon in Charlotte street. Policeman Chisholm said the fact of the matter was that he had stumbled slightly but had not fallen or been fallen upon.

NOT SERIOUSLY HURT.

Friends of the family will be glad to know that Gertrude McDonald, five-year-old daughter of Dr. and Mrs. S. H. Fortunately none of the wheels passed over her and a report received this afternoon said that there is no indication of any serious injury although she is still confined to bed.

REUTER'S GOING TO BIG, NEW HEADQUARTERS

London, May 25.—A new era for Reuter's news agency will open soon with the approaching transfer of the administrative department and the international and inter-imperial news department from the premises in Old Jewry street which has been the home of the agency for the best part of a century, to large buildings on the Victoria Embankment hitherto occupied by the Port of London Authority. Since re-organization of the agency was completed after the armistice by Sir Rodrick Jones, chairman and managing director, its operations have greatly extended. The company was obliged three years ago to acquire the adjacent freehold premises in Old Jewry and subsequently to lease additional offices in the new street.

SAVING BABIES OF THE COMMONWEALTH

Canada Making Good Progress in Child Welfare, Says Dr. J. W. Robertson.

New York, May 25.—(Canadian Press)—Dr. James W. Robertson of Ottawa, speaking at a luncheon of the Canadian Child Welfare Association in Canada, said that the source of a nation's greatness depended on the care given babies and the campaign begun by the Red Cross with the object of reducing the death rate for babies and children during the first year of life. He said that in Canada the rate was at least as low as that of New England. If this were true, he said, Canada would save 15,000 babies a year and in a few years the saving would more than equal the total deaths among Canadian soldiers during the war. He said six Canadian universities were giving courses in child welfare, and that he was in saving the life of a child.

SCHOOL CASE IN NOVA SCOTIA

Appeal of Teacher Convicted in Dartmouth Court of Beating School Girl, Dismissed in County Court.

(Halifax Chronicle)

The appeal of Grover Beasley, teacher in the Dartmouth school, from the decision of Judge Foster, in the Dartmouth County Court, in which he was fined \$400 and costs on the charge of James Renner, who submitted that he (Beasley) had beaten his daughter Hattie, was dismissed by Judge Wallace in the County Court yesterday and the judgment of the trial magistrate was sustained.

Hattie Renner was the first witness called. She admitted "talking in the line" and being sent in company with four other girls to the office. She also testified as to the effect of the punishment on her hands. Miss Norman, teacher of Grade VII, repeated her evidence given before Judge Foster in which she testified as to the children's absence after recess from the grade and the return of the girls, particularly Hattie Renner whose condition was cited as being very weak and nervous. The teacher stated that the child had collapsed on her way to her seat and had to be assisted there and later had to be taken from the classroom and assisted to her home.

Mrs. Renner, mother of the little girl testified as to her condition and that she (Hattie) had to miss school the rest of the day and the whole of the following day. The other pupils punished, Jean Carter, Ruby Farquharson, Florence Lynch and Dorothy Mearns also testified as to the cause of punishment and the effect it had. Florence Lynch admitted laughing in the office and also testified that she had marks on her wrist for a week following the strapping. Mrs. Lynch and Mrs. Carter also testified as to the children's condition when they reached home.

Principal Testifies.

W. C. Stapleton, principal of the Dartmouth schools, testified that Mr. Beasley was his assistant and was in charge when he (Stapleton) was not present. Miss Findlay was the vice principal of the school. Children were sent to Park school from all schools for punishment. He did not recall ever strapping a girl, the lady teachers did that, but Miss Findlay had delegated Mr. Beasley to punish girls for her. Mr. Beasley had taught three years in Dartmouth and was a satisfactory teacher.

Cross examined by Mr. Cluney regarding Mr. Beasley's appointment as assistant Mr. Stapleton could not state that the appointment was in writing. Grover Beasley stated that he found the five girls in the office when he returned from lining up the boys.

He knew they were sent to the office for punishment. He had no conversation with Renner the janitor and when he inquired of the girls their reason for being there, Number 1 and 4 laughed. He had since learned that either Number 1 or the Renner child. Cross examined, Mr. Beasley said Miss Findlay was able to punish girls but did not care to punish the children because she had in many cases taught their parents and sometimes their grandparents.

Argument of Counsel.

In summing up the case Mr. Roper, counsel for Mr. Beasley, said that if discipline was to be sustained in the schools punishment must be administered and he asked the judge to consider this in his decision.

While admitting that discipline must be upheld and the authority of the school teachers sustained, Mr. Cluney argued that the rights of the pupils should be protected and that teachers must punish sanely and not while in a fit of temper. Mr. Beasley punished the girls without investigation and because two of them laughed.

Judge Wallace in giving judgment held that the defendant in this case had sufficient authority to administer punishment to the pupils. The real question was whether the punishment inflicted was reasonable or excessive.

VICTIM TO BE SUED FOR BEING ROBBED

Dress Contractor's Action Declared Mistrial—Defendant Makes Counter Claim.

New York, May 23.—By the action of Supreme Court Justice Gieglersch in declaring a mistrial in a suit of Herman L. Flam, a dress contractor, against the Bijou Waist Company, a jury will determine soon whether Flam can be held liable for negligence because burglars entered his shop three times within a month and stole material delivered to him by the Bijou Waist Company to be made into dresses, and also several completed dresses.

The jury also decide whether the defendant should be required to pay for the labor of making up dresses from his own materials after the dresses had been stolen and Flam had insisted that his burglary insurance covered only his own property. The courts have held in such cases that the contractor must pay if they are shown to be negligent in protecting goods entrusted to their care.

Judge Gieglersch, attorney for the Bijou Waist Company, asked that the court permit him to amend his answer and make a counter-claim for \$3,728 for the stolen goods, following an extensive cross-examination of Mr. Flam in which the attorney brought out admissions from the plaintiff which caused Judge Gieglersch to consent to the counter-claim. Counsel for Flam then told the court he could not go on with the trial because he was not prepared to meet the new issues introduced in the case and the court declared a mistrial.

Mr. Flam sued for \$8600 for labor and services in making dresses for the waist company. He contended that the garments for which he charged were finished and hanging on his racks ready for delivery on April 21 1922 but testified that during the previous night his place was robbed of some of the finished dresses and a quantity of material belonging to the waist company as well as goods of his own. Entry to the shop was made through the rear windows.

The plaintiff alleged further that on April 30 another robbery occurred entrance being made this time through the front door and all dresses and material belonging to the Bijou Company were stolen. He contended that burglars broke in through the rear window and took more of the Bijou Company's property.

Flam insisted that the Bijou Company should not only bear the loss of the missing goods but pay for the work done on the dresses stolen.

Attorney Gieglersch sought to show that Flam did not take reasonable precaution to protect the goods of his customer if three burglaries could occur within a month and no insurance was placed or protective measures taken even after the second burglary with the exception of applying for the services of a watchman which he said had not been obtained when the third loss occurred. Flam insisted that the \$3,728 policy he carried was designed to protect his own merchandise, and admitted that he did not increase the insurance after any of the robberies, although the first loss was \$5,640.

The plaintiff testified on cross-examination that in his first proof of loss to the insurance company he included \$1,500 as the value of eighty-nine dresses and some material belonging to the Bijou Company.

The proof of loss in the second burglary showed that all but \$400 of the claim of \$3,840 was for property belonging to the Bijou Company. Mr. Gieglersch contended that the loss of \$219 was entirely of property belonging to the defendant, it was alleged.

Mr. Gieglersch offered evidence that

the total loss of \$9,443 the plaintiff sustained only \$4,000, and that when the insurance company refused to settle, Flam sued for this sum, eliminated the losses of the customer, although they were included in his proofs of loss. Counsel for the plaintiff contended that the loss sustained by the Bijou Company was not caused through any negligence and that Flam should not be held liable for it. He contended that he made no agreement with the defendant company to keep its goods insured while in his possession.

AMERICA TOLD OF GRAVE PERIL TO FAMILY LIFE

Abbe Violet Sees "Terrible Evil" in Demands Made by Industry - France is Seeking a Remedy.

Washington, May 23.—In an address before the National Conference of Social Work, Abbe Jean Violet, of France, spoke of "the influence of the church on social work" and declared the normal development of the family was seriously endangered by numerous causes.

Abbe Violet is a distinguished citizen of France who is a guest of the conference. He was an army chaplain in the war and, was wounded in service. He is the founder of the Family Dwellings Association of Paris and the moving spirit in the Workingmen's Welfare Association, which maintains many mutual welfare activities.

Both Have Same Ideal. In his address Abbe Violet stressed the idea that France and America were closely united "in our striving after the same moral and social ideal."

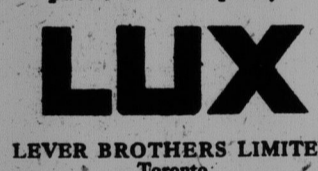

The original beauty

Of dainty organdies, brilliant with colour, of dainty flowered voiles, georgettes, or crepes, cannot stand the old harsh way of washing. But these delicate fabrics come from a Lux bath as fresh and beautiful as in their original newness.

The thin, satin-like Lux flakes, made by our own exclusive process, whisk instantly into a rich lather that gently dissolves the dirt.

No matter how filmy the material, how brilliant the colour, you can safely wash it over and over again in the delicate Lux suds.

PARIS LEADS ALL FRENCH CITIES IN NUMBER OF DIVORCES GRANTED

Paris, May 23.—Paris had the largest percentage of divorces to the number of marriages of any city in France last year. During 1922 there were 5,237 decrees of divorce granted and 38,650 marriages celebrated.

Court officials say that the number of divorces granted in Paris to foreigners, many of them Americans, who did not contract marriage in Paris, has greatly helped in bringing up the average.

helpful work of the American Red Cross. Cause of Family Crisis. Dwelling on the importance of the modern problem of "the defense and preservation of the family," Abbe Violet said: "The normal development of the family is seriously endangered in our day by numerous causes, chief of which seems to be the following: The demands of industry, the love of luxury and of comfort, the unquenchable thirst for pleasure and enjoyment, the exaggerated development of the rights of the individual, who easily comes to believe that he has no duty except that claimed by his own personality, without any regard for the duty he owes the community of founding a family or of devoting himself to the families of others."

Destruction of Family. "It is easy to see that such a conception can only lead to the destruction of the family. It thwarts the establishment of the home and makes of the child an obstacle to the free exercise of the faculty of loving. It opens the door to disinterestedness and dehumanity. In France great efforts are being made to find a remedy for this terrible evil and it is important to point these out. France is in fact the chosen land of the family. In spite of the spread of the economic obstacles that the family has to face, the moral life of the nation rests on an elite, faithful to its ancient traditions and struggling bravely to preserve the moral qualities that are the basis of our ancient European civilization. There are at present in France two marked currents of thought—one, which claims the right of an irresponsible love and preaches the voluntary restriction of the family; the other, which insists on subjecting love

DRIVER IN MOTOR ACCIDENT JAILED

Augusta, Me., May 23.—In his court hereafter, violators of speed laws, especially where the liquor phase is presented, will be dealt with to the full extent of the law, Judge Cony declared in sentencing John Brown to one year in jail. WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

TRAVEL TO EUROPE FALLS OFF A THIRD

First-class Passenger Business Suffers Because of Higher Costs Abroad.

New York, May 25.—In spite of the numerous reports regarding the drop in Europe this season the fact remains that first-class passenger business is about 30 per cent. below what it was last year.

May is considered one of the best months in the year for the eastward first-class business, yet the Cunarder Berengaria had only 360 last Tuesday.

Many reasons are given by the steamship officials for this falling off in the passenger business this season. One of them is the unsettled conditions in the Ruhr which would not affect anybody except the person going to that part of Germany.

The cost of living and travel in Europe has increased this summer compared with last year, and in some of the cities, as for example, Berlin and Vienna, the hotels have been almost empty since February because of the high charges combined with the local taxation on Americans which in Germany amounts to 100 per cent.

Reports are obtained from London and Paris to the effect that there is no room for the hordes of Americans pouring into these cities because there are some timid people who decide upon waiting over until next season.

Of course residents are entitled to return to this country if they do not remain longer than six months, but the difficulty lies in getting the steamship agents on the other side to recognize the fact as they have to take the risk if the passenger is not allowed to land.

The second-class travel, which is generally patronized by the foreign residents in the United States, has fallen off this year because the people are afraid that they might get shut out by the quota for their country being exhausted.

Most of Stocks Show Gains on Initial Sales—Montreal Report.

New York, May 25.—Prices continued their upward course at the opening of today's stock market.

While heaviness was apparent in a few isolated issues such as Studebaker and Republic Steel, the large majority of stocks showed net gains ranging from small fractions to one point on initial sales.

OPINIONS ON THE STOCK MARKET

New York, May 25.—Evans.—"The violence of the advance shows that an extent of short selling has been overcome. There was nothing in the news to cause the rise. Conditions remain neither better nor worse than they were two or three weeks ago."

Important Points to Bear in Mind When Buying Gold Stocks

Here are some of the questions you should ask before you buy gold mining stocks: Has development work demonstrated ore bodies of a size that will make operations profitable over a long period of years?

Are the mining laws just and equitable? Are the Government taxes or charges excessive? Is there an ample supply of wood and water?

Seventy diamond drill holes put down to an average depth of over 250 feet on the property prove conclusively the existence of huge bodies of commercial ore.

As the Matchewan Canadian Gold has identical the same formation as the St. John Del Rey Mine in Brazil, the deepest gold mine in the world, operating at a depth of over 6,000 feet, and has already paid in dividends over \$15,000,000, this would indicate that the Matchewan Canadian Gold Limited will be a permanent investment.

Some of the ore bodies in the Matchewan Gold are over 30 feet in width, and the present estimate of the yield per ton is about \$11.00.

As it costs about \$6.00 to obtain and treat the ore, the margin of profit will be ample for any fluctuation in labor and other costs.

The mining laws of Ontario are just and equitable, and the taxes and charges of the Canadian Government are always reasonable.

Instead of placing obstacles in the way of miners, the Government is always ready to co-operate in every reasonable way with them.

City of St. John

SEALED TENDERS will be received by H. E. Wardrop, Esq., Commissioner of Water and Sewerage, at the City Clerk's Office, on SATURDAY, the 26th inst., at 12 o'clock noon, for the laying of water main from Barnhill's Corner to Watson Street, until Tuesday the Twenty-ninth day of May last.

at 10.30 of the clock a.m. for excavating and backfilling trench for the laying of water main from Barnhill's Corner to Watson Street, through Main Street, Fairville, Lancaster Avenue and Prince Street, according to plans and specifications to be seen in the office of the Commissioner of Water and Sewerage or in the office of the City Engineer.

The City does not bind itself to accept the lowest or any tender.

No offer will be considered unless on the forms to be supplied by the City and to be had in the office of the City Engineer.

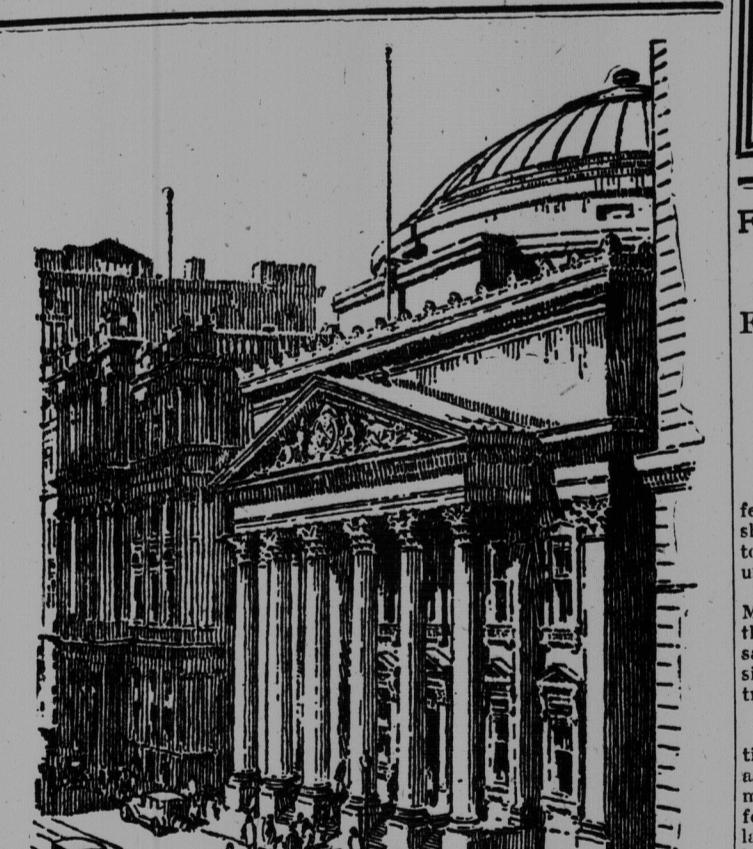

Cash or a certified check for five per centum of the amount of the tender must accompany each bid; this will be returned to all rejected bidders but the City will hold the deposit accompanying the successful bid until the satisfactory completion of the work.

The shield trophies won by the various schools in the school boy athletic meet, held under the auspices of the Y. M. C. A. on Friday and Saturday of last week, have arrived, and are of beautiful design and workmanship, and schools winning these may well be proud of being in possession of them.

Too Frame Tax on Betting. London, May 25-(A. P. by Mail).-When Chancellor Baldwin presented his annual budget in the House of Commons recently he intimated that a commission would be appointed to inquire into the feasibility of a tax on betting, which has reached tremendous proportions in Britain, and from which he anticipated considerable revenue could be secured. The committee has now been appointed and includes several members of Parliament who are noted sportsmen. The committee comprises thirteen members drawn from all parties of the House. Eleven of them are Conservatives, two National Liberals and two Independent Liberals and four Labor members. NEARLY 1000 BOYS IN TRACK MEET. Chicago, May 25-(A. P.)-Arrangements for nearly 1000 school-boys to compete in its 9th annual inter-scholastic track meet today and tomorrow, have been made by officials of the University of Chicago. Schools in 26 states last year sent 800 competitors, representing 142 academies and high schools. This year the meet will be divided into two sections, one for preparatory schools and academies, and the other for high schools. Each section will have thirteen of the standard track and field contests, with a 12-pound hammer throw and a 4-mile four-man relay added to the school events. Elimination preliminaries are scheduled for 2:30 o'clock this afternoon, with the finals tomorrow morning and afternoon. On account of the large number of entries in the high school section of the quarter and half mile events, both of these races will be run in two sections with equal points and prizes in each section. In last year's meet "Bud" Honner of Ontario, California, and Mel Keeley of Austin, Texas, tied for individual honors in the high school division with 16 points each. Honner setting a new mark in the 12-pound shot put. In the academy section, Victor Jaegerl of Winbury scores 23 points, the largest number to be won by an individual since 1916 when Sherman Lunders of Oregon, Illinois, scores 16. The winners of the first places will be awarded gold watches. Gold medals will be given to second place winners, trophies will go to the winners of both events. A team trophy, and individual prizes in addition, will be given to the winning relay team. MOTION PICTURES IN SCHOOLS. (To the Editor of The New York Tribune). Sir: I want to take issue with my friend Thomas A. Edison, who states, according to your report, that in ten years the motion picture will take the place of the textbooks in the schools. Such an event will never become possible. The motion picture, even in the wildest flights of imagination and commercialism, will never supplant the textbook or the teachers' aid therefrom. Your editorial on this subject, "Seeing is Believing" somewhat belittles, and, perhaps inadvertently, misrepresents the case of the educator. You seem to imply that the manufacturers have produced subjects and the educators are backwards in using them. Quite the reverse is the case. The educator during the last fifteen or twenty years, to my knowledge, has been appealing to the manufacturer to produce subjects suitable for classroom work, and the manufacturers have failed to respond to the call, chiefly owing to the mistaken idea that they cannot make millions in educational subjects. According to a recent report of the Commissioner of Education, there are thousands of schools equipped with projecting machines, but they can get nothing suitable to project, consequently many of them are lying idle and a majority of these machines are consigned to the basement of the schools to rust owing to the paucity of suitable subjects for the classes. No one is to blame for this state of affairs, except the manufacturers. They have contended, and still contend, that

FORTY CETS AND A SMILE TAKES YOUTH ABROAD

Curiosity at First Sight of Ocean Liner Sends George Moss Away Without a Ticket—Passengers Make Up Fare.

New York, May 25.—About a month ago George Moss, twenty years old, whose aspirations to become a poet were being starved out, found himself in the vicinity of West Nineteenth street when the White Star liner Adriatic was about to sail for Europe. This was the first time he had ever passed upon a trans-Atlantic vessel and seeing a score of persons going aboard her he joined the throng and entered into the spirit of the occasion.

Then came the "All ashore" signal. By this time the young man had decided that instead of becoming a poet he was destined to be a writer on travel and sea stories. So he decided to make the trip on the Adriatic. There was plenty of atmosphere and local color to be gathered for his writings on such a voyage, even though his finances consisted of just forty cents. But Moss acted quickly—he went. This week he returned in the steamer of the White Star liner, Baltic. Uncle Sam paid his return fare.

For three days Moss mingled with the first cabin passengers on the Adriatic and because of his neat appearance and jolly disposition he became a friend of many. Only the chief steward of the liner wondered why Moss never went to the dining saloon. That was easily explained by the young man when he was asked by the purser, after the latter discovered there was one more passenger on the ship than there were tickets. Moss found he could subsist on bouillon, tea and other delicacies doled out to the passengers between meals. Furthermore, the deck stewards were very courteous.

The passengers were surprised when informed that the young man was a stowaway. They made up a purse for his neglect in taking care of formalities, such as steamship tickets, and paid the purser enough for third class accommodations for Moss. He had no passport, another inadvertence, so he was retained by the immigration authorities at Liverpool. This did not annoy him long. He remembered that he had friends in London and decided to go there forthwith. He made the greater part of the journey on foot. He looked, in vain, for these friends and, having, for the moment, squandered the forty cents, appealed to the American Consul, who turned him into the hands of immigration officials and arranged for his return trip.

"I'm all right. Now that I am back again I can take care of myself with ease," he declared. "I'll find friends in half an hour after I land. I was refused to accept any money from persons who talked with him about his journey."

HAYNES SAYS USE OF DRUGS HAS DECREASED
Gives Official Figures Showing Sharp Drop Per Capita in 1922

Washington, May 25.—Per capita consumption of narcotic drugs in the United States has shown an enormous decrease under administration of the Harrison drug act, according to a statement today by Federal Prohibition Commissioner Haynes giving the latest official figures.

Official figures on imports of narcotics and their distribution showed that sales by manufacturers for the fiscal year ended June 30, 1921 were sufficient for 1.7-8 grains of morphine per capita, while for the fiscal year 1922 they were reduced to 1.5-8 of a grain on a per capita basis. The figures, of course, were not inclusive of smuggled narcotics.

The per capita consumption of cocaine for 1921 was given at one-third of a grain, while for 1922 was reduced to one-fourth of a grain.

USEFUL WORK NEVER EASY.
(Edmonton Journal.)
Joseph Conrad, one of the present-day masters of English prose, told a New York reporter arriving there the other day for his first visit to the United States that writing was to him "a frightful grind." This will be consoling to many who make their living on lesser spheres of literary work and who, like Mr. Conrad, find the going very hard.

There is a saying that easy writing makes hard reading, and the reverse is also very large true. The biographies of most great literary men show with what effort they perfected their product. Stevenson and Macaulay are two outstanding examples. We could all cite instances of the contrary character, those of people who "simply love to write," who are always highly pleased with what they have written, but who to the people who have to read their effusions are the worst kind of nuisances and bore.

Popular Young Lady Is Again Well and Happy

Miss Laurentia Clouatre, a popular young lady, residing at 628 Carter St., Montreal, is another who has found Tanlac treatment a safe and sure means to health, strength and the joy of living.

"For a year past I have suffered with terrible headaches, at the same time felt weak and dizzy all day long, and my nerves were also unwell," states Tanlac now and have already regained nearly half my lost weight, as well as considerable strength. I eat well, digest all my food, have no more headaches or dizzy spells. I am simply delighted with Tanlac. It is just grand."

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious nervous and dizzy spells. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing action on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

MRS. BUDGE SO WEAK COULD HARDLY STAND
Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

River Desert, Que.—"I used to have a severe pain in my side. I would be unable to walk fast and could not stand for any length of time to do my ironing or washing, but I would have to lie down to get relief from the pain. I had this for about two years. My friend told me to try Lydia E. Pinkham's Vegetable Compound as she had had good results. I certainly got good results from it, too, as the last time I had a sore side was last May and I have not had it since. I am so glad of having good nursing for my baby, and I think it is your medicine that helped me in this way." Mrs. L. V. Budge, River Desert, Quebec.

If you are suffering from the tortures of a displacement, irregularities, backache, headaches, nervousness, or a pain in the side, you should lose no time in trying Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Private Text-Book upon "Afflictions Peculiar to Women" will be sent you free upon request. Write for it to the Lydia E. Pinkham Medicine Co., Lowell, Ontario. This book contains valuable information that every woman should know.

THIS MAN TELLS YOU HOW TO KEEP FIT!

Bear River, N.S.—"My back was so bad I could hardly work. It was always tired out and had no ambition. I was nervous and dizzy, and everything seemed to worry me. I also had terrible pains in my right side. I felt badly for about eighteen months, and could not do my work as it should have been done. I tried several doctors, and also bought about \$200 worth of put medicines, but I found no relief until I took Doctor Pierce's Golden Medical Discovery and Doctor Pierce's Anuric (anti-uric-acid) Tablets. I have taken two bottles of the Discovery, and four of the Anuric Tablets, and can say that I feel as well as I have felt for the last ten years. I advise any sufferer to give Dr. Pierce's Anuric Tablets a fair trial. I can not recommend them too highly for what they have done for me and shall be pleased to answer any one who cares to write me."—Norman E. Trimmer, R. R. 1.

Rheumatism

A Remarkable Home Treatment Given by One Who Had It
In the year of 1898 I was attacked by Muscular and Sub-Acute Rheumatism. I suffered as only those who are thus afflicted know for over three years. I tried remedy after remedy, but found relief as I obtained was only temporary. Finally, I found a treatment that cured me completely and such a pitiful condition has never returned. I have given it to a number who were terribly afflicted, even bedridden, some of them seventy to eighty years old, and the results were the same as in my own case.

I want every sufferer from any form of muscular and sub-acute (swelling at the joints) rheumatism, to try the great value of my improved "Home Treatment" for its remarkable healing power. Don't send a cent; simply mail your name and address, and I will send it free to try. After you have used it, and it has proven itself to be that long-sought-for means of getting rid of such forms of rheumatism, you may send the price of it, One Dollar, but understand I do not want your money unless you are perfectly satisfied to send it. Don't that fail! Why suffer any longer, when relief is thus offered you free. Don't delay. Write today.

Blue-jay

Belgrade, Jugoslavia, May 2.—(A. S. by mail)—There is today in Jugoslavia a scarcity of bank notes of large denominations, and carmen jugs. The peasants are hoarding the former and hiding them away in the latter.

Peasants Distrust Banks; Hoard In Jugs In Ground

The peasants' bank is a jug buried in the ground. As the banks become very rich in the last few years, their paper money accumulations, buried in the ground, they used to hide copper and silver coin before the war, were eaten up by mice and rats. Now the peasants have learned to put their paper money in tightly corked jugs, hence the scarcity of jugs. When possible the peasants obtain bank-notes of large denominations for hoarding purposes, as the jugs are too quickly filled with small value bills.

Quick Help For Run-Down Folks

Yeast With Iron the Newest Scientific Triumph
Pale, thin, underweight folks have a great deal to thank science for because of this new combination called Ironized Yeast. Think what a wonderful thing it is to be able to strengthen thereby putting plenty of iron and yeast is re-inforcing the vital forces in the manner already understood and proven in so many thousands of cases.

The world always needed a tonic and builder like this—so perfectly balanced and strength-giving and stay-where-irresistible benefit. You can now not only build yourself up to normal weight, but you can do it at the same time put iron into the blood. And this is the treatment and stay-where-improvement for many who perhaps heretofore may have despairing because of lack of action from just ordinary tonics.

Scientists now agree that brewer's yeast is the richest source of vitamins known. So thousands of pale, sick and underweight people are gaining weight and strength on Ironized Yeast, which is a combination of iron and other valuable tonic ingredients with yeast imported from Great Britain, England, and especially concentrated under the process recommended by Dr. A. S. Sedell of the Hygienic Laboratory of the U. S. Public Health Service.

Ironized Yeast from your druggist today. It is convenient and pleasant to take, being in handy tablet form. The ten-day treatment costs only \$1. It is guaranteed to give satisfactory results or your money will be cheerfully refunded.

BARNS ON LEVIATHAN WILL SERVE QUINCY SOFT DRINKS

Laska Denies Rumor of U. S. Vessel Hoarding Liquor Stock at Newport News.
Washington, May 25.—A report from Boston that the Leviathan has been fitted with four bars and that a stock of liquor was taken on at Newport News for sale when the liner got beyond the three-mile limit of American waters was vigorously denied by Captain Laska of the Shipping Board.

The story is wholly untrue," Mr. Laska said. "The Leviathan, as well as all other government vessels, is dry and will remain dry, and if any employees resort to bootlegging he will be delivered immediately to the proper United States authority, and there will be no leniency shown in the matter. A regular bootlegger. And I say this with you all knowing that I am a wet. I have never had a drink since I was a boy, and I will never do so again. Mr. Laska said there might be some soft drink bars on the Leviathan.

TORN WILL IS FILED.

Foster Brother Explains Mutation of Document to Court.
New York, May 25.—The will of John Bott, late of 39 Proctor street, Glendale, Queens, which disposes of an estate valued at \$2,000, was filed for probate in the Surrogate's Court, Jamaica, by Henry Essendorff, a foster brother of the same address, who is made sole legate and executor. The document was badly torn.

Essendorff explained that on Nov. 30, 1901, he went with Bott to a notary, and they drew up two wills, in which Bott left all his property to the other. After Bott died, he declared, he had the two wills in front of him, and was about to tear up his own, which was no longer of any value. By mistake he tore Bott's will.

Alkali in Shampoos Bad for the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulford's coconut oil shampoo, which is pure and greaseless, and is better than anything else you can use.

Two or three teaspoonfuls of Mulford's is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, and easy to manage.

You can get Mulford's coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure and ask for "Mulford's." Beware of imitations. Look for the name Watkins on the package.

5,000 TONS OF DIRT GO OUT OF LONDON EACH DAY

London, May 25.—(By Mail)—Keeping London clean is an expensive undertaking, says a writer in "The London Daily Express."

Two or three thousand tons of dirt, for example, that every hundredweight of refuse removed from dustbins in the metropolis by the local authorities a fraction under sixpence. Every day 5,000 tons of dirt and dust are collected, by means of 1,250 vehicles.

Some of the tasks that now confront London's army of spring cleaners are gigantic. Take Victoria Station. Cleaning the station, which has a larger area of glass roof than any other

A SURGERY IN A TWO-INCH BOX

station—Waterloo alone excepted—occupies the best part of six months. Over forty-five tons of paint, made up of thirty-four tons of white lead and eleven tons of linseed oil, are used, at a cost of approximately \$40 a ton.

One of the biggest spring-cleaning jobs ever undertaken was the dusting and renovating of the British Museum Library. Two hundred and fifty men were kept busy for fourteen months. Redecorating the dome and walls of the great reading room took 250,000 leaves of beaten gold.

Another big renovating job carried out periodically is spring cleaning Tower Bridge. Twenty tons of paint are used in the process, which occupies, roughly, five months.

Keeping the House of Commons clean costs \$1,000 a year. The carpeting alone totals nearly \$400, while window cleaning runs into \$200. Big hotels like the Savoy and the Carlton art thoroughly spring-cleaned every year, although the work is so well organized that few visitors to the hotels know that it is going on.

PLAYS BY RADIO EXPECTED SOON BY FRENCH EXPERT

London, May 25.—(By Mail)—A French experimenter recently claimed that it will soon be possible for those who listen in to watch on their walls a picture drama, with a perfect synchronization of wireless sound and picture, reports The London Daily Express. Professor A. O. Rankine, the inventor, has been the subject of a sub-committee.

Used After Shaving Keeps Skin Soft and Smooth

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's Itch and Eczema are prevented or relieved.
