Australians and The New Zealand Contingent To Egypt For a While

Seasoned There and Then Direct To Front to Join Other British Troops—Officials Give Out Little About The Fighting Today

London, Dec. 3.—"Australian and New Zealand contingents have been disembarked in Egypt," according to an announcement of the official bureau, "to assist in the defence of that country and complete their training there."

"When the training is completed, they will go direct to the front to fight with the other British troops in Europe."

GERMAN SUBMARINES BOTTLED UP.

New York, Dec. 3.—A special cable to the Herald dated on the Belgian frontier Wednesday says:

"The last naval bombardment of Zeebrugge resulted in the destruction of the electric plant which supplies power for the operation of the lock gates giving access to the maritime canal, with the result that the gates cannot be opened."

"The Germans are in a serious predicament unless they are able to manipulate the lock gates and Zeebrugge is useless."

"They must take their submarines piecemeal overland to Antwerp, and the delay in this matter may be disastrous to them."

QUIET DAY SAYS BERLIN.

Berlin, Dec. 3 (3:10 p. m.)—Today's official statement was limited to the following brief announcement:

"In neither theatre of war has anything of importance happened."

NO CHANGE IN POLAND

London, Dec. 3.—The Petrograd correspondent of the Times says that by retaking Strykow the Russians have regained possession of the Lods-Warsaw way.

"There is no perceptible alteration in the relative positions of the opposing armies in Poland, and the Germans apparently still maintain their hold on the central region, west of Lodz. The situation remains extremely interesting and hazardous."

"The Russians are making progress in the neighborhood of Cracow. They are now within eight miles of the city."

USE OF SEDITIOUS LANGUAGE CHARGED

Vancouver, B. C., Dec. 3.—The police last night arrested H. M. Fitzgerald, known locally as "the Irish orator," on a charge of uttering seditious language.

Fitzgerald addressed a large crowd on a street corner during the evening, and it is alleged that in the course of his remarks he used language derogatory to the British royal family.

KRUPP FACTORY HIT BY BOMBS

London, Dec. 3.—A despatch to the Exchange Telegraph Company quotes a message from Berlin to the effect that the Krupp factory at Essen, Germany, was bombed yesterday by an aeroplane. It is said that bombs were dropped from the aeroplane on the guns in half of the buildings. The aeroplane escaped uninjured, and the extent of the damage has not been ascertained.

Prisoners of Canadians

Kingston, Ont., Dec. 3.—There are now confined in Fort Henry, 465 prisoners of war. Some have been put to work building the roadway leading to the fort.

Austrian Report

Vienna, via London, Dec. 3.—An official Austrian communication says:

"In West Galicia it was generally calm on Tuesday, Russian night attacks in Northwest Wolbrom were repulsed. The fighting west of Nowo Roskoszko (Poland), and near Loda, is developing favorably. At Przemysl (Galicia), the Russians under the influence of their last sortie, have remained passive. Several of the enemy's aviators have dropped bombs unsuccessfully. In the Carpathians, there has been no decision reached in the fighting as yet. The news that the Austrians had entered Belgrade was cheered by the troops in the northern war theatre."

The Car at the Front

Petrograd, Dec. 3.—Emperor Nicholas has arrived at the theatre of war in Poland. The sanitary inspector of the Russian army on the northwest front, telegraphs that the health condition of the troops is not only favorable, but that cases of illness are fewer than in times of peace.

Feared He Is Prisoner

Paris, Dec. 3.—Dr. Albert Calmette, an eminent scientist and director of the Pasteur Institute in Lille, who has been one of the chiefs of the medical service of the army, is missing and it is reported he is a prisoner of war in Munster. He is a brother of the late editor of the Figaro who was killed by Mrs. Caillaux.

Newfoundland Volunteers

St. John's, Nfld., Dec. 3.—Enlistment for the second contingent to be sent by Newfoundland to join the British army is proceeding rapidly, together with that of the first contingent.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, E. P. Sturp, director of meteorological service.

Synopsis—Pressure is quite high this morning over the Great Lakes, and nowhere very low. Showers have been general from Eastern Ontario to New Brunswick, while the weather continues moderately cold in the west.

Clearing and Colder

Maritime—Showers today, then strong northwest to north winds, clearing and a little colder.

New England—Cloudy and colder to night and Friday; fresh north winds, becoming northeast.

King On The Firing Line

London, Dec. 3.—King George of England, who has been visiting the British lines in Flanders, went out to the firing line today, according to a telephone message received this afternoon, by the Evening News from Calais.

Recommend Study of The Scriptures In Schools as a Part of The Curriculum

Resolutions recommending the study of the scriptures in the public schools of the provinces were passed at an inter-denominational meeting in the Church of England Institute rooms this morning. His Lordship Bishop Richardson was appointed chairman of the conference and Rev. A. J. Archibald, secretary.

Pythian Home Guard Planned

There was launched in St. John last night a home guard movement, which may have wide-spread effect. At a meeting of the Pythian Home Guard, it was proposed to organize a Pythian home guard. So far nothing in detail has been worked out, but the project is unanimous favor for the project expressed by the speakers at the meeting.

Bail in Blizzard Case is Forfeited

In the Circuit Court this morning Chief Justice Landry sentenced Allen Beyer, found guilty of common assault, to pay a fine of \$10.

Do Not Want to See The Lobster Factories Closed

Two cases came up for trial under the Speedy Trials' Act before Judge Forbes this morning. In the case of the King vs Antonio Mendez, the prisoner was found guilty of stealing \$175 worth of goods from Jacobson & Company and sentenced to serve three years in Dorchester Penitentiary.

Thousand Try to Get From Concentration Camp

Lancaster, Eng., Dec. 3.—An attempt to escape made last night by a thousand prisoners in the concentration camp here was thwarted by the guards who charged the mobs with fixed bayonets, wounding several. The guards at first were overcome but reserves were summoned and when they reached the scene they found 1,000 prisoners advancing, armed with bricks, sticks and stones.

LT. COL. MASSIE'S OFFICERS NAMED

Lieut.-Col. Massie yesterday received the complete establishment of officers who will accompany him to the front with the divisional train from Canada, to be composed of four companies. The local company under Major McKean, which has formerly been known as No. 7 will now be known as No. 5, and in addition to the names of the four officers published last week by The Times as going with this unit, two others have been appointed, Captain Ernastinger of St. Thomas, Ont., and Lieut. A. T. Hill of Quebec. The other officers of the local company are now on duty, besides Major McKean, the members being Capt. Wickwire of Kentville, N. S., and Lieutenants D. B. Pidgeon and A. G. Rain-

EFFECT OF WAR ON BUSINESS IN STATES

Conditions Improving But There Will be Much Room For Charitable Work This Winter

New York, Dec. 3.—The results of the comprehensive study of the effects of the European war on business throughout the United States, gained from reports received from more than 600 correspondents, including governors, mayors, officials of unions, industrial associations, banks, etc., will be made at the fifteenth annual meeting of the National Civic Federation, which will begin here tomorrow.

The report says that conditions are improving and predicts that a further advance toward prosperity will be witnessed during the next few months.

The report was prepared by John Hays Hammond, chairman of the committee, and was presented by the president of the organization.

It strikes a gloomy note in speaking of the unemployed. It states that the country will be confronted this winter by a situation which will demand extraordinary philanthropic efforts.

The report says: "The great savings institutions of New York city report that business is not altogether normal. In Philadelphia and even in Pittsburgh, despite the severity of the depression in the iron and steel trade, the deposits of the largest savings banks, have, during the last month, exceeded withdrawals."

Certain lines of trade, the report states, have been stimulated because of orders placed by foreign nations, but the purchase of supplies by belligerent nations signifies but a slight fraction of the American business world."

TOW-BOAT AND SCOW ASHORE ON BAY LEDGES

Life Boat Rescues Crew and Saves Scow But Tow-boat Likely Total Loss

Digby, N. S., Dec. 3.—Contractor Reid's gasoline tow boat and a scow from Trout Cove for Annapolis drifted ashore on L'Anse-au-Loup yesterday afternoon while the machinery was being repaired. These ledges are in the Bay of Fundy off the eastern point of Gulliver's Cove. The life-boat Daring, in charge of Capt. John W. Hayden of the Bay View station, went to the tow-boat's assistance and brought the crew ashore. The life-boat also towed the scow to this port. The tow-boat filled and was entirely submerged at high water, and it is thought it will be a total loss. She contained a 30 h. p. three cylinder Mianus motor.

Schooner Dorothy G. Snow, Captain Ansel Snow, arrived this morning from the fishing grounds with 100,000 pounds of mixed fish.

No local officers will be included in the ranks which have been recruited by Lieut. Col. Armstrong here. No further word had been received concerning the appointment of officers for the ammunition column from St. John other than those already announced.

Still No Word.

There is still no word regarding the names of the officers who will accompany Lieut. Col. McAvity to the front.

Cavalry Going.

Returning to St. John Col. H. A. McLean visited Ottawa and had a conference with Major General Hughes regarding the Canadian forces going abroad. He confirmed the announcement made in the local press yesterday regarding the sending of another regiment of infantry from the maritime provinces, and also the sending of three squadrons of cavalry. Orders had not yet been received, however, and because of that it was not possible at the present to speak definitely concerning New Brunswick mounted regiments.

Local Horses.

Unless the embargo upon live stock from the States is lifted, it is said that it will be necessary to equip the cavalry regiments going from Canada with horses from the Dominion. The remount department has been depending to a great extent upon the ranches of the western states for their stock of horses.

Horses will be needed for the artillery units, and the army service corps in addition to the cavalry, so that there is apt to be a brisk demand for equine stock throughout Canada. So far as shipments from the remount depot here are concerned, it is said to be unlikely that there will be any of much consequence after the next sailing, and that if the sending of remounts from Canada is continued it will probably be from Halifax.

Militia Away.

Nine of the aliens brought here yesterday aboard the steamer Cabotia from Salisbury Plain were sent forward under guard from the 62nd regiment today to Halifax, where they will be examined by the military authorities at headquarters. The others, who were given an honorable discharge from the first contingent, the only reason for their non-acceptance being their alien descent, will probably proceed to their homes in the States or other parts of Canada today.

DESTRUCTION OF NOME HAS BEEN AVERTED

Nome, Alaska, Dec. 3.—A blizzard which threatened Nome with destruction by forcing ice and water from Bering Sea high upon the beach, subsided yesterday without doing serious damage to the town.

The huge Arctic ice pack, extending from the shore as far as the eye could see, kept down the surf. No news concerning conditions in the smaller camp has been received.

N. B. MEN AWAY OR GOING TO FIGHT FOR THE EMPIRE

Frederick, N. B., Dec. 3.—The following graduates are away to fight for England:—Lieut. Col. J. W. Bridges (at the front), Dr. Murray MacLaren, Dr. S. H. McKee, Col. H. P. McLeod, Capt. H. H. Vanwart, Capt. I. C. Deedes, Lieut. Theo. Roberts, Lieut. A. N. Carver, Lieut. Alva Good, Lieut. C. W. Clarke, Lieut. T. R. McCall, Thomas Powers, Major Robert Vines, Capt. A. N. Vines, Burdette Harmon, J. L. Brewster, Colton McKee, W. R. Y. McLeod, A. McAlm, F. W. Alexander, Dr. E. J. Ryan, G. P. Rigby.

The following undergraduates have volunteered: Herbert A. Devere, G. R. M. Fraser, T. J. Gorman, J. B. Hipwell, T. L. Holman, J. C. Ketchum, Wm. J. Lawry, L. A. Lockary, F. J. MacGibbon, C. D. Otty, K. Vassour, Clarence Burden, Chauncey Orchard, Norman Cass, J. D. Hickman, Gustave Kubring, Chas. R. Townsend, H. O. McInerney, G. R. Barnes, Fred Bateman, Stewart Kitchen, C. C. Atkinson, Fred Foley, H. D. Otty.

Military authorities of Halifax have wired here for accommodation for 175 additional men on 28th Nov. It is believed to be the intention to equip and train a squadron of cavalry here.

Ruey Baxter, while skating on the river on Sunday broke through the ice and narrowly escaped death. Daniel Malman, a U. N. B. football player, rescued him.

PERSONALS
J. E. Parker of Amherst and Mrs. Parker are in the city. Mr. Parker will return to Amherst tomorrow, but Mrs. Parker and their two children will remain in the city for some time longer.

The engagement of Mary Ethel, daughter of Mr. and Mrs. George F. Barnes, to William Jarvis Hunter, is announced, the marriage to take place on December 16.

Thomas Malcom, formerly president of the International Railway Company, was in the city yesterday and left last evening for the North Shore.

Miss Marion Gleason, daughter of the late David J. Gleason, came to the city today on a visit to relatives.

LAMAR TO PENITENTIARY
New York, Dec. 3.—David Lamar was today found guilty of impersonating representative A. Mitchell Palmer of Pennsylvania for the purpose of defrauding J. P. Morgan & Co. and the United States Steel Corporation. He was sentenced to two years in the Federal Penitentiary at Atlanta, Ga.

GERMAN SAVANT'S DREAM
Partition of Britain, France, Belgium and Russia.
London, Dec. 3.—The Morning Post says that the famous Professor Ernest Haeckel of Jena, the well known disciple of Darwin, has expressed in an interview the opinion that the following fruits of victory are necessary to insure Germany's future:

- 1—Freedom from the tyranny of England, secured by—
- 2—The invasion of the British tyrannical state by the German army and navy, and the occupation of London.
- 3—The partition of Belgium, the western portion to fall to Holland and the southeastern portion to be added to Luxembourg, which also should become a German federal state.
- 4—Germany to obtain the greater part of the British colonies and of the Congo Free State.
- 5—France to give up a portion of her northeastern provinces.
- 6—Russia to be reduced to impotency by the re-establishment of the Kingdom of Poland, which should be united with Austria-Hungary.
- 7—The Baltic provinces of Russia to be restored to Germany.
- 8—Finland to become an independent kingdom and be united with Sweden.

"ESCAPE" EXPERT AT EMPRESS THEATRE

Big Extra Attraction For Balance of Week — Famous Mystery Performer

This forenoon the manager of the Empress Theatre in Carleton, signed an agreement with LeRoy, the mysterious, who is passing through the city to appear tonight, Friday and again Saturday, in connection with the regular show. LeRoy is one of the best known "escape" men on the stage and has never performed in this territory before. He is particularly astounding in the remarkable manner in which he escapes from ropes, chains, straightjackets and especially the Russian torture crib which is one of the most difficult of all feats. LeRoy employs other devices in demonstrating his almost atomic ability to elude capture and his act will no doubt create a whole lot of comment. It will be shown tonight at both shows.

GREAT MEETING FOR FORWARD MOVEMENT

Representatives of Every Organized Maritime Interest Wanted at Amherst Gathering

J. H. Douglas of Amherst, chairman of the executive committee which has called the great meeting to be held in Amherst on December 17, morning, afternoon and evening, to consider a forward movement for the maritime provinces, has issued an appeal urging that representatives of every organized maritime interest attend. Mr. Douglas explains the aim of the conference as "to bring together at one meeting the producer, the consumer and the manufacturer, with a view to foster and conserve throughout our whole people a truly maritime spirit."

Representatives of St. John, Halifax, Charlottetown, Summerside, New Glasgow, Moncton and Amherst are on the general committee, and Sir Robert Borden, with representatives of the three provincial governments and other prominent men representing all shores of public opinion, have been invited to attend. It is desired by the committee to communicate with every organized maritime interest, and Mr. Douglas asks that the name of every such organization, with the names and addresses of its officers, be sent to "The Maritime Forward Movement, Amherst," so that an effort may be made to have them all represented.

WANTS YOUNG SAMPSON TO BE ON HAND TOMORROW
Dan McDonald appeared at the Times office today to accept a challenge of Young Sampson and give him one better. He agrees to a match for \$100 or \$200 a side, winner to take all, with the entire proceeds of the house to be devoted to the Belgian fund. So confident is McDonald that he offers the match on the condition that he will throw the Syrian three times in an hour or forfeit the money. McDonald suggests that his challenger meet him at the Times office between nine and ten o'clock tomorrow morning with his representatives and the cash to put up the money.

DRILL
The problem of controlling and directing the individual units that make up the immense masses of men that engage in the battles in Europe has been the subject of serious study for years in the staffs of the rival armies. An English military authority in the Encyclopaedia Britannica points out that "so far from being necessary to adopt the catchword of the Bulwark school and to 'organize disorder,' and the only known method of doing so is drill. Individualism, pure and simple, is certainly a brief reign during and after the South African war, especially in Great Britain, and both France and Germany considered it for years of the Russo-Japanese war brought military Europe back to the old principles."

ENGAGEMENT ANNOUNCED

HOW TO PRONOUNCE WAR NAMES

Impossible to Reproduce in English With Absolute Correctness All The Names
(Boston Globe.)
There is a laudable desire on the part of the American public to pronounce correctly the foreign names that are daily appearing in the despatches from the seat of war. Both the French and Germans have a scientific method by which their foreign names are adapted to their respective languages in spelling and pronunciation. We have none. Neither have the English, who usually proceed along the lines of least resistance and spell and pronounce as fancy moves, ignoring anything which savors of authority—as, for example the perversion of the beautiful word "Livorno" to the uncouth "Leghorn."

Words From Western War Area
French and Flemish
Note—Much confusion will be avoided if it is remembered that "ville" does not conform to the French rules for the pronunciation of "ll" followed by a vowel. It is always pronounced "veel" in a short, sharp manner; never "ce-ye" as in "ville" or "famille."

RECENT DEATHS

J. W. Smith, at one time a well known very stable owner in St. John, died yesterday at the residence of his son, 43 Carleton street. He had been ill for two years, having been taken ill soon after the death of his wife. He was 82. The family consists of four sons—W. J., in San Francisco; Fred in St. George and N. B. and Norman in St. John. The funeral has been fixed for Friday at 2 p.m.

THE DEATH OF ROBERT H. DAVIS, barrister, aged 71 years, occurred yesterday at Richibucto, N. B. His wife, two sons and three daughters survive. Mr. Davis, who was highly esteemed, had held the office of stipendiary magistrate and registrar of probate for Richibucto.

HERE ON THEIR WAY TO SCENE OF FIGHTING
Dr. and Mrs. Ralph Hughes of Swift Current, Sask., arrived in the city today. Dr. Hughes has been accepted as a surgeon with the Canadian overseas forces and will leave next week for the front. They will spend a few days in Hampton with Mrs. Hughes' mother, Mrs. J. Crandall, with whom Mrs. Hughes will remain for some time after her husband's departure. Mrs. Hughes was formerly a trained nurse, and hopes to be able to join her husband on the other side in her professional capacity.

ITALY STILL NEUTRAL
London, Dec. 3.—At the opening of the Italian parliament today Premier Salandra said there was no new factor at present which would prompt Italy to alter her policy of neutrality.

MERCHANTS CALL ON MAYOR
Representatives of the St. John Retail Merchants' Association waited on Mayor Frink this morning to protest against the influx of transient traders, who set up business temporarily to skim some of the cream of the Christmas trade. The merchants felt that those who are under heavy expense, keeping up their stores and stocks all the year, should have some protection against such an invasion. The laws governing business houses were discussed, and it is probable that the association will find some means to take action.

SOLDIERS ILL
Peter Bury, a member of the Army Service Corps, stationed at the armory was taken to the hospital this morning suffering from pleurisy. One of the men of the 26th, named Turovich, was taken to the hospital last evening with an attack of tonsillitis.

A Narrow Escape

Christopher McKenzie, of the north end, escaped death by a narrow margin when he fell from a scow at the new marine depot last evening and he owes his life to Fred Sullivan, of the West End who risked his own to save that of the other man. McKenzie was engaged in shifting the scow when he fell into the strong current of the river. Sullivan, knowing the currents, jumped to the spot where he thought McKenzie would come up and when his head appeared he jumped in between the scow and the wharf and held McKenzie until the small scow was swung around and the men pulled into it. Dr. Ellis was called and McKenzie was taken to the home of his sister, Mrs. Hilton Belyea, Middle street, west, where he is resting comfortably.

Everybody Can Drill.

All those who are not able to go to the front are nevertheless to have good opportunities of drilling at home and being connected with the militia for home defence. For example, they may do this by joining existing companies of the 62nd "A" Company of the 62nd will drill every Thursday evening in the Seaman's Mission at 8 o'clock and on every Monday evening in some open space around the city, or will go on a route march. It is required to recruit this company up to the war strength of a double company of 250 men, and those who desire to drill can apply to Frank H. Fairweather at 12 Semterbury street, or at the Seaman's Mission at 8 o'clock on Thursday evenings.

AN EASY WAY TO GET FAT AND BE STRONG

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "meat creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh builders. Sargol aims through its re-generative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Leading druggists of St. John and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.

Hereafter United States mails coming to St. John will not be delayed when the Montreal express is late, but will be brought to the city on the Boston train. Instructions to have this arrangement carried out in future were issued yesterday.

THE WAR NEWS.

The great struggle in Poland is still undecided. The only thing that appears to be clear from the latest reports is that the Russians have not gained the great victory reported several days ago, and that there is still some doubt as to the result of a battle in which the losses on both sides have already been enormous.

The capture of General DeWet brings the rebellion in South Africa nearer the end. From the military standpoint he was much the ablest man connected with the outbreak.

The city of Winnipeg has raised nearly \$850,000 for the Patriotic Fund, all to be paid by September of next year. In view of the dull times in the west this is a remarkably good showing.

A little group in Ireland is opposing enlistment, and giving expression to anti-British sentiment. It is being promptly and effectively dealt with by the police, and is so small in comparison with the loyal population of the country that its pernicious activities can exert no influence.

An appeal is made for recruits for the 62nd Regiment, for home defence. It is desired to bring the company up to the war strength of 250 men, and many who are unable to go to the front have here a fine opportunity to connect themselves with the local militia and take a comparatively easy course of military training.

The announcement of the appointment of Mr. Frank D. Alward to the office of harbor master is well received, and is in line with good business in regard to civic appointments. Mr. Alward has had many years experience in connection with the affairs of the harbor, and his appointment is in the line of deserved promotion.

The government is pursuing a wise course in arranging for employment during the winter for those Germans and Austrians who are now interned in this country. It is announced that they are to be set at work in Quebec and Ontario, clearing land for agricultural purposes. They will thus be doing a work of considerable value and at the same time earning their living.

The suggestion that a Home Guard Battalion might easily be formed with companies representing various organizations, such as the Knights of Pythias, The Moose, The Foresters, the Knights of Columbus and others, is an admirable one. The various companies of such a battalion, representing different organizations, would vie with each other to attain the highest efficiency, and the drill they would receive would be of great benefit to all who participate.

The correspondent of the London Times at Salisbury Plains, speaking of the footwear of the Canadian soldiers, says:—"One hears things said about the Canadian contractors who furnish the field force with footwear, and it is well that the troops had not to go to the front in the boots in which they came over." The Montreal Star the other day had from its correspondent at Salisbury Plains a sharp criticism of the officers of the first contingent. Let us hope that the second contingent will be both well-officed and well-shod. The men who are going to put their lives in jeopardy for Canada should be led by competent officers, and should be equipped in the most substantial and comfortable manner.

The meeting which is to be held at Amherst on December 17, and which will be a maritime conference of representatives of boards of trade, manufacturers and representatives of agricultural, industrial and commercial interests generally, is one of great importance. In the words of the chairman of the executive, Mr. J. H. Douglas of Amherst, it is aimed "to bring together at one meeting the producer, the consumer and the manufacturer, with a view to foster and conserve throughout our whole people a truly maritime spirit."

Can Disarmament Be Effectuated? Whenever talk of the re-establishment of peace after the present war comes up, disarmament or the reduction of armaments is sure to be an important issue. Just how the nations shall effect a programme of disarmament is a vexed question. The Encyclopaedia Britannica cites as "the only existing case of contractual reduction of armaments," the Disarmament Agreement of May 28, 1902, between the Chilean and Argentine republics. By this agreement the two governments arranged to reduce their fleets "according to an arrangement establishing a reasonable proportion between the two fleets, and respectively promised not to increase their maritime armaments during five years, unless the one who shall wish to increase them shall give the other eighteen months notice in advance."

The Britannica authority points out that an agreement of this kind is more feasible among states whose navies are small, because in the case of large navies it would be difficult to agree on a principle for assessment of the proportionate fighting value of the respective fleets. Even comparatively slight differences in the ages of ships may make great difference in their fighting value.

OWES HER LIFE TO "FRUIT-A-TIVES"

Cured Both Stomach Trouble and Headaches

Palmerston, Ont., June 20th, 1918. "I really believe that I owe my life to 'Fruit-a-tives.' Ever since childhood I have been under the care of physicians and have been paying doctors' bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old Stomach Trouble and distressing Headaches nearly drove me wild. Some time ago, I got a box of 'Fruit-a-tives' and the first box did me good. My husband was delighted and advised a continuation of their use.

Today, I am feeling fine, and a physician meeting me on the street, noticed my improved appearance and asked the reason. I replied, "I am taking 'Fruit-a-tives.'" He said, "Well, if Fruit-a-tives are making you look so well, go ahead and take them. They are doing more for you than I can."

MRS. H. S. WILLIAMS. "Fruit-a-tives" are sold by all dealers, at 50c. a box, 6 for \$2.50, trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

LIGHTER VEIN Too Good to be True Mother—Now, Freddie, if you're disagreeable to Cousin Ethel, she won't come and play with you again. Freddie—Is that a promise?

Encouragement "Well," said the infirm old aunt, dependently, "I shan't be a nuisance to you much longer."

"Oh, don't talk like that, aunt," said her nephew, reassuringly, "you know that you will!"

College Honor "Willie, is your father a rich man?" "No, Sallie, he's a professor, so I can be educated for nothing."

"Oh, that's nothing; my father is a minister, and I can be good for nothing."

And Sit Hard The Allies will do it if they can. What? Why, sit on the Ottoman.

Avoids Monotony "Do you always leave a card when you call?" "No; sometimes it's an umbrella."

Anxious About the Future Bobby (after listening to family quarrel)—Mamma, if a boy is good all the time he's little, does he have to get married when he's grown up?

Dead Broke "We are all dead broke out our way this fall!" "How do you all live, then?" "Oh, we lend each other a little."

No Casualties "I see that another naval engagement is reported." "Between the British and Germans?" "No; the captain of a cruiser has become engaged to the admiral's daughter."

Incomplete "The collection here seems verry incomplete," remarked Mrs. News. "For one thing, I haven't seen a skull of Cromwell. They have a very fine one at the museum at Oxford, England."

REDUCING HOME EXPENSES. Restaurant Man Finds That for Every Cup of Tea or Coffee Fifteen Lumps of Sugar Disappear.

The high cost of living has laid its hand on the much persecuted shoulder of the restaurant man, and that individual has been forced to shout "assistance!"

"What am I going to do?" inquired one, and then the reason for his moan came in a plaintive key.

"I love my patrons, but friendship and platonic affection cease when they begin to take all the sugar I have. The other day I took an inventory of the stock of this establishment and I found that my patrons were using fifteen and a half pounds of sugar to every cup of coffee or tea that was consumed. I knew that could not be true, and I put a watch on my help, thinking that someone was stealing the sugar. I saw none of my help go near the barrel, while the sugar continued to go at the same rate.

"So I watched my customers. Many of them never used sugar in their coffee or tea before this war, and now they dig into the bowl and take out a large handful of the lumps. Do you think they put any of it into their coffee or tea? No. They put the lumps into their pockets and take them home.

"My place here is patronized largely by women. They come in and take their lunches and go back to work. The other day I noticed one of the women, after she had finished her lunch, wrap something in a paper napkin. I walked nearer to her so that I might see what she was doing. She was taking, and what do you think I saw? The woman had wrapped up three pieces of butter, had wrapped up in three pieces of butter.

REDUCING HOME EXPENSES. Restaurant Man Finds That for Every Cup of Tea or Coffee Fifteen Lumps of Sugar Disappear.

The high cost of living has laid its hand on the much persecuted shoulder of the restaurant man, and that individual has been forced to shout "assistance!"

"What am I going to do?" inquired one, and then the reason for his moan came in a plaintive key.

"I love my patrons, but friendship and platonic affection cease when they begin to take all the sugar I have. The other day I took an inventory of the stock of this establishment and I found that my patrons were using fifteen and a half pounds of sugar to every cup of coffee or tea that was consumed. I knew that could not be true, and I put a watch on my help, thinking that someone was stealing the sugar. I saw none of my help go near the barrel, while the sugar continued to go at the same rate.

"So I watched my customers. Many of them never used sugar in their coffee or tea before this war, and now they dig into the bowl and take out a large handful of the lumps. Do you think they put any of it into their coffee or tea? No. They put the lumps into their pockets and take them home.

Was Personally Attended by Dr. A. W. Chase Before He Became Famous as the Author of Dr. Chase's Receipt Book. Here is a letter from an aged gentleman who consulted Dr. Chase, long before his Receipt Book attained a world-wide circulation. "Some time ago a cold settled in the kidneys, causing backache, frequent urination, dizziness, and affected the eyesight. My appetite failed and I could not sleep nights. Two doctors failed to do me any lasting good, so I started using Dr. A. W. Chase's Kidney-Liver Pills and Nerve Food. The results have been highly satisfactory to me. Appetite improved, I gained in weight, sleep and rest well, and feel strong and well. My kidneys resumed their natural functions, and I believe that my cure was due to Dr. A. W. Chase's Kidney-Liver Pills and Nerve Food. I am 78 years old, superintending work on my farm, and can turn in and do some work myself. Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box. INSURING GOOD DIGESTION

Importance of Preventing Food Fermentation in Stomach. Good digestion usually means good health. So long as the stomach does its work properly disease can find no lodgment in the human system; the liver, kidneys and intestines will perform their work perfectly and remain in perfect health; but permit anything to interfere with the proper digestion of food, an unending train of troubles is set in motion. About the only thing that will upset the stomach and interfere with digestion is an excess of acid, usually caused by food fermentation. Food fermentation is due to chemical action in the food itself. This fermentation causes the formation of gas, or wind, as well as acid, resulting in the unnatural distention of the stomach and the burning by the acid of the delicate lining of the stomach. Medicine and tonics cannot relieve this condition—they usually make it worse. The fermentation and acid are to blame and these must be overcome and prevented by taking after meals a teaspoonful of bisulphated magnesia in a little hot or cold water. Physicians recommend bisulphated magnesia especially because it stops and prevents fermentation of food and neutralizes the acid instantly, making it bland and harmless, without irritating the stomach in any way. Get a little bisulphated magnesia from your druggist and try it the next time your food ferments and upsets your stomach. Note how quickly the acid is neutralized and how soon you forget that you have such a thing as a stomach. A precocious boy, whose name was Willie, lived in a happy home, together with his father, mother and a sweet sister of twenty summers or so. One evening a veteran of the civil war was a guest at the house, and after dinner the entire party sat in the parlor and listened to recital of the veteran's adventures. "It was no picnic, I assure you," feebly continued the veteran, "in all I was engaged five times and—" "Bing!" suddenly interrupted the precocious Willie. "That was nothing!" "Why, Willie!" corrected the lady's horrified mother. "What do you mean?" "I mean that five ain't so many!" was the startling rejoinder of Willie. "Why, sister Gladys has been engaged nine times."

Hints for the Cook

Cheese and Nut Salad.
Take some mild soft cheese, mix cream with it until the right consistency to form into soft ball. Press half an English walnut on each side. Serve on lettuce leaves.

Steak A La Boston.
Place one pound tender steak in roasting pan, spread over same one half cup chopped suet, one chopped onion, hand-

ful stuffed olives which have been run through grinder, add pepper and salt and cover top with layer of tomato ketchup. Put little water in pan, bake in very hot oven twenty or thirty minutes. Delicious.

Chestnut and Celery Salad.
Shell and blanch half a pound of large chestnuts, cover with boiling water, add a bit of bay leaf and one stalk of celery and boil until tender, then drain, cool and cut them into quarters. Add an equal quantity of finely sliced celery, dress with French dressing and serve on heart leaves of lettuce.

CHILE'S PRINCESS SLIP.
seam in material and clinging in line. This seven gored princess slip with inverted pleat at the center of the back may be developed in lawn, cotton crepe, China silk or satin.
To make it requires 2 1/2 yards of 36-inch or 3 yards of 44-inch material, with 1/4 yard of embroidery or lace 4 inches wide for the ruffle. Four yards of insertion and 3 yards of edging complete the decorative requirements.
Fold the material, if it is 36 inches or wider, and lay parts of pattern marked with triple "T" perforations on lengthwise fold and remaining pieces with line of large "O" perforations on a lengthwise thread of material.
Take the front gore, then join to this the side front. Do the same with back and side back. Close shoulder seams; then close back seam from large "O" perforation to lower edge, finish edge.

HUNDREDS ADMIRE FINE HOLIDAY EXHIBIT OF MARR MILLINERY CO.

Pretty Ribbons, Rich Velvets and Silks, Novel French Toys and New Hair Ornaments Prove Popular at Marr's—A Well-Dressed Window

Few pre-holiday attractions have elicited more favorable comment than that of the Marr Millinery Company which offers many pleasing suggestions to the gift-makers, at a price-range enabling Christmas shoppers to secure the most at modest outlay.

Prominent in the Marr exhibit is an extensive array of dainty Swiss baby ribbons, in white, pink, cardinal, old rose, blue and cogné, in thirty-six yard ends, at 50 cents for the entire length. These will be sent by mail, to any address, on receipt of price.

Other features include a rich assortment of silk, satin and Dresden ribbons, in various widths and popular colorings, that make up beautifully into girdles, hair-ribbons, handbags, and almost countless other holiday presentables that are sure to be appreciated.

Also gold and silver ribbons, in different lengths, from 10 to 50 cents the yard.

There is also an exquisite showing of silk velvets, silks and nettings, in all prevailing shades, so much desired for reception and evening gowns.

White gloves, in long (or evening) and short lengths are also in evidence, as well as an excellent line of gloves for men.

Hair ornaments, in all the newest designs, are well to the fore, and will doubtless prove great favorites as Yuletide gifts.

The French toy section, which is already highly popular, includes "Hug-Me-Tight" kiddies, unbreakable dolls, winter boys, winter girls, country boys and girls, quaint little dolls in Dutch costume, and a wide range of animals and birds.

The array, all through, is exceptionally pleasing, and is probably the most attractive in the uptown shopping district, being supplemented by an artistically arranged window display which is attracting much attention.

Is 83 Years Old And Her Heart Does Not Bother Her.

Thanks to MILBURN'S Heart and Nerve Pills.

Mrs. J. McLaren, Comandora, Ont., writes us under date of February 9th, 1914. "Sixteen years ago I took bad with my heart and nerves, and was not able to do anything. I tried a good many doctors, but they did me no good; in fact one doctor gave me up to die. I heard about Milburn's Heart and Nerve Pills, and I thought I would give them a trial, and after using a couple of boxes I saw that I was improving. I kept on using them for quite a long time. I am eighty-three years old and my heart does not bother me at all.

"I am raising a little girl who was never very strong, and the doctor said that she had palpitation of the heart, so I started to give them to her. She is now twelve years old, and they are doing her more good than I can possibly tell you. I would advise anyone who has a weak heart to try Milburn's Heart and Nerve Pills, as they have done wonders for us."

Price, 50 cents per box, 3 boxes for \$1.25; for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CANADA IN THE WAR

Two of the aliens sent back from Salsbury were former St. John workmen, N. Schmidt and H. Muller, both of whom were longshoremen. Each had an honorable discharge from the first Canadian contingent the only reason for their being returned to Canada being their German descent.

B. W. Wilson, a member of the staff of F. A. Dykeman & Company, was tendered a surprise party last night at the home of Miss Bessie Gallop in Victoria street, and made the recipient of a handsome silver ring by those assembled, all members of the staff of Dykeman & Company. Mr. Dykeman also presented to him a substantial check. A pleasant time was enjoyed by those present.

The alien papers are criticized—the boots worn by some of the members of the first Canadian contingent, saying that they would not be fit for active service.

Paul W. Caldwell of Greenfield, N. B., was married yesterday to Miss Jessie E. Squires of Bath, Me., prior to his going to the front with the second Canadian force.

The alien prisoners interned in Canada are to be kept at work till winter. It is likely they will be used to clear land for agricultural purposes.

J. B. Duggest, commissioner of agriculture for New Brunswick, was a visitor to the camps at Salsbury Plain yesterday.

St. John may be affected by the most recent order of the dominion government regarding bringing in live stock from in Frederickton under the patronage of Lieut.-Gov. Wood. "Pinafore" was presented in the Opera House and a large gathering attended.

TRULY HEROIC

One-Armed French Soldier Shows Sublime Self-Sacrifice for Country.

A certain English naval officer who had the misfortune to lose a leg in a shark encounter, was beset wherever he went with questions, eager to know how, when and where he had met with his loss.

He finally invented an expedient for suppressing his tormentors. He would promise to answer them one question, but only one, on the subject. The question invariably was, "How did you lose your leg?" and the invariable answer, "It was bitten off," which, of course, left his hearers ten times more curious than ever.

A Hungarian statesman used to rid himself of tiresome visitors in much the same way by relating the following story:

Once, when in Paris, Napoleon paid a visit to a hospital for old soldiers. Among those there was an old man who had lost an arm. The Emperor asked him:

"Where did you lose your arm?"
"At Marengo, sir."
"Then, no doubt, you curse the Emperor and your country for your fate?"
"On the contrary," said the veteran,

CARNEGIE DEFENDS THE KAISER (Montreal Journal of Commerce) Andrew Carnegie celebrated his 73rd birthday the other day, and furnished conclusive evidence that he is now in his dotage. In an interview in New York on his birthday, Carnegie described the Kaiser as the "Apostle of Peace" and declared that William of Germany had striven for twenty-five years to avoid war. The "Canny Scot" went on to say that the war was disgraceful and inexcusable, but did not indicate where the disgrace for causing the war should be placed. Andrew should study history a bit and not permit his better judgment or whatever is left of it. The verdict of the world is unanimous in blaming the Kaiser and his war lords for the outbreak of hostilities, in a matter like this we prefer to take the world opinion than that of an old man in his dotage.

ESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You

Eating most regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly headache and misery in the kidney region; rheumatic aches, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of ad Salts from any good pharmacy; take tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to unblock kidneys and stimulate them to normal activity; also to neutralize acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes delightful effervescent lithia-water drink which millions of men and women use now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Not So Bad.

Slivens which run up and down corners in the spine whenever possible re-opening the Stock Exchange is discussed as such like those of the Welsh coal miner so one night, walking home in the dark stumbled into an abandoned pit. He fell he clutched a beam and with a strength given man in a desperate see, held on. Suspended by his fingertips over the black hole, he tried to enter into its depths. He could see nothing. Then he looked up! How far off stars had suddenly retreated! His glistening mind pictured how much they would retreat if he should go the beam. Slivens cowered up and with his spine as his fingers began to numb. Minutes passed. He calculated a time it would take for his mangled body to reach the bottom of the shaft. He pictured the faces of his mates when he found him in the morning. More minutes passed. At last he could hold on longer. He let go. He fell twelve feet. He had been hanging over an allow hole in the ground—New York Evening Post.

KAISER'S GRANDFATHER MAN OF IRON WILL

Here is a rare and seldom published picture of Wilhelm I, grandfater of the present "war lord" of Germany. It is said that the Kaiser inherits much of his military genius and his iron will from his grandfather.

It was Wilhelm I who placed Bismarck, the great unifier of Germany, at the head of state affairs. He died in 1888.

SAYS INDIA'S ARMY CAN EQUAL RUSSIA'S

Maharaja of Idar on His Way To Join Allies at Front

FIVE PRINCES NOW SERVING

People of India Eager to Fight—Maharaja's Secretary a Suicide Because Not Allowed to Go With Him

A Cairo dispatch to The London Daily Chronicle says—I have just obtained an interview with his Highness the Maharaja of Idar, Dhiraj Shri Doss Singh, who is passing through Egypt on his way to join the general staff at the front. He is the fifth of the Indian princes to leave India on active service.

The Maharaja is the adopted son of the renowned Sir Pertag Singh. He was given to the British by the Maharaja of the great wave of imperial enthusiasm, loyalty and devotion which, aroused by the war, has swept over the people of all races and creeds throughout the length and breadth of the Indian Empire.

"The size of the Indian army which will take part in the great war," he told me, "depends, of course, on the wishes of the king-emperor, but I may say that every Indian, old and young, would most gladly and enthusiastically respond to the king-emperor's call."

"Our one difficulty is that only a comparatively small number of men may go to the battlefield at present. As it is, many officers and Indians of high birth are going in the ranks. My two sons, or grooms, are captains; my personal servant is very well-to-do and they came with me because it was impossible for them to go in any other capacity. Even the grooms who came to Bombay with our horses and then had to return home went away dejectedly and in tears. It was with great difficulty that they were persuaded to return."

The Maharaja told me a pathetic story of his own military secretary. After bidding farewell to the maharaja the secretary together with his family and friends said good-by to them, and shot himself, overcome with grief that he could not proceed to the front with his master.

The Maharaja of Jodpur, who is only seventeen years of age, was at first thought to be too young to serve with the army in the field. The young ruler's mother, however, supported him in his desire to fight for the king-emperor, and at last he wrote to the viceroy, "Why, he asked, am I not allowed to go? I have three brothers, so if I am killed in battle it does not matter." Permission was no longer withheld.

"You know," added the Maharaja, "we Indians believe that those who die in battle go straight to Paradise. To die in battle is not to die. Our names live, and we are proud. Now is a very good time to die."

Asked whether, now that Turkey had entered the great world of war, there was any feeling on the part of Mohammedans on the side of Turkey, the maharaja replied:

"Emphatically, no. What is Turkey now? She is only a football, driven on and coerced by the Germans. She has no claim to represent Mohammedanism. No, indeed! We are all, without exception, on the side of the empire to which we are so proud to belong."

"Take the case of Rajputana. That state has an army of 80,000 men, but no fewer than between 500,000 and 600,000 men have offered themselves and are willing and eager to serve. Nepal's army consists of 80,000 men. They are all at the emperor's disposal."

"If, indeed, the Emperor requires an

Wet Feet

a raw, biting wind, a draughty room, a cold street car—these are the common experiences which set up both in adults and children

Bad Colds

Bad colds, if neglected, develop into bronchitis, pneumonia, la grippe, etc. Remember, "A stitch in time saves nine." On feeling the first chill, apply PEPs. As soon as a PEP is placed on your tongue, warming, healing, health-giving pine vapors are liberated which you breathe down direct to the seat of the trouble. Ordinary cough mixtures, lozenges, syrups, etc., cannot be inhaled, therefore they go to the stomach, not to the lungs and breathing passages. Moreover most of these mixtures contain opium or other harmful narcotics. PEPs do not; they can safely be given to children. PEPs are the best and latest cure for colds, coughs, bronchitis, hoarseness, asthma, and other ailments of the throat, chest and lungs. See box, all druggists and stores, or postpaid for price from Peps Co., at Toronto, Winnipeg, or Montreal.

THE RIGHT AND WRONG METHODS OF MARKETING EGGS

An extremely interesting and attractive feature of the Demonstration Car, containing the egg and wool exhibit of the live stock branch of the Dominion Department of Agriculture, was the educational display illustrating the right and wrong methods of marketing eggs.

This display formed the larger part of the egg exhibit and was an object lesson that will not soon be forgotten by those who visited the car. It was arranged in two large, electrically lighted show cases. Each case contained a series of models together with appropriate back grounds and descriptions illustrating in the one instance the careless methods too frequently followed in the handling of eggs on many Canadian farms, and in the other the results that may be obtained through the adoption of improved methods on the farm, in the country store, and in fact by all those engaged in the egg trade.

In each instance the course followed by the egg from the time it was laid until it reached the consumer, was mapped out. The cause of the many bad and stale eggs was evident when one noted the unsatisfactory conditions that prevailed on many farms, and in many country stores. It was pointed out that even the mongrel, non-descript poultry found on many farms, refused to use for the greater part of the year, the dirty, undesirable poultry houses provided for them. The eggs were gathered infrequently and from questionable places. They were held until it was convenient to carry them to market, and were usually traded on a flat-rate basis, for merchandise, at the country store where little or no attention was paid to quality. Here they were frequently held indefinitely, in anticipation of a rising market and often were shipped in damp and musty cases to the wholesale dealer, who candled and graded them. The result of the candling was indicated and it was evident that but a relatively small proportion of the eggs graded "select." The manner in which the retail grocer permitted eggs to deteriorate was also pointed out, and it was shown, a portion of the uncandled eggs went direct to the consumer the result was very evident.

The second series showed a flock of pure bred poultry kept in a clean, well ventilated poultry house, provided with clean, dry nests from which the eggs were gathered frequently and regularly. The eggs were kept covered in a clean utensil in the coolest, driest place in the farm house and marketed at least once,

better twice a week. In the country store they were bought on the basis of quality and packed in clean, dry cases and forwarded with the minimum of delay. The result of this careful handling was apparent in the candling room of the wholesale warehouse where a decidedly large proportion of these eggs graded "select" and if by chance a portion of these eggs went direct to the consumer, the result was in marked contrast to that apparent in the previous instance.

The plans for this display were prepared by officers of the Poultry Division of the Live Stock Branch and the exhibit was in charge of W. A. Brown, chief of the division, W. H. Ault and J. R. Fee.

Another important feature of the exhibit was the candling demonstration given in a large booth erected in the end of the car. This phase of the work was of particular interest to consumers, for the reason that but few persons appreciate the fact that the quality of an egg can be accurately determined without breaking the shell.

The candling of eggs is not a difficult process and the small amount of labor entailed in candling presents no valid reason why the consuming public should not candle their own eggs more frequently than they do, and thus safeguard themselves from many unpleasant occurrences at the breakfast table.

PLANT YOUR CHRISTMAS TREE IN BACK YARD.

Chicago, Ill., Dec. 2.—The ash-heap will not be the resting place of this year's Christmas tree. When the harvest of gifts is gathered and the candles are out and the tinsel tarnished the tree will be removed to the garden or the back yard and planted.

For the woodmen in the fir-tree forests are taking out the Christmas trees with their roots on. More than 1,000,000 evergreen trees are now in their way to Chicago from the north woods, and almost every tree has roots and is ready for planting.

"A Christmas tree is too valuable to throw away," said one of the Christmas tree dealers. "A little care in planting a little attention now and then is all that is necessary to have a perennial Christmas tree." It was in response to a general demand, added the fir tree man, "that I began shipping trees with their roots on. Folks seem to want to make Christmas a year-round affair and improve their gardens at the same time."

F. D. ALWARD NOW HARBOR MASTER

Will Continue as Collector of Harbor Revenues

CHIEF CLARK'S CASE

Resolution Providing \$800 Superannuation Allowance Ruled Out of Order—East St. John Petition is Filed

At the meeting of the common council yesterday afternoon Frank D. Alward was appointed harbor master, a recommendation that the chief of police be superannuated was ruled out of order on account of its wording, the application of the residents of East St. John to be included within the city limits was filed and other business of importance was dealt with.

On motion of Com. Russell Frank D. Alward, collector of harbor revenues, was appointed to the office of harbor master, rendered vacant by the death of Captain R. H. Fleming. Mr. Alward will continue to perform the duties of collector and will receive a salary of \$2,000 to cover both positions, resulting in a saving of \$1,200 a year to the city.

The report of W. B. Chandler, who investigated the police department on behalf of the provincial government, was presented to the council. Commissioner McLellan then submitted a resolution as follows:—

"Resolved that a bill be prepared and forwarded to the legislature for enactment at its next session providing that from the occurrence of a vacancy in the office of the chief of police of this city until his death, he shall be paid a superannuation allowance of \$800 per year. During his life, payable monthly from the funds of the police department."

Mr. McLellan then read a statement setting forth that the government did not seem inclined to retire the chief unless a superannuation allowance is provided and that, as the government will not find the funds the city must do so if the department is to be reorganized. The resolution was seconded by Com. Wigmore but it was ruled out of order by the mayor on the grounds that the council could not dictate what legislation should be passed by the government. Com. McLellan announced that he would apply to the Recorder for his opinion.

Renewal leases of city lots were authorized for Samuel Fox, Letitia L. Glasgow, Mary Ann Murphy, Hannah Lynch, Isabella Kain, Eva Robinson, Moses E. McNulty, James Warrick, Emma Gore Brown. Authority for issue of leases to George A. C. Clark was cancelled, he not having availed himself of same. William A. Munro was appointed as valuator for the city to ascertain the value of the improvements on a lot formerly under lease to the St. John Real Estate Co. Ltd.

On the request of Kenneth J. MacRae that a deposit of \$125 paid by T. H. Haley as a guarantee when building steps in front of his new house beyond the existing street line, according to plans furnished him by the road engineer, be returned to Mr. Haley, the matter was referred to the commissioner of public works.

Edwin J. Howard, a policeman who has enlisted in the second contingent, asked by letter if the city would continue to pay his salary. Mr. McLellan did not think he could recommend that the city pay the young man's salary.

A. H. Likely appeared before the meeting to urge the petition of property owners and residents of East St. John that their district should be included in the city limits, on condition that their taxes should not be increased excepting as improvements are provided. On motion of Com. Potts the petition was filed, with the understanding that it be taken up again later.

On motion of Com. Potts the day of meeting was changed from Monday to Tuesday.

LUSITANIA ECONOMIZES

Test to Save Expenses Added 12 Hours to the Run

New York, Dec. 4.—The arrival of the Lusitania 12 hours behind the usual schedule is explained as due to an economy test. The Lusitania is the only one of the "fast" transatlantic liners left in the service on account of the falling off in the passenger traffic since the war and it was decided to find out if she could be run economically enough to warrant her being kept in commission.

From the time she left Liverpool her engines were throttled down to a coal-saving speed, there were fewer firemen on board than she ever had used before, the stewards did double duty, and there was a general saving in expenses all around. So far as the passengers knew, however, there had been no change in the service.

Circuit Court.

In the circuit court yesterday afternoon the jury, after ten minutes' deliberation, found Allan Beyes guilty of assault. At the previous trial they had disagreed. The assault was committed on a man named Culley whom Beyes is said to have struck with a milk can.

Mr. Justice Landry presided at the hearing. His honor was yesterday the recipient of hearty congratulations from the grand jury on his first appearance in St. John at the sessions of the circuit court as Chief Justice of the King's Bench Division. An address was presented to him, read by the foreman, R. O'Brien. His honor replied at some length, and other congratulatory remarks were made by Recorder Baxter, D. Mullin and Dr. R. F. Quigley.

Seek Incorporation.

Frederick, Dec. 2.—H. G. Marr, J. H. Marr and E. C. Weyman, Mrs. Bessie Marr and Mrs. Helen K. Marr, of St. John, are applying for incorporation of the Marr Millinery Co., Ltd., with an authorized capitalization of \$48,000, and head office at St. John.

How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule, contain a large quantity of plain syrup. Two cups of granulated sugar with one cup of warm water, stirred for 2 minutes gives you as good syrup as money can buy.

Then get from your druggist 2½ ounces Pinex (50 cents worth), pour into a 16-ounce bottle and fill the bottle with sugar syrup. This gives you, at a cost of only 54 cents, 16 ounces of really better cough syrup than you could buy ready made for \$2.00—a clear saving of nearly \$2. Full directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or chest cold at once and conquers it in 24 hours. Splendid for whooping cough, bronchitis and winter coughs.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and heals and soothes the inflamed membranes in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with quiescol, and has been used for generations to heal inflamed membranes of the throat and chest.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Toronto.

O'Rourke has taken Phil Harrison of the west under his management and Harrison will get a try out Dec. 19 against Larry Desmond in New York.

Larry Lightenstein, manager of Clabby, has been criticized a lot by old-time boxers and others for a statement in which he was quoted as saying:

"There is a great difference in the old and the present style of boxing. In the old days it was generally agreed that the place to aim for in boxing was the head. So the arms were held high up and though some such blows as the kidney punch were known, the body of an opponent was generally neglected.

The average boxer among the old-timers believed that a blow which marked an opponent's face was much more telling than one which landed on the body and slowed him up.

"But the boxer of today pays at least as much attention to the body as to the face or head. Attempt to box with a man like Clabby, or Gibbons, or Welsh and you'll find that he'll hit you five times on the body to every punch he lands on your face or head. The

style has changed. The old fellows boxed straight up.

"The fighters now have to dig in and strike from every conceivable angle. The only class that falls below standard is that of the heavyweights, but that is only a temporary situation. It will not be long before we have white fighters who could have whipped John L. Sullivan, Jim Corbett, Bob Fitzsimmons or even Jim Jeffries in the days when Jim could really fight."

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear, or a discharge, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, after cases get so bad that the patient is obliged to wear an artificial ear.

We will give you HUNDREDS of Dollars for any case of Deafness caused by Catarrh of the Eustachian tube.

FIGHTS CHANGES, BUT NEVER GETS A PURSE

FRANKIE LYNN

Whenever Freddie Welsh, Charlie White, Willie Ritchie, Mike Gibbons or Packer McFarland ever did any training in Chicago they always picked out Frankie Lynn to give them the necessary workouts. Therefore, Frankie has had the gloves on with the class of the boxing profession more often, perhaps, than any other battler. He was so busy helping other fellows win prizes that he rarely had a chance to step out and get them himself. Now he's after the welters and after them hard. Frankie is a lean boy of 185 to 182 pounds, who can box and hit and usually gives a good exhibition whenever called upon.

Roger Bresnahan is to be a Cub fixture. "Fixture" in the Cub sense of the word means one season if you are lucky. John Bunney says he is thankful for his face, which gives Nick Altrock and Kid Broad double reason to be thankful.

BRONCHITIS

If Neglected Will Surely Turn Into PNEUMONIA.

Bronchitis comes from a neglected cold. It starts with a short, painful, dry cough, accompanied with rapid wheezing, and a feeling of oppression or tightness through the chest. At first the expectoration is of a light color, but soon becomes copious and of purulent character.

You have, no doubt, wakened up in the morning and have had to cough half a dozen times before you could raise the phlegm from your bronchial tubes, and when you do succeed in doing so you find that it is of yellowish or greenish color, and you get some relief right away. When this happens to you, you may rest assured that you have a touch of bronchitis, and if not cured immediately it will sooner or later develop into pneumonia or some other more serious trouble. Care the cold, and thereby prevent bronchitis and pneumonia taking a hold on your system.

This can be quickly done by the use of **DR. WOOD'S NORWAY PINE SYRUP.**

Mrs. Rebecca Hove, Mahone Bay, N.S., writes: "My little boy, aged six, was always troubled with bronchitis, and when he had whooping cough he was worse. Doctors advised me to use Dr. Wood's Norway Pine Syrup. It gave him instant relief, and positively cured him."

CHEERFUL OVER OUTLOOK FOR WINTER PORT

Mr. Groat Speaks of Situation—Captain Beathan New Official Here

Many of the members of the clerical and warehouse staffs of the Canadian Pacific have returned to the city from Montreal and Quebec to be stationed here for the winter. R. H. Bienerhass, dock superintendent, has again come to St. John from Montreal to act in the same capacity. A new official this winter is Captain Beathan, marine superintendent, who succeeds Captain Elliott, the latter having been appointed to an important post in the Atlantic coast defence. Captain Beathan has been for some years marine superintendent in Vancouver, and comes to St. John well fitted for the duties devolving upon him. "If we can secure the boats," said H. C. Groat, superintendent of the Atlantic division of the C. P. R. this morning, "I believe that business through St. John will be very steady this winter. The export business, of course, will be particularly encouraging, while the import trade should be fair also. Boats which have sailed this far from the other side have had good incoming cargoes, and there is every hope that these may continue." Preparations for the re-opening of the winterport are now being actively carried out by the C. P. R. and other companies.

THE SENIOR BOWLING LEAGUE UNDER WAY

Y. M. C. A. Teams Announced—Basket Ball Matches Last Night

The Y. M. C. A. bowling committee: A. Estey, F. G. Bent, A. E. Megarity and A. G. Stevens—met last night and formed the Senior Bowling League for this season, consisting of five teams. The league will open on next Monday, between A. G. Stevens' team and E. A. Smith's crack team. A hot contest is anticipated.

For the present the schedule has been drawn up for only one week, but at next Monday's meeting it will be enlarged and made out into three periods, running into the latter part of February or March. The schedule will be published when completed. The following are the captains and their teams:—A. G. Stevens (captain), B. Stevens, R. Ward, A. Estey, L. Lingey, and Mr. Peacock.

E. A. Smith (captain), F. G. Bent, W. Hill, G. Roberts, L. Estey, G. Tapley (captain), G. Gamblin, H. Jackson, E. Cameron, A. Thompson, S. McCavour.

A. E. Megarity (captain), O. McDonald, A. Callan, J. Howard, F. Thorne, C. Folkins.

W. Latham (captain), J. Elliot, H. O'Dell, F. Knodel, A. C. Harper, J. B. Dawson, S. Flewelling.

With these five teams lined up a very interesting season is expected. The games and the records will be published from time to time.

Basket Ball
Yesterday afternoon the Junior "B" Basket Ball League played another game. This time Seely and Trentowsky showed their skill. Both teams played hard and steadily, but Seely's team proved a little the stronger this time. McIntosh and Flemming did fine work. Both teams were confident victors. Last night the Junior Boys' League played the second game of their series. Morton and Myles had a battle royal, but toward the end of the last half Morton's team made a few quick plays and at the close found the score nineteen to ten in favor of Morton. Tomorrow evening the senior league will be organized.

COLONEL McLEAN SAW OUR LADS AT SALISBURY PLAIN

Brings Home Cheery Word of British Feeling in National Crisis—Enthusiasm Over the Canadians

Colonel H. H. McLean, M.P., returned to St. John today from England, looking in the best of health and feeling so. He crossed on the Lusitania. He spoke interestingly of conditions on the other side, saying that the English people were supremely confident of the result of the great national crisis, and were particularly enthusiastic over the manner in which Canada and the other colonies were coming to the aid of the motherland.

To say that the people of England were proud of the Canadians who had landed on their shores to fight the battles of the empire was indeed a mild way of expressing their regard. Their every appearance in the big cities and small towns was the signal for a demonstration of patriotic enthusiasm, and when some of them marched through London in the Lord Mayor's parade, the reception accorded them was inspiring.

Colonel McLean, while in England, visited the camps at Salisbury Plain several times, and had the pleasure of seeing the St. John boys in drill and on parade. He was proud that the city was so well represented, for every arm of the service with representations from St. John was a splendidly appearing and working unit. The officers were popular with the men, and on all sides there was a tidy, soldierly appearance.

Officers who were taken raw into the service being not distinguishable from the "old soldiers," so well had they been put into shape.

PROBABLY WILL BE WORKED OUT ALL RIGHT

Owing to the deadlock which arose in the council yesterday, action with regard to the superannuation of Chief Clerk is deferred for the present, but it is expected that a way out of the difficulty will soon be found, while the resolution providing for a superannuation allowance was opposed because of its wording, there has been very little opposition to the plan itself. It is believed that all the provincial government requires is the assurance of the city that such an allowance will be provided, and once this is given that there would be little delay in arranging for his retirement.

A KICK FROM NORTH END
A correspondent writes to The Times and more light in the North End. We quote: "Let us have a post office in the North End. Visiting friends fail to find one, and very often have difficulty in securing postage stamps in drug stores, or are obliged to wait while the druggist is filling a prescription. All this is very pleasant when your time is limited. After the stores are closed in the evening one half of Main street is like a subterranean passage. Let us have some Chinese lanterns for Christmas."

Look Through the Merchant's Eyes

If the manufacturer who seeks a market for his product will look through the eyes of the retailer his advertising course will be clear.

When the retailer advertises he uses the newspapers of his home city—because they bring him business.

He over the counter of this same retailer that the manufacturer must look for his sales.

If his advertising is in the newspapers, he and the retailer are doing the kind of "team work" that will bring greatly increased business.

Manufacturers with advertising problems are invited to address the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York.
