KEEP LOBBY ON STREET CAR BILL

Takes First Place in Interest in Fredericton

CEGAR HILL MATTER

John Connor Before Committee and There Are Sharp Words—Chief of Police Measure Also Has Attention—Ex-premier a Visitor

(Special to Times)

Fredricton, N. B., March 12.—At noon today the corporations committee had not time to go into private session upon the Suburban Street Railway bill. The interest in the measure is all absorbing and the opposition on the part of the St. John Railway Company is making every effort to defeat it. This morning the lobbyist against it was reinforced by Directors R. B. Emerson and Wm. Downie of the U. P. R., Messrs Fred Taylor and I. M. Hopper with the best of every assistance have been busy every day. The telephone and telegraph offices have been freely used to bring messages of persuasion and influence from points throughout the province and even Ottawa has taken an interest in the fate of the bill. Messrs. Thomson and Deberry, with King Hazen, are both here in the interest of the wider suburban service.

Some surprise has been expressed because the St. John Railway "back fire" bill to extend their lines into Kings county has been referred to the law committee instead of the corporations committee. Why there should be any change of committee is not understood.

Cedar Hill Bill

Besides the railway bill another measure attracting much interest this morning is the Cedar Hill bill. The bill holders of Cedar Hill are asking incorporation and L. H. Thomas, H. W. Thomas, S. A. Thors, Wellington, J. M. Diney, C. T. Jones, A. C. Gregory, George Chamberlain, H. J. Smith, Oscar Harrison and Messrs. Miles and Allingham are urging their claims. John Connor, manager of the Cedar Hill and still the owner of many adjacent lots now in use, is here safeguarding his interests. It has been some time since Mr. Connor's eloquence has been used in committee rooms of the legislature. He did not please Hon. Mr. McLeod or Chairman Slipp, who promptly called Mr. Connor to order, and when he repeated their tone he was threatened with what might happen if he persisted.

Among visitors of note in the House of Assembly today were Hon. C. W. Robinson of Moncton, who has been speaker of the house for years, premier for a few months and leader of the opposition from 1908 to 1911. Today he appeared as city councillor of Moncton in support of legislation sought by the legislature.

Mr. Robinson did not meet any of his former associates, who supported him from those who opposed and who are stronger than ever. His brother, F. C. Robinson, an alderman of Moncton, and Mayor Gross were also of the delegation.

LETITIA HAS PASSENGERS AND MORE THAN 100 HORSES

Donaldson liner Letitia arrived today from Glasgow and docked this afternoon at 12:30, landing 245 cabin and 290 third class passengers. She also had a large general cargo including a shipment of 110 horses. One of the horses died on the journey across. The Letitia sustained serious damage to her stern on the last trip from here on January 6, caused by the heavy seas, and it was necessary to put in practically a whole new stern. The steamer encountered no rough weather, however, on her return voyage.

TORIES BEATEN; THEY GIVE WAY TO ROYALTY

Catcalls and Whistles Their Only Answer to Liberal Naval Arguments

Sturdy Young Liberals Led by Carvell In Night Watch—Panic and Rush for Conservative Absentees Make Government Forces More Ridiculous Than Ever

(Special to Times) Ottawa, Ont., March 12.—Hon. Robert Rogers, who, with Hon. Dr. Reid and Hon. Mr. Kempf, essayed to lead the government forces through tonight's long vigil, was waiting with a sincere welcome for Hon. Frank Cochrane and the relay of ministers who arrived early this morning. In future he will select some other relay than when the militant young Liberals led by fighting Frank Carvell, as on the former occasion when they were on the Liberal side, they were on the Liberal side when they were on the Liberal side.

Hugh Guthrie, of Wellington, John Angus McMillan, of Glenora, archie McColg of West Kent, Duncan Ross of West Middlesex, James Douglas of Strathcona, Alexander Chisholm, of Inverness and George Kyle of Richmond, formed a stalwart young band of Scotsmen who controlled the situation. The young men came down to the front benches and sat around Mr. Carvell, their leader, throughout the night, vigorously applauding their speakers and challenging unceasingly interruptions.

Rowdiness Led by Rogers

It was characteristic of the Rogers style of campaign that, outspurred by militant young Liberals, the government members resorted to unseemly exhibitions of what Mr. Carvell characterized as hoodlumism. Cat calls, groans, the blowing of whistles, the slamming of desks and other efforts to drown out the speakers were made by the Conservatives.

This disorder, which the chairman was unable to control and which was finally encouraged by Mr. Rogers, reached its height when John Angus McMillan, was speaking. "Let them go," he declared, when Mr. Carvell rose to again appeal for a semblance of order. "It's all they can do. They must not speak. They can only make noise. The Canadian people will take an early opportunity to put them back where they belong."

HUDSON BAY NAVIGABLE FOR AT LEAST FIVE MONTHS

Report from Expert Also Speaks of Rich Farming Land

Cochrane, Ont., March 12.—It is understood that the report of G. L. McMillan, a Pembroke and Northern Ontario geologist, who spent five months last year on the shores of James Bay for the purpose of locating a site for a harbor, will go to show that Hudson Bay is navigable for five months of the year at least; that the opinion that the Moose River is not navigable and that Hudson Bay is shallow, is wrong.

MATTER AFFECTING THE JAMES READY ESTATE

A change in the assessment laws as they relate to the assessment of property held by the executors of estates was called for by one of the executors of the James Ready estate who appeared before the city commissioners this morning. All the property is located in the county but as one of the executors is a resident of the city the city could have the privilege of assessing taxes on his portion of the personal estate. He asked that this be exempted. As special legislation would be required and it is not late in the session of the legislature the commissioners decided that there was nothing they could do.

ECZEMA IS CAUSED BY IMPURE BLOOD

Cared by Dr. Williams' Pink Pills Because They Make Pure Blood.

Ask any doctor and he will tell you that eczema is caused by impurities in the blood; that nothing can cure it that does not reach the blood—that active and outward applications are worthless and a waste of money. The reason why Dr. Williams' Pink Pills have always been so successful in curing this most annoying trouble is because they act directly on the blood, reaching the root of the trouble and driving out all impurities. They banish eczema, eruptions, relieve the irritation and itching and give perfect health.

Chatham Gazette—F. G. Fulton, manager of the Bathurst iron mines, was a guest at the Touraine on Friday. He reports considerable activity at the mines, where more than 100 men are employed in stripping the lay from the ore beds and in putting in another crater. A narrow gauge engine has been secured for conveying ore to the crusher, and the coming season promises to be a very busy one. The class of ore shipped has proved very satisfactory, and from present appearances the demand will exceed the supply.

A MOBILE WOMAN'S EXPERIENCE SHOULD BENEFIT OTHERS

Fourteen years ago I was quite sick, that is, most of the time found it almost impossible to be up and attend to my daily duties as a wife and mother. At times I thought I could not endure the suffering much longer, so naturally consulted our family physician who told me once that I had a severe case of kidney trouble. I consulted another physician at Denver, Col., who told me that I had kidney trouble and needed careful treatment and a long rest. After doctoring with the physician for several months and receiving benefit, I decided to try Dr. Kilmer's Swamp-Root, which had been recommended by my husband's partner. To be honest, I did not have any faith in Swamp-Root, but thought I would experiment on at least one bottle.

After taking one fifty-cent bottle I felt so much better that I bought a dollar bottle and continued its use for a few months, after which I felt so well and free from my former suffering that I pronounced myself cured.

I feel safe in saying that your Swamp-Root prevented my having Bright's Disease and therefore, saved my life.

To prove my gratitude I will allow you to publish this testimonial any time you wish. I also tell my friends what Swamp-Root does for me and know of several cases where cures have been accomplished. I believe almost every one living in the South should use Swamp-Root at least one or two months in the spring, as it rids the system of all impurities.

Respectfully yours,
MRS. W. L. BEMIS,
Mobile, Ala.

Temporarily appeared before me, this 20th day of March, A.D. 1912, Mrs. W. L. Bemis, who subscribed the above and who testifies that same is true in substance and in fact.

THE BOARD OF TRADE

Opposition to Head Tax—I. C. R. Trains and Other Matters of Importance

The amended by-laws of the board of trade were adopted at a meeting of the board held in their rooms in Prince William street last evening, thus clearing the way for the election of the large number of new members at the new rate of \$25 per annum and making ready for the enlarged programme of the re-constituted board. The general effect of the amendments, which already have been published, is to provide a more efficient organization for carrying on a broader and more effective work.

The board decided to continue its agitation for replacing the I. C. R. trains making connections from St. John with the Ocean Limited and for renewing the South Shore steamship service. In connection with the latter matter the president made the interesting announcement that a group of Yarmouth men are preparing to establish a new service on this route.

The matter of arranging an association for employed men and those who did not feel able to pay the \$25 fee was left to the council.

One of the most important matters dealt with was the re-elected head tax on laborers and the members present unanimously placed themselves on record as opposed to the principle of such taxes and urged their abolition.

The new secretary, Henry T. Hoag, was present at the meeting and at the close was called upon for a speech. He responded briefly in a most impressive manner and his remarks were greeted with vigorous applause.

MORNING LOCALS

The Trinity Branch of the Women's Auxiliary to the M. S. C. C. met in Trinity church yesterday. Holy communion was celebrated at 10 o'clock and was followed by an address by the rector, Rev. R. A. Miss Ethel Jarvis read an interesting paper on the new diocese in mid-Canada.

A young lad went into the store of F. W. Munro, Main street, yesterday while the proprietor was absent, and asked the clerk for thirty-five cents which he said Mr. Munro owed him for a ticket to a church concert. The clerk refused to pay, but meeting him later in the street, brought the lad to the store, where he said that Mr. Munro was not the man he sold the ticket to, but it must have been some other man. The boy was severely lectured and let go.

The musical troupe of the Donaldson liner Cassandra gave a concert in the Seaman's Mission last night before a large audience. Every number was greatly enjoyed, and received hearty applause. Among those taking part were Messrs. Manthorne, Evans, J. Innes, J. Smith, Mr. Evans and Mrs. Clark, who fulfilled the duties of pianist, were heard in a duet. Margaret Barry was sentenced to \$30 or go to jail for six months on a charge of keeping a disorderly house, and Michael Ryan received the same penalty as an inmate.

The special committee of the Municipal Council met yesterday to arrange for calling tenders for the sale of the Municipal Home property. Delivery of the property will not be given until August 1916, in order to give time to prepare a new home. The committee will hold another meeting to report on a new site, and the cost of replacing the property.

German capitalists are showing increased interest in the possibilities of new Brunswick. A cable announces that 100 German manufacturers are to visit the maritime provinces to observe water power. E. WHAT THE PLAYHOUSES OFFER

KAISER'S TERRIBLE ATTRACTION AT LYRIC.
Without a question one of the best vaudeville attractions of its kind seen in St. John is now at the Lyric theatre. It is Kaiser's troupe of trained terriers, which consists of eleven dogs who give a performance not in one respect like any other dog acts that have been presented at this house. Each feat is not only new but is accomplished with remarkable skill.

The singing dogs are a distinct novelty and when one little fellow is reprimanded for not doing as he was told, lustily cries "Mama!" the audience can only say, "Well hearing is believing." The steeple chase is also a clever piece of work and the comedy contained in the performance the dogs offer is good. A special matinee will be given this afternoon for the children and the engagement will be brought to a close this evening to give way to The O'Connell Girls and Finlay's, a trio of refined dancers and singers, who will be the attraction Thursday, Friday and Saturday.

SAYS INSULT TO THE CANADIANS

Hon. Mr. Emmerson in Strong Speech in House

BELITTING OUR PEOPLE

Tories Approve This But Liberals Oppose—Corderre Not in Parliament to Face the Charges to Be Made

Ottawa, March 11.—Hon. Mr. Corderre, secretary of state, was not in the house today. Premier Borden had promised that he would be to answer the charges to be made against him in connection with the Hochberg election case, but he did not show up today and it was reported that he was in a Montreal hospital in consequence of the letter was that no part of the British navy should be built in Canada. The government in factoring the letter had shown a lack of confidence in the Canadian people, and in Canadian manhood.

The strongest utterance of the day were by Hon. H. R. Emmerson. Among other things he said: "The government in factoring this letter from Mr. Churchill has shown a want of confidence in the Canadian people that is unworthy of representatives of the people."

"Mr. Churchill is impregnated with the idea that 'Canada' is synonymous with 'colonial' and that there is an inferiority marking Canadians because of the fact and because we do not happen to be at the centre of the empire."

"I believe that there has been no document, no utterance from a British statesman in seventy-five or 100 years more calculated than this to do injury to empire building."

"Are we to be insulted by the first level of the admiralty and that insult to be adopted by the government of Canada?"

"This action of Mr. Churchill is calculated to cause more irritation and do more injury to our constitutional development than anything that has come since the days of Lord North."

"My hon. friends speak of this as a blow for the Liberal party. I care not as to a blow at party. It is a blow at the constitution, it is a blow at a free people, it is a blow even to the loyalty to king and country."

"This is not a question of party conflict. It is superior to and beyond all that. It is the interference of British minister in the domestic affairs of Canada, interference which comes after he was well aware of the difference prevailing in Canada over this naval question."

"What right, what business, has Mr. Churchill to tender advice to the Canadian people as to what they shall or shall not do in regard to a matter of domestic difference of opinion? It is an insult to Canada, unparliamentary and unwelcome. It is a gratuitous and insulting interference with the political affairs of Canada."

"What right has Mr. Churchill to say that 'Canada' is synonymous with 'colonial' and that there is an inferiority marking Canadians because of the fact and because we do not happen to be at the centre of the empire?"

"Does Mr. Churchill dare to say that in Canada that we are not men equal to those of Britain? That we have not men of brain and ability?"

"Throughout his long life Mr. Churchill has been a prominent figure in the community. For many years he was active in the shipping business and his activities were prominent as the home port of many wooden ships. He was a descendant of a Massachusetts Loyalist, Colonel Thomas Gilbert, who served in the British army during the revolution and came to this province in 1782."

"His father was a grandson of John Gilbert, who arrived in Dorchester (Mass.), from England about 1630, and his mother was a daughter of Samuel Bradford, of Duxbury (Mass.), and a great grand daughter of Governor William Bradford, of Plymouth Colony, the line being Governor William, William, Samuel, Hannah. The maiden name of Colonel Gilbert's wife was Mary Gentry."

"Mr. Gilbert received his education under the direction of a private tutor. He began his business career in his father's store and later engaged in the shipping business with his brothers, Bradford, Henry and James, who all have since died. He retired from business in 1868. He was a former vice-president of the Bank of New Brunswick and was a member of its board of directors for 28 years. In 1870 he married Miss Marion Ferguson, of this city. She was the daughter of Francis Ferguson, who was connected with the firm of Robert Rankine & Co."

"In his early days Mr. Gilbert was an extensive traveller and made many trips to Europe on his own ships. During the time of the Crimean war he was in England and went to the seat of the war as a friend of several of the officers of the British army. He was an eye witness of some of the most important battles of that campaign. One interesting incident in the connection is worthy of note. While he was watching the progress of a battle, an officer, who was leading a charge, was shot through the hand, in which he was waving his sword above his head. The officer bound up the wound with a handkerchief and continued at the head of his men, but later had the hand amputated. Many years after, while Mr. Gilbert was in a London hotel, a stranger came seeking him to assist him in some writing as he had only one hand. The two became quite friendly and Mr. Gilbert learned that the stranger was the army officer whom he had seen wounded in battle."

"Mr. Gilbert was reputed to be very wealthy. The Gilbert estate comprises a great deal of valuable land along the Marsh Road and on the outskirts of the city."

"Judge Mal D. Clark, who has been appointed assistant municipal judge in Brainerd, Minn., is believed by many to be the youngest judge on the bench in the state. He is only twenty-nine years old."

THOS. GILBERT DEAD

One of City's Best Known Men Passes Away at Age of 92

After an illness of only two weeks Thomas Gilbert died last evening at seven o'clock in his apartments in the Dufferin Hotel. Mr. Gilbert had reached the great age of ninety-two years and had an excellent health until a fortnight ago. He is survived by his wife and one sister, Mrs. Elizabeth "Lizzie" of Reddock street. Walter Gilbert is a nephew.

Throughout his long life Mr. Gilbert had been one of the prominent figures in the community. For many years he was active in the shipping business and his activities were prominent as the home port of many wooden ships. He was a descendant of a Massachusetts Loyalist, Colonel Thomas Gilbert, who served in the British army during the revolution and came to this province in 1782.

THE GARDEN OF EDEN AND THE MAN OF EARLY TIMES

The prehistoric skull recently discovered in England is welcomed as a long expected ally by Dr. Franklin H. Giddings, professor of sociology and the history of civilization at Columbia University. Dr. Giddings asserts that the really significant thing about the discovery is the light it throws on man's Garden of Eden—his original home.

"I have been expecting this old Englishman to be discovered for many years," Dr. Giddings announced with a smile to his class of 200 graduate students when the discovery was announced in the newspapers. "More than ten years ago in one of my books I made the statement that the light it throws on man's Garden of Eden—his original home."

"Other bits of evidence in the shape of stone axes and flint tools have been dug up in Belgium and at Gibraltar, all showing that Europe was once inhabited by a race of men much inferior to the lowest living savages now found in Australia, Tasmania and Africa."

All this, Dr. Giddings believes, indicates that the 10,000 mile strip of land extending from Java to England saw the development of man from ape at approximately the same time. According to Dr. Giddings, the entire strip of land was very fertile during pre-historic times. It was perhaps the nearest approach to a Garden of Eden then to be found. This pre-historic man of England is a link in the chain of evidence which proves that the Garden of Eden was several thousands miles long.

TO GROW HAIR ON A BALD HEAD

By A SPECIALIST

Thousands of people suffer from baldness and falling hair, who, having tried nearly every advertised hair tonic and hair-grower without result, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair gray, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Compose, 2 ounces; Menthol Crystals, one-half dram. If you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired.

appe vitality. Hard work tires the stoutest muscles. Continued concentration and work without relaxation result in infinite, permanent depression of mind and lassitude of body.

Wilson's Invalids' Port Wine is a bracing, invigorating tonic that steadies the nerves and builds staunch bone and muscle. Doctors know!

Remember—a brimming wine-glass before each meal.

ALWAYS A BETTER TOMORROW. So long as a man has the courage to face one more day, so long will he be a factor in the race for material success. He whose past looms constantly in front of him, who lives in retrospect, has cheated the boatman of the Styx and encumbers the machinery of this world. To live is to be in the things that are and will be, not to count on the things that were, but to figure on the things that are and will be, not to say that today is not so good as yesterday, but to declare that tomorrow will be the best day the universe has ever seen.

RASH ON FACE HANDS AND ARMS

Skin Would Creak Over and Peel! Spots Large, Used Cuticura Soap and Ointment. Has Not Had a Mark on Her Since. They Also Cured Mother of Pimples on Face.

FREE TO ALL. No fee will be charged for the Livingstone lecture by Dr. J. A. Morrison in German street Baptist church on Friday evening next. The meeting is open for the public. Those in charge plan for a great Livingstone celebration. No person has read the life of David Livingstone without being thrilled by the service he performed. Come on Friday evening and hear the story of the great missionary and explorer, by one who was intimately acquainted with the Livingstone family.

My baby's troubles began as a rash and the skin used to sometimes peel off and look as if it were going to get better; but would just creak over again and peel. The spots were large and it used to make her face very red and inflamed all the time. It came on her face, hands and arms, and it used to make her restless at night. She got the rash in March and how I hated to see it on her little face and hands! I tried a lot of different things after that but nothing did any good. I saw the advertisement and sent for samples of Cuticura Soap and Ointment and it started to get better right away. I used them only about once a day, and in little more than two weeks she had a spot on her anywhere. She had it three months before I used the treatment. She has not had a mark on her skin and she is two and a half years old now. Cuticura Soap and Ointment also cured pimples on my face." (Signed) Mrs. McKnight, Jan. 8, 1912.

For treating poor complexion, red, rough hands, and dry, thin and falling hair, Cuticura Soap and Cuticura Ointment have been the world's favorite for more than a generation. Sold throughout the world. Liberal sample of each mailed free, with 25-p. Skin Book. Address post card Postier Drug & Chem. Corp., Dept. 34D, Boston, U.S.A.

MEANS POLICY OF NAVY TRIBUTE

Strong Presentation of Case By Dr. Pugsley

NO DIFFICULTY IN 1910

Admiralty Saw No Obstacles Then to Canada Building Warships—Churchill Letter Confirms Content Put Forth by Liberals

Ottawa, March 11.—The Telegraph's correspondent interviewed Hon. William Pugsley this afternoon in reference to the correspondence between the prime minister and Hon. Winston Churchill, submitted to the house last night by the premier.

Dr. Pugsley said that it was most unprejudiced and grossly unfair of the government to withhold the full correspondence until so late a period in the debate and to merely furnish the house with extracts. "It might be well," said Dr. Pugsley, "to call attention to some of Mr. Churchill's statements. His contention that it requires a special class of men and machinery to manufacture armor plates, guns, and gun mountings, is entirely irrelevant, because during the discussion the Liberal speakers have stated that the armor plate and armament would have to be obtained in England; but they could easily and cheaply be brought to the Canadian shipyards.

"Suggesting that the possible introduction of internal combustion engines may revolutionize the whole of the engine construction of warships seems a far-fetched argument to raise against the building of warships in Canada. The same argument could be made against the building of ships in Great Britain. And yet Mr. Churchill himself refers to a new shipyard that had been set up at Elswick. They don't seem to be afraid to move ahead by reason of possible changes in engine construction.

"Then Mr. Churchill speaks of the necessity of buying big pumps, steering gear, etc., from people on the admiralty list. How absurd it is to raise this trifling matter as an objection to building warships in Canada.

Saw No Difficulty in 1910.

"This was provided for in the specifications prepared by the admiralty in 1910 on which the tenders were called, and the admiralty then saw no difficulty in the contractor obtaining these articles from people on the admiralty list.

"Then, think for a moment of the difficulty which Mr. Churchill suggests when he says that for a building yard capable of building a battleship of 27,000 tons heavy cranes and appliances necessary and care would have to be exercised in selecting the site in regard to the nature of the soil for the blocks and launching facilities. And Mr. Churchill in this connection says that the existing shipyards might not be adapted for this purpose.

"Who could have told Mr. Churchill that the Liberal party proposed to utilize existing shipyards to build warships in Canada? We have always admitted that new and suitable yards and shipbuilding plants would have to be provided by the contractor. This was stipulated for by every one of the tenders agreed to lay down a shipyard and plant specially adapted for the purpose.

"It is important to bear in mind that Mr. Churchill gives the total cost of the new Elswick shipyard for the building of battleships at approximately three-quarters of a million pounds, equal to about \$3,750,000, the same estimate as I gave some time ago of the cost of the thoroughly up-to-date shipyard and plant of the Fore River Shipbuilding Company at Quincy, Massachusetts.

"The statement at the close of Mr. Churchill's memorandum, that the cost of laying down a plant to build a battleship would be fifteen million pounds, is utterly without weight. I presume he means the cost of a shipyard and shipbuilding plant, probably not knowing that the mills at Sydney, Nova Scotia, are already equipped to roll the plates, and wrongly assuming that it would be necessary to manufacture in Canada the armor plates and guns. Very few, however, of the shipbuilders in Great Britain manufacture the armor plate and armaments.

"When asked as to his opinion of Mr. Churchill's statement that owing to the existing difficulties which now exist more than in 1910 the admiralty could not undertake to lend men and officers who might be temporarily required to man two Canadian fleet units, Dr. Pugsley said that if there was anything in this it meant that Canada, instead of sending untrained dreadsoughts to England, should proceed as rapidly as possible to obtain recruits for the naval service and gradually build up a Canadian navy.

"In conclusion, Dr. Pugsley said that Mr. Churchill's letter confirmed the view which the Liberals have been seeking to emphasize—"If this appropriation goes through it will be the beginning of a series of contributions to the British admiralty and a death blow to the aspirations of the Canadian people who favor a Canadian navy."

He concludes with the words: "A big boom has struck this city and this, with the large works under construction, should greatly increase the earnings of our company."

AFTERNOON POLICE COURT

In the police court yesterday afternoon the case of Mrs. Michaelson, reported for selling cigarettes on Sunday, was dismissed as the magistrate did not consider there was sufficient evidence.

John Jeffrey, arrested for stealing an overcoat, the property of Alfred Delong, was severely lectured and sent to jail for three months without the option of a fine.

James Shaw, charged with stealing a pocket book containing \$5 from Miss Mad Lake, was further remanded.

A fine of \$50 or six months in jail was imposed on John McLean, who was arrested last week for creating a disturbance in the Western House, West Side, but on account of it being his first time in court, he was allowed to go on suspended sentence.

Two brothers, Harry and Robert Ross, arrested for interrupting a meeting in the Salvation Army barracks, Rodney street, West End, by using profane language, were each fined \$5 or two months in jail.

Four prisoners charged with drunkenness were fined \$5 or two months in jail. The other cases of selling cigarettes and beer on Sunday will be resumed on Thursday.

A lookout station has been established on top of Mt. Lonsan, Cal., at a height of 11,000 feet. From that point a fire anywhere within a radius of fifty miles may easily be located.

For Freckled, Rough or Spotty Complexions

(From The Dermatologist.) The freckling, discoloring or roughening to which delicate skins are subject after exposure to wind or sun, often appearing in early spring, may readily be gotten rid of. Mercolized water, spread lightly over the face before retiring and removed in the morning with soap and water, completely gets off the disfigured skin. Get an ounce of the "wax at any drug store. There's no more effective way of banishing freckles or other cutaneous defects. Little skin particles come off each day, so the process doesn't even temporarily mar the complexion, and on one acquires a brand new, spotless, girlishly beautiful face.

Wrinkles caused by weather, worry or illness, are best treated by a simple solution of powdered azaxite, one ounce, dissolved in a half pint of witch hazel. Bathing the face in this produces a truly marvelous transformation.

ATHLETIC Harvard Fund for Trainer's Widow Harvard men who have been members of the "variety athletic teams for the last twenty-five years are to subscribe to a fund which will be presented to the widow of Jimmie Follen, a famous trainer and rubber of Crimmon athletes for a quarter of a century, who died at his residence in Cambridge just before the beginning of the college year last fall.

Follen was an institution at Harvard, and, after the death of John, the Orange-man, was the most popular mascot of Crimmon athletes. He knew intimately many other men. When he died last September, from a sudden attack of pneumonia, he left a widow and two children.

William F. Garcelon, graduate treasurer of Harvard athletics, is in charge of raising a subscription to be given Mrs. Follen. He has sent the following letter to all Harvard men who have been on the "variety teams in the last twenty-five years.

"James Follen, known to all Harvard athletes for the last twenty-five years as 'Jimmie,' died last fall, leaving a widow and a son and daughter. It is desirable that it be suggested that it is desirable to raise a small sum of money and present the same to the widow as a slight testimonial of the esteem in which 'Jimmie' was held by Harvard men. Those desiring to subscribe will kindly send their contributions to me at the Harvard athletic office."

Jem Hall Dying. Neenah, Wis., March 10.—"Jem" Hall, a former well-known pugilist, is dying of tuberculosis. He is penniless and his one great physical asset has been wasted away until he is hardly recognizable.

Just twenty years ago Saturday Hall was knocked out in the fourth round by Robert Fitzsimmons at New Orleans for a purse of \$40,000. The State Anti-Tuberculous Society is now caring for him.

Is Training Kennedy. C. Edgar Kenney, son of John Kenney, Jr., of this city, is making a name for himself in the American southwest as a boxing instructor, and master of the game himself.

He is now in Los Angeles training big Ed. Kennedy, who is Fred Mac's white hope in the ring world. Kenney was given the rudiments of the pugilistic art in John T. Power's school of instruction here.

Business Manager Arthur Irwin of the New York American writes from Bermuda that "Chance was delighted with the new training camp and was already fit to play ball again. Chance is eating well, sleeping soundly and has no headaches. He is working hard and is hitting the ball a mile."

Manager Johnny Evers, of the Cubs, is paying a lot of attention to the pitching staff. He figures that his only chance to get into the fight and stay there rests with his writers. Lavender is in pretty good shape now, but some of the others are not so certain what they will be able to show.

Had Rheumatism WAS CONFINED TO HIS BED FOR FOUR MONTHS. Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who says me then would not know me now, as I am strong and active since taking your valuable medicine."

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of this, and unless you remove the cause by flushing the kidneys, there is no possible chance of getting rid of rheumatism.

Doan's Kidney Pills help the kidneys to flush off the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering direct, specify "Doan's."

Why Not Have the Commission Put Curb on "Cover Up" Habit?

By TOM ANDREWS

THE "cover up" habit, which is getting to be second nature with most boxers, is becoming a very disgusting one to the spectators at boxing shows and meets with almost as much disapproval as the "spit" ball pitcher in baseball.

When you get two boxers who have the "cover up" habit, then look for a rank contest, for neither one seems willing to start the fireworks, with the result that they both stall through the six or eight rounds and disgust everyone present.

It is all right for a boxer to resort to the "cover up" when he is in hard straits and needs a chance to recover himself, but for a boxer to deliberately start out in a limited round bout to "cover up" before hitting a blow, it is going too far; in fact it is not boxing, but stalling.

The crutch was brought into use by James J. Jeffries and was worked out by Tommy Ryan, who was teaching Jeffries the art, then, Jeff never let it interfere with his work; it enabled him only to better evade the straight punches of an expert like Jim Corbett and a slugger like Bob Fitzsimmons.

Then came the "cover up" among some of the New York and Philadelphia boxers, although Eddie Hanlon, a San Francisco light weight, had used it effectively before Leach Cross and his crowd got the habit.

At a show held in Milwaukee not long ago a six-round bout was spoiled entirely by the two boxers being of the same style—both of the "cover up" variety. Both started with their faces covered and for fully two and half minutes not a clean blow was struck.

Neither one would take a chance. Then one of them cut loose for thirty seconds and the referee threatened to throw them out of the ring. They tried to mix in the sixth for about thirty seconds, but that was all, as they both got into the "cover up" again and refused to come out of it.

It was a rank exhibition and all because of the "cover up" used by the two men. The crowd howled its disapproval and whenever the boxer appeared again that night with any semblance of a "cover up" he was given an awful roasting.

The cover up may be all right, as I stage it should be tabooed by the boxers for their own good, and also by the promoters, if they want to make the game popular and please their patrons.

If the New York boxing commission has full power to act in creating new rules, why not pass a rule that will prevent entirely the practice of "covering up" in contests of limited rounds?

The commission might at least put a time limit on the "cover up." Perhaps it would then be necessary to have an extra timer to keep tabs on the "coverers." There should be some way of putting a stop to the continual "cover-up" during a bout, for it does the game no good.

Marshall, the winner of the tournament, was spoken to on the subject of another match with Joe R. Capablanca, and he said that he would be glad to play for the sum of \$2,000, which was suggested.

The chess players here are anxious to see Capablanca retrieve himself for his failure to win the tournament here, and they are not lacking in confidence that he will be able to win, even if he does not repeat the remarkable score he made against the United States champion in 1909.

BASEBALL The Red Sox. Hot Springs, Ark., March 10.—There was a reception last evening when the bright-cut stars of the Boston Red Sox arrived with several correspondents and notables.

The first to appear was Tristan Starver. Then came Duffy Lewis, Larry Gardner, Capt. Charles Wagner, Steve Yerkes, Duke Farrer, wrestled in smiles; Neal Ball, Harold Javrin, Carstrom and Scott; two young shortstops, Mike McDonough and Lewis; and Bill Sheridan and the correspondents Lewis joined the party at Memphis and this speaker boarded the train at Little Rock. Jake Stahl's father arrived about the same time for a two weeks' visit.

The players are all rooting hard for Collins as an asset. "Why," said one of them today, "Collins is the one pitcher who can beat the Athletics for us and that looks like the club that we will have to fight the hardest."

The men here now are Catchers Carrigan, Nunnaker, Thomas and Cady; Pitchers Wood, O'Brien, Hall, Bellent, Leonard, Moseley, Foster, Ainsworth, Watkins, Reard and Martine; Infielders Stahl, Wagner, Gardner, Javrin, Ball, Carstrom, Engle, and Scott; Outfielders Lewis, Speaker, Hooper and Henrickson.

Constipation and Headache CURED BY Burdock Blood Bitters.

Various kinds of headache exist; for example, nervous, bilious, congestive, and sick headache, headache from constipation or dyspepsia, periodical headache, etc.

In all cases of headache the treatment should be directed to remove the cause, and with the cause removed the headache vanishes for all time.

It is impossible to find a better remedy for headache of every description than is Burdock Blood Bitters, acting as it does on every organ of the body to purify, strengthen and regulate the whole system.

Miss May Bourdage, New Richmond, Min. Que., writes:—"For years I was troubled with sick headache, and distress, and was also constipated. I was advised to take Burdock Blood Bitters, and I only took three bottles when I felt like a new person. I can recommend it to anyone who suffers the same as I did."

Burdock Blood Bitters has been on the market for over thirty-five years, and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Spittal Artist. Moely is the only spittal pitcher among the New York Red Sox. He will help out Buck O'Brien if necessary, in case Buck is pitted against his old friend, Harry O'Keefe.

Dismond Sparkie. Business Manager Arthur Irwin of the New York American writes from Bermuda that "Chance was delighted with the new training camp and was already fit to play ball again. Chance is eating well, sleeping soundly and has no headaches. He is working hard and is hitting the ball a mile."

Riley, Ruddell, Sask., writes:—"It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who says me then would not know me now, as I am strong and active since taking your valuable medicine."

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of this, and unless you remove the cause by flushing the kidneys, there is no possible chance of getting rid of rheumatism.

Doan's Kidney Pills help the kidneys to flush off the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering direct, specify "Doan's."

We have prepared for the grand rush of this Easter season and early spring by buying the largest quantity of Tailored Suits that we have ever bought in any one season of our history previous. The low prices we have placed on these suits with all their good qualities is certainly remarkable.

A paper description can give little idea of their great value and stylishness, so we invite our customers to inspect the stock for themselves and we feel sure they will feel perfectly satisfied in every way in choosing a suit from our large stock.

IN BAD CONDITION.
The condition of the streets about the city today was not such as to induce many to go walking any distance. The soft soil has started the snow melting and the water running has made walking most disagreeable. The sidewalks in some sections are covered with slush, while the roadways are in bad shape. This was particularly noticeable in Mill street, where there is very heavy traffic. Horses with heavy loads had a hard time of it.

DEATH OF CHILDREN.
The many friends of Mr. and Mrs. Henry Carmichael will sympathize with them in the death of their little girl, Elena, aged six years and nine months, which occurred yesterday. The funeral took place this afternoon from her parents' residence, 43 Military road, interment was in the Old Catholic cemetery. Mr. and Mrs. Francis O'Regan, Dorchester street, have the sympathy of many friends in the death of their infant son, who was born this week. The funeral was held today to the new Catholic cemetery.

Six brothers and one sister also survive. The brothers are: John, Latham, Thomas, William, Joseph and Daniel Willson, and the sister is Mrs. John Forest, all of Bay du Vin. The funeral will take place from her late residence, 35 Sheriff street, to Cedar Hill on Friday afternoon.

HON. MR. TWEEDIE SPEAKS ON BUSINESS MATTERS AND POLITICAL OUTLOOK

Hon. Lemuel J. Tweedie of Chatham is in the city today and is registered at the Royal. Speaking of conditions on the North Shore he said that in spite of the poor start there was still plenty of snow and he believed it would be a good season for the lumbermen, with a larger cut than usual.

In reply to a question about the political situation Hon. Mr. Tweedie said that he thought the government was not at all anxious for a general election, but that the sentiment of the country might yet force them to meet the challenge of the opposition.

STRAW HATS ARE OUT; WELCOME THE SPRING

When straw hats make their appearance in the streets of the city it is generally taken for granted that spring is nigh. Several ladies were seen wearing them today, mostly visiting milliners from points through the Maritime provinces. There were quite a number of these visitors in the city today attending the military opening.

NEW BRITISH GUN WHICH WILL DESTROY AIRSHIP

In the Probate court today the will of Clarence D. Robinson was proved. He gives all his property to his executor in trust, after payment of funeral and testamentary expenses and debts, to convey the entire balance to his mother, Margaret, wife of Elias H. Personal estate consists chiefly of a leasehold lot of land with house in Dorchester street, valued at \$2,000, addition to \$1,000, life insurance. BUILDING PLAN FOR GYPSY ROAD

Project to Be Laid Before The City Commissioners

MAKE 400 LOTS FOR HOMES

Scheme is For City to Sub-divide Its 100 Acres There and Provide Places For Workmen To Build Homes of Their Own

A delegation from the city and Fairville will hold a conference with the city council some evening next week to lay before the council a proposition relative to the property owned by the city on the Gypsy Settlement road, which runs from Fairville to the South Bay road. Discussing the matter with the Times, one of the delegates said that the city owns about 100 acres of land lying on both sides of the Gypsy road, and that it could be subdivided as to make about 400 lots of land 50x150 feet, some perhaps 30x200 feet. These lots would be less than half a mile from the Simms factory, the pulp mill and other industries in the vicinity. The Spruce Lake water main runs along the Gypsy road, and sewers could be arranged by the natural water course running into South Bay below the C. P. R. tracks.

The suggestion of those who will interview the city council is that these lots might be sold at \$100 to \$200 each according to location, one-tenth in cash and the balance in ten yearly payments without interest, no buyer to be allowed more than one lot. Each buyer would be required to build a house and out buildings costing not less than \$500, within two years, the plan of the house to be approved by the commissioner for Lancaster lands and each buyer to occupy the house and keep it insured.

In the event of his leaving the city or wishing to sell, it is proposed that the city retain the right to take the lot back at once. A space of at least twenty feet would be left in front of each house, and the lands would be allotted by the commissioner of land, each applicant to enclose \$10 with his application as a guarantee of good faith.

ONCE BRILLIANT LAWYER IN ENGLAND; GOES TO JAIL HERE

Magistrate Sees Temperance Lesson in Case Before Him—A Liqueur Report

James Shaw, found guilty of theft yesterday afternoon, was this morning sentenced to three months in jail with hard labor. In sentencing him, Magistrate Ritchie spoke strongly against drink, which he said had brought the prisoner, who he said was at one time a brilliant lawyer in England, to the position in which he now stood. He hoped that on the expiration of his sentence he would realize that it paid to lead a straight, sober life and would profit by the lesson he had learned. Shaw was arrested about three weeks ago on the charge of stealing a pocket book containing \$5 from Mrs. Maud Lyle, of 211 St. John street, in Brussels street.

William Shannon, who was arrested about two weeks ago on charge of breaking and entering the store of Matthew A. Harding and stealing three bottles of liqueur, was sentenced by Magistrate Ritchie to two years in the penitentiary but the penalty was allowed to stand against him on the promise that he would take the pledge and keep away from the saloons.

Four boys were fined \$8 or 30 days for throwing snowballs in Brussels street on Sunday afternoon but the fine was allowed to stand on condition that they behaved themselves on the public street in future.

Two prisoners, charged with drunkenness, were remanded.

Rev. W. R. Robinson was in court this morning and laid four charges against Philip O'Neill for selling liquor to an Indian. These four charges are covered by two transactions but the offences are named both under the Liquor License Act and the Indian Law. The case will come up Friday morning at 11 o'clock. One of the witnesses for the prosecution will be William Fritke, who was arrested about a week ago on drunkenness charge, and who told a story of having been lured to a place on Fort Howe and beaten and robbed. He is now in jail.

PLAYGROUND TEACHERS' COURSE OPENING HAS BEEN DEFERRED TILL APRIL 1

Miss Murray, Competent Instructor, Coming from Amherst—Suggestions by Mr. Bradford

It had been intended to open the course of instruction for playground teachers in this city on March 18, but a letter received from John Bradford today by the secretary of the Playgrounds Association stated that the instructor will not be able to arrive until April 1, when a course of six weeks or two months will be carried out. The school board has kindly agreed to place an assembly room at the service of the association, and the classes will be held at a time when they will not interfere with regular school work.

Mr. Bradford writes that advantage ought not to be taken of the presence of the instructor to give some afternoon demonstrations, after school, of school play and musical drill work with a class of girls, as it is done in Amherst. He also suggests that a demonstration of camp fire work for shop and factory girls might be of benefit. Whether this course is adopted or not, there will be a course of instruction for playground teachers.

This is Not One Day Too Early for a Man To Buy His Easter Suit.

The old adage: "Half an hour too early is better than half a minute too late," is applicable to buying a suit as well as to boarding a train. On the other hand, let no man imagine that we want to force him into buying because we happen to have a fine lot of New Spring Suits to sell.

The selling of these Suits was taken care of in the choosing of them, and to any man who wants clothing to be proud of, and who knows the kind that he ought to be proud of, these suits will appeal.

As to Colors, London's latest word is that this is going to be rather a BROWN Season, but all men who know anything about dress harmonies know that there are scores of Grey, Blue and mixed shades that will often appear the more striking because some other shade is for the time being more popular. Gray and Blue mixtures remain among the leading spring shades.

The cut and tailoring are about as near an approach to custom work as we have seen.
