French journal, and before I had half done reading it my hands were black from the mperfect filthy ink with which it was printed. In quality of paper and typography the French papers are far inferior to ours. Certainly not in Paris, and it may be presumed, not in France, is there a newspaper that in material and mechanism will compare with hundreds that are printed in the cities and towns of the he seen in the French circulars and husiness cards, which look like those uncanny dirty little scraps that some tradesmen, with a false theory of economy, print for themselves with rubber stamps.

The number of newspapers published in Paris is very large, but few of them are of much use or interest to the stranger. All the numerous parties, shades of parties. the Orleanists the Soleil, the Catholics the "Univers." The Bonapartists daily burn incense to the Empire in three journals, "L'Ordre," which is the organ of the ex-Prime Minister, M. Rouher; the "Pays," edited by the duelist M. Paul de Cassagnac; and the "Gaulois," a paper largely devoted to dramatic and Parisian news. Republican and Radical organs are no appeal. The political writers of the "Le Temps" contend with those of the Journal des Debats in their influence upon European politics. During the recent war eles of the latter paper were telegraphed and discussed in every European ital, and if any decision shall be arrived at by the present congress at Berlin, it will no doubt be influenced and shaped by those writers who wield a weapon more powerful than the sword for the columns of the "Debats." The organ of M. Gambetta is the "Republique Francaise;" but there are many other journals of pretty much the same shade. The Radical or gans are the "Bien Public," the "Rappel." the "Marseillaise" and a number of other journals that soon succumb to the censorship of the Government, through the fines imposed for seditious language. The paper that is read most by the stranger who comes to Paris to see life, to enjoy himself, and who wants to know what is going on in society, whether high or half toned, who is interested in literary novelties, and

These Plasters have now been before the public for two years, and, notwithstanding the immense number of remedies in the form of liniments, lottons, pain-curers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many resolicited testimonials in the possession of the United States, copies of which will be sent free of charge to any one desting them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and the best plaster in the world of medicine. r Cotton Yarns of Canadian Manufacture Nos. 5's to 10's. WHITE, BLUE, RED, ORANGE AND GREEN. Made of Good American Cotton with great care Correctly numbered and Warranted Full Length and Weight.

WE would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Throstle Frames, which make a stronger yarn than the Ring Frames, used in making American yarn. It is also better twisted and more carefully reeled; each hank being tied up in 7 leas of 120 yards each. This makes it much more easy to wind than when it is put up without leas—as the American is—and also sayes a great deal of waste.

Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner. KNIVES, FORKS, SPOONS.

COTTON CARPET WARP Made of No. 10 Yarn, 4-Ply Twisted. WHITE, RED, BROWN, SLATE, &c.
All fast colors.
