# ST. JOHN'S STAR.

VOL. 6, NO. 59. ST. JOHN, N. B., FRIDAY, NOVEMBER 17, 1905. EIGHT PAGES ONE CENT

### Suffering Saved by Neverslip Calks

A practical and proved device of small cost, easily applied. Your horse suffers in slippery weather when shod with smooth shoes, from fear of falls and strains. His hoofs suffer too by the frequent removal of the old-fashioned shoes for sharpening. Send for our pamphlet on this subject. Your horsehoof probably has the calks or will get them.

NEVERSLIP MFG. CO., New Brunswick, N. J.

For slippery pavements, such as we are liable to have at this time of the year, there is nothing to equal

NEVERSLIP SHOES, FOR YOUR HORSES. For information apply to

**W. H. THORNE & CO., Limited,**  
Market Square, St. John, N. B.

### Silence is Often Eloquent

But "SILENTS" must be talked about. Every man, woman and child must know what they miss in life if they do not use

Eddy's "Silent" Parlor Match.  
**SCHOFIELD BROS.,**  
SELLING AGENTS. ST. JOHN, N. B.

### How to Earn Money

If you would call on or write C. R. Davis 56 Prince Wm. St., St. John, N. B., and send the names of your friends or other reliable persons that I could sell any of the following articles to, as Watches of all kinds, Diamonds, Brooches and Pins, Ladies' and Gents' Gold and Set Rings, Waist Sets, Cuff Studs or any kind of Jewelry or Clocks of any kind, or Silver Knives, Forks, Spoons, Tea Sets, Butter Dishes, Cake Baskets, or Silverware of any kind, I would pay you in cash as soon as the sale was made. I would also give honest and reliable persons credit of three and four months. All business strictly confidential. Any one writing to me and opening an account will also get a discount off my regular prices. All goods fully warranted.

### Autumn Millinery Opening!

### New Overcoats

Added Excellent Values.

Our Overcoat sales this fall have been so enormous, so much greater than we had expected that we ran low in many lines and found it necessary to repeat largely. The first installment of these new Overcoats have just arrived by express, and they are beautiful, great value, and we're marking them very low. They include MEN'S, BOYS' AND YOUTHS' sizes. Prices range

\$5, \$6, \$7.50, \$8.75, \$10, \$11, \$12 to \$15 and \$20

### Boys' Overcoats from \$3.85 and up.

**J. N. HARVEY,** Men's and Boy's Clothing, 199 & 207 Union St.

### BEST HORSE SHOW CLOSING TONIGHT.

### Greatest Affair of the Kind New York Ever Had.

G. D. Jordan, of Boston, Leads So Far With Brooklyn Woman Second—Prince Louis, There Today.

NEW YORK, Nov. 17.—The largest horse show New York has ever had with the most horses, the biggest attendance, and the greatest display of social celebrities began its last day's exhibition today, favored by perfect weather. Excitement of several different kinds was on today's programme. A race for the first honors among exhibitors of beautiful horses waged between Eben D. Jordan, of Boston, and Mrs. John Gorken, of Brooklyn, was to be decided. At the close of last night's competition Mr. Jordan, winner at last year's horse show, led Mrs. Gorken by the narrow margin of one blue ribbon, having in all eight of these trophies.

The promised visit of Prince Louis of Battenberg to the horse show today was another attraction. In the tan bark arena itself an unusually exciting event was scheduled for today, namely the prize jump. In this contest hunting horses were ridden at a gallop over a fence which enclosed a small field out of which they must jump again while travelling at a fast gallop.

A competition for ladies riding hunting horses over the hurdles was another feature of today's programme. Preliminaries in this event were set for early day leaving the final contest for tonight.

### SUPREME COURT QUASHES LOWER COURT DECISIONS.

(Special to the Star.)  
FREDERICTON, N. B., Nov. 17.—At the opening of the Supreme Court this morning the court before taking up regular business heard a number of common motions.

The King vs. James Lynch experts Dalgie. Later on the court quashed an order nisi to quash a conviction for selling liquor without license granted by McLeod. Rule absolute to quash conviction.

The King vs. Robert J. Ritchie, police sergeant, to compel the return of the King vs. Albert Ritchie, a street by-law of St. John. Rule absolute Justice Gregory dissenting.

The King vs. Albert Ritchie, a street by-law of St. John. Rule absolute Justice Gregory dissenting.

### COUNTY COURT CHAMBERS.

Before His Honor Judge Forbes this morning the case of H. Maxwell McCarty vs. Colwell was heard. The action was brought to recover \$100 being a commission on the sale of 1,000 bushels of fish by the plaintiff in Halifax acting as Colwell's agent. It was admitted that the sale was made and that the defendant failed to pay the plaintiff testified he sold the fish for Mr. Colwell and at his request. Over the telephone he said he would want a commission but Mr. Colwell said he did not want to pay it.

On cross-examination plaintiff said he was pressing Colwell to pay his bill to Paterson, Downing Co., with whom plaintiff was employed and told Colwell to sell his fish and pay the bill. He also said he would do all he could to help Colwell. The defendant testified he had not paid the bill to Colwell and that he had not paid the bill to Colwell and that he had not paid the bill to Colwell.

### \$10,000 WORTH OF DIAMONDS STOLEN.

BOSTON, Nov. 17.—It was learned last night that diamonds worth \$10,000 and other valuable family heirlooms, the property of Mrs. M. D. S. Hawley, of Brooklyn, N. Y., was mysteriously stolen from an express company shortly after being shipped from this city on Sept. 22. The police of this city and of New York together with the detectives of the express company have failed to recover the goods.

### VENEZUELA STANDS FIRM AGAINST FRANCE.

NEW YORK, Nov. 17.—In a despatch from Caracas, a correspondent says to the Herald regarding his country's dispute with France:

"The answer of France is a threat in the face of the memorandum submitted by Mr. Russell proposing every conciliatory method.

"Public opinion unanimously supports the attitude of the government in seeking re-conciliation, but firmly sustaining the authority of its tribunal recognized by America, but spurned by France."

### YORK CO. GIRLS IN TROUBLE.

FREDERICTON, N. B., Nov. 17.—Ida and Ethel Howard, who were arrested in Buffalo yesterday on a charge of petty larceny, are natives of York county and have worked at hotels and private houses here.

### HIGH EQUITABLE OFFICIAL MISSING.

### Former Comptroller Disappears, Leaving No Trace.

His Own Son Doesn't Know If He is Alive or Dead—More About Legal Expenses.

NEW YORK, Nov. 17.—Frank B. Jordan, son of the former comptroller of the Equitable Life Assurance Society, was the first witness called before the legislative investigating committee today. He had testified at a previous session that he did not know the whereabouts of his father or mother and that he did not know whether they were living or dead. Today he said he had not since learned of his father's whereabouts. He had received a letter from his mother, who is in Canada. She said nothing about his father. As to his profits from fire insurance written on properties mortgaged to the Equitable, he said he had a record of his own profits, but did not have it at hand. He had no idea as to the amount of insurance he had written, but said he could get all this information in reply to the committee's demands. He had no idea what proportion of his business the Equitable furnished him. For his office building he said he had paid \$60 per month.

Samuel S. Murray, assistant registrar of the Equitable Society, was next called. He had formerly been secretary to Secretary William Alexander, of the same society. As assistant registrar he had custody of vouchers for money paid out for legal expenses. He produced the vouchers for 1905. There was a letter to James V. Alexander from Robert H. McCurdy, of the Mutual Life Insurance Co., which accompanied a bill for the Equitable's share of salary and expenses of Geo. S. Batchelor as "plenary legal representative of the Equitable Society, the New York Life and Mutual Life insurance companies."

### W. H. HARRISON'S DUTIES.

The salary of Mr. Batchelor for this combination was given in a statement as \$71,000. It was brought out that Mr. Batchelor's duties were abroad.

### CONFIRMATION HAS BEEN RECEIVED.

The Milan factory owners while offering to make some concessions in the matter of hours of labor generally to ten hours, final decision that unless the men resumed work Monday they must close down indefinitely. This would make the situation more desperate.

### WHEN NELSON WAS A SAILOR.

The Life of a British Tar in the Old Days.

(By-Bits.)

When one reads a description of life afloat in the days when Nelson won his glorious victories one is struck with amazement not only that a sailor could be possible under the conditions then prevailing, but that every man Jack in our fleet did not seize the first opportunity of flinging himself overboard.

Here, for instance, is the picture drawn by Mr. Massfield in his "Sea Life in Nelson's Time" of the food of the days of Trafalgar: "It was of a stony hardness, fibrous, shrunken, dark, gritty, and glistening with salt crystals, and often quite as senseless as the horrible sea-biscuits of the present day. It looked as unwholesome as meat could look. Strange tales were told about it. Old pigtailed searions would tell of curious barking and neighing heard in the slaughter-houses. What ever meat it may have been, the suit-beef was certainly abominable."

After reading this description one is not surprised to learn that our sailors used to beguile their scanty leisure by carving tobacco-boxes and fancy articles out of their allowance of beef and pork, or that "the flesh is said to have taken a good polish, like some close-grained wood."

Nor was the blaucut any more toothsome or tractable. Much of it was so hard that it could only be broken with the help of a hammer or the thick end of a mallet; while, when it was less of a mallet-spoon, it usually supported a mass of maggots. "Not once, but a hundred times," an old writer has said, "have I seen men skin the maggots in spoonfuls from the tea in which the biscuits were soaked."

Horrible as was the food on which the heroism of a century ago was nurtured, it was no worse than any other condition of life aboard. The ships, we are told, were never free from unpleasant smells—"the rank, fusty smell of dry-rot, the acrid and awful smell of bilge-water, and the smells of decaying stores and long-defunct rats."

And the ships were often battered down for days together, until every

### HALIFAX POSTAL CLERK CAUGHT STEALING LETTERS.

(Special to the Star.)  
HALIFAX, N. S., Nov. 17.—A post office clerk named Henry Burns, was arrested this morning charged with stealing letters from the post office. It is alleged one of the staff set to watch Burns in the act early this morning, a copy letter being used. Burns pleaded not guilty in court this morning and the case was continued until tomorrow. The accused has been about ten months in the post office.

### MONCTON SHOOTING CASE POSTPONED.

(Special to the Star.)  
MONCTON, N. B., Nov. 17.—There was nothing new in the Howarth Blackwood shooting case today. Owing to the absence of the prosecuting attorney the case was adjourned till Monday.

### YUKON ARCTIC EXPEDITION.

SEATTLE, Wash., Nov. 17.—Dr. Antonio Varile, prime mover in the proposed Yukon Polar expedition, will, as soon as he reaches Dawson, for which he has started from Seattle last night, take steps to organize an expedition for the route of the white arctic region in the vicinity of Herschel Islands.

W. C. Cassidy, of the Bank of Nova Scotia here, left for Boston last night where he will meet Manager H. C. McLeod. From Boston the two sail to Havana, Cuba, where they will open a bank, Mr. Cassidy being accountant

### RUSSIAN SITUATION GROWS MORE MENACING.

### Strike is Spreading—Attempt to Assassinate Governor—Council of Workmen Give Insulting Reply to Count Witte's Appeal.

ST. PETERSBURG, Nov. 17.—The outlook for an early collapse of the strike is more gloomy today. The situation is distinctly more menacing. The council of workmen's delegates, or they present a bolder front, consequently they present a bolder front. Practically all the pretax based on economic demands have been abandoned and the eight hour day figures in the oratory at meetings in order to hold the workmen who have been looking for improvement in their conditions.

### MARTIAL LAW IN POLAND.

KALALISS, Russian Poland, Nov. 17.—Martial law is being enforced here. Suspicious persons are forced to leave the city.

### ATTEMPTED ASSASSINATION.

RIGA, Nov. 17.—An attempt was made today to assassinate the governor of Riga. While he was riding in a carriage through the streets a shot was fired at him from an alley but the bullet missed its mark. The would-be assassin escaped.

ST. PETERSBURG, Nov. 17.—The resolution adopted at the meeting of the council of workmen's delegates in reply to Count Witte's appeal to the workmen is as follows:

"The council of workmen's delegates expresses astonishment at the emperor's favorite, who permits himself to call the workmen of St. Petersburg his brethren. The proletariat is not related to him in any way.

"Count Witte appeals to us to be compassionate of our wives. The council in reply invites the workmen to count the widows and orphans who have been added to the ranks of the workmen since the day Count Witte assumed power.

"Count Witte reveals the intentions of the emperor towards the workmen. The council reminds the proletariat of bloody Sundays.

"Count Witte begs us to give the government time, and promises to do all possible for the workmen. The council knows Count Witte has already found time to give Poland into the hands of the military executioners. The council does not doubt Count Witte will do all possible to stop the revolutionaries.

"Count Witte calls himself a man who is benevolent toward us and wishes to be compassionate of our wives. The council declares the working classes have no need for the benevolence of a court favorite, but demand a popular government on the basis of universal, direct and secret suffrage."

### STRIKE CASUALTIES.

KUTAIS, Trans-Caucasia, Nov. 17.—The assistant manager of the railroad station here was shot and killed today. The assassin escaped.

ERZLIL, Caucasasia, Nov. 17.—A railroad train was thrown open here today, resulting in a collision between two military trains. Fifteen soldiers were wounded. After the collision the trains were fired upon from the hills, the soldiers defending themselves behind the railroad embankment.

### LONGSHOREMEN CAN'T AGREE ON RATES.

Some Insist 40 Cent Summer Rate be Continued—Lively Meeting in Prospect Tonight.

The Longshoremen will meet in special session tonight, when the winter rate will be discussed. There is promise to be a lively row over the winter rate as the members of the union do not seem to be able to agree upon any figure.

Last winter the rate was thirty cents per hour. Last spring the Longshoremen at a general meeting decided that the summer rate should be forty cents per hour and after considering the situation the steamship people paid the rate. The idea was that the summer rate should be higher than the winter rate as the summer business was much less than the winter business. Now, however, the forty cent rate has been in vogue some of the men think they should get a higher rate per hour in the winter than they do in the summer and this will be fully threshed out at the meeting tonight. Some of the members favor a renewal of the agreement they had last year when thirty cents an hour was paid and the union controlled the entire work, while others would like to see the rate increased five or ten cents per hour.

### FORGERY CASE AGAIN.

The forgery case came up again this afternoon Mr. McKewen and Mr. Morrill for the plaintiff and Mr. Mullin for the defendant. Mr. McKewen asked for a postponement because they have not yet been able to get the note alleged to have been forged as the man who is supposed to have it away from Boston. Mr. Mullin asked that no postponement be allowed. His Honor granted a week's postponement and released Mr. Thompson under his own recognizance.

Mrs. Fred Jones returned home this morning from Boston.

### APPLES, APPLES!

ALL PRICES.

Prices that make them move and will suit all special rates in ten (10) bbl. lots. Merchants invited to inspect for themselves. Weekly consignments from the Annapolis Valley.

**J. G. WILLETT**

Only \$2.90.

Remember, we have only 32, so come early and get a bargain.

S. W. McMACKIN, Successor to SHARP & McMACKIN, 335 MAIN STREET, NORTH END.

The Cost of Street Lighting.

Street Railway Thinks it is Greater Than the City Makes Out—Ald. Macrae's Opinion.

Below will be found a tabulated statement issued by the Street Railway Co., with reference to the cost of the north end lights produced by the city's plant. The Street Railway people endeavor to show that the city's statement of the cost of the lights is not a fair one. According to the calculations of the Railway Co., no allowance is made by the city for water supply,

taxes, depreciation of plant or interest on bonded indebtedness and capital expenditures. The Railway Co. also claim that five per cent. is very low for depreciation, and say that nearly all electric companies figure depreciation at ten per cent. Then again, the depreciation of the city plant are only twelve hundred candle power, while those furnished by the Railway Co. are of two thousand candle power.

Table with columns: Year, Number of Lamps, Operating Expenses, Water, Interest on Capital Invested, etc.

Dr. A. W. Macrae, when interviewed on the matter by the Sun last evening, said that about a month ago he caused to be prepared a statement along the same line as the one given to the press by the Street Railway. This statement he read before the safety board. Dr. Macrae takes exception, however, to some of the items that appear in the Street Railway Co.'s calculations. In the first place, he says that the land on which the city's north end plant is built is crown land, and consequently is exempt from taxation in any case. He also contends that there should be no charge made for water supply, as the city has an abundance of water and the amount used for the purposes of this plant would otherwise go to waste.

The figures of the Street Railway Co.'s statement as to interest were also too high. Dr. Macrae says that the amount upon which interest should be charged is only \$14,055.40. On this basis the interest charge would be \$703.72 instead of \$777 charged for depreciation, as all repairs and renewals have been regularly charged to operating expenses. Dr. Macrae, however, is of the opinion that the plant is obsolete, and should be torn out, and a new and modern plant installed. It is his contention that the members of the Council should be particularly interested, and anticipate that before the end of the current year a feasible scheme for city lighting at a low cost will be submitted to the Council.

L. G. R. MACHINIST HAS ARM BROKEN Marriage of Miss Joudry and Arthur W. Steeves—A Rare Specimen.

MONCTON, N. B., Nov. 16.—Joseph Graham, a well known L. C. R. machinist, met with a most unfortunate accident while at work this afternoon. Mr. Graham was at work installing new machinery and while putting a belt on the pulley, the glove on his left hand caught and his arm was twisted around the pulley, breaking the arm between the wrist and elbow. Graham will be laid up some time. Bun Steeves brought what is known as a white deer to market yesterday. It was shot in the mountains near Moncton and had white stripes and spots all over the head and body, this specimen being rarely found. The carcass weighed 200 pounds. A quiet but pretty wedding took place this afternoon at the home of the bride's parents, Journey avenue, when Arthur W. Steeves, of the L. C. R., was united to Miss Addie Joudry. The bride looked charming in navy blue travelling suit and was given away by her brother, Ald. L. T. Joudry, of Campbellton. After the ceremony the couple left on the C. P. R. on a wedding trip to Boston and other points of interest.

KINGS CO. COURT. HAMPTON, Kings Co., Nov. 16.—In the probate court of Kings county today the Hon. A. S. White, J. C., proctor for the estate of the late Wm. H. White of Sussex, presented the petition of W. B. McKay and John B. Irvine, executors under the will, praying to file and pass their accounts for the two years preceding May 27th last past, whereupon his honor Judge Gilbert issued a citation, returnable on Thursday, January 4th, 1906. In the matter of the estate of the late John Thompson of Sussex, tailor, on the return of the citation issued October 1st to pass the account of Arthur Keith, administrator, J. Arthur Press, proctor, the Hon. A. S. White, J. C., appeared for Miss Emma J. Hitchen, a trustee and creditor; Miss

Annie Norris, a creditor, and Ora P. King, a trustee; and W. Watson Allen, J. C., represented Darling & Co. of Toronto, creditors. Mr. Keith's accounts showed receipts amounting to \$444.81, and expenditures up to date of \$347.58. The claims paid against the estate amount to \$3,294.43. Of this sum \$2,144 is covered by the claim of Bennett, an Amherst creditor. There are about \$600 of doubtful uncollected bills and accounts. These his honor directed to be sold by public auction, adjourning the further consideration of the case to Thursday, January 4th, 1906, at which time the final passing will take place, and an order for distribution be made.

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women lose night after night upon sleepless beds until dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpitation and sensation of sinking, a feeling you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. Allow these conditions to continue and you will feel your health declining. It is the nerves and heart that are not acting properly. They can be set right by the use of MILBURN'S HEART AND NERVE PILLS. They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is the cause of nervousness and sleeplessness. Mrs. Zonia Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bed as times I could not lie down in bed at nights but would have to get up. I doctored for a while, but would not get any relief. I took three boxes of Milburn's Heart and Nerve Pills and was so completely cured I have not been troubled since. I cannot recommend them too highly." Milburn's Heart and Nerve Pills are 50 cents per box or three boxes for \$1.25 at all dealers or sent direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

HARVEST SUPPER AT ST. MARY'S CHURCH

About 250 people partook of supper last evening in the school room of St. Mary's church. The harvest supper is an annual event, and only once in twenty years has it been omitted—in 1891, when smallpox prevailed. In spite of the weather last night there was about the average attendance, and the supper, which was carried on in the upper flat of the schoolroom, was packed with an audience that highly appreciated the programme of amusement, which was of the highest quality. These in charge of the affair were: No. 1 table—Mrs. Wright, Miss Steves, Mrs. Williams, Mrs. Dixon, Waitresses: Misses Alice Patterson, Myrtle Patterson, Lizzie Sproul, Helen Evans, Clara Grant. No. 2—Mrs. Ekebrecht, Mrs. De Bow, Mrs. Mann, Waitresses: Misses Horton, Sullivan, Swanton, Mann, Handren. No. 3—Mrs. Willis, Mrs. Murray, Mrs. Clarke, Mrs. W. A. Cushman, Waitresses: Misses Winnie Raymond, Ida Sproul, Clarke, Emington, Kelly, Mrs. Mcgrath. Serving rooms—Mrs. Boyer, Mrs. Osborne, Mrs. McRae, Mrs. Ellsion, Mrs. Fiewelling, Mrs. Emery, Mrs. Lane, Mrs. J. N. Wetmore, Miss Eaton. Tea and coffee—Mrs. E. V. Wetmore, Mrs. Soston, Mrs. D. Morell, Mrs. Carvers, Walter Irving and C. A. Murray. Ice cream and candy were sold by Mrs. Raymond, Mrs. Morrison and Misses Ferguson, Knight and Leonard. During the course of the supper from six to eight o'clock, St. Mary's brass band discoursed music on the upper flat. That band, by the way, will be two years old on Monday, and the boys play like veterans. After eight o'clock the following programme was given: Piano solo, Miss Mary Ekebrecht; song, Mr. Burchill; song, Mrs. W. S. Carter; Scotch song, Mr. Ross; song, Miss Tillie Thomas; song, W. S. Ferris; song, Miss Hilda

TWO LADIES NEARLY SMOTHERED BY GAS.

Galley; piccolo solo, Mr. Ross; song, Mr. Phillips, whistling solo, Walter Nixon; plantation step dance, Thomas Daley; song, Chas. Calvert; German song, Mr. Ekebrecht; song, Rev. A. G. H. Dicker; national anthem. The accompanists were Mrs. J. M. Barnes, Miss Calvert and Prof. Collinson. Every number received a hearty encore and some performers were twice recalled. They generously responded. St. Mary's harvest supper of 1904 is now history, but that of next year is already being looked forward to. Miss Bertha Watters and Miss Pauline Hayes, who live in J. F. Kelly's house, near the Victoria grounds on the Marsh Road, had a very narrow escape from death early yesterday morning. A new stove had been installed in the girls' room and was first lighted on Wednesday evening. At 10 p. m. Miss Hayes put coal in the stove, closed its door and retired. Miss Watters, coming into the room shortly afterwards, and finding the chamber too hot, closed all the drafts and opened the stove door, which she forgot to close again before going to sleep. The strong wind which was blowing, sent the gas as soon as it was formed into the closed room. After breathing the poisoned air all night, the girls awoke at 5 a. m. fighting for breath and very weak for want of air. Miss Watters arose first, but was almost unable to see and hardly less able to stand. Her friend seeing the condition Miss Watters was in, arose to help her, only to find herself in the same state. Together the girls managed to

The number of Joneses in Wales is illustrated by a story told of a certain Oxford college, much resorted to by Welshmen. A man from another college went into its "quads" in search of a friend, and called "Jones!" All the windows looking on the "quads" flew open. "I want John Jones," said the man. Half the windows closed. "I mean the John Jones who has got a with constipated rooms and a dose of 45 a week."

No Secrets To Hide

We have nothing to conceal; no secrets to hide! We publish the formulas of all our medicines. You will find these in Ayer's Almanac for 1906; or write us and we will send them to you. Then show the formulas to your doctor, and ask him what he thinks of them.

ST. JOHN, N. E., NOV. 17, 1905.

HEARST'S PROTEST BLOCKED.

According to the election law under which the New York contest was held, as interpreted by a decision of the Court of Appeals, recently resurrected and indisputable, there is no power in the land to authorize a re-opening of the ballot boxes and a re-count of the votes no matter what frauds are suspected. In the face of Hearst's determination to prove that thousands of illegal votes were cast and that in addition gross frauds in the form of ballot box stuffing were perpetrated stands the decision of the highest court that, within section 111 (of the Election Law) authorizes the court to open the ballot boxes and permit their contents to be examined, it does not confer the power to direct a recount; therefore, a mandamus will not lie to compel it.

As the Brooklyn Eagle expresses it: "The count has been made. It has been made according to law. Law requires that it be made by the representatives of the two great parties recognized by law and in the presence of watchers and witnesses of all parties. That was done. The count is done. What the Board of Aldermen as a Canvassing Board are required to do is to pass upon the figures of the count, as set forth on the returns which are sent in to the canvassers. That is all that the Board of Aldermen as a Canvassing Board are required to do, and by law are not permitted to do, under any circumstances. If George B. McClellan and William R. Hearst should mutually agree that the ballot boxes should be opened and a re-count of the votes should be made, under the supervision of eminent citizens, representing each of the candidates, and agree to both, that would be of no legal avail whatever. It could not be done. The courts would sanction no such arrangement, for it is beyond the law and against the law."

Apparently this destroys Mr. Hearst's claims to re-open the boxes and re-count the votes. If it does and if there is no redress it will be bad for the law, bad for all law. For this decision, while it may be legal, is obviously unjust and Hearst is not the man to hesitate to proclaim that injustice, regardless of the effect upon the ignorant masses who form the bulk of his party, the increase of whose disrespect for law will make for anarchy.

FIGURES VS. FACTS.

The Star publishes elsewhere a statement prepared by the St. John Railway Company, intended to prove that the official estimate of the cost to the city of the North End lights is incorrect. Instead of about \$75 per lamp per year this statement purports to show that the cost per lamp has averaged about \$100 for the past ten years and amounted to \$88.66 last year.

These results are obtained by adding to the operating expenses interest at the rate of five per cent. per annum on \$16,826, depreciation at five per cent. water rates and taxes. But the capital invested is only \$14,655.40, and the city does not have to pay five per cent. interest; the land on which the North End plant is erected is crown land and not taxable, and it is unfair to include water taxes, for as Alderman Macrae points out in an interview in another column, the city has abundance of water and the amount now used by this plant would otherwise be wasted. Also the amount charged to depreciation is excessive when it is considered that all repairs and expenses are charged to operating expenses. Taking the actual interest cost and leaving out taxes and water supply, the cost per lamp approximates the figures given out by the city officials.

And if with a small and antiquated plant the city could reduce the price at least a third with modern equipment and a service extending over the whole city.

REFORMS ON THE I. C. R.

It has cost an immense amount of money to teach the government that reforms were needed in the management of the Intercolonial railway, but apparently the lesson is being learned. Following the tour of the minister and deputy minister of railways over the whole system and the changed policy resulting therefrom the road is undoubtedly making a better showing, as the following tabular statement of receipts and expenditures for July August and September shows:

Table with columns: Month, Working Expenses, Earnings. July: 665,573, \$624,611. August: 746,251, 674,743. September: 691,612, 629,373.

Total: \$3,073,447, \$2,926,672. While the deficit for July was \$39,962 and for August \$71,612, the returns for September, when the new system began to make itself felt, show a surplus of \$24,659. And it is especially encouraging that this surplus was made possible not so much by increased income for the month as by decreased expenses. The earnings of the road during September were only \$1,552 more than August, while the reduction in working expenses as compared with the previous month amounted to \$84,949. If at the very beginning of the long delayed reforms such a remarkable saving can be accomplished there is ground for hope that Mr. Emmerson continues his career of retrenchment and refuses to allow the road to be used as a section of the party machine he may succeed, as he believes he can, in putting it on a paying basis. There is enough in the history of the I. C. R. to prove that all it needs is business management, unhampered by the spoils system, to make it good investment.

THE MAPLE.

(Charles G. D. Roberts.) Oh, tenderly deepen the woodland glooms, And tenderly sway the beeches; Breathe delicately the willow blooms, And the pines rehearse new speeches; The stars tinge high, till they tinge the sky, Pale outlines the yellow birch above, But the tree I love, all the greenwood above, Is the maple of sunny branches.

Let who will sing of the hawthorn in spring, Or the late-leaved linden in summer; There's a word may be for the locust-tree, That delicate, strange new-come; But the maple it glows, with the tint of the rose, As beneath it I lay.

Who pale are the spring-time regions, And its towers of flame from afar proclaim; The advance of winter's legions, And a greener shade there never was made.

Than its summer canopy sifted; And merrily in day, as beneath it I lay, Has my memory backward drifted To a pleasant lane I may walk not again.

Leading over a fresh green hill, Where a maple stood, just clear of the wood— And, oh, to be near it still!

MISSED HIS WIFE BUT KILLED HIMSELF.

Woman Fainted in Time to Save Her Life, and Husband Thinking He Had Killed Her, Suicided.

ST. APOLINE, Que., Nov. 16.—Believing that he had murdered his wife, Alexander Labrie, one of the best known farmers in this district, committed suicide by shooting himself in a shed at his home here this morning.

A difference of opinion on some domestic subject between Labrie and his wife resulted in a serious quarrel between the two. In a fit of blind rage Labrie snatched up a loaded shotgun which was standing in a corner of the kitchen and aiming it at his wife, pulled the trigger. With a piercing shriek Mrs. Labrie fell unconscious, and when the smoke cleared away Labrie was standing in the doorway, apparently lifeless, on the floor. Believing that the woman was dead and that he was her murderer, Labrie went to a shed in the rear of the house and hanged himself to the eaves of the beams by a piece of rope.

A few minutes later a neighbor drove up to the house and entering the kitchen found Mrs. Labrie unconscious on the floor. She was unharmed and soon recovered. Her husband, who had fainted when her husband had pointed the gun at her, and the charge had passed the trigger, but had missed her entirely. When the woman was sufficiently recovered a search was made for the body of her husband, but a rope to one of the rafters of the shed.

PIRSON WAS TIED TO TRACK

MOUNT VERNON, O., Nov. 16.—It is possible that no witnesses will be called by the grand jury to testify in the Stuart L. Pierson case, the Kenyon college student who was killed in Gambier.

Prosecutor Stillwell stated this evening that the testimony brought out at the coroner's inquest, which consists of about 500 typewritten pages, will be presented to the grand jury, and that this evidence will be sufficient to show that Pierson was tied to the track.

While this is true in the Pierson case, it will be quite the contrary in the McGlavery case, the Dixey Seminary student who received such brutal treatment Saturday night. In this case a large number of witnesses will appear before the grand jury to tell what they know of the assault and robbery. The grand jury will report Saturday afternoon or Monday morning.

LABOR TALKS.

THE EIGHT HOUR DAY MAN AND THE PROGRESS.

Martin—No we don't want the impossible. There are several States in the union with an eight hour day and why can't we have it? Look at my job in the gas works here in St. John. I work twelve hours a day. When you folks are having your bright lights up to 12 o'clock I am here shovelling and I keep at it all night. All I get is \$1.70 a day.

Prof.—Well that is nearly fifteen cents an hour. Some people work in this city for 24 cents per hour. But Martin you don't work twelve hours steadily. After you feed the retorts don't you lie down an hour?

Martin—Lie down? Where? On the coal on the floor, in the dust, smoke and gas smell? Come in and watch us some night. No wonder some of us get drunk. If you had your mouth and throat full of coal dust and smoke for twelve hours every day, you would want a drink pretty often.

Prof.—Then there are only two gangs and they divide the 24 hours. The company agrees to give you three gangs, working eight hours each. I wonder how many gas stockholders know that you work twelve hours a day, Martin, we pay dearly for our civilization. There are a few masters with loaded whips and there are thousands of living machines. Still the hours of labor are less than they were fifty years ago.

Martin—So they should be, for look at the work. The shoe maker used to take pleasure in his work. "That is a neat job of boots" he would say, as he put the boots on the shelf. "All done by myself." Now there is no pride in the work. Four or five persons work at different machines to make the one boot. With all his mind watching the machine he works all day, nine hours. At last he becomes a machine.

Prof.—Yes, Martin, inventions are destroying the thinking man. They are turning him into an automaton. When I see all the nervous energy of a 17 year old girl centred on a rapid machine in a factory, I can easily understand that ten hours of such work is much more of a strain than the twelve hours of spinning on a hand wheel of a hundred years ago. That is a good section in the Fabian League platform. The hours of a work day factories, foundries and other great industries shall decrease as the advance in invention increases production capacity.

Martin—Yes, we want an eight hour day act.

Prof.—Not for New Brunswick. It would not be wise to adopt eight hours here and let Quebec and Ontario keep on with nine and ten. In all fairness put capital here you should force Quebec to have the same law. How could cotton or brush factories in St. John under an eight hour day compete with Quebec's ten hour day? Do you belong to any union?

Martin—No.

Prof.—Your talk is not worth much. Look at the doctors. They have a union and fix prices. Why do the hard ware men in these provinces have their union. Nails and other goods are sold at a price everywhere. Laborers have their society and have a minimum scale of fees. The sugar men and the spinning men are organized and the flour men all charge the same price of 20 cents per barrel. Dry goods, lumber, and other goods, all these and many more are represented in the Board of Trade, the central union of the business men. To remedy these correct freights and generally to see that trade is treated justly by railroads, represent money—more money than you represent money—more money than you pay for them after you have worn them a while, for the advance in prices is very marked and there is positively no danger of diamonds depreciating in value in our time. Of course it is always necessary to choose wisely and pay the right prices when you make your selection; therefore it is essential that you should choose the gems at a responsible house and I have a record and a reputation I think enviable; and my very large stock of set and unset gems allows for the best selection in this city or province.

PERSONALS. INTERESTING LECTURE ON CHRISTIAN SCIENCE.

Frank McCarthy, brother of James McCarthy, the wine merchant on Dock street, left on the late train last evening for Sydney, C. B., where he will take passage in a vessel for the Pacific coast.

Dr. H. D. Frits of Sydney street left on the morning train last evening for a combined business and pleasure trip to Dalhousie, N. B.

Dr. M. P. Keith of Harcourt was in the city yesterday. H. O. McLatchey and bride, who were married at Halifax on Wednesday evening, arrived in the city yesterday morning and are guests at the Royal Hotel.

Reginald Hart, of Halifax, arrived in the city yesterday on a visit to his aunt, Mrs. H. C. Rankin.

W. A. Vanwart, of Fredericton, was in the city yesterday to attend the Neptune ball.

A fairly large sized audience was present at the lecture delivered by Prof. Herman S. Hoising of John Hopkins University, Baltimore, on Christian Science, Humanity's Helper. The lecturer was introduced by A. Farmer Hall, who referred to the work being done by Christian Science today.

Christie Science does not say that sickness does not emanate from the sufferer, even as real as the rest of his body, but Jesus said: "Judge not according to the appearance, but judge righteous judgment." and Christian Science teaches that if sickness be recognized as a mistake or error it can be healed by applying the truth.

W. A. Vanwart, of Fredericton, was in the city yesterday to attend the Neptune ball.

Dr. H. D. Frits of Sydney street left on the morning train last evening for a combined business and pleasure trip to Dalhousie, N. B.

Dr. M. P. Keith of Harcourt was in the city yesterday.

The TERRIBLE PANGS OF DYSPEPSIA CAN BE CURED

To be dyspeptic is to be miserable, hopeless, confused and depressed in mind, forgetful, irresolute, drowsy, languid and useless.

Constipation, headache, heartburn, sour stomach, distress after eating, bloating of wind, faintness, and fullness and distension of the stomach are a few of the many distressing symptoms of the poor, warty dyspeptic.

Dyspepsia is a disease that in one way or another resembles nearly every other disease, and the only way to get rid of it is to take up the stomach, liver, bowels and blood. This will be quickly done by the use of

BURDOCK BLOOD BITTERS

It regulates the stomach, stimulates the secretion of the saliva and gastric juices to facilitate digestion, removes acidity, purifies the blood, and tones up the entire system.

Mrs. M. A. McNeil, Brook Village, N.S., writes: "Last winter I was very thin and everything I would get but to no purpose. I finally started to use Burdock Blood Bitters, and from the first day I felt the good effects of the medicine and am strong and well again. I can eat anything now without any ill effects, and I am so glad to be able to recommend Burdock Blood Bitters, for I feel it saved my life."

FAVOR KINDERGARTENS IN PUBLIC SCHOOLS.

Strong Address of Dr. J. H. Hughes, of Toronto, at Free Kindergarten Annual Meeting Last Night.

The public meeting arranged by the free kindergarten committee in charge of the free kindergarten, with Dr. J. L. Hughes of Toronto as the principal speaker, closed last evening in the assembly hall at the High School. Owing to the very disagreeable weather, and to the large number of towns and cities, Mayor White presided, and on the platform were Dr. Hughes, Dr. Daniel M. P. Ray, G. A. Kuhring and Dr. G. U. Hay. The chairman briefly reviewed the steps which have been taken towards the establishment of a free kindergarten. Mrs. H. H. Pickett read the second annual report, a forecast of which was published in the Star yesterday.

In opening, Dr. Hughes, the speaker of the evening, said that he would favor men also on the kindergarten committee. He thought that there should be a school in every town and city, and that every child should have the opportunity to receive the best of education. He said that the kindergarten was not a luxury, but a necessity, and that it was the duty of the state to provide it for every child.

TO EXTEND ARMY WORK IN BERMUDE

Leut. Col. Sharp of the Salvation Army will leave on Saturday for Bermuda, where he will appear before the local house there in support of a bill to allow the Salvation Army officers to perform marriage. Col. Sharp believes that this respect carried out, and it is also believed that before long the army will have their own day schools on the island, as they now have in Newfoundland.

Last evening Col. Sharp attended a farewell meeting in the Charlotte street barracks.

PRESIDENT HANNAH SHARPLY CRITICISED.

He Recommends Federation for Kings College—Governors Disapprove and Accuse Him of Faint Heartedness.

HALIFAX, Nov. 16.—At this morning's meeting of the board of governors of King's College, President Hannah was criticised sharply for his recommendation of a federation with the college, set earnestly to work and tried honestly to make of it a full and absolute university. That had been the idea which he had always in view, but after acquainting himself with the conditions in these provinces, and having put forth every possible effort to realize his ideal, he had reached the conclusion that federation was the only solution of the problem.

Rev. Canon Crawford asserted that so far as the board was concerned, an amalgamation was a dead issue. Dr. Hannah had accepted the presidency, and after one short year had become disheartened. The question of amalgamation had been settled before Dr. Hannah arrived. The board, he believed, would not consider the question.

Another member of the board criticised Dr. Hannah very sharply for having, the speaker alleged, come to King's with full knowledge of the facts and of the attitude of the board toward amalgamation. He had grown discouraged and wished the whole question thrust out of his mind.

LANCASTER STANDS FIRM AGAINST ST. RAILWAY.

County Secretary Vincent and James Lowell, M. P., put the street railway proposition to rest. Mr. Lowell is chairman of the highway board, and says the board will meet and there will be no difference in the matter. He also said: "It is not the expense of laying a few rods of track, or the fear of being fined under no circumstances will I consent to such a thing being done, though of course I am only one man, but it may be done over my head."

SPECIAL PRESBYTERIAN MEETING

A special meeting of the St. John Presbytery was held in the Fairville Presbyterian church last evening. This was the first of a series of Presbyterial visits which this Presbytery propose making during the coming year to the different churches within their domain.

DR. SCOTT'S White Liniment

NOTICE TO ADVERTISERS.

Owing to the increased patronage which advertisers are giving to the Star, we are compelled to request those who require changes in their advertisements to have their copy in the Star Office before 9 o'clock in the morning, to insure insertion same evening.

LOCAL NEWS

The Globe Clothing House is the best place for cheap reliable clothes for men, boys and youths. We make up all kinds of clothes to wear and keep their color. Black and Dark Brown Cheviot Suits sold all over for \$10, here for \$6.75 and \$9 all over.

At the last meeting of the board of management of the Victorian Order of Nurses it was decided to notify doctors on west side of the city that the nurses are available at all times for work in that part of the city. They always have been available, but the west side doctors have not called upon them in all cases.

The St. Peter's high tea was again well patronized last evening. As on previous evenings, "everything was merry as a marriage bell" and the large crowd which filled the room to suffocation bided the discomfort with great good humor.

NEWS OF SPORT.

Battling Nelson May Take a Trip to Europe. Attell Was Too Clever for Tommy Mowatt. Football Notes.

THE RING ATTELL WAS TOO CLEVER. BALTIMORE, Nov. 16.—At the end of a 15 round fight with Tommy Mowatt, of Chicago, before the Eureka Athletic Club tonight, referee O'Hara gave Abe Attell of San Francisco a decision which he had earned by cleverly keeping away from Mowatt's repeated rushes or by meeting them with smashing blows to the face. Mowatt did practically all the leading and took punishment enough to have finished three men but he was strong and still rushing at the finish, though his face was a pitiful sight. He proved himself a remarkably strong fighter, but was unable to overcome the handicap of Attell's clever foot work.

BATTLING NELSON MAY TAKE A TRIP TO EUROPE. "Jimmy Britt and his brother can talk from now until doomsday about a return match with Nelson, but 'till I get the money they owe me I'll never stop to think twice over the matter," said Billy Nolan, manager of the Battling Dan, in the lobby of his hotel on Broadway, New York city.

"The Brits gave us shabby treatment in our fight in France, and now that Bat has beaten him decisively I shall drop him off the list. Bat beat him twice. The first time he was knocked out by the second time he hung on to Brit's jaw that didn't come off, and there was no need of a referee then. I'm out about \$2,500 on account of that fight, and until it is settled Mr. Britt can keep on talking."

"About our future plans?" Nolan leaned back in the big chair. "I'll be clear and said: 'Bat will be here in three weeks, and after a show in New York we will consider either a trip to London or a fight with McGovern.'"

"We fully intend to cross the water, however. Bat can show over there and get the coin as he can here. We will probably stay over four or five months, take it easy and then come back here for a hard campaign of fights again."

"What about Terry McGovern?" quizzed one of the party, who had a beard. "I don't know. He's a good fighter, but I don't think he should still draw down his \$1,500 a week on the stage. He is sure that, you see, and we couldn't afford to stop, so go into training and waste three or four weeks for a measly purse of \$3,000."

"I hope you see what I mean. When McGovern was champion he got all that he could on the stage, and Nelson intends doing the same."

"I don't think we fear Terry, you know. Nelson offered to fight McGovern last year in France. He didn't have the name then and McGovern refused, so Young Corbett was substituted. McGovern has no kick coming at all. 'We could fight 20 rounds out west, you know, and get some money, but in Philadelphia I am inclined to believe that the purse would be entirely too small.'"

"Nelson will fight any of them as soon as we get a good offer, and I think that Jimmy Gardner will be our next man. Jimmy is considered the best man in the world today outside of Bat, and they would draw a tremendous house."

Nolan is looking well considering that he has been knocked so unmercifully out west. He laughs over the stories sent east and declares that most of them told only the good deeds of Britt and Willis.

WAS THE FIGHT FIXED? Was the McGovern-Murphy fight fixed? Was it all doped out before the

mill that Terry should win in the first no that he could get on with Battling Nelson? These questions are bothering the minds of Toledo, O., followers of the battling game, and they have good grounds for their thoughts. There has been a persistent rumor around ever since the fighting came off that it was not on the square, but rather than do the promoters an injustice, the story has been withheld up to this time, when the facts came to light in an unquestionable manner.

Sam Harris, the manager of Terrible Terry (although to the general public he is managed by Joe Humphries) is also manager of George M. Cohan's "Forty-Five Minutes From Broadway" and was in Toledo with the show just prior to the battle. He was in a prominent saloon and poolroom one evening chatting with a bunch of friends and the subject of the coming fight came up. Harris gave his opinion of it to the manager of the Toledo show, who is managed by Joe Humphries. This, of course, was perfectly natural, but what followed smacked of an inside knowledge not altogether inductive to the belief of a square deal. After the party broke up Harris called one of his particular friends aside and said to him that it was a cinch for McGovern.

"That's the money you can get on him to win in the first round. Now mark my words—to win in the first round, I know what I am talking about, and you are safe in the bet, for Terry will win inside of two minutes. That's inside."

Who the man was that told the information will not be identified, but the talk was overheard, and when the story first transpired an attempt to trace its source was met with stubborn resistance. But finally the man who overheard the conversation gave up on promise that his name should not be used. He further said that the man who admitted his truth had backed the little fighter heavily.

NEW HAVEN, Conn., Nov. 16.—Yale and Princeton tonight settled the question as to who would referee their game here. The two universities agreed upon John C. McCracken, the former University of Pennsylvania guard, so that he and Everts Wrenn, of Harvard, who was chosen as umpire a few days ago, will rule the play and the players at the big contest.

HOCKEY The annual meeting of the Sackville Hockey Club was held last evening. In the absence of President C. W. Pawcett, H. M. Wood presided. The following officers were elected: Honorary president, A. B. Copp, M. P. P.; president, H. M. Wood; vice-president, Gains Fawcett; secretary, Charles Stuart; treasurer, W. E. Cooper; finance and audit committee, F. L. Ford, H. M. Wood and W. T. Wood. The manager and captain were not appointed. It was decided at this meeting to import two outside players. The personnel of Sackville's team is somewhat in doubt. W. Chases will be the man for goal. E. M. Rainnie and Gordon Rainnie are among the names mentioned for point; for cover point, Geo. Ladd, law, Frank Knapp, Benjamin Russell and Gordon Rainnie are mentioned. George Stuart will probably be found at the right wing and E. A. Ayer or B. Russell at the left wing. R. Norman will be rover, with Percy Whalen or Frank Faulkner for centre. The prospects for a successful season are bright, and the boys will make a determined effort to hold the cup. A vote of thanks was tendered Chaplain Rainnie and Manager F. W. Wry for their successful efforts in bringing the trophy to Sackville last season.—Sackville Tribune.

PRESIDENT MCGURDY CUTS SALARY IN TWO, Will Try to Get Along on \$75,000 a Year—New York Life Will Start Policy of Retrenchment.

NEW YORK, Nov. 16.—At a special meeting of the board of trustees of the Mutual Life Insurance Company in this city today, at which a preliminary report of the recently appointed special investigation committee was submitted, President Richard A. McCurdy issued a stir by announcing that at his own request his salary had been cut in half from \$150,000 to \$75,000 a year. This action was taken at a meeting of the finance committee, and Mr. McCurdy said it was the first step in reducing the expenses of the company. Salaries of the other executive officers of the company also have been reduced, the saving amounting in all to between \$145,000 and \$150,000 per annum. Mr. McCurdy said he was aware that the management had been subject to severe criticism and that the company's business had suffered to a great extent. "I am far from admitting," he said, "that all criticism which has been made is unjust or deserved, but on the other hand I am not so blind as not to know that a public opinion unfavorable to the administration has been created and that its persistence must continue to work harm to the business of the company."

The principal reform demanded was the reduction of the cost of insurance. He had set an example in retrenchment by asking that his salary be cut in half. Commission agencies will be changed to a salary basis and legislative expenses will be done away with, policy holders' protective committees taking the place of salaried legal agents. President McCurdy's plans call for a reduction of expenses in every branch of the business. In conclusion he said: "Of one thing I feel certain, that no officer or trustee of this company has made any unlawful profit out of his office."

PRINCE LOUIS YESTERDAY. POUGHKEEPSIE, N. Y., Nov. 16.—Prince Louis of Battenberg passed a quiet day at Poughkeepsie, the home of Colonel John Jacob Astor, near Rhinebeck. In seven automobiles the distinguished party went to the residence of Mrs. Ogden Mills at Staatsburgh and remained for luncheon, returning to Poughkeepsie at 5 o'clock. An elaborate dinner was served at the Astor mansion tonight. Tomorrow morning the prince will leave for New York in Sol. Astor's car, which will be attached to the 9:10 train.

CURE FOR CONSUMPTION. Discovery of Antitoxic Serum for Tuberculosis Will Soon Be Made—Views of a Philadelphia Specialist.

That the production of an antitoxic serum for tuberculosis which will virtually eliminate consumption from the list of dangerous maladies is almost within the grasp of at least twenty scientific men, the most advanced of whom is Dr. Leonard Pearson, of Philadelphia; that the hovering of Behring's serum as the longest-for discovery was premature and unwarranted by the known facts, and that Philadelphia is in the front rank of cities so far as the solution of the tuberculosis problem is concerned, are statements made recently by Dr. Joseph Walsh, president of the Pennsylvania Society for the Prevention of Tuberculosis, in a number of the staff of the Phipps Institute for the Prevention of Tuberculosis and delegates to the recent International Tuberculosis congress in Paris. Dr. Walsh, who has just returned from an extended European tour, which followed his attendance at the sessions of the congress, made some of these statements in an interview given to The North American, and others in an address delivered yesterday morning before the Civic Betterment Association. In the interview which was given after the address, Dr. Walsh discussed the alleged Behring discovery of immunizing tuberculosis serum. "The announcement made by Behring at the Paris congress," said Dr. Walsh, "was premature, and, so far as I know, without the basis in fact. Behring is only one of twenty scientists working along the same line, with an immunizing serum as their goal. He has not shown that he has reached the goal, and the announcement that he has done so, in the absence of adequate

proof, was without an excuse which would be accepted by the world of science. "Of the score who are striving for the goal, none has accomplished as much as Dr. Leonard Pearson of this city. His experiments are developed further, and his findings are sustained more amply than those of any other man. "The discovery of the desired serum may be given to the world within a year by any of these men, and it may be delayed for several years. I, for one, am optimistic as to the revolution which will make consumption terrors."

"No man in that great congress received greater attention than our own Dr. Plick. To him primarily, and almost solely, is due the credit for bringing the next International Tuberculosis congress to America."

In the course of his address, Dr. Walsh said: "Among the things that were strongly advocated by the congress were the isolation of prisoners with tuberculosis and the isolation of the insane in insane asylums. My belief is that the most work in both these regards has been done in the United States. "Of these things on which the stamp of the congress, so to speak, was set, we have, in Philadelphia, three sanatoriums—White Haven, Chestnut Hill and the country branch of the Rush hospital; one 'Supporting Dispensary at the Henry Phipps Institute, and two in contemplation; one by Sister Maria Reek and one by Dr. Herman L. Dukering; three hospitals for advanced cases—the Henry Phipps Institute, the Rush and the Philadelphia hospitals. "We have no park convalescent station; no arrangements for the isolation of prisoners or insane with tuberculosis. We have the oldest Society for the Prevention of Tuberculosis in the world, namely, the Pennsylvania Society."

JEROME'S CAMPAIGN COST HIM NOTHING. Many People Enjoyed This Social Function Last Evening.

NEW YORK, Nov. 16.—Among the certificates of campaign expenses filed yesterday, by candidates were the following: William M. Ivis, \$10,578, of which \$3,225 went for headquarters expenses, \$1,722 for badges, buttons, banners and decorations, \$371 for rent of halls and music, and \$1,010 for advertising. William Travers Jerome, \$20,000. Mortimer C. Addoms, beaten for supreme court, \$70, of which \$200 went to the Republican county committee. Joseph E. Newburger, elected supreme court justice, \$5,500, contributed to the treasurer of Tammany Hall "as and for a contribution to the Democratic campaign fund for the general campaign purposes, not prohibited by law." Herman Metz, elected comptroller, \$15,000, in sums of \$5,000 each, one to Tammany Hall, one to Kings county general committee, and the third to William Hope, Metz's campaign manager. Frank Gass, elected register, \$3000 Timothy P. Sullivan, \$120. Charles A. Flammer (13,000 votes for district attorney) \$101 for stenographers, telephones, etc. Samuel Seabury, candidate for supreme court, \$517, of which \$500 went to the Municipal Ownership League finance committee. Hal Bell, defeated by Louis Haffen in The Bronx, \$400. Edgar J. Lauer, elected municipal justice, \$473. Patten—They said if he married her she'd make an angel of him. Patten—Well, she just ought to see how he can run up a bill. "His possessions."

NEPTUNE CLUB BALL. Many People Enjoyed This Social Function Last Evening.

The Neptune Rowing Club's annual ball at the York assembly rooms last evening was as the functions of this club invariably are, a delightful affair. About one hundred and twenty guests were present. The rooms looked very attractive, being decorated with bunting in the club's colors, and festoons of evergreen. Many trophies captured by the club's members in their athletic career were also in evidence. The chairpersons were Mrs. deB. Carrithie, Mrs. F. E. Hanington, Mrs. J. W. Holly, Mrs. R. Kettle Jones, Mrs. S. A. Jones, Mrs. Geo. McAvity, Mrs. F. E. Bayr, Mrs. Percy Thomson, Mrs. W. Vroom and Mrs. W. White. T music, which was pronounced by dancers to be highly satisfactory, furnished by Jones Orchestra, S. J. was served about midnight. AN UPRISING IN CUBA NEW YORK, Nov. 17.—A cable despatch to the Herald from Havana says: "A despatch received here at a late hour says that an uprising has occurred at Manzanillo and troops, supposedly destined for Santiago are ready for the latter place. Senior Andrade, secretary of the government, stated that nothing was known, but the government would take all possible precautions to prevent a repetition of the Cienfuegos incident. Magistrate—Well, young man, what excuse have you for taking the picture when you were forbidden to do it? Young Man—Justice, I didn't know my camera was loaded. Mrs. Duggins—You used to tell me I was an angel. Mrs. Duggins—You said to tell me I before I had to help you into your dresses that button up the back.

# POOR DOCUMENT

## NOV 23 4

ST JOHN STAR FRIDAY, NOVEMBER 17, 1905.

Lowest temperature during last 24 hours, 42.

Temperature at noon, 42.

### LOCAL NEWS.

The police found the doors of three business establishments open last night and secured them all.

The Battle liner *Estrella*, Capt. Mulcahy, from this port with deals arrived at Sharpness, Eng., yesterday.

Stetson's Uncle Tom's Cabin arrived in the city this morning to perform at the York. Two bloodhounds, two Topseys, etc., were all there.

The police report having been called into the St. John Iron Works, about 11:30 o'clock last night to eject George Wilson, who was not wanted there.

Landing today—One car Sweet, Jamaica oranges; also one car Ontario Spy Apples. These apples are the best grown in Canada for family use. A. L. Goodwin.

A special service will be held this evening in the city church, when a number will be received into full communion with the church. All are welcome.

Mr. Marsh, of Marsh & Marsh, arrived in the city this morning from Toronto, in connection with the new St. John-Jamaica service during the coming winter. Mr. Marsh is at the Royal.

There will be a public meeting in the interest of kindergartens, work in the lecture room of the Fortland Methodist church at eight o'clock this evening. Dr. Hughes, inspector of schools, Toronto, will address the meeting.

The Donaldson liner *Kastalia* is discharging cargo at the new corporation pier. Among the larger general cargo is 1973 cases of whiskey, 22 cabaret, 11 cases and two boxes of whiskey.

A public meeting is called by the Board of School Trustees to be held in the hall of the High School at 3 p. m. Saturday. Its object is to hear Dr. J. L. Hughes, of Toronto, on the subject of free kindergartens. All are invited to attend.

The complete clearance sale of women's and children's jackets and coats, which commenced at M. R. A.'s, Ltd., this morning will be continued all day Saturday right up to closing time at ten p. m. It is a remarkable collection of unusual values in winter outerwear, as any woman who attended today will readily appreciate. Secured bargains since 8:30 this morning, at which hour the rush commenced.

All first class schools are noted for their good order. Visitors to the Saint John Business College are always pleased with the quiet, orderly manner in which the work is conducted, and are naturally curious to know how so desirable a state of things is secured. The answer is that it can only be secured where the teachers are respected and the work is interesting and instructive. That this is the cause of the comfort enjoyed by St. John Business students is shown by the fact that a student may be present in attendance without hearing a word about rules and regulations.

### BRAKEMAN LEAPED FROM MOVING TRAIN.

Didn't Like Conductor's Abuse and Deserted—Train May Be Delayed Until Another Man is Found.

That an express train cannot properly run without the energetic brakeman who calls out the stations, etc., was quite apparent a few mornings ago when a peculiar incident occurred which has caused no little comment in railway circles.

According to good reports the passengers had seated themselves in the first class coach of one of the trains running out of this city, and after being bumped about for a time in the shunting of cars a start was made. Only a few miles of line had been covered when the train came to a sudden stop and began to back up. Travellers who knew the road knew there was not a siding where the train stopped, and as the train in question has generally a clear line presumed that some person had been killed, and anxious enquiries were made. The train, however, began backing up until it reached the station again, and then it was learned by some of the passengers what the trouble was.

It appears the train crew consists of conductor, baggage man and brakeman. Just after the train left the station the conductor and brakeman had some words, and the latter informed the man in charge of the train that if he did not stop his abuse the train could proceed without a brakeman. The conductor continued his talk and, true to his word, the brakeman jumped from the moving train, which, by the way, was not making any record-breaking time. The train was stopped and backed up, not for the purpose of picking up the deserting brakeman, but to hunt up another man to fill the position. It is said that after about a half an hour's delay at the station another brakeman was pressed into service and the delayed passenger, mail and express went along "better late than never." The man who jumped from the train walked home, and is now looking for another job.

### MILD WEATHER AND RAIN BANISHING RIVER ICE.

The ice on the river formed by the two days' cold snap is about gone. The rain has melted it, and the high wind blowing from the west has broken up the heavy rains is also assisting the general break up.

The Hampstead did not go up river last night on her regular trip, but postponed it until today. The boat met considerable ice on her trip down yesterday, and she was very late in reaching the city. Capt. Maybes, of the *Hampstead*, who reversed before serious injuries were done. The leak was fixed without much difficulty. Today's trip will probably be the last, which the *Hampstead* will make this year.

The Pokanoket left Fredericton as usual this morning and will go up again tomorrow.

### THE FIRST WINTER PORT BOAT.

The first Allan liner of the season is expected to open the winter season on this side of the Atlantic when the steamer *Paristan* arrives at Halifax tomorrow. The steamer left Montreal on November 10, and has on board 190 saloon, 62 second cabin and 399 steerage passengers, 229 tons of coal and 1,100 tons of general cargo. After landing a number of the passengers, she will proceed to the city. The *Paristan* will be in charge of the captain of the *Elaine*.

On her way down yesterday the *Hampstead* cut quite a hole in her bow by running into the ice. The engines, however, were reversed before serious injuries were done. The leak was fixed without much difficulty. Today's trip will probably be the last, which the *Hampstead* will make this year.

The Pokanoket left Fredericton as usual this morning and will go up again tomorrow.

### FAIRVILLE CROSSING PROTECTED.

The new gates at the C. P. R., Fairville, crossing, which the railway commissioners ordered the C. P. R. to furnish, were used for the first time this morning, and hereafter a watchman will be at hand to attend to the traffic.

The arguments on the question of the maintenance of these gates will be heard at Ottawa next Wednesday. It being contended by the railway that the municipality should bear part of the cost. The railway will be represented by Col. H. E. McLeod and Mr. McMillan, solicitor to the company. George R. Vincent will represent the municipality.

### BRAKEMAN LEAPED FROM MOVING TRAIN.

Didn't Like Conductor's Abuse and Deserted—Train May Be Delayed Until Another Man is Found.

That an express train cannot properly run without the energetic brakeman who calls out the stations, etc., was quite apparent a few mornings ago when a peculiar incident occurred which has caused no little comment in railway circles.

According to good reports the passengers had seated themselves in the first class coach of one of the trains running out of this city, and after being bumped about for a time in the shunting of cars a start was made. Only a few miles of line had been covered when the train came to a sudden stop and began to back up. Travellers who knew the road knew there was not a siding where the train stopped, and as the train in question has generally a clear line presumed that some person had been killed, and anxious enquiries were made. The train, however, began backing up until it reached the station again, and then it was learned by some of the passengers what the trouble was.

It appears the train crew consists of conductor, baggage man and brakeman. Just after the train left the station the conductor and brakeman had some words, and the latter informed the man in charge of the train that if he did not stop his abuse the train could proceed without a brakeman. The conductor continued his talk and, true to his word, the brakeman jumped from the moving train, which, by the way, was not making any record-breaking time. The train was stopped and backed up, not for the purpose of picking up the deserting brakeman, but to hunt up another man to fill the position. It is said that after about a half an hour's delay at the station another brakeman was pressed into service and the delayed passenger, mail and express went along "better late than never." The man who jumped from the train walked home, and is now looking for another job.

### NORTH END MILL HAND'S NARROW ESCAPE.

Quite a serious accident took place at an early hour this morning at Stetson and Cutler's mill, by which a young man named McMenimin had a narrow escape from death.

The accident took place soon after the mill started in the morning. Louis McMenimin, who is about 19 years of age was attending to the boards on the outside run by which the manufactured boards are taken from the mill to the yard, when some part of his clothing caught and he was wound up in the shaft.

To release him, his clothing had to be cut from his body and it was first thought he was seriously injured.

Dr. McIntyre was summoned and after a casual examination expressed the opinion that no bones were broken but decided to make a further examination. Before he was taken away he sat up and asked to be allowed to smoke.

Dr. McIntyre when seen this afternoon said that he could not be sure yet whether the injuries were serious or not. The young man was considerably shocked. Outwardly he was not much hurt. He is at his home 98 Harrison street.

### PERSONALS.

Mr. and Mrs. H. D. McLeod returned this morning from New York. E. J. Everett and Dr. Walker returned this morning from Florenceville and Woodstock on Masonic business. Miss Nevin, daughter of Chas. F. Nevin, arrived this morning from Melrose, where she has been nursing. Thos. Nairn, of the Donaldson line, arrived in the city this morning. Capt. Walsh, of the C. P. R. steamship line, arrived this morning from Montreal.

S. S. deForest returned home this morning on the Boston express. L. R. Ross returned this morning after a visit to Montreal and New York. Ex-Mayor Johnson, of Calais, arrived in the city this morning. Peter Carroll, the well known horseman of Pictou, arrived in the city this morning.

### THISLE CURLING TROPHIES.

At the meeting of the Thistle Curling Club last evening, the first of the season, J. W. Cameron, F. D. Miles, W. J. S. Myers and J. P. Shaw were elected to the managing committee. The match committee will consist of S. W. Palmer, D. McMillan, J. S. Gregory, J. A. Sinclair and J. W. Cameron.
