

Correspondence.

CORRECTIONS.

To the Editor of the Union Advocate.

SIR.—I see that several inaccuracies have crept into my letter which you have so kindly published in the Advocate of this date. These inaccuracies not only do violence to the grammatical construction of some of the sentences but they also obscure the meaning in several particulars. I shall not trouble you to correct the bad grammar but with your permission I shall amend two or three sentences which may have been misunderstood by your readers.

In one sentence No. 16 has been substituted for No. 15. The sentence reads: "Application was made to the Chief Superintendent of Education on behalf of the Roman Catholic trustees of No. 16 &c." It should read: "Application was made to the Chief Superintendent of Education on behalf of the Roman Catholic trustees of No. 15 and authority was asked to empower these public spirited gentlemen to hire and pay the salary of one of the Sisters teaching in the Convent within Dist. 16."

The word "discovered" should be destroyed in the following sentence:

"Let the reason for drawing up of this regulation be remembered; and let the reason for adding the enacting clause be also remembered; let it be remembered that it was after the Manual had appeared in proof sheet form and after the Chief Superintendent had been in Bathurst, that the meaning and intent of the Regulation were destroyed, and then why has the Hon. A. G. Blair the courage and manliness to deal honestly and honorably with the Protestant minority of Bathurst?"

I also note two or three inaccuracies in the sentence beginning with the words: "If the School Law of the Province had been honestly administered &c." but as the meaning is obvious I shall not make any further correction.

Thanking you for the space given to me in the columns of your valuable paper.

I am Yours

St. John's, Nfld., Jan. 25th.

Editor of the Advocate.

DEAR SIR.—The following lines appeared in your issue of the 25th.

The Social event of the season was held at the residence of John K. Hamilton on the 20th, also one at the River Charles temperance hall, where some of the young, temperance enthusiasts have gathered to discuss further plans of encouraging and encouraging the forces there to keep their ranks against the foe of the race anti-victory in securing the able services of a beverage is banished from the land.

After the 20th, a grand dance was given by a merry crowd of young people. The dresses of the young ladies were magnificent, and as they danced about the hall room the scene was a beautiful one. The music was grand and that could be expected under the able services of Prof. Martin, W. M. Hamilton and his orchestra.

I hereby declare that at the social meeting referred to no dancing was done. The Sons of Temperance in Charlottetown all their meetings always conduct themselves with propriety.

J. A. MacIntyre.

Charlottetown, Jan. 28th, 1892.

Domestic Parliament.

OPENING OF PARLIAMENT.

Ottawa, Jan. 26, 1893.—The Dominion Parliament was opened on the afternoon of Tuesday last with the usual ceremonies. Lord Stanley delivered the following speech:

SPEECH.—

Honorable Gentlemen of the Senate: Gentlemen of the House of Commons:

In meeting you at the commencement of another session of Parliament it affords me pleasure to congratulate you on the continued progress which the history of the past year unfolds with regard to Canada. The increase in trade as illustrated by the exports and imports during the period for which the official returns have been prepared has been most gratifying, and that increase has continued down to the present time, with promise that the volume of trade during the current year will exceed that of any year in the history of the Dominion. The revenues of the country have likewise provided for the service for which Parliament has made appropriations, and the operation of the government machine has been less burdensome as regards the difference between income and expenditures than has been the case for a long term of years previously.

In Manitoba and the Northwest Territories the increase in immigration has been steadily increasing, both as regards the number of persons who have come from other countries and as regards the number of homestead entries made by settlers of all nationalities.

Measures have been taken to carry into effect the agreements arrived at with the United States on the subject of the boundary of Alaska, boundary line in Passamunquity Bay, and the prevention of destructive parties of fishing and the preservation and increase of fish life.

With regard to reciprocity in shipping and towing, a correspondence has taken place which indicates that privileges are demanded for United States vessels in Canadian canals which were not anticipated, but it is not impossible that a satisfactory conclusion of the discussion may yet be reached.

During the recent friendly conference took place between delegates from my government and from the government of Newfoundland on the question which was pending between the two countries, it is hoped and expected that the interference of rivers which then took place will be productive of beneficial results and lead to an amicable adjustment of these questions.

The statistics of 1892 relative to a

department of trade and commerce and to the office of S. J. J. General having been brought into force, the appointments were made which were contemplated by these acts.

It is to be regretted that the government of the United States were unable to accept the suggestions made by the government on the subject of canal tolls, and that the President should have thought it necessary to impose exceptional tolls on Canadian vessels using the Saint Lawrence canal, which has so long been free to the people of both countries. My government, while ready to consider in a friendly spirit any proposals which may be made by the government of the United States, have caused efforts to be made to hasten the completion of the Canadian canal works, which will soon afford to the commerce of the Dominion a highway within our own country.

Measures will be laid before you for the improvement of the franchise act, for the amendment of the law relating to the civil service, and the superintendence of civil servants, for regulating the admission of evidence to causes and matters under the control of the parliament of Canada, for extending the system of voting by ballot to the Northwest Territories, and for simplifying the law relating to lands and transfers in the territories.

Gentlemen of the House of Commons: The public accounts of the past year and the estimates for the ensuing year will be laid before you without delay and I trust it will be seen that ample provision may be made for the public service without increasing taxation.

Gentlemen of the Senate: Gentlemen of the House of Commons: I have every confidence that all these matters will receive your best attention and that your deliberations will keep in view, above all other considerations, the welfare and stability of the country.

On the return of the commons to their chamber twelve members all liberal conservatives, elected during the recess, were introduced among them Mr. Cawley by Hon. Mr. Foster and George F. Baird and Hon. Mr. McInnes, by Hon. Mr. Cawley and Hon. Mr. Foster. Mr. Tarte was present in the building, but was not introduced. Messrs. Chesley and McInnes were greeted with loud applause as they took their seats.

On motion of Sir John Thompson, who expressed regret that the leader of the opposition was absent through illness, the consideration of the address was postponed till Monday.

The house adjourned at four o'clock. Mr. Adams had an interview today with Hon. Mr. Cawley, acting minister of marine and fisheries, in which he urged compliance with the petition of the Northumberland county council and the fishermen of Miramichi, that the season for fishing be extended so as to include the month of February. Bess were worth 10 cents a pound to the exporter in the Boston market. Mr. Adams contends that there is no reason why the season for fishing should be extended. Hon. Mr. Cawley promised to give the matter his instant attention.

It is a peculiar fact above described, that the Miramichi divides into two rivers, because only to be found in the northern branch, not a single fish having ever been taken in the other.

Ottawa, Jan. 27.—The house only sat a few minutes today before adjourning till Monday, when the address will be taken up as Mr. Laurier's health has so far improved that he will be able to take his seat by that time.

Mr. Ives was introduced this afternoon by Sir John Thompson and Sir A. P. Caron.

New Advertisements.

Card of Thanks.

M. Williamson takes this opportunity of thanking all friends who so kindly helped him to remove his stock and in other ways assisted him during the fire on Saturday, Jan. 26th, 1893.

Teacher Wanted.

A third class Female Teacher is wanted for District No. 4, Blackville, to commence on April 1. Apply stating salary required to

JAMES STURGEON, Sec'y to Trustees
