THE PIANO CONTEST IS ON AGAIN.

Candidates Should Get Busy--Should Enter Contest Now.

The chief reason why we last week decided to postpone our Piano and Watch Contest was that some time was necessary to make arrangements with the merchants whom we desire to have co-operate with us in giving coupons for voting. Working over-time we are able, and very glad, to announce the immediate continuance of the Contest.

It now goes merrily on. There are six candidates actively at work, but as they all are in one District it is greatly to be desired that others should enter the contest.

It may look like a difficult thing to win this piano—the four hundred dollar beauty—but you can do it if your desire to possess it is strong.

We are giving these gifts away for the purpose of increasing our subscription list—for that purpose only. If a dozen candidates will canvass this and Victoria county well and thoroughly we shall be satisfied. We present the gifts in payment for their work. One candidate, the one

who does the best work, will get the fine piano, four others will get handsome watches, while the other candidates will get disappointed that they didn't work a little more vigorously.

Now do YOU want this piano? Then plunge in and get it. Fill out the Nomination Blank you will find in this paper, study the few rules carefully and GET TO WORK!

No candidate is so far along but that a person who wants a piano really very much can overtake them. But delays are dangerous. Don't delay enrolling one minute—fill out the blank now and mail it to "The Observer Contest," Hartland, N. B. You then will get from us subscription blanks, and a special easy plan for getting votes by thousands—something we have not sold anybody about yet, not even those candidates who already are at work.

Be sure and read the Rules and Regulations carefully.

We will tell more about it next week.

Selling Live Poultry.

As there is now a large and growing market open to the farmers for disposing of their poultry alive, the following information from Seth Jones, as to the comparative values of live and drawn poultry will be of benefit to those interested. "It has been found by careful experiments that the loss of weight in fowl, chickens, ducks, geese and turkeys is one-third off from live to drawn condition, that is that a price of 10c. lb. alive, equals 15c. drawn. This also makes no allowance for the work of killing, plucking, shaping and expensive cases that must be used to ship good stock into our best trade. Scalding and drawing in the usual way hurts the keeping qualities of poultry."

Knox—Tompkins.

The marriage took place in the west on Oct. 23, of Miss Minnie Knox to Scott Tompkins. The ceremony was performed by Mr. Baker of New Brunswick, at the home of the bride's sister. The bridal supper was held at the home of Mrs. Richard K. Irving, Vancouver, B. C. The guests present were Mr. and Mrs. Husband, Miss Annie Husband, Mrs. A. Nicholson, Mrs. J. Elenning, Mrs. Eckerett, Harvey Tompkins and Jud Rideout.

Mr. and Mrs. Tompkins have been to Seattle and the coast cities on their tour and will take up their residence in New Westminster, B. C.

New Minister for Glassville.

Rev. James Colhoon of Derwood, Ireland, has accepted the call extended to him by the Presbyterian church of Glassville. He expects to arrive on the 12th inst. The induction will take place in the church at Glassville on Tuesday evening, Nov. 19. The officiating clergymen will be Rev. Frank Baird of Woodstock, Rev. R. J. Miller of Richmond and Rev. M. H. Manuel of Florenceville. On Sunday morning, the 17th, Rev. M. H. Manuel will preach at Glassville and read the official notice of induction.

The Farmers Will Learn.

J. B. Daggett has been heard from—he says the farmers in Hartland are getting a dollar a barrel for potatoes, while over in Maine only ninety cents is paid. This is the first announcement emanating from the majestic intellect of the Rev. Secretary and furnishes evidence of the calibre of the man required to fill the position, of secretary, to the satisfaction of the present regime. Potatoes were really selling for \$1.25 a barrel in Maine when Mr. Daggett made his statement and are selling today (Thursday) for \$1.35 a barrel.

The pious secretary omitted to say that in Victoria County the price is 80 and 90 cents.—Sentinel.

Potatoes \$1.40 in Aroostook.

H. M. Stevens returned home on Monday from a ten days visit in Aroostook county where years ago he built a number of houses. He told The Observer that all last week Green Mountains were bringing \$1.40 per barrel at Caribou but that few were being hauled to market as the farmers chose to take a chance on the prices advancing. He said several of the farmers he visited had from 2500 to 4000 barrels of their own raising of spuds in their potato cellars and were confidently looking forward to higher prices.

Good Word for N. B. Potatoes.

The Toronto Globe of last Saturday says "New Brunswick potatoes are offered in liberal quantities and are selling at 90 cents per sack (\$1.80 per barrel) in car lots. The quality is excellent this fall and they go freely." The same paper notes a decline in prices of 10 to 20 cents a bag. Ontario potatoes bring 10 to 15 cents a bag less than New Brunswicks.

POTATO PRICES.

An article concerning J. B. Daggett is reprinted from the Sentinel on another page of this issue, not for the sarcasm it contains, but that by its juxtaposition with another paragraph a comparison of reports from Aroostook county might be shown. Except one day when there was a wild scramble to complete cars in course of loading, potatoes have not brought \$1.25 in Hartland since early in the season. Green Mountain table potatoes in Aroostook have not been less than \$1.00. This week they are \$1.30 in Aroostook towns with the farmers reluctant about selling. The Observer doubts that Mr. Daggett made the statement about the potato prices that the Gleaner and The Standard attributed to him, and believes those two papers have unkindly put a story in his mouth which he did not originate.

Our Neighbours

Glassville.

There was erected here this week in the cemetery. A very fine specimen of the sculptor's art to the memory of the Rev. John K. Bearsto, a former minister of Glassville Presbyterian church. Removing last spring with his family from Amherst, N. S., to this place to spend his declining years, having retired from the active duties of the ministry, he fell asleep in the joy of his Lord, April 21, 1912, aged 73 years.

The monument is a modern design, chaste and modest, standing fully six and one half feet. The granite used in its construction is of two colors, local grey, and Saint George black, giving a very pleasing and beautiful effect.

The base grey, finished with patent hammer, and tooled. The plinthe, die, and cap, black and highly polished, and enriched with carvings and tracings in bas relief. The plinthe bears the family name, Bearsto, in large relieved letters. The die with its chamfered edges tooled, contains the inscription's with, "Erected by his friends", and surmounted by a massive roll or cap with the letter B in relief in an old English capital in the centre of the face. The lot on which it stands is being enclosed with an iron railing placed on granite posts.

Services will be held in the Presbyterian church Sunday forenoon, November 17, by Rev. M. H. Manuel of Greenfield when the edict of induction will be read of the translation of Rev. James Calhoun from the Presbytery of North Ireland, to the pastorate of Glassville. Several ministers of the Presbytery of St. John will be present at induction, Tuesday evening Nov. 19.

Miss Verna Good left on Friday afternoon to visit her sister at Plaster Rock.

Mr. and Mrs. David Bell are rejoicing over the arrival of a baby girl at their home.

Nov. 10th was Temperance Sunday in the Sunday school. The W.C.T.U. took charge of the school and handled the lesson in an efficient manner. The programme consisted of a duet by Misses Vade Davis and Helen Somerville, a reading by Miss Olive Gould, and a chorus by the boys and girls of the intermediate classes. Mrs. Geo. Caldwell conducted the lesson, and with the use of the black board gave a very practical and interesting review. We hope for more along the same lines in the future.

Centreville.

Ludlow Estabrooks and wife of Mazonville have been visiting in the village among their relatives. They intend spending the winter in New York with their son.

J. S. Kinney and daughter leave today for Dover, Me., after visiting here for some time. They intend going to the coast the first of the year.

B. B. Estabrooks is now sole proprietor of the Hardware business, having bought out the interest of C. M. Sherwood.

Miss Winnie Clark is home from a long and pleasant visit at Freeport, Me., with Mrs. (Dr.) Clark, her sister-in-law.

J. B. Daggett has moved his family and household effects to Fredericton and his vacated house is now for rent. The Rebekahs intend getting up an

entertainment and play for Xmas night. It looks as if the Rebekahs would have to build a hall for the Oddfellows as their interest died when they got as far as purchasing a lot.

Fort George, B. C.

Record Railroad Construction will cause British Columbia to be the scene of greatest development in Western Canada during the next decade. Premier McBride says

\$100,000,000.00

will be spent in British Columbia between now and the end of 1915.

Fort George

Is in the centre of this great development

All lots in Central Fort George were sold in sixty days. Other Additions have been put in since. These are going rapidly.

Lots may be had from one hundred and fifty dollars each—Double Corners, three hundred and twenty-five, payments \$10 per month per lot or 10 per cent discount for cash.

Now is the time to buy, before the railroads get there. Those who invested in Fort George one or two years ago have already made big profits, but the growing time is ahead.

If you have a few or many dollars to invest

Fort George

is the place to put it. I can sell you lots in town sites from St. John to Vancouver, but I believe Fort George is the surest and quickest money maker.

BUY A FARM

In the West Florida Country, this is not the Florida that you have been reading so much about, but some five hundred miles from the much advertised country. The West Florida country is elevated and healthy, no extreme heat in the summer, nor cold in the winters. Fruit, vegetables, figs, and watermelons, satsuma oranges, fish and oysters are in abundance. Eggs and chickens are extremely high and this is a good climate to raise them in. This part of the world has never been advertised for sale before, and no exaggeration literature is gotten out to show the enormous growth of the products, but the growths are here just the same, with a climate seldom equalled and never excelled. Rheumatism, catarrh and tuberculosis are always relieved and cured in numbers of instances. This land is extremely productive if properly handled. We are offering lands in tracts of ten acres up to five hundred acres at twenty dollars per acre; three dollars per acre per month. Also we have some small and large farms fully improved bearing pecans, oranges, figs, all kinds of berries etc. close to the fast growing town of Pensacola. Particulars may be obtained free of charge from Charter Land Co. Pensacola, Fla. U.S.A.

Now open and ready for YOU. Write and tell me what day you are coming. A postal will do.

DEAR OBSERVER: As our October sun is shining so beautifully, very much like your Indian summer, and all nature seems to rejoice, and this scribe is all alone, I thought it a good opportunity to scratch you a few lines. We have had so far a very open fall, and so warm that some of our peach trees are in bloom. The coldest weather we have had this fall was last week, when for a few days the thermometer went as high as 56 above zero, that gave most every one a cold and many have been sick from it, I among the rest. Our country is in a hustle and bustle to gather and market their cotton, which in many localities is very poor, yet the price is kept down no doubt by speculators. We hope some time to be able to sell direct to the consumer, and not through the second and third parties who each get a good slice off of it as it passes through their hands. Fruit has not been so good as last year, but we have no reason to complain. We have two gins in our suburbs that gin from twenty five to a hundred bales per day, of four hundred and fifty to five pounds each. We also have a cotton seed oil mill that is doing a good business. Our two yarn mills are run by electricity and one by steam. Our town has been on a building boom this year. We think we have one of the best little cities in the states. Our taxes are fifteen dollars an a thousand for state and county, and the city tax will be about the same. Our fall grain is up and growing fine. No frost here yet, and none scheduled for us as yet. The Baptist annual association is in session here now with quite a lot of ministers and lay delegates in attendance. A fine body of men and women.

You really seem to be working on the Valley road. So mote it be. What a blessing it will be to the people who are in reach of it. I am so glad there are so many politically sick voters all over Canada as seem to be now. I was so very much set back and disgusted when they defeated reciprocity I felt mortified and ashamed of my countrymen who were so blinded by political prejudice as to vote against a measure that was intended to benefit the farmer especially, on whose success depends all other success and prosperity. Now I understand the United States has repealed their law, and now the only hope I see for you to get that law again established is to re-elect Laurier to his old leadership, and he may be able to establish reciprocity with Uncle Sam. That was another blind dash Canada made when they defeated Laurier. I think many are sick over that mistake, but I believe they will correct it as soon as the opportunity occurs. What a blessing is laid at men's door when they see their mistake they can repent, and find forgiveness in the eyes of God and man. Canada ought to pull together like the Democrats are doing now on this side the line, and we so much hope to get a Democrat president this time in the person of Woodrow Wilson. If we get him you will have a good neighbour.

Mr. Editor, I just want to touch lightly on the styles of our Georgia ladies, with their immense hats, long flat pins and abbreviated skirts. With the present style of dress on ladies that we have here I am sure they could not go on a skating trip nor do much on a snowshoe tramp as I see occasionally you have there. Here our real bontons, when they go at a distance on a visit or house party, ship their hats by express and follow bare headed and the same thing is done when the frolic is over. One city in Georgia has passed an ordinance to the effect that ladies shall not use hatpins over six inches long. This is a wise ordinance for many a man has been gauded by these projectiles.

Well, the asses, if they can be called such, I hardly know how to describe them to you they are so disgusting to men who love modesty. Old as I am I feel ashamed for them when I meet them on the street.

One way says the ladies are wearing one legged breeches. I can hardly decide which is the most repulsive, the front or rear view. Why the scrutinizing of most men could tell what number pants-leg they will need when they get the pants on sure enough, which I would not be surprised to see at most any turn of the season. If I am correctly informed all these extreme cuts are started in the brain of some highlier but degraded women of New York and Paris.

Unable to Work for 14 Months

Complete Nervous Breakdown Left
Mr. Black an Invalid—Cured
by Dr. Chase's Nerve Food.

Mr. Henry Black.

What a helpless mass of flesh and bone the human body is. One of the nerves become exhausted. Extreme weakness comes over you, and you lose control of the limbs. The next step is paralysis.

You will be fortunate if, like Mr. Black, you get the building-up process in action before it is forever too late.

By forming new, rich blood, Dr. Chase's Nerve Food carries new vigor and energy to every organ and every member of the human body.

Mr. Henry Black, 51 St. Catherine street east, Montreal, Que., writes:—

"The wonderful results I obtained from the use of Dr. Chase's Nerve Food constrain me to write this letter in order that others who suffer from nervous exhaustion and weakness may use this medicine with equally satisfactory results. As the result of overwork I became completely exhausted, and was unable to work for fourteen months. As I am the father of a family, these were sad days for me, but after I had used six boxes of Dr. Chase's Nerve Food I had improved so greatly that I continued the treatment until I was completely restored to health and strength. I now work twelve to fifteen hours a day, and keep in excellent health."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmanon, Bates & Co., Limited, Toronto.

A Ridiculous Alternative.

Apparently a new turn has been made by Mr. Borden in his efforts to prepare public opinion for an emergency contribution. For a time he never lost an opportunity of declaring that if Canada gave direct aid to the Imperial Navy she must also have a voice in a settling issue of peace and war. The absurdity of this was mercilessly exposed by Sir Wilfrid Laurier who spoke of the inevitable embarrassment to the British Ministry of Canada for instance at the present moment, having along with Australia, South Africa, and Newfoundland, any say as to peace of war in questions involving the Balkan States. Nevertheless Mr. Borden is persisting in striving for the form, even if he be unable to get the substance, and now we are told Canada is to have representations on an Imperial Council of Defence on which she would have as much voice in settling issues of war or peace as she would have in arranging peace terms for Turkey. The Defence Council's duties are chiefly advisory and so limited that if it undertook to advise the Foreign Office on any question of foreign policy it would probably be diplomatically advised to mind its own business.

Canada is already well represented in London and can at any time deal directly with the Imperial Government through the Colonial Office. Adopting the circumlocutory route of representation in an ornamental defence council with the other overseas dominions would hardly seem; even to the most pronounced Jingo an adequate return for \$30,000,000 of Canadian money. Perhaps the Nationalist wing of the coalition Government will be able, with Mr. Armand Lavergne's consent, to suggest some better method.

Unanimous Verdict.

Newspaper publishers and citizens generally throughout the Dominion are unanimous in their opinion that the picture entitled "Mothers Treasures," given with The Family Herald and Weekly Star of Montreal, this season, is a most delightful and beautiful subject. Here is the opinion of one publisher: "Mother's Treasures," is a marvel of beauty. The subject is one that will have a tendency to strengthen home ties. We, in the same business, wonder how you can afford to give such value in pictures besides the vast amount of good things in The Family Herald and Weekly Star." Signed E. W. Richards, The Mirror, Millbrook. No home in Canada should be without this beautiful picture. One dollar pays a full year's subscription to The Family Herald and Weekly Star, including the picture, which is ready for framing, size 23 by 29 inches. It is a big dollar's worth, indeed.

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by all dealers.
