Undyed yarn sheep's gray 3 lbs. 1st premium 1.50 2nd do 1.00.

Best Churn. 1st premium 1.00 2nd do 50 cts.

Regulations for the Ploughing Match.

1. Each Competitor shall plough three ridges of land 12 feet in width, and about 15 rods in length, as staked off; the ridges to be gathered.

2. The furrows to be 2 inches wide and 6 inches deep.

3. The Lots to be ploughed will be assigned to each competitor by lot.

4. One of the horses in each team must be the property of the person entering the

same, and owned in this County, and the Ploughmen must be inhabitants of the County.

5. Each Ploughman must drive his own horse.

6. Ox teams entered must be the property of the person entering them, and teamsters will be allowed to ox teams.

7. The competitors will be required to start at 11 A. M., by signal.

8. The ploughing to be finished in four hours, after which the Judges will be called in to inspect the work done; any ploughman who has not finished his work at that time, will forfeit his right to any premium.

9. The Secretary will be at the field (of the situation of which due notice will be given) at 9 o'clock A. M., to receive entries from intending competitors who have not previously entered their names; all persons intending to compete must pay an entrance fee of 5c. each unless paid up members of the Society, and no entries will be received at 10.50 A. M.

For Cattle Show.

1. All animals must have been the bona fide property of the person entering the same, and have been kept in this County not less than six months.

2. All crops, dairy produce, domestic manufactures, &c., must be bona fide the property of the person entering the same, and the growth and production of this County.

3. Persons desirous of competing at the Cattle Show must hand a list of their stock or articles entered to the Secretary before 11 A. M., on the day of the Show, and if not paid up members of the Society must pay an entrance fee of 5c. each. No entries will be received after the hours above specified. Members of the society will be allowed to pay their subscription for the current year at any time previous to the Ploughing Match.

4. No persons shall receive more than once Premium on the same kind of live stock nor on the same kind of any other article exhibited by him.

5. Cattle and Horses competing must be provided with suitable halters, and with other stock must be placed in the field according to their respective classes and ages, and pigs must be ringed.

6. No premium shall be awarded or paid on any grain, which has been subjected to any other process than the ordinary methods of changing it.

7. No Stock or article entered for competition, shall be removed from the Show ground or building, until after the premium list has been read and amounts awarded.

8. Any person refusing to comply with the requisitions of the Committee of Arrangements will be debarred from receiving any premium.

9. No Judge on any description of articles entered, to enter an article of same kind for competition.

10. Judges have the right of rejecting any or all of the articles entered, should they think them unworthy of premiums; and the Judges are particularly requested to strictly enforce this rule.

11. A bushel measure has been provided for measuring grain, root crops, &c., and their relative values will be adjudged, according to the weight per bushel.

12. In future all persons receiving Premiums from this Society, and who may be found to have accepted them in violation of the Rules of the Society, will be prosecuted by the Society to recover back the amounts received by them.

13. The Oxen and steers exhibited will be tested with reference to their working capabilities.

Refreshments will be provided in the neighborhood of the Show, at reasonable rates, for those who wish to attend.

Messrs J. Russel, Robert Eastman, and Robert C. Mowatt, Committee of Arrangements.

A. T. PAUL, Secretary.

St. Andrews, July 24, 1862.

WHAT IS HEAT LIGHTNING? The flashes of lightning often observed on a summer evening, unaccompanied by thunder, and popularly known as "heat lightning," are merely the light from discharges of electricity from an ordinary thunder cloud beneath the horizon of the observer, reflected from clouds or perhaps from the air itself, as in the case of twilight. Professor Henry says that Mr. Brooks, one of the directors of the telegraph line between Pittsburg and Philadelphia, on one occasion, to satisfy himself on this point asked for information from a distant operator during the appearance of flashes of this kind in the distant horizon, and learned that they proceeded from a thunder storm then raging two hundred and fifty miles eastward of his place of observation.

REDUCING A GOVERNOR'S SALARY.—Late Australian papers say that the Legislature of that Colony has passed a law to reduce the

Governor's salary from £10,000 per annum, with £5,000 a year of allowances and a house worth £3,000, to £7,000 without allowances, but with the house.

The Necessity of Ventilation.

We had intended to write an appeal for more fresh air in our churches, and public halls. Incidentally however, the following capital advice upon the subject, written by one, who has himself been a "gasper" turned up, and we give it in preference to offering any remarks of our own. Although the orthography is not exactly Johnsonian, yet it is intelligible, and may we not hope, that the advice will be taken—and let us have more fresh air, in our public assemblies.

A APPEAL FOR AIR TO THE SEXTANT

BY A GASPER.

O sextant of the metnoisne, which sweeps And dusts, or is supposed to band makes fiets And lites the gas, and sumtimes leaves a screw loose

In which case it smells 'erful—worse than lamp- And rings the bell and toles it when men dyes to the grief of surviving pardners, and sweeps pathes

And for the servases gits \$100 per annum, Wich them that thinks acer, let em try it; Getin up befor star-lite in all wetthers and kindin fiets when the wetther is as cold As zero, as like as not green wood for kindlers I would net be hired to do it for no some—

But o sex tant there was 1 kermoddy Wich's more ther gold, which dont cost nothin, Worth more than anything exsep the Sole of Mann, I mean pewer Are, sextant, i mean pewer Are! O it is plenty out of dorees so plenty it deant no What on airth to dew, with itself, but ffs about Scatring leaves and bloin of men's hats; In short, its jest "fie as are" out d vres.

But a sextant, in our church 's a fee as piety source as bank bills wen agints leg for mischuns Wich some sees is purty often (tain't nothin to me) Wat I give aint nothin to nobody; but o sextant a shet of 500,000 men women and children, Specially the latter, up in a tite place, Some has had brethra, none aint 2 sweet, Some is fevry, some 's scrofulous, some has had teeth, And some haint noe and some aint over clean; But every one em breethes in and out and in & in.

Say 50 times a minit, or one million and a half 'Brethra an hour

Now how long will a churchful of are las' at that rate, I ask you, say 16' minit, and then is to be did? Why then they must breathe it all over agin, And then agin, and soon, till each has took it down At le. at 10 times, and let it up, agin and wents more

The same individdle dont have the privilege of breethen his own are, and no ones else; Each one mus take what ever comes to shi n. O sextant, dont you no our lungs is bellusses. O it is the fire of life, and keep it from goin out, and how can the bellusses, hio without And aint wind are? I leave it to your consachens— Are is the same to hys as milkto babies.

Or water is to fish, ore peddlars to elox, Or roots and airbouts unto an Injun doctor Or little pils to an omeplat.

you are never wedded to me, as it would be bigamy?"

FROM THE STATES.

BANGOR, July 22.

30,000 men—volunteers—are already enlisted.

General Pope is in Washington awaiting Halleck's arrival.

Military matters in Virginia and the West have assumed a new aspect, and important changes are deemed necessary.

Extraordinary meeting of Cabinet was held to-day. Several Generals were present. No result attained, President wishing to consult Halleck.

Confederates reported concentrating in considerable force between City Point and Richmond for the purpose of covering the flanks of the forts.

Several Federal gunboats and a company of Zouaves captured Hamilton, N. C. Later took the Fort and town. Gunboats captured a steamer.

This achievement opens the road to Weldon.

The Federals fought and badly whipped Guerrillas near Memphis.

Farragut's entire fleet is below Vicksburg.

July 23.

The President issues an order to Commendation in revolted States to use real or personal property as necessary; also to use labour of negroes, giving them reasonable wages.

Halleck arrived at Washington, also Burnside, and other Generals for consultation.

Government issues order relative to aliens absolving them from taking oath of allegiance, but requiring respect to the Government when their personal liberty is affected; case will be turned over to State Department for consideration.

Morgan's Guerilla Band had been overtaken and scattered in Kentucky, and cannon, horses and other property, captured by them at Cynthia, retaken.

Fifty Federal Cavalry captured near Booneville, Miss. Skirmish there daily.

FROM THE SOUTH.

The Richmond Enquirer of the 14th has the following concerning McClellan's army:

"From gentleman lately down the river as far as Jordan's Point, we learn that over one hundred transports, vessels of war and gunboats, are at Harrison's Bar in James river, while the Northern bank from Heron creek to Westover, extending back from the river about three miles.

They are working day and night, displaying an energy in their defeat that we would much delight to see evinced by the confederates in the flush of victory. Six long wharves already facilitate the landing of supplies, and reinforcements. Houses are being built for stores and hospitals; and every preparation which a permanent base of future operation would dictate already exist at Harrison's Bar. The enemy may not move at an early day, but they have not abandoned the idea of capturing Richmond, will be apparent to any man who may witness their operations at Harrison's Bar.

It would seem that the enemy is projecting an attack upon us by the way of James river. A change of naval commanders in the James and a strengthening of the fleet would indicate an important part of the programme is to be borne by the navy. We should not wonder if the fleet is to form the centre of the hostile line, the right and left wing of which are to be formed of McClellan's army, posted respectively on the North and South banks of the river. The effort will probably be to take our river batteries by flank attacks, and then remove the obstructions, so as to allow the fleet to come up to the city."

The Columbia (S. C.) Guardian says that two Federal gunboats attempted to ascend the Santee on the 7th inst., when they were attacked by a Confederate force and turned to go back again, but one of them got aground on a sand bar and was captured.—It was reported that one hundred Yankees were killed and wounded in this affair.—The object of the boats, it was supposed, was to destroy the north-eastern railroad bridges.

The Mobile Advertiser says the battle cry of the First Louisiana Regiment before Richmond was, "Remember Orleans, boys, and Butler the best!"

REPORTS FROM JAMES RIVER.

The Richmond Enquirer says:

"It is no longer doubtful that our lines are being brought closer to Richmond, but a large force has been left immediately in front of the enemy as an obstruction."

Gen. Stuart, last Monday with a few pieces of artillery, again made a circuit of McClellan's position, reaching the James River below him, and opened fire upon a large fleet of transports, sinking one and crippling several.

HIGHLY IMPORTANT DISPATCH.—A telegraphic despatch was received by a gentleman in this forenoon from New York, stating that the Irishman of that Empire City had held a mass meeting, at which it was resolved that no further enlistments should take place in consequence of the wounded of the Federal army being uncared for, and the non payment of the Northern soldiers engaged in the war. It is rumored that there will resistance to the projected conscription.—[Halifax Express.

FROM WASHINGTON.—The correspondent of the New York Post says:

"The law in reference to stamps meets with very general favor in this vicinity.—The post Office Department will issue a large amount of stamps for circulation. It is expected that they will be ready by the first of August at all the leading post offices, where for Treasury notes, any one can obtain a supply of three, five, ten, twelve, twenty-four, thirty, forty-eight, sixty, and ninety cent stamps. The small denominations are most needed. With five and ten it will be easy to make change in all ordinary transactions. With stamps and pennies it is the expectation of the Government that the people will not suffer much inconvenience. The coinage of cents will be pushed to the exchange at par for Treasury notes there they must soon be about in the general circulation.

Slave property is worthless in this vicinity. A intelligent person who came up from Culpeper Court House a day or two ago, reports that such is the independence, or insolence as he called it, of the slave population of

Arrival of the Emma.

ST. JOHN'S, N. F., July 24, 1862. The Emma from Liverpool 16th, Thursday evening.

The Times again deprecates new American tariff predicts far greater injury to America than to any one else.

Lighting before Richmond is eagerly expected. Some of the journals regard it as a great reverse for the North.

Hopes are freely expressed that more pacific councils will soon prevail at Washington.

The Times is particularly bitter and sarcastic. It treats the matter as a decided Confederate victory.

The Morning Post says affairs approach a crisis which will necessitate some decided course on the part of the Federal government.

Neutrals cannot much longer remain passive spectators, and great question is, when shall the South be considered to have vindicated its right to recognition?

The Daily News points out what would be the feelings of England if situated like the North.

Parliamentary business unimportant. Foster, in House of Commons, gave notice that when Lindsay's motion for recognition of South comes up he will move an amendment compelling the House to sustain Government in its policy of non-intervention.

The increasing distress in manufacturing districts in England is engaging the attention of Parliament.

It is denied that the Prince of Wales will visit Russia.

Palmston in a speech before the Volunteers spoke impressively, and some say significantly of the importance of maintaining the efficiency of the movement.

Paris Patrie says an interview between the Emperors of France and Russia and King of Prussia will take place in September.

House closed heavy—63.50. In the Italian Chamber, the Ministry explained Garibaldi's course at Palermo.

Prussian Ministry introduced a bill providing credits for increased navy.

Steamer Edinburgh leaves Liverpool 17th for New York to accommodate cargo shipping in anticipation of New Tariff.

MARKETS.—Cotton Market buoyant—advanced 1/4 a lb. Breadstuffs downward tendency. Flour dull. Wheat steady. Corn declining. Consols 93 9/16.

STONEWALL JACKSON.

(From the New York Tribune) Thomas Jefferson Jackson was born in Fincastle County Virginia, in 1825. He is, therefore just thirty-seven years of age, the fatal age for men of genius.

It was by family influence, exerted in behalf of his intellectual and moral promise that he was made a West Point Cadet at the age of seventeen.

He graduated with high honors in the same class with McClellan just as the Mexican war broke out immediately entered service with Gen. Scott as a brevet Lieutenant and was made full Lieutenant for gallant conduct in the memorable campaign from Vera Cruz to Mexico.

who, as a soldier, is as rapid as lightning, and as a statesman, is as bold as a lion. He is a man of a high order of mind, and a high order of courage. He is a man of a high order of intellect, and a high order of character.

He is a man of a high order of intellect, and a high order of character. He is a man of a high order of intellect, and a high order of character. He is a man of a high order of intellect, and a high order of character.

He is a man of a high order of intellect, and a high order of character. He is a man of a high order of intellect, and a high order of character. He is a man of a high order of intellect, and a high order of character.

FROM THE STATES.

REPORTED that Gen. Lane has been commissioned to organize an army in Kansas department in his own way.

The World's despatch says, Ewell's, Hill's, Longstreet's and Jackson's Division of the Confederate army left Richmond gradually within the past fortnight, and are concentrating near Gordonsville, 60 miles.

It is supposed that an attempt will be made on Maryland or Washington. Counterattacks and attack will be made.

The citizens along Rappahannock who recently took the Federal oath of allegiance are in great alarm.

Paraguay's fleet silenced Vicksburg batteries while running down river.

The canal to insulate city is completed, but the rise of water is waited for.

Superfine, \$4.90 to \$4.95; Extra, \$5.20 to \$5.30.

Official Federal losses of killed, wounded and missing, is 16,000.

Jackson with 14,000 men, is at Louisa Court House, and Ewell, with 6,000, at Gordonsville, with probable intention to break Federal lines and threaten Washington, in order to draw off Federal forces from Richmond.

Pope's forces are represented as ready to make the attack.

Baltimore letter gives list of 28 fortifications around Richmond.

Richmond Engineer complains that rowdism and disorder have upper hand in the city. It also says arrangements for exchange of prisoners makes important error in recognizing Confederates as belligerents.

Latest from Chattanooga, Tenn., Confederate infantry crossed river in force.

Confederate cavalry in East Tennessee re-presented five thousand.

Secessionists in Baltimore City Council resigned.

BRASIL.—The following extract of a letter from Mr. Wm. Ware, recently an Engineer on the N. B. & C. Railway, but now employed on the Santo Paulo Railway, Brazil, we copy from the Quebec Chronicle. The letter is dated 5th June.

Railway construction seems to be the order of the day all over this empire, and no doubt when the system of railways now projected is properly carried out, Brazil will become one of the most flourishing countries in the world.

Up to the present time the whole of the produce of the interior has been carried to the sea coast on the backs of mules, which are driven in herds, or as they are called here troops, numbering sometimes 100 mules heavily laden with coffee, sugar, and other tropical productions.

On his premises are also a Saw Mill, grist mill and Carding Machine, which were not in operation owing to the dam having "blown," or given way on Sunday last, but it was undergoing temporary repairs.

The news from the States is conflicting; one day reports of successes are recorded only to be refuted the next; it is almost impossible to get at the truth.

The climate of this part of Brazil is, literally speaking, as fine as could be wished for. The thermometer seldom rises above 94 F in summer, and in winter a slight frost may perhaps visit us once during the season.

Yellow fever, &c. which we hear so much of in Canada, are almost unknown in the Province of Santo Paulo, but unfortunately are now prevalent in the vicinity of Batavia and Pernambuco, where out of a staff of 24 railway officials 22 were carried off within 12 months.

The Santa Paulo railway, on which I have been employed since my arrival here, runs from Santos into the interior. The first section of fifty miles to the city of Santo Paulo was begun two years ago and is now well advanced towards completion.

The capital of the S. P. R. Company is £2,000,000 which is raised in England upon a guarantee of 7 per cent by the Brazilian Government. The chief engineer is James Brunel, of London, and the contractors are Robt. Sharpe & Sons; the staff consists of a person, a doctor, and about thirty-five engineers, accountants, &c.

INTERNATIONAL EXHIBITION.—At the International Exhibition held in London, the Province of Nova Scotia has been awarded nineteen Gold medals, and obtained honorable mention in eleven other departments.

The Halifax Colonist says, "more medals have been awarded to Nova Scotia than to three Provinces of New Brunswick, Newfoundland and Prince Edward Island." The inhabitants of Nova Scotia may feel proud of the splendid display made by their Province.

New Brunswick was awarded nine Gold Medals and eight certificates of honorable mention. [New Br.]

THE RAILWAY.—Several tourists and pleasure seekers, are availing themselves of the safe and rapid mode of travel by the Railway from Woodstock to St. Andrews.

As a change and for diversity of scenery, rapid conveyance and cheap travelling, they select this route. They informed us that they were much pleased with their trip, the civility and attention of the employees of the Railway.

The conductor Mr. Hipwell, is highly spoken of for his urbanity and kindness, while at the same time, he looks sharply after the interests of the Company.

On Monday last James A. Harding, Esq., High Sheriff of St. John, with Messrs. Reynolds, Carmichael, Deforest, Barnes, and other gentlemen, took this route, to the Upper St. John, on a fishing excursion.

Leaving the city at 8 o'clock a. m., and at 9 p. m. were in Woodstock. We also observed some Fredericton merchants came by the Railway to take the steamer for Boston.

An occasional Excursion, of which timely notice should be given, would not only we believe be patronized, but we trust also prove remunerative to the Company, by extending the time of returning to two or three days.

The numerous lakes and brooks contiguous to the Line, abound with excellent trout.—A party of gentlemen who went up the Line a few days ago returned the next morning after four or five hours fishing with baskets full of trout, some of which weighed from one pound to two and a half pounds, which when served on the table, were said to be of excellent flavor.

SAD ACCIDENT.—We learn that Dr. M. R. Fletcher's third son, John McMaster, was recently out shooting near Cambridge Mass. the gun discharged, lodging the bullet in his right breast, and the ball, which was in his chest, was removed by the surgeon.

He was conveyed to his home, and medical assistance obtained. Although still in a precarious condition, we are happy to learn that there is promise of his recovery.

The Crops in the vicinity of the Rolling Dam, promise an abundant yield, except hay which will be an average one, but will not compare with the yield of last season.

There are farms which present to the eye a thrifty appearance, among them we may mention that of our old friend, Henry Styles, Esq., who appears to have a system and neatness about his place, worthy of imitation.

On his premises are also a Saw Mill, grist mill and Carding Machine, which were not in operation owing to the dam having "blown," or given way on Sunday last, but it was undergoing temporary repairs.

DR. LA MER'S ON SELF-PRESERVATION. Price, with Engravings and Cases, 25 cents; by SELF-PRESERVATION, a popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excess in maturity, which, by prematurely exhausting the functions of Manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence.

By Dr. LA MER, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the vices of Manhood can be preserved to advance period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The Author is the only legally-qualified practitioner whose name stands on the "Medical Register" (the sole test of medical qualification), who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple, and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter.—37 Bedford Square, London, England.

Patients residing in the colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety to any address.—SELF-PIE ERVATION

may be had of the undermentioned Agents, price 25 cents, free by post, 30 cents:—HALIFAX, N. S.—Mr. E. G. Fuller, Express Agent. YARMOUTH, N. S.—Messrs. Young and Baker, Booksellers. SYDNEY, C. B.—Mr. J. P. Ward, 'News' Office. ST. JOHN, N. B.—Messrs. H. Chubb and Co., 'Courier' Office. CHARLOTTETOWN, P. E. I.—Mr. J. Inge, 'Islander' Office.

Blackwood's Magazine AND THE British Reviews. L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:—I.—THE LONDON QUARTERLY (Conservative.) II.—THE EDINBURGH REVIEW (Whig.) III.—THE NORTH BRITISH REVIEW (Free Church.) IV.—THE WESTMINSTER REVIEW (Liberal.) V.—BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily Journal, and the ponderous tomes of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and moral character, we urge them upon the consideration of the reading public.

EARLY CLIPPINGS. The receipt of ADVANCE SHEETS from the British publishers gives additional value to these reprints inasmuch as they can now be placed in the hands of subscribers about as soon as the original edition.

TERMS Per ann. For any one of the four Reviews, \$3.00 For any two of the four Reviews, 5.00 For any three of the four Reviews, 7.00 For all four of the Reviews, 8.00 For Blackwood's Magazine, 3.00 For Blackwood and one Review, 5.00 For Blackwood and two Reviews, 7.00 For Blackwood and three Reviews, 9.00 For Blackwood and four Reviews, 10.00

Mo. ex current in the State where issued will be received at par. N. B.—The price in Great Britain of the five Periodicals above named is \$31 per annum. February, 18, 1862—3m.

H. & B.

MRS. WINSLOW An experienced Nurse and Female Physician attends to the education of mothers, her SMOOTHING SYRUP FOR CHILDREN TEETHING, which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—with relief all pain and spasmodic action, and SURELY REGULATES THE BOWELS.

Deposed upon it, mothers, it will give relief to yourselves, and SURELY BREATHE YOUR INFANTS. We have put up our article for over ten years and can say, in confidence and truth, of it what we have never been able to say of any other medicine—never has it failed on a single instance to effect a cure when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effect and medical virtues.

We speak in this matter, what we do know, after ten years' experience, and I pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERT and SKILLED FULL NURSES in New England, and has been used with never failing success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity and gives tone and energy to the whole system. It will instantly relieve GRIPING IN THE BOWELS AND VOMITING and overcomes convulsions, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of dysentery and Diarrhea in children, whether it arises from teething or any other cause. We would say to a mother who has a child suffering from any of the foregoing complaints, do not let your prejudices, nor the prejudices of others, stand between you and your suffering child, and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine if timely used. Full directions for using will accompany each bottle. None genuine unless the name of Curtis & Perkins, New York, is on outside wrapper.

Sold by Druggists throughout the world. Principal Office 13 Cedar Street, N. Y. Price only 25 Cents per Bottle. For sale by Donald Mack St. Andrews.

Packet to St John THE Sehr RACHEL, Capt McLeod will ply regularly between St. Andrews and St. John during the Season. Freight taken on reasonable terms. Agent at St. Andrews, J. R. Bradford, JAS. McLEOD, April 24 1861.

For further particulars enquire of the subscriber on the premises. GEO. V. KNIGHT, Panfield, 6th March 1862.

THE GREAT REMEDY FOR DYSPEPSIA THE GREAT REMEDY FOR DYSPEPSIA Liver Complaint, Bilious Complaint, Sick Headache, Biliary Complaint, Sick Headache, Acidity, Acidity, FLATULENCY, LOSS OF APPETITE, FLATULENCY, LOSS OF APPETITE, Debility of the System, Debility of the System, HEARTBURN, WATER BRASS, HEARTBURN, WATER BRASS, FEVER AND AGUE, FEVER AND AGUE, THE OXYGENATED BITTERS, THE OXYGENATED BITTERS.

This remedy is just what it purports to be, a "remedy for Dyspepsia." Though containing no alcohol, yet it will remove its nature in any climate. It is highly recommended, —a successful in half a bottle of water containing one dose. Among all the remedies now discovered, for these prevailing and obstinate complaints, there is none which ever brought such great and permanent cures, or which was produced so many and unexceptionable testimonials from the reports of its healers. A single dose often subdues the disease, and a permanent cure is usually obtained.

From a highly respected Physician in Mohawk SOUTH PARK, Me., Dec. 25, 1861. Messrs. S. W. FOWLE & Co.,—Gentlemen: For several years past I have had a knowledge of the operation of the OXYGENATED BITTERS in some cases of Dyspepsia and General Debility. They have generally given satisfaction, and sometimes have effected a permanent cure where other remedies had been used without benefit. I do not hesitate to recommend them. Respectfully yours, WILLIAM A. BROW, M. D.

THE OXYGENATED BITTERS THE OXYGENATED BITTERS Letter from Stearns Foster, M.D. STODDARD, N. H., Sept. 25, 1861. Messrs. S. W. FOWLE & Co.,—Gentlemen: For many years, a great sufferer from DYSPEPSIA at WATERBURY, and tried almost everything within my reach, but to no benefit, until I was induced by the recommendation of my physician, Dr. Hamilton, to make use of the OXYGENATED BITTERS. The first bottle produced but a slight alteration in the disease, and had it not been for the urgent request of my physician I should then have discontinued their use, thinking them to be of no avail, but his confidence inspired me to persevere, and after using to the extent of half a dozen bottles, I had entirely regained my health. I hope all dyspeptic persons will be induced to give them a fair trial, being confident that this remedy is the most potent for the various forms of DYSPEPSIA, that has ever been produced. Yours, STEARN FOSTER.

THE OXYGENATED BITTERS THE OXYGENATED BITTERS PREPARED BY S. W. FOWLE & CO., 13 TRINITY STREET, BOSTON. Sold by Druggists, Dealers, and Merchants in every town and city in New England and elsewhere. Odell & Turner St. Andrews.
