CHATHAM ONT., TUESDAY, OCTOBER 20, 1903

NO. 252

The Choicest Millinery Here

It is now generally conceded that we are showing the choicest millinery in the city. Purchased from the leading centres in Europe, imported direct by ourselves and put together by the most skilled trimmers in Canada, you find a showing of Millinery here unsurpassed in any city in Ontario.

A special showing of the latest shapes in New York Outing Hats and Ready-to-Wears at \$1.25, \$2, \$2.50 and \$3. We ask your careful consideration and inspection of our Millinery.

Ladies' and Children's Jackets.

The largest showing of Jackets ever in this store awaits your inspection now. If you want a JACKET we think we can SUIT YOU. At any rate it costs you nothing to find out and it might cost you considerable in expense and disappointment if you buy without seeing our stock.

Ladies' Jackets.

Ladies' Black Jackets, made of fine heavy Kersey Cloth, with the new cape and stoles, new puff sleeves, trimmed with mohair braid, very special value at \$5.

Ladies' Zibiline Tweed Jackets, semi fitted, 28 in. long, check back, made with capes and new sleeves, in mixed shades of Fawn and Black, very stylish and very special at \$10.

Black Silk Coats for elderly ladies, made of heavy silk and lined with quilted silk, applique collar and stoles, fitted back, 36 in. long, very handsome and stylish, special value at \$35.

Children's Jackets.

Children's Reefer Coats, made of heavy cloth in brown and navy, fancy collar, new sleeve, special value at \$2.50.

Children's Ulsters made of good weight freize, with cape, trimmed with velvet folds and braid, special at \$3.25.

Children's Raglan Coats in navy, royal and brown, with corded flounce skirt and fancy sleeve, special at \$3.50.

Children's Military Ulsters, made of heavy Navy Beaver Cloth, standing collar and cape, edged with red and trimmed with brass buttons, very stylish at \$9.00.

Thos. Stone & Son.

Come in and see our stock of . . .

Oil Heaters, Air Tight Heaters.....

Very nice for cool weather, and all prices. We have an immense stock.

..WESTMAN BROS..

DOWIE AND HIS ARMY.

Some Strong Language in Reference to His Critics.

New York, Oct. 20.—After attending an early service in Madison Square Garden, John Alexander Dowie's "restoration host," numbering nearly 4,000, began a house-to-house canvass of the city. Before giving them his final instructions Dr. Dowie said:—

"I am going out to do a little restoration work myself, and I won't be far from Wall street. Pray for me." In his address at the noon meeting Dr. Dowie alluded to some clergymen as "mean dogs," and others whose criticisms of him had been published in the newspapers, he said, were "working for the devil."

Later Dowie, accompanied by Mrs. Dowie, his son and Deacon W. P. Kinzie, called on Mayor Low at the City Hall, and told the Mayor that his people had respect for New York and admired the Mayor for what he had done. He thanked the Mayor for police protection and receiving assurances of the Mayor's pleasure, departed with the Zion salute, "Peace be unto thee, brother," to which the Mayor responded, "Thank you, sir."

Toronto, Oct. 20.—Mr. W. J. Palmer, Manager of the City Dairy Co., has been appointed Director of Agriculture for the Orange River Colony, South Africa, at a salary of \$6,000 a year, with certain perquisites. He was one of the brightest students of the Ontario Agricultural College.

EARTHQUAKE IN PERSIA.

Thirteen Villages in Ruins—One Thousand Persons Homeless.

London, Oct. 20.—A despatch from its correspondent at Odessa says that news has reached there from Korasan that 250 lives have been lost in an earthquake at Turshiz, Persia. Thirteen villages were destroyed, and some 1,000 persons are now homeless.

Any irregularity on the part of The Planet's carrier boys will be immediately remedied by calling at the office or phoning 53a.

It is not what a man hears but what he believes that makes him wise or foolish.

RAILWAY SUBSIDIES.

A LIVELY DEBATE IN THE HOUSE OF COMMONS.

Some Conservative Opposition—Mr. Brock and Sir William Mulock Lead the Discussion.

Ottawa, Oct. 20.—The attention of the House was engrossed for the greater part of the day by the resolutions granting subsidies to railways, which were considered in committee. All the re-votes of subsidies which have lapsed, thirty in number, were passed, and half a dozen new subsidies received the assent of the committee.

Hon. Mr. Sutherland, replying to Mr. Demers, said it was true the Government had paid for certain improvements to car No. 001, which was fitted up for the then Minister of Public Works (Hon. Mr. Tarte), in whose possession the car still remained. The question of reclaiming the cost of the improvements had not received the attention of the Government. (Laughter.)

The House next went into committee on the railway subsidies.

The route of a portion of the Strathroy & Western Counties Railway was on Mr. Caldwell's motion changed to read from Lambeth to Strathroy via Mount Brydges and Caradoc, instead of only from Caradoc to Strathroy.

Another change was to reduce the mileage, for which a subsidy was granted to the Ottawa, Northern & Western Railway, from four to one and a quarter miles, for completing connections in the vicinity of Hull.

Mr. Gourey urged the Government to increase the subsidy for a shore line four and a half miles in length from Debers station, on the I.C.R., to Debert coal mine, which should be \$6,000 per mile. Three thousand two hundred dollars, he said, was a ridiculous sum to offer. The Government might as well send the company a pound of candy.

Mr. Wm. McCreary, in explanation of the delay in building the railway from Feulon to Icelandic River, necessitating a revote of the subsidy, stated that it was caused solely by the lack of labor in the west. As a result of this scarcity of labor, probably not more than 100, instead of 400, miles of the Canadian Northern Railway would be built this year. Some of the teams employed by that company were absolutely waiting for men to load them.

Just before the Deputy Speaker left the chair at 6 o'clock the committee approved the last of the thirty-one items which are classed as revotes of lapsed subsidies formerly granted.

On taking up the new subsidies this evening, Mr. Richardson (South Grey) and Mr. Henderson (Halton) entered a general protest against subsidizing railways in the older parts of Canada which should be self-supporting.

Sir Wm. Mulock challenged the hon. gentleman to move a resolution to strike out any subsidies they objected to. Until they did that they were equally responsible with the Government for the granting of the subsidies.

Mr. Brock also objected, and said the subsidies were intended for constituencies rather than for railways. To challenge a vote was a system of terrorizing, as, if the Opposition opposed the subsidies, they would be derided for it in the riding affected.

Sir Wm. Mulock—Do you object to all the subsidies here?

Mr. Brock—I do. All the subsidies should go before the Transportation Commission first.

Sir Wm. Mulock said the hon. gentleman dare not answer the question categorically. He (Mr. Brock) had a mandate from Toronto to use his best endeavors to secure a subsidy to the James Bay and other railways affecting Toronto.

Mr. Brock—I made no such statement. I always support bonuses to railways through a new country, but I would not ask that the city of Toronto should have a railway built into Toronto. I would oppose a subsidy to any railway from Toronto up to the C. P. R. line.

Sir Wm. Mulock recalled that the leading citizens of Toronto had favored a railway to James Bay, and had applied for an act of incorporation. Some six weeks ago a deputation from that city had pressed the Government to aid that line, and that aid was now proposed to a point a few miles north of Sudbury. Should the hon. gentleman not join the Government in supporting that railway?

Mr. Brock—I now put myself on record against building that railway.

Sir William said that if Mr. Brock was opposed to public opinion in Toronto that was another matter.

Mr. Brock—I did not say anything of the kind.

Sir William—Are we to take their views or yours?

Mr. Brock—Please yourself.

Sir William said the hon. gentleman was either for it or against it. That was a definite scheme. Toronto had also expressed a desire that the Iron dale & Bancroft Railway should be aided, and the city was also interested in the Bobcaygeon & Pontypool Railway. In fact, Toronto was interested in probably one-tenth of the mileage to be aided. They were entitled to know where the hon. gentleman stood with respect to them.

Mr. Brock—Just where I stand with regard to all the other subsidies in Ontario.

Sir William remarked that his hon. friend became very virtuous and eco-

nomical after his own constituency has been properly served with railways (Hear, hear). Mr. Brock's constituents were entitled to know whether he was supporting the scheme. Would Mr. Brock take upon himself the responsibility on behalf of the city of Toronto of standing up in the House and requesting the Government to strike out all the subsidies in which Toronto was interested?

Mr. Brock wanted to know what Sir Wm. Mulock meant by asking whether

he favored striking out all the subsidies in which Toronto was interested. Toronto was, he insisted, interested in every subsidy for every railway between the north pole and the American boundary. Toronto is cosmopolitan, but Toronto is not prepared to advise the Government or to advise itself to vote for subsidies for railways, not only those in which the city has no interest, but simply those in which political expediency was an interest. He had told his constituents that he would oppose the granting of subsidies in the old settled parts of the country. Toronto had not officially asked that a subsidy be given for a railway. The city had already a capital connection with all the country to the north. Sir William had thought he was going to force him into a corner, but the country knew the petty politics to which the Postmaster-General was willing to descend in order to drive a political opponent into a corner. While not in favor of subsidies in general, he was prepared to support them in the case of railways designed to open up new territories in Canada.

Dr. Sproule, Mr. Clancy, Sir Herbert Tupper and Mr. A. C. Bell all offered suggestions respecting the manner in which subsidies ought to be granted, and quoted former speeches by the Postmaster-General against granting subsidies.

After Mr. Puttee had expressed his opposition to all the subsidies, the committee considered the subsidies in detail.

On the Tillsonburg, Lake Erie & Pacific Railway item, a bonus for 35 miles, from Woodstock or from Ingersoll to Stratford, Mr. Brock favored granting a bonus straight to Collingwood, and offered an amendment to this effect.

Mr. Blain (Peel) and Mr. Henderson urged that the route be definitely fixed so that the municipalities should be protected against being held up.

Mr. Brock withdrew his motion in favor of one by Dr. Sproule fixing the route as "from Ingersoll towards Collingwood in the most direct and practicable route."

Hon. Mr. Sutherland expressed approval, but the item stood to allow the company to be heard from.

In connection with the Iron dale, Bancroft & Ottawa Railway, Sir Wm. Mulock invited Mr. Brock to accompany a deputation from Toronto tomorrow, who would ask for assistance to the line.

Mr. A. A. Wright said the line would reach the largest corundum mine in the world.

Mr. Brock declared that while opposed to granting public money to undesirable enterprises, he supported the subsidy to this railway. He regarded this as an important project, and had invested a large sum of his own money in it, although, as he did not expect to get anything out of it, he was not actuated by selfish motives. With regard to the invitation of Sir William Mulock to meet the deputation from Toronto, he did not regard any municipal officer coming to Ottawa at the request of some railway company as representing the city as well as he representing it. He protested against subsidizing railways to parallel existing lines.

Sir Wm. Mulock replied that the deputation from Toronto was not coming in the interest of any particular railway. However, he expressed gratification that Mr. Brock endorsed the action of the Government in granting this subsidy.

The item passed, as did those for the Nipigon Railway Company from Lake Superior to a point north of Lake Nipigon, and the Manitoulin & North Shore Railway from Little Current via Sudbury.

Upon the latter item Dr. Sproule suggested that the Clergue firm was not in a position to promote railways just now.

Hon. Jas. Sutherland replied that Mr. Clergue had two charters, the Manitoulin & North Shore Railway and the Algoma Central, to both of which roads subsidies were granted. The two railways were different organizations, although Mr. Clergue and his associates held the controlling interest in them. He admitted that the enterprises with which Mr. Clergue is associated are in difficulty, but they are very great undertakings, and in their establishment in an unsettled part of the country he had spent a great deal of money. But he still had confidence that the result would be that large and important industries would be established, and thought that this small vote should not be refused when Mr. Clergue still had faith in his expectations of future success.

In reply to a question by Dr. Sproule, Hon. Mr. Sutherland stated that Mr. Clergue, as far as he knew, represented the railway propositions, and asked for financial arrangements by which these enterprises might be carried through separate from the other schemes. While the original investors might lose their investment in some of the enterprises, he had confidence that ultimately the undertakings would succeed, and that Mr. Clergue would reap the reward of his efforts.

The item passed, together with that respecting the Thunder Bay, Nipigon & St. Joe Railway Company, and the House adjourned at midnight.

Chinatown, at Montreal, was raised early this morning and seventy-five persons arrested, including forty children.

ALDERMEN ANXIOUS TO INVESTIGATE POOR CIVIC LIGHTING SYSTEM

Bell Telephone Franchise Finally Settled—Award of Mayor's Lawn and Garden Prizes—Victoria Avenue to be Paved—Other Important Civic Business.

The acceptance of the Bell Telephone Company's offer of \$400 for the city franchise and the question of a cobble stone foundation for the Queen street pavement were the two matters that gave rise to discussion at the meeting of the City Council last night.

The Council at their last meeting passed a motion offering to accept \$500 for the franchise and the city pay for all the 'phones used. The company replied with an offer of \$400 on the same terms and the Council accepted.

Ald. Marshall in moving the acceptance of the offer also stipulated that the payments should be made quarterly.

Ald. Edmondson seconded. He thought it wise to settle the matter at once. It had been hanging fire long enough.

Ald. Piggott said he had been out of the city all week and that the committee appointed to look up the matter of a municipal system hadn't had a chance.

Ald. Marshall said that in handling the city's business he acted just the same as he would do in his own and always did the best he could. The term of five years was a short one. He had no faith in a municipal system.

Mayor McKeough suggested that perhaps the company would give a half rate to each of the city hospitals as before.

Ald. Marshall said that the present offer was about \$5 better than the previous one. At present the city was at the mercy of the Bell Telephone Company. There was no agreement with the company and they could raise the rates if they wanted to.

Ald. Piggott said that as far as he was concerned he had favored the \$500 offer of the city. There were more subscribers now than there were five years ago and the city was entitled to more money. He would not favor accepting any less than the \$500. He was not in favor of tying the city's hands for five years for less.

Ald. Edmondson said that the matter had been open for about eight weeks and had been discussed at the Council meetings. During all these weeks Ald. Piggott had not brought anything definite in regard to his municipal system before the Council.

Ald. Marshall said that he didn't know whether Ald. Piggott had seen any Port Arthur papers or not, but there was a discussion on there now over the municipal telephone system in use in that city. The Town Council were accused of squandering \$6,000 in 18 months on a plant that was no good. In regard to the rates, there would soon be legislation governing charges for 'phones. This closed the discussion and the motion carried.

A petition was received signed by 41 ratepayers on Queen street asking that the specifications be changed to permit of the use of cobblestones for the foundation. John Park and I. L. Davis protested against any change being made.

Ald. Edmondson asked if the City Council had power to change the specifications. Part of the work was already done.

Ald. Piggott said that he hadn't gone over the petition closely, but nearly everyone had signed it. It was an influential petition and the Council should pass on it if it could be done legally.

Mayor McKeough suggested that the matter be left with the Board of Works to consult the city solicitor as to the legal aspect of the case.

Ald. Mounter said that there was no doubt of the power of the Council to change the specifications.

Ald. Marshall said that he had voted two weeks ago not to change the specifications. One reason why he had voted so was because the company had taken on themselves to put down cobblestones without consulting anybody. They had known when they agreed to put down the payment that there was cobblestones lying on that street and if the stones were necessary why hadn't the company stated so at the time. He now believed that cobblestones were a good idea but he hated to change the specifications. It gave the public a chance to say that there was underground work being done.

Ald. Mounter asked Mr. McKendrick, who was present, if he would guarantee to put not less than three inches of crushed stone on top of the cobblestones.

Mr. McKendrick said that the cobblestones were worth double what the broken stones were worth. When they started work they found the cobblestones thicker than they had expected. They had also found the sand of such a nature that it was very unsuitable. He considered that

the best foundation that the city could get was cobblestones. They were not interested in skipping the pavement for the sake of an inch of stone; they wanted to do good work. It was quite within the powers of the Council to change the specifications. Mr. Wm. Drader and others on the street had insisted upon the change being made in front of their properties.

Ald. Piggott—The City Engineer told me he thought it was an improvement.

Mayor McKeough—It wouldn't be an improvement to have only one inch of crushed stone on top of the cobble.

Ald. Edmondson—A practical man told me that the cracked stone would work down through the cobble and raise the large stones up.

Mayor McKeough—Mr. Campbell, the road commissioner when here, advised putting the large stones at the bottom.

Mr. McKendrick—There will be more than three inches of crushed stone on some of the cobble, but we would agree to have not less than an inch on any. Some of the cobble stones are higher than others. An inch of broken stone would be plenty.

Ald. Edmondson—This city had an example of changing the specifications. I refer to King St.

Ald. McCoig—If the engineer thinks it a decided improvement on the specifications why doesn't he recommend it.

Ald. Mounter—The company drew up the specifications themselves.

Ald. Mounter consulted the City Engineer, then reported that he did not advise the change petitioned for.

Ald. Scullard pointed out that the Engineer had power to change the specifications where such was necessary to avoid damage or injury by reason of natural conditions. The power to change the specifications for other reasons did not lie with the Engineer. He feared that to take any action might result in a crop of lawsuits.

Ald. Mounter said that the City Engineer would recommend the change if the company would guarantee not less than two inches of broken stone on top of the cobble stone.

Mr. McKendrick said he would agree to this.

Ald. McCoig said that this Council had a little experience with verbal agreements in regard to the same street. He thought it would be unwise to make any changes.

Ald. Piggott thought Mr. McKendrick would put his offer in writing, and Mr. McKendrick agreed.

Ald. Mounter said he would move, provided there was no opposition, that the Board of Works, after consulting the City Engineer, be empowered to change the specifications, accepting not less than two inches of crushed stone.

Ald. Scullard said he would oppose the motion, and the matter dropped.

Ald. McCoig said that he would bring up the matter of the lighting of the city. It was a source of inconvenience to the citizens and annoyance to the Council. Where the fault lay should be found out. It would be a very good idea to appoint a committee to meet with the Property Committee and investigate. The lights on Queen St. in front of Mr. Knott's were out to-night. He moved that the property committee appoint three practical men and report at the next special meeting.

Ald. Edmondson said that as far as Moore Bros. were concerned, he

TUESDAY, OCTOBER 20.

DILLON AFTER IT.

There are a large number of applicants for the position of chief inspector, rendered vacant by the resignation of Mr. J. K. Stewart. Among them the one which appeals to a large section of Liberals is that of R. W. Dillon, editor of St. Mary's Argus. Mr. Dillon is a rabid politician, and although he has not made a success of journalism, he would no doubt fill the position of inspector creditably, and we hope his long ambition to feed at the public crib may at last be satisfied. — Mitchell Advocate.

Mr. Dillon was for some time editor of our contemporary, the Banner. He left Chatham some five years ago, having taken over the Argus.

JUDGES AND JOBS.

Mr. Ewart has carried his war into Ontario. His analysis of the objections to "Jobs for Judges" is a terribly severe indictment of the underhand campaign against the independence of the judiciary and the respect in which it is held. Especially noticeable is the plainness of Mr. Ewart's language. Additional employment depending on Governmental favor as a job, with all the odium attaching to that sort of unpleasant word. The power of words in politics is very great, and once the opprobrious term is fastened upon the practice, few Governments will have the hardihood to offer and few judges will care to accept—jobs. —Toronto News.

THE AGE OF ANN.

A decade and a half ago, more or less, United States savants, great and small, were engaged, to the exclusion of all other considerations, in the discussion and solution of the momentous question of how many eggs six hens would lay in seven days, provided a hen and a half in a day and a half would lay an egg and a half. To-day, according to the Chicago Tribune, the Democratic party is threatened with another split, the commercial world over the border to the south of us is in a ferment, and the President declines to call Congress together until Ann's age is determined as set forth in the following proposition:

"Mary is 24 years old. Mary is twice as old as Ann was when Mary was as old as Ann is now. How old is Ann?"

The following solutions have been given:

"If Ann is twice as young as Mary used to be when Ann was the same age that she is now, just let x equal the comparative age of both and you see that $2x$ minus Ann's real age will equal the age of both girls put together and, therefore, Ann—"

The Tribune thinks this solution is faulty and gives the following as the real explanation of the enigma:

"Mary being twice as old as Ann was at the time when her age, multiplied by two, equalled the combined ages of the two girls minus the age of the younger of the two and Ann being the younger and, therefore, older than Mary, provided Mary's age be deducted from hers, the former age of the two girls when divided by two will equal the age at which Mary was—"

Will Principal Patterson and Inspector Park turn the guns of Chatham's education mills on this question and ascertain the age of Ann, that the affairs of our neighbors may once more run in their accustomed order?

Saturday Night sees signs of an election campaign. In its last issue it says: "One of the best indications of an approaching general election is the voting of over \$12,000,000 in railway subsidies by the Dominion Parliament in the dying days of the session. With such an amount of swag in sight there will surely be 'something doing' out on the side lines besides the construction of railways."

Mr. Willison, ex-editor of the Toronto Globe, speaking of the North Renfrew vacancy, says, "The continued disfranchisement of the electors of that constituency has ceased to be a scandal, and it is now become an outrage."

WOULD BE ALERT.

Chicago News.

"If an alarm clock only sounded like a 12 o'clock whistle," said the breakfast cynic, "no working man would ever miss hearing it."

IS YOUR STOMACH ON A STRIKE?

There is Nothing to Prevent you Employing a Substitute to do its Work.

There is such a thing as forbearance ceasing to be a virtue even in the case of one's stomach. There is no question but that some stomachs will stand a great deal more wear and tear and abuse than others, but they all have their limit and when that limit is reached, the stomach must be reckoned with as sure as fate. The best way and really the only effective way to treat your stomach when it rebels is to employ a substitute to do its work. This will give the weakened and worn-out organ an opportunity to rest and regain its strength and health.

Stuart's Dyspepsia Tablets relieve the stomach of its work by taking up the work and doing it just as one set or shift of workmen relieves another. They actually digest the food in just the same manner and just the same time as the digestive fluids of a sound stomach do. In fact when dissolved in the stomach, they are digestive fluids for they contain exactly the same constituents and elements as the gastric juice and other digestive fluids of the stomach. No matter what the condition of the stomach is, their work is just the same. They work in their own natural way without regard to surrounding conditions.

The stomach being thus relieved by Stuart's Dyspepsia Tablets, is restored and renewed by Nature and the rest of the human body does not suffer in the least by reason of its failure to perform its work.

A Wisconsin man says: "I suffered the pangs of dyspepsia for 10 years. I tried every known remedy with indifferent results until I was told of the remarkable cures of Stuart's Dyspepsia Tablets. I bought a box, began taking them and forgot I had had a stomach. Three boxes cured me completely. I have had no trouble whatever for a year and have an appetite like a harvest hand and can eat anything that is set before me without fear of bad results."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50c a box. The druggist never fails to have them in stock because the demand for them is so great and so pronounced that he cannot afford to be without them. People who could not get them of one druggist would go to another and would get in the habit of buying their other drugs there as well as their Stuart's Dyspepsia Tablets.

James McCormick and Chas. Buchanan, members of the present council, and Dr. McCully are spoken of as possible candidates for the reeveship in Harwich, and Wm. Huffman and James McMullen for a seat at the council board.

John Segsworth, of the East India Tea and Coffee Company, appeared before the police court in Toronto yesterday morning on the charge of infringing a registered trade-mark, which under the criminal code is an indictable offence. The trade-mark "Salada" is said to be the one infringing. The case was remanded till to-day for plea and election as to mode of trial.

DISTRICT DOINGS.

TILBURY

Reserve Friday evening, Oct. 30th, for Lyceum Course No. 1.

DRESDEN

Oct. 20.—Frank Hughes left this morning to enter Huron College, London as a divinity student. He has held a trusted and responsible position as hardware salesman for the past four years and a half, first with McVean & McVean, and for the last few months with the new firm of Wells & Wells. He is a hard-working, conscientious young man and has the best wishes of a large circle of friends in the high calling which he has chosen for his life's work.

Miss Mabel McKay has returned from a month's visit with relatives near Ridgeway.

Abe Woods moved to his farm in Dawn yesterday.

Mrs. Vanallen spent yesterday in the Maple City.

Miss Pearl Sharpe, one of Dresden's popular young ladies, left yesterday for Paducah, Kentucky, where she will reside in future. Her large circle of friends wish her every success in her new home.

Russell Wells, the junior member of the firm of Wells & Wells, commenced work yesterday morning. Russell is a popular boy and will make many friends for the new firm.

F. A. McKim has rented Mr. Elliot's house on Sydenham St. and will move in about Nov. 2nd.

There will be prayer meeting at the Methodist Church every night this week.

Jas. and Sandy McVean are spending a few days shooting at Mitchell's Bay.

Jas. McAulay, Frank Birch and Frank Aikin arrived home from the west last night.

Mrs. Peter Matthews and son, who have been visiting Mr. and Mrs. Irvine Wallace, returned to their home at Algonac to-day.

Reserve Wednesday evening, Oct. 28th, for Lyceum Course No. 1.

—Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant.

THAMESVILLE

Oct. 19.—Rev. Mr. MacD. Ken, of Toronto, will conduct evangelistic services in the Methodist church during the next two weeks.

Mrs. Mercer, who for the past month has been visiting her mother, Mrs. John Ferguson, returned to her home in London, Eng.

Mr. and Mrs. Shephard, of Bothwell, were in town to-day.

Magnificent Stock of Dress Goods...

The assortment comprises practically every desirable novelty in the markets of the continents. The ingenuity of the Frenchman, the solid merit of the British, and the very clever conceptions of our own Canadian manufacturers are arrayed side by side an endless array of beautiful colors and combinations. And the quality is absolutely maintained in every yard. Anything that does not possess sterling merit can never cross our threshold, so that if you buy Dress Goods here you know from the outset that you are buying right, and that the prices are right, too. These very remarkable values await your inspection.

How Iron-ox Tablets Improved a London Boy's Health.

January 31, 1903.
I am glad to tell you of the good effects of Iron-ox Tablets. We first got them for our boy, two-and-a-half years old, who was very cross and had no appetite. Your remedy soon made him as bright as ever. My husband uses them for headache and sluggish liver. While certainly effective, they cause neither pain nor inconvenience. We have a box in the house always now.

Mrs. Jean Russell,
The Ridgeway,
London, Ont.

Fifty Iron-ox Tablets, in an attractive aluminum pocket case, 25 cents at druggists, or sent, postpaid, on receipt of price. The Iron-ox Remedy Co., Limited, Walkerville, Ont.

A BIT OF BLUE ENAMEL

—OR—
TRACED BY A VALENTINE

Madeline answered with a deep, heart-breaking sigh. She could not speak.

"Then that was what you meant when you said you might, some day, ask me to give you a life for a life," cried Marjorie. "You were thinking of him—of what might happen if I discovered his crime."

"Yes, that was what I meant. Oh, Marjorie, what I have suffered! Ever since you recognized that locket, my life has been an agony. I had never dreamed he had murdered on his soul; desperate though I knew him to be, I had never suspected that. You, per-

haps, remember that, the very next day, I was taken ill—so ill that I couldn't get up. It was the anguish of my mind that threw me into a fever. I have been in misery ever since—in hourly misery and dread."

"And you are sure he was guilty?"
"He confessed it before he died," wailed Madeline. "Oh, Marjorie, how can you be so tender to me, his wretched widow? Your kindness kills me—it breaks my heart!"

For Marjorie had got her arms round her now, and was pillowing her head upon her own aching heart.

"Surely," she said, within herself, with a cruel pang, "we are sisters in misery, we two. She told me it would be better for me to die than to give my love to one who was unworthy. I did not heed her then; but, oh, I feel it now!"

Aloud she said, very softly and sweetly:

"Did you not risk your life for mine? And are we not sisters in suffering? Oh, Madeline!"

And then these two unhappy creatures clasped each other more closely, still, and mingled their tears together.

CHAPTER XII.

St. Valentine's Day.

Terribly dawned that St. Valentine's Day for Marjorie.

When the sun rose she was standing beside her bedroom window, looking mournfully across the frozen lake, and feeling half tempted to wish she had found her death there.

Life was so full of misery. There was nothing to hope for.

Her heart was aching with a dull, dreary pain, as she thought of the frank, smiling face she had loved so well; and, apart from that source of misery, what was to become of her? Where was she to go?

She could not even be sure that she might not yet be arrested as an accomplice of the thieves.

She had been more than a fortnight in their house, and who was there to prove her innocence?

Filled with such thoughts as these, she turned away from the window with a heavy sigh; and, having completed her toilette, went slowly downstairs, scarce knowing which room to enter, or what to do.

Madeline, worn out with grief, had fallen asleep an hour ago, and there was no one else in the house save a couple of police officers, who had been left in charge.

One of these was in the hall. He spoke very civilly to the pale, trembling girl, and told her there was a fire in the dining-room, where she might be quite alone if she wished.

She thanked him gratefully, but had been seated at the fire scarcely five minutes before he tapped at the door, and announced:

"A gentleman to see you, miss."

Marjorie rose with a start, to find herself face to face with the handsome, grey-eyed man she had seen in the wood when she was walking with Charles—Sir Edward Mortimer.

He came forward with an air of great respect, and yet with the most evident and earnest sympathy as well.

"If I am intruding, please pardon me," he said, in a clear, cultured voice. "But your position here is so very trying that I felt bound to come and tell you how deeply we sympathize with you—my sisters and I, I mean—and how anxious we are to be of service to you will allow us."

He paused, then added:

"I think you perhaps may know who I am; my name is Mortimer."

"Sir Edward Mortimer—yes, I know. Indeed, I can't find words to thank you. You are only too kind. I wish I could make you understand how much I feel your kindness shown at such a time."

And then a recollection of her mis-

ENGAGED.

Marriage is very largely an accident. In few cases do men or women set up a standard of manly or womanly excellence and choose by it. In most cases people become engaged as the result of propinquity rather than because of any deep-rooted preference.

And so it often happens that the wife enters upon the obligations of maternity just as thoughtlessly as she entered on the marriage relation, because no one has warned her of the dangers she faces.

Thousands of women become invalids for lack of knowledge of themselves. It is to this large body of women that Dr. Pierce's Favorite Prescription comes as a priceless boon, because it cures womanly ills.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"After my first child was born," writes Mrs. Jordan Stone of Pawcettgan, Frederick Co., Va., "my health was very poor for a long time, and last winter I was so bad with pain down in back I could hardly move without great suffering. My husband got me a bottle of Dr. Pierce's Favorite Prescription and a trial of his 'Pleasant Pellets,' which I used as directed. In four days I was greatly relieved, and now, after using the medicine three months, I seem to be entirely well. I can't see why it is that there are so many suffering women when there is such an easy way to be cured. I know your medicines are the best in the world."

Dr. Pierce's Pleasant Pellets the favorite family laxative. One 'Pellet' a laxative, two 'Pellets' a cathartic dose

ry, and of her utter loneliness, swept over her, and she could not repress her sobs.

They flowed down her pale cheeks. She was compelled to raise her handkerchief to her eyes.

"Don't cry," said Sir Edward, so very earnestly, and with so much feeling, that the poor girl only cried the more.

"It is so very kind of you!" she sobbed. "I thought everyone would misunderstand and misjudge me!"

Gently taking her hand, he led her back to her chair, and sat down near her.

"My dear Miss St. Clair, what I have to suggest, or rather to earnestly entreat, is that you will make my house your home—at any rate, until something can be settled for your future. My sisters wish this very much, and they would have come to you themselves, but they are both suffering from such bad colds that I wouldn't hear of them going out. They are longing to welcome you. May I have the pleasure of telling them you will be their guest?"

Marjorie raised her sweet, lustrous eyes, still wet with tears, and gave him an earnest, grateful glance.

"If I knew how to thank you, I would," she said; "but, indeed, I do not. Your kindness is so very great, I was fearing that—"

She paused, and colored deeply.

"You feared that people might be much fools as to imagine you were in league with those scoundrels. Is that what you would say, Miss St. Clair? Dismiss the idea from your mind if it has really entered it. When I saw you that day in the wood, I was certain you could be no connection of theirs."

"And did you know then that they were—were—"

Her lip trembled, and she could not complete the sentence.

"No; I cannot say that I did—not at that time. They had managed to scrape a bowing acquaintance with some of the people round about—myself among them; but I had a suspicion they were not quite what they represented themselves to be, and so I held aloof; and very sorry I was, I can tell you, to see you with that impudent young fellow, who called himself Charles Hyde, and who, I have heard, is the cleverest scoundrel of the lot."

Marjorie sighed faintly.

To Be Continued.

Heart Strength is Whole Strength

THE blood is your life; when it stops coursing you're dead. If it half stops, YOU'LL BE HALF DEAD.

Your pain, your weakness, your eternal weariness will all disappear if you strengthen your heart. But you may take special medicine for special trouble if you're in a special hurry. Cheer up! Don't be moping! You can be cured. Try it and for the first time you will know the true meaning of that grand old word—Health.

DR. AGNEW'S HEART CURE renews the vigor in thirty minutes after taking the first dose. Will cure the poorest heart and strengthen the strongest man.

W. H. Medley, druggist, of Kingston, Ont., writes: "Mr. Thomas Cooke, of Kingston, purchased six bottles of Agnew's Heart Cure and says he is cured of Heart Weakness, from which he had suffered for years."

Dr. Agnew's Cathartic Powder relieves constipation at once and cures forever. Dr. Agnew's Ointment compels Piles to perish permanently. It gives ease on the instant. Banishes all manner of skin diseases and eruptions. The safest and cheapest cure. Price, 35c.

Sold by Messrs. Gunn and McLaren, Druggists, Chatham.

THE STAGE

"All the world's a stage and all the men and women merely players."

ANNOUNCEMENTS.

At the Chatham Grand:—
Lyceum Course—Oct. 25,
Sadie Martinot—Oct. 27,
Firemen's Benefit—Oct. 29,
Over Niagara Falls—Oct. 30.

(Supplied to The Planet by Press Agents.)

Whitney Brothers Company open the C. C. I. and People's Popular Course at the Grand on Monday, October 26th.

The management present to you notice of the above attraction. A combination that had in its origin the desire to furnish a refined and artistic program, selected from what is best in music and literature. Audiences have been quick to recognize the sterling merit of this unique attraction.

Everyone who sees and hears the Whitney Brothers want to see and hear them again. The whole entertainment is clean, wholesome and enjoyable to the highest degree. Reserve seat sale is now open at Brisco's.

Miss Sadie Martinot will soon appear here in Arthur Wing Pinero's famous play, "The Second Mrs. Tanqueray." Julius Murry has equipped Miss Martinot with an excellent cast and production.

HIS SECOND THOUGHT.

The Stage Driver Jotted on It and Saved His Passengers.

Back in the good old days when nerves and railroads were little known an old stage road ran from Lake Champlain to Ogdensburg, N. Y., passing through the little town of Sodom. This village nestled in a valley between two great hills, over which the white ribbon of the road wound steeply.

Upon one of the trips of the stage the regular driver, who had been at home for some weeks recovering from an illness, was riding inside, while the red haired, mild featured, big boned Irishman acting as his substitute occupied the driver's seat upon the box. The day was a beautiful one, and the passengers were enjoying their drive keenly, their appetites increasing as the distance lessened between them and the town of Sodom, with its promised pause for refreshment.

Suddenly as the heavy stage lumbered over the brow of the hill, down which the road plunged at a sharp angle, running through the little town at its foot and ascending the hill beyond, the passengers became conscious that their pace had been recklessly increased. Faster and faster they went, dashing down the hill at a rate rapidly becoming a furious one. Trees and bushes at last became but a dizzying blur along the road. All clung to the seating stage and held their breath in terror, while on the stage raced, down the hill, with ever increasing speed, into the town, past the hostelry with the waiting host left standing in amazement at the door, past the post office without pause, and out upon the road leading up the face of the hill beyond. There the pace slackened, and as the incline grew more steep at last the smoking horses came to a standstill. With one accord the dazed passengers tumbled out and surrounded the driver, who now stood at the head of his reeking leaders.

"What is it, Pat? What is it? Did they get away from you?" came the breathless questions.

"None," replied Pat with a set face. "It was that," pointing grimly before him. There lay the stage tongue dragging uselessly on the ground at the heels of the horses and completely severed from the coach. At a glance the regular driver comprehended the meaning of the danger to which the passengers of that stage, deprived of its sole means of guidance, had been exposed, and, realizing the miracle of their escape, he turned sick and fainted where he stood.

Later, back at the inn, when the excitement had somewhat subsided and fresh horses were being put to the repaired coach, some one turned to Pat and asked:

"Pat, what was your first thought when the pole dropped?"

"Well, sir," he answered, settling the quid more comfortably in his cheek, "me first thought wor, 'Lord ha' mercy on our souls!' Thin thinks I to myself, 'Confound a horse that can't outrun a wagon!' and I licked the poor bastes all the way down the hill!"—Lippincott's.

What He Took Her For.

"What! Marry you!" snorted the fiery tempered maiden. "Huh! What do you take me for?"

"For better or worse," he replied promptly. So they were married and lived unhappily ever after, for, alas, she was worse than he took her for.

A Distinction.

"I dislike so much to be called a 'poetess,'" said a young woman who sometimes wrote verses for publication.

"Perhaps," suggested her matter of fact brother, "if you will write a little better quality of poetry people will call you a poet."

THE LOCAL BUDGET

Wanted, a smart boy, one who is good at figures and can write a fair hand. Apply Box 17, Planet Office.

Make your arrangements to meet your friends down town at Austin's anniversary sale. Everybody will want to be there.

Lost, on Saturday, a purse containing thirty-two or three dollars. Finder will be rewarded by leaving same at Scott & Co's clothing store.

The reserve seat sale for the C. C. I. Star and People's Popular Course opened at Brisco's this morning with a rush. Only a few more books of coupon tickets will be sold.

The very tasteful decorations so much admired in Christ Church at the thanksgiving services Sunday last were the work of Mrs. George Heyward and Miss Kate Mercer. Both of these ladies are always ready to help in any good cause.

Never as large a response to any special sale since coming to Chatham was the reply to a question as to how the anniversary sale was coming on. Every clerk at Austin's this morning had to get a double move on. Readers of the Planet are advised to shop as early in the day as possible this week so as to enable all to get properly waited on.

FRENCH CASTILE SOAP.

In our King Street Window you will see a fresh importation of genuine French Castile Soap (Shell Brand) which we have just received.

We are selling it at a box, **25 Cents.**

Residence 284.

Herman Ramaden, of Blenheim, was in the city to-day.

Wm. Rudd, of Dresden, was a Chatham visitor on Saturday.

Mr. and Mrs. W. L. G. Snell, of Lorne Ave., are on an extended visit to their son, Dr. Alvin Snell, in Essex.

S. J. Sullivan, of Glencoe, and J. D. McMillan, of Selton, were guests at the C. P. R. on Saturday.

Mrs. Edward Mayhew, of Bothwell, who underwent an operation in St. Joseph's Hospital, is improving.

"The west end of Edgar street is in complete darkness these nights," said a citizen of that street to a Planet reporter this morning, "and it is very dangerous to go out at night. A lamp of any description would be thankfully received by the people living down there."

The official auditors have completed their special audit of the city books and will have their report in readiness to present to the Council at an early date. Mayor McKeough expects to have the report this week. As soon as he receives it he will call a special meeting of the Council to consider the report and make arrangements for having it published.

FOOTBALL PRACTICE

Captain Sissons requests a full turnout of the members of the football club to team practice on Wednesday and Thursday afternoons at five o'clock sharp. The match with Darrell on Saturday will likely be one of the principal games of the season and it is very desirable that our representatives shall be in the best possible condition. All players and candidates for the team are consequently asked to turn out to practice in uniforms at the times mentioned.

FINE INSTITUTION

Dr. Kingsley Holmes, son of Dr. T. K. Holmes, leaves to-day for Baltimore, where he will enter the John Hopkins Hospital for a prolonged post graduate course of study. This institution is justly celebrated as the most desirable place in the world for studying modern methods in surgery and medicine and for the general excellence of the work done. Dr. T. K. Holmes, who has visited many of the Hospitals of Europe and America, thinks the equipment and plan of instruction is unsurpassed, and the staff of teachers, which includes our countrymen, Dr. Coker, is the best to be found anywhere. We congratulate Dr. Kingsley Holmes on his determination for his future work that should place him in the front rank in his profession.

ANGLICAN ASSOCIATION

The Rev. Canon Brown, who preached so acceptably at the Thanksgiving services in Christ Church on Sunday last, addressed a large meeting of the young people of Christ Church last night in the interests of the "Young People's Anglican Association." The chair was occupied by Rev. R. McCosh, rector, who in a few appropriate remarks introduced Canon Brown. The Canon delivered a very interesting and practical address, in which he pointed out the distinctive features of the Anglican Association.

He said that the society was founded at the last meeting of the Synod of Huron, since which time it has made rapid strides. The benefits that could result from having an active branch in Chatham were dwelt upon, and the good work which the society had already accomplished in some other parishes. The deepest interest was manifested by the young people present, and they gladly and unanimously resolved to organize a branch of the society in connection with Christ Church. For this purpose a meeting of the young people will be held Monday evening next.

VESSELS IN DANGER.

The Porter of Picton, Ont., Lost Her Tows.

Okott Beach, N. Y., Oct. 20.—The schooner C. W. Peck is ashore off Hopkins Creek and is rapidly breaking up. The steamer Porter of Picton, Ont., which had the Peck and schooner Isabella Reade in tow, and lost them during a heavy blow on Sunday, has not since been seen. The Isabella Reade is riding at anchor off Okott, and is in no danger.

NINE MEN KILLED.

Collapse of a Traveller Crane Causes Death.

Pittsburg, Oct. 20.—Twelve men were killed, two are missing and four were badly hurt by the collapse of a traveller crane on the Pittsburg end of the new Wabash Railroad draw bridge over the Monongahela River. Two bodies are at the morgue unidentified, and one of them is thought to be that of William Kempton of New York. The men had been at work on the Pittsburg end but a short time to-day when the traveller, which projected beyond the finished part of the bridge, dropped and fell, landing on a section of the bridge which was being placed in position. So sudden was the crash that few of the workmen on the wrecked section were warned in time to escape. The falling bridge landed on top of a barge load of steel anchored at the pier and several of the workmen there were carried down.

Vigorous Activity in Our

Carpet Dep't This Week

The many visitors to our carpet section fully affirm the thorough honesty of our offerings in Carpets and Rugs during Anniversary Week. Many lines advertised earlier consisted of limited quantities and in order that any one in need of dependable floor coverings may be sure of a complete selection at off regular prices. We have put the price-cutting knife through the following lines with this result:—

ENGLISH WILTON.

Best Brussels Wilton in exquisite coloring with border to match. A limited quantity only. Regular \$1.40 value, during Anniversary Week at only **\$1.25**, made and laid without extra charge.

BEST ENGLISH TAPESTRY.

With borders complete, a pretty range of patterns with all the style and effect of more expensive lines. Regularly sold at 75c and 85c per yd, during Anniversary Week only **68c** per yard, made and laid without extra cost.

Best English 5 Frame Brussels.

300 yds of our choicest 5 frame Brussels stock, a carpet that needs no recommendation to experienced buyers, always sold at \$1.25 per yd, during anniversary week at only **\$1.05**. Made and laid without extra charge.

All Wool Ingrain Carpets.

Woven of clean scoured wool yarn, full width and weight, in bright cherry designs, good reverse, reg. 75c and 85c values, during anniversary week only **65c** per yard. Made and laid without extra cost.

CARPET REMNANT SALE.—We have a large quantity of small room size ends of carpets. Bring your small room dimensions and let us see what can be done for you at small cost.

TOURING THE OLDEN WORLD

Dr. McKeough Takes Large and Delighted Audience with Him on His Travels.

Historic Scenes Visited—The Daily Newspaper on Mid-Ocean—Shakespearean Romance.

A delightfully realistic and intensely interesting summer tour—embracing a visit to quaint and historic Quebec, an ocean voyage with its modern accompaniment of Marconi messages and daily newspaper, a trip through "bonnie England" and an extensive and entertaining stay in the cities of Germany and Italy—such was the genuine treat of which many citizens availed themselves last evening, in attending the lecture hall of Park St. Church and hearing the splendid address of Dr. Geo. T. McKeough.

Planet readers need no introduction to the doctor—either as litterateur or as entertainer. His delightful letters, with their eloquently descriptive and realistic word painting, have frequently enabled them to join him in his travels, to see the sights he saw and to share the experiences which fell to his lot. Suffice it to say, Dr. McKeough is equally entertaining and enjoyable on the platform as when wielding his facile pen.

Dr. McKeough, who was greeted with hearty applause, said in part:

Leaving for Europe via Canadian route the first point of interest, Quebec, the Gibraltar of Canada. This city holds our attention as citizens of Canada and as lovers of the beautiful. No spot in Canada has greater historic environment than this, the sentinel city of the St. Lawrence. Of all cities of the continent it is the quaintest, with its narrow French streets, its old churches and village-like surrounding country. Every foot of the city and its neighborhood should be dear to the heart of all true Canadians, because it is here that so much of our history was made. With it are identified such names as Jacques Cartier, Champlain, Wolfe and Montcalm.

Continuing my journey I realized that travel is not all pleasure, especially a sea voyage. What interested me most on the voyage was the use that is being made of the Marconi system of wireless telegraphy on the large ocean liners. On my return voyage by means of this telegraphy I ascertained that my niece was on board a liner about forty miles distant and sent a message to her, receiving a reply inside of half an hour. One's idea of an ocean voyage is to be cut off from communication with the outside world for at least six days, but this is really not the case. At the end of the third day newspapers are distributed among the passengers giving the latest news from all over the world, surely a great triumph for the Marconi system. Then we had another great proof of its usefulness. As we were entering New York Harbor in a dense fog we heard a fog signal very close to us. Immediately our engines were reversed and our fog horn brought into use. But there were no further signals from the other vessel. The captain was uncertain what to do. By means of wireless telegraphy, however, it was found that the fog horn on the other vessel was out of order and she had gone off in an opposite direction.

Landing in England the tourist finds much to interest him—Liverpool, the greatest distributor of merchandise in the world, with its docks and its high houses—the agricultural districts that look to our eyes like one continuous park, so well kept are they—the quiet graveyards and churches and quiet graveyards.

Alluding to his continental trip the doctor spoke of the beautiful, comparatively modern, city of Munich. This, the doctor said, was a city belonging to kings with strong artistic tastes. Those who visited the World's Fair at Chicago saw copies of many of its beautiful buildings.

Germany is essentially a military country, and in a city of this size are to be heard twice a day, free military bands, such as we pay from two to three dollars to hear in our own land. This great military system oppresses the people very severely and is a great drawback to the country. Another great drawback to the country is the excessive drinking of its inhabitants and the sys-

tem of duelling in the universities. This duelling really means fighting with the fists. Each university chooses its team much the same as we do for football or lacrosse and the trophies of the game are black eyes and scars.

In closing the speaker spoke of another city on the continent, famous for its strong medieval characteristics, Verona, in northern Italy, the town where Romeo and Juliet lived and loved. This city has changed the least of all the cities of the continent. To-day it differs very little from the city of Shakespeare's day. The tourist sees the beautiful gardens full of priceless pieces of sculpturing, the forum, the amphitheater, the churches, with their valuable paintings just as when Romeo and Juliet walked about its street. The lovers of Shakespeare may visit all the points of interest in the play, the grave of Juliet, balcony, the garden, the home of the Capulets and find them as the bard has pictured them.

At the conclusion of the address, on motion of W. Shillington and Dr. Hicks, Dr. McKeough was tendered a hearty vote of thanks. The sentiment of this resolution was appropriately conveyed by Rev. G. H. Cobblestick.

The program also included two excellent musical numbers, an instrumental solo by Miss Flo. Hillman and a vocal duet by Misses Dunkley and Jones.

ALDERMEN ARE ANXIOUS

Continued from page 1

felt sure they had done everything in their power. He believed the whole system required overhauling.

Ald. Mounter suggested that the City Engineer be asked to report on the cause of the failure of the lights.

Ald. Edmondson—it is the City Engineer's duty to look after the line.

The City Clerk—You took the line off his hands last spring when you handed the line over to Moore Bros. with an increase in salary.

Ald. McKeough—it doesn't matter who is to blame, the citizens have a hardship and the whole matter should be investigated.

Ald. Pigott—Moore Bros. agreed to be responsible when they were given an increase in salary. The city had had a heavy investment in the plant and the City Engineer should be asked to make a report.

Ald. Martin fully accorded with the motion of Ald. McKeough. He had information that the plant was too small for a city this size. It was all nonsense to leave the matter to Mr. Jones to report on. Was he a philosopher, poet, or what not? He wanted to talk to good, sound common sense.

Ald. Edmondson said that he would notify Mr. Jones in the morning to prepare a report at once.

Ald. McKeough said this would satisfy him and withdrew his motion.

T. C. O'Rourke wrote, asking the use of the Rankin dock for unloading a schooner.

Ald. Mounter said that the bylaw regulated the use of the dock and the fees, but no lumber could be piled on the dock.

Mr. O'Rourke was granted permission to use the dock for unloading only, but must not leave the lumber on the dock.

Ald. Geo. Gordon Martin moved that Robert Potter be paid for the three weeks he was off duty with a broken wrist. Carried.

Mrs. Ed. Harwood asked permission to trim trees on Wade St. Referred to the Chief of Police.

Mahler Bros. wrote in regard to the taxes on their apple factory. Referred to Finance committee.

Ald. Scullard presented a petition for an asphalt block pavement on Victoria Ave. from Thames St. to Gladstone Ave. The petition was not sufficiently signed, but as it was signed by over half the ratepayers on the street, Ald. Scullard moved that the initiative be taken for the asphalt block pavement on Victoria Avenue, from Thames St. to Gladstone Ave., the street to be 27 feet over all. The motion carried.

AUDITORS' REPORT.

Mayor McKeough said that he expected to call a special meeting of the Council, probably this week, to consider the report of the auditors.

Richard Smith complained that the smoke and dust from the machinery of the company paving Queen St. was a source of continual annoyance.

Mayor McKeough said that Mr. Smith was in an unfortunate position, and if the city could do any thing to help him they would.

PRIZE LAWS.

Messrs. J. E. Thomas, Thos. Harris and W. D. A. Ross, the judges in the landscape garden contest, presented their report last night. They said that they found it very difficult to give their decision owing to the lateness with which entries were received so that the judges were not able to see the lawns at their best.

The following were the winners: Residences worth over \$2,000, James Innes and Henry Stephens are equal, T. A. Smith second; residences worth \$2,000 and under—W. H. Bragg first, and E. A. Mounter second; residences worth \$800, Mrs. Sterling, Lorne avenue, first, W. O. Bentley, Wellington street, second. Special mention: Dr. T. K. Holmes, Samuel Orr, W. E. Rispin, Geo. Massey, Ed. Smith, I. L. Nicholls, C. C. Greening, James Gray, Robert Gray, Dr. Cornell and others.

Peter McMillan was given the prize for the best kept park.

Ald. McKeough moved that the report of the judges be approved by the Council and that the prizes be awarded either in cash, medals or out glass. The motion carried.

Ald. Scullard asked the Board of Works if they were bearing in mind the change required in the pavement on St. Clair street?

Ald. Mounter replied that it would be attended to.

Ald. Edmondson asked if the Ingram street walk was likely to be completed.

Ald. Mounter said that Mr. Dumas, the man who had the contract, had been taken sick. He would see that the matter was attended to.

Ald. George Gordon Martin's by-law in reference to the transportation of explosives through the city was passed.

Three other local improvement by-laws were also passed.

A mistake in Michael Harper's assessment was referred to Finance. The following accounts were passed: Canadian Express Co., 30 cents. The Planet, \$3.06. H. Glaser, \$1. George Thomas, \$18. Geo. Stephens & Co., \$14.12.

Dress Making.

THE GORDON STORE

DR. S. GOLDBERG.

America's most successful specialist, the discoverer of the Latest Method Treatment, possesses 14 diplomas and certificates, does not want any money he does not earn, and is the only specialist who is willing to wait for his pay until you are cured; it makes no difference who has failed to cure you, call on him and he will examine you free of charge. If you cannot call, write him very plainly all about your trouble, which he will give his careful attention. If he can cure you he will accept your case and you may pay when cured. Call or address Dr. Goldberg, 206 Woodward-ave., Detroit, Mich. Medicines for Canadian patients shipped from Windsor, Ont. All duty and transportation charges prepaid.

How Planets Are Weighed.
The planets exercise as certain an influence upon each other as do two pieces of wood floating upon water in a basin. As they fly through their prescribed orbits and approach or travel from each other they are observed to deviate from the course which they must have pursued but for the increase or the decrease of some influence of attraction.

By making observations of this tendency at various times and by comparing a number of results it is possible to weigh accurately any planet, however vast and however distant.

All such calculations are founded upon the law of universal gravitation. The mass of a planet attracts other masses in the solar system, so that certain movements result. We can observe the character of these movements with our telescopes and ascertain their amount, and so from our measurements and estimates we can calculate the mass and weight of the planet by which such movements have been produced.

Exotics in the Klondike.
One can better realize what are the luxuries of the table in the valley of the Yukon by reading Mrs. Sullivan's book, "A Woman Who Went to Alaska." It was on the way down the river from Dawson that her party came upon the first vegetable gardens.

"The river banks were lined with canoes; many natives stood looking at us from the shore, and while stevedores handled the wood many passengers visited the town. It was not long before they came back with handfuls of turnips, just pulled from the ground, which, had these been the most luxurious fruit, could not have been eaten with more relish.

"I tried to buy one from a young man, but he had evidently been long away from such luxuries, for he refused to sell. Afterward his gallantry got the better of him, and he politely offered me one-half of the turnip, which I took with thanks.

"As my brother peeled the precious thing I asked him how long it was since he had eaten one. 'Two years,' he promptly replied.

"Knowing that he was especially fond of such things, I ate a small slice and gave him the remainder."

LARGE FAMILIES.

Ten Lincolnshire Laborers With One Hundred and Forty-one Children—How They Are Encouraged.

It is remarkable that although large families are rather the rule than the exception in many agricultural counties the rural population are innumerable households which is continually decreasing.

In Lincolnshire, for instance, there contain fourteen, fifteen, and sixteen children, and when a man boasts of twenty offspring no one considers it worthy of more than passing notice.

The Lincolnshire Agricultural Society, with commendable judgment, has offered a prize for many years which is calculated to encourage in ways of careful management those rural laborers who find that their wage of 14s., 15s., or 16s. a week has to feed a family of very large proportions. It awards premiums of £4, £3, £2, and £1 to "laborers in husbandry who have brought up and placed out the greatest number of children without having received parochial relief or occupied more than half an acre of land."

This year the result was as follows:

(1) Thomas Hought, Tealby, Market Reason, 10 children born, 17 brought up, 12 placed out.

(2) James West, Covenham St. Bartholomew, Lincoln, 15 children born, 13 brought up, 13 placed out.

(3) James Sewell, 14 children born, 14 brought up, and 12 placed out.

(4) Robert Bonner, Lessington, Lincoln, 16 children born, 12 brought up, 12 placed out.

The ten laborers entering for this prize had had an aggregate of 141 children.

"Where have your children gone?" Mrs. Hought was asked.

Mrs. Hought could not remember. Only the three youngest of the nineteen were hers, she said, for the first Mrs. Hought had died peacefully after having given birth to sixteen. The second Mrs. Hought, a fine, tall woman, apparently about thirty, was nursing the baby, Charles Edward, who was ten months old. Gladys, aged four, and Beatrice, aged two, tugged at her skirts.

"I can't tell you about them all," she said. "You see, you can't think of all their names."

Mrs. Hought, however, managed to remember eleven of the sixteen children who formed the first family. The oldest, she believed, was about forty-five. Two or three of the family are dead.

Summarized, the names and destinies of those members of the Hought family who are not forgotten are as follows:

Leonard, a joiner, works at Doncaster.

Margaret married a shoemaker and lives at Lincoln.

Elizabeth is the wife of a foreman foundry worker employed at Lincoln.

Kate is married to an agent living at Lincoln.

Walter is a fitter in a Lincoln workshop.

Tom, a tailor, works at Lincoln.

Edith, who is unmarried, is a clerk in a Lincoln office.

Lily married a grocer's assistant living at Grantham.

Jessie is a mother's help at Grantham.

Elsie is in service at Halifax.

Florrie married a wagoner and lives at Claxby.

The Hought family is an admirable example of Lincolnshire country folk generally. Tealby is a paradise on a hill. Tree-topped downs decline on to stretches of meadowland and corn, and woods of fir, in which rabbits and squirrels start at your footstep as you pass.

The younger generation preferred the congested towns, however, and have fled from the land. Out of twenty-two young men reared in a row of houses at Nocton sixteen have forsaken the country for the town.

In large families, it is said, some of the older ones have to leave home from sheer lack of accommodation. That is not the chief reason, however. The engineering shops at Sheffield, Grantham, and Lincoln seem to have swallowed the young active lives which should have stayed on the land. The army, too, has absorbed much of the ripe young manhood which on the land lives to a green old age and leaves behind it many young lives to renew its strength in other generations.

Where Lincolnshire folk have stayed on the land they have stayed long. There are innumerable bailiffs, shepherds, and wagoners who have lived four and five decades in the service of one family. Continuous service of fifty-seven, fifty-three, and fifty-one years obtained suitable rewards at the Lincoln show last week. Lincolnshire's fertile acres could find employment just now for much more labor than is to be obtained. In the towns thousands are without employment, and the poor rates mount high. The lesson is obvious. —London Mail.

An Involved Decision.

The magistrates of Fremantle, the principal port of Western Australia, have given a new and interesting decision in reference to stowaways. Five of these free trippers were brought to the bar and fined £3 each. Of course, they had not the wherewithal to pay, and the prosecuting lawyer asked for the alternative imposition of imprisonment. But the magistrates declined, unless the captain of the steamship would guarantee the cost of the maintenance of the men in jail. This he naturally refused to do, whereupon the stowaways were set free. The magistrates stated that stowaways are punished in the interests of shipping companies, and therefore these latter should bear the cost. They also expressed the opinion that vessels should be more diligently searched for stowaways before leaving port. The present practice of allowing crowds of friends of passengers to remain on board until almost the last minute facilitated the operations of stowaways.

Oh what a good night!

What a rest! What a sleep!

HEROISM AT THE KEYBOARD.

Young Operator Prevents a Train Hold-up.

Butte, Mont., Oct. 19.—Two masked and mounted men to-day rode up to the little station at Welch's Spur, twenty miles east of this city, on the Northern Pacific, and, covering the operator with their revolvers, drove him inside his office and locked him in. They turned the signal light so as to stop the north coast limited, which was due in half an hour.

The operator, F. T. Law, a young man of twenty years, threatened with death if he moved, crawled on his hands and knees to his telegraph key, and reaching from under the table wired the engine driver of the north coast not to stop, as the bandits meant to hold up the train at Welch's Spur.

The train went through the latter place at forty miles an hour, and the bandits then rode off. A posse took the trail at daylight.

KITCHEN HELPS.

The bright steel ornaments of your range can be made to shine like new by rubbing with vinegar.

Enamelled kitchenware that is burnt and discolored may be easily cleaned by scrubbing with salt, moistened in vinegar.

To prevent an oil stove smelling put three or four pieces of charcoal into the oil and there will not be the slightest smell.

If grease is spilled on the kitchen table sprinkle the stain at once with coarse salt. This prevents the grease from soaking into the wood.

To brighten the inside of a coffee or tea pot, fill with water, add a small piece of soda, and let it boil about forty-five minutes. Rinse thoroughly.

Keep a piece of pumice stone (not soap) by the kitchen sink to use in scraping dishes. It is effective even when a wire dishcloth fails, and may be used on ware that the wire would injure.

Common tacks are useful for cleaning carafes and bottles. Put a few of these—broken ones will do—in the bottle with a little soapy water and shake briskly. The sharp edges will scrape off all the stains.

City and Country Girls.

The girl who as bookkeeper, clerk, stenographer, milliner or teacher in her village home receives a weekly salary of \$5, \$6 or \$7 is far better off financially than the girl in the same occupation in the city who gets \$9, \$10 or \$12 a week. In the first place the living expenses are much smaller in the country than in the city—one gets very much more for her money in the way of home comforts; the wear and tear of clothing is much less and as a rule the work less harassing to the nerves, since there is not the same hurry and rush, keeping brain and nerves stretched to the tightest possible tension, so that after the day's work is over one is too tired to go in search of enjoyment. Working long hours at muscle wearying, brain wearing, nerve racking tasks in shops, offices, counting rooms and stores causes the city working girl to long for rest above everything else, and in itself precludes the chances of her making desirable acquaintances except such as may be offered through church affiliations, and even these she is too tired to improve.

Good News For His Old Home

Vernon Bromley Cured by Dodd's Kidney Pills.

For Years he was Crippled by Rheumatism and Sciatica—Dodd's Kidney Pills made him a New Man.

Morristown, N. Y., Oct. 18.—(Special).—Vernon Bromley, now of this place, but formerly of Trenton, Ont., relates an experience that will prove of great interest to his old friends in Canada.

"I have been a great sufferer from Rheumatism and Sciatica for years," Mr. Bromley states. "The citizens of Trenton will remember what a cripple I was. I could neither work nor lie down, the pain was so great.

"Reading of cures by Dodd's Kidney Pills, finally led me to try them and from the second box I began to feel relief. I continued to use them till I had taken twelve boxes, when I was completely cured.

"Dodd's Kidney Pills have made a new man of me." Rheumatism and kindred diseases are caused by uric acid in the blood. If the kidneys are sound they will take all the uric acid out of the blood. Dodd's Kidney Pills make sound kidneys.

Her View of It.
"Pshaw!" she exclaimed disgustedly as she came to the most interesting part only to read "to be continued." "I don't see why they call these things 'continued stories'."

"No?" queried her husband politely.

"No; they should be called 'discontinued stories'."—Exchange.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: **F. J. CHENEY & CO.,** Toledo, O.

Sold by Druggists, 75c. Hall's Family Pills are the Best.

The average man doesn't care what you think of him as long as you don't say it.

"More haste, less speed," and "hasten slowly," are proverbs born of experience that some things can't be hurried without loss and waste. That is especially true of eating. The rule-way lunch habit, "five minutes for refreshments," is a habit most disastrous to the health. You may hurry your eating. You can't hurry your digestion, and the neglect to allow proper time for this important function is the beginning of sorrows to many a busy man. When the tongue is foul, the head aches, then there are sour or bitter risings, undue fullness after eating, hot flushes, irritability, nervousness, irresolution, cold extremities, and other annoying symptoms, be sure the stomach and organs of digestion and nutrition have "broken down." Nothing will re-establish them in active healthy operation so quickly as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, nourishes the nerves, purifies the blood and builds up the body. It is a strictly temperance medicine, containing no alcohol or other intoxicant.

Given away! Dr. Pierce's great work, The People's Common Sense Medical Adviser, is sent free on receipt of stamps to pay expense of mailing and customs. Send 31 one-cent stamps for the paper covered book, or 50 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y.

The larger a clergyman's salary the more rest he needs at vacation time.

Vapo-Resolene

Established 1879.

Whooping Cough, Croup, Bronchitis, Coughs, Grip, Asthma, Diphtheria.

Resolene is a boon to Asthmatics.

CRESOLENE is a long established and standard remedy for the diseases indicated. It cures because the air rendered strongly antiseptic is carried over the diseased surfaces of the bronchial tubes with every breath, giving prolonged and constant treatment. Those of a consumptive tendency, or sufferers from chronic bronchitis, find immediate relief from coughs or inflamed conditions of the throat. Descriptive booklet free.

CRESOLENE ANTISEPTIC TABLETS dissolved in the mouth, are effective and safe for coughs and irritation of the throat. 10c. a box. ALL DRUGGISTS.

Warnings That Mean Danger Near or Future

DR. PETTINGILL'S Kidney-Wort Tablets

Quickly Banish Painful and Distressing Symptoms of Kidney Disease.

Acute and severe pain in the small of the back, sediment in the urine, loss of appetite, swelling of hands and feet, a growing weakness, emaciation and dry, harsh skin, are all symptoms of terrible disease. Thousands of happy and cruel men and women emphatically declare that Kidney-Wort Tablets restored health and strength after the failures of other medicines. Mr. A. R. Innis, Millsville, N. S., says:

"I had kidney trouble with sore, weak back, and tried many different medicines, but I can truly say that Dr. Pettingill's Kidney-Wort Tablets is the best remedy I ever used. Those that try them will not be disappointed."

Much In Little.
Crusty Old Gentleman—Your singing, Miss Taylor, is like attar of roses—Miss Taylor (with a gratified smile)—Oh, you are too flattering.

Old Gentleman (continuing)—A little of it goes a very long way.

Currency Preferred.
"So far as I am concerned," observed Spendahl, "I don't care whether we have an elastic currency or not; but, by George, I'd like to have it a little more adhesive!"

Worn thin?
No! Washed thin! That's so when common soap is used.

SUNLIGHT SOAP REDUCES EXPENSE

THE LATEST AND BEST

TIP TOP

SOAP CHIPS

Easy to wash with Tip Top Soap Chips. Made from the purest and best materials that can be produced. Absolutely free from chemicals injurious to garments. It will not make the clothes hard, nor injure the finest fabrics. No rubbing required. Saves time and money, as it is the most economical soap made. One pound will do more washing and go farther than two pounds of any other soap. Makes the clothes clean and white.

Get a trial package at either of the following grocers: J. H. Massey, Chatham Table Supply Company, Knight & Co., Bon Marche Grocery, Taylor & Williamson, Fred Wood, W. A. Wilson, W. H. Marshall, W. Sharp, H. Pellet, E. C. Gammage, J. H. Bogart, A. D. Patterson.

A GOOD THING!

A Metal Weather Strip is now being introduced in the city, that is attached to window frames, to shut off the wind and cold. When a window is equipped with this weather strip, it absolutely shuts off all wind, dust and dirt, and prevents windows from rattling. In short, it is a substitute for storm windows, at 60 per cent. of the cost, and much more convenient. Double windows are considered very inconvenient. A house equipped with this strip can be heated with 25 per cent. less fuel. Parties intending to put on storm windows should investigate. A window equipped with this strip is on exhibition at the office of King St.

THE BORDEN BANQUET.

Quebec Conservatives Honor Their Leader.

Quebec, Oct. 20.—The dining hall of the Chateau Frontenac contained 236 persons last night, who gathered around the board to welcome the guest of the evening, Mr. L. Borden, the Conservative leader in the House of Commons. The hall was tastefully decorated. Facing the entrance were the words "Borden and Monk" set up in electric lights, and behind the chair was the inscription "Our Future Premier." Other mottoes decorated the walls. Hon. L. P. Pelletier, one of the party organizers in the Province, was Chairman. At his right sat Mr. Borden, Hon. Messrs. Flynn, Chapais, Casgrain, P. Pelletier, N. Boyd, M.P. (Manitoba), Hon. W. W. Larue, A. C. Bell, M.P., E. Groulx and C. A. Pentland.

On the left sat Mr. Monk, Alex. MacLaren, M.P., A. B. Kemp, M.P., W. Price, M.D., C. Thomson and V. Chateaufort.

The vice-chairs were occupied by Messrs. H. A. Price, St. Foy Bellevue and A. A. Rheume.

When the toast "Our Guest" was proposed a number of Laval students marched into the hall, bearing flags, and gave the leader an ovation, including Mr. Monk.

The toast to the health of the King was joyously received, the guests singing the national anthem.

Mr. Borden spoke first in French, but briefly. He said that the port of Quebec should be utilized to its fullest extent, because it was one of the finest sea ports in the world. "With the project that I have submitted to Parliament as an alternative to the G. T. P. bill, I think that you would have here and at Montreal a large part of the grain from the west during the winter season." Mr. Borden then referred to King Edward's words to President Loubet on his visit to France, and asked them to hope and wish that the confidence and amity of the two races in Canada would be eternal.

Any irregularity on the part of The Planet carrier boys will be immediately remedied by calling at the office or phoning 534.

**Cleveland's
BAKING POWDER**

The great cooking schools must have the best results. They use Cleveland's Baking Powder.

"I have used Cleveland's Powder constantly both in school-room and lecture work. I recommend it." Miss ANNIE M. PARKER, Principal Boston Cooking School.

WOULD NOT SIGN.

THE ALASKA DECISION IS NOT UNANIMOUS.

Mr. Root Declares that a Decision Has Not Been Reached—Direct Conflict in the Despatches From London—Views of the Press.

London, Oct. 20.—A draft of the decision reached by the Alaska Boundary Commission, as announced by the Associated Press, was signed by a majority of the commissioners last evening. Mr. Aylesworth and Sir Louis Jette, the Canadian commissioners, refused to sign.

The decision grants all the American contentions with the exception of the one relating to the Portland Canal. The signatories were Lord Chief Justice Alverstone, Senator Lodge, Senator Turner and Secretary Root, the American commissioners. They constituted a majority and insured finality. Mr. Aylesworth and Sir Louis Jette carried their outspoken disapproval of the decision to the point of refusing to sign even that section of the decision giving the Portland Canal to Canada, and they emphasized their attitude by walking out of the Cabinet room in the Foreign Office before the signatures of the others had been affixed to the historic document. The only thing remaining to be done is that the majority of the tribunal complete and sign the map which accompanies the decision, and which minutely determines the course of the boundary in accordance with the American contentions, contained in question No. 5. The engrossed copy of the decision also will be signed on Tuesday.

There is no hope expressed that the Canadian commissioners will reconsider their attitude. The King's reception of the commissioners was a very simple affair. His Majesty congratulated them on the conclusion of their labors, was especially cordial to the Canadians, and to the Americans he said nice things about the United States.

At the Goldsmiths' Company banquet to the commissioners, the absence from the gathering of Hon. Clifford Sifton, Canadian Minister of the Interior, was noticeable. Mr. Aylesworth, in a speech, emphasized the hope that Canadians would soon be no more strangers in London "than the man from Shropshire," Senator Lodge, proposing the health of the Prime Minister, spoke feelingly of the affection that all the commissioners entertained for the character of Lord Chief Justice Alverstone. Secretary Root and Sir Louis Jette also spoke. None of the speakers alluded to the decision reached by the tribunal.

Washington, Oct. 20.—An apparent conflict in the information from London and the announcement by an American State Department official Saturday respecting the agreement reached by the Alaska Boundary Commissioners, it explained here by the statement that the London advice touching the victory of the American case on all points except the Portland Canal are perfectly correct, but that the commission's decision was not technically final, because of its omission to locate the "mountain range" which was referred to in the original Russian treaty of cession as a conditional limit to the American claim. It is said, however, at the State Department that this is not, after all, material, in view of the commission's decision that every inch of the shore line north of the Portland Canal is American territory, for whether the strip be only nine miles, or ten miles, or forty, the Canadians cannot reach the sea without crossing American territory.

It is said that in all probability a period of one year will be required to complete the work of delimitation on the boundary line provided for in the treaty. Experts will be engaged by both Governments.

CRUSHED TO DEATH.

Engineer Fred Love Killed at Goderich Elevator.

Goderich, Oct. 20.—A shocking accident occurred here about 4 o'clock at the elevator of the Goderich Elevator & Transit Co., whereby Engineer Fred Love, Superintendent of the elevator, was instantly killed. The steamship Newmount was unloading a cargo of wheat at the time, and the steam shovels were in use. It appears one of the ropes regulating the shovels was lying slack between the elevator and the vessel, and Mr. Love must have stepped across it when the rope suddenly became taut and threw the unfortunate man up between a pair of drums on which the ropes are wound. Though a number of persons were around at the time, no one appears to have witnessed the accident, though two or three men are said to have seen his legs and heard a sound as he passed between the drums. Mr. Love's skull was severely crushed and his left leg was broken, evidently where the rope caught him. Mr. Love was a middle-aged man, married, and had four children, the youngest about five or six years of age.

CHINESE ATTACK RUSSIANS.

General Tung Fu Siang Operating in Mongolia.

London, Oct. 20.—Cabling from Tien Tsin, the correspondent of The Standard says the Chinese Governor of Shan-si Province reports that General Tung Fu Siang is attacking the Russians in Mongolia. The correspondent explains that this possibly refers to some interference with Russian surveying parties on the Urga-Kalgan railway lines.

St. Petersburg, Oct. 20.—A telegram from Port Arthur says that the town of Bodone, on the Sungacha River, Manchuria, has been surprised by Chuchus and that a detachment of Cossacks has been sent to occupy it.

The best and safest way to keep Baby's skin healthy is to use only
BABY'S OWN SOAP

Beware of Imitations.

ALBERT TOILET SOAP CO., MRS. MONTREAL.

POSSESSION AT THE SOO.

THE KEYS HANDED OVER TO MR. BICKNELL.

In Return For This Concession Speyer & Co. Postpone the Sale to December 15.—They Appoint New Officials and May Operate the Works Meanwhile.

Sault Ste. Marie, Mich. Oct. 20.—The contest over the possession of the plants of the Consolidated Lake Superior Co., which had been in progress in and out of court for weeks, came to an end at 2 o'clock, when Mr. James Bicknell, representing B. F. Fackenthal, the receiver, was given the keys of the office and all of the subsidiary factory buildings.

The peaceful surrender of the property to Speyer & Company, which the officials had hitherto declined to make, is the result of an agreement reached in New York last Friday, whereby all of the directors and officials of the subsidiary companies resigned, and their places were filled by Speyer & Co., who selected Benjamin F. Fackenthal, the receiver, as the President of all the companies. The names of the other directors and officials are unknown here.

In consideration of this surrender of the property, Speyer & Co. have agreed to postpone the sale of the securities until Dec. 15, thus giving the stockholders time to get funds to repay the loan and restore the big concern to its feet.

It is expected that as soon as possible all of the plant of the company that is profit-producing will be put into operation again by Mr. Fackenthal. This includes the pulp mills, the sawmill and the veneer works, which would employ a large number of men.

The unpaid employees of the Consolidated Lake Superior Co. on this side of the river received word from the holders of the first mortgage bonds that as at they were concerned Receiver Fackenthal might borrow money with which to meet the wage claims. It is now up to Speyer & Co.'s representative to raise the money for that purpose, and the men feel confident they will not have to wait much longer.

TELEGRAPHIC BREVITIES.

Hon. R. W. Scott stated in the Senate that the Commons would be ready to prorogue on Wednesday.

The body of Miss Hickman, a well-known doctor of London, Eng., whose mysterious disappearance has agitated London for two months, was found in Richmond Park.

A PLEASANT SURPRISE.

In Store for Those Who Doubt.

When you read that a sufferer of many years' standing has been completely restored to health by using Smith's Cure—all you are inclined to doubt the statement, and, in fact, have no belief in it whatever. The reason for this is that so much is claimed for this Cure—all it is impossible for anyone to believe it; if the advertiser confirmed his claims to the curing of one disease, as do the proprietors of Pyramid Pile Cure, readers would have much more faith in published testimonials. Those familiar with this great remedy know that testimonials as to its merit may be relied upon implicitly, also that the cures brought about by its use are little short of marvellous. The genuineness of the testimonial here given is vouched for and is but one of thousands received.

"I wish to write you and tell you what your Pyramid Pile Cure has done for me. I have been troubled with piles for the past five years and used every remedy that was recommended to me. While some would give me relief for a while they never have cured. I was so bad this summer I could not get up or down without pain; could not attend to my household duties. Finally I got a 50-cent box of your Pyramid Pile Cure at the druggist's and it is now two months since I used the last of the box, and have had no trouble since. I can say it is really and truly a good remedy.

"I am so thankful I tried it as I know it has cured me, and if at any time I should have any such trouble again I would use it at once. Since I am cured I have recommended it to my friends, whom I know to be afflicted as I was, and I know they will use it too. I am so thankful I ever learned of your cure." Mrs. T. Futt, 469, 2nd street, Grand Rapids, Mich.

Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address upon receipt of price by Pyramid Drug Co., Marshall, Mich. Write this firm for their book describing the cause and cure of piles.

UNDERWEAR and MORE UNDERWEAR

No matter what you wear you will wear it over underwear. This is the time of year when a man or his wife ransacks his wardrobe to ascertain what he will require in underwear, to turn the cold blasts of approaching winter.

We have prepared for bigger underwear business than ever this Fall and Winter. We go straight to the mills when buying, and, of course, buy in big quantities, else we could not go there. Thus there is a saving of two profits to you—the jobbers and the wholesalers. Come and see what that means, examine the garment that we can give you for 50c. Every dealer has underwear at 50c, but we want you to compare it with ours and note the difference. There is just as much difference between those at 75c. and \$1.00 and all the way up the line.

The boys have not been forgotten, either.

Here are some prices:—

Men's finely finished striped fleece-lined underwear, 42½c	Penman's all wool Underwear, saten facings, all sizes, priced at 90c to \$1.10
Men's all wool plain grey or fancy stripe, extra value, all sizes, 60c	Men's fine English cashmere, all wool underwear, unshrinkable, nicely finished, \$1.75 to \$2.50
Men's heavy ribbed, fancy striped or plain gray all wool underwear, all sizes, special, 75c	Men's fine natural wool combination suits, special at \$3.00
Men's all wool close fitting ribbed underwear, saten facings, all sizes, \$1.00	Men's fine silk and wool mixed underwear, pale blue tint, and other fine grades, direct from the factory.
Boys' fleece lined underwear, all sizes, 15c to 30c	

THORNTON & DOUGLAS, LIMITED...

OUR NEW PARLOR LAMPS! DIRECT IMPORTATIONS.

The most stylish and handsome lamps you want to see. Besides their beauty they possess another essential quality and that is the BEST BURNERS ever sold with parlor lamps. Every one guaranteed and replaced if not satisfactory. The prices, yes, 75c and \$1.00.

GRAY'S BAZAAR AND CHINA HALL.

PURITY. LAGER BEER

"The Beer That is Brewed in Glass"

We use the mechanical refrigeration (ice machines) instead of natural ice for cooling both the beer and our cellars because it is the only sanitary method and temperatures are controlled with absolute certainty, enabling a brewer to produce far better beer.

We have duplicate refrigerating machines to provide against injury to the beer on account of improper refrigeration, arising from accident to machinery.

We do not manufacture ice and cool with it but we remove the heat from the rooms thereby producing cold.

The natural ice method is antiquated and unsanitary.

All things being equal, a home industry is entitled in preference but in brewing the investment required to produce a reasonably perfect beer is so large that but few will undertake it, providing their intention is to furnish a PURE, WHOLESOME and PROPERLY AGED BEER.

A properly constructed and equipped plant can hardly be constructed, equipped and operated on an investment of less than \$75,000.

We use large necked bottles to permit of cleaning properly. It is almost impossible to thoroughly cleanse a small necked bottle and if not cleaned the beer sure to become infected and ptomaine poisoning follows.

Lager beer that is too young or improperly finished will produce bowel troubles, but the expense and risk in carrying beer to a "roper age causes many to dodge it and let the consumer pay the penalty.

We have storage capacity for over 200,000 gallons of Lager, Ale and Porter in bulk, exclusive of our bottle storage cellars, and ship only thoroughly matured goods.
