Attention ! Attention ! Attention !

Nous avons résolu d'abolir complètement le Vieux Système des Hauts Prix ; pour celui de **Grands Débits, Petits Profits**.

L'avalanche devait tomber et elle est tombée en effet, elle en a fini avec toutes les idées sombres des Hauts Prix, en nous laissant introduire une manière entièrement nouvelle de conduire nos affaires qui, nous sommes heureux de le dire, a été si satisfaisante pour nos pratiques que, pendant les deux dernières années, nos Ventes à Bon Marché et le système d'**UN SEUL PRIX**, nous a valu l'estime générale.

Province de Québec.—Vous êtes un peuple favorisé pendant cette grande crise, mais vous le méritez, et nous sommes très-heureux de pouvoir vous donner de Grandes Chances en retour du Patronage Légal que vous nous accordez.

Nous sollicitons une faveur de vous, ne vous pressez pas trop les premiers jours de chaque semaine, vû que le Magasin n'est pas très-grand, sans doute que vous vous rappelez encore quelle était la foule à nos comptoirs, l'an dernier, lorsque nous commençons cette Vente à **BON MARCHÉ**.

Quelques-uns furent très-mécontents parce qu'ils ne purent se faire servir chez nous et payèrent plus cher ailleurs. Ce ne fut pas notre faute, nous avons fait de notre mieux.

Cette fois-ci nous avons prévu la chose, de grandes améliorations ont été faites, nous détaillerons dans les trois Étages de notre Magasin. Si le premier étage est rempli, montez au deuxième, s'il y a foule dans l'un et dans l'autre, essayez le troisième étage, et si vous n'avez pas de place dans celui-ci, attendez quelques minutes, nous ferons de notre mieux pour vous servir sans trop de retard. Nous vous conduirons à notre Magasin de

3 "I'll spread you a couch, upon which to recline
When evening shall call us to rest,
And, also," said she, as she laughed with glee,
"A Washer and Wringer—the best."
"Then so shall it be, love, and good ones at that;
We'll get them from England's far shore."
"Oh, no," she exclaimed, "they have elegant ones
At ALLAIRE & COMPANY'S STORE."

4 "But, Mary, a'as! I must sad'y confess,
My means ar' but slender as yet:
To buy a Machine of the very best kind
Would certainly run me in debt,
A common one for you, it would never please,
The best you must have, and that sure"
She said, with a smile, "you may purchase on lease,
At ALLAIRE & COMPANY'S STORE."

5 "To-morrow then, love, let us journey along
To the popular place Fabrique street.
We'll see there Washers and Wringers and Sewing
Machines;
I as-sure you 'twill quite be a treat.
How many fond souls might be severed for years
From those they so fondly adore,
Were't not for the system of payment they have
At ALLAIRE & COMPANY'S STORE."

6 We went, Happy day! Can I ever forget
The pleasure that beamed in her face,
As she gazed at the Washers and Sewing Machines
In Allaire's most wonderful place,
We bought one of each, and the best of its kind;—
Been married a twelve-month or more,
And Mary is singing this song to her babe
OF ALLAIRE & COMPANY'S STORE."

PREFACE.

The Publishers have the pleasing duty of submitting herewith the **Twentieth annual Edition of Cherrier's Quebec Directory for 1878-79** and trust it will meet the approval of subscribers and advertisers.

To those not familiar with the details of Directory compilation, there exists quite a general idea that the Directory is prepared by correcting the volume of the past year.

We believe this plan in places of minor importance is sometimes adopted; but in a City like ours, where so many changes take place during the year, of removals, deaths and from other causes, the Directory must be made entirely new, the volume of the preceding year only being useful for references and comparisons. When this is taken into consideration, the magnitude of our task is apparent.

THE **QUEBEC ALPHABETICAL DIRECTORY** contains 9,296 names, an increase of 921 names over last year, which is a larger increase than we anticipated, the depression of business experienced during the past year, having, as we thought, no tendency to promote the growth of our City.

We have found from quotations underneath given, that, since the first issue of **CHERRIER'S QUEBEC DIRECTORY** in 1858, there has been no steady and healthy increase in population, owing in great part to extensive fires which have since occurred at different dates, and also to the great depression of our ship-building.

We give the following (including St. Sauveur) as authentic figures for the last two decades, and find that in

	Increase of
1858-59 we had	population.

1878-79	" 11,809 " " "	59,045	... 5,480

When we consider that our average estimation of population is at the rate of five (5) to each name in the Directory, we are more modest than otherwise in claiming a population at our going to press of about 59,045 souls.

In preparing this year's issue we have noted 1,344 removals, have erased 1,248, and have added 1,507 names. At the time of going to press 20th of May there were still 250 houses unoccupied; a fact that must account for the few omissions which may be found hereafter in this issue.

As regards the general accurateness of this work, suffice it to state that it will prove to be as correct as in the past, and as possibly reliable as a work of this nature can be made in the hands of experienced men. Special care has been taken to avoid those typographical errors which so often disfigure works of this nature and mislead those who refer to them.

In Montcalm ward, partly destroyed by fire in May 1876, the numbering anterior to the fire has been retained on the houses since erected. This in the exceptional state of things was rendered necessary, to make the Directory intelligible.

It is with unspeakable satisfaction that the Publishers do inform their patrons and the Public likewise, that a third obnoxious and unaccountable attempt at publishing a rival Directory, has again signally failed through want of encouragement and accuracy. This failure of an opponent, it is thought by the Publishers, is greatly due to the particular favour with which this standard and well known publication has since the first year of its foundation in 1858, been received by the business community. In consequence, the Publishers do here take this opportunity of acknowledging their profound gratitude and pledge themselves to do hereafter, as in the past, all in their power as experienced Directory men to merit so widespread and appreciated a support.

The Publishers,

The temperatures recorded in Tables I, II and III to 1873, are from observations made at the Observatory, Quebec, those for 1874-5-6-7 from bi-hourly observations made at the Citadel, under the direction of Col. Strange, R. A.

The - sign to some of the entries in Table III indicates that they are that number of degrees below 0 or zero of Fahrenheit's scale.

TABLE IV.—Shewing for the years 1869 to 1877 inclusive, the depth of rain and snow in inches, the number of days rain and snow, and the total precipitation, compiled at the Meteorological Office, Toronto, from observations at the Observatory, Quebec.

CHERRIER'S

GUIDE TO THE LOCATION AND NUMBERS OF STREETS,

Entered according to Act of Parliament, in the year 1877, by the Proprietor, in the Office of the Minister of Agriculture and Statistics of the Dominion of Canada.

Containing the Ward location, also giving number Indices to Churches, University, College and Schools, Banks, Government and other Public Offices, Terraces, Chambers and Squares, City Hall, Police and Fire Stations, Asylums, Charitable Institutions, Convents, Hospitals, Railway Offices and Stations, Clubs, Rinks, Consulates and Newspaper Offices, Hotels, Restaurants and Reading Rooms, Quebec Exchange, Board of Trade, Railway Commission, Telegraph Companies and Branch Offices, Halls, Post Offices, Markets, Water Cisterns, Manufactures, &c., and CHERRIER'S QUEBEC DIRECTORY OFFICE.

EXPLANATIONS.

The chief object this Guide has in view, is to show the location of each street, indicating also what other streets end on it, run from it or intersect it, with, whenever possible, the corner numbers where such streets end commence or intersect. It will be noticed that the names of the streets are given in Alphabetical order giving the course which they run, according, as near as possible, to the points of the compass.

In accordance with the renumbering of the City enacted by a special meeting of the City Council, held on the 10th of March and confirmed by a subsequent meeting, held on the 7th of April, 1876, and which took place early in the spring of that year, it was decided that the streets be numbered as follows :

All streets in Jacques Cartier and St. Roch Wards, running from the Cape to the river St. Charles were numbered accordingly, that is, from South to North, odd numbers on the left or West side, even numbers on the right or East side ; running from East to West, odd numbers on the left or South side and even numbers on the right or North side.

In the Upper Town, St. John and Montcalm wards, this order as regards the streets running from the Cape to the river St. Lawrence was reversed and they were accordingly numbered from North to South, odd numbers being on the left or East side, even numbers on the right or West side.

In Lower Town, streets commencing at the Cape were numbered from the Cape to the river St. Lawrence or from West to East, odd numbers on the left or North side, even numbers on the right or South side ; transversal streets were numbered from South to North, odd numbers being on the left or West side, even numbers on the right or East side. Champlain and Little Champlain streets, owing to their location, were numbered from North to South, odd numbers being on the left or East side, even numbers on the right or West side.

This Guide is also intended to indicate at a glance the proximate locality of any number on any street, for example : if you desire to know where No. 221 (French Prot. Church, St. John street, is located, the Guide tells you that being an odd number, it will be found on the left or South side of St. John street and about midway between St. Eustache and St. Augustin streets. Again desiring to know where CHERRIER'S QUEBEC DIRECTORY OFFICE, established in 1858, No 12, St. Ann street is located, you will readily perceive by reference, that No 12 being an even number, will be found to be the corner house on the right or North side where Du Fort street ends.

A.—denotes that there is no number on the corner.

Laval University.

Hebert, 23.

In 1663 was founded the Quebec Seminary which afterwards became a regular College, and it had, by successive addition, acquired a high degree of importance, when it was erected, by Her Majesty's Royal Charter, into a University, under the style and name of *The Laval University*. By this charter, which bears date December 8th, 1852, no change was effected in the constitution of the Seminary itself, but a council composed of the directors of the institution, and the three senior professors of the several faculties was empowered to possess and enjoy all the privileges granted to the Universities of the United Kingdom, and especially that of conferring degrees in the Faculties of Divinity, Law, Medicine and Arts. On the 15th May, 1876, His Holiness Pope Pius IX, gave to the Laval University, the Canonical erection. His Grace the Roman Catholic Archbishop of Quebec is, by virtue of his office, Visitor and Apostolic Chancellor of the University. The Superior of the Seminary, for the time being, holds the office of Rector.

OCEAN.

Allan Line.

The mail steamships of this line sail from Liverpool, every Thursday throughout the year calling on the following day at Moville (Londonderry) to receive mails and passengers.

They sail from Quebec every Saturday morning, at 9 o'clock during the season of open navigation, calling at Moville to land mails and passengers; during the winter months, the mail steamships sail from Halifax every Saturday.

In addition to the mail line a steamer of the Glasgow line, sails from Quebec direct about once a week carrying passengers and freight.

Return tickets issued by both lines at reduced rates.—Allans, Rae & Co., agents, Champlain, 169.

Dominion Line.

Commercial Chambers, St Peter, 92

The steamers of this line are intended to sail weekly from Quebec for Liverpool. S. S. Dominion, Ontario, Quebec, Mississippi, Memphis, Texas, St. Louis, Borussia and Teutonia.

Through tickets can be had at all the principal Grand Trunk Railway ticket office in Canada.

WEIGHTS, MEASURES, INTEREST, &c.

Previous to 1828, there were used in Great Britain as legal standards, the Ale Gallon, Wine Gallon and Corn Gallon, of all different capacities; also the Winchester Bushel for dry measures, besides Heaped Measures; all of these are now abolished, and but one standard Bushel and Gallon for all measures, both dry and liquid, is used, called the Imperial Bushel, one-eighth of which is the Imperial Gallon.

Milk of Magnesia

MOST CERTAINLY CURES

Dyspepsia, Indigestion,
Heartburn, Nausea,
Sour-Stomach and Headache.

Can be had at all Chemists.

The change from the old wine to the Imperial is not compulsory till 1880, up to that time the old wine gallon may be used by those who desire to do so, upon the condition that all bargains effected by it shall be specially mentioned.

The Imperial bushel is an upright cylinder, whose internal diameter is 18,789 inches and depth 8 inches. The Imperial gallon is one-eighth of this, and cubical contents equal to 10 lbs. water. We may quote from this, as Imperial measure, "a pint of water a pound and a quarter;" and from the weight of water given below corresponding to the different measures, it follows, that if measures were lost, we could find their equivalents by weight of water, and if weights were lost, we could find their equivalents by cubical contents of water.

The standard of the United States consists of two measures, namely the Winchester Bushel for dry measure, and the old English Wine Gallon for liquid measure. The Winchester Bushel, so called because the standard measure was formerly kept at Winchester, England, is an upright cylinder, whose internal diameter is 12½ inches, and its contents equal to 2150 2-5 cubic inches and equal to 77,627 lbs. of pure or distilled water at a temperature of 62 and barometer at 30.

The proportion between the Imperial measure and that of the United States is very simple and convenient for reduction, being nearly 5 to 6. Thus 5 Imperial gallons are equal to 6 gallons United States standard. The Imperial bushel is about 1.32 part more than the Winchester, 31 bushel Imperial being equal to 32 Winchester.

There are still used in the United States, the old beer or ale gallon of 282 cubic inches, equal to 10. 18 lbs. of water and a New York State bushel of 2211-84 cubic inches, and gallon of 221-184 cubic inches, or 8 lbs. water. All transactions involving the measuring or purchasing of liquids, &c., should state the measures understood. By an act of a Canadian Parliament, the following are the legal weights per bushel of the different kinds of grain; but when bought or sold by weight shall be specified by the cental (100 lbs.) and parts of a cental.

A Cord-wood pile is 4 feet high and 8 feet long.

French Canadian Cord 4ft. 3½ in. high and 8 ft. 6¾ long.

The side of a square acre is 69½ yards in length, and is often quoted by French Canadians as a unit of length for short distances.

1 French Foot is equal to 12 10-12 the English inches.

104 " lbs. " 122 Pounds.
1 Canadian Minot = 1 024 Imperial Bushels.

A Bundle of Straw 12 lbs. of Hay 15 lbs., and if tied with a withe, one pound additional.

The new Copper Coinage of Great Britain, 1860, is composed of 95 parts Copper, 4 of Tin and 1 of Zinc. A pound of this is coined into 48 pence of 80 half-pence or 160 farthings, and the half-penny measures one inch in diameter. The Canadian Cent is the same diameter, and 100 of them weigh one pound.

In the absence of Apothecaries weights and measures, the following items are worth remembering:

About 25 drops of any tin liquid will fill a common sized teaspoon.—three table spoons will fill an ordinary sized wine glass,—four wine glasses will fill a common sized tumbler.

Interest.

General rule for calculating interest for days. Multiply 1 year's interest on the amount by the number of days, and divide the result by 365.

SPECIAL RULE FOR 7 PER CENT.—Multiply the amount, days, and the decimal 0.19178 together; the result will be the answers in cents;

or multiply the principal, days and 19178 together, and from the result cut off 6 figures from the right, the remainder is cents for the answer; if there be cents to multiply in the principal, cut off 8 figures.

To convert Sterling into Currency.—To the given sum, add one-fifth of itself and one-twelfth of that one-fifth.

Currency into Sterling.—Multiply by 60 and divide by 73.

Exchange Calculations.

In the absence of tables, the following calculations will be found useful; and as there are various modes of calculating Exchange, we choose the following as being the most easily understood. As before stated, such are made upon the old base or par, rendering it necessary to convert all sums to that standard, to enable us to find the required result. Four shillings and six pence sterling and one dollar at old par are equivalents; and as that relative value as been ascertained, but still retained as a base of calculation, it follows that 9, 9½ or 10 cent, premium quoted, means 9, 9½ or 10 cents on the dollar, or dollars, on the hundred, or pounds, &c., in addition to the old par value; and as in these calculations we shall use the dollar as basis, quotations as above will read as \$1.09, \$1.095, or \$1.09½ and \$1.10; and the sums are to be multiplied or divided by the required premiums, written in a similar manner.

Sterling into Dollars and Cents.—At any premium. Multiply the pounds by 40, and divide by 9; this result gives the sum in dollars at old par; then multiply this result by the quoted premium, expressed as before stated.

Example.—What must I pay for a Bill of Exchange for £300 sterling, the quoted rate being 8 per cent, or \$1.08?

Solution.—£300 multiplied by 40 and divided by 9, gives £1,133.33 at old par; then 8 per cent, added to this, or multiplied by \$1.08 gives the answer, \$1,440.00.

Dollars and Cents into Sterling.—At any premium; (this operation is the reverse of the preceding). Multiply the dollars by 9, and divide by 40; this sum will be dollars into sterling at old par, which divided by the quoted premium, gives the required result.

Example.—What amount of Exchange on London can I buy for \$1,440.00, the quoted rate being 8 per cent, or \$1.08?

Solution.—\$1440, multiplied by 9, and divided by 40, produce pounds at old par, this sum, being divided by \$1.08, gives the answer, £300 sterling. *Note.*—When shillings and pence are in the sterling amounts to be operated on, it will be necessary to reduce them to the decimals of pound. A very little practice will soon familiarize one to the easiest method; say for 17 shillings and six pence, then 10 is £5, then say 5s. half of that or £125; these added, give £875, the required decimal. This

EXCHANGE WITH FRANCE.

mode will expedite all calculations in other denominations, especially where there are fractional quantities.

London and Paris par of Exchange, one pound sterling equal to 25 francs 57 centimes. United States and Paris.—20 francs Louis Napoleon equal to \$3.84 or one dollar in gold, 5 francs 21 centimes. The *real* value of the francs is about 93.10d. sterling and the *real* value of the pound sterling is 25 francs and 26 centimes in gold, and 25 francs and 26 centimes in silver.

CANADA AND FRANCE.

French invoice are reduced to dollars and cents for Canadian Custom Entry at the rate of 19 3/10 cents per franc, or decimally expressed, 19.30.

Francs, into Dollars at Custom value. Multiply the amount by the decimal, 19.30. Dollars into Francs.

Divide the amount by the decimal 19.30. Bank Exchange here with Paris assumes a par of 25 francs to £1. sterling governed by quotations of sterling Exchange, with ½ per cent additional for difference between Paris and London; thus, if sterling Exchange be 10½ our Bill must be based on 11.

Question.—I have a Bill from Paris to pay, amounting to 216, 05, sterling Exchange being 10½ per cent; what must I pay here in dollars and cents?

Solution.—216, 05 francs divided by 25 produce £8, 12s. 10d. sterling and this amount into dollars and cents at 11 per cent, (½ per cent more than the quoted rate), produces \$12.63, which I have to pay, to settle my account with Paris.

Canadian Pounds into sterling at 9½ or New par of £1. 4s. 4d. to the pound sterling.

Multiply by 60 and divide by 73.

Sterling into Pounds Canadian at 9½ or New par.

Reverse the preceding rule or to the sterling add 1-5 and 1-12 of that fifth, equal to 21. 2-3 per cent, of the whole amount.

Sterling into Dollars, at 9½ or New par.

Multiply the sterling by \$4.866, or divide by the decimal 2055.

Dollars into Sterling at 9½ or New par.

Divide the dollars and cents by \$4.866, or multiply the amount by the decimal, 2055; the result will be pounds and decimals of a pound.

TRADE MARK.

A. LECOMTE & CO.,
MUSICAL INSTRUMENT MAKERS,
 12, St. Gilles Street, close to the Bastille, Paris.

*All Instruments warranted of perfect make as well as in good
 pitch and tone.*

The Official Report of the International Board of Examination, for the Paris Exhibition of 1867, (reporter, Mr. FÉRIS,) speaks highly of the Instruments manufactured by that firm, as can be seen by the following extracts from the second volume of said Report :

" FRENCH HORNS.—..... The best instruments of that kind seem to be those of A. Lecomte & Co. "

" CORNETS.—The board has noticed, amongst the most satisfactory for sound and good tune, the Cornets of, as well as those of A. Lecomte & Co. "

" TROMBONES.—The best Trombones with slides in the Exhibition are those of A. Lecomte & Co. "

" BUGLES or SAXHORNS.—The best Saxhorns or Bugles, of soprano tones, contralto, tenor, baritone, bass, and contrabass, either for force of sound or for good tune and purity of tone, are those of A. Lecomte & Co. "

" CLARIONETS.—Very good Clarionets, large and small, have been exhibited by and A. Lecomte & Co. "

Such extracts, better than any emphatical speech, explain the increasing success of this firm, who, established only since 1860, spare no expense nor trouble in order to obtain always the most perfect musical instruments.

All kind of Musical Instruments in brass, Wind Wood and stringed; strings, fittings and accessories for Makers such as valves, bells, &c., all of the finest Workmanship.

ALPHABETICAL DIRECTORY.

EXPLANATIONS:

ABBREVIATIONS USED IN ALPHABETICAL DIRECTORY: bdg. hse. *boarding house*; bds. *boards*; h. *house*; r. *rear*; sq. *square*.

The Names in CAPITALS are those of Subscribers and Advertisers.

When hill, lane, place, road, square, or any other such word, does not follow the residence the word *street* is to be understood; for example: Abgrall Victor, laborer, Champlain 809, means Champlain street 809.

When two numbers are given in connection with one name, and only one street mentioned, the number first given is the place of *business*, and the second the *residence*, and both in the same street.

It will be noticed that the names of all members of a firm are added directly after the name of the firm. This, it must be understood, does not interfere with the regular insertion of the same names in their *Alphabetical order*.

For full indices to the CONTENTS, see pages 5-6.

Our advertising patrons may be found by referring to the Index, page 10. We feel justified after many years acquaintance, in saying we believe them to be among the very best in their vocations, in the City of Quebec.

In the Street Directory, numbers followed by a — are houses *unoccupied* at the time of publication.

In preparing this year's issue we have noted 1,344 removals, have erased 1,248 and have added 1,507 names; the number of names in this year's Directory being 9,296, shows a net gain during the past year of 921 names, there being only 8,375 in the last edition. At the time of going to press, 20th of May, there were still 250 houses unoccupied; a fact which will more than account for the few omissions that may be found during the year.

To find a name, first know how to spell it.

QUEBEC MERCURY (THE), daily, evening, annual subscription \$6.00; G. T. Cary, editor, proprietor and printer, Buade 11-13. "THE MERCURY" FILES—We have had the satisfaction of receiving, by this day's English mail, intimation that the file of the *Quebec Mercury* bound in yearly volumes from its foundation by T. Cary, senior, barrister, first editor and proprietor, in January 1805, (and grandfather of the present editor and proprietor,) has been received complete and in good order at the library of the British Museum in London, where it will be preserved with all the other historical works open to the British public in that valued and venerable institution. Canadians can thus at any time refer their friends or correspondants in England to the *Mercury*, for reliable records of local events during recent or remote years; and it shall be our endeavor always to make it as full and authentic a diary in the future as it is admitted to have been during the past. Complete files of this paper are also among the archives of the Parliament of the Dominion of Canada, at Ottawa, and that of the Provincial Legislature in this City. *Mercury* June, 1878
