FACING THE LEGAL MUSIC

THE LOTTERY CASES BEFORE THE POLICE MAGISTRATE

The Mail's Manager on Trial for Publishing Lottery Advertisements - Legal Cross-Firing - The Court Almost Finds a Conviction

After disposing of a lengthy docket the police court yesterday morning, Magistrate Denison announced that he would proceed to hear the lottery cases, of which there were nearly 40. All the defendants being in court, the charges were read, pleas of not guilty were entered in every case and the court rose till 2 o'clock in the afternoon.

At this hour the court-room was crowded when the magistrate ascended the bench. The charges are divided into three classes: Offences against the lottery law with regard to the late masochist gift enterprise in London, the proposed orange lottery enterprise and a patriotic concert at Ottawa, and a prospecting newspaper lottery in Detroit. The magisterial court yesterday morning in court yesterday were allowed to have sides in the orange lottery, a few in the masochist and only two in the Detroit affair. C. W. Bunting, managing director of the orange lottery, was charged with printing advertisements of the masochist and orange schemes.

His case was called first, but comparatively little progress was made, and Mr. Fenton, crown attorney, remarked on several occasions that he was quite taken by surprise by the obstacles that defendant's counsel was throwing in the way of a fair trial. Mr. W. A. Foster appeared for Mr. Bunting, who occupied a seat beside his counsel.

A great deal of legal cross-firing was indulged in on the points of law, and the magisterial court yesterday morning Mr. Murphy referred to Constable Watt, who was one of the principal witnesses for the prosecution, on several occasions as "an informer."

Mr. Fenton said he was there merely to try and convict Mr. Bunting; but since Mr. Douglas had declined to answer any questions which the latter looked upon as self-criminating, (Mr. Fenton) would see that witness was not going to answer any questions which the latter looked upon as self-criminating.

THE PACIFIC RAILWAY.

MR. BLAKE ON THE PROFITS OF THE RAILWAY.

Great Speech by the Opposition Leader - Mr. Blake on the Profits of the Railway - Mr. Blake on the Profits of the Railway

OTTAWA, March 5.—In the common course, in answer to a question by Mr. Angus, Postmaster-General Carling showed the government had no intention of introducing this session a measure reducing the letter postage to 60 cents, as was proposed to be done in the United States. Mr. Carling stated also, in reply to Mr. Crowl, that the correspondence was in progress with companies forming the postal union, with a view to establishing a railway service with France, Belgium and Germany with a view specially of benefiting emigrants from those countries.

Mr. Blake made a rousing speech on the Canadian Pacific railway in bringing forward a long motion, of which he had given notice, calling for returns giving later and fuller information as to the syndicate's operations than any papers now before the house. He argued that in view of the valuable franchises given every railway company, and of the fact that it had a virtual monopoly in its own territory it was only fair that restrictions should be imposed upon its rate-charging tendencies. This, he thought, particularly true of the Canadian Pacific company because of the large bonus given them, and of the status which pledged the country to support them as a monopoly for 20 years.

MINISTER WEST ON THE PROCEEDINGS AGAINST SHERIDAN.

English Feelings in the Press - What Sheridan Himself Says - The Whole Business a Farce.

NEW YORK, March 5.—Gov. Butler and Gen. Fryer, counsel for Sheridan, are satisfied the British government will not case under the treaty. The delay is believed to be because the counsel for the British government had a like opinion, and because additional affidavits and papers have been sent for. Pryor believes the British government has gone too far to back out now and that Sheridan will be arrested eventually. West, the British minister, says: "I am quite ignorant whether the papers will be issued or further steps taken in the matter. If Sheridan had been identified he would be under arrest or under surveillance."

THE CITY COUNCIL.

Going Back to Evening Sessions - The Barst Contract Fee.

The city council met yesterday afternoon, Mayor Howell in the chair. A number of communications and petitions were received and referred to their respective committees.

The Street Railway company petitioned for the repeal of the by-law providing for the abolition of one-horse ("bob-tail") cars. Ald. Baxter inquired why there was such an irregularity in giving the fire alarm. Ald. Maughan said it had arisen out of the machine being so long in use in the city.

Ald. Maughan inquired if contractors had the privilege of filing up sand to an enormous height on Brock street. Ald. Walker replied that the same was not the case in other parts of the city. When the report of the executive committee was considered in committee of the whole a long discussion took place on the clause recommending that Jas. Craig's counsel fee be the basis of contract investigation fee.

The Ladies' Progress society were given the use of the hall for Friday night for the purpose of holding a conversation. Several notices of motion were given and the council adjourned at 6.45.

ARRIVAL OF THE DIVA.

Mrs. Nilsson and Her Company at the Grand Hotel.

Mrs. Nilsson and her company arrived in the city at 7.30 last night direct from Cincinnati, via Niagara Falls. The diva, her two maids and the company drove straight to the Hotel Hamilton, where apartments had been secured for them. A concert was to have been given in Buffalo last night, but when that city was reached a telegram was in waiting from Mr. Abbey enjoining the engagement. Among the reasons assigned for giving Buffalo the go-by were that Mr. Abbey did not wish Mrs. Nilsson to fatigue herself in any way after the long ride from Cincinnati, and besides the sale of seats was not at all up to expectations, being about \$1000. The company then came straight to Toronto.

Clerical Financiering. Financing on the large scale by clerical men does not appear to be a success, generally speaking.

Ontario gets the reputation of a lottery-fostering state. It will next be in order for her to assume the role of a debt-repudiating province.

The Belleville Ontario is undoubtedly an able paper. It is the only paper in the city which would be more appreciated if it occasionally gave credit where credit is due.

The members of the society for the suppression of blasphemous literature in England, has undertaken a herculean task in which, notwithstanding the useful mission assigned by their name, all the liberal world, at least, will hope they will fail.

A tariff bill passed. On Saturday night the essential wisdom of the United States succeeded in passing a tariff bill after a very hard struggle kept up until the eleventh hour.

The members of the society for the suppression of blasphemous literature in England, has undertaken a herculean task in which, notwithstanding the useful mission assigned by their name, all the liberal world, at least, will hope they will fail.

The Princess of Wales has taken the trouble to deny the report that she is pregnant. It appears to be a very old story, and it is not likely that it would have been better if it had never come.

The Morning Post of London, England, notices a report from a lecture delivered at Newcastle-on-Tyne by Mr. T. B. Barker, the object of which was to denigrate the fact that congress has been held nearly at the last hour to pass any bill at all may have been a surprise to many people.

TRUIMPH OF THE LIQUOR INTEREST

The democratic majority now in power in the state of New York is reverting much of the temperance legislation of recent years. The Tribune says that a bill has just been introduced into the assembly, under the stimulus of the democratic whip and spur, which has caused the proprietor of every 'sampler-room' from Buffalo to Long Island to hang himself for joy.

New York's circle of 'yags—we dot', mean dogs, but men—will be recruited in a few weeks by the arrival of one William Madden and his protégé, one Charles Mitchell, of Birmingham. The New York authorities take steps to return emigrants of the vagabond and derelict classes who are turned out by the European governments as pests.

The Sherbrooke Gazette says: 'The latest news from Quebec is to the effect that Father Label's private lottery excursion bill has passed the private bills committee and will undoubtedly pass the house of commons. What the legislature got to do to do to obey the mandate of the power, of which the founder of the bill is a member? Well, let us not hear anything more against the immoral practice of lotteries, since the 'chance' which rules this province endorses it.'

The Montreal Gazette evidently looks upon the local affairs of this province as the concern of the whole dominion. So far as Ontario is a component part of the country the whole country is interested in our welfare, but it has nothing to do with our legislature. The Gazette says 'we have redeemed' a certain number of constituents and 'our losses' are so and so.

The principal question just now engaging international attention is will P. J. Sheridan and Frank Byrne be extradited. While the latter has been under arrest for some time in France, the former still peacefully pursues the even tenor of his ways in the office of the Irish World at New York.

The general opinion appears to be that no action will be taken against Sheridan and Byrne. The former is a man of considerable means and is not likely to be extradited. The latter is a man of no means and is not likely to be extradited.

NEVER BE SATISFIED

He never brings things to rest, and is never able to come to her wharves. We think this latter is likely of fulfillment. What with the development of railway monopoly and the financial success of most animals that have been built, it does not seem improbable that Mr. Cepreol's great project to connect Lake Huron and Lake Ontario will yet be realized.

WRECKED HUNTERS

Victims of poverty's indignities or youthful indiscretions and pernicious lottery practices, suffering from premature decay or old age, nervous debility, lack of self-confidence, impaired memory, loss of energy and kindred symptoms, should send for a pamphlet containing full particulars of the 'Whisky Mason' and 'Whisky Mason' and scores of others besides giving six Officers for the field and others getting ready.
