considered by them as an unpatriotic course on his part. A very close contest is expected, but if electors vote on the hanging of Riel or, in deed, upon the National Policy, as their own opinions incline them, the Conservatives repet to win the fight. Never was there so much uncertainty over the termination of a contest as there is over this one. Both parties are putting forth every this one. Both parties are putting forth every this one. Both parties are putting forth every fight to do in the victory. To night one of the largest corollight processions ever witnessed in West Durham took place in honor of Mr. Hinckstock. It was composed of Couservatives from all parts of the riding, accompanied by them as an unpatriotic course on his part. A very close content is expected, but if electors vote on the hanging of Riel or, where it was composed to the opinions incline them, the Conservatives are putting forth every this one. One Mrs. Druse is now lying in the jail of Herkimer County, State of New York, under sentence of death for murder. On Friday the Judiciary Committee of the State Legislature considered a bill for abolishing the death penalty in the case of women, but it was thrown out by a vote of 73 to 29. It is said that this takes away the last chance of the condemned woman, who will shortly be hanged. Some opponents of capital punishment spoke strongly on that side, but the majority thought the other way.

As Mr. Hovenden is still repeating that I refused him promotion I wish once more to state positively, that he was not in my troop, and that it was Col. Dearson, my brother, who commands the G.G.B.G., who refused positively to recommend him as he understood he was an alien, and there were plenty of others—Canadians—whose claims were quite as strong as his.

The Labor Candidates.

Editor World: In the Labor candidates' organ of Friday last I notice this sentence:
"If through any want of organization or lack
of interest among Labor Reformers we should
sustain a repulse, those employers who are would at once conclude that the labor movement was not so strong as they had supposed."

As a Conservative workingman I charge that the Grit clique which brought out the so-called Labor candidates will be responsible for the department of the conservative workingman I charge that the Grit clique which brought out the so-called Labor candidates will be responsible for the department of the conservative workingman I charge that the conservative workingman I charge that the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the conservative workingman I charge that the conservative workingman I charge that the labor movement of the conservative workingman I charge that the labor movement of the conservative workingman I charge that the conser

the Grit clique which brought out the so-called Labor candidates will be responsible for the humiliating position which organized labor will occupy after the elections are over. It will not be denied that every workingman has his preference for either the Conservative of Reform party, and that in order that a Labor candidate may have any reasonable show for success he should be thoroughly independent is politics. It would be all but impossible to find such a man among the workingmen, at least one with brains mough to fully represent them, his fellow-workness, in Parliament. If then, there was no other course left but to select men with party hemings, hy was there not one from each side brought out? The Labor candidates charge the party candidates with being responsible for all the unjust have surp our statute books. Surely, then, we have a right to expect that they will steer clear of everthing that waves of injustice. But let us see how the clique treats fully one-half of their follow-workingmen. Here is a sample of it. I am a Conservative, if I vote for the Labor candidate a Labor vote, it is true, but I do so at the expense of my party vote; while the Reform workingman hor candidates workingman the command the votes of every workingman the results of the contribution workingman the labor candidates, while here candidates a Labor contribution with the Reform workingman man the city, why did they not select one man from each party, and let it be fully understood that they were running as straight party men in the Labor candidates workingman in the city, why did they not select one man from each party, and let it be fully understood that they were running as straight party men in the Labor material to the conservative or Reformer, could have running as straight party men in the Labor material to the conservative or Reformer, could have rulning to the conservative or Reformer, could have rulning the straight party men in the Labor material to the conservative or Reformer, could have rulning the conservative or R

TUESDAY MORNING, FEB. 21. 1837.

The German Government have been negotiating for heavy purchases of grain in America. A steamer which sailed from New York on Saburday carried a lot of samples for an Antwerp firm. Most of the parties concerned, or supposed to be, appeared very anxious to keep the news out of the papers; but Louis T. Merkel, a large New York dealer, said without any hesitation that he was sending samples of oars to Antwerp for the German Government.

He also expected to furnish samples of oars to Antwerp for the German Government.

He also expected to furnish samples of oars for which he was negotiating, but would know anothing to a certainty until after the arrival of his samples at Antwerp. Then he expected to get a cublegram. The negotiations, he thought, indicated war. Germany needed army supplies. She had been depending upon Russia for wheat and oats, but just at present Russia's demand was equal to her supply, and Germany was forced to look to the United Statess as a supply depot. He he obtains the order he will buy the oats in New York and the wheat in Chicago.

Vice-President Van Horne writes to the New York Tribune giving specific denial of seports recently published respecting snow-blockades, handsides, 'dead' engines, and other alleged difficulties on the Canadian Pacific Railway. One report sent from Montreal he characterizes as a falsehood from beginning to end, and he thus continues: 'The Canadian Pacific Railway. One report sent from Montreal to they are running on time. There is not a dead engine on the line and not a foot of it is blocked, nor is there any siloctage of coal. Only one blockade has cocurred during the entire winter, and the greatest delay to any train by that was ninety hours. As the Canadian Pacific train register is open to the imspection of the public, and trains arrive in Montreal to the Pacific very heart of the public, and trains arrive in Montreal to the Pacific terminus, your correspondent can have no pacific train register is open to the imspection of the

As the Capadian Pacific train register is open to the inspection of the public, and trains arrive in Montrest every morning bringing passengers from the Pacific terminus, your correspondent can have no possible accuse for his misstatement. I trust, therefore, that you will give my statement, accompanying this, prominence equal to the false report." The Tribune replies that the accuracy of its correspondent has not before been questioned, but gives V.-P. Van Home the benefit of his emphatric denial.

Now for Gilbert and Sullivan to the front again. The "Ruddigore" company (or one of them) arrived in New York on Friday, and were to have given their opening performance in Gotham last night.

On Friday last a great meeting of railway men was held in New York, the object being to make fares and freight rates barmonize with the new interstate law. Among other roads the Grand Trunk is heavily interested and was represented on the occasion.

What True Merit WIII Do.

The unprecedented sale of Boschee's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the soverest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave fhe disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long spoll of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles.

Eproar.

There is an event coming off in the mear future which will cause a stir and flutter, especially among the ladies of Toronto. A bargain is now being made by Messrs. McKendry & Co., Waterloo House, and almost closed, by which \$20,000 of choice newly imported goods will be thrown upon the market at prices which will undoubtedly cause a pamic among old timers. Look out for the surprise. McKendry's advertisement will appear in a few days. Don't miss it.

Problibition and Politics

Prohibition and Politics.

The anti-liquor question is a strong plank in the political platform, and one safe to lay hold of. All intoxicating beverages are safest when let alone, even in medicine. Burdock Blood Bitters is not a bar beverage, but a strictly pure medicine, reliable for diseases of the stomach, liver, bowels, kidneys and blood, and will not aid in making drunkards. 246
