Worthless Lives Ended To-
gether on the Roadside.

TOOK POISON AND DIED

Tragic End of Two Well-Kno
Toronto Characters.

Robert Macallister and Nellie Why start on a tramp together, the latter dressed in men's clothes, and discovered in the Throat of the Dead near Lake Park - An Inquest opened on the Bodies Adorned Pending a Post-Mortem-Both the Suicides Well-Known to the Police.

Memories of the Middle-road tragedy have been aroused in the little village of Port Credit by the mysterious death on the roadside three miles west of that place of Robert Macallister and Nellie Why, two characters well-known to the city police.

The two were found on the roadside just west of Lorne Park Sunday evening by Dr. Stuart, 197 Spadina-avenue, who was driving eastward from Oakville, where he had been spending the day.

Dr. Stuart, who was accompanied by a friend, saw the pair, whom he thought to be men, lying in a great distress. Walking over to them he found they were both unconscious. He was successful in reviving Macallister for a short period, but not long enough to give any coherent story. The latter, however, spoke of having drunk something and having cramps in the stomach, went to a farm house to obtain something to relieve him. He was given a quantity of electric oil, a portion of which the boy lying beside him still contained. While endeavoring to tell his story, the old man gradually sank and died. His companion, who proved to be a woman in male attire, died ten minutes later.

An Inquest opened. County Constables Sharp and Shaver took possession of the bodies and notified the coroner, Haggis, of Brampton. Every circumstance pointed to death by poisoning. Both suffered intense pain before death, the man's tightly-clasped hands showing that his sufferings were especially severe. Besides the bodies were found, in addition to the bottle containing electric oil, a bottle, the previous contents of which could not be ascertained at the time, and a number of old umbrellas and umbrellas fixings. On the body was found a paper on which were written a number of addresses, some of which are: 104 Adelaide-st., 245 Denison-st., 360 Bloor-st., 232 Chestnut-st., 188 River-st., 240 Adelaide-st., 88 St. George-st., 104 Berkeley, and 140 Ossington-avenue. On a letter-head of A. A. Alexander, hatter, 486 Dundas-st. west, Toronto, was written on this note:

"You miserable little cur-did you ever give any work for that you did not get paid for? I will give you a good lesson with you for your action in this matter." The name of William Garratt, 115 Palmer-st., was attached. The man's hands, which had been given him Saturday evening by a charitable villager remained unopened.

A flask which had contained water and small bag containing a few scraps of bread and meat were also found.

A search of the clothing worn by the woman revealed nothing. The bodies were removed to the morgue, where they were turned into a temporary morgue.

Agreed to Die Together. A thorough enquiry in the neighborhood into the actions of the deceased during the 36 hours immediately preceding their death, leads to the belief that the unfortunate had become tired of existing, and agreeing to die together, procured a quantity of electric oil, of equal quantity of it. Where they got the poison is a mystery. Their first appearance in the neighborhood was at Hamilton-avenue, when they called at Hamilton-avenue, where they were asked for methylened spirits. Messrs. Hamilton and Miller, who were on being so informed, the man asked to be directed to a drugstore. He told them that Cookville was the nearest place at which he could procure the drug.

They called at several village houses, soliciting alms, and about 9:30 stopped at the house of Mrs. Miller, half a mile west of the general store, and were given a drink of water. Mrs. Miller also filled the flask which the man produced from his coat-pocket.

A Dose of Electric Oil. They were not seen again until Sunday evening, about 7 o'clock, when they were called at the house of Samuel Brass, near where they died, and, complaining of severe cramps in the stomach, asked for something to relieve him.

Mr. Brass said: "I will be glad to take anything," said Hamilton.

Five minutes later Alexander Durie and his wife saw the man get over the fence just west of Lorne Park, and stopping over, take the dose of the mysterious liquid, and then he came back at about 10 o'clock, and endeavor to compel her to partake of the contents of a bottle which he held to her lips.

It is thought the poison had been previously taken, but the pain produced being greater than had been anticipated, brought the man to realization of the consequences of their act, and sent him in search of a means of averting them.

That the woman feared death less than he, was shown in her struggles to prevent the man from administering the medicine. Miss Bertie Albertson also found a few moments later saw them in the position in which they were when Mr. Durie drove by.

When the same lady returned from church they were then lying under the fence, having been unable to climb over. She passed close enough to them to hear the man say: "Emma, I am dying." "Oh, my God," returned the woman, who then fell back at about 10 o'clock, and was under the throes of death.

Dr. Haggis, who was called to the scene, immediately after this, Dr. Stuart arrived, and administered the dose of the mysterious liquid, and then he came back at about 10 o'clock, and endeavor to compel her to partake of the contents of a bottle which he held to her lips.

It is thought the poison had been previously taken, but the pain produced being greater than had been anticipated, brought the man to realization of the consequences of their act, and sent him in search of a means of averting them.

Who the Victims Are. The dead man is Robert Hamilton, and built recently he lived at 254 Victoria-street. He was a latter by trade, but had been an umbrella mender and a general tinner. At one time he was employed by Strachan & Kay, hat manufacturers, Esplanade. He was known to the police, having been arrested several times for drunkenness. His brother, William now resides. He has a sister, a Miss Hamilton, who lives in Black

MUST BE BROUGHT BACK.

The Alleged Murderers of David Scollie Must Be Extradited From Florida—An Officer Not Yet Sent

Detective Murray has not yet left for Ocala, Florida, although the extradition papers for the return of Thomas Gray and his wife, Hattie Gray, have been made out. Pending the decision of Acting Premier Hardy, the officer will not start. A despatch was received last evening from the Sheriff of Marion County, stating that he would only hold the accused 10 days from the date of their arrest, and unless Detective Murray leaves for Florida to-day he may lose his quarry, and his work of the past few weeks in unravelling the mystery connected with David Scollie's death may be for naught.

The depictions of Prof. Caves and Primrose, who made a post-mortem examination of the body of the deceased, were taken yesterday before County Magistrate Edmondson of Ocala, at the Attorney-General's office, and were of the strongest character. Both doctors expressed the opinion that the head could not have been completely buried off the old man without the hair on his chest being singed, the underclothing being the trunk of the body showing more signs of the fire than it did.

The condition of the criminal verberal also indicated that the head had been severed by a blow from a sharp instrument, several fractures being discovered.

A VILLAGE WIFE OFF THE MAP.

Kearlville, Wellington County, Falls a Victim to Fire.

Mount Forest, Ont., June 17.—Sunday morning about 10 o'clock, Kearlville, a village seven miles south of here, was swept out by fire. The fire originated in the hotel stables of David Kenney, a village hotelier, and spread, sweeping everything in its course. The store and dwelling were owned by T. O'Donnell, was insured for \$1300, the contents of the store for \$800. No insurance on the hotel stables. Loss estimated at \$12,000.

THE NEW YORK THEATRE BURNED.

New York, June 17.—Shortly after midnight H. R. Jacobs' Third-avenue Theatre was gutted by fire. The loss is estimated at \$100,000. The theatre was built in 1877 by McKee Rankin. Its present owner, H. R. Jacobs, is now in Chicago. Among the property lost was scenery belonging to Mr. James H. Mackay's "Wages of Sin" and "Cellar Door" companies and the Flora Hindley stage train combination. There was a watchman in the building, which was condemned as unsafe some weeks ago. There was not a dollar of insurance on the theatre building.

THIEVES FIRE, THEN LOOT A TOWN.

Greenville, Ohio, June 17.—Fire started at 10:30 last night in the rear of the H. C. Jacobs' Third-avenue Theatre, spreading to the hotel and store, sweeping everything in its course. The store and dwelling were owned by T. O'Donnell, was insured for \$1300, the contents of the store for \$800. No insurance on the hotel stables. Loss estimated at \$12,000.

PETERBORO RESIDENCE IN ASHES.

Peterboro, Ont., June 17.—The residence of G. W. W. Hutton, barrister, was destroyed by fire last night. The building was insured for \$3850.

THOMAS POOLE'S INJURIES WILL PROBABLY RESULT FATAL.

Thomas E. Poole, a married man, 29 years of age, who resides in West Gravenhurst, died yesterday morning at the Toronto hospital, after suffering from a terrible wound in the abdomen, caused by falling from a tree.

Poole had been working in the bush last Saturday morning, and had cut some saplings and was when he slipped and fell upon the stump, which had been given him Saturday evening by a charitable villager remained unopened.

DIED GOING HOME FROM CHURCH.

Charlotteville, P.E.I., June 17.—While driving home from church Sunday evening, where he preached, Henry Smith, local Methodist minister, expired in his carriage.

DROPPED DEAD IN HIS FIANCE'S PRESENCE.

Trenton, Ont., June 17.—John O'Reilly, 28, died in presence of his betrothed last evening. The couple were to be married next month.

HIS FALL AT NUNAGA WAS FATAL.

St. Catharines, June 17.—William Jones, a young colored man, was killed by falling from the bank near the Cantilver Bridge, Niagara Falls, a week ago in an unconscious condition, died on Saturday night.

At the inquest to-day evidence was taken that during the time Jones lay on the ground he was in a state of unconsciousness. "Oh, those knucklers did hurt!" "Don't push me over." From these cries a suspicion of foul play, and the enquiry was adjourned for a week for fuller investigation.

THE WORLD IN THE MARITIME PROVINCES.

Owing to the increased demand for The World in the Maritime Provinces, we have appointed an agent in Westville, N.S., in Mr. Ernest Boehl, who will be glad to furnish descriptions and give other information.

YORK FLOONERS' EXCURSION TO LORNE PARK.

By steamer Tyrone, Yonge-street wharf, 2 o'clock to-day; round trip 25c. All who wish to spend a pleasant afternoon will be well served by the Rev. Dr. Scadding and his associates. An orchestra will accompany the excursion.

SPRUE LOOKING MOSES.

Among the Shipment of Goods Arriving at Howells'. Mr. Howell, the cut-rate shoe man, 246 Yonge-street, struck luck when away on his purchasing tour, as many of the lines are simply chameleons, and at prices that tempt a simpleton's purse. The big store is 246 Yonge-street north of Shuter.

THE NATURAL CASE AND VIGOR OF HEALTH IS MAINTAINED BY GOOD DIGESTION.

Dr. Pratt keeps the digestion right.

ON THE HOLIDAYS.

Have you seen the flannel summer suits at Oak Hall? They are offering the pure goods at \$6, \$7 and \$8 a suit. There is nothing in the market equal to these goods for pleasure-seekers; all sizes in stock, and all the latest designs. They guarantee every garment.

S. J. SHARP OPENS UP AN OFFICE FREIGHT AND PASSENGER AGENT AT 62 LONG-STREET.

Parties who are intending to export or import freight to and from Toronto, take a trip to any part of the globe should give him a call if they are desirous of getting full value for their money. Mr. Sharp has some first-class ocean lines. For full particulars apply to 82 Yonge-street, four doors north from King-street, west side. Telephone 500.

ASK FOR DELICIOUS "HAINES" TONIC.

See them in the South Window. Price \$10. Quality—Donagel's home-grown. Article—Coat and pants to order. Where—Waterson's, 126 Yonge-street.

PROHIBITION VOTE SHELVED.

PENDING A DECISION ON THE QUESTION OF JURISDICTION.

Mr. Flint Seeks the Opinion of the House, But Mr. Guillett's Amendment Carries—Prime Minister's Annual Field Day—Speaker's Ferventness to Prevent Questions Going to the Order Paper.

Ottawa, June 17.—The growing practice of loading down the order paper with questions which have no present value and put on simply as a matter of record, was referred to in the House today, but Mr. Speaker had to candidly admit that he was powerless to stop the evil. The climax of absurdity was reached to-night, when Dr. MacDonald of Huron filed the entire list of accounts incurred in connection with Sir John Thompson's funeral. They make 65 pages, typewritten, and all that the Doctor wants to know is if the accounts have been paid, and if not, what is the cause of the delay.

The Prime Minister's annual field day this afternoon, and this evening the prohibition question was disposed of.

None of the speeches were lengthy; except Mr. Flint's, and finally Mr. Guillett's motion, staying over a pronouncement, was adopted on a close vote.

GENERAL EXPENSES QUESTIONED.

Mr. Rider, at the opening of the House, asked: Have the accounts and vouchers been received covering all expenses authorized by the Government in connection with the funeral of the late Sir John Thompson. If so, what is the amount? Mr. Oulmet: Yes; \$33,470.

Mr. Rider asked: Have any claims been presented for expenses of any kind in connection therewith which were not authorized by the Government?

Mr. Oulmet: No; all the bills for which accounts were presented were authorized, but the prices were not in all cases reasonable, and sometimes the cases have been made, which will bring the total to the amount of the vote, \$25,000.

MR. COCKBURN'S BILLS NOT EXCITING.

Mr. Cockburn asked whether the Government had the accounts current of George R. Cockburn, M.P., Canadian Commissioner at the Chicago Exhibition, examined, and if so, were they found correct, and have they been paid in full, and if so, what is the amount? The accounts, he said, were not examined in extenso, and occupied half a dozen pages of the order paper.

Hon. Mr. Montague: Mr. George R. Cockburn was appointed Canadian Commissioner at the World's Fair by order of council. He was given a salary, he gave his time gratuitously, but the Dominion Government paid his living expenses. His bills were submitted to the Executive Commissioner and were properly examined by the department. There were some small items in the bill as at first made out which did not properly come under the head of living expenses, and these were deducted from the main account by Mr. Cockburn himself and paid out of his own pocket. The bills were sent in by the Executive Commissioner, and were not examined by the department.

INTERNATIONAL ATHLETICS.

Challenge of Oxford and Cambridge to Yale and Harvard.

London, June 17.—Following are the challenges sent by the Oxford and Cambridge University Athletic Clubs to the Yale and Harvard clubs, which are on their way to America by mail, and should reach New York by the steamer Germanic on June 20. An identical challenge was sent to each of the American Universities.

"Hertford College, Oxford, June 10.—To the Captain of the Yale and Harvard Athletic Association, Dear Sir:—A joint committee of the Oxford University Athletic Club and the Cambridge University Athletic Club, at a conference held at Oxford, resolved to send a challenge to the Universities of Yale and Harvard, inviting them to participate in an athletic competition to take place in America at some date in the autumn, as may mutually be agreed upon. The committee considered the possibility of sending a joint team in the middle of July, but on going into the question found it would not be practicable, because some of the best athletes would be unable to leave England at that time, being detained by examinations. While the American Universities already engaged themselves to take part in the forthcoming competition of the British Athletic Club, the New York Athletic Club, who were not prepared to go to America in July, and also in September, you will see, therefore, that our only course was to suggest to you an autumn meeting, which may come before or after the fixtures already agreed upon between the London Athletic Club and the New York Athletic Club, as may hereafter be deemed best, and we send challenge subject to all the preliminary conditions being satisfactorily arranged. We would suggest that the program contain the following events:

Flat races: 110 yards dash, 1-4 mile run, 1-2 mile run, 1 mile run and three mile run.
Hurdle races: 120 yards, one according to English rules and one according to American rules.
High jump, long jump, hammer throwing and weight putting.
We shall be glad to be favored with your reply at your earliest convenience, as all arrangements have to be concluded before the end of the term of the year. W. J. Oakley, President of the Oxford University Athletic Club; F. S. Horan, President of the Cambridge University Athletic Club.

Pigeons Flew From Gananogue.

The sixth race on the schedule of the Ontario branch, D.M.P.A., was flown on Saturday. The race was from Gananogue, 182 miles east of Toronto, for Toronto members, and Ernestown, 183 miles east of Hamilton, for Hamilton members. The old flying records from the different liberating stations have been completely wiped out this season, and Saturday's race knocked another one out. Six to seven hours used to be looked upon as good flying from a distance of 182 miles, but this time it was reduced to five hours and seven minutes.

Mr. Chapman of Gananogue acted as starter for Toronto, and Mr. Groves of Ernestown for Hamilton. Everything was in favor of the pigeons, as regards wind and weather. The birds were liberators in flying a pigeon race. Following is a list of owners and pigeons engaged in the competition:
J. Gairdner, Jr., Blue Bee and Jimmy Junior, H. England's Richmond, C. F. King's Tiny Tim, A. Cooke's Heart, H. England's King, J. Gairdner, Jr., Graybird and George II., A. Cooke's Dusk Jean, J. Turley's Mayflower and Charles's Beauty. H. England's Nana, S. Burlett's Maud S. and Nonpareil, H. England's Ivanhoe and H. England's J. Gairdner, Jr., Honest Tommy, Lyrrish Lass, Lord Gillycock, Toronto Harry, R. Sparrow's Silver Jim, A. Harris's Grunter and Duke.
Messrs. England, Sparrow and Campbell had a fly from Kingston on Saturday. Major Cameron acted as liberator. The English's second season's flight carried home a despatch from a member of Major Cameron's family in Kingston to a young lady friend in Peterborough. This makes the second message that Lexow has brought safely home this season. Mr. Sparrow's pigeon also brought a message safely home. Pigeon fanciers having in their possession the following handbills: K498, F213, and the other bird was timed in at 4:18, thus making the flight in 7 hours and 53 minutes. Although the time made was a fast, it was on the whole satisfactory. The following table shows the results:
William Wallwork's Lady Dark . . . 7:53.00
George Carter's Red Hussar . . . 7:58.00
William Wallwork's Bizar . . . 7:59.20
Charles Beale's Prince Charles . . . 8:01.10
William Garnett's Surrey . . . 8:27.00

Canadian Junior Championship.

The second annual tournament for the Canadian lawn tennis junior championship of Canada will be held at the grounds of the Canadian Club on Monday, July 1, and following days, commencing at 10:30 a.m. The tournament will be open to boys of 18 years or under residing in Canada or attending a Canadian school or college. Entries only will be played. The winner of the all-comers' prize will be called upon to play Mr. N. S. Robertson of the Upper Canada College Lawn Tennis Club for the challenge gold medal, representing the junior championship of Canada. This medal becomes the property of the player winning it in two consecutive years.

Public School Lacrosse.

The Girls' Lacrosse Club won their league match with the Dufferins on Saturday by defeating them 2 to 0. The clubs in the Public School League are as follows: Girls won 2 to 0, Weller's won 1 to 1, Dufferins won 0 to 2.

THE OTTAWA CRICKETERS WIN OVER THE TRACK AT WALTHAM.

A SURPRISE FOR TORONTO ON THE NEW FAIRBANKS CRACKER.

Visitors Score a Victory by 177 Runs to 121.

J. P. Turtan Hits up 44, Wadsworth 38, McMurtry 28 and Hulse Collins 21.

The Capital Eleven at Rosedale To-day.

Ottawa cricketers furnished a surprise on the new Fairbank's wicket yesterday, defeating the Toronto club by 177 runs to 121. The crass played splendidly, as is shown by the good individual scores made on the day. J. P. Turtan, E. Turtan, Carter and Culbert did the best batting for the Capitals; Wadsworth, Little, McMurtry, Collins and Rykert made most of Toronto's runs. Score:

The Ottawas play at Rosedale to-day, starting at 11 o'clock.

Midway Wins Two Matches.

The Toronto Colts on Saturday visited St. Catharines and suffered defeat at the hands of Bishop Ridley College by 2 wickets and 24 runs. The Colts' first innings reached the respectable total of 97, of which Reid contributed 45, and in the second innings of the Colts realized 72, of which was only remarkable for the fine form displayed by Reid, who put together 30.

The Colts only made 39 in their second innings, Anderson, an old Kildonian, being responsible for a third of the loss. A not set in at the fall of the fourth wicket for 31, four more wickets falling with the score unaltered. Ridley started to get 65 to win, and in spite of Miller's useful 17, the score was 49 at the fall of the eighth wicket. However, Mr. Mitchell, playing Mr. Williams, the runs obtained with 24 to spare, the two last named batsmen being both out with 26 and 18 respectively to their credit.

At St. Catharines on Saturday.

The Ridley II. defeated St. Thomas II. by 47 runs. In the first innings the St. Thomas scored 18 and in the second 13. Ridley scored 27 and 61.

CRICKET STIPS.

The Halifax cup match between Germantown and Philadelphia was won by Germantown by 46 to 0. Haverford beat Wayne, 142 to 92.

The match played at Napanee between Mr. Hellewell's eleven of Chicago and Napanee resulted as follows: Napanee 44, and Chicago 88.

In the Metropolitan District, Staten Island beat New Jersey, 151 to 146.

Brooklyn beat New York, 105 to 95.

Harlem beat Kings County, 78 to 57.

Brooklyn beat Inglewood, 221 to 36.

Great interest is being taken in England in the cricketing record of Fredrick C. Holland, a youth of 19, who has just turned 123 runs for Surrey in a recent match against Essex.

A performance due more to genuine skill and less to luck, and aided by his youth and his staying powers, it makes him a promising successor of the veteran Dr. Grace.

Pale, puny children are wonderfully helped by the use of Ayer's Sarsaparilla, 267

Established 1843.

INTERESTING TO MEN.

GUINANE BROS. THE SOLE AGENTS IN TORONTO FOR THE NEW CELEBRATED "SLATER" STAMPED BOOTS.

In Agreement Entered Into Between the Two Firms. The Boots Will Seriously Affect the Ordered Trade of the City.

After careful and mature consideration Guinane Bros. have entered into an agreement with G. T. Slater & Sons of Montreal to control the "Slater" stamped boots for Toronto. Gentlemen will then be suited in every style, width and shape of boot or shoe made and have a guarantee that they are paying the lowest possible price and purchasing the most reliable shoes manufactured.

The ordered boot trade of the city will no doubt suffer, as there will be no further necessity for it. The broadest and surest foot can secure comfort and style, without the annoyance of waiting for shoes ordered and of frequently taking an ill-fitting pair rather than take them on the makers' hands.

Guinane Bros. have long desired to please before the gentlemen of Toronto, young and old, as fine boots and shoes, as the large and American retail stores in stock-boots that they could guarantee to fit and wear, and that would combine style and comfort for all ages of feet. Such boots they have secured and the terms of their agreement with G. T. Slater & Sons warrant them in stating that before another year the "Slater" stamped boot will have displaced all makes of \$3, \$4 and \$5 boots in Toronto.

There can be no question that this enterprising firm, having sole control of the Hatton & Co., London, England, boots ranging from \$3 to \$5, should do the shoe trade of the city.

The "Slater" stock will not arrive for some time, and during this interval Guinane Bros. are going to dispose of all their \$3, \$4 and \$5 boots at clearing prices. Now is the opportune time for anyone desiring a pair of fine boots to visit Guinane Bros., 212 Yonge-st., who, by their indomitable energy and enterprise, have established the largest shoe business in Canada.

THE KIEL CANAL.

Warships Gathering for the Opening Ceremonies on Friday—Fears for the Banks Caving In.

Berlin, June 17.—The coming gales at Kiel, where it is expected that the Baltic and North Sea Canal are the principal topic of interest at present, all other questions being relegated to the rear for the time being.

The celebration may be said to begin on Friday next, when it is expected that not less than 27,000 sailors will be assembled on the German and foreign warships that are to be present on the occasion. There will be 22 German warships anchored at Kiel, having on board 11,000 sailors, and the visiting vessels are said to carry 10,000 hands in round numbers. The United States squadron arrived at Kiel yesterday, and salutes were exchanged with the guns of Friedrichsloft.

Several floating postoffices will lie among the warships, and a fleet of pleasure yachts will be engaged in service. The press steamer will not be in the procession, and the newspaper reports are that the arrangements made on their behalf.

One of the contracts made with a Hamburg firm for providing the foreign crews calls for a daily supply of 14 tons of fresh meat, 2000 bottles of wine, 2000 bottles of beer, 10,000 bottles of beer, 6000 gallons of milk in barrels and 1000 gallons of milk. This is in addition to the regular ration of the crews.

Sir Donald Currie, with Mr. Gladstone on board, gave a dinner on his steamer yesterday. The four warships, which were exchanged, The Tullio Castle has started for Kiel. The sister port is crowded with visitors, and the warships are the principal point of interest. The Duke of York, who will represent the Queen, left London today for Kiel. Engineers fear that the banks of the canal may cave in during the passage of the immense warships.

Harlem Ship Canal Opened.
New York, June 17.—The Harlem Ship Canal was opened today with much jubilation. A flotilla of 200 vessels entered the canal, and there was a land parade. The day is a civic holiday. The canal joins the Hudson and East Rivers and shortens the route from the Hudson to Long Island by 12 miles. It is six miles long, nine feet deep and fifty wide. Eveningly it will be widened to 350 feet and deepened to 18 ft. Cost \$25,000,000.

French and German Fleets to Meet.
Paris, June 17.—It is reported that the French and German fleets will meet off the southern coast of Denmark and go to Kiel together.

Out of Sorts.—Symptoms, Headache, loss of appetite, feverishness and general disposition. These symptoms, if neglected, develop into a land parade. The trite saying that an "ounce of prevention is worth a pound of cure" is a little at this point may save trouble. For a complaint take from two to three of Parke's Vegetable Pills on going to bed, and one or two in the morning, in succession and a cure will be effected.

Earthquake in Mozambique.
Zanzibar, June 17.—Six shocks of earthquake were felt at Zanzibar on Thursday. Doing considerable damage to buildings. Several mosques were among the structures injured. There were no fatalities.

SIR CHARLES WILSON.

Career of the New President of the Grand Trunk Railway.

The new president of the Grand Trunk Railway, Sir Charles Wilson, is a very distinguished English financier, and will no doubt do much in the way of putting the finances of the railway on a sound footing. Sir Charles was born in 1831, and commenced his public career as a clerk in the Treasury. He acted as private secretary to Mr. Disraeli when Chancellor of the Exchequer in 1867-8, and in the same capacity to Mr. Lowe a few years later. He was appointed Controller-General of the National Debt Office in 1873, and represented Great Britain at the International Coinage Commission in 1887. In 1891 he did valuable service in examining and placing the finances of the country on a sound basis, and has since 1879 been one of the British Government administrators of the Suez Canal.

Canal. Sir Charles Wilson was appointed a Royal Commissioner for the negotiation of a treaty of commerce with France. Last year he devoted four months to the inspection of the Central Pacific Railway, on the affairs of which company he issued an elaborate report. Mr. Joseph Price, the new Vice-President of the company, is a secretary and treasurer, and afterwards acted as general manager until 1875, when he returned to England. After recovering from a serious illness, he was prominently engaged in reorganizing the New York, Ontario & Western Railway, of which company he is a director and vice-president. He is a director of the Quebec Central Railway, and has been actively connected with many of the reorganizing schemes of American and Canadian railways during the past twelve years.

Earthquakes and Etiquette.
A curious evolution of manners and customs, says the Naples correspondent of the London Daily News, has resulted from the earthquakes in Calabria. In the little town of Gioia Tauro, which still has a wretched aspect, the well-to-do families are obliged to remain in temporary huts. Now, in Gioia Tauro the young ladies are charged with the duty of remaining in the huts, and are obliged to dwell in the incommensurate wooden huts, it has become necessary to give more liberty to the girls, who have made the utmost use of their freedom, and in the exquisite spring weather, may be seen running merrily out of doors at any moment, without hat or bonnet, or taking long walks through the wild rose shrubs among the hawthorn blossoms.

The flowers that bloom in that favored climate. Having once tasted these delights it is to be supposed that the young girls will not readily give them up when their native town is restored to prosperity, and that they will run out of doors as readily as they have done out of the wooden huts.

Well Disposition.
Heavy rains are apt to contaminate wells and spread disease, hence Dr. Franck has brought under the notice of the Polytechnic Society of Berlin a means of disinfecting wells, which he employs with success. It consists in suspending in the mouth of the well an earthenware dish containing 50 to 100 grammes (a gramme is about 15 grains) of bromine, which, being volatile in air, forms a dense vapor that fills the well, and is absorbed by the water, thus disinfecting it. The water, it is true, has a slight taste of bromine for a time, but is wholesome enough.

Count Tolstoi Ridding a Wheel.
Though now in his seventies, Count Tolstoi has become an enthusiastic bicyclist. The wheel he rides is of an improved French make, and perhaps the best machine that is to be found in Russia, where the bicycle has not penetrated to any great extent as yet. The Russians of St. Petersburg, on the boulevards of which the Count does most of his riding, find the wheel a considerable novelty, and gather in crowds to watch him. He rides in what might be called an English shooting costume, consisting of a short jacket and knee pants. His shoes are not rubber soled, but of rather a clumsy pattern.

Dainty Whole-Wheat Gems.
A tested receipt for whole wheat gems calls for two cups of the flour mixed with a teaspoonful of salt and two teaspoonfuls of sugar. Separate the whites and yolks of two eggs, beat the yolks light and add a cup of sweet milk, a little at a time, beating all the while. Stir this mixture into the flour, and when smooth and light add a cupful of lukewarm water. Beat the whites to a stiff froth and add to the batter; fold them in lightly and quickly, and turn into hot gem pans that have been thoroughly greased. Bake in a quick oven from twenty to twenty-five minutes.

His Logic.
Boy—Mamma, who is that with the short hair and divided skirts and glasses on?
Mother—Hush, son; that's the new woman.
Boy—Oh, mamma, what a fib! She ain't no new woman. She's older than grandma.

Victoria Park.
J. Monaghan of River-street, city, for attempting to start a row at the park on Saturday evening, was promptly taken to the gates by the constable there. Returning about 15 minutes later and still of the same mind he was arrested by Constable Booth and placed under restraint until the visitors of the day had left, when he was released with charge of being drunk and disorderly against him. Magistrate Richardson will sit on the case on Tuesday evening.

WAS ALMOST LOST.

A LADY WHO DREADED INSANITY! TERRIBLE SUFFERINGS FROM A COMPLICATION OF TROUBLES.

Paine's Celery Compound Effects a Complete Cure.

Note well the list of terrible troubles that brought Mrs. A. Legault of St. Andrew, Quebec, to the verge of the grave; headache, sleeplessness, nervous prostration and loss of memory. My case was a bad one, I would have been a lost woman had I continued six months longer in suffering. There are thousands of women in Canada who suffer every day from the same life-destroying troubles, who can be cured by Paine's Celery Compound, which will reach the seat of trouble and effect a cure. Nerve troubles and diseases of the brain and character yield at once to the virtues and power of nature's great medicine. When positive proof is produced regarding the efficacy of Paine's Celery Compound it is suicidal and foolish to experiment with unknown and deceptive medicines.

Mrs. Legault, who particularly desired to benefit women, writes as follows: "I cannot help telling all sufferers what Paine's Celery Compound has done for me. I would have been a lost woman had I continued six months longer in suffering. There are thousands of women in Canada who suffer every day from the same life-destroying troubles, who can be cured by Paine's Celery Compound, which will reach the seat of trouble and effect a cure. Nerve troubles and diseases of the brain and character yield at once to the virtues and power of nature's great medicine. When positive proof is produced regarding the efficacy of Paine's Celery Compound it is suicidal and foolish to experiment with unknown and deceptive medicines."

SARDINE FISHING.

The Process From the Time of the Catch to the Can and the Cooking.

The sardine fishing along the coast of Brittany is now in full swing. Towards the end of April the fishermen begin to watch for the bubbling of the sardines on the surface of the sea. For they know that vast shoals of the little fish are on their way from the coast of Africa up through the Bay of Biscay to the north, and that they must be caught, if at all, as they pass. When any one sees the water agitated and spreads rapidly, and the boats put out from the shore and race to the shoal. When the net is extended the water is "baited" by throwing balls of "rouge" into it. As the bait dissolves and sinks the sardines rise and remain long to nibble it, and their doom is sealed. For this reason "rouge" is a most important part of the sardine fisherman's outfit. It is made of the eggs of mackerel and codfish mixed with clay, and is rather expensive, costing from twenty-five shillings to seventy shillings a barrel. Within the curing factories or canneries everything is haste and confusion, for there must not be a moment's delay in cleaning the fish. All night long the water agitated and by the light of blazing oil wicks, the sardines are on benches or tables, where salt is dusted over them. Then the women go along and strip of the heads with great scissors. The little flat boxes so well-known to commerce, are taken one by one and filled from the glistening pile of fish, after which pure olive oil from the Province of Bari, in Italy, is poured over them and the tops soldered on. In the morning a great cauldron of hot water has been raised to the boiling point ready for the real operation of cooking the fish. The sealed boxes are thrown into it and left for two or three hours. If any oil appears on the top of the water the master workman knows that some can has not been properly soldered and the loss is charged up to the man who did the work. A good workman will not lose more than two or three boxes in a hundred.
