## DUKE'S RECEPTION BRILLIANT SOCIAL EVENT

First "Drawing-room" Under  
New Regime Attracted  
Elite of Canada, Including  
Many Prominent Toron-  
tonians—Duke and Duch-  
ess With Attendants Made  
Imposing Procession.

OTTAWA, Nov. 19.—(Staff Special.)—The most splendid pageant in Canada's social history took place here on Saturday evening, when the first drawing room of the royal régime attracted all the leading society and near-society people in the Dominion to the capital. The women were in a subdued state of excitement all day and the drawing room was the only subject of conversation. Ostrich feathers were at a premium and every wax figure in the drygoods windows displayed a different mode of wearing the same, while a leading stationer who advertised the correct card on which to present your humble name to the A.D.C. was besieged with customers.

At the Russell, where Toronto people were gathered in full force, dressmakers and florists' boxes were rushing in all day, and the rumor that some expected bouquets were wrecked in the train from Toronto cast a gloom over the whole hotel.

Before the Presentation.  
In the evening carriages to convey the nervous fair ones to Parliament Hill began arriving before 7 o'clock, and women wearing their best gowns, with feathers and veils at every imaginable angle, and accompanied by sheepish-looking men, scurried from the elevator to the door. Every window in the house was brilliantly lighted and the quaint red and gold sleds with their twinkling lamps, made a lovely picture winding slowly up the snowy drive to the various doors, where an icy wind played havoc with the veils and carefully coiffed heads. In the senate chamber the only people privileged to enjoy the spectacle in its entirety, and without many hours of standing in the crowd, were the officers' wives and the press women, for whom the entire end of the gallery opposite the throne was reserved. All these seats were filled by 7:30, soon after which the guard of officers straggled in and took their places from the brass rail at the door to the steps of the chitron and gold throne.

Entrance of Royalty.  
A little before 9 o'clock two or three bars of "God Save the King" announced the arrival of the duke and duchess, the band ceasing as they entered the room and proceeded to their seats in a dead silence, broken only by the clanking of necks and squeaks of curiosity from the gallery. Her royal highness' dress was of cloth of gold, brocaded with flowers and softened with folds of malles at the décolletage. She wore a magnificent high tulle, necklace and a number of ornaments, all of diamonds, also the following orders: Ribon and Order Victoria and Albert, King Edward's Family Order, King George's Family Order, St. John of Jerusalem and the Crown of India.

The court train, three and a half yards long, was of stiff gold brocade woven in a conventional pattern of flowers and foliage in rich metallic shades; this train had a foot-wide border composed of whole skins of Hudson Bay sable and a cord and tassels made of the same fur, caught up on the shoulder; the costume was completed by a pair of silver slippers made on the long that Emili h last, hideous to Canadian eyes. Two little pages, Lawrence Sladen and Edgus Sherwood, carried the train and were wearing crimson coats, white knee breeches, silk stockings and black shoes with steel buckles. Immediately behind T. R. H. walked Miss Pelly, the pretty lady-in-waiting, wearing a white satin and cloth of gold gown with rose nixon tunic, embroidered with white silk and trimmed with fringe, diamond ornaments and gold slippers. She also wore the following orders: Coronation medal, opening of the Union Parliament of South Africa, St. John of Jerusalem, and Her Royal Highness' Initials in Diamonds.

The Presentations.  
Col. Sherwood, with an A.D.C. took his stand at the lower end of the hall, and next to the throne, study Col. Lowther had his post beside a huge waste paper basket, into which he threw the cards after announcing each name. The lieutenant-governor of Ontario, his family, the premier and Mrs. Borden, the cabinet ministers and their

## DEBATE STARTS TO-DAY.

OTTAWA, Nov. 19.—(Special.)—The debate on the address in reply to the speech from the throne will begin to-morrow. The reply will be moved by R. B. Bennett of Calgary, seconded in French by Arthur Savigny of Dorchester. The debate may not be of long duration, although rumors of some sort of amendment on the subject of the navy have been floating about. The Liberals have not yet met in caucus and have not formally subscribed to a line of policy to be followed in the debate. A ministerial caucus will be held on Tuesday.

## TRUCE ARRANGED IN LONGSHOREMEN'S STRIKE

Intervention by Government Has  
Patched Up Trouble, But  
End is Not Yet.

MONTREAL, Nov. 19.—To-morrow morning, it is expected, the majority of 1800 longshoremen who quit work on Friday, will return to work on practically the same terms that obtained before the strike, and the loading and unloading of ships that have been held up for the past 48 hours will go on with a rush, as any one of the 16 ships now in port is anxious to get away this week.

The settlement of the difficulties between the syndicate longshoremen and the Shipping Federation was brought about by officials of the department of labor, Messrs. Victor Dubreuil, fair wage officer, and Gerald Brown, assistant deputy minister of labor, who were despatched to Montreal by Minister Crothers, in answer to an appeal from the shipping companies.

Major George W. Stephens, president of the harbor board, also returned hurriedly from a trip to New York, to hear of the settlement. Both sides seemed satisfied with the agreement, and it is assumed there will be no hitch in signing the agreement to-morrow.

May Strike Again.  
The longshoremen, at a meeting this afternoon, put themselves on record to the effect that unless the document was signed by noon to-morrow by the federation, by every shipping company outside the federation as well they would go on strike again at 1 o'clock.

Full details of the agreement were withheld, but it is known that the men did not hold out for the increase in pay first demanded, and are returning to work at the old rate, 30 cents per hour (day) and 35 cents per hour (night). The conditions under which the men work, however, will be considerably ameliorated.

All day Saturday the held-up liners made the best shift they could to get cargo aboard. The stewards and crews were worked as longshoremen, and a number of Italians were taken on to work. There was no disorder.

Out Celebrating.  
The agreement was that the men return to work at 7 o'clock last night, and about 100 of them turned up. Most of the others had held a celebration with their Saturday pay, and even today a large number were still absent from duty. The men have ratified the agreement, but it could not be signed to-day, being Sunday.

Five ships managed, however, to complete their cargoes, despite the absence of most of the longshoremen, the Lake Manitoba, Teutonic, Inishowen Head, Raigla, and Ansonia, with the aid of their crews, completing the work of loading. The two former got away yesterday, the next two to-day, and the last named sails to-morrow at daylight.

## ANOTHER BODY RECOVERED.

QUEBEC, Que., Nov. 19.—Little further details of the disaster to the Norwegian bark Antigua at Martin River have been received beyond the fact that one more body was picked up on Saturday at River Claude, Messoulis, just below Martin River.

Owing to the severe weather in the Lower St. Lawrence communication with Martin River has been extremely difficult.

## Fire Puts Lights Out.

HERVEY JUNCTION, Que., Nov. 19.—Fire in the mill of the Quebec and St. Maurice Industrial Co. last night did damage to the extent of \$15,000. The town of L'Esperance is now without light. The fire started with a short circuit, owing to the crossing of electric wires.

## LABOR OBJECTS TO SOCIALISTS

Disturbers With Atheistic Lean-  
ings Advance Views at Labor  
Temple That Meet With  
Strong Disapproval.

A general invitation to the meetings of the Independent Labor Party had disastrous results yesterday afternoon. Three members of a particularly obnoxious brand of Socialists took advantage of the invitation, but on arriving expressed themselves as being at variance with the Labor party on the subject of Christianity. Avowing themselves as anarchists and atheists they requested the labor organization to enter some socialistic planks in their platform, but this party refused to do so.

William Gibbons claimed that trades unionism had been working for the uplift of the working man, and incidentally for the spread of Christianity. Socialism sprang from trades unionism, but this branch was now decadent. Whenever the Independent Labor Party have attempted to do anything, the socialists have got out and knocked, he declared.

He asked the Socialist Party to come in and work in harmony with the Independent Labor Party. Technicalities alone have caused the split between the two parties.

Declared Socialist a Fakir.  
Charles Watson, one of the most heated of the disturbers, was especially outspoken in his denunciation of Christianity. "Down with Christianity" was his plank. He wanted to know if the platform of the party was based on the principles of Christianity, and when informed that it was, declared that he would do nothing to support it.

"That man is a fakir," declared Joe Gibbons. "He purports to be a socialist, but he is not. He is too miserable to pay his dues to the socialist party. There are socialists in this city who are good socialists, and men, but this man is not one of them. He is working for the Street Railway Company, and while he takes the wages, which have been won by the union for the men, he refuses to pay dues to the union, and declares that we have never done anything for him."

"You're a liar," shouted Watson, but the chair rattled him down.

Warmly Denounced.  
"He is working for the overthrow of Christianity," continued Mr. Gibbons. "There is not a single pure thought in his mind. He has a smile for every prostitute in the street."

"We will welcome all in our party," declared James Richards, one of the candidates in North Toronto, "who are willing to work in harmony with us. But we do not wish any one in our meetings who attacks religion. We owe to Christianity all of the liberties that we have to-day, and for my part I do not propose to sit here and listen to Christianity being scoffed at, as it has been this afternoon. The a humble and erring one, I am a follower of the Nazarene."

"We are striving to raise the workers and we are willing to reach down and start at the bottom, and work up until we have achieved our end. We are trying to do it by a process of evolution, and that is the only process by which we can accomplish anything."

In moving that the disturbers be ejected H. B. Woodrow called them a "bunch of anarchists."

The discussion ended in Charles Watson, J. J. Sullivan and C. C. Wilkes walking out.

## LUTHERAN PASTOR'S SUDDEN DEATH.

BERLIN, Ont., Nov. 19.—(Special.)—At Elmira the death occurred from heart failure of Rev. A. R. Schultz, for the past 24 years pastor of the Evangelical Lutheran Church in that village.

He was apparently in good health, and was in attendance at the Waterloo County Children's Aid Society meeting here on Tuesday last. He is survived by his widow and two sons, Rev. A. Schultz, Tonawanda, N.Y., and Dr. Schultz. The funeral will be held on Wednesday.

Gordon Graham and his wife, formerly of this city, were found dead in their bathroom at 272 Randolph-street, Memphis, Tenn. Mr. Graham was the Memphis agent of the Toronto Sanitary Company, and was the son of William Graham, 123 West Bloor-street, Toronto; brother of Miss Grace Graham, 65 West Queen-street, and Mrs. Malcolm Grey, Nanton Apartments, Rosedale.

The telegram did not state by what means Mr. and Mrs. Gordon came to their death. It is believed that they were in good circumstances financially.

Former Toronto People Die Mysteriously.

## IMPAIRED DIGESTION

THE GOAT: No use talkin', I can't swaller things like them any more.

## ONTARIO LIBERALS MAY ADOPT "VOTES FOR WOMEN" AS POLICY

N. W. Rowell Says at Drum-  
bo Meeting That Party is  
Considering Issue and Will  
Take Stand on it—Premier's  
Alleged Autocratic  
Rule Vigorously Ham-  
pered.

DRUMBO, Ont., Nov. 19.—"Votes for Women" was discussed by N. W. Rowell, K.C., the new Liberal leader, before an audience partly composed of women here to-night. He made a stand on the question, saying it was a matter that was being considered by statesmen the world over and that it would in time come. He promised to bring the subject before his colleagues at the coming session of the legislature with the object of formulating a policy on it.

Mr. Rowell also outlined more fully his attitude on the trust question, saying it was time the government took steps to prevent Ontario from reaching the stage of thralldom to the trusts that the United States is now in.

In the afternoon at Platteville he declared that the liquor law was being administered corruptly in Ontario. "The time has come when political influence must be eliminated from the administration of the liquor law," he said.

E. W. Nesbitt, M.P., declared that Sir James Whitney was a dictator and the reason was probably that he had been too successful. Mr. Nesbitt also charged the government with favoritism in the running of the Timiskaming and Northern Ontario Railway.

Issue That Looms.  
"I am not here to-night to make an announcement on the question of votes for women," said Mr. Rowell, "and I am not in a position to say that the Liberal party will champion it at the coming session. But it is a question that is forcing itself on thoughtful statesmen all the world over. It is a question that is coming rapidly to the front. Over in England it is engaging the attention of the leaders on both sides."

"Perhaps it is not out of place to look forward to the time when women will enjoy the franchise. The question is one which public men must consider in the near future."

"When the Liberal members meet in the coming legislature I hope we will be able to reach a conclusion on the question of votes for women that will be satisfactory," said Mr. Rowell.

The meeting was held in the town hall and there were about 250 present.

Mr. Premier Ultra-Conservative.  
Nesbitt spoke before Mr. Rowell. "I have no particular complaint against the present government," he said. "But the premier has tended toward being a dictator. He has also been too conservative. That will not do for the world is marching on." Then

## BONAR LAW GIVES UNIONISTS COURAGE

New Leader Will Substitute  
Aggressive Criticism for  
Smooth Balfourian Amenities,  
and Asquith Cabinet  
Will Be Severely Harassed  
—Internal Dissension Weak-  
ening to Government.

NEW YORK, Nov. 19.—A special cable to The Tribune from London, Encl., says:

A complete restoration of confidence is the direct result of the Unionist change of leadership. Faction has disappeared, and the old fighting spirit has been regained. Mr. Bonar Law's speeches in Yorkshire have been direct, practical and businesslike and not above the heads of his audience. Everyone knows precisely where he stands on tariff and other questions. There are neither evasions nor subtleties, and there is nothing for him to explain away.

The force of his strenuous personality has not yet been fully felt in the house of commons, but there is a general belief on both sides that Balfourian amenities have been definitely discarded and that ministers will be fought and harassed at every turn.

Canadians are coming forward for hazardous canvasses, by-elections are welcomed for the chances they afford of dividing the coalition forces, and there is a marked revival of party feeling.

Has Scotch Canniness.  
Caution is an important element of Mr. Law's very Scotch outfit for effective leadership, and thus it is not yet clear whether the Ulster campaign of passive resistance to home rule by declining to pay taxes will be encouraged nor even whether the lords are expected to hang up the assurance bill and force the government to reintroduce it next year, but it is plain that a hard and fast line will not be drawn against the free traders, and it is probable that Mr. Balfour's pledge that the referendum shall apply to tariff reform will not be repudiated.

Friction With Laborites.  
There are signs of increasing irritability on the coalition side. While the strike of railway men's and coal miners' strikes before Christmas have diminished, the Labor members are discontented and critical, and are threatening to put up their candidates wherever they like at the next general election. The insurance bill is not popular among workers and householders. The

## CHINA'S PREMIER FACES DILEMMA

Urged to Compel Abdication of  
Throne, He Appears to In-  
cline to Manchus—  
Massing Troops at  
Nanking.

PEKIN, Nov. 19.—Demands for the throne's abdication are crowding upon Premier Yuan Shi Kai, who doubtless will be forced to make a decision within a week. It seems to be a case of fight or ask the court to depart from the capital. Every suggestion for abdication is accompanied by promises of protection and ample pension.

It is reported to-night that the premier has ordered a renewed attack upon Hanyang and Wuchang. If this is true, it signifies his choice. The government has succeeded in riding the Lanchow troops of both revolutionary generals, Chang Shao-Teung and Lan Tien-Wel. The former is now at Tientsin. The latter, who commanded the third division, has been dismissed and is proceeding southward, not as Yuan Shi Kai's envoy to submit further proposals to Gen. Li, the rebel commander, as previously reported, but to join the rebel forces.

There has been an unexpected display of patriotism during the last day or two. Instead of rivalry among the provinces, there has been evidence of remarkable unanimity in an effort to establish a union government quickly, in order to prevent the dangers from foreign complications.

Americans Quit Nanking.  
Rear Admiral Mearns telegraphs the American legation from Nanking that the American consul, with the archbishops, is about the New Orleans, and that all Americans have left the city with the exception of a few members of the Red Cross. It would be impossible, says the admiral, to protect American property in Nanking, without landing 300 marines prepared to sustain a siege. For this reason he had sent none of his men ashore.

Various efforts to starting negotiations looking to peace have up to the present failed. Yuan Shi Kai's lieutenant, Tasi Ting-Kan, has returned here from a fruitless attempt to negotiate with Gen. Li at Wuchang. The commander of the revolutionaries seems determined not to yield in the slightest degree.

The foreign banks have practically decided to establish a banking committee at Shanghai, as in 1900, to meet the extraordinary conditions and adjust the payments of the indemnity and other claims.

Stands by Constitution.  
An edict published to-day announces that to repress, representing the emperor, will, on Nov. 25, swear before the emperor's tablets in the Ancestral Temple, that he will adhere to the 19 constitutional articles.

It is reported that the imperialists have routed a rebel force of 3000 Hunanese. The rebel casualties, as reported, were 300 and the imperialists' 200.

Unrest in South.  
SHANGHAI, Nov. 19.—The situation in Southern China is becoming more and more serious.

## Mine Explosion Killed 18 Men

Deadly Coal Dust Took Toll in West  
Virginia Colliery—Four En-  
gineers Among Victims.

VIVIAN, W. Va., Nov. 19.—Eighteen men were killed in a coal dust explosion, which occurred to-day in the Bottom Creek Mine of the Bottom Creek Coal Company at this place. Over 150 men were in the mine at the time of the explosion, but all escaped excepting eighteen of twenty-two who were in the explosion zone. Four of these were rescued alive.

Among the men killed were Engineers W. H. Henderson of Rockville, Md.; E. H. Harvey of Philadelphia; Marvin Williams of Keystone, W. Va.; and Charles Brewer of Elkton, W. Va., who were in a party of five, making a semi-annual survey of the mine. Alexander Williams, the fifth engineer, was saved. The others killed were negroes or foreigners.

A Strong Supporting Cast.  
Great as is the interest and awe Frances Starr in her newest triumph, "The Case of Becky," and strong as is the magnetism of David Belasco's name, this most liberal of managers does not rely alone on these factors to satisfy his Toronto admirers when Miss Starr is seen in the new play at the Princess Theatre this week. The supporting cast is one of remarkable strength, including such rare actors as Charles Dalton, Robert Dempster, Albert Brumby, Mary Lawton, Harry C. Brown, and John P. Braw.

MONDAY MORNING, NOV. 20, 1911.

NO JIGGLE-JOGGLE VIADUCT.

When the Bloor-street viaduct is built of concrete in the beautiful proportions designed by the city engineer and approved by the committee of works, it will be the finest example of civic art that we shall have to show visitors to Toronto.

The Globe thinks Mr. Rust cannot have been attending Mr. Mawson's lectures or he would not have recommended a straight concrete viaduct across the Don. We believe any unprejudiced person who heard Mr. Mawson's remarks about the Don valley and his admission that he had only seen it once, felt that his support of the wiggle-waggle scheme of the Guild of Civic Art was purely perfunctory.

The Globe thinks it would be cheaper and better to wiggle-wobble over the Don valley than to go straight, but the Globe really does not regard the expense. It aims at delay, as it has done for several years, with the result of adding about a quarter of a million a year to the necessary expenditure.

And the Guild of Civic Art also declares that there is nothing like a little divergence from the straight course. It is so picturesque and romantic to go crooked, not entirely crooked, of course, but just a few hundred feet off the square.

The estimate, as figured, include the extension of Parliament-street north to meet the new viaduct. "I recommend the direct route," says Mr. Rust, "because I believe that the city needs a street from east to west across its entire width. At present we have none. Queen-st. is nearest to a thru street, but it terminates at Sunny-side. I favor the concrete construction because, while the first cost is greater, maintenance is practically negligible. Steel structures need to be replaced every few years."

VANCOUVER WANTS COMMISSION GOVERNMENT.

Vancouver is applying to the British Columbia Legislature to have its incorporating act amended so as to permit of the establishment of a commission form of government. The bill as drawn provides that the power of the city shall be exercised by a mayor and four commissioners forming the new city council. They are to be subject to the control and direction of the electors at all times by the initiative, referendum and recall. The first election is proposed to be held in January, 1913, when a mayor will be appointed on a two years term and four commissioners, whose regular term will be four years. At the first election, however, the two commissioners polling the lowest number of votes will only hold office for two years, when another election of mayor and two commissioners will take place, and so proceeding every second year thereafter. The mayor and commissioners must devote their entire time to the duties of their office and the regular office hours and hold no other public office. Salaries are proposed of \$10,000 for the mayor and \$7500 for each commissioner.

A special feature of the plan wanted by Vancouver is the method of balloting, which is described as the "Three Choice" or "Selective Principle." In carrying this out the ballot is divided into three columns headed respectively "First Choice," "Second

Choice," and "Third Choice." The elector marks a cross in each column against the candidates or such of the candidates as he desires to have elected in the order of his selection. Candidates receiving a majority of first choice votes for any office shall be elected. If the requisite number are not so elected recourse is had to the second choice votes, which are added to the first choice votes of the candidates not at first elected, and those candidates who by such addition receive a majority or the highest vote are elected. If there still be places not so filled the third choice votes are fallen back upon according to the same rule.

The right of initiative may be exercised on a petition signed by at least 25 per cent. of the total number of votes cast at the preceding election, and the council must, within forty days after its receipt, either pass the bill or resolve to submit it to the electors at a special election to be held within six months of its receipt. The referendum may also be made on a petition signed by a smaller proportion of the electors voting or by the council of its own volition. Substantially the same requirements rule in the case of a petition for recall of the mayor or any of the commissioners. Vancouver is showing an excellent example in desiring to install an efficient business administration. Ontario cities should have power to do this also, and the legislature could not spend time and energy more profitably than in passing a general enabling act on the initiative of the provincial government.

OUR GREAT APPLE SHOW.

The Globe very fairly and frankly admits that orchard culture has not suffered under the Whitney government, in spite of Mr. Rowell's plea that something should be done for the fruit grower and that apple exhibitions be held. The great autumn show of apples in Toronto has for a number of years been one of the big events of provincial rural life. The great show just closed in the St. Lawrence market demonstrates the superiority of Canadian apples to any in the world. The government demonstration farms have been largely responsible for the high standard attained, and the encouragement given by the agricultural department has led to the better understanding and care of orchard resources. The organization of co-operative fruit growers' associations has also been an active agent in the improvement of growing and shipping conditions, and as The Globe states, "to-day there are upwards of forty such associations in all parts of older Ontario where six years ago there were not more than a dozen."

This ought to please Mr. Rowell. Those who saw the wonderful collection of fruit in St. Lawrence Market will not readily forget the impression made of Ontario's resources in this respect. Nine countries displayed special exhibits, and the beauty and quality of the fruit only make it the more regrettable that there is not still more of it. It becomes more difficult in Toronto year by year to get apples except at prices which ten years ago would have been regarded as utterly exorbitant. The best fruit apparently goes to England, and a large shipping business for the Christmas trade is done at \$3.50 a box of about half a bushel. There is an impression in some parts of England that the average Canadian family eats a bushel of apples every day.

MANHOOD SUFFRAGE AND WOMEN'S ENFRANCHISEMENT.

War has been declared by the militant British suffragettes on Mr. Asquith over his announcement that a session of parliament conferring the vote on every adult male in the United Kingdom and abolishing plural voting. This they hold to be a clever move to kill the chances of woman's suffrage. The premier does not propose to include women in the bill, but he promised that it would be introduced in a form leaving it open to the house of commons, if it pleased, to make that extension by amendment. He made it plain, however, that he was personally opposed to the inclusion of women, while willing to implement his undertaking to allow a week or possibly longer for the consideration of the bill.

This latter measure has already been approved by a very large majority of the present house of commons, largely because it embodies a compromise framed to secure the support of those who are not prepared to vote for full enfranchisement. It confers the ownership franchise on spinsters and widows who are qualified, and on married women if they have a qualification separate from that possessed by the husband. Practically, it includes only those women who already vote in town, county and district council elections. The scheme had its advantages from the point of view of expediency, while the principle of household suffrage prevailed in the case of men. It is illogical should manhood suffrage be introduced.

Divided as opinion is on the government bench regarding the enfranchisement of women, there is not much hope that the premier will introduce as his own proposal a manhood suffrage bill extending its terms automatically to include women. But nothing less than this will satisfy the Women's Social

Canada Permanent Mortgage Corporation

Toronto Street, Toronto. Paid-up Capital \$1,000,000. Reserve Fund (surplus) \$500,000. Investments \$1,500,000. EXECUTORS AND TRUSTEES are authorized to invest trust funds in this Corporation's Debentures.

and Political Union. Miss Christabel Fankhurst has declared the government's proposal to be monstrous and an insult to the women of the country, and she has immediately resumed. This may be immediately resumed. This may be immediately resumed. This may be immediately resumed.

It is funny how The Star cannot see straight, or seeing straight cannot speak straight. Will The Star point out where The World has been "declaring its faith in Physician Fyne?"

Could we not have an act of parliament compelling all officials, shareholders and owners of the street railway, from the president down, to use no other means of locomotion besides walking than the street cars? It is absenteeism that spoils the service.

CANADA AND CANADA ARE NOT LIQUOR PARALLELS

Temperance Orator at Massey Hall Declains on Progress of Temperance.

"We used to hear it quoted in favor of the liquor trade that Christ made wine out of the water in Cana of Galilee. What has such a clap-trap comparison got to do with the liquor traffic of to-day, which is sending 5000 human souls in Canada to a drunkard's grave each year?"

Such was the case in the night when Rev. John Coburn summed up a powerful discourse at the Canadian Temperance League meeting in Massey Hall yesterday afternoon. Property Commissioner R. C. Harris occupied the first hour of the evening. "I am an incurable optimist in the cause of temperance reform," said Rev. Mr. Coburn. "The liquor traffic is on the run, and that the abolition of the liquor traffic is a matter of time."

On legislative lines, too, the liquor trade is being condemned. The law of human progress, the speaker showed, was also in favor of abolishing the liquor traffic. "There is no peace to the wicked, said my God," he said, "and to those who are seeking righteousness, there is peace. Let us not expect thru its appointed channel, Christ."

GENERAL CHARGED WITH TREASON.

SAN ANTONIO, Tex., Nov. 18.—Gen. Bernardo Reyes, commander-in-chief of the Mexican army during the regime of former President Diaz, President-elect, returned in San Antonio because he is secure in the southern republic, was arrested late to-day on an indictment returned by the federal grand jury at Laredo, charged with conspiring against a friendly government. The general describes his arrest as "ridiculous."

NATURAL HISTORY.

The regular meeting of the natural history section will be held at the Canadian Institute, 138 College-street, this evening, at 8 o'clock. Dr. M. O. Matte, of the Department of Agriculture, Ottawa, will lecture on "The possibility of improving our Canadian food plants by breeding." Illustrated by lantern slides. The public is cordially invited.

DR. A. W. CHASE'S CATARRH POWDER 25c. Is sent direct to the diseased parts by the improved method of blowing, which is described as the "Three Choice" or "Selective Principle." In carrying this out the ballot is divided into three columns headed respectively "First Choice," "Second

Pastor Russell's Sermon

Nov. 19.—"As well as ever, thank God," was Pastor Russell's message to the millions who read his sermons weekly in the secular press. His text was from Psalm xlii, 1-4, especially the words "The Lord is my strength and He will blow away mine enemies." St. David spoke of his own experiences, his own tribulations; but prophetically he represented the Messiah—himself and body.

—Jesus and His saintly few gathered during this age out of all nations, sects and parties—"the church of the first-born," whose names are written in heaven.—Hab. xlii, 1-4. The prophet's experiences—wave after wave of trouble, disappointments, etc.—had the same result as the Lord's disfavor, but contrasted with the heavenly Father's love and care—evidences that he was being taught by God. In preparation for a work which he was to do, he was pursued by Satan's devices and was like an antelope in the chase, famished for water brooks, but with his soul thirsting for God. "My soul thirsteth for God, for the living God. When shall I and appear before Thee, O God? When will my trials and tribulations be finished? When shall I be received into everlasting fellowship as the son of the High God? My tears have been my meat and night while they continue to say unto me, 'Where is thy God?'"

The people in general could not understand the meaning of the Lord's disfavor, but contrasted with the heavenly Father's love and care—evidences that he was being taught by God. In preparation for a work which he was to do, he was pursued by Satan's devices and was like an antelope in the chase, famished for water brooks, but with his soul thirsting for God. "My soul thirsteth for God, for the living God. When shall I and appear before Thee, O God? When will my trials and tribulations be finished? When shall I be received into everlasting fellowship as the son of the High God? My tears have been my meat and night while they continue to say unto me, 'Where is thy God?'"

Peremptory list for court of appeal for Monday, 20th inst., at 11 a.m.: 1. Re Mingo and Township of Thorold (to be continued). 2. Kline v. Dominion Fire Ins. Co. 3. Haldimand v. Bell Telephone. 4. Highgate estate. 5. Brussels v. McKillop. 6. Blyth v. McKillop.

RESTRAINT MAKES FOR CHARACTER AND WILL

Bishop Williams of Michigan Preaches Stirring, Vital Truths to University Students. At Convocation Hall yesterday morning the Rev. Dr. Williams of the Episcopal Church, Detroit, Michigan, preached a stirring sermon on "The Battle of Life."

"Character and purity are things which stand for the manhood that is in you, but every time a man yields to lust, which is human and does not have to do with the spirit, he is overcome by the animal that is in him. The first is a victory for self-control and manhood, but the second produces wreck and disaster, because there is no greater sign of a man's weakness than to be under the control of a base appetite or passion, but, on the other hand, passion and appetite to serve spiritual purposes, and the development of these, lead to man's glory."

FLOWER SHOW PRIZES

Mrs. G. A. Reid Wins First Place in Decorated Table Section. The following prizes were allotted on Saturday at the Ontario Horticultural Show: Special for members of any Ontario Women's Institute, taking highest aggregate in prize money in sections 113, 130: 1. Mrs. P. Depatie; 2. Mrs. R. Thompson; 3. Mrs. J. G. Waite; 4. Mrs. Mason.

Single Court.

GLENNAN SCOTCH WHISKY

A blend of pure Highland Scotch, bottled in Scotland exclusively for Michie & Co., Ltd. TORONTO.

PRINTING

Let us quote you a price for the presswork on your large forms. THE WORLD OFFICE 40 RICHMOND STREET WEST

BRITNELL'S COMPANION IS CROSS-EXAMINED

Tells For Third Time of Motor's Peculiar Actions—Car Suddenly Spurred and Swerved. The trial of Roy F. Britnell in the criminal matter was resumed Saturday morning, but was again adjourned about one o'clock, until 11:30 Monday morning.

Four Brothers In Middle Life Meet First Time

Re-Union in West Toronto of Men Who Separated Over Half a Century Ago. A reunion of four brothers, who had never been together before, was the happy event that was celebrated at the home of Thomas Simpson, 197 Keele street, Ward Seven, on Saturday night.

POPULARITY OF THE GRAND TRUNK ROUTE TO MONTREAL

Is due to the perfect roadbed (aid with 100-lb. steel rails), the excellent equipment (the finest obtainable), the scenic route (along the shores of Lake Ontario and River St. Lawrence); moreover, it is the only double-track line. Four trains leave Toronto daily: 7:15 and 9 a.m., 8:30 and 10:30 p.m. The 9 a.m. train carries electric-lighted parlor-library car and dining car. Night trains carry electric-lighted Pullman sleepers. Secure tickets, berth reservations and full information at Grand Trunk City Ticket Office, northwest corner King and Yonge-sts., Phone Main 4200.

MRS. PRATT ILL.

The young wife of A. C. Pratt, M.L.A. for South North, is ill in the Toronto General Hospital. Address to S. S. Teachers. Dr. Thomas J. J. for several years a C.M.S. missionary in West Africa. Will give an address to Sunday School teachers and others in Trinity East School Hall this evening at 8 o'clock.

ESTABLISHED 1854. JOHN CATTO & SON REVERSIBLE COATS LADIES' AND MISSES'

Just opened a new lot of Reversible Tweed Coats in all popular colors. Each coat has a chatelaine slung from a strap of self material, and the touch gives the garment a very jaunty style.

ANOTHER REVERSIBLE COAT

Or rather, two coats in one, for this is really what this garment is. Either side can be worn outside, as both sides are thoroughly well finished, and the material reversible in shades of tan, green, brown and grey mixtures.

EVERING WRAPS

At present we have a specially well-assorted stock of Evening and Opera Cloaks from moderately to the most elaborately trimmed confections.

LENERN SUITS

Any lady requiring a suit may be satisfied here in Fit, Style and Price, as we are clearing out the entire stock at prices so low that every lady who will compare the points of excellence in our garments with those offered elsewhere, will be convinced that we are all High-Class Goods, including many Pattern Suits.

JOHN CATTO & SON SUITS

MAIL ORDERS ON EQUALITY WITH SELF SHOPPING. JOHN CATTO & SON 55-61 KING STREET EAST TORONTO.

CHINA'S PREMIER

Involved each day. The Republicans apparently are determined to secure their independence from the Manchou dynasty, but there are grave doubts of their ability to establish a stable government in time.

The local organizations are preserving order. Shanghai is a centre of business for the entire Yangtze Valley, which is important while the military operations around Wuchang and Hankow are proceeding.

The provinces which have declared independence are organizing separate governments, but each refuses recognition to the others.

The revolutionaries are approaching Nanking number many thousands. From Nanking, on the north side of the river, 4000 revolutionists with 41 guns are marching to Fuyow, which lies opposite Nanking.

The imperialist garrison in Nanking, under command of Gen. Chang, numbers about 11,000 men, well trained, well armed and strongly entrenched and fortified. It is believed that all the republican forces are within one day's striking distance of the city.

Reports received here direct from Nanking say that all foreigners north of Pukow are safe. The consuls have recommended that all Americans in the Yangtze Valley come in immediately to Shanghai.

MONTEAL Nov. 18.—On a warrant issued by the Dominion Newspaper Syndicate, M. J. Epstein of the Publishers Press, Limited, Elmet-street, was taken to No. 5 police station.

An official of the police court executed the warrant shortly after noon, and when Epstein appeared at the police station Judge Leet was communicated with and by a special order instructed the court to issue a writ of habeas corpus, when he will appear in the arraignment court to plead.

St. Giles' Aid Society of Work. The Ladies' Aid Society of St. Giles' Presbyterian Church, Oak-street, will hold their annual sale of work on Friday, Nov. 24, afternoon and evening, in the church. The proceeds will be in aid of the church debt.

THE WEATHER

OBSERVATORY, TORONTO, Nov. 19. The weather conditions now prevail throughout the western provinces, nearly all portions of the Dominion. Minimum and maximum temperatures: Victoria, 48-54; Vancouver, 42-48; Prince Rupert, 40-46; Calgary, 36-42; Moose Jaw, 32-38; Winnipeg, 30-36; Pelly Sound, 22-28; London, 28-34; Toronto, 28-34; Ottawa, 28-34; Montreal, 28-34; Quebec, 28-34; Halifax, 32-38.

ONTARIO LIBERALS MAY ADOPT WOMEN VOTES

Continued From Page 1.

he proceeded to find fault with the way land had been purchased for the hydro-electric works. He declared that favoritism was shown in the running of the T. & N. O. Railway and called the bringing on of the election at this reason an outrage.

Plattville Valley. Mr. Rowell spoke in the afternoon for the first time in the riding he hopes to represent at the next session of the legislature. The place was Plattville, about eight miles from Drumbo, and he was heard by about 20 persons. James Baird was in the chair.

Before he spoke Dr. Andrew MacKay, M.L.A., who stepped down to greet Mr. Rowell, who said, which he regarded as a "safe" one, said he regarded the fate which necessitated his resignation. He said that nothing in the world would have pleased him better than to have been able to again run and represent the riding in the provincial House. However, he had sacrificed himself for the good of the party.

Mr. Rowell in his address criticized the way the Conservative government had handled the public schools since attaining power. His declamations were now much lower in efficiency than they were when that government assumed control.

On the liquor question he asserted that there was corruption in the administration of the law in Ontario. There was a great deal of liquor in circulation that was more difficult to enforce, but it should be done better. There was political interference with the administration of the law, and political interference with any law polluted justice at its very source. It was the most corrupting influence that could attack the province. It weakened the very system that was supposed to protect even liquor dealers, he declared.

Depleted Farm Population. Referring to the dropping off of the agricultural output of Ontario which recently was reported, he asserted that in Ontario was the best farming land in the world and that such a falling off should not be the case. The present government was doing practically nothing for the farmer outside of the carrying on of some few of the policies of the late Hon. John Dufferin.

"Where the government is in sympathy with the farmer, putting out its hand to help to ameliorate his condition and to teach the farmer how to better his crops, there is the best farming done," he said.

It was the duty of the government, he said in effect, to help the farmer to make the best possible use of his land. On the question of regulating the corporations with which Mr. Rowell dealt in the evening address at Drumbo, he told of the conditions in the United States. Stringent efforts were being made there now to get them under control.

"In the Province of Ontario," he said, "we are passing through the incipient stages of the formation of such companies as have done so much mischief in the States. The duties of the government is to see that by legislation we do not permit ourselves to be placed in the same position as the people of the United States. We should fix the rights of the people so firmly by law that they can never be imperilled by the actions of the government."

"We should seek to control these organizations and keep them from unduly enhancing the price of food, interfering with the price of raw materials, etc."

Political independence is largely impaired by either party receiving money from corporations. Corporations have no conscience. If one contributes toward the support of a political party, don't you think that it is the lively expectation of favors at the expense of the community which compels them to do so?

"The Liberal party will, to the full limit of power of the legislature, propose a bill to amend the laws providing for such contributions to either party. We will require both parties to publish a list of all campaign contributions, and we will prevent the best means of preventing interests who expect later favors, from giving contributions," said Mr. Rowell.

He did the ditch of that law, he said, electric poles and wires had been put there the land was fair. They had been put there for the farmers, and there was no appeal. In the case of railway companies, anyone could go to arbitration. Such a dictatorial method was very unfair, he thought.

Favored by T. N. O. The government showed favoritism in many ways, he said. Favoritism was shown in the running of the Timiskaming and Northern Ontario Railway. Favors were given in freight rates, and those on the inside were treated better than others. They had been asked to put that railway under the Dominion Railway Board. Their refusal to do so was a grievance, he held against the Whitney government.

James Wilson, the chairman, said that local option would have carried here three years sooner had not the three-fifths clause been in force. The St. James Whitney, said Mr. Wilson, had said that when it was conclusively shown that the local option movement had been thoroughly established he would remove the three-fifths clause.

"Three years ago we went to Sir James and showed him giving all the figures—that it had been approved. But nothing has come of it."

In Plattville in the afternoon, Mr. Rowell said he was pleased to see so many women present. He did not see why they did not turn more at political meetings, for the majority of the questions the Ontario Government was called upon to deal with interested them as much as the men. They were all deeply interested in social and moral reform, he thought.

It had not been because of his own action that he had been asked to lead the opposition, he said. He had not sought the position, and it was one to which he had never aspired. For himself, he would have much preferred having gone on quietly practicing his profession. The appointment had been thrust upon him, and he had taken it only in the hope of being able to do

some good for the people of Ontario.

Looking back at the recent weather, he said joyfully, that it alone was almost sufficient justification for his wife against the government that had brought on the elections at such an inopportune time.

People's Educational Facilities. At the present time the people of Ontario were willing to make almost any sacrifice to provide better educational facilities for their children. Instead of building up and making the public schools better, the present government had put them in worse shape than when they came into power, he said.

The male teacher had largely disappeared from the public schools and there was a shortage of teachers of both sexes. It was up to the government to get teachers. As for the proposal to keep teachers from going west by making them teach in the province, it was not the move of a wise statesman, he said. He had little faith in the quality of the teaching of anyone who was forced to remain in the province. The evil should be cured by raising salaries and making it worth while for teachers to stay here.

Dr. Mackay said that the first intention he had of the proposal to give him his seat, which was when the Liberal whip, Mr. Parley, had called on him. A safe seat had been wanted to enable Mr. Rowell to campaign in the province. So, said Dr. Mackay, he finally consented to place his seat at the disposal of the committee.

As to the reason for his election had been the result of representing North Oxford. Nothing would give me greater pleasure than to again represent this riding," said Dr. Mackay. He went on to say that he had stood out because he thought it would help the party considerably.

ALL RETIRE IN FAVOR OF MR. FORBES GODFREY

West York Expresses Confidence in Present Member—A Great Convention.

WESTON, Nov. 18.—(Special).—Dr. Forbes Godfrey was on Saturday the unanimous choice of the West York Conservatives, and his nomination was made the occasion for one of the great occasions ever given any public man in West York.

At the meeting on Saturday the recognition of his name and the announcement by Dr. Bull, the chairman, the big convention numbering between 400 and 500, simply broke loose, cheers and counter cheers greeting his name, and it was a scene to see before the meeting would proceed.

Every polling place and sub-division in West York was represented by full quota of delegates, and scores of interested Conservatives were being made there now to get them under control.

In all six names were submitted, but it was seen early in the meeting that the name of Dr. Godfrey was the one to be chosen. The name of Dr. Godfrey was the one to be chosen. The name of Dr. Godfrey was the one to be chosen.

added another splendid industrial enterprise to Ontario, and one which will stand as a monument to Hedley Shaw, head of the former Hedley Shaw Milling Co., and which was the nucleus of the present Maple Leaf Co. in addition to the Port Colborne plant the Maple Leaf Co. has mills at Kenora, Brandon, Thorold, Welland and St. Catharines.

Many Toronto bankers and brokers were among those present at Saturday's gathering. At the banquet following addresses were made by D. C. Cameron, president of the company, and lieutenant-governor of Manitoba, James Mulock, vice-president; Hedley Shaw, managing director; John Pullen, president Canadian Express Co.; Frank Jones, general manager of the Canadian Cement Co.; and Mr. Mulock spoke as follows and his remarks were heartily received:

"We are pleased, in this connection, to have the opportunity of welcoming you here today. For your personal inspection of this plant, and the practical information that will be given to you, it is unnecessary for me to touch further upon this point.

"The several fundamentals necessary for the success of any important business are, I should say: First, management; second, proper situation of plants and modern equipment of the same; third, market for its products; fourth, money and credit.

"In these the Maple Leaf Milling Co. is fortunate, having all such requisites. Your company is not only trading in all Canada, but it is selling its products as far distant as South Africa. Your directors and management recognize the possibilities of the Canadian milling industry and are aggressively furthering your interests. We are meeting here today to look forward to a very bright future for the company."

The flour mill machinery was built by Allis-Chalmers Company of Milwaukee. The electrical equipment was built by the same company. The mill is a fine example of modern engineering and is a credit to the Canadian milling industry.

Bullish Sentiment Still in Ascendancy in Mining Markets

Further Progress Is Made In Movement to Higher Prices Porcupine Issues Continue in Strong Demand at Week-End—Some Indications of Resti...

World Office, Saturday Evening, Nov. 18. The Porcupine stocks continued active and strong again at the week-end session of the local exchanges, prices rising once more on the up grade, and several further advances being realized as a result of the unabated demand. The day's trading was naturally not up to that current during the earlier part of the week, but considering the fact that the session was only half the ordinary period, showed up remarkably well. Transactions were fairly well distributed throughout the list, but it was apparent that some specialty dealings were under way, and this sufficed to keep certain sections of the market pretty well in the background. A slight feeling of hesitancy was in evidence at times, due to a profit-taking disposition which developed with the realization of the higher prices, but this was only natural in view of the fact that during the whole week the market has been distinctly buoyant and this practically without an interruption. The big issues did not do very much. Dome, Hollinger and Esca all being rather apathetic. The first two mentioned showed an easier trend, liquidation carrying prices down to a slight extent. Esca, on the other hand, was higher, crossing the \$3 mark, and holding its advance through. In the cheaper issues interest was mainly confined to the Esca Extension, Vipond, Crown Chartered and Jupiter. The trading in these stocks was active, but prices in the main did not undergo much change, sufficient selling orders being in evidence to hold any prospective movements to small limits. Dome Extension was the particularly strong point, these shares getting up over a point to \$1-7/8, and closing around the top figures. Crown Chartered gained another fraction of a cent at \$4-1/2. Jupiter was more buoyant than for some days, scoring a five-point gain to \$4. Vipond was closed between \$7-3/4 and \$8-1/2, and active around the top for the day. As no time was yesterday's figures exceeded. A slump of over a point in Timiskaming, which sold off to \$8-1/2, was the only feature of the Cobalt, which were generally quiet and unchanged. The market throughout was in a strong mood and outside of a few special instances there was no disposition to liquidate on holdings. Sentiment at the week-end was entirely favorable to holders, the general impression being that while a reaction of slight proportion was due, further progress toward a better range of values would not be long delayed.

LA ROSE RESULTS

Profits for September \$94,773—Nine Month Profit \$917,755. COBALT, Nov. 18.—Operating profits of La Rose for the month amounted to \$94,773, which indicates that earnings are being maintained greatly in excess of the dividend required to pay for approximately \$50,000 per month. During the month there were produced 325,677 ounces of silver, having a gross value of \$1,641,000. Total expenses amounted to \$69,921, giving the resulting net profits shown above. For the first nine months of this year production amounted to 2,381,946 ounces of silver, having a gross value of \$12,400,000. Shipments during these months aggregated \$1,452,683, while total expenses amounted to \$2,388,885, resulting in an operating profit for the nine months of \$1,011,115, an average of approximately \$102,000 per month.

Shaw Township Making Good. Mr. J. E. Brayley of Spadina Ave. has just returned from Porcupine, where he has been superintending the work on his claims in the southeast part of Shaw Township. Mr. Brayley was fortunate in securing one of the best properties in that section. One of the veins, uncovered for a distance of five hundred feet, has proved to be a true fissure vein, and taken at a considerable depth, are highly satisfactory. There is considerable work being done in this neighborhood. The formations are the same as those in north Deloro and Tindale, and there is every indication, where work has been done, since the strike, that just as rich ore bodies will be opened up as those a little further to the north.

Table with columns: Standard Stock Exchange, Op. High, Low, Cl. Sales. Lists various stocks like Porcupine, Dome, Esca, etc.

COBALT ORE SHIPMENTS

Table showing Cobalt camp for the week ending Nov. 17, and shipments from Jan. 1, 1911, to date. Columns include camp name, quantity, and value.

Brodericks

THE ARCTIC "RAGLAN" One of the many models in the famous Broderick collection of distinctive overcoats for this season. Correct in fit, graceful in effect, most pleasing to the eye. The Arctic Raglan is strictly English in effect, broad, full shoulders, without padding, lapels bold and well rounded, gracefully and freely draped from the shoulders down, boxy throughout, and with patch pockets, single or double-breasted. A truly magnificent garment, tailored in the perfect Broderick way—Prices from \$45 to \$22.50

Brodericks LIMITED 113 West King St., Toronto

DOME MILL WILL START ON THE LOW GRADE ORE

But Management Will Test High Grade as Soon as Machinery Finds Itself. PORCUPINE, Nov. 16.—(From Our Man Up North.)—When the first section of the Big Dome stamps starts, nothing but low grade ore will be put thru the mashes for a month, and consequently those who have been watching to determine results from high grade runs will have to wait till the mill has been seasoned to the rock and the amalgamating plates are gotten into tune with the low grade ore.

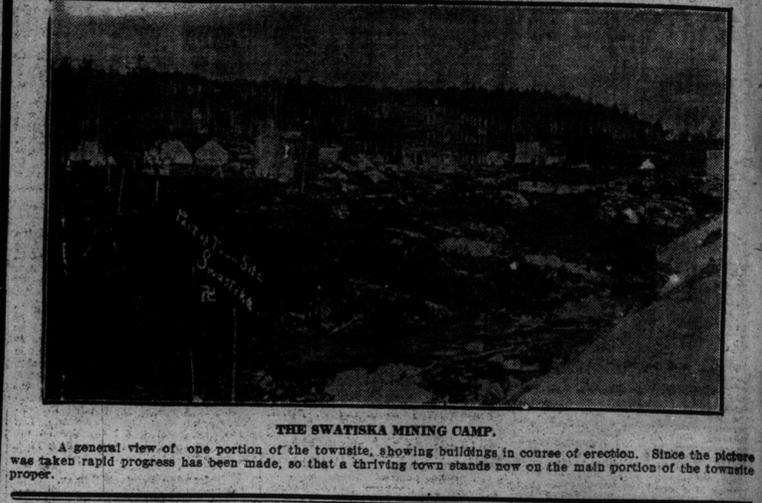

This decision has been made because of the fact that it will take an immense amount of rock crushed to wear down the stamps and the plates to normal condition for real good work. It will also give the management opportunity to make necessary adjustments in the working of the plates before the good stuff is fed into the mashes of the giant crushers. Because of the lateness in setting in of the winter season, whereby all the prospect work was finished before frost appeared, building of the mill is being hastened with marvelous rapidity, and it is now expected that some time in February the management will be able to turn on the power that will force the stamps to fall. March is the old date set, when the mill would be in operation, and undoubtedly find the Dome stamps crushing out high grade ore.

Willet Cobalt Mining Co., Ltd.

(No Personal Liability) Authorized Capital, \$2,000,000. Owning 14 Claims, 560 Acres in all.

I have secured 100,000 shares of the above company's stock. This is the first chance the public has had of securing stock in the above company, and up to Dec. 31 I will fill orders for 100 shares or over at 10c per share. The latest report of work, dated Nov. 1911, is as follows: On eleven claims the work is all done to date. The balance will be done at once. We have over four miles of trenching done and 25 discoveries made by G. C. S. Taylor, prospector, and 56 discoveries by Mr. David Melville, a total of 81 discoveries in all. Mr. Melville claims all his discoveries carry silver values; only one has been sunk on and silver found at six feet. We have four shafts: No. 1 at a depth of 42 feet, with eight leads, ranging in width from one-half to four inches, with good silver showings; No. 2 sunk to the depth of 36 feet, five leads, three showing silver values; No. 3 is down 18 feet on an eight-inch vein of calcite. All the above shafts had to be abandoned on account of water, which could not be pumped out by hand. The shaft contains eight veins. The vein matter is from one-half to eight inches wide and carries very light silver values. The filling between the veins is well shot with silver. This filling is two and one-half feet wide at one end of the shaft and five feet at the other. The foreman at the mines reports to me that the vein matter is getting richer with depth. We have a cook camp, 24 x 24, fully equipped for 25 men; log building chinked with cement and a good fireproof roof, also a sleeping camp, 24 x 24, which will accommodate 25 men. We have a full set of equipment for mining by hand, also a complete steam plant, installed this summer, in first-class working order, consisting of a 25-horsepower boiler, 18-horsepower engine, steam hoist, steam drill and steam saw; a complete set of steam-fitting tools; also blacksmith shop with all the necessary tools to carry on the work; one horse, cart and harness, and a fairly good wagon road from Mountain Lake on the Montreal River to our camps, on which we teamed our machinery this summer, one and three-quarter miles. We have out a road to our shaft and also have a good winter road to Elk Lake City, six and one-half miles away. Our foreman writes that he has all the timber out to build the new boiler house, which, when complete, will enable us to put on another crew of men and work a double shift at a very small expense. I think I can promise that in the near future we will join the list of shipping mines. Yours, A. D. McBRIDE, Managing Director. The prospectus was filed with the Provincial Secretary January 14th, 1910.

Owen J. B. Yearsley, 112 Confederation Life Chambers, Toronto. Member Dominion Stock Exchange. Telephone M. 3290

THE SWATISKA MINING CAMP. A general view of one portion of the townsite, showing buildings in course of erection. Since the picture was taken rapid progress has been made, so that a thriving town stands now on the main portion of the townsite proper.

M'ARTHUR TOWNSHIP COMES RIGHT TO FRONT

Engineers Are Enthusiastic Over Prospects of Territory South of Porcupine. PORCUPINE, Nov. 16.—(From Our Man Up North.)—The McArthur Township road, the new territory that bids fair to get the next big rush this winter, is cut and ready for travel, when the swamps freeze, as far south as the southern boundary of Shaw and Deloro.

Already owners of claims in this section are preparing to ship into the district large quantities of provisions. Only assessment work so far is under way in the McArthur district, but since the notable engineers, Messrs. McLaren, geologist of the Scottish-Ontario, Thornton, of the McArthur Engineering firm, and Stewart of the English syndicate, visited the territory they are turning their attention that way. These engineers from casual views liked the looks of the district and gave out pat statements concerning it. The formation is Keewatin, as expressed it is Old Keewatin granite as the country rock, with clearly defined veins of porphyry, generally known by the Dominion geologists as porphyry, as the vein matter. Through the porphyry are well disseminated in- visible values. Occasionally they found where values had concentrated in free gold showings, but little or no attention was given to the apathy outcrops. The veins are more continuous than in Porcupine and in several instances can be traced over as many as three claims without a break. The country looks like a mining spot, and I like it even better than Porcupine," said one who was in the party. "Ranges of hills appear on the ridge. McArthur has already had his introduction to the mining public and to the south is this winter's prospecting trend. Chas. Fox.

VALUES ARE RISING

Two months ago we asked the opinion of our clients to the great speculative possibilities of the Porcupine stocks. We mentioned several of the active shares at that time as worthy of purchase, and we stated prices of these are fully 50 per cent. higher. Speculative and investment interest is widening in the Porcupine market, and we are of the opinion that much higher prices will be reached. It is necessary to select the stocks with real intrinsic merit behind them. We are constantly in touch with the camp, and our advice on the various securities can be had on application.

# All Ready for the Gay Season--At the Simpson Store

## Splendid Buying Chances for My Lady

Whatever you're looking for, from an inexpensive evening frock to a good every-day voile skirt, we're ready to-morrow with the very things that will appeal to your good taste, without putting much of a crimp in your pocket-book. The following will be ready on the Third Floor:

**A White Messaline Silk Party Dress** for a young woman. The waist has a semi-low collar outlined with silk, high waist, band with girde. Skirt hangs gracefully and is finished at bottom with deep silk border. For ages 14, 18 and 20 years. Tuesday ..... **10.00**

**Women's and Misses' Dresses**, in one-piece styles, check worsteds, in white with grey, green or brown. Waist has lace collar and yoke and sleeves are trimmed to match.

**Voile Skirts**, in black only, several smart styles, some are full pleated, others have clusters of pleats around the bottom. Reg. up to \$11.50. Tuesday ..... **4.98**

### Dressing Sacques and Petticoats

Dressing Sacques, of extra quality Flannelette, navy, cardinal, grey and black and white shepherd's check, belted at waist, sailor collar and cuffs, bound with satin. Regular \$1 and \$1.25, all sizes. Tuesday ..... **.69**

**"Simpson's Special"** Petticoat, of heavy taffeta silk, black, navy, Copenhagen, emerald, grey, tan or brown, also shot effects, tailored, stitched flounce, deep underpiece of percaline, with frill. Lengths 36 to 42. Tuesday ..... **3.95**

### Fur Trimmed Hats

In seasonable and up-to-date styles. Some No. 1 quality mink skins are involved, and the new ideas shown ensure quick selling, so don't be late.

There are 200 other hats worth up to \$10.00, and at least \$6.50, which should make the Millinery Salon very busy on Tuesday. They are priced at ..... **4.00**

### The Best Ribbon Bargain of the Year

**75c Ribbons for 25c**  
These Ribbons are selling on Tuesday for less than they cost to import. There are 7 and 8 in. widths of the finest millinery and fancy work ribbons, in all the best shades. We can't begin to describe them here, but look out for the display in the windows. You will agree with us that this is the best ribbon value offered this year. Regularly sold at from 49c to 75c. Tuesday, per yard **.25**

## Don't Go Another Day Without RUBBERS!

Here's the best chance you'll see in many a day to get them at the right price.
