Appointment of Michaelis as Chancellor Sounds Death Knell of Effort to Parliamentarize Imperial Administration.

London, July 16.—If the German press correctly reflects public opinion on the event, says a Copenhagen dispatch, the appointment of Georg Michaelis as chancellor will be associated with the death of the movement to parliamentarize the imperial administration by giving Reichstag members seats either in the cabinet or in a new controlling body to be created, such as the proposed imperial council of representatives.

GERMANS LAMENT LATE CHANCELLOR

Common People Recognize Championship of Von Bethmann-Hollweg.

Amsterdam, July 16.—The events of the past few days have stirred Berlin as the city has not been stirred since the war began, according to information reaching here. The man in the street took tremendous interest in the great political battle going on behind the scenes, and, although the exact issues between the two great groups of combatants were veiled from the "common people," the latter, nevertheless, quickly gained the impression that Dr. von Bethmann-Hollweg, as champion of popular reforms, was the man to lead against the emperor, the crown prince, Field Marshal von Hindenburg and General Ludendorff.

ITALIANS RAID FOE WITH BIG SUCCESS

Ally Takes Nearly Three Hundred Prisoners on Carso. Rome, July 16, via London.—(British Admiralty per Wireless Press).—The official statement from general headquarters today reads: "On the whole front yesterday, we were much more active. In the evening, after having kept the enemy lines under heavy fire from Vercic to the Jamiana Valley, we made a successful raid southeast of Hill 247. Despite a violent hostile reaction, the enemy positions were destroyed. We brought back machine guns, war material and 275 prisoners, including 11 officers."

"On the Trentino and Carnia fronts direct hits were obtained by our artillery on enemy positions, causing fires and dispersing the working parties."

LIVELY ENCOUNTERS FOUGHT BY FRENCH

Battle at Mont Haut Ends in Check of German Forces.

ENEMY SHOWS FIGHT Foe Hurls Troops in Many Onsets Between Somme and Oise.

Paris, July 16.—The official communication issued by the war office tonight reads: "Moderate artillery actions occurred north of Braye-en-Laonnais and near Hurbise; they were quite violent northwest of Rheims."

"In Champagne, the fighting during the night at Mont Haut ended in check for the Germans, who were not able to regain the ground conquered by us on the 14th. The attacks made night were very violent and murderous for the enemy. Three waves were launched by the enemy, two of them being repulsed down by our fire. Only one succeeded in penetrating our lines. In fighting which lasted until dawn, our troops annihilated the enemy detachments and retook possession of all their gains."

"Sixteen hundred shells were fired into Rheims, two old men being killed. "The artillery action was very split in the whole region, and the artillery was also active on the left bank of the Meuse. "Belgian communication: There was slight activity on the Belgian front in the neighborhood of Noord-schoote ad Heissas, where the bombardment on both sides was quite intense during the course of the night. An enemy airplane was brought down on July 15 in the environs of Schoors. "Eastern theatre, July 16: In the Yvard sector a strong enemy patrol advancing in the direction of our lines was repulsed by a fusillade. Between Monastir and Lake Ochrida an enemy attempt was made to break through by a British machine, and fell in flames near Angusta. "Today's French official statement follows: "Between the Somme and the Aisne the enemy delivered a series of strong attacks, preceded by bombardments. Three attempts in the vicinity of St. Quentin were repulsed by our fire. South of Corbeny several detachments of shock troops advanced, and in a very spirited engagement the enemy was completely repulsed. Progress south of Alliez and took prisoners. "In the Champagne, after a very violent bombardment in the region of Mont Haut and Teton, the Germans hurled important forces against the positions we resisted with indomitable energy and tenacity the attack of our enemy greatly superior in numbers. At Teton the efforts of the enemy were without success. The attacking forces, which suffered very heavy losses, were not able to cut into our lines. At Mont Haut there was a

TO SUCCEED ZIMMERMANN.

A Copenhagen despatch says: The Berlin correspondents report that Count Brockdorff-Rantzau, the German minister at Copenhagen, has been selected to succeed Dr. Alfred Zimmermann as imperial foreign secretary. Should this report be confirmed it would mean the return of the aristocratic traditions of the German service.

Count Brockdorff-Rantzau is "born" in the German sense of the word, and highly connected at court. The new foreign secretary has a superficial reputation for being somewhat of a sluggard and a late riser, with small taste for society. But beneath he is a man of firm, strong hand, with considerable energy for execution. He is about the only German diplomat who has won the approval of the amateur diplomatic critics of Germany for keeping the diplomatic house in order and checking intrusions of what Germans regard as the neutral attitude of the foreign press. He is a cousin of Count von Bernstorff, and unmarried. Dr. Georg Michaelis, the new chancellor, will deliver his maiden speech in the reichstag Thursday. The address is expected to contain an announcement of his forthcoming program, and is awaited with a great deal of interest. Field Marshal von Hindenburg and Gen. Ludendorff, who were summoned to Berlin by Emperor William, are continuing their conferences with party leaders. Dr. Michaelis is participating in them.

Michaelis Doubtful Quantity. Germany's first commoner chancellor, Dr. Georg Michaelis, has as yet given no indication of his policy regarding reform and peace. Neither the Conservatives nor the Liberals have as yet ventured to call him their own. The German papers unite in characterizations of his energy and fair-mindedness, but are most reserved in their predictions of his probable policy. The line of comment evidently emanating from Wilhelmstrasse is that the new chancellor regards as his mission the restoration of the internal harmony of the nation, whatever policy may be adopted. No matter what else may result, change will undoubtedly mean the disappearance of the von Bethmann peace program.

WAR SUMMARY

THE DAYS' EVENTS REVIEWED

THE Russians, instead of pushing on with their attacks on the battle-front south of the Dniester River, have elected in the past two days mostly to hold their captured ground and to secure the line on the coming of floods and the probable need of sufficient time to bring their big guns abreast of their infantry. The enemy has brought up reinforcements and begun counter-attacks, but the Russian advanced troops have thrown his columns back, especially at a point northeast of Kalusz and the Austrians from Lodziany Village to the River Lomnica, but the arrival of Austrian reserves and heavy losses in officers compelled the Russians to fall back to the eastern part of Lodziany.

The Russian line, as at present established south of the Dniester, runs west of the Lomnica River for a considerable distance, thence it crosses the stream and runs east of it thru Lodziany to the Carpathian foothills. In the region of the Carpathian foothills, the Russian line is more direct value to them than the bare official record makes mention of. They have deprived the enemy of the last high ground whence he could observe their lines. They also forestalled an enemy attack on the sector between the Somme and the Aisne, and he has launched several bearable pitch and his writhings appears to pinch him at an unsteady French grip and the stranglehold produce these singularly ineffectual attacks.

The present changes in the German Government apparently have their origin solely in a panic that the peace move in the reichstag has created known that they are beaten, if the allies choose to carry forward the war to a military decision. They have previously obtained a great measure of support from Germany, because they have managed still to convince the German people that German arms have been victorious. Some doubt they still believe that if Germany renounces the war, the allies will make peace. The allies, however, are fighting not merely for the liberation of Belgium, Serbia, Rumania and northern France, but for the security of their own position. They would not reflect the peace offer that the reichstag is willing to hold it is said, could have had peace on the basis of a draw. The allies, party a year ago. So the German military party knows that the allies would reject the proposed offer of the reichstag, and an open rejection of man people might even begin to believe in the veracity of its military leadership, but might even suddenly collapse under the strain. Therefore the German military party has to forestall the peace offer of the reichstag.

The British in Flanders advanced their lines in slight degree in the sector northeast of Messines yesterday. They also carried out a successful lower part of the town with poisonous and deleterious gases yesterday for more than an hour. The deadly vapour settled over German trenches, dugouts and batteries.

YORK COUNTY AND SUBURBS

FRENCH FLAG DAY HELD AT WESTON

Over Forty-Four Flag-Sellers Collected Substantial Sum for France.

Weston's French flag day for the benefit of the brave poilus who have sacrificed so much in the name of liberty, was attended with much success under the leadership of Mrs. W. J. Cruikshank, whose band of flag sellers secured the fine sum of over \$26. Every one was generous and bought the little tri-color, but the feature of the whole day was the gift of a costly pair of pearl opera glasses to an anonymous French lady living in Weston. The gift was made by one of the auctioneers off in aid of the French fund. She desired to give something for the heroic French soldiers, and as she had nothing else to offer, she gave her valuable opera glasses. Over 40 of Weston's girls were early on the streets, and it did not take long before the supply of 3,000 flags was quite exhausted, making necessary a hurried trip to Toronto for an additional supply. These young women were placed in three teams, the largest one being composed of Mrs. J. Lindsay, Miss E. Savage, Mrs. G. Goulet and Miss E. Craven, and they secured over \$17. The team under Mrs. N. Clark and Miss M. Dawson collected \$58, while Mrs. E. F. Burton and Mrs. H. Gray's team had received over \$51 at the end of the day. Six automobiles were placed at the disposal of the tappers by Weston's automobile owners, and aided them greatly in disposing of their flags. They were gaily decorated and presented a pretty sight as they went thru the town.

OAKVILLE POLICE MAKE BIG HAUL

Hold Four Men Charged With Theft of Two Autos, and Burglary.

In a motor car belonging to Thomas Gough, 334 West Bloor street, Lawrence Kirkham, John Smith, Creighton Smith, P. J. Enright, and James Watson, all of Toronto, are alleged to have journeyed to Brantford, where they were arrested by Chief of Police Sweet of Oakville, yesterday morning. Creighton Smith, Lawrence Kirkham and James Watson are held on a charge of vagrancy, John Smith on a charge of breaking into the general store of W. Dobson of Brantford and stealing money, and Enright on a charge of breaking into the general store of W. Dobson of Brantford and stealing money. Enright was sentenced to six months in Milton jail, while John Smith was given thirty days in the same place. The other three were dismissed. According to the police, some of the men were implicated in the theft of a motor car belonging to G. B. Love of Oakville, Ont., from the corner of Richmond and Yonge streets, early yesterday morning. Enright ran the car to the corner of Adelaide and Bloor street, where the machinery broke down. They abandoned the car and jumped into Mr. Gough's car, which stood at the curb, and proceeded on their way. From the window of the car, Enright witnessed the theft, shouted to the men, then rushed downstairs and into the street. Leaping aboard Mr. Love's car, Mr. Gough, intending to give chase, found the car immovable and so reported the matter to the police. At Brantford All Locked Up. The motor car ran out of gas and stalled. While there, it is alleged, Enright entered Mr. Dobson's store by way of a rear door, and stole \$100 from the place, then betook himself over to the corner of Richmond and Bloor streets, in the meantime the stranded company notified Chief Sweet of their predicament, who went out in a car and brought them into Oakville. They were all locked up on a nominal charge of vagrancy. When word came to Enright of the robbery, Chief Sweet, armed with a description of Enright, started a search, which resulted in the capture of the man at the radial station between Oakville and Brantford. When searched, \$16.30 of the stolen money was found on John Smith admitted the theft of the cars from Messrs. Gough and Love. The entire company was given 120 minutes to get to the place when questioned, John and Creighton Smith giving 120 minutes to get to Brantford, and Lawrence Kirkham, 253 West Richmond street, and Miss Watson 171 Bond street.

POULTRY ASSOCIATION JOINS NATIONAL BODY

Oakwood Society Links Up With Federation of Poultry Associations.

A well-attended meeting of the Oakwood Poultry Association was held last evening at the Raterspayers' Hall, Oakwood avenue. President Wm. Dever occupied the chair. Secretary A. Dickinson read a communication from Dr. Orr of the Canadian National Exhibition, stating that the matter of passes and members' free admission cards would be looked after by a special attendant during this year's exhibition, and the difficulties of last year would be eliminated. It was resolved to amalgamate with the Federation of Poultry Associations in order to participate in the privileges granted to that body by the provincial government. C. Donovan gave a short address on the recent poultry congress at Guelph, and Second Vice-President E. J. East was appointed judge for the competition of the best matured 1917 chickens. Seen new members were enrolled.

LATE JOHN STEWART FORMER SIMCOE WARDEN

Was Also Former Mayor of Alliston and Well-Known Thruout York County.

The funeral took place yesterday afternoon to Mount Pleasant Cemetery of John Stewart, whose death occurred at his residence, 26 Kingston road, on Saturday. The service was conducted by the Rev. J. Dwyer, and was attended by a large number of friends. The late Mr. Stewart was for many years mayor of the Town of Alliston and was also warden of Simcoe County. He was a conservative in politics, and was a member of the Ontario Police Association. He was survived by his wife, Susanna Jane Cowan; two sons, Charles of Indianapolis, and John at home, and three daughters.

TWO PASTORS HONORED BY EARLS COURT CHURCH

Presentations to Rev. Peter Boyce and Rev. Archer Wallace, in Recognition of Services.

Oakwood Methodist Church was packed to capacity last evening on the occasion of a presentation to Rev. Peter Boyce, pastor of Earls Court Central Methodist Church, and Rev. Archer Wallace, M.A., pastor of Berkeley Street Methodist Church. The motion, which was founded by the Rev. Peter Boyce, has been for the past five or six years supported by the Earls Court circuit, but is now a separate church and school building. The congregation, thru Rev. Harry Fawcett, the pastor, gave expression of their appreciation of the support and interest taken in the mission since its inception by Rev. Peter Boyce and his associate, Rev. Archer Wallace, M.A.

WESTON LADIES' AID.

At a meeting of the ladies' aid of the Old Presbyterian Church, Weston, held last night, the committee in charge of the Sunday school picnic held last Saturday reported that over \$100 was realized. They thought this an excellent amount, considering the rainy day they had for their picnic. ALWAYS A SPECIAL AT SCORE'S Today it is a twelve dozen lot of Summer Shirts with pleated fronts and stiff collars—made from a fine shirt cloth in fancy stripes and a plain white—really an exceptional value at the regular price of two dollars. Because there's just a little overstock of fixtures with the season so far along we've re-marked them for a quick clearing at \$2.10—See the window display. R. Score & Son, 77 West King street.

RAILWAY BOARD ISSUE.

Must Apportion the Cost of Toronto-Hamilton Road Bridges. The Ontario Railway Board has been asked to apportion the cost of four new steel bridges which will be built along the Toronto-Hamilton highway to replace the old structures now in use. The bridges are to be built over the Mimico Creek, the Etobicoke Creek, the Credit Creek and the Danforth Creek at Bronte, and the spans will vary from 100 to 140 feet. The bridges now in use were paid for and maintained by the counties in which they are situated.

HAMILTON NEWS

Hamilton, July 16.—At midnight, twelve hours after the discovery of an unidentified body in the bay, with a bullet wound thru the head and the base of the skull, the police let it be known that they were without a clue to work on. This morning a plain case of murder, they admitted Jessie and Marjorie McIlwraith, two young girls who were canoeing near Station 10, at the Beach, were first to discover the body. They noticed a hand emerging from the water and hurried to shore to report their find. County Constable Lapsin rowed to the spot, and when the body was recovered it was discovered that it had been weighted down with a chain and a heavy iron ball. The victim had apparently been in the water for many weeks, the body being in a highly decomposed condition. It is thought that the body is that of a foreigner between the ages of 35 and 40 years. A suit of underwear bearing the maker's trademark, and a collar marked L.C.H., are the meagre clues upon which the detectives have to work. The theft of a pay telephone from the bar at the Revere House is engaging the attention of the police department. It is estimated that the box did not contain more than \$2.

WANT VIADUCT RUSHED.

Riverdale, July 17.—Just when the Don valley section of the new Bloor street viaduct will be completed is the question being asked by the residents of North Riverdale section. According to Mr. E. A. McDonald, the president of the North Riverdale Raterspayers' Association, eighty per cent of the riveting on the centre bridge has now been completed. As the city is paying the contractors a bonus of \$25 a day for completing the work before contract time, the question is a live one, especially if the work is completed before the winter. It is maintained that if the viaduct is not completed before winter it will mean that the viaduct will not be completed before June.

SHOPLIFTING CHARGED.

Woman is Held on Two Charges of Stealing from Lee Stores. Mrs. Putna Legna, 171 Elizabeth street, was arrested last night by Detective Koeter on a charge of stealing a blouse from the store of Samuel Wolfish, 89 Agnes street, and a baby's crib cover from J. **You Who Are Still in Town Be Sure and See the Special Display of Models of This Fashionable Sort Now on View in the Women's Dress Department—Simple, Summertime Styles at Prices Running From \$17.50 to \$40.00.**

**FOLLOW THE LEAD** of Madame New York and you will garb yourself in blue taffeta or white crepe—blue taffeta for street wear, and white Georgette or crepe de Chine for the afternoon tea party or club dance. In the wardrobe for the Summer hotel both play a prominent part.

And fascinating indeed you will find the collection of such frocks now on special display. Every model is summatime itself—characterized by a strict simplicity that means usefulness not only for the present summertime, but for the coming Autumn. Thus:

**One-piece, Surplice and Coat Styles in Navy Blue Taffeta**  
In navy blue taffeta, a graceful gown with full-gathered skirt and surplice bodice, with sleeves of Georgette crepe. Price, \$17.50.  
A model in navy taffeta, with tunic skirt and simple bodice, with collar and cuffs in flit lace, is \$30.00.  
Also in navy taffeta in new long-waisted style is a very modish dress—priced \$27.50.  
In one-piece coat style, girdled in with a patent leather belt, is still another model in blue taffeta—price, \$17.50.  
A coat and skirt effect in navy taffeta, with collar and cuffs of grey silk, is \$22.50.

**Many Pleats and Tucks in Dresses of White Crepe.**  
In white Georgette crepe is a delightful frock, in which rows of narrow tucks go criss-cross in most effective manner—a gown that can be worn for mourning.  
Another alluring frock which fastens in the back and has a tunic skirt and the sash is likewise of white Georgette crepe. Its collar is edged with white net. Price, \$40.00.  
In white crepe de Chine, laid in box pleats, with the girde fastening loosely at the back and deep collar of Georgette crepe, is a charming model at \$27.50.  
And with bodice in surplice style and skirt with pleated tunic is another dress in white crepe de Chine at \$25.00.  
—Third Floor, James St.

This is Interesting

**A LITTLE** more than a hundred years ago a thin, delicate woman of thirty, living in a lonely rectory on the bleak Yorkshire moors, went into her father's study and said:  
"Papa, I've been writing a book."  
"Have you, my dear?" he inquired.  
"Yes, and I want you to read it."  
"I am afraid it will try my eyes too much."  
"But it is not in manuscript, it is printed."  
"My dear, you have never thought of the expense it will be! It will be almost sure to be a loss, for how can you get a book sold? No one knows you or your name."  
"But, papa, I don't think it will be a loss, no more will you, if you will just let me read you a review or two, and tell you more about it."  
She left him a copy of the book to be read. When he joined his family at tea, he said, "Girls, do you know that Charlotte has been writing a book, and it is much better than likely!"  
In this pithy manner Charlotte Bronte's household was made aware of her authorship of "Jane Eyre," the novel that has entranced readers of all ages and classes since the day of its appearing. The fact that the 24th of July marks the centenary of the death of Charlotte Bronte should revive our affection for "Currer Bell," if only to the extent of including among our holiday books that ever interesting biography Mrs. Gaskell's "Life of Charlotte Bronte."

### RAILWAY ACT NOT ENFORCED

(Continued from Page 1).  
The Anti-combines Act and Elections Act had become dead letters because there was no official whose duty it was to enforce them.  
Judge Mackenzie (Cape Breton), Mr. Carvell (Carleton), and Mr. Wright (Muskegon), opposed federal courts and suggested that the Railway act could be enforced in the same way as the criminal code.  
Enforcement of Act.  
When clause five was reached Hon. George P. Graham called attention to the fact that government railways were not apparently placed under the board of railway commissioners, as had been anticipated.  
Hon. Frank Cochrane, minister of railways, replied that the matter would be dealt with by amending the government railway act.  
When clause 42 was reached E. M. Macdonald (Picou) pointed out that some jurisdiction questions might arise in the enforcement of the act.  
Mr. Carvell (South York) said there were many offences prescribed by the railway act and penalties for their violation, but who was responsible for the enforcing of the act? In his opinion that responsibility should be definitely placed upon the railway commission.  
Mr. Carvell (Carleton, N.B.) objected that it would take an army of officials to enforce the law. There was plenty of machinery for its enforcement, but private prosecutors could be relied upon to set it in motion.  
Responsible Authorities.  
Mr. Maclean replied that parliament in passing a law, should provide for its enforcement. In his opinion the board of railway commissioners,

or the attorney-general of Canada, or both, should be held responsible for enforcing the railway act. He quoted Mr. Wright (Muskegon): "Do you want two sets of courts?"  
Mr. Maclean: "We may have to have federal courts. We have one or two now, and if more are required to enforce the laws that are passed I would favor creating them."  
A Contentious Clause.  
When clause 20 was reached, making the county judge sole arbitrator in expropriation cases, strong opposition developed, voiced at first by Mr. Carvell, Mr. Nesbitt, Mr. Copp (Westmoreland) and other Liberals, but it soon received support from a number of Conservative members.  
Mr. Steele (South Perth) said he did not think the county judge was always able to appreciate the full damage inflicted upon a farm by running a railroad thru it.  
Mr. Smith (South Ontario) doubted if the average judge was an expert in farm land values, or the way in which a farm might be damaged by a railway running thru it. The proposed change was defended on the ground that it obviated delay, but the delay, under our present system, was usually due to the railway company, which held off the farmer and his compensation, as long as possible.  
Mr. Sexsmith (East Peterboro) also vigorously attacked the proposed change in the law, and the clause finally stood over for further consideration.  
When the clause of the bill was reached which requires railway companies to keep the right-of-way free of weeds, Mr. Sexsmith observed that this was one of many sections which might be considered in connection with the motion of the member for South York (W. F. Maclean) for more efficient enforcement of the act.  
Bilingual Issue.  
Mr. Boulay (Rimouski) wanted the bill amended so as to require the railways operating in the province of Quebec to employ conductors and station agents who could speak both lan-

guages. No action, however, was taken.  
When the clause was reached regarding railways to pay their employees at least semi-monthly, Mr. Mr. Cochrane moved an amendment, bringing the section into effect on January 1, 1918, which was adopted.  
When the house was about to adjourn, Mr. Graham asked Mr. Cochrane, who was leading the house, what business would be brought on by the government tomorrow.  
Mr. Cochrane: "I do not know."  
(Laughter).  
Mr. Graham: "Will you go ahead with this bill?"  
"Mr. Cochrane: "I would like to go ahead with it."

### BIG FIGHTING LIKELY UPON ITALIAN FRONT

Latest Official Report From Rome Indicates Renewed Offensive.  
New York, July 15.—The Associated Press sends out the following:  
The probable recommencement of hostilities along the Austro-Italian front seems apparent from the latest official communication from Rome. Heavy bombardments have been begun along the entire front, with the Italian gunners doing effective work in destroying enemy positions at various points. In the Janina valley, the Italians, following a heavy bombardment delivered a successful raid, capturing 275 prisoners and machine guns and war material.

Special to The Toronto World.  
Niagara Falls, Ont., July 15.—The body of Mrs. Marion Lloyd Schumacher, of Orkington, Ont., victim of the George wreck of July 1, was taken from the river late this afternoon about a mile southwest of Lovellton, and three miles beyond where the accident occurred on the American side. This makes the twelfth body that has been reclaimed.

### RUSSIAN ARMY BEATS TEUTONS

(Continued from Page 1).  
The River Otus one of our scouting parties, on its arrival at the enemy's trenches, was subjected to an attack by twenty Germans. The officers fought their way back, carrying the body of a dead soldier.  
"Caucasus" front: Southwest of Guasnekanoh our troops beat off three Turkish attacks in the region of the Garran summit. In the direction of Panjwan after an engagement, we stopped a Turkish advance.  
Rusa Take Dolina?  
The occupation by the Russians of the Gallician town of Dolina is reported in a Petrograd despatch to The Idea Nazionale of Rome, as quoted in a Central News despatch from that city. The Austrian army of Gen. Boehm-Ermolli is said to have been thrown back on the Carpathians.  
The Russians also drove the Austrians out of the Village of Lofzian, in the Lomnica River region, and retained possession of the eastern end of the town. Northeast of Kalusz the Germans began an attack this morning. The Russians threw them back.  
Dolina is an important Gallician centre, 22 miles southeast of Strzy, and about 15 miles southwest of Kalusz. It is on the right bank of the Lomnica River, which lies 20 miles to the north.  
Much Artillery Activity.  
The evening communication issued by the German War Office says: "On the Russian front the artillery activity has frequently been of a lively nature."  
On the eastern theatre there has been no fighting activity of importance.

# Alleged Profits of The William Davies Company in 1916 on Bacon, as Indicated by Department of Labor to be Five Cents per Pound, Untrue: Actual Profits Two-Thirds of a Cent Per Pound

THE statement issued by the Department of Labor concerning the business of The William Davies Company Limited has been given widespread circulation throughout the country and provoked public unrest.

Whatever the technical wording of the report was, the effect has been that the newspapers have published that "the profits on Bacon alone" of this Company "for 1916" were about "five millions of dollars." This interpretation of the official report is not surprising in view of certain statements that the Commissioner of the Cost of Living makes. The Commissioner is reported as saying that "There were two individual cases of profiteering in 1916 and that had these cases occurred since the passage of the cost of living Order-In-Council, he would consider it his duty to recommend that the facts be laid before the Attorney-General for consideration as to their criminality." The situation created by such erroneous and damaging statements is serious as emanating from a Government official, from whom one looks for not only accurate statements but correct conclusions.

The William Davies Company, being a private concern, has followed the practice of all private corporations, except when it made a bond issue in 1911, in that it has not published reports of its assets and liabilities or profit and loss. The present circumstance, however, in which a Government Official has led the public to false conclusions, makes it advisable for this Company, for both the public interest and its own interest, to publish particulars of its business as well as point out the error of the statement of the Government Official.

For the last fiscal year ending March 27th, 1917, The William Davies Company bought and killed 1,043,000 head of Live Stock (Cattle, Hogs and Sheep). This, plus purchases of outside Meats, produced 160,000,000 pounds of Meats. The Company handled 6,550,000 pounds of Butter and Cheese, 5,650,000 dozens of Eggs, and manufactured 26,500,000 tins of Canned Goods. The net profits on these were .68 cents (or two-thirds of a cent) per pound on meats, 1.04 cents on Butter and Cheese, 1.04 cents per dozen on Eggs, and .47 cents (or slightly less than one-half a cent) per tin on Canned Goods. These profits include profits on all By-Products derived from these accounts.

During the year the Company served at its retail stores 7,500,000 customers, the average purchase of each customer was 35c, and the net profit upon each sale was 5-8 of 1 cent. The turnover of the Company from all its operations for the last fiscal year ending March 27th, 1917, was \$40,000,000. The net percentage of profit upon this turnover, after deducting war tax, was 1.69 per cent, or including war tax 3.45 per cent.

The William Davies Company has assets of \$13,385,000, of which \$3,865,000 is tied up in fixed investments. To provide the necessary facilities for the increased volume of business the Company expended \$750,000 in buildings and equipment during the year. Companies of other character present no more reasonable statement of profit and loss based upon the investments made in the business.

The William Davies Company offered to the Imperial authorities, as well as to the War Office Service (which represents the Imperial authorities in Canada) to place the output of its Factory with respect to Bacon supplies, Canned Beef and Pork and Beans at the service of the authorities, on the basis of cost plus an agreed percentage. These offers were successively declined as the authorities evidently desired to purchase in the open market, and on this basis The William Davies Company has secured War Office business by open competition with the world.

## Respecting the Report of the Commissioner on the Cost of Living:

Last Winter the Commissioner, under authority of Order-in-Council, required packers to submit statements under oath for some years back and up to December 1st, 1916, of incoming stocks of Meats and the cost of such, as well as statements of outgoing product and the selling value. This Company represented in writing at the time that the information as specifically required was not in accordance with Packing House Accounting methods, and invited the Commissioner to send an Officer to the Head Office of the Company to examine the books for any information desired, and to secure a viewpoint as to the best way of collecting data which would be of use to the Government. This offer was declined, and there was nothing to do but fill in the information required as literally as we could determine it. For example, there was no recognition of the fact that a raw product may enter a factory under a specific classification and leave the factory as a finished product under some other classification.

We submitted a series of accurate figures based upon our interpretation of the official requirements which made no provision for charges of any description other than incoming freight and unloading charges to be included in the cost or to be deducted from the selling price. There was nothing in the report which could be read so as to determine a profit and loss statement. The very fact that with only a statement based upon cost of raw products and value of sales in Great Britain a Government Official has deduced "Large margins," "Profiteering" and "Criminality" if it had occurred since the passage of a recent Act, shows too dangerous a trifling and incapacity to be permitted to deal with any important situation. The statements of this Company have been treated by the author of this report as if the outgoing product was identical with the incoming product, and from the series of reports he has singled out two items—the Bacon and Egg reports—and from them deduced an erroneous "margin" which the newspapers have interpreted as "profit." The author of the inquiry shows a

strange lack of even a fundamental knowledge of simple bookkeeping and a dangerous inability to co-ordinate figures. The following are specific and outstanding errors in the report:

The principal item that is causing excitement deals with cold storage Bacon. The term "cold-storage" is not defined, and the public is allowed to make its own definitions. As all Bacon in a packing house is under refrigeration it is really all cold-storage, and therefore this Company's figures of cold-storage Bacon represent the complete quantity of Bacon handled in its entire Plant, whether in freezers or in process of cure for immediate shipment. That some Companies interpreted cold-storage product as "freezer" product only is evidenced by the smallness or entire lack of figures on the Bacon list for some Plants, indicating that many Firms did not submit statements of their complete stocks, as did this Company. An Official of this Company pointed out this cold-storage distinction to Mr. O'Connor and Miss McKenna in Ottawa a few weeks ago, and the failure to make the distinction after having had it pointed out evidences lack of desire for accuracy of the real information desired.

It is true The William Davies Company, in 1916, exported 97,791,000 pounds of Bacon, but we do not know how the margin of 5.05 cents per pound is arrived at by Mr. O'Connor, as there were no figures to justify such a conclusion. The probabilities are that the margin is arrived at by taking the average cost per pound of incoming product from the average selling price per pound of outgoing product. This may be a rough way of estimating the gross margin when dealing with small figures, but when dealing with figures the size that Mr. O'Connor has to deal with, a very small fraction of a cent per pound of error makes a very important difference in the total, and one must be careful to make sure that the outgoing product is the same finished merchandise of the incoming product reported on.

Allowing it to pass, however, as a rough esti-

The Company does not challenge either the legal or moral right of the Government to investigate business enterprises when public interest directs such an investigation should be made. If an investigation of the packing and meat business is ordered, the Company will place at the disposal of the Government not only the data it would be required to supply under Order-in-Council directing that inquiry be made, but will place the experience of its officers at the disposal of the investigating committee, if it is considered they can render any service which will be of value. The Company has not now—nor at any time during the fifty years of its operation—anything to conceal in method or practice of carrying on its business. It does, however, claim the right to conduct its export business without abusive comment from Government civil servants—especially when the conclusions drawn from the data asked for are improper and false.

One of Canada's chief export industries is the packing business. It is essential to the live stock industry, and, along with other export industries, it maintains the financial stability of this country and should, providing it is on a sound basis, receive encouragement and not slanderous abuse. In view of the publicity given to the report of the Commissioner on the cost of living, the Company demands the same publicity in having an official Government investigation of this report to determine the truthfulness or untruthfulness of its conclusions. We do not seek public consideration as a company, but we do say that untruthful official statements, or statements the effect of which is to create an untruth, adversely affect the live stock industry of this country, which is so valuable and essential a wealth-producing power and, in the long run, are harmful to the very people that the statement seeks to benefit.

If the passing out of existence of a corporation such as The William Davies Company, or if nationalization of packing houses would materially and permanently reduce food prices, into consumers because of war, and the tremendous destruction of food products incident to war, there is no remedy for the high prices of food while such conditions last, except the remedy of thrift and increase of production.

Long before there was talk of a Food Controller in the United States or Canada The William Davies Company urged the Government at Ottawa, in writing, to appoint a Food Controller with full power to do what he saw fit, as we realized at that time the upward tendency in the price of food commodities unless checked by official effort. At the most a great deal cannot be done in reducing food prices while currency is inflated and until the scale of prices of all kinds of commodities declines also. What can be done can only be done by a Food Controller. We wish to point out that nothing at all can be accomplished unless the data secured are accurately and clearly made and the deductions therefrom sound. Only public harm arises from dangerous incompetency in the haphazard collection and careless use of important figures.

As far as The William Davies Company is concerned this terminates all public statements of the Company, and it will pay no more attention to speculative and haphazard-statements made either by newspapers or civil servants. The only further statement that will be made will be at an official investigation.

Toronto, July 17th, 1917.

mate, we wish to point out—(first)—the inquiry of the Commissioner allowed only for incoming freight and unloading charges, and made no provision whatsoever for operating charges of any kind, such as labor, curing materials, refrigeration, et cetera. Such actual charges on the 97,791,000 pounds exported were \$1,162,000—or 1.2 cents per pound. This amount covered all charges up to the point of placing the Bacon on cars f.o.b. packing-house. In addition to this was the actual cost to land and sell this 97,791,000 pounds in England after leaving the packing house, which involved charges of 2.9 cents per pound—or \$2,836,000. This 2.9 cents per pound included inland and ocean freight, landing charges, war and marine insurance, cables, and selling commission to agents. The ocean freight and war risk alone would make up 2.4 cents of the charge of 2.9 cents per pound. This 1.2 cents, plus 2.9 cents—a total of 4.1 cents—must be deducted from Mr. O'Connor's margin of 5.05 cents per pound, leaving a margin of .95 cents, or slightly less than a cent per pound, which still has to be reduced because of the error of premises and because of further factors which have to be considered to determine net profits.

It is quite evident some of the other packers did not show selling values in the country in which the goods were sold—a proceeding quite proper, as the forms submitted to be filled in were indefinite and ambiguous, thus permitting without charge of evasion a variety of interpretation as to the information required. It is thus possible that of all the figures submitted by the different packers that no two sets of costs and sales prices are determined at the same common point. It is this difference of interpretation of what was required that accounts for the difference of the alleged "margin" made by the different companies. Common conclusions, however, have been drawn by the author of the report from varying bases of premises.

The figures of the Egg business were submit-

ted on the same basis as Bacon, and similar deductions must be made.

(Second)—The above margin is further reduced in that the author of this inquiry singled out the Bacon figures as an item in which the selling price shows an alleged improper advance over cost, but he did not give us credit for the statements of other products, of which figures were under cost. The reason of this was that through failure to inquire the Department entirely overlooked the fact that product may come in as pork and, through the process of manufacture, go out as Bacon, or, in another instance, enter the factory as beef and go out in the form of canned meats; for example: much of the product which came in as pork, and which was entered on the pork sheet submitted to the Commissioner—about which he makes no mention—was cured and left the factory in the form of Bacon, and was, therefore, entered on the outgoing side of the Bacon sheet—the result is that the Bacon sales are increased by this amount over the incoming stocks of Bacon, and, likewise, the sheet showing sales of pork is reduced by the amount that went out in the form of Bacon. If the Department takes one set of figures that show favorable to the Company they should take another set of figures that show unfavorable, as the principle in either case is the same, and failure to do so looks as if the author of the report was exercising more enthusiasm than sound judgment in his investigations.

(Third)—It is queried in the report, that "if the margin of 3.47 cents," alleged to have been made in 1915, "was satisfactory, why was it necessary to show increased margin in 1916?" Assuming again for the moment the soundness of the premises in asking such a question based on an erroneous "margin," it will be found that the increased margin is chiefly absorbed in increased ocean freight rates and war risk insurance in 1916, of which apparently the author of the report was in ignorance.

## Health and Beauty Aids

Dearie: Yes, I believe men all recognize a "made" complexion. Throw away your powder and rouge and use a plain spumax lotion. Then you will have a complexion of which you can feel justly proud, because it will be real as well as beautiful. To prepare it, dissolve four ounces spumax (which you get from your druggist) in one-half pint witch hazel or hot water. This lotion cannot be detected when on, and its regular use banishes lines, blotches, pimples, blackheads and sallowness. The spumax is so all that is necessary to make them feel strong and look bright. If the lids are red or inflamed, try soaking dabs of absorbent cotton in the tonic, and laying them on each eye.

Healthy condition you will be free from the bilious attacks, the obstinate headaches, and the pains in small of back and legs. To prepare this tonic I get one ounce karene from druggist, and put it into one-half pint alcohol (never use sugar and hot water to make a quart. The dose is a tablespoonful before meals. The karene tonic is excellent to clear the skin of pimples, blotches and sallowness, and it timely use frequently saves doctor bills.

**MRS. VAN KOUGHNET JOINS HOSPITAL COMMISSION**  
Appointed to Co-ordinate Voluntary Effort in Production of 'Soldie.' Confections.

Mrs. Arthur Van Koughnet's excellent work along the line of soldiers' comforts has received official recognition in her appointment by Sir James Lougheed, president of the military hospitals commission, to the office of the military hospitals commission in Military Districts 1, 2 and 3. The work which the appointment carries with it, is the co-ordination of all voluntary effort in connection with the supplying of the many special comforts which are being supplied to the men in the hospitals within the territory named.

Since the beginning of women's activities at the opening of the war, Mrs. Van Koughnet has given herself unsparringly to supplying the wants of the men, not alone on this side, but to thousands overseas. This she has done thru the Conservative Women's Club, of which she is president, and thru many other societies whose members she has inspired by her own devotion and self-sacrifice. The ground she now officially covers, has been covered by her, more or less, even before her appointment, and the affection she inspires and confidence felt in all her suggestions by workers everywhere, ensures that her activities in the future will meet with the utmost co-operation and success.

#### No Moral Advance in Germany.

Grave beyond anything in its previous history are the developments now unfolding in Germany. The political pot is boiling over. The situation is entirely out of the hands and beyond the control of the Kaiser. That he sent for the crown prince is evidence of this. Only an emergency beyond the wisdom or the conceit of the "All Highest" would have induced him to call the "All Lowest" into council. And what may be thought of the situation when the "All-Lowest" proceeds to dominate it? The presidential returns and brings the hawk-feeders with him!

As long as Bethmann-Hollweg retained his position he was a sort of pivot around which many clashing interests revolved. There is no real devotion to principles in the Kaiser's Germany. The fatherland has excited much devotion, but the inspiring motives of German action and the binding force in German politics previous to the war was community of interests. While these were spread with approximate fairness all went well. Just the moment it became apparent that Prussia was getting more of the profits and less of the losses, it was inevitable that the minor partners in the German enterprise would protest. The power of protest in Germany does not appear to be what it once was, but despatching may well teach men new virtues, and the villainy of Prussia is beginning to look to Bavaria, Saxony and also to Austria in something of the color it presents to neutrals and enemies.

Bethmann-Hollweg was the author at the opening of the war of the querulous plaint to the British Ambassador, "Surely you would not go to war for a scrap of paper?" There was no moral principle behind his diplomacy, any more than there was in the imperial policy he represented. In human affairs moral principle always wins out in the long run. It is the distinguishing human quality. Having got rid of moral principle and abandoned all scruples which the development of the race had imposed on those of distinctly higher evolution, it would have ensued a more calamitous had the non-moral and unscrupulous element proved victorious. A large number of people outside Germany, as well as in it, describe this as a canting attitude. They also, like the ex-chancellor, are unable to perceive the values involved in a scrap of paper. It is true that there are some who believe in following what looks like the moral path simply because "morality is the best policy." This is the true canting attitude, and those who are thus moved will never make sacrifices nor sustain losses for their alleged principles. Unless it is a best material policy, honesty does not commend itself to them.

The whole world felt the uplift when the United States was able to see that whether a better material policy or not, no great civilized nation could stand apart from the conflict whatever the cost or the losses, and let the humane ideals of liberty, justice, and protection for the weak, perish in Europe.

We do not believe that Germany has yet awakened to any moral consciousness. The appeal of the "best policy" may have weight in some minds, but the changes that have been made indicate no alteration of heart in the Hohenzollern leadership. The most powerful argument in the Kaiser's mind has been presented recently by the Russians. The British also submitted some solid contentions at Vimy Ridge and Mesines. Sane Germans are wondering if honesty is the best policy, but the Kaiser has not got beyond the canting stage, and he has only hardened his heart, and called for another miracle either east or west. The British have one in preparation, but the Kaiser will not yield till the cry of the first born slain goes thru the land.

Notifications Wanted of Changes in Names, etc., of Large Corporations and Institutions.

The Didot-Bottin Annual Gazetteer are now revising the Canadian section of their world-famous gazetteer, and would appreciate information from leading firms and financial institutions, etc., where recent changes in name or address have occurred. Firms seeking correspondence from Europe are especially invited to communicate with the Canadian office, so as to assure a proper entry in these directories. Kindly address: Canadian office of Didot-Bottin, 432 Birk's Bldg., Montreal, Que. The Didot-Bottin gazetteer comprises five large volumes and appears yearly. It is the standard reference book in France, and is approved by the French Government.

#### REAL ESTATE NOTES.

Building permits issued yesterday: Canadian Harbour and Van Winkle Company office building, 113 Bloor avenue, \$5000; S. L. Wilson, private garage, 2 Parkwood, \$600; Imperial Oil Company, oil-storage exhibition building, Centre street, \$3800.

#### OTHER PEOPLE'S OPINIONS

The Toronto World invites correspondence on subjects of current interest. Letters must be short and to the point—no more than 200 words at the outside. The editor reserves the right to cut any letters that make them conform to space requirements. Names will not be published if the writer's name and address, to ensure authenticity.

#### Europeans First.

Editor World: As a believer in conscription let me make a suggestion: There are in Canada over 300,000 eligible men who should be called up first, irrespective of anyone else. These are the men born outside of Canada—Englishmen, Irishmen, Scotchmen, Italians, Belgians, Rumanians, Greeks, Serbians, Portuguese, Americans and others. Any man from 21 to 45, physically fit, coming from any of the above countries now in Canada, some of whose homes are being devastated by the Hun, should be sent first. Married or single, all should be called upon. Many of these men came here in order to escape military service in their respective countries, or have done so by being residents of Canada at the outbreak of war. There are also men born in the enemy's country here. These men should be sent first under this heading. The above plan, I submit, will do away with a lot of opposition to the conscription bill. It is not just the army and second draft under the proposed act will be sufficient. If that is the case, then many of these men who came to Canada in order to escape conscription will have succeeded in accomplishing their aim. By conscripting the men in above class first, no objection can be raised by the native-born Canadians.

#### SOLDIERS' COMFORTS.

Contributions to Toronto Women's Patriotic League Thankfully Received.

The comforts department of the Toronto Women's Patriotic League, 30 King street west, reports the week's shipment of supplies and comforts to the Canadian War Contingents' Association, Canadian Field Companies' Commission and Queen Mary's Needlework Guild as follows: 1,085 pairs socks, 88 service shirts, 22 suits gaiters, 10 suits pyjamas. Also wash cloths, towels, pillow cases and yarn. In money, \$12.50.

Warm thanks were expressed for the large number of bound volumes of "The Soldier's Friend" sent to Camp Borden, Whitley, the Military Orthopaedic Hospital, and to the chaplains' canteen at the front. The catalogue also reported that the little red wagon presented by the Women's Patriotic League, Oakville, for one of the double amputation cases, and the furniture presented by the North Toronto Red Cross Auxiliary have been much appreciated.

#### GIRL HAS DISAPPEARED.

Left home late in the evening to go to her, 16-year-old Jessie Grey, 22 Millicent street, disappeared from her home for four days, and has not since been seen. The mother is a widow, and she and her daughter have always lived amicably together. Miss Grey left her place of employment, the Canadian Bag Co., 100 Paton road, on July 12. She told the foreman that she was ill, and he advised her to go home. She has been absent for about three weeks. At the time of her disappearance she was wearing a wine-colored cord suit made in a Russian blouse style, a large white hat, and with grey eyes and wears glasses, and is about 5 feet 4 inches in height. The police are searching for her.

#### RIFFLED THREE CHURCHES.

Sixteen-year-old Boy Confesses That He Robbed Churches.

Consequent on numerous complaints, Norman Williams, a 16-year-old boy, was taken into custody in the basement of St. Cyprian's Church, Sunday night, and appeared in the police court yesterday on a charge of breaking into and stealing various sums of money from three churches and one private dwelling, namely: The Church of St. Mary the Virgin, 327 St. Cyprian's, \$1.53; Bloor Street Presbyterian, \$1.00, and the home of F. Fairbank, 2366 St. George street, \$4.25. Williams confessed to entering three churches. He was committed to the Ontario Reformatory for six months and then indefinitely.

#### FINED TWO HUNDRED.

Plainclothesmen Forbes and Dunn found a dozen bottles of liquor and about 300 cigarettes at the lodging house of Mike Hourgan, Strachan avenue, and yesterday, in the police court, he was fined \$200 and costs.

#### GO TO SOUTHAMPTON.

Lieut.-Col. and Mrs. A. E. Belcher are leaving the city today for Southampton, on Lake Huron's shores, for a few weeks' rest and holidays. Southampton is Lieut.-Col. Belcher's old headquarters, where he was for many years active in politics and municipal affairs.

#### MAYOR IN OTTAWA.

In an endeavor to prevent a shortage of coal in Toronto during the coming winter, Mayor Church consulted with Sir Henry Drayton in Ottawa yesterday. He will be joined today by Commissioner Chisholm.

### WINIFRED BLACK WRITES ABOUT Making Duties Pleasures

A San Francisco woman builds her own houses and lets other people live in them. No, I don't mean she gets an architect and a builder and a contractor and some carpenters and bricklayers and lets them do it. She does it herself—every nail and board and shingle, every hammer and saw and chisel that touches that house is hers, and hers alone. She climbs up on the roof and shingles and she gets down on her hands and knees and puts in a flooring, she makes her own plans and has the time for her life every minute that she's at work.

"Why not?" asks this young matron who is nimble and graceful as a kitten, bright-eyed with a roguish smile, and who has as nice a pair of well-shaped, capable hands as you ever saw or ever dreamed of seeing.

"If I didn't do this," she says, "I'd be washing dishes, hemming dish towels, making blue roses on green sofa pillows, or changing my dress three or four times a day, and saving some woman who's half-garlic in the salad for lunch rub my head, marcel my hair or do something."

"Come on up here on the top of my ladder and see my nice little clean shingles all in a row, just as neat as wax. They're going to save the rain off from somebody's head. Look at my nice, clean, curly shavings! Ever pin 'em on for curls when you were going to 'stay' at the hotel? Take a whiff of 'em. Don't they smell woody and outdoorsy and new and nice?"

"Look at my floor down there! That's just the temporary one going to be oak raly. Wait till you see the fireplace. Isn't it funny some people think they're lucky when they don't have any fireplaces at all?"

"Queer, my being a carpenter and builder, architect and contractor? I don't see anything queer about it. Don't men wash dishes, make tailored suits, run sewing machines, shell peas and cook? Why can't I step into a man's trade if I want to? Answer me that!"

"I hate dish washing. It's so messy, and then you never get anywhere with it. No matter how many pieces you wash on Monday or how well you do them, you've got them all to do over on Tuesday. You can never look at them and say, 'There I got on that. No, thank you, no dish washing for me.'"

"For Duty, Yes."

"Take a nail, now. There it is, all new and shiny in the box. 'Come out, Mr. Nail, there's work for you to do. Tap, tap, tap, hammer, hammer, in you go and in you stay, right as a rivet. I'd like to see any kind that blows you out of that board. I'm for the hammer and nails every time; let somebody else be for hot water and dish rag.'"

The houses that this San Francisco woman builds are not only interesting, as the architects say, and pretty, but they are practical and good all the way thru. Long may she flourish in her trade—yes, and every woman, too. There's no fun in the world like doing a piece of work and doing it well. Wash your dishes, take a nice, big, shiny dishpan full of plenty of hot water, and you have all the soap you want; dozens of dish towels and pretty dishes. Rub them out and make them shine. What fun! But every day, three times a day—there's no time to play. You're not doing it for duty, and a thousand times, yes.

If it were my business to wash dishes, I wouldn't grumble about it. It would be a relief. It'd be a relief to do and the good sense to do it as well as it could possibly be done.

### WHY CHARM IS GREATER THAN BEAUTY

BY LUCREZIA BORI

"Charm cannot be cultivated. It is born with a person, just as lovely eyes or a perfectly shaped nose cannot be cultivated." This is the decided opinion of a woman who is famous for her charm. It is the woman who is always smiling and is so friendly to all who meet her.

There are some faces that nature must have a sweet, serious expression, therefore it is not natural for them to wear a "company smile." The animated, laughing countenance of a Latin beauty.

Always be Natural.

There is also a great deal of charm about naturalness and comfort in dress. The woman who is able to sit down and assume an easy, graceful position and to remain so until it is really necessary for her to move, is a far more pleasant companion than one who fidgets and moves about as if she were a firecracker that she has just set off.

Then there are others who rob their speech of its natural charm by affectations. They dress up their conversation with phrases that have soundness and sense when spoken by others. Your own words should be as simple and direct from the charm of your personality.

In this, as in everything else, be natural. Say what you mean in words that come most naturally to you.

The charming person must be adaptable. She must "fit in" well upon all occasions. This is not to mean, however, that she must affect poses. For instance, if she visits people of quiet, intellectual tastes there is no need for her to put on a high, serious-minded blue-stocking if she is of a sunny, happy-go-lucky temperament, nor will it add to her charm to pose as a being of a frivolous and superficial nature when nature intended her to be of the sincere "womanly type" of femininity that inspires confidence and respect.

Never assume a pose if you want to be liked. Just be yourself. Your own niceness and friendliness will be given off by you, and you will be attracted to you. Your "seedling" charm will have a chance to grow. A charming personality can be developed by discarding the artificialities of manner that keep us from being natural.

### Some of the Really Delicious Ways to Prepare Tapioca

By ANN MARIE LLOYD

Tapioca is one of the most valuable foods, especially for invalids and small children, and it has the additional merit of being one of the few things which do not disagree with an irritable stomach.

But very few persons seem to know how to prepare it properly, and there is no comparison between tapioca prepared in ordinary fashion and the deliciously smooth, jelly-like substance of it when well cooked.

If by any chance you suffer from indigestion, and find that everything seems to disagree with you, try taking tapioca prepared in the following way for your evening meal:

To Cook Tapioca.

First soak the tapioca in stone-cold water—two ounces in a quart for 24 hours. Then cook it for quite two hours in the water it has been soaked in, using a double saucepan. The most delicate Tapioca pudding can be prepared like this, and it is wonderfully nourishing.

If you wish to make it more nourishing still, add a beaten egg, and, after cooking in the double pan, bake in the oven in a pie dish, only just long enough to set the egg.

Cold tapioca is delicious. For this, pour tapioca, prepared as above, into a mold previously well wetted. Any stewed fruit rubbed thru a sieve can be added, if you like, and it improves the flavor and appearance.

For children there's no more wholesome supper than apple and tapioca pudding.

Soak the apples separately, then carefully remove all skin, core, etc., and whip up with the tapioca cooked as above.

Or cook the tapioca in the double saucepan for only one hour, and then peel and core the apples, put them in the pie dish, fill up with tapioca, and bake for three-quarters of an hour.

In this case it may be necessary to add a little more water to prevent the tapioca from getting too dry.

### RECRUITING FALLS AT THE ARMORIES

Monday's Enlistment Total Considerably Below the Usual Average Number.

### HOTEL OUT OF BOUNDS

Order From Military Headquarters Debars Soldiers From Tremont House.

Recruiting at the Toronto mobilization center yesterday touched the lowest point for a Monday for a good many weeks, only 40 enlistments being recorded, a falling off of \$7, as compared with the corresponding day last week.

Thirty-five of yesterday's recruits joined the C. E. F. units and 14 the Royal Flying Corps. Three volunteers arrived from the United States, two of them joining No. 23 Railway Draft and one the 10th Regiment.

The recruits enrolled with the C. E. F. were credited to the following units: York and Simcoe Forestry Draft, 11; Army Medical Corps, 8; No. 23 R.R. Draft, 4; 10th Regiment, Royal Canadian Dragoons, Canadian Engineers, and V. of T. Overseas Co., each 2; Royal Grenadiers, 45th Highlanders, Army Service Corps, and No. 14 Railway Construction Draft, each one.

The 10th Regiment members are to go to the Long Branch Rifles Barracks for target practice, and the members of the other units to the various military headquarters.

A complete turnout of the regiment is expected. Last night the 10th held regular weekly parade at the Pearl Street Armories, under the command of Capt. A. J. Roden, "A" and "D" Companies marched to the University Avenue Armories for rifle practice, and "B" and "C" Companies paraded to the ranges at the Hart House, in Queen's Park.

Orders issued thru military headquarters at Camp Borden have placed the Tremont Hotel out of bounds for target practice of the members of the Ontario Licensure Board, states that the trouble is not with the soldiers or the hotel management, but that boot-leggers are responsible for the trouble. The license board is of the opinion that the hotel has been doing everything possible to conduct the business properly, but that it has been unable to exterminate the boot-leggers who flock around the lane and serve bottles to the members of the board.

Six recruits for the H.M.C.S. Noble left Toronto last night for Halifax. Four entries for the navy were signed on yesterday at the Bay Street Depot of the Royal Naval Canadian Volunteer Reserve. Two will serve overseas and two with the Atlantic Coast Patrol.

Senator James Loughheed of the military hospitals commission was in Toronto yesterday making a tour of inspection of the various military hospitals. He was escorted by Lt.-Col. R. S. Wilson, commander of "D" unit military hospitals commission.

Pte. Patrick Arthur Sullivan, who went overseas to England as a member of the 7th Battalion, was reported seriously ill at the Aldershot Hospital last August and invalided back to Canada, died yesterday at St. Michael's Hospital, from chest trouble.

Inspector J. J. Sweeney, who was born at Ennismore, Ont., 27 years ago.

### ADULTERATED BORAX.

In the afternoon police court yesterday, John Childs, 14 East Queen street, was fined \$44.85 for selling adulterated borax. Inland Revenue Inspector H. J. Dager produced a certificate of analysis showing the powder to be adulterated with 24.27 per cent. of carbonate of soda.

Childs contended that the inspector did not ask for "pure" borax powder, but simply borax powder. His defence did not help him any.

### WARM WELCOME FOR OVERSEAS MEN

Hundred and Thirty Arrived at North Toronto Depot Yesterday.

An enthusiastic welcome was accorded the party of 130 returned soldiers who arrived back in Toronto yesterday morning, hundreds of relatives and friends, and the brass band of the Queen's Own Rifles, taking part in the reception ceremonies. Seventy of the returning party of war veterans were Toronto men. Motor cars and three special street cars were used to take the soldiers from the station to Spadina Military Hospital.

The official welcome to the war heroes was tendered in the Spadina Hospital Auditorium, addresses of greeting being given by Controller Cameron, Aid. Ryding, Aid. Beamish, Aid. MacGregor, Rev. Major Dixon, Rev. Dr. Turnbull and Serg. William Turley.

Of the 130 men who returned yesterday 49 were recommended for hospital treatment, the remainder for light duties at Camp Borden, and the rest discharged.

Prominent among the heroes in yesterday's contingent was Sgt. Rowley of New York, who was awarded the Military Medal for gallantry displayed when he went out into "No Man's Land" with several other soldier companions to look for the bodies of Lieut. H. DeVin and Lieut. H. Howard. These two Toronto officers had gone out in a trench raid party the previous night, but had never returned.

At the recent convention of the postal clerks in Winnipeg, a request for an increase of wages was sent to the Dominion C. Government. As a result the following increases have been granted by the government to 480 postal clerks in Toronto:

- Third class—\$600 first year, with increase of \$100 a year till \$1000 is reached.
- Second class—\$1800 to \$1400.
- First class—\$1400 to \$1800.
- The increase of \$1000 a year should be paid as follows:
  - Third class—\$600 to \$1200.
  - Second class—\$1200 to \$1800.
  - First class—\$1800 to \$2400.

### OPPOSE EXEMPTION CLAUSE.

At a meeting in the lodge room of the Royal Socialist Chapter, West Toronto, the following resolution was passed:

"We, the members of the Western Socialist Chapter and Northern Socialist Chapter, now in session assembled, note with profound regret in the daily papers the proposed clause in the conscription bill, viz.: 'Exemption of divinity students from military service.' This is lamentable, because all men of military age and physical fitness are required today to defend their country and oppression. We, therefore, respectfully request that this clause be eliminated from the conscription bill."

### FLAG DAY RETURNS.

It is expected that the returns from French Flag Day will amount to \$18,000. Cheques received since last publication are \$50 from the Oakville Women's Patriotic League, and \$55 from the Goldsmith Stock Co.; Mr. W. H. Johnston, \$100; W. G. **LOOK FOR COALITION.**

Then Sir Wilfrid Laurier interposed. "I am ready to do this," he said, "and my mind on this subject is made up. However, I am glad that the government has acceded to the request. This is a free parliament, and every member of it has a right to freely express his opinion."

This closed the discussion. The extension of the resumption may come up tomorrow or it may go over for several days. The government supporters are ready to vote it thru, and the conscription Liberals will no doubt rally to their support. Whether the government seriously intends to ask the British Parliament to amend the B.N.A. Act or shortly appeal to the people, no one is able to say. The general opinion still is that a coalition government of some kind will be formed, either in the event of an election or an extension, but as to the details of the arrangement or the personnel of the new government no one seems to have any definite information. The conscription Liberals are at any rate organized and ready to negotiate. They are to caucus again tomorrow, and will then probably state to the government, the terms upon which they will vote for an extension of the parliamentary term.

**TROUBLES OVERCOME**

Suffered All Winter With Catarrh — Is Delighted With Improvement.

Mrs. Elizabeth Wilson, who resides on Harding avenue, Weston, and is in the employ of the Canadian Government as inspector of munitions, is another Toronto woman of culture and refinement whose deep sense of gratitude and desire to benefit other sufferers will not permit her to remain silent in regard to the wonderful results she obtained through the use of Tanlac. Mrs. Wilson has lived in Toronto for twenty years. Her statement follows: "Since the early part of last winter I have suffered a great deal with catarrh. My nasal passages felt raw and irritated all the time, my throat was dry, and my head felt stopped up—just like a severe cold. I had dull, throbbing headaches that kept me awake at night, and I was generally and was dreadfully nervous. The least little noise completely upset me, I often had trembling spells, and would shake all over. I had no appetite, and the little I ate disagreed with me. I simply felt miserable, and some days I just had to quit work and go home.

**ROBINS PLAYERS IN CLEVER COMEDY**

Give Merry Presentation of Post's Bright, Three-Act Farce.

A large and enthusiastic audience applauded and laughed over the revival last night at the Royal Alexandra by the Robins Players of Will H. Post's three-act farce, "Never Say Die." There is an absurd air of reality about the whole production which makes the most popular play in the plot seem quite natural, and this most successful piece was given a performance that could scarcely have been bettered. Miss Helen Travers and Miss Virginia Fox Brooks were especially noted for their acting, very charmingly. Miss Travers has shown herself highly versatile, and she was especially noted for her acting as Stevenson. There is a pretty scene between mother and daughter, and the heroine of the play, Violet, wishes to marry a penniless artist, and her mother does not wish to approve, having a wealthy match in view, but she consents.

**RACING MELODRAMA FEATURES GRAND BILL**

Big Scene in "The Whip" is Collision of Express Train and an Automobile.

The picturization of "The Whip," the English spectacular racing melodrama which caused such a furore when produced on the legitimate stage some years ago, is being presented again at the Grand Opera House. It has been said that the film is more thrilling than any other melodrama reproduced on the screen, and there is little doubt the assertion is true. Certainly it is the best picture of its kind seen in Toronto.

**MADISON BLOOR AT THE HIPPODROME**

Is Leading Feature of an All-Round Good Bill Presented This Week.

Lianne Carrera, the daughter of Anna Held, heads the bill at Loew's Theatre this week. She appeared before large audiences yesterday, and her recital of the French version of the American song, "Joan of Arc," written by herself, and her rendition of a song made famous by her mother, were both received with much favor. She had an able assistant in the person of Eddie Lowrie. Those who knew her mother say that Miss Carrera resembles her, having her famous eyes, figure, accent and voice.

**MARY PICKFORD AGAIN AT THE REGENT THEATRE**

Famous Star Appears in Play Dealing With Days of California's Gold Rush.

Western days in California in '49, the year when men gave their lives to the gold, are being dramatically staged in the screen shown at the Regent yesterday afternoon, with Mary Pickford in the role of Jenny, Lawrence Brown in the role of "Black" Brown, leader of a gang who rob other men of the gold for which they have honestly toiled, as co-star of the play, and Elliott Dexter as "The Chief," an orphan bequeathed a fortune by an uncle who has gone to the eldorado of the west. Obeying the wishes of her mother, the girl leaves kindly aunt and other kindred, and starts on her long voyage, alone and unaided, to the gold fields. "Black" Brown, in addition to taking the gold of the cabin of the ship, installs himself in possession when Jenny arrives. How the girl is rescued, and how she eventually saves by a most unexpected use, are all brought out in the story.

**COMEDY AT SCARBORO.**

An admirable comedy bicycle act, provided by the Imperial Troupe, is the feature of the open air vaudeville show at Scarborough Beach Park this week. The evening concert by the various city military organizations are also a strong drawing card, while the moving pictures in the open air attract their full quota of admirers. The films are carefully chosen and changed frequently.

**Eczema on Hands**

Eczema is usually aggravated by the application of water, and more particularly in the fall and winter, when the water is cold, many suffer keenly from itching, stinging eczema on the hands.

Dr. Chase's Ointment has proven itself the most effective treatment obtainable for eczema, and on this account has enormous sales. It affords relief from the itching and burning almost as soon as applied, and with persistent use heals and cures.

Mrs. W. G. Dowden, Greenspond, Bonarville, Man., writes: "I suffered with eczema on my hands, and for eighteen months was so bad that I could not use a needle to sew or do anything. I could scarcely dress myself. Though I had lots of salves and ointments, I could never get much benefit from them. Then I sent for a sample of Dr. Chase's Ointment, and found it very different in action. It was not long before my hands began to heal, and four 60c boxes made them well. I cannot praise Dr. Chase's Ointment too highly, and frequently give some to others to get them using it, for I know that it will cure."

**FRENCH GAINS FOIL GERMANS**

(Continued from Page 1).

ever received during the war. The Germans poured avalanches of high explosives on the French positions on Mont Blond, while the French swept the German works over the crest with tornadoes of fire. The bombardment created a pitch of insane violence an hour before the attack. The slopes of Mont Blond and Mont Haut smoked as if all the fires of Hades were breaking thru. Clouds of mingled smoke and dust hung in the air in solid banks. Great curtains of smoke kept looping up behind the crest lines where the French snipers were firing on the German trenches. It was scarcely conceivable that men could live in that hideous turmoil, still less that they could coolly await the order to dash thru the midst of it. Nothing could be seen of the French assault in the hurricane of shell bursts; but within half an hour the news was flashed back that the French infantry had taken the whole of Mont Blond and Mont Haut, besides the position on Mont Haut itself in 25 minutes.

"German Panic Signals.

"A panicky outburst of German rockets and red and yellow light signals from behind the crest immediately after the attack revealed the progress that the French were making. The Boche was bawling for help with all the fervor of his possession. The French general commanding afterwards described the battle from the observers' viewpoint, as a fourteenth of July fireworks show. And this was indeed, because during the whole battle the evening sky was continually lit by rockets and flares of all sorts and colors, showing that the Boche was hard pressed and desperately needing reinforcements and more artillery support.

"Meanwhile the French departure trenches on the slopes of Mont Blond were being transformed into a sea of milky vapor in which even shell bursts were invisible. What resembled serpents of white smoke with heads of fire waded methodically to and fro across the battlefield, dragging after them a thickening cloud of wood-bodies, which hid the ground as effectively as if a roof were built over it. The Germans evidently felt the loss of their trenches. Five of their sausage-balloons appeared on the sky-line, extraordinarily slow, and so close that a special squadron of German airplanes was sent to protect them. Taking all risks, they hung in the sky for over an hour, going down hurriedly when a flare was last disappeared. It was the last desperate effort to see what the French were doing in that sea of smoke. But they could make out nothing.

"Several hundred prisoners were captured—three hundred within an hour on Mont Blond alone. The first enemy counter-attack, which was made within two hours, failed completely. The French at present hold their gains intact, and the German attempt to recapture Mont Blond has been successfully forestalled through the capture of the enemy's line of communication.

## HEAVY ARTILLERY PACKED BY GRAYS

### Unwapped Eight Runs in First Inning to Beat the Leafs.

The official communication on the first battle of the forces for a firm footing on Hill No. 9 on the Barron front has nothing cheery for those not actively engaged. The enemy, the Providence Grays, who have been giving us sturdy opposition, attacked in force and scored ten direct hits to our four.

Leake, who joined our forces, after a trip in the Cities of Buffalo and Richmond, endeavored to use the same strategy that carried him thru a fight last week. We are sure this heavy shelling has taken place in our midst. The enemy seemed to know his every move, and the minute he got his range on action they spotted his position and turned a deadly fire into our ranks.

We were subjected to an enfilading fire and the destruction wrought was appalling. Our men sought back bravely, but it was no use. After the enemy had spiked Leake's gun for four hits and a like number of runs, he was retreating and gave the command to Warhop. This new general could not resist the invaders, and they rushed four more positions and scored two hits while he was in command. At this stage one of our heavy gunners, Driver Geo. Whitman, came to grief. He endeavored to run out one of the concrete trenches. He was badly shaken up and retired to the dressing station. At this stage one of our heavy gunners, Driver Geo. ## BEARS ARE WINNERS; ROYALS TAKE TWO

At Rochester (International)-Newark defeated Rochester, 9 to 3. Connors, the new pitcher, pitched for Rochester from the Giants. He was wild, two of Newark's runs scoring on his wild pitches.

Score: Newark, 9; Rochester, 3.

At Buffalo-Buffalo and the Richmond Rebels indulged in a batting contest yesterday afternoon. The game finally ended, 9 to 8, after each club had alternated in taking the lead. Enright could not stand the strain and was taken off by Donahue, who fared well until the eighth, when he fared badly and was taken off by Donahue. The game was a close one, with Donahue winning in the ninth inning.

## DAVENPORT GIVES BOSTON TWO HITS

At St. Louis (American)-Davenport held Boston to two hits yesterday and St. Louis shut out the world's champion pitcher. Davenport pitched a hit until the sixth, when Hooper outbatted Cleveland, but threw a double, and was left there when out. Davenport fanned Hooper for the third out. He pitched a run in the fourth when Pratt tripped and scored on a singled, stole second, and went to third when Barry failed to cover the base for Thomas. He pitched a run in the fifth when Severid's single scored R. H. In Boston, Davenport pitched a perfect game. Batteries-Foster, Jones and Thomas; Davenport and Severid.

WEST NEEDS RAIN FOR GOOD CROPS

Many Prairie Points Estimate Yield to Be Under Average. Winnipeg, July 16.—That conditions in the Canadian prairie west, insofar as this year's crop is concerned, are on a par with those of the same time in 1915, when the prairie reaped their record-breaking crop, is the feature of the fourth report of the season published this morning by The Manitoba Free Press. From 190 points in the three provinces heard from it is gathered that 75 per cent of the crop is in head in Manitoba and a little better than 50 per cent in Saskatchewan. Apparently all the damage from the heavy frosts and cold weather in June has not been fully overcome by recent precipitation. Rain has been fairly plentiful in Saskatchewan, but fourteen points out of the 78 points heard from restate that rain is badly needed. Fifteen points report the wheat crop below the average, but a number qualify this by saying that with rain soon it will be a good average crop.

STREET RAILWAY SELECTS MONTREAL RY. MANAGER

Duncan MacDonald Will Represent the Company on Board of Conciliation.

Duncan MacDonald, general manager of the Montreal Street Railway Co., and inventor and patentee of the "pay-as-you-enter" system for street cars, has been appointed arbitrator representing the Toronto Street Railway Co. on the board of conciliation which will decide the difference between that company and the union's members according to the announcement of Sir William Mackenzie. The announcement followed a meeting of the board of directors in the offices of the Toronto Street Railway yesterday afternoon, at which the president, Sir William Mackenzie, presided. A majority of the directors, including some from Montreal, were present. The men's union selected D. A. Carey of Toronto. Aid. Joseph Gibbons, business manager of the union, received a telegram from the Ottawa Department of Labor yesterday stating that Carey had been accepted as the men's representative. The department will probably officially accept Mr. MacDonald and the two will select a third man to form the board of conciliation under the Industrial Disputes Investigation Act. MacDonal, a street railway engineer, started work with the Montreal system, and was promoted gradually until he was given the position of general manager. He was expert engineer and for a time managing director in the 400 miles of tramway in and around Paris, France. The "pay-as-you-enter" system of street cars, of which he is the inventor, has become a standard type of car on this continent, and is being adopted in Europe. He is a director of many companies and a member of several clubs. General Manager R. J. Fleming of the Toronto company made a promise during the strike that newspapermen would be permitted to attend the first meeting of the directors. He saw fit yesterday to withdraw that promise, but did not explain his reason. He stated that in his opinion the decision of the conciliation board.

PROVINCIAL TREASURER REFUSES LICENSE FEE

Hon. T. W. McGarry, provincial treasurer, has refused to accept a license fee of \$8750 tendered by the Thorncliffe Park Racing Association, which association is advertising a race meet to be held in the near future. Under the Corporation Tax Act a fee of \$1250 a day is payable in advance from a racing association for a seven-day racing meet held on race tracks operated under the Dominion charter. Mr. White, solicitor to the treasury, stated yesterday that no announcement could be made of the reason for the refusal by the department to accept the fee. Payment and receipt of fee, he said, did not legalize gambling at the track as this was a matter controlled by the criminal code and the amendments provided for in the Miller bill of 1912. He pointed out that the prohibition of race-track gambling was not a part of the jurisdiction of the department of the provincial treasurer, although any citizen could lay information and start proceedings to prevent such gambling.

WAR VETERANS' CLUB.

The girl employees of the Christie-Brown factory yesterday forwarded to the Great War Veterans' Club, which had been collected as a contribution towards the campaign fund to provide permanent club quarters for returned soldiers. Contributions to this fund are still coming forward, and are being received by the secretary at the club building, corner of Carlton and Church streets.

MOTORCYCLIST'S DEATH DECLARED ACCIDENTAL

Jury Brings in Verdict Exonerating Driver of the Motor From All Blame.

At the inquest last night into the death of Joseph Copp, who was killed on July 9 at the corner of Gould and Victoria streets when the motorcycle he was riding on was struck by a motor car, the jury brought in a verdict that death was caused by a fractured skull as the result of the accident, and added a rider to the effect that in their opinion the accident could have been avoided had not the driver of the motorcycle erred in his judgment in thinking that he could have passed the truck. E. Wootton, the driver of the truck, stated that he was going west on Gould street into Yonge street, and had added in answer to one of the questions of the jury that he was traveling about ten miles an hour. Seeing the road clear, he shut off the power, but did not add in answer to one of the questions of the jury that he was traveling about ten miles an hour. CROATIANS ON THE WAY TO FIGHT FOR SERBIA

Recruits From United States Points Pass Thru the City en Route for Point Levy. On their way to take up arms for Serbia, 150 Croats recruited from various points in the United States passed thru Toronto yesterday, en route for Point Levy, Quebec, where the Serbian mobilization camp is situated. The men, who were gathered mainly from New York, Indianapolis, Pittsburg, Chicago, Akron, and Cleveland, are blood relations to the Serbs, but are Austrian subjects. The symbols of the Croats are entirely with Serbia in her fight for independence and liberty and while compelled to fight for the central powers, they seek every opportunity to be taken prisoners by the Russians in order that they may fight with their own people. Over a hundred men, in charge of D. Mamce, arrived at three o'clock yesterday, and last night an additional forty came from the States. The afternoon contingent was met by Dr. Pavlovich of the Serbian Commission, Lieut. H. T. Gorrie, Army Service Corps, representing Major-General W. A. Logie, and a number of local Serbians. Those who arrived in the evening hailed from Indiana Harbor, Ind. Altho the trains only stopped for a few minutes at the station flags were waved and cheers given heartily for King Peter, President Wilson and King George.

HORTICULTURAL SHOW OPENED AT WESTON

Exhibitors Donated All-Money Prizes to the French Relief Fund. Roses, delphiniums and Canterbury bells were last night shown in great profusion by the Weston Horticultural Society, who held a special flower show in the Weston Town Hall. The varieties of roses displayed were especially beautiful and the exhibition was declared to be the most successful yet held by the society. The keen interest exhibited for the show was indicated by the very large crowd that filled the hall, who also appreciated the piano and violin recital given thru the generosity of the Nordheimer Piano Co. Ernest Johnston was the violinist, and played with

CITY CASE DISMISSED.

City Hall Does Not Come Within Scope of Building Act. In the police court yesterday, Magistrate Kingsford dismissed the case of the city of Toronto, in which a provincial building inspector claimed that the city hall was not properly equipped with fire escape and doors opening outwards. Assistant City Solicitor Fairly argued that the city hall does not come within the scope of the building act, which defines that an owner as one who receives the rents, issues and profits of a building. The question as to who owns the city hall is yet unanswered by Magistrate Kingsford.

### LIVE STOCK MARKET

The enormous resources and development of the Ontario cattle trade was again borne in upon the commission houses and the big packing companies at the Union Stock Yards yesterday, when receipts aggregating in all 184 carloads, consisting of 3845 head of cattle, and other live stock were offered for sale.

It was a big run, larger than was anticipated, and while there was an easterly tendency and a general falling off in price, averaging 20c to 25c per lb. over last week's market, there was a good demand at the market, and one of the best cleanups for a month in some time.

On the whole, the market was satisfactory, with a few exceptions. Practically all the stuff was grass fed with the exception of one or two loads and these by comparison were very low. The imported outside grade was for the most part comprised of the medium and common butcher cuts, but was better than the local stuff, but later the trade brightened up, cleaning out practically everything.

J. Atwell & Sons summarized the market as follows: Steers and heifers, 700 to 800 lbs., at \$7.50 to \$8.25 per cwt. and 1 lot of heifers, 650 to 750 lbs., at \$7.50 to \$8.25 per cwt.

Alex. Leveck (Gunn's), Limited bought 500 cwt. of steers and heifers, 700 to 800 lbs., at \$7.50 to \$8.25 per cwt. and 1 lot of heifers, 650 to 750 lbs., at \$7.50 to \$8.25 per cwt.

Harris Abbotter Company, George Bayne for the Ontario Abbotter Company, bought 527 cwt. of cattle, heifers and steers, costing from \$11.25 to \$12.50 per cwt. and 1 lot of heifers, 650 to 750 lbs., at \$7.50 to \$8.25 per cwt.

The firm sold one-half deck hogs at 16c to 18c per lb. and 1 lot of hogs, 700 to 800 lbs., at \$7.50 to \$8.25 per cwt.

J. Atwell & Sons summarized the market as follows: Steers and heifers, 700 to 800 lbs., at \$7.50 to \$8.25 per cwt. and 1 lot of heifers, 650 to 750 lbs., at \$7.50 to \$8.25 per cwt.

### WHOLESALE FRUIT AND VEGETABLES

Strawberries were shipped in lightly yesterday morning, selling at 15c to 16c per box; the afternoon shipments being slightly heavier, they declined a little, the price ranging from 12c to 15c with a few extra choice bringing 15c per box.

Cherry shipments were exceptionally light; a few of the sweet white ones, selling at 50c to 60c per six-quart basket, while the shipment of exceptionally fine quality sweet black ones from the Delaware fruit farms, Port Dalhousie, to White & Co. brought \$1.25 to \$1.50 per six-quart basket. The small quantity of sour ones offered sold at 40c to 50c per six-quart basket.

Gooseberries, also, were among the lightly shipped in class yesterday, some choice large fruit from Titterton River, Cabarrus, to White & Co., bringing 50c to 75c per six-quart basket; McWilliam & Everist also having a shipment of the large ones, put up in boxes, for which they were asking 15c per box; small sized fruit sold at 30c to 40c per six-quart basket.

Green peas in price, as they were not shipped in quite so heavily, and were mostly of the choice garden, 1 1/2 quart basket, the bulk, however, going at the 50c.

Hot-house tomatoes continue to be a good sale at 25c per lb. for No. 1's and 20c per lb. for the few. The outside grown variety sold at \$2.25 to \$2.50 per cwt. The imported outside grade grown ones sold at \$1.75 to \$2.25 per four-basket carrier.

New potatoes declined, selling at \$7.50 per bbl.

Parsley. Parsley is seemingly not wanted, and is beginning to glut the market. Hot-house cucumbers have been scarce lately, and brought from \$1.50 to \$2 per cwt. Choice cantaloupes, \$1.50 to \$2 per cwt. Chas. S. Simpson had two cars of tomatoes, selling at \$2.25 per four-basket carrier. The car of cantaloupes, selling at \$1.75 per case for standards and \$2 for first quality.

McWilliam & Everist had a car of Georgia Elberta peaches, selling at \$7.75 per cwt. The car of California peaches, fornia fruits, plums at \$2.50 to \$3 per cwt.; peaches at \$1.25, and cherries at \$2 per cwt.

A. A. McKinnon had four cars of Red Star brand new potatoes, selling at \$7.50 per bbl.

H. Peters had a car of Georgia Elberta peaches, selling at \$7.75 per cwt. The car of California peaches, fornia fruits, plums at \$2.50 to \$3 per cwt.; peaches at \$1.25, and cherries at \$2 per cwt.

## More Fresh New Summer Lots in the Sale Today

All gaps caused by yesterday's heavy selling now filled---the sale goes forward again today as fresh and as helpful as the first minute it started.

We've never held an underwear sale that offered men better underwear for the price asked.

We purchased a famous underwear maker's entire summer stock at a price away below the actual mill cost. Now we are able to announce retail prices that are positively less than the makers' prices today.

Every garment fresh, new and dependable.

All garments made over regulation pattern, insuring perfectly fitting bodies and sleeves and pants in the proper lengths.

The Sale includes soft summer weights in mercerized lisle, mesh, balbriggan and spring needle knit, in white or in natural shade. Choose long or short sleeves, ankle or knee length garments. Both combinations and two-piece underwear at the low price.
