Turks Send British Battleship To Bottom

LAND FORCES PRESS ON AGAINST TURKS

London Is Cheered By News From Athens

Constantinople in a Month, Says a French Observer—Offensive Work at Two Points in West—Brilliant Success of Cossack Cavalry

London, May 12.—London was cheered today by the publication of a despatch from Athens recording a decided advance of the British and French troops along the Gallipoli Peninsula.

Some reports even claimed the occupation of certain heights which would mean that the entire peninsula was under the control of the invaders.

At two points on the western line of operations, offensive movements are under way, the first, initiated near Ypres while the second is the pushing of French troops against the Germans to the north of Arras. For the moment, however, both of these attacks would appear to have been checked.

On the Bukovina frontier Petrograd reports a brilliant success won by the Russian Cossack cavalry over the Austrian infantry. The Russian horsemen, forcing their way through a series of barbed wire entanglements, dislodged the Austrians from three lines of trenches and captured 2,000 prisoners, a battery of quick firing guns, several searchlights and a whole string of caissons.

Russia admits that the Austro-German offensive is still proceeding in Western Galicia, while Vienna says that the Russian retreat is fast becoming a rout, with the invaders suffering enormous losses.

CONSTANTINOPLE IN A MONTH?

Mitylene, May 12.—Considerable progress has been made by the allies since a week ago, when they had advanced four miles up the Gallipoli Peninsula. Three days ago the Turks were fighting desperately to prevent their being pushed into the sea between Malda and the town of Gallipoli. The allied troops from Sedid-Bah, Gaba Tepe and the Gulf of Saros, were converging on them, assisted by the fire of the ships on both sides.

From the Gulf of Saros the Queen Elizabeth and other warships were concentrating a heavy fire on the north end of the Dardanelles. They have lines of trenches about thirty metres apart, and artillery on the surrounding hills.

A high French authority considers that in a month's time, the Bulair line will have been forced and Constantinople entered.

BOMBARDMENT AT DARDANELLES

Paris, May 12.—A Havas despatch from Athens says:

"An allied fleet re-entered the Dardanelles last night and bombarded the forts at Kild Bahr, Chanak Kaleasi and Nagara. The bombardment was interrupted at eight o'clock, but was resumed three hours later and is being continued.

"Although the Turks have been strongly reinforced, the bombardment is causing them heavy losses and they are steadily losing ground. Turkish trenches are filled with bodies.

FRENCH SUCCESS NORTH OF ARRAS

Paris, May 12.—The official eye witness with the French army gives details of the French success at Cambrai and Neuveville, north of Arras. More than 8,400 prisoners, including forty officers were taken in the region, since Sunday. The village of Carey is a heap of ruins, but these have been strongly fortified, rendering the position extremely difficult. The heights above the town, are commanded by the road leading to the town, and the village of Carey is in flames as a result of the bombardment by the fleet.

It is evident that hard fighting must be expected between Malda and Gaba Tepe, as the Turks have greatly strengthened the fortifications since the first attack on the Dardanelles. They have lines of trenches about thirty metres apart, and artillery on the surrounding hills.

The Goliath Torpedoed In The Dardanelles; Feared Five Hundred Lives Lost

London, May 13.—The British battleship Goliath has been torpedoed in the Dardanelles. It is feared 500 lives have been lost.

Announcement of the loss of the Goliath was made in the House of Commons this afternoon by Winston Spencer Churchill, First Lord of the Admiralty.

While no definite information apparently has been received as to the number of lives lost, Mr. Churchill said he feared it would reach 500.

Hundred Bodies of Lusitania Victims Irish Fisherman Brings in Word of Gruesome Sight

Queenstown, May 13.—Lord Wimborne, Lord Lieutenant of Ireland, has issued an order in Dublin that bodies of persons drowned on the Lusitania should be buried in the sea.

It is reported that the bodies of the Lusitania victims, which were scattered along the Irish coast, shall be buried in the sea. The order, which was issued by Lord Wimborne, is a direct result of the discovery of the bodies of the Lusitania victims, which were scattered along the Irish coast, shall be buried in the sea.

RUSSIANS READY FOR HEARTY REVENGE

Germans Won No Tactical Success Though Great Numbers Forced Russians to Rearrange Lines—"All Fear of Final Retreat" by Russians Eliminated

London, May 13.—A Reuter despatch from Petrograd gives the following official statement:

"In the fighting between the Vistula and the Carpathians on May 8 and 9, the Germans planned to break our front by the lightning rapidity of the blow directed at the neighborhood of Krno by seven divisions of the flower of the German army, after a heavy artillery preparation. At the end of a demonstration, six more divisions appeared on this front, where our army was tremendously outnumbered.

"On a general front of forty miles, the enemy gathered three quarters of the Austrian army, one sixth of the German army, the first reserve, half the contingents of the second reserves, besides eight divisions from the Serbian front, several new Austrian divisions, and twenty infantry divisions, as well as eight new divisions and nine cavalry divisions from the western front. Only one of our armies participated in the first attack.

"The Germans gained no tactical success. Our reserves, by a flank blow, enabled our army to re-arrange a line of advantageous positions, eliminating all fear of final retreat. Our army has received strong reinforcements and is ready to exact hearty revenge. Our falling back, was carried out methodically. The enemy's loss was heavy.

"When our troops occupied the mountainous sectors which the enemy held today, the enemy's official communications declared these positions were of no importance."

EAST END LEAGUE PLAY ASSURED

All Arranged and First Match Will be on Next Monday Evening

Fans will be pleased to hear that the East End League has been re-organized and that the first game will be played on Monday evening. Last night representatives waited upon Secretary Howard of the St. John's Playground Association, and after a conference with him, mapped out plans for the season.

The delegates expressed a willingness to co-operate heartily with the Playground Association, and were deeply grateful for the assistance which has been placed at their disposal through their kindness and that of Frank Peters, secretary of the St. John's Playground Association, and vice-president, Caleb D. Howard, vice-president, Thomas Slack, secretary, Harry Chase, treasurer. The officers passed rules and regulations to govern the playing season. A motion that in case at the end of the playing season, after all bills had been paid, there remained a surplus that the money be donated towards the Playground Association in appreciation for the use of the grounds was unanimously passed.

This evening the members of the league will assemble at the grounds and assist in putting the grounds in condition, and also in marking off a diamond for the league formed by the Playground Association. At nine o'clock the executive will meet in the Boys' Club and there draw up a schedule of games and complete arrangements for a grand opening of the playing season.

WANT CONNECTIONS WITH ST. JOHN COMPLETED SOON

Board of Trade Council and Transcontinental—Regret at Mr. Hazen's Illness—The I. C. R. Elevator

The importance of pressing for an early completion of the Transcontinental Railway connections with St. John was emphasized at a special meeting of the board of trade held last night. A report on a conference with Premier Clarke on the subject was submitted and it was decided to take the matter up with the federal government when Hon. Mr. Hazen's health had improved sufficiently.

A resolution of regret at Hon. Mr. Hazen's indisposition and of hope that he would speedily be restored to health was unanimously adopted. The council passed a resolution urging the early re-building of the government grain elevator at this port. Other subjects bearing upon the welfare of the city were discussed.

RECRUITS FOR 55TH NEEDED

Campaign Soon to Be Instituted BRINGS HOME GOOD ACCOUNT

Lt.-Col. B. R. Armstrong Praises Ammunition Column in Fredericton—Lt. Ryder Soon to Join Major Frank Magee

What is holding back recruiting? Although there has been established a recruiting office in the army, the last week or more has not witnessed any great rush and yesterday and today no new volunteers were signed by Captain Miller. The 55th Battalion needs more men. Up to now the recruiting office has used commendable discretion in the selection of recruits, and the composition of the battalion is of most desirable material. They have rejected many who have applied, for physical or moral reasons and this has been one cause of the slow advance towards complete establishment.

Two calls have been made upon the 55th for overseas drafts to fill the gaps of gallant Canadians killed or wounded in the fray. This means that the ranks of the 55th will have to be filled again, and it is probable to institute a energetic campaign in St. John and other parts of the city. The recruiting office at the army are open throughout the city and volunteers can be enrolled there. Compliments for D. A. C.

Lt.-Col. B. R. Armstrong, O. C. the 3rd Garrison Artillery, accompanied by Lieut. Col. Wainwright of the composite battery on Partridge Island, returned to the city on Monday after a visit to the headquarters of the Divisional Ammunition Column, Fredericton. Colonel Armstrong had many good words to say regarding the appearance, discipline and general efficiency of the corps under Lieut. Col. Harrison at the capital, saying they reflected much credit on the men, from which, almost entirely, their ranks were filled. They were to a man most eager to hear the word of command when they went into action, they would give an excellent account of themselves.

TODAY'S DRILL

The 26th had a route march out the Loch Lomond road this morning, some eight or nine miles. They carried day rations and spent the day in the field, conducting tactical manoeuvres. Going Soon

Lt. T. E. Ryder, of this city, for some time stationed in Fredericton with the D. A. C. has received definite word as to his appointment to the battery of artillery commanded by Major Frank Magee in action in France. He expects to leave soon.

Letter From Nurse

George Y. Dibble, of Fredericton, has received an interesting letter from his niece, Miss Margaret Dibble, daughter of the late J. T. Allan Dibble, of Woodstock, who is now in France. The letter was written on April 20. The commanding officer is Col. J. W. Bridges, formerly of Fredericton.

An extract from the letter follows:— "We have at last joined tentacle and are living on a tremendously high cliff near the hospital. It is a wonderful spot, where the wind, rain and sun have full play. It is delightful on a fine day, but horrible on a rainy day. But what place is not? The tents are certainly anything but pleasant in damp weather. Our hospital is splendid, so well equipped and planned. The wards are almost as convenient as some of our hospitals at home. In our ward (K3) the beds are made up with red spreads and it looks so bright and attractive in a tent with thirty-two beds. "Our D. G. M. S. visited us last Sunday and Lieut. Col. Bridges was gassed a full colonel."

Fredricton Officers

Lt. J. A. Winslow and Lieut. Theodore G. Roberts of Fredericton have joined the 14th Battalion on the firing line. Lieut. Winslow and Lieut. Roberts have been with the 12th Battalion in England. They left with the first draft of the 1st Regiment for Valcartier last summer.

J. J. Winslow also has a letter from Capt. J. H. Lyne-Evans, adjutant of the 1st Battalion, formerly stationed in Fredericton with the I. C. R. The letter was written on April 22 before Captain Lyne-Evans was wounded.

SOME HONORARY DEGREES AT U.N.B.

Sir Frederick Williams Taylor, Bonar Law and Premier Clarke Get Doctor of Laws

Fredricton, N. B., May 13.—Notwithstanding inclement weather there was a large attendance of friends of higher education at the U. N. B. convocation.

action of many bodies yet to be found. A fishing boat reported last night having sighted every night, some 12 miles floating ten miles south of Glandome, on the southwest coast of County Cork. This would support the contention that the current, wind and tides had so scattered the bodies as to make the recovery of any considerable number of them doubtful.

The position of many of these men, some kind placed, is the cause of a new situation with which the nation is confronted," says the Times, "Changes in law would be needed to discriminate against these who are legally British citizens and the government does not intend to introduce any fresh legislation on this subject."

The names published the names of a considerable number of prominent men who have written to express their abhorrence of German methods of warfare and their devotion to the land of their adoption.

Demonstrations Elsewhere

London, May 13.—Anti-German demonstrations virtually ceased at Liverpool and Manchester last night. Two hundred shops were damaged in Liverpool.

Rioting in Glasgow had not been serious, although feeling runs high. German newspapers were attacked, windows broken and the contents thrown into the street.

The movement to refuse to sell goods to Germans is spreading in many quarters.

BIG SEND OFF FOR DIGBY SOLDIERS

Digby, N. S., May 13.—D. Company of the 40th Battalion, under command of Lt. Pinney, left today for Aldershot. The men paraded opposite the court house, where they were joined by the Boy Scouts and the school children. Patriotic speeches were made by Clarence James, M. P., Rev. Wm. Driffield, rector of Holy Trinity Church, Rev. Robert McArthur of Grace Methodist Church, and Major D. C. McKay, recruiting officer.

A very suitable reply was made by Lt. Pinney, this was followed by patriotic songs by the school children and an excellent programme of music by the Digby Glee Club. All places of business were closed from 11 a. m. until after the departure of the express at 12:20. More than 1,000 people gathered at the court house and accompanied the soldiers to the train.

The campaign to secure funds for the purchase of four field kitchens for the 20th Battalion received a substantial boost this morning when Mayor Fink decided to open a subscription list at city hall and to co-operate with those already interested in the movement.

GERMANS POLLUTED WATER FROM DHUIS

Paris, April 24.—(Correspondence)—One of the most pressing terrors for the authorities at Paris during the fatal days of early September did not pass with the defeat of the Germans on the Marne and their precipitate retreat. It has only been within a short time that anxiety for the capital's water supply has passed. The French newspapers now have not told how the advancing guard of General von Kluck's army cut off one-third of the water supply, planned to cut off all of it, and in retreating before they fell back. It did not take long after the German retreat to repair the damage the Germans had done to the Dhuish, but in the watershed near Montmirail the Germans buried the bodies of men and horses who fell in the stream. This watershed is the source of the Dhuish, so Dhuish water cannot be used.

Too Late For Classification

Chicago, Ill., May 13.—The Chicago Press the afternoon edition of the Illinois Staats Zeitung, the chief German publication of Chicago, the editor of both of which is Horace Brand, editorially complains that Americans in Chicago for various reasons are boycotting Chicago German-Americans and as a consequence their business languishes. The Chicago Press suggests that inasmuch as in many sections of the city German dealers have been blacklisted, it would be in order for German-Americans only to patronize German-American merchants and read only German-American papers. The editorial in part is as follows: "America is neutral. The government, at least, says it is, and terms everyone a lot who doubts this and dares undertake to prove the contrary."

THE LORD MAYOR'S MOTTO

Sir Wm. Thelcar when Lord Mayor of London, said: "My motto for workmanship is, 'The better the cook, the happier the husband.'"

There is no earthly reason why wives should not, nowadays, perfect themselves in the gentle art of cooking. Instruction in the very best is open to them; the accumulated experience of centuries is theirs to command and culinary helps such as have never been available before, are brought within the reach of the narrowest purse.

Take, for instance, the delicious H. P. Sauce, introduced only a short time ago from England. The different choice flavors of Green Peas and Onions are perfectly blended in this new and delightful relish, and the young housewife, with a bottle of H. P. Sauce at her elbow, will make a certain success of the little stew, ragout, and hashes, which are so much of a puzzle and trial to the inexperienced cook.

The executive of the Canadian Club met last evening, J. Hunter White presiding, and discussed prospects for speakers.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Canada in the War

John J. Donahue, of the 12th battalion, was wounded in recent fighting near Langemarck, while fighting with the 14th battalion. His brother, Frank L. Donahue, of 40 Brussels street, received word yesterday.

A draft of forty-nine men from the 26th battalion, was added to the 20th yesterday to complete the strength of that unit.

A suggestion emanating from Montreal that white should be the emblem of mourning, instead of black, for fallen Canadian soldiers, has found favor with General Hughes.

Several German employees in the Chateau Laurier, Ottawa, were discharged yesterday.

Werner Horne, who attempted to blow up the international bridge over the St. Croix river near Vanceboro, Me., was refused his liberty yesterday after a writ of habeas corpus in Boston, filed by his counsel, James O'Connell, relying on a plea of illegal jurisdiction.

HAMPTON NEWS

R. E. Fowler's Will Written By Nurse—Major Mercereau in Wife's Care

Hampton, N. B., May 12—In the probate court of Kings county before Judge Freese, the petition of Mrs. Margaret Fowler, widow of Rowell E. Fowler, late of the parish of Hampton, farmer, was presented for administration of the latter's estate, consisting of two farms, the homestead of 280 acres with buildings, on which is a mortgage of \$1,000, valued at \$1,800; and a piece of land without buildings, consisting of 150 acres, unimproved, valued at \$400, making the realty \$2,200 and the personally valued at \$1,600, or \$3,800 in all. Mr. O'By, proctor for the estate, presented a will written at testator's dictation on the afternoon of the day before his death by his nurse, Miss Josephine C. Scribner, and witnessed by her and Miss Sadie Clark, an inmate of the house. The document was sealed up and entrusted to the custody of the latter, to be handed to the widow in case of his death, which was done.

Judge Freese, after hearing argument of the proctor on the efficiency of the will, which gives all his property to his widow for her benefit and that of his six minor children, and taking the testimony of the two witnesses, took the question of probating the will into consideration.

Alex. McManus, baggagemaster at the station, who broke his leg while handling a load of trunks over a week ago, is doing well at his home at Lake Station and hoping to be able to resume his duties in a few weeks at the latest. Meanwhile his place is being very satisfactorily filled by Walter Conway.

A memorial service for the late Sergt.-Major Arthur Adams, reported killed at the battle of Ypres, was held in the Anglican church here last Sunday. On Monday his mother, Mrs. James Adams, received a letter from Arthur dated before his reported death, in which he said he was recovering from a slight wound received at the front. There was not-

THE WAR NEWS

Great importance was attached by a Paris correspondent yesterday to the success gained by the French to the north of Arras. The cables to the morning papers told of further success since that quarter and noted the capture since Sunday of 4,000 prisoners. At the points along the line all German attacks were repulsed, by the British as well as the French. The German losses are said to be heavy.

In the east the Russians claim that the Austro-German loss in nine days fighting has been upwards of 100,000. A Czarist despatch says the enemy loss since the first of May has been 165,000, but admits a Russian loss of 50,000 in prisoners alone. The Russian reports claim, moreover, that where they have been compelled by a great concentration of enemy forces to retire it has been done in fairly good order and to strategic positions. In short there is no hint of discouragement in Russian circles, and the situation in Galicia and the Carpathians, and they are pursuing the retreating Germans in the northern portion of the fighting area. Today's news from Petrograd asserts emphatically that the Austro-Germans, despite their immense concentration of forces, have gained no real tactical advantage, and that now in a stronger position and heavily reinforced, the Russians are ready to take a "hearty revenge."

The news from Italy grows more and more warlike, and the determined attitude of the United States makes the future appear more and more ominous for Germany and her allies. The British official eye-witness tells of desperate fighting around Ypres, where the Germans delivered attack after attack, and the lines rocked back and forth under the tremendous pressure of attack and counter attack, with losses on both sides, but much the heaviest on the side of the Germans. The attempt of the latter to break through the British line failed because of the bravery and endurance of the British soldiers, who used the bayonet at critical moments with deadly effect.

WELL DONE WILSON.

No fault can be found with the action taken by President Wilson and his cabinet in their note to Germany. Virtually it means war. Germany will neither make reparation for past crimes nor pledge herself to refrain from similar acts in future. It is a great source of satisfaction to the friends and admirers of President Wilson that he has taken a firm stand, and that his speech in Philadelphia was not an indication of his attitude in relation to Germany. The moral effect of the action of the greatest of the neutral nations will be far-reaching. Germany is left without a friend or sympathizer apart from Austria and Turkey, and these have good reason to lament their surrender to the spirit of Prussian militarism. It was evident from the tone of the American press that while the people had no desire to embarrass the president in a great national crisis, they wanted action such as would uphold the dignity and honor of the nation. They have not been disappointed, and in the course it has pursued the government has strengthened the bonds of Anglo-Saxon friendship to a degree that perhaps at this moment cannot be fully measured. The people of Canada will be especially gratified to see their belief confirmed that the great republic, so closely united with them in trade, in sympathy and in similarity of institutions and language, does not hold lightly these principles of national honor and international good faith which have been so grossly violated by Germany in this war.

CLEAN UP THE CITY.

Every citizen should welcome the announcement that there are to be two clean-up days in St. John. If all citizens enter into the spirit of the two days with a will, they will not only make the city brighter and cleaner and healthier, but the good work will be likely to continue, and more and more attention be paid to the task of making St. John an attractive city.

This is clean-up week in Halifax. The press there has been urging the citizens to enter heartily into the spirit of the time. Yesterday's Echo said: "Every citizen should unite in making Halifax the cleanest and brightest city on the map. No one should be ashamed to be seen with a rake or a hoe or a shovel or a white-wash brush when the health and comfort of the citizens are to be considered. The man or woman, boy or girl who is too proud to dig-in and help clean up our city should also be too proud to stay on this little planet, and should migrate to Mars. So get busy now and gather the rubbish that is lying around the back yard and in the corners of your cellars or out-buildings."

There is also a "green-up" movement in Halifax. The Civic Improvement League are offering prizes for the best yard and garden, for the best collection of window boxes, for the best individual window box, for the best display of various plants in bloom in the garden, for the best kept sidewalk front, for the schools achieving the best results, handicaps considered, in the improvement of school grounds, and for

the best essays by students on the subject "How Can I Improve the Appearance of My Street?"

The clean-up habit is growing in Nova Scotia towns generally, and is encouraged by the provincial board of health. In New Brunswick, thus far, Staxex appears to be the bright and shining example of what should be done along this line. The May issue of The American City has an interesting article on this subject. It gives a list of nearly fifty cities in the United States which it says are some of those where there is a general clean-up movement promoted by civic or commercial organizations. Concerning the movement generally it says: "There is evidence that the clean-up movement is even more popular this spring than it was last year. There are echoes all over the country of people cleaning their homes generally, including the cellars, attics and stables, in which disinfectants are freely used. They are using paint upon everything that needs it, and are raking up leaves and burning them and all burnable trash. They are planning to make their front yards green under flower beds and their back yards sprout with vegetables, the seeds in many cases given free. They are planting and trimming shrubs, hedges, trees and vines; are cleaning up and beautifying vacant lots by removing the unsightly weeds, tin cans and other rubbish. They are attempting to abolish all places that might breed flies and mosquitoes. Streets and alleys are being made to shine—trash receptacles are being installed upon the streets and citizens urged to pick up paper and refuse and deposit therein. Vacant lot gardening contests are being held; prizes are being offered to boys and girls for the best kept gardens and lawns, and there are many 'city beautiful' campaigns in active operation."

After reading this paragraph one turns with a sigh to a contemplation of the streets and alleys and vacant lots in St. John. Paper and dust blow at will in the streets. The vacant lots are an abomination. The few trees planted along the streets are not protected by the citizens. The back yards and stables encourage unlimited production of flies. Manure is hauled through the streets in uncovered vehicles. There is great carelessness in the matter of keeping food products covered from flies. In view of these conditions Com. McLellan should receive the most hearty and general support in the clean-up campaign he is about to inaugurate. Everybody should help. It means better health and a more attractive city. Let every citizen, old and young, get into the game.

AND NOW MANITOBA

The province of Manitoba has at last been freed from the domination of the political machine organized by the Hon. Robert Rogers. The Roblin government, as a result of the exposure of grafting operations on a huge scale has resigned. It did not await the end of the enquiry by the Royal Commission. Mr. T. C. Norris is now premier, and an arrangement has been made by which the turmoil of an election in war time will be avoided. The Hon. Robert Rogers was probably not a consenting party to this agreement. Thanks to the vigilance of the Liberals and the manner in which they forced the enquiry into the parliament buildings scandal the province now enters upon an era of clean government.

The people of Canada are now better able to understand the cause of the visits of Mr. Rogers to Winnipeg and his anxiety to hurry along the federal election campaign. His prestige has received a severe blow. His hopes in regard to Manitoba and the west have been blasted. He and his Manitoba friends have been found out, for it was Rogers' methods that led to the undoing of Sir Rodmond Roblin.

We shall probably hear less now about the federal elections, although Hon. Rufus Pope tells the Standard that the terrible Liberals may yet force Sir Robert Borden to dissolve parliament. Mr. Pope has not been so great a success as a statesman, however, as to give his words oracular significance. He is safe in the Senate.

The fact that the Chateau Laurier at Ottawa has discharged its German help ordinarily has the effect of directing public attention to certain Germans holding high official positions and of whom the Borden government has knowledge.

UNSTRUNG, UNSTEADY SHAKY NERVES. MAY BE TONED UP BY USING MILBURN'S HEART and NERVE PILLS. Mrs. John Harper, Toronto, Ont., writes: "I have used Milburn's Heart and Nerve Pills for the heart and nervous system. I was confined to a grocery store for twelve years, and had to give up business, as I became terribly run down and nervous, and had heart trouble, and I am sure I am gaining very fast now. I feel that nothing did me any good until I tried your Heart and Nerve Pills, and I am positive they will cure me. The nerves of one hand would tremble and then seem to go numb so that I could not write or sew. Now my hand is quite steady, as you can see by my handwriting. This is a big change which delights me so much for I thought all was done that could be done. I was about to give up in despair when I tried this last remedy, and even after I had only taken half a box the change started to come." Milburn's Heart and Nerve Pills will restore the enfeebled, overworked, exhausted, overworked system to full constitutional power. Price, 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

VOLUNTEER ARMY OF 1,000,000 MEN

United States National Security League—To Prevent Invasion

New York, May 13—An appeal for an American army of one million volunteers for national defence is made by the first public announcement made by the National Security League. The league stated that recent events make it clear that until a satisfactory plan for armament has been worked out by the world, the United States must adequately prepare itself at once against any possibility of invasion.

The letter made public at the headquarters of the league, 81 Pine street, is signed by Joseph H. Choate, honorary president; Alton B. Parker, honorary vice-president; S. Stanton Menken, president; and Henry L. Simons, chairman of the army committee. This letter has been sent to present and former members of the cabinet, to members of congress, to governors of states and to the mayors of all American cities, to chairmen of commerce and boards of trade, to merchants' associations, colleges and universities, and to all American citizens.

The appeal solicits public support for the following programme for national defence: Legislation correcting present wasteful methods of military appropriation and disbursement, the adoption of a definite military policy, a stronger and better equipped national guard, the creation of an organized reserve for each branch of military service.

TO TORPEDO THE TRANSYLVANIA?

Threat Said To Have Been Made By Germans

CANADIANS ABOARD

Twenty-Three Nurses Included—Frohman Did Not Fear Death—Hubbard's Estate—How Vanderbilt Died

New York, May 13—From the same German source which predicted the sinking of the Lusitania, word has been sent out that, if German plans do not miscarry, the Anchor Line Transylvania, which left this port Friday afternoon with 876 passengers aboard will fall prey to a submarine.

The Transylvania is chartered by the Cunard Line and destined for Liverpool and Glasgow. A large proportion of her cargo consists of contraband.

Among the passengers are many Americans and a large number of Canadians and British reservists. There are also twenty-three Canadian nurses aboard bound for the field hospitals in the war zone.

Did Not Fear Death

London, May 13—Why fear death? It is the most beautiful adventure in life," were the last words of Charles Frohman, before he went down with the Lusitania, according to Miss Rita Jolivet, an American actress, with whom he was talking calmly just before the end came.

Miss Jolivet, who was among the survivors taken to Queenstown, said she and Mr. Frohman were standing on deck as the Lusitania headed over. They decided not to trust themselves to the boats although Mr. Frohman believed the ship was doomed. It was in reaching this decision that he declared he had no fear of death.

Elbert Hubbard's Estate

Buffalo, May 13—An estate worth upward of \$200,000 has been left to five children by Elbert Hubbard, lost with his wife when the Lusitania sank. His will will be for probate in the surrogate court just so soon as legal proof of his death can be established.

There are four children by the first marriage, Elbert Jr., Sanford, Ralph and Catherine, and one, Miriam, by his wife who was lost with him. All will share equally in the estate probably.

The bulk of the estate consists of buildings and machinery in the publishing plant, and will not be divided.

Vanderbilt's Death

London, May 13—Thomas Slidell of the Lusitania, in London, said he saw Alfred G. Vanderbilt on the deck of the Lusitania as the vessel was going down.

Mr. Vanderbilt, who could not swim was equipped with a life belt but he gallantly took it off and saved a young woman. Then he went off to seek another life belt. The ship sank a few minutes later.

Mr. Slidell said that he and Herbert Stone of New York were sitting in the smoking room when the torpedo struck the ship. Both men intuitively knew what had happened and they simultaneously uttered the word "Torpedoes."

Together they left the room and went on deck, which was already actually being abandoned in following their orders his responsibility ceases.

The programme as quoted, and the first order given to the public, shows the highway board at last following a policy that will mean some permanent good if carried out, and every taxpayer in the parish really getting some return for the money he gives in taxes for maintenance of sidewalks and roads.

The great place in the world is that portion of Egypt between the two lower falls of the Nile. Rain has never been known to fall there.

The Hundred Ways Which Don't End Corns

Perhaps you say—"I've tried and tried, but found nothing that ends a corn."

You might keep trying for years, Madam. There are a hundred ways which don't. Most of them are very much alike.

But remember this:

There is one way which has removed 79 million corns and is now removing half the corns that grow.

It's a plaster which contains a bit of wondrous wax. It ends the corn pain in a jiffy. It ends the corn itself in two days. It gently loosens the corn until it comes out without any pain or soreness.

When you use some folderol—Bear this in mind. There are folks all around you—users of Blue-jay—who never suffer corns. You are crowding yourself when you fail to do what they do.

EXTENSIVE PROGRAMME OF WORK IN LANCASTER

Highway Board Plans That Will Mean Much Improvement

Kingville to Have Sidewalks, Randolph and Milford to Have Attention—Plans For Fairville—Joseph Semple Appointed Roadmaster

The repair of roads and sidewalks has been a problem with the people of Lancaster, as in most parishes, for many years, and perhaps, taking everything into consideration, the most serious and censured body in the whole community has been the Highway Board.

The Times is informed on the best authority, however, that owing to co-operation among the present members of the Highway Board, a very extensive programme has been drawn up for the summer's work which, if carried out as anticipated, ought to improve conditions materially.

It is planned to lay new sidewalks in Kingville, hitherto a much neglected district. Where necessary, blasting will be done to clear away rock from the path of the proposed sidewalk. Stringers will be laid and cross plank. The lumber used is to be prepared by Chas. Miller Company and stowed across, thus saving expense, and everything will be sawn at proper lengths, so that the man on the job will merely have to spike it down.

From the top of Kingville hill to Evans' Corner a rolled ash sidewalk will be laid with sand covering and the same treatment will be given that long stretch of sidewalk from St. Rose's hall to Pleasant Point ferry. The walk will be made two feet wider, with a wooden retainer on the gutter side, while the inner side will run away to a natural crown.

The old culverts, which have not been renewed in years, are to be repaired or replaced and at several other points culverts are to be built. Where the walk leads over a deep gully or a culvert hand rails are to be placed as a precaution for pedestrians.

At the C. P. R. crossing in Milford, always a nasty piece of roadway, a treatment is to be erected and the gutter will run under it and enter the concrete take away pipe, which is being laid by the railway company. This is expected to do away with large pools, always characteristic of this particular section in spring and fall.

The roadway generally is to be widened as far as St. Rose's Mass., and plans call for a big improvement in this vicinity. The telegraph poles are to be removed where they have infringed on the

FARMER'S WIFE TOO ILL TO WORK

A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kasota, Minn.—"I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pain here and down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all and much more than it is claimed to do."—Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

ALFRED G. VANDERBILT.

Best known of the Americans who have perished in the destruction of the Lusitania was Alfred Gwynne Vanderbilt, multi-millionaire.

He was an active head of the Vanderbilt family, a great-grandson of the founder of the family fortune, "Cornwall" Cornelius Vanderbilt and a son of the second Cornelius Vanderbilt.

Alfred Vanderbilt was born in 1877, and therefore was thirty-eight years old. An elder brother, Cornelius, was four years his senior.

By the terms of his father's will, Alfred G. was given precedence over his brother, who had married against his father's wishes. He was killed \$25,000,000 outright, and under the will, at the age of thirty-five, in October, 1912, he came into \$25,000,000 more.

Alfred Vanderbilt married on Jan. 14, 1901, Elsie French, whose forbears came from New Hampshire. By her he had a son born on Nov. 24, 1901. From her he was divorced in 1903. Three years later in December, 1911, he married Mrs. Margaret Emerson McKim, by whom he had two children, Alfred G., born in 1912, and a son born in 1914.

Mr. Vanderbilt was known to the public chiefly through his sporting activities. He was an active horseman, and virtually stood at the head of the revival of the sport of coaching in England. He drove one of the best modern coaches and was known to every stable boy along the great Brighton road. He had wonderful control over his horses and drove in a masterly manner at all times.

Mr. Vanderbilt was a patron of English water sports, and his palatial houseboat on the Thames, near Henley, was a marvel to thousands of "trippers" and tourists.

Mr. Vanderbilt took a certain interest in yachting, though never as much as his elder brother. When at Newport he sailed a thirty-one-footer, the Alert, with much zest. He also owned a fast steam yacht, the Adroit, formerly the Winchester, and last year he bought the big steam yacht Warrior, once owned by Frederick F. Vanderbilt, and renamed her Wanderer.

Mr. Vanderbilt had a luxurious "lodge" in the Adirondacks, which he visited occasionally. His farm, Oaklands, six miles from Newport, is one of the show places of Rhode Island. His town house was an apartment of nine richly furnished rooms reserved for his use in the Vanderbilt Hotel, Park avenue, New York, which stands on the site of the house in which he was born.

A SECOND I. C. R. DEATH

Placide Goguen, of Buctouche, aged sixty, died suddenly today in the I. C. R. round house in Moncton where he was employed. He was over excited by the death of his friend George W. Downey, who lost his life in the I. C. R. yard last evening.

How to Destroy Dandruff Germs

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you: 6 ounces Bay Rum, 2 ounces Lavona de Compose, one-half drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add 1 drachm of your favorite perfume. While this preparation is not a dye it is unequalled for restoring gray hair to its original color.

Removes Hairy Growths Without Pain or Bothers

(Modes of Today.)

It is not necessary to use a painful process to remove hairy growths, for with a little delatone handy you can keep the skin entirely free from these heavy destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone.

REAL ESTATE/REAL ESTATE

Arbor Day at Portland Place

The Remaining Days of This Week
are "Arbor Days" at Portland Place

For the last three weeks men and teams have been busy
preparing the grass plots on each side of Lansdowne Avenue
for the planting of shade trees. The trees arrived by express
yesterday.

Lansdowne Avenue is sixty-six feet wide and is being
developed on the "boulevard" plan. On each side of the road-
way run grass plots thirteen feet wide. You may remember
that when the city put the water and sewer pipes down on
of in the middle of the street. This was an idea of ours to
avoid tearing up the roadway when repairs were being made.
It was a new one on city hall probably because Lansdowne
Avenue is the only street in St. John with grass plots wide
enough to lay pipes in. It is down the centre of these grass
plots that the shade trees are being planted.

We have lots for sale, and we build houses either from
our plans or to suit your own ideas.

"RETURN OF MAURICE DONNELLY" AT THE GEM

Stirring Three Part Drama a Strong Feature in Mid-week Programme — Two Bright Biograph Comedies

A stirring three part drama "The Return of Maurice Donnelly" was the special feature at the Gem Theatre yesterday—a story of unusual power and appeal, capably enacted by a talented Vitagraph cast with the favorites, Leo Denancy, Leah Baird and Mary Maurice cast in popular roles. The story was produced with excellent scenic features, and the settings caused keen admiration. It was a tale of love and adventure with a well established plot, carried through to a satisfactory termination. This feature will be repeated for the last time this evening.

Comedy in abundance was supplied in two reels by the Biograph comedians, "A Fowl Deal" and "Hempock Gets a Night Off." Both evoked hearty laughter as they were the bright, snappy variety for which the Biograph players are so very well known. The Gem orchestra gave a pleasing programme. Tomorrow "The Perils of Pauline" will be shown, in its 15th episode, "The poisoned Sword," one of the most exciting yet presented.

YOU HAVE BOUGHT Canadian shirts, English shirts, American shirts, but you've never received as much value for your money as ONE DOLLAR BILL will give you here in our shirt department. Others in every right material from percales to silks, \$1 to \$4.50.

REV. DR. MORGAN RESIGNS

London, May 12—Rev. Dr. G. Campbell Morgan, pastor of Westminster Congregational Chapel, has resigned because of ill health and will devote his time to Bible conferences in England and America. It is reported that Rev. John Henry Jewett, pastor of the Fifth Avenue Presbyterian church, New York, will be invited to succeed Dr. Morgan.

RUSSIA'S NEW BEVERAGE

Now that the Russians have abandoned their old national drink, what is more natural than they should turn to tea as the most invigorating, refreshing and healthful beverage, but tea is good must be fresh and clean. "SALADA" tea is composed of the finest, freshest young leaves; freed from dust and carefully preserved in the sealed aluminum package.

ONE HUNDRED AND THIRTY NINE PASSED AS EFFICIENT—ATTACK ON LADIES' COLLEGE

Sackville, N. B., May 13—The Mount Allison Contingent Canadian Officers' Training Corps, under command of Capt. F. E. Whitlock, was inspected this afternoon by His Honor Lieut-Governor Wood. On this inspection the lieutenant-governor was accompanied by Dr. Borden, president of the university, and Capt. A. H. Borden, D. A. A. and Q. M. C. Halifax Garrison. As the representative of His Majesty the King, His Honor was given the royal salute.

After a general inspection by the lieutenant-governor, Captain Borden made a further inspection in company and platoon movements.

One interesting feature of the review was the attack organized on the Ladies' College. The attack was skillfully made, the forces keeping well under cover as though they were accustomed to that method of approach. The young ladies, however, did not seem unduly alarmed. In fact, it was intimated that under other circumstances they might have received the invaders with open arms.

The company was formed up in front of the Ladies' College, and were addressed by His Honor the lieutenant-governor who complimented the men on their fine showing. He declared that, although he had reviewed a number of such companies, the work done was the best amateur performance he had seen. At the close of the inspection, Captain Borden declared officers, non-commissioned officers and privates, 139 in number, as efficient.

A further examination will be held on the 26th and 27th inst., when fifty or sixty of those pronounced efficient will present themselves as candidates for lieutenants' certificates.

Germans Checked By British Stirring Account of Saturday and Sunday Effort to Break the Khaki Lines—Official Eye Witness' Report

London, May 12, 9:30 p. m.—The official British eye-witness under date of May 11 gives an account of the German attempts on Saturday and Sunday last to break the British lines around Ypres, and the commencement of the Anglo-French offensive north of Arras. He says:

"The calm that prevailed Thursday and Friday proved to be only the lull before the storm. Early Saturday morning it became apparent that the Germans were preparing an attack in strength against our line running east and northeast from Ypres, for they were concentrating under cover of a violent artillery fire, and at about 10 o'clock the battle began in earnest.

"At that hour the Germans attacked our line from the Ypres-Poelcappelle road to within a short distance of the Menin high road, it being evidently their intention, while engaging us closely on the whole of this sector, to break our front in the vicinity of the Ypres-Roulers railway to the north and to the south of which their strongest and most determined assaults were delivered.

"Under this pressure our front was penetrated at some points around Frezenberg, and at 4:30 o'clock in the afternoon we made a counter-attack between the Zonnebeke road and the railway in order to recover the lost ground. Our offensive was conducted most gallantly, but was checked before long by the fire of machine guns.

"Meanwhile the enemy launched another attack through the woods south of the Menin road, and at the same time threatened our left to the north of Ypres. Most desperate fighting ensued, the German infantry coming on again and again, and repeatedly forcing our troops back, though only a short distance, in spite of gradual counter-attacks.

"During the night the fighting continued to rage with ever-increasing fury. It is impossible to say at exactly what hour our line was broken at different points, but it is certain that at one time the enemy's infantry poured through along the Poelcappelle road, and even got as far as Willeite at 9 p. m.

"There was also a considerable gap in our front about Frezenberg, where hostile detachments had penetrated. At both points counter-attacks were organized without delay. To the east of the salient the Germans first were driven back to Frezenberg, but there they made a resolute stand under pressure of fresh reinforcements we fell back again toward Ypres.

"The services rendered by our troops in this quarter cannot at present be estimated, for their full significance will only be realized in the light of future events.

ALLIED CANNONADE STARTS OFFENSIVE.

"Farther south, in the meantime, on Sunday another struggle had been in progress on that portion of the front covered by the right of our line and the left of the French, for when the firing around Ypres was temporarily subsiding, during the early hours of the morning, another and even more tremendous cannonade was suddenly started by the artillery of the Allies some twenty miles to the south.

"The morning was calm, bright and clear. Away to the right were Guinchy, with its brick fields. To the north of them lay low ground, where, hidden by the trees and the opposing lines that were about to become the scene of the conflict, and beyond, in the distance, rose the ridge of the village of Gheluvelt, crowding it standing out clear against the sky.

"Meanwhile, the French, after a prolonged bombardment, had taken the German positions north of Arras on a front of nearly six miles, and had pushed forward from two to three miles, capturing 2,000 prisoners and six guns. This remarkable success was gained in the course of a few hours.

ALL MOVEMENT BY DAYLIGHT IMPOSSIBLE.

"As may be supposed from the nature of the fighting which has been in progress, our losses have been heavy. On other parts of the front our action was confined to that of the artillery, but this proved most effective later, all the communications of the enemy being subjected to so heavy a fire, that in some quarters all movement by daylight will be rendered impracticable. At one place opposite our centre a convoy of ammunition was hit by a shell which knocked out six motor lorries and caused two to blow up. Opposite our centre we fired two mines which did considerable damage to the enemy's defences.

"During the day also our aeroplanes attacked several points of importance. One of our airmen, who was sent to bomb the canal bridge near Don, was wounded on his way there, but continued and fulfilled his mission.

"Near Wytchate one of our aviators pursued a German aeroplane and fired a whole belt from his machine gun at it. The plane suddenly swerved, righted itself for a second and then descended from a height of several thousand feet straight to the ground.

"On the other hand a British machine was brought down over Lille by the enemy's anti-aircraft guns, but it is hoped that the aviator escaped."

In regard to the German allegation that the British used gas in their attacks on Hill No. 60, the eye-witness says:

"No asphyxiating gases have been employed by us at any time, nor have they yet been brought into play by us."

"So far as the Ypres region is concerned, this for us was a most successful day. Our losses were comparatively slight, and, owing to the targets presented by the enemy, the action resolved itself on our part into pure killing."

"At 6 o'clock the bombardment began, slowly and then growing in volume until the whole air quivered with the rush of the larger shells, and the earth shook with the concussion of guns. In a few minutes the whole distant landscape disappeared in smoke and dust, which hung for a while in the still air, and then drifted slowly across the line of battle.

"Shortly before 6 o'clock our infantry advanced along our front between the Bois Grenier and Festubert. On the left, north of Fromelles, we stormed the German first line

"The reason for this very determined effort to crush our left on the part of the Germans is not far to seek. It is probable that for some days previously they had been in possession of information which led them to suppose that we intended to apply pressure on the right of our line, and that their great attack upon Ypres on the 7th, 8th and 9th was undertaken with a view to diverting us from our purpose.

"The failure of their effort was due to the splendid endurance of our troops, who held the line round the salient under a fire which again and again blotted out whole lengths of the defences and killed the defenders by scores. Time after time, along those parts of the front selected for assault, were the parapets destroyed and time after time did the thinning band of survivors build them up again and await the next onslaught as steadily as before.

"The morning was calm, bright and clear. Away to the right were Guinchy, with its brick fields. To the north of them lay low ground, where, hidden by the trees and the opposing lines that were about to become the scene of the conflict, and beyond, in the distance, rose the ridge of the village of Gheluvelt, crowding it standing out clear against the sky.

"Meanwhile, the French, after a prolonged bombardment, had taken the German positions north of Arras on a front of nearly six miles, and had pushed forward from two to three miles, capturing 2,000 prisoners and six guns. This remarkable success was gained in the course of a few hours.

WERNER HORN DENIED WRIT OF HABEAS CORPUS

Boston, May 11.—No writ of habeas corpus will issue in behalf of Werner Horn, the officer of the German army who attempted to destroy the international bridge over the St. Croix river, according to an opinion handed down today by Judge Morton in the United States District Court. The petition filed for Horn by ex-Congressman Joseph F. O'Connell and Daniel T. O'Connell is dismissed by order of the court. Horn will be obliged to remain in East Cambridge jail until he secures bail of \$10,000 or is acquitted by a jury in the United States District Court on the charge of violating the laws regarding the carrying of explosives on a common carrier. It is alleged in the indictment that Horn carried the dynamite for use in blowing up the bridge over the New Haven and Boston & Maine roads from New York to Manchester, Maine.

"The morning was calm, bright and clear. Away to the right were Guinchy, with its brick fields. To the north of them lay low ground, where, hidden by the trees and the opposing lines that were about to become the scene of the conflict, and beyond, in the distance, rose the ridge of the village of Gheluvelt, crowding it standing out clear against the sky.

How Zam-Buk Cures Skin Diseases

As soon as applied, Zam-Buk penetrates right to the very root of the disease and kills the cause thereof. The rich herbal essences then so stimulate the cells below the surface that new healthy tissue is formed, which, as it grows, forces out the diseased tissue. Zam-Buk cures from the bottom up. This is the reason that sores and skin diseases cured by Zam-Buk, do not return.

Zam-Buk is entirely different from all other ointments. It does not contain harsh minerals, or poisonous coloring matter. Nor does it contain coarse animal fats, which, in a short time, go rancid. Zam-Buk will keep indefinitely.

Many people have been cured by Zam-Buk after having suffered years and spent hundreds of dollars trying various remedies in vain. If you suffer from any skin disease or injury, benefit by the experiences of others. Try Zam-Buk first. Don't trouble with useless remedies.

Zam-Buk is unequalled for eczema, piles, pimples, cuts, burns, bruises, cold sores, frost bites, chapped hands, and all skin diseases and injuries.

NORWAY SENDS SHIPS TO SOUTH AMERICA

Buenos Ayres, A. R., May 13.—Only a short time ago the Norwegian-South American line of steamers was established for the purpose of trading between ports of Norway and those of Argentina and Brazil. The bi-monthly service has just started and later the line hopes to run steamers every ten days. The fleet consists of the Rio de la Plata, Rio de Janeiro, San Jose, San Andres, San Remo, Estrella, Cometa, all five steamers ranging from 5,500 to 2,500 tons.

The establishment of this line is evidence of the marked increase of commercial intercourse between these nations. The articles imported here consist mainly of dried fish, stardies, printing paper, wood pulp, machinery, granite, etc. Half of the streets in Buenos Ayres are paved with Norway granite blocks, as it is cheaper to transport them this long distance by sea than across the passage from the Condillera by rail. In 1908 the value of articles imported from Norway was only \$105,142, the value in 1914 being increased to \$2,261,842. The exports show nearly as great an increase, from \$429,984 in 1905, to \$1,078,978 in 1914.

REPORT OF THE PENAL SYSTEM IN CANADA

Ottawa, May 13.—Reform of the methods and conditions of penal servitude in Canada is under consideration by the Minister of Justice, Hon. C. J. Doherty. The draft of new regulations which are to govern the penitentiaries in Canada has been prepared and submitted for the minister's approval.

While the underlying principle tends towards a more modern and more humane system of treatment for the convicts it is not proposed that they be allowed to live the life of ignominy case.

A special commission a year ago investigated the penitentiaries. Several of the commissioners' recommendations will in part be adopted, but about half of them are discarded on the ground of impracticability. In the latter list is the suggestion that the management of the penitentiaries be placed in the hands of a commission of three. This proposal has been rejected because it was tried several years ago and found unsatisfactory.

Proposed reforms include the establishment of reformatories for young prisoners and first offenders, a system of classification based on the conduct of prisoners, the abolition of the stone pile and the substitution of outside labor as far as possible, abolition of close cropping of hair, of the hoting of convicts, their confinement in cells and dungeons, and the establishment of separator hospitals for the criminal insane.

It is further intended to amend the criminal code to permit of indeterminate sentence.

LARGEST PORT BUSINESS IN HISTORY OF ST. JOHN

Encouraging figures as to the shipping business at St. John during April and other industrial news of interest are given in the weekly letter of the board of trade issued yesterday.

Portions of it follow:

The port business for the month of April just ended was the best in the history of St. John. During the month, 82 ocean steamers, of a tonnage of 111,876 tons arrived, as against 20 steamers, of a tonnage of 77,716 tons in April, 1914. The wharfage returns collected by the city from these vessels were \$4,600 in excess of the same month last year. Already, the returns for May are ahead of those of last year. The outlook for the summer, from a shipping point of view, is very bright, as in addition to steam vessels, many sailing vessels have been chartered to carry forward lumber cargoes. The result of the past season's business has been to further demonstrate the supremacy of St. John as the winter freight port of Canada. The Canadian Pacific Railway Company managers are already laying plans for an increased business next year, being greatly pleased with this season's results.

The customs receipts at this port for April were the largest for many years. They reached a total of \$229,815.33, against a total for the same period last year of \$181,735.55.

Efforts are being made to restore the oyster beds of the maritime provinces to their former productiveness. A company at Shemogue has planted twenty-two acres of oysters and fifteen acres of cluck at a cost of over \$10,000. A dredge, 60 feet long, which will cost \$8,000, is also being built by this company. The value of the oyster output in New Brunswick in 1914 was \$58,458.

REAL ESTATE COMPANY HELD

At the annual meeting of the shareholders of the St. John Real Estate Company, held yesterday afternoon in the offices of the company, the annual reports of the president and directors were read and accepted, and directors were elected as follows: President, R. G. Halsey, vice-president, Neil Brodie, H. C. Creighton, H. W. Frink and L. E. D. Tilley, managing director, L. P. D. Tilley. The company has about 250 tenants in their various properties in the city.

What's in the Cup?

The flavor may be agreeable, but appetite isn't the only thing to be considered.

The average cup of tea or coffee contains from 1 1/2 to 3 grains of caffeine, a powerful drug which is a frequent cause of indigestion, constipation, nervousness, heart trouble and other ills.

Some persons are strong enough to use tea or coffee for a time without apparent harm, but repeated doses of its subtle, cumulative drug, caffeine, sooner or later affects even the strong man or woman.

Any tea or coffee drinker will benefit from a change to

INSTANT POSTUM

This pure food-drink has a delicious, snappy tang, and it contains no caffeine, nor any other harmful ingredient. It is made of selected wheat, a little wholesome molasses and is pure, invigorating and delicious.

And Instant Postum is so easy to make. Put a level teaspoonful in a cup, add hot water, and sugar and cream to taste.

The convenience of Instant Postum is seen at a glance. Sold in 30c and 50c tins. Some prefer Postum Cereal—the original form—which must be well boiled. 15c and 25c packages.

Grocers sell both kinds, the flavor is equally delicious and the cost per cup is about the same.

"MAKE YOURSELF AT HOME," SAYS HUDSON TO MOTOR TOURIST

Led by representative women, one Ohio village has decided to treat the visiting motorist as an honored guest. Tourists who have become shy from encounters with village "constables" are expected to faint with surprise when they reach Hudson.

A rest room has been provided in the Ellsworth building, opposite the clock tower. Here any itinerant stranger may sit, lounge or write to his heart's content. Every convenience for the tourist's comfort is provided and the ladies of the Hudson Home Circle take turns in acting as hostesses.

Hudson is a particularly appropriate point for such an enterprise. It is located on a brick paved highway, 40 miles in extent, which stretches south from Cleveland, through Akron, to Barborton and is expected, eventually, to reach Columbus. Hundreds of vehicles daily pass over this route. Hudson, as a sort of half-way station, is a most convenient

America's Note to Germany

Washington, May 12—The United States, in a note to be sent to Germany tomorrow, demands a guarantee that there will be no further attacks by submarines on merchant ships carrying non-combatants. It serves notice also that full reparation will be sought for the loss of more than 100 American lives in the sinking of the Lusitania, and for other violations of American rights in the sea zones of war.

While no indication is given of the steps to be taken by the United States in the event of an unfavorable reply, the note informs the German government that the American government will leave nothing undone, either in diplomatic representation or other action, to obtain a compliance with its requests.

No changes were made in the essentials of the communication as formulated Sunday by the president and approved by the cabinet yesterday. The United States points out that it never admitted Germany's right in the submarine war zone declaration, and that the imperial government that it would be held to a "strict accountability" for attacks on American vessels or lives. A strict accounting, therefore, is now asked from Germany.

His Letters Home Have Been Inspiration to Patriotism and Should Stir up Others to Join the Fight in the Cause of Right—Extracts From One

Leon Archibald, of Wolfville, N. S., a graduate of Acadia, was wounded at Ypres. Friends in St. John are anxiously awaiting further word and naturally hope that it will be favorable. Mr. Archibald was in civil engineering work in Regina when the call to arms came, and he was among the first to join the corps of guides. He went from Valcartier with the first Canadian contingent.

The following are extracts from a letter by Mr. Archibald to his mother, Mrs. Rachel deWolfe Archibald, Wolfville, and are of particular interest at present. He writes:—

England, Salisbury Plain, Lark Hill, Jan. 27th, 1915.

Dear Mother, Yours and sister's letters of the 8th and 12th received yesterday together with your clipping.

Before I go further I will explain delay of letter last week, for I appreciate just how anxious you and all are to know what is happening over here.

For two weeks solid "work" has been our middle name, Sunday and Monday. Today is our first let-up and all are making use of it, as an 11, to get off delayed letters. This has been each day's programme.

U. N. B. Encoenia Today

Interesting Exercises at Fredericton— The Valedictory of E. C. Atkinson

Fredericton, May 12.—This is Encoenia Day at the U. N. B. Lieut. Gov. Wood presided at the exercises, which, as usual, were interesting and well attended. The address in praise of the founders was delivered by Prof. Kierstead, Rev. Ralph Sherman of St. John spoke on behalf of the Alumni Society, and E. C. Atkinson was the valedictorian. Sir Frederick Williams Taylor of Montreal addressed the graduating class.

The Valedictory

Your Honor, Mr. President and Gentlemen of the Senate, Mr. President and Members of the Associated Alumni, Mr. Chancellor and Members of the Faculty, Fellow Students, Class Mates, Ladies and Gentlemen:

"Time rolls his ceaseless course." For four years we have looked forward with a feeling of pleasure to the closing exercises of 1915. We feel a joy, now, for we have gained our reward; the goal is reached. Today, we go out to come back no more as students of the University of New Brunswick. This day is our day of sadness. Next September when the students reassemble on this "old hill" we shall not be among them; but the thought of past joy and successes, twined with richer blessings yet to come, will cluster "round the remembrance of our Alma Mater."

We realize that this is one of the memorable days of our lives. Our past and future seem to blend. We look now, back to the days of work and play, then on into the unknown years before us. Today, we are students; even so shall we be tomorrow; for we are going out into a large, broader university, the university of the world, where each day will present its problems to be solved, even as they have come to us here.

Our course is finished! Behind are the struggles and the victories. Before is a future undreamed and unconquered. Today, we pass out to this future but, as we go, we would say a word of farewell to those surroundings and these old halls which have made our college life so dear to us.

Before we say farewell, it is perhaps in order to review briefly the history of the time spent here. One morning in early Autumn of 1811 a group of twenty eight youths and maidens, endowed with the veridical characteristic of freshmen, ascended the rocky pathway toward this university. We were guided by those, who seemed hideous to us, the upper classes, toward the back door, which we entered with fear and trembling. Some of our number were exceedingly suspicious but the stately seniors prescribed the remedy, while the lordly sophomores completed the cure with parental care. As freshmen class, we were up to the average in ability and above the average in athletics, which record we have maintained throughout our college course.

As sophomores, the class numbered thirty-three, having lost five and recruited eight members during the year. On us, as sophomores fell the duty of being the guardian angels of the incoming

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-lives" Healed His Kidneys and Cured Him

Hagersville, Ont., Aug. 28th, 1913.

"About two years ago, I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-lives' advertised, I decided to try them. Their effect, I found more than satisfactory.

Their action was mild and the result all that could be expected. But changes cannot be brought about and moulded into the highest degree of efficiency in one year so it came to us, as seniors, to take up the good work and bear it on a successful conclusion.

New custom bids me give an account of the last year, our senior year. In athletics, we have scored a decided success. For eleven years the football teams of this university have struggled to land the coveted prize but our efforts were at last rewarded, when, last fall we indicated upon our opponents the most disastrous defeat they have ever experienced in their history and thereby hangs a tale—the trophy came to U. N. B., there ever to remain—let us hope.

But we must not leave our football season without mentioning an event which occurred on October 29, 1914. On that day a special train left Fredericton, carrying 'our champions' and their very numerous enthusiasts to Sackville where 'our boys' delivered the goods. This event will go down in history as the most successful, both from an athletic and financial standpoint ever experienced at U. N. B.

But shortly after the close of that most glorious football season, some thirty members of the student body, including nine members of the senior class, took a deeper aspect of what they owe their country and British institutions. When the call came their answer went out at once and it went in that classical language of the British answer to the call to duty: 'Ready, aye, Ready.'

To those, who have left to fight and perhaps die for their country in this great crisis, we send our deepest pride and admiration and we do it with a feeling that wherever they are called, either in the plains of France or Belgium, they will nobly respond with a full hope as to the ultimate result.

"Our

"For freedom's battle once begun, Requested from bleeding side to side, The often lost, is ever won."

But war has not been the only calamity that has befallen us during this college. Shortly after the beginning of the New Year, we were all shocked to hear of the death of one of our number, Miss Neales, Jolly, ever ready with a smile, she possessed all those qualities admirable in a classmate and a friend. The sympathy, not only of her class, but of the whole college, goes out to her bereaved parents.

"But wherefore weep? Her matchless spirit soars

LORD STRATHCONA LIFE LIBEL SUIT

Action Over Biography in London Courts

W. T. R. PRESTON IS PLAINTIFF

Objects to London Daily News Criticism as "Attack of Sustained Malevolence"—Conducts His Own Case

London, May 13.—Mr. Justice Darling heard on Monday the action for libel brought by W. T. R. Preston, late trade commissioner for Canada, against the Daily News of London, in respect to their criticism of his recent book, 'The Life and Times of Lord Strathcona.'

The sentences in review which Mr. Preston particularly objected to were those describing it as an attack of sustained malevolence on the memory of the late High Commissioner, the final line being: 'There is no doubt a suitable name for this sort of thing in Canada. In England it is called "mud slinging."'

Mr. Preston conducted his case personally. Admitting his personal relations with Lord Strathcona were always friendly, he declared that his book drew attention to the state of public morals in Canada as a direct result of the methods of Lord Strathcona and his associates. "The whole public life of my country," declared Mr. Preston, "was absolutely demoralised; the purity which had previously existed had practically passed away. The dominion parliament had become a medium to create enormous fortunes through the manipulation of Lord Strathcona and his syndicate." All these things received publicity at the time in the English press, therefore I was telling in my book nothing not already made public.

Want Fair Comment.

Justice Darling said he would tell the jury there was on the face of it libel. It would be for the defendants to convince the jury such comment was fair.

The judge asked Mr. Preston if the book had sold well. The plaintiff replied he had no publisher's returns, but believed so.

In cross-examination Mr. Preston objected to Lord Strathcona being described as a great statesman. 'Defendants' counsel: "Would you agree it would be wrong and unfair to exhibit Lord Strathcona's life as an unrelieved picture of covetousness, duplicity, mean ness and corruption?"

Mr. Preston: "I should."

Alluding to Lord Strathcona's burial, the judge remarked that burial in Westminster Abbey would not make a bad man into a good one.

"CATARRHOZONE" PREVENTS BAD COLDS

STRENGTHENS WEAK IRRITABLE THROATS

Employs Nature's Own Methods and is Invariably Successful

Few will escape a cold this winter, but alas! many colds run into Catarrh. Neglected Catarrh is the straight gateway to consumption. Catarrhozone is a germ-killer—destroys microbes that cause Catarrh. It heals and soothes, relieves the rough, gives throat and lungs a chance, cleanses the nostrils, clears out the phlegm.

You feel better in an hour. In a day you're greatly relieved, and on goes the curing of Catarrhozone till you're well.

No treatment so direct. Catarrhozone goes right to the spot—acts quickly, cures thoroughly catarrh, bronchitis and all throat affections.

"Nothing could kill a cold so fast as Catarrhozone," writes Amey E. Seeling, from St. Johns. "Last month I had a frightful cold in my head, suffered from itching nose, running eyes and torturing headache. Ten minutes with Catarrhozone" inhaler gave relief and in one hour I was well of my cold. Catarrhozone I consider a marvel."

Carry "Catarrhozone" inhaler in your pocket or purse—take it to church—to the theatre—to work—use it in bed. It prevents and cures all manner of nose and throat troubles. Complete outfit, guaranteed \$1.00, small size 50c, sample size 25c, at dealers everywhere.

PROKOS WINS GREAT MATCH

Pins His Clever Opponent in 63 Minutes, and Again in Six in Six OLSEN A CLEVER WRESTLER

One of the Best Tournaments Ever Held in the City—The Preliminaries in Themselves Interesting Features

Wrestling fans in the Opera House last evening certainly had their money worth, for a better tournament of bouts was never staged in this city. Both preliminaries were draws and the final was won by Prokos.

Prokos stepped behind the foot-lights and announced the first event on the program—a match between Prokos and O'Toole, which was to go fifteen minutes. At this point Prokos arrived at the ring side from his dressing room and was greeted with applause.

Prokos is anxious to meet Young Hackensmidt on the local stage. Three minutes got his man in a body hold and a head lock and pinned him to the mat. Friends rushed to him with his dressing gown and he started towards his room, but instead he plunged down over the stage into the orchestra seats.

Prokos is anxious to meet Young Hackensmidt on the local stage. Three minutes got his man in a body hold and a head lock and pinned him to the mat. Friends rushed to him with his dressing gown and he started towards his room, but instead he plunged down over the stage into the orchestra seats.

ANOTHER ATTACK BY THE GERMANS IS REPULSED

British Check the Huns East of Ypres—French Make Further Gains—The Russians

London, May 12, 8:35 p. m.—An official statement from the War Office today, dated May 12, was issued tonight: "Paris, May 12, 10:28 p. m.—The following official communication was issued tonight: 'The fighting to the north of Arras continues with extreme violence. During the course of last night the enemy reinforced, delivered several counter-attacks, which, however, were without result.'

"In that directed against Neuville-St. Vaast our opponents suffered particularly heavy losses. We found in the cemetery alone more than 200 bodies of Germans, and we took about 100 prisoners."

"A second attack, between Carney and Ablain, was likewise repulsed. A third from the direction of Ablain, was also completely checked."

"This morning we made progress in the wood to the east of Carney, taking 123 prisoners. The progress continued in the afternoon. We have, besides, laid three lines of trenches bordering the wood to the north of Carney, which we penetrated several times, thus threatening very closely the last line of communication which remained open to the defenders of that position."

"Finally, we have taken a new part of the village, capturing there 400 prisoners. In the afternoon we attacked that section of Neuville-St. Vaast, which the enemy still holds, and fighting in the streets gave us the mastery of several groups of houses. Our progress here continues."

"The total number of prisoners made by us since Sunday had reached this evening 4,000."

"On the rest of the front we brought to a sudden halt by our fire three German attacks—near Berry-An-Bac, Reuilly and Marie-Basleuil."

Petrograd, May 12, via London—While admitting that the Austro-German movement from Crauw has met with a degree of success, Russian military authorities asserted today that there was no possibility of a further advance, with its consequent menace to the security of the Russian position in the Carpathians."

In semi-official comment today upon the situation it was said the success of the Austro-German forces was due to their over-powering numbers. They advanced along a line of about thirty miles, stretching northward from Nowy Sautec, and pushed on to points as far east as Stryzow and Brzozow, the latter being within less than thirty miles of Przemyel. It is said here that the Russian forces have now been re-grouped in such a way as effectively to oppose this movement."

In meeting the Russian generals onslaught the Russian generals were met with a degree of success, Russian military authorities asserted today that there was no possibility of a further advance, with its consequent menace to the security of the Russian position in the Carpathians."

HOW COFFEY BECAME BOXER

Only Few Years Ago "The Irish Giant" Was a Street Car Motor-man

The boxing career of James Joseph Coffey, a five Irish heavyweight, who has become a challenger for the world's title, has been a meteoric one, for when he landed in Boston he had no more than what a boxing glove was."

He was born twenty-four years ago at Castlebar, County Sligo, Ireland, a son of John and Annie Coffey. His mother's maiden name was Quinn.

He got a job as a tinsmith at Saylorville, Ill., but in 1911 he was induced to go to New York, where he secured a job as motor-man on an incident occurred that changed his plans. Telling the New York World of his life, Coffey says: "It was a cold, rainy morning in November, 1911, when my car was stopped because of a fire at 118th street and Broadway. While the car was standing still I noticed Policeman Shaw, whom I knew, standing at his post, trying to keep warm. He had on a rubber overcoat over his uniform and was shading his eyes with his hand in order to keep his blood circulating."

"Shaw is the instructor of wrestling and after sending him around in a circle several times lost the hold and they both went to the mat. From that day they worked with aggressive never before witnessed here. Never once did either man let up. After about fifty minutes of the hardest kind of work Prokos was seen to stagger and a close observer knew that he was getting sick. But he demonstrated wonderful grit and worked like a Trojan and after sixty-

won eleven out of twelve points, taking five from Wright and Anthony and six from Wright and McDonald. Latham had an average of 100 and 4-10 for the ten strings.

ASSOCIATED CHARITIES

Usual Demand For Girls to go To Country and Usual Difficulty Getting Them

The Associated Charities held its last meeting for the season yesterday afternoon, with W. S. Fisher, president, in the chair. There was a large attendance of members of the board and several interesting cases were discussed. The report of the secretary, Miss Grace O. Robertson, showed that there were more applications for employment for women than in April of last year, but also more to the country for the summer and the usual difficulty in getting them. Men are generally well employed in St. John at present. The board granted Miss Robertson the usual holiday a little later in the season.

THE 26TH BATTALION MARCH WILL RESOUND THROUGHOUT ENGLAND AND FRANCE

The full band arrangement of the 26th New Brunswick Battalion March has been placed by order of Lord Kitchener with 100 military bands in Great Britain and fifty copies are being sent to Paris this week, under instructions received from the war minister of France, for the bands of the French navy.

This piece of music is a local composition and contains as its title "My Own Canadian Home" and has the distinction of being the only regimental march composed for and bearing the distinctive name of an overseas battalion in the present war. The edition is entirely complimentary.

SAVED MR. CLARK'S HOUSE.

The handsome country residence of C. A. Clark, at Renfrew, narrowly escaped becoming the prey of a brush fire yesterday afternoon. Fortunately some residents caught sight of the blaze and soon had quite a number of willing workers on hand, fighting to save the house. They formed a bucket brigade and as the river was only a short distance away were able to secure enough water to extinguish the flames, but only after an hour's hard labor, and the sacrifice of a pair of trousers of one young man. They were badly scorched. Thomas X. Gibbons, Main street, was one of the first to see the fire, and joined the bucket brigade with a will. He afterwards remarked that it was the hardest hour's work he had done in years.

BURIED TODAY

The funeral of Mrs. Margaret A. Sandall took place this afternoon from her late residence, 218 Princess street. Rev. W. H. Barraclough officiated at the funeral services and interment took place in Fernhill.

The funeral of John W. Shaw took place this morning at 8:30 o'clock from his late residence, Union street, to the Union station. The body was taken to Millland via Norton. Burial services were conducted last evening by Rev. Messrs. F. H. Wentworth, M. E. Fletcher and G. Swain. Rev. Mr. Wentworth and several friends accompanied the body to its last resting place.

The funeral of Mrs. Annie Kitchen took place this morning from her late residence, Main street. The body was taken by boat to Fredericton for interment. Burial services were conducted last evening by Rev. M. E. Conron. The choir of the Portland Methodist church sang several hymns.

KELLY MAKES A GREAT SCORE

Rolls 588 in Five Strings—Latham's Fine Work in Two Men League

On the Vic alleys Kelly won the five string competition yesterday with the handsome score of 588 as follows: 116, 120, 111, 137, 114. This is about as good a score as was ever put up in the city. Latham rolled ten strings last night in the Two-Men League for a total of 1004.

Latham led the bowlers in the Two-Men League having an average of 94, and 95, Latham also made the highest string, 186; also won the five string victory in this league, with 518. Latham won all the individual potes in the league, and this is the first time that one man had this honor. He is one of the most consistent bowlers in the city, a very steady man at all stages of the game and by his clever head work and good shooting has pulled his team out of danger many a time when defeat seemed to be sure. The following shows the prize winners in the Two-Men League:

Team	P.W.	P.L.	P.F.	G.P.
Loughlan-McKean	39	16	10280	11
Stevens-McDonald	67	18	10245	11
Latham-Taylor	44	22	10142	11

READY TO WIN BUT NO FUNDS FOR CHECK

King Street Incident Which Aroused Some Curiosity

A young man, well known in legal, political and military circles, attracted considerable attention one day this week at the busy noon hour as he stood at the foot of King street in animated conversation with several companions. The cause of the interest was his unusual equipment. He wore an olive drab military belt to which was attached a military sword of antiquated cut, over his shoulder he carried a rifle in a canvas bag and his back was an ancient knapsack. No wonder his friends were surprised. There were many guesses as to the reason for the outfit but the prevailing idea seemed to be that his indignation over the sinking of the Lusitania had got the better of him and he was starting out, single-handed with what equipment he could lay his hands on, to do battle with the Germans. Nothing so serious, though it was only on a bet. A brother lawyer had warned that he would not walk to the head of King street and back in that outfit and he had started out to win the bet. He only got as far as the corner when he was informed that the check which his friend had put up was no good. Hence the animated conversation. Inquiries proved that there were no funds to meet the check and the march was not completed but the young man got the publicity even if he did not get the ten dollars.

YOUNG TREES TO PRESERVE FORESTS

Bay Shore Lumber Co. Carrying on Practical Reforestation

"We are setting out from 40,000 to 50,000 young trees in connection with our reforestation scheme this year," said Robert Conroy of the Bay Shore Lumber Company yesterday. "The day has passed when it is regarded as good business to only cut and leave it barren. We have already reforested large areas and intend to keep up the work. At present we have twelve men attending to this feature and we regard it as an excellent investment."

"Another rule which we have adopted for the protection of our future interests is the limit we have placed upon the size of the logs we cut which is an inch greater than allowed by the government thus preserving the trees until they are of good size before cutting them."

"Our cut is about the usual quantity this year and I feel that it is all safe, the last rain having helped the drives greatly. It was an unusual winter's work, though. We had practically no snow for hauling and all our logs were hauled to the streams over birch skidways."

MRS. MATTHEW SMITH.

The death of Mrs. Barbara Ann Smith, aged seventy-nine years, occurred on May 6, at the home of her daughter, Mrs. Jane Galbraith, Oliville, Queens County, N. B. She was the widow of Matthew Smith, who died about a year and nine months ago. Two sons, Richard C. and John W., and two daughters, Mrs. Galbraith of Oliville and Mrs. John H. Daley, of 129 Sydney street, St. John, survive. The funeral was held on Saturday, May 8, to Lyons' cemetery, with services conducted by Rev. Mr. Jenkins.

Have You Seen The Very Latest in MATRESSES?

THE "DIXIE NO TUFT"

Stands pre-eminent as the acme of comfort and cleanliness. It has all the good points of the ordinary felt mattresses, but has distinctive qualities which places it head and shoulders above anything else on the market.

The above cut illustrates its construction, and a glance at it will convince you of the truth of our statement. It is made up of ten compartments, and each compartment is practically a distinct and perfect miniature mattress. The absence of tufts does away with the hard spots, which tuffing inevitably produces, and with the depressions at every tuft which are gathering places for dust, dirt and germs. Our space is too limited to describe in detail why the Dixie has twenty-five per cent. more elasticity than the tufted type, why it keeps the appearance after other mattresses have spread and sagged out of shape.

But if you will write or phone us for circulars which fully describe all these points, or, better still, call and let us show you samples, we will feel sure that your next mattress purchase, and all future ones, will bear the "Dixie" trade mark.
