REAL ESTATE MEN MAY SEEK CHANGE

A difficulty which has arisen in connection with the investment of outside money in real estate in this city is the requirement that all companies incorporated in the province must pay a business license before they can record the purchase of real estate. The tax amounts to \$80 for companies with a capital of less than \$100,000 and \$100 for larger concerns. What is the object of this tax? It is a fairly heavy charge if their only business is the investment in one or two properties and it is a charge that would have to be met every year. Apart from the amount of money involved, the tax objects to an indication of the treatment which outside corporations might expect in the province and it is said that this account several deals which might have been put through have been held up.

STEAMERS SPEEDING TO AID THE CRIPPLED GIANT TITANIC

Hits Iceberg on Maiden Voyage And Wireless Calls Bring Help

Virginian One of Those Nearest to Huge Ocean Steamship—Was Sinking Forward at Midnight and Passengers Have All Been Taken off—Means Great Money Loss

Wireless reports from the S. S. Titanic, the mammoth White Star liner on her way from England to New York, on her maiden voyage, announce that she struck an iceberg in the Atlantic last night and is apparently badly damaged. Steamers were speeding to her aid from various points of the compass and meanwhile there is no danger of loss of life, although the Titanic was reported sinking forward at midnight and that the passengers were being taken off in the lifeboats.

MEANS GREAT LOSS

New York, April 15—A member of a prominent firm of underwriters, when informed of the disaster to the Titanic, said: "Even if the Titanic reaches port her owners will have to calculate on a loss of at least \$100,000, but if she becomes a total loss it will be an extremely serious matter." The vessel cost \$10,000,000 to build. Her hull is valued for insurance purposes at \$5,000,000, then there are all sorts of miscellaneous matters to be taken into account for disbursements and passenger money and freight paid in advance as well as for stores, baggage and other things. I do not suppose the owners are covered to the extent of more than \$7,500,000 or at the utmost \$7,500,000.

DECLARES STEAMER UNLIMBATE

New York, April 15—Mr. Franklin, the president of the International Mercantile Marine Co., said today that while the wrecking party had been received at the site, the official report positively established that there was no cause for alarm regarding the safety of the passengers of the ship as it was reported to be sinking. The Titanic is now at latitude 41.46 north and longitude 50.14 west," he said. "She is being approached from the west by the Olympic of the White Star Line, which they figure will be alongside by eight p. m. today; the Baltic of the same line, which is east of the Titanic, is on its way to Europe, has turned back and will probably be alongside the Titanic by four p. m. today; the Virginian, of the Allan line, outward bound, is reported as rapidly approaching and should be alongside by ten o'clock this morning. The Olympic has just been reported as writing back in direct communication, by wireless, with the Titanic. Frank is most emphatic in his assurances regarding the safety of the passengers and steamer.

Mrs. Conner went to the court house where she met her attorney, Harry Hythe and informed him that she had changed her mind; that after thinking the matter over she had decided not to prosecute her suit but to withdraw it and rely upon her petition for separate support, which she has already entered in the probate court and which will be heard in May. It is said that religious scruples brought about her change of mind.

TUG BOAT FILLS AT HER WHARF

The St. George in Trouble at Her Berth in Chatham

A Hockey Record

Match on April 15 Between Chatham and Campbellton—Election Day Tomorrow in Former Place; What They Think About the Outcome

Chatham, N. B., April 15—(Special)—The tugboat St. George, belonging to the J. B. Snowball Co., while lying at winter quarters near the mill wharf, gradually filled with water and when this condition was seen yesterday it was found to be too late to save the big vessel. Pumps were hastily made ready on board the St. George, which was lying near at hand, but before these could be manned the water was pouring in through the cabin windows, the vessel was practically submerged. The water at this point is thirty feet deep and when the tug arrived gave way the tug will in all probability go to the bottom.

SAYS WHITE SLAVE WORK GOES ON HERE

Rev. Dr. Moore, Here for Purify Convention, Speaks in Two Churches and Every Day Club

That the white slave traffic has a grip on Canada and that the agents were discovered by him working in St. John, was the starting statement made last evening by Rev. T. Albert Moore, D. D., superintendent of the moral and social reform department of the Methodist church in Canada, in his sermon in Centenary church last evening.

Dr. Moore said he had overheard a young man talking to a girl in the railway depot here and as a result handed the young man his card. The latter expressed away with an oath and took the next train for the United States while the speaker took the girl back to her mother in Prince Edward Island.

Dr. Moore spoke from the words of Jesus in reply to the query of John the Baptist asking if he were indeed the son of God, in which Christ referred the question to the good works he had done.

Dr. Moore spoke along the same lines in his sermon in Main street Baptist church in the morning and also made reference to Sabbath observance, expressing his determination never to ride in the street cars on Sunday.

La MARQUISE de FONTENOY Noble Tillers of the Soil in Ontario - A Suit Won But Probably Regretted - Ruling Social Affairs

(Copyright, 1912, by the Brentwood Company)

Two or three months ago I mentioned in these letters that Lord Hyde, the son and heir of the Earl of Clarendon, had decided to make his principal home in Canada. He arrived in New York last week, on the steamer Olympic, with his wife and two little children, intending, after a few days stay in the metropolis, to go out to their farm of 207 acres in Pickering, twenty miles from Toronto.

Lady Hyde was born in 1886, the daughter of Herbert, Earl of Somers, of the Oldstead Guard, and is a sister of the present and sixth Baron Somers. Lord and Lady Hyde have two children, George Herbert, Arthur, Edward Hyde, who is nearly six years old, and Nina Joan, Edith, Virginia, just turned three.

Lady Hyde speaks very enthusiastically of her intended life in Canada, as a farmer's wife, doing her own house cleaning, cooking, washing and ironing, while her husband labors in the fields and gains the necessary capital and agricultural skill to enable him to advantageously increase his holdings in Canada.

But they do not intend to spend all their time in Canada. They contemplate going back to England in the winter and putting their little boy to school there. The present Lord Clarendon, to whose title Lord Hyde is the next heir, is a man of about sixty, who two years ago married the rich widow of the Hon. Edward Burke, and has two country places in England; one of the ruined castle of Kenilworth; and the other situated at Watford, not far from London. An Aunt of Lord Hyde was the wife of that Lord Stanley of Preston who was Governor General of Canada, and who died as seventh Earl of Derby.

Now May Be Sorry he Sued Count Henri de Bearn, who is sometimes erroneously styled "Prince" de Bearn, and who is at present secretary of the French legation in Pekin, most regret that he sued the trust formed at the time his marriage with the late Countess of Bearn, and who is now the father of Lord Hyde, and who is now the father of Lord Hyde, and who is now the father of Lord Hyde.

The Evening Chit-Chat

By RUTH CAMERON

THERE are some people in this world who live every moment of their lives in a strenuous, tense way, and then wonder why they are so tired at night, why they grow old so fast, why they don't get fat, or why they have nervous breakdowns. The real wonder is that they are not more tired at night, that they do not grow old more rapidly, that they aren't a great deal thinner, and that they don't more often have nervous breakdowns.

Walking is a splendid exercise, but not if you walk as if to a fire, with every nerve keyed up, and your mind passionately intent on your destination. And that is the way this type of person almost always walks, even if he is only out for an afternoon stroll and has all the time there is.

And not only do these folk do active things, such as walking, in an unnecessarily strenuous manner, but many things also which the normal person does quite passively and with ease. Listening, for instance. I have known a person of this type to come home from an hour's lecture as tired as if she had been doing a family wash.

The explanation of her condition was that she had been sitting on the edge of her chair, mentally contradicting every word he said. Naturally chair mentally contradicting every word he said. Naturally chair mentally contradicting every word he said.

Perhaps you would not think that it would be possible to lie in bed strenuously, but it is a great many people who do just this. They are so keyed up that they don't know how to relax even when they get to bed at night, and consequently they have nervous breakdowns, or, at least, they don't sleep in cramped positions, and many of them are so tired that they can't get up in the morning.

Occasional strenuousness has its value; perpetual strenuousness always defeats its own end. The trouble with the people of this type is that they know that they are over-tired, but they can't help it. They are so keyed up that they don't know how to relax even when they get to bed at night, and consequently they have nervous breakdowns, or, at least, they don't sleep in cramped positions, and many of them are so tired that they can't get up in the morning.

Two pounds of beef chopped fine, half dozen crackers rolled fine and moistened with half cup sweet milk, two eggs well beaten; mix all thoroughly together and season with pepper, salt and celery. Bake about hour and a quarter, basting occasionally with a little butter and water until the last 15 minutes. When done pour out the fat that may have tried out in the pan. Set the loaf away to become perfectly cold, then slice and send to the table. Better baked the day before used.

SHOULD WOMEN VOTE. No one who keeps posted on the great things being done by women in professional and business life, and most important of all, in the American States, can not be surprised that they would vote wisely. POWERS STILL TRYING TO BRING TO AN END THE WAR IN TRIPOLI. Constantinople, April 15.-A statement from St. Petersburg that the powers had made proposals of mediation to Constantinople with a view of bringing to an end the war between Turkey and Italy, is incorrect. BIG CARBO OF POTATOES. More than 43,000 bags, containing 115,400 bushels of potatoes, arrived last week at New York on the Lepanto line steamer, the ship from Liverpool. It was the biggest shipment of potatoes that ever arrived there. The potatoes had to pay about \$24,000 customs duty. They weighed 7,180,000 pounds and it is estimated that the bags contained about 18,000,000 potatoes, some large and some small. Since the first of this year about 1,150,000 bushels of potatoes have been brought there from Great Britain. As the crops in the States show a failure last summer, produce dealers were forced to purchase abroad.

GROWTH OF ST. JOHN

Mr. W. Burton Stewart believes that St. John is the natural location for great steel works, including a steel ship-building plant. Mr. D. McNicoll says that St. John is the natural winter gateway of all Canada.

enough to predict, and the more thought of which, to the average mind, would perhaps appear unthinkable.

The provincial government has not been using any point on steel bridges. Did none of its supporters need an order for paint?

"Several" immigrants arrived Saturday to settle in New Brunswick. Congratulations to Premier Fleming.

There is some hope for Canada yet, if her noisy statesmen can be induced to get the habit of going into English politics.

The Ontario government will insist that English be taught from the very beginning in all public schools in that province.

Halifax ministers prefer to speak softly when they discuss the social evil. That is not the method of the World's Purify Federation, whose spokesmen are in St. John today.

Col. Roosevelt is conducting a rough-riding campaign among the old-line Republicans, and putting them to rout in some states in a quite sensational manner.

The North German Lloyd will build a steamship of 34,000 tons. When vessels of half this size are in the Canadian trade, where will they find a port to give them accommodation? At St. John, the natural gateway of Canada, with a harbor capable of docking the biggest steamers afloat.

Are the influences of the reformatory at East St. John bad for boys? If they are the boys should not be sent there. The question has been raised and should be given full consideration.

Referring to the fact that no copies of bills before the legislature are sent to the press, the Chatham World Conservator, whose editor is president of the New Brunswick Press Association, says:—The bills have not been sent to the papers this session, and editors have not been in a position to enlighten their readers respecting the legislation that is passing.

TO KILL CATERPILLARS.
Recently at an agricultural meeting the lecturer, confining his discourse to the growth of vegetables in general, one of his attentive listeners asked, respectfully:—

BEFORE OR AFTER
"Father," says the lad boy of the family, "is adept at blowing his own trumpet, while mother is equally expert in harping on one string; mother-in-law has played second fiddle, and Aunt Kate leads a humdrum existence; grandpa gives every night a solo on his nasal organ, without the stops; uncle spends his time wailing his whistle; John is fond of his pipe, and Emily is for ever ringing the changes on her lovers—and I'm a bit of a lark myself!"

There had been a fatal accident at the railroad crossing in a little Pennsylvania town, and the coroner, a pompous old fellow, who magnified conscientiously both his office and its incumbent, had impaled a jury for the inquest.

'IRELAND, A NATION,' TOAST OF MR. REDMOND

Nationalist Leader's Speech at Recent Dublin Banquet - The Home Rule Bill

(Times Special Correspondence) Dublin, April 13.—John Redmond, M.P., leader of the Irish Nationalist party, presided at a recent Irish Nationalist banquet. Mr. Redmond, on rising to propose the toast of 'Ireland a Nation,' was greeted with loud cheers.

remembered well how he was scoffed at for that statement. Today home rule not only held the field, but it riveted the attention of the world as the greatest constitutional issue of our time. His fortunes were followed from day to day with ever-increasing interest, anxiety, and deep sympathy in every corner of the British Empire and in every state of the American Union.

GERMANY IS TROUBLED OVER ART QUESTION

Authorities Are Busy in a Campaign Against The Undraped

COURTS ARE CALLED ON

Publishers Prosecuted for Circulating Reproductions of Famous Paintings by Titian, Correggio and Bouguereau, and of Rodin's Statue 'The Kiss'

(Times Special Cable.) Berlin, April 13.—Germany is suffering from 'Biosenswahn' or 'Bare-Mania.' A rigidly respectable state has issued itself with tailors, milliners and boot-makers to ensure that all art shall be properly clothed.

The 'Bare-Mania' is an outcome of politics. Some people say that the original cause is the dominance of the Clerical Center party, the Center, which with the Conservatives has run Germany during the last three years, is emphatically the respectable party. It backs all forms of clothes legislation; and the law under which the present prosecutions are made is largely its creation.

At first the wise censors merely vented their indignation on the publishers and here they had great success. Publishers were fined, one was sent to jail, and the 'Marianne' magazine, which had been a success since its founder, Casanova, was obliged to flee from Germany. But later some clever marauders discovered the fact that the German censor was quite as marauder as the artist.

BETTER PROTECTION CHEAPER INSURANCE!

The Water and Sewerage Department of the civic administration is one in which all citizens should take a deep interest.

Improved water service means better protection against fire, and better protection against fire means cheaper insurance rates.

During his term as chairman of the water and sewerage board Ald. Wigmore has made a special study of the service and has done something to improve it.

If you think this worth while, see to it that Wigmore gets there.

Wigmore For Commissioner!

STRIKE LAWS IN AUSTRALIA

Sydney, N. S. W., April 15—Five European countries, Russia, Roumania, Holland, Belgium, and Italy prohibit under severe penalties strikes in those services which are necessary to the public.

In Australia conciliation courts or boards are generally established. Any strike or lock-out after the court or board has given an award is sharply punished.

In New South Wales strikes or lock-outs are prohibited. Any person taking part in a strike or lock-out is liable to a penalty of \$5,000 or to imprisonment for two months.

In South Australia, after a wages board has given an award, any person infringing it is liable to a fine of \$100, and any organization to one of \$2,000.

In Victoria an act was passed in 1903 forbidding strikes on the state railways and imposing a fine of \$500 or twelve months' imprisonment on any person en-

gaging in such a strike, advising it orally, or by publication, collecting funds for, or taking part in meetings more than six persons to encourage the strike.

An auxiliary trial was sent out from Moncton and also a crane and the truck was cleared at 4:30 Sunday morning.

The Maritime Express from Halifax was delayed eight hours Saturday night and traffic generally tied up until the wreck was cleared away.

The Artillery Band Concert. The Artillery Band, which is one of the leading musical organizations in the maritime provinces, promises the many lovers of good music a rare treat on Monday night next.

The band will be assisted in the programme by Mrs. L. M. Curran and E. A. Munroe, two of the leading soloists in the city.

SAYS THEY WILL NOT BE TOLL BRIDGES

Hon. H. F. McLeod's Statement in Local House—Valley Railway Matters—Poated Queries Re Steel Bridges

Fredericton, April 13—The House met at 2 o'clock.

Hon. Mr. Murray presented the report of the standing rules committee.

Mr. Slipp, on behalf of Mr. Woods, introduced a bill to incorporate the Nerepis & Long Island Railway Company.

Mr. Cyr introduced a bill relating to the town of Edmundston.

The house went into committee with Mr. Burchill in the chair and agreed after discussion to the bill to amend the act respecting peddlers with amendments, empowering any municipality to enact by-law to control peddlers' licenses.

The house went into committee, with Mr. Young in the chair, and considered the bill to incorporate the St. John & Quebec Railway Bridge Company.

In reply to Mr. Copp, Hon. Mr. McLeod said that provision was made in the bill that the company might construct, if they deemed it advisable, other bridges in addition to the three large structures for which the subsidy of \$1,000,000 had been granted by the dominion government.

Mr. Bentley said that hon. members had some information that the structures would be toll bridges and that statement had been made in parliament by Senator Loughheed.

Hon. Mr. McLeod said that while Senator Loughheed had made the statement there was no truth in such a report.

Hon. Mr. Fleming explained the arrangement under which the interest on the bonds for the construction of bridges would be paid. No tolls would be exacted. The federal government had agreed to a guarantee of \$1,000,000 and would pay the interest for the first fifteen years.

Mr. Bentley asked if the subsidy lease had been signed.

Hon. Mr. Fleming said that that was a matter for the federal government and the lease was between the Bridge Company and the dominion government, but the contract was bound to be executed.

Two companies were given but the composition of both companies were the same. The St. John & Quebec Railway Company had under the agreement with the federal and provincial governments agreed to form a company to build the bridges.

There was some discussion as to the amount of bond issue to be allowed under the provisions of the bill. Finally it was agreed to allow the action to remain as it stood originally providing for a bond issue of \$1,000,000 for bridges.

The bills to incorporate the Nerepis & Springfield Telephone Company and the St. John & Quebec Railway Company were agreed to with amendments.

The house went into committee with Mr. LaBelle in the chair and agreed to the bill relating to the city of Fredericton with amendments. In connection with this bill Hon. Mr. Fleming said that when there were numerous amendments proposed copies of the amendments and leave them supplied to the members and the officials of the house.

The committee also agreed to bills to fix the valuation on the Algonquin Hotel properties at St. Andrews, also to authorize the town of St. Andrews to issue debentures for new school buildings, also to authorize the town of St. Andrews to borrow money for sewerage purposes and to issue debentures therefor.

The house went into committee, with Mr. Currie in the chair, and agreed to the bills relating to the town of Campbellton, to fix the valuation of Canadian Cottons Limited at Milltown and to amend the acts respecting the town of Milltown.

Hon. Mr. Fleming moved that the promoters have leave to withdraw the bill incorporating the St. John Canal & Dock Company and the Auto Road Company and that the fees paid be returned to the promoters.

The house adjourned at 6:30 p. m. No Steel Bridges Painted. Reply to inquiry by Mr. LaBelle: 1. How many steel bridges exist in New Brunswick? 2. How many steel structures have been repainted since March, 1908? 3. How many were repainted during 1911? 4. None.

Has the chief engineer been instructed to examine any of the steel structures in view of the condition of corrosion setting in? If so, how many did he examine during 1910 and 1911? Did he make any report to the chief commissioner? If so, what was the nature of such report? A. The chief engineer was not instructed to make any direct examination of the steel structures throughout the province with a view of making a direct report relative to corrosion conditions; but he has on various occasions when dealing with repairs generally to such structures mentioned the advisability of an appropriation being made to meet the metal preservative attention required generally to this class of structure.

How much money has the province expended in steel structures or near about? A. See board of works reports of previous years. Is the government aware of the great loss sustained by other provinces by neglecting the painting of steel bridges? A. No.

THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Disorders

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 per cent of illness is attended with inactive bowels and torpid liver, and that these conditions must be removed gently and thoroughly before health can be restored.

Recall Ordinaries are a positive, pleasant, and safe remedy for constipation and bowel disorders in general. I am so certain of their curative value that I return to return the purchaser's money in every case when they fail to produce effect.

Recall Ordinaries are eaten like candy, they act quietly, and aid in producing a pleasant, healthy, and refreshing effect. They do not grip, purge, cause nausea, flatulence, excessive looseness, diarrhoea, or other annoying effects. They are especially good for children, weak persons, or old folk.

BOY'S SUIT A DAY LATE FROM TAILOR'S; HE ENDS HIS LIFE

Many Youthful Suicides in Russia—Educational System Declared Responsible for Some

Odessa, April 13—One of three local suicides recently reported was that of a boy of twelve and a half years named Brokof Molchanovski, the son of well-to-do parents, by hanging himself. The cause was of an extremely trivial nature—a day's delay in a tailor's delivery of a new costume. He is described as having been a very bright, healthy and intelligent little fellow, and head of his form in the fourth class of the Odessa national school.

Youthful suicides in this country are shockingly numerous. One frequently hears of young students of both sexes between the ages of fifteen and seventeen taking their own lives for no more serious reason than that of having failed to pass their seasonal examinations. It is unwise for the parents and teachers of children of nervous temperaments, in the way of incentive to industry, to impress upon them the dire disgrace of being placed by the examiners and set back a year in their course.

On the part of the education authorities it is also a foolishly rigorous regulation that penalizes by a year's hold-back the failure in two or three subjects out of a score. The boy or girl naturally feels the disgrace of being kept a second term in the same class, and school diploma, which are of primary importance and value, are unobtainable until all the six classes have been duly passed; otherwise the pupils are debared entry into the higher education institutes and the universities, and are ineligible for many grades in the civil service.

A deplorably greater number of youthful suicides occur among the "intellectuals" which are directly attributable to what is generally and conventionally described in the press reports as romantic causes. Measured by the shocking frequency of foibles, there must, assuredly, be more youthful romance in Russia than in any other country in the civilized world.

CASHER SHORT QUARTER MILLION

New Berlin, April 13—The First National Bank of New Berlin (N. Y.), one of the oldest banking institutions in Chenango county, closed yesterday following the discovery of a shortage in the accounts of its cashier amounting to \$250,000.

The cashier, Frank Arnold, is critically ill. A man named A. Charles Holland, of New York city, was arrested recently and is now being held under bail on a charge of attempting to blackmail Arnold.

The alleged blackmailer, Holland, was arrested after detectives from the William J. Burns detective agency had been called in to protect Arnold. Holland said he had damaging evidence against Arnold, for which he demanded \$10,000, according to the charge. The alleged attempt to blackmail Arnold was made about April 1,

ONTARIO SCHOOL QUESTION

Toronto, April 13—The legislature concluded its business for the session at noon yesterday. In the closing hour, Sir James Whitney made a statement of the government's policy regarding bilingual schools. The government will insist that instruction in English shall commence at once upon a child entering school; the use of French as a language of instruction and communication to vary according to local conditions upon the report of the supervising inspector, but in no case to continue beyond the end of the first term, which means the first two years of the child's attendance at school.

HAVE TO EXERCISE CARE IN CROSSING STREET

Montreal, April 13—When a man is crossing the street it is his duty to see that he can do so without exposing himself to risk of injury. That was laid down yesterday in a jury action in which Samuel Gold attempted to recover \$10,000 damages from Adin Bryant, a stock broker, for injuries received by being struck by Bryant's car.

The car was running down Beaver Hall hill when Gold ran in front of it and was hit. The jury found that Gold had suffered injuries worth \$10,000, but reduced the amount to \$2,000 because of his carelessness. Had Bryant's chauffeur had the car under control at the time, Gold would not have been given anything.

DOAN'S KIDNEY PILLS

Are the Best Remedy in the World FOR BACKACHE. Many people fail to understand the significance of a lame, weak, sore or aching back. You overtax the kidneys—give them more work than they can possibly do—then they cry out in protest through the pain in the back.

Backache is simply kidneyache and the best remedy in the world for backache and all kidney troubles is Doan's Kidney Pills. We have thousands of testimonials from all quarters of the globe to prove this. Here is one from a party who used them in England, but who is now a resident of Canada.

Mr. P. R. Chaney, Wycliffe, B.C., writes: "When living in the 'Old Country' three years ago, I suffered severely from pains in the back, and had to give up work. The pain was so bad that when I stooped down to pick anything up, I felt my back must break. I tried all sorts of remedies and several doctors, but all to no purpose. One day I read of Doan's Kidney Pills, and thought I might as well try them, and to my surprise, before I was half through one box the backache had entirely disappeared, and it has not caused me any trouble since. I always keep 'Doan's' in the house and shall always recommend them to all sufferers."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LOSING THE YOUNG MEN

(Shelburne Gazette) Edward Devine, Frank Dexter, W. Moore, J. W. Sisk, yesterday, next to Ross Dower and Lee Houghton, 17 other well known men, leave for the front. Referring to the boys who are leaving the town to go west, we wish them, we have those who have gone before, very best of good luck. But we regret necessity of their going. It seems too bad that when our boys attain a certain age becomes necessary for them to leave old town, to help with their youth, and brain build up some other command Bryant's car.

WAS A GREAT SUFFERER FOR FIVE YEARS FROM DYSPEPSIA.

Dyspepsia is one of the most prevalent troubles of modern life, and thousands of people suffer untold agony after every meal, for nearly everything that enters weak dyspeptic stomach acts as irritant.

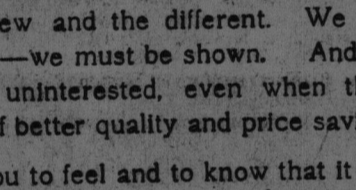

The long train of distressing symptoms which render life a burden to the victim of dyspepsia, may be promptly cured by the use of Burdock Blood Bitters. Mrs. Wm. J. Boyce, Lepreau, N. B., writes: "I thought I would write to tell you of the good Burdock Blood Bitters has done me and also tell how thankful I am."

"For five years I had been a great sufferer from dyspepsia, and tried different doctors and proprietary medicines, but got no relief. One day a friend told me to try Burdock Blood Bitters. I did not have much faith in it, but I thought I would give it a trial. To-day, I am completely cured, and I will always recommend it."

Burdock Blood Bitters has been on market for about thirty-five years and is manufactured only by The T. Mill Co., Limited, Toronto, Ont.

CANADIAN 'RED CROSS' GIN

AGED IN BOND constitutes a valuable beverage for the upbuilding of the system. The public cannot be too often warned against the raw alcohols that form the base of a large number of the imported spirits. These adulterated mixtures are most injurious to the health on account of the numerous impurities they contain.

If you are in need of an alcoholic stimulant, choose well matured gin: it will be found to be a real tonic; it upbuilds the jaded system and gives the strength necessary to meet the daily demands of life.

'RED CROSS' GIN is a pure product, from the finest Canadian barley, corn and rye and the best quality of juniper berries. It is made, distilled and aged in bonded warehouses, under Government inspection. It is a liquor that is not possessed by any other alcoholic beverage. Like all other good things, it must be used with discrimination.

Bill O'Hara, who, by the way, is a real Torontonian, with the Toronto ball team (International League), is regarded as one of the surest catchers in the big leagues. THE STORY OF BETTY

(The Evening Mail.)
"What do we do?"
The corresponding secretary of the National Kindergarten Association swung around in her chair and echoed the reporter's question.
"Well, we try to make many kindergartens grow where none grew before. Kindergartens make better children; and better children, besides growing up good citizens, make better homes. I'll tell you how Betty Lowell reformed her family, and then you'll know what I mean."
"Betty lived in New York, it doesn't matter where, and when she was four years old she was as dirty and ragged and generally sloppy, and out at toes and heels, as any child that ever played in the streets of the slum."
"There were two or three little brothers and sisters, a big brother, a father and mother and grandmother in the family. Like all of the city poor, they lived in very small quarters."
"The grandmother read the Bible and praybook all day, and did little else, and the mother spent her time in visiting the neighbors and talking about the new rocking-chair Mrs. So-and-so had got with trading stamps, or something like that."
"The little children were left to their own devices, which were dirty. As a consequence of all this their father and brother spent all of their evenings in very small quarters."
"Betty was the brightest member of the family, and consequently took the most kindly notice of her mother's wickedness that children pick up in the streets."
"In some way Betty was captured by a wonderful proficiency in profanity. Her vocabulary was profane and varied. Largely it was the result of copying by some lively stable folks. More about that later on."
"In some way Betty was captured by a kindergarten teacher, and induced to attend. That marked the beginning of the miracle."
"Made Friends Easy."
"The first day the little girl went to school in an indescribably dirty condition. She was found to be pretty when the dirt had been scrubbed off, and easily made friends."
"But the next day Betty came back in a condition worse than on her first day. The patient teacher scrubbed her again and hoped for a little assistance from the mother."
"She didn't get it. Betty remained dirty. At last, in despair, the teacher washed one of the child's hands and one side of her face and sent her home that way. The next day she came back clean."
"It was the beginning of a new regime for that family. Everybody branched up. They made a home. The mother had been shamed into staying with her children, and the grandmother discovered a practical side to her religion."
"You've got more sense than I ever thought you had," was the father's rough way of expressing his appreciation when he began to notice the change. And, with his eldest son, he stayed home evenings."
"About a year after Betty's first day in kindergarten, when all this had been accomplished, she happened to pass the lively stable where she had learned the language of the streets."
"One of the men called her in. She refused to swear for him. The offer of a cent failed to change her mind and he became interested."
"They offered her five cents, and finally twenty-five, without shaking her resolution."
"What's the matter with you?" asked one of the men.
"I go to kindergarten now," replied Betty, "and little girls that go to kindergarten don't say bad words."
"That tells you better than any prosaic explanation what our ultimate object is," continued the secretary. "Our association was organized for the purpose of arousing interest in kindergarten work in communities where there are no such schools. We work largely through field secretaries who travel in our interest, and by means of widely distributed literature. Why, there are more than 6,000,000 children of kindergarten age in this country unprovided for."
"Kindergarten is the only form of education that pays as much attention to the moral and spiritual nature of the child as it does to the physical and intellectual. I believe it is the greatest educational factor in the country."
"The people spend 7,000,000 a year on children in prisons and reformatories. Kindergartens, lots of them, will reduce the criminal population. Money spent on them is economy."
"The kindergarten takes the child at its most impressionable age, from four to six years, when it is possible to exert a lasting influence for good. Formation is better than reformation. That's what we're trying to do."

MORNING NEWS OVER THE WIRE

Miss Annie Gingsra, a Montreal school teacher, lost her life yesterday morning in a fire in her home. Fire Chief Martin testified that she was in the house for a few minutes after she was overcome, but too late for a rescue.

Several of the clergymen of Halifax declined to aid the World's Purify League in the campaign which they proposed to conduct in the interests of moral and social reform in the sister city, because they believed the results could be had by their own methods. Dr. J. W. MacMillan yesterday replied to some criticisms made concerning the move of the clergymen, and some of the most of the houses of the "Red Light" district were really owned by prominent church members.

It is expected that the complete count in the Pennsylvania primaries will give Colonel Roosevelt sixty-seven out of seventy delegates. He won fifty-three out of the sixty-four district national delegates. Governor Woodrow Wilson won seventy-four out of the seventy-six delegates to the Baltimore convention while Champ Clark was given but a few.

In the collapse of a floor in the newly erected church of Our Lady of Victory in Harrington Park, N. J., yesterday, two persons were killed, and others painfully injured. There were about 300 persons precipitated into the basement of the church.

The Allan liner Corsican reached Halifax from Liverpool yesterday with 1,747 immigrants, and the Russian liner Lituania, had 483. There are about 11,000 expected during the week.
The German Lloyd line have announced that they have given orders for the construction of a steamer larger than any ever engaged in the passenger and freight traffic. It will cost about \$10,000,000, will have tonnage of about 24,000 and will travel twenty-two knots. Their announcement followed that of the Hamburg-American line that they intended building the "Imperator" designed to be 900 feet long and 50,000 tonnage.

MEMBERS RECEIVED

WILL IT REMAIN IDLE.
A Calais letter says:—Business at the St. Croix shoe factory is practically at a standstill, and just what will become of the industry is not certain. During the time the factory was in operation it was worked at only a small proportion of its capacity. This made operations too expensive, owing to the size of the plant, which was sufficient for an output several times greater than the largest output during the conduct of affairs by the present management. The loss of this industry should the factory close, would be felt considerably in this community.

MOVING THIS WEEK
The new home of the St. John Board of Trade is now ready for occupancy, and preparations are being made for the move from the old quarters to the new building. THE LATE MISS ALLINGHAM
A sad event took place last Tuesday about 1:30 p.m., when the death of Miss Emma M. Allingham, daughter of W. H. Allingham, J.P., occurred at her home in Duke street, west. She had been suffering for some time from peritonitis but many hopes were held for her recovery till a short time ago when she took a relapse and gradually became weaker. W. WATSON ALLEN, ST. JOHN BARRISTER, PASSED AWAY TODAY

Attacked by Pneumonia, Was Better on Saturday, But Change Came

Citizens will regret to hear of the death of W. Watson Allen, K. C., a prominent lawyer of St. John, which occurred at his home in Dunchester street at nine o'clock this morning, after an illness lasting about three weeks. He was stricken with pneumonia and since then had been confined to his bed until Saturday, when he sat up for a while, but he suffered a relapse and was in a precarious condition all day yesterday. This morning he took another bad turn, and passed away about nine o'clock.

Mr. Allen started to practice law in this city in 1878 and since then had been actively engaged in law work here and throughout the province. He was regarded as a very able lawyer and had a large practice. He was married and had a large family. He was a prominent member of the Bar Association of New Brunswick.

Mr. Allen was sixty-three years of age. Besides his wife, he is survived by two sons and three daughters. Three brothers and three sisters also survive. The sons are Dr. Kenneth Allen of California and L. T. Allen with the International Harvester Co. here. The daughters are Miss Minnie of New York, Miss Harriet of Los Angeles and Miss Blanche of the city.

George H. Allen of St. John, Dr. S. E. Allen of Long Island, and Dr. Harry Allen of California are brothers. The sisters are Mrs. Jones of Brooklyn, Miss Mand Allen of Los Angeles and Miss Annie Allen of this city.

A meeting of the Barristers' Association will be held tomorrow morning at ten o'clock in connection with his death. The funeral will probably be held on Wednesday.

ANOTHER CHARGE DEVELOPS IN THE ROAD HOUSE CASE

Liquor Case Now Against W. B. Daley—Today's Police Court

No less than eight prisoners were arraigned before Magistrate Ritchie in the police court yesterday morning. Four were charged with drunkenness. Two of the four were fined \$5 for thirty days in jail for the other two were remanded. Three other persons arrested Saturday on drunkenness charges forfeited their \$5 bonds.

Charles Carlin and John Carlin, arrested for fighting together in South Market street Saturday evening were fined \$20 each. The fine was allowed to stand on condition that they take the pledge. Asked by the court why they were fighting about they replied that they had been drinking and were trying to take each other home.

Louis Sullivan and Thomas Record, arrested on charge of throwing stones in Union street last night and striking William Roscoe were also before the court. Sullivan pleaded guilty and was fined \$20 or two months in jail. Record said that he was only trying to get Sullivan, who had been drinking, home, and did not throw any stones. He was cautioned and allowed to go.

Heating in the case of Florence Ayres, charged with keeping a lawfully licensed and also with selling liquor without a license, was continued this morning. A girl formerly in the house gave evidence in both cases. She said that the Ayres woman sold liquor in the house at all hours of the night and day to any person that wanted it. She was in the house on that night that Frederick Northrup was there. She saw the trouble that he had with Florence Ayres.

Because of evidence given by the witness, William B. Daley was summoned to court and charged with selling liquor to Florence Ayres. Daley pleaded not guilty. The former witness was recalled and said that Daley frequently went to the Sydney House, which was kept by the Ayres woman, and often brought jugs of liquor which was retailed at the house. She said he went as often as three times a week. She also saw an Ayres woman pay Daley for liquor on several occasions. As far as she knew Daley supplied all the liquor for the house. The liquor brought to the house was nearly always diluted with water. She saw many people get drunk from drinking the liquor.

The witness was asked by Daley if it might not have been molasses that was in the jugs. "People don't generally get drunk on molasses," replied the witness. The case was then adjourned until tomorrow afternoon at two o'clock.

CONVICTION QUASHED IN LIQUOR CASE

The matter of a conviction against Wm. H. Daley for selling intoxicating liquor to a minor was reviewed before Judge Forbes in the county court this morning. It seems that on the evening of January 15 last Policeman Chas. H. Marshall had arrested a youth named George Drew on a charge of being drunk. Drew had been ejected from Daley's saloon, on the evening in question. He had gone there with two others and in common with them asked for a drink. The others were supplied with refreshment but Drew was refused, being told he was too young. It was apparently Drew's treat for he paid for the drinks of the other two.

On the review of the evidence His Honor Judge Forbes was no evidence to convict Daley of selling liquor to a minor and accordingly the conviction was quashed. C. F. Inches appeared for the appellant.
