## CHIEF IS SUPREME AT A FIRE

### Recorder's Opinion Settles Matter of Authority of Salvage Corps

### THREAT TO RESIGN

### Petition from North End Salvage Corps Men Settling Out Their Position—The Situation Discussed and Matter Left in Hands of Committee

The dispute between Chief Kerr of the fire department and members of the North End Salvage Corps, as the result of an altercation at a fire on the Spout Cove road, was referred to a committee of three, this morning by a special meeting of the Safety Board. The question which was one of authority was made clear by Recorder Baxter who quoted from the bye laws to show that in a fire the chief was supreme, that he had no authority over the salvage corps when they were not on duty.

Those present besides the chairman, Alderman Russell, were Aldermen Elliott, Green, J. B. Jones, C. T. Jones, Scully, Potts, McLeod, Wilson, Wigniers, with Chief Kerr, Dr. Chief Blake, Captain Jackson of the Hook & Ladder, and Captain Turner, Lieut. Thornton, F. N. Hann, and ex-Alderman White, representing the North End Salvage Corps, together with Mayor Fitch, Recorder Baxter and Director Wisely and Chief of Police Clark.

The chairman explained the purpose of the meeting and referred to the petition from the North End Salvage Corps as follows:—

"We respectfully beg to notify you that the Chief Engineer of the Fire Department has assumed or claims to be empowered with authority over the salvage corps and the officers and members, and that whereas the members of No. 2 Salvage Corps do not desire to be subject to service or orders of this man, and that further,

Whereas, this corps is composed of citizens who have freely and voluntarily joined their service without any recompense and have willingly served the city, and therefore, this corps does earnestly protest that your honored board will cease to be made a party to the illegal and unjust actions of the captain and his officers full and complete authority to carry on their work subject only to the orders of your board, and to the fire department, and have to put up with the abuse he has been meting out to the corps."

That, as officers members of the Salvage Corps shall not be in any way subject to the authority of the chief, and that further,

Whereas, this is a vital matter to the interest of our city, we also pray that the board will give this matter immediate attention and call a special meeting to deal with it, and report to the corps so that we may know at once your decision.

Our members are very indignant over the unwarranted interference and assumption of authority and we do further pray each and separately desiring that this be considered as our resignations to take effect immediately.

Chief Kerr went over the bye-laws bearing on the matter, which showed that while the chief had no control of the salvage corps while off duty, he was in supreme command during a fire. He would requisition the assistance of any one in the

## LAUNCH IS CAPSIZED; SIX DROWNED

### Bride and Groom and Former's Brother and Sister Are Among Victims in Disaster

### THREAT TO RESIGN

### Petition from North End Salvage Corps Men Settling Out Their Position—The Situation Discussed and Matter Left in Hands of Committee

Salt Lake City, June 5—(Canadian Press)—Six persons were drowned in Utah lake yesterday, when the sailing launch Galilee, on which 12 persons were attending a party, given in honor of the approaching marriage of Miss Vera Brown, 21 years old, and Edward B. Holmes, captain in a squad. Among the drowned were the prospective bride and groom and Frank and Helen Brown, two children of Captain Frederick Brown, owner of the launch.

fighting of a fire. It would, of course, be determined by the council by whom they were appointed. "I find that at a fire the chief engineer of the fire department is supreme. As the recorder stated, Chief Kerr was about to say some thing when Ald. Elliott, pointing at him said—"Just a moment, you wait till your're called upon." Then, turning to the recorder, he asked—"Is moving a rain barrel a suspense emergency?" Mr. Baxter, replied in an extreme emergency that such a thing should be considered.

The punishment to salvage corps members for disobedience to the chief's orders that he would not care to judge as to that. Ald. Green—"The chief is not present who has the authority?"

Ald. Elliott stated that the delegation from the North End Salvage Corps, headed by Chairman Russell thought that they should delegate one or two to speak for them.

Ald. Potts said as the Recorder had given his opinion that the chief was supreme and if a few feet went between the chief and the salvage corps were released, it would have the effect of making a lot of ill-will. The salvage corps has done excellent work, and it seemed a pity that it should be marred. The best that could be done is to make a recommendation amending the law, but he thought to do so would weaken the discipline of the corps. If there was to be a chief there should be a chief, and if he was not the right man, then it was time that they

should select another. He thought the chief issued orders through his district engineer and acted himself in the manner of a general moving from place to place to see that orders were carried out.

Ald. C. T. Jones thought the trouble arose out of a misunderstanding as to authority. He regretted that the chief had made a mistake in the manner of his complaint, and said he was an awful thing to drag a citizen into the police court on such an affair as this. For instance, the chief should have gone into the police court as a district engineer in the fire department, and have to put up with the abuse he has been meting out to the corps. The chief did not go the right way about it in attempting to bully a man before a crowd. He knows that the chief was himself, quick to say a thing and sorry afterwards. It was not creditable to a city like St. John that a chief should be allowed to practice his profession. He favored a man giving his entire time to the position, he was not drawing his money pretty easy.

Ald. J. B. Jones did not agree. He thought the chief would earned his money as a salaried official. The best way out of the matter was the appointment of a committee to investigate with a hope that the affair would adjust itself in the meantime.

Chief Kerr was heard. He said that he had always been under the impression that they were independent of the chief of the fire department. In view of the opinion expressed by the recorder, he could only ask that the bye-law giving the chief authority be amended. The chief followed him up and the recorder asked him as captain of the corps to lend assistance, and he was always glad to do so, but he objected to the corps should the chief not adjust demands on his own account.

Chairman Russell asked Captain Turner what was a formal notice of the individual resignations of the members of the corps should the board not adjust demands on his own account, and the latter replied in the affirmative.

Mr. Thornton told of words between himself and the chief. He was in charge, Captain Turner being absent. He was assisting the firemen when he kicked a man barrel out of his way. The chief demanded that he remove the barrel and on his failure to do so shouted "Why don't you obey orders." And he replied "Why don't you do it yourself, you're doing nothing." The chief followed him up and he told him to go away and leave him alone. He had been dragged to the police court by the chief just to show the people that he "was the King Pin" as in court the charge against him had been withdrawn. For himself he intended to resign.

Chief Kerr said he had listened with interest to what had been said, especially by Ald. C. T. Jones. He had his faults and spoke quickly and no one was more sorry afterwards than he. With reference to the suggestion that he should devote his entire time to the department he said he could not give any more time to it than now as his practice was ruined and he had no social pleasures, and all for a paltry \$1500 a year.

He denied that he had sworn at Thornton but said the latter did all the evening. He did not withdraw the charge against him in the police court as the charge of abusive language was still to be dealt with. He had withdrawn the other charge regarding the disobedience to orders in the hope that the matter might be settled amicably. His relations with the salvage corps had always been of the pleasantest nature.

Ald. Green—"How long is it since you suspended one of your own men for abusive language?"

Chief Kerr—"You refer to McKay." Ald. Green—"I am not mentioning any names." "You bring him into the police court." Chief Kerr—"What is that to you?" Ald. Jones' motion for a committee was then carried, and the chairman appointed, Aldermen J. B. Jones, Elliott, and Potts with the recorder.

## MR. FIELDING'S PLAIN TALK TO THE BRITISH UNIONISTS

### Severely Criticizes Attack Made On Reciprocity

### WRITES TO THE PAPERS

### Letter From Finance Minister Deals With Lord Selborne In Dignified but Forceful Response—London Press Comment on Canadian Minister's Reply

London, June 5—Hon. W. S. Fielding, the Canadian minister of finance, in a letter published by the London newspapers this morning, severely criticized Lord Selborne's recent attack on Canadian-United States reciprocity, asserting that his lordship is entirely wrong in his statements, and quoting trade returns to prove that British trade is not seriously menaced by the agreement. Mr. Fielding strongly denounces insincerity by British statesmen in Canadian affairs, saying:—

"For public men in England to assail the policies of the responsible governing party of any of the overseas dominions would hardly tend to promote the mutual confidence which is essential to promotion of imperial unity."

Mr. Fielding asserts that imperial trade rivalry was not fostered in the past, and was not likely to be found in the future, because parts prefer broader trade, and are protective measures, and still others a happy medium. He cites precedents to prove that the empire has long had the conditions to which Lord Selborne objects, under which, by agreement with foreign powers one section of the empire obtained tariff benefits not enjoyed by other sections. He instances the Belgian reciprocity with the United States in 1850, which terminated in 1860, under which the privileges of American markets applied only to the products of British North America, as in this respect, precisely the same as the Canadian-United States agreement of today.

Then he points out that the United Kingdom enjoys tariff advantages in agreements with Germany, France and Italy not enjoyed by Canada, but Canada does not complain, and ends by asserting that there are a few of the many points in the Canadian-United States reciprocity agreement understood in the mother country.

Mr. Fielding says that Lord Selborne is glad to learn that the Canadian government is creating the precedent which has disturbed him.

Comment by Press

Commenting on the letter today the News says:—

"The plain meaning of the Unionists' demand in parliament is that the imperial government should veto the reciprocity agreement and deprive the dominions of their rights to self-government in matters affecting their own interests. Our members are reaching in incompatible with the unity of the empire, which is the moral Mr. Fielding's grave warning drives home to the English people."

The Morning Post (Conservative) referring to "the prospective injury to this British trade through the machinations of President Taft" and while admitting that England has done little to secure in return for the trade preference given by Canada, contends that Mr. Fielding might well have waited before saying the opportunity for the trade preference given by Canada, which the original attack on the Canadian government came from the person who is the target of Mr. Fielding's hot shot.

The Post ends by declaring that "There are men to whom the ideal of a united empire is not a cry but a creed, who would not be slow to suit the game party politicians here or in Canada."

## CHICAGO SIZZLED

### They Had It Over 95 There On Sunday—Wind Sweeps Cars Off Tracks

Chicago, June 5—(Canadian Press)—Chicago sweltered yesterday in what was five degrees the hottest June 4, recorded in this city. The temperature rose to 93.3 degrees more than one degree higher than the next hottest day of the year. One drowning and a number of heat prostrations were reported.

Following a day of suffering, the mercury dropped suddenly to 65 at night.

Detroit, Mich., June 5—A wind storm said to have been the worst since 1871, accompanied by electricity, swept the lower part of Michigan last night. Telegraph and telephone wires are down. At Lennon fourteen moving freight cars were swept off the tracks. No one was injured.

Berlin, June 5—(Canadian Press)—Thiele, a German bicyclist, while packing on a motor cycle at the International race here yesterday, fell and was instantly killed.

## THE TIMES' NEW REPORTER

ON KING SQUARE

The infusoria in the fountain on King Square are in a very healthy condition, and appear to have increased in numbers since last summer. It is now possible for persons with a keen sense of smell to be made aware of the presence of the infusoria while yet afar off. Had the bottom of the fountain been cleaned, as some wretch suggested, it might have been necessary to import a skunk to entertain

the people who visit the square. Now they have the infusoria.

## "SEND FOR WIFE" SCHEME TO GET UNDER THE LAW

### THE JAPANESE GOVERNMENT ADOPTS EMIGRATION POLICY WHICH AFFECTS CANADA—MARRIAGE BY PHOTOGRAPH

### NEARLY MILLION SEE MONUMENT TO ITALIAN KING DEDICATED

### FRENCH WARSHIP AGROUND ENTERING HALIFAX HARBOR

Tokio, June 5—The following is the gist of the emigration policy adopted by the Japanese government.

The new Japanese-American treaty will in no way change the policy of restricting the emigration of the Japanese people to the mainland of the United States, Hawaii and Canada. The so-called "sending for a wife," which is getting more and more popular, is really marriage contracted by exchange of photographs. The government will hereafter investigate more strictly the applications of those women who desire to go abroad in this way, because they are often deceived by people abroad seeking to hoodwink the authorities.

For the time being, the authorities will allow from 100 to 150 men per steamer to proceed to the Philippines, which region is considered as most promising for Japanese emigration. Applications of emigrants to Mexico will be granted within a certain limit.

Rome, June 5—(Canadian Press)—Nearly one million people yesterday witnessed the dedication of a magnificent monument to King Victor Emmanuel III, grandfather of the present king. Interest was added to the occasion by combining this with a celebration of the granting of the constitution by King Charles Albert 1848, the same constitution which still rules Italy.

One of the incidents of the dedication was the cheering of a priest who climbed the steps of the monument. Senators and deputies surrounded him with as much enthusiasm as the populace. Opening his gown, the priest showed a tri-color sash, emblem of the majority, saying:—"I am Canon Paduacci, Mayor of Gorizia Abruzzi. In 1848, as mayor, I took the oath of loyalty to the king, and the constitution, and I thought it my duty to come here today and pay a tribute of homage to the father of our country."

### CHINESE PLAN MAY CAUSE SOME TROUBLE

St. Petersburg, June 5—(Canadian Press)—Advices from Peking say that China contemplates a revision of the Russian-Chinese treaty of 1881, which will expire in August unless it is renewed.

The ultimatum issued recently by Russia with regard to the interpretation of the treaty was based on the supposition that China would leave the treaty intact, inasmuch as revision would open up great difficulties and involve the long standing Russian privileges, such as the exclusive right to navigation on the Sungari and exclusive trade in Mongolia. A revision of the treaty would involve new rights, which Japan would be certain to demand for herself, as Japan is far more active commercially and diplomatically than this country.

Russia considered that China had less to lose by renewing the Russian privileges intact than by curtailing them, but the Chinese plans cannot be carried out without the approval of the Russian government, which cannot be considered without reference of the events of 1911.

### ONTARIO TO ORDER THE DOGS MUZZLED

Toronto, June 5—(Canadian Press)—With the approach of the hot weather and consequent danger of rabies, it is probable that the provincial board of health will again order all dogs in the province to be muzzled during the summer months.

### RUSH OF MINERS TO NEW GOLD FIELD

Fairbanks, Alaska, June 5—(Canadian Press)—A gold strike is reported on Indian Creek, a tributary of the Koyukuk river, 300 miles up stream. Pay earth has been struck in two places. Miners are stampeding from here.

### Pottery Plant Destroyed

Quebec, Que., June 5—(Canadian Press)—A destructive fire occurred on Saturday night at the Little River, when the extensive pottery plant of W. & D. Bell was completely destroyed by fire. The loss will reach \$20,000, and there is no insurance on plants or building.

### THE KING'S THANKS

Ottawa, June 5—(Canadian Press)—Col. Cameron, of the 43rd Regiment, who sent a cable of congratulation to King George, honorary patron of the regiment received a cable on Saturday afternoon in reply saying:—"Please convey my sincere thanks to all ranks of the 43rd Regiment for their kind congratulations." (Signed) "GEORGE R. and L."

## MURDER AT A BALL GAME

### New Jersey Player Stabbed in Row Over Ninth Inning Decision—Lightning Kills One of Newark Nine

Newark, N. J., June 5—A baseball game yesterday between semi-professional players developed in a fatal row over a close ninth inning. English, New Jersey, aged 28 years old, of Belleville, was the victim. He was stabbed in the throat and his wound severed. He died in an ambulance which was taking him to a hospital. Nine of the alleged participants in the row were arrested.

Norwalk, O., June 5—Frank Van, a ball player, was struck by lightning and killed on the ball grounds yesterday. Several other players who sought shelter under a tree were shocked when a bolt struck the tree.

**H**AVE you—"you" this time means particularly the housewives of the middle class—read Will Carleton's "One Way Out"?

If you haven't, you should at once. No, I am not attempting to press agent the book. I am merely voicing a warm conviction.

"One Way Out," is the story of a man who is typically of the modest salaried middle class, with a standard of living not above the means.

The age of thirty-eight this man, with very little laid by and a wife and boy of eleven dependent upon him, loses his position. He has only a highly specialized knowledge, almost useless outside of the office where he has been employed for many years, and when he starts his hunt for employment he is unanimously turned down by employers, who all want younger men or men with some more specific training.

After some horrible weeks of this humiliating and hopeless hunting he happens to find out by accident that Murphy, the man who employs his father, is building houses and putting his sons through college. He looks about him and realizes that not only Murphy but other immigrants are making good to an astonishing degree and he suddenly thinks he sees "one way out"—that is, to immigrate to America and start where the immigrant does and take what offers regardless of pride of class. His wife approves. They then furnish themselves with \$100 clear start life anew in one of Murphy's tenements—rent \$3.00 a week.

The next day he secures work as a laborer with a subway construction gang at \$1.50 a day. He has emigrated to America and they begin the new life by looking about them to find what opportunities and possibilities are open to them.

How, with this new point of view, he works back to prosperity again, how his wife helps him, and how they save on \$8.00 a week where they had been able to on \$30.00 is the rest of the tale.

It is a thoroughly original, thought provoking little story, but it is particularly because of the part that Ruth, his wife, takes, that I want you middle class women to read it.

Her studies in economy—the economy of thrifty buying, not merely of doing without, ought to be suggestive to every woman who is appalled by the high cost of living.

Here are one or two samples of this:

"Now for breakfast we must have oatmeal every morning. And we'll get it in bulk. I've tried it and it's only a little over three cents a pound at some of the stores."

"And the kind we've always had?"

"About twelve when it's done up in packages."

"They visited the wholesale meat shops and familiarized themselves with the possibilities there."

"Every stall in the market had its bargain of nice—wholesale bits unattractive to the careless customer. We bought there for 50 cents enough round steak for several good meals of hash."

"We couldn't have bought it for less than a dollar in the suburbs, and even at that we wouldn't have known anything about it, for the store was too far for Ruth to make a personal visit and the butcher himself would never have mentioned such an odd lot to a member of our neighborhood."

"These are one or two suggestions of the way in which Ruth made it possible to save on nine dollars a week. I wish there were room for more, but I hope I've given enough to impel you to go to your library for the book."

To the average housewife who gives her orders to a boy at the door or over the telephone, and who buys with no idea at all of nutriment values, it seems to me that Ruth's studies in true economy can't fail to be a thought provoking lesson.

**IMPRESSIVE ADDRESS ON TEMPERANCE AT EVERY DAY CLUB**

Walter Brindle delivered an impressive temperance address at the Every Day Club last evening. Twenty-six years ago, he said, he set out as a young missionary in his native city in England, and what he saw in the slums there on his very first visit determined him to fight against the liquor traffic as long as he lived. His description of a lodging house where in the cellar one could sleep for two cents, on the first floor for four cents, on the second for six and the third for eight cents, and of the scenes he witnessed in that cellar, of drunkenness and poverty, was very impressive. He told also of a young man of fine physique and keen intellect who at the age of 28 went to the poor house, demented and broken down through drink.

Mr. Brindle dwelt upon the cost in loss of money, of physical strength, of intellect and of spiritual power represented in the case of this one man, and asked his hearers to multiply it by the loss in the cases of the thousands upon thousands who pay the same price with such an awful result. Then many of these men were married, and wives and children suffered. There were such cases in St. John, and he urged his hearers to do all in their power, and they had the power, to abolish the liquor traffic. He said he had never seen a chain gang till he came to St. John and he hoped that reproach would soon be wiped out. The Every Day Club had attracted his attention the first day he landed in St. John, and he felt that here was an institution with which he could ally himself. He urged the men present to do the same and do some aggressive temperance work. The speaker was several times heartily applauded.

**Discharge is Checked—Sores are Cleaned Out and Healed by Dr. Chase's Ointment**

Aside from the suffering caused by pimples, sores and skin eruptions, there is the annoyance and embarrassment to which they give rise, particularly when on the hands or face.

It is quite proper to get the blood right by use of internal treatment, but this is a tedious method of overcoming the skin troubles, which can be readily gotten rid of by using Dr. Chase's Ointment. The three principal ingredients of this great, soothing, and healing ointment are the most potent known for the relief of sores as a means of cleansing the pores and destroying the micro-organisms causing the discharge, preventing the poisoning and stimulating the healing process.

Dr. Chase's Ointment is itching almost as soon as applied, and often heals almost like magic.

The time required for cure depends on the nature of the ailment but, unlike internal treatment, the benefits are apparent to the eye, and you can see from day to day the improvement made.

The wonderful success of Dr. Chase's Ointment in the cure of eczema, salt rheum, psoriasis and all sores and wounds is sufficient proof that it is bound to be satisfactory in the treatment of the less severe diseases of the skin. 60 cents a box, at all dealers, or Edman, Bates & Co., Limited, Toronto. **SETTLEMENT OF STRIKE A HELP TO PARRSBORO**

**Springhill Duilness Had Been Reflected in Shipping Port**

**St. John Development of Much Interest There—A Town That Needs No Sewerage System—Train and Mail Service Handicap—Becoming Very Popular Summer Resort**

The people of the town of Parrsboro are greatly pleased at the settlement of the strike at the Springhill mines. The shipments of coal through that port have been much reduced during the period of the strike, and the duilness at Springhill was to some extent reflected in Parrsboro. The citizens of the latter town hope that not only will there be in a short time as great activity as formerly, but that there will be a steady increase and a further development of the coal shipping facilities.

Parrsboro is also interested in the developments which are taking place in St. John. Because of its location, the Nova Scotia town has more in common with Halifax than with Parrsboro. Its people, therefore, read with great interest the accounts of the forward movement in this city.

The duilness in shipping is felt in Parrsboro because that port has seen the building of many vessels. It is stated that this year, for the first time in thirty years, no vessel is on the stocks to be registered in Parrsboro. There are many well-to-do citizens in the town who made money in lumber and shipping. The lumber trade is still very extensive, and large quantities of deals are being brought to the wharves daily to be carried by vessel to West Bay and there loaded on large steamers. A number of the lumber firms having offices in Parrsboro suffered some loss in the recent brush fire.

Parrsboro is the home of quite a number of retired sea captains, who have sailed the seven seas in their time, and have brought to the home town souvenirs from many lands. One meets them about the streets, and they are able to spin many an interesting yarn of experience in various parts of the world.

**Town Needs No Sewerage System**

An interesting fact about Parrsboro is that it does not require a sewerage system. The town is built on what was once a sea beach, and it is only necessary to dig down a few feet to strike that porous beach, which absorbs sewage and makes it unnecessary to do more than dig cess-pools instead of laying sewer pipes. The town has an excellent water supply, and also a good electric lighting system. One advantage resulting from the porous nature of the soil is that the streets of Parrsboro are dry almost immediately after a rain storm.

The town is somewhat at a disadvantage with regard to mail service. There is but one passenger and mail train in and out of the city each week. This train leaves Parrsboro at 9:30 in the morning and returns about 4:15 p. m. The St. John and Halifax evening papers of one day reach Parrsboro along with the morning papers of the next day. The citizens therefore must wait until nearly 6 o'clock in the afternoon to get the news of the day.

The visitor to Parrsboro at this season is surprised that there is not a large summer hotel at The Beach, which is about a mile from the centre of the town, faces the bay, and is a beautiful spot. The hotel on the broad waters of Minas Basin. There was a summer hotel of small dimensions on this beach, but it was destroyed by fire and not rebuilt. Some day a great hotel will rise there, and Parrsboro will be a very popular summer resort. The Prince Albert, a very comfortable little steamer, makes a round trip daily between Parrsboro, Kingsport and Wolfville, and on a fine summer day no more delightful trip can be imagined.

A largish factory was established in Parrsboro a few years ago, but it was not immediately successful, and those who had invested their money decided to pocket their loss rather than continue the plant in operation in the hope that success might eventually be achieved. A few small factories in the town would be of great benefit. There are some excellent stores and good local hotels. While there is not an automobile association in the town, the owners of the ten or more cars to be seen on the streets, are paying considerable attention to road improvement, and last week devised a novel plan to make the roads better. Three of them took on board their cars a small army of boys armed with rakes, and went out over the roads within a few miles of the town. The boys raked off all the loose stones, and greatly enjoyed the picnic; while the owners of the cars felt that they would encounter much less difficulty in future trips whether for business or pleasure.

**IS THINNESS EMBARRASSING?**

**Undoubtedly It is to Many a Maiden and Youth—While Even These Well Along in Years Prefer Well Rounded Figures**

**Prescription Increases Weight**

A scrawny, gangling youth or maiden is almost invariably slighted, overlooked or ridiculed in any social gathering. There is something about a plump or well proportioned figure which attracts not only friendship, but love and adulation as well. People with a proper amount of flesh are favored in all walks of life, while the thin are unloved, unwept and frequently miserable for life. The difference lies in the power of the digestive functions and the ability of the blood and nerves to absorb and assimilate from the food eaten.

The thin person is deficient and lacks the power to absorb and assimilate the fat elements which are gastric juices in the stomach and intestines should extract or separate from all kinds of food and drink.

A recent accident discovery has proven that lactine codliver oil blended with certain other drugs, will add from one to three pounds of flesh per week during treatment, while the general health and strength also improves wonderfully.

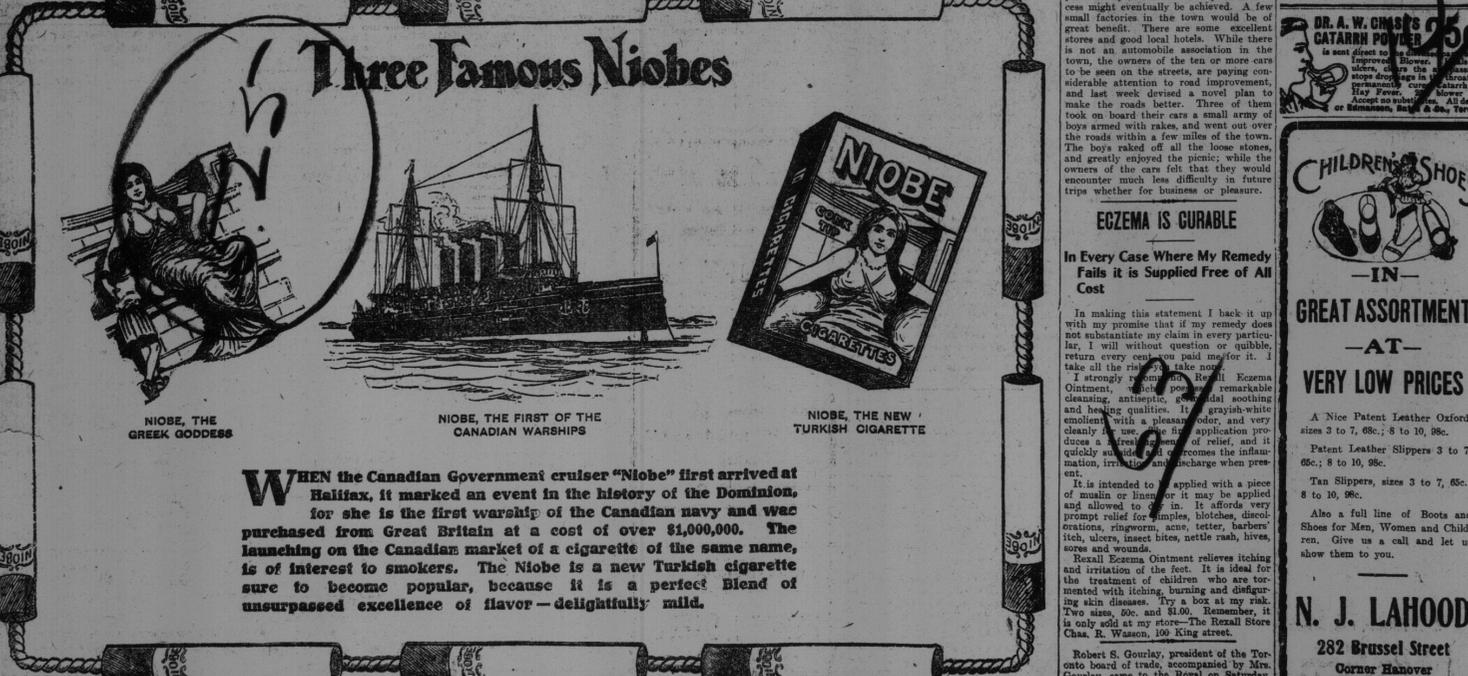

Get in a half pint bottle three ounces of essence of pepsin and three ounces of syrup of rhubarb; then add one ounce compound essence codliver oil; shake and stand two hours; then add one ounce tincture cadomene compound (not cadomene). Shake well and take a teaspoonful before and after meals, drinking plenty of water between meals and when retiring.

A few members of the Blue Ribbon Club spent a very pleasant time on the king's birthday at Mrs. McKinnon's Beach Village road. They brought home with them a few dozen trout. The house was neatly decorated with flags. The Blue Ribbon Club members spent a very pleasant day and returned to the city early next evening.

About fifty boats of the St. John Power Boat Club took part in the cruise to Bedford on Saturday, returning last night. They left at 9 a. m. Saturday, when the Lt. Commodore George's boat, piloted out with them going to Fredericton. The R. K. Y. C. fleet in fairly large number cruised about the Beach, the most of the owners of the yachts spending two days with them on the river.

**Three Famous Niobes**

**NIobe, THE GREEK GODDESS**

**NIobe, THE FIRST OF THE CANADIAN WARSHIPS**

**NIobe, THE NEW TURKISH CIGARETTE**

**WHEN the Canadian Government cruiser "Niobe" first arrived at Halifax, it marked an event in the history of the Dominion, for she is the first warship of the Canadian navy and was purchased from Great Britain at a cost of over \$1,000,000. The launching on the Canadian market of a cigarette of the same name, is of interest to smokers. The Niobe is a new Turkish cigarette sure to become popular, because it is a perfect blend of unsurpassed excellence of flavor—delightfully mild.**

**EGZEMA IS CURABLE**

In Every Case Where My Remedy Fails it is Supplied Free of All Cost

In making this statement I back it up with my promise that if my remedy does not substantiate my claim in every particular, I will without question or quibble, return every cent on paid for it. I take all the responsibility upon me.

I strongly recommend Reall Eczema Ointment, which gives remarkable cleansing, antiseptic, soothing and healing qualities. It is grayish-white emollient with a pleasant odor, and very cleanly to use. The first application produces a burning sensation of relief, and it quickly makes the itching, burning and inflammation, irritation and discharge when present.

It is intended to be applied with a piece of muslin or linen or it may be applied and allowed to dry in. It affords very prompt relief for pimples, blotches, discolorations, ringworm, acne, tetter, barbers' itch, ulcers, insect bites, nettle rash, hives, sores and wounds.

Reall Eczema Ointment relieves itching and irritation of the feet. It is ideal for the treatment of children who are tormented with itching, burning and disfiguring skin diseases. Try a box at my risk. Two sizes, 50c. and \$1.00. Remember, it is only sold at my store—The Reall Store Chas. E. Wasson, 100 King street.

Robert S. Gourlay, president of the Toronto board of trade, accompanied by Mrs. Gourlay, came to the Royal on Saturday. His visit is in connection with business.

The O'Connor Don of Ireland—St. Dunstan's Lodge and Historic Associations—Baronet to Auction His Lands

(Copyright, 1911, by the Brentwood Company)

King George has appointed the O'Connor Don to be the Standard of Ireland at the coronation. The O'Connor Don, who is the king's lieutenant, and customs controller for the County of Roscommon, and who makes his home at Clonsilla, Castleroy, County Roscommon, is a direct-lineal descendant of King Roderick O'Conor, who exercised supreme sovereignty in Ireland, until, when in 1172 he surrendered his sceptre to Henry II. of England.

But the O'Connor Don is able to trace his ancestry much further back than this. For he is a descendant of Eochaidh Morglenn, who ruled as king over Ireland until his death, A. D. 366, and also the latter's grandson, Diak Galach, the first Christian King of Connaught.

Mr. Henry Hoare, who is to put up to auction "nearly half" of his 18,000 acres of estates for sale next month, is the holder of the senior of the three baronetcies held by this old banking family, and is a partner of the London bank of Barnett, Hoare & Co. The Hoares are of Anglo-Irish origin, and are descended from one of the 66 leaders of Cromwell's army who settled in Ireland, securing extensive tracts of land in the south of the Emerald Isle, especially in County Cork, where they were known as the Hoares of Annaballa.

ST. DUNSTON'S LODGE

St. Dunstan's Lodge, where Lord and Lady Londonderry entertained the German Emperor and Empress and their daughter at a garden party, was indeed one of the chief features of the Kaiser's London visit, and the only occasion on which he came into actual contact with English society, figures in so many of the novels dealing with the early Victorian era, notably those of Thackeray, Lord Beaconsfield, etc., that it possesses a certain amount of interest for people on this side of the Atlantic.

**AT THE NICKEL.**

For Nickel patrons the programme for today and tomorrow is announced as of surpassing interest and well up to the high standard of the family "nickel." In the pictorial presentation, "The Two Fathers," will be the feature film. This is a strong social drama of heart interest, introducing two St. John favorites, Arthur Johnson and Miss Florence Lawrence, of Biograph fame, in the leading roles. The "Witch of Everglades," a story of Florida when Seminoles Indians held sway. The "Bismarck Secretaries," a Village comedy, is a great fun-maker with John Bunney and the famous Betty. This is the final week for the Tremont Quartette, who have gained in popularity with every performance. Within The Vale, a tenor solo, by Daniel Creedon with the quartette, also a march song by the quartette, will comprise their portion of the entertainment. Miss Marie Hegan will commence an engagement with new songs. There will be high class selections as usual by the Nickel orchestra.

**THE GEM.**

A heavy western romance of life on the boundless prairie is to be cleverly enacted in the playlet, "The Reformation of Jack Robbins," at the Gem Theatre today and tomorrow. It is the story of a bandit, disreputable but courageous, who is converted by the tender influences of a western playlet which has nursed him to life after he has been wounded in a desperate fight. The manner of his reformation is clear, and a happy sequel comes after he has spent five years in prison. The Biograph Co. offers a touching child drama, "The Little Maid," which is said to be a strong emotional drama, picturing a widowed mother's grief for her dead child, and her unselfish love in welcoming the orphan child beneath her roof. Those who remember the entertaining comedy, "The Gem's Double," will be glad to know that

the Gem dramatist of this series, "The Three Wives," in which there are many more heart-aches. An educational treat is offered in "The Chinese," while Miss Ian and the orchestra will contribute numbers to the bill.

**THE UNIQUE.**

Thos. Main, who is favorably remembered here for his excellent work at the former Hag Hill Theatre, some time ago, when a short engagement at the Unique, gave today. Mr. Malcolm is the happy possessor of a rich tenor voice which is heard to the best advantage in the Scotch ballads he has so well mastered. During his stay at the Unique he will be heard in some of the Scotch ballads as well as the Irish successes. The film programme will suffer with the advent of Thos. Main as an excellent array of features is secured. Foremost of all will be interesting series of views depicting the heroes of the Toronto boy scouts in sp. A grand feature will be the film, "A Daughter of the Revolution," comes next in interest. Plenty of interest is contained in the "Bismarck Secretaries," "The Dream of Amos Cowley and Indiana," and with a shapely picture, "Winter Sports," an exceptionally strong programme is assured.

**THELYRIC.**

Always ready to trap the best act sent weekly to the pines of the Lyric, management announces, what is said to be the most worthwhile in the Stanton Brothers, a fine and dapper quartette that has in its talent. Harmonious comic melodies and novelty dances are the principal features of this quartette, which is expected to be as being particularly good one. A photo play for the first of the week, "The Lyric," is the usual Lyric stand. On Thursday a new novelty is announced, Miss Mae Green, hailed as the actress girl, who will give a breezy song entertainment while floating over the audience's miniature aeroplanes.

**THE FARM.**

After the rush and excitement of the holiday the Little Theatre in the north end starts a new week with a delightful programme of three long rank of pictures. "The Strat the Mines," by the Edison Company might be called a commercial drama. It is expected to prove of great interest as an industrial picture. "The Two Pomo's Charm" is a thrilling Indiana by the Kalem Company, that is not done and spirit from beginning to end. "The Gem's Double," is a comedy by the Kalem Company that it is hoped will keep the house in roars of laughter. In this picture the star promises 20 minutes of laughter as they are on the holiday. Jack Jones, come a stranger soldier will have a new number. Monday and Tuesday.

**HAULTAIN IS STING FOR RECIPROcity; WILL BOER BORDEN**

Ottawa, June 4.—Repeal efforts made during the past three days by the Conservative party managers induce Hon. F. W. C. Haultain, the servative leader in Saskatchewan, to voice from his attitude of cordial support the reciprocity agreement and opposes with the federal opposition leader in the fight against the pact have been successful.

It is felt that Mr. Haultain, supported as he was by all billowers in the Saskatchewan legislature, constitutes a very great embarrassment to Mr. Borden's coming anti-reciprocity campaign to the province. He has been slightly appealed to by his political allies across, but so far his declared conviction that reciprocity will be a good thing for his province and for Canada, as a whole, apparently remained unshaken.

Hon. Frank Oliver, minister of the interior, left Ottawa last night for the west. He will spend four weeks in a series of reciprocity meetings. Hill address the Canadian Club at Port Han today. Hon. William Patterson will meet meetings in Ontario.

**Butler Told Her She Did Not Have a Flat of Good Blood in Her Body.**

Mrs. Dorothea P. Cormier, Middle Seaboard, N. B., writes: "I was all run down, and the doctor told me I had not good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am now very well and had a lot of sleep to do. I thought I would prepare a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1906 I had pneumonia, and it left me with a severe pain in the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received so much benefit from Burdock Blood Bitters that you may publish this as it may help others as it has me."

One of the party said he was in a motor boat about 11 o'clock, and the bottom of the craft became well covered with halitones. In other sections of the country heavy showers prevailed. About two years ago late in June halitones fell in profusion in Kings county and the ground was soon white with them.

**DRIVING OPERATIONS ON THE OROMOCTO ARE HANDICAPPED**

No Hope of Getting Out What is Left of Summer Cut--Lumber News of That Section

Blissville, N. B., June 5--(Special)--The light rain fall and consequent low water have effectively handicapped the driving operations on the Oromocto. All hope of getting out the remainder of the cut for the summer's work is now shattered.  
The Oromocto Lumber Company's drive on the North Branch, for the sawing of which the erection of a special mill was planned, has been abandoned. The Kirkpatrick drive, which is under the control of this company, has been hung up on the South Branch.  
Luther B. Smith has been more successful. A drive of three million feet, belonging in part to Mrs. Smith, has been driven from the South Oromocto lake to safety waters. Owing to the engagement of a large crew of seventy or eighty men, this space was covered in seven days. Another drive under the same management on the Back Creek has been abandoned, but will probably come with the autumn rains.  
The American company, operating near Hoyt Station, have purchased the timber on the back lots belonging to Hubert Webb, and will move their mill to this property at once. It is the practice of this company to cut the log down to the smallest size limit. The summer boards are exported by rail to the United States, where the process of manufacture is completed.

### DR. CORBET NEW HEAD OF MEDICAL SOCIETY

Matter of Slaughter Houses Comes Up for Discussion at Annual Meeting

At a recent meeting of the St. John Medical Society, which escaped the papers, the office were filled for the year as follows: President, Dr. G. G. Corbett; vice, Dr. Wm. Warwick; secretary, Dr. D. C. Malcolm; treasurer, Dr. James Christie; financial secretary, Dr. T. E. Bishop; librarian, Dr. J. S. Bentley; and pathologist, Dr. F. J. Hogan.  
A committee report, unfavorably concerning the condition of the slaughter house, and in speaking of the matter this morning one of the physicians would have to be made before the places were in a state of proper cleanliness. One of the slaughter houses, the doctor said, was fairly clean, but the sooner that the others was improved the better for all. In view of the summer season approaching there was even more need of better sanitation. "A visit to the slaughter house unexpectedly makes something," said the physician, "but of course if it is spread broadcast, that one is going there, there is a difference."

### COUNTY COURT

Several Matters Before Judge Forbes--Judge Wedderburn to Take Place While Former is Away

In the county court this morning before Judge Forbes in chambers the examinations in the case of the Bank of British North America vs. Merritt, was concluded. It was shown that the defendant had nothing on which the bank could levy. F. R. Taylor appeared for the bank and H. H. Pickett for the defendant.  
In the case of Harris Wener vs. L. Soutar there was return of a summons calling on the defendant to show cause why the appearance and plea should not be set aside on the ground that he would be out of town for a couple of weeks and that Judge Wedderburn would take his appointments in chambers on Friday next.  
On the return of the summons in the case of the Bank of New Brunswick vs. J. B. Scovil & Sons His Honor granted a new trial on the ground that the finding of the jury was perverse. His Honor announced that he would be out of town for a couple of weeks and that Judge Wedderburn would take his appointments in chambers on Friday next.

### ST. JOHN RIVER TRAGEDY SUBJECT OF INVESTIGATION

(Special to Times)

Ottawa, June 5--There is to be an inquiry into the Edmonston ferry boat wreck in which seven persons were drowned a month ago. Captain Demers is being sent to New Brunswick by the Marine Department to make the investigation.

### NAILED HER DOOR FAST; POLICE HAD TO CLIMB INTO HOUSE

Policeman Lucas was called upon last night to perform a new duty. Mrs. McGovern who resides in Carleton street, went out early in the evening to visit friends, and on returning between 11 and 12 found the door securely fastened. She applied to the policeman, who climbed in a window and opened the door. While Mrs. McGovern was out, someone visited the house and drove nails in the door, making it impossible to open with a key. It was thought at first that the house had been visited by burglars, but nothing was missing.

### BOY SCOUTS HAD A GREAT OUTING

The Y. M. C. A. Boy scouts in charge of Scout Master J. G. McKinnon, and the Stone church scouts in charge of Scout Master Cathels, returned home this morning after spending the weekend at their camp at Long Lake. The boys left the city on Friday afternoon at 4 o'clock and walked out to their camp. On Saturday they were treated to a motor boat sail on the river by F. A. Dykeman. On Sunday morning the boys had a great time and the rest of the day was spent roaming about the woods. The boys had a great time and returned to the city in the best of health and spirits.

### AUTOISTS FIND ROADS ARE IN VERY BAD SHAPE

An auto party which left for Fredericton on Saturday and returns home last night, report that the roads are in a very bad condition. In several places the mud was up to the axles, and all had to get out and haul the car through the mud. In one place a bridge was down, and the car had to be run through a stream in order to proceed. The trip to Fredericton should have been made in about four and a half hours, but in the condition of the roads, it is considered good going to reach the capital in nine hours.

### DORY CAPSIZED

The first trial of one of the new sailing dories of which there are now four at Millidgeville, was made yesterday by Arthur H. Golding and Harry Vertue. They had gone but a short distance out from shore when the dory capsized, and they were thrown into the water. Some men put off from shore and rescued them. It was said that the dory had not sufficient ballast.
