The Evening Times and Star

ST. JOHN, N. B., JUNE 7, 1920. The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE PLEBISCITE

Organization for the coming plebiscite on prohibition is going on very well throughout the province. It is necessary that every effort be made to bring out the full vote and make it clear that the people desire a continuance of prohibition. This will serve two purposes. An overwhelming vote in favor of prohibition would leave no excuse for not enforcing the present law to the hilt, and it would leave no excuse for the legislature refusing at its next session to ask for the referendum that would put a stop to the importations from Quebec, which are flooding the province at present.

LET'S ALL WAKE UP

The great revival of interest in athletic sports throughout the province is a healthy sign. In St. John, not only have we four Improvement Leagues and a greatly enlarged Playground Association, but the Commercial Club has decided to go in strongly for amateur athletics. The present difficulty is lack of grounds for training. The Improvement Leagues, having provided for baseball, have not paid as much attention as they should to running tracks and other things connected with other lines of sport; and the new Rockwood area will not be ready for some months to come.

WEST INDIA TRADE

In connection with the West India trade conference at Ottawa the Toronto Globe presents the following information as to the state of trade between Canada and the islands in 1916: "During the year 1916 the British West Indies imported cottons, breadstuffs, coal, fish, meat, machinery, hardware, fertilizers, wearing apparel, wood, boots and shoes, drugs and chemicals, dairy products, paper, paint, and other articles to the total value of \$36,888,000, but of this amount only \$7,069,870 came from Canada. The exports of the British West Indies for 1916 amounted to \$62,989,000, of which the principal items were sugar, molasses, cocoa, fruits and vegetables, chicory, sponge, hemp, asphalt, cotton, logwood, timber, coffee, and spices. But of this amount of \$62,989,000 only \$22,525,500 came to Canada, whereas Canada's total imports of similar articles amounted in all to \$117,815,400."

There is here an excellent opportunity to enlarge trade in both directions. The war interfered with business during the last five years, but with improved facilities and perhaps a more generous preference, the conditions should quickly change for the better. The Toronto Globe very aptly says: "Under newer and happier conditions it ought to flourish, especially as Canada is now developing a great merchant marine, which naturally will seek to do business with the most friendly ports."

INDUSTRIAL COURTS

Not only is Gov. Allen of Kansas convinced that the new Kansas law relating to industrial disputes, which forbids strikes, has worked well and will continue to work well in that state, but he advocates its setting up of federal industrial courts throughout the United States. It was after Gov. Allen had taken over and operated the coal mines to protect the public and supply fuel when the miners had gone on strike that

he persuaded the legislature to enact the new law, by which quite a number of disputes have since been satisfactorily settled. All the costs are borne by the state, and the court is described as "the court of the penitentiary man." When asked the other day what he would recommend to Congress, Gov. Allen said: "I would recommend legislation that would take into consideration the fact that the peace and welfare of the people must come first. I would urge the creation of a court having all the powers of any other court except the supreme court, and whose appeal should be to the supreme court. I would have the judges appointed by the president. What I would want to do is to establish the system that the interest of the general public is paramount. I want to protect capital against labor and labor against capital, and to protect the public against either or both."

When asked how a federal industrial court would be established or have a code, Gov. Allen said: "The code would be established in the same way that our common law code has been established, namely, through the process of building up through the decisions of the courts. I would have the decisions as they are made."

Of conditions in Mexico an American exchange says: "A new order is promised in Mexico. A national election is to be held in September, and General Alvaro Obregon, the military leader of the revolution, who probably will be elected president without opposition, has given assurances that the just claims of Americans against the Mexican government will be honored, that in future nationals will be protected and their property rights recognized, and that the resources of the country will be developed without discrimination against aliens, who will be invited to add to their investments."

New York Evening Post: "We must get the basic fact clearly in mind that when Congress is asked to appropriate half a billion dollars for the rescue of the people of Central Europe, the purpose is not 'relief' but restoration. The only effective way of dealing with disease and starvation in Middle Europe is by enabling the demoralized masses to get back to work. America has been asked to invest, not in hospitals and soup kitchens, but in railway trackage, freight cars, factory machinery and raw materials. Millions of willing arms are idle in Europe because there is nothing for them to turn to. Men are asking not for charity but for a chance to earn their bread."

The use of the tractor on the farm has already been introduced in this province, and its use is likely to become general on land suited for its operation. What the tractor can do is illustrated by the following paragraph: "F. F. McDonald, farming three hundred acres near Woodstock, Ontario, plowed a level twenty-acre field in thirty hours with a tractor this spring. A three-furrow plow was used, and a uniform depth of six inches was maintained. Seventy-five acres were cultivated with the same machine in thirty-five hours, an eight-foot implement being used for the purpose. Mr. McDonald claims that on fairly large farms the use of the tractor does away with the services of one man and three horses."

RAIN SAVES FRUIT CROP

General Rejoicing Throughout Ontario — Too Late to Save Hay! Toronto, June 7.—Rain was general over all central Ontario Saturday night and caused farmers and gardeners to rejoice. It came just in time to save crops of various kinds, including the fruit crops of the Niagara peninsula. While the rain is said to have come too late to save the hay crop, it has greatly benefited the fall wheat, also oats, barley and spring wheat. It was a welcome rain, indeed.

GRANT HALL IS HONORED

Banquet Tendered on Eve of Departure From Winnipeg. Winnipeg, June 5.—Nearly 300 citizens of Winnipeg and the west paid a tribute to Grant Hall, vice-president of the C. P. R., last night at a banquet in the Royal Alexandra Hotel to make up for their inability to give him a suitable farewell when he was so suddenly called to Montreal to assume his present high post in the company. Sir James Atkins, lieutenant-governor of Manitoba, was toastmaster; Premier T. C. Morris represented all the premiers in the west. Mayor Charles F. Gray, chief magistrate of Winnipeg; Mayor Church of Toronto; A. Dunning, provincial treasurer of Saskatchewan, and Peter Hrennan, M. L. A. for Kenora, Ont., spoke. The gathering also included a number of ladies, guests of Mrs. Grant Hall.

Rippling Rhymes by Wolf Mason. (Copyright by George Matthew Adams.)

THE ENIGMA

That monster of the western coast is now within the prison's gates. He married girls where'er he went, and he had murdered ten or eight. He must have been a winning gent, who had a fascinating way. But no, he had a feline face, a wolfish mouth, a furtive air, as shy of beauty as of grace—yet he won brides most everywhere. The blooming damsels seemed to see in Bluebeard Watson things that charm; and when he said "Will marry me?" They answered him, "You let your army." And so they decked themselves in white, and with him sought the altar rail, and at the finish of the rite he butchered them and swiped their hair, and could name a dozen late, all loaded down with sterling worth, who've searched for brides in many grays who searched in vain throughout the earth. I have no doubt the Bluebeard wives refused the hands of many St. John men, who have no kismet on their lives, who are not headed for the pen. I cannot understand those maids who'll blithely marry unknown knaves, of wolfish mien, who carry spades, with which to dig the ladies' graves.

CANADA—EAST AND WEST

DOMINION HAPPENINGS OF OTHER DAYS

HUNTING FOR JAPAN

The month of June, 1861, saw two great English cities, London and Bristol, engaged in a rivalry as to which should win the honor of finding a way through the northern part of America to the rich East and Japan in particular. Accordingly in that year two expeditions were fitted out. The one from London was in command of Captain Fox, who had been introduced to the king and who bore a copy of all records in previous exploration trips. He carried, too, a letter he was to deliver to the Emperor of Japan if he was successful in finding the water way through the continent. Fox reached Hudson's Bay in good condition and entered the Straits on the 22nd of June. In the bay fine clear weather greeted the discoverers as well as an open sea, free from ice, no wind, and the west coast of the bay, but failed to find the longest passage and so he could not present the letter to the Mikado. Not desiring to winter in the place he re-passed the Straits at the beginning of October and about the last of the month he was back in London. The British merchants put their expedition in the hands of Captain James. He sailed almost the same time as Fox, carrying, too, a letter to the Emperor of Japan. He reached Hudson Straits in June, but met ice and a terrific storm. The rigging froze in the night, the decks were covered with six inches of snow and to use their own words, "they began to prepare to give up and end of this miserable life."

LIGHTER VEIN

"What a pretty girl old Greyson's got hold of!" exclaimed the envious young fellow to his friend, as they watched her skaters. "Yes," replied the other. "She certainly is pretty. But I think she must be his sister." "Why?" "Well, before they came on the ice I heard him ask her if she was never going to learn how to put on her own skates."

AN EXCEPTION

It was a model prison, and the warden was talking with his latest "guest." "Now, my man," he said, "do you have any trade, or are you skilled in any line?" "Why, yes," the man replied. "God, we always put men to work at their specialty. I'll do so with you. I'm an afraid you won't, sir," the man replied regretfully. "Oh, yes, we will. What are you?" "Aviator, sir"—The Home Sector.

FAVORITES TABOO

Master—My mother-in-law is coming for a long visit tomorrow. Here is a list of her favorite dishes. Cook—Yes, sir. Master—The first time you give us one of these you'll get a week's notice.—Pearson's Weekly.

THAT SETTLED IT

While expounding to his wife the alleged fact that men are able to control their tempers better than women, Mr. Hinks fell over the cat and nearly broke his nose. "That settles it," he hissed. "I've often threatened, but now I'll drown the brute!"

His wife begged him to be merciful, but his mind was made up. Accordingly he placed the offending feline, along with two large bricks, in an old flour sack, and hastened upon his murderous errand. On reaching the canal he threw up the bag with such vigor that he overbalanced and fell into the muddy water. After struggling for half an hour and incidentally drinking half the water in the canal he returned wet and weary.

"Well, of all!" exclaimed Hinks. "I don't think so," said his wife, as she let him in. "You didn't give me time to tell you that there was a hole in that bag."—London Tit-Bits.

IN A QUANDRY

"So Alice caught her husband kissing the maid. What is she going to do about it?" "She can't seem to make up her mind. Poor dear. Sometimes she thinks it would be easier for her to get a new husband than to find a new maid."—Boston Transcript.

NO WONDER HE GOT HIM

The third hilt man and the no-striper had been sent out on patrol duty in No Man's Land with strict instructions to get the sniper who had been worrying the company all day, relating the American Legion Weekly. Finally the offending Jerry was located among the branches of a tree. With the utmost coolness the old-timer took careful aim, fired and—missed. The recruit with teeth chattering, wobbled his rifle to his shoulder, pulled the trigger and the sniper fell to the ground dead. Disgustedly the veteran of three enlistments watched the performance. "No wonder you got him," he growled. "You aimed all over the tree."

A SMOOTH ONE

Had a Taste for Acquiring Things That Has Landed Him in Troubled Waters. (St. Stephen Courier.)

He came from somewhere in Maine a few days ago, represented himself as a returned soldier, and wore the coat of a Maine soldier. He was a "glib" talker, and drifted into C. Haskell Vail's stable, where he wanted to buy a lot of horses. Mr. Vail was willing to sell, in fact he was there just for that business, and a trade for twelve of the good ones that Mr. Vail handles was readily made. The stranger, who gave his name as Charles Greenall, gave a check for \$2,170 in payment, and left with directions that the horses be taken to Calais and delivered at a car on the Maine coast after he had arranged for the duties. Even a check for that considerable amount with the prospective profit in exchange, did not tempt the St. Stephen man to part with the equines till he "knew, you know." The check was drawn on the Union Trust Company of Ellsworth and the St. Stephen man hiked at once to his banker to ascertain just what it was worth. The reply by 'phone was that no person of that name had any account with that bank, and the deal was all off.

The smooth one had also visited Princeton, where he traded with a well-known horseman there for nine horses, with which the owner had got as far as Woodland on his way to Calais to deliver them and get his money, when the idea struck him that a little enquiry might be advisable. From there he called Mr. Vail and asked if he had any dealings with this party. Mr. Vail made the Princeton man wise and the carter returned up river, but before the wires had been "put up" by the message they waited from the Princeton party.

That ended the horse trading in this section, and as the alleged soldier had vanished from sight, the incident was being forgotten when, a few days later, Town Marshal Hill received word that a Maxwell car had been stolen from pass in a town near Calais, and that the thief was believed to be headed this way, giving his name as Wilkey. Inquiry revealed that he had passed through St. Stephen, headed for St. George, and he was soon being followed by Marshal Hill. Inspector Douglass of the Immigration Service, down near Black's Harbor they caught up with the interested man, and he was sent to the broken down. He was placed under arrest, brought back to the border and handed over to the United States authorities, as a very undesirable immigrant. His case is now before the courts of that state.

BADLY IN NEED OF CLOTHING

C. B. Allen, secretary of the provincial Red Cross, returned from St. Quentin recently, where he was sent to investigate what supplies were needed there. He said that there is sufficient food and other articles, yet there are articles such as boots for boys from seven to thirteen years of age, blankets, pillows, trousers, in Frederick, Saturday, at which Mrs. George Dishart, Mrs. Frank Likely, Mrs. D. W. Puddington and Mrs. George Henderson of this city were present. It was decided to open the J. J. Fraser Paraline Home for aged people. The meeting Saturday was for the purpose of drawing up by-laws and constitutions for the management of the home, and the appointment of a board of directors. The following St. John members were appointed on the board: Mrs. W. D. Puddington, Mrs. Frank Likely, Mrs. George Dishart, Mrs. J. S. Flagler, Mrs. C. A. Clark, Mrs. A. P. Crockett, Mrs. W. H. Nix, Mrs. J. H. Bullock, Mrs. R. A. Sinclair, Mrs. H. W. Robertson, Mrs. Edith Stevens, Mrs. Kenneth Haley, Mrs. E. B. Dixon, Mrs. A. E. Cunard and Mrs. E. E. Thomas. The meeting was held at the home of the president, Miss Ella Thorpe.

TRAVELERS HONOR OVERSEAS MEMBERS

Montreal, June 7.—The Dominion Commercial Travelers' Association held a meeting on Saturday when 830 gold cuff links were presented to members of the body who had served overseas or to the next of kin of those who had fallen, thirty-three in number. About a hundred attended the presentation, many residing in other towns and districts. General W. O. H. Dodds read the roll call and presented the souvenirs.

THE KING'S DAUGHTERS

At a meeting of the executive of the provincial branch of the King's Daughters, in Fredericton, Saturday, at which Mrs. George Dishart, Mrs. Frank Likely, Mrs. D. W. Puddington and Mrs. George Henderson of this city were present, it was decided to open the J. J. Fraser Paraline Home for aged people. The meeting Saturday was for the purpose of drawing up by-laws and constitutions for the management of the home, and the appointment of a board of directors. The following St. John members were appointed on the board: Mrs. W. D. Puddington, Mrs. Frank Likely, Mrs. George Dishart, Mrs. J. S. Flagler, Mrs. C. A. Clark, Mrs. A. P. Crockett, Mrs. W. H. Nix, Mrs. J. H. Bullock, Mrs. R. A. Sinclair, Mrs. H. W. Robertson, Mrs. Edith Stevens, Mrs. Kenneth Haley, Mrs. E. B. Dixon, Mrs. A. E. Cunard and Mrs. E. E. Thomas. The meeting was held at the home of the president, Miss Ella Thorpe.

A Big Investment

Winnipeg, June 7.—Eighty million dollars of British capital probably will be brought to Canada as a result of the visit of inspection Count de Toper of London, England, and Nice, France, is making to Winnipeg and the west, the Manitoba Free Press says.

Vandals Rob Caskets

Winnipeg, June 7.—Vandals last night invaded the grand vault in the cemetery here in which lie the bodies of Schiller and Goethe, the German poets, and did considerable damage. They stole gold and silver wreaths from their caskets.

SCHOOL CHILDREN ARE DRINKING MORE MILK

"Iowa has been making a special effort during the past six months to improve the health of the school children of the state by inducing them to drink more milk," says a statement issued by the U. S. department of agriculture.

"The work started last October with a 'milk week.' During the six days of lectures and demonstrations 31,900 were reached directly and 300,000 indirectly. Libraries, schools and clubs co-operated in the work and during the week 4,000 school children wrote essays on the value of milk.

"In one Iowa county among 308 rural school children only 114 drank any milk at all before the campaign and but five then an increase in consumption of milk amounting to 15 to 25 per cent has been made in the various counties in the state, and thousands of rural school children are now carrying milk to school for lunch."

A MODERN SCHOOL

Here are some of the things that were going on in a Montclair school the other day:

- (1) A group of pupils with dolls were setting and arranging a tea table.
- (2) Another group were learning to make a bed the bed being about two feet long.
- (3) A "sand-table project" was under construction.
- (4) A house was being built and furnished with wooden blocks.
- (5) Several children were making articles out of paper—a see-saw, a motion picture booth and a store.
- (6) A little girl was hennaing sheets for a bed about six inches in length.

Incidentally, a reading lesson was going on under the direction of the teacher, and every child in the reading class appeared to be giving 100 per cent attention. "Not the slightest confusion existed," says the school official who observed the class. "All work was definite and clean cut. Pupils were learning something not found in books."

RECENT WEDDINGS

At the Main street Baptist church paragon on Saturday afternoon, a pretty wedding took place when Miss Florence Hazel London became the bride of Archibald Frederick Brown. The marriage was performed by Rev. Dr. David Hinchinson in the presence of relatives and friends of the young pair. After the ceremony Mr. and Mrs. Brown left by the Montreal train for a honeymoon trip and on their return they will make their home at Gaspe Station, Queens county.

A very pretty wedding was solemnized at the Anglican church at Loch Lomond on Wednesday, June 2, when Rev. C. W. Folett united in marriage Robert McBride, of this city, and Miss Lillian Ackerson, of Yarmouth (N. S.). After a wedding repast had been served the happy pair left for a honeymoon trip to Nova Scotia.

RECENT DEATHS

Frank Goddard died of pneumonia, May 21, at New York, after a long illness, he resided for the last thirty-five years. He was an artist, who made a specialty of restoring the works of masters. He was born in Nottingham, England, and is survived by his wife, formerly Miss Sophia Dabrow, of St. John, and two sons, Frank and Frederick.

The death of Oscar Davison Wetmore occurred at his home in Chicago on June 1. He is survived by one daughter whose home is in California. Mr. Wetmore was a former resident of St. John.

The death of John C. McAuliffe occurred at his residence, 18 Kitchener street on Sunday, June 6, after a lingering illness. Besides his wife he is survived by one daughter, Rose; two sons, John and William, all at home; two sisters, Mrs. William Nugent, of St. John, and Mrs. McBride, of Amherst, and one brother, William, of this city.

Mr. McAuliffe was a well known staveholder for many years, but more recently was engaged as a building contractor. He had a host of friends, who will regret to learn of his death. His funeral will be held Wednesday morning.

FUNERALS

The funeral of Cornelius Dinneen took place on Saturday morning from his late residence, Horsfield street, to the Cathedral where solemn requiem high mass was celebrated by Rev. A. F. Allen, Rev. Raymond McCarthy, deacon, and Rev. Simon Oram, sub-deacon, Rev. W. M. Duke was master of ceremonies and interment was made in the new Catholic cemetery.

DALHOUSIE FUND MEETING WITH SUCCESS

Now Nearly \$670,000—Half Million From Rockefeller Foundation.

Halifax, N. S., June 7.—(By Canadian Press)—The Dalhousie University campaign for an increased endowment fund is meeting with gratifying success. The subscriptions reported up to six o'clock Saturday evening totalled \$669,909.00, of which Halifax city presented \$296,013.00 and Montreal \$41,000.00.

New York, June 6.—Trustees of the General Education Board, the Rockefeller Foundation announced to night, appropriations totalling \$20,261,900 for various purposes of general education and the development of medical schools. Included in the list is an item of \$400,000 for buildings and equipment for Dalhousie University Medical School, Halifax, N. S., and another of \$100,000 for endowment of the same. These sums are voted by the Rockefeller Foundation.

A GREAT FIGURE

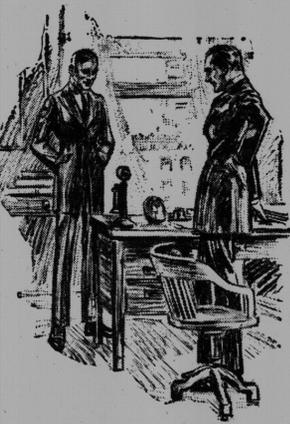

(New York Evening Post)

Dr. George E. Morrison, the political adviser to China and Peking correspondent of the London Times, as a youth was left for dead in the New Guinea bush, with two spearheads in his body; was seized by the bubonic plague a little later on the Siamese frontier, without medicine or attendance; and in the Boxer rebellion was considered so certainly slain that his own paper printed his obituary. His quiet death in London is the passing of one of this generation's remarkable figures. After failing to take his degree at Melbourne, he became one of the greatest of Chinese scholars, mastering the very dialects of that land, and a more thorough acquaintance with its culture than most Chinese. Without office or patronage, he was long the most powerful European in the Far East. It was of him that Curzon claimed the phrase regarding the "intelligent anticipation of events before they occur." He never intruded himself on the world's notice, but behind the scenes he was one who made history. The British have produced a number of men of like adaptability, power in affairs and scholarship—Gordon, who commanded Chinese and Egyptian armies; Burton, who went to Mecca in disguise and gave us imperishable travels and translations; Edward Henry Palmer, explorer of the Near East and author of many books, who was murdered by Belouin tribesmen; and now Lawrence, of Arabian fame. In this group Morrison was one of the most prominent.

IS THE ATHLETE WORTH WHILE?

Other Cities Think so—Halifax Does Not, Apparently, Give Matter Much Thought

(Halifax Chronicle.) There is an old saying about the child being father to the man, and if this is correct, which it is generally accepted to be, it is equally true that the good athlete is father to the good citizen.

By good athlete is not necessarily meant the man who excels in a certain sport for a short period, but the one who takes up athletics because they are clean and wholesome and give him the recreation he requires.

In other cities this is a recognized fact, and children are encouraged to athletic pastimes from the time they are fit to toddle until they are ready to go forth into the world and take their place there.

To a certain extent this has been done in Halifax in the playgrounds on the Common; but here the work seems to have died a natural death.

It is quite true that those who are more advanced in age are eligible to play as members of well organized clubs, but this applies only to those who have the necessary capital to take advantage of membership and does not help those who have no ready money to spend with the possible exception of a few dollars once in a while for gear.

Communities lost nothing in the way of prestige by their athletes as witness the fact that Arthur Duffy forever placed Georgetown University on the map by his running. Alf Shrubb has always been a first-class advertisement for the little island which he calls home; Bob Fitzsimmons placed Australia in the line light and others have done the same thing.

It is quite true that all of these places would have been and were here without the aid of athletics; but the athlete did more to place the country in the eye of the young man than ever any advertising campaign could have done. And every one of these young men later became citizens.

In local circles we have had several good advertisements for our city in the athletic line, and more than eighty per cent of them have become firmly established citizens and business men.

It is true that they were not municipally looked after playing fields, but they did have a lot of open land which was perfectly usable at their command.

At the present there is practically no land available owing to the call upon it for building purposes; but there is still land which cannot be built upon which could be utilized for that purpose.

While other cities spend large sums keeping these places in proper condition, Halifax does not spend a cent or spends so little that the amount is practically wasted as it is not sufficiently large to make itself shown in actual results.

At present the city could have several good baseball diamonds without a very large expenditure and these could be used as football fields in the autumn season and as a pinch as outdoor skating places in the winter. Up to the present nothing is being done to aid the

young man in his quest after good clean sport so accordingly he spends the time elsewhere—not always to his lasting benefit.

It is time that somebody awakened to the importance of the athlete in the community. Watch those who were athletic a decade ago, and see just what class of citizen they are making. Unless there is a great error in our recollection of these young men they are all among the progressive members of the community or at least four-fifths of them are and that is a pretty heavy majority.

Glycerine Mixture

Prevents Appendicitis Simple glycerine, buckthorn bark, etc., mixed in Alder-ka, removes all food accumulated poisonous matter from both upper and lower bowel and prevents appendicitis. Relieves any colic gas on stomach or constipation. The instant pleasant action of Alder-ka surprises both doctors and patients. A business man reports great benefit in a long standing case of indigestion and sour stomach. J. Benson Maloney, A. Graggis, 7 Ducl street.

MARITIME MEN GET DEGREES FROM MCGILL

Montreal, June 6.—The following degrees were conferred at McGill University on Saturday: The Holmes gold medal for highest aggregate in all subjects forming the medical curriculum, C. M. Eaton, B. A., M. A., Truro (N. S.).

Diploma of Public Health was presented to W. F. Daw, M. D., Bay Roberts (Nfld.); Edgar Douglas (M. D.), Halifax (N. S.); H. Wheaton, B. Sc., M. D., Petticoat (N. B.).

Degree of B. A. was conferred on T. B. Evans, St. John (N. B.); H. S. Everett, St. Andrews (N. B.); W. B. Somerville, Bristol (N. B.).

How the Scrap Started

Jones stepped on Smith's favorite corn and of course there was trouble. What Smith needed is Putnam's Corn Extractor—that patented remedy for corns and warts that cures in twenty-four hours. Putnam's is the only standby. Try it, 25c at all dealers.

CHILD'S BODY FOUND IN RIVER NEAR MILLTOWN

St. Stephen, N. B., June 6.—Workmen employed on the boom a short distance above Milltown, made a gruesome discovery Saturday at noon, when one of their number drew to the shore a bag that was floating past and in which they found the body of a child. Dr. J. D. Lawson, coroner was notified and made an investigation but was unable to ascertain anything of great importance. The body was of a female child apparently two or three weeks old, but without marks on the clothing by which an identification could be made. The bag had been weighted with a small piece of lead pipe. The little body was quite badly decomposed and was later given burial. There are no means by which to ascertain at what point up river it was cast into the stream.

NEW PASTOR.

L. B. Gray was warmly welcomed to his new charge, the Waterloo street Baptist church, when he conducted the services there yesterday. In spite of the inclement weather, large congregations greeted him and heard his stirring message with attention and appreciation. Although a young man who has just graduated from Acadia University this spring, he is a forceful speaker. He arrived in the city on Saturday evening and is at present the guest of H. E. Hoyt, Rockland road. His former home was in Fort Lawrence, near Amherst. The subjects of his sermons yesterday was the church and its mission to the present-day world.

OFFICERS ELECTED.

Vancouver, June 6.—Montreal was chosen as next year's convention city at the final session Saturday afternoon of the Canadian Fisheries Association. A. L. Hager, Vancouver, was elected president and J. Pauline, Montreal, vice-president. A. Boutiller, Halifax, was second vice-president.

TRACING WIRELESS STRAYS.

(New York Tribune.) It is reported that all the amateur wireless telegraph operators of England are to be called on to help the mysterious of wireless wave antics and of strays—the electric forces often caught by wireless instruments, but which are recognized as stray electricity in the air. It is now fairly well established in connection with Eiffel Tower signals that when it is raining at the sending end the receiving end is apt to be poor; but that if it is clear at the sending end and raining at the receiving end the signals come long normally. If it is cloudy at both ends the signals are better than ever. It has long been generally known that after sunset the strength of the wireless signals increases greatly, but the exact amount of this increase in thousands of cases is wanted for the study.

The subject of strays is a big one in itself, but if all the amateurs of the land were on the lookout for them, and sent in reports on all they noticed, it might be found that they travel on cer-

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long. Instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health. Mrs. P. H. Ryan, Sand Point, N. S. writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CORPUS CHRISTI SUNDAY OBSERVED

The feast of Corpus Christi was celebrated in the Catholic churches of the city yesterday, when the Blessed Sacrament was exposed after mass in the morning and after solemn vespers and benediction in the evening processions took place. In the Cathedral the Blessed Sacrament was exposed after the 10.30 mass, and Rev. William Duke officiated at vespers in the evening. Rev. Simon Oran preached an eloquent sermon on "Corpus Christi," and Rev. Father McCarthy acted as master of ceremonies. There was a very large congregation and the procession was a very impressive ceremony. Those taking part in the procession were the officers of the League of the Sacred Heart, the Children of Mary, St. Anne's Society and the Holy Name Society. After these came the boys and girls of grades 6, 7 and 8, and then came the orphans of St. Vincent's convent, and the sanctuary boys. The children were in charge of the sisters of charity. The procession, starting from the sanctuary, filed slowly down through the church, the blessed sacrament being borne in front by the celebrant under a canopy, and then back by another aisle to the altar. After the procession benediction of the most blessed sacrament took place. In Quebec.

Quebec, June 7.—(Canadian Press)—The feast of Corpus Christi was signally honored here yesterday in the different Catholic parishes by out-door processions of the Blessed Sacrament through the streets of the city, lined with saplin fir trees and elaborately decorated.

At various points there were elaborate repositories erected and benediction was solemnized while the signing was supplied by the hundreds of citizens who joined in the processions.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

then back by another aisle to the altar. After the procession benediction of the most blessed sacrament took place. In Quebec.

At various points there were elaborate repositories erected and benediction was solemnized while the signing was supplied by the hundreds of citizens who joined in the processions.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the contains proper directions for Cold, only genuine Aspirin—the Aspirin, Headache, Toothache, Earache, Neu- ralgia, Lumbago, Rheumatism, Neur- itis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost 50c. Always buy an unbroken package of "Bayer Tablets of Aspirin" which a few cents. Larger "Bayer" packages, 50c and 1.00. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono- acetate of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

USE The Want Ad War

18c. per package Two for 35 cents

Why is it—

that you will invariably find Player's in the cigarette cases of your friends? Time and time again you will have noticed it!

Here is the answer! It is because smokers have found—both by their own experience and that of their friends and business associates—that Player's are the finest Virginian cigarette that money can buy.

No matter what price you are willing to pay, you cannot buy a better cigarette. Player's are the smoothest, mildest and most satisfying smoke in the world.

That is why men prefer PLAYER'S.

PLAYER'S NAVY CUT CIGARETTES

SIMPLE AS A. B. C. TRY IT TONIGHT FOR YOUR NERVOUSNESS

Worn out tired in the morning, you lack the energy and ambition to work as of old. This means nerve decay—nerves that are starved for the want of good, rich blood.

It's blood nourishment that vitalizes the nerves. Your blood is thin, weak, watery. It's filled with poisons that hang on because your kidneys don't filter properly.

See here, as up your kidneys, put new life in your liver, and you'll feel like new in a short time. To do this, you must use Dr. Hamilton's Pills. They make life look bright and pleasant because they restore harmony and vigor to the organs that need repair.

Dr. Hamilton's Pills warm the blood and fill it with nutrient that's bound to build you up, that's sure to lift your weakness, that invariably does make joyous, robust Good Health.

Think of it, youthful strength, lots of nerve force, plenty of red blood surging through your veins—let this reason enough for your using Dr. Hamilton's Pills? Sold in 25c. boxes by all dealers.

WHY DO WOMEN SUFFER

When There is Such a Remedy for Their Ills as Lydia E. Pinkham's Vegetable Compound?

Mishawaka, Ind.—"I had such a severe female weakness that I could not do my work and I could not get any thing to relieve me. A physician treated me, but it did no good. I had been in this condition for three months when I began taking Lydia E. Pinkham's Vegetable Compound (tablet form) and it cured me. I can keep house and am able to do my work now. I certainly praise your medicine."—Mrs. SUND OLDFATHER, 648 West Second Street, Mishawaka, Ind.

Women who suffer from such ailments should not continue to drag around and do their work under such conditions, but profit by the experience of Mrs. Oldfather and thousands of others who have tried this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and found relief from such suffering. If complications exist write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience in advising women on this subject is at your service.

Not A Blemish

man's face is the perfect complexion. Permanent and temporary skin troubles are effectively concealed. Reduces unnatural color and corrects greasy skins. Highly antiseptic, used with beneficial results as a curative agent for 20 years.

THE BETTER WAY TO TAKE CARE OF FLOORS

AN O-Cedar Polish Mop will free you from the hardest of all house-work—the dusting, cleaning and polishing of floors. With this Mop you dust, clean and polish, all at one operation. The O-Cedar Polish Mop collects all the dust—and at the same time gives the floor a high, dry, lasting polish.

The O-Cedar Polish Mop makes it easy to clean those "hard-to-get-at" places. No more moving heavy furniture—no more climbing up down the legs of chairs—the O-Cedar Polish Mop reaches you of all this back-breaking work. The satisfaction it gives, before to the O-Cedar Polish with which it is treated—its Polish is excellent for cleaning and beautifying all furniture and wood-work.

O-Cedar Polish, 24 inches long—25¢ extra.
O-Cedar Polish, 36 to 45.00 sizes. Both at your Hardware or Grocery Shop.

CHANNEL CHEMICAL COMPANY, LIMITED, TORONTO

"BEWARE OF DOG" TAKES ON NEW SIGNIFICANCE

Philadelphia Girls Wear Japanese Good Luck Emblem Which Guarantees Engagement at Least.

Philadelphia, June 7.—Beware of the dog. The old warning takes on new meaning and is being sounded ominously in the bachelor circles of Philadelphia. It's just an innocent "good-luck" dog, made in Japan, so it is said; but that many a bachelor will flee from it faster than he would flee from the well known, many-headed Cerberus.

Although there are forty of these good luck dogs. Each of the dogs hangs from a chain about the throat of a fair Philadelphia girl. Each of the dogs carries a big guarantee. At the end of the year the wearer will be at least engaged—or your money back and no questions asked.

Preliminary to adorning themselves the "good-luck" doggies, the wearers met in concrete New Year's Eve and exchanged ideas on the first lessons in proposing.

The Secret Out!

The secret is out. It escaped from a conference of the "Parson's Girls" Community Club in the home of Miss Sara Ferris. They called it a "party," but just the same, it was a leap-year cabal.

Forty young women, none of them a day more than twenty-four—and most of them a lot younger than that—attended the party, which formally ushered in the the lightome leap-year season for the club. From the forty young women came forty subtle suggestions as to the best method for ensuring a wary man.

Some of the suggestions will not be looked on with disdain. For instance, Miss Mary Golden, who is treasurer of the club, is inclined to think that a fat bank book dropped carelessly in the path of the quarry will elicit a prompt proposal.

Crullers vs. Sonatas.

"Crullers" is the suggestion from Miss Emma Doyle, president of the club.

Miss Elizabeth Bense, vice-president of the club, doesn't place much stock in the culinary line.

"An for moonlight and a pale pink gown," asserted Miss Bense, with soft blend of romantic conviction and languor.

Miss Ruth Benner basely suggested the best way was to catch him off his guard. "Confuse him," she advised by popping the question all of a sudden.

More ruthless minds, mistaking mere staccato passivity for impulsiveness, suggested their cave-man concept and suggested a blackjack.

When the business suggestions was over, the girls all adorned themselves with the "good-luck" dogs. And then to show that they really didn't care so much for whether they ever got married or not, they had a perfectly wonderful dance without a man in the place.

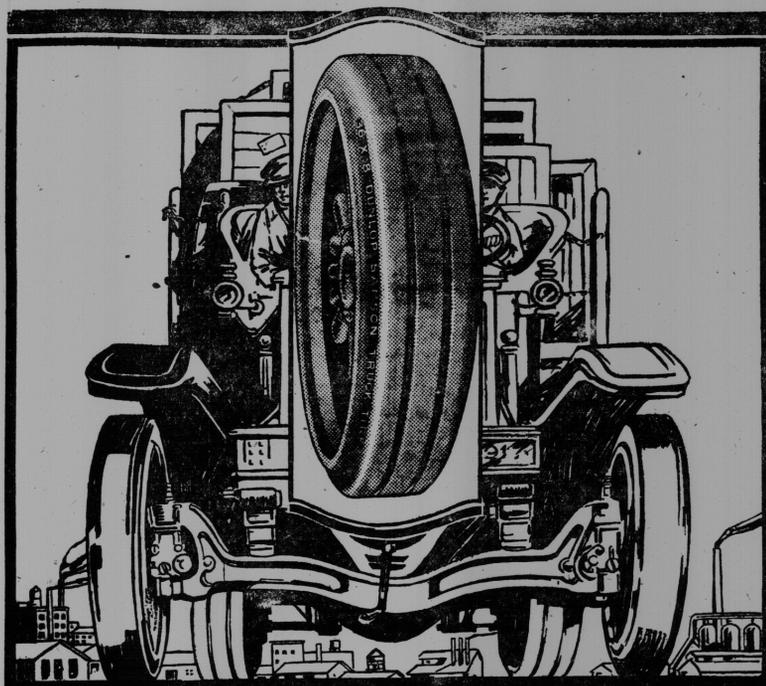

RELIGIOUS ORDER IN NEW MEXICO

Members Inflict Cruel Punishments on Themselves and Some Die.

(New York Evening Post.)

Our southwest is the stronghold of the most mysterious and elaborate religious known, rather known a little—from the Christian tortures of the Penitentes to the complete symbolism of the Zuni Indians. The Encyclopedia Britannica asserts that the last procession of the Flagellant Brothers—a Christian sect which first made its appearance in Italy in 1210—took place in Lisbon in 1820, but George Wharton James, in his book just issued on "New Mexico" (Page pp. 468), declares that his own eyes have given him contrary information. Without going to Oberammergau an American may see a score of passion plays in its own country each year given by penitents of Arizona, New Mexico, Southern Colorado and Southern Utah, and every one conducted with desperate earnestness and a grim fidelity to the cruel punishments inflicted upon the Saviour. He first saw this scene at Raton, N. Mex., 1889. There is every reason to suppose, says the writer, that each year more than one devotee loses his life through actual crucifixion.

It is in Lent that the Penitentes' devotion is fanned to a fierce blaze. Mr. James says that he would like to believe that the ceremonies he witnessed then at the moradas in New Mexican villages like Raton and San Mateo were only fantastic dreams. Those who march in the processions carry heavy

DUNLOP TRUCK TIRES

Motor Trucks are, in respect to overloading, at the mercy of circumstance.

To-day this practice is even more pronounced than ever.

To minimize the effects of this evil, as far as humanly possible, DUNLOP "SAMSON"

Motor Truck Tire was developed.

Every Dunlop Truck Tire is an over-size tire, and contains more cubic inches of rubber per foot than the corresponding size of any other Truck Tire made in Canada.

Dunlop "SAMSON" is constructed to take up a big portion of road shocks that ordinarily play havoc with the mechanism of the truck or its load.

As already stated, Dunlop Truck Tires contain an extra volume of wear-resistant, load-absorbing rubber. It is this resilient, well-nigh indestructible rubber, also, that means better value to you in Dunlop "SAMSON."

A call from one of our salesmen puts you under no obligation to buy.

Drop a line or 'phone to the Dunlop Branch nearest you.

Dunlop Motor Truck Tires absolutely will not split nor come loose from the steel base. You cannot chisel them off.

POKER GETS INTO SOCIETY.

A Writer Finds Stud Parties the Rage in Detroit.

The man who believes that humanity has a certain amount of devilry in its comings that must come out and that liquor was an outlet whose closing merely made for another outlet is pointing with an "I-told-you-so" at the gambling situation that has arisen in city homes. Detroit has gone poker mad, as an attempt to buy poker chips, or game counters as they are now called, will prove.

In a visit to 10 places that formerly sold them a recent purchaser met with: "Sorry, we haven't a chip left." At the 11th place the largest stationary shop in the city, he was able to buy the last box of composition chips the store had, and the clerk remarked as he wrapped it up:

"You're lucky. We don't know when we will get any more."

"Why not?"

"Because of the demand. We simply are cleared out. Since prohibition came in everyone is playing poker. Most of our sales are to women and they are no pickers when it comes to buying chips, either. They pay up to \$125 for a set."

"Do you suppose the women are gambling?"

The clerk laughed. "Gambling? I'll say they are! Once they get started they make the best gamblers in the country, too. They have no limit of nerve and will stake their last penny. Women come in here to buy cards and new blips and we hear them tell one another of gambling situations that would make you blink."

Further investigation showed that whilst clubs, poker clubs and even clubs whose titles had a literary sound have

changed to plain poker clubs and the intellectual complexities of bridge have been superseded by "I'll draw two" and "Raise you five."

The sale of dice is also increasing every day and the purchasers are—once more—mostly women. The galloping domino of the Southern negro is finding a home on the family hearth and there is scarcely a gathering of young people of the fast set that does not see a crap game going on in some corner or unblinking in the middle of the floor, with the entire body of guests on their hands and knees shouting for "Big Dick" or "Little Joe"—Detroit News.

Daniel Phillips, a brickman who fell from a freight car, 100 feet, through a trestle, was not hurt, because he landed right side up in the bed of the river underneath, and sunk in the mud up to his knees.

Story Upon Story.

"I see by the paper that they are going to build a thirty-story hotel here."

"You don't tell me! Will it pay?"

"Oh, that's another story."—Boston Transcript.

The Worries Of Business

Would be less noticeable if business men had bright attractive offices to work in.
Brighten up your office by panelling it with Beaver Board and tinting the walls in cheerful colors that will keep away "the blues."
Beaver Board, 6 1/2 cents a foot in bundles.

EXPECT SHORTAGE OF POTATOES SOON

A shortage in the potato markets of Canada is expected for about a month or during parts of this month and July, according to those handling the vegetables. Some dealers predict that in a few weeks there will be scarcely a bushel of old potatoes left in the country. The new crop in Canada will not be available until July 20 or August 1, and the only reliable export in large cities is from Virginia potatoes which to some extent are imported into Canada for a few weeks each year. Potatoes in St. John are worth about \$9.20 a barrel wholesale.

FROM THE MAGDALENS.

Because of the scarcity of the herring this year at most points along the coast of Northumberland, schooners are bringing fish for bait and smoking from the Magdalen Islands to New Brunswick ports. Several schooners have already arrived at Port Elgin with herring.

Bought Hotel Because Clerks Couldn't Pay Board.

Buying a hotel so his clerks could secure good board and lodging at reasonable prices was one way in which Claude King, general merchant of Colby, O.K., helped answer the help shortage problem. He arranged special rates for those of his clerks who desired to live in the hotel and fixed up the rooms attractively.

But this did not solve the problem entirely. So King worked out a scheme of paying his clerks on a commission basis. Each clerk eventually fixes the amount of his salary by the volume of merchandise sold, and every six months the clerks are forced to enter into heavy competition in order to keep his selling force up. The farmers were desperate for help and the bids kept soaring. King then decided not only to allow his clerks a liberal salary in the form of a drawing account, but to keep track of the clerk's sales, and every six months give the commission on everything the clerk had sold. If the commission amounted to more than the clerk had drawn during the six months it was paid in cash. If the clerk fell short of his allotted drawing account he was expected to speed up his sales or accept a lower drawing account.

This plan has been in operation in the King store for a year, and under it the best paid clerks now receive about \$150 a month.

"We have from six to ten clerks," says King, "and our sales in 1919 were about \$75,000. We did not have much reliable information to go on in fixing the commissions for our clerks, and I think possibly we have some of our commissions too high and some too low."

The commissions are given as follows: Groceries, 5 per cent on gross sales. Dry goods, shoes, men's and women's ready-to-wear, 6 per cent. Implements, 4 per cent.

"When a clerk comes to work for us we ordinarily give an estimate of what we think he will be able to earn under the commission plan, and we give him a drawing account of that amount. We pay our clerks monthly and we figure that at three months' trial ought to show whether the clerk will make more or less commissions to equal the drawing account. If at the end of three months the commissions do not equal the drawing account, we either reduce that account or let the clerk go."

"We settle with clerks every six months, when the total commission earned by each clerk is figured out and whether he has carried more or less than the quota fixed by the drawing account."

NEW MARY AND GEORGE CAN SHOP FOR MOTHER

The children's shopping plan was instituted in the Pelletier store, St. John, N. B., with the same purpose that Santa Claus features, nursery houses and children's playrooms are installed in department stores throughout the year. Merchants realize that one of the best ways to create goodwill and confidence among parents is to win the friendship of their children. This is the idea behind the children's shopping plan. The features mentioned and is similarly working out to a financial benefit in this new shopping service for boys and girls at the Pelletier store.

This new youngster shopping idea was really inaugurated for two reasons:

First, because of the unusual activity of these modern times, a mother's time is generally well taken up in her duties in the home. There are many needs, particularly staple needs, in the home that some one else could purchase for her. Hence the suggestion of sending the children to do their shopping through the installation of this special children's shopping service.

Second, because of the growing tendency in the public school systems of today toward more practical training, more commercial training, a training that makes the youngsters know the value of the dollar and realize the vastness and relative importance of the things about them.

Shopping order blanks were printed and sent out to a large list of mothers in the city with an announcement of the new service. Additional shopping orders were available at any time through the store. After the issuance of this children's shopping plan, in consequence of the encouragement of children's trade, few difficulties were encountered in serving the class of clientele.

In order that the children would more or less become acquainted with the various departments of the store Pelletier's department to take care of all children's business. Under this arrangement, the salespeople, being always certain to select only those who have the natural liking for children, those who know the characteristics of children when shopping and those who would be able to explain to the child the reason she chose the goods she did from the instructions given on the order blank.

So far the service rendered in this manner has been very satisfactory and in many instances, parents have expressed deep appreciation of the Pelletier store installing this service. The consensus of opinion was that this new service of the store is a long-felt want—that the parents now know where they could send their boys or girls on a shopping errand where they would receive not only courteous and painstaking attention but where they would endeavor to teach something about the right and wrong way of choosing goods for their parents.

PRINCESS MARY SHOWN REVIEWING THE GIRL GUIDES AT ALDERSHOT RECENTLY

WOMEN CONVICTS PREFER DEATH TO IMPRISONMENT

Story of the Only Woman Who Ever Escaped From Auburn Prison.

(Toronto Mail and Empire.) A few days ago we republished from the Sing Sing Bulletin the view of a condemned murderer on capital punishment. He said that he had talked with many other murderers and all agreed that at the moment of committing the crime none of them had thought about the penalty. He said also that if it were not for the sake of family and friends few of them would not choose electrocution to the long horror of life imprisonment. On the latter point there appears to be corroboration in the case of Irene Miley, who recently escaped from Auburn prison, she and her companion Mary Smith, being the only women ever to accomplish this difficult feat. Men have escaped on several occasions, but only one of them remains at large. The two girls were caught soon after in Syracuse, and are now once more locked up. Their adventure was sensational in the extreme, and it was only after they had got away that the fact came to light that Irene Miley a few days before had tried to commit suicide, preferring death to even the humane confinement she was subjected to.

She Preferred Death. Irene was sentenced to from five to nine years' imprisonment for embezzling the funds of a New York lawyer by whom she was employed as stenographer. She had served one year of her term when she decided to take her own life. "All the girls were receiving letters but me," she says. "They celebrated Mother's Day a week in advance by some mistake, and they talked a lot about mothers and things like that, and I got thinking of my sweetheart, who has not written since I was sent to prison. I got so blue I decided to end it all. There isn't a soul on the outside who cares what happens to me, and I've still got eight years to do. I tried to hang myself to my cell door with my hair-rope. Mary found me, though, and cut me down. It was then we decided to try to escape, for I told Mary I'd never want to serve my time out. She was afraid I would kill myself and agreed to go with me." Both the young women declared that they never would live to serve their time. They had no complaints to make about the way they were treated, except that the food was insufficient and of an inferior quality. Since her confinement the Smith girl's weight has declined from 170 pounds to 120, and the Miley girl's reduced from 115 pounds to ninety-five.

Smart Costs From Blankets. Mary Smith appears to be slightly more cheerful. There is at least one person outside who cares for her. This is the lover whom she tried to murder. She did not quite succeed, and escaped with a sentence of from five to ten years of which she has already put in two. Mary was a needle-woman, having toiled in a sweat shop, where she learned among other things, the meaning of ingenuity. It was due to her that the escape was so successful. She it was who contrived to get hold of several blankets, from which she fashioned two astonishingly stylish looking long coats which, the girls, wore over their prison clothes and also two particularly smart-looking hats or toques. One might well predict that when Mary regains her freedom she will be able to make a good living at her old trade.

Filing the Keys. How it was possible to steal these blankets is not revealed, and the girls naturally decline to tell how they got hold of the files they used. They secreted a couple of spoons, and in some mysterious manner were able to take an impression of some of the matron's keys. Having their models before them, they filed the spoons into odd looking but useful keys. Thus equipped it was a simple matter to unscrew the flimsy locks from their doors. They had to be replaced and were held in position by tacks in order that when the door was tried, an operation that was performed every hour after nine o'clock, when the prisoners were sent to bed, the turnkey would be deceived. As soon as the nine o'clock inspection had been made, Mary drew the tacks out of the door, and the lock fell to the ground with a crash, but nobody heard it, and she was then able to enter the corridor and go to Irene's cell. The weaker Irene had more difficulty in removing the tacks, and her lock, too, fell on the floor. But nobody was aroused, and then, using the keys, they unlocked the door leading to the dormitory. Outside in the corridor they were nearly spotted by a honest matron, but they hid under a table and soon found their way to the kitchen.

Scaling a Twelve-foot Wall. Here there was one unbarred window. It was a considerable distance from the ground, but the girls had provided themselves with more blankets, and tying them together, they made a rope. It proved too short, and they had to risk a fall. Nevertheless they let go, and although jarred and scratched, were able to pick themselves up and make for the twelve-foot wall. By placing a spindle against it, Mary managed to scramble to the top. She had a long, hard task pulling Irene up after her, but this was ac-

LOCAL NEWS

Rev. E. P. Wright, curate of St. Luke's church preached an eloquent sermon in St. John's Stone church yesterday morning.

The Young-Adams Stock Company having completed their engagement in this city, left last evening on the Montreal train. The company has been disbanded for the summer. There were very few other passengers on the 4:30 train for Montreal.

W. C. McKay, the popular manager of the Opera House, was recently remembered by the employees of the house on the occasion of his birthday. The employees presented to Mr. McKay a set of pipes, accompanied by wishes for a bright and prosperous future.

Morris McGuire of Scranton, Pa., was fined \$10 by Magistrate Adams in 12 Brookville court Saturday night for speeding on the Rothsay road. Joseph McGuire, a brother, lettered the court and it is understood action will be taken against him also.

By falling from his bicycle between the wheel of the school van at Rothsay Friday, Kenneth, twelve year old son of F. J. Nesbit, manager of the New Brunswick Telephone Company, had his foot badly crushed. He was taken to his home at Renforth and Dr. G. A. B. Addy was called. It was thought no bones are broken.

Pulpit exchanges were made yesterday morning in the city churches between Rev. George P. Dawson, of the Exmouth street Methodist church, and Rev. M. R. Jones, of the Zion Methodist church, and between Rev. H. A. Goodwin, of Centenary, and Rev. George Morris, of Queen Square.

W. B. Hanna, president of the Canadian National Railways Board, has informed the board of trade that increased trackage will be made at the yards here and that dockage facilities, at overhead bridge and expropriation of land at the Union depot area are being considered by the board.

In St. Philip's church the services were conducted by Mr. McIntyre, yesterday, Rev. C. N. Stewart of Amherst, being unavoidably detained and unable to come to the city in time. The latest reports of Rev. R. H. W. Pinkett are that he was able to move to a more comfortable and less painful condition suffering from a tumor of the brain and paralysis.

Mrs. A. W. Adams, regent of the St. John municipal chapter of the I. O. O. F., returned yesterday from Calgary where she had been attending the annual meeting of the national convention. Mrs. Adams has been appointed representative of the Daughters of the Empire at the meeting of their National Council of Women to be held in St. John next week.

R. E. Armstrong, president of the New Brunswick Division of the Navy League, who returned from Toronto Saturday, said that the sessions of the Dominion Council were most enthusiastic and inspiring, and the keynote of the meeting was a determination to carry on and to make the Navy League a more potent factor in Canadian affairs, despite the fact that certain provinces showed a waning interest.

Rev. Dr. Harrison, preaching last night in the Fairville Methodist church on the coming prohibition referendum delivered an impressive sermon and when at the conclusion of the service he asked all those who were willing to assist in the electioneering campaign in the cause of prohibition to remain almost the entire congregation remained. All expressed a willingness to assist in any way in the campaign which is to be organized at a meeting in Temperance hall this evening.

According to an announcement in Bathurst recently negotiations between the federal government, the Caraguet and Gulf Shore railway management and the Gloucester county business men are under way preparatory to the taking over of that railway system by the Canadian National railways. Terms and details will be announced shortly. Much improvement is needed on the railway, which is impossible for the company to provide. The line with its branches serves about 20,000 people and this announcement will be received with much favor.

The heavy rains of the last two days have been a great relief to the farmers and fire-diggers. Several dangerous wood fires in Kings county were effectively extinguished. One near Quispamis threatened to assume dangerous proportions and on Saturday had reached a point within one mile of the village. Crews of men fought it and only one building was damaged. The men of Kensington (P. E. I.) were out fighting a forest fire when a house in the village took fire. The women of the place promptly organized and extinguished the fire.

Completed and a moment later the girls were at liberty. They walked most of the night, and at dawn found themselves only four miles from the prison. Then they saw a man in a motor car, and giving him a hard luck story, induced him to drive them to Syracuse. Here also they fell with benevolent strangers, who bought them meals and gave them some loose change. But in the meantime the news of their escape had been wired to all parts of the state, and the girls, being without friends, a definite objective, and short of cash, were soon picked up by a policeman and once more placed behind the bars.

WANTS TO PASS GOOD NEWS ON

Wm. Armstrong Says It Is Wonderful the Way Tanlac Improved His Wife's Health.

"The wonderful improvement in my wife's general health is entirely due to Tanlac, and I am glad of the chance to tell folks what a splendid medicine we have proved it to be," declared William Armstrong of 88 Winter street, St. John, N. B., recently. "No one will ever know what she has suffered during the past few years on account of indigestion and gastritis. Rich or heavy foods acted like poison on her stomach, and she had to be very careful in her diet. But even so the gas would form and blast her up until she would almost choke and sometimes she would fairly groan with agony on account of the pains which she had after eating. She had frequently bilious attacks that left her so weak that she could hardly stand, and at one time she was so bad that we had to send her to the hospital. They patched her up for a bit, but it didn't long before she was just as bad as ever.

"When I saw the papers that so many people with stomach trouble were being helped by Tanlac, I got some for my wife, for I reasoned that if it didn't do her much good, it couldn't do her any harm. She often remarks now what a good thing it was she tried Tanlac, and after the way it has helped her, we have absolute faith in it. She now has a good appetite and can eat anything without fear of any stomach trouble afterwards. She is never bothered with biliousness and indeed feels better in every way. She is more grateful than I can say for all the good Tanlac has done her, and we never miss an opportunity of passing on the good news of what a splendid medicine it is."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Pearson, Highland, and by the leading druggists in every town.—(Advt.)

LOCAL NEWS

Increased facilities for trade between Canada, the mother country and sister dominions are promised in reports from the Canadian Pacific Ocean Services, the Canadian Government Merchant Marine and the Royal Mail steam Packet Company. The Canadian government line of steamships will extend a service to Cardiff, Wales and to the island of Guadeloupe, Hayti and Martinique, on the West Indies. The C. P. O. S. is at present considering the inauguration of a freight and passenger line between Canada and Italy, using St. John as the Canadian terminus in winter. The R. M. S. P. lines, as a result of the West Indian conference at Ottawa, will probably increase its service between St. John Halifax and the West Indies.

Further evidence was taken at City Hall on Saturday relative to the alleged unauthorized cutting of timber by private parties on land owned by the city. Mr. W. Wigmore, M.P., said that while commissioner of water and sewerage in 1914 he had given permission to Frank Boyle to cut only cordwood in that year, while Boyle claims that the permission given covered all the cutting he has done on city property. Boyle also made statements regarding payments made for the cutting he had done, pursuant to his agreement with the commissioner. The examination was conducted by J. B. Jones in the absence of the city solicitor, all the commissioners being present with the exception of T. H. Bullock. Commissioner Jones has engaged a timber cruiser to ascertain the amount of timber cut and to make a report on the operations of the six persons alleged to have cut illegally on the city land.

ST. JOHN MAN ON OLYMPIC TEAM

Official Announcement of the Make-up of Canadian Team Reaches City.

The official announcement of the make-up of the Olympic Trap shooting team has been received in the city. O. K. Killam of this city is high man for

O. J. KILLAM.

the Dominion, having made a score of 286 out of a possible 300. The other members of the team follow—W. Hamilton, High River, Alta.; H. J. Montgomery, Beausville, Ont.; B. McLaren, Calgary, Alta.; Sam Yancey, Tillamook, Ont.; H. Black, Winnipeg, (captain); "True" Oliver, Vancouver, B. C.; and George Beattie, Hamilton, Ont. The first man on the waiting list is James McLaughlin of Halifax, and he will make the trip in case any of the others are unable to go. The team will sail from Quebec on July 2, and will compete in the Clay Bird Shooting championships in England, July 15, 16 and 17. The team will then go to Antwerp where it will compete in the Olympic meet, which takes place July 22 to 31. Following the Olympic meet the Canadians will take part in the Belgian State Championships and will sail from Antwerp for home on August 1.

WHERE IT BEGINS

There is a certain professor of natural history who delights in propounding catch questions to his class, and one young fellow who has been caught by one, determined to get even. At the next class, therefore, he said gravely: "Professor, you have made a special study of snakes, have you not?" "Yes, I think I am fairly well informed as to that branch," the professor responded. "Then, professor, you can undoubtedly inform me on a point which, while doubtless simple, puzzles me. May I ask you a question?" The professor began to reply but "Yes," "Then, sir, what I desire to know is, where does a snake's tail begin?" the young fellow asked gravely. The professor was silent for a moment, and a titter began to run over the room, which increased to a roar as the professor replied calmly: "That is quite simple; it begins at the end of the snake which is not the head."

Moncton Man Appointed. Ottawa, June 7.—(Canadian Press)—The civil service commission announces the appointment of T. R. Wilson, Moncton, N. B., as junior radio electrician.

CHEERING REPORTS

A despatch from the International Institute of Agriculture at Rome said the 1920 wheat production in British India would be 264,900,000 bushels, or 180.1 per cent of the 1919 production and 103.4 per cent of a five year average 1914-1918. The 1920 production of corn in Argentina was estimated at 238,692,000 bushels or 115.4 per cent of the 1919

RUSSIANS IN ARMENIA

London, June 1.—Two Russian cavalry regiments crossed the Armenian frontier at Uznecala, May 21, and are advancing into Armenia, according to a despatch from Tiflis. Armenia has protested to the Soviet government at Moscow and has sent troops to the scene, the despatch adds.

19 Potatoes, \$1.50

Kingston, Ont., June 7.—Nineteen potatoes sold on the market here on Saturday for \$1.50, but they were exceptionally large and their total weight was eighteen pounds. They were of the "lost island" variety of spuds.

"Live Wires" Defeat Eagles.
 The young "Live Wires" of Main street defeated the young Eagles of Lombard street in a fast game of baseball Friday evening, by a score of 8-7. The battery for the winners was R. Cohen and W. Cohen, while Fraser and Cunningham formed the battery for the losers.
THE TURF.
 Moncton Plans.
 Everything is in readiness for the opening of the three days' racing in Moncton on July 1, 2 and 3 next. A well filled entry list is evidence that the condition book meets the requirements of the horsemen and big fields will likely be the vogue during the meeting. The course can accommodate forty-five horses at the starting gate, and very many outside horses are expected in the city shortly to enter the different events.
 There will be no death of good drivers and good horses, while some apprentice drivers may have an opportunity of showing themselves. There will be eight events, as follows: A free-for-all trot, a free-for-all pace, 2:40 trot, a 2:30 trot and pace, a 2:25 trot, a 2:22 trot and pace, a 2:19 trot and a 2:16 trot and pace. Among the fast ones now at the track are: Brage, 2:19-4; Bovius, 2:19-4; Nellie Trigantot, 2:19; Our Aubrey (by Capt. Aubrey), a green trotter of prominence, 2:18 of the Lion, (green pacer) sired by Brage, dam Semie, and Gold King, green pacer, a recent importation, owned by P. A. Bellevue of the city.
 Black Diamond, 2:18-4, a three-year-old colt by Lord Hastings, and in charge of George Hunter, promises much to the fans, as does Kinkadee, 2:16-4, and Sedie Beck, 2:22. Another horse of note which will perform on the local speedway at the opening meet here in July is Addy Chatham, a green pacer by the Earl of Chatham.
Notes of Interest.
 Jennie Hat, a former literary mare, whose breeding is questioned, has been bought by Philip Bellevue, of Moncton, for \$1000. She was bought by her former owner from a carload of horses at \$100. This spring she is showing 2:12 speed in workouts.
 Peter Farren (2:07-1/2), Singer (2:15-1/2), and other fast ones from the St. John station are expected to give their best spring exhibition of speed at the Fredrickson meet on June 30.
ATHLETIC.
 Wins Marathon.
 H. Kolehmainen, of Brooklyn, won the twenty-six mile marathon race held at Travers Island, N. Y. Saturday, in two hours, forty-seven minutes and forty-nine and two-fifths seconds.
THE RIFLE.
 Cadets Rifle Match.
 In the first rifle match of the season between St. Andrews church cadets and the High School cadets, held on Saturday, the High School first team led with a total score of 395; H. F. Conley was high man with a score of 561. St. Andrews was second with a score of 361. St. Andrews was third with a score of 351.

SCOTLAND SHAKEN BY THE PROPOSAL TO PROHIBIT LIQUOR
 Campaign is On, and With Both Sides Well Organized, the Country is Reverberating.
 Glasgow, June 4—Scotland is reverberating with the preliminary rumblings of a prohibition campaign. The temperance (Scotland) act which the British parliament passed in 1918 and which suspended for the duration of the war, became operative on June 1. Under its governing clause 19 per cent of the voters in any voting area may demand a vote next November on three points:
 1. No liquor licenses.
 2. A reduction of the present number of liquor licenses by 25 per cent.
 3. No change.
 The vote to be legal, must be participated in by at least 25 per cent of the voters in the area. A bare majority of that 25 per cent can restrict the present number of licenses. Fifty per cent can abolish all licenses in their area. The results take effect next year.
 Distilleries Safe for Now.
 The temperance act divided Scotland into 1,200 voting areas and already it is certain that in at least 600 of the 1,200, the local vote authorized by the act will be demanded. The result is that the home of the world-wide institution of Scotch-and-soda is confronted by the sacrifice of a prohibition campaign. Scots who have in Glasgow dwelt not surprised to see the stars fall out of the heavens and see the sun rise up in his grave-clothes. As for Englishmen and other pagans who live south of the Tweed they will never be able to go to St. Andrew's for their golf again—never, never, never.
 Indications are, however, that the profane hands of prohibition are not to be laid on Scotch-and-soda throughout the rest of the world. From China to Peru you may still repair to your hotel smoke-room for dinner for a "whisky and soda" for the temperance (Scotland) act refers only to retail liquor licenses. For the time being, Scotland's distillers are safe. But if the plans of the National Citizens' Council of Scotland go through, Scotland's distilleries will run for export only.
 Women's Vote to Play Large Part.
 The prospect is one which is greatly intriguing English politicians. The women's vote, which is playing a large and comparatively unanalyzed part in the by-elections in Great Britain, is the great unknown in the Scottish prohibition drive. Thus far, Lloyd George and Asquith, who are respectively heads of the coalition government and the Liberal party—respectively the "wets" and the "drys"—have flirted warily with the women's vote. And it is the universal expectation that the women of Scotland will return the answer to the prohibition question in Scotland. If Scotland goes dry in any appreciable degree, Lloyd George and Asquith may be depended upon to jump for the prohibition wagon in an effort to collar the women's vote in the next general election.
 Both Sides Well Organized.
 Thus far, the "Wet Free" branch of the Liberal party has allied itself with the prohibition propaganda in Scotland. If prohibition takes hold in Scotland, the Liberals will find themselves in a position of increased tactical strength—but in a position which will compel them to stand by their prohibition guns in the new developing prohibition fight in England. If Scotland votes itself dry over any considerable area, the liquor trade in England will be shaken to its very foundations, if it is not overwhelming defeated.
 Both sides are already organized in

BIG MATCH HERE
 Everything is in readiness for the first wrestling match which is to be held in St. Andrew's rink tomorrow night between Joe Irvine and Arthur Larnable. Both men are in the city and are in the pink of condition. There has been bad feeling between these men for some time and the match was arranged to take place. The match is being staged for the welterweight championship of Canada. General admission is 50 cents, ringside \$1.
VODKA IN RUSSIA.
 The Russian Economic Bulletin, described as the official organ of American-Russian Chamber of Commerce of March prints the following:
 It is interesting, therefore, to note the following from the official report of V. M. Mironov, of the Supreme Council of National Economy, which appeared in Ekonomicheskaya Zhizn for November, 1919:
 "The best sugar industry has furnished the initial step in the creation of the rural industries, since this particular industry has been better preserved during the transitional period of the revolution. The vodka distilling industry occupies the next place, and its development has been begun by the Supreme Council of National Economy during the last few days."
 Thus it is seen that the Soviet government has resumed the manufacture and sale of vodka as a government monopoly and that it occupies a place next in importance to the best sugar industry.
 Fourteen-year-old Jesse Winfield Chase, a boy in the eighth grade of the Haverrill schools, not only beat all the others in the food conservation class by putting up 183 cans and jars of fruits and vegetables last season, but by doing odd jobs night and day he earned all the money needed to buy the jars, the sugar, the fuel, and the food he canned.

Your co-operation in this connection will be appreciated.

LOCAL NEWS

POTATOES WILL BE HIGH Word comes from Annapolis county in Maine that potato buyers are willing to pay in advance for this year's crop at \$2.50 per bushel, which is a high price for the crop, and dealers' cost of peeling, freight and dealers' profits, and figure out what the consumer would have to pay.

No. 2 TEAM WON. The second game of a series being played between two teams from Emerson & Fisher, Ltd., was played Saturday afternoon at Finner's Park, Fairville, and resulted in a win for No. 2 team by a score of 11 to 9. The battery for the winning nine were: Wade and Rathburn, and for the losers, Davis and Stinson. H. Rathburn and J. McCormick officiated as umpires.

TRANSFERRED TO SACKVILLE. A. LeRoy C. Hastings, who was manager of the North End branch of the Provincial Bank, has been transferred to Sackville to manage the Provincial Bank there and left for his new field this morning. He had been in charge of the North End branch since it was formerly in charge of the branch in Norton, N. B.

PREPARING FOR DOG DAY. It was announced at central police station this morning that the list of the dogs in the city that are not taxed is now being prepared. There has been a large number of dogs in the city, 800 to be licensed. This announcement is to be taken as a warning and those who have not yet received licenses for their "canines" had better "Beware!" For "dog day" is coming and it is no holiday either.

SUBURBAN SERVICE. Some curious folk from along the Reach who had to drive or walk to Lingley Station this morning to catch the C. P. E. suburban were impressed by the swarm of people who alighted from that train in St. John station. That traffic was built up by a proper suburban service. Given a similar service the Long Reach in a year or two would bring a similar swarm to the Valley Railway suburban train. The Valley Railway service does not serve. Its passenger service is of no value to the people along the line. They can neither get in or out of town when they desire.

MRS. W. M. QUINN HONORED. A number of relatives and friends gathered at the home of William Quinn, Park avenue, East St. John, and tendered to Mrs. R. Bradbury a surprise party in honor of her seventy-fourth birthday. The table was prettily decorated, and a large birthday cake and basket of roses adorned the center of the table. The decoration of the table was the work of Mrs. M. M. East St. John. Although advanced in years Mrs. Bradbury is still very active. Best wishes were expressed and the party broke up about midnight.

FUNERALS. The funeral of Jas. Clement McMurray was held yesterday afternoon at 2:30 from his late residence in Main street, Fairville, to St. Rose's church, where service was conducted by Rev. Father Collins. Three brothers and three cousins of Mr. McMurray acted as pall-bearers, and the funeral was one of the largest seen in Fairville for some time. Numerous spiritual and floral offerings were received. Interment was in Holy Cross cemetery.

The funeral of Mrs. Catherine Coger was held this morning at 8:15 from her late residence, 290 Rockland street, to Holy Trinity church, where Requiem Mass was celebrated by Very Rev. J. W. Walsh, V. G. The services were borne by Mrs. Coger's relatives and friends. The funeral was very largely attended and a large number of spiritual offerings were received. The interment was in the new Catholic cemetery.

WALLACE-MAGEE. A quiet but very pretty wedding took place in St. Andrew's Presbyterian church at 9:30 this morning when Miss Annie Kathleen, daughter of Robert M. Magee, became the bride of Robert Wallace. Rev. F. S. Dowling performed the ceremony in the presence of a large number of relatives and friends. The bride, wearing a traveling suit of navy blue tricot with hat to match and carrying a shower bouquet of bride's roses and lilies-of-the-valley, was attended by Mrs. R. D. Magee, wearing a navy blue suit and carrying a beautiful basket of pink roses. The groom was supported by R. D. Magee, Lieut. Colonel Frank Magee acted as usher. Immediately after the ceremony the bride and groom left for a motor trip of about two weeks duration, after which they will take up their residence in Regina. The bride was the recipient of many beautiful gifts of linen, cut glass and silver. The out-of-town guests were principally relatives.

JENKINS AND COLGAN WINNERS. High Season Scores on Y. M. C. I. Alleys — Closed for Season. The Y. M. C. I. alleys were closed Saturday night after a most successful season, under the management of William A. Stack. The prize for the member making the highest total for three successive strings was won by Noel Jenkins, who ran up a score of 338. It was donated by H. J. Sheehan and had been up for competition since the beginning of the season. The highest individual string was made by Richard Colgan, who knocked over 145 pins. While the bowling alleys and canteen have been closed and the gymnasium work over for the season, members may take advantage of the shower baths and swimming pool during the summer months.

HON. DR. ROBERTS IS ELECTED BY ACCLAMATION

Nomination Proceedings Are Carried Out Quietly — Many Ladies' Names on Papers.

Nominations for candidates in the by-election made necessary by the death of Hon. Dr. W. F. Roberts, minister of public health, to accept the salary to which he is entitled as a minister of the Crown, closed today at 12 o'clock old time. As a result of decision of the local opposition not to oppose him, Dr. Roberts will be automatically returned by acclamation. Among the names on his nomination paper appear the following: Hon. E. Moore, H. H. Skinner, A. McMillan, George McAvity, F. A. Campbell, W. J. Mahoney, E. Clifton Brown, J. B. Dorez, F. J. G. Knowlton, L. A. Conlon, Wm. Ryan, W. P. Broderick, and Edward J. Henneberry. An interesting feature of the paper, the appearance of it of many ladies' names. The nomination proceedings were very quiet.

THE CROPS GREATLY HELPED BY THE RAIN

Lilac and Apple Blossom Time — The Ways of a Humming Bird — Quiet Along the River Yesterday.

The benediction of the rain. At Public Landing it began to fall on Saturday evening toward ten o'clock, so gently, without a breath of wind that an upturned face scarcely felt its first caress. By slow degrees the volume increased; and through the night the tiny drops rained down upon the thirsty ground, where vegetation for weeks had suffered because they had not come. In the morning the rain hung in shining crystals from the grass blades, or lay in tiny leaf cups, or dripped from the branches of the trees, while all the ploughed lands took on a dark-hued gleam. The potatoes and peas and beans held up their heads and showed a livelier green. It was not as if a great downpour had come to run quickly off. This mild, persistent, quiet rainfall was absorbed, and brought infinitely refreshing to the earth. During most of Sunday it continued, with short intervals, and a wind came out of the southeast, but there were no deluging showers. Steadily the nourishment sank into the soil, to vivify the newly planted seeds, to moisten the dry roots of grasses, to bring new growth to the pastures, and to bedrock the countryside. Mists hung all day along the tops of the hills, but no farmer or gardener, or anyone interested in production wanted to see the sun. The feeling was expressed by the farmer who said: "This rain is worth hundreds of thousands of dollars to the country."

Only one or two motor boats were seen in the Reach yesterday, and but few motor cars crossed the Landing, all with curtains closed, for the day was very cool. A good many people went up river on Saturday, but there is still no early morning train or boat to the city, and the development of the Long Reach is thus retarded.

The air at the Landing was sweet on Saturday with the scent of lilacs and apple blossoms. Curiously enough, while some apple trees are literally covered with bloom, a few others show not a single blossom. The blossoms of wild fruits are very plentiful. The blossoms of wild fruits appear to flourish without rain. The weeds were in the garden to furnish several hours' steady work, and then the job was not finished. The flies were there also as evening approached, and a farmer living back of the Landing, where there are more woods, said he had never seen the little pests so thick as they have been in the last few weeks.

A humming bird in action is an interesting sight. A crab apple tree loaded with bloom attracted one between the showers yesterday. It darted from blossom to blossom, with a control of its movements that would be the despair of an aviator. The moment it came within reach of the heart of the blossom it became stationary, except for a constant motion of its wings. The halt was but momentary, just to take one sip, and then full speed was regained in a twinkling, and so on from blossom to blossom. Quite different was the hawk, poised near the wharf and peering down into the troubled waters of the river in search of living food. Quite different also the plump little gray bird in the doorway, pecking at the earth and raising its head momentarily to dart quick glances on every side. Perhaps the still more impressive plumpness of the family rat explains the caution of the bird. And then there is the farmer's artful hen who stole away and made a nest of sixteen eggs and sat upon them. She really did very well, for now she is proudly mothering a brood of eleven chickens. Another hen, pecking with an eye on the coming exhibition in St. John, has produced two eggs that were almost as large as goose eggs. Let nobody imagine that human beings are the only objects of interest when one gets to the country.

This morning the mists still clung to the hills, and some rain had fallen in the night. Twenty-four hours had already wrought a remarkable change in the gardens. The crops are again off to a good start.

TEACHERS' CAMP. The dates of the Teachers' Camp, Rural Science School, Sussex, have been changed, commencing June 14 ending August 11, instead of from July 9 to August 5. This change is no doubt a result of the cancellation of the military camp Sussex as the camp grounds are to be used for the teachers. Grants of \$80 for a bonus of \$20 for all those who have taught nature and school gardening previous to entering summer school.

MEN SCARCER, WAGES HIGHER. It is said that as high as \$4.50 per day is asked by laborers asked to engage in road work in St. John and Kings counties. A provincial government official who was at a place in Queens county last week with some work to do could not get a man, but was told he could get one this week at \$4.50 per day.

How Cool That Reed Set Looks in Our Display Window

You'll want to see it, of course—so make it a point to swing up our way tonight or this afternoon because it won't be there for long.

Reed as a furniture making material is fastly coming to the fore and especially is the demand increasing in these warm months.

While not exclusively a warm month proposition yet it has the lightness and coolness which seem to be peculiarly summer season properties.

Note the bright and subdued colors in the cretonne upholstery, and mentally picture how that chair or rocker would look in your present living room!

We are showing a happy line of Reed Furniture at this time and know you would value an inspection of it.
