THE GREAT SHOSHONEES REMEDY THE GREAT SHOSHONEES REMEDY

Is an Indian vegetable compound, composed of the juices of a variety of remarkable medicinel plants and herbs; the various properties of these different ingredients, when combined, is so constituted as to act simultaneously upon the Blood, Laugs, Liver, Kidneys, Digestive Organs, Nervous System, &c., restoring their functions to healthy action, and, being purely vegetable, is as harmless as Nature's own beverage. This medicine is a decided benefit to all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum, Canker, Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It stands far ahead and unequalled among the hundreds of coispeting medicines of the day. It has stood the test of ten years, and is to-day more popular than ever. As a summer restorative it stands

THE ANGLIN PRINTING SCANDAL.

ence" on the part of Mr. Speaker in writing, or of some careless printer in setting from his manu-script. If Mr. Speaker did not "inadvertently"

cipal result being that neither Mr. Anglin nor Mr.

Speaker has given the Government the slightest rouble. Mr. Anglin, the great Sectarian School champion, has not once referred to the New Brunswick School Bill from his place in Parliament since he and the Government came to an understanding. Mr. Anglin, M. P. for Gloucester, has allowed rail-way engineers and contractors and superinted determined to the contractors and superinted determined. way engineers and contractors and superintendents to work out their own sweet will among his conto work out their own sweet will among his constituents. And Mr. Speaker has zealously backed up the Government through thick and thin in his Freeman newspaper, although his constituents and the whole country have been protesting against the Government's acts every hour of the day.

To the Editor of The Watchman.

From and after this date the price of THE WATCHMANWIII
Speaker when seated at this table, and the printer who sets up his interesting editorials. An old criber; \$1.50, in advance, when delivered by our city chair, for the Speaker's use, the solitary chair of

the office, is placed here. Opposite each window of the office is a printer's stand, with type cases

The Watchman.

prefer, indeed, to see no personal charges pressed against that most elevated of the Commoners of of Canada. We prefer to see the charge and the issue confined to the one direct and overwhelming line of attack: the impropriety, inconsistency and illegality of the Speaker of the House of Commons accepting an immense and immensely profitable amount of Government work at the hands of Ministers; and the improper, illegal and corrupting award of this work to the Speaker by the Government. The transaction was a joint transaction. It was a bargain to which there were two parties, namely, a Government auxious to secure the support of a Commoner and Speaker who, if hostile, might seriously embarrass the Government; and a Commoner and Speaker who desired to secure all commoner

To the Editor of The Wetchmon.

I have just returned from an inspection of the printing headquarrens of His Honor the Speaker of the Canadian House of Commons, Mr. Timothy Warren Anglin. This gentleman, as you are aware, edits and publishes a tri-weekly morning present in this City, the Ferenaus. It is circulation is quite limited. In Howell's Newspaper Geastices, it is placed at, tri-weekly of 80 of 18 st. The printing office of the paper is located on the south side of Prince William street, shout one third of the distance from King to Princess street. It is in the ware from the limited story, which is recheld by a continuous stairway, extending through the two stories and baredy wide enough to admit the person of a moder rately shout me thirty feet long by twelve to fifteen street.

**BECKINA STATESTAN I have just returned from an inspection of the there is "no wear in them;" that, while they pre-

etc. In the office, nearer the rear wall than the front, stands a Guernsey power press, worked by

front, stands a Guernsey power press, worked by hand; the laborer who turns it is paid probably \$4 a week for this and other "chores." This press is about fwenty-fivel years old, and is worth to-day probably less than \$500. There is also a hand press, worth about \$100. No other presses are to be seen. The types, presses, office furniture, etc. are probably value for \$2,000. The office expenses are in the vicinity of \$80 a week, printing paper, or ent, light, fuel, etc., all included. The rent of the premises is about \$80 a year. The only attache of the office, besides three or four printers and Mr. and in, is a young man who keeps his books, collects his accounts, prepares his police reports, etc. the office that the premises is about the premise is a point of the premise is about \$80 a year. The only attache of the office, besides three or four printers and Mr. and in, is a young man who keeps his books, collects his accounts, prepares his police reports, etc. The Freeman establishment has no job office. There is not a job printer employed on the premises.

remember that the receiver is no ordinary man. The independent Speaker of Canada's House of Commons should not be expected to be satisfied with the wages and commissions of an ordinary representative of the people! So high toned a patriot and purist, when he descends from his lofty perch, is clearly right in demanding the very highest percentage going.

superscdes all others in durability. New Cashmero: Merinos, New Damasses, Diagonais, Matelasses, 1 New Striped, Checked and Plain Cloths, especially of trayelling continuous.

These are the circumstances and considerations which should be kept in mind, leaving smaller is-THE "FREEMAN" OFFICE.

lects his accounts, prepares his police reports, etc.

The Freeman establishment has no job office. There is not a job printer employed on the premises.

There is no job type, except about enough to set a hand-bill in very poor style; and even a hand-bill in very poor style; and even a hand-bill in very poor style; and even a hand-bill printed at the Freeman office is rarely seen. No person ever thinks of taking job work to the Freeman office.

I am thus particular to describe the Freeman printing establishment because, in the controversy over the Post Office Printing Scandal, Mr. Anglin has endeavored to leave the impression that the \$8,000 a year's worth of Post Office blanks were printed in the Freeman office. Indeed, he has made the statement in the boldest manner. Within a week he has twice described' the Post Office work as "printed at the Freeman office,"—his own words. I have shown that he has neither the pressess, the type nor the hands to justify such a statement—a state of things sufficient of themselves to negative Mr. Anglin's statement thus publicly made and repeated. But in order to overwhelm Mr. Anglin with confusion I will explain exactly how and where the Post Office printing has been done.

When, at the instigation of Ministers Burpee and Smith, Postmaster General D. A. Macdonald ordered the Post Office printing has been done.

When, at the instigation of Ministers Burpee and Smith, Postmaster General D. A. Macdonald ordered the Post Office or rinting has been done.

When, at the instigation of Ministers Burpee and Smith, Postmaster General D. A. Macdonald ordered the Post Office printing for New Brunswick to be given to Speaker Anglin, the latter, knowing how impossible it was to perform the work "in the Freeman office," a reasonable of the proper of the work "in the Freeman office," a reasonable of the proper of the work "in the Freeman office," a feet of the proper of the work "in the Freeman office," a feet of the proper of the work "in the Freeman office," a feet of the proper of the wor

he had a good paying profit, too, especially as this was Government work. But Mr. Speaker Anglin's share of profits had to be provided for; so an agree-ment was made by Speaker Anglin with Mr. Chubb, ne work and to place the totals at such a figure as off. The shoe i off. The slin twenty per cent. of the gross amount. This twenty per cent, then, is the profit Mr. Speaker finds in the Post Office printing which he farms out, and there can be little doubt that the men with w country has been paying a good deal more than twenty per cent. too much for its P.O. printing under and shoe twenty per cent. too much for its P.O. printing under this arrangement. The accounts against the Government are made up by Mr. Anglin or his clerk that are made up by Mr. Chubb; the components of the pottern sole, or covering of the bottom sole, or covering of some carcless printer in setting from his manuscript. If Mr. Speaker did not "inadvertently" write what he is said to have written, to wit, that Post Office printing to the extent of \$8,000 a year, for two or three years past, was executed "at the Freeman Office;" if, indeed, he deliberately and wilfully presented this view of the case, with involving the property of the case, with interest of the delation of the details of the P. O. printing. wilfully presented this view of the case, with intent to deceive the great Reform Party and the immaculate Reform Government of Canada, then this explanation has not come too soon. We do not believe, however, in raising a host of assues wherever the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the Speaker's labors in this complete the results of the P. O. printing. not believe, however, in raising a host of issues whereon to base charges against Mr. Speaker. We prefer, indeed, to see no personal charges pressed against that most elevated of the Commoners of of Canada. We prefer to see the charge and the

port of a Commoner and Speaker who, if hostile, might seriously embarrass the Government; and a Commoner and Speaker who desired to secure all the emoluments, direct or indirect, which his influence and his office, could being be a common of the Mackenzie Government (he had received at least 88,000 some fifteen months ago, and has been doing the P. O. printing ever since and up to a few days ago) he has invested nothing in material and missing the property of the months ago. ence and his office could bring him. The results of the bargain are clear as the noon-day, the prinduties or walked the streets,—a good deal of the latter,—while his "influence" has been bringing him in his "twenty per cent." right along. Some may think this a heavy commission, but they should with each other may think this a heavy commission, but they should studies how he

The Walter State of the State o

could take hold of the outer sole and tear it off in a second, as it is only pasted on. The whole business is an outrage, and I've heard scores of purchasers complain bitterly on the subject."
