London, May 7.-A statement for the body of Marvin Winters was found The new foreign fishing vessels bill ago. It has now been found that she was about fifty yards from Stewart's house, is expected to pass the upper house of driven ashore by a cyclone on an unin-

of the Empire, at the hall of the econical society. Without any warning the building was surrounded by the guard regiment and a detachment of cavalry, and a hundred pelicemen marched into the hall where Count Heyden, a marshal of the nobility and a member of parliament for St. Petersburg, was presiding and ordered the meeting to disperse under instructions from the chief of police. Vigorous protests were made that the meeting was entirely legal, but the police were inexorable, and the members of parliament left the hall after drawing up a formal protest which was signed by 28 of the members. M. Roditcheff, a member of parliament for St. Petersburg, hurried after midnight to the hall where the constitutional democrats were holding their convention and announced to the members there assembled the action taken by the police. Seek Safety in Flight.

Odessa, May 8 .- Although the emigration of Jews to South Russia decreased during the last two months, it last session, and how they have waited city limits and would therefore be free still averaged upwards of a hundred daily from Odessa alone, and the exodus from the less populous Jewish cenlation. This is a matter to which the tres is proportionately larger in consequence of the general apprehension that the danger of the Jews is greater stitute fully a third of the half million population. The Jews believe that open conflict between parliament and the government is inevitable, and that they will be the first to suffer from the upheaval which is bound to result from such a conflict.

UP TO THE SENATE.

Ottawa, May 7 .- Although the V. W. & Y railway amendment bill passed he senate committee the Canadian Northern is putting up a fight on the third reading, which has been put over till Thursday. Senators Bostock, Riley and Macdonald strongly support the bill. The result of the lobby now going on against free trade in railways in British Columbia will soon show whether the upper chamber is immune from corporation control or is only

LAKE NAVIGATION. COLLECTION OF Marks Will Be Placed in Position to Enable Captains to Obtain Proper Bearings. Washington, D. C., May 10.-The de-parture of Commander Reginald Nich-

isen, assistant chief of the equipment bureau, the navy department, for Cleveland, Ohio, to-day, inaugurates a new work of much importance to lake navigation. For years past there have been many complaints by lake captains of erratic behavior of their compasses upon which the safety of their ships depends in thick and bad weather. Cargoes of iron ore and me tals capable of affecting the magnetic needles were undoubtedly at the bot-

tom of some of these complaints, but it was realized by navigators that natural conditions were often causing variations of the compass and that it might be possible to reduce the evils arising from such causes. Therefore, the Lake Carriers' Association and the Pittsburg Steamship combination and other influential organizations interested in lake commerce have called upon the navy department to aid them. Accordingly Commander Nicholson goes out to the lakes with the pri-Moscow, bells were rung and Te Deums | mary purpose of setting up prominent

#### SHIPBUILDING.

The construction of ocean steamships still remains largely with British shipforts of the United States to compete with Britain in the most important industry of the present day. There is not an ocean-going commercial steam stocks in the United States to-day, and there is a strong probability there will be none while the present fiscal system remains in force or until the taxpayers of the country are compelled by with respect to the advantages of the pockets and compensate builders for them. The American people are enterprising, and they are possessed of the scientific skill and mechanical ingenuity necessary to supplement their this industry, which cannot be protectthe result is that in the business in which they should be paramount they play but an insignificant part. Mr. J. J. Hill, the alleged terror of Canadian patricts, tried the experiment of placing steamers of the first class carrying the American flag upon the waters of the Pacific, with the result that, the Great Northern man announces that one such test is sufficient for him. His liners, he claims, cost 25 per cent, more may pass away speedily. than they could have been constructed for in the open market, and at that they have not given the satisfaction favor the establishment of a univerthey ought to have given considering the amount of money invested in them. Experience is of value in the designing and the operation of the great steamships of the present day.

States, British shipyards are experiencing the busiest season in their history, notwithstanding the keen combuilders have launched 52 vessels, of British Columbia university in this about 93,152 tons, a year ago.

#### THE UNIVERSITY QUESTION.

GOES TO WINNIPEG.

Miss Cameron Has Been Invited to Attend Meeting of Press Women's Club.

Miss Agnes Deans Cameron, director of the Dominion of Canada Education Association, has been invited to attend the third annual meeting of the Canadian Women's Press Club, to be held in Winnipeg on June 8th and 9th. In a communication which she has just supply for the fire on Stanley avenue received from the secretary of the club are to be investigated at a meeting of it is stated that Sunday, the 10th, will be spent sight-seeing and resting. "Monday.' the 11th." the letter adds, "a limited number of our club members will leave for Banff and intervening Western points on a pleasure jaunt to cover some two weeks. 'This holiday jaunt from Winnipeg West and return is on the invitation of the Western Canadian Immigration Association, is complimentary and absolutely free of all charges. Your name was chosen as one of the association guests, and I hope it will be agreeable to you to be in attendance on the date mentioned. I may add that some eight or ten leading American Press women will go on the Banff trip."

Miss Cameron has accepted the invitation and in addition to the holiday jaunts alluded to has in mind another pleasant excursion. After the meeting is over she intends taking a visit to the Dukhobor communities and collecting data on this remarkable people, now numbering 6,000 members, for magazine articles. Miss Cameron has previously interviewed the leader of this colony and obtained from him the longest interview that he was ever known to have granted.

(From Tuesday's Daily.) A public entertainment will be held to-morrow evening at the drill hall, at which the Imperial troops, officers and In reply the chief stated that the hose men, who are about to leave for the Old Country, will be the guests of honor. According to the arrangements pounds pressure it was in the centre of the city, not on Stanley avenue, for of the committee in charge, defined at a special meeting held at noon to-day, could have fought the fire much more the doors will be thrown open at 7.30 o'clock and the proceedings will commence fifteen minutes later.

in order to ascertain what force may be depended upon in case of an emergency with the use of the engine. During the discussion of the advisability of taking the small engine to all fires in the elevated sections, the Mayor suggested that the procuring of automobile apparatus might be an im-

provement over horses. He noticed that they were doing this in Vancouver and, in view of the fact that the machines were not "eating hay" while not in use he thought they would prove the least expensive in the long run. The idea met with general favor and Chief Watson was asked to request R. Hutchinson to submit a report upon the possibility of placing one or more of the engines now at hand in automobile form. Upon resolution it was decided that the chief should hereafter have all firemen undergo a medical examination

before being engaged. The meeting then adjourned. BOARD OF TRADE.

Vancouver Island disappear, possibly, Meeting of the Council Held Wednesday-Considerable Business Transacted.

> A meeting of the council of the board of trade was held on Wednesday with T. W. Paterson in the chair. Before proceeding with the regular business solutions of condolences were passed and will be forwarded to the vicepresident, J. A. Mara, and Mrs. Munsie. The New Westminster board of trade wrote with respect to the poor steamer service between the city and Victoria, and urged that the local board exert

its influence in securing a bi-weekly connection. This letter was acknowledge and filed, and the matter complained of will be taken up with Capt. Prof. J. C. McLennan, of the University of Toronto, having arranged to address the members of the board and all citizens interested upon the metric system on Monday, the 28th inst, an invitation will be extended to His Honor the Lieut.-Governor and to the Victoria school teachers through Sec

retary Eaton. The general public will be notified by advertisement of the eting, which will be held in the board of trade rooms. A. P. Luxton was appointed delegate to the sixth congress of Chambers of Commerce of the Empire, to be held in London, Eng., in July. Hon. J. H.

Turner and Robt. Ward were appointed earlier. The resolutions, of which notification had been received, were referred to the standing committee on trades and comnerce, to recommend what action the board should take. The reception committee will prepare in invitation to hold the next congress

in this city. Arthur Davis' amended resolution vas then adopted as follows:

in this city. Arthur Davis' amended resolution was then adopted as follows: "That a committee be formed con-sisting of members of the board of trade, whose duties shall be to collect all possible reliable information and data in connection with finance, iron and coal and other minerals, fisheries, lumber and allied industries, unde-veloped land on Vancouver Island, and all such industries by the develop-menif of which the progress of Victoria and Vancouver Island may be ad-vanced from a commercial, financial and educational point; to forward such information and data in response to to corporations or individuals who are likely to be of use in furthering such information, to keep copies of such in-formation and data on file ready for to place advertisements or notices in any newspaper, magazine or trade pa-per, such notice or davertisement to be permitted and approved by the council.  CHAPTER OF ACCIDENTS.
 Second Mate of the Beacon Rock Injured-Painter's Fall.
 A. E. Aeil, the second mate of the Beacon Rock, had a nasty tumble on Monday that fractured two of his ribs. The vessel had just arrived at Vancouver and he was pulling on a roop when he fell, striking a piece of wood with his side. He was taken to St. Paul's hospital, where it was found this side. He was found with his side. He was taken to St. Paul's hospital, where it was found with is side. He was taken to St. Paul's hospital, where it was found that two of his ribs were broken. Roy Owens, a 13-year-old boy who was injured by being throwin from a broncho in South Vancouver on Saturday night, will recover, though his side have sage that was found that was badly injured by the ktick. Otto Oppenheimer came very near losing his 'leg on a gasoline launch which was moored to the Heatley sheriff of Franklin county. Preferred Against G. W. McLean in Edmonton, Alta., May 8 .- A charge of murder has been preferred aginst George W. McLean, the companion of Mary Fortier, the young woman who was found dead near Rat Creek on lease from the hospital, had a preliminary hearing before Magistrate Wade man's death.
