BUSINESS NOTICES.

The "MIRAMICHI ADVANCE" is published at Chatham, Miramichi, N. B., every Thursday morning in time for dispatch by the earliest mails of the day.

It is sent to any address in Canada, the United States or Great Britain (Postage prepaid) by the money, in all cases, to accompany the order for the paper.

Advertising. The advertisements in this paper are placed under the following rates: \$1 per square, or inch, for first insertion. 50c for second, and 25c for each subsequent insertion.

LOCAL, COMMERCIAL AND TRADING RATES. In order to secure the advertising patronage of business men and others on the North Shore, and to give them the benefit of a large circulation in the County of Northumberland, Kent, Gloucester and Westmorland, the proprietors of this paper have arranged to publish advertisements, at a special rate, for the benefit of those who are as low as those of other weekly papers in the Province.

The "MIRAMICHI ADVANCE" having its large circulation, distributed among communities on the North Shore, and in the County of Northumberland, Kent, Gloucester and Westmorland, the proprietors of this paper have arranged to publish advertisements, at a special rate, for the benefit of those who are as low as those of other weekly papers in the Province.

Editor "Miramichi Advance," Chatham, N. B.

Miramichi Advance.

CHATHAM, THURSDAY, JULY 5, 1877.

The Gloucester Election. The corrected report of the polling in Gloucester County, on Monday, is as follows:

Table with 3 columns: Name, Votes, and Party. Includes names like Ashurst, 245, 200; Carleton, 238, 89; Truscott, 73, 104; New Brunswick, 179, 59; Pokemouche, 124, 63; Beresford, 101, 164; Shippegan, 170, 39.

Mr. Anglin's majority, 334. Our friends of the Opposition, including Hon. Mr. Mitchell, assisted Mr. Turgon against their opponent Mr. Anglin, who may congratulate himself with a majority which is large, under the circumstances.

The War. A graphic account of the crossing of the Danube by the Russian army, which subsequent events, reached us too late for this issue, but will appear next week. The fighting has been brisk during the past week, and our country readers shall have the full details in due time.

The St. John Fire. Our very full account of the St. John fire and the correctness of the Map which accompanied it, caused a very large demand for the ADVANCE of last week and soon exhausted an extra edition of five hundred copies. We have been obliged to return remittances sent for papers which we could not supply on this account. We are also obliged to the many friends who have been kind enough to commend our enterprise in connection with the Great Fire, and hope we shall always deserve the kind offices of those who esteem in no small incentive to continued exertion.

One could hardly know where to commence or where to leave off writing on the subject of the fire. No newspaper can do justice to it, and it is only such persons as Geo. Stewart, Jr. to whom we are informed, Messrs. Bedford Bros. of Toronto have entrusted the work of writing a history of the event for them—who will succeed in conveying to the public mind, in one publication, an adequate idea of the calamity. The St. John papers continue to be full of details connected with the great disaster, but as the interest in the general readers we will only give facts as go to show the course of events in the burned city.

Contributions continue to pour in from all quarters and every day develops additional evidence that they will all be done. We mention the following to show the range of contributions: Boston has sent \$10,000; St. John, \$5,000; Montreal, \$10,000; New York, \$10,000; Philadelphia, \$10,000; London, \$10,000; Paris, \$10,000; and many other cities.

Waste of Money on the Canadian Press. "The Halifax Herald says:—The difficulties with which the Mail has been struggling, and from which the Globe is no doubt not totally free, suggest to us that a critical examination of the papers of Montreal and Toronto, which are the chief journals of the Dominion, would reveal to a sensible reader a great waste of money. The fact is that there is a fearful daily waste of money in all the great papers of the Dominion, and there is not the slightest reason in the world why this should take place. A glance at the Canadian telegraphic columns of the Globe, Mail and Gazette for instance, will amply demonstrate the waste of money. The most absurd and useless articles are daily telegraphed from one end of the Dominion to the other. Little accidents, little fires, little local events, little nothing, of no consequence at all to people not directly concerned, and of very little interest to them, are telegraphed at considerable expense to thousands of miles, and printers, proofreaders, &c., are paid to set the stuff up and correct it, and readers are supposed to be thankful for it. Then, we find endless columns of extract matter on all imaginable subjects, not one line of which is at all necessary to either the paper or its readers.

Then there are endlessly long editorials on all sorts of subjects, which, if the papers were shrewder, would be disposed of in two or three "stickers" at most. All this is waste of money, and waste of matter, and the result in circulation is no greater for the waste, and would be less if the waste were stopped."

Purifying the Civil Service. Referring to the dismissal of some employees engaged on work in connection with the Parliament Buildings after the Currier election, the Journal de Quebec of which Mr. Cauchon is editor and proprietor, thus delivers itself:

Mr. Mackenzie has just given a sweep of the broom in his office, in which he has rid himself of insects which are doing mischief to the Government. Mr. Currier these faithful employees desired to strike at the Government and to upset it. What is there then astonishing if they found themselves kicked out? Decency required them at least to observe a strict neutrality. Who has ever heard of a faithful servant seeking to ruin his patron? We have but one regret to express under the circumstances, that is, that the clearing out of the Department had not been accomplished before now in a manner still more complete."

The "march of improvement" in the department of public administration referred to above might, with good effect, be extended to certain classes of meddling officials in New Brunswick.

INCREASE OF IMPORTS.

The statement of the imports of the Dominion for the last four months shows an increase of \$1,663,926 over that of the corresponding period last year.

THE PREMISES AT KINGSTON.—On the 27th ult. there was an immense demonstration at Kingston, for Mr. Mackenzie. Ten thousand people were present. He spoke two hours, refuting the charges of Dr. Tupper and Sir John A. Macdonald. The whole city was decorated, and the demonstration is said to have been the most enthusiastic ever seen there.

THE ENGLISH DOCKYARDS.—The authorities at the dockyards and arsenals are exercising greater care in permitting foreign workers to make a general inspection of works in progress. The latter are not to be allowed in any case to examine manufacturing processes or the improvements which it is intended to introduce in the gear of turret ships.

THE PATRIOT.—The Halifax Chronicle, referring to the Pastoral recently issued by Bishop Rogers addressed to members of his church in Gloucester says:—

The Roman Catholic Bishop of the diocese of Halifax, in his Pastoral letter to his flock in Gloucester, counselling them to be patient, forbearing and charitable towards each other in the contest, to vote as their consciences direct them, and to respect the right of their neighbors to do the same. His Lordship makes no reference whatever to the matter of the election, but in the course of a few weeks the springs dry, when the pastoral gentleman is obliged to seek new and more genial fields. We determine to have

having a high opinion of the influence of salt water on the body corporate. Not desiring to pickle ourselves down we would have been content with much less of the saline ingredient, but having no other means of escape we are obliged to be contented. The first thing that strikes us is the uncommon buoyancy of the water. We are suddenly taken off our feet before half the body is immersed, and nearly strangled by an incidental gulp of the horrid, grating liquid. We cannot sink; we cannot swim in our accustomed style, our limbs flying out of the water as if thrown from a good temper and easy-going boat. We can lay back as the boat of doom, from which ten million sharp points barely protrude, and roast the exposed portions of our body at leisure or glide along the surface with all the ease and facility of a duck. Swimming on the surface is not to be mentioned. We turn over with unsatisfactory results. When the body refuses to sink, keeping the face out of the water is found to be an impossible feat. Sculling about we find ourselves in the condition of a man who has been enveloped in a large mustard plaster. Every pore is the conveyance for sharp, biting twinges and, neglecting to bring towels, we are encased in a fine layer of sweat. Our hair is fringed with the same substance and glistens in the same liquid as a lady's head dress. A few more dips and we lay like lead. We are a pillar of salt. We may say here that we stopped at the first fresh water to bathe and even then our irritation continued for many days. The next time we visit Salt Lake—well, we won't swim. The complete

absence of life in any form will strike the visitor with loneliness and gloom. The water is so hot that it will be watch for the spring of gas hungry and energetic fish. There are none. The hoarse scream of the gull or sharp, piping cry of the plover would be the sweet music. The gull will not come where there is no living thing on which he can subsist. Even the goose and duck in their annual peregrinations refuse to rest on its life-strengthening waters. An old log, the trunk of a tree with its withered limbs, a mass of ice, or a piece of drift wood, or a piece of seaweed on the shore would be objects of intense relief. They would be evidence that life had at one time been in some way connected with what is now a sterile and desolate landscape. The seaweed, when we get to the shore, is found to be a piece of seaweed which has been blown ashore by a breeze as deadly as that which issues from the far famed Grotto del Cain, in Italy.

A REED OF ROCK SALT. It is evident that this Lake rests on a vast bed of rock salt. In no other way can we account for the vast quantity held in solution. The immense volume of water poured into its bosom by the melting of the snows of the winter, and the rains does not sensibly diminish its strength. In either case the liquid is evaporated to its fullest capacity and as evaporation proceeds the excess is thrown into the air, and the public meeting to consider the cause and results of the exodus.

THE "RELIGIOUS INTELLIGENCER" made its appearance last week for the first time since the fire at St. John, and is now in the hands of the public meeting to consider the cause and results of the exodus.

THE UNCHARITABLE PRESS.

One Sunday last month the Bishop of Manchester, in the course of a sermon at St. Peter's, Rochdale, referred to the "Religious Press" in not very complimentary terms. According to the Manchester Guardian he said:

If I today I were asked to pick out certain specimens of rancorous, ungenerous, suspicious, and malevolent imputation, or unkind, uncharitable misstatements of motives, I should go to one or two of our leading so-called religious newspapers, and I must earnestly ask you to beware of that spirit. You may depend upon it that the spirit of injustice, the spirit of untruthfulness, the spirit of misrepresentation, the spirit of insinuation, the spirit of jealousy are as hostile as any which St. John speaks of. I cannot give you a moment how anybody can have given way to this most despicable and unchristian spirit.

It is a rather singular fact that the papers of so-called editors who are given to prayer meeting exhortations, who take or have presumed to take a turn at preaching, and who read sermons to volunteers when they can invite them within their own doors, are the most violent and unchristian to be found in the country. The Press which ought to be in the hands of persons of very different stamp is much abused and disgraced by such as these, and it would be better if they could sustain themselves entirely by oral efforts, for then they would be obliged to confine their fulminations to such as are worthy of being open to the infliction of hearing them.

GENERAL NEWS. NEW POTATOES AND GREEN PEAS.—The Calais Times says that new potatoes and green peas raised in that vicinity are reported.

TEMPERANCE IN TORONTO.—Mr. Rine the temperance advocate states that since the arrival of Toronto over 4,000 persons have signed the pledge.

HISTORY OF ACADIA.—Mr. Hannay's book on this subject will soon be published, and will form a valuable addition to our national literature.

THE PARLAMENT.—Le Metis says it is not likely that under present circumstances, Bishop Conroy will pay his intended visit to Manitoba.

MURDEROUS ATTACK.—On the 25th ult. a young lady at Hamilton, Ont., was assaulted on the street and stabbed 15 times by a man apparently crazed.

MOSQUITOES.—Mosquitoes have entered an apparatus at London on the north side of the Thames; it is supposed they made the passage in grain vessels.

MONSIEUR STOLEN FROM THE GRAND TRUNK.—Mr. Faulkner, an official of the Grand Trunk, on the 24th ult., had \$23,000 stolen from his office in Montreal.

SALT WATER.—The Toronto Mail.—The noble Earl pointed out that the book was written to support the practice of private confession, and he urged that it ought to be condemned by all who were interested in the welfare of the Establishment.

A BAPTIST DIVINE ON THE MACDONNELL CASE.—The Rev. Dr. Cramp, a prominent Baptist of Wolfville, writes to the Messenger, as follows:—

"Mr. Macdonnell had 'doubts or difficulties' before he preached the sermon which gave so much offence. They still will exist, and will continue to exist, until the Confession, that is, he is reinstated, doubts and all. This is right. There is not a thinking man in Christendom who is not perplexed by 'doubts or difficulties' not in relation to religion only, but also to science and morals. As to creed, general admission is all that can be reasonably demanded. No man ought to be required to subscribe sentences—words."

THE PRINCE IMPERIAL.—There is a rumor arising in Bonapartist circles that the Prince Imperial is going to get married. The bride chosen for his lordship is said to be the Princess Pilar, the second daughter of Queen Isabella II. Spain, and favorite sister, so it is said, of the young King Alfonso. Miss Pilar has not a very pretty name, it must be confessed, but it is the chosen one for daily wear out of all a dozen that she possesses, beginning with Maria and ending with Saturnine. It is well that she did not choose her last one, for she would have been a very good thing if she were a little more natural to some people.

MEMORIAL LITERATURE.—Hon. Isaac Burpee, Minister of Customs for Canada, has ordered the purchase and destruction of all memorial publications, including the American Police News, National Gazette and Day's Doing.

ANOTHER GREAT FIRE.—A fire took place at Marblehead, Mass., on the morning of the 25th inst., which destroyed the Marblehead Hotel, in which it originated, the Eastern Railway Depot, and seventy-one other buildings.

HEALTH OF THE RUSSIAN TROOPS.—The British Medical Journal hears from a trust-worthy source that the Russian troops on the Danube are suffering extremely from dysentery and typhoid diseases, and that a large part of the men not in hospital are showing signs of incipient malaria.

EMIGRATION FROM CALAIS ME.—The Calais Times says:—"The emigration from Calais still continues, and is growing more serious in its aspects, in that the late arrivals are among our most intelligent and active citizens. It will soon be the case that the Calais meeting to consider the cause and results of the exodus."
