

### SERG. MAJ. PARKE WAS VERY FOND OF THE LADIES

#### Said to Have Four Wives—Provincial Authorities Requested to Get After Man Now Supposed to be on Pacific Coast.

Special to The Standard.  
Fredericton, Nov. 23.—Military officials here were advised this morning that the district pay office has stopped payment of all war gratuities and other military moneys to Sergeant Major Frank L. Parke, as a result of information which had been received by the District Paymaster from the wife whom the too much married discharged soldier has left in St. John with her three children. Arrangements are being made for an investigation into the case by the military authorities, and if the wife in St. John is able to substantiate her claims it was said this morning that all gratuities and other moneys of Parke's account would be paid to her for the support of herself and three children. The amount still due from the military department was declared today to amount to several hundred dollars.

Meanwhile, it all reports that are in circulation are to be believed, Parke has no less than four wives in various parts of the world in addition to the St. John wife, he himself told friends here that he had another wife who, he said, was living in Maine, having taken unto herself another husband. Then there is a returned soldier here who says he was a witness at a wedding in England, which Parke contracted while overseas, and the fourth appears to be that which he contracted the latter part of September with Miss Helen Stairs, daughter of Mr. and Mrs. Alfred Stairs, of Southampton, N. B. Saturday Mr. Stairs arrived in Fredericton, intent upon setting the latent machinery of the law in motion, and it is likely that the Attorney-General's department will be asked to take action to bring about a return of their daughter to their home, as well as to have Parke brought back to face trial in the courts of New Brunswick for bigamy.

### HITCHCOCK THINKS PRESIDENT WILL PIGEON-HOLE TREATY

Paris, Nov. 22.—Senator Hitchcock's statement that President Wilson would pigeon-hole the peace treaty if it is not ratified by the present Senate reservations tacked onto it has created wide interest in official circles here. This interest is accentuated because of the fact that the American Peace Conference delegation consists of a Democrat, a Republican and a soldier. There is no doubt that despite the fact that he is Wilson's appointee, the delegation, has a very high regard for the views of the Senate, especially as it now comprises, probably in looking at the situation, various treaties which were included in the Senate.

### Object to Reservations.

There are strong objections being expressed here to the Senate proposal that three Powers should accept the reservations, and also there is much feeling against the proposal that the Reparations Commission should report directly to the Senate.

Now that the Allies realize that the United States is going to take her own time in ratifying the treaty, there is a move on foot to hasten the promulgation of the peace decree and to get the various commissions to functioning with as little delay as possible.

The refusal of the United States Senate to approve Article X of the treaty was a great shock to the new nations of Europe. A prominent Pole told the American delegates today that it would have been better for Poland, Czechoslovakia, Yugoslavia and other small nations of Europe if the United States had not entered the war.

No one pretends that these new and small nations are strong enough to stand alone without support or to prevent themselves becoming the pawns of Great Britain or Germany, he said, laying particular stress on the German danger.

This relates to commerce now and may well include territorial requirements. These nations were created because of the assumption that there would be a strong League of Nations

### VAUDEVILLE AND RELIGION MIXTURE DIDN'T PLEASE

#### Religion Sandwiched in Between Motion Pictures Didn't Command Respect of Soldiers in Camp.

Detroit, Mich., Nov. 21.—"Vaudeville religion"—religion sandwiched in between motion pictures or other entertainments—did not command the respect of American soldiers in camp at home or abroad, a special commission of the Young Men's Christian Association, investigating relations between the churches and associations, reported to the Fortieth International Convention today.

Wherever the Association acted openly and unobtrusively in its work on the principle that its supreme aim was building up the Kingdom of Christ among men, it met with complete success, the report said. The commission recommended a closer co-operation between Evangelical churches and the Association. A plan for pensioning retired secretaries of the Association was presented for consideration today. It provides for retirement on half salary at the age of sixty or at the completion of thirty-three years' service. Smaller amounts would be provided for secretaries retiring after lesser periods of service.

### PROMINENT MEN ATTEND FUNERAL OF F. W. SUMNER

#### Streets of Moncton, Along the Route of Funeral Procession, Lined With Citizens, and This Mark of Esteem Was the Greatest Ever Paid a Resident of the City.

Moncton, N. B., Nov. 23.—Representative men of the province and thousands of citizens of Moncton representing every walk of life, paid a last tribute to the late Agent General, F. W. Sumner, whose funeral was held this afternoon from his residence in this city. The streets of the city along the route of the funeral procession were lined with citizens, and the mark of esteem was the greatest ever paid to the memory of a citizen of Moncton. Services at the home and grave were conducted by Rev. Dr. Bowley Green, pastor of the First Baptist church. Prominent among those present from outside the city were the Lieut. Governor Josiah Wood, Sackville; Attorney-General O. T. Daniels, Halifax; H. J. Logan, Amherst; R. S. Barker, Fredericton, representing the government of New Brunswick; and M. E. Agar, St. John.

To insure their independence. Of course, the League of Nations will come into being, even if the United States stays out of it, but with the United States not a member of the league, there will not be in it a single big, strong Power who is totally disinterested.

"These small nations now are fighting for existence against radicalism, and in a few years they will be fighting for existence against the encroachments of the big Powers. That will come when their prosperity is apparent."

Germany Will Miss America. Another interesting phase of the question is in connection with the attitude of Germany on the carrying out of the peace terms if America is not with the Allies. The absence of the United States from the Powers which would be in charge of the enforcement of the treaty terms would not affect the legality of the treaty, since it has been ratified by Great Britain, France and Italy. However, the Germans would be irritated, to say the least, if the United States was not on hand to take part in the treaty enforcement, as the Germans expect to get more liberal treatment in the matter of reparations if the United States is represented on that commission.

Another question brought up by the possibility of President Wilson pigeon-holing the treaty is whether American troops will remain on the Rhine. It is reported here that the American peace delegates believe that these troops will be withdrawn, but the armistice will continue in effect between the United States and Germany until there is some kind of a treaty ratified by them.

### Will Make Survey Of The Province

#### National Committee for Mental Hygiene Will Make Survey to Determine Standard in New Brunswick — The Work Explained.

Dr. G. M. Hincks, secretary of the Canadian National Committee for Mental Hygiene, arrived in the city, Saturday.

Dr. Hincks stated that the National Committee, at the invitation of Hon. Dr. F. Roby, Minister of Health, would make a survey of the Province to determine the standard of mental hygiene. Preliminary work was being done Saturday, and Dr. Hincks returned to Toronto in the evening.

In explaining the work of the National Committee, Dr. Hincks said it consisted of 130 members, representing the various provinces of the Dominion, and that Dr. Roberts is one of the executive. Medical, business and other lines of activity are included in the calling of the members.

The committee was established in April, 1918, and operates through a fund of \$60,000 contributed through a private subscription, and a grant of \$10,000 per year from the Federal Government. The several states of life towards which the committee's function are directed, include: The Army, from which 5,000 men returned suffering from mental and nervous disorders, and for whom there had been no adequate provision. Scientific treatment of these cases, as opposed to mere custodial boarding, had achieved remarkable results.

Immigration is the next important consideration. Investigation has disclosed that 60 per cent of the feeble-minded in Canada came from outside, hence there has been determined a feeling that Canada has been used as a dumping ground.

The feeble-minded and the insane are the next important consideration. The national committee not only conducts a public campaign with a view to educating, but also carries out private subscription, and a grant of the Federal authorities, together with recommendations whereby conditions would be improved.

Special results were achieved in regard to the military situation, after the committee was requested by the C. A. M. C. and the Soldiers' Re-establishment Board to co-operate in the care and treatment of soldier patients. Military hospitals were inspected and thirty-four military nurses were given special training by the mental hygiene committee.

Factors presented to the Government resulted in new laws being passed at the last session of Parliament and the committee has been asked to provide a course of training for officials at the ports of entry so that the unfit may be screened out from among the foreigners coming to our shores.

Manitoba and British Columbia, as a result of surveys conducted by the committee, has already commenced erection of schools and psychopathic

### COMPROMISE FIGHT HOUR EIGHT HOUR

Committee of International Labor

Make its Report Today

Recommended With Pensions Effect Status.

Washington, D. C., Nov. 21.—The Canadian Press staff correspondent.—After two weeks of constant after many caucuses and change the Eight Hour Day, the committee of the International Labor Commission expects to publish its report tomorrow. An forecasted (unless it should be further changed in the terms), the committee will recommend the compromise proposal of an Eight Hour Day and a Forty-Eight Hour week, with the proviso that the Eight Hour Day may become a nine hour day where "by law, custom or agreement between employer and workers' organizations, the hours of work are or more days of the week are less than eight."

This provision has particular reference to countries where the half Saturday is in force. A further clause which has been added, provides that exceptional cases agreements between workers and employers' organizations may extend the daily limit of work hours, but the average number of hours worked, over the number weeks covered by an arrangement must not exceed forty-eight.

Overtime will be authorized in certain exceptional cases. Regular hours of overtime pay is not to be more than a quarter.

An awkward problem before the committee is how to deal with the rate of overtime pay in those cases where the rate of overtime pay is not to be more than a quarter.

committees has been that of tropical countries and countries where industries are in an undeveloped state. Such countries, under the Peace Treaty, are entitled to special consideration, and their governments have objected to being brought under the Eight Hour Day. In the case of Japan, the fight for special treatment led to a battle among the Japanese delegates themselves, with China an interested on-looker. Caught in the swirl of Western ideas, Japanese workers made a bid for the eight hour day. Japanese employers stood out for an eleven hour day. The Japanese government vainly tried to meet the two. There is now a likelihood, it is stated tonight, that the Japanese may come to an agreement among themselves on the basis of a compromise suggested by Mr. Barnes, government delegate from Great Britain. Under this arrangement Japanese workers would have a nine hour day with an hour a day overtime permitted during the next five years. This arrangement would apply to industrial establishments generally. In the case of the silk trade, however, a ten hour day would be permitted. China (which has sent none but government delegates to the conference) is asking to be exempted altogether from restrictions on hours of labor. To this Japan has objected. Workers in India receive a concession of two hours a day. The committee had their case under consideration this afternoon.

So far the mill has escaped but the hauling out plant was destroyed. The people in the houses nearby are removing furniture and other household goods fearing that the fire may eventually reach them if the wind should turn in the direction of their homes. The appellants' action was for damages by not being permitted to play out their season's games and charging a conspiracy to secure their players. The courts below held that the action could not succeed and this appeal was dismissed on conclusion of argument for the appellants.

# The St. John Standard

## ST. JOHN AND HALIFAX.

The Times asks: Will the Standard tell us why the Government should have larger plans for the port of Halifax than for a port with more lines of railway and much nearer the heart of the country? The Standard is not aware that it has larger plans for Halifax, though that is not impossible, because Halifax has a much larger harbor than St. John. The Times published the other day an article, credited to the Halifax Chronicle, describing the Government's plans for the development of ocean terminals at Halifax, and it wished to convey the impression to its readers that the Government is committed to carrying out those plans in their entirety right away. The article which the Times credits to the Chronicle appeared in the St. John Standard on the last day of May of this year, and was later reproduced in Modern Transport of London, Eng. It was largely based on an advertising pamphlet prepared by the Board of Trade of Halifax a year or two ago.

Some time before the war the Government had plans prepared for the construction of ocean terminals at Pleasant Point, Halifax, about the same time, or sooner, it also had plans prepared for the development of Courtenay Bay, and the utilization of the available wharves at West St. John. These plans provided for approximately equal accommodation at both ports. Halifax would have had a superiority in one respect; it would have had better accommodation for the largest class of trans-Atlantic passenger liner. The Government considered the possibility of making Halifax a port of call for the big New York liners. Whether it was justified in doing so remains to be seen; at any rate St. John has never been seriously worried by Halifax's ambition to be a passenger port. If the Government was at fault in proposing to assist in the realization of that ambition, the responsibility must to some extent lie with Halifax's geographical location. The head of the Borden Government may be supposed to have very kindly personal feelings towards his home town, but though it may be true, as the Times has sometimes pretended, that a certain St. John politician now in dignified retirement put Courtenay Bay on the map, we are not aware that Premier Borden ever claimed that he put Halifax on the particular portion of the map it happens to occupy.

At present there appears to be a serious question whether the Government will proceed with the further development of the plans for new piers at Pleasant Point, Halifax. The location is exposed to southerly gales; the harbor swell sets up an undertow, and presents a problem that the engineers did not foresee. Big ship captains object to using the berths, and more than once have waited many hours before venturing to dock there. Possibly a breakwater may be constructed that the present difficulty may be overcome. On the cargo side the new terminals at Halifax would always be inferior to the dock system of St. John. Here it is possible to find yard room for cars within a short distance of the docks; at Halifax the available yards are miles away from the site of the new terminals.

## PULP AND PAPER.

Representative Reavis told the U. S. Congress recently that destruction threatens the small mills and works because of their inability to obtain newsprint, and he added that paper manufacturers were giving the big city dailies the preference on orders. Whereupon a New York newspaper publisher wrote to the "Fourth Estate" that he was forced to omit forty columns of advertising (a loss of \$5,000) from one issue of his paper because he could not buy enough newsprint. The Chicago Tribune says that the normal demand for paper is now 25 per cent. greater than the supply, and it has started a movement for restricting the size of papers and conserving advertising space until manufacture overtakes the demand. Newsprint has increased about 300 p. c. in price in the United States in recent years.

In the circumstances New Brunswick ought to advertise a policy broadly envisaging the development of pulp and paper-making enterprises in the Province, but the logic of the situation is so strongly in her favor at present that there is probably no need of any unneighborly attitude. There are two Maine companies which are permitted to export pulpwood from the Crown lands of this Province, the privilege being accorded by permission of the Legislature for reasons that appealed strongly to the great majority of the members. One company which has timber leases on the Salmon River is cutting pulp wood, along with lumber, for export, but it obtains pulpwood from burnt over lands, utilizing timber that would otherwise go to waste. There are other conceivable cases where the application of a hard and fast embargo on the export of

pulpwood would be unneighborly without being any advantage to the Province; but as a general rule the principle of an embargo should be the governing idea of provincial policy, and such exceptions as may be granted should be recognized as a privilege, subject to revocation whenever the special circumstances that may have justified them undergo a change.

## OUT OF JOINT.

The Times says The Standard appears to have been converted to the Commission idea. The Standard is mainly concerned to correct the impression The Times is trying to create that somehow the port of St. John has lost its strategic position and is doomed to be sidetracked by the Laurier ocean terminals on the Pettedoic perhaps. Possibly if St. John harbor had not been placed in the control of the Commission which The Times helped to foist upon the city that split journal might not now be so pessimistic. The way Commission has justified the expectation of this intelligent journal and disappointed the hopes of The Times ought to make us wary of the commission idea.

However, The Standard is not interested in creating a misleading impression of the harbor commission idea, as The Times—perhaps ignorantly—is doing. Why did The Times give its editorial blessing on Saturday to the letter of a correspondent who asserted that the Government would not guarantee the bonds of the harbor commission? The Act providing for a Harbor Commission for St. John is modelled on, if not an exact replica of, the Montreal Harbor Commission Act. The latter was the handiwork of the Laurier Government, and The Times at one time was firmly of the opinion that any act of the Laurier Government was above criticism. The Montreal Harbor Commission has borrowed much money at low rates of interest because its bonds had the guarantee of the Government; and if we are not mistaken the Government on some occasions was obliged to meet certain interest charges. When a government delegates certain powers to a public body of its own creation it does not thereby divest itself of responsibility for the acts of that body; the authorization to issue bonds constitutes a guarantee of the bonds.

## RUBBING IT IN.

It is a sorry reflection that the distinguished soldier who attained the position of commanding officer of New Brunswick's famous battalion by promotion on the field should have since his return to this city amid the loud acclamations of the citizens been unable to find a position. The fact that he appears to have been promised a military appointment here makes the thing all the worse. A military position in New Brunswick for which he has eminent qualifications has been given to an Ontario man, and the reply of the Military authorities to the protest of St. John Veterans has been that the Ontario officer is senior to the ex-Commander of the Fighting 26th. If the great bulk of the soldiers who enlisted from New Brunswick had not been drafted into the battalions of other provinces, this province might have had a fair quota of senior officers. Toronto and Montreal and other cities are full of colonels, some of whom did not join up till the war was high half over, and generals who held down the dangerous sector around Argyle House. If New Brunswick officers had insisted during the war that they be guaranteed their rights of promotion by seniority, there might be some justification for bringing an outsider to fill a post here which the ex-Commander of New Brunswick's lone battalion is well fitted to fill. It will be a disgrace to this province if in the circumstances the officer who represented New Brunswick at the front as commander of its only battalion has to go elsewhere to find a position enabling him to support his family.

After all the worst knoekers are those who have lost faith in the strategic position of St. John, the importance of which was so greatly accentuated by the discovery of Courtenay Bay.

Hon. Mr. Crerar has been saying that Ontario has been ruined by protection. As that Province subscribed \$354,000,000 to the recent Victory Loan, or more than half the total for all Canada, it is doing very well for a land of ruin.

Trade follows the missionary. Since "Pussyfoot" Johnson went on his mission to benighted Britain, the Americans have been sending booze by the shipload there.

Many Canadian soldiers who asked to be released in the Old Country, thinking to get a job there, are now stranded, and anxious to get back here.

## WHAT THEY SAY

Not Worth It. (Tacoma Ledger). There is a political party in Germany working for the elevation of the former Crown Prince to the German throne. To the ordinary observer he would hardly seem to be worth half a crown.

Employ Force. (Louisville Courier-Journal). Until the "original syndicalism" of the I.W.W. is met with convincing force the criminal acts and conspiracies which covered a long period before the war will continue.

Stretches Leg. (Montgomery Advertiser). Consider the lot of your Uncle Sam, how it stretches and aches. Every station in the world wants to borrow some of his money—much of it as he will agree to lend.

Lost in Shuffle. (Frankfort State Journal). We do not recall having seen much about the "Plumb plan" of running the railroads lately. In fact it seems to have dropped "dum" out of sight.

Score Incomplete. (Macon News). The fact that the degenerate who betrayed Edith Cavell to the Germans and thus brought about her execution has in turn been put to death in France for his odious crime, will leave the score incomplete until such a time as a court martial assembles and passes judgment upon the shambles of Germans who made a shambles of Belgium in the early days of the war. The world is not large enough for such vermin.

## A BIT OF VERSE

SEA FOAM. (Blanche Elizabeth Wade, in New Evening Post). There was an old man with a raft, Who remarked, "Though my friends think me daff, I would cross the great sea, But I can not, ah me! For I don't know the fore from the aft!"

And a second old man with a scow, Said, "I wish I could really tell how I would cross the great sea, Of the too-restless ocean, I would cross were it not for that How!"

There was likewise a man who said, "Who can I get across in my canoe? I would willingly go With a comrade or so, But the question that puzzles us, Who?"

Said another man with a yacht, "I am sorry I can not tell what I should do in a gale, If I met a huge whale, I'll stay home since don't like that What!"

There was also a man who said, "If one could go out to see in a skiff, I know they are, Why should a man not go, And I'd go were it not for that It!"

And another old man with a punt Said, "You know it is really no stunt To cross over the deep, If a close watch you keep; And some day I will go or I won't."

## A BIT OF FUN

By Way of Remembrance. (Grogan-O'Connell). Mrs. Casey, but your husband owed me ten dollars when he died. The Widow—Indeed! Sure it's nice for ye to have something to remember him by.

It All Depended. (Prospect). "Is the place within walking distance of the railway station?" "I dunno," answered the house agent cautiously. "How far can you walk?"

Real Courage. "I often think," said the modern girl, "that women are more courageous than men." "I know they are," replied the male companion, "where is the man who would have the courage to pull out a mirror and do himself up in a crowd of restaurants?"

Sorry, Nevertheless. (Edith). "Talking about a man who has been killed," said Mrs. Casey, "and did he seem to be sorry when you said I was married?" "Ethel—Yes, he said he was very sorry; although he didn't know the man personally."—London Answers.

That Went Double. His gay young wife showed him the pictured advertisement of a very short and very skimpy bathing suit. "You might let me have the money, John," she said. "I can't consistently, my dear," said he. "Why not?" "I'm a man of modest means."—Boston Transcript.

Not Particular. "Doctor, how can I ever repay you for your kindness to me?" "Doesn't matter, old man. Cheque, money order, or cash."

Discriminating. Artist—Yes, I had a narrow squeak when I was painting that picture of the Sphinx. An Arab came up behind me and nearly stabbed me in the back. Friend—What! Are there art

Moose Jaw, Sask., Nov. 21.—Although the vote was not unanimous the Moose Jaw branch of the G. W. V. A. has passed a resolution calling upon the provincial command to take a referendum among the various branches, sounding out the feeling of the members on taking political action. The resolution followed a discussion of several hours, in which lack of sympathy towards returned soldiers by the federal government was charged. The preamble of the resolution to the provincial command also contained this charge.

Spent Most of Her Time In Bed

J.V. Redquist Praises Tanlac For Restoring Wife to Perfect Health

"My wife had suffered with stomach trouble for eight years before she began taking Tanlac. But I believe she is in as good health now as she ever was in her life," said John V. Redquist, who resides at 52 Grand Lake Road, Sydney, Nova Scotia, while in Toronto's drug store recently. Continuing, he said: "Everything she ate would sour and ferment and cause gas that made her miserable and would press against her heart so she could hardly breathe and she would have sharp pains in the region of her heart. She would get very dizzy at times, and I have often seen her have to hold on to something when she went to get up out of a chair. She had severe headaches, too, that would keep her in bed for several days at a time. Her appetite was poor and she would very often only drink a cup of tea for her breakfast. She never slept well at night and complained of a 'fired' stomach feeling all the time. Toward the last she spent most of the time in bed, and I really began to think she would have to give up entirely, as she continued feeling all the time. "She had tried lots of different sorts of medicines, but none of them did any good. Well, one day I saw a statement about Tanlac in a newspaper, and went right into town and got her a bottle, and I guess she has to give me the credit, for I sure found the right medicine this time. Tanlac began at once to relieve her of her troubles, and she now has a good appetite and can eat anything she wants, and everything agrees with her perfectly. She is now enjoying the best of health, and it gives me great pleasure to speak a good word for Tanlac. "Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Adv.

OBITUARY

Edwin J. Peters.  
The death of Edwin James Peters occurred early yesterday morning at his home in Kings county, after a lingering illness. Deceased was 78 years of age and was the son of the late James and Eliza Peters, both of Loyalist descent, and he is survived by his wife, Eliza, who is a daughter of the late Isaac Raymond, one son, Charles R. and one daughter, Annie at home; also two brothers, Samuel J., of Los Angeles, California, and William, of Florenceville, N. B. The death of Mr. Peters will be heard with the deepest regret, not only by the community in which he was an influential member, but by a large number of relatives and friends throughout the province. He was a prosperous farmer and had also been engaged in the lumbering business. The funeral will be held tomorrow afternoon at three o'clock from Trinity church, Kingsport, of which church he had been a life long member.

Louis Comeau.  
The death of Louis Comeau, a well known resident of this city, occurred at Shediac Saturday morning after a brief illness of pleuro-pneumonia. Mr. Comeau was a popular citizen of St. John and for a number of years was in business here. He was formerly connected with the firm of Mc-

Intyre & Comeau, and afterwards started the firm of Comeau & Sheehan with Humphrey Sheehan. Recently he established the Shediac Beverage Company at Shediac, of which he was the proprietor. A few days ago he caught a chill while driving and pneumonia followed with fatal results. Deceased was forty-eight years of age and is survived by his wife and three sons and three daughters, all of this city, also four brothers, Samuel, Corina, Rex and Jermaine; Misses Corina, Rex and Jermaine; returned from overseas service; Gerard, Louis, Dr. F. X. Comeau of Caraquet and Thomas of Moncton are brothers, and there are two other brothers in the United States. Mrs. E. LaPlante of Tracadie is a sister. Lecture Delivered By Rev. Geo. Daly

Large Audience in Y.M.C.I. Hall Last Evening Delighted With Able Address on "Public Opinion and the Catholic Church."

Before a very large audience which filled the hall at the Y.M.C.I. last evening, Rev. George Daly, C. S. R., delivered a most eloquent and well arranged lecture on "Public Opinion and the Catholic Church."

The talented lecturer was introduced by E. P. O'Toole, who announced that this was the first of a series of lectures by clever speakers, which will be held throughout the winter, and marks the opening of the season at the Y.M.C.I.

Rev. Daly began by saying that numerous and strong are the influences at play in human life, and re-acting on the free will of man they are ever at work, moulding his character and shaping his destiny, and rounding influences, for good or bad, are to a great extent the determining factors of our moral life, and of all the influences underlying human activities in the moral, social and political world, one of the most effective and most universal is, nowadays, public opinion.

This was illustrated by the fact that credit, in the financial world, is but another name for public opinion, and the part played by public opinion in Germany and in the settlement of the recent strikes was shown. It was the tremendous force which created that dawning army of inexhaustible reserves upon which the Allies relied until their final victory.

The art and artfulness of the advertiser was given as an illustration of direct public opinion. Father Daly went on to say, "The teacher's desk, the writer's pulpit, the editor's podium—these are places of leadership, the throne of real power."

Referring to the school question, the lecturer said that "the school is the fountain head of the stream. If the fountain head is poisoned, should we be astonished to see that the stream is polluted and its waters contaminated. The church everywhere and always will stand for religion, in education as the basis of private life, and public thought and action that at the recent conference held in Winnipeg religion in the schools was the burning question."

Going back to the antagonism which he claimed existed between public opinion and the Catholic Church the speaker pointed out that it was caused by distorted vision born of misrepresentation of doctrine and

Children's Coughs Quickly Cured

It is very hard to keep the children from taking cold. They will run out of doors not properly wrapped—play too hard and become overheated—get their feet wet—kick the bed clothes off at night.

There is nothing so good for children's coughs, colds, croup, whooping cough or bronchitis as Dr. Wood's Norway Pine Syrup. It is so pleasant to the taste the youngsters take it without any fuss, and at the same time its promptness and effectiveness in loosening the phlegm, and healing the lungs and bronchial tubes and such that the cough is checked before any serious trouble can possibly develop.

Mrs. Harold Acker, Lake Pleasant, N. B., writes: "I have three children, the eldest eight years and the baby ten months old. They all had a bad cough. I knew of quite a few persons who had used Dr. Wood's Norway Pine Syrup with good results, so I got three bottles. I am glad I did so, as it is a sure cure for coughs and colds. A home where there are children should never be without it. I highly recommend it to those who need a quick cure."

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms, I had an attack of grippe which lasted all winter and left me in a weakened condition. GOOD YEAR MADE IN CANADA

EXTRA POWER BELTING

You can find no safer guide in selecting your belting equipment than the experience of others.

In over one thousand of Canada's plants Good-year Extra Power Belting is being used with marked success. Scores of these have written us telling of their experience with Extra Power Belting.

Read this letter from The Dominion Steel Products Co., Limited, of Brantford, a concern noted for its progressive methods. It tells of a belting experience which must impress you.

Price was a minor factor with Dominion Steel Products, but on this alone they made a saving of \$4,000.

Length of service, general efficiency, continuous operation and power saving were the determining factors in their decision to use only Extra Power Belting in their plant.

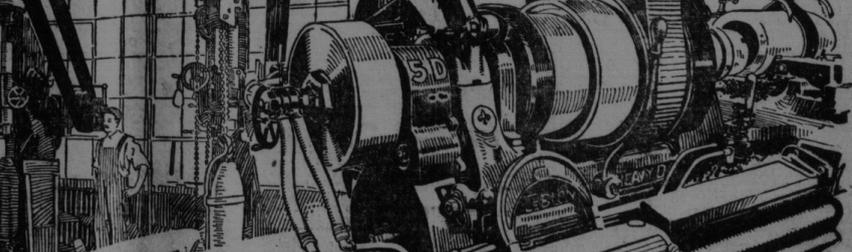

It may be that your plant is much smaller; that your saving would only be \$400, but even this plus the greater efficiency of Extra Power Belting is too important for you to disregard.

You can easily prove to your own satisfaction that Extra Power would serve you as faithfully as it has the Dominion Steel Products Co.

Phone, wire or write our nearest branch, so that a man carefully trained in belting problems by Goodyear may call on you and present further evidence of the superiority of Extra Power Belting. No obligation other than fair investigation.

THE DOMINION STEEL PRODUCTS COMPANY, LTD. ENGINEERS AND MANUFACTURERS BRANTFORD, CANADA. October 19th, 1919. Gentlemen: Our experience with your extra power belting has been so extremely satisfactory that we feel sure you will wish to hear about it. When we opened our steel plant in 1917, the question of belting was an important one. We had to have reliable belts. We tested every kind of belt offered us. We tested the extra power belt as superior to the others that time. We specified it exclusively. Now, several years in the future, we will see a section in Extra Power. So far we have purchased over 10,000 feet of your extra power belting. We figure that the next best belt would have cost us close to \$4000 more in the first place - and would not have given us such good service. Best of the Extra Power belts in our plant have been in use for over two years. In fact practically all original belts have been Extra Power belts. We are still using such severe drives as we had on our 20 shafts. You can gather from this just what we think of your extra power belting. Yours very truly, J. H. L. Superintendent.

## Referendum On Horse Racing

Toronto, Nov. 22.—It is stated on reliable authority that Mr. Rowell will at the next sitting of Parliament at Ottawa on or about February 1, introduce a bill on horse racing. By that time the report of the commissioner, Dr. Rutherford, who has just finished investigating racing all over Canada, will be thoroughly digested. The idea is to have a referendum in each province as to whether that province wants racing with betting or not. There is no law of objection to racing as such, but without betting it is impossible to conduct racing. In view of the recent vote in Ontario favoring prohibition and as the same elements are opposed to racing and betting, the outlook in this province is not rosy.

## TOO BUSY TO FIGHT SAYS THE EX-CHAMP

Lawrence, Kansas, Nov. 22.—Arriving here today from his farm in Shawnee County, Jess Willard denied he had wired or written to Tex Rickard about re-entering the fighting game. He said he wanted to see Rickard about oil and moving picture interests which they had in common, and expected him to come West in December. "I am too busy to fight," was the only answer Willard would make to a direct question whether he planned to enter the ring again.

## Varsity Wins Rugby Title

Defeated McGill by Good Majority Saturday — Game Ends the Big College Football Season.

Toronto, Ont., Nov. 23.—For three-quarters of Saturday's intercollegiate intermediate Rugby game here the McGill University team gave the University of Toronto a good battle, but they faded on the end, and the local, coming fast, lengthened their lead and won the championship by 33 to 25. The Blue and White demonstrated beyond any doubt that they are the better team. They won the first game in Montreal by 19 to 14, and repeated here on Saturday by 19 to 11. They were superior on the attack, and their defence found little trouble in stopping the trick plays of the Red and White.

## Four Clubs For Pro Hockey League

Montreal, Ottawa, Toronto and Quebec Are Signed up for the Big Canadian League — No Schedule Yet Drawn.

Montreal, Que., Nov. 23.—Four clubs will operate this winter in the National Professional Hockey League. This was assured at the first executive meeting of the professional executive here on Saturday. The season's schedule will comprise Canadian teams representing Montreal, Ottawa, Toronto and Quebec. A new franchise was granted to the Quebec club which will be looked after by Mike Quinn, former manager of the club prior to the suspension of hockey during the war. The old Quebec character which was sold to Percy Quinn of Toronto, who refused to operate it last season, was cancelled. Applications for second teams from Montreal and Toronto were tabled as the scarcity of professional players makes it difficult to pass them for the moment.

Games will be played on Wednesday and Saturday nights. Montreal and Toronto clubs will have eight Saturday night fixtures at home and four Wednesday night fixtures. Ottawa and Quebec clubs will have four Saturday night fixtures at home and eight Wednesday nights. The agreement with the Pacific Coast League in which there are three years yet to run, was not changed. The games will be played under the same rules as a year ago.

## ALONG THE SPORT TRAIL

These football games are hard to pick. For either someone blocks a kick or fumbles on the 10-yard line and soon the Old Dogs on the spine.

And as for Form—alas—alas—Each week it gives a awful crack. Baseball's uncertainty—golfe's curse. But football's getting even worse. Granland Rice.

Jim Thorpe, Gus Ziegler, and many other professionals playing football out in the Middle West, are over 30 years of age. Thorpe, though 33 years old, seems to be the same old star of old. He is still booting the ball 60 yards in punts.

Fogg thinks that the football term "gridiron" is a misnomer. A gridiron, he says, is a stand for the cooking of meat; a football enclosure is merely a place where the slaughtering is done.

Among the checker players of Boston and New England there is a great deal of sentiment just now in favor of a big American checker tournament to be held in 1920 and that a team should be picked to meet a British team in a great international match in 1921.

With the drafting of minor leaguers by the majors now a thing of the past, many bush league owners are still holding to their promising players in the hope of getting a fancy price for them from the big club.

Pat Moran believes in keeping on the jump. The veteran manager of the Cincinnati world's champions has his plans all laid for the 1920 season.

Despite the unpleasantness encountered last season on the training trip, Moran and President Herrmann have decided to visit Waxahatchie, Tex., as a training base again.

Wood read an article in the paper of interest as it related to the organization of the society. A duet by Mrs. C. T. Steeves and Mrs. C. A. Peck was enjoyed, also a solo by Mrs. C. A. Peck. Refreshments were served at the close.

Mrs. Dr. J. A. McKenna of Boston, Mass., was the guest of relatives here last week.

## Harvard Smothers Ancient Rival

Yale is Defeated 10 to 3 in the Annual Gridiron Classic — Braden Scores Remarkable Goal.

Cambridge, Mass., Nov. 23.—Harvard undergraduates, back from the war, today scored in the sports of peace time a football victory over Yale, their ancient rivals. Playing before 50,000 spectators in the Stadium, which was crowded as never before, the crimson eleven triumphed 10 to 3. The game, marked by several striking plays, was the climax of the football season at Harvard, and the new coaching regime of Robert T. Fisher. It was the first time in twenty years that a Yale team had gone down to defeat in its two big games with Princeton and Harvard.

In a season of advanced development of the forward pass and the field goal as weapons of football attack, today's game stands out with notable instances of each. Spectators will long remember the field goal kicked by Braden for Yale's only score in the last period. The ball carried 53 yards with a twenty-five mile wind blowing from the center of the Harvard goal after Braden had booted it with his line backing under a strong crimson attack.

Saturday night and yesterday morning he spoke to large crowds; the auditorium being practically filled at each service.

Yesterday afternoon with "Wonderful Tropics of Grace I Have Met" as his subject, the colonel took his audience to London, and there described five characters, men and women, who started on the lowest round of the ladder of life and are now on the straight road to the Heavenly Kingdom.

Among the characters, he alternately swayed his hearers from mirth to tears. "Broken Earthenware" and in his description of the lives and the troubles of the characters, he alternately swayed his hearers from mirth to tears.

"Saviour" was the subject of last night's message, and to a crowded hall he told of the message Christ had brought to the earth. His exposition of the Name, taken letter by letter, brought home to his hearers in a very forcible way, their personal obligation to lead a better life, and at the close of the evening service, twelve from the audience signified their intention of following in the footsteps of the Master.

**Embargo On Freight Coming To St. John**

Freight Handlers Still Out and No Change in Situation—Superintendent Groat Says Truckers in Other Ports Receive Less Than St. John.

No change in the water front situation was apparent yesterday. There was a meeting of the Union of Railway Freight Handlers, but the officers are saying nothing. On Saturday Superintendent Groat announced that the C. P. R. has placed an embargo on all freight destined for West St. John.

"We are not going to bring goods here," he said, "to be left in the cars." Last evening Mr. Groat said there was no change in the situation, and that so far as the C. P. R. was concerned the statement issued on Saturday still stood.

Asked if he thought there was any prospect of a settlement Mr. Groat said "It does not look as if there was." The General Superintendent said the railway freight handlers here have been receiving 47 cents an hour, while rates in New York and Boston are 45 and 44 cents, respectively, and Halifax 45 cents. Union officials say that the truckers in New York and Boston are doing a lot of work done elsewhere at longshoremen's rates. The Union asked for 65 cents an hour and the railway offered 48 cents.

An effort is being made by some of the local labor leaders to induce the union to apply for a Board of Conciliation.

**THE REASON WHY—STYLE**  
Time was when furs were purchased with one idea in view, that of comfort. To be candid 60 years ago we didn't believe that should be the one qualifying feature, but rather fit, style, comfort, equally expressed. We've always adhered to our original idea. It's proved practical.
