Red Cross Aims

In Ontario

1. To act as a voluntary auxiliary to the Ontario Government in its health work.
2. To co-operate with local Boards of Health, School Boards, and voluntary organizations working for good health.
3. To enlist the support of Ontario citizens in helping to establish Outpost Hospitals and Nursing Service in remote parts of the Province.
4. To create and maintain a reserve of money, garments and medical supplies, and to assist voluntary aid, for emergencies, such as epidemics and disasters.
5. To create public opinion in favor of sound health measures.
6. To promote better health among children by the organization of Junior Red Cross auxiliaries in the schools.

ONTARIO ENROLLMENT, MAY 22-28

"In the field of Public Health, the harvest is ready and the laborers are few."—Prof. Winslow.

Economy

Ford car economy in first cost, in fuel cost, in maintenance cost, makes it the car for the owner of today.

The secret of Ford car economy is the Ford engine, simple and powerful, using a minimum of gas and oil for a maximum of mileage. Ford car sturdiness of construction throughout gives it the endurance which assures economy of maintenance as well as of operation.

FORD PRICES:

Touring Car, \$675
Coupe, \$1,100
Chassis, \$550

Runabout, \$610
Sedan, \$1,200
Truck Chassis, \$750

\$100 extra for starter, except on Coupe and Sedan, which are equipped with starter. These prices are f.o.b. at Ford, Ont.

DISTRICT AND GENERAL

Ezra Rathburn, a pioneer resident of Thorndale, died last week.

Forest fires are sweeping large areas in half a dozen Michigan counties.

A contract has been let for repairing Argyle Presbyterian church at Crinan.

Mary Lancaster, widow of the late G. Hodgson, died at Strathroy last week, aged 101 years.

Twenty-five thousand Orangemen are expected to attend a celebration of the 12th of July in London.

Mrs. Margaret C. Bone, who died at Oshawa, was present at the birth of 1400 children in that town.

Simcoe counts in its population a woman who is the mother of 17 children, 15 of whom are still living.

A Chatham township farmer had \$300 worth of tobacco plants ruined by some vandal sprinkling salt upon them.

The death is reported at Yorktown, Sask., of Mrs. Anthony Houghlan, formerly Miss Teresa Donnelly of Alvinston.

The barn of James Jarvis at Strathroy was destroyed by fire, supposed to have started by children playing in the barn.

Garrie B. Hoskin has sold his tin-smith business in Strathroy to Gordon Frame of Frest, and will move to Courtright.

A steer on a farm near Port Elgin is well equipped for fly time, having an extra tail over a foot long appended to its neck.

The death occurred in East Williams on May 6th of Andrew Ross, aged 93 years, brother of the late Sir George W. Ross.

Roy Kincaid, an engineer on the G. T. R., was killed at Watrous, Sask. He was a son of Wm. J. Kincaid of Mt. Brydges.

One home in every two in the rural districts of Ontario has a telephone, and an average of one farm in every four has a motor car.

Israel Randall, a well-known Adair township farmer, north of West Lorne, died on Saturday afternoon in his 75th year.

About thirty acres have been leased in the vicinity of Dutton by Libby, McNeill & Libby, Chatham, for the growing of cucumbers.

Joshua Trothen, a well-known resident of Tyroconnell, died last week, aged 73 years. Mr. Trothen settled at Tyroconnell 66 years ago.

A provincial inspector visited Parkhill one day last week and prosecuted upwards of a dozen local parties for minor infractions of the motor law.

Miss Laura Trudiel, an 18-year-old bank messenger at Ford, Ont., was robbed of \$1,600 at noon on Friday by four men who escaped in an automobile.

The Bible Society reports that during the year 1920 there were distributed throughout the world 8,655,791 Bibles, which were printed in 538 languages.

Henry Pierce of Metcalfe township has entered action against Massey & Fisher, produce dealers of Windsor, for \$533.18, claimed on account of consignments of potatoes.

Mount Veron, N. Y., people decided to commemorate Mothers' Day with a gift of dandelions instead of carnations, owing to alleged profiteering on the part of the florists.

Mr. and Mrs. W. A. Gordon of Florence celebrated their diamond wedding anniversary on May 14th at the home of their daughter, Mrs. (Rev. Dr.) W. T. Graham of Toronto.

Two dogs attacked a herd of young steers on a farm near Petrolia and chased and worried them so that one animal died of wounds and exhaustion and a second is not likely to recover.

Among the Anglican Synods of Canada the Synod of Huron leads the way in declaring in favor of exchange of pulpits between Anglican ministers and those of other religious denominations.

Mrs. Margaret McEachren, widow of the late John McEachren, died at Leamington last week. She was a daughter of the late Kingly McNabb of West Lorne, and was born in Scotland 86 years ago.

Mrs. Foster, in the north-east corner of Brooke township, has just passed the 104th year of her age. She enjoys excellent health, and all her faculties are as active as when she was a young girl.

There are 40 district representative offices under the Department of Agriculture in Ontario, and the average cost of these offices last year was \$5,238. The average in 1919 was \$5,257 and in 1918 it was \$4,774.

The residence and barns of Charles Garlick, sr., a short distance north of West Lorne, were totally destroyed by fire a few days ago, and only part of the contents was saved. The fire is thought to have started from the stove in the house.

The Sarnia Flax Company has a large gang of Indians employed on the Muncey reserve, spreading flax. A few days ago, at the outset of the work, the spreaders went on strike for higher wages and secured a promise that the same would be forthcoming.

The Armistice Day bill has been introduced in the Dominion House, and will likely be dealt with this session. This bill provides that the Monday of the week in which the 11th of November occurs shall be celebrated as a day of general thanksgiving.

CONTINUATION SCHOOLS

West Middlesex Now Well Provided With These

Following is an extract from the annual report submitted to the county council by Inspector H. D. Johnson of West Middlesex:

"During the year a continuation school was established at Coldstream and is in charge of two teachers. A continuation school was also established at Alisa Craig, and is in charge of one teacher. I visited all the continuation schools of the inspectorate and found them doing well. The inspectorate is now well provided with secondary schools. Pupils are able to live at home and attend these which is a great advantage to parents and children."

There were enrolled in West Middlesex 3,543 pupils, and there are 108 teachers. The salaries paid the teachers of the rural schools of West Middlesex last year were as follows:

	Highest	Average
Adelaide	\$1,925	\$918.26
East Williams	1,600	939.28
West Williams	1,000	902.77
Lebo	1,000	900.00
Ekfrid	1,050	887.04
Mosa	1,000	846.44
Carleton Place	1,000	840.52
Metcalfe	950	843.89

The highest salary paid in the towns of West Middlesex was \$1,400, in the incorporated villages \$1,300.

DEATH OF MRS. WEEKES

Pioneer Born in Mosa Township Eighty-eight Years Ago

There passed away on Saturday last, May 14th, one of the oldest residents of Mosa township in the person of Lydia Jane, widow of the late Wm. Weekes, in her 88th year. She was born and grew to womanhood on the Big Bend. In 1855 she was married and came to her late home, where she resided for nearly 66 years. In 1905 she and Mr. Weekes celebrated their golden wedding. Five years later Mr. Weekes was called to his eternal home. For nearly eleven years longer she was spared to those whom she loved.

Mrs. Weekes was a devout Christian, having been converted when but fifteen years of age. She at once joined the Methodist church in Wardsville, and from then till her death, seventy-two years later, she was a faithful, consistent member of the same, transferring her membership forty-two years ago to Glencoe. She joined the W. M. S. in Glencoe at the end of the first year of its organization, thus being a member continuously for twenty-nine years.

She is survived by ten of the thirteen children that were born to her and Mr. Weekes. They are W. J. and G. N., in London; Edwin, in Mosa; Abel, Tom and Alfred, in the West; Mrs. F. Aldred, in Glencoe; Mrs. (Rev.) Kerr, in Bothwell; Mrs. W. Leonard, late of Chengtu, China, now of Glencoe, and Herbert, on the homestead.

The funeral service, which was from her late residence to St. Peter's cemetery, was conducted by Rev. R. J. Garbutt, pastor of the Glencoe Methodist church.

The spirit of her life lives on in many a loving heart. The light of faith she bravely won; Now let us do our part.

GAMBLING AT FALL FAIRS

The law forbidding gambling at fall fairs, which has been practically a dead letter, is to be strictly enforced hereafter. It has been closely watched in the future. A resolution was passed at the meeting of the Ontario Association of Fall Fairs at Toronto recently to appoint a special committee to prevent admittance or operation of any of the different classes of fairs who have been infesting country fairs in the past.

Superintendent Wilson stated that if there are any fairs operating on the grounds, the board of directors will be held responsible and the fair will lose its grant from the Government in consequence.

HERE'S ANOTHER NEW ONE
Registry offices have been notified officially of the passing of a bill in the Ontario Legislature, which imposes another new provincial tax which will go into effect on the first of June next. This bill provides that a tax of one-fifth of one per cent shall be levied upon the amount of the purchase price paid by the party registering all transfers, conveyances, deeds, instruments, or writings whereby any land, tenements or other realty is sold. It is also directed that the registrar shall collect the tax before registering the transfer or other deed.

CAMPAIGN FOR RED CROSS
A proclamation was gazetted at Ottawa last week appealing to the people of Canada to co-operate heartily in the enrolment campaign of the Canadian Red Cross Society to be held during May and June as part of a national crusade for good health.

If "an ounce of prevention is worth a pound of cure" the efforts of the Red Cross in this respect are surely worthy of support. It hardly seems creditable, but ten years ago in this province deaths from typhoid numbered 706 per 100,000 of population. Last year this was reduced to 146 per 100,000. The result is entirely attributed to a campaign of education which sought to remove the cause of typhoid.

Good reliable household remedies are indispensable in every home. For asthma, RAZ-MAH has been famous. For rheumatism, Templeton's Rheumatic Capsules are the recognized standard. Sold by H. I. Johnston.

A man never realizes how insignificant he is until he visits Niagara Falls, the Grand Canyon, or gets in a women's political meeting by mistake.

HANDSOME CHURCH COMPLETED

Tait's Corners Presbyterians Have Interesting Time at Re-opening

The re-opening of Tait's Corners Presbyterian church took place on Sunday last, when special services were held in the afternoon and evening, conducted by Rev. D. G. Paton, B. D., of Glencoe. Mr. Paton discoursed in the afternoon from Genesis 28:17. "This is none other but the house of God, and this is the gate of heaven," and in the evening from 1 Timothy 6:20. "Keep that which is committed to thy trust, avoiding vain babblings and oppositors of science falsely so called." The sermons were profound expositions of the Word, and deeply impressed the large congregations.

Splendid appropriate music was rendered by the choir, including solos by Mrs. W. G. McCallum and Ross Lethbridge in the afternoon, and a ladies' quartette in the evening.

On Monday afternoon an old-fashioned tea meeting was held, at which an elaborate supper was served from six to eight o'clock. Afterwards a enjoyable program was given by the Elgar Ladies' Quartette of London; Miss Minnie Dobbyn, elocutionist, of London; Miss Alice Waterworth, reader, of St. Thomas, and D. H. McRae and J. D. McAlpine, soloists, with timely addresses by Rev. D. G. Paton and J. G. Lethbridge, M. P., the latter being chairman for the evening.

The congregation of Tait's Corners have just completed the remodelling of their church at a cost of about \$2,800. The alterations included the construction of a basement for the Sunday school and redecorating of the auditorium of the church, besides new heating arrangements. The undertaking is highly creditable to the congregation and they are to be heartily congratulated on the success of their efforts to make their church one of the most attractive and comfortable to be found in any community.

The proceeds of the re-opening services and tea meeting amounted to about \$120.

DAVID WATERWORTH DEAD
Well-known Mosa Township Farmer Passes Away Suddenly

The death occurred quite suddenly at his home in Mosa, near Wardsville, on Monday, May 16, of David Waterworth, a well-known and esteemed life-long resident of the township, aged 70 years.

Mr. Waterworth had retired for the night, but got up again to fix the fire in the stove, when he fell over and expired in about an hour. His death was due to heart trouble which had affected him at intervals for some time.

He leaves his wife and a large family of sons and daughters. The funeral was held on Wednesday afternoon at Oakland cemetery.

DAMAGE BY FROST
Severe frosts in Western Ontario on Monday and Tuesday mornings did much damage to garden and field crops. Orchards are also reported to have suffered.

MAN HUNT AT BOTHWELL
After an exciting chase, in which revolver shots were freely exchanged, High Constable Peters of Kent county succeeded in capturing Claude Shaw in a bush near Bothwell on Saturday. Shaw is being held for charges of robbing three stores in Bothwell. Orville Shaw, brother of the captured man, is still in the bush, which has been surrounded by a posse of guards since Friday. Active search for him is being made. Most of the loot which was taken from the Bothwell stores has been recovered by Constable Peters. When Claude appeared in the local police court he disclaimed all knowledge of the crime and blamed the robbery on his brother.

CURRY-McCRACKEN
A quiet but pretty wedding took place on Tuesday morning, May 10th, at St. Peter's Cathedral, London, in the presence of only immediate friends and relatives. The principals in the event were John Curry, telegraph operator at Glencoe, and Miss Maude McCracken of St. Marys. The bride looked charming in a travelling suit of navy blue with picture hat to match, and was assisted by Miss Anne Curry, sister of the groom, who also wore a navy blue suit with hat to match. Mike Curry, brother of the groom, acted as best man. After the ceremony, which was performed by Rev. Father Finn of London, the happy couple and their friends adjourned to the Tecumseh House, where a sumptuous breakfast was served in a dining-room prettily decorated with carnations, tulips and streamers of white and pink ribbon. Afterwards Mr. and Mrs. Curry left for a short trip to western points. On their return they will reside in Glencoe.

Soils and Crops

Address communications to Agronomist, 73 Adelaide St. West, Toronto.

Destructive Insects Lessen the Food Supply.

The toll taken by destructive insects from field, orchard and garden crops not only diminishes the yield, but reduces the returns the grower should derive from his crops. A conservative estimate places the loss from this source alone at \$200,000,000 annually.

Under favorable conditions, such as an increase in the food supply, or the decrease of natural agencies for keeping them in check, such as our wild birds, some insect or other will at times increase to such an extent as to become a veritable scourge. Instances of this are found in the army-worm outbreak, and still more recently in the grasshopper outbreak in western Canada. Last season the governments of the western provinces expended large sums in combating this menace, undertaking the work in a wholesale manner with the assistance and direction of experts in the service of the Federal Agricultural Department. It is estimated that in Saskatchewan alone 1,400,000 acres of crop were actually saved by systematic organization for the distribution of poison bait, at a cost of some \$338,000. Preparations on a wholesale scale are now being made to meet the outbreak that again threatens western grain growers, and Dominion officials are now advocating the substitution of sawdust for bran in the preparation of the bait, at a considerable reduction in cost.

The presence of the European cornborer in western Ontario is another menace to which expert attention is being directed. To prevent the spread of this pest, it has been found necessary to prohibit the shipment of shelled corn from infected areas, aggregating some three thousand five hundred square miles.

While the greater portion of the work of the Entomological Branch of the Dominion Department of Agriculture consists in the application of control measures, research work aiming at the discovery of better and cheaper insecticides is another of the many activities engaging its attention. Continuous investigations are carried on into the life history and habits, and means of control, of insects affecting live stock, fruit, grain and even forest trees. To facilitate work of this kind, field laboratories are maintained at many points throughout the country.

Winter Feed From Muck Soil.

Growing root crops as a winter feed is a good idea which is not being used. Root crops were extensively and entirely used as a source of winter succulence before the silo was generally known.

It must be understood that there is nothing better for silage than a good corn crop yielding from eight to fifteen tons to the acre. But frost is the serious factor which has made corn, either for silage or grain, a risky crop on muck soils. On the other hand, there are other silage crops for the muck farmer. The importance of the sunflower was especially well shown on muck under extremely varying conditions last year. Exceedingly hardy to frost,

drought, excess moisture, giving a high tannage, the sunflower is only waiting for complete agreement by specialists on its feeding value as compared with corn, to be given unqualified recommendation for the muck farmer.

Of course, the muck farmer should have a silo. If he is situated where he cannot grow corn he can grow the sunflower, or oats and peas for silage. The silo is an important factor in farm management of the muck farmer growing general crops.

There are three situations in which it would appear that the growing of roots would aid the muck farmer. It would provide the farmer, having a silo with additional winter feed; it would be of greater assistance to the one who expects to purchase a silo but who desires to keep stock until the time when he can make that investment and it is the only sensible course for the man who cannot use the silo at all.

Muck soil is ideal for root crops. As long as agriculture has existed, roots have been a basic crop in the dairy districts of Europe. Many sections depend entirely upon roots for winter feed. Four tons of roots, such as beets, carrots, rutabagas and mangels equals three tons of silage. Twenty tons of roots to the acre is common on fertile muck soils. Thirty tons have been noted. Blocking and thinning is much easier on muck soil than on upland.

Feeding carrots and millet may not sound ethical, but horses on heavy hauling have come through the winter in splendid condition on such a ration. A test of various root crops has shown rutabagas to be the most satisfactory. The reasons are summed up as follows:

"Besides being the largest yielder among root crops rutabagas have several other advantages: (1) seed is cheap; (2) germination is better than with mangels or sugar beets, therefore insuring a more even stand; (3) rutabagas sprout quicker and can be thinned and weeded sooner, which is a great advantage; (4) being of quicker growth they are less likely to be damaged by insects when small; (5) they are the most hardy of the root crops; (6) they are the best keepers, especially as compared with the flat turnip, which is likely to grow hollow and rot in storage.

"In feeding, a pulper chopper may be used, though this is not necessary unless one wishes to mix them with grain feed. When feeding rutabagas in considerable quantity to dairy cows, it is important that the feeding should be done after milking time, as the aroma from the roots may taint the milk."

There are several very important practical advantages in growing roots. They can be planted later. Roots are adapted to new land. On numerous occasions my attention has been called to successful crops of carrots which have been grown on new muck. Harvesting may be delayed in the fall until the main work is done. Nothing but a hard freeze can harm roots. Root crops should be considered by the muck farmer as a winter feed. They should be considered as an integral part of his farm management plan.

About Broken Bones.

The stock owner may find it necessary to apply simple surgical treatment when a veterinarian cannot be conveniently employed, or if the value of the animal does not warrant expense. He should, therefore, be able to determine if a bone is broken, which bone is affected, whether it can be set, and how that should be done.

A fracture may be suspected when, after a fall, kick or other injury, the animal refuses to place weight upon the leg, or is extremely lame when made to walk. If the bone is broken, a grating or scraping sensation may be felt when the palm of the hand is held upon the part, or heard when the ear is applied while the leg is moved in different directions by an assistant. Fractures of the pelvis are diagnosed by passing the hand into the rectum and against the bone while an assistant moves the leg.

If the animal is small or young a simple fracture usually will unite successfully. In heavy animals that are well up in years chances of recovery are poor, especially if the broken bone is one that has to bear much weight or is in a part that is much moved.

Breaks implicating joints seldom are worth treating. That, too, is often the case when a bone is smashed to pieces or where broken bones have pierced the flesh and skin. Union will be most likely to take place when a bone of a young animal has broken in such a manner that splinters of one end fit dovetail into splinters of the other end.

Broken bones of calves, foals, pigs, lambs and puppies readily unite if held in apposition and kept rested. The following bones of an adult horse when fractured seldom can be successfully treated: Neck of shoulder blade, humerus or arm-bone, femur or thigh-bone. The leg bones, radius or forearm, and metacarpus or cannon-bone in the foreleg, and tibia or gaskin and metatarsal or cannon-bone of the hind leg, sometimes may be mend-

ed, if the fracture is simple and not in a sloping direction. Fractures of the pastern-bone usually knit readily, but the united part may be left in a thickened or even club-footed condition. Breaks in the pelvis unite readily if the hip-joint is not involved. Breaks causing distortions in contour of parts, such as a fracture of the point of the hip or of the buttock, generally give little trouble, but in some instances pus forms and pieces of bone have to be removed, or a troublesome fistula results. Fracture of the spines of the withers tends to cause fistula. Breaks in the back-bone usually cause paralysis, but partial fracture of the neck will sometimes merely result in a distortion.

Successful treatment of a fracture depends upon bringing the severed parts together perfectly and keeping them immovable until knitting has taken place in from four to six weeks. Joints above and below the broken bone must be rendered immobile. In small animals bandage the leg lightly with cheese-cloth, bring the foot of the injured leg into exactly the same position as the one of the other leg, also matching joint for joint in position. Then fit padded splints of light wood, gutta percha, strong cardboard or tin upon the leg from ground level to top, and hold there with starch bandages or a plaster of Paris cast. A horse has to be supported with slings, and after putting splints and a cast upon the leg from foot to body an iron brace may also have to be applied for support and to keep the leg rigid. If the pastern is fractured, it will suffice to put on a strong plaster cast and turn the horse loose in a box stall bedded with sawdust.

"Corners" in Harrowing.

In harrowing with a tractor—using either disk or tooth-harrow—the beginner usually has trouble in turning corners. He tries not to miss any of the surface and, as the land rapidly narrows down, it becomes impossible to turn quickly enough, and there develops something like a "peninsula." It is much better to begin turning soon enough to make the circle without trouble, leaving a little strip of land each time. Then when the field or land is finished, he can make a trip or two along each turn-row and harrow these missed places. Or, if the operator wants to cover every inch of the land on the first trip—corners as well as ends and sides—he can "circle out" corners when they become troublesome. To "circle out" means to harrow around and around in a circle at a corner until the curve of the turn is more gentle. Three or four circles will help a corner wonderfully.

For Soldering.

Farmers have a great deal of soldering to do. Oftentimes when it is desired to mend something, it is found that the supply of soldering flux has been used up. It is very easy to make a good flux by dissolving pieces of zinc in hydrochloric acid. The reaction forms a solution of zinc chloride. Just keep adding zinc to the acid until no more chemical action is observed. The solution can be kept in a glass bottle and applied in the usual way.

Raising Capons for Profit

Once a year poultry-raisers meet the question of how to dispose of cockerels to best advantage. If sold as broilers, they bring a fair price, but weigh only a couple of pounds. If kept till fall, they weigh more, but then the broiler price cannot be obtained. Caponizing is one practical answer to the question.

According to the latest Government reports the industry is growing rapidly year by year but the supply does not yet equal the demand. The best time to caponize cockerels is when they are from two to three months old, or when they weigh from one and one-half to two pounds. The smaller breeds mature earlier than the larger ones.

To get the cockerels in the right shape for caponizing, it is necessary to confine them in a dry cool place without food and water for from 24 to 36 hours. Thirty-six hours is best for beginners. This is done to empty the intestines and have them shrink so as to make the organs visible and easily accessible.

As the organs to be removed are located in the body cavity, very good light is also essential, either bright daylight—preferably out of doors—or electric light. Light prevents bungling.

A very small incision between the ribs on either side is all that is required to successfully remove the testicles. This is much less trying to the bird than a single large incision on one side. As soon as the operation is over, the cockerels are eager for food and water, which may be given them at once; they rarely show any signs of discomfort and are hurt much less than if they were left to grow up as roosters and fight among themselves.

From the time of castration or caponizing, the combs and wattles stop growing, the birds do not crow nor fight and become tame and gentle. The flesh remains sweet and tender as that of a spring chicken. They can be kept with the other chickens or in a separate enclosure, whichever is most convenient. On the farms where they can have free range, they will forage for themselves very much like turkeys and can just about pick their own feed till late fall.

Poultry

The temperature of a setting hen's breast has been found to be one hundred and five degrees, while the temperature of the plumage varies from ninety to one hundred degrees. This proves that the chick is not confined to one temperature when brooded by a hen, but can select a place where it is comfortable. This idea must be followed out in artificial brooding. Do not confine the chicks in a brooder without ventilation and expect them to thrive.

The hen-brooded chick can at any time stick its head out of the mother's plumage into the cool fresh air. When brooding with stoves keep a good fire burning so that the chick can obtain plenty of warmth when it is needed but also give the chicks a chance to run out away from the heat where they can occasionally breathe the cool fresh air which seems to give them health and vigor.

When chicks huddle tightly together around a brooder fire it is a sign that the right amount of heat is lacking. A coal burning brooder fire should be warm enough so the chicks will spend the night close to the outer edge of the deflector. Then if the stove cools down the chicks can move closer. Chicks that are warm enough will not huddle but will rest quietly on the floor beneath the deflector. Only an occasional found peep will tell the operator that several hundred lively young chicks are resting comfortably for the night.

Do not suddenly go into a brooder house at night with a lantern as the chicks may scatter away from the heat and have difficulty in finding their way back when the lantern is gone. It is best to use a flashlight and only keep the light on when it is very necessary.

Summer Shelter for Hogs.

The practice of keeping breeding swine and growing litters enclosed in expensive hog pens, more especially during the summer months, has been almost entirely discontinued on the outdoor life has been found very much more advantageous, but some sort of shelter is necessary to protect the hogs against inclement weather and the sunshine of midsummer.

Various types of small pens designated hog cabins have been kept under observation for several years on the Experimental Farm at Ottawa. These have included: (1) the A-shaped cabin; (2) the straight-walled cabin with tight sides; (3) the straight-walled cabin, with (a) roof section hinged, (b) one side hinged upwards, (c) roof section and both sides hinged so as to be hooked upwards. The latter cabin (c) was found to be infinitely superior for the summer months because it affords relatively cool shelter in Hogs that had access only to tight-sided cabins preferred to remain in the bright sunshine rather than to use the shade that the house provided. The sectional cabin with hinged sides and tops can be made thoroughly adaptable for winter use by proper fastening down and battening the joints.

The Welfare of the Home

Providing a Motive.

"I don't want to get up. I'm going to stay abed this morning. I'm sick," came the grumpy call from the boy of the house.

Neither opposition nor argument was offered by the wife mother. She ignored the remark and merely spoke over the banister to her husband below. "Did you say, Daddy, that those of the children who were ready on time could ride out to see the circus unload?"

Two bare feet slapped to the floor and a smiling boy in good health made a prompt appearance at breakfast.

In another case—"I hate to sell tickets," was the irritable reply to the mother's request.

"These are stamps, John, not tickets. Every one you sell gives food for a day to a starving little Chinese boy."

Visions of a black-queued laundry man who had given John a nut arose in the boy's mind. "So it's saving Chinks," was the boy's wording of his motive, and with zest he sold three dollars' worth of the three-cent stamps.

The mother who can supply motives in place of arguments finds a harmony in her home that generates peace, which in its turn is a strong factor in promoting good health. Constant friction reacts upon the physical condition of the members of the family.

Many pleasures and joys are due the children, yet it is only right that they should share in a simple way the burdens and responsibilities that go to make for comfort in the home. Where a mature mind can vision the needs and outcome of the work re-

quired, a child can see only the irksome task to be accomplished and often must be provided with a motive.

At one time when a new garden plot was plowed many stones were turned up. The father of the family left word in the morning for the children to toss out the stones after school that day. It was easy work for a while, but soon the interest lagged. Suddenly the oldest boy had a happy thought. "Let's get all the stones we can find and build a gate-post. Father will fix the cement and help us when he gets home." The garden plot was searched for every stone and a wonderfully fine piece of work was accomplished there before the father returned.

Many fine acts and homely accomplishments are recognized with honor for Boy Scouts and Girl Guides which provide motives within their vision. However, the motive must be a right one, and not of the kind one mother offered in holding up a twenty-five cent piece to calm her boy in his fit of temper. It was an easy way to earn money and the temper fits became frequent. That bit of silver might have accomplished more if offered to the child of that tendency for every week or month when no temper was allowed to show itself. In that way the child would have learned self-control of life-long value.

Neither rules nor laws can be fixed for the varied situations a mother faces, but if she can be equipped with a point of view from which to work, it will often meet a wide stretch of needs. To be able to offer a legitimate motive for action is one step towards happy home harmony.

Less Danger from Fire.

We live about a mile from town, our electricity coming from there. We have all our rooms wired, also our front and back porches, cellar and barn. It would be very hard to decide which light we value the most, as we feel now we could not do without any of them.

I also have an electric iron with which the week's ironing can be done in less than half the time taken with other heat. We think no other money invested on our place has paid such returns as our electricity, and when one considers the great danger of fire from lanterns, too much praise cannot be given electricity on the farm.

Mark Your Pigs.

In marking the pure-bred spring pigs use a punch making a long oval notch, as that kind is more satisfactory than a V-shaped one. Any accidental tear is apt to be mistaken for a V-shaped notch, while the oval is unmistakable. Tags are not generally satisfactory for marking pigs, as they are difficult to read and are easily torn out. The system of notches is swift and certain. In marking young pigs the notches must be out of proportion to the size of the ear, for the pig's ear will grow, while the notches are fully grown, notches that were plainly seen on the young pig are barely visible.

Blindness, in nearly 40 per cent. of cases, occurs after the age of 45.

HIDES-WOOL-FURS

With the coming of spring, you will be having wool hides, skins and horse hair to sell. Ship it to us or write for prices. We will use you right.

THE SCHOOL ON THE FARM

There is an item of danger in hanging onto old tools too long. It was not so long ago that the boys on one Ontario farm revolted against the continued use of one-horse cultivators when the neighbors were getting double and greater service from two and three-horse implements. There is a point where the farmer, like every other user of machinery, can no longer afford to get on with the old tools because of the handicap it gives him in production costs. The boys who opposed the continued use of the one-horse cultivators were right in their contention. Fortunately the father complied, and in doing this he not only saved his boys to the farm, but this very act put new spirit into the whole family. From then on father took the boys into conference when he wished to decide matters regarding the farm business.

And here is one of the great advantages of the farm for the family with children. The farmer's business, unlike the business of the city man, is closely tied up with the home life and every member of the family is more or less intimately acquainted with what is going on. No educational institution can create better conditions than this for inculcating into the lives of the boys and girls those fundamental principles of business and good sense, providing the parents are awake to the opportunity, and on the other hand, if the parents are found wanting there is no place where children can be made to abhor the work of their fathers with greater intensity. There, then, is a great opportunity for parents, but it carries responsibility of equal magnitude.

International Dairy Congress.

There is probably no branch of agriculture in which Canada has made more progress in recent years than dairying. An opportunity will be afforded next year to the world know how far this is the case, for in the summer is to be held at Chicago, Ill., the Seventh International Dairy Congress, at which there will be present officially appointed representatives from thirty to fifty different countries. At the sixth congress, held at Bern, Switzerland, in 1914, Mr. J. A. Rudick, Dominion Dairy and Cold Storage Commissioner, was Canada's representative, among a total of 800 delegates representing twenty-nine countries or states. The congresses are organized under the auspices of the International Dairy Federation, of which any person interested in dairying, corporation or association can become a member on payment of the annual fee, which at present is twenty francs. Papers are read at the congresses and the reports are published in English, French and two other languages. Already Mr. Rudick is engaged, by authority of the Dominion Minister of Agriculture, in preparing for Canada's representation at next year's congress in Chicago, and a committee is being formed on which the heads of the dairy branch in every province will be invited to act. This committee will arrange for the questions to be discussed and the papers to be read as far as Canada is concerned. A pamphlet will also be prepared and distributed among the delegates descriptive of the dairy industry in this country. It is further proposed to establish in connection with the congress a bureau of information at which facts will be set forth regarding not only dairying in Canada, but agriculture generally and the manufactures and resources of the country. In addition, leaflets will be circulated suggesting itineraries for delegates who might like to visit Canada before returning home.

Sheep Clean Up Waste.

"I would not know how to do good farming without sheep," says George McKerrrow, of Wisconsin, "because my sheep use up the wastes of the farm. They clean up the grass, weeds, brush and gleanings, and in so doing turn into cash what otherwise would be lost."

After harvest, George turns the sheep into the oats fields for a few hours the first day; an hour or two longer the second day; the time is gradually increased until at the end of a week they have complete possession of the fields. He lets the lambs into the cornfield before the corn is cut and they clean up the weeds and lower leaves of the corn-stalks. Roots are grown for the cattle and sheep, and after the larger roots are stored, the sheep are turned into the field to eat the smaller ones that remain. After harvest weeds fields are plowed, sown to rape and turnips, and later the sheep are turned in. They eat the rape and turnip tops with relish, and will later hollow the meat from the turnip.

Novel Selling Plan.

An unique, although very successful plan of selling pure-bred stock has been worked out by Edwin Houston. He loads into a truck some of his good swine and drives to neighboring county towns, where he books orders for stock he has for sale. He guarantees that the animals sold will be fully as good as the samples in the truck, and ships C.O.D. This novel selling plan has proven to be very successful and might well be adopted by more swine breeders. A very considerable amount of publicity is secured on the trip besides the sales that are made.

Read the Advertisements

THE publishers of this paper draw your attention to the advertising columns, and particularly to the advertisements of the local merchants.

These merchants have invested their money in goods to satisfy the needs and desires of us all.

Their enterprise is a distinct service to our community. For this reason we should buy from them to the best of our ability and in so far as our needs and judgment of value dictates.

Then, too, the general commodities advertised in our columns are worthy of consideration. It is desirable that readers should ask merchants to supply advertised goods wherever possible. By doing so the cycle of trade is kept alive and inter-community commerce stimulated. We repeat—read the advertisements.

The Purchasing Power of Your Dollar

must be greater with the drop in all farm products.

This store's policy is to get prices down as fast as possible. This store was the last to raise prices. This store is the first to lower prices.

THURSDAY, MAY 19, 1921

PROVINCIAL LAW CHANGES

After all the fuss and fury of an almost record-breaking session of the Ontario Legislature the average man on the street remains to a surprising extent unaffected as a result of almost three months of legislating. If he commits B.O.T.A. he can, as a result of a last session's enactment, appeal to a County Court, instead of a High Court Judge; if he wants to get married he will have to get his license from a municipal clerk instead of a jeweller; if he has children they can not, as a result of the Legislature's verdict, work in a factory until the age of 16, and if he has a daughter working in a factory she must now, under certain conditions, be supplied with seating accommodation. He was, for a few days, intensely interested in a proposal to see that he was fairly treated with regard to the rent that he was to pay in future, but, somehow, that particular item did not "pan out." The session opened on January 25th and closed Saturday morning at 5 o'clock after a session of 18 hours.

The dying hours of the session were charged with more interest than has been packed into any day's sittings through the fourteen weeks preceding. Right on top of the fight over the Burnaby matter the House ran into a two-hour debate on rural hydro distribution, and just at the end when the members were locking their desks the Premier precipitated a twenty-minute fight by announcing a decision of the Government to withhold all timber licenses from the Shevlin-Clarke Company until the company agreed to the terms set down by the Government.

There were 262 bills introduced to the House. Of all the items of legislation probably that relating to rural hydro extension most widely affects the interests of the people of Ontario. Under its terms the Province, in an effort to get power to the farms, will pay one-third of the previously prohibitory cost of constructing transmission lines into rural sections.

SPRAYING OF POTATOES

Absolutely Necessary to Prevent Blight and Rot.

How to Fight These Fungus Enemies—Directions for Spraying—Must Be Timely and Be Thoroughly Done.

(Contributed by Ontario Department of Agriculture, Toronto.)

Potatoes are sprayed to prevent such fungus diseases as Early Blight and Late Blight and Rot. Efficient spraying depends upon an understanding and appreciation of what fungus diseases are.

Fungus diseases are caused by plants known as fungi. These plants, unlike ordinary flowering plants, have no green coloring matter (chlorophyll), and are unable therefore to manufacture their own food. All their nourishment must be obtained from decaying animal or vegetable remains or from living animals or plants. Those fungi which derive their nourishment from living plants injure them in so doing in various ways, and thus give rise to what are known as fungus diseases.

Late Blight and Rot is the most destructive disease of potatoes in Ontario. In wet seasons it frequently destroys a very large proportion of the crop and causes a loss of many thousands of dollars to the farmers of the province. This is to a large extent a needless loss, for Late Blight and Rot can be prevented by timely, thorough and intelligent spraying with Bordeaux mixture. This has been proven by numerous field experiments both in this country and the United States. Spraying every year is an insurance. Can you afford to neglect it?

Directions for Spraying.—Spray with Bordeaux mixture, strength 4 to 6 pounds of copper sulphate (blue-stone) and 4 pounds of lime to 40 gallons (imperial) of water. Commence spraying with Bordeaux throughout the season. Forty to 100 gallons of the Bordeaux mixture will be required for each application, the amount to be used depending upon the size of the plants. Take special care to see that the spraying is very thoroughly done if the weather is at all damp about the 15th of July, as Blight often begins at this time. Add a poison when necessary for Potato Beetles—arsenate of lead paste 3½ pounds to each 40 gallons of the liquid spray or Paris green 2 pounds to 40 gallons or a mixture of 2 pounds of arsenate of lead paste and 1 pound of Paris green to 40 gallons. From three to seven applications should be made, depending upon the season; the wetter the weather the larger the number. Do not put off spraying because it looks like rain. If the spray is on the plants half an hour before the rain comes it will be dry and sufficient of it will stick to prevent infection, which takes place during or soon after rain. Spraying as described above should prevent not only Late Blight and Rot but also Early Blight and Potato Beetles. For Late Blight and Rot it is not necessary to commence spraying until about the 10th of July, but in Ontario it is usually advisable to spray for all three.

A hand pump barrel sprayer can be used for small lots of potatoes. Most men who grow a considerable acreage of potatoes consider that a power potato sprayer is a good investment. The best results from spraying are obtained with machines fitted with joint attachments so as to insure covering both surfaces of the leaves at each spraying. Efficient spraying of potatoes depends:

1. Upon the use of the proper fungicide. Bordeaux mixture has so far proved to be the only satisfactory spray mixture for potato diseases.

2. Upon timely and repeated spraying. Spraying should be commenced when the plants are from six to eight inches high, and repeated at intervals of from a week to ten days throughout the growing season. From three to seven applications will be required, the number depending upon the weather, the wetter the weather the more frequent the spraying.

3. Upon the liberal use of Bordeaux mixture. Thorough spraying can only be done when sufficient of the spray mixture is used. From 50 to 150 gallons of Bordeaux mixture should be used per acre at each application. When the plants are large not less than 100 gallons per acre should be applied.

4. Upon thorough spraying, which means the covering of every portion of the plant.

5. Upon spraying before rather than after prolonged rainy periods. Infection of the plants takes place during or soon after rain. Therefore it is of the utmost importance to have the spray mixture on the plants when the rain comes. If the spraying is completed half an hour before rain sufficient of the Bordeaux will stick to prevent infection. If the spraying is left until after prolonged rain infection will take place before the Bordeaux can be applied to the plants. Putting off spraying because it looks like rain is one of the most frequent causes of failure to obtain results from potato spraying.—J. E. Howitt, O. A. College, Guelph.

Dig out borers from trunks of peach trees. Spray underside of rose leaves with nicotine sulphate to kill Leaf-Hoppers.

Grass, clover, alfalfa, or fall sown rye, are usually ready for pasture now.

Watch carefully pear trees and young apple trees for Blossom Blight. Break off infested part. Repeat every second day till danger is past. Disinfect tools and any cuts made.

SHIELDS SIDING

The U. F. O. shipped hogs from here on Friday of last week. Several from here attended the lecture given in S. S. No. 9 on labor-saving devices. Mrs. R. L. McAlpine read a paper, Mrs. Forman sang a solo and little Gertrude Purcell recited.

Mrs. McIntyre has returned to her home in Newbury after spending some time with Mrs. Hall, who was under the doctor's care and is now some better.

Mr. and Mrs. John F. McTavish have returned home after spending some time with Mr. and Mrs. McLeish of Toronto.

DAVISVILLE

Mrs. Duncan McNaughton is confined to her bed with pneumonia. Miss Mabel Hillman is spending a few days in London.

Mrs. Charles Rogers spent the weekend at Dan McNaughton's.

Mrs. James Brown has returned to her home after spending a few weeks in Toronto.

Mr. and Mrs. Wm. McRae and children and Francis Singleton of Glencoe spent Sunday with Mrs. McRae's parents.

Leonard Hillman spent the weekend in London.

Mrs. Lawrence Babcock is spending a few days at Inwood.

CASHMERE

Mr. and Mrs. Wed. Darke and son Charlie spent Sunday with the former's parents, Mr. and Mrs. Thomas Darke, Bothwell.

Mr. and Mrs. Calvin Stiller and son Franklin spent Sunday with her parents, Mr. and Mrs. B. F. Jeffery, at Newbury.

John Reid is moving the Gillett barn, which he bought, to his farm here to replace the one that was burned in October last.

We are glad to note that Mrs. Arthur Tunks is somewhat better.

Mr. and Mrs. Earle Tunks and son Walter spent Sunday with her parents, Mr. and Mrs. Allen Stiller, at Bothwell.

Mrs. M. J. Taylor of Chatham is visiting her sons, Hugh and Wilkie Taylor, here.

The Ladies' Aid and Mission Circle will hold their lawn social June 15th on Wed. Darke's lawn.

'Exquisite,'
WOMEN SAY.

THAT'S the general verdict pronounced when women see our new display for Summer. It's most gratifying to us to be talked about in that fashion. And we believe you'll hold the same opinion once you have seen the new Hats. Every desirable shape, material and color in turbans, toques, tams, sailors, sport effects and elaborate picture Hats is now shown.

MRS. W. A. CURRIE
GLENCOE

NOTICE TO CREDITORS

IN THE MATTER OF the Estate of Sarah McCallum, Late of the Village of Glencoe, in the County of Middlesex, Widow, Deceased.

Notice is hereby given, pursuant to The Revised Statutes of Ontario, 1914, Chapter 121, Section 56, that all creditors and others having claims against the estate of the said Sarah McCallum, who died on or about the twenty-eighth day of March, A. D. 1921, are required to send by post prepaid or to deliver to the undersigned, solicitors for Duncan Patterson McPhail and Irene Davey, executors of the last will and testament of the said Sarah McCallum, deceased, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.

And take notice that after the 9th day of June, A. D. 1921, the said Duncan Patterson McPhail and Irene Davey will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said Duncan Patterson McPhail and Irene Davey will not be liable for the said assets or any part thereof to any person whose claim they shall not then have received notice.

ELLIOTT & MOSS,
Solicitors for the said Executors.
Dated at Glencoe this 10th day of May, A. D. 1921.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

TOWN AND VICINITY

There are several cases of mumps in town.
Organ recital, Methodist church, tonight (Thursday).
Empire Day falls on Monday, May 23rd, and will be observed in the schools.

Mrs. D. C. McKenzie is in London having her baby boy, Cecil, treated for blood poisoning in the feet.

A meeting of the Middlesex county road directors will be held at the county buildings in London on Saturday.

The Ladies' Aid of the Methodist church at Wardsville will hold their annual bazaar and dinner on Tuesday, May 24th.
A solo was given in the Methodist church on Sunday morning by Mrs. Garnet Thomson of Blenheim, and in the Presbyterian church on Sunday evening by Mrs. E. I. Scott of Sault Ste. Marie. Both were very appropriate.

The annual meeting of the Ridge-town district of the Methodist church was held at Wardsville on Tuesday and Wednesday.

The Wardsville Methodist church has just closed a most successful year. The societies of the church together raised \$4,973.

Rev. R. J. Perkins, M. A., of Chatham, will preach in St. John's church at 7 o'clock on Sunday evening next, by order of the Bishop.

The Wabash Railway Company find it necessary to purchase several new locomotives in order to handle their largely increased traffic.

Morley A. McMaster, manager of the Royal Bank, Christina St., Sarnia, has been seriously ill since May 3rd, but expects to report for duty on May 27th.

The Rural Deanery of West Middlesex held an all-day session in St. John's church here yesterday. About 100 clergy and lay delegates were present.

On Monday evening a baseball game was played between the foundation team and the town team. The "Davenport stars" brought the score to a tie, 4-4.

Glencoe Presbyterian pulpit was occupied on Sunday by Rev. Mr. Stevenson of the Lord's Day Alliance, in the morning, and Rev. Mr. McKillop, in the evening.

A London paper states that 56 municipalities, including Glencoe, are to have their hydro-electric power rates reduced. The local commission have not yet received any information in the matter.

Melbourne Odd Fellows observed their 18th anniversary last Sunday by attending the Presbyterian church in that village, where a special service was held, conducted by the minister, Rev. John Elder.

There has been a big slump in the price of butter and eggs during the past week. Other foodstuffs, such as sugar and bread, are also moving downward. Meats are still high, although the price of live stock has taken a slump.

The West Lorne Driving Club will hold horse races on their new track in West Lorne on Tuesday, May 24. Nine hundred dollars in purses are being given. For entry forms and full particulars apply to L. G. Brown, Secretary, West Lorne, Ont.

The Belmont Times says:—Mr. and Mrs. George Highwood and daughter Dorothy and Mr. and Mrs. Reeves and son Leslie, all of Glencoe, spent Sunday with Mr. and Mrs. Arthur Wilson of Belmont. Mrs. Wilson is a niece of Mr. Highwood, and she only recently located here and another uncle and an aunt at Hamilton and Jarvis.

Looking over a list of names of students who were successful in passing the recent Normal School examinations in Regina, one is impressed with the fact, which is not generally understood by Eastern people, that so-called foreigners are beginning to become leaders in the field. Out of about 40 names, 15 are distinctly foreign.

To what extent some of the churches in the Canadian West believe in providing amusement for winter evenings, indicating in the following advertisement in a Saskatchewan paper:—"Christ Church Young People will hold another whist drive and dance on Thursday evening in Christ Church Hall. Whist will commence at 8.30."

The following from a distance attended the funeral of Mrs. William Weekes on Tuesday, May 17th:—Mrs. J. P. Thornton, Ingersoll; Rev. G. J. Kerr and Mrs. Edwards, Bothwell; Mrs. Windover, Wallaceburg; Mrs. James Cook and George Cook, London; Mr. and Mrs. J. C. Butler, London; J. D. Gillies, Highgate; Frank Weekes, Seaforth; Mr. Booth, Thamesville.

A brilliant display of the aurora borealis, or northern lights, several nights recently is attributed to a group of sun spots, the largest of which is a matter of 94,000 miles long and 21,000 miles wide, and is plainly visible to the naked eye through smoked glass. Usually a display of this kind is followed by cold weather, which probably accounts for the frost experienced in the last few days.

Before D. C. McKenzie, J. P. at Glencoe on Friday, William Essey of Ekfrid township was fined \$200 and \$12.10 costs for having liquor in a place other than a dwelling house. The information was laid by Inspector Keenleyside, who found six bottles of liquor, the remainder of three cases which had been kept for consumption by the accused and several men engaged in a ditting in an unoccupied building north of Appin.

Lorne Lodge, Glencoe, was well represented at a lodge of instruction held in West Lorne on Wednesday of last week. The proceedings were under the direct supervision of the Grand Master Vincent of Bothwell, and proved in every way instructive, as well as partaking of the social element of the brotherhood. In the afternoon the first and second degrees were exemplified and in the evening the third degree. At six o'clock the large gathering were the guests of the Women's Institute, when they were entertained at an elaborate dinner.

HOW TIMES HAVE CHANGED

The following, which is clipped from the Geneva Reeper, shows how railroads were regarded less than a hundred years ago: "Someone has dug up the records of the Lancaster, Ohio, school board back in 1828. In these records there is an account of proposed debate as to whether railroads were practical or not. Permission was asked to hold the debate in the school house and the minutes of the school board ran as follows: 'You are welcome to use the school room to debate all proper questions in, but such things as railroads and telegraphs are impossibilities and rank infidelity. There is nothing in the Word of God about them. If God had designed that His intelligent creatures should travel at the frightful speed of 15 miles an hour, by steam, He would have foretold it through His holy prophets. It is a device of Satan to lead immortal souls down to hell.'—Valdosta, Ga., Times.

HIS LIFE RUINED BY DYSPEPSIA

Until He Tried "FRUIT-A-TIVES" The Wonderful Fruit Medicine

MR. FRANK HALL

Wyevale, Ontario.

"For some two years, I was a sufferer from Chronic Constipation and Dyspepsia.

I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

FRANK HALL.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

—Miss Edna Poole of London spent the weekend at W. G. Poole's.

—A. L. Hicks of Detroit is spending a few days at his home here.

—Miss Marguerita Garner of London spent the weekend at her home here.

—Mr. and Mrs. Garnet Thomson of Blenheim spent Sunday at John Thomson's.

—Miss Christina Sutherland is spending several weeks with friends in Picton, Ont.

—Mr. and Mrs. Alfred Squire left one day last week for an extended trip to the West.

—Hugh C. Ferguson of London spent a few days recently with his cousin, Charles Cameron.

—Mr. and Mrs. W. T. Jelly of Blenheim spent Sunday with Mrs. Jelly's parents, Mr. and Mrs. Ben. Towers.

—Mrs. R. Hicks has returned home after spending a week at Toronto with her daughter, Mrs. N. W. McCallum.

—Mrs. James McGregor and son Charles spent a few days last week with her sister, Mrs. K. Baxter of Chatham.

—Mr. and Mrs. William Allan and daughter Kathleen spent a week with Mr. and Mrs. A. Gardiner on their return from Calgary.

—Miss Margaret Urquhart and Miss Giger of Detroit are spending a few days with the former's parents, Mr. and Mrs. N. Urquhart.

—Dan. Trestrain and family are now settled in their new home on McKee street. Mrs. Trestrain will receive on the first Friday of each month.

—Mr. George Precious announces the marriage of his daughter, Edith, to Harry W. Hicks of Detroit, the marriage to take place the end of May.

—Alex. Merritt, Mrs. W. W. Merritt and son Alex. Mr. and Mrs. Burrell Merritt and Miss Veitch, all of Kent Bridge, spent Sunday at Colin Leitch's.

PRaise for Melbourne

At Melbourne, a small village near London, Ontario, four bandits sought to rob a bank. An alarm was given to which there was an instant and general response on the part of those in the vicinity, and three of the gunmen were arrested. In the course of the fight, however, a young fellow named Campbell, a returned man of much popularity, was killed by one of the burglars. The nearest police were in London, but despite the indignation among the villagers which the incident aroused, there was no attempt made to do violence to the criminals.

A better illustration of the law in Canada could not be given. It also serves to emphasize the duty of those who happen to be at hand when such a crime is attempted. It is not the first time that a bystander has paid with his life for taking a hand in such an affair. But despite all that is said to the contrary, there is no question that it is his duty as a citizen to do what he can to uphold law and order. If criminals could count on the indifference or cowardice of those who happen to be about, their task would be a much easier one.

This little Ontario village stands out in high honor because of the contrast between the conduct of its citizens and the conduct of those of some other communities faced with a similar emergency that might be named.—Edmonton Journal.

THE SILLY DANCE

(Winnipeg Free Press)

Something will have to be done to get dancing back to a sane and basis. For instance, what is to be done with the girl who hangs her chin over her partner's shoulder and allows her face to register the expression of a dying tuna fish wagging signals of distress to its mate?

Art Craft Roof

Canada's Roofing Sensation

YOU are going to hear a lot about Art Craft, the new roofing sensation, and you're going to want it on your roof for several very good reasons.

Art Craft saves time, trouble and labor cost, because it's applied right over the old shingle roof.

It is as handsome as it is durable. That's saying something, because it gives years and years of roof protection, free from upkeep cost.

A weatherproof, fire-safe roof is what you want and what you get.

And last, but most important, Art Craft is low-priced and inexpensive to apply.

Now will you come in and let us give you an estimate on Art Craft for your home?

SINN FEIN REPRISALS OCCUR IN SEVERAL ENGLISH CITIES

Members of Irish Constabulary Are Chief Sufferers—Innocent People Shot Down When Raiders Visited the Wrong Place.

London, May 15.—Violence involving bloodshed and which the police attribute to a Sinn Fein campaign to terrorize London commenced at midnight on Saturday in various suburbs of London and also at St. Albans, 21 miles north-west of London.

Several of the suburban towns were visited by armed men whose primary object appears to have been arson, but who, when interrupted, resorted to shooting. Three persons were wounded, one of them fatally. A man and his wife in St. Albans were shot.

In a majority of the cases the houses set on fire were occupied by persons connected with the Royal Irish Constabulary. The police assert that for some days there have been rumors in Dublin that raiders were planning a campaign in London.

A band of raiders who set fire to the house of one member of the Royal Irish Constabulary also shot and critically wounded a tenant of another member of the constabulary. At Tooting, raiders set fire to the residence of the father of a member of the constabulary. Similar acts of incendiarism were carried out in West Kensington.

In one place the raiders evidently made a visit to the wrong place, but in a scuffle with the occupants of the house they shot and wounded a man and his wife. Attempts at arson were made at East Greenwich and Battersea, but were frustrated. In North

Woolwich raiders set fire to a margarine factory, but the flames were extinguished before any extensive damage was done.

At St. Albans a former member of the auxiliary of the Royal Irish Constabulary and his wife were shot by raiders who visited their home. The raiders also knocked them on their heads and left them for dead. The wounds, however, proved only superficial.

The police to-day raided and searched seven places in London connected with the Sinn Fein organization. These included the headquarters of the Irish Self-Determination League. A quantity of documents was seized and one arrest was made.

A party of men, according to a Dublin Castle report, entered the town of Courtmasherry, seven miles south-east of Brandon, Saturday, and fired on soldiers who were off duty. The troops returned to the barracks and the rebels fired on the barracks for 20 minutes. Two of the soldiers were slightly wounded.

To-night constables MacLean and Cooper were fired on while strolling along the road near Skibbereen. Both men were wounded, and it is believed MacLean will die.

At the same time as the London outrages took place Liverpool was undergoing a similar experience, save that the Sinn Feiners were operating in a gang of fifty in motor cars. They set fire to numerous buildings in various parts of the city.

Aviatrix Breaks World's Record

Mineola, N.Y., May 15.—Miss Laura Bromwell, 23 year old aviatrix, to-day broke the world's loop-the-loop record when her plane, starting at a height of 8,000 feet, performed 199 complete loops before landing. The flight took place at Curtis Field.

Last year she established a record by performing 88 loops during a single flight. Her entire flight to-day consumed one hour and twenty minutes.

Betty's Definition.
"What," asked Miss Jones of one of her pupils, "do we mean by the word 'plural'?"
"Plural," replied promptly.
"By the plural of a word we mean the same thing only more of it."

Not Appetizing.
"Get up, Bobbie!" called his mother from the bottom of the stairs. "You know the early bird gets the worm."
"Is that all you've got for breakfast?" replied Bobbie, sleepily, as he turned over for another snooze.

NORTHERN PARLIAMENT OF IRELAND 52 SEATS; SOUTHERN 128

A despatch from Dublin says:—Ireland's Southern Parliament was practically constituted on Friday when the nominations were received for 124 of the 128 seats. The news received in Dublin Friday night indicated that, with the possible exception of a contest in Donegal, the candidates would be returned unopposed.

Four National University nominations took place on Friday. All available returns from the town and country divisions show the Sinn Feiners have been returned, many of them being either in prison or "on the run."

By returning four Unionists Dublin University provided the solitary exception to the Sinn Fein sweep. The four elected members were Prof. Sir J. Craig, Prof. W. E. Thrift, Mr. G. Fitzgibbon and Mr. E. H. Alton.

Among the Sinn Feiners returned are the following five women: Countess Markievicz, in prison; Miss Mary MacSwiney, sister of Cork's late Mayor; Mrs. Kate O'Callaghan, widow of the late Mayor of Limerick; Mrs. Clarke, widow of the executed rebel, and Mrs. Pearse, widow of the executed rebel.

cut rebel, De Valera, Michael Collins and Arthur Griffiths have also been elected.

It is expected the Parliament will be comprised of the following: Unionists 4, Sinn Feiners 124.

In Ulster there will be a contest for each of the 52 seats. Surprise was caused when five unofficial Labor candidates were put forward, but, as was anticipated, the Liberal and official Labor parties did not send nominations.

Altogether there were 78 candidates, the parties being represented as follows: Unionists 40, Sinn Feiners 20, Nationalists 13, Union-Laborites 5. One of the opponents of Sir James Craig, the Unionist leader in County Down, will be De Valera. The elections will take place on May 24 on the proportional representation system.

Joseph Devlin, Nationalist leader, opened his campaign in West Belfast Friday and said it would be a Nationalist "duty to smash the Ulster Parliament and make it impossible." They wanted one Parliament for the whole of Ireland.

A CHANCE TO KILL TWO BIRDS AT ONCE!

Organized Violence in Ireland

Belfast, May 15.—Miss Barrington, only daughter of Sir Charles Barrington, former High Sheriff of County Limerick, and who has been interested recently in endeavoring to promote a peace settlement between the discordant factions in Ireland, was shot and killed to-day in an attack upon a party with which she was travelling.

Nine policemen, two soldiers and a number of other persons were killed Saturday and to-day in attacks and counter-attacks at various places. Numerous persons were wounded. For general and organized violence Saturday and to-day probably were the worst since shootings on a large scale were inaugurated in January, 1919.

EFFECT OF GERMAN ACTION ON MONEY

Demand Sterling Reached the Highest Point Since a Year Ago.
A despatch from New York says:—International money markets, as represented by foreign exchange, were further stimulated on Thursday by Germany's acceptance of the allied reparations ultimatum.

Demand sterling, or bills on London, rose to \$4, the highest level reached by that remittance since April, 1920, when they made an extreme rise to \$4.07.

French and Belgian francs at 8 1/2 cents showed an overnight gain of about 20 points, and were at maximum levels for any period since the armistice.

The Italian lire rose 18 points, guilders, or Dutch exchange, gained 8 points, and marks, or German bills, sold at an overnight gain of one-tenth of a cent, rising to 170.

The greatest gain of any of the minor currencies was made by Greece, the drachma scoring an overnight rise of 75 points to 5.50.

Amnesty Offered to Wrangel's Army in Hiding

A despatch from Riga says:—The Russian Soviet Government has offered amnesty to all the officers and soldiers of the army of General Wrangel, former anti-Bolshevik leader in South Russia, who are now hiding in the Crimean mountains, providing they surrender their arms before May 20.

Ottawa to Receive New Speaker's Chair

A despatch from Ottawa says:—Friday, May 20, has been fixed as the day for presentation of the Speaker's chair, which is the gift of the United Kingdom branch of the Empire Parliamentary Association. Former Speaker Lowther of the British House will make the presentation.

GENERAL STRIKE IN BRITAIN UNLIKELY

Railway Union Fears Disaster Would Follow General Order to "Down Tools."

A despatch from London says:—The railroadmen's Executive met on Friday and passed a resolution forbidding the members of the National Union of Railwaymen from handling imported coal, whether it be needed for public utilities or not, and also forbidding the members from handling "coal of any description" that has been loaded or handled by blackleg labor.

Later it conferred with transport workers' Executive, with the result that an appeal was sent out to the trades unionists in other countries not to assist in forwarding coal to this country.

In these resolutions there was no mention of a strike, and it is rumored that the railroadmen had gone as far as they have only by a very small majority.

The opinion is growing that the union leaders are once again finding that to call a general strike would only bring disaster upon their organization. Not only are they afraid that so many men would refuse to down tools as to make their defeat sure, but they are faced by the fact that, so far, the Government has had no difficulty in finding railroadmen willing to handle the coal their very comrades have declined to touch.

With the general depression of trade, many classes of railroaders are working only three days per week, and when one gang has refused a coal-moving job experience has shown that the next set on the lots would be quite ready to take their place. Consequently the situation remains much as it was, and the general strike hangs fire.

Apprehension that there would be an actual strike of the railwaymen has been somewhat removed too, by the decision of the Glasgow and Clyde men not to go out in sympathy with the miners.

AUTOMOBILE USED IN TOURING ENGLAND

Crown Prince of Japan Finds Train Service Uncertain.

A despatch from London says:—The Crown Prince of Japan is having a real eye-opener as to the limit of Regal and even Parliamentary authority in England by finding himself at every turn up against the inconvenience resulting from the coal strike.

His tour through England will be made chiefly by automobile, as train service is so bad and uncertain it cannot be trusted.

There is no disposition on the part of his entourage to conceal from him what is happening. In fact, one gentleman that they find certain gratification in demonstrating to him the power of the people in this ancient kingdom by way of preparation for what royalty may have to face even in Japan before long.

LOSS OF MIZTEC FIRST LAKE DISASTER OF PRESENT SEASON

Barge Wrecked in Lake Superior During Terrific Snow and Wind Storm and Seven Lives Lost.

Sault Ste. Marie, May 15.—Six men, members of the crew of the barge Miztec, are believed to have lost their lives early on Saturday when the Miztec, with a smaller craft, the barge Peshtigo, broke loose from the steamer Zillah, of the O. W. Blodgett Line, off Whitefish Point, Lake Superior.

The barges broke loose during a terrific snow and wind storm. A message from the Whitefish Point life station late on Saturday stated the Peshtigo is safe at anchor about a mile off shore. The Miztec is believed to have been broken up. The Zillah was six miles above Whitefish Point when the barges broke away, the steamer getting in the lee of Whitefish Point. A coast-guard cutter took up the search for the missing Miztec.

Officers of the steamer Renown, which locked down on Saturday afternoon, reported seeing the body of a man on the roof of a floating cabin believed to be from the Miztec. As the Renown was approaching the wreckage, the body was washed into the water and sank. No other bodies were sighted.

Names of members of the Miztec crew are not known here. The Miztec carried a cargo of salt and was bound for Superior. The barge Peshtigo was going up light and was to have been dropped at Munising.

The Miztec was in tow of the steamer Myron when that vessel sank off Crisp Point, November 22, 1919, with a loss of 18 men.

The storm came with little warning to shipping men. About eight inches of snow fell and the wind blew a gale. All other craft on the lakes are believed to have weathered the storm in safety.

Captain of Buffalo, N.Y., is in command of the barge Miztec. It is believed the entire crew of the Miztec shipped from Buffalo.

The barge Peshtigo, that also broke from the Zillah, was picked up to-day by the Zillah and brought here. The Peshtigo lay to after breaking her tow.

Coast guards were patrolling the Whitefish Bay shore to-night in search for bodies from the Miztec.

A heavy northwest gale was whipping Lake Superior to-night and snow was falling but no other steamers were reported in danger.

Loss of the Miztec was the first lake disaster of the present season.

carried a cargo of salt and was bound for Superior. The barge Peshtigo was going up light and was to have been dropped at Munising.

The Miztec was in tow of the steamer Myron when that vessel sank off Crisp Point, November 22, 1919, with a loss of 18 men.

The storm came with little warning to shipping men. About eight inches of snow fell and the wind blew a gale. All other craft on the lakes are believed to have weathered the storm in safety.

Captain of Buffalo, N.Y., is in command of the barge Miztec. It is believed the entire crew of the Miztec shipped from Buffalo.

The barge Peshtigo, that also broke from the Zillah, was picked up to-day by the Zillah and brought here. The Peshtigo lay to after breaking her tow.

Coast guards were patrolling the Whitefish Bay shore to-night in search for bodies from the Miztec.

A heavy northwest gale was whipping Lake Superior to-night and snow was falling but no other steamers were reported in danger.

Loss of the Miztec was the first lake disaster of the present season.

Money for "Reds" Barred by Britain

A despatch from London says:—The British Government is considering the possibility of introducing legislation to prohibit the receipt of foreign money in the United Kingdom intended to promote a revolutionary propaganda. Edward Shortt, Secretary for Home Affairs, made this announcement in the House of Commons on Thursday, in answer to a question.

Rounding Up Reds in Britain

A despatch from London says:—John McLean, styled the Bolshevik consul in Scotland, and Alexander Ross, another leading British red, were arrested in Glasgow on Friday, charged with seditious speech.

LAST REMNANTS OF CANADA'S ARMY

Few Remaining Men in England Receiving Discharge.

A despatch from London says:—The Canadian Expeditionary Force has not yet quite disappeared from Europe, but the last few remnants are being demobilized, now that Canada's overseas military affairs have again been placed under the High Commissioner's office, to which Col. Complin is attached. The few remaining men are either being repatriated or are being allowed to take their discharge here.

The appointment of a military officer to act as a liaison official between the Canadian and British War Departments, originally proposed by General McBrien, now head of the Canadian Forces, has apparently been decided against.

Weekly Market Report

Toronto.

Hogs, \$12 to \$13 per cwt. Veal calves, \$8 to \$9.

15,000 PULP WORKERS ON STRIKE

Newsprint Production is Cut Down by More Than 60 Per Cent.

A despatch from New York says:—Information received here by union officials indicated that more than 9,000 paper mill workers in the United States and Canada went on strike on Wednesday morning, making a total of about 15,000 workers who have gone out since May 1 as the result of wage reductions of 30 per cent. proposed by the manufacturers. Union leaders declare that the seven mills forced to close down on Wednesday produce 4,000 tons of newsprint paper daily, or about 40 per cent. of the total output. Newsprint on hand is sufficient for 60 days.

A despatch from Montreal says:—Employees of the Abitibi Pulp & Paper Mills at Iroquois Falls went on strike on Wednesday to enforce a demand for a 10 per cent. increase in wages.

Six hundred men were employed at the mills and all left work at the expiration of the old wage agreement. They are members of the International Union for Pulp and Paper Makers.

A despatch from Sudbury says:—Approximately 700 men ceased work Wednesday morning at the Espanola mill of the Spanish Pulp & Paper Co., pending settlement of differences with the company.

A despatch from Sault Ste. Marie, Ont., says:—Twenty-one hundred and fifty men are out of employment as a result of the closing down of the three pulp and paper mills of the Spanish River Pulp & Paper Co. in the Sault, Espanola and Sturgeon Falls. In concert with all the paper mills throughout Canada and the United States, the mills here will remain closed until the settlement regarding wages is effected.

A despatch from Ottawa says:—The situation at the E. B. Eddy mills, where the employees have been on strike for a week, remains unchanged. The Eddy employees walked out when the management announced a twenty per cent. reduction in wages, effective May 2. About 350 men are affected.

University Summer Courses.

One of the most hopeful signs in the educational world is the increasing demand on the part of teachers in service for summer courses that will enable them to improve their academic and professional training. This demand seems to be based on the feeling that a new era is dawning in education and that those who have ambition for advancement must be prepared to take advantage of the larger opportunities that will be available. Again, progressive teachers must realize what a crime it is to waste the long two months' vacation "just loafing"; they know that a holiday person does not renew eight weeks of "rest" and they are also fully aware that no successful man or woman in any walk of life can afford to cease to be a student.

To provide facilities for teachers of this type the University of Toronto conducts, for five weeks in July and August, a summer session in arts and pedagogy. The summer course in arts provides a means of securing the B.A. degree without attendance at the regular university sessions, while the course in pedagogy leads to the post-graduate degrees of B.Paed. and D.Paed. A comprehensive calendar has been issued, giving full particulars of both of these courses.

In offering special facilities to the teachers of Ontario the Provincial University is, through these teachers, benefiting the youth of the whole Province—merely another proof, if such were needed, of the thoroughly democratic character of the University of Toronto.

The Promise-Maker.

The French are a practical folk and their experiences with Germany have left Paris without any illusions. France has found that Germany is a callous and stubborn debtor, who pays when she must and only when she must.

When the news that Germany had undertaken to fulfil the demands laid down by the Supreme Council reached Paris, not one hat was thrown in the air. Official circles remain, as they put it, "expectative" while unofficial quarters are almost pessimistic.

Who, asks the practical Frenchman, is going to see to it that Germany keeps her word this time? With a million Frenchmen standing to their arms, Germany agreed to the terms; but the French are troubled about it. They are wondering if they must maintain an army of occupation on the Rhine for the next forty-two years.

The French fear is that Germany will keep her promises just as long as a French bayonet is at her throat. This fear is founded upon experience. The French are tired of having to mobilize a few army corps every time the German gets another fit of stubbornness. They fear that the agreement just made by Germany is but another "scrap of paper."

Perhaps.

"Where," asked the female suffrage orator, "could men be today were it not for woman?"
She paused a moment and looked around the hall. "I repeat," she said, orator, "would men be today were it not for woman?"
"He'd be in the Garden of Eden eating strawberries," answered a voice from the gallery.

Satisfaction --- Always!

With a little bit lower prices than elsewhere. We don't rely on getting a drifting patronage, but to build up a host of friends by giving satisfaction every time.

The Transcript.

THURSDAY, MAY 19, 1921

NEWBURY

Rev. R. J. R. Perkins of Chatham will conduct service in Christ church on Sunday, May 22nd, at 11 a. m. Miss Martha Gordon is visiting London friends.

Rev. C. D. Farquharson will conduct a service for men only in Knox church on Sunday evening, May 22.

Knox church W. M. S. held their monthly meeting at the home of Miss Telfer, with twelve members and two visitors present. The usual devotional exercises were used. Excellent papers showing deep thought and careful attention were given by Mrs. Fennell and Mrs. Vanduzer on missionary work in China. The church, the Y.M.C.A. and the press are calling our attention to the 'great need for workers, and the cry comes time and again "Who will go?" The 23rd Psalm, translated into the Indian language, was also read.

Mrs. Charlie Armstrong and two daughters of Windsor spent the week-end here.

Ed. Grant and family of London spent the week-end with his parents. D. J. Batsner and wife returned from Detroit on Saturday. J. H. Bayne and wife and daughter Frances came with them for the week-end.

Miss Belle Gray of Detroit is visiting her mother.

Mrs. Dobbyn and daughter Minnie of Florence and Mrs. Risk of Flint, Mich., visited the former's son, G. D. Dobbyn, last week.

Friends here were sorry to learn of the death at her home near Brucefield of Mrs. L. Swan. The late Mrs. Swan was formerly Sadie Bowie, and was at one time milliner at W. Bayne's here.

The baseball season opened on Wednesday last with a game between Wardsville and the home team, plying in the Old Boys' Park. We inquired the score and were told that Wardsville had nine runs while the score card would only hold 26 so the balance of Newbury's ran over. R. H. Moore was umpire.

John G. Bayne and wife were in Toronto a few days attending the graduation of their son, H. Cameron Bayne. Cameron made 80 per cent. on his total at the examinations at the dental college, winning the congratulations of his many friends.

Misses Dorcas Glennie and Elsie Seaton, who recently passed their examinations at the London "business college," returned to London on Monday to take positions.

J. E. Burgess and wife of Dresden spent Sunday with his mother, Mrs. Mary Armstrong.

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

WARDSVILLE

A goodly number attended the concert which was given in the town hall, Wardsville, on Wednesday evening. The concert was by Bothwell talent and consisted of solos, readings, piano and vocal duets and ladies' and men's quartettes. The concert was under the auspices of the Women's Institute.

The following books have been added to the public library:—"Married Quarters," by David Lyall; "Queen Victoria," by John Coulter; "The Face of the World," by John Bojer; "Adventures of Old Mr. Todd," by Thompson W. Burgess; "Little Rivers," by Henry Van Dyke; "Travels With a Donkey," by Robert L. Stevenson; "Earth and Sky," by Julia E. Rogers; "Trees Every Child Should Know," by Julia E. Rogers; "Star Land," by Sir Robert S. Ball; "The Prince and the Pauper," by

Mark Twain; "The Gray Dawn," by Stewart Edward White; "Cross Currents," by Eleanor H. Porter; "Wildfire," by Zane Gray; "A Son of Courage," by Archie P. McKishnie; "The Yellow Dove," by George Gibbs; "Oh, Money! Money!" by Eleanor H. Porter.

A meeting of the A. Y. P. A. of St. James' church will be held on Friday evening in the church basement. The feature of the evening will be a mock trial.

Joe Creagan was in London on Wednesday. He reports that his brother Jim is improving rapidly.

Earl Thomas motored to London on Sunday.

Rev. R. J. Murphy was in London for a few days last week to attend a meeting.

Miss Helen Gnary and Miss Kleta Nelson of Chatham spent the week-end with friends in Wardsville.

Mr. and Mrs. Frank Henderson were at the Soo last week attending the funeral of their nephew, Lieut. Col. C. V. Campbell, O.B.E., who died in Toronto on May 7. The late Colonel Campbell was born in Wardsville and served overseas during the war, marrying an English girl. His home was in Sault Ste. Marie, where he had been an active member of the town council, a past grand master of the Masonic order and a member also of other fraternal societies.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

WOODGREEN

A large number of teams are drawing gravel from the Webster pit to Crinan.

Mrs. Thomas Simpson is spending a few days with her sister, Mrs. T. J. Elliott, at Florence.

Miss E. Roycraft spent the week-end at her home, Pratt's Siding.

Mrs. Ferris, Nebraska, and Mrs. Carr, British Columbia, have returned to Glencoe after spending a few days with friends here.

Richard Jackson spent Sunday at his home here.

Mr. and Mrs. Fred Scoyne of Blenheim spent Sunday at D. Perrin's.

A number from here attended the funeral of the late Mrs. Wm. Weekes, who lived for many years in this vicinity.

The community was shocked to hear of the sudden death of David Waterworth on Sunday evening from hardening of the arteries. For many years he lived at Woodgreen. Two years ago he moved down on the Bend Road to Mr. Whitfield's place. The funeral was held today (Wednesday).

MOSA

No. 9, Mosa, Women's Institute entertained the members of Appin and Newbury W. I. and No. 12 Needle Club on May 12 at a demonstration given by Mrs. Greer of Toronto on labor-saving devices. Miss McAlpine, the president of No. 12, presided at the meeting. A short program was rendered, consisting of a solo by Mrs. Foreman of No. 12, recitation by Miss Marion Campbell of Appin, recitation by Miss Gertrude Purcell of No. 12, reading by Mrs. Armstrong of Newbury, reading by Mrs. McAlpine of No. 12. Lunch was served, and the meeting dismissed by singing the national anthem.

NORTH EKFRID

Jim Pettit of Strathroy has bought the Joel Case farm and took possession last week.

There were a number from this vicinity attended the funeral of Mrs. Jeffery last Wednesday.

Mr. and Mrs. Adam Roemmele spent Sunday in Melbourne.

We are pleased to see George Chisholm around again.

Walter Roemmele had the misfortune to break the axle of his car.

The Swastika Mission Band met at Lila Roemmele's Wednesday afternoon, with a good attendance. Miss Pearl Pettit took the topic, Tea was served in the evening.

Mrs. Will Pierce spent the week-end in Fingal with her sister, Mrs. Hagerty.

The W. M. S. met at Mrs. William Dwyer's Thursday afternoon. There were thirteen ladies present. Tea was served by the hostess.

Miss Veta Mills of London is home on a visit.

Oliver Down is very much better. Mrs. Henry Pettit spent a few days with her son, Roy, at Walkers.

Born—to Mr. and Mrs. Harry Hardy, May 9th, a daughter.

Carl Sterling has purchased a car. Mrs. Charles Roemmele and her father, Wm. Nichols, have gone to Windsor for a two weeks' visit.

Miss Ella Mills is the guest of her brother, Gordon Mills, London.

CAIRO

Our village blacksmith is kept very busy these days repairing wagons, etc.

Mrs. E. Arnold has moved to the farm owned by her son, A. D. Henry Vogt has moved onto his farm which he recently bought from Mrs. M. Coleman.

J. W. Switzer has rented the farm owned by C. J. Watson.

W. H. McKeown has been awarded the contract of carrying His Majesty's mail from Cairo on Route 1.

Mrs. D. M. Smith, who has been in Aberfeldy during the past week, returned to her home here on Sunday.

SHEPHERD

Mr. and Mrs. George Bolton were in Chatham Monday.

Mr. and Mrs. Robert Gray returned from Oshawa on Tuesday.

Mr. and Mrs. Fred Jeffery were at Longwood attending the funeral of Mrs. John Jeffery.

Sorry to hear that James Blakie had to return to London.

Mrs. Duncan Bolton has returned from visiting friends in London.

Little Mildred Bolton fell the other day and broke her arm.

Harold Moorehouse is improving nicely.

Service was held in the church on Sunday evening.

Jean and Jack Archer spent Sunday at their home.

Mrs. Robert Gray is in Mossa attending to Mr. Gray's mother, who is seriously ill.

Miss Verda Badgley and E. Melser-Livray spent the weekend at their homes.

Thomas Wilson spent a few days with his brother, John Wilson, and Mrs. L. H. Badgley.

DRAGGED DOWN BY ASTHMA.

The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to many sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

APPIN

We are sorry to hear that Mrs. Seates is not improving in health.

Angus Galbraith is about again after four weeks in bed with rheumatism.

Charles Macfie occupied the pulpit in the Presbyterian church on Sunday last and his able discourse was much appreciated by the congregation.

Miss Jean May is enjoying holidays from the Royal Bank just now.

Sugar beets are being sown extensively this spring in this neighborhood. Also some cucumbers are being tried by many for the first time in any quantity.

Miss Dorothy Thornicroft, nurse in training at Victoria Hospital, London, spent Monday at her home here.

ELMSVILLE

We had a fine display of northern lights on Friday night. They are considered a forerunner of a cold wave, which theory has proved correct in this case as overcoats and wraps are again in demand and a fire feels comfortable. It is to be hoped we have no frost as the fruit crop has already suffered to some extent.

We have the whip-poor-will with us again. They are supposed to herald good weather. Let us hope they are not mistaken.

The farmers are wondering who is putting the "mar" in the markets. Produce has dropped about fifty per cent. Hogs and cattle have also taken a decided slump, while it doesn't pay to skin an animal for its hide, for as a certain dealer put it: "We are not buying them; we are simply taking them in." It is rather discouraging to the farmer, as war prices still prevail in other necessities.

As Mr. and Mrs. Wm. Gage were driving recently in the vicinity of Florence a farmer's dog ran out, barking, frightening their team, which ran away. Mrs. Gage was thrown out and sustained a badly bruised arm and some cuts about her head and face. Mr. Gage escaped without injury, but the buggy-pole was broken. The horses were found tangled up in a wire fence but escaped with a few scratches.

Eighn McAllister, one of our prosperous young farmers, was recently married to Miss Gertrude Smith of Brooke.

James Moran and Neil Watterworth are working with their teams on 25 sideroad, Euphemia, one of Lambton's county roads.

Mr. and Mrs. J. C. Watterworth of Glencoe recently visited at the home of the former's brother, Joseph.

KNAPDALE

Jack Frost was an uninvited Knapdale visitor on Sunday night and as such received a very cool reception. Although at the time of writing the nature and extent of his trip is unknown it is feared that his love for beautiful scenery may have led him to visit some of the choicest gardens, strawberry patches, meadows and growing crops.

Mr. and Mrs. Dan McNaughton and daughter Jessie, accompanied by Mr. and Mrs. James Corbett, motored to London one day last week.

A Toronto oil company intends drilling a hole on John McDonald's farm in the near future.

Pleased to report that Mrs. Duncan McNaughton, who has been seriously ill with pneumonia, is much better.

James Brown left on Saturday for Windsor to attend the funeral of his nephew, George Parsons.

Mrs. J. E. Corbett and James A. McLearn were called to Detroit to attend the funeral of Mrs. W. H. McLearn, mother of Mr. McLearn and sister of Mrs. Corbett. Burial was at Evergreen cemetery, Detroit.

STRATHBURN

Miss Nora Cameron of Montana is visiting at D. R. McRae's this week.

Gravelling of the townline from Strathburn to Glencoe was begun this week.

Mrs. Charles Simpson and daughter May are recovering from an illness.

Campbell; vice-president, Stella McDonald; secretary-treasurer, Sadie Switzer. Lunch was served and a happy time was spent.

Worms, however generated, are found in the digestive tracts, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the hurtful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.
