from Postmaster-General Wansborough at
Washington: "I beg to say that the
gratifying and congratulatory telegrams
which have been received from all parts of
the world, and we now look forward to
an early reduction to 1-cent letter post-
age."

An Impending Storm.
BERLIN, July 7.—There are growing signs
of an impending storm in the Balkans.
The situation is so grave that the holiday
vacations of the leading officials of the For-
eign Office have been stopped. Sir W. A.
White, the British ambassador to the
Porte, who was just beginning at Gartin a
furlough to last several months, hurried
back to Constantinople after having a long
interview with the Emperor of Austria.
The Emperor has also countermanded the con-
gratulatory telegram which he had sent to
the Emperor of Austria. A momentous change appears to have oc-
curred in Germany's policy in the Bal-
can States. In pursuing the semi-
neutral policy of Prince Bismarck, the
Emperor has directed Herr Rad-
dowitz to take the initiative in ad-
vising the Porte how to meet the content
of the Russian ultimatum. The Emperor's
scheme of settlement, according to the
accepted report in diplomatic circles, involves
the displacing of Prince Ferdinand and the
substitution of Prince Karl of Sweden as
ruler of Bulgaria in his stead, and also an
arrangement of the Russian indemnity by
capitalizing the amount through the Inter-
national Council of Administration which
now controls the Turkish loans. A general
explosion in the Balkans may occur before
the powers have time to consider Emperor
William's proposal. Greece and Serbia
have also added to the general commotion
by presenting notes to the Porte stating that
any concessions to Bulgaria would require
similar concessions to the Greek and Ser-
bian nationalities.

A Rumor is current in Paris that Prince
Ferdinand of Bulgaria has notified Prime
Minister Stambouloff of his intention to ad-
vocate.

The Tory Organization Demoralized.
LONDON, July 5.—The shock of the
tremendous blow delivered to the Tory
Unionist Government by the Barrow elec-
tions on Wednesday cannot be described to
those who study English politics from a dis-
tance. Compared with all other dis-
asters which the Ministry have encountered
since 1886 were trivial. Caine, having
quarrelled with the Unionists, resigned
his seat, thought he could impose himself
upon the Liberal Liberals on his own terms,
but he insisted in running their own man,
whereupon every politician in the United
Kingdom made a dash for the Tories. Dr. Mc-
Gowan, the Tory Unionist, resigned his seat
on the strength of this universal expecta-
tion, the Ministry began to pick up their
spirits and to talk boldly. When the result
was announced, and, to the general bewil-
derment, the Liberal was discovered to lead
in the poll, the effect was instantaneous.
The Government curled up like Bret
Harte's philosopher under the application
of the sandstone to his abdomen. Caine
fopped on his knees and humbly
prayed the Liberals to allow him to return
to the fold on their terms instead of his.
As for the Liberals and the Irish, they are
mustered all their forces to lift the roof of
the Parliament House with wild cheers of
triumph when the victorious Liberal takes
his seat for Barrow. This week will be one
of long and cruel punishment to the dis-
abled and tottering Government. All the
legions which the Ministers announced at the
beginning of the session must now be
channeled, and now there is a report that
Mr. Smith has already taken the Children
Hundred, and will be elevated to the
peerage. A whole cloud of other ministerial
darken the air, but it is difficult to
select any as worthy of credence than the
rest.

The great auction sale of C. & J. Allen's
big stock of jewelry, diamonds, watches,

tion. The sales are held daily at 3 and 5
o'clock p.m.

action. This is a medicine adapted for the
young and old, rich and poor, and is rapidly
becoming the most popular medicine for
cholera, dysentery, etc., in the market.

cracker—Four Children

taining 50 pounds of powder exploded in
August Smith's grocery at Industry Satur-

WORK AND WAGES.
Bow Street "Bob" on Strike—Rail-
way Yardmen Go Out.

LONDON, July 7.—Saturday night the
policemen at Bow street station refused to
go on duty because a constable who had
taken a prominent part in the agitation for
the improvement of the condition of the
police force had been removed to another
district. Eventually this constable was re-
instated, and the Bow street men returned
to duty. Next day 49 of the recruit
policemen were suspended.

Several of the policemen were to-day
dismissed from the force. There is much
excitement among the police over the
matter and they threaten to go on strike
to-morrow.

steamer Eleanor, bound eastward through
Hell Gate Saturday evening, collided with
the Walter Sands, one of two barges
lashed together, upon which were nearly
300 men, women and children in tow
of the tug boat Idlewild. It is almost a
miracle that a terrible disaster and great
loss of life did not follow. Fortunately,
however, one was killed, though several
were injured.

Newfoundland's Troubles.
HALIFAX, July 7.—Newfoundland news-
papers are filled with articles on the fishery
troubles. The St. John's Herald says: "The
moderate vivendi agreed upon by England and
France is illegal, and that the Supreme
Court will be called upon to determine
whether it is or not." It says: "The day
before yesterday the Rabble is passed, the die is
cast. We won't be treated as though we
were, to quote an English journal, 'a mere
handful of fisher folk not fit to be called
citizens.'"

British subjects. We will rise as one man
for the defense of Newfoundland and the
liberties. If the bait hook question would
be settled, and the French would be glad to
make peace on Newfoundland's terms."

Another Long Spell of Torrid Tempera-
ture Predicted.

CHICAGO, Ill., July 7.—According to the
predictions of the local signal service offi-
cials, and in view of the surrounding condi-
tions, Chicago and the Northwest are in for
another spell of hot weather which is likely
to surpass the one of a few days ago, not
only in extent but in duration and in-
tensity.

At various points yesterday the mercury
stood at 100°. At Valerius, Nebraska,
the thermometer stood at 102° for two days.
"If the wind remains southerly," said
Sergt. Frankfield last night, "and the
indications are that it will, we are in for
another 90° and 94° in the shade in
Chicago to-morrow." Sunday it was 87° at
4 p.m. There is no rain in sight. This
prediction bids fair to be fulfilled. At 10
o'clock this morning the thermometer
stood at 85°. A hot, dry wind from the
prairies is blowing.

damage to carpet and furniture than any-
thing ever invented. No careful house-
wife would have one about. Wilson's Fly

means. If placed near the light where the
flies are thickest, Wilson's Pads will kill
pintillions day, and clear the house in short
order. Sold by all druggists.

Pads, and could not be put to better use.
For exterminating Flies, Ants, Cockroaches,

In the days of George Stephenson, the factor of the locomotive engine, the fact proved conclusively that a railway train never be driven by steam power success and without peril; but the rushing trains from Liverpool to Edinburgh, and Edinburgh to London, have made all these witnesses of the splendid achievement. The latest and various proved conclusively.

that a steamer could never cross the Atlantic Ocean; but no sooner had the fact been proved than the impossibility of an undertaking than the world had done, and the passengers in the *Clara* and the *Inman*, and the *National*, and the *White Star* lines are witnesses. Then up a guffaw of wise laughter at Morse's proposition to make the light of heaven his grand-boy, and it was positively that the thing could never be done; but now all the news of the wide world is at hand.

Associated Press put morning and night, has made all nations newsmen. So in the time of Christ it was conclusively that it was impossible for rise from the dead. It was shown that when a man was dead, he was dead; the heart and the lungs and the lungs ceased to perform their offices, the limbs be rigid beyond all power of friction. They showed it to be an absurdity that the dead Christ should be up alive; but no sooner had they produced than

THE DEAD CHRIST AROSE, and the disciples beheld him, heard him

and talked with him, and they told him to stand to prove that he was the true owner of the acres of the day and had proved to be in the record of the experience and the testimony is in the text: "Him hath God raised from the dead, whereof we are witnesses. Now, let me play the skeptic for a moment." "There is no God," says the skeptic. "I never seen him with my physical eyes." Your Bible is a pack of contradictions. There never was a miracle. Lazarus was never from the dead, and the water was not turned into wine. Your religion is an imposture of the ages. There is nothing new over yonder as though

like to respond. Here are hundreds of men and women who are struggling with faces a little flushed at these statements, and all through this assembly suppressed feeling which would like to get out in behalf of the truth of our Christianity, as in the days of the test out, "We are witnesses." The fact of this world is ever brought to God, but be through argument, but

THROUGH TESTIMONY.

You might cover the whole earth with witnesses for Christianity and learned it as a defense of religion; you would not touch the soul. Lectures on the harmony of science and religion are beautiful

but there are no people to-day. People laughed at Dr. Judson, the Baptist missionary, kept on preaching in Burma till he got a single convert; but there are no Christians in Burma to-day. People are in China, for people in seven years without a single convert; there are 25,000 Christians in China. TEMPEST-TOSSED MINISTERS.

The British Government is in a bad way.

It has been in a state of decadence for some

time, and there is no doubt that it would

soon go to the wall, if the voice of the

electorate could be heard in every

congress as it was proclaimed in the

recent Barrow-in-Furrow contest. The

fact is, the Salisbury Government has never

acted on a firm foundation. It exists by

the cleavage of the anti-Home Rule Liberals

(with the old-time Tories, and the unstar-

alliance has not worked well. The two wings

A NEW COFFEE REGION.

Hitherto the coffee supply of the world

has been mainly obtained from Brazil,

Java, Ceylon, Sumatra, Peru, Bolivia and

Central America. But it has been long

known that the coffee plant grows in a wild

state in Western Africa, and now the Com-

missionary Stanley first organized as a

civilized State, and to which, as Gov-

ernor, he will soon take his bride, promises

to add to the world's supply of the

aromatic beverage. The first coffee culti-

vated on the Congo has been harvested, and

sent to Antwerp. It was raised near the

capital, Leopoldville, 325 miles from the

coast. The Chamber of Commerce

at Antwerp reports it a fair sample, and

says it will stand well in competition with

the grades of Java, Hayti, and Santos that

are most largely used in Belgium. The of-

ficials of the Congo State are greatly

pleased with this report, as it is believed

the chief value of the Congo will ultimately

be the coffee and cotton plantations. The lat-

ter will develop more rapidly as the natives

are taught to believe that they need

clothing. Just now, more of them remain

nude than don clothing of any kind.

"LUXURIES."

The silly season is indeed here. Every

other Conservative paper that one turns up

has a long yarn on the Dominion tax ques-

tion, in which it is gravely asserted that

no Canadian need pay a cent of taxes to

the Dominion. The Dominion, the

apologists for high taxation tell us, are

luxuries, and only the rich need them. At

that rate we must all be rolling in wealth.

PERSONAL AND GENERAL.

Eight ladies graduated as doctors at

Ann Arbor, Mich., last week. The report

says that they were all pretty. Who would

be so?

The whisky ring in Canada are making

a big thing out of the new arrangement.

By the recent advance in price, it is re-

ported, Hiram Walker & Sons, of Walk-

erville, call \$400,000.

There is change of fashion even in

grief. A new style of mourning paper

drops the band of black all around the sheet,

and has it drawn diagonally across the

left-hand corner only.

It is understood that the title to be

bestowed by His Majesty upon Prince George

of Wales is that of Duke of Sussex and

Lancaster. Her Majesty is evidently de-

termined to make these royal distinctions

as all-embracing as possible. It is a long

way from Sussex to Lancaster.

Sir Edwin Arnold has been offered

\$100,000 for his new poem of 6,000 lines.

That is a big price, but we trust it will

be assumed by would-be poets in Canada

that it is the market price for a poem of

ten million lines.

It has been reported that Miss Will-

ard, the distinguished temperance advo-

cate, had a very hostile reception in the re-

cent Sunday School Convention at Pitts-

burgh, the opposition even contending that

she should not be allowed to speak. But

later information shows that this statement

is false. Miss Willard had a very cordial

reception from the Canadian delegates.

The idea of an

intelligent Sunday school worker being op-

posed to Miss Willard is preposterous. In

no place is she more popular with the best

people of the community than in Canada.

The sequel of the brutal sparring

match between Garrard and Brennan in

Chicago, in which the latter met his death,

is instructive. A verdict has been returned

by the coroner's jury finding no one re-

sponsible for the death of Brennan. The

result might have been expected. It is an

undoubted fact that when the dead man

entered the fight he took his chances as to

consequences. His chief aim, as well

as that of his associate, was to make money

by his exhibition of physical strength and

agility. The whole exhibition, however,

was a disgrace to the community which

tolerated it, as Mayor Cregier virtually con-

fesses by announcing that it is the last

of the kind which will be permitted in

Chicago.

DETROIT, July 6.—The Detroit made three straight today, giving the London another hard beating in a rather interesting game. Demaris' ride-shot delivery had no terror for the Wolverines, who tapped out singles, doubles and triples from start to finish. He was badly supported, the champions scoring six unearned runs in the seventh. The score:

LONDON.

DETROIT, July 6.—The Detroit made three straight today, giving the London another hard beating in a rather interesting game. Demaris' ride-shot delivery had no terror for the Wolverines, who tapped out singles, doubles and triples from start to finish. He was badly supported, the champions scoring six unearned runs in the seventh. The score:
