

The Five Months' Session of Parliament Closed.

Formal Proclamation by the Governor-General—Postmaster-General Haggart's Case.

OTTAWA, Sept. 30.—The House sat today. Speaker White announced that he had issued his writ for a new election in Quebec West, rendered vacant by expulsion of Hon. Thos. McCreery, M.P. Mr. Abbott's address from the Senate to her Majesty on the trade question was carried after considerable discussion.

The Northwest Territories Bill was dropped because unanimous consent was necessary. Hon. Mr. La Riviere objected to the reduction in the representation from Saskatchewan.

OTTAWA, Sept. 30.—This afternoon the Governor-General proceeded in state to the Parliament buildings, and the members having been summoned to the first session of the seventh Parliament of the Dominion of Canada in the usual way, reviewing the various matters that have come before Parliament during its past five months' sitting.

MR. THOMPSON'S BUNDO. In an article headed "L'Affaire Haggart" it is argued in Le Canada of last evening that if the Minister of Justice believes that the charges against Mr. Haggart were without foundation it was unjust in him to leave the accusation hanging over Mr. Haggart's head.

The printing of Parliament last year cost \$71,961. It is believed in Ottawa that Mr. Dalton McCarthy will be made chief justice of the Supreme Court.

Sir Charles Tupper has not yet received instructions to proceed to Washington, although the date for the alleged negotiations with Messrs. Blaine and Harrison was fixed for Oct. 12.

In the Senate yesterday Premier Abbott introduced a bill amending the Northwest act of this session, which, having been already assented to by the House, was passed in any way.

WILD WEST WAYS IN NEW YORK. A Train on the New York Central Held Up and Robbed.

UTICA, N. Y., Sept. 30.—Special American express train No. 3, due here at 1:30 a.m. to-day, was robbed between here and Little Falls. The robbers brought the train to a standstill a mile east of this city by applying the air brake by means of the valve in the car, and then escaped in the darkness. The express agent in charge of the car was A. B. Moore, who resides in Buffalo. It is not known how much was taken, but one package of \$1,000 in currency was concealed by Moore and was therefore saved.

UTICA, N. Y., Sept. 30.—A. B. Moore, the messenger in charge of the car robbed on the Central this morning, has today the confidence of the officers, and is in every respect considered a trustworthy man. The story as learned here to-day is that Moore was in the center of the car, which was filled with freight, when the robbers suddenly appeared before him and thrust a revolver in his face. At the same instant they caught Moore's revolver from the case on top of the messenger's trunk or box and then commanded the messenger to open the door of the safe.

There were four safes in the car, but Moore had piled freight on three of them and only one was in sight. As the robbers were looking over the packages in the car, Moore saw them and they thought that not more than \$1,000 was taken.

"The Chemist and Druggist," London Eng., the leading journal of its kind in the world, says: "St. Jacobs Oil has not only the largest sale of any medicine in the world, but it is the most popular."

Bishop Thompson Says White and Colored People Ought Not to Affiliate.

GRAND RAPIDS, Mich., Sept. 30.—The African Methodist Conference decided to meet next year in Fond du Lac, Wis., but this decision was not reached until Bishop Thompson had delivered a brief dissertation upon the relations of the white and colored people. He said they never could and never ought to be expected to affiliate. He appreciated highly the efforts made by the whites to carry the gospel among the colored people of the South, but declared that if the money spent in sending white preachers to colored people was devoted to equipping colored pastors for the service work, \$1,000 would go as far as \$10,000 does now.

CURIOUS COURTSHIP. A Baltimore Spinster Weds a Sen. Captain After a Short Acquaintance.

BALTIMORE, Sept. 30.—A wedding which took place on Friday evening was the culmination of a very remarkable courtship. The groom was Capt. Moore, commander of a freight steamer, and the bride a Miss. Up to a few hours before the wedding, the couple had never seen each other, the courtship having been carried on entirely by letter. Capt. Moore, twenty years of age, yielded to the tender passion and took to himself a wife. The fruit of this union was a girl, who is now a young woman. Some two years ago the daughter left her London home, the mother having died, and came to Baltimore. It was the same house where Miss. Up to a few hours before the wedding, the couple had never seen each other, the courtship having been carried on entirely by letter.

THE GUATEMALA RIOTS. New York, Sept. 30.—A special from the city of Mexico confirms the reports of riot in Guatemala Sept. 15. The loss of life seems to have been almost entirely on the part of the mob. GERMANY'S GRAIN CROP. BREMEN, Sept. 30.—Returns received here from the most reliable sources throughout the empire show that the total summer and winter wheat crops of Germany amount to 18,407,740 double quintals, against 17,523,067 double quintals last year. The exports to Sept. 29 last year were 80,915 cattle and 46,775 sheep, so that there is a decrease this year of 3,217 cattle and 17,496 sheep. This decrease is accounted for in the case of cattle by the shipment of Canadian stock via the United States. Fewer sheep have been shipped because the markets on the other side were bad.

AN HONOR OF PEACE. PARIS, Sept. 30.—M. Ferry, in his St. Ide speech, said: "The present state of affairs is unique in modern history. For twenty years we have gazed upon the horizon with peace. There is not the slightest fear of a Ministerial crisis or of a popular agitation of any kind. The events at Comstock and Fort Sumter, the political and social lessons to be drawn from them, and the fact that a stable Government could secure such honors."

THE GUATEMALA RIOTS. New York, Sept. 30.—A special from the city of Mexico confirms the reports of riot in Guatemala Sept. 15. The loss of life seems to have been almost entirely on the part of the mob. The Government was unable to control the rioting, and reports of uprisings in other parts of Guatemala seem without foundation.

GERMANY'S GRAIN CROP. BREMEN, Sept. 30.—Returns received here from the most reliable sources throughout the empire show that the total summer and winter wheat crops of Germany amount to 18,407,740 double quintals, against 17,523,067 double quintals last year. The present crop amounts to 3,371,749 double quintals, against 3,601,609 in 1890.

At the Sarnia Assizes on Tuesday the grand jury returned a true bill against William B. Kenny, charged with bribing municipal council. This is the case in which great interest has been taken, arising as it does out of the endeavor of the town to enter into a contract with the Bell Telephone Company to erect a fire alarm system there. An action was also tried to restrain the town from entering into the agreement. The case was argued, and judgment reserved. The grand jury found a true bill in Queen vs. Hines, charged with rape. A bench warrant has been issued for Hines' arrest. He is supposed to have left the country. The Assizes will probably not conclude before Friday or Saturday.

I would rather dwell in the dim fog of superstition than in an air rarefied to nothing by the air pump of unbelief—in which the panting breast expires, vainly and convulsively gasping for breath.—[Richter].

Children Cry for Pitcher's Castoria.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deadly sickness at the stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. Signed, JOHN D. COX.

London, Thursday, Oct. 1.

AN IMMIGRATION TROUBLE.
Dr. Herman Adler, chief rabbi of Great Britain, recently sent the following note to the London representative of the New York Herald:

"Office of Chief Rabbi.
"Sir—I had a long interview with Baron Hirsch some little time ago. His desire is to settle the poor exiled Jews of Russia in agricultural colonies in Argentina and Canada. Yours faithfully, (signed) H. Adler."

Upon which, the Herald correspondent comments:

"To those familiar with the failure of the past efforts of Russia to induce the Jews to take up agriculture, Baron Hirsch's plan, which I now authoritatively announce, will be interesting. The question is: If a Jew will not dig in Russia, will he dig in Argentina or Canada?"

That this is a serious matter for Canadian no one can deny. A special cablegram from London asserts that "there is an imminent danger of a large influx of Russo-Jewish refugees" into Canada, and that they are being booked through to various points in the Dominion.

Our authorities must take prompt action to do justice to all interests. If Russian Jews or any other people are sent to Canada, and are able and willing to go on our public lands and cultivate them, they should be welcomed; but if they are destitute, or even in very poor circumstances, and desirous of settling in our cities and towns, the immigration should be discouraged. Even supposing they were self-supporting, and could speak English, they would find it hard to get employment in the present state of the labor market, and in all probability would become a charge on the public before the severity of the winter passed away. Baron Hirsch and those who are working with him should be made fully aware of all the facts. It is criminal to send these poor people to a country like Canada at this season of the year. Our population of poor and semi-dependent citizens is already too large.

THE NEW WHEAT FIELDS.
As the Advertiser predicted some time ago the area of Ontario land sown with winter wheat this season has been largely increased owing to the exceptional success of the last crop. There has been a literal "rush into wheat." Should next season not prove as favorable there will be many disappointed farmers, for the chances are against those who have cast their seed into poorly tilled and poorly fertilized stubble fields. We are pleased to note, however, that the number who pursue more advanced methods in winter wheat culture have largely increased. The wonderful virtue of clover seed is becoming more generally recognized with correspondingly good results. The new crop, the bulk of which in Western Ontario was sown in between Sept. 1 and 15, made a marvellously fine start, and the numerous broad fields at this writing present a beautiful appearance. Germination and subsequent growth have been phenomenally rapid in consequence of frequent heavy rains, followed by great warmth. Wheat, observed by the writer, had sprouted and was fully above the ground on the fourth day after sowing. With continued weather like that of the past few weeks it may attain a very heavy top before winter sets in. In fact, it may attain too rank a growth.

Not only is the acreage sown extraordinarily large, but our farmers have never evinced so keen an interest in new and improved varieties, the quality of costly new wheats, such as range from \$4 to \$19 per bushel, and which are usually tried first in small lots, being fully double that of previous years. Mr. C. A. Zavitz, superintendent of grain experiments at the Ontario Experimental Farm, reports that after the appearance of their bulletin on the winter wheat of 1890-91 he was in receipt of between 700 and 800 letters from farmers asking for further information, samples for testing and larger quantities for seed.

An "insolent Deputy Postmaster-General" has been assailed for some time back by several of our Conservative contemporaries, because of absurd postal regulations. It now turns out that Postmaster-General Haggart formulated the edicts! So far he has escaped denunciation. The edict has gone out that he must be regarded as a prince among statesmen.

IS IT THE DAWN OF A NEW ERA?

The Parliament of Canada was prorogued yesterday, after sitting for five months and a day. It has been a memorable session, full of surprises and exposures.

Before the House assembled, it was clearly proved that the premature dissolution of the former Parliament was carried out on false pretences. Ordinarily, the House would have met in February and would have adjourned before the end of May, to prepare for a general election; but this year the Conservative leader professed to see imperative necessity for entering on immediate reciprocity negotiations with the United States, and with the support of a new Parliament. He brought Sir Charles Tupper to Canada to attack the Liberal party, though it contributed one-half of his salary, and to misrepresent the Grand Trunk Railway and all who failed to knuckle down to him.

By agencies which will be fully revealed in the coming election trials, Sir John Macdonald secured a majority, though it was greatly reduced, when compared with his majority in the previous House. It was soon shown that the pretence of urgency on the score of reciprocity negotiations had no foundation. Sir Charles Tupper, Sir John Thompson and Mr. Foster rushed down to Washington and had that miserable two-minute talk with Mr. Blaine. Sir Charles was forced to confess that he told an untruth when he stated that Mr. Blaine had made an offer of reciprocity; and then they were sent about their business till Oct. 12.

The House had only been in session a week or two when Sir John Macdonald was stricken down with the disease from which he died, and from that day to this Parliament has been occupied in considering and disposing of charges of malversation such as has never before been revealed under responsible government. But little useful legislation has been carried through. The Ministers, headed by the chief distributor of the Pacific Scandal corruption fund, have been fighting for their political lives. While they have been professing anxiety to unearth and punish the wrong-doing that is inherent in the system of government inaugurated by their chief, they have whitewashed the greater sinners, as in the case of Sir Hector Langevin and Mr. Cochrane, M.P., and have called upon their followers to prevent investigation into the serious charges against Postmaster-General Haggart. So anxious were they to save Sir Hector that they hired two eminent lawyers, at a salary of \$4,000 each, to defend him and his department from the onslaughts of the inquisitive Liberals who gave Mr. Tarte loyal support in his crusade against the thieves in high places. As the investigations developed it was made evident that Sir John Macdonald and at least three of his Ministers were long ago perfectly cognizant of the true nature of the charges made against Sir Hector Langevin and Mr. Chaplain, and we learn on good authority that if the Conservative majority had refused to follow Sir John Thompson's advice to vote down all inquiry into Mr. Haggart's case an equally rotten state of affairs would have been revealed. The inference is that he did not desire to advance reciprocity, but the determination to smother the volcano of corruption that has since belched forth in all its hideousness, was the impelling force that decided the high tax leaders in springing an election at the time chosen. They knew that if they let Parliament run its full course, and the rascalities could be laid bare, aroused public opinion would have swept them from power.

There is hope yet. The Government has but a slim majority. The seats held by over a third of its supporters are attacked in the courts. If past experience is any guide, many of the members who have pardoned crimes against the commonwealth will fall by the way. Surely no self-respecting constituency will seek to strengthen the hands of the condoners of Langevin's crimes against the public interest, the offenders of the buying and selling of public offices with the direct sanction of a member of Parliament, the suppressors of inquiry into grave charges against a Cabinet Minister, the supporters of ring and monopoly rule.

In the session just closed, the Liberal leaders have made their influence felt to a degree that proves they practically control legislation. Again and again the reforms which they advocated were crystallized into law, and in one notable instance a resolution affirming the right of the Public Accounts Committee to inquire into every public expenditure, whether or not a Minister was affected by it, was carried unanimously, though in the committee no fewer than six Ministers had conspired to repudiate that principle and had suppressed incriminating testimony. Nominally, therefore, the Liberals have been the real ruling force in Parliament. It seems meet, under all the circumstances, that at the earliest possible moment they should be given complete power to purge the public service and formulate laws for the benefit of the whole people. They will have an opportunity of showing in the bye-elections, to their fellow-citizens, as well as to the watching outside world, whether they care to be longer plundered or are determined to effect a change which will warrant the declaration that Canadians are fit for self-government.

THE LAST OF BOULANGER.
General Boulanger, whose suicide is chronicled in our sub-column yesterday was sensational in his life, as in his extraordinary career. How he came to be a political possibility and to develop a strength which even threatened the overthrow of the French Republic, must remain a mystery to most people. Boulanger was a weak, vain, erratic fellow, but his pyrotechnic methods dazzled the French for a time, and he came very near imitating the Napoleon. Consciousness of his utter collapse as a political force may have been the impelling motive to his self-murder.

What a costly article a selfish and corrupt Administration is!

NOT ONE LAW FOR ALL

Sir John Thompson's argument in the case of Postmaster-General Haggart has been taken up by the notorious Charles Rykert, who proves conclusively that if the same law had been applied to his case as was applied to that of Mr. Haggart, he would never have been drummed out of the House of Commons.

The contention of the distinguished caustic in Mr. Haggart's case was that the re-election of an M.P. canceled all charges of wrongdoing; in Rykert's case, the fate of the Ministry not being in the balance, Sir John Thompson held that no election proceedings could remove his amenability to a charge of hoodluming. The inference that he would be irresistibly forced upon the public is that Sir John Thompson and his associates dared not let light in upon the Section B scandal. They know that Mr. Lester would not stake his seat and his reputation by promising to make good his accusations unless he had good grounds for his course. These speculations must be laid bare under a new Government. The muzzle policy must soon be removed.

TOPICS OF THE DAY.
McGREGG has been expelled from Parliament. Sir Hector and Mr. Chaplain still hold their seats!

Rev. W. T. HERRIDGE, Court Preacher of Ottawa, has been defending the men responsible for the rascalities recently laid bare. "As well defend Sodom."

"The Dominion Government is wholly unfit to represent the morality of the country," was the verdict of Rev. R. G. Beville, of Hamilton, in a recent discourse.

THERE is alarm among Dominion civil servants because of a decree that a wholesale collection of money for political purposes must soon take place. The civil servants do not relish the idea. They say they have been intimidated too often.

A PROVINCIAL convention has been called. It will be held at Sault Ste. Marie, Oct. 7. The objects of the promoters are antagonistic to the recent mining legislation of the Provincial Legislature. They do not like royalties.

FOR RESPECTABLE CONSERVATIVES
(Glasgow, Scotland, Mail.)
A system of subsidies and protection has done much to debase the public sense (in Canada), but after all the cliques who have benefited by these are not the majority even in the House of Commons. And upon what is known of the former will depend largely the action which politicians take in Parliament, though the drift of public opinion can only be ascertained at the election.

WASHING THE GOVERNMENT.
(Globe.)
As Mr. Premier Abbott has never, to our knowledge, expressed any contrition for the share he took in the Pacific Scandal, there is nothing ungenerous in recalling the fact that his hands are not clean, and the whitening of fate has certainly played a funny trick in imposing on him the task of cleansing the Government from its present-day delinquencies. As yet, it must be confessed, he hasn't made much progress with the ablatives exercises. Perhaps he feels that it would be a trifle Pecksniffian for him to handle the boodlers roughly.

THE COCHRANE CASE.
(Toronto Week.)
The most singular and suggestive remark in the whole debate was that of Mr. Skinner, who wound up the ablest speech made in defense of Mr. Cochrane, with the ambiguous declaration that "the whole case against the honorable member for East Northumberland comes out of it with clean skirts, and if not entirely clean, they are as clean as is necessary for a professional politician. Such a remark from the chief advocate of the report, combined with the singing of the chorus "He's a Jolly Good Fellow" by the virtuous majority, completes a view of the whole case against the honorable member for East Northumberland that we are sorry to have set before the British and American public.

DISHONEST LEGISLATION THE CAUSE OF POLITICAL IMMORALITY.
(Philadelphia Record.)
The scandalous disclosures of corruption which have recently been dragged into the light in Canada show that, considering the reputation for official peculation in Canada and the United States, our rascals have not demonstrated their superiority. The Canadian bosses and political thimble-riggers stand well at the head of their profession, seeking for the cause of the deepest political immorality which has been developed of late years in the United States and Canada, the inquiry would not go far wrong who should trace it to the corrupt legislation. When it becomes the avowed policy of any Government to misuse the power of taxation necessarily intrusted to it for the promotion of the private interests of favored individuals at the expense of the masses, it is to be wondered at that those who have the opportunity to rob a little for their own private advantage should embrace it!

"Like master, like man," runs the proverb; the government, like administration, Governments that authorize pocket-picking cannot complain if the practice be occasionally turned to their own disadvantage.

The peculiar enervating effect of summer weather is driven off by Hood's Sarsaparilla, which "makes the weak strong."

Influence is to an individual what flavor is to fruit, or fragrance to the flower; and no one can define the limit of this influence which constantly and imperceptibly seeps from our daily lives.

spector Minchink reported on the work

Here Lies!
Epitaph is a demoralizing kind of taffy.
It appears on the tombstone, and eulogizes
the dead almost to the very stars. The
usual method of beginning is: "Here lies."
Very suggestive, for the lies are frequently
quite astonishing—almost enough so to both
amuse and amaze the dead of whom they
are written. A truthful epitaph, in many
instances, would be: "Here lies one who
omitted to take Dr. Pierce's Golden Medi-
cal Discovery." If sick and suffering, and
dreading premature death, test the potent
remedy. It cures all chronic, liver, blood,
and lung diseases, as biliousness, skin and
scalp diseases, scrofulous sores and swell-
ings, salt rheum, tetter, erysipelas, and even
scrofula of the lungs (or consumption), if
taken in time.

He—Are you sure you care for me? She—
I wish you wouldn't be so suspicious. Have
I asked to see your bank book?

Mr. J. R. Allen, upholsterer, Toronto,
sends us the following: "For six or seven
years my wife suffered with Dyspepsia,
Constipation, Inward Piles and Kidney Com-
plaint. We tried two physicians and any
number of medicines without getting any
relief, until we got a bottle of Northrop &
Lyman's Vegetable Discovery. This was
the first relief she got, and before long she
was used the benefit she derived from it
was beyond our expectation."

A Dinner Pill.—Many persons suffer ex-
cruciating agony after partaking of a heavy
dinner. The food partaken of is like a ball
of lead upon the stomach, and instead of
being a healthy nutriment it becomes a
poison to the system. Dr. Parmentier's Ve-
getable Pills are wonderful correctives of such
troubles. They correct acidity, open the
secretions and convert the food partaken of
into healthy nutriment. They are just the
medicine to take if troubled with indiges-
tion or Dyspepsia.

BARK-WELL'S.
The citizens of London will doubtless ap-
preciate the new departure which W. S. Byers
Barkwell is making in placing in his drug
store one of the very latest patents in the
ACME CREAM FOUNTAIN.

The formula for this new and popular drink
(Lemon Cream Soda), which is only sold with
this fountain, is protected by patent, and pro-
nounced by all criterion to far surpass the
ordinary gaseous fountain, as the beverage is
entirely devoid of gas and any injurious chemi-
cals—a revolution long looked for. This is the
only fountain of the kind in London, and in
order to introduce this new and popular flavor
every customer who purchases 25 cents worth
of Barkwell's drug store will be entitled to a
glass of this new and refreshing Lemon Cream
Soda free of charge.

By their fruits shall ye know them.
This is an indisputable truism; its applica-
bility has a wide range. The least Norma
cigar is the product of McFay &
Co.'s cigar factory. They speak volumes
for that establishment in the particular line
of business. In these delicate cigars
nothing but the finest of materials are used,
and to a connoisseur are indispensable.

When you hear a great deal of one side of
a story, the other side receives from you a
great deal of sympathy.

Reason and science admit that the ir-
resistible craving for liquor, which causes a
man to drink to excess, and makes him a
habitual drunkard, is a periodical disease.
The Father Mathew Remedy is the only
specific that can cure such a disease.
