The figures for power to consumers will not be made public for a month,

at least-perhaps not then. An entirely new schedule will have to be made out and submitted. The engineers of the hydro-electric commission prepared a former sched-

ule, but this will have to be revised. This is due to the fact that the figures submited at that time were on the basis of 5,000-horsepower, and since that time the city has reduced

the quantity from 5,000 to 3,000 horse-

Price of Lighting. Under the old schedule lighting was

to be furnished at from 5 to 7 cents per kilowatt hour. The highest price was, of course, for commercial lighting, and it was greater than ordinary home lighting because of the big demand for light during the peak-load hours. It was to equalize

Now the cheapest lighting for houses will be about 6 cents per kilowatt hour. The Tungsten lamp will be used, serious. however, and that will give much greater efficiency, with 60 per cent less power, a considerable saving in itself,

The present price is said to be 8 cents per kilowatt hour, so that even with a 3,000-horsepower load the city will be able to sell lighting for the above figures, it is said.

Commercial Lighting. Commercial lighting will also be advanced somewhat, although the figures are not available. One man stated that it would run about 7½ cents per kilowatt hour, or possibly 8 cents. It costs much more than this at the present time, so friends of the power

However, the load has been reduced from 5,000 to 3,000, and as a result power will be much more expensive. Those in touch with the situation are at a loss to understand how power can be furnished for \$30, or \$40, with only 3.000-horsepower in use.

When the best price was quoted, 200-horsepower at \$31.50 per horsepower, when the load was much

"I do not know when they will be made public, but it will be some time yet, at least. Consumers will not obtain so favorable terms as they would if 5,000-horsepower were and his connection with these interests used. However, I am not in a position earned for him a host of friends, to state what the cost of power will be. It will be made known some time." A Month or More.

"We have not got the figures ready yet," said Ald. Stewart. "There would be little or no use in making them public until such a time as we are prepared to show the consumers that we are doing something. It will be a month or more, to be sure.' Taking the figures of the former probable that \$50 per horsepower per annum will be the best rate furnished

FARMERS ARE HOLDING OUT FOR BETTER TERMS

Sums Offered by Hydro-Electric Commission Are Declared To Be Insufficient.

It seems that the figures in Saturday's issue of the amount given for easements in Dorchester Township do not cover all the farmers in the township who signed the petition. There are several who have not accepted the sums offered, but who are holding out for better terms, as they consider they are entitled to more than

they are receiving.

The system of doing business is somewhat peculiar to the average man, and there are many inquiries regard-

ing the matter. West of Dorchester Township there is also considerable difficulty regard-ing the easements, and it is regarded mercial agent at Manchester, Mr. Mchave to be subjected to arbitration. The Government has already appointed a man for that purpose to act cargoes from Canada. The cargoes are on their behalf, and it is quite likely always found to be full measure. that he will have to set a price for

of the National Transcontinental Commission.

Was Spending a Short Holiday With His Family on the Coast of Maine

-Well-Known Businessman.

Mr. Robert Reid, for many years a prominent businessman of this city, and later member of the Canadian National Transcontinental Commission, died very suddenly Saturday night at Ogunquet, Maine, where he was spending his holidays with his family.

Mr. Reid was enjoying his usual nealth, and there was no premonition of any such terrible event. In company with his wife and a few

friends, he was enjoying a game of eards in the Sparhawk Hotel, where they were staying, when suddenly exclaimed:

"I cannot see the cards." Even then those about him did not know that anything unusual had taken place, but considered it only a temporary weakness, but Dr. Barlow, of Montreal, a friend of Mr. Reid's, who Clifford Gillard Narrowly Escaped was standing by, saw him growing pale, and knew that his condition was

Shouldering his way through the crowd, he was shortly at the side of his friend, and at once had him removed to his room, where two hours later he passed away.

A Heavy Blow.

Coming as it did in the heart of; the holiday season, with no hint to lessen the shock, the sudden death of Mr. Reid cast a great shadow over the holiday-makers at the beautiful Maine resort, and especially did the blow fall very heavily on his unsuspecting family, who had been rejoicing in his being able to be with them. Mrs. Reid and her daughters, Misses Elma and Helen, have been guests at jured, the hotel during the whole season, and Mr. Reid has visited them occasion-

ally, as he could spare the time. It was one of these flying visits that was cut short in such a tragic man-Arthur Reid, a son, ten at McGill, was notified of his father's

Complete Collapse of the Airship -Passengers Rescued.

Camp Wellman, Spitzbergen, Aug. 15 via Hammerfest, Aug. 21.—Walter Wellman's second attempt to sail over the North Pole in a balloon has resulted in failure. The giant dirigible palloon America, in which Mr. Well-man and his party of three set out upon their perilous flight today, met with a mishap after it had proceeded about 32 miles from the starting point. Mr. Wellman and his party succeeded making a landing without injury to member of the party, and returned this point on board the steamer Fram, which also towed in the disabled alloon. After a long preparation and waiting for favorable weather the op portunity came today, and Mr. Wellman decided early in the morning to

make a start. It was 10 o'clock in the morning when the great airship was brought out of its shed and the daring explor-ers took their places in the car. When thip ascended beautifully, the engines were set in motion and everything eemed to work to perfection. The big air craft was manoeuvred perfectly. Then its head was turned

to the northward, and it set out at a speed of 25 miles an hour. Suddenly, after having covered some 32 miles, the leather guide-rope, to which was attached a thousand pounds of provisions and stores, broke away. The Canadian Exhibits.

Canadians, as a rule, are fair-minded and lacking in bigotry, but this does not prevent them waxing enthusiastic over the Union Jack and the flag of the Dominion in a country that owes allegiance to another flag, be it even the Star Spangled Banner. Visiting the exposition immediately after a trip over the C. P. R. to the coast, even the most phlegmatic Canadian must feel a glow of pride in the fact that one of the largest and most prominent exhibits in the agricultural building is that of the C. P. R., demonstrating especially the resources of the wheatgrowing prairie provinces of the Northwest, with a marked emphasis upon

CANADA AND THE PRESS CON FERENCE.

A writer in the National Review expresses the opinion that the Canadian delegates to the recent Imperial Press Conference were hardly representative of Canadian journalism, although he concedes that they spoke well of Canada despite the fact that most of them "wore the yoke of a time-confuted Liberalism." He believes that the delegates must have returned home im-

THE BRITISH LAND TAX.

The land clauses of the Lloyd-George budget passed the committee stage in the House of Commons last week, and a new principle of taxation is permanently embodied in the national finance, unless the House of Lords carries out the threat of individual peers by rejecting or attempting to amend the bill.

Broadly speaking, the measure imposes a tax of 20 per cent upon the poses-the "unearned increment" will be no tax if the increment is not more than 10 per cent. New York, Aug. 21.-Chin Len, who has been under arrest since the murder of Bow Kum, the Chinese girl, at 17 Mott street on Aug. 15, breathed easier today when the police arrested three other men suspected of the murder of the slave girl.

One of them is Lou Tong, who was accused by Cin Len when the girl's body was found. Another prisoner is Chin Wah. Both were arrested Thursday night at Mott and Fell streets and today Woh Lea was arrested in his laundry, 561 Henry street, Brooklyn, All the men live at 22 Pell street and when arraigned today in the Tombs police court were held without bail.

When Chin found the girl's body he told the police that he had married Bow Kum in San Francisco and brought her to New York. He said that she had lived with Lou Tong on the coast and that last spring Lou Tong came to New York and demanded the girl. BOW KUM MURDER The New Dress Goods Have Arrived

First Time This Week.

Greatest Range of

No matter what the weather is like outside, Fall, 1909, will be auspiciously ushered in by an exhibit of New Dress and Suit materials in this store Tuesday. This year we have received early delivery of our import purchases, which makes this display possible at such an early date. We extend to the ladies of London a cordial invitation to visit our Dress Department this week and have the first glimpse at the new goods.

In this ad we have no room to particularize, but speaking generally, we have eclipsed our own previous good records in our selection of the Fall Fabrics, our variety of the popular 50c Dress and Suit Materials being well worth special mention. The early choice of your new Fall Dress or Suit has many commendable features. First choice is always the best, and you avoid the vexing delays caused by overworked dressmakers during busy first weeks of fall. Visit us this week. Every courtesy will be extended for a leisurely examination.

The Labor Government began, and its successors are to carry to fruition, a great scheme which will put every girl and boy in Australia up to the age of twelve or fourteen through a course of carefully graded physical training. In the case of girls this training to the case of girls the ordinary benefits of health, sound development and a hardiness which in the eyes of an older generation might be unattractive. In the case of boys, however, it is intended to form the basis upon which more technical training in senior cadet corps, and, later, in militia, infantry and light horse corps can be built.

The scheme has received the general approval of the Deakin-Cook Government. For an expenditure of £24,000, spread over three years, will provide Australia with a body o physical training teachers and experts, working under Federal control, and capable of instructing hundreds of thousands of Australian

children each week. The machinery is to include permanent training centres for instrucors and school teachers in each of the six states. The co-ordination of the system of medical inspection of children now being introduced into found in the African wilderness, and tional physical training system, is also proposed. The scheme is well received by the people.

Youngs Second Game. Ramblers

There was every variety of baseball maginable served up to the fans at Tecumseh Park on Saturday-good, bad and indifferent. However, the good feaures were numerous, and the audience ad a good time Youngs won from the Rockets in the ening session by 11 to 1, while the

Ramblers defeated the Stars 3 to 0. The First Game.

That first game was a funny one. The Rockets on their form Saturday would make the Clarence Street Lions look like the championship nine in comparison They could no more support Fauria a blind man with both arms and off could earn his living. Nine nice, rip. juicy errors in one game is rather good. Fauria pitched fairly well, but lost heart when he saw the way things were going, and was hit good and plenty.

Brilliant Ball. On the other hand the Haberdashers brilliant performer was Leo Costello, who high fly to Brennan, preventing further played 11 chances without a skip, and damage. handled one or two ground balls that were simply marvellous. He hit like a demon, and played as impressive a game as has been shown this year. Ball and Gatecliffe were good also

Isshy All Right. Isshy Clark pitched with rare judgment, and was rarely in trouble. Males for the losers hit well, but his fielding was just three stages worse than the limit. There were others also. There is no use going into details. The Haberdashers scored when and as often as they pleased. The score tells the tale as eloquently as anything else. Here it is: First Game.

THE SECOND GAME.

The second game was as smooth as a kitten's wrist, and was the cause of much joy on the part of the rooters. As anticipated, the contest developed into a pitching duel between Midget Heathfield and Tetther. On the last occasion these teams met, Tetther got the decision in the tenth round, the score being 1 to 0. Saturday Heathfield was the dark person with the whitewash brush, and he laid it on smoothly.

Good Pitching This. three, on the sacks, but he showed great nerve, and made the batters pop them up or whiff. It was the kid's best performance of the year, and he deserved great credit for it. Not only did he pitch well, but he won the game with a psychological swat in the fifth that scored

Some Good Work. For the winners Arthurs and Shannon 1 played well, while Sharratt made a won derful catch in right, starting a doubleplay. McPherson had a busy day in centre and handled his chances well. Tetther struck out eleven men, rather a good afternoon's work.

With one down in the first the Stars in two other subsequent sessions. Won in the Fifth.

The Ramblers won the game in the fifth innings. Shannon opened the doings with a single to left. McPherson forced him at second. On the hit and run play, Hawthorne dumped one between first and second, McPherson going to third, and Hawthorne to first. A CASE IN HAMILTON

In Which Some People Appear To Be Taking a Most Extraordinary Interest.

Hamilton, Aug. 23.-The discussion over the legality of the drawing the Trades and Labor Council holds in permit again this year has been continued today by Sir Thomas W. Taylor, who drew attention to the fact that the council is breaking the law by holding such a lottery. The Trades | tion to this policy. and Labor Council yesterday, through its president, C. I. Aitchison, thought proved its rights to hold the drawing by producing the special permit it had secured from the acting mayor. This morning, in another letter to the reform. The leaders are supported by a talk promised to borrow \$20 and to this morning, in another letter to the chief of police, Sir Thomas states that the acting mayor has no right to issue the acting mayor has no right to issue the design that the contest go on until the parted, saying that he would have to a permit, as the lotteries act only exempts raffles held in connection with a hope is expressed that the Upper House, bazar, which itself has been held for ignoring all precedents, will either amend charitable and religious purposes. He or throw out the measure, and thus, they also shows that the Trades and Labor believe, for the Government to appeal to ouncil does not intend to hold a the country. bazar, but merely a raffle.

Up to Chief Smith.

It seems that the matter rests in hands of the chief of police. Chief Smith was spoken to on the matter, and he replied to his interlocutor: I am not a lawyer, dear boy.

"But you are interested in this matter, surely?" he was asked. announced the chief, "but think that I can be guided by the action of the acting mayor. He consult ed with the city solicitor, and, upon his advice, deemed that he was within his rights in issuing the permit. I think it is a battle between the law-

Sir Thomas' second letter on the subject follows: "If the Trades and Labor Council holds, under permission from the mayor, a bazar, that is, a sale of articles, for charitable purposes, and then disposes of, by lot or chance, only articles not disposed of at the bazar, or which, in the words of the statute, have been offered for sale, and none of permission the acting mayor is said to which, as he has worded it, he has day. power to give. LLOYD-GEORGE'S BILL

(Continued From Page One.)

The property of friendly societies, which own lands valued at upwards of \$500,000,000, is also exempted under the new taxation. This is a concession to the labor unionists, who form a large majority of the shareholders of societies. Another amendment made to the bill came as a result of criticism by the lord chief justice. It was originally proposed that the valuation placed upon property by commissioners appointed for that purpose should be final, but the lord chief justice pointed out that this would be in direct contravention to the British constitution, which expressly gives the right of appeal in all cases. The Government therefore amended the bill al-

lowing the right of appeal. Another much criticised provision of the bill, imposing a tax upon unmined minerals, was withdrawn, and a tax bing floors. Davis said he was a deon mining royalties and rents was substituted. Renewed Rioting Expected. Sheriff Gumberta, of Alleghany County, has sworn in half a hundred additional deputy sheriffs in antici-pation of renewed rioting today. It is not unlikely that militia from eastern part of Pennsylvania will be ordered to Pittsburg within the next twenty-four hours if conditions warrant.

Last night's rioting came suddenly and without warning at the close of a calm and peaceful Sunday. About 9 o'clock strikers were seen gather at the Schoenville end of

Cause of Outbreak. An investigation by the Associated Press shows that the trouble resulted from the fact that three new members of the state constabulary and a deputy sheriff refused to obey the commands of strikers when ordered from a street car. For weeks the strikers have been holding up street cars and ordering the occupants of them out. Heretofore all have obeyed Last night however the troopers and the deputy sheriff, all of them armed, refused to be ordered about by the strikers.' They resisted, tle upwards of 90,000 Scotchmen and and for twenty minutes a battle ensued. It is apparent today that all the

dead and a majority of the injured fell in the battle. Later when reinforcements arrived more were clubbed, and shot, but the first battle, waged by only four men against a thousand strike sympathizers, was the fatal one.

Among the several score injured, ten are in a precarious condition, and, it is stated in the hospitals that most of them will succumb before many hours.

A SMALL MARKET

Hay Jumped to \$14 a Ton Today Only a Few Loads Being Offered.

OATS ALSO WERE SCARCE

Live Hogs Brought the Figure Laid Down Saturday, \$7.60 Per Cwt.

There was a very small market today but prices remained firm. Hay jumped to \$14. The reason for this is that hay is being offered only in very small quantities. Today barely a dozen loads were on the market, while the demand could consume two or three times that amount daily. It has now came to the time when men have to have it, and consequently the price is advancing with leaps and bounds: whether it will go higher or not, is difficult to say. One man this morning sold for \$13 be- longho fore he realized that hay was moving up-Almost all the other loads brought the \$14, while one sale was re-
