Liverpool, Sept. 29.-Premier Mackenzie King landed here this morning after a pleasant trip aboard the Montcalm. His first words on English soil were an appeal to British capital to consider the opportunities which Canadian industry affords.

Premier King informed his interviewers that unemployment in Canada had fallen to its lowest level of the past three years. COMPARE MERIT OF STEEL TIES AND WOOD ONES

Experts Assert Steel Article Is Superior For Street Railway Construction.

CLEVELAND'S CASE

Are steel ties far superior to wood ties for street railway construction? Sir Adam Beck and his experts answer in the affirmative, while there are others, as for instance R. G. Ivey, vice-president of the London street railway corporation, who point out that steel ties have been used in Cleveland, but subsequently removed

after several years of experiment.
The Detroit engineering authorities say there is a very good reason for all things, and in this instance they state that the Cleveland story was not finished. Steel ties were moved from a certain stretch trackage-not because they were inferior, but because they

CALLS ALD. MAY'S CITY HALL PLAN UTTERLY ASININE

Ald. Hayden Raps Proposal to Erect Structure On County Grounds.

One of the most asinine proposals ever broached in municipal circles, according to Ald. Edmund Hayden, is the suggestion from Ald. John T. May build a new city hall on the count grounds, near the corner of King and Ridout streets. "Such a move on the part of the 1923 city council would be a step back into pre-historic times," Ald.

Hayden submits, reminding that Ridout street, between King and Dundas streets was one of London's busy centers along about 1835. "That would certainly be a step ack," Ald. Hayden stated. "We couldn't afford to build a city hall down think it is a silly proposal." there. I think it is a silly proposal from Ald. May. In the first place, I don't believe there would be sufficient room, now that the registry office has been placed on King street west, and in the second instance it would

the altogether out of the way for the citizens. We want to go ahead in this city, not backward."

Ald. Hayden says, however, that if the citizens actually did want their hall on a back street, it would be far better to build on the opposite corner of King and Ridout streets from where Ald. May suggests. "Then the new hall would have historic value," he pointed out. "That is where the first log house was built

Showers Fail To Dampen Enthusiasm At Dresden

Dresden, Sept. 28.—With a total attendance of more than 4,000 people, the annual fall fair held here today was easily the most successful exhibition of its kind that has been seen in this community for some

years.

The weather in general was ideal and the shower that did occur was not of sufficient proportions to cool the enthusiasm of the visitors or affect the show in any way. The vegetable entries were far more numerous than last year, while the ladies' department also gave evidence of the interest the annual fair has created among the residents of the district.

Mere Man Says Modern Girl Lacks Courage to Marry Early—Shall She Marry Man Fifteen Years Older?-Intellectual Wife or a Crackerjack Housekeeper?

Dear Miss Dix-Weak mothers breed weak sons, and late marriages help along the damage. Selfish, self-centered women are directly responsible for driving thousands of men into reckless habits. The old stall

about Adam won't do. Your frilly sex is dodging the issue on this, and on other questions equally vital. Very few women are good enough sports to be able to resist an amorous campaign that flatters their vanity, and they are indifferent to the consequences they may casually inflict on the poor boob who falls for their need of excitement.

A man without a past, forsooth! There would be more such men if there were more women willing to help feather the home nest not with money but with real love at that springing age in life when it is irresistibly appealing.

No wonder virility is ebbing hereabouts, that athletic records are passing westward toward the sunet, that ignorant, often degenerate immigrant races are seizing control along the eastern portals of our once trenchantly vigorous and daring

After a little while the only people with courage to mate early and become parents more than once will be the descendants of our former slaves—the Africo-Americans.

Poor, dear Adam, still suffering from that apple complex! Blaming it all on Eve, and calling upon her to save him from his own weakness. Not that I hold a brief for the lady. Far from it. The woman who uses the lure of her sex to tempt a man has the soul of a harlot, no matter how technically virtuous she may be.

Just a Man Who Would Rather Not Have Had a Past.

Undoubtedly, early marriages make for morality and a strong and virile race, but I think my correspondent is entirely wrong when he lays the blame for men marrying late in life, or not marrying at all, on women. It has always been women who were plungers in matrimony. It has always been women who were willing to venture all for love, and feminine nature doesn't change. It's men who are afraid, men who are timid, men who are too proud to ask girls to marry them unless they can give them all the flummeries to which they are accustomed. Also it is men who don't want to give up their bachelor luxuries; their easy living; their soft places in society to live in a shabby apartment, and push a perambulator on holidays instead of playing golf at a country

Early marriage demands sacrifice of a man, no less than of a woman. It jeopardizes his chances of success, for in these days of the high cost of living it takes a financial genius to make enough money to support a family and still save enough to be the nucleus of a fortune. Therefore, the ambitious man often feels that love and matrimony aren't worth the

Look about you, Mr. Man, and you will see that the men who ge married early are the easy-going, unambitious sort, the very men who have least to offer a girl. Does that look as if the girls were not willing to take a chance with a poor man, or that they didn't get the opportunity to take the chance? NO!

t isn't that women aren't willing to marry on bread and cheese and kisses. It's the men who don't want that Spartan diet. At any rate, I warn any young man who doesn't want to get married not to ask his sweetheart if she's willing to risk poverty and love with him in a two-by-four flat. She will say "yes" ninety-nine times out of a hundred. DOROTHY DIX.

Of kindred spirits, the interchange of thoughts and ideas, and, in addition. Donald.

An enjoyable euchre was held recently at the home of Mrs. Fred Stephens; Miss Annie Boyce, Trafalgar street, given under lite Harris; Miss Ruby Scott; and lite Harris; Miss Lotta Fisher. MABEL G. fifteen years my senior?

Answer:

Fifteen years' difference in the ages of a mature woman and man makes no difference when the man is older. If the man is desirable in every way, certainly his age is no objection to him. In picking out a husband so many things are more important than how long he has lived.

Your first husband was young, yet he treated you like a brute. It is not age, but temperament, that makes a man kindly, gentle, considerate, and tender to his wife, so when you pick out a second husband take into account his disposition, and whether he is congenial to you or not, rather than the number of his birthdays.

Indeed, generally speaking, a man who is ten or fifteen years older than his wife makes a better husband than one more nearly her age, because, for one thing, he is more self-disciplined than a boy, and life has taught him more patience and how to make excuses for the shortcomings of others.

And, for another thing, the older husband is apt to feel flattered at having a young wife, and will pet and spoil her as one would an indulged

And still another advantage in marrying an older man is that his wife doesn't have to be so afraid of getting old herself. By the time she is middle-aged he is elderly, and there's peace and safety in that state of affairs. DOROTHY DIX.

Dear Dorothy Dix-May I submit an interesting human problem you? A and B are both friends of mine, and both splendid men. A has married a highly educated young woman, who makes a very interesting companion to him, but she is a miserable housekeeper. The pretty little apartment in which A set up his bride is always at sixes and sevens, and when he comes home at night no dinner awaits him, and he has to go out in the kitchen and help prepare the evening meal. B married a nice sen sible girl, not so intellectual as A's wife, but she is a crackerjack house keeper, and when B opens his front door he savors the aroma of a dinner fit for an epicure. Which if these marriages is the more likely to be success? I say B's.

A. X. Y.

Answer:

So do I. Our grandmothers who knew a thing or two about getting along with men, as is proved by the fact that divorce and wandering husbands were much less common in their day than in ours, gave as the cardinal rule for holding a husband's affection: FEED THE BRUTE. And the principle still holds.

Perhaps there are a few men of the plain living and high thinking who prefer a feast of reason and a flow of soul to a good dinner, but if so, I have never met them. All of the men I know want to eat first and talk afterward, and they desire interesting conversation as a side line to good food, not a substitute for it.

It is just as much a woman's duty to be a good housekeeper and make her husband a comfortable home as it is for him to be a good provider, and when she doesn't do this she is just as much a quitter as he would be if he refused to work and support her.

No man is going to stay in love long with a wife who is too lazy t hold up her end of the job, nor is he going to be eager to come back to an untidy house and a mean dinner at night. And, take it from me, there won't be much heart to heart talk in that home about the things that pertain to the higher life. It will be mostly about the size of the bills, and "Do you call that bread, or cannonballs?" and "Is this a steak or a shoe

New System of **Fat Reduction**

Here's a new way for all fat people to laugh together at that old bugaboo —Obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more. Here is something new for them—a new sensation, a new pleasure, a new and graceful figure, easily found by anyone who is passing beyond the limits of slimness. Everyone has heard of the Marmola Prescription; that harmless combination of fat-defying elements perfected by one of the foremost physicians. Now, from the same high authority, there comes another idea—the idea of condensing these same, pure, harmless ingredients into a pleasant little tablet. Taken after eating and at bedtime, they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Frescription Tablets regulate the entire system—do for you what bodliy exertion, self-denial and absurd greases and salves can not do, and the fat, once routed, is gone for good. You can prove all this at a trifling cost. Marmola Prescription Tablets are sold by all druggists or sent postpaid by the Marmola Company, 4612. Woodward Ave., Detroit, Mich. A case—sufficient to bring results—is but one dollar.—Advt.

Let Canada Have a Vision.

The Canadians inherit a passion for liberty and a genius for government. The plan of the Canadian parliamentary system has been adopted by almost every dominion in the British parliament, the last instance being that of Ireland, and it is not outside the range of possibility that its adoption by many parts of Europe would go far toward the bringing about of a new era.

It is well that our own Canadian leaders should rise in our midst frequently to point to the future—to rejuvenate the spirit that turns pessimism into national vision, and that sees in the accomplishments of the past reasons for greater and more worthy effort for the

The days of the old burglar with his drill and powder, tapping a vault at The men who construct vaults and safes have so per- the money went. fected their methods that the robber can do little against them.

The banks have apparently solved the danger of night robberies, and in turn they should turn their attention to the daylight marauders and their methods. In recent years the leading banks have been planting outposts in all sections of the larger cities. Of neces sity many of these are placed in sections where police protection is not a very great factor. The construction of the average small bank does not stop a robber-on the other hand it invites him. At certain hours of the day there are only two or three poeple in the bank, and some of these are likely to be girl clerks. Three men, all armed and ready to shoot to kill, can soon dominate the situation.

The banks, in self defence, may have to consider changing their methods, the style of their cages or the public. The whole plan now used is much the same as it was in the days when daylight robberies were unknown. A few practical bankers in session with a couple of clever architects should be able to produce a rearrangement of things that would give the robbers less of a clear coast than they enjoy at present.

Not In the Scope of Economy.

As a Farmer's Wife Sees It.

Mrs. T. W. Dykes of Crinan, in a letter to The Advertiser, takes strong exception to the idea of Mr. John Farrell that farmers should keep a hired man all through the winter months in order to have him for the spring and summer months. She contends that the idea is wrong from the standpoint of the farmer's wife, who is in most cases working without modern conveniences, and to whom the presence of an extra man to cook for and wash for means added work that is not relished.

Mrs. Dykes also delves sharply and deeply into the economic problem of the farmer, showing that his present selling prices are below the cost of production; nor can she see the wisdom of bringing more men to the farms, when those already there are not making money.

There are those, no doubt, who would class Mrs. Dykes' statement as extreme, and as hurtful to the interests of the district. But her statement is one made from experience, and it is only by having these sharp and pointed criticisms that we will get all the facts, and some day arrange their solution.

Mrs. Dykes suggests that the matter should be taken up at the annual convention of the U. F. O. this fall. We sincerely hope that it will have a prominent place on the discussion, and that the discussion will not simply be a recital of present conditions, but an earnest effort to find the right way out. Farm life should have at its hand all the conveniences of city life. "That costs money, and the farm cannot stand it." Such will be the first objection, and under present conditions a very real one. It will then be the business of such a gathering to strive to better conditions by seeking to so come It is rather significant, on looking through the together that the farmers of a district can sell to better

Your Health:

By ROYAL S. COPELAND, M.D.

For years I have protested against an unfortunate and dangerous practice prevailing in most factories. Everywhere is found a workman who has a peculiar knack of removing foreign bodies from the eye. For this purpose he uses a toothpick, a nail, the corner of a not-too-clean handthief, a pointed stick, or some the lid, and it may be impossible to remove that object without turning

Some people have eyes which seem to have a real affinity for dirt. Big eyes and eyes with wide open lids, eyes which do not close at the least hint of danger, pick up cinders, particles of carbon, dust and dirt of every description.

If you will leave the eye alone, or practice that good old rule, "rub the other eye." the flow of tears will, in most cases, wash away the offending substance.

You go to a lawyer and state your troubles. He tells you he will study the matter, look up the law, and give you an opinion in a week or so. But if something is wrong with your precious body, you entrust its care and treatment to any stranger who may be passing.

there is always a slack time on the farm. At \$10 a month, and the moderate charge of \$5 a week for bed, board and washing, it would mean an outlay of \$130, for which the farmer

prices still lower. There is one point, however, on which I do agree with Mr. Farrell. Mr. John Farrell, who is doing special immigration work, is reported as saying: "There is no other place that offers the same chances for employment twelve months out of the year as Western Ontario." It will be interesting to know in what part there is work for a hired man all the year round. The timber having been stripped off the land, and many farmers buying their fuel, there is in the days of their children. Tomers buying their fuel, there is in winter very little work on the average 100-acre farm that the farmer himself cannot do. day, what do we find? Many farms being sold under the hammer of the auctioneer. Many are selling their land and giving away their buildings, or selling the buildings and Mr. Farrell suggests that the farmer hire his help in the fall, make a congiving away the land (they can't get tract with the hired man at the rate centers or for the United States. In fact, so serious is the problem, that during the last ten years Canada has when he completes the year's work pay him the balance. If he jumps

lost all its immigrants and 200,000 of her natural population.

The farmer cannot continue to sell his produce for less than the cost of production. With the small prices he receives he cannot afford to buy in a high-protected market. There must be a readjustment of prices and profits. To bring out immigrants to abandoned by our natural population is nothing short of criminal. The matter should be brought up at our U. F. O. annual convention and dispress of the different countries of Europe to prevent unsuspecting per-sons being brought here under false pretenses.

Another happy thought struck Mr. Farrell. Here it is: "There are investors in Britain who will buy land if they are satisfied it is all right. It are equipped with all the modern conveniences? Is the farm woman not to be considered? Is she not to would be good business to say to one of these men, 'Come on out here and look this thing over, and if our goods are not as represented you do not need to buy.' His whole round trip cent of the farm homes are installed would not cost over \$400, and it is easy to blow that amount in half a and when 97 per cent of the farm wo-men are still manicuring their nails dozen ways that will not get us any results." A fine proposal, and one that should cause Mr. Farrell little if any difficulty, in getting speculators, adventurers and sightseers to come on such generous terms. But when they would find, as they surely would, that the taxes were from \$1 to \$1.50 per acre, and that a binder would cost \$250, a manure spreader \$200, a corn binder \$240, and that after paying the threshing they would receive the handsome sum of \$8 cents a bushel for wheat, and other produce in proportion, Mr. Far-rell might find his prospective customers breaking the speed limit for the first boat with the \$400 of easy money.

Boston, Sept. 28.—New York made 30 hits for a total of 44 bases against Ehmke and Blethen today, and won the second game of the series from Boston by 24 to 4. Ruth made a home run in the sixth innings with two on lase, the ball going into the far corner of the center field bleachers. Ward's home run in the third was due to a flukebound over Collins' shoulder.

In the sixth inning, the champions scored eleven runs on as many hits and an error by MacMillan. That was Ehmke's last inning. In the sixth Ruth singled and made his homer. Gehrig doubled and singled, and so did Smith. In the third Right Fielder Bob Meusei crashed into the right field fence in going after a foul off Ehmke's bat. He was carried from *the field for the second time in two days.

St. Thomas Fans Pack Theatre DRAW GRID DATES To Pay Tribute To Saints

Advertiser Cup Presented To First Winners At Enthusiastic Gathering.

By W. J. M.

Special to The Advertiser.

St. Thomas, Sept. 28.—Between brief orations of glowing tribute and surrounded on every hand with evidences of a proud city's staunch support, evento the fitting inclusion of a baseball drama of the screen on the big "Baseball Night" program, the St. Thomas baseball team, 1923 champions of the South Ontario League, were tonight presented with the London Advertiser Cup, emblematic of the league championship, and with the other prizes, the rewards of a season of honorable accomplishment.

plonship, and with the other prizes, the rewards of a season of honorable accomplishment.

The monster celebration was held in the Star Theatre, where, after a parade, the members of the team, with their wives and friends, took place in a block of seats reserved for them. The officials of the club, with Mayor C. E. Raven, seated on the platform.

After the novel baseball photoplay, "Trifling With Honor," had taken the house of fans by storm, the members of the team were called upon the platform, where Mayor Raven told his audience, amid appaluse, that no individual introduction of the players was necessary. He complimented the "Saints" upon their fine record, and stated that the finest tribute to their sportsmanship was the massive and enthusiastic turnout of the citizens to greet them on their return from Preston, where they were eliminated from the O. B. A. A semi-finals. It was a tribute to their triumph, even in defeat, he said.

Mayor Raven introduced A. R. Kennedy, managing editor of The London Advertiser, who presented the Advertiser Cup to Manager George Nethercott, Mr. Kennedy touched on the beneficial publicity the city of St. Thomas had gained, not alone through the accomplishments in games won and lost but through the sportsmanlike conduct of the team at all times,

"Your team has given you a season."

Presents Cup.

"Your team has given you a season of real sport," added Mr. Kennedy. "and every man has worthily taken his place on the team. Everyone has shown that he is a real sport—a real sportman who can lose cheerfully, as well as win consistently." Mr. Kennedy added, amid applause, that while he did hail from London, the home of ready competition for the cup, he hoped that Manager Nethercott and his team might hold the trophy in future seasons.

nager Nethercott made a suitable Manager Nethercott made a suitable reply.

President R. J. Cottrell of the local baseball club presented each member of the team with a medal for his services during the past season.

Mayor C. E. Raven, who presided throughout the ceremony, in glowing terms complimented the Saints upon their great, record of the past season. He declared, as he did the night of the banquet after the game at Preston, when the locals were eliminated from further competition in the O. B. A. A. playoffs, that the team had no reason to be ashamed because they lost out to Gait Terriers.

to be ashamed because they lost out to Galt Terriers.

"The record you have made during the past year is worthy of great praise," said the mayor, "and we, as citizens are very proud of you." His worship continued that St. Thomas could boast of one of the snapplest baseball teams in the province, and he was sure that he would live to see the day when they would capture the Ontario championship and the coveted trophy that is emblematic of such a feat.

Honor McPhee and Billings.

Billings and Danny McPhee were each presented with handsome gold watch fobs by Mayor Raven as a mark of appreciation for their no-nit, no-run performances. President Cotterill presented the players with transportation certificates to the world's series.

Throughout the presentation ceremonies repeated calls from the audience for "Snapper" Binns brought forth the information that the popular catcher was unable to attend through filness. Wm. Riseborough was the only other abs ince.

Ex-Mayor Gorge Goetz and ex-Mayor Horton paid brief tribute to the team, following which the latter was presented with a handsome check on behalf of the new Memorial Hospital, the proceeds of last Wednesday's game with Guelph.

W. L. Agnew, business manager of the Times-Lournal in a forty severe search.

the proceeds of last Wednesday's game with Guelph.

W. L. Agnew, business manager of the Times-Journal, in a few chosen words, praised the whole-hearted effort of the team during the year, and offered, on behalf of his paper a continued co-operation with the team. Mr. Agnew then presented the Time-Journal prizes for leading averages during the season, in the way of an order to Wm. Billings for a new suit of clothes, the reward for a batting record, and an order to Leo Doan for new shoes, the special base-stealing prize.

R. J. Cottrill tendered Secretary W. Dake a diamond stick-pin for his valued work during the year. The officers and members of the team were given complimentary tickets to the Star Theatre, good for the month of October, the gift of the Star Theatre management.

Rankin Is Star of Meet, Breaking One Record and Edged Seniors.

Associated Press Despatch.

Woodstock, Sept. 28.—The annual field day of the Collegiate Institute was interfered with today by bad weather conditions, and following the running-off of a number of the events the balance was put over until Monday, when the junior and senior championships will be decided, Gilbert Bankin was the star of the competitions. He broke the intermediate school record in the running broad jumps, doing 16 feet 4 inches, and also captured first place in the running high jump in both cases, outclassing the senior athletes. Rankin's performance in the running high jump was good, and he was offered no serious opposition. Leonard Coles led on the three events in the senior class staged. Gregg Murray, Holley and A. Rowe took red tickets in junior competitions. The summary: Associated Press Despatch.

Lt. Rittenhouse Wins Schneider Cup From British Holder At Cowes.

Associated Press Despatch. Cowes, Isle of Wight, Sept. 28. lieut: David Rittenhouse, United States, driving his Curtiss navy racer at a speed of 177.38 miles an hour, to-day won the Schneider Cup from its British holder against a field which had simmered down to an Englishman, a Frenchman and another flyer from the United States.

Lieut. Rittenhouse crossed the finish line of the 186-mile course in 1 hour 12 minutes 26 4-5 seconds. His colleague, Lieut. Rutledge Irvine, was less than two minutes behind him, and the Englishman, Captain H. C. Baird, more than nine minutes behind. The Frenchman was eliminated when forced to make a landing in the water, and his plane was towed ashore undamaged. Captain Baird had been disqualified because he rose from the water before crossing the starting line instead of taxying over it, but when the plane bumped the water after crossing the line the judges withdrew their disqualification ruling. Engine trouble developing at the last minute kept two of the French entrants from flying.

Accidents during trials had already accounted for two of the British entrants.

Lieut. Rittenhouse's speed is a record States, driving his Curtiss navy racer

Tip Lieut. Rittenhouse's speed is a record for the race, beating by 30 miles an hour the record established at Naples

It's McGraw's Ninth Flag, Mack Coming Next With Six Wins.

Associated Press Despatch. New York, Sept. 28.-The New York Giants today clinched the 1923 National League pennant by defeating Brooklyn by 3 to 6, and will oppose the New York /Yankees, American League pennant winners, for the third successive season in the world's series, which will start at the Yankee Stadium on Oct 10. By capturing the 1923 flag the Giants scored their eleventh victory in National League history, thus tieing the record of the Chicago Cubs. Nine of these pennant triumphs have been gained under the indomitable leadership of John J. McGraw ("Little Napoleon of the Diamond") who leads all other managers in this respect. His nearest rival is Connie Mack, tall tutor of the Philadelphia Athletics, who has six to his credit. League pennant by defeating Brooklyn

rival is Connie Mack, tall tutor of the Philadelphia Athletics, who has six to his credit.

The Glants won the pennant this year only after one of the hardest-fought campaigns in the annals of the senior circuit. Except for a brief spurt by the Brooklyn Dodgers early in the season, the world's champions met their stiffest opposition from three western clubs, with Cincinnati and Pittsburg forming the chief menace to their supremacy.

The real turning-point in the race came in the crucial midsummer western trip of the Glants, who played at the top of, their game to defeat Pittsburg in the opening series, and then took five straight from the Reds. These victories gave the McGrawmen a formidable advantage, but they were forced to stand off further challenges. The Reds. despite the crushing setbacks, rallied and crept close to the top by takings a later series from the Glants at the Polo Grounds. Virtually all further chance for the Reds vanished, however, when these two rivals proke even in a two-game series at Cincinnati early this week.

C. C. 4. WITHOUT RUGBY.

Special to The Advertiser.
Chatham, Sept. 28.—Chatham Collegiate Institute will be without rugby tais season. After repeated efforts, only twelve players turned out, which is not a sufficient number to endeavor to go through a season with. A junior team, to be placed in the O. R. F. U. series, will be formed, which will assure the fans of a few games this fall. Several workouts have been held, and the first game will be played tomorrow in Wallaceburg against the team of that place.

Fourfold Protection Sora Family Man

THE Mutual Life of Canada has acquired an experience of over half a century of life insurance. It has studied the results of thousands and thousands of policies. Our experience convinces us that for the average family man the most useful and economical form of insurance is the profit-participating, long-term, endowment policy. This policy matures at a specified advanced age, but is of course payable at prior death if that age be not attained.

Annual dividends are paid to holders of these policies and results will surprise those who have not realized what Mutual profit-participation can accomplish towards lessening the cost of life insurance. On some of these long-term endowment policies, taken out in youth, policyholders at maturity have actually received in cash 100% more than they have deposited with the Company as premiums!

This form of insurance provides against both premature death and helpless old age.

Accident and Disability Clauses

For a small additional premium, the Company will add the provision that should the assured at any time be overtaken by total permanent disability no further premiums shall be payable, and furthermore, the Company will pay the assured a monthly income during the continuance of total disability. And if desired a still further privilege may be secured-namely, a double indemnity in the event of death by accident-that is, the Company will pay double the face value of

Mutual Long-Term Endowment thus furnishes fourfold insurance protection-first against death, second against old age, third against disability, and fourth against accident. At the same time profits so reduce the cost of insurance as to make this policy an investment yielding not only all that it costs, but all the way from 25 to 100% more according to age and length of the endowment term.

Cold and Shivering —Perhaps

JAPAN, however great, cannot meet this fierce disaster without strain. Hence the Red Cross throughout the civilized world has sent hurried relief.

Canada's Government and Canada's Red Cross sprang to action immediately and some supplies have gone. Others will go. There are still hundreds of thousands homeless—perhaps cold and shivering.

Relief Fund for Japan

Bishop Hamilton wired a Toronto newspaper, on September 19th:— "More than a hundred thousand Japanese killed—two-thirds Tokyo —four-fifths Yokohama destroyed."

This is the greatest national calamity of modern times—almost of history. The Canadian Red Cross appeals to you to help show that Canada sympathizes nationally with this our northern neighbor. Your dollars will pay for Canadian supplies now being despatched.

tucked away in the deep recesses of her innermost heart for years, and every season she has kind of haif. promised to produce it again, but it's such a temptation to create new roles to every artist, that until now she has laid "Aunt Mary" back in her bower of lavender and old lace, and the tender memories which sur-round her masterpiece and has care-fully closed the lid letting none of the rare perfume escape, and now she has brought "Aunt Mary" back with the old fragrance as pungent as when

she first created the role.

Who of us, no matter how our lives have been spent, how far away from the family hearthstone we may have wandered, how many years have intertwined since we shook have intertwined since we shook hands with the so-called "life," cannot recall in our memory the sweetwhite-haired, gentle-voice

Those of us, who have never had a "Grandma," are to be pitied, for the charm of the old-fashioned woman is a rare jewel, almost extinct.

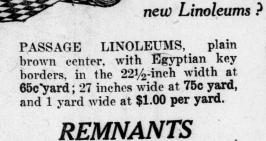

Miss Robson was never more beautiful or more betwitching in "Auni Mary," and all bemourn the fact that there are not more of the same type. Miss Robson has wonderful sup-port in her whole cast, and the production is par excellence in every detail, as Augustus Pitou, Inc., never fails to have a suitable mounting for his most successful star.

To-day I saw

"Kitchens would be different if men were the cooks." This was the text of a very interesting article which I just saw today. It was written by Gene Stratton-Porter for her monthly page in McCall's Magazine. Almost every woman in Canada knows Mrs. Porter as a novelist and a naturalist, for her books "Freckles" and "The Girl of the Limberlost" have been very widely

Not all women, however, know that Mrs. Porter is an ingenious and effi-cient housekeeper, too. She has proved this by her helpful and practical suggestions about modern "Conveniences for the Cook."

Mrs. Porter says: "I should like to see added to every home every com-fort and convenience ever designed for reducing to the minimum the tedious repetition of the daily grind of housekeeping." And later: "There are a whole world of conveniences for a cook that have been invented in modern days. It is pure joy to enter an up-to-date store and examine the array of small implements for peeling polatoes and slicing them; apple parers and corers, cun-ning little cake cutters and lemon

I was so mich impressed by her remarks that I went straight down to our own Housewares Department in the basement, where I had a very interesting demonstration of some of the modern comforts and conven-iences for housekeepers.

They are far too numerous for me ll you about them to day. But I have filled my little notebook with information and prices, of food choppers and measuring spoons and cookie cutters and saucepans and steamers. And I shall write a little series of advertisements especially addressed to that very important person, the cook.

"I was standing down by the stables all by myself," he began, "and then all of a sudden someone beside me said, 'Are you enjoying yourself?' I looked and it was the prince him-self. 'Just fine,' I said, and then, 'You know,' says I to the prince, "way back in the nineties I saw you; it was over in London, and you were pointed out to me as the eldest son of the Prince of Wales.' 'You were really in London, says the prince.

loctors recently passed a resolution advising against the playing of golf after sixty, local medical men continue to support the pastime. In fact, they claim golf is the finest exercise known to man, and advise every person to play the game up to the age of 100, if possible.

The action of English practitioners n condemning the game following the deaths of eight Britishers on various golf links inside of a year s considered locally to be unjustified. As soon as the anti-golf resolution was passed in England, New York doctors got together and passed a pro-golf resolution. That is, they placed themselves on record as being opposed to the British medical opinon pertaining to golf, and urged citizens of all ranks and ages to play the game as much as they could. Local Doctors For Golf.

Usually local doctors are inclined to follow the methods and respect the opinions of British physicians more than American, but in this particular controversy they are whole-heartedly in accord with medical men from the United States. They think the game should be taken up by all healthy individuals, regardless of age.

A prominent London south physician said that he had always looked

on golf as an "old man's blessing."
He believed it to be one of the most effective agents of longevity known.
"I don't see why old men shouldn't play it," he said. "The fact that eight golfers dropped dead on English golf links this year deesn't meable. eight gollers gropped dead on English golf links this year doesn't mean that the game is dangerous. They prob-ably would have died, anyway. If a an is accustomed to exercise, golf can do him no harm and a great deal

FRACTURES SKULL AND LEG, FALLING THREE STORIES

Think Guy Fontana, Aged 11. Fell From Window in Nightmare.

IN SERIOUS CONDITION

Guy Fontana, 11, son of Joseph Fontana, 66 King street, fractured his skull and one leg when he fell three stories to the sidewalk from a window at 245 Dundas street at 10:45 last night. Fontana is in Victoria Hospital, where he was rushed by motorists who saw him fall. Although he spent a fairly comfortable night, his condition was reported this morning to be critical.

Young Fontana was visiting his sister, Mrs. Fred Merrill, when the accident occurred. At about 10:40 o'clock Mrs. Merrill noticed her young brother was sitting in 4 rocking chair near a window facing Dundas street. She left the room a few minutes, and upon returning saw that her brother had disappeared. After searching the room for him, she looked out of the window, and saw the boy lying prone upon the cement walk below. She rushed downstairs, and found her brother in a semiconscious condition. He was picked up by passers-by who witnessed the

LOW RECORDS REACHED AT NEW YORK TRADING

Rally Follows Sharp Attack Against Motors and Allied Shares.

By STUART P. WEST.

Street, New York, Sept. 29.

Special to The Advertiser.

Wall Street, New York, Sept. 29.—
The stock market today went lower at the start under another sharp attack against the motor and allied shares. In the later dealings it rallied for the most part very easily. Evidently little real stock had been brought out on the early drive and traders, seeing this, were glad to cover.

During the weak spell in the first half-hour, new low records were made in Studebaker, American Wool, American Bosch Magneto, Kelly-Springfield, Fisk Rubber and Burns Bi x. Stewart-Warner broke very sharply and other of the motor parts companies' shares were under pressure in varying degrees. Kelly-Springfield was weaker than the rest of the rubber group, although these were well down toward their bottom points for the year. In connection with the selling of stocks interested in the automobile industry, the street had no explanation except to assert that production has been excessive and that this would be demonstrated in due time by further price cuttings. This is merely the view of professional speculators. So far it does not represent the declared view in the motor trade itself.

It was noticeable that other leaders like Baldwin Locomótive and American Can no longer were disposed to follow Studebaker. Even while the latter was making its new low record these companion stocks were not weak, and in the second and final hour rebounded readily. The action of the oil shares, which was steady throughout the early selling movement, indicated once more a sold out condition. Among the rails heaviness in the northwestern group was again a feature. Following the better understanding that according to the August figures Northern Pacific is earning about 2½ per cent on the stock, there was a drop of over a point. Great Northern preferred and Chicago and North Western were also under some pressure.

Associated Press Desnatch.

New York, Sept. 29.—Stock prices made a better response this week to constructive news, but speculators for the decline continued to attack various sections of the list and succeeded in uncovering a number of weak spots. Bond prices moved within narrow and irregular limits, with a better demand noted for some of the eastern and middle western railroad lines.

One of the outstanding domestic developments was the resumption of dividends on the common stock of the Baltimore and Ohio Railroad, which apparently took Wall street by surprise because the stock fumped 4½ points within 15 minutes of the announcement. This brought about sympathetic advances in other railroad shares, buying being influenced also by another report of weekly car loadings in excess of 1,000,000 cars and a series of favorable August earnings statements.

NORTH FUR-TRAPPING **POLICY IS ALTERED**

McCrea Establishes Sanctuary For Beaver and Otter Until 1925.

Canadian Press Desnatch. Toronto, Sept. 28.-Changes in the regulations and in the general policy governing Ontario's fur and game resources were announced today by Hon. Charles McCrea, minister of mines, a feature of which is to be the setting apart of sections of Northern Ontario for game sanctuary purposes. A radical change in the regulations is the dropping of the coupon system as applied to the trapping of otter and beaver.

Hitherto a white trapper has been

able to obtain a general trapper's license with ten beaver and otter \$15. In the case of an Indian, the ter certificates were granted without fee.

quiries around the club as to the owner of the car.

Unable to locate any owner, he decided to look it over and found that it answered the description of the automobile used by the robbers. Taking a light, Mr. Cottingham examined the car and in it he found an envelope bearing the print, "Bank of Nova Scotia, branch office, Oakwood avenue and St. Clair avenue" wood avenue and St. Clair avenue."

An extra set of license plates was found also and, satisfied that it was the car sought by the police, Mr. Cottingham at once telephoned to

eadquarters.
Detectives were at once despatched to the scene. The license marker found on the car was No. 34-467, while that which had been taken off and thrown on the back seat was serial No. 4-666.

A jack, tools, and pieces of old paper, were the only things, in addition to the bank stationery, found in the car, which was driven to a police

city to investigate reports that the men were in that vicinity. In both cases, however, the officers failed to get any trace of the suspects.

The first report was that a motor car had been abandoned, presumably by the robbers, near a cemetery, but when the police arrived no automo-bile could be found.

Early this afternoon a real estate man reported that he had seen two men in a field counting money, but when the police arrived at the spot me time later, the men had departed leaving no clue behind

Don't Wait!-Conversion Privilege May Be Withdrawn

Holders of Victory Bonds due 1st November, 1923, will receive a substantial cash bonus for converting them into the new Dominion Loan.

So many cash subscriptions for the new Loan have been received, however, that there certainly will not be enough new bonds available to permit all present holders of 1923 Victories to exchange their bonds for the new issue.

The method of exchanging old bonds for new is simple, but quick action is necessary. Use the coupon.

To New Investors

The new Dominion of Canada Loan is the most desirable investment to be had in Canada. The price is exceedingly favorable, namely to yield 5.14% for a full twenty years. The bonds can be turned into cash at any time.

We invite you to use the facilities of our organization. Fill out the coupon and return it promptly.

5% Bonds

Dated and bearing interest from 15th October, 1923, and offered as follows:

20 year Bonds due 15th October, 1943

Principal payable at the office of the Receiver-General at Ottawa or that of the Assistant Receiver-General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary or Victoria. Semi-annual interest (15th April and 15th October) payable at any branch in Canada of any chartered bank.

Denominations: \$100, \$500, \$1,000

All bonds may be registered as to principal only, and bonds in denomination of \$500 and authorized multiples thereof may be fully registered.

These bonds are authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

To Cash Subscribers Offering Terms

This issue presents a most attractive investment. The security is incomparable and the income return high. The bonds will occupy an investment position equal to that of Canada's Victory Bonds.

The bonds are offered for cash as follows:

98.25 and interest yielding 5.14%;

This offer is made subject to prior sale and to advance in price.

To Holders of 1923 Victory Bonds

In addition to the bonds offered for cash it has been arranged that all owners of Victory Bonds due November 1st, 1923, may exchange their holdings for the same amount of the new issue. They will receive in cash the difference between the face value of their maturing bonds and the purchase price of the new security, namely: at the rate of \$1.75 per \$100.

Special Privilege

Interest coupons on bonds exchanged are to be retained by the owner and eashed on November 1st. As the new bonds will be dated October 15th, holders who exchange will thus receive an extra half month's interest thereby reducing the cost of bonds from 98.25

98.02 and interest yielding 5.16%

Holders are urged to act promptly as this privilege is subject to withdrawal.

Dominion of Canada bonds are the most attractive investment obtainable in Canada

Orders may be telegraphed or telephoned (collect) and exchanges made through any of the undersigned or through your usual dealer or bank.

The right is reserved to allot a less amount of bonds than applied for, and to sell for cash more than \$50,000,000.

These bonds are offered for delivery in interim form on or about October 15th, 1923, when, as, and if issued and delivered to us.

FRUIT RECEIPTS HEAVY RUHR SEPARA AT SATURDAY MARKET

Towering Loads of Fall Pears and Peaches Greet Week-End Shoppers.

Bright, sunny weather brought out a strong attendance of both shoppers and growers for the Saturday market, and every available foot of space was covered with the farmers' wagons. Even the lanes of the market were requisitioned for stall space, and it was with difficulty that the shopper could move about, so crowded was the market.

The heaviest offering was in the fruit section, where great quantities of fall pears and imported peaches were stacked in towering loads on the trucks of the vendors.

Cauliflowers were on hand in larger quantity than last week, and a slight easing in price was noticeable. First quality potatoes brought from \$1.50 to \$1.60 per bag, with the single bushel quoted at \$1.

Grapes are selling at 50c per 11-quart basket. Walnuts made a first showing and brought as high as 60c per peck, unhulled.

ENJOY SPLENDID PROGRAM

Bothwell, Sept. 28.—The congregation of the Methodist Church held meeting on Tresday evening, and all departments of church work were discussed. All enjoyed the excellent program. Dorothy McHattie gave a reading and Rev. Mr. Cousins talked on the plans for the Sunday school for the coming year. Solos were contributed by Edith Cousins leave of absence, necessitated by pool

stration. The German city authorimake it what they call a dead Sunday, with the intention of averting collisions with the Separatists. A proclamation placarded this morning orders the suspension of all street traffic throughout the day for tomorrow, the prohibition including the tramways, taxicabs, private autobiles and even bicycles.

CONTINUE SUBSIDIES. By HIRAM K. MODERWELL.
and Chicago Daily News. Copyright.
Special Cable to The London Adversiser
Berlin, Sept. 23—Although formal
cancellation of the ordinances for passive resistance already have been issued, money for the support of the Ruhr population must continue to be ent into that region for several more weeks. A sudden collapse of money before productive work has been resumed would produce food difficul-

This money, however, will not go us Ruhr credits, but as ordinary un-employment doles, paid out by the municipalities as usual. The Reich will subsidize the municipalities for this purpose. So far as possible subsidies to employers will be cut off immediately, and the unemployment doles will be paid in food.

It is hoped the French will see the necessity for this program, and will not assert that resistance continues because the Reich still is subsidizing the Ruhr. Political circles are greatly depressed over the French reception of Germany's capitulation, but the Liberals and Socialists are inclined to think it is the German govern-ment's own fault. The capitulation s, in fact, incomplete. The Reich still has not agreed to resume payments in kind, and still is seeking to ba gain, although it has nothing to bar-gain with. Also, instead of sending formal diplomatic notes to the Allies. announcing a new situation and en bodying new offers, Chancellor Stresemann is seeking to start the diplomatic wheels informally through the Berlin diplomatic corps. It is as-serted here that his unwise haggling is due to the pressure of the Bavaria premier, Von Knilling, who refuto sign the capitulation proclama-tion unless reservations were made. Stresemann made concessions to pre-

France mu many's difficult reparations could never be paid.

WRONG BOOKS

Shipment of Histories Intended For U. S. Consumption Sent to Canada by Error.

WILL PROBE ERROR

An investigation as to how students at the Collegiate Institute of London and other centers in the province of Ontario came to be supplied with textbooks of American origin, and purporting to be a his-tory for the school, is being under-taken, according to information

ceived today. The books, which are written by two American authors, J. H. Robin-son and Charles Beard, are not suited for study in Canadian schools, in that many references are made to United States history, while com-paratively little is said about Canada, and particularly Canada's part in the great war. Local dealers, who supplied the

books to the students, are investigating the matter at the request of the educationalists of the city, and the Copp Clark Company, Toronto, will be asked to explain why the books

The opinion seems to be that two books were written, one for American and the other for Canadian consumption, and that the firm in the pany purchased the books, mixed the orders and sent that used in the American schools. One prominent educationalist

pressed the opinion that such had been the case. He also said that he was not worrying as the teaching of nistory successfully depended on the interpretation of the subject given by the teachers and he was sure that the teachers of London institutes were of such standing that no harm would result.

It was more to the casual reader that the books were harmful. These and dairy markets; news items; people would take the printed word for the truth and thus receive a wrong conception of the history.

It is also stated that J. H. Robinson, co-author of the book, is strongly pro-British, having been noted for hese sentiments during the ain's side in arguments and matters of discussion

Case Brought by Peter Lumley Against James Coulter Last On List.

Special to The Advertiser. Sarnia., Sept. 28.—The last case on the jury list of the Lambton assizes was that of Peter Lumley of Point Edward, who seeks damages from James Coulter of Sarnia for the alleged seduction of his daughter, Flossie Lumley, and was continued at this afternoon's sittings of the supreme court assizes here. W. S. Haney is counsel for the plaintiff and Weir, K.C., is acting for the de-

fendant.

Flossie Lumley, the alleged victim of the seduction, was the first witness called for the plaintiff. She testi-fied that she first met defendant at the social club in Sarnia in February 1922, at a valentine party. He accompanied her home on that occasion, and after that date he made several visits to her home. A child was born February 28.

Defendant made a total denial of the charges.

ASK GOVERNMENT AID IN SHIPPING PROBLEM

Urgent Appeal Addressed To Minister by Winnipeg Board.

Canadian Press Despatch. Winnipeg, Sept 28 .- An urgent appeal for government action to solve the lakes shipping problem has been addressed to the minister of trade and commerce by the Winniper Board of Trade, the Canadian Credi Men's Association, and the Manitoba Board of the Retail Merchants' Association of Canada. The appeal was

wired to Ottawa today. The government is urged to take whatever steps may be necessary to provide sufficient tonnage for the grain movement. The shortage of United States tonnage is ascribed to the effect of the inland freight rates act passed last session. The appeal points out that if a blockade is not avoided at the head of the lakes, not only would the producer be effected by lower grain prices, but that every business in the Dominion would be seriously injured.

Three New Business Laws To Become Effective Oct. 1

October 1, is the date chosen for the Dominion government to bring into force three pieces of legislation which closely affect the business world, one of them particularly touching the average citizen. The three laws referred to are the amendments made last session to the bank act, the remission of the bank act, the remission of the bank act, and the vision of the bankruptcy act, and the withdrawal of the privilege of using postage stamps for the payment of most taxes under the war revenue

The new bank act, as far as it concerns the larger number of its provisions, went into force upon July 1, but three vital sections do not become effective until the first day of next month. These three sections have to do with the monthly returns made by the banks to the department of finance, and with the new penalties for making false or deceptive statements regarding the condition of the banks. The outstanding change made by these sections with notes.

Ottawa, Sept. 28.—Monday next, officers of the bank making the statements, must in future take an oathr that full provision has been made for bad and doubtful debts in the valuation of current loans and discounts. The revised bankruptcy act intro-duces a system for the administration of insolvent estates analogous to that in force in Great Britain and the United States. By this new system, administration of such estates is to be effected by means of trustees appointed by the creditors, instead of pointed by the creditors, instead of the act, and dismissed the charged pointed by the creditors, instead of as heretofore, by authorized trustees generally selected by the insolvent debtor.

I will begin with something that is more than a mere verbal quibble. wish that this political system could have some other name than empire, ecause it is not properly an empire at all. It is a complex association of at least three different types of territory and the word empire is endlessly misleading and mischievous in connection with it.

In the last few years, for purposes that need not now concern us, I have had to study a certain amount of history and a number of historians. Many men of commanding intelliance have been historians, and I offer no comparison between the intel- predicts a world-wide state within ectual quality of historians and that of scientific men as such. A Letter from Mrs. Smith Tello How Lydia E. Pinkham's Vege-table Compound Helped Her

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children were born and afterwards, and find it a great help. Before my firstbaby was born I had shortness of breath and ring-

felt as if I would never pull through. One day a friend of my husband told him what the Vegetable Compound had done for his wife and advised him to take a bottle home for me. After the fourth bottle I was a different woman. I have four children now, and I always find the Vegetable Compound a great help as it seems to make confinement easier. I recommend it to my friends."—Mrs. FRED H. SMITH, John St., Trenton, Ont.

To the insuring public and the many friends and clients of the following insurance offices: Andrew Ellis, Insurance Broker; D. D. Lethbridge Agency; Thomas Knott, Insurance and Real Estate; J. F. Sangster & Co., Insurance Agency; Harold J. Lawson, General Insurance Broker; Abbott Assurance Agencies, have joined forces, and these reputable agencies will in future be conducted under the name Abbott-Lawson Assurance Agencies, at 117 Dominion Savings Building, London. Phone 650.

MAURICE J. ABBOTT.

Born near London, has lived con-tinuously in this city and vicinity. He brings into the business the successful experience of nine years' insurance underwriting.

HAROLD J. LAWSON.

Born and educated in London. Upon his return from overseas, joined the local staff of the North American Life Assurance Co. In 1921 he assumed the management of Andrew Ellis & Co., General Insurance Brokers. H. J. believes nothing succeeds like success.

The purpose of the new firm is to bring to present and prospective clients the facilities of more experience and a wider range of knowledge about the benefits of every kind of insurance as applied to the client's individual need.

Many of the most reliable insurance companies are represented your "Safety Service" Office—companies who have earned confidence through the years by carrying out the obligations of their contracts promptly and fairly. Insurance safeguards life, home and business. We would like to talk over with you the best way of applying the security of protection by insurance in this "Safety Service" Office.

The following classifications of insurance may suggest to you some protection which would just fit into your present needs.

FIRE INSURANCE on your house, garage, automobile, store building, stock of merchandise, factory machinery and fixtures.

AUTOMOBILE INSURANCE. Damage or loss due to fire, theft or collision. Public Liability and Property Damage protects your estate in the event of claims due to operation of your car if injuries are caused or property damaged.

BURGLARY INSURANCE on your household valuables, your mercantile stock, money, jewelry, silver and plated ware, furs, etc., or messenger and pay-roll hold-up.

GUARANTEE BONDS. Is your trusted employee bonded? Investigate our Position Form. It simplifies bonding your staff. All positions automatically covered, no matter which employee occupies same; also guarantee contract, government, lost document, customs, court, and any other special form desired.

LIABILITY INSURANCE. Injuries to employees or public due to the operation of your business or maintenance of your properties. Professional protection for error or malpractice.

USE AND OCCUPANCY INSURANCE; Business Interruption surance. Let us pay you a certain fixed amount per day if fire closes your premises. We'll provide for your profits and all fixed charges of operation at a surprisingly low premium.

RENT INSURANCE. Let us continue the income on your properties, even though vacated due to fire..

ACCIDENT INSURANCE. The premium is very small. Do not underestimate the value of your time or the loss of a limb or an eye. We sell policies which pay for life for total disability.

SICKNESS INSURANCE. Provides weekly indemnity for loss of \$\delta\$ time, hospital fees, nurse fees, operation expenses and for quar-

PLATE GLASS. The most hazardous risk you have. Our replacement policies are very low in price.

RAIN INSURANCE. Make sure of expenses of garden party, lawn

social or fall fair.

MARINE INSURANCE. We can provide "Safety Service" on that 3 overseas shipment.

TRANSIT. Personal effects, floaters, personal jewelry and fur floater, salesmen's samples floaters, registered mail, express and parcel post, motor truck transit, merchandise rail transit, shipment of household effects, and any other form of inland transit desired or other miscellaneous lines.
