Proposed Pier to Extend From Fifth St. Out Into the Eau 200 Ft.—Mr. Paxton Making Estimates

The cottagers at Erieau are completing a very largely signed petition asking for the building of a pier from the foot of Fifth St. on the Crawford survey, near Centreville, to extend some 200 feet out into the waters of Rond Eau.

WANTON CRUELTY

Humane Officer McGregor Finds a Brutal Case of Cruelty to Animals and Takes Prompt Action

A very brutal case of cruelty to animals came under the attention of Humane Officer McGregor this week. A man who lives near the outskirts of the city had a horse with a very sore back, which he was working hard every day. The case was so bad that several of the neighbors brought it to the attention of Mr. McGregor and he investigated it. He found the horse in very bad condition. The sore on its back was fully ten inches long and the animal was evidently suffering very much.

NO UNIVERSAL SUFFRAGE

Austrian Emperor Will Reject Plan of United Opposition.

Vienna, Sept. 13.—All hope of peace between the Crown and the United Opposition in the Hungarian Diet seems to have come to an end.

It is understood that Emperor Francis Joseph, who at first was apparently inclined to acquiesce in the plan of the Hungarian Ministers for the granting of universal suffrage as one way of bringing about the defeat of the United Opposition, has been induced to change his mind by the Austrian Ministers, who feared the effect on political conditions in Austria if universal suffrage should be granted to the Hungarian people. It is thought the Fejervary Cabinet will resign.

Vienna, Sept. 13.—Gen. Baron Fejervary, the Hungarian Premier, has tendered his resignation. The resignation will be accepted and His Majesty will in the next few days appoint a new Premier.

Francis Joseph and other members of the United Opposition in the Hungarian Parliament, with the view of endeavoring to arrange a compromise.

A PERILOUS SHORT CUT.

New Found Friends Rob Ernest McAulay of \$120.

Toronto, Sept. 13.—He came from Newmarket. He had \$120 in his inside pocket. He hasn't got it now. He was going to Georgetown. His name is Ernest McAulay. At the Union Station he met five of those fellows who hang around there looking for "come ons." They went around to several of those places, where they sell big ones for five cents. About 8 o'clock McAulay realized it was train time and said he was going. His companions offered to escort him to the depot. They took him into a lane as a short cut. Then they half strangled him and took his wad from him. The thieves escaped.

VICTORIAN IS FLOATED.

After Eleven Days' Rest—She Will Be Repaired at Quebec.

Montreal, Sept. 13.—The Allan Line turbine steamship "Victorian" was floated yesterday morning at 8 o'clock from the mudbank in the St. Lawrence, near Cape Charles, where she has been stranded for eleven days. The ship was taken to Quebec, where she will enter drydock.

The latest word from the stranded and submerged Leyland liner "Virginia" at Crane Island is that she is lying easily on a mud bottom and can be easily raised and floated.

Improvident people are often up in the clouds looking for some of those silver linings.

Experience may be a good teacher, but it is surprising how few take the lesson to heart.

Capture American Fishing Tug, Nets and 5000 Pounds of Fish

Port Dover, Ont., September 12.—The Canadian fisheries protection cruiser Vigilant captured the American fishing tug Bertha L. Cockle, of Erie Pa., to-day, together with about 5,000 pounds of whitefish and about a hundred nets.

The capture was made about twenty miles east of Port Burwell. The tug was brought here and handed over to the customs authorities.

NORWAY BELLIGERENT

May Fight With Sweden as a Result of Conference.

Inability to Come to Terms as to Arbitration Puts Affairs in a Serious Position—Sweden is Determined to Have Her Way, and the Swedish Authorities are Preparing for Breach That Threatens.

Christiania, Norway, Sept. 13.—The newspapers continue to somewhat heatedly discuss Sweden's refusal to agree to an arbitration treaty.

The Morgenbladet says Norway is prepared to dismantle her new fortifications in order to show her love for peace and desire for a settlement with Sweden, "but not a gun nor a stone shall be moved until the arbitration treaty is signed."

The Dagbladet, commenting on Sweden's refusal to discuss an arbitration treaty until Norway had accepted the Swedish conditions, declares that even war would be preferable to a peace bought at the expense of national humiliation.

Sweden is Determined.

Stockholm, Sweden, Sept. 13.—The delegates of Norway and Sweden appointed to discuss the dissolution of the union of the two countries will reassemble at Karlstad, Sweden, to-day, September 13, and it is declared here that as the Swedish conditions are unalterable, the outcome seems to depend on the Norwegian acceptance of these conditions.

The tone adopted by the Norwegian newspapers yesterday morning is very threatening, and is considered to be specially significant, coming after Monday's meeting of the Norwegian delegates.

It is recognized that a breach may follow the re-assembling of the delegates, and the Swedish authorities are preparing for such an event.

COUNTY COUNCILS ACT.

Hon. Nelson Monteth Says System of Election Will Be Changed.

Toronto, Sept. 13.—Hon. Nelson Monteth, Minister of Agriculture, has sent a circular to the County Councils of the Province, warning them that the Government proposes to abolish the present dual system of election, so that those councils which propose changing from one system to the other may be spared the trouble. The circular reads:

"It is the present intention of the Government to introduce and to pass the next session of the Legislature a bill providing for the repeal of the present County Councils Act, and to provide that henceforth County Councils shall consist of reeves and certain deputy reeves of townships and the mayor of towns not separated from the county."

GRAND RALLY

City Sunday Schools to Join in Social and Festive Event Soon

A rather momentous meeting of the executive of the city Sunday School Association was held last night in the vestry of the Park street Methodist church. As a result of the meeting it was decided to hold a grand rally of all the city Sunday schools on Tuesday evening, Sept. 26, a committee composed of two in Christ Church Sunday School Hall.

Ladies from each school was formed to arrange a musical program and light refreshments. It is fully anticipated that the gathering will serve the end in view, the promotion of harmony and good feeling among the schools of the different denominations. As there are over 150 Sunday school teachers and officers in the city, the gathering should be a large one. Paste the date in your hat!

At the same meeting it was decided that the president, Rev. Mr. Malott, attend the Provincial caucus in London, October 24, 25th and 26th, as the representative of this organization.

A CHARMING SONG

Another charming song from the talented pen of Victor Lauriston (Wm. E. Park), of this city, is published this week by the Vandersloot Music Co., of Williamsport, Pa. The selection is entitled "Little Miss M." and is one of Mr. Lauriston's best efforts. The musical setting is by Geo. Hahn, and is admirably adapted to the sentiment of the song. That it will be exceedingly popular there is no doubt, and to Mr. Lauriston The Planet extends congratulations.

Raleigh Township Will Not Further Dispute the Legality of Their New Road

Found to be an Excellent Highway—Pathmasters Were Engaged Upon the Work

The excitement occasioned by the unauthorized building of the fine new thoroughfare on concession 5 of Raleigh Township bids fair to have a peaceful termination.

Although another batch of legal documents was served upon the builders on Monday by the Sheriff under instructions from Wilson, Pike & Gundy, the township solicitors, a fuller examination of the premises has caused a cessation of forensic hostilities.

In an interview with The Planet to-day O. L. Lewis, who was retained by the builders, said, "I am advised that after examination of the circumstances and the good road built the township through the Reeve has ordered a dropping of all legal proceedings and a paying of the costs. As a matter of fact two pathmasters were engaged on the work and it was well and regularly done."

SMALL-POX

Cases of the Dreaded Disease Reported in Merlin—Every Precaution Being Taken

The village of Merlin has four cases of small-pox, one of which is said to be of a very serious nature. The epidemic is confined to one family and every precaution is being taken to prevent the spreading of the disease.

The disease broke out first on the mother of the family and has since spread to the father and two children. It is not known how the people caught it. The event is causing considerable excitement around Merlin but it is not thought it will spread any farther.

Miss Daisy McDonald, of this city, left this morning for Merlin to nurse the infected patients.

TRAIN WRECKERS' WORK.

Four Persons Severely Injured by C. P. R. Derailment at La-Belle, Quebec.

Montreal, Sept. 13.—Four passengers were injured at LaBelle Monday by a C. P. R. passenger train being derailed. The injured are: Rev. A. Oulmet, a Chicago priest, internal injuries; Camille de Martigny, advocate, shoulder hurt; G. Roehen, rendered unconscious; and a member of the Grand Bay Lakes Fishing Club, name unknown, right leg torn off.

Attempted Train Wrecking.

Montreal, Sept. 13.—Monday evening a train on the LaBelle line of the C. P. R. ran off the track, going into LaBelle station, through an open switch, the result of a criminal attempt to wreck the train. The switch was thrown open by some unknown person. The locomotive was thrown some ten feet from the track, but both the engine and the fireman escaped unhurt. Two coaches were derailed, Samuel Demartigny and G. Roehen, lawyers, of St. Jerome, and Rev. T. Oulmet, of Chicago, were rather severely injured. The line was temporarily blocked. Detectives are at work on the case.

C. P. R. Parallels G. T. P.

Winnipeg, Sept. 13.—At Edrains, Man., the Canadian Pacific Railway is having a survey made paralleling the Grand Trunk Pacific. Surveyors are busy locating a few miles south of the town, and their trial lines are only about 100 feet from the line of the Grand Trunk Pacific survey. This aggressive action on the part of the C. P. R. is taken to indicate a determination to retaliate throughout the west the attempts made by the new transcontinental railway to cut into C. P. R. territory.

Mangled By a Train.

Stratford, Sept. 13.—Martin Youle, Jr., a butcher, about 20 years of age, met with a fatal accident in the G.T.R. yards yesterday afternoon. With a friend, he was walking along the track when a freight train, bound for London, passed along. Whether he tried to board it or whether he was walking along with his head turned and walked into it is not known. His friend did not notice him till he was down under the car wheels. Youle was terribly mangled, and died in three hours.

Lloyd Case Traversed.

Toronto, Sept. 13.—The Court of General Sessions opened yesterday morning before Judge Winchester. At the request of S. H. Crane, assigned, the trial of T. H. Lloyd of Newmarket was traversed to the December sitting. There are three charges of theft against him. The reason given for the adjournment was that Lloyd's presence was necessary in settling up of the estate.

The average man is apt to feel that he is a little above the average.

CROP REPORTS

Bulletin From the Ontario Department of Agriculture Speaks Favorably of Kent Crops

The following from Crop Bulletin, No. 89, from the Ontario Bureau of Industries, and published by the Ontario Department of Agriculture, will be of interest to the people of Kent. The information as published in the bulletin has been gathered from correspondents throughout the whole of Ontario:

Fall Wheat.—The harvesting of this crop was begun rather later than usual in most sections, but the weather was favorable for cutting, and with the improved machinery now in use many had completed the work, and some had even threshed, before the 1st of August. The crop will be a big one as regards the yield per acre, more especially in the Lake Erie counties.

Tobacco.—The growing of this crop is confined mainly to Essex and Kent. Although the plant suffered considerably from wet weather early in the season, it met good recovery, and its general condition was classed as good by most of those who reported on it. Early planting is in better condition than that put in later. There are a few complaints of cutworm.

Chatham, Kent: Sugar beets are grown extensively for Wallacburg factory.

Harwich, Kent: In recent years we have been sowing fall wheat too early in order to escape the Hessian fly, which tends to make a late harvest and shrunken grain.

Camden, Kent: The cold, wet weather prevented fertilization by the bees, more especially in the case of plums and cherries.

Harwich, Kent: I think our apples are doomed in this section from scale.

DATE CHANGED

The "Isle of Bong Bong" B. C. Whitney's sparkling surprise, which is holding the boards at the Detroit Opera House this week, will play Chatham on Thursday, October 5th, in place of next Monday. This change was made owing to the fact that "Floradora" plays here on Friday of next week and the "Isle of Spice" on Monday, September 25th, and that together the chance for financial success would be slim. Manager Brisco, was in Detroit yesterday and made arrangements for the "Isle of Bong Bong" to play Chatham week after "Isle of Spice."

MONEY IS THE RAGE.

"How are you doing?" asked one man of another in front of The Toronto Star office the other day. "Fine," was the reply. "I've made more money in the past year than I ever did before." And the Star was led to the following comment:

That was how he was doing. But did he really answer the question, which, after all, was an inquiry as to his welfare, his health, his peace of mind, his usefulness, his satisfaction in living? The question and the answer made to it recalls Hon. J. W. Longley's article in the current Canadian Magazine, in which he accuses Canadians of being wholly given over to money getting. "Is it not time," he asks, "to call a halt in this mad career of materialism and practicality, and once more ask if there is nothing in life but the building of homes, the acquisition of money, the creation of machinery, and an aggregation of bodily comforts? Is nothing to be counted of moment except that which can be weighed and handled? Are we to take no account of justice, courtesy, self-forgetfulness, courage, and heroism? Has humanity forever ceased to be enriched by the heroic sacrifices of martyrs? Is it to be forever a Gradgrind question as to who shall have the largest salary, who shall live in the biggest house, and whose name shall be paraded most in the papers?" Mr. Longley charges that in home, school, university, boys are taught to go forth and seek worldly success, and that public men sit with a telephone at each ear, waiting to go with the crowd, right or wrong.

Unquestionably this is a money-making age. Nearly every man in Toronto is seeking to acquire more than he has, and the man who by nature is not acquisitive, but who would follow his ideals and live his own life, finds himself in time pinched and forced whether or not to join in and make what he can or lose even that with which he would be content. But what can be done about it? If any people on earth can be excused, for keeping practical and material considerations well to the front, it is Canadians, for we are few in numbers, with a great country to handle. Railroads, high roads, canals, ships, foundries, factories, the taking out of timber, the clearing of the land for agriculture, the opening up of new regions for occupation—these are money-making undertakings for us to-day, but they are preparatory to the giving of homes to uneducated and hungry masses in Europe, who are to come to this part of the world. Perhaps this present passion for money-getting is the energizing influence that is needed to develop the resources of this new world and make it ready for the generation of to-morrow, who will need it. The honey-greed of the bee, while insensate and out of all proportion to the needs of the insect itself, is yet turned to account. There is not enough time and thought given by men to the value of courtesy, courage, nor enough respect paid to the moral worth of those with whom they meet. There is too much importance attached to a man's capacity for making money, and not enough stern enquiry as to the methods by which he makes it.

And yet if to-morrow a south wind should blow over Canada and at the touch of its breath every man should grow content with his lot, and no more seek after gain beyond his mere needs, it all should turn away from the busy till to study pictures, to pore over books, to admire the sun and the dawn, to putter in gardens and flowers—would the world be better for than it is?

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

France has been described as an ideal field for the telephone, and with unlimited financial resources, a free hand in administration, and rates as stated in our last Talk, the service should be an ideal one. Let us review the practical results.

It is stated on undoubted authority that the Telephone Department is constantly striving to prevent an increase of subscribers, which would demand increased capital, and also to avoid a more general use of the service, which would require more assistants and increased facilities.

The service is exceedingly slow, so much so that business is generally greatly retarded thereby. When the administration is remonstrated with for delays, the reply is that the staff is much too small, and there is no remedy. An individual is powerless; he may not show his impatience over the wire without running the risk of future and greater delays, and possibly a summons before the Local Court for discourtesy to a functionary in his official capacity, a point on which French law is very strict.

It is stated that in a place near Paris conversation by telephone became absolutely impossible through interference from a trolley wire. The Government would not apply the very simple remedy of making the lines metallic until the subscribers advanced the funds necessary for the work. Numerous similar instances could be cited showing the disadvantages to the public of Government administration of the telephone service in France. So exasperated have the telephone users become that they have formed an Association for united protest, but so far with little effect.

It is sometimes stated that long distance rates are low in France, but it is overlooked that the Government has a system of "urgent call" rates, three times the ordinary rate and of necessity, the great bulk of the business goes through at the higher charge. Lines are limited and few people who have business which requires to be done by telephone can wait till others are served. Those who want the lower rate must wait until no one else wants the line.

France, the ideal field of the telephone, is not only poorly served and charged high rates under Government control, but development is practically prohibited.

Canada has little to learn regarding telephone service from the system of Government operation in France.

ANNOUNCEMENTS

The Wayward Son—Sept. 15.
The Isle of Bong Bong—Sept. 18.
Floradora—Sept. 22.
Isle of Spice—Sept. 25.
Down By The Sea—Sept. 27-28.
(Supplied to The Planet by Press Agents.)

With the unqualified endorsement of the New York press and the public, "The Wayward Son," a stirring domestic comedy-drama, comes to the Grand on Friday night.

While many organizations are provided with a full scenic equipment, few companies, even in these days of managerial extravagance, carry such an elaborate scenic outfit as does "The Wayward Son." The most striking feature of the production is the realistic electrical snow storm, during which the hero of the drama is rescued from his enemies by the heroine, a young secret service detective, with the aid of a full sized locomotive. Besides its dramatic value this scene is acknowledged to be one of the most beautiful and lifelike ever presented on the stage. Another important factor is the great success which has attended "The Wayward Son" in many of the larger cities in which it has recently been presented is the high character of the company, made up as it is of players of established reputation.

Then Dodd's Kidney Pills Cured His Diabetes

Startling Case of Thos. Harrison, of St. Mary's Ferry—He Tells the Story Himself.

St. Mary's Ferry, York County, N. B., Sept. 11.—(Special).—That Dodd's Kidney Pills will cure Diabetes, one of the most deadly forms of Kidney Disease, has been satisfactorily proved by Mr. Thos. Harrison, of this place. Speaking of his cure Mr. Harrison says:

"I began to suffer with severe pains above the region of the kidneys. When I lay down it was torture to get up again. My appetite failed and I lost flesh rapidly. "I doctored with several physicians but it was all no use. Shortly after this I began to urinate blood and then I knew I was in the grip of that dread monster, Diabetes. "At this time a friend prevailed on me to try a box of Dodd's Kidney Pills and they did me so much good I continued the treatment till I had used three boxes. They cured me completely."

TAKE MY CURE,
WHEN CURED YOU PAY ME

The fear that you could not be cured may have deterred you from taking honest treatment. You may have been one of the unfortunate ones who have been treated in vain by inexperienced physicians, free treatments, free trial samples, patent medicines, electric belts and other similar devices. Such treatments cannot and will never cure you, nor will these malades cure themselves. When I offer you a cure, and am willing to risk my professional reputation in curing you, and have such faith and confidence in my continued success in treating these diseases that a dollar need be paid until you are cured, a fair proposition cannot be offered to the sick and afflicted. This should convince the skeptical that I mean what I say, and do exactly as I advertise, as I am positive of curing you in the shortest possible time, without injurious after-effects. My charges will be as low as possible, for conscientious, skillful and successful services, and my guarantee is simple and true. Not a dollar need be paid until cured. I have 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee of my standing and abilities. It makes no difference who has failed to cure you, it will be to your advantage to write to me for my opinion of your case, which I give you free of charge. I want to hear from patients who have been unable to get cured, as I guarantee a positive cure for all chronic, nervous, blood and skin diseases, which I accept for treatment. Not only cure the condition, but I likewise all the complications, such as rheumatism, kidney and bladder troubles, indigestion, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in my own laboratory, to meet the requirements of each individual case. All medicines for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. I will send a booklet on the subject which contains the 14 diplomas and certificates, entirely free. Address simply, Dr. J. Goldberg, 205 Woodward Ave., Suite 311, Detroit, Mich.

Shipmates

By LOUISE MERRIFIELD

Copyright, 1905, by P. C. Eastment

She was alone. That much he knew. From the time the steamer left Bremen until it struck out into the open Atlantic he hardly noticed her, but once at sea she spent every day on deck and always alone.

It was Colford's own loneliness which forced him, half unconsciously, into a silent comradeship of sympathy with her. Ten years abroad in the Austrian consular service had made him feel like a foreigner now that he was among his own countrymen again. Nearly every one else on board had friends or made them readily, but for some reason—their own disinclination, he thought—the two remained apart.

She was in mourning. The soft clinging black made her look even younger and more girlish than she was, and yet it gave her a certain forlorn dignity. Once he passed her on a windy gray morning up forward. It was early, and there was no one else on deck. As he came abreast of her the wind in a vagrant frolic blew her long chiffon veil across his eyes. It was a clingy, exasperating veil. By the time Colford was disentangled he was angry and embarrassed until he met her laughing eyes.

After that he raised his cap when they met, and she acknowledged the silent greeting shyly. One night a wild spring tempest broke in sudden fury over the gray sea. It was after midnight. Colford stumbled into the cabin drenched with spray and met her face to face. Her face was white, and she held a sobbing child in her arms, soothing him gently, while the mother had hysterics in a corner.

"There is no danger," Colford said. She looked up at him, smiling.

"I am not afraid. There is never danger when one does not fear."

By the time Sandy Hook was reached, the sixth day, Colford knew he was overboard. It was her shy dignity that attracted him, her air of absolute self reliance and reserve, when he knew she was forlorn and desolate. She told him her story the day after the storm. It was a simple bit of tragedy, a trag-

edy of circumstances. She was an Austrian and an orphan. Her father had been a Viennese surgeon.

"And after he died, a year ago," she had told Colford, leaning over the bulwark, her gray eyes dreamily watching the long, swelling waves sweep back from the steamer's sides, "we lived at Brazza, on the coast—mother and I. It was her old home, and there was nothing else to do."

"And then—" said Colford as she paused.

"Then, a month ago, she left me also. She told me to come to America. I have an uncle, my father's brother, who will meet me in New York. He is the only relative I have in the world."

"Are you sure he will meet you?"

"I called him I was coming. He is a physician also," she said gravely. "He loved my father dearly. I know he will meet me."

"And if he does not?"

She glanced up with troubled eyes. "But he will. There is no one else in all the world who would help me."

"One other."

Colford spoke quietly, but a trifle unsteadily, as he looked down into her serious, childlike eyes.

"You must not say there is no one else. I, too, am alone in the world. Does not our mutual loneliness give us a claim on each other? Surely you will let me help you?"

A faint color rose slowly to her cheeks. She looked back at the sea.

"I think I should, perhaps."

When the steamer swung from the Hudson into its slip on West street, Colford sought her for the last time. The rest of the passengers crowded the bow of the boat, half crazy with joy, as they recognized friends and relatives on the pier, but the girl in black stood aft, looking back at the sunlit river, back toward the open sea and Austria.

"Are you sorry it is over?"

"Europe?" She spoke wistfully. "No; the voyage. He went on as she did not answer. "Has it been

nothing at all to you? Do you care, Helene?"

The purser came hurriedly from the cabin, a telegram in his hand. "Helene Vorga?"

She opened it slowly. The message was brief. Colford caught the paper as it fluttered from her hand. It was from a city hospital and merely stated that Josef Vorga, physician, had died six months previously.

"There is no one else," she said helplessly.

Colford led her to the cabin.

"There is one other—you forget," he told her. "Let me be the one, Helene."

She waited where he left her, tearless, helpless, yet with the quiet dignity that seemed to infold her like a magic cloak of separation from the world. It was half an hour before Colford returned. There was a new look on his face as he bent over her, a look of protection and determination.

"Dear heart, this glorious land of the free refuses to let a little foreign maiden all forlorn on its shores. You are a waif, sweetheart, a friendless, penniless waif, according to the officials downstairs, and as such they propose in a friendly, courteous way to ship you over to Ellis island as an unwelcome immigrant and deport you to Austria on the first steamer sailing."

She smiled for the first time, a faint ghost of a smile, though her eyes were filled with tears.

"It is terrible, I know," she said.

He took her hands in his. "The land of the free is willing to allow a girl immigrant to enter provided some one marries her. Helene, it is Ellis island or me. Can you choose, sweetheart?"

The steward came up the stairs, saw the two figures and vanished. Out on the river a tug whistled shrilly.

"When one is alone"—she began.

Colford raised the hand he held to his lips.

"When two are alone," he corrected, "they cannot possibly be alone. They have each other. The voyage has only begun, little shipmate."

"A SECRET."

One great secret of youth and beauty for the young woman or the mother is the proper understanding of her womanly system and well-being. Every woman, young or old, should know herself and her physical make up. A good way to arrive at this knowledge is to get a good doctor book, such, for instance, as "People's Common Sense Medical Adviser," by R. V. Pierce, M.D., which can readily be procured by sending thirty-one cents in one-cent stamps for paper-bound volume, or fifty stamps for cloth-bound copy, addressed to Dr. R. V. Pierce, at Buffalo, N. Y.

The change from maidenhood to womanhood is one that involves the whole body. The strain at this time upon the blood-forming structures may be too great. Disorders of the functions peculiarly feminine are nearly always dependent upon defective nutrition. In all such cases Dr. Pierce's Favorite Prescription is just the vegetable tonic for the female system.

"I cannot express my thanks for the benefit I have received from Dr. Pierce's medicine," writes Mrs. Julia Wehrly, of Cambridge, Rochester Co., N. Y. "I took Favorite Prescription and feel that a perfect cure has been effected. I feel like thanking you for the kind and faithful letters which you wrote."

Dr. Pierce's Favorite Prescription was the first exclusively woman's tonic on the market. It has sold more largely in the past third of a century than any other medicine for women. Do not let the druggist persuade you to try some compound that has not had the test of so many years' success.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

RUSSIAN JEW BAITING

MANY JEWS RECENTLY SLAIN IN WEST RUSSIA.

Said to Have Been Inspired By Treachery—Baiters Mob Synagogues and Loot Homes Searching For Their Victims—Outbreak Against Israelites in Jitomir Followed On Visit of St. Petersburg Agents.

During the last few weeks there has been a revival of Jew baiting in various parts of Russia, says a St. Petersburg correspondent, and particularly in the western Provinces bordering on Germany and Austria—that is, in those parts of the Russian Empire which ought to be most accessible to western culture and civilization.

These anti-Semitic outbreaks have not received adequate attention in the newspaper press of Russia or of other countries. Laconic official reports issued in St. Petersburg and communicated by cable to other parts of the world have supplied merely the barest hint of ghastly horrors which would shock the conscience of the civilized world if they were fully known and understood.

Since the Russian Easter—that is, the end of April, according to our calendar—there have been anti-Semitic riots in a score of Russian towns and in about fifty Russian villages. In the course of these riots more than 500 Jews of the Russian Empire, approximately 10,000 wounded. In addition to these casualties it has been ascertained that more than 1,000 Jewish women were outraged.

Several hundred houses belonging to Jews were demolished and razed. Five hundred shops belonging to Jews were sacked and 1,000 dwellings inhabited by Jews were looted. These figures, however, terrible as is the tale which they tell, do not convey an adequate impression of the horrors which were enacted by the bloodthirsty mobs of fanatical Jew baiters.

One of the worst features of this concerted outbreak of anti-Semitism in different parts of the country was the official support which was given to the anti-Jewish agitation. Those who are well informed regarding the course of political events within the scene in Russia ascribe this official support of violent anti-Semitism to

RUSSIAN PRESANT JEW BAITER.

Gen. Treppoff who, although nominally nothing more than Governor-General of St. Petersburg is really the most powerful man in Russia. Gen. Treppoff considers that it is good policy on the part of the Russian Government to encourage active Jew baiting among the Russian people in order to withdraw popular attention from domestic affairs and from the collapse of the Russian army and navy in the far east.

Gen. Treppoff believes that if the Russian populace, so to speak, lets off steam by massacring and bludgeoning the Jews they will be less inclined to be discontented with the conduct of the war and with the domestic policy of the Government. Consequently, Gen. Treppoff has exerted all his influence in favor of violent anti-Semitism, and it has been proved beyond doubt that the recent outbreaks in the western Provinces of the Russian Empire were instigated by agitators who came from St. Petersburg and were actively supported by the local authorities.

One of the worst outbreaks took place at Jitomir, the capital of the Province of Volhynia. About three weeks before the anti-Jewish riots began, six strangers arrived from St. Petersburg and began to prepare the ground for the accomplishment of their blood-thirsty design. They waited on the Greek Archdeacon of Jitomir and made representations to him regarding the evil influence which the Jews exercised over the Russian nation. They declared that the Government had proofs that the Jews all over Russia were the sworn enemies of the Orthodox Greek church, and were scheming not only to overthrow absolute Government but also to bring about the confiscation of the vast wealth of the state church for the relief of taxpayers.

They reminded the Archdeacon that the procurator of the Holy synod, Pobiedonostzoff, had confirmed anti-Semitism and frequently has given his support to anti-Semitic outbreaks. They persuaded the Archdeacon to look with favor on Jew baiting, and in the course of a few days they had contrived to convince his eminence that it would be most advantageous if the Jews of Jitomir were severely chastised for their revolutionary and irreligious opinions.

These agitators from the capital also put themselves in communication with the general commanding the Eleventh Russian army corps, whose headquarters are at Jitomir. They worked on him by means of similar arguments, and experienced little difficulty in obtaining from him a promise that his troops should not interfere to protect the Jews if an outbreak should take place.

Popular feeling against the Jews was worked up in a variety of ways. Thousands of pamphlets were circulated, in which statements were printed to the effect that the Jews were bloodsuckers and traitors and primarily responsible for all the troubles of the

"Peninsular" Steel Ranges ARE PERFECT COOKERS.

Peninsular Planished Steel Ranges are made of finest polished dead flat steel. This retains the luster of the metal and requires no blacking.

The body is made of double steel, with Asbestos between the sheets. This concentrates the heat in the oven, insuring quick baking with the least possible cost of fuel.

Double flue bottom under the oven prevents the chilling—quickens the baking—and does away with the necessity of having the floor under the range covered with zinc. They have both coal and wood grates, which are interchangeable without the least trouble. Handsome designs—heavily nickel plated—in all sizes. AN OUTING

Delightful Canoeing Trip up the
River by Members of the
Macaulay Club.

Another of those delightful picnics,
for which the Macaulay Club is be-
coming famous, was held yesterday,
when a party of 14 of the faithful
took a pleasant canoe trip up the river
and spent a most enjoyable out-
ing.

The party was composed of Messrs.
Wilson Taylor, F. D. Laurie, Dr. Mus-
son, W. Poole, Ayers, S. B. Arnold, J.
M. Pike, Fred Stone, Thos. Scullard,
J. W. Young, W. A. Collett, Lane,
H. D. Smith and R. W. Angus.

The only feature of the evening
which created any discomfort was a
slight downfall of rain, but no
amount of rain could dampen the
spirits of the party—they were safely
corked and placed on ice. In the ab-
sence of Mr. Peeston, Mr. Scullard
made the tea, securing the water
from the same spring in the centre
of the river that he had visited on the
event of the last excursion. Mr.
Laurie made himself the subject of
much adverse criticism by eating all
of the apple pie, much to the disgust
of H. D. Smith, who, as a result, had
to content himself with devouring a
couple of dozen sandwiches. Dr.
Musson was knocked out of the game
early—shortly after some feminine
voices were heard a short distance
away. The doctor was cute, how-
ever, and explained to Mr. Roberts—
when that gentleman was surprised
to find him arriving back so early—
that he was suffering from a severe
headache.

Excitement reigned supreme when
a sad accident befel the jeweller of
the party. That unfortunate gentle-
man attempted to perform a olog
dance or a highland fling, getting
out of the canoe with the result that
he found the water wet and sticky.
Mr. Taylor suggested that Mr. Stone
should swim out for him, but Mr.
Young remembered an experience he
had when a boy of swimming like a
stone, and advised against it. Mr.
Lane thought that Mr. Pike was the
proper one to do the diving, but
that gentleman remarked that while
he was a fish in name he was by no
means of the "sucker" variety.
After the lunch a jolly time was
spent on the bank in speech and song
and the party arrived back at the
boat house at a good hour, perfectly
pleased with the outing.
The club is indebted to Mr. Laurie
and Dr. Musson, who so ably man-
aged the affair.

IN AFRICA'S HEART.

Victoria Falls Bridge On the Zambesi
River Opened—Climax of a Great
Achievement.

Victoria Falls, Zambesi River, East
Africa, Sept. 13.—The bridge over the
Zambesi River was formally opened
yesterday in the presence of the visit-
ing members of the British associa-
tion. Prof. Darwin made the opening
speech.

At the conclusion of his speech Prof.
Darwin touched an electric button
which fused a wire stretched across
the track of the bridge, and an engine
decorated with Union Jacks passed
over.

The party then proceeded on an ex-
cursion to Livingstone Island.

The falls are situated 1,631 miles by
rail from Cape Town on the south, and

RAILWAY FROM CAPE TOWN TO
VICTORIA FALLS.

950 miles from Beira on the east coast.
The falls are about three times the
depth of Niagara Falls and are de-
scribed as being the greatest in the
world.

The total length is 650 feet, made
up of a main span of 500 feet from
centre to centre of the bearing piers
and two side spans. The principal
span is in the form of an arch with a
true parabolic curve, and was built
up of cantilever from each bank. At
the southern end there is an ordinary lat-
tice girder span from the bank to the
end posts of the arch of 37 feet 6
inches in length, while on the northern
side there is a corresponding girder
span of 62 feet 6 inches. The width at
the springing of the arch is 53 feet 9
inches between centres of booms, at
the top 27 feet 6 inches, and between
parapets 30 feet. The total weight of
steel in the bridge is 1,650 tons, and
its approximate cost including erection,
was £70,000.

Earl Grey Congratulates.

London, Sept. 13.—Lord Grey has
sent a congratulatory message to Sir
Charles Metcalfe of the Chartered
Companies regarding the opening of
the Victoria Falls bridge in South
Africa, the highest in the world, by
Prof. Darwin.

Some Money and Much Whiskey Help
to Influence Voters.

Port Arthur, Sept. 13.—The Port
Arthur and Rainy River election pro-
test trial opened Monday before Jus-
tices MacLennan and Teetzel. Messrs.
Helmuth, Keefe and Elliott appear-
ed for the prosecution and Messrs.
Aylesworth and McBrady for the de-
fendant. Thatchert stated that one
Greer had treated him and afterwards
took him into a room and asked him
how \$10 would cash him for voting
for Kennedy. He said he would not
look at it. Greer stated that he could
make a difference of \$50 in a contract
if he would vote Kennedy.

Several other witnesses were called,
each testifying of Aitkens having
brought whiskey to Sutherland's
boarding-house and treating men on
the day of election. One man swore
that Aitkens and Greer had each paid
him \$5 for carrying voters. Aitkens,
it was proved, was an agent of Ken-
nedy.

Frank Rowe stated he stayed at
Sutherland's boarding-house that
night. Aitkens and Greer were there
drinking with a number of men in a
room, while \$3 was slipped in his
hand. He stated he was offered \$10
to use his influence about half an
hour before the opening of the polls.

Evidence of the carousal was
brought out in court all day. Numerous
witnesses admitted that whiskey was
distributed freely in Sutherland's all
the previous evening.

Kennedy was called and stated that
he had not asked Aitkens to work for
him. However, a signed copy of a cer-
tificate of agency from Kennedy to
Aitkens was produced as evidence.
This was given Aitkens by the local
Liberal Association.

Aitkens was put in the box last
evening. He admitted having given
young Sutherland \$4 for the use of
his team on election day, stating he
wanted it for his own use. He also
admitted that he had a team of his
own, which he had loaned to a voter.
He had hired the other team because
his team was tired. He admitted giv-
ing money to Sutherland, but stated
that he was drunk.

SIR WILFRID AT PORT ARTHUR.

Banqueted By the City Council on
Monday Night.

Port Arthur, Sept. 13.—Sir Wilfrid
Laurier was banqueted here Monday
night by the City Council, over a hun-
dred being present. Sir Wilfrid paid
a glowing tribute to the west and pre-
dicted that Port Arthur and Fort Wil-
liam would not, unlikely, in the im-
mediate future, become great cities.
He also dealt with the transportation
question. The town was en fete, and
the party left for home last night.

MISSING BOY

Little Louis Baker, the 12-year-old
son of Mrs. Thomas Prior, is causing
considerable anxiety and sleepless-
ness for his mother since yesterday
morning.

The little fellow is in the habit of
cleaning out the office of R. A. Mur-
phy before he goes to school in the
morning. Yesterday morning he
started off early as usual but he
has not been seen at home since and
his mother is now looking anxiously
for his return. It is thought that
he drove out into the country and
is having such a good time that he
forgets to come home.

Mrs. Prior called on Chief Holmes
this morning and solicited his co-
operation in finding the missing child.

Fort William, Sept. 12.—Yesterday fully 10,000 people were taken to West Fort William, where within a stone's throw of the spot where the first sod of the C. P. R. was turned thirty years ago, Sir Wilfrid Laurier, with a golden shovel, turned the first sod of Canada's second transcontinental railway. Mayor Rutledge read an address of welcome to the Premier, which was followed by an address from the Board of Trade. Other speeches were made by Dr. Hamilton, Dr. Smellie, M. P. P. Geo. A. Graham, Joshua Dyke and R. A. Knowlton. When Sir Wilfrid stepped to the front of an open-air platform the crowd sent up cheer after cheer.

He thanked his stars, he said, that he had been permitted to take part in this ceremony. He remembered the words of fifty years ago: "All aboard for the west!" He would now say "All aboard for the vaster west! All aboard for the land of the prairie and its vast acres of wheat! All aboard for the Rocky Mountains with its untold minerals!"

He referred to the great country to be opened by this new road, and then spoke of Fort William as the coming Chicago of the north. He had years ago referred to Ottawa as the Washington of the north. He knew that but a few years were left for him to see, but he hoped to live long enough to see accomplished the great work of making this place the important centre it is destined to be.

He spoke of the present Government's work along the line of reducing wheat rates because of railway building, and intimated that when the Government will have built this railway that they will not fold their arms, but would be alive to the duty of the hour, and another road might be necessary. Speaking of the new Province, he paid a rich tribute to the American immigrants as the best class of settlers. He said: "Welcome to all new settlers—welcome to all as fellow citizens—welcome to all citizens of the King."

The Province of Alberta.

Alberta, the vast new Province of Northwestern Canada, carries in its name a compliment to Princess Louise, whose full name is Louise Caroline Alberta. It has, moreover, the distinction to have been named in worthy poetical strains, as shown in this name stanza by the Marquis of Lorne:

In token of the love which thou hast shown
For this wide land of freedom, I have named
A province vast and for its beauty famed
By thy dear name to be hereafter known.
Alberta shall it be!

A Unique Bridge.

The swinging bridge of wood and rope crossing a chasm in the Irish cliffs—Carrick-a-Ree and the Larrigan—high above the sea, which breaks in foam and embroidery along the rocky coast, is unique and unmatched. It is only used during the salmon fishing season and connects the mainland with the huge rock whence the place derives its name. Whether sailing the sea or coming up from the mainland, the bridge seems but a fragile thing—a floating sidewalk supported by thin air and your imagination.

A Sturdy Old Traveler.

Gen. Booth, head of the Salvation Army, has returned to London from his four months' tour of Australia, and is in fine health in spite of his seventy-six years, and the journey of 30,000 miles which he has just finished.

Minard's Liniment Cures Colds, etc.

The Flight of a Swallow.

Unless swallow stories be like anglers' yarns, a bird belonging to an Antwerp gentleman has just established a record. A flight of homing pigeons had been arranged from Compiègne to Antwerp. The swallow, caught by the gentleman from a nest under his own roof and duly marked, was sent to Compiègne and given its freedom with the pigeons at 7:15 o'clock in the morning. At 8:23 that same morning the swallow returned to its nest at Antwerp. It had covered the distance between the towns of just under 148 miles in one hour and eight minutes, having, therefore, traveled at the extraordinary speed of two miles and some three hundred yards per minute. The first pigeon to reach its cage, also at Antwerp, arrived there only at 11:30.—London Telegraph.

Music and Conversation.

It seems to be an English tradition—and well observed—that the beginning of music is the signal for what is sometimes called conversation. From numbers of letters appearing in the press we gather that Wagner is the chief sufferer. He has no chance against the voices of the talkers in stalls and boxes at Covent Garden, for even the "Meistersinger" seems to be but an excuse for tirades and tattle. One thinks that at Covent Garden prices are rather high to pay for listening to loud-voiced trivialities with a dim background of music; and there are some who, having paid for music, feel cheated. Covent Garden might stick up the notice of a western American actor-manager: "Them as talks, gits."—London Chronicle.

IN the Imperial Oxford we have not only given to the women of Canada the most perfect baking and roasting range but we have also produced the most economical.

The oven of the ordinary range is raised to a baking temperature by the direct heat of the fire on the side of the oven. To keep that oven at a sufficiently high temperature to bake or roast by, you must be continually poking the fire and adding fuel to it.

As the oven of the Imperial Oxford Range is heated by our patented Diffusive Flue, the temperature of the oven remains steady until the baking is done, without the necessity of touching or adding fuel to the fire.

Imperial Oxford Range

This fact is easily demonstrated. If, when an Imperial Oxford is going, you were to stop the inlet of this flue in the bottom of the range you would find by the thermometer that the oven was getting colder, and that to keep it at a baking temperature you would have to keep poking the fire and adding more coal just as with an ordinary range.

If your dealer doesn't handle the Imperial Oxford, write to us for catalogue and information as to where you can see it.

PERT PARAGRAPHS.

When a man gets his just deserts it is hard for the neighbors to be sorry for him, even though they want to.

If the letter that never came had been a dun, one just like it, only more interesting, would have followed the next month.

A man doesn't fall in love with the woman who can't keep him guessing.

When a man is poor and honest, often one is the cause of the other.

Some people are quite provoked about it if a spoiled child turns out right.

Before ordering plain soda water a man always looks around to see who is watching him.

A man has to see the world before he will believe it is simply his village hamlet on a larger scale.

It is impossible for a summer resort to live up to the advertisement, because if it did it would immediately make the advertisement stronger.

When a man has the toothache stepping on his corns should neutralize the pain, but it doesn't.

With the average man almost anything that is embellished with a few big words will pass for science.

You can make any girl think you are a man of good judgment by telling her she is pretty.

With the Fireflies' Aid.
On a pleasant summer evening,
When mosquitoes are not biting
And you need not spoil your temper
With the peevish insects fighting,
What is really more delightful
As the shadows come and go
Than when lovers in a hammock
Watch the fireflies' feeble glow?

On an evening in midsummer,
With the lightest breeze caressing,
And the stars their ancient secrets
Seem at last to be confessing,
How they twinkle in the twilight,
When the day has almost flown,
Lightning bugs, bright and fantastic,
Just like stars familiar grown.

And the lovers in the hammock,
Every moment closer sitting,
Mid the calm, serene surroundings,
Are they tending to their knitting?
Let no prying eyes of peepers
Watch them in this hour of bliss.
Let us rather take for granted
That each flash calls for a kiss.

The Law's Delays.

Dickens' famous case of Jarndyce vs. Jarndyce seems but an infant beside a case in the Spanish courts which has been running since 1517. The case, which is between the Jarquis de Viana and the Count Torres de Cabrera, was originally brought to settle a dispute concerning a pension, but instead of settling the dispute it started fresh controversy. The case is still upon the calendar and has benefited generations of lawyers whose fees have kept the original sum down to a reasonable basis. Compound interest upon the sum at issue would now make it a matter of millions, and the magnitude of the decision tends to prevent a settlement.

Officer and Soldier Well Matched.

An Irish soldier wanted to get a fur-trough and trumped up a story that his wife was very sick and had written him to come home. The captain knew some of Pat's tricks, so he said to him that he had received a letter from the lady, and that she told him not to let Pat come home, as he got drunk, broke the furniture and mistreated her shamefully. Pat saluted and started to leave the room, but on reaching the door, turned and said: "Sir, may I speak to you—not as an officer—but as a man to a man?" "Yes, Pat; what is it?" "Well, sir, what I'm after sayin' is this," remarked Pat, going close to the captain and lowering his voice, "that you and I are two of the most illigant lars that the Lord ever made. I'm not a married man."

Human Nature.

"We tried a new experiment in our town," said the man with silver rimmed spectacles. "We thought that the tendency to vanity was so great that there ought to be some reward for people who were capable of standing aside and rejoicing in the success of others. So we organized a society and arranged for the presentation of modesty medals."

"How did it work?"

"Badly. As soon as a man won one of the medals he would swell up and get so proud that we'd have to take it away from him."

DEAFNESS CANNOT BE CURED.
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Ostry's, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

TOGO'S FLAGSHIP SUNK HOLY WAR PROCLAIMED

Nearly 600 Men on Board Battleship Mikasa Drowned.

Vessel, Which Was the Finest in Japan's Navy, Took Fire at Midnight Monday, and Sank in Two Hours After Magazine Exploded—Men in Other Warships Killed—Admiral Togo Is Safe.

Tokio, Sept. 13.—The Japanese battleship Mikasa, which was the flagship of Vice-Admiral Togo during the battle of the Sea of Japan, caught fire and sank at 2.30 a. m. Monday. Admiral Togo was not on board the Mikasa when the disaster to the battleship occurred.

The loss of life by the sinking of the battleship totals 599 officers and men, including detachments from other warships which were in the rescue of the vessel.

Official Report.
The Navy Department yesterday afternoon furnished the following details of the sinking of the Mikasa. The battleship caught fire from an unknown cause at midnight, September 10, and before the fire could be subdued the flames reached the after magazine, which exploded, blowing a hole in the port side below the water line and causing her to sink.

The cause of the fire is under investigation.

The disaster has cast a gloom everywhere. The Mikasa was Togo's flagship and was endeared to the hearts of the people.

Spread Rapidly.
The ship, according to later reports, was at anchor at Sasebo harbor when the fire started at the base of the mainmast, at midnight.

Rescuing parties were sent from the various warships in the harbor, and there was heavy casualties among them.

Electricity Perhaps.
Various conjectures are current as to the cause of the fire. Some attribute it to an overcharge of electricity.

Other Disasters.
On May 15, 1904, the Japanese battleship Matsue was sunk by striking a submerged Russian mine outside Port Arthur, and 480 officers and men were killed.

The Japanese cruiser Yoshino was rammed and sank by a sister ship, the Kasuga, on the same day, when 232 officers and men were drowned.

London, Sept. 13.—The Tokyo correspondent of The Times says that the casualties resulting from the loss of the battleship Mikasa are five killed, 251 missing and 343 wounded.

Rome, Sept. 13.—The Tribune yesterday published a rumor from Tientsin to the effect that the family of Baron Komura, the Japanese peace plenipotentiary now in New York City, had been assassinated.

New York, Sept. 13.—Baron Komura was somewhat improved yesterday. He was still, however, confined to his bed, and members of his suite said a condition to be shown the report from Rome that his family had been assassinated.

Mr. Sato and the other members of the party considered the report to be entirely unfounded.

Tokio, Sept. 13.—A treaty from the Japanese headquarters says that in the direction of Hainan, Gen. Madrikoff with about three regiments opened an attack on Sushan on Monday, September 11, but was immediately repulsed by the Japanese. Madrikoff's force is said to have principally consisted of bandits.

JAPAN AND CANADA.
Former to Give Latter the Benefit of Low Tariff.

Ottawa, Sept. 13.—The negotiations of Canada for a trade treaty with Japan are well advanced, and before very long the Dominion will be enjoying the advantages of the Japanese low tariff.

In 1897 Britain made a treaty with Japan, and at that time Canada did not become a party to it. Hon. Sydney Fisher during his visit to Japan looked into the matter, and the Dominion asked to be allowed to become a party to the treaty.

Japan has two tariffs, a high and a low, and Canada at present comes under the high tariff.

LIFTED BY HER HAIR.
It Was Wound Around Belt Shafting—Girl's Narrow Escape.

Windsor, Sept. 13.—Miss Ella Patterson, an employee of the Canadian Typograph Co., in attempting yesterday to adjust a belt above her machine had her hair caught in the wheel.

Supt. Harrison jumped on a table and threw off the belt controlling the shafting. When rescued Miss Patterson's hair was wound so tightly in the wheel that her feet were lifted clean off the table on which she had been standing. A moment more and she would have been seriously injured, if not killed.

Schooner Washed Ashore.
Tacoma, Wash., Sept. 13.—A three-masted schooner has been discovered ashore bottom up three miles from Katag Beach, Alaska. Her name was not visible, but a bill for goods was found made out to the schooner Prosper.

Four bodies have been washed ashore.

Banished For Five Years.
Hamilton, Sept. 13.—Yesterday morning Byron Tams found guilty of assaulting the two little Reid girls. Judge Monck deferred sentence on condition that Tams, who is 17 years of age, will have to leave the city for five years.

Tartars Kill Armenians Without Distinction of Age or Sex.

Thousands Cross Frontier From Persia and Join in Destroying Villages—At Minkend 300 Armenians Were Slaughtered and Mutilated Children Were Thrown to Dogs—Embrace Islamism to Save Lives.

St. Petersburg, Sept. 13.—A holy war has been proclaimed in the Caucasian districts of Georgia, and a Jehad, where the Tartars are massacring the Armenians without distinction of sex or age.

The country is swarming with bands of Tartars. Many thousands of Tartar horsemen have crossed the frontier from Persia and joined the insurgents in destroying Armenian villages.

At the village of Minkend three hundred Armenians were slaughtered. Despatches say that the mutilated corpses were thrown to the dogs and that the few survivors were forced to embrace Islamism in order to save their lives.

Naphtha firms are cut off from the delivery of oil fuel to the shipping companies, who are now confronted with the necessity for suspending their services and discharging their employees, which would result in leaving thousands with no means of subsistence.

The salt works at Baskunchak have been obliged to close owing to the scarcity of fuel and this will paralyze the fishing industry.

Social Democrats Shot Down.
Tiflis, Caucasus, Sept. 13.—A hundred Social Democrats were killed or wounded yesterday in a conflict with Cossacks at the Town Hall, and many were trampled to death in a subsequent panic.

Two thousand Social Democrats had forced an entrance into the Town Hall. Revolutionary speeches were made and the chief of police ordered the meeting to disperse. Part of those present obeyed, but the remainder refused, and some revolvers were fired.

A large force of Cossacks drawn up outside the building then fired repeated volleys into the crowd, killing thirty and wounding upwards of seventy.

In the ensuing panic many persons fell and were trampled to death by their comrades and the pursuing Cossacks.

M. Witte Has Sailed.
New York, Sept. 13.—The Russian commissioners, who successfully concluded a treaty of peace with the emperor of Japan at Portsmouth, started on the return to St. Petersburg yesterday.

The party, headed by Sergius Witte, the chief Russian plenipotentiary, sailed on the steamer Kaiser Wilhelm II. at 4 o'clock yesterday afternoon.

Before leaving the city M. Witte and Baron Rosen made a farewell call upon the Japanese diplomats, who expect to leave for home later in the week.

Baron Komura was unable to see the Russians because of his illness, but through Minister Takahira he sent them a cordial message of farewell.

Mr. Takahira and other members of the Japanese party entertained the Russians for half an hour.

A big crowd had gathered at the dock of the Kaiser Wilhelm in Hoboken to see M. Witte and there was much cheering and hand clapping as he went up the gang plank, to which he bowed his acknowledgments.

Leave or Be Drowned.
Helsingfors, Sept. 13.—The customs authorities yesterday seized 5,500 rifles in the possession of persons in neighborhood of Jakobstad, on the Gulf of Bothnia, which were believed to be from an unnamed steamer sunk by her crew Sunday. When the customs officers boarded the steamer they were received by 20 of the crew armed with revolvers. The chief customs officer was permitted to visit the cabin, where, after negotiations, lasting an hour, he was told that he and his fellow officers had the alternative of leaving the ship or being drowned with her.

\$50,000 FIRE AT KINGSTON.
Car Shops Are Gutted and Magnificent Machinery Destroyed.

Kingston, Sept. 13.—The contents of the car works were burned yesterday forenoon, including some magnificent machinery, about to be moved to the K. and P. roundhouse.

Besides these, four box cars, the patterns of the railway, the snow plows and flangers were also totally destroyed, as well as engine No. 1 of the K. and P. Railway.

The cartage sleighs of the company were stored in the works and were consumed.

The estimated loss is \$50,000, and the insurance \$15,000. The C. P. R. formerly carried \$32,000 insurance, but a short time ago dropped considerable of it.

Fire Follows Lightning.
Toronto, Sept. 13.—The car barns of the Mimico division of the Toronto and York Radial Railway Co. were completely destroyed by fire, following upon the striking of a bolt of lightning about 5 p. m. yesterday. The report is said by those in the vicinity to have been a terrific one, and the accompanying flames were extremely vivid. The loss will be about \$15,000.

BEATEN BY THIEVES.
Montreal Merchant Locked in His Refrigerator and His Money Stolen.

Montreal, Sept. 13.—Thieves entered the office of James Hamilton a produce merchant on St. Paul street, yesterday afternoon. Mr. Hamilton was alone at the time, and the thieves, after knocking him into insensibility, locked him up in his refrigerator and made off with \$75 which they found in the office. Mr. Hamilton, who was badly injured, regained consciousness several hours afterwards, and succeeded in getting out of his imprisonment.

Crossed in Love, Drank Carbolic.
Hamilton, Sept. 13.—Disappointed in a love affair, Miss Bertha Platt, a 22-year-old Philadelphia girl who was visiting her brother, 300 West Jackson street, drank four ounces of carbolic acid yesterday morning, and died a short time after. The only explanation was furnished by some letters in which the tale of her unfortunate love was unfolded.

OTHER TEAM CHOSEN.

The team, selected from the west end of the Peninsular Association football league, which will play the All Scotch team of the Pilgrims, the the British Soccer aggregation touring America, and to appear here Monday afternoon, has been announced by President John Watts, as follows:

Goal, Bass (Sandwich); backs, Fisher (Windsor) and Steen (Detroit); half backs, Beaman (Sandwich), Pulver (Detroit) and Craig (Amherstburg); forwards, outside right, Andrew Fulton (St. Andrews); inside, McInnes (Thistles); centre, McKecknie (Thistles); outside left, Wright (Detroit); inside, Brian (Sandwich).

Probably no stronger nor a more representative eleven could have been chosen in the west and than the team gives above. With a good week's practice such an aggregation should put up a strong argument with the visiting Pilgrims. Every team, too, in this district is represented. Windsor, St. Andrews and Amherstburg have each a man on the line-up. Two Thistle players have made the team, while Sandwich and Detroit are each represented by three exponents of the game.

As for the players themselves all are high-class, familiar with the soccer stunts from first to last. Fulton, McInnes and McKecknie are all old countrymen, and have played on well known amateur teams of the other side. Craig, of Amherstburg, has represented the W. F. A. in St. Louis and Chicago on several occasions. Beaman played half back for the Toronto S. P. S. last year's champions of Ontario, on which team also Brian played. Steen and Fisher have each service in the old days, while Pulver was considered the star of Eastern Ontario on the half back division.

Practice will be held daily all this week, and an exhibition game will be played at Belle Isle with St. Andrew's.
