Issues all approved forms of life policies and annuities

Its Policy enables you to leave an estate that cannot be taken from those you love by any circumstances. It will secure your wife freedom from those distressing experiences which come to the destitute.

It secures means to continue the education of your children and maintain an unbroken home for them should you be cut off before they are able to care for themselves

It secures your business from being sacrificed, as is so often the case, for want of ready money to meet the demands that come in the process of forced liquidation of the estate by strangers.

Its Annuity Bond will provide a comfortable living for your old age.

For the past 34 years this **Hotel**, familiar known as the "**St Lawrence**," has been a household word to all Travellers on the Continent of North America, and has been patronized by all the Royal and Noble Personages who have visited the City of Montreal.

This Hotel, including the entire block, which is admirably situated, being in the very heart of the City, and contiguous to the General Post Office, Public Buildings and other places of business, has recently been acquired by Henry Hogan, the former Proprietor, who has handsomely and appropriately decorated and renovated the interior, and completely refitted the whole of the apartments with new furniture, comprising too new rooms, and making the present number of apartments 250. A new and elegant Passenger Elevator has also being added, and the Halls and Public Rooms are lighted by Electric and Incandescent lights, making it the most attractively lighted Hotel in the Dominion.

This Hotel is Managed by **Mr. Samuel Montgomery**, under the immediate personal supervision of **Mr. Hogan**, than whom no one is better qualified to conduct an hostlery of such magnitude as the **St. Lawrence Hall**, and no one has gained a better reputation as an obliging, generous and considerate host.

# KILGOUR BROS.

SOLE MANUFACTURERS OF THE NEW

## SELF-OPENING SQUARE PAPER BAG,

Which is now, for the first time, given to the public after eight years of the most assiduous and expensive experimenting to perfect the machinery on which it is made.

It is the first really Square and Flat Bottom Bag ever produced by machinery, although square bags so-called have been heretofore made.

For a machine to do what is necessary, to crease, fold and paste paper into the form required, to make what in fact is a collapsed box, is a wonderful achievement, which has been hitherto considered impossible.

### ITS SUPERIORITY OVER ALL OTHER BAGS CONSISTS:

**FIRST**—In the fact that it is SELF-OPENING. The grocer merely has to grasp one side of the opening and give it a flip through the air as he lifts it from his counter or rack, and it at once becomes a perfectly square box, which will stand upon its bottom. It requires no manipulation inside, which is necessary with all other bags in order to bring them to shape, at a great loss of the grocer's valuable time.

**SECOND**—In the better shape of a bundle of the bags, and in a saving of room on the grocer's counter or shelf thereby.

**THIRD**—In the shape and symmetry of the package when filled.

**FOURTH**—The bag, having no folds or loose pockets inside or outside its bottom, will empty out clean, and not a particle of material is wasted or carried away in the outside fold to be spilled over the floor.

In short, the bag speaks for itself, and a trial will convince anyone that it is the most perfect bag ever produced.

*The Machinery by which these Bags are made is covered by a number of recent valuable Patents, which will be protected at all hazards.*

# INTRODUCTION.

---

*To the Citizens of Ottawa and Hull:*

The Sixteenth Volume of the OTTAWA DIRECTORY, under its present management, shows, by its extended pages, that the Capital is making steady, although not spasmodic, progress. Without any boom, or very remarkable signs of rapid growth, yet the decided improvement in our streets, sidewalks and boulevards, and the extent of building operations, both of a public and private character, speak volumes for the healthy and substantial basis upon which our city stands.

Every effort has been made to make the present issue complete and reliable, though, as may readily be understood, it is quite impossible to keep pace with the changes going on while the work of printing is in progress.

In the Street Guide will be found the names of every street within the city limits, but as regards the newly added territory, owing to the absence of house numbering, the information is not as full as could be desired. The locating of each house has, however, been made as clear as possible.

In the adoption of the "ditto" system, instead of the repetition of names, in the Alphabetical List, a very decided change has been made. The new method, as now generally used by directory publishers, will facilitate the finding of names, as the confusion of repetition is avoided.

A complete directory of HULL is also given. The names of 2,350 householders will be found in this department, and also a Street Guide, descriptive of every street within the corporate limits.

The Directory this year contains nearly 100 pages more than last issue, owing to the extension of the city limits and the introduction of a directory of Hull.

Thanks are due to the citizens generally for the facilities afforded the canvassers while taking the information, and for the liberal patronage extended.

Respectfully,

A. S. WOODBURN.
