1846, and its prosperity has hitherto been unparalleled. It is now in the third fiscal year of the szistence; and numbers (October, 1849) nearly seven thousand members; with a constantly increasing accession. Its losses have been small, compared with the numbers which might have been expected, according to the Tables of Mortality upon which Life Insurance is predicated. By unparalleled success in business, and a strict economy in the administration of its affairs, larger Dividends have been made to Policy holders than by any other Company in the United States; averaging more than 60 per cent. annually.

THE MUNICIPAL ELECTIONS.

When a body of men, such as the Annexation-ists, set out with a few practical and intelligible principles of government which appeal to the understandings of all classes, it need cause no surprise that their ranks should be daily swelled

those who yield to their convictions. by those who yield to their convictions.

Writers at a distance, whether they hall from
the United States or England, were at first disposed to view the movement as an electioneering nœuvre, or a temporary trap set by a few de-

signing men to catch stray votes at an election. Time, discussion, and political controversy have removed the veil, and the Metropolitan Press of England, and the Republic, have taken up the subject, as one which may call for an earlier solution than they anticipated.

It can occasion no surprise, that as this agitation has progressed, invading the rural districts, and rousing the yeomen of Canada, to a consideration of their position, and an expression of their feelings, adding each mail the names of Counties, Villages, and Towns, which have given in running with the hare;" men who, in personal conference, profess enthusiastic attachment to the Hungarian refugees, on the occasion of their de-parture from Widdin.

There is no halting house man must stand beneath the full blaze of public opinion; we shall stand or fall by our principles, neither intimidated by the menaces of the official Gazette, not influenced by private feelings.

Montreal enjoys certain municipal privileges, amongst others the right of electing its own Corporation. Here, then, the battle must be first and earliest fought; and it becomes the duty of all Annexationists to provide that those who seek admission into the Municipal body, should openly declare their opinious upon the question of Annexation.

Can we wonder, I ask again, and again, and again, and again, and again, and expectants, and there well-pad iournals, are opposed to Annexation!!

WARRANTED POTASH KETTLES. The Subscribers, Agents of the ST. MAURICE IRON WORKS, will receive large quantities of the above during the Season of sleighing, and have a few on hand at present, assorted, 84, 5, 74, and 11 cwt. Owing to the increased demand for this make of the article, arrangements have been made at the Works which will catable them to execute arriers to the extent of 50 per week, if required. They beg to remark that the KETTLES latterly and now Manufactured at the above Establishment, are quite superior in quality and much lighter is weight than those formerly made, it having been the practice here tofore to cast from a Capalo Furnace, a considerable portion of Scotch Pig Iron was necessarily used with Coke as fuel; at present they are cast from the Blast Furnace and solely and directly from the St. Maurice Ore, smelted exclusively with Charcoal, thereby producing a durability in the article that can be offered in this market. The weights have been made to compare with the BAHE Subscribers, Agents of the STV MAU

weights have been made to compare with the lightest imported ones by keeping the edges and upper part thin, retaining the original thickness of bottom, and great care is taken to produce a perfectly sound casting in every Kettle. Notwithstanding the extra quality of the article and the circumstance of their being warranted, the Agents have instructions to sell them at a very small advance upon the price of other makes.

They have also on hand a Large assortment of POTASH COOLERS of all sizes, including the Flat Bottomed article of the most approved dimensions, with a Full Assortment of all the WARES usually made at the Works.

All ST. MAURICE POTASH KETTLES, COOLERS, SUGAR KETTLES and BOILERS, as well as STOVES, will be known by the letters "F. St. M.," being cast upon them.

HOLLOWAY'S OINTMENT. GURE OF RHEUMATISM AND RHEUMATIC

Extract of a Letter from Mr. Thomas Brunton, Landlord of the Water too Tavern, Coatham, Yorkshire, late of the Life Guards, dated Sep-tember 28th, 1848.

tember 28th, 1848.

To Professor Holloway.

Sir,—For a long time! was a Martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines! was as bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed! diship you worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in, I thought I would give them a trial. I did so. I rubbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and morning. In three weeks I was enabled to walk about for an hour or two in the day, with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business for more than seven months, without any symptoms of the return of my old complaint.

Besides my care of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, lving near me, had had a bad leg for four years, which so one could cure, and I gave her some of your Pills and Ointment, which soundly healed it when nothing else would do it. For your information, I had the honor to serve my country for twenty-five years in the lat Regiment of Life Guards, and was eighteen years a Corporal. I was two years in the Peninsula War, and was at the Battle of Waterloo. I was dicharged, with a pension, on the 2nd September, 1833. The Commanding Officer at the time was Calonel Lygon, who is now a General. I helonged to the troop of Captain the Honorable Henry Baring.

CURE OF A BAD LEG OF TWENTY-ONE To Professor Holloway,

CURE OF A BAD LEG OF TWENTY-ONE YEARS' STANDING. Extract of a Letter from Mr. Andrew Brack, Blacksmith, Eyemouth, near Berwick, dated the 10th of August, 1848.

the 10th of August, 1848.

To Professor Holloway.
Sin,—With pleasure and gratitude I have to inform you that after suffering for twenty-one years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your Pills and Oinument, which I purchased from Mr. I Davidson, Druggist, Berwick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure.

Extract of a Letter from Mr. Oliver Smith Jon kins, dated Falkirk, August 13th, 1848.

To Professor Holloway, Siz,—I was superintending, about six months ago the erection of one of our Ranway Bridges, and by Siz,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fall of a lerge stone up right foot was seriously bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to ave my foot, two of my toes must be taken off.—In dispair, I returned home to impart the melaucholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occupation, and at this time my toes are perfectly cured.

On the Mat July, 1848, the Editor of the "Mofus-silite" Newspaper, published in India, inserted the following Editorial cruicle in his paper.—"We know for a fact, that Holloway's Fills and Ointment act in for a sect, that Polloway's Priss and comment act in a most wonderful manner upon the constitution, as an eccentric Coolie, called Eliza, employed in our Establishment, was affected with myriads of Ringworms, which defied all the Meerat Doctors, and promised to devour the poor man before he was under ground; we tried "Holloway" upon him, and in a susunth he was perfectly restored to his former condition and cleanliness of skin. The effect was miraculous." The Pills should be used conjuintly with the Qint ment in meet of the following cases: ment in meet of the tollo

IN MANY THOUSANDS of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive neutrums of the day had ut-terly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial health, without which life itself is but a partial blossing. So great, indeed, has their officacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the heautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and censitie action in purifying the springs and channels of life, and endaing them with renewed tone and vigor, that they were indebted for their name.

and channels of life, and endaing them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of permiceous quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenie, nor any other mineral, in any form whatever. They are entirely composed of actracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before admissistered in so happily efficacious commination.

The first operation is to lossen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fances which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhosa with its imminent dangers. This fact is well known to all regular anatomists who examine the numan bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly meants the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible:

lible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Lose of Appetite, Heartburn, Headache, Restleseness, ill-temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

violence: all violent purges leave the bowels costive within two days.

Diarrhosa and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LOVE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the bowen the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

moved, becomes hardened, and produces these dreadful diseases.

Scurvy, Ulora, and Livesterate Scree, by the perfect purity which these LIFE MEDICINES; give to the blood, and all the humon.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complexies.

The use of these Fills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin.

COMMON CULDS and INTROLENCE we in always be cured by one dose, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this site that the former recognition of these value. this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THETT-FIVE YEARS; and that he tried, in vain every remody prescribed within the whole compass of the Materia Medica.
