

ARMISTICE SOUGHT BY BULGARIA

::: Revolution Raging in That Country :::

Premier Makes Offer to Entente Powers Today

BRITISH ATTACK SOUTH OF SENSEE

Fresh Drive Opened by Haig's Forces This Morning GOOD PROGRESS

GEN. GAIDA CAN CHECK BOLSHEVIKI Czecho-Slovak Leader Asks For Support of Three Allied Divisions SITUATION CLEARING

Asks Separate Armistice; His Offer Not Backed by King or Other Political Leaders, and Counter-Movement is Already Launched

By Courier Leased Wire. LONDON, Sept. 27.—Premier Malinoff, of Bulgaria, has made an offer of an armistice to the Allies, according to a Berlin message transmitted by the Exchange Telegraph correspondent at Copenhagen. The message states that the premier's offer was made without the support of other members of the cabinet or of King Ferdinand.

Along the Vardar, the Serbians and French have swept over Babuna Pass and taken Velez, while to the east they are in the outskirts of Istib. In this region the Bulgarians are invading the west. They are within 90 miles of the city of Sofia.

ADVANCE WEST OF ARGONNE STILL ON

KAISER WAS DRIVEN TO THE CELLAR Emperor and Staff in Mannheim When the Airmen Bombed That City HAD NARROW ESCAPE

Gen. Gouraud's Men Continue Their Progress FOE RETREATS

By Courier Leased Wire. Geneva, Thursday, Sept. 26.—Emperor William, Field Marshal Duke Albrecht of Wurttemberg and Prince Stephen of Schaumburg-Lippe were in Mannheim last week when British airmen raided the city. The emperor and his staff were in the cellar, remaining there 20 minutes.

By Courier Leased Wire. With the French Army on the Champagne Front, Sept. 26.—(By The Associated Press.)—General Gouraud's men were continuing their advance to-night along the front west of the Argonne forest. Greater resistance was being encountered and fresh obstacles were found to impede their progress.

London Sept. 27.—British troops attacked on a wide front south of the Sensee River this morning, according to a report received here from Field Marshal Haig. First reports indicate that satisfactory progress is being made.

By Courier Leased Wire. Vladivostok, Thursday, Sept. 26.—(By The Associated Press)—If given the support of three divisions of allied troops, General Gaida, commander of the Czecho-Slovak forces, said today that he could hold the Bolshevik armies on approximately the present line until the Russians in Siberia can organize an efficient army, whose discipline need not be questioned.

New York, Sept. 27.—The Associated Press this morning issues the following: Bulgarian forces in Macedonia seem to be fleeing in what resembles disorder from the hills to the east of the Vardar River.

Along the Vardar, the Serbians and French have swept over Babuna Pass and taken Velez, while to the east they are in the outskirts of Istib. In this region the Bulgarians are invading the west.

The message, in its bare outlines, would seem to indicate that the premier had taken matters into his own hands and attempted to initiate a peace move for Bulgaria independent of the dynasty.

FRANCO-AMERICAN OFFENSIVE FOLLOWED BY BRITISH THRUST

Haig Strikes Another Blow South of the Sensee River This Morning—Satisfactory Progress Made in Champagne Drive Yesterday

By Courier Leased Wire. New York, Sept. 27.—The Associated Press this morning issued the following: Another blow was struck at the Germans this morning when British forces south of the Sensee River, between Douai and Cambrai, launched an attack over a wide front.

London, Sept. 27.—Germany intends to send a solemn protest to Bulgaria against Premier Malinoff's request for an armistice, according to Berlin reports received in Amsterdam and forwarded by the Exchange Telegraph Company.

Paris, Sept. 27.—Marshal Foch delivered a new attack this morning against the Germans in the Champagne on a front of 40 miles, from the Suippe river, east of Rheims, to the Meuse, just north of Verdun.

The Berlin message to Copenhagen gives the first indication of any move made by Bulgaria to approach her enemies with conciliatory proposals.

By Courier Leased Wire. Santiago, Chile, Sept. 27.—The Chilean Government to-night ordered the naval authorities to occupy with armed forces all the interned German ships in Chilean harbors.

By Courier Leased Wire. Paris, Sept. 26.—"I see that a German official report says we are the most bellicose of all," said Samuel Gompers, the American labor leader, at a luncheon at the American Club this afternoon.

By Courier Leased Wire. Paris, Sept. 27.—Samuel Gompers, president of the American Federation of Labor, who is visiting the city, has invited the French Confederation of Labor to send delegates to the national conference of the American Federation, it is announced here.

NORFOLK NEWS

HIGH SCHOOL FIELD DAY AT SIMCOE

Bleak Weather Did Not Chill Enthusiasm of Contestants

OTHER SIMCOE NEWS

(From our own correspondent) Simcoe, Sept. 27.—There's a jolly tired lot of students at the high school to-day. The annual athletic contests were held yesterday, and though the date was set a fortnight or three weeks earlier than usual, in order to dodge bleak weather, the attempt was a failure. The same chill cool wind came along.

A very spirited game of basketball was played early in the afternoon. The teams and scores follow: Reds—Innes, Jamieson, Vera de Wolfe, M. Davidson, Flo Messecar, Margaret Taylor and Margaret Sharp. Blues—Edith Parr, Edith Lea, Clara Hunter, Vera Hunter, Edna Andrews, Alcee Gooddale. Reds won, 8-6 at half time; 12-6 at finish.

A very attractive part of the program was what might come under the category of a game of chance. This was carried on at the bread line, where some forty or more bright-eyed, rosy cheeked lady students stood close under a line from which was suspended by a short cord, a bun for each. By chance the contestants set tooth into the buns without using their hands, and by chance ate them without choking.

All of the members of the staff, and Rev. M. S. Fulton were out to assist or encourage the students. Otherwise there were few spectators. All of the events were contested strenuously.

A detailed statement of the winners follows: Junior Boys, (under 16) 100 yd. dash—H. Andrews, P. Innes, W. White. Standing broad jump—White, Andrews, Innes. 220 yd. dash—White, Innes, F. Smythe. Running high jump—Andrews, Innes, D. Selby.

Blindfold race—V. De Wolfe, M. Sharp, J. McKnight.
50 yd dash—A. Slater, E. Andrews, M. Demming.

Novelties
Coat races—Vera De Wolfe, Vera Hunter, Kathleen Boles.
Threading the needle—Eva Crapp, Margaret Sharp, E. Lea.
A Great Night in Masonry
Extra Chapter, A. P. and A. M. had a meeting last night that will be a landmark in the history of masonry here.

The Royal Arch degree was conferred by a team of present and past grand officers, and the craft spent a long session in a social way after the work of the evening was performed. Members of the team present were:

A. Shaw, Kingston; H. S. Griffin, G. A. Herald, G. H. Lanigan, G. Moore and W. M. Logan, Hamilton; P. S. Blair, Brantford; W. S. Milne, J. B. Nixon, H. T. Smith, Toronto; R. C. Douglas, Welland; J. H. Cavan and R. S. Hamilton, Galt; W. J. Logie, Paris; J. W. Dutton and W. L. MacWhinnie, G. E. Perker, Dunnville; R. B. Hutt, Ingersoll; Frank Reid, J. D. Christie, J. H. Shaw and H. A. Johnson.

Odd Ends of News.
W. Barlow received on Wednesday a carload of 51 two year old heifers, purchased at Toronto. The net weight was 27,000 pounds. The occupants continue to wonder why with freight rates high and the roads congested, Simcoe ships considerable beef stock to Toronto and buys at that market, consumers in the end paying freight both ways.

L. Reardon was yesterday reported considerably improved. An old inmate of the county home who wandered off last spring has been returned from St. Thomas. He had apparently had no care or attention all summer and looked the part when he arrived here on Wednesday.

Mrs. J. A. Calder gave a complimentary tea party on Wednesday on behalf of Misses Margaret Jamieson and Marjorie McKnight, who leave on Monday to begin their studies at Toronto University, and a bevy of

C. M. HAMILTON
Politician Farmer of McTaggart, Cato to C.N.R. Directorate.

their young friends followed up with a real corn roast last night in recognition of the rupture about to obtain in the social circle.

Maggie Lafore, of Hartford, employed at the Port Dover canning factory, has left an information against Kate Thomas of the same factory, charging assault and beating. As employer of both, Magistrate Bond declined to take the information, and it was taken in Simcoe.

Further French Gains
By Courier Leased Wire
Paris, Sept. 28.—The French have captured the Butte du Mesnil, the Butte du Souin, the Butte du Tahre and the villages of Tahure, Ripont, Cernay en Dormers and Servon-Melzicourt.

More than 7,000 prisoners were taken by the French. The French forces resumed their attack this morning, and despite unfavorable weather conditions, satisfactory progress is being made.

Quality—Service—Price

Are the Three Essentials you look for when ordering a Suit or Overcoat. If you buy the best, you'll get more for each dollar you pay in good quality and Lasting Service.

QUALITY
Firth Bros'. Quality Reputation for All-wool Goods, earned from years of supplying our patrons with only the best; an enviable reputation that has reached even the British mills themselves. The best woolsens, best dyes, and best patterns are none too good for Firth Bros. Service rendering woolsens we get every time.

PRICE
Price based first on quality, woolsens and trimmings wisely bought for spot cash direct from the mills at the lowest price cash will command. Tailored on a tailoring system where experts, with steady employment, know how to do and can do their particular job better than anyone else. With large output over-head expenses are reduced to a minimum. Profit per suit is also a minimum, for output on 10 and 12 suits where the ordinary tailor makes one, means a lower profit per suit.

These are not Idle Statements Meant to Mislead. They are Facts to Lead You in the Right Direction.

KOCHANA TAKEN.
By Courier Leased Wire
London, Sept. 27.—(6 p.m.)—(By The Associated Press).—Serbian troops were reported this afternoon to have captured Kochana, about fourteen miles from the Bulgarian border, opposite Kustendil. This is taken to show the rapid development of the Allied envelopment movement by which it is hoped the Serbs by a quick thrust to the north-east will cut off the Bulgarians who are being hard pressed by the British on the Bulgarian front.

ITALIAN MURDERER HANGS.
By Courier Leased Wire.
Montreal, Sept. 27.—Guiseppe Neucera, an Italian, who killed a fellow countryman named Bettiol in a fight last spring, was hanged this morning in Bordeaux jail.

FRIDAY, SEPT. 27, 1918
THE SITUATION.
 The Franco-American attack on a five mile front in the Champagne region is progressing in a most reassuring manner. As the initial result of the assault many towns and important positions have been taken and some thousands of Teuton prisoners. The results of this offensive will prove of far reaching importance and without doubt serve to still further sound the approaching knell of the hell hounds of Europe. The fact that the foe is still further commencing to feel the pinch with regard to man power is found in the circumstance that the French, who in this operation are advancing over ground they have not trod for four years, report the taking of many southern prisoners. Villages are in flames on all sides, marking the German course of defeat.
 The Bulgarian-Teuton forces continue on the run and there is now a race between them and the Allied forces as to which shall reach Uskub first. If the last named succeed three hundred thousand Bulgarian troops will become jeopardized. British and Greek armies are making their way over the mountains which separate Greece from Bulgaria. With regard to the latter country a Courier leased wire despatch to-day says that the Premier has offered an armistice to the Allies but has done so without the consent of the King and other ministers. Whether or no there has been a proposal there can be no doubt that the Bulgars are now bitterly remorseful over the position in which they find themselves.

CANADA MUST AWAKE TO NEED OF INDUSTRIAL EFFORT.
 The report of Professor Macaulam, chairman of the Advisory Council at Ottawa for Scientific Research, has just been issued, covering the activities of the council for the term ending last April.
 This report deals extensively with the individual branches of research, and varies from the development of a quick-manuring wheat, to the projected plan for the briquetting of lignite coals.
 The closing portion of the report deals with the necessity of stimulating research, if the Dominion is to maintain her proper place in the industrial world, during the time that will come after the war, when, in the words of the report, it is possible that the competition for international trade will be the keenest and most stiffest that the world has ever experienced.
 The report continues: "Each nation will organize itself for this struggle and neglect nothing that will in all likelihood promote success. Each will, accordingly, employ all the resources of the most advanced scientific knowledge in the conduct and management of its industries. The nation that fails to do so will be hopelessly handicapped in this struggle, however otherwise it may strive to avert the inevitable result. The new era is one whose industrial problems are to be of such a magnitude as to compel a radical recasting of all our industrial methods, and, above all, of the attitude of governments, Dominion or provincial, on the one hand, and of those in control of the industries, on the other, regarding the claims of scientific research as an all-important factor in the promotion of industrial development."
 "The war awoke Great Britain to the fact that she had lagged behind in the application of science to industry, and this has not aroused only the manufacturers and scientists, but the movement for scientific research has been unanimously endorsed by the labor party of Britain. This party asks, not only for the extension of knowledge into the material sciences, but that political and economic science shall also become subjects of research, lest, perfected in all the material branches, Britain should fall down through neglect of the human factor.
 "Not only must science be the handmaid of industry, but she must be applied to the relations between the different factors that go into production, so that the 'sometimes warring forces of capital and labor may be co-ordinated and work together, instead of pulling against one another, for the common good.
 "That there can be a scientific basis evolved in Canada upon which these relations may rest harmoniously

is the belief of most social thinkers, and the discovery of such a basis will go a long way towards facilitating the nation that does so, in taking its proper place among the competitors for world trade.
THE JOIT TO 'NEWSPAPERS.
 The following is taken from the Hamilton Herald:
 Commissioner Pringle has seen fit to fix the price of newspaper paper at \$69 per ton, and has made the price retroactive to July 1. The present price is \$57, so that the commissioner has awarded the paper manufacturers an increase of 21 per cent. A year ago there was considerable increase in paper prices. It is no exaggeration to say that newspaper publishers will now be required to pay double what they paid for paper a year or two ago.
 Some advance on even the present high price may be justified, but he has not himself given any reasons for it, nor has he allowed the publishers' representatives the time necessary to investigate the auditor's report upon which he is supposed to have based his decision. The publishers were not represented at the hearing yesterday, their absence being the subject of the commissioner's giving his decision.
 The manufacturers' protest against what they profess to regard as the inadequacy of the new price is, no doubt, of the nature of cantonage. Any reasonable cause for discontent on their part is not visible.

NOTES AND COMMENTS.
 The last post will soon be sounded over Hohenzollern hopes.
 The Bulgarian Premier would like to get in out of the web and there will be a lot of others shortly scrambling for cover which they should not be allowed to obtain.
 Bulgaria is beginning to wince over the near approach of invasion horrors which she inflicted with such a light heart on Serbia.
 Those Hamilton "sports" are certainly making a number of base bawls these days.
 Premier Borden is off on a much deserved holiday. It will now again be in order for certain piqueune papers to assert that his proper place should be at home beating carpets and washing windows in connection with the fall housecleaning.
 What the Hamilton outfit object to is any game in which they haven't a few hundred spectators aiding as fielders.
 It was a case of Geddon for the Moslems at Armageddon.
 The Dominion Government has done right in deciding to get after the Bolshevik gentry in a drastic way. There is no place in this country for people of that ilk except in the penitentiaries.

Your Problems Solved??
 By Rev. T. S. Linscott, D.D.
 (All rights reserved.)
 Dr. Linscott in this column will help you solve your heart problems, religious, marital, social, financial and every other anxious care that perplexes you. If a personal answer is required, enclose a five cent stamp. No names will be published; if you prefer, sign your initials only, or use a pseudonym.
CULTURED GOODNESS.—"A Socialist" inquires, "What relation has education and culture to genuine goodness?" Some of the most highly educated and most carefully cultured men and women of history have been the worst. At the same time education and culture greatly help those who are good to accomplish the highest results. Education and culture make genuine goodness much more attractive and put into it a dynamic for accomplishing results which it does not otherwise possess. Goodness without culture is a diamond in the rough, but with culture it sparkles with splendor.
UNIQUE MILLINERY.
 A celebrated French artist, once, when asked what he mixed his colors with, replied, "with brains." A lot of them have been used in turning out the unique millinery models at the Crompton Millinery Rooms this season that, coupled with moderate prices, has won the appreciation of hundreds of Brantford ladies, and will interest hundreds more.

SENATOR JOHN MILNE
 Hamilton Business Man who has been appointed to the Upper Chamber.

CANADIAN CASUALTIES
 By Courier Leased Wire.
 Otsawa, Sept. 27.—To-day's list reports the following Canadian casualties:
Infantry.
 Killed in action—440,532 E. N. Nichol, Hamilton; 3,130,560 F. Readhead, Woodstock; 2,188,752 H. L. Richardson, Drayton.
 Died of Wounds—474,210 C. E. Wigot, Pendleton.
 Missing—3,317,263 E. J. Allen, Brantwood; 622,085 C. S. Kneepfar, Walkerton; 3,139,418 A. Cummings, Woodstock.
 Prisoner of war—639,154 S. H. Vennart, not stated; 652,350 J. Buchanan, Goderich.
Mounted Rifles.
 Killed in Action—910,931 E. R. Reid, Mount Forest.
Artillery.
 Wounded—334,520 E. B. Ballard, Walkerville.
Machine Gun Company.
 Wounded—Lieut. F. I. Carpenter, Winona.
 Gassed—553,784 J. L. Dean, Goderich.
Medical Services.
 Died—Captain T. Graham, not stated.

ADVANCE
 The Germans were forced to give up positions of great strength, which for years had proved almost impregnable. Consequently a feeling of much satisfaction is permissible, but it is too early to pronounce definitely the results finally to be attained.
 The counter-battery work of the Germans to restrain our advance and his machine gun fire caused trouble. His air work was very imperfect early in the day, but improved later and was directed particularly against the American balloons. The American tanks did well when they assisted in the advance.
VON STEIN RESIGNS?
 By Courier Leased Wire.
 London, Sept. 27.—Lieut.-General von Stein, the Prussian war minister, is reported to have resigned, according to advices to the Exchange Telegraph Company from Copenhagen.
 General von Stein became Prussian war minister late in October, 1916, succeeding Lieut.-General Wild von Hohenborn, who was placed in command of an army corps on the western front. General von Stein had been in command of the 14th Reserve Army Corps, after having served as quartermaster-general. Before his appointment as war minister, he was in command of troops on the Somme front in France. General von Stein tendered his resignation as Prussian minister of war on July 13, 1917, but it was not accepted.

SICK WOMAN NOW WELL
 Took Lydia E. Pinkham's Vegetable Compound. Read Her Letter.
 Pottsville, Pa.—"For a long time I was bothered with pains in my side, and was so weak from my trouble that I could not do any lifting or hard work of any kind. If I tried to straighten out when lying down it seemed as though something would tear loose. Lydia E. Pinkham's Vegetable Compound has restored my health and I am quite myself once more."
 Thousands of women drag along from day to day in just such a miserable condition as was Mrs. Chubbuck, or suffering from displacements, irregularities, inflammation, ulceration, backache, headache, nervousness, or "the blues."
 Such women should profit by Mrs. Chubbuck's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did.
 For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of her long experience is at your service.

The Victory in the Balkans continues to assume greater proportions. On the east the British have crossed the Bulgarian Frontier between Strumnic and the Belashitzka range, and the whole valley of the Strumnitz River.

The Heavy Arrow on the Map indicates the sector the Allies are now attacking.

FRANCO-AMERICANS
 German positions along the front. If the drive continues to progress it will carry a distinct threat to the whole German position north of the Aisne, west of the present battle field, and also tend to outflank the enemy's lines before Metz and Briey.
 That the enemy has prepared lines to which he is retiring is the belief of observers. Just where this line is located is not known exactly, but it is probable that the rate of progress of the Allies, if maintained, will bring them up against this new front very soon.
EARLIEST SNOWFALL IN HALF A CENTURY
 London, Ont., Sept. 26.—London had its earliest fall of snow in fifty years to-day. For more than two hours a heavy snowstorm lasted, some of the flakes being as large as an American silver dollar. With the highest temperature in the province in the summer, and now a September snow fall, this city should soon win distinction from the Weather Man.

DOING WELL.
 By Courier Leased Wire.
 London, Sept. 27.—(7 p.m.)—The new British thrust against the German positions in front of Cambrai is progressing satisfactorily, according to the news received here at this hour. The attack is viewed here as a strong British effort to take Cambrai.

TOLL OF LIVES TAKEN BY INFLUENZA
 New York, B. Montreal Area by the Dis. MANY DEATHS
 By Courier Leased Wire.
 Quebec, Sept. 27.—The Quebec Civic Health Board with regard to the spread of Spanish influenza he affirmed was previously condemned to give last night by a court.
 The coroner said many suspicious deaths as he was concerned that they were due to influenza. He said that the bodies of sailors, who had died in this port had the underlying cause be embalmed for shipment. He said that the authorities had been notified the authorities had died from influenza and that they remained inactive.
 Twenty-seven deaths here from Spanish influenza, and seven from pneumonia, the latter due to influenza, reported to the health department. This is a greater total than reported in the city for the 24 hours ending yesterday, which was reported to be the last when the epidemic was spreading through the city.
 For the week ending Sept. 20, the surgeon-general reported to-day, the death toll, compared with the previous week, was 137, as against 117. He pointed out that the figures show the seriousness of the disease, as since last Friday they have further rapidly spread, with many deaths.
 While epidemic here has been prevalent, chiefly in the seaboard, the health officer said it may sweep westward with an increase in mortality next few weeks.
 Orders issued last night by the health officer calling for entrance of 800 draft registrants between 7 and 11 were due to conditions in many camps, said by health officials, to be necessary at this time.
ROLLER CARNIVAL PROVED SUCCESSFUL

HARVEY SAUNDERS GAINED 20 POUNDS

Weights More Than Did in His Taking

"To show you what I have done for me, I gained five bottles and a pound heavier than my life," said M. H. Saunders, employed by the Grand Ship Building Co., 335 Fifth street, Portland. "For four or five times, I had an empty stomach, trouble that worse in spite of all I didn't relish my food, and I would ferment and bloat me up and was miserable for two afterwards. The tent my stomach would get to my back, and I would belch up much of what I fell off from a hundred to a hundred pounds. I felt so tired that it was all I could go and many a time just couldn't hold out. I took all sorts of medicine, but nothing did me a bit. "When I heard of taking Tanlac and I it got me a bottle, wasn't long before I was a different person. Now—anything I eat hurts me at all. I have trouble with gas or stomach pains, and I weigh to a hundred pounds. That old weight is all gone. I am working day and never feel tired before. My wife was down too, and complete gas and nervousness. Tanlac soon set me out and now she says as well as ever." Tanlac is sold at Robertson Drug Store, Appleton, Wis.; in Mt. Vernon, Wis.; in Middleport, Pa.; in Onondaga, Pa.; in Phadden.

GERMANY WIN OR LOSE

Sword as Necessary as Teeth to Bear von Koeser

By Courier Leased Wire. Amsterdam, Sept. 26.—Victorious if we are politically and economically and economically, Admiral von Koeser, commander-in-chief of the Navy League at Dortmund, declared in a speech to the Navy League at Dortmund message reports. "After the war," he said, "our ships must traverse the ocean have colonies with their support. We want to see and we will only the protection of the G. The speaker eloquently as a means to victory. "As nature needs steel has given beasts teeth man also needs the sword. In referring to the of nations, Admiral von declared that Germany have the role of a chief.

BANK OF ENGLAND

By Courier Leased Wire. London, Sept. 26.—Statement of the Bank shows the following changes: Total reserve, decreased; bullion, increased, 256 securities, increased, 271 deposits, decreased, other deposits, increased, 000; notes, reserve £536,000; Government decreased, £3,365,000. The proportion of the reserve to liability this per cent; last week it was 100 per cent.

Rate of discount, five per cent. In the most you but inspected? Wm. Davie inspected.

HARVEY SAYS HE GAINED 25 POUNDS

Weights More Than He Ever Did in His Life Since Taking Tanlac

"To show you what Tanlac has done for me, I gained 25 pounds on five bottles and am now twelve pounds heavier than I ever was in my life," said M. Harvey, who is employed by the Grant, Smith-Porter Ship Building Co., and lives at 410 Fifth street, Portland, the other day.

"For four or five years," he continued, "I had an awful time with stomach trouble that steadily got worse in spite of all that I could do. I didn't relish my food, and what I ate would ferment on my stomach and bloat me up with gas, till I was miserable for two or three hours afterwards. The terrible misery in my stomach would go clear through to my back, and at times I would belch up much of what I had eaten. I fell off from a hundred and sixty-eight to a hundred and fifty-five pounds. I felt so tired and worn out that it was all I could do to keep going and many a time I felt like I just couldn't hold out another day. I took all sorts of medicines, but nothing did me a bit of good.

"When I heard of so many people taking Tanlac and being helped by it I got me a bottle to try, and it wasn't long before I was feeling like a different person. I eat like a pig now—anything I want and nothing hurts me at all. I never have any trouble with gas or those awful stomach pains, and I went up in weight to a hundred and eighty pounds. That old worn out feeling is all gone. I am working hard every day and never feel tired like I did before. My wife was very much run down too, and complained of indigestion and nervousness. A few bottles of Tanlac soon straightened her out and now she says that she feels as well as ever."

Tanlac is sold in Brantford by Robertson Drug Store; in Paris by Apps Ltd., in Mt. Vernon by A. Yoe-mans; in Middleport by William Peddie; in Onondaga by Nell McPhadden.

GERMANY MUST WIN OR PERISH

Sword as Necessary to Man as Teeth to Beasts, Says von Koester

By Courier Leased Wire
Amsterdam, Sept. 26.—"We must be victorious if we are not to perish politically and economically," Grand Admiral von Koester, former commander-in-chief of the German fleet, declared in a speech to the German Navy League at Dortmund, a Berlin message reports.

"After the war," continued the Admiral, "our ships in large numbers must traverse the ocean and we must have colonies with strong points of support. We want free trade on the seas and we will only get that under the protection of the German fleet."

The speaker emphasized the sword as a means to victory, declaring: "As nature needs storms, as God has given beasts teeth and claws, man also needs the sword."

In referring to the proposed league of nations, Admiral von Koester declared that Germany would only have the role of a Cinderella in it.

BANK OF ENGLAND.
By Courier Leased Wire
London, Sept. 26.—The weekly statement of the Bank of England shows the following changes:
Total reserve, decreased, \$551,000; circulation, increased, £1,097,000; bullion, increased, £546,633; other securities, increased, £788,000; public deposits, increased, £6,191,000; other deposits, increased, £4,022,000; notes, reserve, decreased, £596,400; Government securities, decreased, £2,345,000.

The proportion of the bank's reserve to liability this week is 17.78 per cent.; last week it was 17.88 per cent.

RAH! RAH! RAH! RAH! RAH! BRANT PROTEST CARRIES

O.B.A.A. Order the Malleable-Beaver Game to be Replayed in Hamilton Tomorrow-- Charges Against President Waite of Hamilton Laid Over

Toronto, Sept. 26.—As was intimated yesterday the O.B.A.A. semi-final between Brantford and Hamilton of last Saturday has been ordered to be replayed in Hamilton tomorrow. Such was the decision of the O.B.A.A. executive, which met last night to consider the protest.

Brantford protested on the ground that the fact that the game was requested by them and citing cases where the Hamilton team profited by this, and where Brantford were the sufferers. Hamilton entered a defence, but unlike Brantford, they failed to send along their fees and therefore legally didn't defend the protest.

The reports of both umpires established the fact that balls had been hit into the crowd etc. and the executive therefore ordered the game to be replayed tomorrow. The secretary will instruct the Hamilton club to make the best possible arrangements regarding the crowd while the umpires will be instructed to enforce the ground rule. Should Brantford win the play-off will be next Wednesday on grounds agreed to by the two clubs. Failing to agree they will have to toss a coin.

The Kitchener club, who were to have played Hamilton this week, were notified by wire last night that their game had been postponed a week.

Regarding the charges against President Waite of the Hamilton Association certain evidence was produced which showed that this official had apparently been exceeding his authority. This matter though was left in abeyance for a week.

Despite the report from Hamilton that they would not be represented at the meeting last night they had a representative in Frank Robbins. The other members present were:—President W. J. Smith, Secretary George Walker, S. H. Armstrong of the T. A. B. A., Alvin McKay of Peterboro, and Ald. J. Kelly and W. Scruton of Brantford.

These suggestions is following up its campaign to promote saving by practicing it.

By Courier Leased Wire
Paris, Sept. 26.—Advices received in Serbian diplomatic circles here to-day show that the Bulgarian troops in the region of Lake Ochrida, towards the western end of the Macedonian front, are virtually encircled by the Italians, advancing in the direction of Kichevo, and the Franco-Serbian force moving from Monastir towards Krushovo. The fall of Krushovo is expected shortly.

The only means of exit for the Bulgarians here is a narrow passage between Kichevo and Krushovo. (This body comprises the first Bulgarian army). The army seems doomed to destruction or surrender, or to a retreat into Albania, as the passes in the other direction.

Iszy.—"Well, Cohen, where have you been all winter?"
Cohen.—"Why I was at college learning the King's English."
Iszy.—"Why any fool knows that the King is English."

Nearly Ruined Him.
Visitor.—"Why don't you advertise?"
Town Storekeeper.—"No sirc, I did once and it pretty near ruined me, once and it pretty near ruined me."

Visitor.—"How so?"
Town Storekeeper.—"Why, people came in and bought durn near, all the stuff I had."

CANADIAN PAPERS PRACTISE ECONOMY

Amount of Paper Used Will be Reduced to Very Minimum

APPEAL FOR THRIFT

The Canadian press is well to the fore in the campaign to promote the saving both of materials and money. Mr. John M. Harle, manager of the Canadian Press Association, mentions it as an interesting coincidence that, on the very day that the Thrift Campaign was launched in the newspapers of Canada the news print paper committee of the Canadian Press Association sent out to all papers a long list of suggestions by which paper may be saved and a resulting saving effected in labor, materials and transportation.

Canada uses a large quantity of news print, but much less per capita than does the United States. In this country the consumption is 12,000 tons per year per million of the population; whereas in the United States the consumption is 18,000 tons per million people. In the United States the War Industries Board recently issued an order reducing the consumption of news print in that country. No such action has been taken in Canada as yet; but the news print paper committees felt that every economy possible in the use of paper should be effected, notwithstanding the fact that, even after the new regulations have gone into effect in the United States, the per capita consumption of paper in that country will be much higher than it is in Canada.

Eliminate Unnecessary Copies.

The ideas for economy suggested to publishers are of two kinds: First the discontinuance of wasteful practices in building up circulation that have manifested themselves through the keen competition of certain dailies to get circulation at any cost. Along this line many suggestions have been made with a view of eliminating wasteful circulation, without crippling the newspaper.

Another line of policy relates to the size of newspapers. Recommendations have been made for reductions in size ranging from five per cent in the case of small papers, to 50 per cent in the case of large Sunday editions using over 250 columns of reading matter, comic features etc. This would mean the eliminating, or reducing of many comic and other features and the condensing of news reports into shorter forms. In other words the competition between papers would then be one of quality rather than of quantity of matter printed.

The Canadian press in adopting

BULGARIANS VIRTUALLY ENCIRCLED

MEANING OF WAR REPORTS

Stock Phrases Hide Heart Thrills Galore—How Reports are Compiled

By Capt. J. A. F. Ozanne, R.C.A.

When the responsible officer in France comes to the end of a perfect day, his labors are not yet completed. Take the case of a siege battery. An account of the day's work has to be rendered to the Brigade Headquarters, and it is the duty of an officer, usually the second in command, to render it. That report, in the case of most siege batteries, has to be in by 7.30 a.m. and it relates to the work done between the hours of 6 a.m. and 6 p.m. on the previous day.

At about 6.30 p.m. the report, the Captain goes to the battery office—usually an elephant shanty—with a few sandbags on top of it—and gets busy for it is as well to go, these things over and done before dinner. The battery clerk, a young bombardier, is waiting for him with a faceted report form.

"Ah, let me see," says the Captain, taking a pencil and carbon, for these things are made out in duplicate. "Date, fifteen, six, one seven, number of battery, point or nine; calibre of guns, 6-inch hows, 26-cwt. Very good, now let's have the range sheets."

These are produced. The Captain then enters in the report that 300 rounds have been fired at Target UC 51, a German battery, that the method of observation was by aeroplane and finished at 12.37 a.m. During the ranging 5 Z's, 3 Y's and 4 O.K's were obtained, which means that 5 rounds landed within 25 yards of the target, three within 10 yards and four direct hits. Finally it has to be noted that firing for effect began after the 20th round, and that the airman gave C.L. in other words "coming in," after the 40th round.

"And that's that," says the Captain, "now for the next."

The next target is another German battery which has also received its dose of 300 rounds. The Captain remembers the time when 7 rounds per day was supposed to be a generous allowance. Here the aeroplane has reported 4 Z's, 3 Y's and 5 O.K's. "Good shooting," comments the Captain. He notes that the firing began at 2.55 p.m. and finished at 5.17 p.m.

"Now for the guns out of action," says the Captain. "Nil return, sir," answers the clerk. "Number Three came back last night from workshops."

"Hostile Shelling," says the Captain. "Let me see, were we shelled to-day?"

"Those three shells, sir," suggests the bombardier, "down by the guard-room."

"Oh, yes," answers the Captain, who, as a matter of fact, had nearly had his career permanently spoilt by one of them. "I'd forgotten. Might as well put them down." And down they go. "Shells, three, 5-9-inch, reported by Captain X, area B, no casualties." Just plain statement of fact, you observe. The Captain signs the report, which is despatched at once by motor-cycle orderly.

It goes to the Adjutant of Brigade and a brief summary of it is forwarded, together with summaries of reports received from other batteries in that brigade to the headquarters of the Corps Artillery. Here Counter-Battery notes the German batteries engaged and waits to see if the airman have anything to add to what has been already said. The salient features of the brigade reports, where there is another weeding out before sending on to G.H.Q.

By the time that the news reaches England the efforts of Point Oh-Nine Siege Battery and other batteries in France have been boiled down to the time-honored phrase: "Usual artillery activity."

MINISTERIAL CRISIS MORE PROPAGANDA?
May Have Been Engineered Worse Trouble by Premier to Forestall

By Courier Leased Wire
Washington, Sept. 26.—The reported ministerial crisis in Bulgaria is viewed with open suspicion by officials of the Government here. If peace is really sought by the Bulgarian Government, it is assumed here, it will be a peace leaving the Bulgars all the territory they now hold, as a result of the war. It is thought more probable, however, that Malinoff, the premier, fears a revolution and has engineered the ministerial crisis to forestall this, and pacify the troublesome element, which, according to recent reports, has been increasing in numbers and its demands.

The fact that the Allied armies are steadily advancing on the Bulgarian front with the Bulgarian and German forces in retreat, has greatly disturbed the Bulgarians. Today's news that the Allies actually have crossed the Bulgarian border probably will cause greater agitation.

GETTING READY FOR MEMBERSHIP DRIVE

Red and Green Y. M. C. A. Teams Being Whipped Into Shape

The teams are lining up fine for the Big Red and Green Membership Drive which opens with the supper on Tuesday evening, when the members of the teams will be the guests of the Ladies' Auxiliary in Association Hall. There will be twenty teams of ten men each. Considerable "pep" is being infused into the organization by reason of the fact that Geo. Mosley is organizer for the Reds and A. W. Geddes for the Greens. Chairman W. S. Brewster is

being well supported by the two division leaders, Logan Waterous of the Reds and Dr. J. E. Amos of the Greens. In the line-up each side is a large number of old time campaigners as well as some new men. The drive promises to be one of the most successful in the history of the association.

Highly Praisable.
"There may be something to the idea, after all," murmured J. Fuller Gloom.
"We never heard you admit before that there was anything to anybody's ideas but your own," we hypercritically said.
"Yes, but that horse-faced man who just went out had a scheme for extracting the noise from soup and using it to soothe and amuse small babies."

A Positive Luxury in Infusion

Pure Tea, without admixture . . . of Any Kind, foreign to its growth.

"SALADA"

has the reputation of nearly a quarter of a century behind every packet sold—

An Announcement of Importance!

TIP TOP CLOTHES

Now Sell For \$19.00

The war has brought on conditions which none dreamt could exist in Canada. The business of the country is war. Everything that is necessary for the Government and the winning of the war comes first, which is as it should be.

Wool, which is required to clothe the millions of the brave and loyal men now in the services of the allied army and navy, is one of the vital necessities.

Governments have commandeered most of the wool that there is in the countries. In the United States and England no wool-dealer can sell a pound of wool without a Government order. No woolen mill can make a yard of cloth containing wool which the Government has commandeered until the War Industries Board releases the wool.

Because of this condition there is a scarcity of woolen cloth, and as prices are regulated by the supply and demand for an article, the price of cloth which sold in normal times for one dollar a yard now sells for \$3.75 a yard. Every article we use in clothes-making has advanced in price and is difficult to obtain at any price.

We positively refuse to reduce the standard value of our clothes.

We will not make clothes which will not give our customers a treatable amount of service and full satisfaction for the money that is paid us.

We have lived in Canada all our lives. We've made Tip Top Clothes here since 1908. We value our reputation as honorable tailors a great deal more than we value any amount of money we might make.

We will not sell clothes which we cannot guarantee. In order to maintain the quality we must advance the price of our Standard Tip Top made-to-measure clothes to \$19.00.

CLOTHES FOR THE NATION

One Price To-Measure

\$19.00

These clothes will give every man satisfactory service.

They are stylish—they fit perfectly, and they are guaranteed to wear. If for any reason whatsoever a Tip Top customer becomes dissatisfied with a purchase all that is necessary is to return the clothes and we will gladly refund the money. We profit by your good-will and your continued patronage and that of your friends—not by a single purchase of one garment. Please bear in mind that we make all clothes, which we sell, in our wholesale tailoring plant; that we sell them direct to you through our coast-to-coast chain of stores, and that we save you the middleman's profit.

FOURTEEN NURSES GRADUATE FROM HOSPITAL UNDER HAPPY AUSPICES

A Memorable and Picturesque Event--In Addition to Bestowal of Diplomas Other Presentations Were Made

- Dora Taylor
- Helen Potts
- Minnie Van Fleet
- Ina Jones
- Kathleen Hutchinson
- Margaret Campbell
- Charlotte Augustus
- Emelme Morgenroth
- Louise Turner
- Daisy Dunn
- Hannah Day
- Mary Dowdall
- Victoria Frost
- Esther Hewitt.

The annual graduation of nurses took place at the Hospital yesterday afternoon and the event proved to be the most notable of the many successful exercises of a like nature which have taken place at the institution.

There were fourteen graduates in all—the largest number yet recorded—and very attractive they looked in their trim uniforms as they wended their way amid the loud plaudits of a large crowd of relatives, friends and residents of the city and county, to seats beside the platform. A notable feature was that one among them was a daughter of the first graduate of the school.

On the opposite side were grouped a large number of other nurses still in training.

The event took place in a section of the basement under the Nurses Home, which had been most attractively decorated for the occasion with a wealth of bunting and vines, interspersed with Union Jacks, the Stars and Stripes and flags of the Allies.

In the unavoidable absence from the city of Mr. C. H. Waterous, President of the Board of Governors, the chair was ably filled by Warden Pitts, the vice-President, who opened proceedings by calling upon all to rise and sing the National Anthem.

Rev. Mr. Fitzpatrick then offered a fervent prayer during which he dwelt upon the fact that the discipline of life in suffering was so blessedly mitigated by the ministry of healing on which those about to graduate had embarked.

The chairman in a few words heartily congratulated the young ladies who had so successfully completed their studies in connection with the noble calling they had chosen.

Superintendent's Address.
Miss Ford was heartily received and said:
Once more it is my privilege to present to you a graduating class—the largest one that has ever gone out from the school.

There is one outstanding fact in our yearly reports, that each year shows an increase in the amount of work done and increased demands made upon the school. We have cared for a larger number of patients than ever before. The operating room service has been heavier, the increasing demand for private rooms and a marked increase in our obstetrical work, such an increase that our accommodation is little short of an absurdity.

With a city of approximately 30,000 inhabitants with no competing hospital, we have for this most important branch of service, a maternity ward of six beds and a nursery utterly inadequate, both in size and convenience, the work being done under ever increasing difficulties, also, the need of a children's ward is ever before us.

The number of nurses now in the training school: Nurses completing their time, 8; senior nurses, 14; junior nurses, 12; probationers on duty, 5; making a total of 40. Three graduates on military service.

During the past year there has been a large number of applicants wishing to enter. One hundred and fifteen have applied for admission. The need for nurses overseas and a very general desire among young women to do some work that really counts, has awakened interest in the nursing profession. Each year we are attracting young women of better education, and the hospital must see to it that the training school should have in providing adequate teaching facilities. The school that offers the best as to teaching and right living conditions is the school that will attract the best class of applicants.

A noted medical educator recently made the statement that the physician comes out of the medical college 20 per cent. efficient and the other 80 per cent. of his education is received in the hospital. The

nurse, whose value is recognized today as never before, in both peace and war, receives most, if not all, of the mental equipment for her profession from the hospital.

At the convention of nurse education held at Toronto in June of this year, the duty of all hospitals throughout Canada to increase their classes was strongly emphasized.

For years the graduating classes have not materially increased in numbers, and even had we not been at war and nurses called for overseas work, the civilian need could not be met. A promising class goes out from the school, and in a short time the earth seems to have opened and swallowed them up.

As to right living conditions, the imperative need for more accommodation for nurses, which has been brought to your notice in season and out of season, needs no longer to be dwelt upon. The building of a wing to accommodate 27 nurses is now an assured fact, thanks to our very energetic Women's Hospital Aid, who are financing the addition. We feel positive that no other body of women in Canada would pledge themselves to such an undertaking in these times of war work and war giving. We also feel the citizens stand generously behind them, as they make their one yearly appeal.

It has not been an easy year; we seem to be borne along on an ever-increasing wave of high and higher prices and more and more difficulty in procuring supplies—many articles not available or almost prohibitive in price—and the outlook for relief along these lines anything but cheerful.

Our very sincere thanks are due to our friends both in city and county, for their many kindnesses to the school during the year, to our Women's Hospital Aid and the Junior Aid for their never flagging interest.

On behalf of the Training School, I wish to thank the Board of Governors for their interest and co-operation in all that concerns it.

We wish to gratefully acknowledge our indebtedness to our doctors for valuable time given up for lectures, besides instruction, and particularly for the kindly profes-

sional service rendered to the nurses when ill.

To my staff I wish to extend my hearty thanks for their help in many trying circumstances.

The scholarship instituted last year by Dr. Bier to the nurse obtaining the highest class average has resulted in a tie between Miss Day and Miss Augustus, each obtaining an average of 90 per cent.

One of the nurses graduating today, Miss Helen Potts, enjoys the distinction of being the daughter of the first graduate of the school.

The nurses in this graduating class we trust will each do her part to the best of her ability, bearing in mind that her work and attitude will reflect credit or discredit, according as she wills it, not only on her own school, but on the entire nursing profession.

Dr. Secord, who had been elected to address the class, spoke as follows:
Having completed the allotted time in training for your chosen life work and profession, you stand today on the threshold of your career, and it is meet and fitting that your friends and well-wishers should gather together for the purpose of expressing their hope and desire that a bright and happy future may be in store for all of you.

As a profession you have chosen is a noble one, one moreover the practice of which is full of responsibilities, of cares, of trials and of tribulations. It entails oftentimes hard physical work, with much mental strain. It necessitates the entire repression of self when the interests of your patient are at stake, and it frequently demands the exercise of those finer qualities of the mind—much sympathy, absolute devotion, and great tact.

On the other hand it has its rewards, and of these by far the greatest is the knowledge that your work is a real benefit and help to suffering mankind. The personal pride and satisfaction which you will feel in noting the progress to recovery of your patients will and should be your chief reward, based on the satisfaction derived from the knowledge of work well done.

The exact sphere in which your future will be occupied will vary with your individual inclinations and desires. Some of you will, for various reasons, select a position with freedom from many of the cares of maintaining a place of residence. Others will prefer the closer and more intimate contact with your patients gained by private nursing, while yet others will feel the call "to do their bit over there," and enlist for at least a time in the Nursing Corps of the Army. It is true of the nursing profession, as of many others, that the difficulties, privations, and sufferings, resultant from the demon of war, seem to call into play the best that is in one, and as a consequence those nurses who have achieved a place in the immortal list of the world's heroines—Florence Nightingale to Edith Cavell—have done so under the stress and strain of war conditions. Without in any way detracting from the well merited fame of these heroines it must, nevertheless, be remembered and recognized that quite equal devotion to duty may be shown in the less stimulating environment of every day civil work—whether institutional or private.

While Faith, Hope, and Charity are essential attributes for you in your work, as for others of the human race, I would more especially direct your attention to the above mentioned qualities of devotion, of tact,

THE WORTH OF A BOY?

In a small town of Ontario lives a lad in his teens—the son of a father who for years has been in frail health; an indulgent father who never chided his son, who is mastered by his son. The son is a law unto himself.

In this town are other lads and youths—young fellows with nothing to do when the day's work is done but hang about the main street, loiter on the bridge that crosses the river, and talk the talk that makes them braggart and evil-minded, coarse and rowdies.

Ambition has little part in the life of these lads. Time hangs heavy on their hands. One is destined to be a laborer, another wants to go railroading. Others are simply drifting without purpose.

All this because in this small town is no Y.M.C.A.—no gymnasium, no pleasant quarters where lads and young men are welcomed; no classes, no games.

A doctor's son is the one who wants to go "braking" on the railway; a leading minister's son is a lazy lout; a contractor's son is a ruffian.

And so we could go on enlarging the dismal tale.

The point of it all is that the Y.M.C.A. saves lads—redeems them from sloth, from bad environments; guards them from the perils of idleness.

The Y.M.C.A. "takes up the slack" in a boy's life—in a young man's life, carries him safely and clearly over the years of forming character. Thank God for the Y.M.C.A. A membership costs little, but means much.

Support The "Y"

ledge concerning your patients, which you may have acquired while caring for them.

Your patient and yourself form only two angles of a triangle of which the third is often the least important—the Doctor. Never forget that he is responsible for the care of the patient and that you are responsible for carrying out his instructions. If those directions do not meet with your approval, nevertheless carry them out to the utmost of your ability, and under no circumstances indicate to the patient or family by look, word or deed, that you have anything but the most absolute confidence in the doctor. The practice of medicine is not a finite science, and what may be considered good practice in one generation may be thought bad in the next. Because the methods and modes of treatment

complete success that there should be no break in the continuity of the gift. For the Women's Hospital Aid she conveyed sincere and heartfelt wishes to each graduate.

Then followed the carrying of dozen of bouquets to the diploma winners until that end of the room looked like a veritable flower garden and there were mutual all round congratulations.

Afterwards an adjournment took place upstairs when dainty refreshments were served under direction of Mrs. Ames. The following members of the junior W. H. A.: Mrs. E. Read, Elsie Sanderson, Nora Tomlinson, Helen Kippax, Ruth Hart, Lillian Wade, Sarah Raymond acted as waitresses and also some of the nurses.

In every sense it was a most notable function and one long to be remembered by all who participated.

SAVE TO LEND

URKUB REPORTED CAPTURED. BRITISH INVADE BULGARIA

Veles and Ishtib Also Reported to be in the Hands of the Allies—Large Numbers of Bulgarians are Cut Off and Must Surrender—Anxiety in Sofia

London, Sept. 26.—The Serbians have taken Veles as well as Ishtib in the great Macedonian advance. Allied cavalry units are close to Uskub, fifteen miles farther on, if, indeed, they are not already there. Uskub is the main centre of the enemy's communication. Its loss would be almost a knock-out blow to them. Already they are in an exceedingly serious position.

On their left the first and second Bulgarian armies are retreating in disorder, cut off entirely from their comrades in the west, known as the Eleventh German Army, which is German staffed, but otherwise mainly Bulgarian. This latter army itself is split in two, the Serbians having seized Babuna Pass. The Eleventh Army is therefore now retreating to the northwest. Twenty thousand prisoners and 200 guns are now reported taken.

A Popular Invasion.
Crowds around the newspaper offices greeted the bulletin, on the official announcement, that British troops had crossed the Bulgarian frontier, with great enthusiasm. Kosturino, which the cavalry is reported to have occupied, is ten miles northwest of Lake Doiran, thus showing the progress of the Anglo-Greek advance. Allied infantry is reported advancing on the slopes of the mountains bordering the frontier line. Kosturino is only five or six miles south of Strumitsa, another important Bulgarian supply centre. It needs little further progress to make the Bulgarian defeat decisive. Despatches recording the consternation at Sofia, 100 miles away, are not surprising.

Italians Doing Well.
A message from Italian headquarters says that Italian troops are advancing with fine speed on the left of the allied line in Macedonia. The Bulgarians are retreating from the Lake Prespa and Lake Ochrida districts, west of Monastir. Resna, six miles north of Lake Prespa, is burning. The Bulgarians in this sector are afraid of being cut off, and are hurrying by a roundabout route to the west to reach Uskub, unaware that the Serbians are now almost there, if not there. The Austrian left wing in Albania is likely left in the air, thus threatening their recent gains.

A Word of Caution.
It is well, however, to note that a word of caution is expressed tonight that the allies had no great superiority of numbers at the beginning of this battle, and have been

Marching and fighting continuously for ten days. This seems to be the only reason why absolutely decisive results must not be counted upon until they are actually achieved.

Enormous Booty Taken.
London, Sept. 26.—(Can. Press Despatches).—The reports received to-day emphasized the demoralization of the Bulgarians, who are retreating in confusion, leaving behind an enormous amount of material and probably many thousands of prisoners, as the allied troops strain every energy to get to Uskub and thereby make the victory complete.

It is pointed out that the Bulgarian army, estimated to aggregate 300,000 men, is in a very dangerous position, but the victory will not be decisive, in the opinion of the military experts, until Uskub, the centre of all the enemy's communication lines, is captured. If this is accomplished it is believed the victory will be numbered among the few decisive ones of the war.

The renewed resistance of the Bulgarian rearwards and the arrival of German reinforcements in Macedonia have not succeeded in stemming the great allied advance. British cavalry to-day entered Bulgaria opposite Kosturino, thus avoiding the Belachista Mountains, which it was feared might bar its progress, while the Serbians, French and Greek and British troops routed the Bulgarians from either side of the great salient, which now stretches far into Serbia.

The Serbians, who are taking the leading part in the liberation of their country, are at the gates of Ishtib, and their cavalry, entering the town of Izvor, has cut the only remaining road northward—that running from Prilep to Veles, and along which a large body of Bulgarians is reported to be attempting to escape. This probably will lead to an abandonment by the enemy of the Babuna Mountains, which are considered virtually impregnable.

It was reported this afternoon that Italian cavalry had reached the road running from Prilep westward, which affords the only avenue through the mountains for the escape of the Bulgarian army, which is considered to be in a most dangerous position. **British and Greeks Together.**
Greek troops are aiding in the allied advance in Macedonia on three sectors of the front, according to an official statement from the Greek War Office to-day. East of the Vardar the Bulgarians are in flight toward Valandova, with the

ALL RIVALRIES ARE DANGEROUS

Dr. Manning Started Campaign Against Comparisons.

THEY CAUSE BAD FEELING

This Wise Action of Leading Men in the United States Should Interest Thoughtful Persons in Canada Who Do Not Want to Create Jealousy Between Armies.

THE habit of comparing the fighting ability of the different nationalities among the Allies is an extremely bad one, and many persons recognize that it may lead to jealousy and bad feeling. In the United States, a campaign has been started against that sort of thing, and thoughtful men here in Canada see the wisdom of frowning on odious comparisons.

Rev. Dr. Manning, the rector of Trinity Church, New York, the wealthiest and most influential church in the United States, recently made the matter the text of a sermon that has been quoted far and wide. Dr. Manning gave a most timely warning when he urged his congregation to beware either of making themselves, or of allowing, without

REV. DR. MANNING.

instant protest, others to make, adverse comparisons between the courage and the fighting efficiency of the several national armies that are allied in the conflict with Germany and her vassals. He was quite right in saying that to do either of these things—and one of them deserves reprehension as much as the other—is to assist in a most insidious and vicious form of German propaganda.

The purpose of those who start this sort of talk, and its effect, for it is not ineffectual, is to substitute distrust for confidence among the forces that have combined to save the world from the horrors of Teutonic domination. It is to revive ancient animosities and jealousies, and it is only a new variant of a plan that for a while worked only too well in Germany's interest—that of whispering in credulous ears the charge that the troops of one or another racial strain were systematically put in the most dangerous places and sacrificed to save the lives of favored companions in arms. That particular accusation has been rarely heard of late, and nobody took it seriously when what probably was the last attempt to excite dissatisfaction in this way among our negroes promptly ended in a declaration by the colored soldiers themselves that they were honored, not wronged, when they were trusted to hold important sectors at the front.

That, of course, is the feeling of every real man who goes to war, and appreciation of the fact is now so nearly general that it has been necessary for the secret propagandists to devise a new method of creating discord among the Allies. They try to do it by praising this or that army at the expense of another. The answer to it is obvious—it is written on every battlefield and in all the casualty lists. No men can do more than fight till they die, and there is not one race engaged in the war that has not done that again and again. Of noble rivalry there is much among the allied forces; of ignoble jealousy and base recrimination at home or in the field there comes none except from enemies and their dupes.

COME OUT FOR POSTS.

By Courier Leased Wire
British Headquarters in France, Sept. 26.—(Reuter's).—On the long stretch of front upon which the British forces have approached within eye range of the Hindenburg line, the combing out of enemy posts is continuing. In addition a little fresh ground in this region has been gained in the past twenty-four hours, improving the tenure of the British.
