Circular to the Exhibitors of the Crystal Palace.

THE undersigned joyfully announces to the Exhibitors and the public, that the formidable obstacles which threatened the complete discomfiture and destruction of the noble enterprise which they have chosen to undertake, are at length removed, in good part through the liberality of a portion of our fellow citizens who have pledged advances in aid of the Exhibition to the amount of \$100,000. Thus aided, we have been enabled to dissolve the injunction which was a source of embarrassment to us, and alarm or apprehension to many of our Exhibitors—to pay off or arrange all the debts pressing upon us, and against the possible occurrence of such annoyances in future. We therefore apprise you that the Exhibition will be temporarily closed this evening, in order to be completely renovated and refitted, preparatory to its formal re-opening, on Thursday the 4th day of May next.

The directors need not, surely, dilate on the value and importance of this Exhibition. Imperfect as it has hitherto been, and as, in view of the total want of experience on our side of the Atlantic in the arrangement of Exhibitions of such magnitude and variety, it could not fail to be, it has yet provided immensely beneficial to the inventive views, Artistic developments, and Industrial progress of the country. The opportunity therein afforded for bringing valuable Inventions or Improvements to the immediate notice of the capable and appreciating, is but one among many benefits conferred on the leaders of industrial enterprise among us. If overweening conceit or inordinate self complacency has been rebuked and chastened by irresistible evidences of European superiority in elaborate and delicate workmanship, or even in educated, refined taste, the Exhibition of 1853 has fully demonstrated the indebtedness of Europe to America for very important Inventions and Improvements, stretching over the whole domain of Agriculture, Manufactures and the useful Arts. In farming implements, and machines for fitting the rude staples of Agriculture, for the convenient and economic use of the fabrication, our country need fear no comparison; and a young Nation of twenty-five Millions which while still ardently employed in the clearing away of its primitive forests, has found time in half a century to bestow on mankind such inventions as those of the Cotton Gin, the Steamboat, the Reaper and the Medical Telegraph, need surely neither regret nor conceal her anxiety to profit by all in the line of discovery, Art or Invention, which has been or may be exhibited by others. If the New York Exhibition has shown our people how to improve any implement or process in the light of European achievement, that impulse is a National benefit of signal and even increasing value.

If the past has witnessed mistakes in the conduct of the great enterprise now confided to our hands, that circumstance will render our own task easier and our success more probable. If it has evinced many valuable suggestions and illuminated for us the path of duty by triumphs as well as defeats, we shall be able to walk surely where our predecessors stepped doubtfully and anxiously. With your co-operation, and that of the coming Faltos, Whitesays and Howes, whose triumphs are yet unachieved or unacknowledged, we hope to render the Crystal Palace the recognized centre of attraction for the votaries of Industry, the devotees of Art and the admirers of Genius, throughout the Western World.

To effect this, we need the hearty and immediate co-operation of the present Exhibitors, both through the continuance of their best contributions, and the introduction of others, as new inventions, new patterns, new successes, shall render such further aid practicable. While we trust that the Exhibition is henceforth permanently established, and that before many more years shall have elapsed, specimens or models of every valuable invention, eminent works of Art, improved Fabrics, or other industrial achievement, will be exhibited in the Palace, as a matter of course, we shall yet remember with special gratitude, those friends of the enterprise who did not wait for its triumph, stood by it in the days of experiment, and nobly aided to achieve the conquest which so many are destined to enjoy. We shall be able, and we rejoice in the fact, to accord more desirable positions and ample space to new Articles which shall be sent in between this and the 1st of May, than it is probable that we shall have at our disposal thereafter. The earliest possible at our disposal of all Articles intended for Exhibition, is an affair of the utmost importance, and is, therefore, earnestly solicited.

Trusting that you will agree with us, that the interest of Inventors, Artists, Manufacturers and Artisans, are all involved in the thorough and undeniable triumph of the first American Exhibition of the trophies of the World's Art and Industry, we remain,

Yours, P. T. BARNUM,

President of the Association for the Exhibition of the Industry of all Nations.

THE MAINE LIQUOR LAW.

House of ASSEMBLY, Wednesday, April 19.

(Continued from Haszard's Gazette 12th May.)

Hon. Mr. CONROY had also passed his opinion on this subject, and those opinions remained unchanged. He thought it would be better to pass such a law as that under discussion. Hon. members knew full well, that punctuality and fidelity to their engagements with the public, including the large amount now payable from the public Treasury to Schoolmasters and others, were, to some extent, dependent upon the source of Revenue which it was the object of the Resolution to destroy. Considering that it would be difficult, were this proposition accorded to, to maintain the same degree of punctuality and fidelity with reference to the public creditor that now exists, he could not consent to the passage of the Resolution before them. On the contrary, the House ought, he thought, to act in this matter in precisely the same manner as they had done with reference to the Bank—namely that there was, at all times, a sufficient paid-up capital in their coffers to meet their engagements. Were this plan pursued, Warrants, when presented at the Treasury, would instantly be paid, but not otherwise. In agitating for a measure of this nature, he feared that some persons were actuated by spurious philanthropy, if not from a spirit of fanaticism. He, however, could not suddenly change his own sentiments, and yield to popular clamour, on a subject of such grave importance as this. He thought the House, before entering into a compact, declaring that from and after the 1st January, 1855 or 1856, the Traffic in intoxicating Liquors should cease, should seriously inquire whether the state of the Revenue was such as to admit of it. Would hon. members suspend the operation of the Free Education Act, or would they place a duty upon salt, to supply the deficiency? And if the friends of temperance would continue to employ moral suasion for the accomplishment of their objects, it must be a bad soil indeed if the good seeds did not take root and produce its legitimate fruits. More could be done, too, by the mere force of example, than could be accomplished in any other way. But Acts of Parliament generally would be found to produce an opposite effect—the severity of the punishment frequently causing the criminal to be overlooked. It was just as incumbent upon the House to take a & s. d. view of the case, in the present instance, as if they wanted to borrow a sum of money. For his part, he could not take either a moral or philosophical view of the case, but simply to act justly towards all parties concerned. He could not consent to permit the resources of the country, until other and equally efficacious sources of revenue were placed at their disposal.

Mr. DAVIE'S amendment to the original Resolution was then read and lost.

The Hon. COLONIAL SECRETARY then moved that in lieu of 1855, the year 1856 be substituted—which motion was put and carried, and the Resolution, thus amended, agreed to.

The SPEAKER then resumed the Chair; and the said Resolution being reported to the House, and the question of concurrence put thereon—

The Hon. Mr. HAVILAND said, as Chairman of the Committee he was precluded from offering any observations on the Resolution submitted to the House. Still he did not wish to give a silent vote upon a question of so much importance to the present and future welfare of the inhabitants of this Island as the question which, for two nights past, had engaged the attention of the House. From his long and intimate acquaintance with the habits of the people of this Island, he had too frequently witnessed, with regret, the baneful effects which have resulted, both to individuals and families, from an unrestrained indulgence in the use of ardent spirits; and he could not, therefore, look with indifference upon the proposal of a measure which had for its object the reformation of the deluded victims of intemperance, by placing beyond his reach a temptation which he has not the disposition nor the power to resist. He was unfavorable to restrictions or class legislation, by which the interests or convenience of one portion of the community would be sacrificed or compromised, for the benefit or advantage of another; and he would rather see the drunkard reclaimed by moral persuasion, than by the adoption of a coercive course of public policy. But when he observed, among the numerous signatures attached to the Petition from Charlottetown, the names of the most extensive importers of spirituous liquors in the Island, who became alive to the evils which attend their traffic, not only express their willingness to forego the profit which they have, for many years, derived from the encouragement thus given to intemperance, but declare their conviction that "the only consistent, safe and effective mode of accomplishing so desirable an object as the sobriety, peace and prosperity of our country, is to abandon the Revenue on all intoxicating liquors, and to prohibit by Law their importation, manufacture and sale," he would submit his opinion to the consideration they had arrived at, and should support the Resolution.

Hon. Mr. WARBURTON then moved, that in lieu of 1856 the year 1855 be substituted.

The House divided on the motion of amendment as follows:

Yeas—Hon. Messrs. Warburton, McAnlay, Haviland, Attorney General, Messrs. Beer, H.

Haviland, Macgowan, Goff, Yeo, Fraser, Macgill, Davies—19.

Nays—Messrs. Clark, Mooney, McLeod, Wightman, Douce, Hon. Messrs. Whelan, Lord, Macdonald, Conroy, Montgomery, Colonial Secretary—11.

So it was carried in the affirmative.

The Hon. Mr. LOAN then said that the amendment proposed by the hon. member for Prince Doucy (Mr. Warburton), which would have the effect of giving parties embarked in the Traffic a much shorter period to prepare for its abolition than was contemplated by the Resolution as reported from the Committee, having been carried, he should take his stand against the Resolution altogether.

Mr. H. HAVILAND said he saw very plainly the dodge which some hon. members were about to make, with the view of getting rid of the measure altogether. He would, therefore, move, in further amendment to the Resolution, that the words "First day of January," be struck out, and the words "Thirty-first day of December" inserted in lieu thereof.

Mr. DAVIE said, so far as he was concerned, there was no "dodge" in the matter.

The House divided on the motion as follows:

Yeas—Messrs. H. Haviland, Clark, Mooney, McLeod, Wightman, Douce, McGowan, Goff, Davies, Yeo, Beer, Hon. Messrs. McAnlay, Haviland, McEachen, Lord, Montgomery, Colonial Secretary, Attorney General, Whelan and Conroy—20.

Nays—Hon. Mr. Warburton, Fraser and McGill—2.

So it was carried in the affirmative. [Of course it will at once be perceived that the effect of this motion was to restore the Resolution very nearly to its original shape.]

The question was then put by the Speaker, "Shall the Resolution, as amended, be agreed to?" and the House again divided as follows:—

Yeas—Hon. Attorney General, Colonial Secretary, Haviland, McAnlay, Lord, Messrs. McLeod, H. Haviland, McGill, Douce, Yeo, Goff, McGowan, Beer, Clark, Davies—15.

Nays—Hon. Messrs. Montgomery, Conroy, McEachen, Warburton, Whelan, Messrs. Fraser, Wightman, Mooney—6.

So it was carried in the affirmative, and thus terminated one of the most protracted and warmly contested debates of the Session.

J. B. COZZAN, Reporter.

MISCELLANEOUS.

A GREAT FACT.—At a recent meeting of the City of London Ragged Schools, Mr. Alderman and Sheriff WIRE said, they could tell them, from their experience of the city prisons, that since the establishment of ragged schools, juvenile crime had diminished fifty per cent. This is a great fact, and cannot be too extensively known as a most powerful argument in support of such institutions.

A COMET.—Mr. Hind, writing to the London Times, says that the nucleus of the comet that evening was rather more than 5000 miles in diameter, and the extent to the tail 6,000,000 miles. At his best view, he was certain of the existence of a luminous jet, thrown out from the star-like point some 30,000 miles along the preceding border of the tail—an appearance which has been remarked in several previous comets.

SUBMARINE NAVIGATION.—A Dr. Pryorne has discovered a means of "submarine navigation." By some process, it is stated, he can supply sufficient air to a crew of fourteen as will enable them to remain under water for four hours. At Marselles, Dr. Pryorne and three sailors recently went to the bottom, and, rising again at a considerable distance, climbed into the port-holes of a man-of-war, without being perceived by the crew. The first use to which the invention has been put is characteristic—by its means a supply of oysters have been sent to the Haris bales from Granville!

IMPORTERS ABROAD.—We have been requested to warn the public against a man who has been passing himself off the Texas, and elsewhere, as a Presbyterian minister, under the assumed name of McKey; and also against a young man originally from Edinburgh, Scotland, who pretends to piety, whose real name is Anderson, but who has passed under the assumed names of Stanley V. Hamilton, Sidney V. Howard, Thomas Watson, and George Westcott, and who has recently purloined some \$14000 from the State Bank of Indiana at Indianapolis.

A PROPER VERDICT.—A man who fell into an exposed cellar way, in Congress Square, Boston, and broke his back, has just recovered in a law court a verdict of \$12,000 against the city.

Count Mr. Chief... On motion of Mr. Yates... My dear Mr. Haszard... Just published, price 6d... THE WAR IN THE EAST... IRON WARE... LONDON HOUSE... Spring Importations for 1854... Thirty Lots of Land for Sale... THE ROYAL AGRICULTURAL SOCIETY... SUMMER HATS... PRINCE EDWARD ISLAND BOARD OF MISSIONS... AN INDUSTRIAL SHOW...

On motion of Mr. Yates, Mr. Haszard took the Chair, and the thanks of the meeting were voted to Mr. Lawson for his efficient conduct in presiding over the meeting.

My dear Mr. Haszard. My attention having been directed to a marriage notice which appeared in your paper of the 6th inst., in which it is stated that by me, Mr. John Young, Blackman, was married to Miss Maria Wilcock, on the 4th inst., I beg to state that these parties were not married by me, neither at the date referred to, nor at any other period. I am informed that these parties are not married at all—provisional joking of this kind, calculated to wound the feeling of offending persons, is, I think, highly improper.

Disruption of the House of Assembly.—A proclamation appeared in the last Royal Gazette dissolving the House of Assembly. We understand that the Elections are to take place on the 20th June. It seems in this affair, that the interest of the Electors who are mostly busy on their farms, has been less consulted than that of the political demagogues, who are so anxious to get places.

Passengers. In the Packet Ingram, on Monday last.—The Lord Bishop of Nova Scotia; Messrs. Gishorn, Wm. Ashmun, Wm. Leahy, Geo. McDougall, W. G. Strong, John Yeo, and Mrs. Starr.

Married. At Charlottetown, on the 20th inst., by the Rev. J. R. Narraway, Mr. Andrew Canfield, to Miss Julia Ann eldest daughter of Mr. Richard Nankoville, Charlottetown.

Sailed from Souris. May 10, Sch. Arct. Gay, Nagleside Island, sailing Voyage—Success, Kaniass, do. do. 5th, Coquette, Campbell, do. do.—Emily, Melissa, St. John N. B. out—Spred, Campion, do. do.—Paisley, Stewart, do. do.

Just published, price 6d., THE WAR IN THE EAST. The Principals in the Strife, AND ITS PROBABLE ISSUE. A LECTURE, Delivered in Charlottetown, April 29, 1854, before the "Mutual Improvement Association," by the REV. J. R. NARRAWAY.

THE THUGS OF INDIA. Dr. Hooker, in his "Himalayan Journals," just published, gives an account of the Thugs, some of whom, belonging to the approvers of the establishment for the suppression of Thuggee, he himself saw. Of these, he says, the first was a mild-looking man, who had been born and bred to the profession; he had committed many murders, saw no harm in them, and felt neither shame nor remorse.

He explained to me how the gang way by the unwary traveller, enter into conversation with him, and have him suddenly seized, when the superior throws his own linen girdle round the victim's neck, and strangles him, pressing the knuckles against the spine. Taking off his own, he passed it round my arm, and showing me as coolly as a sailor once taught me the hangman's knot. The Thug is of any caste, and from any parts of India.

The profession have particular stations, which they generally select for murder, throwing the body of their victim into a well. The Dakot (dakhee, a robber) belongs to a class who rob in gangs, but never commit murder—arson and house-breaking also forming part of their profession. These are all high-class Rajpoots, originally from Guzerat; who, on being conquered, vowed vengeance on mankind. They speak both Hindostanee and the otherwise extinct Guzerat language; this is guttural in the extreme; and very singular in sound. They are a very remarkable people, found throughout India, and called by various names their women dress peculiarly, and are utterly devoid of modesty. The man I examined was a short, square, but far more powerful Nepaice, with high arched eyebrows. These people are great cowards. The Poisoners all belong to the eno caste, or Pasie, or dealers in toddy; they go singly or in gangs, hunting the traveller's resting-places, where they drop half a rupee weight of pounded or whole datura seeds into his food, producing a twenty-four hours' intoxication, during which he is robbed, and left to recover or sink under the stupefying effects of the narcotic. He told me that the datura seed is gathered without ceremony, and at any time, place, or age of the plant. He was a dirty, ill-conditioned looking fellow.

HOLY LAND.—A letter from one of the American travellers in the Holy Land, gives a melancholy account of the present condition of affairs there. The Turkish troops having been withdrawn to fight the Russians, anarchy, disorder, and violence of all kinds, are prevailing. Many of the inhabitants have taken refuge in the walled towns, and the peasants, as they work in the fields, have with them their arms loaded for an encounter. Bands of Bedouin robbers traverse the country in every direction, and the party to which the writer was attached, was attacked, and one of them wounded. Thus, while Europe is about to plunge into a war, originating in the question as to the control of the Holy Places, the inhabitants of that region are left at the mercy of the spoiler. In one case it is stated that forty men and two women were massacred by a party of Bedouin vagabonds.

Russian Treaty with Japan.—A letter from Malta, of April 9th, says:—"By the India mail the news came, via Ceylon, that the Russians have signed a commercial treaty with Japan, which throws open the trade of that country. The Americans, it would appear, have not been very honourably treated by the Russian squadron in these seas, who rather cavalierly succeeded in getting the treaty, which, in all justice, is due to the Americans; and this after they had been lent coals, &c., by the Americans in China. If it had not been for this kindness on the Americans' part, it is doubtful if the Russians could have got so early to Japan."

CHINESE EMIGRANTS.—The California papers report a revival of the Chinese immigration into that State. A Dutch ship, the Isis, had just arrived at San Francisco, with nearly five hundred Chinamen on board, and reported three other vessels at Hong Kong taking in passengers when she sailed. Two ships had already left previous to the Isis, with full complements of passengers.

OHIO LIQUOR LAW.—A stringent liquor law has been passed by the Ohio Legislature, which punishes by fine and imprisonment persons selling liquor to parties intoxicated, or in the habit of getting intoxicated, and also renders the retailers of liquor liable in civil suits for damages.

DR. HOOPLAND'S CELEBRATED GERMAN BITTERS. Prepared by Dr. C. M. JACKSON, No. 120 Arch Street, Philadelphia. Their power over the above disease is not excelled, if equalled, by any other preparation in the United States, on the entire street, in many cases after skillful physicians had failed. These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of disease of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, without a fail, certain and pleasant.

Read and be convinced. The "Philadelphia Saturday Gazette," says of Dr. Hooplund's German Bitters: "It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hooplund's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are coined about for a brief period, and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

"Scott's Weekly," said, Aug. 25.—"Dr. Hooplund's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent physicians of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system."

"J. G. Moore, Esq., of the Daily News said, October 21st.—"Dr. Hooplund's GERMAN BITTERS.—We are trying this renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experiment than we derived previously from any course of allopathic treatment, at the hands of our first physicians."

"H. C. D. Hildreth, Mayor of the City of Camden, N. J., says:—"HOOPLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. For inquiry we were permitted to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration, is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have them in a healthy condition and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce evidences of the same merit."

For sale wholesale and retail at THE GERMAN MEDICINE STORE, No. 120 Arch Street, next door below Sixth Philadelphia, and by respectable dealers generally throughout the country. In this mammoth-wholesale Age, it is rare to find a man place his usefulness to the public, before his interest. During a late visit to the City of Spindler, we were presented by a professional friend, to the celebrated Chemist, Dr. J. C. AYER, whose name is now perhaps, more familiar than any other, at the bedside of sickness, in this country. Knowing the unprecedented popularity of his medicines, and the immense sale of them, we had expected to find him a millionaire, and rolling in wealth. But no, we found him in his laboratory, busy with his labors, among his crucibles, alembics, and retorts—giving his personal care to the compounds, on the virtues of which, thousands hang for health. We learned, that notwithstanding his vast business, and its prompt returns in cash, the Doctor is not rich. The reason assigned is, that the material is costly, and he persists in making his preparations so expensively, that the net profit is small.—American Farmer, Phil.

The Far-famed Medicine! HOLLOWAY'S FILLS. SURPRISING CURE OF A CONFIRMED ASTHMA, AFTER FIVE YEARS' SUFFERING. The following testimonial has been sent to Professor Holloway, by a gentleman named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period, I have suffered the most dreadful attacks of Asthma, frequently of several weeks' duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unable for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

I am, Sir, your obedient Servant, (Signed) H. MIDDLETON. Dated Jan. 1st, 1852. A PERMANENT CURE OF A DISEASED LIVER, OF MANY YEARS' DURATION. Copy of a Letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious complaints, I may mention the following case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

I remain, Dear Sir, yours truly, (Signed) J. GAMIS. Nov. 23, 1852. AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE. Copy of a Letter from Mr. W. Moon, of the Square, Winchester, to Professor Holloway.

Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most eminent surgeons in this town, but obtained no relief whatever, and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and she came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, after a considerable period had elapsed. I have felt no return whatever of the complaint. I am, Sir, your obliged Servant, (Signed) W. MOON. Oct. 8th, 1852.

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS. Copy of a Letter from Mr. G. Briggs, Chemist, Goolie, dated February 14th, 1853. To Professor Holloway. Sir,—I have much pleasure in informing you of most surprising cure of Dropsy, recently effected by your valuable medicine. Captain Jackson, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became necessary; notwithstanding the various remedies tried, and the different medical uses consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it.

These celebrated Pills are wonderfully efficacious in the following complaints. Ague Dropsy Inflammation Bilious Complaints Erysipelas Jaundice Blotches on the skin Female Irregularities Bowel Complaints Cholera Fevers of all kinds Piles Constipation of the Stomach Head-ache Urine Retention of Urine Gout Debility Indigestion Scrofula, or Sore Throat Stone and Gravel King's Evil Secondary Symp-toms The Dolourous Venereal Affections Worms of all kinds Ulcers Whatever case, &c. W. R. WATSON, General Agent for F. E. Island. Feb. 7th, 1854. CHERRY PECTORAL, For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous diseases which have made in this generation to facilitate the business of life, increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind than the contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the next below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Office of Transportation, Warren R. R., S. C., Aug. 4, 1853. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a tea-spoonful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines,—but for your prompt discovery, my little boy would now have been laid in another world. I am yours, with great respect, J. D. POWELL, Sup't. Trans., L. R. R. Rock Hill, (Somerset Co.), N. J., July 21, 1852. Dr. J. C. AYER.—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers. Please send me a further supply, and believe Yours, with respect, JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it. Winder, C. W., June 26, 1852. J. C. AYER, Sir: This may certify that I have used your CHERRY PECTORAL for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy. Yours very respectfully, D. McCLURE, Attorney at Law, Willsboro, Pa., September 28, 1850. Dr. J. C. AYER, My dear Sir,—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Indisputably recommended for pulmonary affections, as do many of our principal physicians.

I am your friend, CHAS. STEWART, M. D. PREPARED BY J. C. AYER, CHEMIST, LOWELL, MASS. For sale by T. DESBRISAY & Co., General Agent.
