Recount in Welland Shows That Temperance Act is Defeated by Six Votes

Irregularities Alleged and Prosecutions May Follow—Mousseau Will Tell All He Knows of Bribery in Quebec Legislature

MOUSSEAU'S REVELATIONS DEFERRED

Legislator Said to Have Caused Consternation by Declaring He Will Name Others Who Received Bribes—Sickness is Serious, Says Montreal Specialist.

QUEBEC, Feb. 2.—(Special.)—When the legislative investigation into the allegations by The Montreal Daily Mail that J. Octave Mousseau, who has resigned his seat in the Quebec Legislative Assembly, was resumed to-night, Dr. Adelman Demartigny, a Montreal specialist, appeared before the committee and testified that Mr. Mousseau was so ill he could not specify whether he would ever regain his health. He is lingering in a condition between coma and unconsciousness, declared the doctor. He cannot be made to understand questions asked him; he does not sleep or take nourishment.

Mr. Bisillon, K.C.—"Is there any reason to believe that he is shamming?"

Not Playing Part.
Dr. Demartigny—"Not at all. It is impossible to tell the consequences were he to come here. When I tried to quiet him he wept. To a layman his symptoms might appear strange, but to a physician they seem perfectly possible under the circumstances. The only thing to do is to try to nourish him, and, if necessary, send him to a sanitarium where he may have perfect rest."

Armand Laverigne—"Do you think he is acting a part?"
Dr. Demartigny—"It would require an extraordinary actor. He does not eat. When one of his children was brought to him, no recognition was shown."

Mr. Laverigne—"Did you show him money?"
The doctor did not reply.

Enquiry to Go On.
The Mr. Mousseau has resigned his seat, the enquiry will proceed, first to determine whether the charges against him of accepting bribes are true, and secondly, to discover if any other members of the legislature are guilty of the same offence.

Discussing the matter, Hon. L. A. Taschereau, chairman of the committee, said: "We will make the investigation as thorough and complete as possible."

When asked regarding the lines of the report the committee will submit to the house of assembly, in view of the fact the only member of the house who is accused, has resigned, Mr. Taschereau replied:

"Our conclusions will be based on the evidence. We may lay before the

UNITED STATES FISH MARKET MAGNET FOR NOVA SCOTIANS STEAMER SUBSIDY DEMANDED

Nantucket Captain Must Explain

WASHINGTON, Feb. 2.—(Can. Press.)—Secretary Redfield of the department of commerce today directed that charges of negligence be preferred against Capt. Osman Berry of the Merchants & Miners' steamship Nantucket, which collided with and sank the old Dominion liner Monroe, with a loss of 41 lives, off the Virginia coast last Friday.

VILLA SOON TO MAKE ONSLAUGHT ON TORREON

Army of Twelve Thousand Men to Be Mobilized at Chihuahua.

JUAREZ, Mex., Feb. 2.—(Can. Press.)—With his army of 12,000 rebels already advanced to points north of Torreon, and awaiting word to open the attack on the federal garrison in that city, Gen. Francisco Villa planned to leave to-night or early tomorrow for Chihuahua, whence after a stay of several days he will himself march south to direct the opening of the battle. How long Gen. Villa will remain in Chihuahua will depend on the rapidly with which train loads of ammunition and rations can be despatched southward.

A courier who arrived from Torreon said the rebel advance guards had already surrounded the city, but that Gen. Refugio Velasco's federal soldiers had not opened fire.

LITERACY TEST UPHOLD BY VOTE OF CONGRESS

President Wilson is, However, Opposed to This Bar to Immigration.

WASHINGTON, Feb. 2.—(Can. Press.)—Final action on the Burnett immigration bill was postponed again tonight when the house adjourned after voting down 178 to 120 a motion of Representative Goldfogle of New York to eliminate the literacy test feature of the measure.

It was on account of this provision that President Taft vetoed a similar measure passed by the last congress. During the day President Wilson let it be known he would not make public his position on the literacy test until he was consulted by the committee of congress. Those who asked him privately for his views found that he was opposed to the provision because he did not believe it was a fair test of character.

STAFF CHANGE AT WOODSTOCK

Hazen Considered Upper Provinces Should Absorb Output, But Promised Consideration of Liberal Members Request—Big Decrease in Homesteading in West Shown.

(Special to The Toronto World)

OTTAWA, Feb. 2.—For the first time this session business proposed by private members had the right of way. They availed themselves of the privilege by asking 190 questions of the government, which had accumulated on the order paper. Many of these related to the dismissal of officials and matters of local interest, while others sought information as to the policy of the government. B. B. Law, the Liberal member for Yarmouth, N.S., took occasion to deny the newspaper reports that he was to vacate his seat for the benefit of Hon. W. S. Fielding. He insisted that he had never been asked to resign and had no intention of doing so.

Subsidy for Steamers.
The greater part of the day was occupied with a debate in which only members from the maritime provinces participated, upon a resolution offered by Mr. Sinclair, the Liberal member for Guysboro, in favor of subsidizing a line of steamships equipped with cold storage for the transportation of fresh fish from Nova Scotia ports to Boston. The discussion, as might have been expected, soon harked back to the reciprocity campaign of 1911.

Mr. Hazen reminded the Liberals that the fishermen of Nova Scotia had in the main opposed reciprocity, preferring the home market. The Nova Scotia fishermen, he said, found increasing trade in the upper provinces, which had been stimulated in no small measure by the exhibit of the marine and fisheries department at the Toronto Exhibition. The minister, however, promised to consider carefully the representations of the Liberal members from Nova Scotia, and at his suggestion the debate was adjourned.

Homesteading on Wane.

From the answers of the government to the great number of questions on today's order paper the following nuggets of information were gleaned: The homestead entries for 1913 amounted to 29,640, a marked decrease from 1912, when they were 35,222. In 1911 they amounted to 38,555. Even more startling is the falling off in the number of pre-emption entries. There were 10,583 such entries in 1911, 8947 in 1912 and 6483 in 1913.

Oriental immigration for the past three years included 20,000 Chinese, 2300 Japanese and 107 Hindus.

M. C. Christie has been appointed legal advisor to the department of external affairs at a salary of \$3000 per annum.

H.M.C.S. Niobe has at present fourteen officers and 155 petty officers and men. Eight of the officers are Canadians and are also 75 of the petty officers and men. Since the Niobe arrived in Canada the enlistments are thus accounted for: Dead, 9; deserted, 241; returned, 1.

UPHOLD DRASTIC ACTS OF BOTH

Bill to Make Banishment of Strike Leaders Permanent Supported in Assembly.

CAPE TOWN, Feb. 2.—(Can. Press.)—The bill to indemnify the government for all its acts under martial law, and prohibiting the return of the strike leaders recently deported from South Africa, was introduced in the assembly today by Gen. Jan Christian Smuts, minister of defence, and passed its first reading. Prior to this a Labor amendment proposed by Frederick Creswell, the acceptance of which would have been equivalent to a vote of censure, was defeated. The Laborites alone supporting it.

The Unionists voted with the ministerialists in all the divisions. The spokesman, Sir Thomas Smartt, defined their attitude as "one of suspension of judgment until all the facts are before the house."

Gen. Smuts promised a full explanation of the government's action when the bill will come up for second reading Wednesday.

Mr. Creswell, in an impassioned speech, condemned the deportation of the strikers and declared that the government had by its action struck a blow at the foundations of civil liberty in the country.

GLADSTONE NOT RESPONSIBLE.

LONDON, Feb. 2.—(Can. Press.)—The Rt. Hon. H. L. Samuel, postmaster-general, speaking at Harrogate to-night, made reference to the deportation from South Africa of the strike leaders. He declared that no responsibility for this act attached to Viscount Gladstone, the governor-general, because under the constitution of South Africa his assent was not required and was not asked.

MAJ. GEN. McDONALD AND WIFE RETURNING.

Mrs. McDonald Has Recovered From Operation at Rochester, Minn.

BIG SHIP CHANNEL IS NOW NEARLY FINISHED

Waterway Between Quebec and Montreal Has Cost Sixteen Millions.

OTTAWA, Feb. 2.—(Special.)—The 30-foot ship channel between Quebec and Montreal is practically completed. The total length of dredging in the project is 70 miles, and the length yet to be dredged, says the annual report of the department of marine and fisheries, which was published today, is 420 miles. This, of course, was at the beginning of the present fiscal year.

A good deal of work was accomplished last summer, but it is stated by the department that the work will take more than one season to finish.

The total cost of the ship channel from 1851 to the present time is nearly sixteen million dollars.

SHRINKAGE IS SHOWN IN CUSTOMS RECEIPTS

Decline in Ten Months Was Nearly Three Million Dollars.

OTTAWA, Feb. 2.—Customs receipts for the Dominion in January were \$7,065,165, as compared with \$7,779,090 in January last year. This shows a falling off of more than \$700,000.

For the tenth month of the fiscal year ended with January the receipts were \$91,343,951. During the same period last year the receipts were \$94,329,836, which shows a decrease during the ten months of nearly \$3,000,000.

DIAZ EMISSARY WAS EXECUTED

Death Sentence Villa's Answer to Proposal That He Renounce His Allegiance to Carranza.

JUAREZ, Feb. 2.—Francisco I. Guzman, who figured prominently in the revolt against President Madero in Mexico City a year ago, was executed in the front yard of a house occupied by Gen. Francisco Villa here today. Guzman had just come from Havana, where it was charged he had been given a secret mission by Felix Diaz to induce Gen. Villa to renounce Gen. Carranza and throw the strength of the revolution to Diaz.

As soon as he heard of the proposal Gen. Villa gave Guzman a conference, and after making sure of the nature of the visit, ordered the messenger shot. Within a few minutes after his arrival Guzman was led out of Villa's room, stood up before an adobe wall and with his hands tied and eyes blindfolded, was executed. The shooting was done by a rebel officer in charge of the railroad, who happened to be present when the execution was ordered.

Guzman was formerly a private secretary to Dr. Emilio Vasquez Gomez. He was known as one of the promoters of the Orozco revolution against Madero, and later joined with Huerta against the late president.

SUSTAINED APPLAUSE GREETED FIRST MENDELSSOHN CONCERT

Audience, Aroused to Tremendous Enthusiasm, Obtained Encores From Dr. Vogt's Choir—The Duke of Connaught Was Central Figure of Notable Assembly.

Once more the Mendelssohn Choir has shown all who care to hear, the height and glory of the art of song. The concert in Massey Hall last night which well be taken as the acme of human power of that kind, and those who heard it for the first time could not hope to hear it bettered by other than heavenly choirs. An audience drawn from all over the continent, and representative of every rank of society, fashion and art was attracted to its death by the rendering of Verdi's solemn "Stabat Mater" and portions of the "Requiem."

The public are cordially invited.

RECOUNT SHOWS "DRYS" LOST IN WELLAND

Bridgeburg Ballot-Box Which Reached Returning Officer Last Saturday, Gave Larger Majority Against Temperance Act Than Previously Reported.

(Special to The Toronto World)
WELLAND, Feb. 2.—A majority of six votes against the Canada Temperance Act was found by Hugh A. Rose, returning officer, when he made his official summing up of the sworn statements of the deputies today. Consequently, he declared, the act was defeated.

In the presence of representatives of both sides Mr. Rose began the work of summing up. This morning there was little change in the figures until the ballot box of E. C. Coulthurst, Bridgeburg, was opened when the statement showed 63 against 12 for a difference of 51 from the sworn statements he gave to the temperance agent on the day of voting. Mr. Coulthurst did not deliver his ballot box until Saturday, and then the returning officer had to send for it. He was called to Welland, but left again on the 2:30 train for his home. O. H. Garner, president of the temperance party, says the matter will be probed to the bottom. Investigation, it is understood, will follow in connection with some other circumstances.

Guarded Ballot Boxes.
Last night, it is alleged, the temperance people heard of designs on the court house, where the boxes were kept, and at their request the mayor stationed special policemen to guard them. L. B. Spencer, secretary of the E.M. M.A., which opposed the act, intended before the result was known and the act defeated, to enter a protest at Welland Township which gave 408 for the act under the Dinkins Act, and the latter is not suspended by the C.T.A.; therefore, his contention, E.M. M.A. had no right to vote with the county.

PEEL SAHARA FOR GOLFERS.

As the result of the vote last week in favor of local option in Peel County, approximately 1400 members of the golf clubs in the county will be deprived of the privilege of refreshing themselves with intoxicating liquors after a trip around the links. The clubs which this legislation will affect are Lakeview, with a membership of about 600; Toronto, with a like number of members, and the Mississauga, which has 400 members.

It is also possible that there may be some difficulty encountered by the Ontario Rifle Association, when they attempt to open their courses on the Long Branch ranges during the annual competitions next summer. There is already some talk around the Toronto Club, which is situated just over the boundary line of the Peel County, of evading the law by erecting a building and installing a bar on the other side of Etobicoke Creek, which forms the boundary line between the Counties of York and Peel.

The Outstanding Feature of the Furniture Sale is Its Offering of Exhibition Pieces

WE CANNOT TOO STRONGLY EMPHASIZE the fact that the Furniture Sale this February is made up largely of the magnificent displays of samples from the recent trade exhibitions held throughout this Province and in Grand Rapids (the American home of fine cabinet-making). And also that there is not a piece of so-called "Sale furniture" in this Sale, every article being of the quality made up for regular year-round business. In our Furniture Building to-day, under Sale prices that offer great economies over regular markings, is what we believe to be in every way the finest assortment of furniture ever shown in Canada. So the rare opportunities for money-saving are on furniture that makes such economies emphatically worth while.

THE T. EATON CO. LIMITED

SCHOOL COURSE IN KINDNESS WOULD MAKE MEN MORE HUMANE

Adam Brown Makes Suggestion at Annual Meeting of the Toronto Humane Society—Duke of Connaught Would Have a Pet in Every Home.

Friends of the animals turned out in force at Convocation Hall yesterday afternoon to mark the 26th year since the founding of the Toronto Humane Society, and to welcome its honorary president, the Duke of Connaught.

The report of the prosecutions showed that 322 persons had been arrested for different offences against the duty of kindness to animals. The greatest culprits are those who ship large and small animals together when during transit, the small stock are trampled to death by the larger animals.

Making Death Easy. P. C. L. Harris, managing director, told how cases by which the smaller animals might be disposed of in the most speedy manner known to the modern world, had been procured at a cost of \$600, of which \$500 had come very unexpectedly from the estate of the late Wm. McLean. A great deal

of good had been brought about, he said, thru the passing of the "Injured Animal Act." Funds are wanted, Mr. Harris pointed out. Out of a city numbering 450,000 the society had only a membership of 450.
The Duke's Address. When the duke arrived he received an enthusiastic greeting. His address expressed great interest in the work of the society. He emphasized the good to be derived from teaching children right conduct to dumb beasts and asked the parents and teachers to assist, the former especially by providing pet animals for the children of each household.
Sir John Gibson, who was to have presided, came in time to introduce his Royal Highness to the meeting.
Teach the Children. Adam Brown, president of the Hamilton Humane Society, made an eloquent plea for a more general regard for animals, and especially advocated teaching the children their duty in this regard. He stated that in schools of Scotland a lesson is given daily in this subject, and that out of 7000 who had received this tuition, and whose careers had been followed, not one had been convicted of any criminal offence. On the other hand 2000 others who had been convicted had with twelve exceptions, stated that they had never had a pet animal in their childhood.
In moving the adoption of the reports and resolutions Mr. Brock, Sir William D. Otter, Col. Grenett, Sir Lyman Melvin-Jones, Right Rev. Mr. McCann, Hon. W. J. Hanna, and Mr. Rowell, K.C., made short addresses.

CORNWALL'S MERCHANTS COMPLAIN OF SMUGGLING

Petition Minister of Customs to Detail Special Officer to Stop Practice. (Special to The Toronto World) CORNWALL, Feb. 2.—A petition is to be forwarded to Hon. J. D. Reid, minister of customs, asking that a customs detective be sent to Cornwall to look into the matter of the extensive smuggling which it is claimed is going on between here and along the river front of the town, and Hogansburg, N. Y. The petition is being circulated by officers of the Cornwall Retail Merchants' Association.

It is asserted that wearing apparel and household commodities are smuggled across in large quantities, and even that coal oil by the barrel is brought across without the formality of a visit to the customs house. One of the department men. It is felt, would speedily stop this, as it is difficult for the local inspectors to catch people red-handed, the officers being too well-known.
The merchants claim that they are being deprived of considerable trade in this way, and think that if a few stiff penalties are handed out the practice will soon cease.

BANDITS RELEASED JESUITS. SHANGHAI, Feb. 2.—(Can. Press.)—The Jesuit priests, Fathers Allain and Taille, who were captured by bandits when they sacked and burned the Town of Luan-Chow recently, have been released and have reached a place of safety. At the time the two priests were seized Father Rich, a French Jesuit missionary, was killed.

SAME OFFICERS CHOSEN AS ACTED LAST YEAR

Cattle Breeders' Association Met Yesterday at Grand Union Hotel. Toronto will this week, be the mecca for the leading cattle and breeders' associations of the Dominion, and hundreds of breeders arrived in the city yesterday as a consequence. The first of these meetings held was the opening session of the Dominion Cattle Breeders' Association, which took place at the Grand Union Hotel yesterday, when the election of officers was held. The result was a re-election of last year's officers, including: President, John Gardhouse, Weston; secretary-treasurer, A. J. Westervelt, Toronto, and 1st vice-president, W. W. Valentine, Stratford.

The associations to be represented in Toronto during the week include the Dominion Cattle Breeders' Association, the Dominion Swine Breeders' Association, the Ontario Berkshire Breeders' Association, the Ontario Yorkshire Swine Breeders' Association, the Ontario Horse Breeders' Association, the Clydesdale Horse Breeders' Association, the Dominion Sheep Breeders' Association, and the Ontario Sheep Breeders' Association.

FORESTERS WIN ILLINOIS CASE

Insurance Department Has Receded From Position in Rates Decision. TAKING NEW BUSINESS. I. O. F. Acting With Full Approval of State Insurance Commission.

It was given out some time ago that the insurance department of the State of Illinois had decided that the Foresters had exceeded their powers in the recent readjustment of rates of the members of the order in that state. In view of the action of that department the order withdrew from Illinois. It is now announced that the department has receded from its position and the Foresters are now taking new business in Illinois with the full approval of the insurance commissioner. A statement handed out by the commissioner, Rufus M. Potts, states: "There will be a test case on the rate question in the courts, but just when I cannot say at this time. The order, which really never stopped doing business here, so far as an official act of mine indicated, will resume writing new business as it did before the controversy came up with the various insurance departments."

ONLY FIVE STRIKERS TO FACE MURDER CHARGE

Sixth Copper Miner Missing and Bonds Are Declared Forfeited. HOUGHTON, Mich., Feb. 2.—(Can. Press.)—Only five men responded to their names when the case of the six deputies charged with the murder of two striking copper miners was called in the circuit court today, and the \$5000 bonds of Thomas Raleigh, the missing defendant, were formally declared forfeited.
As the regular panel was exhausted today Judge R. C. Flannigan ordered a special venire of 100 men to be called.

The bizarre setting of the folk selections being undoubtedly captivating, and there was immense applause at the close.

THE TECHNICAL number demonstrated the supremacy of the choir in an ensemble performance. The chorus in an impressive manner, the first being a "Taper away into a wisp of cloud in the distance" and the second, "The intricate scoring of a summer day." The intricate and graceful setting that made it so difficult to realize that 23 voices were engaged, and pure beyond precedent, and out of the finale.

His Excellency the Duke of Connaught with a Government House party occupied the royal box and were most graciously entertained by the choir. The Duke enjoyed the concert very much, as he informed Sir Edmund Walker, the honorary president of the choir, after the concert.

At the instance of the crown a new warrant was sworn out for the arrest of Dr. F. G. Hughes, wanted in connection with the defunct Union Life prosecutions. Dr. Hughes is understood to have left Edmonton last Wednesday after receiving bail from Judge Beck on habeas corpus proceedings.

EFFICIENT HOUSEKEEPING
BY HENRIETTA D. GRAUEL
DOMESTIC SCIENCE LECTURER

Easing the Squeaks
A NEIGHBOR had borrowed our oil can a few days ago, and when his neighbor returned it she remarked that it was the first time she had ever had such an article in her house.

There was the carpet sweeper, she said, it had worked so hard that it was a task to empty its dust container, but a drop of oil on each hinge and a bit on the little wheels made it go like new.

The slide between the pantry and the kitchen rasped on its runners so that Hannah could not put away her kitchen utensils while the dining-room was occupied without disturbing the diners. The oil remedied that.

These women are wrong; to be able to apply a bit of paint where it is needed, to tighten a loose screw or swing a hammer, is just the sort of knowledge that is useful. Get your oil can out of your machine drawer, fill it with the best oil on the market and see if you, too, do not find it worth while to ease the squeaks.

Children relish stale bread when softened by being put into soup for a short time, or it may be used by making into rusks cut into nicely shaped fingers.

To make rusks, break stale bread into small, rough pieces and dip each in a basin of sweetened milk. Take the pieces out immediately, before they break and place on a buttered tin. Put the tin in a cool oven and leave them until the rusks are quite dry.

Prepare them with boiling milk for the baby's breakfast; grown people will also find them delicious with soups.

Apples in New Dishes Tempt Taste

By Ann Marie Lloyd

APPLES have risen in value to such an extent in recent years that they have become more of a luxury than in the old days when they were standbys on every table.

APPLE SAUCE CAKE. One cup strained apple sauce, one cup of light brown sugar, half a cup of butter, or if you have it, mix beef fat...

SLICED APPLES IN JELLY. Make a gelatine jelly, either pink or white, and flavor with lemon or wine.

APPLE CHARLOTTE. Soak one tablespoonful of gelatine in three tablespoonfuls of cold water.

FRIED APPLES. More mundane but very pleasing to the average person is the dish known in New England as fried apples and onions.

TUESDAY MORNING, FEB. 3. THE CITY AND THE GAS COMPANY

We read in an evening paper that the Consumers' Gas Co. wish to negotiate with the city for permission to sell a further block of their stock, contrary to the present law, to the effect that the sale shall be by public auction.

But why should the Consumers' Gas Co. issue any more stock? It has too much out now, unless it wishes to cut a melon among its shareholders. We are glad to know that up to the present the Consumers' Gas Co. has had to sell its stock on public competition, but, apparently, following the example of the C.P.R., it would like to make an arrangement whereby it could issue its stock to its shareholders without public competition, and in that way follow the C.P. in cutting a melon.

But, as we said above, why should it issue any more stock? Why not sell 4 per cent. bonds if it wants more money for improvements, and Consumers' Gas bonds would certainly go at par, or very little less, on the London market; we do not know of any better security in Canada than bonds of this character.

But is it not a fact that the Consumers' Gas Co. has immense reserves which could be utilized for any extensions it requires? The ordinary business man builds up his business out of the accumulation of his profits and does not rush to the bank for the money required; he gets it out of his savings.

We are quite convinced that if the company does not wish to call on its reserves it can issue bonds at 4 per cent. or less and get all the money it wants. But on their stock they pay 10 per cent. dividend, and even if this stock is sold at a premium, it takes more money to pay this dividend than to pay the interest of the bonds, and therefore the company would, in honor to the City of Toronto, be bound to reduce the price of gas to the citizens, and that is what they ought to do.

But there is still another question at issue and it is this: that it is high time that the government of Sir James Whitney in Queen's Park passed a law putting the capitalization of every company in this province handling municipal franchises under a public service commission, like they have in the State of New York; and this public service commission could be easily made out of the present railway and municipal board. This commission can stand improvement, and if its duties were widened, still better men could be got to do it.

Not only should the capitalization of these companies be regulated, but another law should be passed absolutely forbidding any company created for the handling of public franchises from entering into a consolidated company or being taken over by a holding company or being allowed to acquire any other franchises without the consent both of the municipality directly concerned and of the public service commission. One of the troubles with the purchase of the Toronto Railway is that it has become involved with radial lines, power lines and perhaps some other things; and in Hamilton the street railway there is all mixed up with Cataract Power, radial companies and probably gas.

Who is the man up at Queen's Park in the absence of Sir James Whitney who will deal with this very question this session and place the companies under a law such as in the State of New York, and which President Wilson is proposing for the whole of the United States? It ought not to be difficult for the Ontario Legislature to give Ontario this progressive and necessary legislation.

SETTLED CLAIMS OF LATE KING'S DAUGHTER

Failed to Secure Property Valued at Fourteen Million Dollars.

BRUSSELS, Belgium, Feb. 2.—(Can. Press.)—A definite settlement was reached today of the claims of the three daughters of the late King Leopold in connection with the property left by him. A short time ago they unsuccessfully sued the government for the entire Congo property, valued at nearly \$14,000,000. Afterward the state recognized that they were entitled to some compensation and made them an offer, which they accepted. Princess Louise signed an agreement to this effect today, and her sisters, Princess Clementine and Princess Stephanie, will sign it this week. It must then be submitted to the Belgian Parliament for ratification, after which the money will be distributed among the princesses and the creditors of Princess Louise. A national subscription for a monument to the late King Leopold is to be opened shortly.

dition the report quotes the statement of Theodore N. Vail, president of the American Telephone and Telegraph Company, to the effect that the telephone business must be "under common control" and "sufficiently strong to constitute practically one system, intercommunicating, interdependent, universal and that the most efficient service can be attained only under condition of monopoly." It is obvious, the report continues, that the longer the acquisition by the government of these facilities is deferred the greater will be the cost. Moreover, it adds, it is economic waste to permit private enterprise, to build up vast properties that must eventually be taken over by the government at a cost out of all proportion to the value of the parts fitting into a nation-wide system. By delaying a parallel reform Canada also is adding to the burden that must ultimately be assumed.

WHAT MUNICIPAL OWNERSHIP MEANS.

One of the standing assertions made to discredit the municipal ownership and operation of public services and utilities is that it destroys initiative and prevents the extensions and developments necessary to meet the demand for proper accommodation. This legend must have a measure of popular appeal or it would not be so constantly in evidence. But experience, the best of all teachers, shows that private control pays far more heed to dividends than it does to service. No argument has much or any appeal unless it shows enlargement of profit. And have not the ultimate judiciary laid it down as an incontestable proposition that no public service company can be compelled to extend into districts that cannot at the moment yield a return above operating expenses?

Municipalities owning and operating their own services regard extensions and improvements from a different point of view than that of sectional profit. They look to the general public advantage, regarding the city or town as a unit whose progress can be advanced by foresight in the anticipation of the public need. In the approaching session of the Imperial parliament the City of Glasgow has no less than twenty-eight separate street railway proposals. They include extensions of existing routes further out into the country, and better links of existing city routes, all adding to the present splendid transportation facilities afforded by the street railways at an average fare of about two cents. This is not peculiar to Glasgow, for every British city in similar position is engaged in just the same effort.

TORONTO'S MUSICAL FESTIVAL.

A two years' interval accumulates a hearty welcome for the absent, and the musical festival which the performances of the Mendelssohn Choir constitute, stir all the warmth of hospitality as well as all the cordiality of keen artistic appreciation in musical Toronto. In no other respect, except perhaps in some branches of sport, is Toronto so indubitably distinguished as in the possession of the Mendelssohn Choir, and the performances this week are on a level which is as high as Dr. Vogt's genius has been able to direct his chorus to in the past, while novelities are to be produced that will elicit the highest talent of the performers. The continental fame of the choir attracts visitors from all over America, and if the projected visit to Europe next year is carried out, it is probable that the old world will mingle its laurels with the new in honor of the Canadian singers and their conductor. The presence of his excellency at last night's concert should ensure the co-operation of all who are able to assist in Britain, socially or musically. In making next year's trip a success. It is only necessary to communicate a little of the enthusiasm aroused last night to the public overseas to secure all that is desired—a hearing. Dr. Vogt and his forces may be trusted to do the rest.

The new works this year, Monsorg's choral ballad, Elgar's "Music Makers" and Cylindric Taylor's cantata tomorrow, the repetition of Wolf-Ferrari's "The New Life" tonight, and the Verdi music last night, would be great musical events in the history of any community. Toronto is singularly fortunate in having a performance under such artistically perfect conditions.

The visit of Mr. Stog's orchestra from Chicago maintains a link which felicitously unites two cities which have much in common, but in nothing more so than the pursuit of high artistic ideals.

PUBLIC MEANS OF INTELLIGENCE.

Whether or not effect is given in this session of the United States Congress to the recommendation of Postmaster-General Burleson, that the state declare a government monopoly over all telegraph, telephone and radio communication, the step will ultimately be taken. It is the natural corollary of the postoffice system, for only by a government service can every section of the community share equally in the benefits accruing from the transmission of intelligence. The report of the committee appointed by Mr. Burleson to investigate the situation in the United States says that it is alone of the leading nations which has left to private enterprise the ownership and operation of the telegraph and telephone facilities. In corroboration of the recommen-

PAID SHORT VISIT TO TWO PATIENTS

Duke of Connaught Saw Sir James and Sir George Ross

AT GENERAL HOSPITAL

Informal Reception and Inspection of the Buildings Yesterday Afternoon.

The visit of His Royal Highness the Duke of Connaught to the General Hospital yesterday afternoon was a highly interesting one. He was accompanied by the staff of the house, the mayor and representatives of different public bodies being present. In replying to the Duke's remarks on the work that had been done in connection with the new building and giving His Royal Highness welcome to the hospital, the Duke expressed his pleasure at being present, and stated that so great was his interest in the institution that when he found it had been impossible for him to be present at the opening of the building, as he had intended, that he made up his mind that he would surely visit the institution on this occasion. After an informal reception the tour of the house was made, short visits being paid to Sir James Whitney and Sir George Ross, who were in the ward. He had never seen anything like the new General of Toronto, which he hoped to see some day in detail.

THE LAST ROSE OF SUMMER

The Song and the Man Who Wrote It.

A most prolific and versatile poet, Thomas Moore has been declared to be "the least Irish" of all the many sweet and gifted singers whom the Emerald Isle has given to the world, and sootho a weary world. One of his immortal trio, Scott, Byron and Moore, reflected in poetry the union of the British Island Empire, not always in complete amity, but on the whole admiring and respecting one another, and forming a galaxy of poetic genius unrivaled in its day. Thomas Moore was born in Dublin, Ireland, May 28, 1779, while the American revolution was at its height, and England was at war with France and Spain, as well as her revolted colonies. He entered Trinity College, Dublin, in 1798, when only fourteen years old, and in 1799, early in his twenty-first year, went to London, where he remained. He almost immediately published, by subscription his first volume of miscellaneous poems. The young poet became a great success, and even secured the goodwill of royalty, resulting in his appointment to the governorship of the Bermudas, whose beauties he greatly admired, and in 1806, when he returned to England, he was appointed a deputy governor to administer the affairs of the United States and Canada, and he accompanied the Duke of Wellington to the battle of Waterloo in 1815. His "Odes and Epistles" were published and bitterly criticized by Little in "The Edinburgh Review." A challenge was issued and a meeting took place Aug. 11, 1816, but was prevented by the police, not without considerable suspicion, that the duelists connived at the fact, and intimidated by Byron's "British Bards and Scotch Reviewers."

The "Last Rose of Summer" is one of his characteristically sentimental poems, which in those days enjoyed a popularity, which would be utterly denied to it today. Yet at that time it had almost remarkable vogue, and lonely travelers in South American solitudes found "The Last Rose of Summer" among the music sheets which ascended the Amazon and its tributaries, and crossed the Andes to the Sierras and towns of the Pacific slope. Only here and there is found a songstress whose sweet voice can give charm to the quaint old English air and something of the spirit of the original production; but when this rarest of singers is found, it is still a gem of her repertoire. The "Last Rose of Summer" is to be found on page 146 of "Heart Songs." The four hundred selections contained in this unique volume are all of the same high order, and suit the tastes of multitudes who love real music. We refer those of our readers who have not yet obtained this great song book to the coupon published elsewhere in today's issue.

ST. ANDREW'S BOYS WELCOME THE DUKE

His Royal Highness Was Present at Annual Prize Distribution.

ADDRESS OF WELCOME

Royal Salute Played by the Cadets as the Party Left.

It was a bright and heartfelt reception that was tendered His Royal Highness the Duke of Connaught at St. Andrew's College yesterday. The cadet corps of the school, wearing their Highland uniforms, formed a body guard that lined the corridors of the big school, thru which the royal visitor, accompanied by the chairman of the board of governors, passed. Following came Rev. D. Bruce Macdonald, headmaster; Principal Falconer, Sir Edmund Walker, Sir Edmund Oiler, Sir Henry Bellait, N. W. Rowell, K.C.; Mayor Hocken and others. The singing of "O Canada," followed by the reading of Scripture by Rev. Dr. Neil, and prayer by Archdeacon Cody opened the proceedings. A capacity audience filled the assembly hall, which was decorated with clusters of rich flags and many beautiful palms, and the red-coated cadets who lined the walls added an additional note of color to the gathering. Principal Macdonald then gave the introductory address, outlining to His Royal Highness the work of St. Andrew's, and its high scholastic attainments. He also communicated the information that plans were decided upon for the new school at York Mills, which is to be in Gothic style and of gray granite to which the old boys are to contribute the gymnasium. Illuminated address was afterwards read by J. K. Macdonald on behalf of the governors, which gave "welcome to the college for his own sake, one whose services to the British Empire have been so distinguished, whose influence on the goodwill of the nation toward his house so acceptable, and whose interest in the welfare of our own Dominion so marked, as to have been those several activities of His Royal Highness the Duke of Connaught." In replying, the duke said: "No part of the proceedings here has pleased me more than the references to the development of a national spirit in Canada, and in this young country there is nothing more important, I venture to believe, than education. The responsibility falls upon the schools of the Dominion to teach the youth of the country that they may enjoy their great heritage. But they must be taught to think not only locally, but to quote the words of Mr. Joseph Chamberlain, 'to think imperially.' The material benefits of life under the Union Jack may be, and indeed are very great, but it is not enough that the British boys inherit the British Empire, the greatest instrument for good in the world today."

A WELL LIGHTED TOWN

(Special Correspondent.)

TRURO, N. S., Feb. 2.—The Government of Nova Scotia is putting up a new building in connection with the agricultural college for entomological and greenhouse purposes, to cost \$5000. Truro is now one of the best lighted towns in eastern Canada. The installation of iron standards, bearing three white-globed lights on each, has just been made in some of the principal streets. Distributed about the other streets are 400 lights of the same intensity, with reflectors instead of globes; these are carried on wooden poles, the lighting system, which the installation of iron standards, bearing three white-globed lights on each, has just been made in some of the principal streets. Curling Granites Win Championship

RENNIE RINKS WIN BOTH GAMES

John Defeats Snow of Lakeview, and Tom Trims Peaker of Parkdale.

The Granite Curling Club last night won the single rink curling championship of Toronto, when the two Rennie rinks defeated their Lakeview and Parkdale adversaries by one-sided scores on fair ice. Each tallied the first end and was always ahead.

John played Charlie Snow at the Granite Club, scored a four as a starter and followed up with another cluster the same size in the second end. But don't think that Lakeview failed. They were on the rings, but the Granites worked inside, kept Rennie doing great execution to change the complexion of things on several occasions.

Nichols, Hurston's and Armstrong's were in the kettle, and the Coates, father and son, and Bob Hunter were also in shape to trim any ordinary team. The Granite stones were generally hand-picked, hence the result.

At Queen City, Tom Rennie started out with a three and lost one the second end, but he came back with a four and a two and it was 3 to 1. Then the rink had an end off and Dr. Peaker notched five. Umpire Lewden being called on to disallow a sixth that was almost hanging on the outside ring. Two in the sixth and Parkdale was only down one shot, 5 to 3. Then Skiper, Rennie's partner, stayed Rennie scoring the ninth, tenth, eleventh and twelfth, and finishing up with a four in the thirteenth. Then they shook hands without playing the last. Rinks and scores:

Lakeview—A. B. Nichols, R. Coates, E. Hartnett, M. Coates, S. H. Armstrong, B. Hunter, John Rennie, sk. 19. C. Snow, sk. 7. Granite—Dr. C. P. Colter, J. A. Meldrum, Dr. E. Peaker, sk. 10. C. S. Dalton, A. E. Dally, E. Dalton, A. E. Hines, Tom Rennie, sk. 21. Dr. E. Peaker, sk. 10. President Thos. Brownlee will now hand out the Canada Life trophy to the Granites, the Aberdeens holding it thru the victory over Frank Blacklock a year ago. The rival Rennie will play off under the Tankard games, likely on Friday or Saturday.

Varsity Defeated By the Simcoes

In the fastest game staged at the Havana rink this season, Simcoe Juniors defeated Varsity, 5 to 3, last night. Both teams displayed nice combination, but the Marriot kids did the better checking and this gave them the victory. The line-up:

Simcoes (5)—Goal, Haddon; defence, Everestfield, Patton; rover, Hicks; centre, Brown; right, Goldsmith; left, Wagner.

Varsity (3)—Goal, Lavelle; defence, Mathers, Adams; rover, Milne; centre, Smythe; right, Saunders; left, Dufco.

RED RING PADDLERS PUT BRAMPTON OUT

BRAMPTON, Feb. 2.—Toronto Canoe Club put the local seven out of the running by defeating them here tonight, 3-2. It was an evenly contested game, with both teams putting up a stellar article of hockey. The half-time score was 2-0 for T.C.C.C.

Brampton outsourced Canoe Club in the second scoring three, while the visitors bulged the nets for two. The line-up: Brampton (3)—Goal, McClure; defence, Duggan, Russell; forwards, Brookbanks, Parks, Ingoldby and Anderson.

Toronto Canoe Club (5)—Goal, Turner; defence, Milverhill, De Gruchy; forwards, Young, Appleghat, Webster and Warwick. Referee—Brown.

Another Senior Game At Arena Tonight

Varsity and Osgoode Hall meet in a senior fixture at the arena tonight, and as Varsity will play their O.H.A. team, this will be Osgoode's one chance to break into the win column.

Every seat in the arena has been sold for the Toronto-Ottawa clash on Wednesday night. It looks like a record crowd for the big structure.

KID LEWIS BEAT THE FRENCHMAN

LONDON, Feb. 2.—Kid Lewis, the English featherweight, defeated the Frenchman, Paul Tili, here tonight, in a one-sided contest, which was scheduled to go twenty rounds. Lewis had all the better of the fighting, and Tili was so badly punished that the referee stopped the bout in the twelfth round.

HAMILTON H. C. WIN INTERMEDIATE GROUP

HAMILTON, Feb. 2.—(Special).—The fastest, roughest and most brilliant game of hockey ever seen in this city was played here tonight at the Alford rink by the Hamilton Hockey Club and the Hamilton Centennials, before a crowd of two thousand wildly cheering fans. The final result was a tie of 2 to 2.

This allows the Hamilton Hockey Club to retain their lead of three points on the series of four games, and thereby become champions of the O.H.A. intermediate group No. 3.

The score does not indicate the play. In the second game the Centennials had their opponents played right off their feet, and were skating rings around them until the last few minutes of the last half. In that period McEwen, the speed marvel, scored two goals on the tired Toronto, which evened the score. All kinds of hockey featured the battle. Players were sprawled all over the ice continuously checking was rough and hard, and it was a bandaged bunch of players that took the ice for the second half. The second period was six-man hockey and individual rushes. McKensie, Code and Hensell started for the Centennials, and McEwen, Reiser and Cox for the Hamiltons.

The summary:—First Half—1. Centennials—Lansman, 14.14. 2. Centennials—Cook, 18.00. 2. Hamiltons—McEwen, 4.00. 2. Hamiltons—McEwen, 3.00.

T. R. C. 4 WIN FROM MIDLAND

Thrilling Senior Fixture at the Arena—Hard Checking and Fast Hockey.

For thrills and spills that Midland-Toronto Rowing Club senior fixture at the Arena last night carried off the season's honors. It went into overtime, and the King street scullers came thru with their first victory of the year, 4 to 3. Midland must win their remaining games to win the group, a titanic task.

It was one of those rip roaring affairs with the checking of the hardest thrust, and both teams going for every ounce of strength in the first half. The ten minutes of overtime, T.R.C. broke away from their individual style and showed some pretty combination by the forwards. Midland had them stopped fairly well in the first half when they tallied three goals, but the watermen did a grand comeback after the first rest and sent their forwards up on their own goal for the best part of the half.

Skinner and Farr played wonderful hockey on the T.R.C. forward line, and it was their hard and effective checking that broke up the Midland combination during the whole game, and centered every man with his leading and stick work. Farr was busy at centre, but Dopp was at the side with a long lift. T.R.C. failed to get their passing down fine enough, and Midland kept breaking up the play. Midland kept a pass at the goal mouth and batted in goal No. 2. Simpell scored Midland's third and last goal for half the night.

The second half started at a whirlwind pace, with T.R.C. leading by two goals. Farr, Skinner and Burrill stopped the Midland forwards with bodies and sticks and kept Burrill in front of Scott until he was worried sick. Burrill intercepted a pass from a Midland press and carried it back into the net. T.R.C. had a long lift. T.R.C. failed to get their passing down fine enough, and Midland kept breaking up the play. Midland kept a pass at the goal mouth and batted in goal No. 2. Simpell scored Midland's third and last goal for half the night.

AMERICAN NAVY UNDER-ESTIMATED

Statistics juggled to help Armament Advocates, It is Charged.

WASHINGTON, Feb. 2.—(Can. Press).—That experts of the navy department juggled the statistics in the navy year book for 1913 to make the American navy appear inferior to the German navy and thereby set the United States down from second to third place as a naval power, was charged today by Representatives Witherspoon of Mississippi, and Hensley of Missouri, members of the house naval affairs committee.

With Secretary Daniels in front of the committee to explain the naval program for the coming year the two congressmen, who are strongly opposed to a "big navy," questioned him at length on what they declared were immissions and faulty comparisons in the year book. The secretary explained that he was not an expert in comparing navies, and said he had relied on what experts in the navy had advised him about the facts.

Battling "Out." In their questioning the congressmen brought out that three American battleships, the Oregon, Massachusetts and Indiana, which are of the same tonnage and of heavier armament than ten listed German battleships left out of the United States list altogether; and that the year book, instead of giving the United States 36 battleships built and building, compared with Germany's 36, should have credited the United States with 92 battleships of heavier total tonnage and armament than Germany.

A. RWN TRYING TO LAND KING COLE

New York Yankees and Chicago Feds Both After Him Swacina Signs.

NEW YORK, Feb. 2.—Leonard (King) Cole, who jumped from the New York Americans to the Chicago Federal League Club, was brought to New York tonight by Arthur Irwin, scout for the Yankees. Frank Parrish, president of the local Americans, believes he is legally entitled to Cole's services.

Cole said that he is still a Federal Leaguer, but that he wants to do what is right. He came to New York with Irwin, he said, in order to get out where he stood. When asked with which club he would rather play, Cole said he would play where he could get the most money. He added that the Federal League was to give him more money than he asked from Farrell.

Rube Peters, a former member of the Chicago Americans, has signed a contract to pitch for the Kansas City Federal League club. Peters was in Minneapolis in 1911, and was drafted by the Chicago Americans.

Harry Swacina of the Newark International League Club has signed a contract with the Baltimore Federal League Club.

President Gilmore Coming to Toronto

CHICAGO, Feb. 2.—President Gilmore of the Federal League left this afternoon on a trip to Toronto, but the purpose of his visit was not announced. Charles Williams, new business manager of the Chicago Federal League, will leave tomorrow night for Mineral Springs, Texas, to make final arrangements for the visit of his league's training trip.

C. W. Somers, the Cleveland American League manager, visited Chicago, but said his trip here had nothing to do with baseball. He called at the office of President Johnson of the American League.

INTERNATIONAL LEAGUE SCHEDULE MEETING

NEW YORK, Feb. 2.—The spring meeting of the international league will be held here this afternoon. The most important business to come before the meeting will be the adoption of the playing schedule, which already has been prepared and submitted to the club-owners by President Barrow.

OLD PUGILIST DIES.

UTICA, N.Y., Feb. 2.—Joseph H. Cole, former well-known pugilist, died today while shoveling snow in front of his home in Utica. He was sparing partner of Joe Columbo, one time American champion, and John C. Heenan, and also appeared in an exhibition with John L. Sullivan.

GY. FALKENBERG TELLS WHY HE JUMPED TO FEDS

Signed Three Years' Contract With Indianapolis—Five Thousand Cash in Advance.

Cy Falkenberg, who admits that he has jumped the Cleveland Naps and has signed to pitch for the Indianapolis Federal League club, has explained his action in a formal statement to the Cleveland newspapers. The tall boxman says: "I was whisked away from Cleveland to Indianapolis at a time when I possessed major league ability, which I proved by leading the American Association in 1912, and coming back to the Naps in 1913 and worked under a salary almost equivalent to that of a star pitcher. I had better record than any other Naps pitcher last year.

"Without being egotistical I think that I had more to do with making Cleveland a pennant contender last season than any other individual because I did so much more than was expected of me. I was ready to quit when I was offered a contract to accept the Naps and was pitted against such high salary pitchers as Johnson, Bender, Plank, Dubuo and others.

"I feel that my work alone increased the profits of the Cleveland club at least \$50,000. You can see the difference between the club's winnings and what Mr. Somers would have made if he had not jumped around fourth or fifth place. Yet when I received my last cheque in 1913 I found that \$5 cents had been deducted because I had spent that much money in extra expenses on the road.

"I had a three year contract. Beecher in spite of the positive assertion in Chicago that Blanding of the Naps jumped with Falkenberg and Kahler, Blanding notified Somers yesterday that he had not actually signed with the Naps under certain conditions.

"Ad Brennan, formerly a pitcher for the Philadelphia National League team, but now with the Chicago Federals, has gone to Pueblo, Col., where he will meet Thomas Seaton, a former team mate. Brennan will endeavor to sign Seaton for the Kansas City Federal, and if he succeeds he will receive a \$500 bonus.

GOSSIP OF THE FEDS AND ORGANIZED BALL

While the officials of the Giants do not seem to be in a hurry to sign a contract, it is reported that they will meet Mr. Somers tomorrow night in New York. Mr. Somers is expected to offer a contract to the former Cincinnati outfielder, to sign a contract, it is reported. Somers got him in trade for Charley Herzog and Grover Hartley, but the agreement had been made just before the season and was made just before the season and was made just before the season.

A contract received in Chicago by Joseph Tucker from the Brooklyn Superbas ignored Tucker's arrangements to manage the Chicago Federals, and offered Tucker a year better than the \$3000 previously laid down by Charles H. Ebbets. Tucker said that the increased offer met his original demands from

LORD STRATHCONA LEFT MILLION TO VICTORIA COLLEGE, MONTREAL

Bequests Also Include Half Million Each for Victoria Hospital and Yale University and Hundred Thousand Dollars to Queen's University Extension Fund.

LONDON, Feb. 2.—(C.A.P.)—The following legacies by Lord Strathcona were made public today.

One million dollars to the Royal Victoria College, Montreal, after the deduction of any payment in his life time and in addition to college buildings and apparatus for him.

Five hundred thousand dollars each to the Royal Victoria Hospital, Montreal, and Yale University.

One hundred thousand dollars to Queen's University, Kingston, extension fund.

Sixty thousand dollars, Presbyterian College at Montreal.

Fifty thousand dollars, St. John's College, Cambridge, in addition to \$50,000 given in his life-time.

Fifty thousand dollars, Leacholl Hospital, Perth.

Fifty thousand dollars, Church of Scotland reform ministers' fund.

Twenty-five thousand dollars to Aberdeen University for the chair of agriculture.

Ten thousand dollars each to Strathcona Home for incurables in London University College and Middlesex Hospital.

Lord Strathcona settled his Scottish estates and left \$2,500,000 in cash on the heels of his death. The first of whom is his daughter, to whom he also leaves the residue of his property in London and Montreal. Lord Strathcona's daughter, now Lady Strathcona; John W. Sterling of New York, and William Garson and James Garson of Edinburgh, Scotland.

MCGILL'S GENEROUS FRIEND.

MONTREAL, Feb. 2.—(Can. Press).—The total of Lord Strathcona's gifts to McGill University is brought up to \$2,275,000 by the announcement of the bequest in his will. His last gift of \$50,000 to a balance of a sum of one million dollars which he promised for the extension of the higher education of women movement, and which he had given to McGill on account in 1890 after the Royal Victoria College for Women affiliated to McGill had been built by him at a cost of \$850,000. During the last fifteen years Lord Strathcona had paid over regularly the interest amounting to \$45,000 a year, upon the promised endowment fund of \$350,000, which will be now handed to the university authorities earmarked for the Victoria College. The cheque for last year's interest was mailed to Principal Peterson only a few days before Lord Strathcona died.

While the Royal Victoria College is the only department of the university to benefit by the will, McGill was very generously treated by Lord Strathcona in his lifetime. The medical faculty received \$350,000, the pension fund, \$50,000, while Strathcona Hall was made possible by his initial gift of \$25,000.

MAJOR WOOLWORTH WINS MIXED RACE

Ellsworth G. and Grattan Boy Land Two Heats Each in Unfinished Events.

OTTAWA, Feb. 2.—(Staff Special).—Monday opened up bright and clear, making it grand weather for ice racing. The track was in splendid condition, the management having had a big group of men and teams at work all night making every preparation for the first day of the second week. The attendance was the largest of any day, the ladies' enclosure was well filled. The races were carried (the Saturday card) in the 2.10 trot and pace, stake \$100, with seven entries. Nellie G. was made a favorite, selling even money against the field. Ellsworth G. won the first heat, and Grattan Boy won the second, and Nellie G. won the third, when the race had to be carried over Tuesday.

The third race was the 2.15 pace, purse \$400, six entries. Major Woolworth was the favorite, and justified the confidence of his supporters by winning three straight heats. Little Alfred, the Ottawa owned horse, was well played and went a good race, but was hardly equal to the pace.

The 2.22 trot was the 2.22 trot with five starters. Grattan Boy was made the favorite, after winning the first heat easily enough. Arawan, the American owned mare, who had won three races in one week at Montreal, was crowded into the hole, cutting Grattan Boy off and putting him to a break. Arawan won the heat, but was placed fifth when the interference. Woodpoints in the first heat broke a line and ran for over a quarter of a mile, but was over and turning around to come back. Grattan Boy won the second heat with Arawan second and Woodpoints third. This race was also carried over till Tuesday, when they will be called first on the program, along with Tuesday's card.

The summary: 2.15 trot and pace, purse \$400—Major Woolworth, J. H. Lynch, Norwich, N.Y. 1 1 1 Little Alfred, D. Brown, London, Ont. 2 2 2 Joe Swing, C. Quinn, Aylmer, Ont. 3 3 3 Arawan, W. ST. ANDREWS BEAT UPPER CANADAS

Defeat Prep School Group Winners in Handy Fashion in Final Fixture.

St. Andrew's College redeemed themselves yesterday afternoon by giving Upper Canada College, the preparation school junior group winners, a real time lacing to the tune of 10 to 4. St. Andrew's got together for the first time this season and played real hockey, using nice combination and good hard body checking.

The light Upper Canada seven kept it close in the first half, but the Scotchmen ran away from them after half-time, and it was just a question of how many goals they could run up. The boys mixed it a little in the second half, but Referee Hancock nipped it in the bud. Heintzman and Phillips were the best for losers, and the whole St. Andrew's forward line worked like Indians through. It was the final game of the group, and the Saints led at the half 3 to 2. It was St. Andrew's first win of the season.

The teams: St. Andrew's (16) Goal, Fleming; defence, Rogers and Wright; rover, Finley; centre, Cossitt; right, Phillips; left, Hatch. Upper Canada (9): Goal, Grier; defence, Dean and Phillips; rover, Heintzman; centre, Peter; right, Raymond; left, Walker. Referee: Bill Hancock.

CENTRAL Y. FISH HAD BUSY TIME.

The Central Y. fish tribe had a busy time in their indoor "lake" on Monday afternoon. In the afternoon the regular weekly diploma tests for the boys were held. Twenty fellows lined up and made some of the best times yet. In the fifty yards speed, Freddie Sewell stuck out his tongue and beat Edith Stephenson out by a bare touch. G. Brock and C. Welser showed up well as new diploma applicants. Brock's time, 38 3-5, just missed giving him his third diploma. Hal Morton and "Buss" Bennett did some great work in the 100 yards back race, and the both fought hard to a finish. Hal got the decision in the fast time of 1:54. In the 100 yards speed, B. Stephenson gave F. Sewell a good run, but missed his fourth-class card by mere fifths. B. McKiscock made a plucky effort after nearly hitting himself in the last two lengths. There is being shown a great interest in these tests, which give a fellow his official time for various standard distances. The following will receive diplomas as

NEWS FROM THE CITY HALL

CITY MAY PROTEST GAS STOCK MELON

Consumers' Gas Company Proposes to Issue Shares at Bonanza Figure.

CITY IS SHAREHOLDER But Board of Control May Refuse to Allow Bargain Sale.

Whether the Consumers' Gas Co. is to be allowed to issue stock to its shareholders at \$150, which is worth approximately \$200, is a question that the board of control will be called upon to settle in a few days. At present the company is in need of money for extensions, and this is supposed to be the reason for the melon-cutting proposition. Although the city is a shareholder to the extent of 300 shares, it is very probable that the city will fight against the granting of the right to issue stock at this price. At the present time the gas company is allowed only to issue its stock by auction or tender. The city solicitor claims that the word tender means a public competition and does not apply to sale by tender, but the company got permission last year to sell by tender through supplementary letters patent. There have been ten such auctions since 1902, the prices ranging from above \$10 to below \$70, which would show that a sale of stock at \$150 would be a fine thing for the shareholders.

EMERGENCY SERVICE WAS QUICK TO PROVIDE

Waterworks Steam Reserve Went Into Commission When Hydro Failed.

Even a prolonged breakdown in hydro-electric service has effected upon the water supply for the city, the steam pumping plants being equal to every demand. At 10 p.m. Saturday, a few hours after hydro service was stopped by the breaks in the transmission line there were 30,850,000 gallons of water in the reservoir, and at 6 a.m. Sunday there were 34,260,000 gallons in the reservoir. There was no need to ask the Toronto Electric Light Company for power for the electric pumps.

AGED GUELPH RESIDENT DIES.

GUELPH, Feb. 2.—(Special).—Jas. Ritchie, who was born in Guelph Township 89 years ago, died here today. He lived on the farm for 70 years, retiring to reside in Guelph. He leaves five daughters: Mrs. David Gordon, Mrs. John Stout, Mrs. J. Hodgkinson, all of Guelph; Mrs. Geo. Lane of Fort William, Canada; Mrs. Wilson of Fergus, and one son, George of Guelph.

STOLE CUTTER RUG.

Seen by officer 100 walking along West Queen street with a suspicious looking bundle under his coat, Matthew Cuthbert, no home, was followed and arrested outside a pawnshop, and charged with the theft of a coon rug from the cutter of Ash Beard, 2490 West Queen street. Cuthbert is alleged to have stolen the rug while the cutter was standing at the corner of Front and York streets.

HELD FOR VAGRANCY.

Hugh Williams and Marie Saquin, both of Denver, Col., were arrested in Toronto last evening on a nominal charge of vagrancy. According to the police Williams left his wife in the western city and ran away with the woman under arrest. He is said to have taken away certain of his wife's possessions with him.

POSTMAN INJURED.

Arnold May, a postman, living at 43 Geneva street, was knocked down by a motor car, driven by W. G. Hough, 227 Spadina road, on St. Patrick street, near the corner of McCaul, yesterday afternoon. He was conveyed to the General Hospital with injuries to his back and thigh. He is thought to be seriously injured.

Women will find more news of interest to them in The World's magazine page every morning than in any other paper.

Sunday Snow Meant Comfort for Many

Saturday's snowstorm gave 560 men work all day Sunday at cleaning street intersections and channelling at gutters. The men were on double pay. This was quite a lift for the unemployed. At grading in the parks there are 200 men employed.

OPEN LETTER TO THE MAYOR.

Feb. 2, 1914. To His Worship Mayor Hoekens, Toronto.

Your Worship: There is a situation within our municipality so horrible, so revolting to the instincts of humanity that I feel it my duty as a citizen to make sure that it is presented to you, the chief magistrate, and that all the dwellers in Toronto may know that it has been brought to your attention. Hence this open letter. I refer to the lack of adequate provision for the care of the insane and feeble-minded.

As a trustee of the Toronto General Hospital I was confronted yesterday (Sunday) morning, with a scene which defies description. On the second floor of the medical wing, in a room designed for those who are dying, there was a woman, a woman who had gone mad. She clawed upon the door, upon the walls; she beat the breasts which should have nursed the child she bore a few days since; she moaned and shrieked continuously and had done so all thru the night; she asked for water, but to throw it in the nurse's face; she cursed and prayed, and as quickly cursed again, and called for those who perhaps had never lived. This woman will, no doubt, die and she will die because there is no place provided wherein to treat her case. She will die in "Toronto the Good," where the sound in body and mind have their souls so well looked after that to slide down hill on the Sabbath is a breach of a bylaw.

The General Hospital was built to care for the sick poor—physically, not mentally disordered—and we have no facilities to minister to such patients as I have described. Remember also, that we have not one, but several similar cases constantly under our roof. What are we to do? They have no place to go. We cannot turn them into the street. Indeed if we did, they would probably end in the jail, which is even more dreadful. There is this feature however, that one must bear in mind—these cases detract from the efficient handling of those legitimately in our charge, and an end of it must be made sooner or later.

Some months back the trustees offered the chairman of the board of health the use, without cost, of the old hospital buildings on Gerrard street, or any part of them, as a detention hospital for such unfortunate cases. Likewise measles and whooping cough. We understood at the time that the offer had been accepted, and went so far as to alter the heating arrangements to aid the desired result, but nothing was ever done by the city.

The present condition is a scar on our civic life, a disgrace to Toronto generally, and in particular to those primarily responsible. It is a horror, I submit, that must be remedied and remedied undelayed by rhetorical debate or departmental red-tape, immediately remedied as a business proposition, happily carrying with it all the sweetness of humanity to men.

Faithfully yours, Mark H. Irish.

[Editor's note: The city council appropriated money two years ago for a building for a detention home. The provincial government had then agreed to maintain the building and inmates, but has not yet been ready to carry out that agreement. The government cannot even provide accommodation for the insane now in Toronto jail. The situation has now become so intense that the board of control is pressing the government hard to provide for maintenance of a detention home. The city is ready to lease the Burnside building at the old General Hospital the moment the government will co-operate.]

CHARGED WITH BIGAMY.

BELLEVILLE, Feb. 2.—(Special).—Frederick J. Hall, aged 27 years, who has been a resident of this city but a short time, was today arrested and taken to Montreal to stand his trial on a charge of bigamy. On July 30 last at Montreal, Hall married Miss Beatrice Snulchey, aged 20, when, it is alleged, a former wife is still living. Hall was employed in the G. T. E. works here.

COLD STORAGE PLANT WOULD COST LESS NOW

Board of Control Will Be Asked to Call for Tenders.

JAIL FARM FOR WOMEN

Commissioner Chisholm Authorized by Property Committee to Buy One.

A cold storage plant in connection with the municipal abattoir was recommended to the property committee yesterday by Commissioner Chisholm. The cost would be \$86,000 if the plant would be put in now, and would cost \$10,000 more if not put in until after the building has been completed. The board of control will be asked to call for tenders for a cold storage plant.

At the request of Controller Simpson the steward of Toronto Jail will be asked to report upon the working hours of employees. The controller stated that the employees have too long working hours.

Commissioner Chisholm reported he had options on two farms suitable for a woman's industrial farm, and asked for authority to buy one of the farms. Controller O'Neill declared it a shame that 800 women should be locked up in Toronto Jail instead of being out in the air and sunlight and at work. He explained that the government is requiring of the city that better jail accommodations be provided, and that a woman's industrial farm has become a necessity. He said that the more desirable farm under option was of 200 acres, and a house which could be occupied by prisoners at once.

To Empty the Jail. "If you give me a free hand I can empty the Toronto Jail within two weeks," Commissioner Chisholm declared. He was given authority to buy a woman's industrial farm at once. It was decided to build a court house and detention home not far from the city hall, and to expend a few thousand dollars in requisiting space in the city hall, so as to relieve congestion.

Acting City Architect Price recommended that the building bylaws be amended to provide that all theatres and moving picture theatres having a seating capacity of 500 or over must be first-class, that is, must be built of fireproof brick and have concrete floors. This was adopted. The estimates for Toronto Jail are \$53,415, an increase of \$4000 over those of last year. Lights are to be placed on the poles on Windermere avenue.

HUNDRED MORE BIRTHS EIGHTY LESS DEATHS

Eugenics as a Problem Does Not Worry Citizens of Toronto.

There were 1181 births registered at the city hall last month, or over a hundred more than in January, 1913. This, doubtless, explains why interest in eugenics is limited to a small number of people in Toronto. Of marriages 498 were registered, or 81 more than in January, 1913. Of deaths 548 were registered, or 82 less than in January, 1913, altho the weather made a change from semi-tropical to polar.

SAY WOMAN PRISONERS ARE NOT PROPERLY CLAD

Board of Control Hear Deputation Behind Closed Doors—Jail Governor There.

At a meeting of the board of control behind closed doors yesterday the local council of women charged that the female prisoners in Toronto jail are not properly clad and that uncleanliness does not receive serious attention. Governor Chambers took part in the conference. The Social Service Commission was also in conference with the board. The resignation of George T. Somers was received, and his successor will be appointed at once. It was arranged that membership of the commission will be one for four years, one for three years, one for two years, and the fourth for one year. As each of the present commissioners concludes his term he will be reappointed for four years.

MEAFORD CITIZEN TO ENTER APPEAL

Claims Consent Judgment Authorizing Local Option By-law Was Illegal.

WAS NOT REPRESENTED

Justice Kelly Gave Decision Without Consulting Wishes of the Town.

An appeal by G. H. Hare, a ratepayer of Meaford, against the consent judgment authorizing the local option vote in Meaford on New Year's Day, appears in the non-jury list for the assizes this morning. Mr. Hare claims that the judgment is contrary to the statute by which a local option vote is forbidden within three years after a defeat at the polls.

The story of the case goes back to the vote in 1913, when the supporters of the bylaw lost out by a small margin. Fraud was hinted at and Justice Kelly of the supreme court gave a consent judgment, in which J. P. Haveron, represented the hotel keepers and W. E. Raney appeared for the temperance interests. A new vote followed in January of this year, and the bylaw carried with the necessary majority. The municipality was not represented before Justice Kelly, altho warned of the arrangement. The petition of the plaintiff is that he as a ratepayer was not represented and that the vote should not have been taken.

The license department will probably be represented at the trial.

MORE MONEY IS NEEDED BY SALVATION ARMY

Additional Five Hundred Dollars Subscribed Will Finance Work of Poor Relief.

Seventeen thousand meals have so far been provided by Major Fraser and his staff of Salvation Army workers to the unemployed at the Army Temple on Albert street; 3127 men accepted the invitation to sleep on the floor in one of their halls. Destitute families were provided with 275 baskets of food during January, and 1515 pieces of clothing were given away. Major Fraser estimates that in order to provide these meals and the night refuge \$1000 will be needed. Five hundred dollars has already been subscribed, made up mostly of small amounts.

MAY RE-SUBMIT BYLAW.

ST. CATHARINES, Feb. 2.—(Special).—The bylaw to grant a fixed assessment and free gift of site to the Consumers' Rubber Co., which was defeated last week with the Canadian Northern bylaw, will very likely be revived in response to a feeling on the part of many citizens that it would not have been lost had it not been submitted at the same time as the railway measure. Mayor Pettie has consented to a second submission of the bylaw, and will council to take up the reconsideration if sufficient ratepayers so request.

Just One More Woman Rises

To Tell Her Sisters They Can Find Relief in Dodd's Kidney Pills.

Mrs. John Cabot, After Six Years' Suffering, Tried Dodd's Kidney Pills and Found New Life and Energy.

WHITE HEAD PERCE, Que., Feb. 2.—(Special).—One more woman has risen to tell her suffering sisters they can find relief in Dodd's Kidney Pills. That woman is Mrs. John Cabot, well known and highly respected here, and she expresses her enthusiasm in these words: "I certainly recommend Dodd's Kidney Pills. There is nothing better." Asked to give her experience, Mrs. Cabot continued: "My trouble started in a cold, and I suffered for six years. Rheumatism, neuralgia, stiffness of the joints, cramps in the muscles and heart flutterings were among my symptoms, and finally Bright's Disease developed. It was then I started to use Dodd's Kidney Pills, and they helped me almost from the start. After taking four boxes I feel like a new woman." Dodd's Kidney Pills cure the kidneys. Healthy kidneys strain all impurities and poisons—all the seeds of disease—out of the blood. Dodd's Kidney Pills not only cure the disease but by ensuring good blood give new life and energy to every part of the body.

FOURTEENTH REGIMENT'S NEW COMMANDING OFFICER

Major Hughes Succeeds Lieut.-Col. Cunningham—Third of Family to Attain Elevation.

(Special to The Toronto World) KINGSTON, Feb. 2.—Major W. St. P. Hughes, who a month ago was appointed inspector of penitentiaries and removed to Ottawa, will succeed Lieut.-Col. A. B. Cunningham as officer commanding the 14th Regiment. A brief command for a term of a few weeks has been arranged. Major Hughes served in the 14th for a number of years. His elevation to the rank of lieutenant-colonel will complete a trio in the family. Col. Sam Hughes, minister of militia, and Lieut.-Col. John Hughes, having both commanded the 4th Regiment. Major Hughes was seconded as brigade major of the 7th Infantry Brigade, December, 1909, and his term was extended to September of this year. It is likely that he will request to be seconded again in a few weeks' time. Major H. J. Dawson, next senior, will carry on and succeed to the command of the 14th.

YAQUI ON WARPATH.

DOUGLASS, Ariz., Feb. 2.—(Can. Press).—After several weeks of quiet Yaqui Indians were again raiding ranches in the vicinity of Ures, Sonora, according to reports which reached here today. Several Mexican freighters have been killed near Ures, it was stated, and the inhabitants of that region are practically defenceless.

RELEASED CONVICT DEPORTED.

KINGSTON, Feb. 2.—(Special).—On his being released from the penitentiary, Salvatore Albano, an Italian, 25 years of age, was taken charge of by P. Devlin, immigration inspector, for deportation. Albano finished a term of two years and a half for wounding with intent to kill.

MONTREAL TRAIN DELAYED.

A delay of more than three hours was occasioned the Grand Trunk train from Montreal last night by the breaking of the cylinder of the engine some distance from Belleville. It was found necessary to back the train up to a point where another engine could be secured.

SCHOOL TEACHERS GO ON A STRIKE IN BRITAIN

Want a Minimum Yearly Salary of Five Hundred Dollars.

LONDON, Feb. 2.—(Can. Press).—A strike of elementary school teachers, the first of its kind in the British Isles, was in full swing in the County of Hereford today. Eighty out of the 130 schools under the jurisdiction of the county council were closed, and the teachers declare that they will remain closed until they gain their demands, which are for a minimum salary of \$500 per annum, instead of the \$450 they receive now. On the other hand, Sir James Rankin, chairman of the county education department, has declared a policy of "no surrender." The National Union of Teachers has guaranteed its members who have gone on strike their full salary for a period of five years, and the determination of the teachers has been greatly strengthened by this action. Many thousands of children stayed away from school today with the prospect before them of a prolonged vacation.
