FRENCH AND GERMAN AVIATORS FOUGHT BATTLE OVER PARIS

Turkey Declares War on Russia and Mobilizes 500,000 Men

TWO LARGE AUSTRIAN ARMIES DEFEATED AT LEMBERG AND JEDAR

TURKEY DECLARES WAR WITH 500,000 TROOPS READY TO TAKE FIELD

BRITISH CAVALRY TAKE GUNS AFTER DRIVING ENEMY BACK FRENCH GAINS IN LORRAINE

First Move Will Be Directed at Russia and Britain, When One Army Will Be Sent to Caucasus and Another to Egypt.

Special to The Toronto World.
WASHINGTON, Sept. 2.—With 600,000 troops mobilized and ready for instant action, Turkey has declared war on the allies. Authentic word to that effect was received here today.

The same authority declared the first move of the Turkish campaign would be directed simultaneously against Russia and England. A flying army would be sent into the Caucasus to strike the Russians on their flank and rear, the other army would go directly to Egypt.

"Turkey has struggled against giving up its neutrality," said a diplomat, friendly to the Turkish program tonight. "But she realizes that the present struggle, so far as she is concerned, is only the beginning of a greater and more devastating struggle among the nations of Europe. In the struggle she would have everything to lose, whether the allies won or Germany and Austria were victorious. Therefore, she must defend her own hand."

CANADIAN TROOPS PICK OF COUNTRY

Y. M. C. A. Official Never Saw Cleaner Crowd Than That at Valcartier.

The Y. M. C. A. has now a staff of thirty men working at Valcartier camp and has also a canteen, barber shop, moving picture hall and postoffice in operation there. A representative of the association said last night that this camp was about the biggest proposition of the Y. M. C. A. in Canada had ever handled. A supply of thirty-thousand sheets of note paper at the association stand, for instance, lasts only about four days, and its post-office sells \$600 to \$700 worth of stamps a day. The canteen did much to keep down prices of foods owing to the exorbitant demands of the dealers. A camp order regulates food prices and the Y. M. C. A. was only asked to cut the price of one article.

The sanitary department is very careful about the milk supply, and soldiers are permitted to use only the condensed article at present.

As to the character of the men, "They are the cleanest crowd I have ever seen," said a Y. M. C. A. official who has just returned to Toronto from a visit to the camp. "There is no drinking and the soldiers are all happy and cheerful."

Famous Play Coming.

That magnificent Arabian Nights play, "Kismet," that thrilled large audiences here two years ago, will come to the Princess Theatre again next week. Seats may be obtained now, as the advance sale opens this morning at the theatre box office.

NOBBY STYLES IN SOFT FALL HATS AT DINEEN'S.

"Better and smarter than ever" is the comment of men who are good judges, after looking over the great display at Dineen's, 140 Yonge street.

The variety of crown hapes is more varied than usual, making it possible for every man and young man to get a style suited to his personality—if the display is as extensive as Dineen's.

Dish-shaped brims and broad bands are the vogue, with a most delightful choice of colors in the hats and bands—the latter contrasting and self-matching. You'll readily realize that a visit is necessary to properly weigh up the most becoming hat for you, priced \$2.50 and \$3.00. Stiff hats by best makers are shown in a big range at from \$2.50 to \$5. You should select early while lines are complete.

British Guns Shattered Close Lines of Germans

LONDON, Sept. 2, 3.20 p.m.—One of the 800 British wounded who arrived at Southampton today was a gunner who was stricken blind while tending his gun. He said the Germans came up in closely packed lines and that the British guns simply slaughtered them. He estimated that through the long hours the fighting was in progress before blindness overtook him thousands of Germans had fallen.

German Socialists Tried To Draw Italy Into War

ROME, Sept. 2.—(Via Paris, 3.15 p.m.)—The German Socialist deputies, Hugo Case and Albert Sudekum, came to Italy in an effort to induce the Italian Socialist party to use their influence to have Italy join Germany in the war. The mission failed, and the Italian Socialists have now published a protest against what they described as a "betrayal of the dignity of Italy." They also express the hope that if a cessation of hostilities is impossible, the "infamous war will crush those who provoked it."

Ottawa Will Organize New Engineering Corps

OTTAWA, Sept. 2.—The executive of the engineering society in Ottawa has called a general meeting to take steps to organize a new engineering corps here. There are a large number of young engineers in the various departments of the government's service, many of whom have belonged to engineering corps at the various Canadian universities. It is believed therefore that there will be no trouble in forming a new corps in Ottawa. The men will get into training, and no more volunteers are required for the engineering corps of the first contingent, some will be ready for later contingents, and at any rate, all would be ready for service in Canada.

AUSTRIANS BEATEN BOTH BY RUSSIANS AND THE SERVIANS

Decisive Battle of Jedar Ended in Defeat of 200,000 Men, While 10,000 Were Killed, 20,000 Wounded, and 4000 Taken Prisoners.

MONTEGRINS ALSO VICTORS.

CETTINJE, Sept. 2, 3.20 p.m.—(Via London).—Alto numerically inferior, the Montegrins have defeated the Austrians near Bilek in Bosnia. Gen. Vokovitch, according to the announcement, has taken the offensive and is marching on Tchaintich in pursuit of the Austrians.

NISH, Serbia, Sept. 2.—(Via London, 9.15 p.m.)—An official statement issued today gives new and fuller details of the battle of Jedar. The Austrian force, it says, was composed of 200,000 men and held a favorable position. By its retreat it admitted defeat. The Austrians left on the field of battle 10,000 dead and more than 20,000 wounded.

"Altogether," continues the statement, "40,000 of the enemy were placed hors de combat. We have sent to the interior more than 4000 men whom we took prisoners and have captured 60 guns, much ammunition, the material for the construction of a 600-metre bridge and a train."

"The battle was of great importance, because it was decisive. The enemy retreated to Santzek."

Berlin Closely Guarded

LONDON, Sept. 2.—A despatch to the Central News from Amsterdam declares that Telegrams received there from Berlin set forth that the German capital is being guarded by several army corps.

Peaceful Peasants Met Horrible Fate, Altho They Had Hoisted White Flag, of Which Enemy Took No Notice—Terrific Fighting—British Regiments Did Wonderful Thing.

PARIS, Sept. 2, 11.30 p.m.—A fight in the air over Paris took place this evening. Three German aeroplanes hovered over the capital, and immediately two French machines were sent up to engage them. Meanwhile machine guns mounted on public buildings and rifles kept up a constant fire. By this means one of the German machines became separated from the others and the French aviators flew swiftly in its direction.

The Germans opened fire, to which the Frenchmen replied vigorously. The engagement seemed to turn to the disadvantage of the German, who mounted speedily to a higher level, and, holding this position, was saved from further attack. He finally disappeared in a northward direction over Fort Romainville after a vain pursuit.

The other German aeroplanes also escaped the fire of the guns, and, after circling about for a considerable time, disappeared from view.

Germans at Brussels Make Ready for Siege

PARIS, Sept. 2, 10.45 p.m.—A despatch to the Havas Agency from Ostend says that The Independence Belge of Brussels is authority for the statement that the Germans are fortifying the environs of Brussels and that the cemeteries have been transformed into redoubts.

GERMAN AEROPLANES CHASED FROM PARIS

Two French Aircraft Started in Pursuit of Three of the Enemy's Airships and Shots Were Exchanged—Germans Forced to Beat a Retreat.

Germans Fired Woods Filled With People

Peaceful Peasants Met Horrible Fate, Altho They Had Hoisted White Flag, of Which Enemy Took No Notice—Terrific Fighting—British Regiments Did Wonderful Thing.

BOULOGNE, Monday, Aug. 31, via London, Sept. 2.—Monday afternoon St Quentin is raging with battle. Heavy fighting began here Saturday, and continued yesterday and was recommenced at dawn this morning in a dense wood between St. Quentin and Laferre, where a number of people had taken refuge, peaceful peasantry for most part. The wood was raided by a band of German cavalry, and the white flag was hoisted on the outskirts, it was not taken the slightest notice of. The undergrowth was as dry as tinder when the order was given to fire it. This was done, and in a few moments the wood was one huge raging fury of flame, roaring madly.

Priest Tells Story. A priest of the Red Cross, who had struggled thru from this desperate neighborhood, told me this tale in the gray hours of dawn this morning.

"What happened to the people there?" I asked.

"What happened the good God alone knows," said he, as the memory of it drove tears in torrents down his honest face.

I was out very early today on the road to Aberville, and before I was turned back I heard the clamor of fighting around St. Quentin. High overhead in the sweeping mist I heard the wispish hum of an aeroplane. It was flying southward.

Wonderful Achievements. Telegrams published this afternoon in Boulogne report, as I have already mentioned, the fierce fighting around St. Quentin. The Highland regiments, and particularly the Argyle-Sutherland, who came fresh into the fight the other day, are reported to have done a wonderful thing with that dauntless courage which has ever marked their fighting, and which will add fresh laurels to the monument of their splendid bravery in face of appalling odds. Their loss has been heavy, but they have been able to give even more than they received.

French Capital Transferred From Paris to Bordeaux

PARIS, Sept. 3, 12.02 a.m.—A proclamation has just been issued by the government, announcing that the government departments will be transferred temporarily to Bordeaux.

The proclamation was issued by the minister of the interior who said the decision had been taken solely upon the demand of the military authorities because the fortified places of Paris, while not necessarily likely to be attacked, would become the pivot of the field operations of the two armies.

The building of supplementary defence works is proceeding vigorously. Several of the gates of Paris were closed to traffic last night.

KILLED HUNDRED CHILDREN.

PARIS, Sept. 2, 6.56 p.m.—(Via London).—A despatch from Petrograd (St. Petersburg), says The Novoe Vremya charges that during the bombardment of Belgrade the Austrians destroyed a maternity hospital over which the Red Cross flag was flying, killing 100 children.

Russians Admit Defeat in East Prussia, But Have Administered Crushing Blow to Austrians—British Won Distinction in Engagement Which Continued All Day—Russians Took Thousands of Prisoners at Points of Bayonets—Rumor That Japan Is Sending 100,000 Men to Join the Allies in France—Revolts Reported From Austria—Germans and Austrians Occupy Lodz.

LONDON, Sept. 3.—(12.10 a.m.)—The official press bureau has issued the following statement: "Continuous fighting has been in progress all along almost the whole line of battle. The British cavalry engaged with distinction the cavalry of the enemy and brushed them back and captured ten guns. The French army has continued the offensive and gained ground in the Lorraine district.

"In other regions of the war the Russian army is investing Koenigsberg. The Russian victory, which is complete, at Lemberg has already been announced."

RUSSIANS MEET REVERSE.

LONDON, Sept. 2.—(6 a.m. Delayed in transmission)—A Times despatch from Petrograd (St. Petersburg), filed on Tuesday evening, says: "Army headquarters today reports that, thanks to their highly developed railway system, very superior German forces concentrated from all parts on the front and threw themselves against two of our army corps. These were exposed to an extremely violent fire from the big guns, which inflicted large losses.

"According to the reports received here, our troops fought heroically. Generals Samsonoff, Martos and Pestich and several staff officers have fallen. All possible measures to amend this distressing event are being taken. The commander-in-chief, adds the headquarters report, as before, trusts that God will help us to carry out our plans successfully.

"On the Austrian front a stubborn fight continues."

THREE MILLION MEN LOCKED IN STRUGGLE.

LONDON, Sept. 2.—Three million men are now locked in a death struggle over a 300-mile front from Prussia to the Dnieper River. Advances from numerous points assert that today's fighting will decide in whose favor the great conflict will terminate.

The fighting has been fast and furious for seven days in the vicinity of Lublin, in Russian Poland, and of Lemberg, the capital of Austrian Galicia, which has now been invested by the Russians. Reports of the battle before the fortifications of Lemberg say that the fighting was terrific, and that the Austrians finally fled in disorder, leaving considerable artillery in the hands of their enemy. Before the fortifications were seized by the Russian troops, however, the provincial government removed the state archives and gave instructions to the burgomaster regarding the conduct of the city after the enemy should take it.

Lemberg has a population of about 160,000, and is the seat of an important university, in addition to being the capital of the crown land.

LODZ IS OCCUPIED.

German and Austrian troops are reported to have occupied Lodz, the largest manufacturing city in Russian Poland, having a population of about 315,000. The French are said to have abducted a number of women and children from the German front.

Russian atrocities are reported in East Prussia. The Germans deny that Koenigsberg has been invested.

GERMANS ARE INDIGNANT.

The Germans declare that German soldiers are returning from Belgium horribly mutilated, and indignation runs high at Berlin that the Belgians should try to induce the world to believe that the German soldiers are the authors of atrocities. They assert that London and Paris, the accomplices of Belgium in the alleged false stories, are "endless liars."

According to despatches, the Russians operating against the Austrians are in a position to administer a decisive defeat, and to assume the offensive at once after pushing back the enemy. The advantage thus far is reported to be in favor of the czar's troops.

RUSSIANS TAKE 30,000 PRISONERS.

The Russians seem to have swept aside the left wing of the Austrian army by furious bayonet charges, and to have captured about 30,000 prisoners. The Russians are said to be in force in the region of Danzig, their line extending, according to one report, thence south to Thorn, the important Vistula fortress.

Despatches say that the allies' lines on the French left are engaged in a long line, reaching from Montdidier to the forest of Compiegne, with the hottest fighting in the region of Montdidier, where the German infantry is assembled in great force.

Montdidier is on the line of the Paris to Boulogne railway, in the Department of the Somme. The great forest of Compiegne extends east and south of the City of Compiegne, which is only a little over forty miles from the fort ring around Paris.

BRITISH TOOK TEN GUNS.

An official statement from the French War Office says in substance: "A German cavalry corps, advancing toward the forest of

AUSTRIANS LEFT 15,000 DEAD AFTER DEFEAT BY RUSSIANS

Compiegne, on the left wing of the allies' forces, engaged the English troops yesterday. The English captured ten guns.

Still another statement, made authoritatively, says that the turning movement of the French left before the superior numbers of the German right wing continues. The communication further states that the French are slowly advancing in Lorraine, in the vicinity of the Vosges, and making progress in the vicinity of the Meuse.

The Kaiser is using every available soldier in the battle line on the right wing which is attacking the French left wing, but the rear of the German line into Belgium is now unguarded. It is asserted that two defeats of German forces at the extreme front have considerably weakened the German offensive.

FOR DEFENCE OF BERLIN.

Several German army corps are known to have been assigned to the defence of Berlin against the Russians.

The conflict at Compiegne discloses that the Germans have pushed to within about 45 miles of Paris.

A report says that Turkey has declared war on Russia. St. Petersburg (Petrograd) despatches also state that Turkey is ready to war on Greece, and admits the mobilization of an army of 500,000.

JAPAN SENDING 100,000 MEN?

DIRECT Copyrighted Cable to The Toronto World.

SHANGHAI, Sept. 2.—That Japan is loading fifty transports with 100,000 troops at Nagasaki, whose destination is Marseilles, is the report given by advices here today from Japanese ports. The Japanese consul here is reticent about discussing the subject.

15,000 AT LUNGKOW.

DIRECT Copyrighted Cable to The Toronto World.

PEKIN, Sept. 2.—Eighteen transports carrying between 10,000 and 15,000 Japanese troops are said to have reached Lungkow, a port 100 miles north of Tientsin. The claim is made that this is in violation of China's neutrality.

BRITISH STEAMER CAPTURED.

Special to The Toronto World.

SAN FRANCISCO, Sept. 2.—Shipping circles have received a report that the German cruiser Leipzig has captured the British steamer Cetriana, off the coast of Mexico. The report says the Leipzig took off the Cetriana's entire supply of coal and provisions.

REVOLTS IN AUSTRIA.

DIRECT Copyrighted Cable to The Toronto World.

AMSTERDAM, Sept. 2.—The newspapers of Antwerp report that revolts have broken out in several Austrian districts, and that several German army corps are guarding Berlin.

The outbreak of revolts in Austria may result from the defeat of the Austrian troops at the hands of the Russians. It was pointed out in a Central News cable despatch that Austria was staking her all on the victory over the czar's forces. A defeat, it was emphasized, would mean the disruption of the dual monarchy.

The fact that Berlin is being guarded by several army corps shows plainly that the Kaiser's government anticipated an advance of the Russians to the Teutons' capital.

FIFTY JAPANESE IMPRISONED.

DIRECT Copyrighted Cable to The Toronto World.

TOKIO, Sept. 2.—A statement was issued by the foreign office today, saying that on the expiration of the Japanese ultimatum the German authorities imprisoned fifty Japanese on the ground that such action insured their protection. The Japanese charge d'affaires received permission to see the prisoners from the civil authorities, but the military officials turned him away.

It is also charged in the foreign office statement that the train on which the Japanese ambassador left Vienna was the object of a bombardment of stones thrown by the members of an Austrian mob.

COLON AND ANCON IN U.S. CONTROL GERMAN BARON UNDER ARREST

Treaty Also Confers Other Valuable Rights in Panama Zone.

Von Horst Accused of Trying to Spread Seditious Irish.

Canadian Press Despatch.

PANAMA, Sept. 2.—An important treaty, by the terms of which the United States gains control of the waterways of the Colon and Ancon, together with certain other valuable rights, was signed today by William Jennings Bryan, the American minister, and Ernesto T. Levebre, Panama secretary of foreign relations. The new convention has been under negotiation for the last four years. Early last year the negotiations were broken off by Panama because it then seemed impossible to bring the two governments into accord.

The instrument replaces what has been known as the Davis agreement of June 15, 1904, in which the boundaries of the canal zone were tentatively fixed, with the understanding that a future formal treaty would fix the delimitation permanently.

CROWN ATTORNEY WAS AMONG LEGAL SQUAD

One Hundred and Twelve Men Turned Out to First Osgoode Hall Drill.

Several of Toronto's most prominent lawyers found time yesterday afternoon to visit the armories and take part in the first drill of the Osgoode Hall Rifle Association. Crown Attorney Grier was there and Hugh Rose and A. W. Anglin. Altogether 112 men and were drilled by Sergt.-Major Campbell, assisted by Capt. A. A. Miller of the O. H. A. Sergt.-Major Davidson of the Highlanders and A. D. Armour, Q.O.R. Judge Denton sent word that he could not come because of a court appointment at a distance from the city, but would be on hand in future. The association will drill again tomorrow afternoon at 5 o'clock and the regular drilling hours are announced as Tuesday at 8 and Friday at 5. A musketry class under Lieut. Cameron will meet at the armories on Friday evenings at 8 o'clock. Practice hours at the ranges are being arranged. The application lists are to be seen at the offices of Judge Denton, at the court of appeal and at the offices of Capt. Ardagh. Lawyers, clerks and law students are eligible.

DEATH OF MRS. MARSH. COBOURG, Sept. 2.—A former Campbellford resident, Mrs. H. E. Marsh, 68, of Roland, Man., was accidentally drowned near Minaki. She was the widow of Rev. H. E. Marsh, formerly an Ontario Methodist clergyman.

MAJOR BOND KILLED IN WAR. LONDON, Sept. 2.—Major Bond of the Yorkshire Light Infantry, a brother of the mayor of Bath, has been killed in action. The mayor of Bath lost his nephew, the master Gedge, in the Amphion disaster.

Aerial Bombardment Does Little Damage

Second Attempt on Antwerp Demonstrates Futility of This Method of Warfare—Bomb Only Killed Fish in Pond—Belgians Drove It Off With Rifle Shots.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Sept. 2.—Charles Hodson, the Central News correspondent at Antwerp, has telegraphed that the second aerial bombardment of that city by a Zeppelin airship, early today, has only demonstrated the futility of that method of making war from a military standpoint. No damage of any serious importance was done.

Mr. Hodson continues: "I was wakened by the rattle of rifle shots from the neighboring roofs, the half light being interspersed with the loud roar of the exploding bombs let down from the airship. The marksmen on the roofs were endeavoring by every means in their power to hit the aerial visitor."

"It is estimated that about 15 bombs in all were dropped.

"The Belgian gunners claim that they hit the airship, and it is even reported that she dropped near Villeford, just inside the German lines."

In a supplementary cable Mr. Hodson says: "Some of the bombs dropped by the Zeppelin cost the lives of a thousand fish, for they exploded in a famous fishing pool. The surface of the water was thick with the dead fish, which, apparently, were cheap in Antwerp today."

"From the report received by the authorities, seven persons were injured by the fragments of glass and other debris scattered about. One entire family in a house which was destroyed by a bomb was saved because, proceeding by the first Zeppelin visit, they were sleeping in the cellar."

FOUR HUNDRED MEN TO HOLD BERMUDA

That Many Will Be Selected at Camp to Join Regulars There.

RUSH OF VOLUNTEERS

Nearly Thirty-Two Thousand Men Under Canvas at Valcartier.

Canadian Press Despatch.

VALCARTIER CAMP, Que., Sept. 2.—To bring the Royal Canadian Regiment up to war strength 400 men will be selected from this camp and immediately sent to Halifax and then to Bermuda to join the regulars there, who up to a few days ago were stationed at different points in Canada. Orders were sent out today for men, and as a result over 2000 troops gathered at headquarters tonight.

Their names were taken, and 400 of them will be called upon to report tomorrow. At the early morning parade of all regiments in camp officers requested those who wished to go to Bermuda to step out of the ranks. There was a great response. Many were ex-service men, anxious to join the regulars who, they think, will go to the front before the regulars.

In a supplementary cable Mr. Hodson says: "Some of the bombs dropped by the Zeppelin cost the lives of a thousand fish, for they exploded in a famous fishing pool. The surface of the water was thick with the dead fish, which, apparently, were cheap in Antwerp today."

"From the report received by the authorities, seven persons were injured by the fragments of glass and other debris scattered about. One entire family in a house which was destroyed by a bomb was saved because, proceeding by the first Zeppelin visit, they were sleeping in the cellar."

"Twelve Bombs Dropped."

"It is estimated that about 15 bombs in all were dropped.

"The Belgian gunners claim that they hit the airship, and it is even reported that she dropped near Villeford, just inside the German lines."

What Stock-Watering and Speculation Have Done to North America

Again we come back to the financial situation in the United States because the lurid light that flames in that quarter is a beacon for our own guidance as well as a sign of what more or less prevails in Canada. As was pointed out in these columns yesterday, an unparalleled financial cyclone has struck the great republic, caused, they say, over there, by the European war. We do not say that the war caused this condition, but rather that it uncovered it. What is that condition? Two astounding things, but now admitted: First, what has happened there and also happened in Canada, viz., that billions of the profits of the American people, out of real-estate, manufacturing, in merchandising and especially in farming throughout the whole of the Mississippi Valley—and the Mississippi Valley has the most fertile land in the world and produces the greatest variety of high-class products—the savings of many people, accumulated in various ways, have gone into speculation in Wall Street and millions that it cost to support Wall Street every year: highways and high living, trips to Europe, spending money like water, has characterized the men who operated in Wall Street; all these extravagances have been paid for out of the profits of business men and the products of the Mississippi Valley.

That money has gone, never to return, and it has not to be accounted for at the present time; except of course, in cases of those who had open accounts at the time the stock exchange closed and who thought they had big surpluses at their credit.

But even worse than this first loss, is what was pointed out in these columns yesterday: that the great bulk of the savings of the people in many of the insurance companies, and especially the great big ones, the savings on deposit in banks (excepting always the savings banks which are limited to investments on mortgage) and a lot of money in the trust companies and the money accumulated in various other loaning concerns, the great bulk of all this money, including the paid-up shares in the companies aforementioned, has been lent on the security of water-logged stocks in the companies mentioned, and which today are not worth stocks that have been issued in the United States, and which today are not worth a quarter of their face value; and in these we include the shares of railways, many industrial, public service propositions, and other concerns into the securities of which water could be freely injected. These loaning concerns took these stocks as collateral. But more are now actually held because the borrowers have abandoned them, leaving them in the hands of the loaning companies and refusing any longer to pay interest!

These facts have been known to the management of the loaning concerns, they have feared to make confession to shareholders and depositors; newspapers and public men who knew of the facts were afraid to divulge the truth; instead, however, the managers who had made the loans and their friends in the financial and public press have been going about impugning the government not "to interfere with business," as they put it, by a public regulation; and above all, impugning the government and the interstate commerce commission, to put up railway rates so that the railway securities left on their hands, might be worked off on the so-called farmer who is growing crops and stock in the Mississippi Valley, or on the man who is making some kind of profit in business!

Before many days these conditions will have to be faced, and the facts will have to be made known. To our mind, there is nothing left but for the truth to come out, and as a consequence for a reevaluation of all these water-logged securities to take place and the loss distributed among the shareholders, depositors, and beneficiaries of the concerns who unfortunately lent their money on them! Congress and the president have been dreading every day to help in some way to put this load on the general public! Neither president, nor congress, nor newspapers have any justification for such action. Congress will not let the reevaluation go on, no matter what the result may be and until that takes place, financial chaos must reign in the United States!

Nor can Wall Street ever be allowed to reopen, nor that it has closed, until it is put on a reasonable basis, limited to actual investments; not only that, congress must intervene and prohibit hereafter the use of trust funds in banks and other concerns from being loaned in the whirlpool of speculation that has centred in Wall Street now for many years. We have no desire to be alarmists and yet one has only to read the American papers and talk to Americans who are just to learn that what we say is substantially true.

Many of these things have taken place in Canada. We believe that over a billion dollars of money during the last few years, made up of profits on real estate, profits on manufacturing, profits on farming and merchandising, have gone largely into Wall Street in this country; and during this very year, millions and millions of good Canadian money has gone there, never to return. Yesterday a woman called at The World office who had put several thousands of dollars into railway shares in Wall Street and every cent is lost. Her money was in a bank in Toronto and a little account of a widowed friend of hers of a thousand dollars was borrowed and used after the first investment! Both of those accounts have been absolutely depleted; and what is true in this case, is true in thousands of other bank accounts in Canada. Men who were rich and thought themselves well off for the rest of their lives, in Toronto, Montreal, and other cities and towns, are today with hardly a dollar and are in debt because of speculation on the stock markets; and what is equally to be regretted, and what we would consider should be against the law of this country, is that the banks of Canada have made large use of the money entrusted to them in upholding this speculation! We have \$200,000,000 of accumulations in the Canadian banks on call loans in the States and in Canada, and what is true in the States is true here, namely, that this money cannot be got in at the present moment. This two hundred millions for the use of Canadian trade today would be an enormous aid to our people.

What they must do in the States, we will have to do in Canada; put a strict limit to stock speculation and put it in the bank act, that the savings of a Canadian people in banks are not to be put on call loans, except on very special conditions to be defined in the act. If that billion of dollars that we have poured into Wall Street within the past few years were back in our banks, and if the \$200,000,000 we have lent on call were back here, what a different country this would be in the present crisis! Of course it will be said that men must be allowed to do with their own money, leave it where it is; it is just as safe in any other bank for the government has guaranteed that deposit, at least to the extent of the note circulation of the bank; and all depositors are in the same boat and must sink or swim together."

No matter how the war may go, and we hope that before a great while, a successful termination to it

BRITISH LAST MAJOR OFFICERS FIGHTING NEAR LEMBERG

Many British Officers In List of Casualties

In Cavalry Brigade and Three Infantry Divisions 36 Were Killed, 57 Wounded and 95 Missing—Many of the Missing Are Wounded Who Have Been Sent Down Country.

Canadian Press Despatch. LONDON, Sept. 2.—The official casualties suffered by the cavalry brigade and of three of the divisions, less one brigade of the British force in France, follows: Killed—Thirty-six officers and 127 men. Wounded—Fifty-seven officers and 639 men. Missing—Ninety-five officers and 4188 men. This report was received in London from the headquarters in France of the expeditionary force. As regards the men, as distinguished from officers, it is known that a considerable proportion of the missing were wounded men who had been sent down country and of whom particulars were not available at headquarters. In the missing are included those who have not been accounted for, and the list of missing may comprise prisoners, men not wounded and stragglers, as well as casualties.

"To the Victors Belong the Spoils"

Bringing in the impedimenta discarded by the Germans. The above picture was taken at the conclusion of a very hotly contested engagement between the German and Belgian troops. The Germans were defeated in this particular engagement with very heavy losses in order to lighten their load, when fleeing from the pursuing Belgians the Germans threw away haversacks, greatcoats, rifles, and even mess tins. These were gathered afterwards by the victors and brought into the Belgian headquarters for use among the Belgian troops.

German Headquarters Gone From Coblenz

Canadian Press Despatch. LONDON, Sept. 2, 12.55 p.m.—In a despatch from Amsterdam the correspondent of the Reuter Telegram Company says that the German military headquarters, which until last Sunday were at Coblenz on the Rhine, have been removed to an unknown destination. Before their departure Emperor Wilhelm caused to be published a proclamation thanking the inhabitants for their patriotism and expressing his pleasure that Coblenz has been chosen as the first headquarters during the war.

CONFIDENT SPIRIT SHOWN AT PARIS

People Assured That City is in No Serious Danger From Invaders.

Canadian Press Despatch. LONDON, Sept. 2.—"With the Germans so near there has not been a day in the last month when Paris presented the appearance of such complete calm," says the Paris correspondent. "The Chronicle. 'More shops are open and rows of chairs have appeared before the chief cafes. The possibility of a German raid is very slight. Solitary fortresses may perhaps be masked, but the attempt to cut down the Oise valley towards Soissons and Paris is a trivial raid, without first routing the masses of the army, its madness. 'We may assume therefore that if the Germans have faced eastward and turned their backs on the British and other forces gathering in Picardy (an old province in the north of France, but now forming the department of Somme and part of the Pas de Calais and Aisne) they must either win an immediate victory or risk being caught between the hammer and the anvil. If they win they will still have to meet other armies, including the large garrison army.'

RUSSIANS MEETING STUBBORN DEFENCE

St. Petersburg Reports Do Not Attempt to Disguise Real Situation.

Canadian Press Despatch. LONDON, Sept. 2.—Telegraphing from St. Petersburg, the correspondent of The Times declares that the war reports given out by the headquarters staff in the Russian capital are generally rather meagre, but in contrast with what is the case in Berlin and Vienna, they are always true. Up to the present time they have had nothing to announce but a series of victories. That the headquarters will stick to this plan also when the news is bad is proved by the announcement of today. This attitude shows their confidence in the fortitude and staunchness of the Russian people, which undoubtedly is deserved, and augurs well for the future. The wording of today's announcement indicates that other Vistula fortresses besides Graudenz and Thorn have been sent reinforcements. The news arrived last night and the people of St. Petersburg received it with firmness. Their faith in a final Russian victory remains wholly unshaken. The correspondent of The Times says that the information given out at headquarters in St. Petersburg indicates that the Russians, in spite of the Austrian stubborn defence, will probably more than 1,000,000 are engaged.

GERMANS "OUT OF BREATH"

Canadian Press Despatch. PARIS, Sept. 2.—Commenting on the war situation today, The Temps says: "It is not the few troops which the Germans can push ahead that can besetle Paris. The important point is the centre, where we perceive a hesitation. The German troops are out of breath, and one of their army corps has been transferred toward their eastern frontier. It is probable that we have in front of us on the centre forces diminished by fatigue, by our fire and by withdrawals to reinforce the East Prussian army. 'In any case our contingents have had their vacancies filled and their ammunition replenished; while the enemy is encountering great difficulty in getting supplies.'

LIEUT. DENISON FELL IN BELGIAN CAMPAIGN

War Horror Brought Close to Toronto by Message, "Bertram Killed."

Many circles in Toronto are stirred to deepest sympathy at the receipt of a cablegram yesterday, stating that Lieut. Bertram Denison, nephew of Col. G. T. Denison, and well-known young man in the city, had been killed in a military engagement in Belgium. Lieut. Denison, whose father is Admiral John Denison, was a promising officer in the Yorkshire Light Infantry, and had been specially honored recently by the war office. He was in Toronto but six weeks ago visiting friends and relatives. The wire gave no details, merely stating "Bertram killed in action." He was 34 years old, and while he was born in England, had spent much of his time in Canada. He was on the staff at Niagara Camp a few years ago. He served thru the South African war as aide-de-camp of the commander of the naval force. Four years ago he married the daughter of Mr. Albert Nordheimer of 97 St. George street. There is one child, Yvonne. It is expected that Mrs. Nordheimer and her daughter will now return to Canada. Lieut. Denison was a nephew of Col. Septimus Denison of Montreal, Col. Clarence Denison and Col. G. T. Denison of Toronto. He has three sisters and one brother in England. His mother was a Miss Leydard of an English family.

GERMAN STEAMER REPORTED TAKEN

Kronprinz Wilhelm Believed to Be Prize of British at Bermuda.

Canadian Press Despatch. NEW YORK, Sept. 2.—Sir Courtenay Bennett, British consul-general in this city, announced this afternoon that he had been informed by a trustworthy friend that the North German Lloyd steamer Kronprinz Wilhelm had been captured in nearby waters by the British fleet of cruisers and taken as a war prize to Bermuda. His information, he said, had not been confirmed, but he thought it to be true. The Kronprinz Wilhelm sailed from New York with darkened lights and all the coal she could get aboard on the night of Aug. 3, a day or so before the declaration of war between Germany and Great Britain. She has not yet been reported as arriving at any port. The impression prevailed at the time of her departure that her mission was to furnish coal to German cruisers in the North Atlantic. The British cruiser Suffolk, coaling at Halifax, ten days or so later, reported that she had sighted the Kronprinz Wilhelm transferring coal in mid-ocean to the German cruiser Karlsruhe a day or two previous. The Suffolk surprised the two vessels, her officers said, and both the steamer and the German cruiser fled. The Suffolk pursued the cruiser, and the Kronprinz was soon lost to view. From that day to this the whereabouts of the Kronprinz Wilhelm have been unreported.

BRUCE FRASER IS DROWNED

COBOURG, Sept. 2.—Bruce Fraser, formerly of Hastings, where he was born in 1889, and son of Mr. T. A. Fraser, Outlook, Sask., was accidentally drowned at the latter place. While swimming with a companion he stepped upon a bar of shifting sand and the current carried him under.

JAPS IN GERMANY HARSHLY TREATED

Usage in Marked Contrast to Treatment of Germans in Japan.

Canadian Press Despatch. TOKIO, Sept. 2.—The foreign office today issued a statement in which the treatment of Japanese in Germany is described. The announcement declares that as early as Aug. 8 the German public severely wounded on the battle field, only tending those who would soon recover. There are many signs, according to the despatch, that the Germans are being organized by the officers in charge at the Long Branch camp, the various army medical corps at the camp are being subjected to rigorous drill and general training to fit them for the duties they will be called on to perform. Major O. B. Bentley is the officer commanding the camp and service conditions obtain, the camp being under guard. No member is allowed to leave, or return, without a pass, and civilians without business are excluded.

BRITISH STRATEGY PROVED EFFECTIVE

German Helmets on Top of Fortifications Lured Foe to Destruction.

Canadian Press Despatch. LONDON, Sept. 2, 5.25 a.m.—The Ostend correspondent of The Express quotes Leon Hiard, senator of Hainaut, as testifying: "That the Germans killed their own severely wounded on the battle field, only tending those who would soon recover. There are many signs, according to the despatch, that the Germans are being organized by the officers in charge at the Long Branch camp, the various army medical corps at the camp are being subjected to rigorous drill and general training to fit them for the duties they will be called on to perform. BRITAIN MAY PLAY AT LAYING MINES

Or Germans Caught in Act May Be Treated as Pirates.

Canadian Press Despatch. LONDON, Sept. 2, 8.15 a.m.—The Times' naval correspondent, discussing the fact that the British challenge to a pitched battle by taking refuge in the expedient of sowing mines in the North Sea, suggests that it may be necessary for the admiralty, which has heretofore declined to condescend to German methods in this respect, to take retaliatory measures in the near future. "We may either have to use mines for the purpose of preventing German mine-laying vessels leaving German ports," says the correspondent, "or we may decide that crews of vessels used as mine layers should be given short shrift as pirates. It may also become necessary to forbid all traffic at night within certain areas under penalty of vessels contravening these regulations being sunk on sight."

FIGHTING IS SEVERE IN NORTH OF FRANCE

Canadian Press Despatch. PARIS, Sept. 2, 4.15 a.m.—The number of wounded arriving at different points shows that the fighting in the north continues with great violence. Yesterday 700 wounded soldiers arrived at Cherbourg, 500 at Orleans, 300 at Evreux and 200 at Paris. Nearly all of them had wounds in the legs or arms.

The home of satisfaction. Best to eat and drink. Music. Only a few minutes' walk from all boats and trains. 27-31 West King street; 25 Melinda street.

NOTED BRITISH AVIATOR IS "FLIGHT COMMANDER"

Canadian Press Despatch. LONDON, Sept. 2, 6.11 p.m.—Claude Grahame White, the noted aviator, has been appointed a temporary flight commander in the British army. Richard T. Gates, who recently resigned from the Royal Aero Club, has been appointed a temporary flight lieutenant. The Earl of Granard has been appointed in command of the 5th Battalion of the Royal Irish Regiment, and Baron Kempell in command of the Black Watch Regiment of the new army.

POPE NOT YET CHOSEN SMOKE STILL RISES

ROME, Sept. 2.—(Via Paris).—The sacred college of cardinals assembled at 10 o'clock this morning for the third ballot in the papal election, but little more than an hour later smoke issuing from the chimney of the Sistine chapel revealed to the anxious throng in St. Peter's Square that an election had not been accepted and the ballots were burned in accordance with tradition.

Another Vessel Sunk

Canadian Press Despatch. LONDON, Sept. 2, 4.42 p.m.—The steam drifter Eryic, engaged in mine-sweeping operations in the North Sea, struck a mine this morning and went to the bottom in three minutes. Six members of the crew are missing; five were saved.

GERMAN PATENTS ARE STILL VALID

Toronto Firm Has Received No Official Notice of Cancellation.

CANADA IS PROTECTED

By Berlin Ruling Which Extends Time for Filing Amendments.

In a letter to The World, the firm of Riddell & Mayhew, accountants and Canadian investors and owners of continental patents with some facts which have just reached Canada. The following statements are made: "France has suspended indefinitely the requirement for the payment of taxes on French patents, so that all patents will remain valid until a future date, which will be set by special decree, on which all arrears of taxes must be paid. 'The German office has provided a general extension of time for three months from the first of August last for the filing of amendments to pending applications. This appears like a sublime confidence on the part of Germany in a short and successful campaign. Canadians having patent applications pending in Germany will not suffer for the present at least, by the inability of their attorneys to do business in Germany, and if the war continues, further relief may be given. 'May Be Infringed. 'The stories of the confiscation of British patents held by Germans and Austrians seem to be untrue. We have no official advice of cancellation. It is not a probable course of action, as a government has the right to use any patent inventions it may need, and also the right to set the compensation, but as the citizens of a country with which we are at war have no legal status in our courts, infringement would necessarily go unpunished."

AUSTRIANS COMPELLED TO EVACUATE LEMBERG

First Official Admission by Austria of Reverses in Galicia—Russians Destroy Many Regiments, Kill Fourteen Thousand Men, and Make Many Prisoners.

Canadian Press Despatch. PETROGRAD, Sept. 2.—The general staff announces that after a seven days' battle the Russian forces seized the fortifications near Lemberg, capital of Galicia, and on Sept. 1, after a furious fight, routed the Austrians who fled in disorder, abandoning many pieces of artillery. The Russian reverse in eastern Prussia is to be regarded as purely local and due to the sudden reinforcement of the Germans (probably at Gaudenz and Thorn) and the arrival of their siege guns. Russian reinforcements also immediately arrived. Official Statement. The Russian embassy here has received from the general staff at Petrograd (St. Petersburg) the following account of the Russian reverses in East Prussia. "Our offensive continues in our western position in eastern Prussia. Our troops have destroyed the railroad stations at Landsberg, Rosseel and Bischofstein, and the Heiberg-Zinten and the Bartenstein-Kienigsberg Railroad. "In the southern portion of East Prussia the Germans brought up reinforcements along our whole front and attacked our two army corps. These corps suffered a check, caused by the heavy artillery, which the Germans brought up from neighboring forts on the Vistula. "Our contact with the enemy remains unbroken, and fresh Russian troops are arriving on the Austrian front. "The stubborn fighting continues." Russian General Dead. LONDON, Sept. 2.—A telegram to Reuter's Telegram Co. from St. Petersburg says: "Lt.-Gen. Samsonoff, who commanded a corps in the Russo-Japanese war, and who until recently was chief of the Russian Furkistan military district, is deeply regretted. "The above would seem to indicate that Gen. Samsonoff had died, although no report of his death has been received here."

OFFICIALLY CONFIRMED

LONDON, Sept. 2.—The Exchange Telegraph Co. publishes a despatch from its Rome correspondent transmitting the official statement issued at Vienna: "Recognizing that the occupation of Lemberg by Russian troops is inevitable, the provincial government has removed the archives of state and given instructions to the burgomaster to the conduct of the city after its occupation by the Russians." The newspapers of Lemberg, the correspondent continues, publish long lists of Austrian dead, covering entire pages.

ALSO INVADE GERMANY

A despatch to The London Daily News from Rome says: "Besides advancing in East Prussia the Russians are also invading Germany in Northern Galicia, their objective being Koenigsgrutte, in Prussian Silesia, whence presumably they will march on Berlin via Breslau."

BURIED 15,000 DEAD

PETROGRAD (St. Petersburg), Sept. 2.—(Via London, 11.55 a.m.)—The following official announcement was made public here today: "Our forces invading Galicia have continuing their advance in the direction of Lemberg. The enemy fell back gradually before our troops. We captured some cannon, some rapid fire guns and some caissons. The pursuit continues."

A. M. C. RECEIVING SEVERE TRAINING

Hamilton Contingent Now at Long Branch, Joins Stationary Unit. While the Stationary and General Hospital units for the scene of hostilities are being organized by the officers in charge at the Long Branch camp, the various army medical corps at the camp are being subjected to rigorous drill and general training to fit them for the duties they will be called on to perform. Major O. B. Bentley is the officer commanding the camp and service conditions obtain, the camp being under guard. No member is allowed to leave, or return, without a pass, and civilians without business are excluded.

GERMAN REGIMENT NEARLY DESTROYED

The 12th and 19th medical contingent from Hamilton remains at Long Branch, tho without officers. They are, however, under the orders of the camp commander, and will form part of the Stationary Hospital unit. It is quite expected by Major Hendrie, who will be in charge of the Hospital, that these medical units will remain at Long Branch for two weeks, or even longer.

IRISH RIFLE CLUB PLANS BIG MEET

Two Hundred Dollars in Prizes—Individual and Team Matches. The Irish Rifle Club will continue its practices at the rifle ranges on Wednesday and Saturday afternoons until further orders, and yesterday several good scores were made despite a variable wind and uneven lighting. This club, under the presidency of Alderman Spence, will hold a meeting tomorrow evening at 24 King street west, when arrangements will be made to hold a rifle meet at the Long Branch ranges, probably on the last Saturday of September.

BIG GERMAN FORCE MOVING ON ANTWERP

Canadian Press Despatch. LONDON, Sept. 2.—The Ostend correspondent of the Reuter Telegram Company reports that an extensive movement of German troops towards the north has been seen from Brussels. It is believed the Germans are going to Antwerp, where an investment and bombardment are expected.

British Troops Routed Whole Cavalry Corps

PARIS, Sept. 2.—(3.15 p.m.)—"A German cavalry corps marching toward the forest of Compiègne, on the left wing of the allied forces, engaged the English Tuesday, Sept. 1. The English captured ten guns." This statement was given out officially today.

SUCCESS OF EXHIBITION ASSURED, SAYS MANAGER ORR--CHILDREN ARRIVE EARLY AND TAKE POSSESSION OF THE GROUNDS

CHILDREN IN THOUSANDS ENJOY THEIR SPECIAL DAY EDUCATIONAL IS FEATURED

Young Toronto Takes Exhibition By Storm--Happy Faces Seen Everywhere--Fair Weather Brings Immense Crowd--School Work Emphasized.

It required more than a few overhanging clouds to keep the children away from the Exhibition yesterday, in fact at an early hour they had already taken possession of the spacious grounds. They had anticipated a wonderful day and it was with great delight that they heralded the arrival of King Sol. There was no stopping of loaded street cars however, even before a clear day was assured and as each one arrived its happy passengers disembarked on the run for the row of turnstiles awaiting them.

"Where is the midway?" was the first question. Eager they were to squat motion on the nearest bench and make a run for the east end of the grand stand. Coppers, "nickels" and other coins commenced to burn holes on the first glimpse of a candy stand. Little appetites suddenly grew big, appealed to the lunch boxes before half the morning had gone. Here and there little family circles gathered. Goodies were spread on the lawn, which had dried rapidly under the warm sun. By dinner-time the green grass was spotted and in every corner wholesome "eats" were relished. As three o'clock the size of the big crowd of happy bustling children had doubled. The balance of the day saw the grounds accommodating the first real crowd of the fair. "It looks like old times," said an official who stood in the doorway of the press building with a smile on his face. And still they came.

As the afternoon drew to a close the younger kiddies commenced to become tired. The day had been a revelation to them. They had seen sights never before dreamed of. Only the fairies, they thought, could build such beautiful things and only Santa Claus could arrange such a sight. While the youngsters tramped away to seek the displays of special interest, their guardians surrounded the famous Creator's Bay and were most pleased with the exceptional program rendered. Nor was this the only musical attraction. The grounds resounded with martial airs the day there were ten other bands on hand which at different intervals assisted in entertaining the musically inclined. Of special attraction was the afternoon performance in front of the grand stand. The younger children, whose bed time comes early, were not to be outdone. They packed the large stands to almost capacity. To say that their enjoyment was complete would be putting it mildly.

Ready Waiting. An hour and a half before the scheduled time of opening for the evening performance, the older children with their parents, began to block traffic behind the stand. They were on hand in good season in order to have first choice for the evening seats. The swaying, patient crowd mass of humanity made a brilliant sight. Please, Sir, I'm Lusted. "Please, sir, will you take me in? I'm lusted." A pair of appealing brown eyes, framed with curling lashes and filled to the brim with that particular kind of tear that would melt the coldest heart, looked up over the desk of the kindly inspector, who was patiently waiting to dive under his desk into a mysterious cupboard. He emerged in less time than it takes to tell with a couple of lovely home-made cookies, thrust them into the outstretched hand, lifted the little fellow over the counter and placed him on a chair beside a number of "yellow" boys.

The juvenile population of the Queen City was well represented at the Exhibition police station yesterday, but it was splendid to see the outburst displayed by the majority. A great deal of child sorrow and parental annoyance would be done away with, however, if every parent interested his child with the fact that the policeman is his friend and the police station a dandy place to enjoy cookies while waiting to be called for. Many children are lost for hours in the grounds till some officer or citizen takes him by the hand over to the station, and after that the hours seem a long time in realizing the proper place to look for information regarding the whereabouts of their troublesome offspring.

The children who were fortunate enough to find their way to the station said the time passed very pleasantly. Seemed Longer. Billy, who created the largest amount of excitement by his heart-rending sobs, was reclaimed to the relief of all authorities in less than 15 minutes from the time he entered the station. His wallings had rather a depressing effect upon the other children, but when Johnnie heard his 11-year-old sister's mellow voice he made one bolt for the door, with dreams of the "midway" a near reality, forgetting that there was such a condition in life as "being lost." A baby of two years set the best example. She soon had a cookie between her rosy lips in place of her comforter, and long before it had vanished a jolly-looking mother had the winsome child in her arms.

While thousands of children walked the boulevards gathered souvenirs or flooded the midway, there was taking place, during the noon hour the director's luncheon. The boys and girls had forgotten all about the commencing again of school days, the officials who direct their school work, were dis-

crossing phases of education in the administration building. The minister of education, Hon. Dr. R. A. Pyne, spoke briefly. "The matter of education in the Province of Ontario is an important one. It is one of the great subjects requiring constant attention. A great deal has been done in lines of improvement. There is a country today whose education policy has been held up before the world, I refer to Germany. The outcome of the work of an autocrat who did not take advantage of the education that Germany afforded. Continuing the speaker said that it was difficult to direct one's thoughts from war, invariably it comes uppermost. He spoke also of the "scrap of paper" that England's world was contained in. It was sufficient. "The education of Germany has not incultured as high a sense of honor as that which spreads thru this province."

Industrial Province. "Great good should come to Canada," said the minister. "It will be our duty and responsibility to take advantage of the purchase nothing that comes from abroad. We must buy home-made goods." Dr. Pyne expressed the hope that the day is not far distant when the federal government for educational purposes. "I believe this province is to be the great industrial province of the Dominion. It is responsible to expect this when the great industrial power is considered."

Concluding, the speaker paid a tribute to Joseph Oliver, president, and the directors of the Exhibition, and carrying the project thru with such enthusiasm. In introducing the speakers, Mr. Oliver stated that up to noon the number of Great Britain attendees at the Exhibition was the largest yet. "We only need fair weather," he said, "and the rest will look after itself."

Hon. Martin Burrell, minister of agriculture in the Dominion Parliament, gave an exceedingly interesting address with great enthusiasm. He pointed out that the directors of the Exhibition had never put the object of making money but that of doing service to the city and province. "I am quite positive we owe a debt of gratitude to the men devoting their time and energy to this great undertaking," he said. He congratulated Canada and the United States on the celebration of 100 years of peace. Accomplishment that war had marred the fulfillment of the celebration previously planned. It was because of ability of being able to decide international questions without death-dealing machinery that there were now no forts on an international boundary extending 3000 miles.

Waste of War. He spoke of the vast waste of war. He mentioned the opportunity to study the achievements of Canada at this Exhibition. A splendid tribute was paid to those who have enlisted for the front. The many are needed on the battle line, there is important work to be done at home. "The traitor of today is the man who will reach out to make profit on the misfortune of the country," was his emphatic statement. There will be more war because of the war. "Am I my brother's keeper? Decidedly yes," he said. "We have two great duties. First we must sustain the empire in the fight for preservation. Second, we must see that no man, woman or child in Canada suffers the pangs of hunger or want." (Applause.)

Farmer's Part. The task of the farmer is important. He must if possible increase his acreage even tho help is more scarce. "I would urge a higher object than commercial advantage. The farmer should increase his output, if possible, in order that the people at the front be sustained and that the population of Great Britain may never suffer want." Higher prices in other countries should not attract Ontario farmers. "If we are face to face with a world struggle we have the consolation of knowing that Great Britain's hands are clean. This is one redeeming feature. Germany could not even keep her boots. Further, we have seen the evidence of the old spirit in England. We have seen difficulties melt away at the approach of national danger." (Applause.)

In conclusion the speaker quoted a portion of Ralph Waldo Emerson's speech which was made in England in 1867. Hon. J. D. Hazen Speaks. Hon. J. D. Hazen, minister of marine, was heartily welcomed. He drew

attention to the vast resources of the Dominion in fish. There is a great wealth and abundant food supplies. The effort on the part of the department which the speaker represents, in contributing to the National Exhibition, had been increased from year to year. "We have endeavored to make each exhibit better than the last," he said. As the previous speakers alluded to the European crisis, so did the minister of marine, by stating that the naval department was doing all in its power to protect Canada. "It is a matter of pride," he said, "that in a few short weeks Canada had been able to mobilize 30,000 of Canada's finest men, who will give as good an account of themselves as did the Canadians at Hart's River. Canada's safety depends upon one thing, the superiority of the British navy."

Striking Example. "When, a few days ago, in that naval engagement off Heligoland, in which British cruisers took part, we read of the heroic action of British seamen, we also saw that the good ship, New Zealand, had been engaged. Would to God Canada had been represented, too."

W. H. Shaw, member of the board of education, and E. F. Henderson, representing the separate school board, spoke briefly, bringing the event to a close. Admirably-Handled Crowds. The large crowd at the Exhibition yesterday was handled admirably by the police. They experienced very little difficulty, the crowd being not in the least troublesome. There were 53 policemen on duty in the grounds, and in order to handle the crowds at the cars after the grand stand closed there were 18 policemen placed on duty just outside of the main gates. These men were supplied from No. 6 division.

Police Station and Exhibitions. The police station at the Exhibition grounds was besieged with eager mother and chaperons all day yesterday, who were looking for lost children. People not seeking children also crowded in front of the desk, watching the lost ones playing. Nearly seventy children were taken to the police station during the entire day. Lost children were not the only things brought to the police during the day. About one dozen lost purses were handed in. The majority of them were empty when they reached the hands of the police, but one was brought in with about \$15 in it. After the crowds had left the grounds last night the police still had about half of the number of purses left on their hands.

PROMINENT EXHIBITORS

SPLENDID SHOWING OF ART PHOTO WORK

Work submitted to the art and photography exhibit in the women's building was judged yesterday, when the little red prize tickets were attached to many fine examples of amateur talent.

Originality of design marked many of the prize winners and the book cover "Ivanhoe" was a splendid representative of the excellent work contributed by every class. The figure and animal paintings were remarkable for their realistic expression. A pastel of an Indian chief, which won first prize, was very life-like and showed excellent color study. The photography was of a very finished order, the portrait work being especially fascinating. First prize for the best two portraits was awarded a study of a beautiful child, and a natural pose of a man in a soft fedora.

The Toronto Camera Club carried off the prize for the best group of six photos, which included two portraits and four splendid scenic features.

LECTURES ON NATURE.

The natural history display in the exhibition building, like every other exhibit in the grounds, received its full share of praise and comment, when the children thronged into the building to see the beautifully mounted butterflies of glorious coloring, the birds and little insects, flowers, shells and minerals. This department has a particular interest for all school pupils who study the various branches of nature, and, like every other class of exhibits, has increased and improved marvellously.

The lectures given daily on biological subjects prove very interesting and aid visitors considerably in distinguishing the marks of merit in connection with the various classes. The collection of woods, mineralogical specimens and geological specimens were varied and well chosen, and the insect competitions were equally close.

PONIES ARE ATTRACTIVE.

Hundreds of children lined the judging ring to see the prizes awarded for the ponies yesterday. All types and classes of the pedigreed little animals were in the contest and children delighted to see the little beasts. Some of the more fortunate had an opportunity of petting one of the animals when it came near the rails.

Sheet Metal for Buildings. Visitors to the Exhibition will be impressed by the complete and interesting exhibit of the Pedlar People buildings and comprises everything in sheet metal for buildings, roofing, siding, shingles, ceilings, gutters, etc. This exhibit is to be found north of

Manager Orr Delighted

"This is the best Children's Day I have ever seen," Manager Orr of the Canadian National Exhibition was all smiles when he made the above statement. The afternoon was drawing to a close. He had inspected all portions of the grounds. He returned satisfied. "It shows that the war has no effect whatever. I'm surprised and delighted. The success of the Exhibition is assured if good weather continues." These were his few remarks as he stood on the steps of one of the buildings viewing with delight the large crowds of school children at the height of their pleasure.

The large and well fitted grill room which is in connection with Nasmith's restaurant in the west end of the grounds is receiving capacity crowds every day. The service there is the very best and is satisfying the most sceptical. The restaurant just east of the grill room is the place where the best meals on the grounds are served.

Bird's Dining Hall. The private dining room in Bird's restaurant this year is being patronized to its fullest extent, thus showing that they have earned public favor with their excellent meals. Besides the meals in this section, they also serve a thirty-five-cent meal.

Ever Popular Glass Blowers. John's glass blowers at the entrance to the Midway has received the large patronage that it has always enjoyed in previous exhibitions. During the entire period of children's day the tent in which the wonderful glass things are made was packed to the doors with astonished children and men and women. The children lingered long there watching the making of the prizes.

Gordon's Mammoth Stand. This is the fifth year that Gordon's \$3000 stand has been one of the leading attractions in the Midway at the Exhibition. In order to come to the Exhibition this year Mr. Gordon was forced to close a very successful year in charge of Mrs. Gordon, while Louis Gordon, her husband, is in Detroit on business. She is assisted by Benjamin B. Jones.

The attractions offered at this stand consist of plate boards, spot the spot, throwing balls, candy roll down and weighing machines, which are in the charge of Mr. Rosen, the well-known weight grizzer. The prizes given by this firm are an innovation. Mr. Gordon was the originator of the jockey dolls which are in the form of Teddy bears given away as the result of the contests. He has other original prizes there for competition. The games are simple but it takes a steady hand to win.

There is much merriment caused in these games. They are games which arouse a person's intense interest and in most cases contestants will not stop till they have won their desired prize. Gordon's stands are just beyond the

AS IT SHOULD BE.

After investigating the shows of the Midway, the Exhibition authorities announced yesterday that there was nothing in them to which objection should be taken. This year's management has taken good care that none of their actors should appear in improper attire on the placards outside, conform with the laws laid down by the Exhibition authorities.

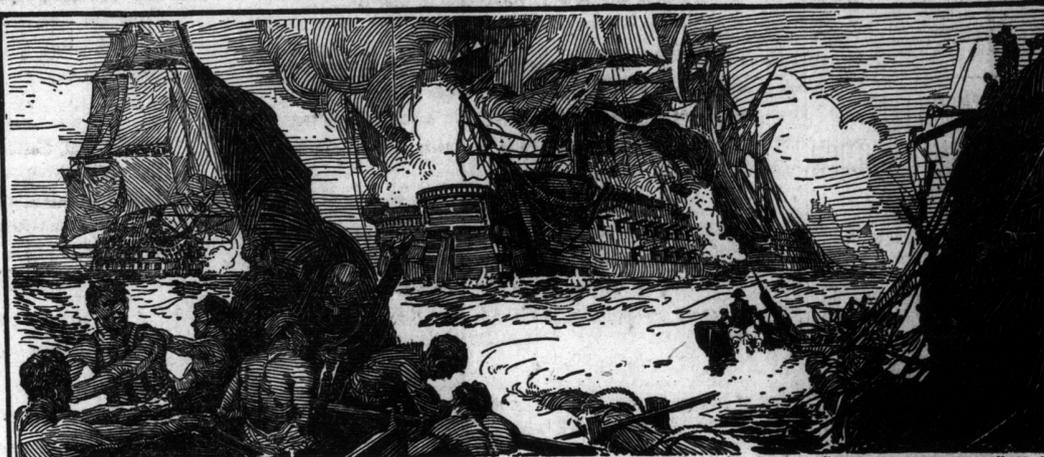

Many Hudson Models.

This year the Dominion Automobile Company is paying particular attention to bringing the well-known Hudson cars before the auto purchaser in its exhibit in the transportation building. The Hudson 6-40 is one of the cars that is drawing particular attention from the motor enthusiasts. Besides being up to date in every detail of construction, the Hudson 6-40, with its streamline body lines and flush sides, possesses many features for a car of its type that are proving important in the transportation building. The auxiliary tonneau seats and a new style windshield and many other improvements too numerous to mention in the Hudson 6-40 give a good impression.

AROMA OF FLOWERS ATTRACTS ATTENTION

Beautiful Designs Centre of Interest—Exhibit Better Than Ever. This year the exhibits in the horticultural building surpass all previous records. In every class, and department a standard is reached which has never hitherto been even anticipated. Flowers, plants and vegetables present a spectacle of perfection in growth, color, hue and formation, and the special original designs are excellent.

Immediately inside the entrance is the dazzling pair of "War Horses," galloping with their chariot and driven by the fair Britannia clad in her battle armor—the Union Jack. The entire is a striking and appropriate feature. Dilemmuth's captured a large number of firsts as usual; their floral dis-

"NATIONAL HERO SERIES" NO. 4

Lord Nelson—Old England's Great Naval Hero WITHOUT Horatio Nelson, England would have been invaded and perhaps conquered by Napoleon. At Trafalgar he smashed forever the French Emperor's hope of creating a naval power. Never was man more idolized and beloved—not only by all of England's people who breathlessly awaited news of his telling victories, but by every man of his fleet. A true Anglo-Saxon, he detested tyrannous powers and legislative usurpations of every kind. He was particularly opposed to prohibitive enactments governing the diet of his men, who, like him, enjoyed Barley-Malt brews, even as their fathers did for countless generations before. Good beer, according to Lord Nelson, has ever been good food. Budweiser Beer for 57 years has been the product of an institution holding the highest ideals known to the ancient art of brewing. The output, due to Quality and Purity, has increased every year until 7,500 men are daily required to keep pace with the public demand. Budweiser sales exceed any other beer by millions of bottles. Bottled only at the home plant.

WOODMEN UNHAPPY FIGHT RATE RAISE

Oshawa, St. Catharines and Toronto Lodges Unite to Make Protest.

COST IS NOW DOUBLED

W. O. W. Officials Say It Was Impossible to Live Under Old Rate.

Indignation at the raising of the rates of the Woodmen of the World Lodge was expressed at a meeting of the executive of Oshawa, St. Catharines and Toronto lodges, at the Woodman Hall, at 1388 West Queen street, yesterday afternoon. These purposes to get practically the whole strength of the order behind them in an attempt to make the head officials lower the rates, which were fixed for them early in July. Discontent has been brewing ever since the news became generally known that the head officials were to be almost doubled. Exhibition time was considered to be the best opportunity to hold a general meeting of the members, and the Woodmen of the World was the first of a series of three, which will result in the presentation of an ultimatum to the headquarters of the lodge. One prominent member of the order stated to The World that, unless the schedule of rates is modified, the order will go completely out of existence. C. McLaughlin of Parkdale camp said that his previous rates were \$2.38 a month for a policy of \$2000, while now it is \$2.14 for \$1000. As an instance of how the rank and file of the order are taking the innovation, he said that the Bramford camp, which numbered over 700, and which was the largest in Canada, has dropped down to a membership of only 320 within the last month. Other camps all over the country, he said, had dropped out of existence entirely. It was the members who belonged to the order prior to 1912 who were affected by the change. Those who had joined since that time had done so under a higher rate, and were not affected by the change. The 15,000 who formed the camps of the Woodmen previous to 1912 were the ones who have to pay the increased rate.

Old Members Suffer.

The officials of the lodge claim that the rate which was hitherto imposed was certain to result in failure, as it is actually impossible to administer the affairs of the lodge at a profit. They assert that they are making an honest attempt to save the old members from being cast out entirely without a cent in return for the dues which they had been paying in for years. It would be possible to pay the rates for a time, but within a few years the entire funds of the order would be exhausted, and the old members would be unable to get a penny of their insurance.

The members affected by the change do not take kindly to the increase on this account, and according to the sentiments expressed at yesterday's meeting will withhold from the order its body, and completely decimate it. Consul Commander Walter Mann of Parkdale Camp, who presided at the meeting, said that the members are dropping out by wholesale, and that the few who are left are merely postponing their departure until they see whether or not the supreme officials of the order will take any action rescinding their former decision. As a result of the meetings to be held in Toronto during Exhibition time, a protest will likely be sent to the head consul commander, Dr. Harrison of London. All Woodmen who are in Toronto are asked to be at the meeting at 1388 West Queen street on the afternoon and evening of Sept. 9.

PLAYHOUSE THEATRE DREW BIG AUDIENCE YESTERDAY

Proceeds Go to Patriotic Fund—Miss Adie Sings Today.

A much greater success attended the efforts of the manager of the Playhouse Theatre in his efforts to aid the patriotic fund yesterday afternoon. An exceptionally fine program was supplied, consisting of twenty-five songs, including "The Man on the Box." An extra attraction, Mrs. Lily Lorell, Howard sang "Canadian Jack" and "Rule, Britannia," and Fred Crouch sang "Pomany Aiding" all of which were received with considerable applause by the audience.

Today's program will be contributed to by Miss Agnes Adie, one of Toronto's foremost singers. The matinee starts at 2 o'clock and the admission is whatever you care to give.

REV. S. E. GRIGG RESIGNS.

Rev. S. E. Grigg has resigned the position of superintendent of the Baptist Social Service Board because he thinks present conditions call for a revision of the calls upon the pocket-books of the members of the denomination. The department will probably be conducted by honorary officials until a favorable time for the selection of a successor to Rev. Mr. Grigg as superintendent.

CLASS FOR TRAINING OF CAVALRY OFFICERS

Established to Fill Ranks of Mis- sissauga Horse—Enough Chauffeurs Have Enlisted.

So generally has been the response of Ontario chauffeurs to the call for recruits that the lists closed yesterday with 220 men engaged. These men are now at Stanley Barracks undergoing military drill, and word for them to leave for Ottawa is hourly expected. There the first duty will be to learn the movements of active service and the management of guns mounted on cars. Toronto has supplied the majority of the recruits, and the remainder have come almost entirely from London and Walkerville.

Recruiting continues in the Royal Canadian Rooms, and a class for the training of cavalry officers has been formed, chiefly for the benefit of the Mississauga Horse Regiment. Other organizations, including the officers' training class and the Osgoode Hall Association, are continuing with strenuous drill.

GRAND TRUNK FLYER BROADSIDED ENGINE

Wreck at Komoka Caused In- jury to Fireman and Six- teen Passengers.

Canadian Press Despatch.

LONDON, Ont., Sept. 2.—Running at a high rate of speed in an endeavor to make up lost time, Grand Trunk

Limited Express No. 4, eastbound, Chicago to Montreal, broadsided engine No. 1008 of an extra way-freight from London, at the crossover at Komoka, at 8:30 o'clock this morning.

W. H. Webster of Sarnia, fireman on the express, was thrown across the cab and sustained broken shoulders and several scalp wounds. Sixteen passengers received minor cuts and bruises by flying glass and being thrown from their seats.

The engine of the way-freight was thrown clear of the rails, when the heavy Mikado crashed into it, blocking traffic on both main lines.

The freight was attempting to cross from the westbound main line to one on east track. As engine No. 1008 pushed her pilot across the intersection \$10-To Quebec City and Return From Toronto—\$10.

Low fares will be in effect via Canadian Pacific Railway to Quebec City and return, good going all trains September 4 and 5, return limit September 9, 1914. Tickets will be honored via Ottawa and are good for stop-over at all points east of Ottawa. This affords an excellent opportunity to visit Quebec City and other points in this historic district, enabling passengers to view the Canadian expeditionary force in camp at Valcartier. Excellent train service going and returning. Proportionately low fares from stations east of Toronto. Full information, reservations, etc., from Canadian Pacific Ticket Agents, Toronto City Office, corner King and Yonge streets 456

Steamer Service, Olcott Beach.

Effective Thursday, Sept. 3, steamer Macassa of the Canada Steamship Lines, Limited, will resume service on the Olcott division, leaving Toronto at 7:30 a.m. and 2:45 p.m. daily, including Sundays, until Sept. 12. Direct connection will be made at Olcott with International and B. L. and R. Railways for Buffalo and Rochester and intermediate points. Ticket office, 45 Yonge street, corner Wellington street, or Yonge street dock. 24

FOR THE WOMEN WHO WEEP

Military pay offices and the tread of martial men. These are things that ought spring into existence at the same moment. If men are drilling and manoeuvring at the time when war is in the air, and for the purpose of answer- ing the bugle call, when its first com- manding note is heard, then as an inevi- table consequence it should be known that many will be left at home deprived of their legitimate supporters and at the mercy of such provision as may be made for them by those far away from the fighting line.

In the present emergency the public generally has responded to the patriotic call for financial and other aid in a manner that has simply warmed the heart of the Canadian people as nothing before ever had power to do. The different patriotic organizations have done and are doing things which are simply great, but a large portion of this is for the men in preparation for their campaign, and the rest which has the good of the women and children in view, is still in a measure tied up and unoperative.

Need Pay Offices.

All this but tends to prove that pay offices established by the government should be among the very first provisions made at the first sign of a call to arms of the men of a country. Wives and mothers, or others dependent on men, whose time is now altogether taken with the calls of military duties, should be attended to by those who have called them to the service. This would be just and at the same time economic. These women with an assured weekly salary would be in an altogether different position from women waiting until the machinery of things would settle before they could make an application for assistance.

Should be Automatic.

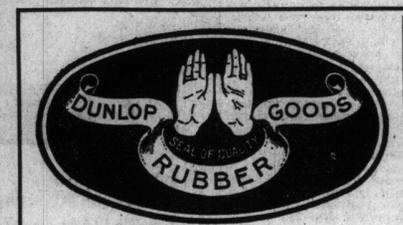

The very word application puts these women in a position where Mothers, wives or sisters of soldiers should stand with the men themselves on the highest plane in the community. An assured in-

come is an act of justice and by no means a concession. A war such as that in which we are now engaged was something forced and not sought by any man or woman of the empire who may now be involved either directly or indirectly, and the answer as a response to the traditions of duty has been splendidly unanimous. But the glamor of the moment should not blind us to the practical side of things and to the fact that the women and children are as much a factor in the situation as are the men themselves, and to strengthen the heart of the man preparing for battle there could be no finer tonic than the assurance that those nearest and dearest would be provided for from the moment that he answers the call.

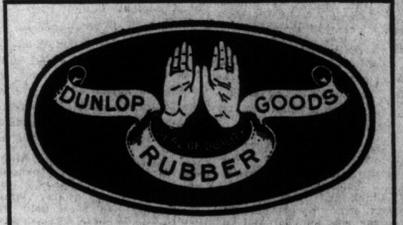

Every man who enlists or re-enlists as the case may be, should file a written statement that he wishes a certain stated portion of his regimental pay to be given to his wife, mother, or children, if he has any such depending upon him, and the same should be sent to those mentioned within the first week of enlistment. To do this pay offices should be at once established. In the cities a development of the pension office would suffice, but in any case the weekly payment should synchronize with the response to the call to arms.

BUSINESS WOMEN APPEAL.

The Canadian Business Women's Club, under the auspices of the Toronto Women's Patriotic League, are doing Red Cross work at the home of Mrs. MacDougall, 318 Roncesvalles avenue. Tel. P. 2373. Members of the club wishing to do work may go there from 3 p.m. to 10 p.m. Donations will be received at any time. Owing to the fact that the work should be finished by September 7 it is requested that no one will delay in making any contribution they wish to make, whether of work or money.

"England Expects Every Man (and Man-u-facturer) Will Do His Duty"

In times of national crises it seems especially appropriate for Canadian manufacturers to declare their policies.

We are, therefore, pleased to announce that:

There will be no increase in the price of Dunlop Rubber Goods unless future advances in the crude rubber market make this imperative to the company.

As in the past, we will continue to select Made-in-Canada Goods in all our purchases of products obtainable in Canada.

We also endorse the sentiments of other Canadian companies who have, in effect, so splendidly said to the people of this country: "The question of whether prices ascend or descend, whether you are to be employed or unemployed is in nearly every case in your own hands."

If it is incumbent on the manufacturers of the Dominion to be courageous and generous as they never were before, it is tremendously more incumbent on the people of the Dominion to have a passion for purchasing goods made in Canada that they never had before.

Millions of dollars' worth of tires and general rubber-made goods are imported into Canada each year, and this is true of many other lines of manufacture. That money can be kept in Canada from now on if you say the word. As ably pointed out by Canadian newspapers, we cannot avoid the issue. We Canadians must seize the opportunity to cash in on the Made-in-Canada idea or forever forget about it. Think of this before you make a single purchase.

The Dunlop line of rubber-made goods is as complete in its variety as it is unexcelled in its quality. There is the famous Traction Tread Auto, Motorcycle, and Bicycle Tires, which have a Continental reputation for efficiency; Dunlop Motor Truck Tires, which lead in every big city in Canada; Pneumatic Carriage and Bike Wagon Tires, which have been used and endorsed for nearly two

decades; Belting, Packing, and Hose for every known purpose, which are to be found giving continuous and satisfactory service in railroads, mines, and in general manufacturing corporations; Horse Shoe Pads, where the crying need is to meet the demand; "Peerless" Rubber Heels, which are now sweeping everything before them from coast to coast; Rubber Mats and Matting, which have reached the highest standard of excellence; and Dunlop General Rubber Specialties.

No other rubber goods manufacturing plant in the world can offer you advantages either in efficiency of equipment or skill of artisans which is not to be found in equal measure in the Dunlop organization.

In fact, Canadians have for so long exacted so many merits in the rubber products they buy that the very existence and continued growth of our company is proof that man for man, plant for plant, no one in the rubber business in this country need take a back seat to the world's best.

On all sides people are asking: "What can I do for the Mother Country? How can I give vent to my patriotism?"

Here is our suggestion:

RESOLVE that, no matter if it costs you a little more at first, you are once and forever going to say "Good-bye" to the old illusion that only good things come from other countries. THAT you will eat Canadian foodstuffs, wear Canadian clothing, read Canadian newspapers and magazines, ride in Canadian automobiles, use Canadian materials and manufactures wherever and whenever you can.

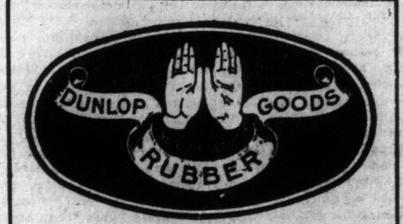

In short, when there is a world-wide desire to capture something, That you will contribute your quota towards helping the Canadian manufacturer capture the entire Canadian market. That is the surest way, the speediest way to bring back normal times. It is the only certain way to make employment sure for every man.

THURSDAY MORNING, SEPT. 3.

The Legislature and the Financial Situation.

It takes some time for the leaves to work, but it is fermenting. The latest evidence is the rumor, which appears to have some foundation, that the provincial government is about to call the legislature together in order to make financial arrangements to cope with the situation.

The mayor of Berlin on Tuesday, at the meeting of the Industrial Association, told those present how his city had been able to secure loans from the citizens who had money in the savings banks at three per cent when the city offered five or six.

This is carrying the war into Africa. If the banks will not lend the people money, then the municipalities must borrow from the people. The banks will not doubt, raise objections, for they will neither fish nor cut bait, but they may find themselves like other birds in managers by and by.

Adm. Cameron also has the idea for Toronto, and is going to move that the city borrow from the people at five per cent. The people should be glad to lend on security which is a great deal better than some others, and the government will no doubt be glad to lend its authority and endorsement to such transactions, since it is in the same straits as the municipalities.

We are prepared to hear that these perfectly justifiable and obviously reasonable methods of dealing with the money stringency will not appeal to the money bags, who have not the patriotism to see that this is not the time for making money, but the time for saving the life of the nation. If we lose our business now, if we close up our factories, if we drive away our skilled labor to the United States, if we dishearten our business men and drive all the spare cash of the people into other channels than those open for it at home, then there is coming a time of reckoning after this war which will leave Ontario in as bad a condition as Belgium. It is not only bullets and bombs that ruin a country. There are other and deadly forms of greed as well as kaiserism.

These ideas are beginning to be appreciated, and the calling of the legislature is a first-rate way to get the province stirred up to the necessities of the case. If the right course is taken, then the province may come out of the trial a better land to live in and the people will have a better regard for each other than when the war commenced.

Toronto is likewise at the brink of a great decision. The kaiserism of capital is not less dangerous to the municipalities than the troops of Germany are to the allies. The same principle is behind both forces, and it is a principle which has no regard for the well-being of the common people. Some capitalists have taken this upon themselves to protect the same class of aristocratic plutocrats in this country, which is trying to impose its rule on society, and eventually on the world, in Germany. These capitalists will not admit this, and their presidents and general managers may be horrified at the suggestion, but the fact is patent to the people who see their occupations taken away, and to the manufacturers, who would make a good stand if the banks would permit them, and to the business men who are brought to a standstill because the banks have closed down the flow of commerce, and to the farmer, who will find his markets in the hands of the trusts, who are the only bodies the banks are willing to befriend.

Coming to the farmer, there is this to be said: If the banks will do their duty by the commerce and the business of the country, the farmers will be in a better position in Canada next year than they have ever been. The loss of the crops this year thru the war has been enormous. Next year there will be a serious falling off in production owing to the dislocation of rural conditions in Europe. It is true that other and neutral nations will be aware of all this and will take advantage of the opportunity to come into the market with a greater production of their own.

But Ontario farmers especially will have an opportunity to grow wheat for next year's market such as they have

never had. If they could be persuaded to adopt such methods as Mr. C. C. James has told about in Sweden, where they can raise 94 bushels to the acre, it would be even better than an extension of acreage. Ninety-four bushels means six times the average production in Canada, but it does not mean six times as much labor as the average Canadian farmer puts on his land. It means that it is possible to take off one acre as much as six off in the ordinary way, which ought to be regarded as a disgraceful way. The saving in plowing alone of that extra five acres is an item which ought to appeal to the common sense of any farmer, not to mention the seed, harrow, the rolling and other considerations.

But, however he may do it, the thing for the farmer to do this fall and next spring is to grow wheat. We are all interested in this as well as the farmer. The business man and the merchant, the manufacturer and the trader, all understand that if the farmer does not get the money out of the ground there will be none to make trades with. Even the banks know in a dim way, but they do not like to let the farmer be aware of it, that if it were not for the farmer there would be no banks. Very few farmers know this when they go begging for a little accommodation, but when he sows his wheat and when he thrashes it he might think about it. It is a good warm, comforting thought, and full of latent self-respect which the banks cannot impair.

It is especially good when it comes to a question of mortgages, and this is a question which is raising its head almost higher than any other question at present. It is even said that it lies behind the rumored calling of the legislature. There are people who are being put out of work because the banks do not stand behind the factories, altho the government is standing behind the banks in order to get them to stand behind the factories; and there are people who are depending on the spending of these people who are being put out of work, and there is an endless chain of such dependence, all hanging on the farmer at one end and the banks at the other. And the banks turn to the farmer at long and at last, altho just at first the farmer does not seem to cut any figure.

If loan companies begin to foreclose mortgages then we shall have another phase of kaiserism at its worst.

To deal with this a moratorium has been proposed, and it is necessary to have a provincial enactment in order to proclaim one in Ontario for mortgages. The legislature stands for the people, and all the people need to do is to see that the moneyed interests have not too much to say in directing its affairs. A few of those who manage the banks do not think enough of the living people who keep the banks going, and they think too much of the inanimate machines into which some of the banks have been transformed, which have no thought of the people at all, but only of their own existence. The banks are for the people, not the people for the banks, and if the banks do not realize this, then the people must turn away from the banks, and evolve new and more docile machinery for their need and purpose.

A Month of War.

Notwithstanding the prodigious efforts made by the German army operating in Belgium and France during the past fortnight, no breach has yet been made in the continuity of the defending forces. But by sheer weight of numbers and what can only have been an appalling expenditure of men, the Germans have advanced thru Belgium and even penetrated beyond the cordon of fortresses on the Franco-Belgian frontier. This is a remarkable achievement, that could only have been accomplished by soldiers who lack nothing in courage and endurance. But the more these qualities are rated the more do they enhance the calibre of the British and French troops, to whom they were opposed. Nothing is more difficult in war than the conduct of defensive operations by a numerically inferior force. That the French and British lines should have offered so stout a resistance and fallen continually back without disorder or loss of morale, and still be able to act effectively as a field army, augurs well for the future of the campaign.

After the first month of war all that appears is that the German plan of campaign has not developed as its framers anticipated. They did not count upon the presence of British troops in the field, nor on the heroic resistance of the Belgians. But for the stand made by the Belgians and the delay occasioned by the invaders, there can be little doubt the German forces would have swept across the frontier before completion of the French mobilization, and would thus have gained full advantage of their more rapid and efficient organization. That advantage the Belgians succeeded in neutralizing, and time was afforded not only to mobilize the French war service army, but to transport the British expeditionary force to the front. Belgium's service to the allies can hardly be exaggerated, and the tribute paid her was fully deserved. Belgium has suffered great losses, which it is to be hoped will be later compensated. But her material loss counts little against the gain that will come from the loyalty and devotion of her people.

TORONTO RED CROSS

Provincial Work Will Be Directed From City Hall—Conference Yesterday.

To immediately supply the needs of wounded soldiers at the front and in the hospitals of France and Canada the Toronto branch of the Canadian Red Cross Society completed its organization yesterday afternoon at a meeting held in the city hall. What supplies are most needed will be ascertained from the Canadian society and from London, and work will be started at once. This information will be forwarded to branches in other Ontario centres.

Noel Marshall, who has been a leader in the patriotic fund work, stated it was the intention to secure \$250,000 by next week, and to forward it to the Red Cross Society in England. Winnipeg has subscribed \$15,000, Ottawa and Montreal had promised a substantial sum. Gen. Sir William Otter was present and warned the ladies against making comforts for the soldiers. The spirit was good but at the front such things were a hindrance. What was most needed was hospital supplies, such as bandages, etc.

The officers of the Toronto branch of the society are: Chairman, Kenneth Dunstun; vice-chairmen, Gordon Osler, Douglas K. Ridout, W. E. Rundle; honorary secretary, George E. Wood; committee, George Anderson, S. C. Harris, W. E. Gundy, Walter Barr, Lieut.-Col. Brock, Sir Edmund Osler, J. W. G. Mackenzie, F. Nicholls, W. K. George, Col. Macdonald, E. A. Matthews, Mrs. Cummings, R. C. Harris, Noel Marshall, A. F. Rutherford, Frank Liver, A. J. J. Jopson, S. J. Moore, A. E. Ames, R. D. Fairbairn, J. W. Woods, George Irving, Arnold M. Ivey, W. S. LESSEN THE GAP.

Editor World: Upon reading the article in your morning paper entitled "Lessen the Gap Between Doctor and Teacher," I am encouraged to write, and draw attention to a case in my own family in which had even slight notice been taken a serious form of St. Vitus Dance might have been taken in time and a bright boy's holiday spent otherwise than in bed, being fed because of inability to help himself in any way. Now that school has begun and a bright boy's holiday spent otherwise than in bed, being fed because of inability to help himself in any way. INCONSISTENT.

New York Times, Sept. 1. The German account of the naval battle between German and English vessels at the Bight of Heligoland is concise and fairly accurate, and if it were not for the too frequent use of the adjective "small" in reference to the German boats, and the adjective "large" when the English boats are referred to, would pass very well as a candid and unprejudiced account of the campaign in which the kaiser's navy was worsted. The adjectives seem to indicate a German theory that warships, like men, should select "small" rather than "large" when they fight. Presumably the British admiral did not choose the German boats he destroyed. Assuredly, he would have tackled the largest cruiser he could find in just the same spirit.

Nevertheless, we must admit that war is most glorious (or used to be, for we doubt if it ever will be) when fought by the most glorious again) when the contending parties are equally matched. Then the victor deserves all the credit he may get. When an army, though really glorious again) when the contending parties are equally matched. Then the victor deserves all the credit he may get. INSURANCE NOT FAVORED.

Insurance of each Toronto volunteer for \$1000 will probably be abandoned, according to Controller McCarthy's statement at yesterday's board of control meeting. Instead large contributions will be made to the patriotic fund and the relief fund. The board decided, however, to give each civic employee of six months' or more service full pay while away.

CAREFUL PLANNING WHILE WAR LASTS

Ontario Municipalities Will Try to Overcome Tendency Towards Stagnation.

MET IN CONVENTION

Tone Was Optimistic, While Sane So—Will Assemble Again Today.

Municipal finance and the war's effect upon it were subjects discussed in detail by the Ontario Municipal Association, at its 16th annual convention at the city hall yesterday morning and afternoon. A sane opinion was expressed during the debates; none of the representatives expected miracles, but all foresaw that by careful management and planning the money shortage and industrial stagnation could be overcome in time. Mayor Hooken spoke in this vein. He commended the Ontario municipalities on their handling of the present unprecedented situation. His opinion was that the bonds of a municipality should be as good as gold and that the government ought to maintain its credit by supplying needed money to municipalities.

G. T. P.'S CHIEF ENGINEER RETIRES FROM SERVICE

THE WORLD

—AND— THE WAR

We would respectfully draw your attention to the reliability and general excellence of The World's War News.

The World is the only morning paper in Toronto taking the full leased wire copyrighted service of the Central News, the most conservative and reliable news service in the world.

In addition to this, The World receives the war cables of The New York World, acknowledged to be among the best published in America. The Toronto World also has the Canadian Press service and the Canadian Associated Press Cables. The articles by H. G. Wells, the famous novelist, on "Looking Ahead," in which he forecasts the probable results of this terrible war, have created a profound sensation. These articles will appear exclusively in The Toronto Daily World. "The War," from a Canadian viewpoint, by the Editor, and a daily summary, written by able and well-informed writers.

CHATHAM, Ont., Sept. 2.—The war has had a very disastrous effect on an aged resident of Chatham named Moore. He stationed himself in a second story window of his house and without warning opened fire on his neighbor's residence. One of the bullets crashed thru a window and narrowly missed striking some of the inmates of the house. Moore was sent to the asylum. Reading of the war despatches is blamed for his insanity.

VICTORY THOUSANDS CAPTURED AT THE GRAND THE OLD HOMESTEAD

GERMANS AND AUSTRIANS WERE NOT RESERVISTS
 Arrested on Suspicion, Six Foreigners Released—Come Looking for Work.

Two Austrians and four Germans were held under temporary arrest at the Union Station yesterday afternoon by Detectives Archibald and Young on the strength of a telegram received by the Toronto military authorities to the effect that four German reservists would pass thru Toronto on the train from London.

Free Victoria Recitals.
 The large and steady attendance during the last two seasons at the free Victoria recitals of Ye Old Firm of Heintzman and Co., Ltd., in their spacious recital hall, 193-195-197 Yonge street, is ample evidence of the enjoyment they provide. These free concerts will commence again on Saturday afternoon and will continue during the fall and winter. Good talk has been arranged for in addition to Victrola selections, and it is expected that even larger audiences will attend than in the past. Watch Friday's evening papers for program.

HIT BY BICYCLE.
 While attempting to cross the intersection of Queen and Yonge streets last evening, Mrs. Youles, 261 Booth avenue, was knocked down by a bicycle, sustaining severe head injuries. She was removed to St. Michael's Hospital.

Stomach Troubles Due to Acidity
 SO SAYS EMINENT SPECIALIST.
 So-called stomach troubles, such as indigestion, wind and stomach-ache, are in probability nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food, and the most effective corrector of acid stomach known, should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation and neutralizes the acidity in a few moments. Fermentation and acidity are unnecessary and unnecessary. Stop or prevent them by the use of a proper antacid, such as saturated magnesia, which can be obtained from the chemist. It enables the stomach to do its work properly without being hindered by poisonous gas and dangerous acids. —M.F.P.

MORATORIUM SUGGESTED TO RELIEVE BUILDERS

Will Be Discussed at Mass Meeting in Annette Street School.

Many builders in the suburbs find themselves in a very serious position owing to the banks and loan companies holding up funds. In West Toronto the situation has become acute during the past two or three weeks and a mass meeting will be held in Annette street school on Friday night, Sept. 4, to discuss the advisability of asking the government to declare a moratorium. The matter is of so much importance to businessmen in West Toronto that the meeting will likely tax the capacity of the school hall.

W. F. Maclean, M.P., will address the meeting on "banking" and the money situation generally.

FOR FRAUD.

J. J. Ridding, 250 Hallam street, was arrested on a charge of fraud by Detective Archibald last evening. G. W. Hoyatt is the complainant.

GIRL REARRESTED.

Kathleen Hector, an escaped inmate of the Salvation Army refuge, was arrested at the home of one of her friends by Acting Detective McConnon last evening. Three days ago the girl evaded the authorities in the institution, and at the request of the Salvation Army the police issued a warrant.

SOCIETY

Conducted by Mrs. Edmund Phillips.

There was a very large meeting in the officers' mess room at the armories yesterday afternoon of the officers and sisters of the officers' mess of the Queen's Own Rifles. Mrs. Pechen, regent of the G.O.R. Chapter, I.O.O.F., was in the chair, and with her Lady Oiler and Lady Pellat, who received a very warm welcome back to the armories. Gen. Sir William Oiler spoke in a particularly straightforward and practical manner of the need of the soldiers on active service, and the difficulties of transportation of the enormous quantities of everything wanted for a large army: first food, then ammunition, and, above all, the need of clothing for the men. He said that he had seen the soldiers at all, but the most necessary thing was a clean belt, which saved a man from getting a chill in the kidneys and stomach, after that socks. He said that the absent men would like best of all to have their wives and children look after during their absence. Gen. Oiler never reaching the soldiers at all, but the most necessary thing was a clean belt, which saved a man from getting a chill in the kidneys and stomach, after that socks. He said that the absent men would like best of all to have their wives and children look after during their absence. Gen. Mr. and Mrs. D. W. Alexander are expected in town from England the end of the week.

Mr. Widmer Brough is in Montreal.

Mr. John Hay spent the week end at The Homestead, Hamilton, with Mrs. Hendrie.

The confetti ball at the Queen's Royal Niagara, on Saturday night will be the last of the season at the hotel closes for the season on Monday.

The annual convention of the Canadian Guild of Organists, which was to have taken place in Montreal on the 8th and 9th inst., has been postponed on account of the present European crisis.

Mr. and Mrs. Herbert H. Ball announce the engagement of their eldest daughter, Edith, to Frank Sinton, Chicago. The marriage will take place in October.

Miss McCollum has returned to town after a summer spent at Parry Sound.

The marriage of Miss Hazel Bigler, daughter of Mr. and Mrs. C. A. Bigler, Montreal, to Mr. John Alexander, a member of the church at Dominion Methodist Church, took place on Tuesday.

A meeting of the women of South Etobicoke will be held at Harrison's Hall, Mimico for the purpose of raising a fund for the Daughters of the Empire, to take part in the work of the organization.

Mrs. Gaylard Patterson, formerly Miss Millie Webber, and Miss Louise Patterson, Salem, Ore., are the guests of Mrs. and Miss Webber, 8 Sultan street.

A SPLENDID CONCERT FOR A SPLENDID CAUSE.

Famous Artists at the American Aid Concert, to Be Held at Arena.

The American Aid Society, which voluntarily pledged itself to raise \$100,000 for the relief of families of Canadian soldiers, announce that on Sept. 10, a concert will be given at the Arena, for which they have secured a list of famous artists.

The American Aid Society, inaugurated by Americans resident in Toronto, want it clearly understood by their compatriots that the money derived is being devoted to a relief association and will not in any sense be used for purposes of active warfare, in which they and their country have declared a strict neutrality.

The American Aid Society, bearing all expenses in connection with the concert, and the entire receipts will be turned over to a strict neutrality. The Association, with which society they are associated in this undertaking.

This concert promises to be a most interesting one, and it is hoped that the seating capacity of the Arena will be taxed to the utmost.

Tickets now on sale at Mowday's cigar store, King street, and Bell Piano Co., Yonge street.

PICKED POCKET, RAN BUT NOT FAST ENOUGH

Edward Baxter Was Chased and Captured by Two Civilians and an Officer.

After an exciting chase along West Richmond street in which two civilians and a police constable participated, Edward H. Baxter, who claims Lewisian as his home, was arrested by Constable Horton last evening. While riding on a Yonge street car Baxter was seen to put his hand into the pocket of another passenger and extract a roll of bills. The victim was not aware of his loss until another passenger told him of the occurrence, upon which Baxter jumped from the car and ran along Richmond street.

In his flight he threw away a copy of The Police Gazette, which contains police information concerning pickpockets, and the police believe he also threw away the \$11 which he stole from J. H. Barton, 29 Woodlawn avenue. When searched at No. 1 station Baxter had over \$500 on him.

RAILWAY REFUSES AMERICAN MONEY

Result of Banks' Decision to Charge Discount for Exchange.

NEWS OF WARD SEVEN

St. Mark's Congregation Decides to Erect New Church.

The latest action of the banks in refusing to accept American currency except at a discount has resulted in an order from the management of the Toronto Suburban Railway to their conductors, authorizing them to decline to take American money for fares or change. This will prove an extra subject of discussion at the meeting of the ward seven ratepayers on Friday evening.

Plan New Church. The congregation of St. Mark's Anglican Church has taken out a permit for the construction of a new church at the corner of Conduit street and Woodville avenue. The new edifice will be of red brick, with white stone facings, and will cost in the neighborhood of \$23,000.

About forty members of Toronto Junction Council, Royal Templars of Temperance, gathered the home of W. Armstrong, 285 Western avenue, last evening and enjoyed an indoor corn roast. The evening was spent in games and a good string program was rendered. Their annual outdoor picnic will be held on Saturday, Sept. 19, at Scarborough Bluffs Park.

The 36th Regiment of West York has again started recruiting, and the regimental armories at 333 High Park avenue are open every morning and evening from 8 to 10 o'clock. The recruits are wanted for home and overseas service, and will be in command by Lieut.-Col. Windeyer.

POLICY OF PROTECTION FOR YORK TOWNSHIP

Would Give Employment to Residents Only on Municipal Contracts.

Eleven residents of the district secured employment on the Lauder avenue sewer work yesterday. Deputy Reeve Miller intends to propose at next meeting of the Township Council that only persons residing in the township be given township work.

Owing to the fact that children are being sent away on account of lack of accommodation at the new Fairbank Public School, Vaughan road, since reopening on Tuesday last, it is reported that the work on the extension will be resumed immediately.

Thirty names of residents of Earlscourt, desirous of joining the proposed rifle club, have sent their names to the B. I. A. secretary.

Toronto Heights Club. It was decided at a well-attended meeting of the Toronto Heights Social Club, Harvie avenue, to keep the dues of all reservists and volunteers fully paid up until their return.

The following members have volunteered for foreign service: Fred Arms, James Gray, Stan Low, V. G. Lewis, E. R. Lewis and Thomas Meyers.

A. Harvie, president, occupied the chair. It was decided to hold a concert and dance in the clubhouse on Friday, Sept. 25.

WANT A GAME

Riverdale "B" team would like a game for Saturday at home or away.

Billy Hay says:

"If human critters would forget the scare headlines and get back to business—forget there ever was a 'Watchfire Special,' there'd be enough milk and honey to go 'round, and some left over."

"Hop to" business bright and early, and stick with it like the bee.

PUBLIC BUMPED ON CLOSING DAY

Four Favorites Won, But "Dear Old P." Got It Just the Same.

OTTAWA, Sept. 2.—The summer meeting of the Connaught Park Jockey Club closed today amidst a heavy shower of rain. The last two events on the card were run in blinding storms. Four favorites won, but the public was hard hit thru the defeat of Prince Phillip, York Lad and Kimbundy. The chief surprise of the day was the victory of Red Walker's Sherlock Holmes at 8 to 1 in the sixth race. The bookies claim to be \$50,000 out on the meeting, but they must have done well today, the four popular choices came home in front. Many shipped to Montreal today and special trains will leave tomorrow with hundreds of horses for Blue Bonnets and Dorval. Summary:

FIRST RACE—1. Katherine G., 107 (Ambrose), even, 1 to 2 and out. 2. Star of Love, 108 (Murphy), 2 to 1 and 1 to 1. 3. Don Carter (Callahan), 60 to 1, 20 to 1 and 10 to 1. Time 1:18 2-5. Rebecca, Moses, Fainale, Mona G., Meslicks and Ed. Weiss also ran.

SECOND RACE—1. Calumny, 101 (Callahan), 4 to 1, 4 to 5 and out. 2. Puritan Lass, 107 (Ambrose), 20 to 1, 4 to 1 and 1 to 2. 3. Prince Phillip, 107 (Vandusen), 2 to 5 and out. Time 1:32 2-5. T. P. Coneff and Battle Song and ran.

THIRD RACE—1. Gun Cotton, 147 (Brooks), 9 to 10, 1 to 2 and out. 2. The African, 137 (Gady), 2 to 1, 1 to 2 and out. 3. Malaga, 133 (Collock), 5 to 1, even and out. Time 3:55 2-5. Geo. S. Davis and Port Arlington also ran.

FOURTH RACE—1. Lahore, 112 (Murphy), 8 to 5, 3 to 5 and 1 to 4. 2. Vreeland, 106 (Vandusen), 5 to 1, 3 to 4 and 9 to 10. 3. Rudolf, 111 (Taplin), 4 to 1, 9 to 5 and 9 to 10. Time 1:44 2-5. Polly H., Dorothy Dean and Tactics also ran.

FIFTH RACE—1. Black Chief, 96 (Acton), 4 to 1, 6 to 5 and 2 to 1. 2. Beaumont Belle, 99 (Murphy), 20 to 1, 6 to 1 and 2 to 1. Time 1:10 2-5. Euterpe, Colors, Broomridge and Mamma Johnson also ran.

SIXTH RACE—1. Sherlock Holmes, 108 (Murphy), 8 to 1, 4 to 5 and 1 to 4. 2. Ben Uncas, 110 (Ambrose), 3 to 1, 1 to 5 and 1 to 3. 3. Tom Hancock, 99 (Neander), 12 to 1, 4 to 1 and 8 to 5. Time 1:54. Kimbundy, Early Light, Patsy Regan, Ovation and McClintock also ran.

SEVENTH RACE—Purse \$500, three-year-olds and up, one mile and 20 yards: 1. Ask Ma, 97 (Murphy), 7 to 1, 5 to 1 and 1 to 2. 2. York Lad, 105 (Neander), 3 to 5, 1 to 3 and out. 3. Good Day, 106 (Obert), 16 to 5, even and 2 to 5. Time 1:54. Jabot and Dr. Swaranger also ran.

IRISH HERE SATURDAY.
Lovers of lacrosse in Toronto will have their last opportunity on Saturday to see the Irish-Canadians in action this season. They meet the Toronto at Scarboro Beach. The famous Scotts are on their home, and back on the defence is Mosey Howard, a veteran of the Shamrocks and one of the most redoubtable defence men who ever stepped on the field. Two distinct styles of the national game will be exemplified, for whereas the Toronto depend on their speed and dashing tactics, the Irish count upon individual play close on the net, and upon selling handicap. The plan for seats is now on sale at the Bell Flang warehouses, Yonge street.

BIG FOUR FINAL GAME.
Toronto and Tecumseh will again close the "Big Four" lacrosse season with their annual fixture at Hanlan's Point on Labor Day. For several years those two teams have been meeting on the city river, and they always provide a fast and interesting game. While the Toronto appear to have the edge on the city rival, the Tecumseh can be depended upon to put up a good argument. Tickets go on sale on Friday at 33 King west.

ARGONAUT FALL REGATTA.
The Argonaut fall regatta will be rowed on the club course on Saturday. The club have departed from the usual custom of holding an at home in the evening and will instead have the football men as their guests in the afternoon, the entertainment being in the form of a "stag party."

A general meeting of United United Club will be held in Occident Hall, Bathurst street, tomorrow night, and all members are specially requested to attend. Business important.

UNFINISHED HEATS AT SYRACUSE FAIR

Margaret Druen Has Two to Her Credit in Rich Empire State Trot.

SYRACUSE, Sept. 2.—Rain interrupted the racing at the Grand Circuit meeting held in connection with the New York State Fair this afternoon. No one of the four numbers on the program was completed.

Two heats were raced in the Empire State Stake of \$10,000 for 214 trotters, and in each Lassie McGregor, the favorite, was beaten, Margaret Druen taking first place in each. Summary:

The Syracuse 2:11 pace, 3 in 5, value \$6000 (unfinished): 1. Lassie McGregor, b.g. (McMahon), 1 to 2. 2. King Couchman, b.g. (McMahon), 2 to 3. 3. Napoleon Direct, ch.a. (Greer), 3 to 4. 4. Camella, br.m. (Cox), 3 to 5. 5. Irene Beau, ch.m. (Murphy), 4 to 5. 6. Baron Alycove, b.b. (Cahill), 4 to 5. 7. Hazel Leing, m. (Andrews), 5 to 6. 8. Empire State, 2:14 trot, 3 in 5, value \$10,000 (unfinished): 1. Margaret Druen, b.m. (Cox), 1 to 1. 2. Sienna, br.m. (Gerrity), 2 to 2. 3. Lassie McGregor, ch.m. (Murphy), 3 to 3. 4. McCloskey, b.g. (McDonald), 4 to 4. 5. King Clansman, b.s. (McMahon), 5 to 5. 6. Hazel Leing, m. (Andrews), 6 to 6. 7. Time—2:05 1/2, 2:05 1/2.

Dufferins Won, But Lost on the Round

ORANGEVILLE, Sept. 2.—The best lacrosse match of the season was played here this afternoon between the Dufferins of Orangetown and Hanover, the former winning by 9 goals to 5. However, the locals were unable to overcome the Dufferins, who had been handed out, 9 to 2 against them in Hanover last Wednesday. The game was very fast and clean, and but few penalties were handed out. For the locals, Booth, Scott, Stevenson, Keith and Ewing starred, although the every man played his game well. The line-up:
Dufferins (9)—Booth, goal; Scott, point; Cranston, cover; Denmore, Derrick, defence; Stevenson, centre; Keith, Ewing, home; Camplin, outside; Patterson, inside.
Hanover (5)—Booth, goal; East, point; Henning, cover; Wendorf, Zimmerman, defence; Helwig, centre; Lewis, Howest, home; Devlin, outside; Ries, inside.
Referee—Frank Doyle.

Hearts F.C. play Queen's Park F.C. on Saturday at Varsity Stadium, kick-off at 4.30. The following Hearts players are requested to meet at Stadium entrance not later than 3.45: McAlpine, Moir, Spence, Hunter, Dickson, Reid, Attwood, Young, Allan, Larkins, Lander, Donaldson, Duncan.

IRISH HERE SATURDAY.

Lovers of lacrosse in Toronto will have their last opportunity on Saturday to see the Irish-Canadians in action this season. They meet the Toronto at Scarboro Beach. MOTORBOATS AT BUFFALO.

BUFFALO, Sept. 2.—Ten of the fastest power boats in the country will participate in the six annual regatta to be held on the Niagara River tomorrow, Friday and Saturday, under the auspices of the Buffalo Motorboat Club. Included in the entries are the Baby Doria, owned by William Cleland, Hamilton, Ont. Thursday's race will be a thirty-mile event for the championship of the United States. The Friday races will be thirty-five miles for the championship of the Great Lakes, and the closing event Saturday will be a thirty-five-mile race for the championship of America.

LEONARD AT THE DROME.

Because so many out-of-town visitors were disappointed over the postponement of the Tuesday night race meet at the Motordrome, it has been decided to run off the same card of events at the Greenwood avenue saucer this evening with the exception that Lloyd Leonard, the popular Cleveland sprinter, will take Brownie Carelake's place in the big four-cornered match race feature. Leonard is thus making his return to competition after a three weeks' enforced rest.

Other events on the program include a nine-mile invitation and a fifteen-mile free-for-all, for which no less than eight of the stars will mount the steep track together. The first motorcycle event will be started at 8.30 sharp.

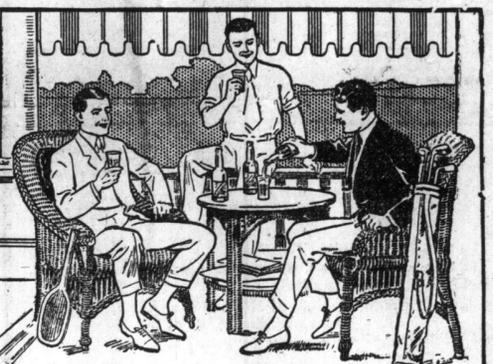

THE NATIONAL GUN CLUB.
The National Gun Club is again open for trap shooting. Next Saturday the monthly shield shoot will be held, and it is expected this will be a pretty warm contest. There will also be plenty of practice shooting.

The club invites all visiting trap shooters to come down and spend a pleasant Saturday afternoon.

These shoots will be held every Saturday and the club is at the Queen's wharf, foot of Bathurst street.

Information may be had from the secretary, J. Thomson, 22 Palmerston avenue, College 5517.

The general monthly meeting of the Hearts of Midlothian F.C. will be held in the Empress Hotel on Friday, Sept. 4, at 8 p.m. A large turnout of members is requested.
