The Telegram, the Land Butchers, and the Franchise Wolf.

The Toronto Telegram continues to ignore the real issue in regard to the annexation of North Toronto.

Mr. Fleming was the man who opposed more than anyone else the inauguration of a tubes policy in Toronto.

To the Telegram Mr. Fleming is the big bluff, kind-hearted man, who is turning hand-springs to advance the interests of Toronto.

The Globe yesterday says that the Bloor-street viaduct is absolutely essential to the welfare of Toronto.

And another peculiar thing is that the Telegram, in certain cases where Mr. Fleming is involved, has never any opinion of its own.

And does The Telegram know to-day that the most potent influence in the Toronto City Hall is Mr. R. J. Fleming?

The issue to-day is what shall North Toronto and its citizens do when they come to vote in a few days?

W. SYNOD GOING TO DO TO ESTABLISH DAILY WORSHIP?

Hon. S. H. Blake Says "We Are Living the Life of Heathen"—The Worship is Materialism and Commercialism—Standard of Reverence is Being Lowered—Twenty Parishes Defaulted in Assessment.

"We fought against the running of steamers to Niagara Falls right along, but in spite of this they are to come. Now there is to the incursion from the United States, where they have much more of the continental Sunday than we have.

Thus did Hon. S. H. Blake address the Anglican Synod at the yesterday afternoon session.

What is True State? "What is the true state of the church?" demanded Mr. Blake.

"We are living the life heather. The worship is materialism and commercialism. Are we going to let the church sink to these low levels or are we going to devise some means whereby the worship of God shall be established every day?"

"Whereas the present state of the church universal at home and abroad is a cause for deep consideration and should lead to deep humiliation and earnest prayer, and whereas the lowering of the standard of reverence for God, His word, and His day, and the declension in spiritual life in the church and in the household are being...

TURKS ROUTED BY ITALIANS LOSSES HEAVY. HOMS, Tripoli, June 12.—(Can. Press).—A strong force, composed of Turks and Arabs, with artillery, attacked the Italian positions at this point on the night of June 11.

BERLIN'S BLUSHING HONORS. BERLIN, Ont., June 12.—(Special).—Mayor W. H. Schmale has received a number of letters of congratulation from other cities on the elevation of Berlin into a borough.

The State of the Church

"What is the state of the church? Does it stand foursquare against the introductions of the world? Parents have no time to teach their children. Families do without morning prayer. Why does not the church demand that the standards of the church should not be lowered? We are living the life of heathen. The worship is materialism and commercialism. Are we going to let the church sink to these low levels, or are we going to devise some means whereby the worship of God shall be established every day?"—Hon. S. H. Blake at the Anglican Synod yesterday.

MAY GET A NEW NAME FOR ANGLICAN CHURCH

"Church of England in Canada" is Not Correct Description Nor Best Name that Could be Devised According to J. E. Jones, Who Proposed a Change.

Is the title "The Church of England in Canada" a correct description of the church and the best name that can be devised? This is the question James Edmund Jones put before the Anglican Synod a few minutes before the session closed last night.

When the motion was brought up, his lordship, the bishop, expressed the ruling that the synod of the diocese could not pass on the question until it had first been before the general synod of the diocese.

"Sent in the form of a memorial or not, matters little," said Mr. Jones, "the question of the name of the church is something which is bound to come up for consideration with the final revision, which is now proceeding, of our prayer book.

ALLEGED INSTIGATOR OF STABBING IS HELD

Antonio Longrino, Charged With Vagrancy, Believed to be Member of Black Hand and Man Who Compelled Rosso to Stab Peter Mucchera—Razor Was Found.

When Dominic Rosso was arrested at the detective office that Longrino was the man who had instigated the attack.

The razor with which Rosso made his murderous attack on Mucchera, was found yesterday afternoon in a peculiar manner. Nine-year-old Charley Reese of 388 Danforth-ave., was playing in the grass on Eaton-ave., when he cut his foot on some sharp instrument.

REV. J. D. MORROW QUITS POLICE COURT

Remarks Made by Crown Attorney Corley Caused Him to Decide Not to Present Another Opportunity, and He Will Stay Away—Other Ministers Will Enter Protest.

Many a first offender has lost a friend now that the Rev. J. D. Morrow has decided not to visit the police court in the future, as was his usual custom.

A LITIGIOUS SURPRISE. "I was a little surprised at Mr. Corley's references to my personal character, and was more so that the magistrate should have permitted them to pass ostensibly unnoticed.

A DECIDED CHANGE. "There seems to be a decided change in Mr. Corley's manner of discharging his duties as prosecuting attorney. He does not seem to consider the cases preferred against prisoners of a certain type with the former sense of fairness, but seems to desire to bring in an element of personal animosity and feeling which is altogether unwarranted."

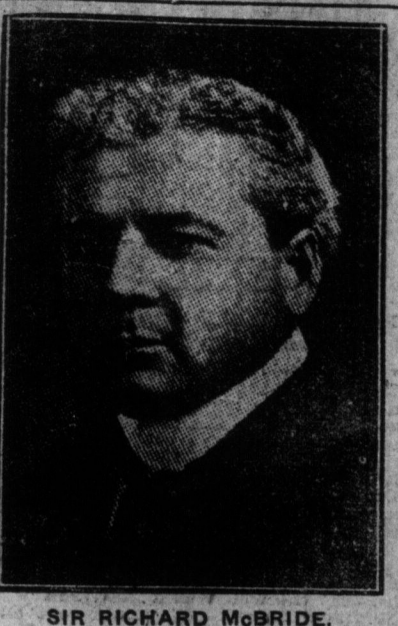

TREATED WITH RESPECT. Mr. Morrow also stated that when he was in court he treated Mr. Corley with the utmost respect, but he could hardly confess that it came to him in return.

Roblin, Premier of Manitoba, K.C.M.G., Richard McBride, Premier of British Columbia, K.C.M.G., Joseph Dubuc, late Chief Justice of Manitoba, K.B., John McDougald, Commissioner of Customs, C.M.G., Prof. James Melville Macoun, assistant botanist and naturalist, Dominion Department of Mines, C.M.G., William Henry Walker, B.A., Dominion Department of External Affairs, Imperial Service Order.

LONDON, June 13.—The King's birthday honors were issued to-night. The Earl of Carrick, Field Marshal Sir Wm. Gustavus Nicholson, Sir Francis Alington-Channing, who was born in the United States, and Sir Thomas Borthwick are created barons of the United Kingdom.

Mr. Samuel Nordheimer, Canadian consul to the Netherlands and one of the best-known and oldest of the residents in Toronto, is 81 at his home, "Glen Eddyth," on Davenport-road.

SIR R. P. ROBLIN

Joseph Dubuc, late chief justice of Manitoba, knight bachelor, and William Henry Walker, of the department of external affairs, is given the imperial service order.

The birthday honors differ from those bestowed at other times, inasmuch as they are bestowed by the King personally without direct recommendation from other sources.

Sir Rodmond Palen Roblin has been premier of the Province of Manitoba since 1900. He is the son of James Platt Roblin and Deborah Roblin, both of Dutch descent, and was born on Feb. 15, 1853, at Sophiasburgh, Prince Edward County, Ontario. He was educated at Albert College, Belleville, Ont., and removed with a young man to Winnipeg, where he became engaged in the grain business. For five years he was reeve, and two years warden, and for some time school trustee of Dufferin, near Winnipeg.

Sir Richard McBride, LL.B., K.C., is 42 years of age, and the youngest man to have ever held the honored position of prime minister. He is a native son of British Columbia, and became premier of the province in 1900, when he was only 31 years of age. He was born in New Westminster, B.C., on Dec. 15, 1870, and is the son of Arthur H. McBride, formerly warden of B. C. penitentiary, and Mary Darcy, both Irish. Premier McBride was educated in the public and high schools of New Westminster, and received his higher education in Dalhousie University, Halifax, N.S. On Sept. 23, 1896, he married Margaret, the youngest daughter of Neil McMillan, of New Westminster, and is now the father of five children. He contested New Westminster district, unsuccessfully at the Dominion general elections in 1896, and was elected to the legislature in 1898, 1900 and

1908, for Dewdney, and at the general election in 1907 for Victoria City. He was appointed minister of mines in the Dunsmuir administration, on Sept. 21, 1908, when he was 30 years old. But he resigned this seat a year later, in consequence of not agreeing with the premier's action in joining with Joseph Martin and in inviting J. C. Brown, who had been finance minister in his cabinet, to accept the office of provincial secretary. In 1909, when the house met, he became leader of the opposition, and on June 1 of the same year he was called on to form a ministry. After forming the government, he became premier and chief commissioner of lands and works. At four general elections since then, one just recently, he went back to office with sweeping majorities, and he is now premier and minister of mines.

Sir Joseph Dubuc.
The Honorable Joseph Dubuc, B.C.L. (McGill), LL.D. (Toronto), late chief justice of the circuit court of the King's Bench of Manitoba, was born at St. Boniface, Manitoba, on December 18, 1853. He was admitted to the Quebec bar in 1883. In 1870 he went to Manitoba where he was later elected to the first legislative assembly of that province. In 1871 he was superintending the Catholic section of the Provincial Bureau for a number of years. In 1872 he married Marie Ann, daughter of H. B. Henault of St. Catharines, Quebec, by whom he had five sons and five daughters. From 1872 to 1909 he has filled many positions in the provincial service, having been attorney-general for two years and chief justice for six years. He was also elected to the house of commons for three years. He has been a member of the council of Manitoba University since its foundation in 1877 and vice-chancellor since 1888.

John McDougald.
John McDougald, commissioner of customs, was born in Blue Mountain, N.S., the thirteenth of March, 1845. He was educated at the grammar school, New Glasgow, N.S., and was later in business for some time in that town. In 1872 he married Margaret J. McLeod of Westville, N.S., by whom he had two sons. He was justice of the peace and county councillor for the county of Pictou from 1881 to 1896, when he resigned to take the position of commissioner of customs, which he occupies at the present time.

Prof. J. M. Macoun.
Prof. James M. Macoun is assistant botanist and naturalist in the geological survey branch of the department of agriculture. He was born in 1858, and entered the federal service in 1898.

William Henry Walker.
William Henry Walker, B.A., is chief clerk in the department of external affairs at Ottawa, where he entered in 1884 and entered the federal service in July, 1887.

The Earl of Carrick. is the seventh in line of a creation dating from 1748, and is inspector of the department of agriculture. He is a member of the House of Commons and has had a distinguished military career, has been repeatedly mentioned in despatches, was quartermaster-general and is a member of the Royal Artillery.

Sir Francis A. Channing. has been active in promoting agricultural, educational and labor reform.

Sir Thomas Northwick. has large mercantile and colonial interests and is president of the Midland Liberal Association.

NEW SCHOOL FOR BERLIN.
BERLIN, Ont., June 13.—(Special).—The separate school board have accepted a tender of \$23,000 for the erection of a four-roomed brick school in the north ward for accommodation of the lower form scholars of the west and north wards. The school is ready for occupation at the beginning of the new year.

TWO YEARS FOR LYON.
CLEVELAND, June 13.—(Special).—The fact that 1500 delegates to the Charities and Correction Congress are gathered for the important nature of the gathering. They are here from practically all American centres and from Canada and the work is now in full swing. General morning sessions are held in Engineers' Hall. The evening sessions are held in the new hall, a sectional meeting, and those of affiliated societies are also in progress. The keynote was found in the opening address of Judge Julian H. Mack of the United States Supreme Court, president of the conference, when he made a glowing appeal for a broader and more constructive charity, than the world has yet known.

As in Canada. the report from its committee showed a majority for unrestricted immigration and a minority for restrictive measures on economic grounds.

TEARING DOWN SCHOOL.
Work Commenced Yesterday on Old Annette Street Building.

WEST TORONTO, June 13.—(Special).—The school board has commenced work on the tearing of the old Annette-street school, which has been the principal elementary educational centre of West Toronto for so many years. During the past year the property has been erected on a large new building in the rear of the old school on Cleveburn-avenue, and the extensive grounds facing Annette-street will now be converted into a spacious park. The turf from the old lawn is being utilized for the terraces around the new building.

What threatened to be a serious fire broke out through unknown causes in a storehouse belonging to the Standard Sanitary Company at Lansdowne-avenue, between the intersection of the street, Perth-avenue, from Keele-avenue stations worked for over an hour to save the building, which was only slightly damaged. Nearly \$400 damage was done to the contents, however.

About 11 o'clock this morning a team of York County, and attached to a wagon belonging to the Canada Lime and Cement Co. was backing up a loading train on Dundas-street, near Bloor-street, when it collided with a heavy truck driven by Jas. Rich, 609 West Queen-street, which was thrown out. No one was injured.

Dr. H. E. Tremayne, formerly of West Toronto, and residing at Prince Rupert, is visiting friends in ward.

The Standard Bank of Canada today obtained a permit for the erection of a branch office at Dundas-street and Quebec-avenue, to cost in the neighborhood of \$10,000. E. W. Bull of Weston has also taken out a permit for a pair of stores with offices above in the street, near the car terminals at Keele-

KINGSTON JAIL BREAKERS GET 19 YEARS ADDED TO SENTENCES

Arthur Bonnar, One of Quartet of Western Desperadoes, Pleading for Clemency With Such Eloquence and Ability That Judge Promised to Aid in Getting Sentence Suspended.

KINGSTON, June 13.—(Special.)—Two years hard labor for escaping and seven years for assaulting penitentiary officers, was the severe sentence imposed upon each of the prisoners, George Brown, Harry Kelly, Arthur Bonnar and Frank Jones, by Judge Hadden today in the court of general sessions. Jones and Kelly, with Bonnar and Brown, assaulted their keepers and boldly walked out of the big prison in broad daylight on April 23, and were afterwards captured.

NEW YORK STATE COPEs ONTARIO

Hydro-Electric Legislation Will Probably Be Based on Laws of This Province.

Ontario's power policy is receiving still more prominence in the United States. At the third annual conference of the mayors of the State of New York at Utica, N. Y., a resolution was passed endorsing the power policy of the Province of Ontario and memorializing the state legislature to pass legislation with a view of promoting a similar undertaking in the State of New York.

Trotting Close at Seaforth

Note and Comment

Canada's contingent of oarsmen and athletes leave this week for medals and glory at the Olympic games in Stockholm. Most will be expected of our own Argonaut oarsmen.

Hon. Coach Joseph Wright stated last night that the eight and Butler, the single sculler, are in splendid shape. They trained nicely down to weight regardless of the backward season. There were only four good days since the left the bay and the weather has been unusually cold. Every man is down to weight and the officers of the club expect the crew to make the best showing at Henley and Olympia that ever was done by Canadians. In fact those who have watched the Argos at work will be greatly disappointed if they fail to win.

Canada will at least start one favorite in the athletic events, viz. Geo. Goulding, the walker. Of the others it does not look as if any outside Howard, the sprinter, will have much of a chance.

The Leafs are home to-day, fresh from their victorious jaunt to Buffalo. Just see how the fans forgot about those defeats in a row and hear them roar three straight from Rochester. Unlike Montreal the Huskies are always easy for Toronto.

The Washington Senators are playing havoc with the western teams in the American League and are still unbeaten since invading the enemy's country. Four straight from St. Louis, Chicago and Detroit in quick success and one yesterday at Cleveland, besides a victory over Boston just before starting west, make fourteen games in a row and a season's record for consecutive victories. A great welcome is awaiting the team in Washington.

One catcher did double duty in a game between the teams of Columbia and Yago City, of the Cotton State League, at Yago City, on Tuesday. In the second inning of the first game the Columbia catcher was hurt, and there was no one to take his place. The Yago City catcher volunteered to keep the game going, and it was so agreed by the managers. His play was brilliant, and he did good work for both teams, Yago City winning.

Vancouver World: Not a single player on the championship aggregation failed to get everything out of his position that there was in it. Nick Carter, however, was the bright star of the Royal defence. Four goals was his contribution to the total amassed by Vancouver, none of them earned except by the most skillful play, and all bringing out a lot of appreciative applause where they were marked up to Vancouver's favor.

Men's Oxfords

We have another 500 pairs of the splendid lot we have been selling out for two days and now there are not only patent leather oxfords but gun metal and tan oxfords—every pair worth the regular retail price, but as we told you the other day the maker of them gathered them up in cancelled orders and we bought them, so that even at this little price we can still make a few cents a pair and do not have to appear as philanthropists altogether—we'll make quick work of the whole lot to-morrow—remember lots and lots of them are stamped \$5.00 on the soles—and some are worth \$6.00 a pair—all selling at 1.95

Beach Canoe Club Regatta on Saturday

All roads will lead to Balm Beach on Saturday to the big regatta under the auspices of the Beach Canoe Club. The war canoe event is the chief attraction among the paddlers of all the clubs. The Beach crews hope to hold the Beach championship while Parkdale, Toronto and Island Aquatic are equally confident of taking it away with them. The Beach Canoe Club are putting up handsome individual prizes for first and second, and are entertaining the visiting crews to dinner after the race. Balm's Band will be in attendance during the afternoon, and the following program will be run off:

Single blade tandem (O'Callaghan Trophy).
Junior single blade single (Berkshire Medal).
Double blade tandem.
Senior single blade single.
Ladies' double blade single.
War canoe race.

The Evesham Trophy will be given for the spring championship. This will be the first regatta at the Beach with a big open entry, and they are leaving nothing undone to make this regatta the blue ribbon event of this season's aquatic sports. A formal dance will be held in the evening when the prizes for the regatta will be presented.

Two New Pitchers To Help Out Leafs

President McGaffery Secures New Material—New York Giants Play Here July 25.

President McGaffery and manager Joe Kelly's trip to gather up any loose material in the pitching line has been successful. The President has secured two new pitchers to help out the Leafs this season. He is a twirler with a good record.

President McGaffery wires that the New York Giants will play an exhibition game at the island on July 25. The game is scheduled to play the Leafs on this date, but a doubleheader will be played on July 24 to allow the Giants to play here on the 25th.

Roy Woodcock's evidence shortstop, has been given an unconditional release.

The Leafs have a three-game series with the Islanders this afternoon at the island. They will start at three. A doubleheader will be played to-morrow. Seat sale will be held at 10:30 this evening.

Moose Jaw's Great Year

H. G. Coleman, publicity commis- sioner of "the town that never had a boom," was in Toronto for a few hours yesterday, telling his friends how glad Moose Jaw is that the duty on cement had been reduced. Ten million dollars' worth of building operations, besides great public improvement works, were tied up and at a standstill because of a shortage of cement. A few days ago and the big construction movement in Moose Jaw will be making up for lost time.

Mr. Coleman remarked that 1912 is proving a great year for Moose Jaw. Crop reports from the big section of Saskatchewan, of which it is the centre, were distinctly encouraging. Wheat is well advanced and giving promise of heavy yield.

January derives its name from the Roman god Janus, who was represented with two faces; one was the face of an old man, typifying the past year; the other that of a youth, in reference to the new year.

MICHIES HAVE ACCEPTED THE BANK'S OFFER

Decide to Take Slightly Over Half Million for Property Adjoining the Dominion Bank Building is Learned From Authoritative Sources—Will Have Largest Financial Site.

From good sources yesterday it was learned that Michies had at last sold their property to the Dominion Bank at a price slightly over their offer of two weeks ago of five hundred thousand dollars.

Michie & Co. are said to be looking round for an uptown site, and rumor says they will go close to Bloor and Yonge.

If the bank has closed the deal with Michies they have now a frontage on King-street of 100 feet and on Yonge-street of 169 feet. This is the largest piece of property held by one interest in the downtown section, outside of the Hotel. The Dominion Bank site is now as large as the properties occupied by the C.P.R. and Traders' Bank buildings together.

The bank will probably cover the whole site with a magnificent office structure. It is worth noting that the Oslers have an interest in three of the four present best corners in Toronto. The site of the C.P.R. building is held in their name, as is also the Janes building.

The Michie property is at 5 and 7 West King-street. Eight feet of the frontage, adjoining the bank, has a depth of 62 feet, 11 feet frontage has a depth of 31.10 feet and the remaining 29 feet runs thru to Melinda-street 169 feet. A half million dollars is approximately \$11,000 a foot for the double frontage property and \$5000 a foot for the remainder. The total assessment is \$215,450.

A curious instance of the manner in which modern transportation facilities have brought closely together the old and the new worlds came to light the other-day in the Grand Trunk Railway's new hotel at Ottawa, the Chateau Laurier. Some of the barbers employed in the building were brought there especially from Europe, and among them one from Edinburgh, who had worked at his trade in that city up to the day he sailed. This man had for one of his latest customers an Englishman whose personality impressed itself upon him more than usual by reason of a conversation which he had with him. Great was the mutual surprise of both men, however, when the Englishman seated himself in the chair of the same barber more than usual by reason of a conversation which he had with him. LORETTO ABBEY AFTER NEW SITE ON BATHURST ST.

Allen Farm West of Newtonbrook May Be Bought at \$700 an Acre—Grand Trunk Said to Have Understanding for Purchase of Wellington Street Property.

Negotiations are on for the purchase of the 200-acre Allen farm, at the northwest corner of Bathurst-street and Finch's side line, by interests representing Loretto Abbey. The farm is owned by Lawrence Solman and R. A. Smith. It is said that it will be used as the site for new buildings and grounds of the institution, which now occupies a small tract of land at the northwest corner of Avenue-road and Eglington-avenue, and has found this property too small.

Up till four or five weeks ago the Allen farm was owned by Lawrence Solman and J. A. McKee, but the latter turned his half interest over to Mr. Solman, who transferred it to Mr. Smith. J. A. McKee bought the property about two years ago for \$500 an acre. The present selling price is given as \$700 an acre, or \$140,000 for the farm. The abbey is said to have sold its property on Wellington-street, near Spadina-avenue, to the Grand Trunk Railway for about \$370,000. This deal has been denied, but persons who should know claim that there is an understanding between the two parties. It is also taken for granted that the railway intends to ask possession of the property in a very few months.

TODMORDEN NOW WANTS TO JOIN

Impatient at Township's Indifference to Their Needs, Residents Will Hold Meeting on Annexation.

Trifling of the indifference of the York Township Council to its crying needs, now Todmorden wants the city to help it out. Bearing the same relation in distance to the business centre of the city as old Seaton Village, now such a well built and integral part of the city that its identity is almost lost, Todmorden finds itself without car service, without a satisfactory water supply, without sewers and with a menace to the community's health in its poor sanitary conditions. York Township's apathy is explained by realization that the district being so close in, so well built and constantly increasing in population, cannot but in some day soon become part of the city. In annexation to Toronto the residents see adequate police and fire protection, city services and car lines. A meeting to discuss how best to approach the subject will be held in St. Andrew's Hall, Pape-avenue, next Saturday evening. The ratepayers will also consider the matter of equitable assessment. Todmorden, roughly, goes as far north as the east and west stretch of Don Mills-road, and hardly as far east as Greenwood-avenue. Without annexation the district will be with the building of the floor-st. viaduct, an important adjunct of the city.

WANT DOWNTOWN WIRES BURIED

Board of Control Decide to Make Application to Railway Commission--Architect's Estimates Not Cut.

At their meeting yesterday morning the board of control decided to make application to the Dominion Railway Board to have all the overhead wires in the downtown district placed underground. As a means to this end it was also agreed to take the matter up with Premier Borden with a view to bringing about a conference with the companies concerned in order to arrive at some solution to the problem. The motion embodying this scheme was moved by Controller Church for this purpose, and it was also recommended that a conference be held with the various companies concerned in order to arrive at some solution of the problem. Mayor Geary claimed that the law as it now stands means that the city could have all wires put underground if they paid the costs. The city, he said, had appealed to the cabinet at Ottawa to have the onus of this work placed upon the companies, but as yet nothing had been done in this respect. Controller Hocken also contended that the government should compel the various companies to place the wires underground, as had been done in the State of New York. It was Controller Church's idea to have all the wires buried in the district south of Queen-street between Simcoe and Jarvis-streets and then to gradually extend the area. It was thought, however, that the Dominion Railway Commission would have no jurisdiction over the hydro-electric, and hence it was deemed advisable to have a conference arranged if possible. The controllers took exception to the statements in the press to the effect that they had cut down the estimates of the city architect's department. Both in their estimates and in their

subsequent appeals for funds this department had received everything which had been asked, they said, and it had been intimated to them that they would be given whatever additional funds were required. Controller Church claimed that the department was better equipped with inspectors than most American cities of similar size. What it lacked, he said, was an efficient organization.

That the trolley sprinklers when filled with water were so heavy that they damaged the streets was a contention made by Controller Hocken, who asked for a report upon this matter, to which the board agreed. Controller McCarthy asked for a report from the property department showing how much water had been used by the street railway company with their sprinklers last year.

Assessment Commissioner Forman reported that the figures regarding the cost of widening Teraulay-street to the present width would be ready by July 1.

ANNEXATION TO CITY BEST

Declares Prominent Man and Large Property Holder of North Toronto--Opposed to Deal With Radial.

NORTH TORONTO, June 12. (Special.)--Mr. John Pears of West Eglinton-avenue is outspoken in his favor of annexation. Interviewed by The World this afternoon, he said: "I am

going to vote for annexation even though my property may be assessed for a few hundred dollars higher. There are several large issues coming up soon which I think the city would be better able to deal with than the town."

"For one thing Yonge-street should be widened on the west side and paved. This will cost a great deal and I think the town may have some difficulty in financing this work as it has had to expend a great deal in other directions. The city would be able to do this work easily."

"The city will grow completely around this town in a few years," said Mr. Pears, "and then we will be forced to annex. It is bound to come sooner or later and it may as well come now. I don't expect 'one fare' or paved streets to come immediately after annexation but we will get them in a couple of years."

"I am strongly opposed to any deal with the York Radial people. It has been my observation that in deals of this kind the town usually gets the small end of it. Why even the city

gets the worst of it in some of these deals," said Mr. Pears, laughingly. "However, I think that the city is better able to deal with that problem and the taking in of Leaside than we are."

LATHERS STRIKE

An official of the Lathers' Union stated to The World yesterday that it was very likely a settlement would be made between the bosses and the men during the next few days. There is only one agreement, however, that can be arrived at, and that is the one submitted to the builders some time ago. Until they get what they demanded the lathers will not resume work.

For quick and profitable sale, list your North Toronto properties with R. W. E. Burnaby, 527 Confederation Life Building, Main 578.

DROP IN WHEAT PRICES SENTIMENT IS BEARISH

Chicago Hit Affected By Recent Reports and Heavy Liquidation is Resumed --- Corn and Oats Close at Decline.

CHICAGO, June 13.—Inland movement of new wheat from Oklahoma and the springing of harvest work in Missouri counted here to-day against prices in the pit. The market closed unsettled, 3-8 to 1-8 under last night. Corn made a net advance of 1-8 to 1-2 and oats finished 1-4 to 2-8 off to a like amount. Late trading left provisions varying from 25 to decline to a rise of 2-1/2 cts.

Speculators on the bear side of wheat awaited themselves quickly of news that St. Louis millers had carloads of this season's crop on the way from Oklahoma. Vigorous pounding gave fresh impetus to a downward, the largely to rains that were said to be excellent for filling wheat in Kansas and for bringing on an abundant yield in the spring-sown fields of the Northwest. Then came word that cutting of wheat had begun at Sikeston, Mo., and that the country was fine.

Up Turn in Corn. The ascent of corn seemed the consequence largely of predicted falling off in receipts from the country. Sellers, however, were not unamused in such forecasts. Besides, what weakness sold the market down a good deal of the time.

Purchasers turned from July oats to day to the September option. It was argued that should anything happen to cut down present crop prospects the deferred delivery could easily sell at 70.

Smaller western packers took the selling end of the provision market. Most of the pressure was on lard.

The Superiority of Broderick's Clothes for Men

Their distinctiveness is a matter of design—their individuality a matter of intuition—their tailoring a matter of talent—their style a matter of common sense wherever worn.

Just notice the lines of a Broderick garment. See with what accuracy and grace they fulfil their purpose. There is that individuality expressed which is the fruition of years of effort. There is that quiet elegance which all men want and we alone can offer.

SUGAR QUOTED LOWER IN TORONTO MARKET

Prices Dropped Ten Cents Per Cwt. Owing to Lateness of Fruit Season.

Whole-sale quotations on sugar were lowered to 25.5 per cwt. yesterday, a drop of ten cents for the day. The decline was cited by dealers as due to the backwardness of the fruit season and the consequent slow demand for sugar for preserving purposes.

OWEN SOUND FEELS CUT IN CEMENT DUTY

Local Companies Say They Will Be Forced to Close Down on Account of Government's Action in Allowing American Product to Enter Canada at Lower Rate.

Business in Owen Sound would be seriously affected if the cement factories closed down, and according to the managers of companies in the lake port, there is every chance of such a happening as a result of the government's action in reducing the duty of American cement. Says one cement man in Owen Sound: "If the duty is cut in two for just Western Canada alone it will not affect the local plants, but if the tariff is for all the Dominion it will soon put independent plants out of business."

Mr. Kilbourn, manager of one company, says: "The reduction of cement duty proposed by the reciprocity pact was one and a half cents per hundred pounds, or about five and a quarter cents. If the duty was reduced by that half, as it would now appear to have been done, the reduction of duty would not materially affect the independent companies as well as the Canadian Cement Company, for the reason that the cement trade in the United States is in a deplorably over-produced condition, the productive capacity of the industry being far beyond the consuming capacity of the people, and Canada being the most content country in which to dump the surplus. The price at which Canadian cement was being sold was not by any means the American price, plus the freight and duty, but on the other hand was about such a price as the American cement would sell for in Canada without any duty at all at a reasonable profit at the American mill, plus freight."

The American freights on cement are about one-third the Canadian freight rates, so that cement can be transported at a double or even triple the distance on an American line that it can on a Canadian line.

Regarding the cement scarcity, Mr. Kilbourn says: "In the end, the independent cement plants out of business. It is right that the transportation have at present in their bins over one million barrels of cement awaiting shipment."

A NEW PROCESS FOR DEFROSTING MEAT.

A demonstration held at Plymouth of a new method of defrosting meat is described in a report from the South Wales agent of the Queensland Chamber of Commerce.

It is claimed that frozen beef and mutton can then be placed on the market in such a condition as to compare favorably in appearance with prime English meat. This demonstration was attended by representatives of the meat trade of Australia, Great Britain, the United States and South America.

The beef and mutton had been held in a temperature of about 18 degrees for about three weeks after removal from the ship. It was then placed in the patent chambers (beef for forty-eight hours and mutton for twenty-four hours) in a temperature of 62 degrees.

The fact that stocks are dull now owing to the development work having to be done does not mean that the holiday season may be dull. Indeed, to the contrary, this holiday season might be just the reverse of other years."

And stock tables bear out what Mr. Guntton says. Just now in general stocks average at the reasonably high mark. True, stocks in undeveloped mining properties have yet to make a mark, but considering the season might be just the reverse of other years."

BIG MINING MERGER ACROSS THE BORDER. Cripple Creek, Nevada, Properties in \$35,000,000 Consolidation—Foreign Capital Interested.

BOSTON, June 13.—With the consummation of plans now under way there will have been consolidated the leading gold mines of Cripple Creek, with a capital of \$30,000,000 to \$35,000,000. The El Paso property will form the nucleus of the merger.

John Moody, the well-known stock journalist and editorially in the Toronto Globe, has written of an unusual financial campaign, it is claimed, in the drop conditions of the market. Such a campaign, it is said, will see a large amount of stock in Wall Street, and the market will be limited, and the price will be held up as easy as it is possible under the conditions.

The Cripple Creek district had produced approximately \$27,000,000 gold up to Jan. 1, of which \$18,000,000 was the date last year. Recent operations have been at the rate of \$2,000,000 annually, which should increase output up to the end of 1912 to \$37,000,000. Dividends paid up to the end of this year amounted to \$35,000,000, of which \$15,000,000 was paid during 1911. The El Paso Company, with \$25,000,000 capital, has paid to date \$3,700,000 in dividends and produced \$3,700,000 gold. This year's output should run up to \$17,000,000.

Foreign capital will doubtless figure largely in the proposed merger, as there was shipped in last week a single block of 400,000 shares of El Paso, purchased by German and Swiss banking interests. Representatives of French bankers have just gone to examine the property.

Evil days fell upon the Cripple Creek camp several years ago with the flooding of the mine. To unwater the properties the Roosevelt mine was constructed and connection with it has resulted in draining to about the 1850 foot level the mines which were flooded.

WHEN DETECTIVES DISAGRE. LOS ANGELES, June 13.—(Can. Press.)—The respective claims of Detective William J. Burns and Samuel E. Brown, chief of detectives, attached to the district attorney's office, to some \$50,000 reward money, offered for the arrest and conviction of the dynamiters who blew up the Times Building, are expected to become involved to a considerable extent in the trial of Clarence B. Darrow for alleged jury bribery. Both men have employed attorneys to look after the collection of the rewards.

OTTAWA'S HEAVY WATER WASTE. OTTAWA, June 13.—(Can. Press.)—Starting discoveries have already been made by the experts of the Ptomote Company of New York, who have been engaged for the last few days in making tests of the water mains to find out where the leakage is taking place.

One leak was found on Somerset street, near the waterfront, which alone was responsible for no less than 7,000 gallons loss of water every twenty-four hours. Many other leaks have been discovered in the western portion of the city.

Preserving the Tallest Trees. Not long ago a popular movement to preserve the gigantic stringybarks (various species of eucalyptus) of that country, which far exceed in height the famous "big trees" of California, and are the tallest trees in the world. These trees sometimes attain heights ranging from 400 to 600 feet. Their preservation has been a matter of concern, and this reason they have been ruthlessly destroyed by lumbermen, while no steps have been taken to provide for their reproduction.
