MACHINISTS' STRIKE PROVINCE WIDE

The latest news given out at midnight respecting the strike of the machinists was to the effect that the machinists in the contract shops throughout the province would likely be on strike at noon today.

In these circumstances the general situation may still be considered grave. The meat cutters are also restive, and the letter carriers who held a stormy meeting at the S.O.E. Hall, Bert street yesterday afternoon, were restrained from taking a strike vote on the spot only because of the influence of the officers of the union.

The Housing Fiasco.

With the resignation of the five gentlemen who composed the proposed housing commission we have the inevitable result of the action of the city council blockaders. They will not be forgotten next Christmas. Meanwhile the housing situation is getting worse all the time, and notices of rent increase are being served on labor men, soldiers' wives and all kinds of people who need relief rather than extra burdens. It may seem fine business for Messrs. Plewman, Mordridge, Honeyford, etc., to block the efforts being made to open up cheap land or to provide cheaper houses for those in urgent need of them. But the people have a different conception of the matter.

Perhaps Mr. Plewman will say on what authority he represented the soldiers in his successful attempt to overthrow the housing scheme. Perhaps Mr. Mordridge will say what commission he had from the ranks of labor to represent them on this particular stunt? We can imagine Mr. Honeyford's reasons after his previous performances in the North Toronto affair, and on that occasion a clue was afforded to the motives of various gentlemen interested in real estate.

We believe that both labor and the war veterans would have had just and honest service at the hands of the gentlemen who had consented to act on the housing commission and neither more nor less than that is required. If the board of control can do anything to revive the project the citizens as a whole would be under obligation to them and to those who have now resigned should they consent to resume the responsibility of the work.

For the obstructionists in the city council there is but one thought, and it is not complimentary.

The "Big Four" Campaign.

In many respects the subscription campaign which closed last night was the most remarkable that ever occurred in Toronto. The sum that was realized, although barely 50 per cent. of the objective, was a popular subscription, that is to say it was made up of moderate and small amounts. There were only four subscriptions of \$10,000 each and the generous contribution of the Eaton firm and its employees of over \$40,000. But the wealthy men of the city held aloof and left Toronto in the lurch. The city authorities did not see their way to contribute and all things considered the sum attained is more than creditable to the campaign committee.

The final meeting last night was a scene of unbounded enthusiasm, and Sir James Woods, the host of all the festivities, was the centre and subject of a rare ovation. He recognized the difficulties of the situation, intangible and insurmountable things, which held back those who should have been the first to think of Toronto and the last to yield to the humors of a passing prejudice. Toronto has been the sufferer, and those in Toronto who should not have been expected to suffer. It is to be hoped that on sober second thought there will be a liberal and open-handed reaction which will make up all the funds to their designed proportions. A protest is all very well, but a protest at someone else's expense is not so well. The collective charities of Toronto, the hospitals, and so forth, the necessary repatriation league of which General Gunn has been the pioneer, the Great War Veterans' movement, are all indispensable activities as matters stand today, and whatever may be thought or imagined the authentic reports of qualified and independent observers declare that the work of the Y. M. C. A. cannot be left out of the social life of the city without grave consequences. We have maintained such an honorable record in Toronto during the war that failure was deemed impossible. Indeed General Gunn was still confident last night that before long the city would go "over the top" for the full amount required. Be that as it may Sir James Wood and his associates have nothing to reproach themselves with in the result of a campaign whose enthusiasm was met by one of those strange moods against which no generous sentiment could prevail. At the same time, as Sir James observed, "to get such a group together for a week in community service is worth a million dollars to Toronto." A permanent body of such a kind, working for community ends, could effect marvels in the life of any city.

James Hewitt, no home, was brought back from Hamilton yesterday by Detective Nurse on a charge of stealing a bicycle in Toronto.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

A HOUSING PROBLEM FOR SIR WILLIAM HEARST.

Editor World: Premier Hearst, address in the Toronto housing deputation which waited upon him recently, asking that this city be allowed to finance a housing scheme after the manner designed by the benighted new housing commission, rather than operate under the Ontario housing act, and utilize the cheap money provided by the federal government, is reported to have said "that the \$25,000,000 advanced by the Dominion government to the province was loaned only subject to certain conditions, which limited the cost of houses and standards of construction. The standards set by the Dominion government did not allow the same latitude as did those of the Ontario act, and the province had a hard fight at Ottawa to obtain permission to allow such latitude in its scheme." Just four conditions were attached to the federal government's offer. Briefly they were:

- 1. The province must prepare a general scheme to be approved by the federal government.
2. The maximum amount to be loaned on each house (the not necessarily limiting the cost of the house) was: For wooden, stucco or veneer houses, four or five rooms, \$3000 maximum; six or seven rooms, \$3500 maximum; for brick, tile, stone or cement houses, four or five rooms, \$4000 maximum; six or seven rooms, \$4500 maximum.
3. Land for houses might be owned by the province, municipality, public utility company or individual.
4. The loans to be repaid in 20 years with a possible extension to 30 years.
In addition some principles and standards were recommended for incorporation in provincial schemes, but these were not recited.
The provincial government's regulations pretty strictly limit the cost of a house and lot to \$3600. It was this limitation the benighted commission declared made the Ontario plan unworkable in Toronto. How does Sir William Hearst make out that the Ottawa conditions were more restrictive than his own? But surely a \$4500 loan was enough on a workman's house. One Interested.

DEATH SENTENCE FOR GERMAN PEOPLE

Ministers Declare That Terms of 'Treaty Mean Perpetual Enslavement.

Berlin, May 9.—The German government has telegraphed to the delegates at Versailles ordering them to present to the allies and associated powers within the fifteen days allowed a proposition demanding verbal discussions, despatches from Berlin say. The peace committee of the German national assembly at a meeting Thursday discussed the peace terms. President Eberbach of the assembly declared that the terms presented to Germany were more drastic than the most pessimistic forecasts had indicated and that the provisions meant the perpetual enslavement of the German people. He declared that the treaty was dictated by hate. Chancellor Scheldemann, Berlin despatches add, pointed out what he called the contradictions between President Wilson's principles and the peace terms. He described the terms as being a death sentence for the German people. The committee adjourned after approving the announced intention of the government to obtain an "acceptable peace" by negotiation.

THE DAY AT OTTAWA

By TOM KING

Ottawa, May 9.—Our old friend Judge D. D. McKenzie made a speech in the house of commons this afternoon which has thrown his followers more or less up in the air. The liberals have been trying to reunite and reorganize as a free trade party and in no other way can they hope for support from the west. The western leaders who have been here this week made this abundantly plain. The farmers are nominating their own candidates in the prairie provinces and they cannot be absorbed into the liberal party unless the liberal party is prepared to go the whole hog on the tariff question.

There was a slim house this afternoon as many members were in attendance upon the special committee in charge of the bill to amend the railway act. The Toronto-Niagara power clause was before the committee, which had addresses from D. L. McKenney, W. G. Anglin, Alme Geofrion and other counsel representing the corporations and also to the vigorous arguments put up by G. H. Kilmer for the Hydro-Electricity and G. R. Geary for the City of Toronto.

The subject before the house was the contract made by Hon. Mr. Ballantyne with the Dominion Steel Co. for 250,000 tons of steel for the railway. This contract now appears improvident, although it was probably the best that could have been made at the time. The steel company, as a matter of fact has not completed its plate factory, and the government by paying a reasonable sum could probably cancel the contract. Judge McKenzie, who happens to live at Sydney, wants the factory finished and the work to go on. Hence he took sharp issue this afternoon with Dr. Clark, who believes that the contract is the best that could be made.

The western unionists have laid their proposals for tariff reduction before Sir Thomas White, and they are said to be not at all unreasonable. The reduction asked is a general one and is designed to reduce the cost of living generally rather than to benefit the farmers. Free food stuffs and a man delegation at Versailles, as asserting that the only immediate solution is a peace with Russia and the employment of Bolshevik troops by Germany.

THE SITUATION IN EUROPE

The Associated Press issues the following on the European situation: The peace terms to be presented to Austria are rapidly taking concrete form. It is announced from Paris that the drafting committee has begun work on the terms. The committee has not yet decided on the naval terms, and contemplates the wiping out of the entire Austrian navy, the surrender of every ship of the Austrian navy arm being demanded. The allied and associated governments will decide later just what disposition will be made of the vessels. No hint has yet been given as to the other conditions of the treaty. Meanwhile the German peace delegation at Versailles continues its formidable task of digesting the peace terms handed on to them by President Clemenceau. According to reports originating from a high British source in Paris the delegates are divided in their views on the drastic conditions laid down. Feelings apparently is running high in Germany over what is termed the severity of the peace terms, and a review of the opinion in Berlin says that the people are discussing the consequences of a possible refusal to sign the treaty. "Rather anarchy than slavery," is the remark heard on all sides, the review declares. One newspaper credits Herr Giesberts, a member of the Ger-

THE PROMOTER'S WIFE

By JANE PHELPS.

Mrs. Powers Has Dropped Neil and Barbara From Her List. CHAPTER LXXXI. "What do you mean, that Mrs. Powers asked her husband to look Neil's business up?" "That is his business record." "Why should she interest herself?" "Because she liked you, and was hesitating about asking you, and Forbes to one of her select affairs. It sounds awfully harsh, but she told him after he had made you from her list, that she should drop you from her list."

to. He can be a promoter and go straight. I have known many who did—but they never were very rich men. At times they would make considerable, at others scarcely a living. Five hundred and forty per cent. men are not honest in any business. What a dry person you must think me. What a lecturer I would have made. He smiled whimsically at me, then: "Come, take a ride, then meet me and your husband at Mordain's at lunch. I have an invitation with him. Perhaps it would be as well to say nothing of what we have discussed to him. I will say I dropped Neil, as I intend to drop you. I said absent-mindedly. I scarcely heard his good-bye, or felt his hand clasp, as I went. I used my thoughts. Not agreeable ones, as you can well imagine. I dressed, simply, but carefully. I wore no jewels, not even a brooch. I would not give people occasion to talk of our extravagance. Just as I was about to start Lorraine came in. "Drive down with me, then. Thomas will take you home." I urged. "That will be nice. So that Mr. Frederick is here again? I liked him immensely that night I met him at your dinner party. He rang true. Something a good many do not now. a-days." She bit her lip, and immediately commenced to chat of something else. It was not Lorraine to make such a tactless remark.

Tomorrow—Lorraine Makes a Fourth at Luncheon. EARLY PRESENTATION OF BUDGET EXPECTED Now Stated It Will Be Brought Down in Commons Within a Couple of Weeks.

Ottawa, May 9.—It is expected that the budget will be brought down within a couple of weeks, although the official date has not yet been determined. The original idea was to hold the budget over until the return from overseas of Sir Robert Borden and his colleagues. As Sir Robert, however, according to present indications, is not to be back before early in June, there is every probability of an early announcement on the budget. Sir Thomas White has already intimated that he will give adequate notice before presenting his financial proposals to the house. When Sir Robert and his colleagues return, the question of ratification of the peace treaty by the Dominion parliament will arise. Should signature of the treaty be delayed, there is likelihood of adjournment of the house, once the budget is passed, with a view to meeting early in the fall. Ratification would then be taken up as the first business.

MUNICIPALITIES IN BATTLE FOR RIGHTS

(Continued From Page 1).

Mr. McDougall said, in reply to Dr. Reid, that \$29,000,000 had been invested in the power plant at Niagara and the transmission line from Niagara to Toronto. The money came from the buying public of Great Britain, France, United States and Canada. "Do you ask us to jeopardize that immense sum of money?" asked Mr. Boyd. "We must still consider their interests surely." Mr. G. H. Kilmer replied that the company was financed on the credit of the Toronto Railway Company. He claimed that all the poles the company used in Toronto were trespass poles because the contract was only for street lighting and this expired seven or eight years ago. "Parliamentary action," Mr. Kilmer, "has struggled for 20 years to protect municipalities against retailers of electric power in municipalities without their consent."

R. J. Fleming's answer. R. J. Fleming said, in answer to Mr. Carvell, that they would be willing to refer their whole business to the judgment of an independent tribunal for valuation. Frank S. Cahill asked if the company claimed the right to enter the city of Ottawa. To this Mr. Fleming replied that they were so absolutely sick of unfair competition there was no danger of their coming to Ottawa. If an offer was made on a silver spoon they would not take it. Besides, it was a question if a dollar would be subscribed. All they wanted was to protect their shareholders. They did not want to become an Ontario company. Bad as things were now, they would be a thousand times worse then. The committee adjourned until May 14 to hear James Beck of New York.

Representations Toronto. The city of Toronto was represented at the hearing by G. R. Geary. He also represented at least 107 municipalities in every province of the Dominion and Prince Edward Island. "The Dominion railway act," said Mr. Geary, "provided that no power company should use the highways of any municipality without the consent of that municipality. This provision, the company contended, it had a right to disobey, because its franchise so authorized it. What the municipality wanted was that the company, who had Dominion-wide powers, be clearly brought under the operation of the general railway act."

CANTEEN ENGINEERS.
A reception, banquet and theatre party was given last night by the canteen of No. 2 Engineer Depot, Stanley Barracks. There were 150 present at the banquet, which was held at the Walker House, Hotel.

"TEST OF HONOR."
Capt. W. Boyd made a very efficient toast-master and a toast to the depot was responded to by Lieut.-Col. S. P. Figgis. This was followed by a toast to the sapper by Sapper J. McPherson. The reception committee were: Sergeant Major W. A. Major, W. A. Martin, A. W. Hanson and Corp. B. W. Martin. After the banquet those present proceeded to Loew's Theatre for the complete a pleasant evening's entertainment.

CANADA APPOINTS A FOOD DIRECTOR

Dr. J. W. Robertson to Set on Supreme Economic Council of Allies.
Ottawa, May 9.—The appointment of Dr. J. W. Robertson as Canadian director of food supply, a position that has been created at the request of the supreme economic council of the allied governments, was announced tonight in a statement given out by Hon. T. A. Crerar, minister of agriculture. Dr. Robertson's duties will relate only to the sale of Canadian agricultural products in Europe. The statement in part is as follows: "The food situation in Europe has been engaging the close attention of the supreme economic council which was created by the allies some time ago, to supervise the economic and particularly the food conditions in respect to relations with neutral and enemy countries. The council will have largely to do with the distribution of food supplies until conditions in Europe get back to a normal and stable basis."

In Position of Equality.
"Dr. Robertson has been asked, and has agreed, to accept this position, by which he becomes a member of the food section of the supreme economic council, and, in the absence of Sir George Foster, may take his place as a member of the supreme economic council itself. This places Dr. Robertson in a position of equality to the other representatives of the allied countries in the food section of the economic council."

CANADA NOT TO BAR IMMIGRANTS FROM SOUTHEAST EUROPE

In Federal House, H. Cronyn Withdraws Contentious Amendment to Bill.

ANOTHER CHANGE
Government Adds Clause to Prevent Bringing Concealed Weapons Into Dominion.

Ottawa, May 9.—Hon. J. A. Calder's immigration bill was reported from committee in the commons tonight. Mr. Hume Cronyn's addition, which would have shut out immigrants from the southeastern portion of Europe for a period of five years, after some further discussion was withdrawn, the minister explaining that the officials of the immigration department had reported that the plan would be difficult to work out.
Some new additions proposed by the minister were adopted in committee before the bill was reported. One prevents the bringing into Canada concealed weapons, and the other makes provision for officials representing directly to the minister, when an immigrant advocate, the overthrow of constituted government by force. During the earlier part of the sitting good headway was made in committee with the new bankruptcy act, but several of the more contentious clauses were left over for consideration at a later date. After headway had been made on a couple of minor government bills the company adjourned.

Shipping Program.
Discussion of the government's shipping program was resumed this afternoon when the house went into committee on supply on the estimates of the department of marine and fisheries.

Referring to the government's contract for steel plates with the Dominion Steel Company, Mr. McKenzie, leader of the opposition, said that he hoped nothing would interfere with the advanced program of shipbuilding and the furnishing of the plates. Hon. C. C. Ballantyne, minister of marine and fisheries, repeated his statement of last night that arrangements had been made with the company for modification of price or cancellation of the contract. If the company were willing to give a more favorable price, the government was ready to carry on with the proposition. But if not willing to modify the price, then it might be in the best interest of the country to cancel the contract. As yet the company had not imported any machinery. All that the company had done was to partially erect a building.

McKenzie and Protection
Mr. McKenzie, discussing a question of promoting shipbuilding in Canada, said he was "not a very high protectionist, but I can't help knowing that protection has done a good deal for many industries in this country." Later Mr. McKenzie said: "While not a high protectionist, I am prepared to deal with facts and circumstances. This was greeted with applause, not only from his own side, but from very many of the government side, including the acting prime minister. Hon. C. C. Ballantyne said that the government proposed to have ships on the Great Lakes so that its chain of transportation would be complete. When the United States shipbuilding program was complete, that country, he said, would have the enormous tonnage of 10,000,000 tons. If the United States thought it was necessary to create such a large merchant marine, should Canada sit down and fold her arms? He thought that Canada would be able to compete with Great Britain and all other parts of the civilized world in shipbuilding."

Supports Ship Policy
Col. W. F. Cockshutt supported the shipbuilding policy of the government. Canada, he said, had in the past been a maritime nation, and he failed to see why it should not again assume that place.
Capt. Manion urged the importance of shipbuilding in connection with the disposal of the western wheat crop.

Pass Ship Program
After some further discussion the item—one of \$30,000,000 for the government shipbuilding program—was passed. The house then went into committee on the bankruptcy bill beginning with clause 3, which dealt with discussion when last the act was considered. Good progress was made, but on the suggestion of Mr. W. J. Jacobs a number of contentious clauses were allowed to stand.

New Stock Yard Rules.
The regulations governing construction and equipment provide that every stockyard must be so equipped as to afford adequate accommodation for the transaction of business with safety. No substantial alteration or addition shall be made to any stockyard until the approval of the minister has been obtained. Ample provision for the proper handling and feeding of live stock must be made including a supply of running water. Operating and maintenance regulations provide that live stock must be handled in such a way as to prevent injury or bruising. The proprietor shall see that no live stock suffers from want of feed or water, while in his charge. In case of live stock, to be fed, for maintenance only, the proprietor shall supply the amount of feed prescribed by the live stock commissioner. Charges for feed and supplies for each calendar month, shall be determined by adding to the wholesale market price for the preceding month a percentage plus a fixed charge for handling. The proprietor shall file with the minister, not later than the tenth day of each month, a statement of the average wholesale market price of feed and supplies during the preceding calendar month, and a

ONSLOW IS LEADING HITTER FOR LEAFS IN EARLY DRIVE

Eddie Also Tops the League in Base Thefts—Webb Hubbell Best Hurler in the Fultz League —The Averages.

(Copyright, 1919, by Al Munro Elias.)

Bishop of Baltimore, leading hitter, with an average of .706; he also leads in runs scored with eleven tallies, and is tied with Onslow of Toronto for the most bases, with 15 hits apiece.

Onslow tops the base stealers, with five thefts to date.

Hubbell of Toronto heads the hurlers, with two victories to his credit.

Baltimore, besides leading in team batting, were the first club to tally 30 runs, getting their half century off Rose and Gaw, who served for Buffalo.

Rochester leads in base stealing, the club committing 15 thefts to date.

With the season one week old, 26 games have been played, of which three resulted in scoreless victories, hurlers Keefe, Weinert and Jones were the shut-out artists.

The following players have hit safely in all their games this season: Harris Burns, 11 hits in 31 tries for 355; Onslow of Toronto, 12 hits in 23 attempts for an even .400; Hummel of Reading hit .350. All of the above streaks have endured seven games; two players, Lawrey and Jacobson of Baltimore, hit safely in all six games they engaged in, the former for 478 and the latter 417.

Frank Schulte, the Binghamton manager, who won fame in the majors as a home-run king, lived up to his rep. by spanking a home run in his fourth International League game on May 3 off Pletcher of Toronto. Schulte collected 32 runs in the majors over a period of 15 years, just 8 home runs less than Hank Wagner collected during 21 years play.

Gonzales of Baltimore had scored his runs in five consecutive games when he quit to keefe of Reading on May 6.

Pitcher See, of Rochester set the season's record for strikeouts by fanning ten Reading batsmen and greatly aided his team to victory by punching out a home run.

Morrisette, after letting Jersey City down with the first single hit of the year, had to take the loser's end of a 9-0 score on May 4.

Reading scored a double header on May 3. Jersey City defeated Toronto after a 13-inning tussle on opening day. This is the longest game in the Ints. so far this season.

An odd feature is that, while three players have garnered four hits in one game, the trio, Reeves, Brown and Hallinger all belong to Rochester.

The two players, Ted Cather of Newark and Mulvey of Baltimore took part in all games their teams played last season. Cather goes the honor of "King of the Iron Man," for Cather, who played 127 consecutive games last year, was the longest game in the Ints. so far this season.

Pitcher Higgins passed the most batsmen in a game, striking eight in one game on May 3 to Baltimore.

Baltimore scored the most number of runs in a game, 15, in one game, against Toronto on May 3. This is the greatest number of hits in one game, smashing out 10 safe blows on May 2 off Rochester.

Toronto has stolen the most bases in one game up to date, nabbing five thefts in the opening game against Newark.

Only One Fixture In Three Leagues

Rain again spoiled the baseball program yesterday. Only one game out of twelve scheduled was played. Rain did the handwork in the right plan of vaudeville and American League failed to get a heat under way. The National staged one fixture, when the Cincinnati Reds defeated Cleveland Alexander in his first start since his return from France.

The Leafs were idle at Baltimore. Gibbons' men are due to play Dunn's flock a double-header today, and then they will entrain for home and the opening game on Monday.

The postponements yesterday were:
International League—
Toronto at Baltimore—Wet grounds.
Rochester at Newark—Rain.
Binghamton at Jersey City—Rain.
Buffalo at Reading—Wet grounds.

National League—
New York at Brooklyn—Rain.
St. Louis at Pittsburgh—Rain.

The Sportsmen's Patriotic Association is having as its guests at the opening ball game at the island Monday all the soldiers in the various convalescent homes in the city. The opening ball game will commence at 3 o'clock. Captain Joe Thompson will lead the parade, and will pitch the first ball which the mayor will throw to him, while Brig. General Gunn will bat. Then Newark will perform.

THE LAWN BOWLING TOURNAMENT DATES

R. G. McLean Elected, Chairman by D.B.T., and R. A. Spiers Secretary.

The Dominion Lawn Bowling Tournament committee met last evening at the Granite Club, President Thos. Rennie in the chair, and about 100 delegates present, including Brigadier-General Gunn, Major Baillie and Sir John Willison. Robert G. McLean was promoted to the first office on the organizing committee, and R. A. Spiers, well-known in lawn bowling circles as secretary of the St. Matthews Club and the Walton Trophy League, to P. Atkinson is the assistant secretary.

The tournament dates were fixed as follows:
Ontario Lawn Bowling Tournament, the week beginning July 7. Dominion tournament, the week beginning August 11. It was decided to give special attention to competitions and games for the soldiers, for which purpose it was reported that the bowlers had collected \$450.

The D. B. T. decided to give a tournament for ladies. The following are the officers:
Chairman, Brigadier-General Gunn.
Secretary, Robert G. McLean, Queen City Club.
Assistant Secretary, R. A. Spiers, St. Matthews.
Assistant Secretary, E. P. Atkinson, High Park.

SHOW SIGNS OF BUSY SEASON IN LACROSSE

Scramble for Certificates in the O.A.L.A.—Grouping Meeting Postponed.

The O. A. L. A. executive have been hustling to get things in shape and have held their preliminary grouping meeting. An adjournment was made to next Monday night in order to give the clubs a chance to declare themselves as to which series they intended playing, also their proposed grouping, but several of the once-taken teams have failed to advise Secretary Dundas in this connection. It would therefore seem necessary to postpone until later in the week the meeting at which the final grouping will be made. Club secretaries are requested to communicate at once with Secretary Dundas, 1156 Yonge Street.

Out of town members of the O. A. L. A. are asked to note that the grouping meeting arranged for Monday night will likely be postponed until a later date. Due notice of same will be given them by Secretary Dundas.

The scramble for certificates in the O. A. L. A. shows signs of a busy season. Many of the boys from overseas are ready for the fray and the teams with which they formerly played have taken it for granted, in many instances, that they will return to their old love.

Maitlands now appear to have a seer team for the O. A. L. A. series. They are busy on the question of better accommodation at Cottingham Square. The north end lads will wear watching no matter what series they intend entering.

There was a rumor on the street yesterday that Young Toronto's would not carry on this season, but it apparently emanates from the mind of some of their opponents, as Wendell Holmes is all but counting on the receipts from the championship battles.

Bert Booth of Orangeville is the right man in the right place as vice-president of the O. A. L. A. He has shown his old time spirit in the game since his return from "Over There" when he was in every game of the Orangeville section.

Bill Hapcock reports that things are booming in lacrosse circles in the vicinity of Owen Sound. He has a busy season ahead of him, as in addition to acting as coach for a couple of the town teams, he will also have the task of getting the other clubs in the district in line for the season's battles. Bill, by the way, tells some good stories of "lacrosse as she is played over 'ome".

The reinstatement of players who participated in C. L. A. games last season is taking shape in the hands of the O. A. L. A. to whom the matter was referred by the C. M. A. U. It is to be expected that the players themselves will take the necessary steps in this connection.

Program for Tonight's Boxing and Vaudeville

The boys of the gallant 15th Battalion, now returned yesterday from overseas, are to entertain a grandly illuminated concert at the armistice tonight by the 15th Highlanders, assisted by the Sportsmen's Patriotic Association with plenty to eat, drink and smoke, and a very attractive program of vaudeville, Scotch songs and dances, as well as a number of high-class boxing bouts that would credit to Massey Hall show. The boxing program includes the following 8 round bouts:
130 pounds—Frankie Bull of Toronto v. Med. Compton, Toronto.
130 pounds—Galeagher of Toronto v. Saney of Buffalo.
130 pounds—Benny Foster of Buffalo v. Irish Kennedy of Hamilton.
130 pounds—Young Shinnon (colored) of Lockport v. Frank Klein of Buffalo.
130 pounds—Scotty Lisner of Toronto v. Star of Buffalo.
In addition the Burleigh Middlets will give an exhibition and the champion midweight and heavyweight boxers of the returning 15th Battalion may go on with the local amateur champions, if there is time to get them in on the program.

ALEXANDER DEFEATED IN HIS FIRST START

Chicago, May 9.—Grover Cleveland Alexander, in his first game since returning from France, was defeated today by the Cincinnati Reds, 10 to 0, in a battle with Ray Fisher. Fisher, who held the Cubs to four hits, and was given splendid support, in the eighth, a home run by Ray Fisher. Alexander and Magie's double defeated the one run score.

WOODBINE HORSES WORK OUT TODAY

Trainers Rest on Friday— Looking Over the Candidates From Waterloo.

Yesterday was an off-day at the Woodbine, practically all the trainers holding out for this morning, when a record attendance of railbirds is expected to see all the horses at the track at the fall Friday.

The Waterloo horses, in charge of trainer W. H. Bringle, are in grand form, having wintered well to all appearances. The dozen contenders that have raced on Canadian and American tracks, the five-year-old bay mare, Belle Mahone, by Ypsilanti-Irish Lass; Gala Dress 5, by Galatine; Court Maid, and Gait Water, 6, by Galatine—Sea Wall.

Belle Mahone has developed into a beautiful big mare of a breezy type, but well constructed throughout. Race patrons will readily recall her splendid victories in the King's Plate as a three-year-old, also the Maple Leaf stakes. Her legs are beyond criticism.

Gait Water is the biggest horse at the track, standing a plump 16.3, and will be remembered as having won the Stanley Produce stakes three years ago. All last season he performed such mental labor as plowing, and as a third horse on the binder, harvested over fifty acres of grain. The work seems to have improved him underpinning, for, although slightly knee-sprung, he now stands quite firm and is training in a satisfactory manner. He is quoted as the purest galloped horse of his proportions in training. Speaking of his breeding, a prominent trainer regretted the fact that Gala Water was gelded, as thru his dam, Sea Wall, a good race mare, he traces to Asyshire and St. Surt, the best racing families in England.

The other aged one Gala Dress, a big sturdy constructed mare of a rich chestnut hue, has been a consistent performer for the past two years, and as a three-year-old ran third to Belle Mahone in the Plate.

The Platers look like the goods, and all being three-year-olds will have the weight advantage. The stable help look on Hong Kong and Doleful as the most promising colts ever trained at the Waterloo establishment. Hong Kong is a thick-made colt with Haven (one of the last colts got by that good sire), and out of Royal China, one of the best matrons in Canada. The colt was quite unsteady in his new quarters, and fretted during the few moments we visited his stall. However, he is of the build type, and one can almost imagine him putting up a valiant struggle at the end of a long journey.

Doleful is a Ypsilanti, out of Dolefuls, and is a big, stalwart colt said to closely resemble his sire. He has had some experience, but never earned a bracket; nevertheless he must not be overlooked in the Plate.

The chestnut colt, Galway, by Galatine-Irish Lass, is a large and heavy-boned youngster of very pleasing conformation, but it is possible he will remain in the barn on the holiday, leaving the slim, and nervy-looking filly, Gallant Kitty, by Galatine-Kate Kittleberry, to make up the trio that will carry the yellow and black. lant Kitty was a winner at Laurel last fall. Four juveniles conclude the stable. Sweet Bouquet, one of the handsome colts bred at the track, is by Galatine, and out of the great Seagram winner, Bouquet, being her first living produce, despite the fact that she has dropped five or six foals. This colt is worthy of special mention because of his faultless conformation. If an artist were requested to paint a model, the only change that might be suggested on the make-up of this youngster would be to straighten the crooked snipe on his nose, and that is harsh criticism.

Crown of Gold, a dark brown colt, is a full brother to Gold Galore winner of the Coronation stakes, being by Galatine—Crouch D'O'R. Galamore, by the same sire, dam Irish Witch, is a brother in blood to the English Derby winner, Kenmore, and is a dark brown grower colt.

Loganberry, a bay filly, by Galatine—Kate Kittleberry, also smaller than the others, is a racy built miss, and is well set on good legs. The remaining member, Royal Redbird, by Galatine—Royal China, is a half-sister to the stable favorite, Hong Kong, also Mandarin, a Plate winner. Like her relatives, she is rather thickly conformed, and has clean flat bone, good material to work on.

Three foals have arrived at the farm this spring, colt foal by Inferno—Royal China; colt foal by Galatine—Irish Witch, and a filly by Galatine—Kate Kittleberry. Just one more foal is expected. Trainer Bringle intends breeding the entire string this morning.

The only work of the day was the mile in 1.53 2-5 by C. A. Crew, and a jaunt for the same distance in 1.49 2-5 by the Red Walker Plater, Cora W., in company with Harwood, and very nicely done.

The Brookdale stable will likely have only one starter for the Guineas, the bay mare, May Bloom. Parkdale Rangers A. play Sons of England at Jesse Ketchum at 2 p.m. Will the following players be on hand early: Davies, Duncan, Brown, Holm, Lowes, Ilen, J. Abbott, Frost, Harvie, Lyons, J. Brigatits, W. Abbott, J. Irving, Copeland.

ITALIAN PROBLEM NOT YET SETTLED

Wilson is Said Not to Have Adhered to Mandatory Plan as Proposed.

Paris, May 9.—The Italian difficulty is as far from settlement as ever, according to the French press, which asserts that President Wilson maintains his position and it is not believed he will depart from it in the slightest.

He has not adhered to the proposed compromise by which Italy would administer Fiume as mandatory of the league of nations until 1923, after which Fiume would revert to Italian sovereignty, the Jugo-Slavs being given a port a few miles lower down the Adriatic coast, it is said.

The impression in French conference circles is that Italy is temporarily abandoning her claim to Fiume and will exact full execution of the pact of London, which as it involves not only Dalmatia but the whole Greek problem and singularly complicate the situation.

PAUL RADER CONTINUES TO PACK MASSEY HALL

Evangelist Rader had a full house last evening, with deep interest and large response to his appeal. He spoke from the words, "For this purpose was the Son of God manifested that He might destroy the works of the devil." He said, in part, "The world blossoms and blooms to the man to whom Jesus has been manifested. Revelation is a million worlds above reason. Jesus came so that men could handle Him. His disciples ate and were and showed Himself out. And Jesus is God. We are commanded to 'add too' our faith. Faith is a pioneer term. Just as when a musical note is struck on the piano, and all the other instruments are tuned up to it, so in the Christian life everything else is superadded to faith. Men ought to say, 'Oh God, you've got me up in a corner, and I don't know how to get out of believing.' When men begin with this pioneer act toward God, then the Divine life and power comes into their souls. Jesus gives us an absolutely new record, puts away our blindness and—we know Him. Jesus stands around revealing Himself to us. When it is realized that Christ, Begin not with your reason, but your faith.

For this evening the ground floor is reserved for the commercial travelers, and special invitation cards are out for them.

THE FORTNIGHTLY RECITAL

Last night at Foresters' Hall the fifth of the series of fortnightly musicales was given with Viggo Kihl as pianist. The program was most successful, and the audience was much larger than usual, the fact showing increasing admiration for the series of recitals by Canadian artist. In their execution the pianists displayed the velvety tones and fine technique which mark his work, and called forth an enthusiastic re-echo. The second group from Chopin was most satisfying, the five numbers being executed with fine skill. The Nocturne was given exquisite interpretation and the Polonaise was a brilliant finish to the first group. A beautiful session with the composer. The third group contained compositions by Rubinstein, Moskowski and Giacomini-Buinenfeld, all of which showed the fine work of the player.

Lillian Wilson opened her program with the Mad Scene from "Hamlet" in the singing of which she received favor with the audience. Miss Wilson has a pretty voice particularly in the middle register and showed considerable aptitude in the vocal work of the higher notes. A group of English songs, including "Under the Greenwood Tree" (Buzzi-Peccia) and the "Norwegian Echo Song" were given later. The artist received hearty applause and a number of floral offerings.

MOTOR HITS WAGON.

When a motor car struck a wagon which was driving last evening at the corner of Spadina avenue and College street, Thomas Haslam, 121 Crawford street, driver of the wagon, was thrown from the seat to the pavement, sustaining injuries to his scalp. He was picked up unconscious and taken to Grace Hospital, where it was said last night his injuries were not serious. The car which collided with the wagon was driven by Roy Shultz of Kitchener.

GUILTY OF THEFT.

Fred Draper, an 18-year-old married man, was sentenced in police court yesterday morning to six months at the farm, when he was found guilty on the charge of theft. The police charged that Draper would steal from delivery wagons and then sell them.

ENGINE BACK-FIRED; BIG BLAZE RESULTS

Two Boats and Life-Saving Station at Island Burned to Ground.

Two men were burned yesterday morning at 9 o'clock when one of the engines in the boat Patricia, backed fire in the life saving station at Ward's island and, setting fire to the station, burned two boats and the building, with a loss of \$25,000. Captain Chapman of the crew was burned about the arms and lands when trying to save some papers. Ernest Delaney, chief engineer, who was working with the engine when it backed fire, was also burned and along with Chapman was brought over to the city and attended at St. Michael's Hospital.

Delaney was testing the engine of the Patricia when the back fire occurred. The gasoline ignited and caused an explosion, which is said to have shaken the building and set the boats on fire. The crew were out at the western gap when the outbreak occurred.

Both the Patricia and the Ruth boats were totally destroyed. The cost in the neighborhood of \$6000 each. The two-storey building was valued at \$12,000 and the remaining loss is made up with the loss of incidentals, such as the men's wages, which they had received Thursday, and personal effects.

DOWN IN FIGURES, BUT NOT IN SPIRITS

(Continued From Page 1.)

Officers who were in charge of the various sub-departments. The engine occurred in conclusion, the chairman sounded a note of hope that the ideals of the campaign would be carried out. He said: "Those clubhouses are sure to come; we are quite sure on that point."

A German officer's stick, which was taken from the officers' baggage, was picked up on shore. It was found that this drive on short notice, attended in general, without a thorough reconnaissance, some barbed wire entanglements. But said Gen. Gunn, he was satisfied that the amount eventually got over the top of the soldiers, he stated that he deeply regretted what the civilians had done.

Those at the head table were: Sir James Wood, G. A. Warburton, W. E. Ruddle, T. Bradshaw, E. C. Ruddy, J. Gibbons, J. H. Wood, T. W. Mitchell, Brig. Gen. Gunn, J. M. Coffey, J. H. Gundy, A. F. Butler, Miss E. C. Church, Mrs. T. Albert Brown, W. T. Kerr, Mr. Frank Smith, Albert E. Snythe, Mr. W. R. Wood, J. D. Wood, Dr. A. H. Abbott, J. G. Conroy, Dr. Horace Wright, G. Watson, E. M. Saunders, W. B. Woods, J. D. Woods, Mrs. J. J. Cassidy, W. H. Dawson, W. J. Eccleston, Ralph Connah, almost all record.

The Big Four tag day in the amount collected constituted almost a record. In the few hours the lady taggers had to work they sold "Repay" tags to the sum of \$26,328. When it is realized that this splendid total was derived, not from banking accounts, but from the sweat of their brows, it is a credit to a man in his trousers pocket, it will be easy to calculate the amount of hard work these ladies put in during yesterday. Their splendid work will be long remembered in Toronto.

There were 399 ladies out in the streets all day and they worked so hard that it was rare to see any man or woman walking either in the city or suburbs without a tag. If we take the amount of the collection at \$26,300, we have the result that each tagger earned \$63.12 for her day's work. If each of the taggers could manage to earn this sum each day of the week there would be no work for poor husbands to go out to do.

Taking as a basis the total of \$26,300 and the population of Toronto at \$26,300 we find it works out at 5 1/2 cents per tag. There are 1700 streets in the city, so each street contributed \$14.12. Toronto possesses 102,488 buildings, and each house and factory combined only averaged about 1/2 cent per building, or there are 531.03 miles of streets under

NEW LIBRARIES ARE TO BE INSISTED ON

Needs of Earlscourt and Riverdale Urged Upon City Council.

At a meeting of the library board held at the College street library yesterday a resolution was moved by W. T. Lee and carried which if acted upon by the city council will provide for the erection of two new libraries and the library accommodation to the people of Earlscourt and Riverdale. Thomas W. Seif, J.P. presided, others present being W. J. Lee, N. B. Gash, K.C., E. S. Caswell and Dr. George H. Locke, the chief librarian of the city. The question of supplying Earlscourt and the east end with libraries had been taken up at former meetings, but owing to the fact that there was no fund which might be called upon for maintenance the board had not been able to do much in the matter of recognizing the need in the districts. Strong delegations had visited the city council with the fact that recent legislation gives municipalities greater license than formerly in the way of grants there is hope that the new libraries will come into being.

PLAYS, PICTURES AND MUSIC.

"Some One in the House"

Everything is set and ready for the official opening of Edward H. Robins' present season at the Royal Alexandra, Monday evening, May 12, when he will present the strongest organization ever seen in a permanent company in Toronto, if not in America. Continuing his well known policy of presenting only the cleanest and severest of the latest New York releases, Mr. Robins has selected for his opening play, a mystery melodramatic comedy which was used to open the Knickerbocker Theatre, New York, last September, "Some One in the House." The personnel of the Robins Players this season will be composed of some of the best known actors and actresses, Little June Walker, whose striking, consistent performance all this season of the innkeeper's daughter, in Masterpiece's "The Betrothal," in New York to place its seal of approval on her, will be seen in several leading roles; Jane Marbury, whose services are in demand wherever artistic acting is appreciated; Reini Carruthers, one of Toronto's most popular actresses; Belle Murry, strikingly beautiful, and Margaret Armstrong, are only a few of the women who will make their bow Monday evening, under the title "Seven Days' Leave." A. Romaine Callendar, this season with the number one company of "The Man Who Came Back," Homer Barton, Harry Lyons, Harry P. Young, Thomas McKnight, Melton Clodagh and everybody's favorite, Jack Amory will be just a few of the men, Wednesday, as usual, will be the popular matinee.

"Rebecca of Sunnybrook Farm"

One of the few plays that have been seen by over a million theatregoers is "Rebecca of Sunnybrook Farm," which will be the second week's offering by Edward H. Robins this season at the Royal Alexandra Theatre, Miss June Walker will be seen in the title role, which lends itself to demure sweetness.

"Tish"

The charming comedienne, May Robson, will present for the first time in Toronto, at the Princess the week of May 19, her new melodramatic farce, "Tish," a dramatization of the "Adventures of Letitia Carberry," which recently appeared in the Saturday Evening Post, and written by Mary Roberts Elsiehart. "Tish" is the best by far of any play which Miss Robson has appeared in.

"Twin Beds"

One of the good things one hears of "Twin Beds" are true then local theatregoers are in for the treat of their lives at the Grand Opera next week when this deluge of laughter comes to town with the grand New York cast and production. "Twin Beds" is conceded by all Metropolitan critics to be the funniest play ever written and no other play has its record of long runs in New York, London and Australia. This year it will be produced in Rome, Paris, Madrid, South America and South Africa, thus putting a girde of laughter around the world. The characters about whose misfortunes "Twin Beds" revolves are all distinct portraits, each of them ending without end, each familiar to even the most restricted experience. Lonely little Blanche Hawkins, newly married, ingenious and sociable, moves into an apartment with her husband, a home loving business man. Above them live a pair married for ten years, Signor and Signora Monti, and below them live a pair even more newly married than the Hawkins, the Larkins. With them lives Norah, a paragon of an Irish maid. The jumble that follows upon Blanche's cordial invitation to them to join in a party in her new apartment, and upon Harry's avoidance of his visitors, and upon consequent interchange of visits,

make the three acts of "Twin Beds" enormously rich in human incidents. She's Theatre Next Week.

"The Mannequin," written especially for her by Edgar Allan Woolf, will be presented at She's Theatre next week by Edna Goodrich as the headline attraction in a bill of striking merit. This is a Parisian comedy that is exceedingly attractive and at the same time it provides for the wearing of some gorgeous and exclusive gowns. The special extra attraction next week will be given by Artie Mashinger and George W. Meyers, the singer and the composer. This offering is entirely musical and of the artist's own compositions. The Mellette Sisters are dancers and singers and will be assisted by Lew Pollack at the piano. The appearance of Mignon, the dainty mimic is a feature as is also the appearance of Emma Stephens, known as the "personality soprano." Mayo and Lynn in "A Easy Conversation," Ben Bernie, the Dare Brothers, and the Tamarind Duo and the Pathé News will also be seen.

Miss Minter at Hippodrome.

Mary Miles Minter, the charming star of the screen, will headline the bill at She's Hippodrome next week in a picture typically her own entitled "The Intrusion of Isabel," the manner in which she becomes acquainted with her brother's supposed partner and the circumstances under which she visits his home, together with the exciting events that follow, make the story very interesting. It is a delightful light comedy drama and has been received with enthusiasm wherever it has been shown. The Sandy Shaw, will headline the vaudeville bill. Countess Verona has a clever musical novelty and Howard and White as comedy gababouts are very funny. The Merr and Dwyer Girls are clever singers and dancers, and the Thomas Duo are neat artists as comedy gymnasts. The British-Canadian Gazette and a Harold Lloyd comedy complete the bill.

At the Gayety.

A wee bit of Scotch—"Shorty" McAllister—is the feature next Monday at the Gayety Theatre next Monday. "Shorty" stands just five feet from the floor—six inches of fun—his partner in crime is Harry T. Shannon, a growing young fellow who stands six feet two inches. This team is said to be about the funniest pair of laugh-getters that have been seen in burlesque in years. The fun and of the entertainment is in very competent hands, and headed by the littlest girl in stageland, Anna Propp, who is four feet four inches tall, and considered one of the cleverest girls seen in this form of amusement. From a scenic and costume standpoint and its young chorus of beautiful girls, "Step Lively Girls" is a class by itself—one of the best that have ever visited Toronto.

At Star Theatre

One of the features of the Stars of Burlesque show which opens a week's stay in Toronto at the Star Theatre next week is that a large number of the members of the chorus are Toronto girls. Manager Pierce has given several local girls an opportunity of showing their ability as singers and dancers. Heading this splendid chorus are such well-known performers as Marie Rockwell, Doris Dolly Sweet, soprano; Josephine Sabel, Jeannette Buckley and dancing wonder-Carrie; Joe Carr, Toronto boy; Jack Ormsby, Brad Sutton and Ed Johnston are the principal funmakers.

At Loew's Theatre.

"The Probation Wife," starring Norma Talmadge, at Loew's Theatre and Winter Garden next week, is the kind of picture that appeals to all classes. It is a human story about a very human girl, and Miss Talmadge is given an opportunity to display that originality and versatility for which she has become famous in filmdom. She gives "Jo Mowbray," the cafe girl, three distinct characterizations, showing the growth of the heart and soul of a girl who had been denied a fair chance in life. Phil E. Adams and a nest of songbirds are featured in "The Owl," a miniature musical comedy, headlining the vaudeville. King and Harvey will offer original comedy, singing and cross-fire patter, and Harry Mason, the legitimate star, and his players will be seen to advantage in a one-act skit, "Getting the Money." Other features embrace Tyler and St. Clair, clever xylophonists, offering the latest from "Tin Pan Alley"; Al. Tyley, the tramp comique, with a budget of humorous sayings, and Young and Leonard, dancers who specialize in the "Mutt and Jeff" animated cartoons, and Loew's British-Canadian Weekly, are other film offerings.

Three Stars at Strand.

That masterpiece of pictorial drama, "The Turn in the Road," with fine all-star cast, is giving rare enjoyment to big audiences at the Strand Theatre. The last performance will be given to-day. This drama is something no motion picture follower will care to miss.

For Monday, Tuesday, and Wednesday the Strand has an attraction that will no doubt pack the house. Three famous and immensely popular stars—Wallace Reid, Ann Little and Theodore Roberts—will appear together in "The Roaring Road," aptly termed a story of swift motor cars and swift love. Wallace Reid is a big finest talent in one picture will make a smashing hit.

Big Program Week at the Regent.

A program of unusual merit is booked for the Regent Theatre next week, when the feature attraction will be Constance Talmadge in a delightful and sparkling comedy drama, "Who Cares?" She is fascinating, superb, excellent, unsurpassable—no word can describe how splendid her work is in this picture. It is a different picture from most of her recent successes, for while it has many distinct comedy touches, it also reaches emotional heights, and the result is a well-balanced highly dramatic photoplay. An amusing sketch entitled "The Last Day" by James Montgomery Flagg, a Burton Holmes travelling picture, Estelle Carey, soloist, and the famous Regent orchestra complete the bill.

Finis at Madison.

For the first half of next week the feature at the Madison Theatre will be the superb William Fox production, "Why I Would Marry You." This is the great screen problem-play of today, and it is one which every woman and marriageable girl should see.

Beardmore Recital.

Lissant Beardmore, the soldier tenor, whose recital takes place next Monday night, invites the soldiers to apply for free tickets to come as his guests. The seat of this recital, which promises to be a brilliant event, opened yesterday at Nordheimer's, and has been such as to promise a packed house.

Return of Fiske O'Hara

Fiske O'Hara comes to the Grand, week May 19th, for a special return engagement in "Marry in Haste." The play is by Anna Nicols, and is said to furnish the popular star with the

Drawing a Steel Ring Around Bolshevik Russia

Revolutionary France, assailed on every side in 1792, sprang to arms and threw the invaders across the border in a few weeks, and then gathered her strength for the great campaigns that planted the tricolor on half the palaces of Europe. Bolshevik Russia is now in a similar situation, but any dreams of a Soviet invasion of Germany, Poland, Hungary, and Roumania with 3,000,000 soldiers, seem nonsensical to American editors. While the Bolshevik forces under Lenin and Trotzky hold the inside position and can strike in any direction, at least five of the peoples of Europe are actively engaged in military preparations for defence. Of 850,000 Allied troops in Northeastern Europe "the English and French alone number nearly 300,000," says The New York Evening Post, and "with the Czechoslovaks and Poles in the north, a cordon of easily more than a million men can be stretched from the Baltic to the Black Sea."

Read THE LITERARY DIGEST this week—May 10th—if you would obtain a real knowledge of the present military situation in Russia. The article is illustrated by a half-tone picture of Kolchak, who heads the strongest anti-Bolshevik Government, and also by a map showing how Soviet Russia is hemmed in.

The Surest Remedy for Bolshevism

The study of the new social disease, Bolshevism, whose menace is today overshadowing the greater part of Europe, reveals the outstanding fact that it is most prevalent where ignorance is most strongly entrenched. This ignorance and its attendant poverty and want, create ideal conditions for the fostering of this dread disease. The surest way to combat these is by education, by enlarging the viewpoint, by substituting facts for fancies, reality for revolution. No perversion of the truth can long endure under the pitiless light of publicity and common-sense. It is up to every red-blooded American to do his share in spreading this education as to the real issues, the vital facts, the actual conditions that lie behind the world's unrest and are making history at a pace that is simply amazing. To get these facts, stripped of unessential details, clean-cut, condensed, and up to the minute, you have only to turn each week to THE LITERARY DIGEST. Buy a copy today, read it yourself, and pass it along to your family and friends.

TO DARKEN HAIR
APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

EAST AND WEST NOT WORKING TOGETHER

"A national campaign of education, to ascertain and clearly define our true economic position will result in a reconciliation of the divergent views of the east and west," said M. A. Brown, president of the Alberta Industrial Development Association and mayor of Medicine Hat, at a meeting of manufacturers and business men held at the National Club at noon yesterday. "The east," contended Mr. Brown, "were of opinion that the development of the west industrially is not to the best interests of the east, whilst many in the west argued that industrial development in the west has no concern for agriculturists. It was, therefore, essential that the representatives of all interests should come together and lay down a policy for national development. Never would the fiscal policy of Canada be stabilized so long as there was an unbalanced count."

After Mr. Brown's address, a number of prominent manufacturers said they intended to secure immediately estimates on the possibility of locating branch works in Alberta. Amongst those present at the meeting were: S. R. Parsons, ex-president of the Canadian Manufacturers' Association; J. S. McKinnon, second vice-president of the Canadian Manufacturers' Association; Thomas Roden, chairman Toronto branch of the Canadian Manufacturers' Association; P. W. Ellis, George W. Watts, Arthur Howitt, W. C. Coulter, L. L. McMurray, E. H. Gurney, Chas. L. Wisner, Allan Ross, J. E. Walsh, J. F. Ellis, Hadley Shaw, C. V. Harding, F. B. Hayes.

BEARISH FEELING IN GRAIN MARKET

U. S. Government's Crop Report Has Effect on Prices in Chicago.

Chicago, May 9.—Bullish sentiment, due largely to the government crop report, made the grain market today average higher. Prices closed unsettled at 3 1/2¢ net decline to an advance with July 1.63¢ to 1.65¢, and September 1.65¢ to 1.67¢. Oats finished 1 1/2¢ off to 4 1/2¢ gain and provisions unchanged to 5¢ down. Weakness of corn did not include May conveyer, which was governed by the scantiness of receipts and demand in the sample market. On the other hand, July and September contracts were under heavy selling pressure through the day as a result of the government crop report. In the hog market, and because of notice that four million bushels of Canadian wheat would be imported by the United States instead of the 1,000,000 bushels announced three days ago. Shortly after noon the deferred futures had a good rally in sympathy with the strength of May, but assertions that a big concern was arranging to import Argentine corn for use at Cedar Rapids, Iowa, put the bulls again at a disadvantage. Oats merely reflected the change in corn. Provisions were depressed with hogs and grain. Chances of smaller receipts of hogs next week, however, caused some reaction.

ON CHICAGO MARKET
Hughes, Harcourt and Company, 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: The extreme bearishness of the government report induced enough local selling of corn to produce an unwieldy short interest. The close was weak in tone at a decline of about two cents. The weather has changed to much more favorable planting conditions; as surface water disappears, planting is becoming general, as the farming community all set to rush the corn planting to the limit whenever possible to get in the fields. The government's showing of the

WINNIPEG WHEAT FOR MILLS OF MINNEAPOLIS
Minneapolis, May 9.—Frank L. Carey, second vice-president of the U. S. Grain Corporation, will leave for Winnipeg on Monday to purchase wheat for resale to millers of the northwest. It was announced here today, Mr. Carey said, that the amount purchased "would not be large," and would depend upon surveys which are being made. The resale wheat will be sold for grinding until the 1919 crop is harvested. Carey said the sale price by the government will be figured on a "strictly cost basis." Minneapolis grain men were quoted here today as estimating the government's impending purchase at Winnipeg at about 1,000,000 bushels.

FARM LOANS for SOLDIERS

How Returned Men Can Become Farmers

EVERY returned man who wants to become a farmer and is qualified for that vocation can get real, practical help through the Soldier Settlement Board.

The Government's programme includes:
(1) The securing of land.
(2) The loaning of capital needed to purchase equipment and live stock, and erect buildings.
(3) Agricultural training and farm supervision.

To Whom Granted

To be entitled to these privileges a man must have served with an honourable record in the Canadian, Imperial, or British Colonial forces in an actual theatre of war or outside of the country in which he enlisted (service in U.S. or Bermuda not included). Others eligible are:
A British subject who lived in Canada before the War and who was on active service with the Allied Forces in an actual theatre of war.
A member of the Canadian Expeditionary Force who served in Canada only, but is in receipt of a pension for disability occasioned by such service.
These benefits are also granted to widows of such men.

A Broad Policy

All soldiers whose best interests will be served by taking up farms will be assisted. Only suitable land will be approved. That is (a) land that is near to existing railways or organized communities; (b) land that will make money for the soldier; (c) land that will provide a first-class home.

MANY FINE PROPERTIES IN SHINING TREE AREA

Much Free Gold Is Shown, and Great Interest Is Aroused in New Gold Camp—Aeroplane Service Is Likely to Be Established

Sudbury, May 9.—Here is the recorder's office for the gold district of West Shining Tree, therefore one finds here many of the prospectors interested in the new field. Capitalists and others looking for properties also make this town their headquarters. It is, therefore, an excellent point from which to get a line on the amount of interest aroused by the unusually rich discoveries. The camp has evidently made a great impression on those seeking money-making opportunities for one finds everywhere the great gold deposits of Shining Tree the subject of conversation. Most of the men one meets have either been in the camp or else intend to visit it as soon as possible. One has taken hold of the public mind in a way which augurs well for its future progress and development.

Inadequate Official Reports.
Shining Tree would have obtained full recognition long ere this, had the reports, inadequate and, therefore, misleading reports issued by the Ontario Bureau of Mines. The first report, of which R. B. Stewart was the author, merely traversed the whole camp, in a way which was not sufficient to give a satisfactory examination. The bureau should have withheld publication entirely until his second examination, the following year. Even his later report did a scant measure of justice to the camp, which is a geological survey branch of the department of mines, Ottawa, was vastly more favorable to Shining Tree, but the mischief had been done, and, besides, the Collins report was not seen by many people, even in Ontario.

The bureau of mines have, no doubt, greatly helped the mining industry in many ways, but they might have accomplished much more. They are sometimes conservative to the verge of absurdity. Their attitude reminds one of a man who in his efforts to stand perfectly straight always fell over backwards. They have discouraged mining booms, and yet when booms came, they did nothing to prevent the machinations of mere adventurers.

Deprecates Mining Booms.
In his monograph on Cobalt, Dr. W. G. Miller greatly depreciates mining booms, and the policy of the bureau of which he is the head, seems to involve abstention from the cheerful, emerging view of things. After the great fire at Porcupine, on July 11, 1911, the bureau of mines came out with a pronouncement that its gold deposits must be considered low grade. The time was inopportune and there was nothing to indicate what was meant by low-grade ore. They are certainly not low grade in the ordinary sense. The statement is unfair and misleading, and in some cases it must have prevented capital from resuming operations on a vigorous scale, and it is not going too far to say that the development of both Shining Tree and Porcupine has been retarded by continual leaning backwards on the part of officials.

Big Camp in Making.
Shining Tree now looks like a great mining camp in its early stages. It will certainly turn out a very large number of producing mines—probably more than any camp in northern Ontario. Gold is widely distributed, and on many of the properties it occurs in surprising quantities. The camp is like Porcupine in some respects, and quite unlike it in others. There are more varieties of rock, and also tellurides of gold. One sees arsenic, horn blende schist, and dikes of olivine and quartz diabase, also blue quartz. None of these occur at Porcupine. It shows a great sameness as compared with Shining Tree, and the latter is more varied. The latter has the unusual opportunity of getting a line on the amount of interest aroused by the unusually rich discoveries. The camp has evidently made a great impression on those seeking money-making opportunities for one finds everywhere the great gold deposits of Shining Tree the subject of conversation. Most of the men one meets have either been in the camp or else intend to visit it as soon as possible. One has taken hold of the public mind in a way which augurs well for its future progress and development.

The West Tree.
The West Tree is classed among the very rich properties of the camp. It shows free gold and covers nuggets and sheets of the royal metal. The main vein is a full 1000 feet in length appearing on both banks of the Montreal river here about 400 feet wide. The shaft is going down on the west shore and drift water will connect the workings from shore to shore. The mine will probably yield a very large tonnage of good payable ore in addition to the high grade already maintained.

The Atlas.
The Atlas is distinctive because of its numerous dikes of olivine diabase. It rises about 50 feet above the permanent water level, due, no doubt, to the water-resisting qualities of the diabase. Probably the longest vein on this property is the Brownwood vein, which is 600 feet, and is very rich. Many of the veins have been cut off and shortened by diabase intrusions and wherever shortened they have been greatly enriched.

These dikes are vehicles of heat and the necessarily later than the period of vein formation they nevertheless prolong the epoch of metal deposition and add to the gold contents of the dikes. Preparations are now under way for drilling this rich vein in order to determine the Atlas has also over 400 acres under option in different parts of the camp. The group immediately south of that described is considered one of the most valuable properties in Shining Tree. Another notable group of Atlas properties adjoins the west side of the west. The Atlas has options on three camps in this part of the camp, and any one of them may make a second holding.

The Holding.
At the Holding was calaverita, one of the richest tellurides of gold, the most of the gold is in the free state. The shaft here is 95 feet, near the centre of the property. It is about 1300 feet east of the eastern boundary of the group under option to the Atlas. A well defined quartz vein about one foot wide has been discovered lately near the shaft, and on which mining is now proceeding. The Holding does not show gold quite so heavy as some of the West Tree or Atlas properties, nevertheless its specimens are very spectacular. The unusual character of these famous properties of Shining Tree will be fully appreciated when it is remembered that the pudding stone or "banket" of the Holding very rarely shows any gold, the production is now \$2,500,000,000.

The Buckingham.
The Buckingham is east of the Holding about three-quarters of a mile, and is of a different type. The Holding is in hornblende schist, the Buckingham in andesite. It is famous as the locus of very rich veins in many parts of the work.

The Buckingham has probably one of the longest, largest and best defined high-grade veins in the world. It follows it for over 1000 feet. The quartz is bluish, and in many places it is heavily impregnated with very coarse gold. The clear quartz or cement core of the vein is from 18 to 24 inches wide. It carries an average value of \$500 per ton or thereabouts. Therefore shafts, stopes and drifts will be in high pay places. There will be no dead work in removing the high grade.

J. A. Johnson, the well known mining man of Port Arthur, has an option on the Buckingham at a large figure. He has employed Captain J. G. Ross, M. A. of the Milton Hersey Company, Montreal, to examine the property. Johnson, Ross and R. A. Darwin, a prominent engineer of Montreal, have just returned after a careful inspection of the Buckingham. It is understood that Mr. Ross is much impressed with the prospects of the property.

Mr. Johnson is the broker who concluded the deal for control of the Wasaspka gold mine, one of the largest transactions which have taken place in the north for some time. He has had experience in many parts of the world.

Mr. Johnson is the broker who concluded the deal for control of the Wasaspka gold mine, one of the largest transactions which have taken place in the north for some time. He has had experience in many parts of the world.

The Longyears of Minneapolis, favorably known as mining engineers and capitalists, have just taken an option on the Bennett property in Shining Tree, and will shortly test it by diamond drill and otherwise. The Longyears know their work and have ample capital. Their advent is being awaited with interest.

Aeroplane Service.
Today a wire came from Toronto asking if this town would give landing space to aeroplane on the way to the gold region. It is understood that the service is probable. An air service is therefore probable within the next three months.

Shining Tree is coming with a rush. Optimism has had its way. It has had its day and ceased to be. Mining camps and with improved facilities transportation the progress of this rich field will be very rapid. There is no rock in the Kewatin schist, so well known in other parts of Ontario. The dynamic action has been on a great scale, the mineralization very extensive. Shining Tree will make one of our richest gold fields. Even the C-b-b's companies who have for years passed by this area will make one of our richest gold fields. Even the C-b-b's companies who have for years passed by this area will make one of our richest gold fields.

ORE RECEIPTS AT TRAIL.

Veteran Texas Oil Operators Dazed

Burkburnett the Wonder Oil Field of the World Once more fires a broadside that staggers belief.

Three Giant Oil Wells Born in One Day Burkburnett, the mother of these huge triplets, is the centre of attraction for an excited throng of oil men and visitors from the ends of the earth and more arriving in every train.

The triplets' names are Humble No. 2, Golden Cycle and Gilliland No. 17, and their combined production is reported 10,000 BARRELS OF BLACK LIQUID GOLD PER DAY.

Oil land leases have jumped to \$15,000 per acre. 70 BURKBURNETT oil companies are paying dividends at rates ranging from 7 1-2% to 1500% per annum.

For each dollar originally invested in Marine Oil Co. the owners will receive \$1750.00 when the final payment is made by the new owners.

In eleven days Burkburnett stock jumped from \$310.00 per share to \$1275.00.

Two hundred people sat up all night to see the Burkburnett Wagoner come in.

Texas Globe Oil Co.

With 40 acres lease in Burkburnett field, 20 acres in Brownwood and 20 acres in Caddo Parish, Louisiana, has completed its derrick on its Burkburnett 40 acre lease and the contract has been let to drill a deep well.

The Bailey, Great Western and other wells just brought in, have made our Brownwood lease proven oil land, something we could not claim before. The new refinery just announced to be built in the Caddo Lake District and another at Shreveport again increase the value of our Caddo Parish lease.

Our 3 leases have been appraised by oil men at \$136,000.00 cash value.

Its total authorized capital is only \$100,000.00. Par value of shares One Dollar each.

Only about 53,000 shares have been issued. It plans to drill 2 wells on its Burkburnett lease and one in Caddo Parish soon.

With oil all around its Burkburnett derrick it is conceded that a big well should come in, making its stock worth many dollars per share.

Shares can still be obtained at ONE DOLLAR each, but they are liable to advance in a short time.

Every statement in this advertisement can be confirmed by telegraphing to banks, newspapers, Fort Worth Oil Exchange, Texas Oil Clearing House or the Chambers of Commerce at

FORT WORTH, TEXAS the oil capital of the world.

Texas Globe Oil stock is an investment, not a gamble; the leases can be sold for more than the entire capital stock.

PROFITABLE WORK STOCKS

Dealings Are on Largest Scale of Year, But Irregularity is Shown.

New York, May 9.—Exceeding in activity any previous season of the year, today's stock market duplicated in its chief characteristics the broad and highly speculative movements of the past few weeks, but selling for profits was more insistent, many gains being merely shaded or altogether canceled later.

The most important development of the day, abandonment of the stabilization of steel prices, was somewhat obscured by the violent fluctuations in oils, shipplings and other favorites which have contributed more than their quota to the markets of the past two months.

From the course of steel shares it was evident that financial and industrial interests saw no ground for apprehension in an open or free market for fabricated products, some of those issues selling at the year's highest prices. U. S. Steel rose 1 1/2 to 10 1/2, its maximum since the passing of the extra common dividend, but forfeited its gain, independent steels and affiliated issues reflected greater firmness and many equipments dependent on the steel market were higher.

One branch of the stock list which made no direct reference to new conversions in the steel trade, was the railroads, in that division tending downward so far as they manifested any material alteration. Secondary rails were heavy, presumably on profit-taking. The Texas Company again featured the oils at a further advance of 2 1/2 points to 2 1/2, a total of 6 1/2 points since last week, only a small part of its gain being lost at the end of a Royal Dutch of New York, Mexican Petroleum, Pan-American, Petroleum, American Woolen, Montana Power, United Fruit and Atlantic-Gulf were five to nine points higher at one time, but the latter closed unchanged. Sales amounted to 1,800,000 shares.

Bonds, notably secondary rails and foreign, were strong with an easier tendency for Liberty issues. Total sales, par value, aggregated \$142,000,000.

BRAZILIAN LOSES EARLY STRENGTH

General Electric, Cement and Dominion Iron Strong—Activity in Nipissing.

Bullish sentiment was again evident in the Toronto market yesterday, but it was not so rampant as on Thursday, and a number of issues showed a tendency to recede from the best prices of the day.

Brazilian, the mining issues, but its list, barring the most active stock in the market, was considerably less than on Thursday, and its early strength waned under the offerings of stock bought lower down. The opening price, 57 1/2, an overnight advance of 1/2, proved to be the top figure in the session, with the price back to 57, with the closing at 57 1/2, a net decline of 1/2.
