## PREMIERS STAND TOGETHER AGREE ON RESOLUTIONS TO HONOUR LAURIER

### Demand Increased Subsidy, Without Prejudice to the Special Claims of British Columbia and Prince Edward Island.

Ottawa, Oct. 9.—(Special.)—The provincial representatives reached a unanimous agreement this afternoon. They have been in conference for two days endeavoring to reconcile the differences which existed between the various provinces in their claims for an increased allowance from the Dominion treasury. They were successful to-day.

Two resolutions were adopted. They will be presented to Sir Wilfrid Laurier and the other federal ministers tomorrow morning.

The first of these resolutions declares the need for increased allowances, as outlined in the Quebec resolutions of 1903.

The second resolution declares that pending the amendment to the British North America Act, necessary to give effect to the first resolution, the Canadian parliament should, at the next session, enact a measure for the temporary relief of the provinces.

The saving clause at the end of the first resolution is for the benefit of Ontario, Prince Edward Island and British Columbia. Premier Whitney does not want to subscribe without some reservation to the Quebec resolutions, because he criticized them when Premier Borden made them on the table of the Ontario house in 1903.

However, Hon. Mr. Whitney wants money from the Dominion for himself and for the benefit of the smaller provinces. It is for the benefit of Prince Edward Island, which has the smallest population and the least money. It is also a concession to British Columbia, which claims that the cost of its administration of affairs in that province, owing to difficult natural conditions, is far greater than in any other province of the Dominion.

The chairman of the provincial conference, Premier Gouin, has informed Sir Wilfrid that a unanimous agreement has been reached, and that the conference would like to lay its resolutions before the federal government tomorrow morning.

Mr. Borden Entertains. At 1 o'clock to-day Mr. R. B. Borden entertained at luncheon in the conference at luncheon in the Senate Restaurant. Among those invited were Sir Wilfrid Laurier, Hon. J. W. P. Mackenzie, Hon. R. L. Dufferin, Hon. A. M. D. Dufferin, Hon. J. P. G. Thompson, Hon. W. M. Paterson, Hon. A. B. Aylesworth, Hon. R. Lemieux, Mr. Speaker Sutherland, Hon. J. P. Whitney, Hon. J. J. Coy, Hon. J. Mackenzie, Hon. Lomer Gouin, Hon. A. Turgeon, Hon. A. Tassier, Hon. W. A. Weir, Hon. G. Murray, Hon. J. Ashburn, Hon. H. C. Calder, Hon. C. R. Rutherford, Hon. C. S. Cross, Hon. R. McBride, Hon. Joseph Pope, Mr. Chas. MacNeil, Mr. R. H. Pope.

Guests of Canadian Club. To-night the visiting premiers were the guests of the Canadian Club at a banquet in the Russell House, and some 150 guests sat down to what was no doubt one of the historic events of recent years.

### A DESERVING CASE.

Rev. L. W. B. Broughall, 99 Bellevue-avenue, writes The World as follows: "May I be allowed to appeal thru your paper to the generous and charitably disposed on behalf of Mrs. Spenceley, who needs \$40 to enable her and her three children to reach their relatives in London, England. In June her husband deserted her and no trace of him can be found.

## GERALD WHITE IN RENFREW (SUCCEEDS FATHER IN COMMONS) WINS SEAT BY A THOUSAND

### Only Five Divisions Out of Thirty-Two Declare for Nominee of Liberal Convention—MacKay, Second Liberal, Loses Deposit.

Ottawa, Oct. 9.—(Special.)—In North Renfrew to-day Gerald White, Conservative, was elected by 1082 majority. It is thought MacKay will lose his deposit.

White, who is a son of the late Hon. Peter White, had a large majority over both the Liberal candidates, Thomas Murray and Dr. Mackay, combined.

North Renfrew has always been regarded as a close constituency. The late Hon. Peter White won from the Liberal candidates, Mr. Mackay and Mr. Murray, by a large majority, but since re-division the riding has been carried by both parties by small margins.

Mr. White's majorities were: Ledgerwood school house 17; Stramath school house 15; L. A. A. school house 14; Village of Cobden town hall 17; Orange Hall, Eganville, 11; Queen's Hotel, Pembroke Town, 11; John Jennings, Pembroke Town, 5; school house Lower Town, 3; school house, Petawawa, 2; school house No. 3, Buchanan, 1; town hall, Cobden, 7; school house, Forrester Falls, 7; school house, McLaughlin's, 7; town hall, Buchanan, 1; Moore's school house, 7; school No. 2 Gore line, 7; Lee's school house, 7; Orange Hall, Rankin, 5; school, Byles' corner, 8; Sunstrom school, North Algonquin, 7.

The Murray majorities were: Town hall, Cecil, 3; Connaught school house, 3; Pine Valley school house, 3; No. 3, Ralph, 3; No. 7, Biggs, 4.

The candidates ran a tie at Pembroke town hall.

## Buffalo "Flyer" Derailed Imperils Trains Standing Remarkable Accident at Burlington Junction—Engine Wrecked, Every Coach Untracked and Second Train Hit, Yet No One is Injured.

Running at between 50 and 60 miles an hour, the G.T.R. express for Buffalo (No. 21) left the rails at Burlington Junction and the engine just missed crashing into the train for Allendale (No. 24), which was on an adjoining siding. Although every coach of the Buffalo train was derailed, as well as the rear coach of the other train, and the engine was upset and wrecked, no one was seriously hurt, even to the engine crew emerging from the ruins practically unscathed.

If the derailed engine had not been derailed, the whole train would have crashed into the other passenger train standing on the siding, and, as it was, it scraped the sides of the cars of the cars of the stationary train, as it turned over on its side.

The Buffalo "Flyer" leaves Toronto at 8 o'clock. The other train was backing up from the station at Burlington Junction to cross over to the northern division line.

A broken flange caused the locomotive of the flyer to jump the rails, and it toppled over and lay crosswise between the tracks.

Every car of the train, and also the rear coach of the northern division section were derailed, but a Miss Kelly of Toronto was the only person injured. She escaped unharmed, and passengers considered little short of miraculous for the flyer was running at the rate of between fifty and sixty miles an hour yet Engineer McIntyre and the fireman climbed out of the overturned engine unharmed. The huge machine is a complete wreck.

Miss Kelly was attended by a doctor, A. J. Kilbridge of Tonawanda, N. Y., who was also a passenger on the wrecked train, and later was visited by the company's surgeon at Hamilton.

The line was blocked on both tracks for a couple of hours, although the auxiliaries from Toronto and Hamilton were quickly on the scene.

All trains both ways were handled over the Beach Line, which makes a circuit around the rear of the depot. While a broken flange on the engine is said to have been the cause of the trouble, another theory has it that the engine mounted the switch at the point where it left the track.

All trains arriving in Toronto were from one hour to an hour and a half late. Passengers leaving Hamilton at 10:15 P.M. arrived in the city at 10:15. Alarming rumors of the extent of the accident were circulated in the city, with numerous fatalities.

Bar Township is covered with red and white pine, and the report of the ranger did not distinguish the proportion of each. As the award of the contract depends on the quantities of the two species, the proportion determining which would be the highest tender sent in, an expert ranger will be sent to catalogue the figures sent in are reserved by the department.

## ARRESTS FOLLOW STRIKE WAR TWO OF MACLAREN COMPANY ARE CHARGED WITH MURDER

Buckingham, Que., Oct. 9.—(Special.)—The strike situation here has vastly changed. To-day three strikers were arrested, viz. Hylaire Charette, Pearson and Adair Hamlin, two wounded men who are still in the hospital.

But no sooner was this sensation over than on the other side several of the prosecutors and police were arrested for murder and attempted murder and taken to Hull by Sheriff Wright and Chief Provincial Detective McCaskill.

They were Albert and Alexander MacLaren, two of the partners of the lumber company; James Korman, brother of the chief of police; J. E. Vallée, mayor of Buckingham; Bert Cameron, a special constable, and J. C. Cummings, the bailiff of Buckingham.

The day was "wet" and miserable and quiet was the order of the day. In the afternoon the ratepayers of the town held a public meeting at which it was decided to ask the minister of militia, who was responsible for the bringing of the military to Buckingham, and who was to lead the militia.

Shortly after this, in the presence of the militia, the arrests began and in the courthouse the evidence of Chief of Police Frank Kierman, who was wounded, was heard. He swore that the strikers had fired first and declared that, if they had not returned the fire they would all have been killed. The examination was postponed.

Afterwards the prisoner, Charette, was allowed his liberty on his own recognizances, and the same procedure was adopted in the case of all the other prisoners.

Despite the fact that order is thoroughly restored, fifty Royal Canadian Dragoons from St. Johns, Que., arrived here this evening. This, it is believed, is to prevent further rioting when the company begins to move the logs down the river, which, it is said, will be done some time to-morrow.

Twenty special constables came up from Montreal during the day in case of necessity. Talking with the men to-day, they said they were as determined as ever to have the first shots. In any case, big developments are anticipated.

The main hope of the strikers in the case before the courts is still the fact that Mayor Vallée, who is general manager for the MacLaren Company, has agreed to have the first shots, but no attempt to read the Riot Act could be made for the strikers declare that in the circumstances considered the strike-breakers have thus played into the hands of the men.

STRIKE CASE FOR MEN. In independent circles it is believed that the union men have a strong case against the MacLaren company, the mayor, and the police, who are stated generally to have fired the first shots. In any case, big developments are anticipated.

## GILMOUR RUINS COLLAPSE CRUSH CAR LIKE SHELL FIVE ARE INJURED

### Without Warning Front Wall Falls Into Street Just as Trolley Was Passing—All the Victims Will Recover.

Ottawa, Oct. 9.—(Special.)—A portion of the ruins of the burned Gilmour Hotel collapsed about 7 o'clock this morning as a Gladstone-avenue car was passing.

Five persons were seriously injured, but they were all reported by the hospital authorities to-night to be out of danger. The injured: ALEXANDER POKVIN of the city fire brigade, badly injured about the body; WILLIAM CAMPBELL, contractor, of Hintonburg, badly cut about the head and body; MRS. THOMPSON, 37 Munroe-street, arms broken and body injured; HARRY LYNCH, motorman, knee-cap fractured and cut about the head; THOMAS MCCABE, conductor, badly cut about the head and hands.

Only Five in Car. The car contained only five people, Pokvin and Campbell were the most seriously injured, and it was thought for a time that they would not survive. The mass of bricks and stone completely crushed the car. It is a miracle that anyone escaped instant death. That any did escape instant death was probably due to the fact that a portion of the wall immediately over the main entrance, where there is a bay window, and where a party-wall connects with the front wall, did not fall. As a consequence, the force of the fall was somewhat broken.

Without Warning. Conductor T. J. McCabe said that there were three passengers on the ill-fated car besides the motorman and himself. He was at the back of the car at the time of the accident. After the heavy gust of wind he noticed the wall seemed to bulge, when suddenly, and without any warning whatever, the walls rocked, and finally fell with a crash to the ground, burying the car beneath the ruins. When he saw the walls falling he tried to jump off, but found this impossible, as he was holding bricks, which were falling in hundreds. After considerable difficulty he managed to struggle out of the back door of the car.

Will Investigate. At a special meeting of the city council to-night the question of who was responsible for the collapse of the wall was discussed at length. After the simple gist of how it was decided to appoint a sub-committee to deal with the matter, and this committee will make a thorough investigation. The committee got down to work right after the council meeting, and decided to recommend that Building Inspector Frazer, who is also assessment commissioner, be asked to hand in his resignation at once.

HAMILTON HAPPENINGS ENTITLED TO UNION WAGE DECISION OF MAGISTRATE

Case of Peculiar Interest to Labor Heard in Police Court.

Hamilton, Oct. 9.—(Special.)—A case of peculiar interest to labor unions was tried at the police court this morning. The case concerned the rights of union men in regard to wages without previous agreements.

The evidence showed that Madgwick applied to Mr. Halliday for work representing himself to be a competent carpenter. Mr. Halliday, not knowing that he was a member of the carpenters' union, took him on.

The magistrate held that the union men were entitled to the union scale, 35 cents per hour, and he gave judgment for \$1.57, the difference between what Mr. Halliday paid and what Madgwick expected.

Workmen Get Damages. The Bertram Company was stuck in a couple of accident cases at the assizes this afternoon. J. Ball, who was badly burned in the mauling shop, was given \$100 and costs.

Fred Louin, 2 Pine-street, who came from Napanea a short time ago, fell 20 feet from a skylight of the Haynes Coleman building.

Charles A. G. Hotel, 60 years of age, complained to the police that last night about 11 o'clock he was struck upon by two men near the rolling mill, who roughly handled him.

Work in the Ward. Superintendent of the Italian missions announced that splendid progress had been made in the work since its inception a year before.

Mr. Merlino hoped that the board of missions would provide him with the assistant for the work he had requested, and asked roughly who the board had made up of.

Rev. Mr. Kirby, who was introduced by Rev. Mr. Haslewood, gave an eloquent address. He urged religious gymnastics, and the church's providing wholesome recreation to offset the influence of the saloons and poolrooms.

Reports of the Year. Various reports were presented during the evening. The report of E. Ralston, registrar, showed a membership of 114 members, and E. Dickinson, as treasurer, showed a small but satisfactory surplus.

Dr. Torrington and the Mendelssohn choir of 25 singers were taken by flashlight on the platform of Massey Hall last night.

# WOMAN'S WORLD.

**The Girl Who Smiles.**  
**World's Pattern Department.**  
Designed by Mildred Cassella.

The wind was east, and the chimney smoked, and the old brown house seemed dreary.  
For nobody smiled and nobody joked, the young folks grumbled, the old folks croaked, they came home chilled and weary.  
Then opened the door and a girl came in,  
Oh, she was homely—very;  
Her nose was pug, and her cheek was thin,  
There wasn't a dimple from brow to chin.  
But her smile was bright and cheery,  
She spoke not a word of the cold or damp,  
Not yet of the gloom about her,  
But she mended the fire and lighted the lamp.  
And she sat on the place a different stamp  
From that it had without her.  
They forgot that the house was a dull old place,  
And smoky from base to rafters,  
And gloom departed from every face  
As they felt the charm of her mirthful grace,  
And the cheer of her happy laughter.  
Oh, give me the girl that will smile  
When the wind whistles through the pane,  
And make all glad together!

**Italy's Famous Actress Dead.**  
Rome, Oct. 9.—The Marchesa Del Grillo, better known as Adelaide Ristori, the celebrated Italian actress, died this morning of pneumonia.

Adelaide Ristori was born in 1821. She was the daughter of obscure country, who came here to appear on the stage when she was two months old. At four years of age, she played children's roles, and when 12 years old, she was engaged by the Grand Duke, Grand Duke of Tuscany, for a time interrupted her dramatic career. Ristori reappeared on the stage in 1849 at Rome, at the time of the siege of that city, and during the bombardment she helped to succor the wounded in the hospitals. But it was not until 1850 that she regularly resumed her profession. In 1855 she took Paris by storm, it being stated at the time that no foreign actress had ever received such ovations in French theatres. The French government made her brilliant ideas of persuading her to join the Comedie Francaise, but she preferred to remain Italian. For several years she travelled through Europe. In 1868 Ristori visited America with a company, and was warmly welcomed. Subsequently she visited Mexico, where she retired from the stage in 1888. The 80th birthday of Ristori was celebrated in Rome on January 19, and she made the occasion for many festivities throughout Italy. King Victor Emmanuel, accompanied by his wife, visited her and presented her with a diamond necklace. She received very many congratulatory telegrams from the United States and other foreign countries.

**Household Economic Association.**  
The annual meeting of the Canadian Household Economic Association, held in the normal school yesterday afternoon, was fairly well attended. Mrs. James L. Hughes presided and outlined the purpose of the association, and expressed regret that the meeting was not more general and sustained. There were grave problems to settle which came well under the consideration of the association, and these could only be adjusted by continued effort.  
The report of the treasurer showed a substantial surplus, and the report of the other committees were all of a satisfactory nature.  
The following were elected: Mrs. James L. Hughes, hon. pres.; Mrs. A. M. Huestis, pres.; Miss Davison, 1st vice-president; Mrs. Robinson, 2nd vice-president; Mrs. Robinson, secretary; Miss Marshall, recording secretary; Mrs. G. R. Payne, treasurer; Mrs. Robinson, librarian; Mrs. Robinson, 1st committee; Mrs. Hughes, Miss Patterson, Mrs. Noble and Mrs. Cuddey, representatives to the Council of Women, Mrs. Hughes, Mrs. Gurney and Mrs. Robinson.  
The session of the presidency, Mrs. Huestis took occasion to urge even greater co-operation than in the past, and paid a tribute to the work of the retiring president, Mrs. Hughes.  
At the next meeting the subject will be "Having and Holding of Our Domestic Servants."

**The Browning Club.**  
The tenth session of the Browning Club of the Jarvis-street Unitarian Church, which is to be devoted to studies of Shakespeare, will be inaugurated this evening, when the new president, John C. Seal, will give an opening address of 30 minutes, preceding the reading of a paper by Prof. D. R. Kaye, on "Shakespeare and the Germans."  
The program for the remainder of the season, which includes an address from Goldwin Smith on "Shakespeare, the Man," is: Oct. 24, "King Lear," study by the club; Nov. 7, "Shakespeare's Poems," study by the club; Nov. 21, "Romeo and Juliet," study by the club; Dec. 5, "English Drama Since Shakespeare," Prof. W. J. Alexander; Dec. 19, "As You Like It," study by the club; Jan. 9, 1907, "Shakespeare's Shylock and Other Shylocks," Mr. Wm. Houston; M. Jan. 23, "Social Evening," the club and its friends; Feb. 20, "Julius Caesar," study by the club; Feb. 20, "Shakespeare's Greek Drama," Principal Maurice Hutton; March 6, "King Henry V," study by the club; March 20, "The Modern Tragedy in the Modern Drama."

**About Walnuts.**  
The shell of the walnut is not as hard as it appears to be. It is made up of many layers, and the outermost layer is the hardest. The inner layers are softer and are made up of a substance called lignin. The lignin is a natural glue that holds the layers together. The shell is so hard that it can be used for making tools. The inner layers are so soft that they can be used for making paper. The walnut is a very useful tree. It produces a valuable nut, and its wood is used for many purposes.

**PROVINCE SHOULD CONTROL AFFAIRS OF TORONTO JAIL**  
Divided Authority Between City and Government is Cause of Trouble.

His Honor Judge Winchester yesterday received the presentation of the grand jury, which acted during the sessions just closed. It said: "We made a brief visit to the Hospital for Sick Children. The view we were afforded on the premises of the great usefulness of the institution. Many of the children were well enough to take with evident relief their noon meal, just then being served, and their happy faces assured us of the kind attention they receive."  
The building erected at a home for the nurses of the institution through the liberality of J. Ross Robertson. When complete this building will be equipped with every requisite for the training of nurses in their duties. The building is fitted with sitting-rooms furnished for their comfort and convenience.  
The House of Industry, while an excellent managed institution, was considered hardly worthy of its name, since it only afforded unfortunates temporary shelter, and the only industry in it was breaking stones.  
The basement of the Jail were two prisoners in cells, which daylight does not reach and which are in a damp and ill-smelling atmosphere. Assurances were given that the authorities would, for a few days only. This method of discipline—solitary confinement—is strongly condemned, the belief being, impossible, and air being necessary to health, and that such treatment does not make a criminal any better.  
The inadequacy of the fire protection, no hose being provided for the use of the institution, is pointed out as well as the fact that an additional staircase as a means of escape from the upper stories of the women's ward.

**BOYS' PLAIN BLOUSE WAIST—1054**  
Washable blouses are the most necessary article in planning the boy's summer outfit, the waist is very simple and plain, the pattern provides for turnover collar to finish the neck, and a wide plait is made at the front, stitched on both sides with buttonhole and buttons for the closing finish. A pocket is made at the left side if desired, and the lower edge is finished with a drawstring or elastic in casing by which the blouse effect is made, the sleeves, which are in a sailor style, are plaited at the hands and stitched a short distance to form a cuff. The material is washable, and all washable materials, as well as French flannel, serge, Scotch flannel, or mohair are suitable. The blouse is cut in five sizes, 4, 6, 8, 10 and 12 years. For eight years it requires 2 3/4 yards of material. It is 35 inches wide, or 1 1/2 yard 35 inches wide.

**LOOKING BACKWARD.**  
A subscriber writes: "Thirty-seven years ago yesterday, Oct. 9, 1869, His Royal Highness Prince Arthur, turned the first sod of the Port Wharf and Port Ferry Railroad, that was an immense undertaking, and it is now the silver spade that was used at the sod that he was in the act of putting in his wheelbarrow full of earth and had to use his hand to help him to push the spade. This caused a vociferous cheer from the spectators, who clapped their hands with the greatest enthusiasm."  
**Fire at St. Charles, Que.**  
St. Charles, Que., Oct. 9.—The school and postoffice of the little village of St. Charles, on the Richelieu River, were destroyed by fire early this morning, and but for the assistance of the St. Marc fire brigade the entire place would undoubtedly have gone.

NO CORE, NO SEEDS.  
The Newborn's Joke Now Becomes a Dead Sea Reality.  
"There ain't no joking to be no core," said the notorious newsboy to his mate, equally notorious.  
This was a good story in its day, but it has now come true in a different sense. The coreless, seedless apple is a reality. It is known as the Spenser Seedless Apple and is the product of experiments made on Mr. Spenser's farm at Grand Junction, Colorado, for the past seven years.  
Across the line this apple has created great excitement among horticulturists and planters. The apple is not only seedless and coreless, but it is also juicy and flavorful, and its cultivation is profitable.  
The Spenser Seedless Apple is a new discovery that has revolutionized the apple industry. It is a seedless, coreless apple that is as juicy and flavorful as any other apple. It is a true wonder of modern horticulture. It is the only seedless, coreless apple that is commercially available. It is a true wonder of modern horticulture. # RIVER, LOOSE, FORMING LAKE

Great Body of Water May Yet Divide U. S. and Mexico.  
Washington, Oct. 9.—Who is responsible for the creation of the Salton Sea in Southern California, which already covers an area of 400 square miles, and is spreading over over 2000 square miles, if some of the diversions of the Colorado River cannot be devised?  
This question is perplexing Mexican and U.S. diplomats, and both countries are bending every effort to check the river, which has been accidentally turned back to the Colorado River. The Colorado River Development Company is a private corporation that is authorized to build a dam across the Colorado River. The dam would create a reservoir that would supply water to the Colorado River. The dam would also create a lake that would supply water to the Colorado River. # IMPROVED BOOKKEEPING

Will Show Increased Receipts of \$250,000.

A quarter of a million increase in the annual revenue of the provincial secretary's department alone is the cheerful report of the Whitney government in anticipation of Thanksgiving.  
This is a conservative estimate from the figures already available for the nine months ending Sept. 30. The receipts in the main office to Oct. 1 were \$183,041, as compared with a total for the twelve months of 1905 of \$181,909. The estimated increase for the year is \$55,000.  
About \$125,000 will be derived from licenses, and the extra sums from paying patents in the asylums, the central prison industries, public institutions and miscellaneous items compose the balance.  
Much of the increase is found to come from the improved collections possible under the systematic method of bookkeeping adopted last season.  
The increase has been a steady one, the total revenue in the main office for 1904 having been \$143,458. The total in 1905 was \$181,909, and as estimated this year will be \$250,000. From all the branches under the provincial secretary the revenue last year was \$670,000. This year it will not fall far short of \$1,000,000.

# "POLICY KING" MURDERED?

Coroner Thinks So, The Indications Pointed to Suicide.  
New York, Oct. 9.—Alben J. Adams, the former "policy king," who was found dead in his apartments at the Hotel Ansonia on Oct. 1, committed suicide.  
A verdict to this effect was returned by a coroner's jury to-day, after a brief session, which opened with every promise of an enlightening sensational trial.  
Coroner Harburger, under whose direction the inquest was held in his opening address to the jurors, declared that he believed that Adams had been murdered, and he added that the man whom he believed to be the murderer should appear before the jury as a prominent witness.  
At the conclusion of the examination of witnesses, who included hotel employees, members of Adams' immediate family and a police captain, the jury returned their verdict.  
**BURIED UNDER LUMBER.**  
Wagon Leaves Road and Upside Carries Driver to Death.  
Goderich, Oct. 9.—On Monday evening, during the storm, William Ivers of West Wawanosh was driving along the back road to the Nile, from Goderich. The road is considered dangerous, and it is supposed that his wheels ran off the road on to the slope, and the tilt carried his head over the back of the wagon, and he was killed. The accident is supposed to have taken place between 10 and 11 p. m., but it was not known till early this morning, when the team, attached to the wagon, was found on the body of the driver under the lumber.  
Coroners W. W. and J. K. Holmes will hold an inquest at Nile to-morrow.

# Grandfather's Cure for Constipation

Great medicine, the Sawbuck, Cures Constipation, Two hours daily sawbuck will keep anyone's Bowels regular.  
No need of pills, Cathartics, Castor Oil, nor "Physic," if you'll only work the Sawbuck regularly.  
Exercise is Nature's cure for Constipation, and a Ten-Mile walk will do, if you haven't got a wood-pile.  
But, if you will take your Exercise in an Easy Chair, there's only one way to do that, because, there's only one kind of Artificial Exercise for the Bowels and its name is "CASCARETS."  
Cascares are the only means to exorcise the Bowel Muscles without work.  
They don't Purge, Grip, nor "upset your Stomach," because they don't act like "Physic."  
They don't flush out your Bowels and Intestines with a costly waste of Digestive Juice, as Salts, Castor Oil, Calomel, Jalap, or Aperient Waters always do.  
No—Cascares strengthen and stimulate the Bowel Muscles, that line the Food passages, and that tighten up when food touches them, thus driving the food to its finish.  
A Cascares acts on your Bowel Muscles as if you had just jessed a cord of wood, or walked ten miles.  
Cascares move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.  
The thin, flat, Ten-Cent Box is made to fit your Vest pocket, or "My Lady's" Purse. Druggists—10 Cents a Box.  
Carry it constantly with you and take Cascares whenever you suspect you need one.  
Be very careful to get the genuine made only by the Sterling Remedy Company, and never sold in bulk. Every tag let stamped "C.C.C." age.

# BULL KILLS BRIDE AND GROOM

Young Elopers Gored to Death Escaping From Minister's Home.  
Martinsburg, W. Va., Oct. 9.—Frederick Cowan and his 17-year-old bride were gored to death by a bull in a meadow near this city.  
The young couple had just left the home of the preacher who had married them after a sensational elopement when the bride's red dress attracted the bull.  
The young husband fought the animal desperately, but the brute's horns ripped into his side and he was trampled to death.  
The bull then turned upon the girl, tossed her into the air, caught her again on his horns and finally hurled her far over a fence into an adjoining field. The young woman was so badly injured that she died within a few hours.

**NEW CLUB ORGANIZES**

**Forsythe, a Varsity Rugby Player,  
Has His Leg Broken in Practice  
—Johnston Back at S.P.S.**

The Elms held a large and enthusiastic  
Rugby meeting Monday night at their club  
rooms. The following officers were elect-  
ed: Hon. president, W. B. Rogers; presi-  
dent, J. K. Robinson; vice-presi-  
dent, G. Jones; vice-president, C. Wood;  
secretary, W. Simpson; manager,  
J. Scully; manager junior team, J. Titch.  
A large number of the boys have signed their  
intentions to turn out with the Elms  
and red and a very successful season is  
promised.

The Elms will enter a junior and senior  
team in the City Rugby League. F. Henry,  
who successfully managed the intermediate  
champion Elms of the Interassociation  
League this year, will manage the seniors,  
and the athletic committee will have  
place every confidence in his ability, and  
J. Titch of the juniors, to lead a couple  
more championships to the club.

The managers of both teams request all  
players of both teams to turn out to practice  
every night this week. Anyone wishing  
to play with either team is also cordially  
invited to turn out.

Ray Forsythe, one of the candidates for  
Varsity III team, had his leg accidentally  
broken at practice yesterday. He was run-  
ning with the ball and after standing on  
two men, was tackled from behind, the  
two falling in a heap, his leg being twisted  
and broken. Forsythe is a member of the C. L. A.  
executive.

Varsity put in a good practice last night  
on the Canada, the soldiers lining up against  
the intermediates. Kennedy, McArthur,  
and Southern constituted the back division  
of the champions.

Blackford, who played on the Hamilton  
line last season, has been invited to play  
Varsity. He will likely play against McGill  
Saturday.

Reifenstein was in uniform at Argon-  
auts practice last night.

Argonauts will line up with the Tigers  
on Saturday. It is likely Guy Clark-  
son will play outside wing.

Charles Johnston, the sturdy scrimmage  
man of last year, has been invited to play  
for the school and will be in the game Sat-  
urday against McGill.

Henderson and McLaughlin, who played  
on the back division of the Elms last season,  
are turning out to practice  
with Varsity II, team.

The "Tigers' Rooters" Club will be in full  
blast Saturday when Argos play in the  
ambitious City. Varsity will be  
away, the same as the Toronto Haseball  
Rooters' Club!

In the game with Peterboro last Satur-  
day, Marriot, one of the Tigers, was hurt  
by coming in contact with the Peterboro  
line. The Tiger management have decided to  
put the player in a hospital to avoid any  
serious complications of the Peterboro acci-  
dent.

An application was received from five  
young ladies for positions as waiters at the  
big game on Saturday. They suggested  
that if it would be a good idea, they  
promised to see that every unmarried man  
got a good seat. They were instructed to  
dress in a neat and conservative manner,  
and the appointment of a Canadian secretary  
at Washington.

The following players of the junior Argon-  
auts are requested to turn out for practice  
at Varsity II, both Wednesday and  
Thursday nights, at 7:30: Thompson,  
Meridith, Scully, Hilly, Russell, A. Haight,  
Hayter, Ross, Dwyer, J. K. Robinson,  
Moyle, McKay, Taylor, Charles Jar-  
dine, Bizzay, Haight and any others whose  
names are omitted.

The intercollegiate Rugby football season  
will open in Toronto on Saturday after-  
noon, when the old-time rivals, McGill and  
Toronto, will meet in a championship match.  
College Rugby made great headway in Canada last  
autumn, and every indication points to a con-  
tinuation of the success this year. Varsity  
will only win the championship of the  
college Union last year, but they secured two  
higher honors when they won the Cana-  
dian championship. Their hard work, since  
taken, therefore, in the performances of  
this year's team. The prospects are for a  
strong team, and Captain Joe Montgomery  
will line up a formidable aggregation to  
meet the visitors from Montreal.  
McNeill gave Varsity their hardest game  
last year.

The Trinity Rugby Club request all players  
out to practice tonight and Friday  
night in preparation for their game with  
Canada Life on Saturday afternoon, when  
they will likely be played on the Trinity Col-  
lege grounds. The Trinity point try hard  
to make a different showing than they did  
a week ago in their opening game.

The schedule for the City Rugby League  
will be drawn up to-day.

King Clancy, than whom few in the Do-  
minion know more about the fine points of  
Canadian football, was much amused by  
Saturday's game. Speaking in an Ottawa  
Free Press man, Mr. Clancy dilated upon  
the excellence of the play of the  
of the many means they afforded for "clean,  
and improved" football. They are a  
from a player's and a spectator's point of  
view, and the only one that can be  
removal of an element of chance, which,  
formerly, was a feature and kept the on-  
lookers in suspense. Then, one could not  
say where to look for the ball, but now  
one feels sure that it will go from the first  
quarter and then to the half. He felt,  
however, that the changes would otherwise  
more than compensate for the monotony of  
play referred to.

Biddy Barr was out to Varsity practice  
last night coaching the players.

**CALLS IT SHAMEFUL BETRAYAL  
OF NEWFOUNDLAND'S INTERESTS**

**Archbishop Howley Urges Ap-  
peal to Colonies to Join in  
Resisting Invasion of Rights—  
Bitter Feeling Against Down-  
ing Street Bureaucrats.**

St. John's, Nfld., Oct. 9.—Popular  
anger against the modus vivendi ar-  
ranged by the United States and Brit-  
ish governments relating to the New-  
foundland herring fishery is growing.  
There is a general feeling that the  
compromise arrived at was a back-  
down on the part of the British min-  
istry.

Archbishop Howley, the Roman  
Catholic primate, speaking on Sunday  
at a parochial festival, declared the  
modus vivendi a shameful betrayal of  
the colony's interests, and advocated  
the despatch of delegates to Eng-  
land, the United States, and an appeal  
to all autonomous British colonies to  
join in resisting what he termed an  
unjust invasion of colonial rights.

Attorney-General Morris, speaking at  
the same function, stated that the  
colonial government was unaware of  
the terms of the modus vivendi, and  
had done everything within its power  
to protect the colony.

The Telegram, the premier's organ,  
described the modus vivendi yesterday  
as the craven policy of timid down-  
ing-street bureaucrats, and expressed  
the hope that the Newfoundland gov-  
ernment will show the same resolu-  
tion and spirit of determination and  
teach Little Englanders like Lord Egl-  
in and Winston Churchill the same  
lesson that the colonists of Natal  
taught them when they tried to ride  
roughshod over the colony a few  
months ago.

**PRESS OPINIONS.**

(Canadian Associated Press Cable.)

London, Oct. 9.—The Birmingham  
Post says Great Britain and the  
United States appear to have come  
to a reasonable agreement concerning  
the Newfoundland fisheries.

The Liverpool Courier says no com-  
munity of interest has entered more  
from the moves and counter moves of  
politicians on the international chess  
board than the hardy and patriotic  
fisher folk of Newfoundland.

The Leader describes the Arch-  
bishop of St. John's declaration,  
totally unreasonably and a shame-  
ful betrayal of the interests of New-  
foundland as Billingsgate.

The Daily Gleaner declares the fish-  
ery arrangement to have fully justified  
the intense indignation with which it  
is regarded in Newfoundland. The al-  
legation by the foreign office that  
there has been no earlier opportunity  
of dealing with the question must  
be a mistake. The present crisis  
dates back to April, 1905.

Referring to the Newfoundland crisis,  
The Morning Post again insists on the  
necessity of the foreign office being  
with armaments sufficient to give their  
diplomatic requirements the necessary  
backing. It says that Canada has still  
much leeway to make up in the matter  
of defence before she could insist on  
such prominence being given to her  
interests. It says that the appointment  
of a Canadian secretary at Wash-  
ington.

The Standard declares the present  
government has deserted the sound pre-  
cedent established by the Newfound-  
land treaty of 1894, and has granted  
totally unreasonable demands. It invites  
its readers to mark the operation of  
the principle of disintegration which  
inspired the Liberal government.

**PENNA. R.R. CUTS ITS FARES**

**Railroad Will Sell 1000 Mile Tick-  
ets for \$20, Good West of Pittsburg**

Philadelphia, Oct. 9.—The Pennsylv-  
ania Railroad has announced that  
beginning Nov. 1 it will sell for \$20 a  
1000 mile mileage book good for bearer  
over all its lines west of Pittsburg,  
except on the Vandalla between Terre  
Haute, Ind., and St. Louis. This un-  
usually low fare is the adoption of a  
two-cent passenger fare through-  
out central territory within a few weeks  
at most. It is the first action taken by  
any eastern line which affects the rate  
between Chicago and New York. In  
effect it cuts that rate on the Pennsylv-  
ania from \$20 to \$18.24 and puts the  
differential lines in a position to at-  
once demand a two-cent increase and  
reduce their rate to New York from  
\$18 to \$16.24.

The Erie ten days ago made an an-  
nouncement similar to that of the  
Pennsylvania. It did not have equal  
significance, however, because the Erie  
is one of the weaker lines and the  
longest line in eastern territory be-  
tween all competitive points, while the  
Pennsylvania is the strongest and the  
lines and is the shortest one in this  
territory between most competitive  
points.

"It is," said a general passenger  
agent of one of the big eastern lines,  
to talk about putting in a regular rate  
of two and one-half cents on Nov. 1 if  
the Pennsylvania is going to issue such  
a mileage book as it has announced.  
Nobody would afford to buy a mile-  
age book could travel on tickets, and  
the two-cent rate ought to be made  
open to everybody."

The Pennsylvania's action practically  
puts the mileage bureau of the Central  
Passenger Association out of business.  
The mileage book now in use costs \$20,  
a rebate of \$10 being made when the  
book is returned.

When the Pennsylvania made an an-  
nouncement that it would make a rate  
of two and one-half cents in Pennsylv-  
ania, west of Pittsburg, fares had not  
been figured out. Then the Erie made  
its announcement that it would make  
Inter-Atlantic, and from Ohio points on  
the legal two-cent rate in that state.  
The Erie had hardly got together to  
figure on the new basis when the Erie  
put in a two and one-half cent rate  
between Chicago and New York. The  
Passenger Association announced that  
this rate would be made effective thir-  
dly next in the London by-election bribery  
case.

U.S. Exporters Will Take Advantage

(Canadian Associated Press Cable.)

London, Oct. 9.—It has been made

advantage of the shortage in the Cana-  
dian apple crop to attempt the cap-  
ture of the English market.

**HEARST HAS HEARST?  
MUST LIVE THROUGH VOTE**

**Differences With "Leaders" May  
Cost Him Election—Repub-  
licans Have Gained.**

New York, Oct. 9.—(Special.)—Will-  
iam Randolph Hearst, Democratic and  
Independence League candidate for  
governor, is back from his tour of  
speechmaking in the up-state counties,  
feeling sure that he will be elected in  
November. While with few exceptions,  
there were no great displays of  
enthusiasm at the county fairs at  
which he appeared, or in halls where  
he spoke, he came back with the con-  
fidence that the farmers, who are his  
main support, were with him at heart.

Mr. Hearst got back to confront a  
situation locally that it will need the  
patience and skill of a political genius  
to straighten out. There is no dodg-  
ing the fact that the problem is seri-  
ously complicated by the presence of  
himself, and if harmony cannot be brought  
about between the regular Democratic  
organizations in New York and King's  
county and the Independence League on the  
matter of local nomination, the break  
will probably cost Mr. Hearst the elec-  
tion and his hopes for presidential  
honors in 1908.

Cold truth, without bias of any kind,  
appears to be that some of his own  
manipulators, through personal ambitions  
and greed for office, have got him into the  
worst sort of a snarl with the organ-  
izations of the Independence League, who  
his votes below the Bronx, and how he  
can be elected without them is be-  
yond the mind of the oldest political  
observer to fathom.

**Must Get Democratic Votes.**

This is the practical side of the ques-  
tion, with any regard to sentiment  
or what Mr. Hearst may have said in  
times gone by and under radically dif-  
ferent circumstances, about certain  
manipulators. Whatever he may have  
heretofore he is now primarily the can-  
didate of the Democratic party, and  
to Democratic critics, the Independence  
League is a party which he must look for  
his votes.

No Democrat has ever or can hope  
to be elected without carrying the  
greater city by a tremendous plural-  
ity.

Since the last Democratic governor  
was radically changed to the very  
great advantage of the Republicans,  
the governor of 1894 has made it  
impossible for a Democrat to carry the  
state, even when he wins by a big  
plurality in the city. In 1892, he  
was beaten by 17,000 by Theodore  
Roosevelt, and in 1902, and yet he was  
beaten by Odell by 8800 votes.

These figures are given to the effect  
that the Independence League is de-  
pendent on the votes he may get up-  
state. Every one of the 53 counties  
is Republican, and as far as surface indications  
go, they are likely to remain so.

**Taft Proclaims Amnesty  
TO ALL OFFENDERS IN CUBA**

Clears Way for Freedom of Action  
by C. E. Magoon, the New  
Governor.

Havana, Oct. 9.—Chas. E. Magoon,  
the newly appointed provisional gov-  
ernor of Cuba, arrived in Havana to-  
day.

Coinciding with his coming Governor  
Taft gave out a general decree pro-  
claiming amnesty not only to the re-  
voluntaries but to all persons charged with  
political offenses or crimes in any  
part of the island.

He also issued orders covering the  
attitude of the American marines and  
soldiers toward the people of Cuba.  
The much discussed question of the  
ownership of the horses used by the  
revolutionists was covered in a special  
decree issued to-night. It is expected  
that the amnesty proclamation will  
clear the way for greater freedom of  
action by Mr. Magoon, who will suc-  
ceed Governor Taft on the latter's de-  
parture.

While the arrival of the new govern-  
or was not attended by any marked  
demonstration, the Cubans appear to  
be favorably impressed by his per-  
sonality.

**COLONIAL PLAN UNWORKABLE**

Declares The Times, With New-  
foundland Episode to Prove It.

(Canadian Associated Press Cable.)

London, Oct. 9.—The Times refer-  
ring to the fisheries crisis, is both to believe  
that the foreign office has concluded  
an arrangement without communicat-  
ing the terms to Newfoundland. It is  
clear, it says, that the colonial gov-  
ernment should have been consulted  
at every step, and adds: "As things  
are, Newfoundland has the power to  
involve the empire in very serious in-  
ternational difficulties, without a prop-  
riate responsibility. The episode is  
a striking illustration of the unwork-  
able character of our colonial system."

Won Sailboat From Which Two  
Men Are Drowned.

Sydney, N. S. Oct. 9.—(Special.)—A  
drowning accident occurred at Point  
Tupper this morning about 11 o'clock,  
the victims being W. A. Anderson, 22  
years old, I.C.R. night operator at  
Point Tupper, and Fred Porrier, a  
friend, 20 years old, a son of Capt.  
Porrier. The young men started  
to sail across the strait in a boat.  
A squall struck the boat and it upset.  
A strange coincidence is that Anderson  
won the boat last week in a lot-  
tery, the number of his ticket being 13.

Little or nothing is being said about  
the rest of the ticket on either  
side. Whole interest at both conven-  
tions was centered on the heads of the  
tickets and the names of the nominees.  
In London, the re-introduction of the

**DEPLORE LACK OF HONESTY SHOWN BY PROMINENT MEN**

Methodist Moral Reform Committee Expresses Opinions on Current Events.

"Not only as Christians, but as patriots, it is to us a matter of shame and sorrow that the recent investigations by courts and commissions disclose a regrettable disregard of honor and honesty among prominent citizens and public men who, by their position in society, might be considered superior to such betrayals of trust and violations of the sanctities of the interest of morality and business integrity. We deplore the fact that widows and working people have largely suffered by such irregularities, and trust that the laws will be vigorously administered."

**SPIRITUALISM, WHAT IT IS, BY MR. WILLIAMS WHO'S READ SOME**

Lecturer Cheerfully Admits He Never Had Time to Attend a Seance.

Thomas Williams of Chicago lectured in Broadway Hall last night to a full house, a large proportion of whom were converts. The lecture was advertised as on "Spiritualism." At the end of the address an auditor asked the chairman if Mr. Williams had ever attended a seance. The chairman transmitted the query in audible tones, and Mr. Williams, who had been asked "I never had the time, but I have read about them," was the reply, and he roused the audience to seething emotion. There were many questions asked in 30 seconds than Mr. Williams could have evaded in 30 years. One gentleman shook his fist in view of the total inefficiency of the categorical limitations to which he was confined by the chairman. A lady of noble proportions arose, and removing her coat revealed white vestments, in which she approached the platform, while excitement grew. Her designs were pacific, as her raiment symbolized. She had been consulting the "Spelling-Book Superstition," and had a question to put.

"When Death Ends All," was frequent and not unnecessary admission to the audience, as Mr. Williams proceeded to unfold the faith that is in him. He belongs to the "medium class," popularly known as "soul-sleepers," whose cardinal belief is that when you are dead it is a long time before you prove conclusively to his own and the chairman's satisfaction that those who fancy they may go either to heaven or any other remote region when they die are utterly misguided persons.

TRETHEWEY'S TROUBLES

TWO INJUNCTIONS FILED

Claim is Made That Verbal Opinions Were Made and Not Carried Out

The Cobalt area has on more than one occasion within the past year supplied materials for considerable litigation, and an ex parte injunction, obtained yesterday at Osgoode Hall, by Clarence J. McCusig, broker, of Montreal, gives promise of legal battle of exceptional points of interest.

It is against W. G. Trethewey, the well-known wealthy mine owner, that the injunction, which was granted by Justice Mabee in single court, was obtained and it restrains him from "dealing in or parting with" 192,000 shares in the Trethewey silver cobalt mine.

The large amount of \$600,000 is involved, as set forth in the papers filed in the case. From these documents it appears that about a week ago Mr. Trethewey in Toronto, and obtained from him an option on 192,000 shares in the mine bearing his name, the agreement, a verbal one, being that Mr. McCusig should have five days in which to examine the mine, the inspection to be made by Mr. McCusig and his assistants, and should report on the same to Mr. Trethewey.

While granting this injunction, Justice Mabee also dissolved the temporary injunction which was on Monday granted W. C. Fox, the Toronto mining broker, restraining Trethewey from disposing of the stock he holds in the Trethewey mine. Fox alleged that in a verbal agreement Trethewey had promised to sell him the mine, and that he had given him an option on 192,000 shares in the mine, and that he had given him an option on 192,000 shares in the mine, and that he had given him an option on 192,000 shares in the mine.

That Pittsburg people are acquiring a heavy interest in the silver mining properties in Ontario and adjoining Pennsylvania, and are seeking to acquire controlling interest in some of the best producing mines there is evident from the negotiations that have been going on in the latter province. Pennsylvania capitalists visited Cobalt in a private car early in the season. Their inspection at that time so far as satisfied their minds that a fabulous mineral wealth lay hidden in the Huronian formation in the Cobalt region that they at once expressed an interest in the mine.

Large orders to Toronto for shares in ordered Cobalt properties has been pouring in recently, and now comes the man representing financial interests in Pittsburg, who are known to take in nothing less than millions.

Mr. E. Hewitt, formerly identified with Toronto financial and brokerage interests, is the representative of these American financiers. Mr. Hewitt has power of attorney from R. M. Weaver, the big Diamond-street broker of Pittsburg, to close any bargain in Cobalt properties which satisfy him and in which he can secure controlling interest.

The King Edward yesterday, Mr. Hewitt would not say what properties he was negotiating for, as he considered publicity in the matter before the seals were closed might prejudice negotiations. It was understood, however, that one or two of the properties whose stock are rapidly advancing in price are in the deal.

At Cobalt many complaints are made over an alleged "Bull" market in the Cobalt stock and some litigation is threatened.

Silver Leaf has received an impetus by the knowledge in the town that the Lawson vein had been found by Superintendent Clark.

INSURANCE COMMISSION.

Continued From Page 1.

Mr. Stevenson the propriety of him (Foster) getting a commission, as his salary was not large, on lands and business he could turn into the Union Trust Co. Mr. Stevenson opposed the idea and so did the board.

Mr. Shepley read a letter written by Mr. Stevenson to Chancellor Boyd, "challenging Mr. Foster's attention to the propriety that the manager or any member of the board should have any commission."

Mr. Foster said that he was at one with the board and Mr. Stevenson on this matter, as well as with the board on their decision that no directors should be loaned money.

The demand for the several mining shares was heavy on Tuesday, but there was an impression abroad that the large holders were anxious to hold prices down, and the bids were not forced. Many brokers had discretionarily buying orders and noting an early weakness of prices awaited the appearance of support before filling them.

The market showed up more life in the day, but offers were not free and it was reported difficult to buy much stock at reduced quotations. The full speculation was not so desirable as deliveries of scrip are several days behind owing to the difficulty experienced in making transfers.
