JAPAN WILL HAVE A FREE HAND TO SUPPRESS THE CHINESE

The Russian Government Agrees to the Proposition Suggested by Great Britain, as Has Been Already Announced.

Ten Days Necessary in Which to Land Troops—Further Horrors in Peking Received From Chinese Sources—People in the Legations Are All Dead.

London, July 7.—(2.40 a.m.)—The Russian Government announces that it will give Japan a free hand to apply military force in China. The terms of this offer are summarized in the following despatch from St. Petersburg, under date of July 6: In reply to an inquiry from the Japanese Cabinet regarding the despatch of Japanese troops to China, the Russian Government declared on May 22 that it left the Japanese Government full liberty of action in this connection, and the Tokio Cabinet expressed its readiness to act in full agreement with the other powers. It is in consequence, no doubt, that Japan is preparing to embark 20,000 more troops.

Political considerations that were thought to have been hitherto the action of the powers are thus laid aside for the moment, at least by the government supposed to have the clearest purposes respecting China's future. Japan's sending of troops now can have little bearing on the fate of the foreigners in Peking.

Further Horrors in Peking.
Reports of further horrors in Peking are gathered by correspondents at Shanghai from Chinese sources, especially of the slaughter in the Chinese and Tartar city of thousands of native Christians, so that the capital reeks with carnage. The ruthless thirst for blood is spreading in all the Northern provinces, and wherever there are native Christians the scenes are ghastly. The capital are reproduced in miniature.

Legations Are All Dead.
From these stories nothing further comes regarding the legation forces, except a report that they are all dead. The correspondents aver that if the Chinese do not cease in Shanghai to throw light on the real state of affairs in the capital, they could do so, and, therefore, the worst stories are accepted as true.

Effect Was Electrical.
The effect was electrical. The envoys, palace officials of all sorts and most of the populace took place in the immediate neighborhood of Tien Tsin on June 30.

Disaster to Russian Force.
The Chefoo correspondent of The Express, telegraphing on Thursday, says there is no longer any doubt that the Russian force overtook the Russian force of 3000 that left Tien Tsin for Peking on June 11. The Russians had a full field gun complement, and carried their own transport. All no doubt has been heard from them for 24 days. It is assumed that they have been overwhelmed. Trustworthy news is received to the effect that all the country to the northeast of Peking is covered with the corpses of men and horses of the western force. Fighting of a desperate character took place in the immediate neighborhood of Tien Tsin on June 30.

Attack on Taku Expected.
Taku, despatches say an attack in great force is expected at any moment. The Chinese commanders are awaiting the arrival of more guns and reinforcements before making an attack on the city.

More Soldiers Needed.
Enough soldiers are necessary to defend the Chinese army, maintain communication with the base of supplies, and guard the hospitals en route. The water supply is an important problem in a country furnishing none, except river water, which are being poisoned.

Terrible Atrocities.
The Chinese are committing terrible atrocities upon the wounded. They are mutilating all the dead which fall into their hands. The Chinese have been ordered to Gen Tung Puh Man, with 10,000 of the best disciplined troops in the Chinese army, Mohammedans, are marching from the southwest towards Peking. The army themselves number 50,000. The Mohammedan Boxers are fighting in Peking. The remnants of Gen. Nich's command, north of Tien Tsin are reported to have deserted, and gone to pillaging the country. Residents declare that the Chinese command was inaugurated by peaceable Chinese, who have been the greatest sufferers from the foreign soldiers, who are burning the outskirts of Tien Tsin to deprive the enemy of shelter.

Boxers Are Looting.
The Boxers are destroying outlying villages for loot. The smoke of a hundred fires can be seen in every direction. Tien Tsin was not bombarded today for the first time in a fortnight. Families are returning to their homes within the concentric lines, women and children with the exception of the women who are safe. No unfriendly Chinese are visible in the streets.

Thousands of Chinese Dead.
A few of the richest, with their families, are huddled, badly frightened, in the outermost houses, shot at Europeans on the street. The Chinese dead about Tien Tsin number thousands. Most of those who have been killed lie unburied in the fields.

River Full of Floating Bodies.
The river to Taku is full of floating bodies, and many have been washed up by the tide. Dogs are feeding on these bodies along the banks.

Foreigners Must Quit Tien Tsin.
Fresh Chinese Attacks Are Expected—All the Legations Have Perished.
Bremen, July 6.—The firm of Melchers & Co. of Shanghai telegraphs under date of July 6: "We have reason to believe that all the foreigners in Peking have perished. The rebellion is spreading in North China."

To Replace Legations.
Story in London That Officials of the Powers Will Go by Way of Canada to China.
London, July 6.—In connection with the Cabinet meeting a story is current that several foreign officials, officials and other government representatives will start for China via Vancouver immediately circumstances permit. It is presumed in some quarters they are intended to constitute a diplomatic bureau, which will temporarily take the place of the Peking legation.

Insurrection Extending.
A Strong Force Required to Check the Viceroy's in the North.
Washington, July 6.—A despatch has been received at the State Department from Consul-General Goodhue at Shanghai, dated July 5, in which he says that the situation is serious, and the insurrectionary movement is extending. If the allied forces, in the north, he says, should meet with reverses the disturbances certainly will extend to Central and South China, resulting in the expulsion and murder of foreigners in the interior and the ruin of trade. A strong force, he says, is necessary to check the viceroy's in the north and to support the viceroy's in the south.

PAGET WHIPPED THE BOERS

He Advanced Against Dewet and Drove Him From a Strong Position.

STEYN AND HIS OFFICIALS FLED.

Boiler Has Now Restored the Railway Line Between Pretoria and Natal.

London, July 7.—Gen. Paget is moving toward the heart of the country held by Dewet.

Lord Roberts telegraphed to the War Office, under date of Pretoria, July 6, 2.25 p.m., as follows:

Paget engaged the enemy on July 3 successfully at Ploiersfontein. He drove them out of a very strong position across Leeuwkop to Bronckhorst, where he bivouacked for the night. He followed up the enemy, and on the afternoon of July 4 was at Blaauwkrans, 15 miles southwest of Bethlehem. He reports that all of Steyn's Government officials except the Treasurer-General, who has gone to Teyate, are at Bethlehem, which has been proclaimed the capital. Steyn himself is reported to have taken flight to the mountains. Buller reports, his complete railway communication between Pretoria and Natal.

Lorenzo Marques on Friday learned that the Boers are showing fresh activity. A British force is reported within 40 miles of Komatipoort.

BOERS WERE DEFEATED.

They Made a Determined Attempt to Retake Ploiersfontein.

Were Whipped.

Masere, Basutoland, Thursday, July 6.—The Boers made a determined attempt to retake Ploiersfontein (Orange River Colony) yesterday. They attacked the place at midnight. The fighting was short but fierce, lasting an hour, and the Boers were repulsed.

Fighting for Beer Cattle.

London, July 6.—A special despatch from Pretoria says that an inter-tribal fight, in which more than 1000 natives are engaged, is taking place on the plains north of the Boer position. The fight, it is added, is for possession of beer cattle.

SIR WILFRID IS WORRIED OVER INCREASED INDEMNITY

French Members Will Not Be Squelched and the Premier is in a Quandary—Will Try to Pacify Them by a Big Feed in the Restaurant.

OTTAWA, July 6.—(Special.)—Sir Wilfrid is a worried man these days. The French-Canadian members of the House have been clamoring for additional sessional indemnity, like familiar men for food. The round robin circulated the other day petitioning Sir Wilfrid to open the public treasury was signed for the most part by these members. They asked for \$600, but declared they would be content with \$200 if the larger sum was denied them. Yesterday the matter was pretty thoroughly discussed, and it is said that the speaker, Bourassa and Monet on the ratons qu'on ne peut pas manger, were a sort of intimation to Sir Wilfrid that he should grant the desire of the French-Canadian members.

Called a Caucus.

Sir Wilfrid apparently looked on the matter as a species of intimidation, for he called a Liberal caucus this morning at 11. The caucus was largely attended by both English and French-speaking Liberals. The English-speaking M.L.A.'s wanted no additional indemnity, and were willing to abide by Sir Wilfrid's dictum that there should be no increase. The French-speaking members were not so docile. Most of them are not wealthy men, and depend upon their sessional allowances. They gathered this morning in the caucus to discuss the matter, and the caucus proceeded. He hinted that the Government's offer of a judgment to a certain gentleman, who made in secret had been revealed to the public in some mysterious way, and exhorted all to stay their lips.

Would Not Be Wise.

He then announced that it would not be wise to increase the sessional indemnity, because it would create a bad impression in the country. Several French-Canadian members presented their claims, complained of the length of the session and the shrinkage of means to run an approaching election. Sir Wilfrid replied in tones more than usually harsh, that what he said had to go. The result of the caucus was that the French-speaking members went away disgruntled and showed their discontent by remaining away from the House all day. They gathered in gesticulating groups in the smoking room and corridors, and held animated conversations with members of the Government. To-night not a French-Canadian member is in the House. The issue of the indemnity is looked for with curiosity.

Move Toward Conciliation.

Sir Wilfrid has made a move toward conciliation by announcing that a dinner will be held Saturday night in the Senate restaurant to Liberal members and the Liberal press. He hopes by the intimacy of the event and the consequent general speeches to warm his compatriots back to his cause. Perhaps he thinks that French-Canadian Liberals will be present, and generous host will not be so waiting in courtesy as to ask for money after the meal.

At a Late Hour Tonight it was learned from a prominent Liberal that Sir Wilfrid is winking in regard to the increase in sessional indemnity. An announcement definite and final will be made tomorrow.

The Class Macdonald.

An order has gone out from Ottawa to points all over Canada, calling for a gathering of the class Macdonald here during the Exhibition week. A. B. Macdonald is presumed to be the person referred to.

Date of Proclamation.

Opinions as to the time when the House will prorogue are rife. There is little business left to be done. Some estimate the prorogation at a week, others think the House will have next to be prorogued, and they have, and next Thursday is named for the prorogation, but next Saturday looks a better guess.

Blair's Railway Bill.

Mr. Blair's railway bill occupied the rest of the morning. The bill as amended by the Railway Committee was not objected to, but Mr. Blair moved amendments concerning the drainage of lands across the province or territory wherein they are published, and at the rate of one-eighth of one cent for each pound weight, or transmission within each province or territory. This means that the postage for an newspaper as described, is reduced from one-half cent a pound to one-eighth cent a pound.

BLAIR'S RAILWAY BILL ISN'T EVEN AMENDED

The Two Amendments by Mr. Casey and Mr. McMillan Were Voted Down by the Pass Holders in the House.

MR. MULOCK'S CONCILIATION BILL PASSED—IT WILL BE NO NEW BRANCH OF THE SERVICE, BUT MAJOR BEATTIE SAYS IT IS A GOOD ACT.

Ottawa, July 6.—(Special.)—When the House opened this morning, four French-Canadian Liberals were present. Messrs. Bourassa and Monet were in close communion with Sir Wilfrid and Whip Taylor, and had something serious in their minds. The something serious was a resolution asking for increased indemnity. Sir Wilfrid and speaker Blair moved that case, for they saw that the orders of the day were not called.

The Postoffice Act.

Mr. Mulock introduced his bill to amend the Postoffice Act, and it was read a first time. He explained that it contained but one clause. That clause reads:

The section substituted by section 3 of chapter 20 of the statutes of 1898, for section 20 of the Postoffice Act, is amended by inserting after the word "weight" in the twenty-second line, the following words: "For transmission beyond the province or territory wherein they are published, and at the rate of one-eighth of one cent for each pound weight, or transmission within each province or territory."

MR. JOHNSTON ASKS A FREE HAND IN THE ATHLETIC CLUB ENQUIRY

Matter Will Be Discussed at Monday's Meeting of the Council—Lamb Lobbies on Behalf of the Riverdale Park Caretaker.

Mayor Macdonald Follows Lamb and Endorses the Outrageous Action in Arresting a Young Girl and Sending Her to the Cells in the Patrol Wagon—What is the Caretaker's Pull?—Spence Acts Like a Man.

The leading feature of yesterday's City Hall news was Mr. E. F. H. Johnston's letter asking for a free hand in pushing the Athletic Club investigation. Although the Board of Control met on a recommendation to Council to have the investigation stopped, Mr. Johnston's letter must bring the entire matter of the unwisdom of the deal again under review on the floor of the Council Chamber.

This much is common ground on which the public will await with interest the result of next Monday's meeting of Council.

The Riverdale Park Affair. The eminent motion picture maker, Mr. Johnston's attitude towards the law and its officers was exemplified in his comments on the one hand upon the caretaker who arrested the girl in Riverdale Park, and on the other, upon the judges of the land.

He backed up the caretaker, and said an example should be made of the poor frightened girl. But he wished that someone would rise in revolt against the judges, and reflected on the bar as an institution for not doing so.

This much is common ground upon the Mayor's words, which will be found reported below adequately and impartially.

Lamb Lobbies Against the Girl. In connection with the Riverdale Park arrest, it is the talk of the City Hall that Ald. Lamb has gone around among the Aldermen representing that the girl had pulled "arms full" of spray. Ald. Lamb saw the Mayor. It is a pertinent question: What is the relationship between the girl and the Mayor's office?

The Ex-Mayor's Portraits. Mayor Macdonald, when he took his seat at the Board of Control yesterday, reported that parties are constantly coming in to the office of the Mayor criticizing the portraits of the past Mayors that hang upon the wall.

The Mayor: No, because they are not labelled. Spence: They ought all to have labels. There are Mayors whose pictures are not there at all—the present Mayor and Mayor Macdonald. Wait until he is dead.

A Tender From Mr. Rust. When the board yesterday awarded tenders, one was given to the Engineer. Afterward the paving and constructing company offered to do the work at the Engineer's tender.

Oil on Asphalt. Spence asked the Engineer whether he was informed about the effect of a light sprinkling of oil on asphalt pavement. He had been told that on streets where this had been tried the oil had kept down the dust for a month.

Nothing was done or decided. District Chiefs Without Increase. The Mayor: I understand it is so. The district chiefs appointed last year had not yet got the pay for their new grade.

Mayor After Quack Aids. The Mayor: Our city waterfront is disfigured with patent medicines and quack remedies. I would like to know whether the leases given for these properties were for the purpose of selling or for advertising. We ought to suppress it.

Office to endorse the medicine before allowing the advertisement. It is very bad indeed. Enquiry will be made as to the bona fide means of suppressing the nuisance.

FREE BOOK FOR WEAR MEN. If you would care for an honest opinion of your case free from quack methods, either call at my office or write for my book, "Three Classes of Men," sent free, sealed, by mail. I want you to know something of my famous appliance, the Dr. Sanden ELECTRIC BELT, and special attachment for men, the great home self-treatment without drugs. It restored vigor to 7000 during 1899, who suffered from effects of youthful errors or later excesses. There is only one genuine Electric Belt, protected by Canada and foreign patents, giving CURRENTS IN ANIMAL FELT, and that is the "Sanden." Not for sale by agents or in drug stores. Beware of quacks offering "electric belts on trial." NO CURE, NO PAY, etc. These offers are bogus. They always ask a "deposit" in advance. Write or call to-day. DR. C. T. How to Cure "Little Peaches." A disease known as "Little Peaches" is reported to have made its appearance in the Niagara peninsula. The fruit on trees with this disease ceases its growth when about the size of a crab apple, and the tree gradually loses its vitality. The only method of dealing with it known to the department is to burn the tree as soon as discovered.

The London and European Markets Are Disquieted Over the Chinese Crisis—Canadian Pacific's Flurry—Western Assurance Lower—Bank of Commerce and Bank of British Columbia—Notes.

World Office, Friday Evening, July 6. The most interesting thing in financial circles to-day was the announcement that the Canadian Bank of Commerce is about to absorb the Bank of British Columbia.

The Bank of British Columbia does business under a royal charter, and before Confederation, and requiring the head office to be in London.

The directors of the Canadian Bank of Commerce have entered into an agreement with the Bank of British Columbia to absorb the latter.

CONTRACT WITH GALENA OIL CO.

Alleged to Have Been With- out Tender and at Very High Prices

Ottawa, July 6.—(Special.)—In the Senate today Senator Ferguson brought up a scandal in regard to oil contracts let by Mr. Blair for the L.C.M. He declared the tender system had been violated by giving a contract in 1898 to the Galena Oil Co. Contract was continued to this company until the present time in an improper way and without calling for tenders. The Minister had failed to enforce the guarantee contained in the contract. Senator Ferguson asked if this sort of thing was to continue.

Senator Ferguson pointed out that contracts were awarded prior to 1898, but that Mr. Blair becoming Minister he annulled these contracts and gave the contract for oil to the Galena Oil Co., at prices nearly double those offered by the previous tender. He also said that the agent of the company had assisted in the election of Mr. Blair, and left the house to draw its own conclusions.

Mr. Blair's answer was that the late Governor entered into the contract, and if anything was wrong it was not Mr. Blair's fault. As to the charge that Mr. Blair had not got the best of the price paid the previous year, Mr. Blair said Mr. Blair claimed he had.

Senator Ferguson said he would move for an inquiry next year, and the matter dropped. The Senate will sit on Monday.

FOR TORONTO EXHIBITION.

Manager Hill Returns from Paris Loaded With Ideas for Future Use at the Industrial.

"It is all a question of money," exclaimed Mr. H. J. Hill, manager of the Industrial Exhibition, when asked to-day to express his opinion regarding his search for novelties during his recent trip to England and France. "If the money were not wanting," he said, "I have some ideas that would make the eyes of the people here with astonishment. As it is, I feel confident that some excellent notions regarding illuminations and arrangements to which I shall have opportunity to give my attention in the future, and Paris pretty thoroughly in my search for information, as well as manufacturers of attractions, and that would come to Toronto with pleasure, if the Exhibition were to be held in 1901 or more, but two weeks ago over a month a time to warrant undertaking the great expense involved. It is," he said, "there will be an exhibit of both expositions and showpeople from Europe to America next year, and if the Dominion Exhibition is held we shall experience no trouble in getting the best of the Toronto Fair has an excellent program across the Atlantic. By the way," Mr. Hill continued, "I have seen some of the same Government gave for not visiting the Exhibition was that a show presenting only hundreds of thousands of dollars, would be attended by the American, on which millions were expended. That suggestion implies that we are a small land in a large world, whereas the contrary is the fact: we are a big land in a small world, so far as an exhibition is concerned. I feel confident that the Dominion Exhibition is held, 80 per cent of the people who visit Toronto next year could be induced to come here. We have a reputation even in Europe. Buffalo has to credit me," Mr. Hill, who saw the Diamond Jubilee in the Derby, and who saw a world fair at Hoboken, N.J., a week ago, when three North German battleships were built, and 200 lives lost, it is impossible to say, is full of his experiences during his trip. He says that the Paris Exposition is a wonderful reality, anything but a mere fair and show, and that some American visitors had represented it in the Dominion Exhibition in the Canadian Pavilion were well arranged, but the looking itself is rather out of the way. Mrs. Hill, who accompanied her husband, is equally full of the wonders she has seen. "You should see the works of art," she exclaimed, "and the marvelous dresses in a complete Palace of Costumes, where a complete history of dress, ancient and modern, is presented, on Hildegarde's 'The Sun' dresses of beauty, in the Palais des Beaux Arts, there are also some wonderful paintings, statuary, etc., to which nothing of the kind could be seen elsewhere. Mr. Hill said he traveled from one end of England to the other, and had gained a great deal of knowledge, of which the Toronto Exhibition would get the benefit. He said he admires the Paris system of street traffic, and said, no, he was the order of the day, and people frequently had to wait an hour or more to get accommodation. A cab straggled on while he was there, but the confusion was terrible. Anyway, he said, the cabmen were very indifferent as to whether they get custom or not. He saw Diamond Jubilee in the Derby, and the Downs at Epsom presented a spectacle of enthusiasm that has hardly again been repeated.
