REVOLUTION IN GREECE

King Constantine Flees From Athens to Take Refuge With a German Escort of 300 Uhlans Who Have Been Waiting for Him Several Days at Larissa.

ALLIES LAND STRONG FORCE AT PIRAEUS; BATTLE IS ON

While the King Takes Refuge With Germans His Army is Heavily Engaged With Allies' Landing Party Around His Country House at Tatoi.

LONDON, Aug. 31.—The British press representative at Saloniki, Ward Price, sends a report which is current there that King Constantine of Greece has fled to Larissa, in Thessaly, to take refuge with a guard of 300 Uhlans. The text of the official message, which is dated Tuesday, reads: "This evening's sensation is that King Constantine has fled from Athens to take refuge with a German escort of 300 Uhlans, who have been waiting for him several days at Larissa."

"Another report is that the allies have already landed a strong force at Piraeus, which has been heavily engaged with the Greek army in battle around the king's country house at Tatoi, where several Greek princes have already fallen. Perhaps tomorrow will bring more light upon the situation, which is extraordinarily involved, even for the Balkans."

GAIN BY FRENCH EAST OF FLEURY

Minor Enterprise Carried Out Successfully Under Cover of Darkness.

WEATHER IS ADVERSE

German Detachments Repulsed by Barrage Fire—Some Artillery Activity.

PARIS, Aug. 30.—Repulse of a German attack in the Reillon region of Lorraine, and a minor gain by the French east of Fleury, during the night, are reported by the war office. The official communication issued this evening says: "On the Somme front there has been moderate artillery activity. The bad weather continues. In Lorraine, in the Reillon sector, enemy detachments which twice attempted to approach our lines were repulsed by our barrage fire. On the rest of the front there is nothing to report."

The afternoon statement said: "There was the usual uneventful day along the whole front. There is nothing to report in regard to the operations of last night except a minor enterprise which permitted us to advance to the east of Fleury. A German aeroplane was brought down in the course of a fight with one of our pilots. The enemy machine crashed to the ground near Fresnes, in the Woëvre."

FLAG OF ITALY FLIES ON PARIS BUILDINGS

French Government Ordered Such Course for First Time Yesterday.

PARIS, Aug. 30, 5:30 p.m.—For the first time since Italy entered the war the French Government today ordered that flags be raised on all official buildings in recognition of the declarations of war by Italy against Germany and by Roumania against Austria-Hungary.

Young was killed in the attack on the 23rd of August. He was very popular with his associates. His widowed mother resides in the city.

GERARD IS TAKING OVER ROUMANIA'S INTERESTS

BERLIN, Aug. 30, via London.—The Roumanian minister has requested the American ambassador, James W. Gerard, to take over the protection of Roumanian interests in Germany.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

INVASION of Hungarian territory by Roumanian forces is well under way. Bucharest has sent out an official report which makes it clear that the primary objective of the movement is Kronstadt. This city, with a population of more than 40,000, is the most important commercial centre of Transylvania. The invaders have reached the Village of Hosszufalu, only three miles east of Kronstadt, which is situated about six miles from the Roumanian border. The offensive is being pressed on the western and northern fronts and is making steady headway, despite the fact that Austria-Hungary, long watchful of the intentions of her neighbor, had doubtless no inconsiderable forces available to meet the invasion. More than seven hundred prisoners have been taken by the Roumanians.

Vienna admits that Austro-Hungarian troops are falling back all along the frontier with the exception of the retention of the strong natural positions east of Orsovo on the Danube. The statement indicates either that Kronstadt has been evacuated or that it speedily will be.

Russian troops in the Carpathians are only about 18 miles from the Hungarian frontier. The latest successes in this region are the capture of Pankov Mountain and of the Village of Rafalov, on the Bystritza. Elsewhere on the eastern front operations have been at a standstill save for sporadic enemy attacks on the upper Sereth and along the Bystritza. In the Caucasians the Russians are continuing their drive in the direction of Mosul, the Turks abandoning arms and ammunition in their flight.

British and French forces on the western front are still in the grip of adverse weather and the situation there has undergone no material change for several days. A small salient south of Martinpuich was occupied by the British yesterday and a number of prisoners taken in the process. A minor gain by the French east of Fleury on Tuesday night

U. S. GUARDSMEN WILL LEAVE MEXICAN BORDER

Orders Issued at Washington for Recall of Troops to State Camps.

WASHINGTON, Aug. 30.—Orders for the return to their state mobilization camps of 15,000 national guardsmen now on the Mexican border were issued tonight by the war department. Gen. Curtiss was directed to return three regiments from New York, two from New Jersey, two from Illinois, two from Missouri and one from California, Oregon, Washington and Louisiana.

"SURRENDER DRILL" GERMANS' LATEST

Teutons Have Valuables and Papers Ready When They Yield Themselves.

MORALE GIVES WAY

Party Surrendered at Guillemont in Defiance of Strict Orders.

BY FREDERICK PALMER. WITH THE BRITISH ARMY IN FRANCE, Aug. 28, via London, Aug. 31, 2:35 a.m.—An officer and ninety Germans surrendered in a body near Guillemont today. They were put out as usual with orders to stick under the British flag and against British infantry attacks to the last man. But when the British worked their way up on either side of the exposed trench they held, they ran up a white flag without making any fight of it. They said that they had suffered enough hardships and had had better of war, and preferred to be taken prisoners.

SURRENDER DRILL

The heavy downpour of rain continued all day, turning the shell craters and the trenches into mudholes. While the German press is saying that Roumanian's entry will lengthen the war, prisoners taken say that it will shorten it, as it is evident now that Germany cannot win and had better compromise than prolong the struggle.

"But we are not going to consider any compromise," the British soldiers say. The British soldiers who received the surrendering Germans, say that with characteristic organization they now have what the British call a "surrender drill." When they come out of their dugouts to give themselves up, as in the case of the body today, they have all their letters, valuables and papers in their hands, ready as a peace offering to their captors.

BOY FRACTURED SKULL IN FALL FROM WALL

Eleven-Year-Old Claude Pock is Critically Ill in Hospital.

When he fell from the retaining wall, 20 feet high, at the corner of Bathurst street and Davenport road yesterday afternoon, 11-year-old Claude Pock, 61 Hilton avenue, sustained a fractured skull, a fractured arm and broken fingers. The boy, with a number of companions, was walking along the wall, which runs from the sidewalk to a height of 20 feet, opposite the Convent Home, when he overbalanced and fell to the sidewalk. Dr. Miller was called and rendered first aid, after which the boy was taken to the Hospital for Sick Children, the police ambulance. His condition is critical.

FIVE-YEAR-OLD BOY BITTEN BY DOG

Animal Has Not Been Found and Father Has Notified Authorities.

Robert Cowitt, aged 5 years, 8 St. Anne's road, was bitten just above the eye by a collie dog while playing on the lawn in front of his home yesterday. The father of the boy has taken the matter up with the provincial authorities, but they were unable to help him, as the dog has not been located, and it is not thought advisable to have the dog under the Pasteur treatment until it is found and examined to see whether it has the rabies or not.

BRITISH TAKE SALIENT NEAR MARTINPUICH

Number of Prisoners Taken in This and Other Minor Operations.

ARTILLERY STILL BUSY

Adverse Weather Conditions—Feeble Attacks by Enemy Repulsed.

LONDON, Aug. 30.—Capture by the British troops of a small salient south of Martinpuich is reported tonight by Sir Douglas Haig. His earlier communication told of the repulse of German attacks in the vicinity of Guillemont, on the Somme front. Tonight's statement says: "South of Martinpuich we extended our line across a small salient, capturing some prisoners, the number of whom has not been ascertained. Thirty-eight prisoners were taken in minor operations."

"Between the Ancre and the Somme, despite the adverse weather, there has been a deal of artillery activity on both sides. On the remainder of the front nothing occurred."

GERMAN ATTACKS FUTILE

The afternoon statement said: "Operations last night again were confined to a few minor enterprises on different parts of the front. Two half-hearted attempts by the enemy to advance in the vicinity of Guillemont were easily frustrated. Detachments of our troops entered and reconnoitred what remains of Mougnet farm and subsequently returned to our lines."

"We carried out a successful raid, with no loss to ourselves, on the enemy's trenches near Neuville St. Vaast, inflicting casualties on the enemy and returning with eight prisoners."

AUSTRIAN TRENCHES YIELD TO ITALIANS

Brilliant Attack Was Carried Out at Head of Felizon Valley.

PEAK STRONGLY HELD

Alpine Troops Extend Occupation of Crest Northeast of Monte Cauriol.

ROME, via London, Aug. 30.—The Italian War Office today gave out the following official communication: "Hostile artillery has fired on our positions continuously between the Adige and Brenta Rivers and also shelled Ala, in the Lagarina Valley, Arterio, Valo d'Avico and Seghe, in the Avio Valley."

"In the Passa area our Alpine troops have extended their occupation of the crest northeast of Monte Cauriol, taking another 21 prisoners, one trench mortar and numerous rifles. The Austrian artillery opened a heavy fire on our positions, which was effectively repulsed by our guns."

"At the head of the Felizon Valley and in the region of the Bolte our troops made a brilliant attack and carried some strong trenches on the northwestern slope of Punta del Foraine and at the bottom of the valley. The enemy suffered heavily, leaving 117 prisoners, including three officers, in our hands."

"Along the rest of the front there have been desultory artillery actions. The enemy shelled Gorizia, Villa Sella and Ollero intermittently. On the Carso front small actions took place, which enabled us to straighten our lines. Enemy aeroplanes dropped bombs on Alleghe and on the lagoon at Marano, wounding a few persons, but causing slight damage."

ENEMY FALLS STEADILY BACK BEFORE ROUMANIANS' ONRUSH

Approach of Russian Troops Is Causing Dismay in Sofia

ZURICH, Aug. 30, via London.—There is consternation in Sofia, capital of Bulgaria, over the approach of Russian troops thru the Dobruja, according to news reaching here from Austrian sources. Rousing fighting between the Roumanians and Austrians, which is going on in all the mountain passes.

GAINS BY FRENCH WEST OF VARDAR

Fighting on the Macedonian Front is Developing in Intensity.

BULGARS BEATEN OFF

Futile Enemy Attacks West of Lake Ostrovo—Bulgars Occupy Drama.

LONDON, Aug. 30.—Severe fighting is in progress on the Macedonian front. The French war office report of today says the French gained ground west of the Vardar River. Bulgarian attacks west of Lake Ostrovo were repulsed by the Serbian army. The entente allies bombarded Bulgarian positions on the Struma front in the neighborhood of Ljumnica. Violent artillery fighting continued in the region of Ostrovo and Vetrenik. The statement says: "Lake Doiran region was bombarded by the entente allies. West of the Vardar we made some progress in the neighborhood of Ljumnica. In the sector of Vetrenik and Ostrovo violent artillery fighting continued. A Bulgarian attack against our positions west of Ostrovo was repulsed on the fire of Serbian batteries. The Bulgarians fell back, having sustained serious losses."

RAILWAY STRIKE MAY BE AVERTED

Eight Hour Day Provided in Wilson's Proposed Legislation. CONGRESS TO PASS IT

WASHINGTON, Aug. 30.—All the influence of the administration was brought to bear today in an effort to persuade the railroad brotherhood leaders to cancel or postpone the order calling a nation-wide strike Monday, while leaders in congress began paving the way for legislation designed to prevent or stop the threatened industrial catastrophe. Little tangible progress was made in either direction, but nevertheless in official quarters tonight there still prevailed confidence that in one way or another the walk-out would be averted.

To the spokesmen of President Wilson who approached them, all of the brotherhood officials gave the same reply: that they had no power to recall the strike order and that only one thing—a satisfactory settlement—could keep their men at work after 7 a.m. Labor Day. Further pressure will be brought to bear, and as a last resort the president is considering a public appeal to the men themselves to have the order rescinded.

Apparently the legislation, which is being counted upon to stay the brotherhoods, is that part of the president's program which would fix an eight-hour day for railroad employees engaged in operating trains in interstate commerce and provide for an investigation of its effects by a commission or board. This embodies the principal features of the president's original plan, accepted by the trainmen and W. G. Lee, head of the trainmen, said tonight that its enactment, with a guarantee of the present rate of pay, would be regarded by the brotherhood leaders as a "satisfactory settlement."

Immediately upon its becoming a law, he said, the brotherhood leaders would send out the code message notifying the general chairman that the strike order should not go into effect. Could Pass Law. Even some of the congressional leaders who oppose other features of the program, say such a law could be passed.

The senate had an all-day debate on the crisis, while the interstate commerce committee arranged for hearings beginning at 9 o'clock tonight. (Continued on Page 5, Col. 2.)

THANKSGIVING DAY ON OCTOBER NINTH

OTTAWA, Aug. 30.—The government today formally decided upon Monday, October 9, as the date of Thanksgiving.

The duke will carry with him the respect, and an unusual feeling of endearment in the hearts of the Canadian people.

CITY TEAMSTER IS KILLED BY HORSE

Kicked by a horse in the abdomen yesterday morning at the city stables, North Yonge street, William Houston, 623 Dupont street, 44 years of age, died in the Western Hospital about 5:30 last night from internal injuries. He was employed by the city as a teamster.

Invaders of Transylvania Approach Kronstadt, Which Austro-Hungarian Forces Are Evacuating—Vienna Claims Roumanians Were Repulsed Near Iron Gates on Danube.

LONDON, Aug. 30.—Roumanian troops have made progress in their crossing of the Austro-Hungarian frontier and have reached several points, including a village east of Kronstadt, says an official statement given out by the Roumanian War Office last night and received here today. More than 730 prisoners already have been taken. The statement follows: "On the western and northern fronts Roumanian troops crossed the Austro-Hungarian frontier during the night of the 27th, and after fairly lively fighting reached numerous points, including Mount Fagatzela, northwest of Nyergo, Kissepecla Hill, west of Gyergyo, and the Village of Hosszufalu, four kilometers (about three miles) east of Kronstadt (Brasso). Our artillery fired on Orsovo, destroying a petroleum depot. The fourth army corps has taken seven officers and 784 men prisoner."

"An armed enemy tug opened fire on Turnu Severin, but retired to Orsovo under fire of our batteries. Austro-Hungarian monitors opened fire on Gilgurevo, but were compelled to retire by our artillery."

Enemy Admits Retreat. The Austrian official communication issued at Vienna today admits that except northeast of Orsovo, on the Danube, near the Iron Gates, where repeated Roumanian attacks were repulsed, the Austro-Hungarian troops have been withdrawn step by step from the frontier in accordance with prearranged plans.

"The enemy," says the communication, "will boast of having captured Petrozseny, Braeso (Kronstadt) and Koedzi-Vasarhely (northeast of Kronstadt). On the northernmost front Roumanian columns are battling in the Gyergyo mountains, in eastern Transylvania, 80 miles north from Kronstadt."

"In the Carpathians the Germans have recaptured Kukul heights, which have been hotly contested in recent weeks."

A Triumphant March. Roumanian troops have marched without interruption for twelve hours in enemy territory, encountering only weak resistance, said the first official statement from the Roumanian War Office today on the invasion of Transylvania.

Zeppelins and a hostile aeroplane bombarded Bucharest during last night, it was officially announced this afternoon. No important damage was done.

The Petit Parisien publishes a report that the Roumanians, having forced their way into Transylvania, have occupied two important cities beyond the mountains. Roumanian cavalry detachments have crossed the Red Tower (Rothenburg).

DINEEN'S EXCEPTIONAL FURS.

Every fur garment, and set of furs, bearing the Dineen label carries the stamp of genuine quality. The furs are made up from only selected skins and pelts, while the thorough workmanship follows the most exact dictates of style in fashioning fur garments. Hudson Seal and Mole Skin will be largely the vogue this year, but Persian Lamb coats and Mink sets will not lose any of their former popularity with discriminating dressers. Their display for the season 1916-17 is now complete as to assortment. They invite visitors to the Exhibition to call at their show rooms and make reservations for furs for the coming winter. A small party will secure the purchase for later delivery. No charge for storage until required. W. & D. NO "SHADY" PROPOSAL MADE TO CAMERON Engineer Who Prepared Plans for Caissons, Gives His Testimony. DEFENDED HIS PLANS Change in Grillage Termed "Perfectly Straightforward and Honorable."

WINNIPEG, Aug. 30.—A. G. Cameron, the structural engineer who prepared the plans for the caissons, built and the steel work erected, witnesses of the parliament buildings, said this afternoon that during his connection with the superstructure, Cameron suggested that he do anything ever suggested that he do anything dishonest. Mr. Cameron, who was called by the court and examined by A. J. Andrews, said he defended his plans in every respect.

Mr. Cameron said V. W. Horwood, former provincial architect, told him there had been a mistake in the 2215-foot south wing grille in contract, which did not include the requisite steel, and the witness was directed to prepare plans adding to the grille a portion of the superstructure. Cameron quoted Horwood as saying this change was "perfectly straightforward and honorable." Horwood in his evidence had sworn that this change was made after consultation with Cameron for Kelly because of expected difficulty in "justifying" the contract.

Mr. Cameron said while the public accounts committee was sitting, Horwood gave him Wm. Salt's book of caisson records and plans of J. W. Thompson, a fellow engineer in a provincial architect's office, to compute the amount of concrete in the caissons. Horwood told him the alterations in the depths, as recorded, should be made by the inspector on the job. They were not able to make out the yardage of 35,000 cubic yards, as credited, and they so informed Horwood. Horwood told them of a system of calculating by which the apparent yardage might be increased, but they did not use it, he said.

A Good Looking Three-piece Fall Suit for Men is Our Leader at \$10.00

We made strenuous efforts this year to produce the very best line of three piece fall suits possible to sell at the popular price of \$10.00. Special purchases from reliable firms and our own manufacturing have contributed toward making them just as good and up to the quality of any we've had for several years, despite all the talk about the advancing price of materials.

It's quite an undertaking to produce such well tailored suits made of such sturdy imported and Canadian tweeds in such a large variety of patterns and shades for such a low price, and every man considering the purchase of a new fall suit, whether for business or general use, should give particular attention to this special \$10.00 assortment.

In the lot are greys and browns in a big variety of checks, stripes and fancy patterns.

They are all three-piece suits, smartly tailored, with 3 button sac coats, with medium width lapels in notched or peaked shapes and neat fitting backs and shoulders.

Vests are 5 button style and trousers are neatly cut, having two side, hip and watch pockets and with or without cuff bottoms. Sizes 36 to 44. Our leader

Another three-piece suit, suitable for fall or winter wear, is made of smooth, closely woven worsted materials in oxford greys and brown twills, hit and miss weaves and small checks; also of heavy tweeds in brown and grey. Coats are 3 button sac style of smart shape, and trousers are with or without cuff bottoms. Sizes 36 to 44. Price **12.50**

Special attention is directed to our assortment of navy blue suits containing dependable British dyes. These are made of fine twill and wider wale worsteds, also soft cheviot finished serges. They are single-breasted, three-piece suits, smartly tailored in accordance with the latest mode. Sizes 36 to 44. Price **15.00**

Men's Combination Tweed Raincoats and Top Coats From \$13.50 to \$18.00

These are the most desirable top coats men could possess. They serve as an ordinary top coat on dry days and as a waterproof raincoat on wet days.

The prices of these useful coats are considerably less than you'd pay for both the separate raincoat and top coat, and if you're in need of both—get one of these that serves the double purpose.

Slip-ons, made of medium weight "Rubberized" tweeds in grey or fawn, having large attractive overplaids in fancy shades. They are single-breasted with full fitting back. Lapels can be worn flat or closed up. A smart coat for the young man. Sizes 34 to 40. Price **13.50**

Men's Nap Cloth Waterproof Coats in brown with a slight evidence of green. It is single-breasted and can be buttoned close up or worn open. Have patch pockets with flaps, cuff on sleeve and double stitched seams. Sizes 34 to 40. Price **15.00**

Men's Slip-on Raincoats in similar style are in grey and fawn with fancy mixture. The average length is 47 inches and the back is full and without seams. Price **16.50**

Concerning the Coat Illustrated on the Right

This is one of the smartest Fall Coats in the display. Note the fashionable rich-looking appearance it has. As it appears here, it is a dressy Fall Overcoat, but by merely turning up the lapels it is ready to resist the forces of the fiercest rainstorm, having in it a special English waterproofing. It is made of strong Scotch tweed effects in brown or grey, with large attractive overplaid pattern. If you need a reliable coat for fall and winter wear, come in and try on one of these—you'll like them. Sizes 36 to 44. Price **18.00**

Fashionable Fall Hosiery for Men, From 50c to 85c a Pair

A PART from being stylish, Multiplex Hosiery is far-famed for comfort, appearance and durability. The following Multiplex lines possess these desirable qualities as well as being very low in price:

One line in particular is made of twisted yarn that is so woven that it gives the appearance of silk on the outside and cashmere inside. They have double soles, linen toes and fine ribbed cuffs. In shades of fawn, mahogany, navy, black, grey and range in size from 9 1/2 to 11. Price, per pair **.50**

Among our foremost lines of soldiers' socks, the 85c line is a leader. In grey or khaki, made on a hand-machine and finished by hand; thus preventing all knots or lumps that usually cause irritation. If these are bought now, they can be shipped to the front right away in good time for the winter season.

Other Prominent Lines of Fall Hosiery for Men

Men's Fancy Silk Half Hose, made from a medium weight silk thread and extra fine weave. This line is full fashioned, assuring perfect fit. Have double soles, heels and toes of lisle, also lisle ribbed cuff. Shades are purple and mahogany with self embroidered clox and black with white clox or white with black clox. Sizes are 10, 10 1/2 and 11. Pair **.85**

Men's All-wool Black Cashmere Half Hose, made of good English selected yarns. They have double soles, heels and toes, close-fitting without seams and fine ribbed cuffs. Sizes 9 1/2, 10, 10 1/2 and 11. Pair **.50**

Flat Brimmed Hats Are to Be Quite Popular with Men This Fall

Featured Here Are Our Leaders at \$2.00

THE FIFTH AVENUE, illustrated on the left, is a good example of the slight rolling edge, having a narrow, self-colored binding and just a slight curve at the edge. It's an American made hat, in medium shades of green and grey. A smart looking fedora that will appeal to the youth and young men particularly.

THE BELMONT shown in the centre is not quite so flat, having a sort of a half pencil brim. An American made hat, in shades of navy and light green, with dark band and edge and with light green cord.

THE BOULEVARD has a more pronounced roll at the edge, as the illustration shows. It is in a medium shade of grey with black band, bow and edging and light-colored cord. It's a shape that is suitable for the more conservative dresser.

Send Gloves to Soldiers Now in Time for Cold Weather

NOW IS THE TIME to purchase Gloves and Mitts for sending to soldiers overseas, on active service or prisoners in Germany. It takes some time for parcels to reach their destination, and if purchased and dispatched now, they will arrive in good time for fall and winter wear.

We've selected the following lines as gloves specially adapted for the comfort of the men in khaki, and you will notice their very low prices.

Particularly adapted for real cold weather is the regulation one-fingered horsehide mitt with soft, pliable velvet finish. It is fleece lined and has knitted cuff. This mitt has full welted seams that strengthen it against hard wear. Price, per pair **1.50**

A glove suitable for officers is cut from even tan cape skins. It is fleece lined and has one dome fastener and prix seams. The feature about it is that it is so soft and pliable that it permits free movement of the fingers. Price, per pair **1.50**

A glove that can be washed in soap and water repeatedly without losing its natural softness and pliability is made of durable peccary hogskins. It is unlined and has one dome fastener, prix seams and tan kid binding at wrist. It's specially suitable for officers and artillery men. Price, per pair **2.50**

A Heavy Knitted Woollen Glove is made of firm khaki colored yarns, with ribbed cuff. A warm, serviceable glove, suitable for officers or privates. Price, per pair **1.00**

A pair of ribbed wristlets prevent the snow from flying up sleeves. They are made of double knit khaki yarns and are 9 inches long. Price, per pair **.25**

OVER THE RAILS AT THE EXHIBITION

The grand stand was so crowded yesterday afternoon that boys and girls had to sit on the iron rails. This photograph shows a group of children watching one of the hydroplanes from the grand stand.

RAILWAY STRIKE MAY BE AVERTED

Eight Hour Day Provided in Wilson's Proposed Legislation.

CONGRESS TO PASS IT

Head of Trainmen Considers it as Satisfactory Settlement.

(Continued From Page One)

Tomorrow morning, when representatives of both sides will be heard.

Three hours will be given to each side and then the committee will begin drafting legislation into shape for presentation to the senate Saturday.

One dominant thought in the minds of members of congress generally resulted in the introduction late in the day of a resolution by Senator Blair

of Maryland, calling upon officials of the railroad brotherhoods to postpone execution of the strike order for one week to give congress sufficient time for intelligent consideration of legislation suggested in President Wilson's message.

The resolution was referred to the interstate commerce committee without discussion.

Opinion in the senate after the general debate concentrated on the urgent necessity for emergency action first, proposals for permanent legislation to be considered thereafter.

The inter-state commerce committee discussed the proposed legislation late in the day, but postponed action until after tomorrow's hearings.

In the meantime word came from the house that Representative Adamson, chairman of the commerce committee, and Majority Leader Kitchin had declared that the eight-hour day law could be passed thru the house.

Freight Handlers in Chicago Get Concessions From Roads.

CHICAGO, Aug. 30.—A general strike of 6000 freight handlers, set for 1 p.m. today, affecting practically every railroad in Chicago, has been averted, it was announced today.

The Chicago, Rock Island and Pacific Railroad agreed to the demands of the union for permission to collect dues on company property, and four hundred strikers returned to work at the Rock Island freight house.

There are, however, 1500 men employed by the Rock Island railroads still on strike, according to union officials.

RAILROADS ALL READY FOR STRIKE ON MONDAY

No Hope of a Settlement Can Be Seen By Them, Says E. P. Ripley.

CHICAGO, Aug. 30.—Thruout the country today the railroads, great and small, gathered their forces to oppose the strike set for next Monday.

The undercurrent of feeling reported at Washington that the catastrophe would be averted, was not reflected here among railroad men.

A summary of the situation made by E. P. Ripley, president of the Atchafalaya, Tappan and Santa Fe, who was a member of the committee which conferred with President Wilson, as spokesman for the railroad presidents, who returned this afternoon from the conferences at the national capital, intensified the pessimism felt here.

Ripley asserted that the railroads can now see no hope of a settlement before Labor Day, and are making every preparation for eventualities.

Practically every important railroad in the country gave notice of embargoes, or was preparing to give them. They affect perishable freight and live stock, which at present constitute about one-third the freight traffic on most western roads, and passenger agents everywhere were instructed to warn passengers of probable delays.

It is not expected that any perishable freight which could not normally be delivered before Sept. 4. In some cases the date was set for Saturday, the 2nd, or Sunday.

Developments of the day included the issuance of an injunction at

ENEMY FALLS BACK BEFORE ROUMANIANS

Invaders of Transylvania Are Pressing Forward Triumphantly Upon Kronstadt.

FIGHTING ON DANUBE

Vienna Says Roumanian Attacks Near Iron Gates Have Been Repulsed.

(Continued From Page One)

Virtual admission that the Russian troops are now crossing Rumania for the invasion of Hungary or Bulgaria, was contained in a Reuter despatch from Petrograd, passed by the Russian censor this afternoon.

The despatch stated that "it may be assumed that Russian troops are now crossing Rumania."

Rumanian artillery is bombarding the Bulgarian city of Ruzhichuk and the Hungarian town of Orsova, according to Vienna advices this afternoon.

Ruzhichuk lies on the River Danube, and on railways affording an easy entrance into Bulgaria for Rumanian invading armies.

An Amsterdam report is true the bombardment marks the beginning of hostilities against Bulgaria and Austria.

Ultimatum to Bulgaria

An Exchange Telegram despatch filed in Athens on Monday gives report from Saloniki that Rumanians have decided to present an ultimatum to the Bulgarian government.

Rumanians are demanding the return of Serbian territory held by Bulgarians in the Balkans, and the return of the status quo may be restored according to the Treaty of Bucharest.

Repulsed, Says Berlin

Two Rumanian battalions were defeated in an attack against the Bulgarian positions at Verostroya on the railway leading to Hermannstadt, said a semi-official statement given in Berlin today.

The Rumanians, it is stated, took the offensive at every point where fighting occurred, but were everywhere repulsed. Their principal attacks were directed against positions defending the cities of Hermannstadt and Kronstadt.

New newspapers report that both the Rumanian prime minister and King Ferdinand assured the Austrian minister at Bucharest as late as Sunday morning that Rumania did not want war, and was withdrawing the ultimatum.

The English reports of a scene between the Greek minister and the Rumanian king are "ridiculous and worthy only of cheap melodrama."

Tunnel Blown Up

The famous Tomos Pass railway tunnel, thru the Transylvania Alps has been dynamited and completely wrecked by the Austrians to check the Rumanian advance on the important city of Kronstadt, says a Rome despatch.

The Tomos Pass tunnel is about 900 feet long, and is situated on the Bucharest-Budapest railway, just inside the Transylvania frontier, 11 miles south of Kronstadt.

Sharp fighting occurred in the Tomos region a few hours after the Rumanian declaration of war. Rumanian detachments advanced from Fredes, crossed the frontier and attacked an Austrian frontier guard. Part of the all-possess artillery defences of the Rumanian line withdrew to the border, where they entrenched and repulsed counter-attacks by reinforced Austrian troops.

Snipers at Rumania

A Berlin despatch says: Archduke Charles Frederick, the Austrian crown prince, has issued the following order to the army: "Soldiers and comrades: You were told that another enemy has risen in the ranks of our adversaries, the kingdom of Rumania. Your upright soldiers' sense will find adequate contempt for this dilatory assault. We have overcome during the past years many grave hours. We also will fight in the new combat with honor and loyalty to our oath sworn to the flag of our chief command. God be with you."

SANTA FE LINE PREPARES.

LOS ANGELES, Cal., Aug. 29.—An embargo against the acceptance of perishable freight and live stock shipments for points east, effective tomorrow, was announced late today at the office of the Santa Fe Railway.

"WANT MY MAMA" SAID A LOST GIRL

There Were a Good Many More Who Said the Same Thing.

BUT POLICE WERE GOOD

Gave the "Lusted" Ones Biscuits and Candies to Comfort Them.

"I want my ma, I want my ma," sobbed a small girl about two years of age, who was the object of open-eyed and open-mouthed sympathy of a group of other "lusted kiddies" who found themselves within the shelter of the Exhibition police quarters yesterday afternoon.

Despite the ministrations of two or three of the blue-coated policemen and of a sweet-faced girl of about 11 years, who played the part of a "little mother," the lost child refused to be comforted, and it is difficult to say what would have been the result had not a sudden swirl of skirts among the crowd about the door and the cry of "There she is!" announced the coming of the mother of the crying babe.

The newcomer took the baby and without a word to the friends who had so kindly protected it, flung her arms about it, rushed into the open and was soon lost to view. "Not many like her," was the only comment made on the lack of gratitude. The speaker was the "little mother," whose tenderness to the role of foster parent to the lost child had forgotten to recognize.

There have been ninety-four in here already, said someone counting the register of lost children. "Yes, and there will be a hundred and fifty-four before the day is over," was the remark of the officer in charge.

Two small boys were perched on the new all-iron surveying the crowds waiting for the officer who was waiting for a mother. Inside a group of girls were being regaled on candies and biscuits by the big policeman who was playing the role of foster parent to all and sundry who were brought to their charge.

Do you have the lost and found purses here, too?" said one of two girls of about eleven years of age, who came up with a reporter, "standing by." "Sometimes," was the smiling reply. "Have you lost one?"

"Yes," said the girl timidly. "I lost a purse yesterday."

"There were four quarters," said the child, brightening up, for she began to think there might be a chance to regain her property.

And she was right. The officer took a little purse from a table, cut the twine with which it had been tied up for safe keeping by the officer who had carried him on duty and then, to the surprise of those looking on, four shining silver quarters rolled out upon the floor.

"I guess this is your," said the officer as he handed over the purse and contents. "The children were very delighted. Thanks were uttered in chorus as in the case when the greater gift had been restored.

The children who stray from those who have them in charge are always a feature of "Children's Day," but the worry resulting is now almost reduced to a minimum. The mothers feel sure that the little ones will turn up all right under the protection of the good-natured guardians of the law.

Most remarkable feature of the Fair is a brooch to a close, thrilled audience. This year the performance in front of the grand stand eclipses any spectacle ever before undertaken by the management of the Canadian National Exhibition.

"Profoundly Impressive Appeal"

In years past the Canadian National Exhibition has presented a brilliant night spectacle. This year it makes a profoundly impressive appeal. It portrays an Imperial recession. "The Federation of Empire"—so-called—with which each evening the Fair is a brooch to a close, thrilled audience. It is a prophetic allegory, a post-bellum dream, symbolizing British unity of purpose and endeavor the world round.

Beautiful Scene "Magnificent"

The large choir joined in making it all wonderfully impressive, while the famous House of Parliament was illuminated and presented a realistic and beautiful scene.—Telegram.

Never Before Equalled

Exhibition visitors have been accustomed to witnessing massive spectacles before the grand stand at the evening performances, they have come to the Fair from year to year expecting something big, something out of the ordinary, something more grand and more stirring than anything they could see elsewhere—and they have not been disappointed. They have looked for surprises and have found them, but never before in the thirty-seven Exhibitions that have been staged have they ever witnessed any display with so profound an impression as that which they witnessed last night.—The World.

FORESTERS CONVENE IN TEMPLE BUILDING

Three Hundred Delegates of Court of Central Ontario Met Yesterday.

About 300 delegates of the I.O.F., Court of Central Ontario, attended the triennial session yesterday at 2 p.m. in the Temple Building. The convention is being presided over by Bro. Clarence Bell, acting High Chief Ranger.

The reports of the several committees showed the order to be in a very prosperous and progressive condition, the work of the Orphans' Home and Consumptive Sanitarium showing much usefulness, and of great benefit to the order.

During the afternoon session Controller Cameron appeared before the meeting and extended a hearty welcome in behalf of the city, and afforded the delegates the freedom of the city.

Dr. D. H. Hunter, Sup. Counselor, addressed the convention, showing the finances to be in a healthy condition and the order 100 per cent. sound. The election of officers takes place today.

THURSDAY MORNING, AUGUST 31

Autocracy in Ontario Politics

Once more the News evades the real issue of autocracy in the appointment of Mr. Hearst as successor to Sir James Whitney. It now asserts that the cabinet chose Mr. Hearst, but the cabinet had no choice in the matter, and if the cabinet had been left to itself there would have been a party caucus.

Hon. Mr. Cochrane came down from Ottawa and settled the matter for the cabinet, and overrode any opposition. Had the Ontario Cabinet and the Ontario Conservative members been left to themselves the political situation would have taken a different turn.

The result, as things occurred, was due to autocratic methods and autocracy, and there was nothing in what occurred in modern British cabinet-making or premier-choosing to offer a parallel to it. What authority could enter the council chamber of the British Cabinet and impose its will upon that body? There is none.

The Arab Revolt. A proclamation issued by the Grand Sherif of Mecca explains to the Moslem world the revolt against the Turkish Government by the Arabian people.

Thousands of men are required to help in the work of harvesting the wheat crop. The task of transporting to the west this great army of workers will fall to the lot of the Canadian Pacific Railway.

Excursions from points in Ontario to Manitowish, Saskatchewan and Alberta will be run, and special trains operated making the trip in about thirty-six hours, without change or transfer.

Instant Relief for LIVER TROUBLE

No liver sufferer can fail to benefit from the use of Dr. Cassell's Instant Relief. Its action is natural as nature, sure as science. It is altogether different to ordinary liver stimulants and morning salts. These weaken the liver by forcing it, till it cannot work at all without the daily dose. Dr. Cassell's Instant Relief strengthens the liver and enables the system to cure itself. Then cure is lasting.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulence and windy aspects, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver trouble.

CORRESPONDENT VISITS NEWRAY VERY FAVORABLY IMPRESSED

In New Veins There is the Making of a Big Mine—Latest Find Close to Shaft.

By Special Correspondent. SCHUMACHER, Aug. 30.—Without regard for the vein which faulted and was lost, and for which the diamond drill is searching, Newray gives the visitor a very favorable impression. When the present owners took over they counted a great deal on reobscuring the vein from which the former owners took \$210,000 worth of gold. They still have, in prospect, this rich vein. But the three new bodies uncovered by simple surface work must, because of their evident value, be given first consideration now.

The new management are very fortunate. In these new veins they have the making of a really big mine. The ten-stamp mill bequeathed by the old owners will carry the property along to the big mill stage, and without the need of a period of profitless waiting that would otherwise be experienced. The shaft, that is all ready to be used, means no delay in reobscuring the vein from which the former owners took \$210,000 worth of gold. The ten-stamp mill bequeathed by the old owners will carry the property along to the big mill stage, and without the need of a period of profitless waiting that would otherwise be experienced.

NEWRAY AND DOME EXTENSION ADVANCED

Newray Reached New High Point—Dome Ex. Recovered Recent Loss.

The mining market at the Standard Stock Exchange yesterday was active and a firmer tone was noticeable throughout the Porcupine list. The features of strength in the gold stocks were Newray and Dome Extension, the former issue continuing its remarkable advance to still higher levels, while the latter advanced from its temporary weakness of the previous day, advancing to 37 1/2 on the close.

NEWRAY DEVELOPING NEW VEIN SYSTEM

Spectacular Results Being Obtained Causes Stir in Mining Camp.

The truly spectacular results being met with in the present plan of development at the Newray in Porcupine are clearly shown by the following wire received late yesterday afternoon from B. Willis of the Royal Bank Division, from his engineer in that camp: "The new vein discovered in surface work on Newray, about 50 feet from the mill, shows more free gold and spectacular values than any I have ever seen in Porcupine. Over a full width of 15 feet a cross-cutting vein was struck, which runs parallel to original vein which is important. Shaft being sunk on another vein, 20 feet wide, shows free gold of exceptional richness. In sampling the vein system proven for considerable length on surface, not a single blank was recorded. Camp all excitement over recent spectacular finds at Newray. Large tonnage of high-grade ore now assured. Undoubtedly big mine being developed."

RICH VEIN ENCOUNTERED AT WEST DOME CON.

New Ore Body, Unknown Previously, Struck in Last Drift.

Word has been received from the West Dome Consolidated that a new and important find has been made on the drift to the east on the three hundred foot level. The new vein is five feet wide and assays \$88.40 per ton. It was encountered only sixty feet from the shaft. The new vein was discovered a short time ago for the purpose of cutting the big high grade vein, which was cut at the five hundred feet from the surface. The new vein was struck on the level of the diamond drills a short time ago. The new vein just run into is an entirely new one, and had not been located before.

KIRKLAND LAKE STOCK LISTED AT STANDARD

Recent Strike Made at Property Looking Exceedingly Good.

The Kirkland Lake Gold Mining Co. stock was listed on the Standard Stock Exchange yesterday. The capital of the company is \$2,000,000, with a par value of \$1 per share. Twenty per cent was the initial bid for the stock. The property of this company is under development on the Beaver Mining Company, and latest reports from the camp have been very satisfactory. The recent strike made on the Kirkland Lake property at the 300-foot level is likely to prove an important one. One vein was struck which is six and one-half feet in width and assays over eight hundred dollars to the ton, while only a few feet from it another was encountered which showed much free gold.

METHODICAL MINING SHOWN AT HAYDEN

Huge Belt of Quartz and Schist Runs Across the Property.

By Special Correspondent. TIMMINS, Aug. 30.—If methodical, thorough mining counts, then the Hayden will accomplish big things in the way of showing the north that Porcupine gold exists elsewhere than in Tisdale Township. The Hayden property is 3 1/2 miles south of Timmins, in Ogdan Township, touching the Deloro line, and is made up of the camp by an automobile road, almost completely by the government. The outstanding feature is a huge belt of quartz and schist, a dyke, but the term might not be generally accepted because the belt, within the Hayden claims of 200 acres, is a quarter of a mile broad and a mile long. It resembles, from the surface, the dyke of the Hayden property, and is made up of quartz, most of it in well defined leads, glare out everywhere. Great areas have been schistized, always a welcome thing in this country. The "dyke" stands right out on the landscape. Atop it, at a high point where the Hollinger plant can be clearly seen across the country, are the buildings. A critical visitor could not but observe that great attention is paid to the Hayden property, and that economical considerations, provided they do not hamper, prevail always. The Haydens, father and son, are sticklers for method.

LABOR SCARCITY IS AFFECTING MINING

By Special Correspondent. TIMMINS, Aug. 30.—In common with the rest of the country, the mining camps are feeling the labor scarcity. Today muckers, and laborers particularly, are in great demand. Men of ability are presenting themselves in connection with the labor situation one notes that the French Canadian element is taking a prominent place in the gold camps. There are coming in from Quebec, French papers and literature are carried in all the news, drug and stationery stores, and "Postoffice" in every town and settlement from Cobalt north.

GANGS WORKING ON TRANSMISSION LINE

By Special Correspondent. BOSTON CREEK, Aug. 30.—Gangs of men are back of here clearing the right-of-way for Cobalt-Kirkland Lake transmission line. Poles are being erected and wires strung. The penalty contract calls for the delivery of 2000 h.p. by Nov. 30, and the contractors are rushing to make good.

NO MONEY TIGHTENING IN LOCAL CIRCLES

It is learned that there has been no tightening of any account in the money market here, and that brokers are not experiencing any difficulty, such as is usually noted at this period of the year in securing loans on good stock collateral. Bank deposits are increasing rapidly. Across the board all money is holding around 2 to 2 1/2 per cent, and is being compared with a high of 3 per cent a short time ago.

TALK OF LISTING PORCUPINE PREMIER

Stock Active on Boston Curb—Property South of Dome Lake.

By Special Correspondent. TIMMINS, Aug. 28.—There is talk up here that the stock of Porcupine Premier will be placed on the Standard Mining Exchange. This stock is a very active one on the Boston unlisted curb mart. The property is the old Standard, to the south of Dome Lake, and is on the Tisdale-Deloro line. It was capitalized and floated by a Boston company that by pretty good luck made a great reputation for itself in lead and zinc mining flotations. Three hundred thousand shares at \$5 were snapped up in a day by the company's clients. The property is being worked by A. S. Fuller & Co., who have the management; B. M. Walton is superintendent. They want to work last March. Now it is proposed to deepen the former 100-foot shaft to 500 feet. They have a six-drill compressor, a new power house, a 10x12 hoist, and plenty of well-directed enthusiasm. The old company stock to the porcupine the new management is cutting thru to the basal to look for big ore bodies, although the property has produced a brilliant free gold display. The new people are on to a 15-foot ore body which is said to run \$8 to \$10 a ton. It is hoped that the property will be in shape by next summer for a mill.

MINING MEN

By Special Correspondent. MONTREAL, Aug. 30.—Canada Steamships has the feature of today's market, selling up on a heavy trading. This company is reported to be having a most prosperous season, and as this year's earnings should be sufficient to place it in a strong position. There was a certain amount of mystery about today's movement in the stock, as there seems to be no immediate change to influence the market. Trading was well distributed thru the rest of list and the markets both here and in New York are holding out well in face of unfavorable strike news.

LONDON STOCK MARKET

LONDON, Aug. 30.—Money was in increased demand, and discount rates were quiet today. The net sales of treasury bills last week were \$2,000,000, making the total outstanding \$98,000,000. The stock market had a good undertone and maintained most of yesterday's gain. Business further expanded in shipping shares, while the decline in Russian exchange from 147 to 142 stimulated all the Russian securities. Business in other directions was meagre. American securities were quiet, awaiting the outcome of labor unrest.

SCHUMACHER FIND LOOKS PROMISING

Samples Taken From New Vein Liberally Impregnated With Free Gold.

By Special Correspondent. SCHUMACHER, August 30.—Some handsome samples of ore, liberally impregnated with free gold, are being taken out of Schumacher Mines' new vein, which was located behind the office and cut into from the 100-foot level of the mine. It is quite possible that this vein will average more than \$20, the first value placed upon it. The crosscut from the 200-foot level from which the ore for the mill will be taken from the vein is being pushed rapidly ahead to meet it. Development of this new vein is the first work the Schumacher Mine has done toward the south and is accepted in mining circles here as an evidence of the new spirit that today rules the mine, and is totally different from that of last winter. The existence of the vein was known long ago but for some reason was not worked. It is now being pushed rapidly ahead to meet it. Now also see the Schumacher breaking into virgin ground toward the north where the property, where a shaft is being sunk, is being pushed out to pick up two good veins that should be easily located. This new shaft is 1400 feet east of the main shaft. The idea is to connect the two by drifting along ore, and it may take six months to join up if the wiggling on one policy is closely adhered to. In the meantime some sort of temporary arrangement to bring the ore over to the mill will be installed. Probably a light aerial roadway will be put in, and some increase to tank capacity made, and the mill forced up to 160 tons. At least this is what the management will make a bid to do. It is no secret that if all circumstances are favorable spring will find the Schumacher mill being greatly enlarged. The cost of production is now \$5.50 a ton, which is about as low as any of the mines in camp. To date the values in ore have not been very high; the new ore bodies being tapped should leave, according to all calculations, an exceptionally high yield. The town of Schumacher has doubled itself since spring and now has about 1500 citizens. Houses are going up on every hand. Every lot in the site has been sold, but not all are occupied. The town is proving the business center of the Schumacher, McIntyre, Newray, and Hollinger Extension and Jupiter Mines, and is, of course, enjoying the new prosperity of all these mines.

STOCKS ACCUMULATED

R. E. Kemmerer in his market report says: "There has been a steady absorption of the Porcupine and Cobalt stocks by inside interests going on for some time past, and the operations of this week have been solely with a view to the accumulation of a large block of stock. While this is indicative of the absolute confidence which those who are in a position to judge have in the future of the mines, it also serves to greatly improve the technical position of the market. Steady accumulation in very strong hands and seldom, if ever before, has the Canadian mining market been in as strong a position to sustain a boom."

R. SIMPSON COMPANY MAKE BOND ISSUE

The Dominion Securities Corporation is offering \$600,000 of 6 per cent first mortgage serial gold bonds, due 1917-1921, of the Robert Simpson Company, Limited. The bonds are redeemable at 103 and interest on July 1, 1919, or any subsequent date thereafter on 90 days' notice. Principal and interest is payable in Toronto, Montreal and New York. The company is the western subsidiary, which will handle the mail order business in the West. The capital warehouse in Regina, west, and has its \$1,500,000 in preferred and \$2,500,000 in common stock of which \$1,500,000 is issued and \$1,500,000 of this is held by the parent company, which guarantees the bonds unconditionally.

MARK HARRIS ON MINES AND MINING

DO YOU KNOW THEM? Mr. Meant To has a comrade, And his name is Didn't Do. Have you ever changed to meet them? Did they ever call on you?

These two fellows live together In the house of Never Win, And I'm told it's haunted—haunted By the ghost of Might-have-been. SUSIE M. BEST.

There are thousands of investors who "meant to" buy Hollinger at \$3.50 a share a few years ago. They "meant to" buy McIntyre at 50c a share a few months ago, and today they "meant to" buy Newray, but somehow or other they put it off until too late.

Good intentions mean nothing unless you put them into effect and the only way to do a thing in these modern days is to do it now.

There is always a period in every investment that could aptly be described as the "psychological moment" inasmuch as it represents the time when the security should be purchased.

The "psychological moment" in Hollinger was when it sold at \$3.50 a share.

The "psychological moment" in McIntyre was when it sold at low 50c a share.

The psychological moment in every good investment is in the early stage of production or at the time when a property is about to pass from the developing stage into the producing period.

I believe today is the "psychological moment" to buy Newray and I further believe that it represents an opportunity that may never come again, even in such a sensational camp as Porcupine.

I am sure if you carefully tabulate the known facts about Newray you will soon understand why I so persistently recommend its purchase.

To me Newray has all of the essential elements that go to make a successful mine.

It has a good property, 320 acres located right in the Hollinger producing zone.

During the past six weeks it has been developed so aggressively that it is rapidly reaching the point where it may soon enter the producing class.

Newray has already uncovered a quantity of good milling ore, and as the property is fully equipped for handling the ore, it can start up its mill and begin producing on a few days' notice.

The fact that Newray has the ore and the mill to treat the ore gives it two important factors that few new companies can boast of.

Ordinarily it would mean months, and many months at that, for a new company to build a mill after finding the ore, so Newray occupies a unique position in having a full mining equipment already installed and paid for.

Newray has a good property with good ore and a capable, aggressive management, with ample capital behind them. Therefore it has all of the essential features to make a big successful mine.

Look over the entire list of mining investments, both here and in the United States, and see how many you can find that will compare in every way to Newray.

I can tell you in advance that you can't find many, for although there are scores of good propositions on the list, you will find that the majority lack one or more of the essentials that Newray possesses.

No man can say when this or that mine will pay a dividend, and I do not attempt to predict the time when Newray will be counted as a regular dividend payer, but I do say that the property has all the earmarks of a winner and that it is by far too good an opportunity—for big profits—to pass by without a thought.

Mining in the past ten years has offered the investor more genuine opportunities than any other industry, and the thousands who purchased Chino, Miami, Inspiration, Braden Copper, United Verde Extension, Nevada Consolidated or Utah in the early days are now receiving regular dividends, in many instances, equal to the full amount paid for the stock.

The psychological moment to purchase these securities has passed, never to return, but the psychological moment on some new issues is here, and the best one I know of is Newray.

The par value of Newray stock is one dollar, and as the present price is in the sixties, you can purchase it today at little over one-half of its par value, and as the company is capitalized at only \$1,000,000, the full par value does not represent a high figure for such a meritorious security.

A big producing mine in the Porcupine district is worth many millions. The McIntyre mine, at present market prices, is worth around \$5,000,000, while Hollinger went into the merger on a \$12,000,000 basis.

Newray may, or may not, develop into a McIntyre or a Hollinger, but if it should do so, it would mean a price of anywhere from \$5 to \$10 for each share of stock.

Mercantile Marine Issues Made New Record—Industrial Prosperity Unabated.

NEW YORK, Aug. 30.—The railway labor situation was again the all-absorbing feature of today's market, but prices suggested that Wall street still had confidence that a strike will be prevented. Quotations were mainly steady and in some instances material, lower at the opening, with complete recoveries and a few actual gains at midday.

Mercantile Marine issues made new records, the common advancing 3/4 points to 48 1/2, with an equal gain for the preferred at 104 5/8. Combined dealings in Marines amounted to about 175,000 shares, or 25 per cent. of the day's business.

A new maximum was established by Kelly-Springfield fire, which rose 1 1/4 to 77 1/2, while other shares of the same description were lifted 1/2 to almost 3 points. American Can common and preferred, Continental Can and the better-known fertilizers were in demand at temporary gains, shading off, however, with the balance of the list in the general realization of the first hour.

Rails and Steel Rally. Rails and U. S. Steel were lower by 1 to 1 1/2 points, but recovered some of their losses when selling pressure relaxed. Munitions and related stocks, in which offerings were relatively moderate, closed the session at irregular declines. Total sales amounted to 650,000 shares.

STEAMSHIP SHARES SCORE AN ADVANCE. Movement Sympathetic With Activity in Marine Stock on New York Exchange.

An upward movement in Steamship common was the only event that varied the monotony of an otherwise dull and inactive day at the Toronto exchange yesterday. The rise in steamships was concurrent with a similar movement in Mercantile Marine shares on Wall street, and apparently concerned for no other reason than that of sympathy. The stock advanced from 28 1/2 to 31 1/2 at the opening and the close, 1 1/2, with a widening of the high price registered. After Tuesday's break cement made a partial recovery, but the following on the upward swing was not important. Breakers were moderately active around 57, but the buying was not an influence on the price. The regular declaration of the Mackay and the addition of the new ship Sloughness to the trustee board was not a factor in the price of these shares. Except in the case of Steamships the market did not receive any real assistance from New York, and the close was only marked by dullness.

ARRARS WIPED OUT BY DOMINION STEEL. Directors Declare a Full Year's Dividend on Common and Preferred Stock.

MONTREAL, Aug. 30.—Directors of the Dominion Iron and Steel Company, Limited, at their meeting today authorized a dividend of seven per cent. on the ordinary basis, payable Oct. 1, which will wipe out the arrears that have accumulated and allow the company to start a clean sheet as far as the preferred dividend is concerned. The seven per cent. per annum disbursement was deferred after having been paid up to April 1, 1914, when the dividend due October of that year owing to the war. On April 1, 1916, when exactly two years' dividends had accumulated, or 14 per cent., the payments were resumed, 3 1/2 per cent. being distributed then, followed by 7 per cent. last July and now by 7 per cent. in October. The 7 per cent. to be sent out calls for an expenditure of \$250,000, and will make a total payment on account of dividends this year of \$475,000.
