GUARANTEE FUND, - - *$300,000.*

The Company's Plans, well and favorably known to the public, are:—Its Tontine and Semi-Tontine Investment Policies; its Commercial Plan of Life Policies; and its Reduced Rates for Partial Endowment Policies. The Tontine and Semi-Tontine Policies are issued at THE SAME PREMIUM RATES as its Ordinary Policies, and give the holder the advantage and security of Life Assurance, combined with a productive investment of his yearly premiums, more advantageous than Saving Bank Deposits.

The "Commerical Plan" of the NORTH AMERICAN places the boon of GUARANTEED LIFE ASSURANCE within the reach of all classes. Those who want the PROTECTION of Life Assurance pay in the Commerical Plan **THE LOWEST COST OF WARRANTED INSURANCE** yet offered to the Canadian Public. The regular cost to a person thirty-five years of age, per $1,000, averages about $14 per annum, the regular premiums being payable in quarterly instalments, on days named in the policies.

The Policies on this Plan are the same liberal character as all the Company's Policies

PREFACE.

In presenting to our patrons our Gazetteer and Directory of the Southern Division of the Grand Trunk Railway we hope it will meet with their approval. A personal canvass of the Cities, Towns and Villages on the entire line by men thoroughly versed in the business has been made, and no time or expense spared to make it a first class work in every respect. ALL HUMBUGS SET AT DEFIANCE.

The Masterpiece of holding the Largest Scrotal Hernia or RUPTURE, Under a sure guarantee, and not to be imposed on by catchpenny humbugs. Having made a new discovery in the shape of applying the Spiral Pad in cases of very large Scrotal Hernia, I hereby invite the suffering public to correspond with me, and have a day set for themselves to be at my office in Toronto, and I will guarantee to hold these Ruptures under any circumstances, or no charge. The final trial shall be :—I will sit on a common chair; I weigh 175 pounds; the patient shall lift me up in a bent position, which is the severest test known. As a proof that this offer is genuine and not thrown out to the public as a decoy duck, I do not ask a cent until the Truss has performed its work during the severest trial. Note,—This applies to hopeless cases that have tried all manner of trusses without succes.

Send 5c. stamp for book on Rupture and Human Frame; valuable information. Address, CHAS. CLUTHE, 118 King St. W., Toronto, Ont.

THE ONLY STEAM WASHER IN THE DOMINION.

THE LION
Steam Washer

CHAMPION OF THE WORLD

A Necessity in Every Household.

GOOD AGENTS WANTED EVERYWHERE.

☞Ladies, study your own interest, and buy the Lion, as it is the only machine in the market that washes altogether with steam. There is no turning of crank, or current of dirty water through the clothes to leave them spotted and streaked when they are dry. It is self-acting, requiring only a moderate fire and about two gallons of water to generate the steam. It washes all kinds of clothes perfectly without the aid of the wash-board, or any other that a child twelve years of age could not perform.

In washing with this machine, orby any other method, it is highly important to use the purest and best soap in the market, which, no doubt is the "PERfection" brand.

A Few Reasons why the Lion is the Best

1st—It washes altogether with Steam, which is universally acknowledged to be the greatest cleansing and bleaching agent known to man.

2nd—Its simplicity of construction, ease of operation, and its superiority of work places it far in advance of all other competitors.

3rd—It has given satisfaction where all other so-called Steam Washers have failed.

4th—It is made entirely of metal, and the best that can be bought, consequently its durability is beyond doubt.

5th—An ordinary washing can be done in a couple of hours with this machine that would require all day to do by the old method of rubbing on the board.

☞BE SURE AND USE PURE SOAP.

Cash Price, $6.50.

A free trial to any person desiring to buy a machine, and can be returned at our expense if not satisfactory, and money will be refunded, Sent to any address on these conditions, on receipt of price. Warranted for five years.

THE BRITISH AMERICAN BUSINESS COLLEGE

ARCADE, YONGE ST., TORONTO.

TO THE YOUNG MEN OF CANADA.

Get a business education; it will be invaluable should you ever desire to enter upon a mercantile career, and in conjunction with your classical knowledge will enhance your worth as a Teacher. A more thorough knowledge of accounts is much needed in our Public and Grammar Schools. Under any circumstances you will do well to prepare for the practical duties of life.

Attend the British American Business College; it is the leading commercial school in the Dominion. Its location is in the business and educational centre of this Province. Its staff of teachers and lecturers are thoroughly capable business men. The course of studies has been specially arranged to give a sound commercial training. Every subject in the course is taught by men who make these subjects specialties.

Arithmetic, Book-Keeping, Penmanship Correspondence Commmercial Law, Short-Hand and Type-Writing are each thoroughly taught. In addition, every student, after getting a complete course of training in Arithmetic and Theoretical Book-keeping, is required to pass a rigid examination, and, if found competent, is put in *actual* business, where he engages in *actual* transactions independently, buying selling, sending away and receiving goods on commission and joint account, taking and giving notes, banking, etc. In fact he enters a miniature business world; and under the direction of a competent tutor he must transact almost every kind of business, keeping his books for the same in the most modern style. Each in turn has to become a bank manager doing with his fellow students all kinds of business, just in the same way as in the real banks of the country. Many of the best accountants and book keepers in the Province have been trained in this institution. The President is thoroughly acquainted with the commerce of this country, and is doing much in aiding worthy students to places of trust.

Gold and Silver Medals are awarded annually to the students who have been the most successful in the different departments. Address

C. O'DEA,

Secretary

J. J. ULLEY'S Patent "Acme" Ash Sifter.

This cut showing a half barrel represents the method of using the ash sifter. It may also be used for anything that needs sifting into a common barrel, particularly when the process of sifting is likely to raise a dust which is nearly always the case, its principal use however is for sifting ashes from the unburnt coal which are invariably combined when taken out of the stove.

DIRECTIONS.

Procure an ordinary Flour or Sugar Barrel; cut three notches in the top edge to allow the Iron Cross-Bar and Wire Handle to drop into them clear of the Cover Rim, thus preventing all dust, and making one of the easiest working and most durable Ash Sifters in the market.

The attention of the Trade generally and of Consumers in particular is called to the following reasons for buying and using J. J. ULLEYS "ACME" ASH SIFTER:

1st. The body of the Sifter is formed with a heavy Oak Rim, both inside and outside, between which the Wire Cloth is securely fastened, making it almost indestructible.

2nd. It is made almost the size of any ordinary Barrel top, allowing only room enough for a good shake, thereby giving greater scope for sifting a larger quantity of ashes at one time.

3rd. The Meshes of the Wire Clothforming the bottom are made longer one way than the other, and the longest way of the Meshes are placed in the same direction as the handle, which cause the ashes to pass through much more quickly, thus insuring a saving of a greater quantity of Cinders.

4th. The Iron Cross Bar which suspends the Sifter over the top of the Barrel forms a handle, by which the Sifter can be handled much more readily in taking it on or off the Barrel than any other Barrel Sifter in use.

☞ For sale at all Leading Retail Hardware and House furnishing Stores in this city and throughout the Dominion.

I also keep a full and complete stock of the ordinary *Square Ash Sifters* used with a long handle, also *Wire Cloth* and *Wire Goods* of every description.

Everything that can be made of Wire made to order.

Estimates for *Wire Cloth, Wire Goods* and *Wire Window Guards* furnished on application.

50 YEARS' ESTABLISHED.

H. B. WARREN & CO.,

SCALE MANUFACTURERS,

Successors to the inventor and patentee of Platform Scales in Canada.

Patented and Established A.D.1834 by the late Otis Warren.

We claim to be the oldest manufacturers of Platform Scales in Canada, dating back to their invention. The Patent is on view at our office.

As other Canadian Makers have claimed to be the first Manufacturers of Platform Scales in Canada, we wish to inform the Public that we can establish our priority, by the Original patent, which now hangs in our office, and may be seen by any who wish.

We Claim to Make the Best Scales in Canada.

We received the Two First Prizes for Best Platform and Counter Scales, at Dominion Exhibition, 1884. We repair all makes of Scales, and attend to their inspection.

We manufacture scales of every description, from a Letter to a Hay or Coal Scale.

Having fitted up our factory with the most approved machinery and tools, especially adapted to the work, we are enabled to make the best work, at from 25 to 30 per cent. less in price than the best American makers, of equal quality. We use the best material, employ the most skilled labor, and spare no pains in their adjustment.

When you consider the immense value of goods passing over a scale in one year, it may easily be seen that the loss occasioned by using a poor scale would more than pay for a good article. Send for our new illustrated price list.

WHITE BRONZE MONUMENTS.

The White Bronze Monument Company, of St. Thomas, Ont., are now reaping the harvest of success accruing from the excellence and beauty of their products. Ever since the inception of this new industry their monuments and ornamental goods have been greatly admired, but some were sceptical as to their permanence in our severe and changeable climate, and now that it has been clearly proven that the material is unaffected by frost or sun or storm, and even improves by age, orders are flowing in from the remotest parts of the Dominion.

Montreal, Que., Nov. 15, '83. I hereby certify that I have analysed and tested the material called "White Bronze," manufactured for monumental purposes by the St. Thomas White Bronze Monument Co., and I find it composed, as represented, of *Refined Metallic Zinc*, of a very Superior quality to sheet zinc, and *almost absolutely pure*. Its great durability under all exposure to weather and storm is therefore fully assured by its high quality. And it will resist decay and further oxidation when its surface is once coated. It is then more durable than stone, and will not lose its handsome appearance from generation to generation. I know of no other material which is equally capable of combining elegance of form, beauty of surface and *indefinite durability*. (Signed) J. BAKER EDWARDS, P. St., D., D.C.L.

These Monuments are practically indestructible, and for beauty of design cannot be surpassed. Designs and prices will be furnished by the County Agents' or by applying to the Company at St. Thomas.

☞ **Sole right of manufacture for the Dominion.**
